## HOW SIR WILFRID STAVED OFF ENEMY

### Conflict With Hon. G. E. Foster Was to Ensure Support of Followers Against the Doherty Resolution.

OTTAWA, April 5.—(Special.)—There is a story going around to-night that the proceedings of the Liberal caucus last Friday night were far from harmonious and that Sir Wilfrid Laurier had to use his best persuasive powers to get the party to vote down the resolution of Judge Doherty of Montreal calling for an investigation into all the spending departments of the government.

The chief was told by some of the most independent of his followers that they had swallowed enough when they reported the government attitude on the Newmarket canal, and that they could not resist the demand for an investigation into the departments such as was conducted by Messrs. Courtney, Bazin and Fyasse into the marine department.

The caucus is said to have broken up very much divided on the subject, and many of the Liberal members went home without securing pairs, not being willing to support the government in resisting the demand for the investigation.

There are some who go as far as to say that Sir Wilfrid's split attack on Mr. Foster on Friday night was intended to draw out the member for North Toronto so as to stiffen the backs of the weak ones on the government side. It did have that effect, and when the vote was taken those who had remained over were with the government majority, however, was the smallest of the session, only 40, the weakness of the government being due to the fact that some disgruntled ones had departed for home before the incident of the evening occurred.

That the asperities which Sir Wilfrid Friday night's wrangle still rankle was made evident quite early to-day. It was inconsequential that a couple of new Liberal members should have found fault with details of certain press reflections upon the speaker.

The really significant thing was the attitude which the leader of the house adopted towards the member for North Toronto. In the absence of Mr. Foster, Mr. Foster's opponent, Mr. Doherty, he desired to know whether the government intended to take Monday's adjournment. Sir Wilfrid replied that he would move a resolution to that effect "to-morrow." Then Mr. Foster suggested that, with a view to expediting business, a motion of correspondence, etc., might be taken up before private bills were proceeded with. But to Sir Wilfrid's surprise, he displayed the marble heart. The convention of the house only was to be considered, he answered in effect. Mr. Foster's bland appeal, which had summer ripple upon the prime minister's stony stare. Evidently there is to be an armed neutrality between them for the balance of the session.

### A. G. T. P. Contract Incident.

J. D. Taylor (New Westminster) called attention to a report that forty Russian moujiks from Siberia had landed in Vancouver to work on the Grand Trunk Pacific as contract laborers, that the appropriate employment of Prince Rupert had secured judgment against a sub-contractor for \$2500, and \$3000 for overdue wages and \$2000 for breach of contract. However, before the laborers could realize upon this verdict in their favor, the chief contractor, the Messrs. Foley, obtained a hasty judgment in a county court against the sub-contractor for some \$38,000, due to them from the sub-contractor on account of a contract for the construction of a railway line in Manitoba. This Mr. Taylor pointed out the men were unable to satisfy the sub-contractor's claim in satisfaction of their claim. He observed that in the terms of the Grand Trunk Pacific contract the government was bound to see that all claims for wages were duly satisfied by the company should be guaranteed.

On the bill of the Manitoba and Northwestern Railway Co., Dr. A. Nelly (Humboldt) strongly opposed the extension of the charter and moved to strike out the section of the bill authorizing the line from Yorkton to Prince Albert.

The amendment was defeated and the bill reported.

Next was taken up Mr. Conmee's bill to incorporate the Superior and Western Ontario Railway Co. The bill contains a clause regarding the acquisition of water powers for electrical purposes, and Mr. Conmee contended that no power was given to expropriate.

Claude Macdonell complained that the bill gave the company the privileges of a power company without making them subject to provincial control, while Dr. Sproule and Mr. Lancaster pointed out that the Railway act would give this power to the appropriate company charter gives the company power to acquire water powers for the purposes of the undertaking.

Mr. Fuglesy's view was that the power of expropriation was limited to the right of way.

