### COUNT TERAUCHI DEAD IN JAPAN

Former Premier of Country and One of Her Most Famous Warrior Statesmen.

Tokio, Oct. 21.—Field Marshal Count Saito Terauchi, former premier of Japan, died yesterday.

One of the most famous warrior-statesmen of modern Japan, Field Marshal Count Saito Terauchi's notable achievements included his solution of the problem of national defence for Japan and his success in annexing Korea and the assimilation of the Korean people into the Japanese empire during his administration as governor-general of that colony. The results he attained in Korea had marked him as a commanding figure and one to be reckoned with in shaping the destinies of the Japanese empire.

He was called by the emperor to be premier in the course of a passionate struggle between the forces of representative government and those of the Japanese bureaucracy. Count Terauchi was a member of

the famous Choshu clan, from which have sprung renowned leaders of the Japanese army. He was born on February 5, 1852, at Nagate, and was the son of a Samurai. He distinguished himself, as a young soldier of the Imperial Guards Regiment, in putting down Saigo's rebellion, in which service he was wounded in the right arm as a result of which that arm thereafter was useless.

Count Terauchi was prime minister of Japan from October, 1916, to September, 1918, when the cabinet which he headed resigned, in putting down the rice riots brought to the front the charge that the government was responsible in the measure that it had failed to have suitable economic legislation enacted. The Terauchi cabinet was succeeded by the present ministry with Takashi Hara as premier.

It was stated that the business of the department had increased by leaps and bounds during the past year. The increase in the straight supply of electricity had increased by thirty per cent., and the indications are that next year's increase would be even larger.

### Montreal Loses Half Million Yearly if G.T.R. is Nationalized

Montreal, Oct. 21.—The city of Montreal stands to lose \$500,000 per annum in taxes if the government takes over the Grand Trunk, D. R. Decarrie, chairman of the Montreal administrative commission, announced this morning. Mr. Decarrie points out that the same exemption would apply to Grand Trunk property in other cities.

### SMUGGLERS TUNNEL ON AUSTRIAN BORDER

Geneva, Oct. 21.—A smuggler's tunnel, 700 yards long, under the Swiss-Austrian border, has been found, it is reported, by the police at Kresszintzen, a small town at the lower end of Lake Constance. A shorter tunnel under the border was recently found there. The newly-discovered tunnel leads from an ancient Augustine abbey, in which the smugglers made an Aladdin's cave. They are supposed to have been operating here for several years, handling contraband goods. The smugglers were given a start by finding a forgotten underground passage extending from the abbey, which they prolonged to bring it out well beyond the Austrian frontier.

CAPITAL AND LABOR AGAIN DEADLOCKED; UNABLE TO AGREE Steel Strike and Collective Bargaining Motions Defeated in Industrial Conference.

Washington, Oct. 21.—After a day of uncertainty, during which President Wilson sent to Secretary Lane, chairman, a message of conciliation to be used as a "last resort," the national industrial conference tonight cleaned its slate by rejecting all collective bargaining resolutions as well as the labor proposal for intervention in the steel strike.

The public works committee on the original collective bargaining and steel strike resolutions, also the declaration on collective bargaining was proposed by the public delegates. The vote on the original declaration, the employers favoring it, and two new amendments by Thomas L. Chadbourne, chairman of the conference's central committee, met defeat. Only the employers favored the substitute, and labor and capital united in their opposition to the amendments.

When the conference reconvenes tomorrow morning it will be in practically the same position as at the opening of the group here in the session tonight, Secretary Lane declared that the conference "had produced nothing" and advised it to take a new start by adjourning for several days while a co-ordinating committee of not more than six members frames a program of action.

Labor is Disheartened. Defeated on every point and having lost the support of the public group which heretofore has been on the side of the workers, the labor delegates left the conference hall tonight disheartened and feeling that they had gained little that could be gained by further meetings. However, a meeting of the group here on the morning of 9 o'clock tomorrow morning and individual members will be bound by action taken at that time.

Should labor show disposition to bolt the conference, Chairman Lane will undoubtedly use the president's letter in an effort to avert the crisis. Reading of the letter was said to be entirely discretionary with the chairman, who declared that he would not produce it unless the situation became acute.

PREDICT A UNION LABOR AND U. F. O. Mayor Macbride, M. L. A., Personally Favors Beck as Coalition Leader.

Special to The Toronto World. Brantford, Oct. 21.—The greatest speculation in Brantford today where ever men gathered together, was of the possible outcome of the formation of a new government. The most interesting of the reports of the day was that Mayor Macbride, M. L. A., had been asked to lead the U. F. O. party, who are in the U. F. O. and Labor joining forces. If the U. F. O. party would assuredly Mayor Macbride would be in the U. F. O. party.

