THE TABERNACLE IS SAVED.

Toronto Conference Yesterday Raised the Requisite \$10,000.

Dr. Parker Had to Modify His Denunciation of Spain as "The Tyrannous Vampire of Europe" - Pastoral Address With "Very Little Religion" - Representatives to the General Conference - Plebiscite Question.

The morning session of the Conference began at 9 o'clock. Mr. John T. Moore presented a memorial concerning the superannuation fund, by which the amount to be raised is put into the estimate and made a first claim on the circuit. It was sent on to the General Conference.

The "antiquated, ambiguous and otherwise unsatisfactory" schedules now in use were recommended to be changed.

It was suggested that the end of a conference year be May 1.

Mr. W. T. H. Preston read a memorial from the laymen, asking that all accounts of General Conference funds should be audited by paid auditors.

Dr. Parker read a memorial, asking that women be included as well as men in the representation of the annual Conference.

Dr. Potts: Refer it to the Temperance Committee, I thought.

Rev. Mr. Joffe, President of the Bay of Quinte Conference, was presented and spoke briefly.

Broadway Tabernacle Saved. The most interesting and unique event of the whole Conference occurred when Mr. John T. Moore presented the report of the committee appointed to look into the financial difficulties of the Tabernacle.

He reported the following subscriptions: Chas. D. Massey \$1000, Hon. G. A. Cox \$500, J. W. Flavell \$500, Timothy Eaton \$500.

In the private canvass by the trustees the following amounts were secured: Mrs. H. A. Massey \$100, Mrs. Massey-Trehear \$100, J. M. Treble \$100, Edward Leadley \$100.

The committee recommended the subscription list being handed around in the Conference, and among the friends of the church in the city.

Rev. Dr. Stone then appeared as the Rothschild of the Conference to raise the required amount. He said there had already been received since Conference began:

Richard Philip \$200, E. A. Ames \$100, William Pearson \$100, Alfred Mason \$50, J. F. Junkin \$25, W. H. Orr \$25.

But \$810 more was needed to pay off the \$10,000 due on July 1. He asked if there was anyone who would take the last \$300. There was a silence that could be cut.

Dr. Stone said encouragingly: "Don't let a coldness come over the meeting," and told a negro story to illustrate his point.

When M. H. Peterson gave his subscription, the financial minister said: "God bless him! I've known Mr. Peterson from his boyhood. It's just what I expected of him."

The Doctor declared he had a wife and nine children, but he could spare \$5. When there remained but \$300 to be raised, the promoter of the giving asked: "Who will take the balance?" Dr. Henderson said he would give \$15.

While subscriptions for a time took place, the speaker said that "there are no pockets in abundance." Mr. R. F. Juster's \$25 drew, "He's a just 'un," from the Doctor. There remained \$170, and this was taken by Mr. Ed. Curney, amid great applause.

Conferece Prizes. Rev. M. R. Chapman, B. A., and Rev. R. S. E. Lurgi, B. A., winners of the first and second prizes respectively, in Yale lectures on Sunday schools, and Rev. A. McNell, winner of the first prize in the Conference course, were introduced by Rev. George Washington, and presented with their prizes. Rev. C. Beifry, winner of the second prize in the Conference course, was not present.

Tyrannous Vampire of Europe. Dr. Parker read the pastoral address, which aroused much animated discussion. He declared the Cuban war displayed "the heroic western man wrestling a trampled nation from the dying clutch of the tyrannous vampire of Europe." He also referred to the women graduates of Victoria as "young lady graduates." To the latter expression Prof. Badgley took exception.

Rev. R. N. Burns wanted all reference to the Cuban war eliminated. Dr. Sutherland thought it was not wise to refer to war in a pastoral address. Rev. George Webber hoped that the United States would deliver Cuba from wrong forever.

The address was referred back to the committee for reconstruction.

To the General Conference. At precisely 2 p.m. Rev. Mr. Bowles presented the scrutineers' report, declaring A. E. Chambers, Alex. Langford, M. I. Pearson, Dr. S. D. Chown, Dr. Briggs, Dr. Sutherland, J. E. Lancelotti, Alfred Brown, Dr. Potts, Dr. Stone, Dr. Dewar, Dr. German, H. S. Matthews, Dr. Parker, elected on the first ballot, as representatives to the General Conference.

Another ballot to elect the remaining eight representatives resulted in Rev. G. J. Bishop's election. On the third ballot, C. E. Manning, Prof. Wallace, J. H. Rankin and Dr. Henderson were elected.

On the fourth ballot, A. C. Drews, H. M. Manning, J. F. Oakley were elected. Rev. James Allen was elected an alternate representative. Drs. Withrow and Towell were elected reserve representatives.