Dr. Sproule declared that the sign manual of the bill was what made it suspicious. In every bill which the member for Fort Arthur introduced there was something that aroused suspicion.

### Can't Expropriate Water Power.

Mr. Blain asked for the opinion of the minister of railways. He would not be party to passing any bill which interfered with the powers of the province to control water powers.

Mr. Graham answered that the water power clause was in a great majority of the recent railway bills. The company would have to buy its water powers, but could not expropriate them. The bill was then passed.

## Tom Thumb's Widow is on Tour Again

MIDDLEBORO, Mass., April 5.—Mrs. Tom Thumb, now the Countess Magri, has just left the famous Tom Thumb estate here for a six months tour of the Parisian theatres. The little lady is now 67 years old.

Tom Thumb, and his midged wife made several tours of the United States or Canada where the Countess Magri is not known. It is expected that by reason of her advanced age this Parisian tour will be her last public appearance.

## OPPOSITION TO LINE UP AGAINST C.N.R. GRANT

### Every One of Mr. MacKay's Following May Have Some Remarks to Make This Afternoon.

Sir James Whitney's announcement that the railway subsidies will be discussed to-day in the question, what will be the attitude of the opposition? The extension of subsidies which have already been granted will not provoke great discussion, it is safe to predict for the Liberal party could hardly repudiate the enactments of its predecessors in this respect, but Premier Whitney need not be surprised if the entire 19 who grace the speaker's left will have something to say on the C. N. R. grants. The speeches will not include most of them will be in the nature of personal "testimony." The front benchers may talk at greater length, and there is no saying to what lengths the eloquence of Allan Studholme will run.

Here's what one of the Liberal members predicted last night would be the keynote of the opposition speeches to-day.

"The Transcontinental is already tapping the centre of the clay belt, the Canadian Northern will run close to it, but with the Transcontinental under way it is no argument to put before the house that the hinterland will be without railway development. The Canadian Northern touches but a fringe; why should it receive two million acres? The day for subsidies is over. The timber in the proposed grant will more than pay for the cost of construction, and the astute promoters of the Canadian Northern project know it. The premier was bluffing when he said that he did not know whether MacKenzie and Mann would accept 4000 acres per mile. Probably if Mr. MacKenzie asked for 20,000 instead of 10,000 acres per mile, he would have got more. Injured innocence has won the day."

## URGE THE GOVERNMENT TO OPERATE ELEVATORS

### Would Prove a Boon to the Western Grain Powers, Say Their Representatives in House.

OTTAWA, April 5.—(Special.)—Dr. Schaffner last night moved a resolution that the government should take immediate steps to operate the terminal elevators at Fort William and Port Arthur and the transfer elevators between these terminals and the Atlantic seaboard.

Under the present system, Dr. Schaffner contended there was imperfect grading, dishonest weight, excessive dockage and charges, and a loss of the wheat's identity. It was estimated by the western farmers, who were urging federal control, that a charge of 1-1/2 to 1-3/4 cents a bushel would cover the cost of maintenance, pay interest and provide a sinking fund.

Mr. Lake strongly supported the resolution and was followed by other western members who took the same line. The debate was adjourned at 12:30.

### UNION STATION FOR CALGARY.

CALGARY, April 5.—The C. N. R. and G. T. P. are announced as having completed arrangements for the construction of a large union station and hotel where the Northwest Mounted Police Barracks now stand.

## IMPOUND AUTOS OF RECKLESS DRIVERS

### One of the Suggestions in Report of Legislative Committee on Methods to Regulate.

The sub-committee of the municipal committee of the legislature, which was appointed to consider amendments to the Automobile Act, have prepared their report.

They recommend that leaving the number of the machine, racing for wager or otherwise and refusing to come back after an accident be constituted major offences, which will be punishable by heavy fine or imprisonment.

In the case of three convictions registered against the owner of a machine it is suggested that the machine be permanently impounded for a period of not exceeding three months.