VON DER GOLTZ FAVORS AIM OF BERMONDT Berlin, Oct. 21.—General Von Der Goltz, late commander of the German troops in the Baltic provinces, stated in an interview in The Boersens Zeitung that he favored the undertaking of the Baltic states because the Baltic states were strongly infected with Bolshevism, which was likely to spread through East Prussia if the government did not cut off its access.

EXPECTS KRONSTADT TO HALT DOWN FLAG

Mr. McKenzie said Canada had not the means to embark on such a financial outlay as would be placed in the hands of a long time ago. The total annual amount for which the Grand Trunk was liable annually, he estimated, was \$47,000,000.

HARD TO PROVISION CAPTURED PETROGRAD

Paris, Oct. 21.—The provisioning of Petrograd, in case it falls, is one of the great problems confronting the inter-allied economic experts working with the peace conference. On Oct. 1 the Bolshevik government issued 750,000 bread cards in Petrograd proper, and it is estimated, the same number in the districts surrounding the city.

LIBERALS SUBMIT MOTION TO REFER

Mr. Devlin, continuing the debate on the Grand Trunk, urged the government to transfer the Grand Trunk rather than investors in England. There had been no clear statement what the cost would be, but Canada would have to pay annual interest on the charges of \$18,000,000. Within the next three years current liabilities were falling due amounting to \$75,000,000.

MOTORISTS' COLOR ORGY.

The release of petrol has turned London into a city of gay colors returning soldiers tell us. Taxis and motor cars seem to be all of one color, and the soldiers, vehicles in jazz music, pale yellow, blue, purple, green, red, and black stripes, are to be seen everywhere. It seems to be unpopular among tax and private car owners, and many of them have turned to the motor.

What Happened in London.

Some people profess to think that the defeat of Sir Adam Beck at the polls in London was a mysterious and inexplicable affair. The World had been giving notice for some time past that the Hearst administration was out for Sir Adam's scalp.

A Shock

colored report went in to Sir William Hearst to lure him to destruction and wreck the party.

A Mistaken Suggestion.

A suggestion was made last night in a late edition of The Star, that devoted admirer, adherent and supporter of Sir William Hearst, that Sir Adam Beck be given a seat in Northeast Toronto, and be adopted as the leader of the Conservative party.

What would Sir Adam Beck do as leader of the rump of the Conservative party? The tenure of office of opposition leaders is somewhat precarious, and places in them are several avoidable.

Up to this morning the U. F. O. has not been, strictly speaking, a political organization. The election returns have afforded some basis for the opinion among a section of the public that the farmers went into the election contest with a perfect political fighting machine.

After Monday's performance what do you bet that the city council does not have a car line running on Mount Pleasant road before Jan. 1?

Undertaker Atkinson: When I was first summoned I naturally thought it was only that man Dewart.

POLITICAL NOTES

Considerable theorizing in constitutional usage is being indulged in by way of political exercises after the election. For the present all that is required is to keep the facts in mind.

SIDELIGHTS ON THE ELECTION

BULGARIAN GAVE ALL FOR CANADA

Interned as Hostile Alien After Fighting in France for Empire.

In a letter to W. E. Turley, provincial secretary of the G.W.V.A., D. Joroff, an unfortunally interned alien, who is at present detained at the Kapuskasing internment camp, relates a remarkable story.

"I am a Bulgarian by birth, came over to Canada in 1911, with the intention of settling down in 1912 when the war broke out, without any hesitation I answered the country's call for active service.

"From there we were transferred to Salisbury Plain, where we had about six months' military training. Then I, with several other soldiers, was attached to the 8th Battalion, which had already gone to France, under which I saw six months' service in the front line trenches.

"My arrest was made in Montreal on the 8th of November, 1917, by a detective, who stopped me in the street absolutely without reason, wanting to know my nationality, where I was born, and to whom I was related.

"The reason it was not considered hitherto was because the G.W.V.A. felt that it would be unfair to take that step before all the boys came home," said Mr. Turley.

"The colors of the 124th (Pais) Battalion were held in the Church of the Redeemer on Bloor street and Avenue road, on Sunday next, at 4 p.m.

A parade of all former members of the battalion will be held at the Armistice at 3.15 to escort the colors to the church. The colors will be carried by Lieut. L. B. Duckworth and C. F. James. The service at the church will be conducted by Rev. C. J. James, the rector.

### BURROUGHS MACHINES AND EXPERTS' RECORD

Mammoth Election Returns Are Handled With Speed, Skill and Efficiency at City Hall.

The heaviest vote in the history of Ontario provincial elections was polled Monday and the vote in Toronto surpassed all records. Few people realize the tremendous amount of work entailed in the collecting of returns to a central exchange, whence the results are telephoned to the various newspaper offices and flashed upon the screens, to inform waiting thousands how the fight is progressing. And these returns are flashed upon screens in other parts of the city at various depots organized by the city newspapers, in addition to the down-town and central offices.