Very Little Religion. Dr. Parker asked again for his pastoral address, said he had cut out the rhetoric of his address concerning the United States, and in place of "sweet girl graduates" he had put "young lady graduates." He objected to taking out the term "vampire," as applied to Spain, yet, at the request of the conference had written "the tyrant of Europe."

Dr. Burns said the address contained very little religion. The address was, nevertheless, adopted.

The balloting for representatives to the General Conference took place all afternoon. During the interval caused by counting ballots, several of the ministers spoke upon matters of more or less importance to the

church. Dr. Griffin, always witty, told of his recent trip to Baltimore. Rev. Dr. Hunter of Montreal expressed his pleasure at seeing his old friends again. The laymen elected.

These were: Dr. Maclaren, Hon. E. J. Davis, Senator Cox, Sheriff Bettes, Bruce-bridge, Edward Gurney, W. P. St. John, J. T. Moore, H. L. Loring, Coldwater, Sheriff Bowles, Orangeville, Major Campbell, Collingwood, Dr. Allen, Owen Sound, R. A. Switzer, Toronto; L. G. Jackson, Newmarket; Sheriff Drury, Crown Hill; Dr. Willmott, Joseph Tait, W. T. R. Preston, N. W. Howell, H. Brown, Toronto; Sheriff Armstrong, Parry Sound; Col. Jones, D. Graham, Inglewood; D. Stoffer, Stouffville; T. N. Scribner, William Mills and Dr. Watson, Toronto.

Dr. Langford was elected to the General Conference Meeting.

The Temperance Meeting. This was the last night with Dr. Sutherland in the chair.

The report of the Committee on Temperance was presented by W. T. H. Preston. The conference was said to be of the opinion that "the right and most effective legislative remedy for the innumerable evils resulting from the liquor traffic is to be found in the enactment and enforcement of a law prohibiting the importation, manufacture and sale of intoxicating liquors for beverage purposes."

The conference expressed pleasure at the Plebiscite Act, passed by the Dominion Government.

The ministers and people of the Methodist Church were urged to stimulate public opinion in favor of prohibition, and to lay aside all party affiliations. Each church was recommended to form a temperance committee, and a standing committee of conference on temperance was appointed.

Appointment to the Dominion Alliance. Dr. Potts and Parker, and Messrs. John T. Moore and J. R. L. Starr, was sanctioned. The report expressed sorrow at the death of the late Miss Willard, and praised the work of the W.C.T.U.

The canteen system, as in vogue at Camp Niagara, was objected to, and the general conference was asked to solicit Hon. Dr. Borden to put a stop to it.

The Plebiscite. Dr. Burns asked would the carrying of the plebiscite be productive of good? Would prohibitive legislation result? Would it be the dropping of party lines, and standing out for prohibition. "Unless we have Christian character crystallized into public opinion, it would be useless to have prohibition."

Rev. John Coburn took exception to the question of a temperance sentiment in Ontario. It was already formed. He objected strenuously to the expression "party affiliation," because it intimated that Conservatives might be inclined to oppose a plan originated by Reformers.

Rev. Mr. Morgan announced himself as a prohibitionist, but did not believe prohibition legislation would follow the carrying of the plebiscite. There were too many temperance men in principle.

Dr. Dewar claimed that the duty of the hour was to arouse public sentiment.

Doubts as to Prohibitory Law. Rev. E. S. Howe made the speech of the evening when he said that too much evidence should not be placed in a prohibitory measure. You could not reform a man by act of Parliament. The Kingdom of God was never legislated into the heart of man. "True reform can be purchased only by sacrifice."

He impressed upon his hearers that the results of a prohibitory measure should be viewed by the temperance people. If liquor-dealers were to be prevented from plying their trade because they sold an article injurious to their neighbors, the temperance people must be something besides sinners.

Dr. Sutherland said he regretted that the Dominion Parliament had not given to the country a prohibitory measure instead of the present plebiscite. "The holding of plebiscite after plebiscite," "makes me tired," he continued. "For fifteen years public opinion has been ripe for prohibition, but political opinion has been slow-it has been rotten!"

Rev. Mr. Herridge said he was sorry that the Methodists were not a unit on prohibition, but that this state of affairs was a fact.

The report carried.

The report of the class-leaders was read by W. T. H. Preston. It stated the conference's great appreciation of the class-meeting and deprecated any action working against them. It recommended pastors preaching four sermons a year upon the class meeting, and advocated the organization of class-leaders' conventions in each circuit.

It was suggested that a class-leaders' conference should be made a feature of the annual conference. It proposed to add a clause to the pledge of active membership of Epworth Leagues, by which the signer would be bound to join a class meeting at the house of the class-leader.