Another recommendation is that automobiles be compelled to slow down to four miles an hour, which is practically "sit walk," when approaching a street car that is standing still.

Major J. J. Craig's proposition to exclude automobiles from country highways certain days in the week was rejected by a majority of the committee as unreasonable and impracticable.

No increase in the present penalties is suggested, and any amendment accepted it will be in the direction of stricter enforcement of regulations.

The majority of the committee feel that the antagonism of farmers to automobiles is the result of indirection on the part of a few, and the advent of the auto-buggy in rural communities will remove the bad feeling which now exists.

## WELCOME TO S. C. R.

City Courts L. O. F. Will Crowd Massey Hall To-night.

To-night Massey Hall will be the scene of one of the greatest receptions probably ever tendered to an individual in this city, when the city courts of the I.O.F. receive their chief, Hon. Elliott G. Stevenson, on his return from California.

Bro. C. C. Hitchell, the chairman of the reception committee, said last night: "We will undoubtedly have a tremendous audience to greet our chief. We fear that the hall will scarcely accommodate all who are anxious to pay tribute to the Hon. Mr. Stevenson, and we are arranging for an overflow audience so that it would be advisable for those invited to find their way to Massey Hall early."

## CARRIED ENGINEERS AWAY

### Buffalo Union Men Held Big Freight and Coerce the Crew.

BUFFALO, April 5.—The first clash between the union and non-union forces on the waterfront occurred to-day when an attempt was made to move a big freighter from her winter berth in the Blackwell Canal with non-union engineers.

When it became known that the boat was to be moved and that non-union engineers were at work a score of men rushed on board. A hurry call was sent to the police and a squad of reserves was rushed to the scene. When they arrived the crowd had disappeared and the non-union engineers were with them.

## CHILD'S STRANGE DEATH

### Two-Year-Old Girl Wanders From Crib to Railway Track.

SOUTHLEY, Sask., April 5.—(Special.)—A two-year-old child named Josephine Kreinke, nearly two years old, was found dead on the C.P.R. tracks here at midnight, having been hit by the engine.

The mother put the child to bed at nine, and thought her sleeping soundly till told of the tragedy.

## FAMILY OF SEVEN KILLED

### Within Four Years All Have Met Violent Death.

QUEBEC, April 5.—News was received on Saturday from Tadoussac that a young man named Joseph Ferring, aged 23, had been instantly killed by falling from the top of the most of a schooner. This death completely extinguishes a family of seven, all of whom have met with violent deaths in the last four years.

## STRATHCONA SENDS \$10,000.

MONTREAL, April 5.—(Special.)—Lord Strathcona has sent a cheque for \$10,000 to Archbishop Bruchet for the funds of the Incurable Home of this city.

## Deed to Garrison Commem.

OTTAWA, April 5.—(Special.)—Sir Frederick Borden, replying to Mr. Foster, said the letters patent in connection with the sale of Garrison Commem to the City of Toronto would not include the small corner of the old fort located to the Park Blackwell Co. The letters patent would contain the condition that the city shall restore the old fort as far as possible to its original condition.

## Queen Quality SHOE

### Formal Spring Opening,

YOU have seen the "Queen Quality" styles for Autumn and Winter, have bought them and have been pleased with them, but a new pleasure is in store for you. A surprise! You thought the "Queen Quality" High Boot styles were beautiful, in fact imagined it would be hard to make footwear that in point of style, elegance and comfort would surpass them, but the new low shoes for Spring—well, see them and judge their merits for yourselves.

It is on the Low Cut styles that the makers excel; they are daintier, lighter, more graceful and the range of design embraces styles for every occasion. See our window display of dainty, attractive and stylish footwear. New designs, new leathers, Patents, Tans, Colored Suedes, Cravenettes, White, Black and in fancy colorings. New Ankle Strap Pumps, Majestic and Eclipse Ties, Buckles, Bows, Buttons—the latest of everything and up-to-the-minute in design.