**Wonderful Demonstration.** The hub of the whole organization for informing the citizens of the progress of the voting Monday was the Central Exchange at the city hall. And the reason underlying the wonderful success in tabulating the returns early, and arranging them by sub-divisions for publication yesterday was the magnificent co-operation of the Burroughs Adding Machine of Canada, Ltd., and their staff of operating experts.

About a week ago representatives of the various newspapers gathered together in conference to arrange a central collecting agency so that the public in Toronto would be served as quickly as any citizens anywhere on this continent. The representatives asked the co-operation of the management of the Burroughs Adding Machine of Canada, Ltd., and their staff of operating experts.

Surmounted All Difficulties. The staff surmounted unusual and unforeseen difficulties. Early last week it was estimated from the proclamations that there would be about 370 polling sub-divisions in the city. Before Saturday arrived it was found the vote would be so heavy that the polling booths would number 1325. This is by far the greatest number of polling places ever used in Toronto in any election. In a civic election the number amounts to about 500. In addition to the fact that both women and men over 21 years of age were entitled to vote for the first time, there were four questions on the referendum to vote on. Each question was separate and distinct, as the returns showed later, many electors voting yes and no on the same ballot. All this added to the work of the central exchange, and when 6 o'clock arrived Monday night, the job had grown to stupendous proportions. Every polling booth had to be covered by a messenger, who had printed forms for the deputy returning officer to fill in. This meant that 1325 places had to be visited by an army of messengers numbering between 350 and 400. These messengers, as soon as they got the first returns of the voting for candidates, were instructed to phone in the results immediately across special lines to the city hall.

**City Hall Busy Scene.** In the main corridor of the city hall, on the first floor, was a battery of eighteen Burroughs adding machines. At each machine was an expert female operator. To the right of this battery were four expert calculators, with calculating machines almost human in ingenuity. Close by these were eight young women, who finally checked the returns as they were confirmed by the messengers' returns. Not far from James' street entrance a corp of men at tables checked the returns as they came in, and two cashiers paid off the messengers as they reported. First, the messengers phoned in the returns, and later brought in the printed forms with a confirmation of the results signed by the deputy returning officer. In the various offices to the right and left of the corridor, a number of men, each with special telephones, took the returns from the messengers phoning from every part of the city.

**Every Item Double-Checked.** All the returns, whether phoned in or brought in, had to first pass the checkers to the south of the battery of machines. These men had lists of all the subdivisions, and marked off each polling booth as the return arrived. From this place the returns went to the adding machines, where operators added up from the forms, the votes for the various candidates and the referendum vote. At various stages calculations were made and bulletins issued, which were taken to a staff of newspapermen in a room close by, and they in turn phoned the returns into newspaper offices, where the results were flashed upon the screens. The city hall was a scene of the greatest activity. The whole organization was supervised by Messrs. Erskine and Crowley, and many other officials served on the staff. The success of the work is a great tribute to the painstaking and patient application of the members of the staff of the Burroughs firm, and a triumph of efficiency for the expert operators and the splendid machines.

**A Tremendous Vote.** An illustration of the immensity of the work is a comparison between the majority vote and the referendum vote. The greatest vote cast for mayor in Toronto was about 25,000. And this was considered a big total to handle. Yesterday there were four questions on the referendum and the vote ran all the way from 7,000 to over 90,000 on a question.

Three times as many votes were cast for each question as the biggest total ever cast for mayor. This was in addition to all the candidates' ballots, which were very heavy also.

Monday night's great work was the crowning of the plan which was begun by the two managers the previous Tuesday, and every member of the staff worked with a will in enthusiasm which made possible the wonderful demonstration of efficiency. All the operators of the machines during the tabulating of the results were young women.

ONE EVERY MINUTE - By Billy Scott

I WAS draped in the front garden this morning waiting for the plumber to come and open my new bottle of Mary Garden when a kid-glove John vamps up to me.

"Your name's Selina Swan, I take it?" "Selina," I called on the man, whose face I took my picture, said I had lots of "well, everything."

"My Gawd! what for?" "Don't get your goat, my fillum grand, and they're all after your face. The first production is going to be 'The Chicken and the Worm,' and they want you to be."

"No, the Worm!" "I'll!"

CORN BREAKS WHEN HOG PRICES TUMBLE

Hogs Glut Chicago Market—Oats and Provisions Sell Lower.

Chicago, Oct. 21.—Severe breaks in the value of hogs more than outweighed all other factors in the corn market today. The result was a heavy close, 1 1/4 to 2 1/4 net lower, with December at 122 1/2 to 123 1/2, and May at 121 1/2 to 122 1/2. Oats finished 1/4 to 1/2 and 3/4 off, and provisions unchanged to 90c down.