Joseph Tait thought that ministers should not be told what to preach. There was too much advertisement of the good part of the house, and too much of a particular function of the church afforded. "Whatever is helpful we find it out, and so go and get the benefit of it."

Prof. Badgley agreed with Bro. Tait in the statement that the multiplication of rules took play out of a man and left him a mere machine. He thought the church member to-day was under more statutory burdens than the Jews in bondage were.

NOW IT IS THE ANGLICANS.

Lively Debate at the First Session of the Synod.

Should the Bishop Be Given Power to Remove Undesirable Rectors? - Various Views and Answering Arguments - Mission Funds Increasing.

Once more the Synod of the Diocese of Toronto is in session, and St. James' school-house is thronged with clerics and lay delegates, whose deliberations may affect the destinies of the Anglican Church for all generations to come.

The refined beauty of the prayer book is always reflected in the faces of any gathering of the Anglican clergy, but the session which opened yesterday was as conspicuous for its men of brain and muscle.

The synod chamber seemed filled with men as big in stature as Bishop Sullivan or Dr. Langtry, and in oratory Prof. Clark and Dr. Parkin by no means monopolized the cheering.

The Bishop's Review. The chief feature of the morning was of course the able and exhaustive address of Bishop Sweatman. It was not altogether a hopeful one, as many of the church funds are yet in an unsatisfactory state, and there is a falling off in Sunday school attendance; on the other hand, \$34,523 was received last year towards the mission fund, the largest in its history.

In his response the penny contributions of the children had exceeded the amounts raised by all the other means. His Lordship was loudly cheered as he sat down again behind his moral tributes of white roses.

The members took their first active participation in the proceedings now by electing Rev. T. W. Patterson of Deer Park, Ont., as secretary, Mr. C. E. Hyson, M.A., of Toronto, as clerk, and Mr. David Kemp secretary-treasurer.

Removal of Clerical Incapables. The afternoon session was devoted to the removal of clerical incapables. It is likely to be the most important business of this session, viz., the attempt to place in the Bishop's hands the machinery to remove such clergy from their churches as are not contributing to its welfare.

The Anglican Church has ever been regarded as the most conservative of a clergyman's bodies, and the debate entered upon yesterday afternoon had all the judicial慎重 and learning of the deliberations of the British House of Lords.

The discussion was opened by Lawyer A. Dymond, who stated that he was in all with a fighting chin and an abundance of gesture. He explained that at present, though it seemed to the church, a clergyman through lack of business instincts perhaps, might be killing the life of his church, but without conscious of morality, hereby or for violation of the canons of the church no power on earth could remove him.

It was said, however, that such a man, stay his supplies, but there were men in the diocese who couldn't be starved out. [Laughter and applause.] He believed the clergy themselves were weak, and would far rather such circumstances, and would far rather such their tenures like men in other spheres of life. [Applause.] It would open places for other men and bring about promotion. [Applause.] The Church of England was never legislated into the heart of man. "True reform can be purchased only by sacrifice."

He impressed upon his hearers that the results of a prohibitory measure should be viewed by the temperance people. If liquor-dealers were to be prevented from plying their trade because they sold an article injurious to their neighbors, the temperance people must be something besides sinners.

Dr. Sutherland said he regretted that the Dominion Parliament had not given to the country a prohibitory measure instead of the present plebiscite. London Markets Stagnant.

New York, June 14.—The Evening Post's special cable from London says: "The stock markets here were stagnant today, the brokers being at the Ascot race. Americans were rattled, closing at about the lowest, on the collapse of the Letter which dealt. This caused a semi-panic on the Liverpool Corn Exchange, and renewed rumors as to the solvency of some firms here. Seligman's announce the details of the United States Government loan and that they are prepared to remit subscriptions from here. It is understood that the Brazilian fund scheme recently detailed in these despatches will soon be submitted to the bondholders by council of foreign bondholders acting for the Rothschilds, who presumably, dislike association with Brazil's temporary default. The supply of American bills offered for discount again very large. The difficulties connected with the issue of Canadian treasury bills are in the course of arrangement. The decision given by the Burgess, J.P., in the case of Emerson v. Brooks, tried at Blea's Hotel, Hunter Bay, on Monday night, is one of considerable interest to bicyclists. The charge was laid under the revised statutes of Ontario, 1907, section 2 of chap. 1, 233, and charged Henry Brooks with "refusing to give a portion of the traveled highway to Arthur W. Emerson." Emerson is a cyclist, who desired to pass Brooks traveling in front of him with a heavy milk can on the lake shore road, and refused to turn out of the beaten road. The magistrate inflicted a fine of \$1 and costs of five days in jail.