It will afford us much pleasure to have the opportunity of explaining to you the many advantages of these really superb shoes. May we not have this pleasure on the day of our opening and the ensuing days of that week?

#### Recipes For Wednesday.

Potato Souces—These may be made with potatoes left over, but they are much nicer prepared with potatoes freshly boiled. Put mashed potatoes on a baking board, add as much flour as potatoes will take in. Form into little rounds, pat lightly out with the hand; add a little flour, bake on a hot griddle. When cool roll up in a towel till wanted.

Baked Indian Pudding—Six cups milk, quarter cupful cornmeal, quarter cupful molasses, two tablespoonfuls butter, half teaspoonful salt, half teaspoonful ground ginger. Scald two cups of the milk with the cornmeal and cook for twenty minutes; add rest of the ingredients with the remaining milk. Pour into a deep earthenware dish and bake, set in a pan of hot water, in slow oven, for four hours.

#### COOKING LESSON.

##### Some Easy Deserts.

By Cornelia C. Bedford, former principal of the New York Cooking School. At this time of year milk and eggs are the least expensive and a teaspoonful generously. The busy housemother, who has but little time to give to her duties, will find these dishes little trouble and not costly.

##### MOLDED FARINA—

For each half pint of milk allow one large tablespoonful of farina, a pinch of salt, a tablespoonful of sugar and a teaspoonful of flavoring. Scald the milk in a double boiler; add the farina and stir until it has thickened nicely, then add salt and sugar, cover and cook half an hour. Take off and add flavoring. Pour into cups or molds which have

been rinsed in cold water, when very cold turn out and serve with cream and sugar.

##### LIGHT TAPIOCA CUSTARD—

Scald a pint of milk in a double boiler. Add two tablespoonfuls of fine tapioca, stir very often until thickened, then cover and cook until clear and thick. Separate yolks and whites of three eggs. Beat the yolks with a half cup of sugar and a pinch of salt. Whip the whites to a stiff froth. Add the yolks to the tapioca. Stir until thickened, then add the whites, turn and mix lightly for three minutes, then take off, flavor to suit and pour into a serving dish to serve cold. According to the season cut fruit may be added or served with the dish.

##### JUNKET—

In a tablespoonful of cold water break up and dissolve one junket or rennet tablet. Take a measured quart of milk, put two tablespoonfuls of it and two tablespoonfuls of sugar in a saucepan. Stir over the fire until the sugar is dissolved, then add all of the milk and heat until blood warm, then take off quickly. Add one teaspoonful of vanilla or other flavoring and the dissolved tablet and pour quickly into cups or a dessert dish. Let stand undisturbed on the kitchen table until it jellies, which will take about ten minutes, then set carefully away to chill. Serve very cold with cream and sugar.

##### SOMERSET PUDDING—

Take a serving sponge cake and stand on a sterile dish. Prepare a cupful or more of fresh fruit juice or the syrup from canned fruit. Baste this a little at a time, over the cake until it is thoroughly soaked but unbroken. Make a soft custard with a pint of milk, three eggs, a pinch of salt, three tablespoonfuls of sugar, and a suitable flavoring, when cold pour it round, not over, the cake. Decorate the top with candied cherries or fresh fruit.

##### Prizes For School Children.

The Daughters of the Empire have offered two prizes for the best essays on the British Empire, to be competed for by the girls and boys of the public schools of Toronto.

##### Y. P. M. Conference.

A conference of representatives of the young people missionary departments of the various denominations was held yesterday afternoon. It was decided to hold a young people's missionary conference at Whitby from July 2 to 16.

Pay what you will, and go where you like, you cannot get a better purer or more delicious tea than "Salada."