Notwithstanding that corn opened sharply higher, sentiment quickly reversed itself. The upturn at the start was due entirely to announcement that on Oct. 25 the railroad administration would restore the individual permit system for the movement of grain. Thru this change of methods, the arrivals of corn at primary markets were expected to be curtailed. Knowledge, however, that under the weight of excessive supplies, the hog market was undergoing a big tumble took the lead as the dominating influence in regard to corn, especially after word came that hog prices in some cases had dropped \$1 per cwt. within 24 hours, and that at least one here would be left over tonight unsold.

There were also reports that owing to a packing house strike at Indianapolis hogs at Indiana points were being offered at unusually low figures. Oats weakened with corn. Provisions reflected the collapse of the hog market.

ON CHICAGO MARKET Tommerson, Forwood & Co. received the following Chicago wire from Thomson, McKinnon & Co. Corn—The expected movement of the new crop, which materially reduced the demand for the current arrivals of old and for the deferred deliveries of new crop. Further than this, the absence of demand has brought about a dragging cash market, values closing heavy, fully two and one-half cents lower than yesterday. Likewise sentiment has been affected by radical weakness in the hog market. The fact that the new movement of the new crop to terminal markets will be permitted, the restriction of the permit system was forgotten after an early rush of short covering. It seems to us that this restriction in the expected movement and the fact that every preference will be given to wheat should be of considerable importance in determining the price of corn for December delivery.

Hughes, Harcourt & Co., 307 Royal Bank building, received the following wire at the close of the Chicago market yesterday: Corn—The farmers' offerings are not showing any perceptible increase, and it is said that farmers in Iowa are offering as high as 12c per bushel to corn huskers and having difficulty in getting men. This is merely an illustration of the cost of production to the farmers to such an extent that he can ill afford to part with his product at current prices.

Winnipeg Grain Market. Winnipeg, Oct. 21.—Today's oats closed 1/4c lower for October, 1/2c lower for December, and 3/4c lower for May. Barley—October, 1 1/2c lower for October, 1 1/2c lower for December, and 1 1/2c lower for May. Flax closed lower for October, 1/4c lower for November, and 1/2c lower for December and May.

LIVE STOCK MARKET. With a light run, about 600 in all, of fresh cattle, coupled with Monday's leftovers, which must have run up around 1,000 cattle, trade in the exchange was moderately active, with prices, if anything, possibly a shade firmer.

Calves—16c to 13c per lb. Rice & Whaley sold the following live stock yesterday: Butchers—1, 810 lbs., at \$6; 11, 890 lbs., \$9; 4, 3070 lbs., \$8.50; 1, 700 lbs., \$8; 12, 1510 lbs., \$8.25; 7, 970 lbs., \$7.50; 3, 2250 lbs., \$7.25; 6, 4830 lbs., \$8.25; 21, 20180 lbs., \$9.85; 2, 1760 lbs., \$8; 14, 10,780 lbs., at \$7.60.

Your Country's "Promise to Pay"

WHEN you buy Victory Bonds you hold Canada's solemn promise to repay you their full face value in money at the time stipulated in the bond with interest every six months.

THEREFORE, in point of security, Canada's Victory Bonds are in the first rank of the world's investments because—

—the principal and interest are as certain of payment as anything can be—backed by the whole assets of Canada—the pledge of honour of Her people—and all the assets of all the people of Canada.

—Victory Bonds are also the most "liquid" form of investment. Without trouble or delay they can be converted into cash at any time.

—Victory Bonds pay a good rate of interest—more than any other investment having equal security—nearly twice the interest paid by Savings Banks.

FOR the investment of estate funds, trust funds, sinking funds and all other money which by law or other necessity must be placed only in unquestioned securities, Canada's Victory Bonds are the premier investment.

EXECUTORS, trustees, municipalities, public service corporations, officers of lodges and

fraternal societies, and all others with trust funds to invest, can further their own and their country's interest by investing their funds in Victory Bonds.

AND because of the good rate of interest which Victory Bonds pay, together with the supreme security behind them, there is every reason to believe that Canada's Victory Bonds, 1919, will increase in value in the open market, as have Victory Bonds of all previous issues.

BUT Victory Bonds, 1919, are much more than a sound money investment. They are vital to the continued prosperity of the country. The proceeds of the Victory Loan, 1919, will furnish the means of retaining our great export business, by bringing to Canada foreign orders for agricultural and industrial products, which mean the continued prosperity of every citizen. The Victory Loan, 1919, will also enable Canada to carry out her necessary plans of demobilization—fulfill her pledges to her fighting forces—and to readjust the country from War to Peace conditions.