### G.T.P. PLANS AIR LINE INTO CITY OF VANCOUVER.

VANCOUVER, B.C., April 5.—(Special).—General Manager Chamberlain of the Grand Trunk Pacific announced before leaving for the north that an air line would be built to Vancouver involving the abandonment of the proposed north and south branch lines now roughly surveyed, from the vicinity of Fort George on the main line. It will reach here from the northeast. The northern junction will be at the point of the main line near Yellowhead Falls.

### A Heavy Fine.

ST. CATHARINES, April 5.—(Special).—Saverio Scalone, an Italian boardinghouse keeper, at Queenston quarries, was to-day fined \$125 and costs on two charges of selling liquor without a license.

### City Council to-night appointed William Elliott inspector of San Jose scale, at \$200 a year. Arrangements are being made by the park and cemetery committee for an extensive spraying of city orchards.

### Illington Man Has Smallpox.

At Illington yesterday a young man was found infected with smallpox. He caught it from a man who is now in the hospital.

### He was put under Dr. Shear's care and taken to the St. Elizabeth's Hospital.

### A Serious Charge.

William J. Gavin, a married man of 40 years, was arrested upon a charge of gross indecency. A little boy is the complainant.

### IT ALL DEPENDS

Theatrical Censor Stephen Makes His Ratings on His Own Lines.

Police Inspector Stephen, as theatrical censor, detected a subtle wrong in the stout Fummy of Billiken as shown upon the billboards, he passed up the statues in the store windows, saying that they were smaller than the pictures.

This time it is place that counts. The dainty posters showing the admirable Genee poised on the against an artist splash of red surmounted by a humorously grinning Satan's head were banished from the fences because someone might deduce that the little lady was in league with the fiend. This was wrong, he says, on the fence, but the same posters displayed behind the footlights last night are considered as harmless, being indoors.

### Miners' Strike Must End.

LETHBRIDGE, April 5.—(Special).—The coal strike here will be settled in a few days. In fact, it must be settled, as T. J. Lewis, international president of the U.M.W. of A. has ordered the district officials to sign up the agreement as ratified by the miners in their referendum vote at the conclusion of the conference at MacLeod.

### The Redemption.

One of the striking features of the instrumentation of "The Redemption" to be given Good Friday night at Massey Hall, are the harps. On this occasion the harps will be played by several ladies, amongst them Miss Heloise Keating and Mrs. C. Arthur Kirkpatrick. The orchestration is made still more interesting by the use of six trumpets, two in the sleeves on each side of the hall.

Note and Comment

The Marathon post-mortem was Longboat's natural position in second place and there was no need for the Indian to cry about it.

Pat Powers appears to have been the real winner, eliminating the glory and of it, that all went to the tricolor.

Now will you stop knocking the ball team? Look, Factory races very first time out 18 to 0, while Newark and the rest of them are getting trounced in the south by all sorts of little scoundrels.

The gloomiest race campaign in history is announced to start opportunity on the thirtieth of May.

Jeffries and Johnson are appearing as rival boxers in the arena of the citizens look for a street altercation before the week ends.

New York World: When little Sherring went to Athens from Hamilton, Canada, in 1904, and won the Marathon race he was greeted like a Roman emperor on his return to his native city.

Reynold's Newspaper of London, says it is reported that private enquiries were recently made in New York as to whether a reason for the America's Cup will be well received if the Prince of Wales presents it.

Sam McVey and Joe Jeannette, rival negro heavyweights, have been matched to fight to a finish at the Wonderland A. C. in Paris, France, on April 17.

Smart gossip in New York is that Johnson will not fight anybody for six months and that he will welcome a refusal from Jeffries to talk of a mill just now.

A big novice tournament will be held at the Toronto Bowling Club, starting Monday, April 11, and running all week, ending Saturday, April 15.

Dr. Levy Canby was yesterday retired from the C.L.A. contest, both for first vice and the council, thus leaving the first vice to Oscar Eby by acclamation.

TORONTO'S EASY GAME 18 TO 0

Kelley's Men Have Nice Workout Against Chatham Team - Gossip From the Baseball Headquarters.

CHATHAM, April 5.-(Special).-This was just like a millsummer's day. The sun was shining brightly all morning, and a warm breeze from the south blew across Tecumseh Park, where the Toronto ball team put in a good practice, which lasted for two hours.

The infield is working together better every day, and the players felt like it this morning after the rest on Sunday, and they threw the ball around in almost mid-season form.

Joe Kelley returned this morning from Detroit, where he had conference with President Navin of the Detroit Club. Kelley is trying to buy a pitcher, and is after Tom Longboat who was mounted at a twister last year.

Fred Mitchell's Yankigans had a lively workout this morning after the regular infield practice in preparation for their game with the regulars on Good Friday.

Some fast plays were pulled off, and Captain Mitchell says his team will come out on top at the finish. He has chosen Rudolph and Hickey as his pitchers for the game.

The Leafs played their first game this afternoon against the Chatham team, but latter was no match for the speedy professionals. There were about 200 people present.

Eddie Rudolph pitched for Toronto, and was in fine form, only allowing one hit in the five innings he was in the box, a two-bagger by Cap McDonald, the Braves' recruit, who pitched left field for Chatham.

McGinley, who succeeded him in the box, was equally effective, Hicks being the only one who got on base. The Toronto team hit the ball hard and often, and in all directions. They also hit the bases, and made a few mistakes in changing from the pitching to the receiving end of the battery.

Even in right field pulled off two spectacular catches, getting them off his speculations on the run, rolling on the ground and showing up well, taking care of all that came his way, also getting a couple of hits.

Eddie Rudolph pitched shortstop in Mahling's very bad cold. Eddie handled himself like a veteran.

Green was the most conspicuous with the bat. Score: Toronto, 18; Chatham, 0.

At Columbus, O., R.H.E. Columbus (Am.) 8; Philadelphia (Nat.) 2.

At Philadelphia in the second game of the series between the National and American League baseball teams, the Nationals were again victorious.

ST. YVES INCREASING LEAD.

Tom Longboat has just passed Shrub and Dorando at ninth mile in Marathon Derby at Polo Grounds.

St. Yves' race, the Derby winner, wants it to be known that he was never a twister in a restaurant, but that his occupation in France was that of chauffeur with the Renault Automobile Manufacturing Co.

St. Yves' next race will be Saturday at Providence, R.I., where he will meet Pat Dineen of Boston in a 2 1/2-mile race.

Those who have the idea floating around in their bonnets that the Derby was a fixed race, should take a second look at the time, 2:30 2-5, and the race run over a turf track, soaked with rain.

The idea in moving the track out to six laps a mile was a good one, as everyone could see the runners, and the spectators handled the show poorly, there being no indicator to show how far the runners had gone, other than the four men tried to inform the 25,000 crowd, but they were only exercising their vocal organs.

Dorando ran the best judged race of the season, but he was not a twister, as he couldn't beat St. Yves and then made sure of second.

At Copeland, trainer for St. Yves, had a good laugh on Tom O'Rourke and Sol Mintz, the handlers of Longboat, when the latter cut. Longboat was leg weary and fainthearted long before he quit, but was driven on for the last mile or two.

However, on the lap that Longboat quit Mintz had just paced Longboat up the track and was walking back, when Longboat stopped 100 yards up the track.

Copeland saw the Indian quit, while the others didn't and immediately Copeland treated the handlers towards the rear, treating Indian and exclaimed laughingly: "There goes your wonder."

Summing up the race, St. Yves won as he pleased, Dorando second judgment and made sure of second. Hayes ran a poor judged race, letting the winners gain on him.

The Canucks had the right edge before the race. Tom Flanagan saving his friends money on an interview with Al Copeland, trainer for St. Yves, man would cup the bacon.

At Columbus, O., R.H.E. Columbus (Am.) 8; Philadelphia (Nat.) 2.

At Philadelphia in the second game of the series between the National and American League baseball teams, the Nationals were again victorious.

IN THE LAW COURTS

AGREEMENTS: Osgoode Hall, April 5, 1909. Judges' chambers will be held on Tuesday, 8th inst., at 11 a.m. Peremptory list for divisional court for Tuesday, 8th inst., at 11 a.m.: 1. Re Boston and City of Toronto (to be concluded). 2. Caswell v. Lyons. 3. Copeland v. Business Systems. 4. Martin v. Dwyer. 5. Weston v. Perry. 6. Porter v. Parkin. 7. Paquette v. Rideau.

Peremptory list for non-jury assize court for Tuesday, April 6th, at city hall, at 10 a.m.: 1. Halsnes v. Beatty (continued). 2. Foustette v. Boerema. 3. Morley v. McAfee. 4. Davis v. Evans. 5. Claxton v. Wade. 6. Johnston v. Standard Insurance Co.

An Interesting Situation: Thomson v. Equily Fire Insurance Co. and Thomson v. Standard Fire Insurance Co. These cases were tried before Justice Riddell at North Bay, and judgment given for defendants. The court of appeal unanimously upheld the judgment, and now the Supreme Court of Ontario has reversed the judgment, three judges in favor of reversing and two judges against, leaving the result that the plaintiff wins three judges in his favor and eight judges against him.

Master's Chambers: Before Cartwright, Master. Wade v. McNealey, J. F. Boland, for plaintiff, on motion for judgment. C. C. Robinson, for defendant, in opposition (G.). The motion for judgment was dismissed. Costs were reserved to allow material to be read. Having done so, I do not think the motion should have been granted. The defendant from the first count had not been fulfilled by them. The cost of the motion, to be to the defendant in any event.

Goldman v. Goldman: A. R. Cochrane, for plaintiff, H. C. Macdonald for defendant. Judgment (G.). Judgment was given on March 18 on the motion for interim alimony and disbursements, suggesting that plaintiff take an order nisi for alimony. The defendant refused. This, however, the plaintiff does not wish to accept. An order will, therefore, go for interim alimony of \$44.00 from date of delivery of statement of claim, and for interim disbursements fixed at \$25.00 unless plaintiff wishes them settled by the clerk in chambers.

Hunter v. Hunter: R. W. Ogry, for plaintiff, on motion for an order requiring defendant to attend for further examination and to answer questions previously refused. H. M. Mowat, K.C., for defendant, contra. Judgment (G.). The examination was closed nearly. The present motion was only brought on after defendant's solicitors had prepared to move to dismiss the action. The motion was refused. The defendant has stated repeatedly that no specific facts were ever alleged to justify the discovery. It has been ample on the facts, and the motion is dismissed, with costs in the cause to the defendant.

St. v. Currie: E. Arnold, K.C., for the Ottawa Mining Company. Eric Aronson for Warren, Gowald and Lorenz, R. E. Segar, for Currie and O'Neil. F. E. Hodgins, K.C., for plaintiff. Judgment (G.). Motion by defendants other than Mr. Segar's clients to set aside several appointments for their examination and discovery as defendants. A similar appointment for their examination as plaintiffs by counter-claim, together with an order for production of documents by them as such counter-claiming plaintiffs, on the ground that they are in breach of an undertaking by plaintiffs former solicitor and irregular. Plaintiff contends that the original condition of the parties and the undertaking was terminated by defendants. It is held that the plaintiff is not bound to take any steps in the action, or make any effort to examine the defendant, unless he has been examined, and the motion to set aside his appointment and orders about set aside. On both grounds the motion of the defendant is entitled to succeed, and the appointments and orders about set aside and discharged, with costs in the cause.

Banister v. Jose: Kirkpatrick (Arnold & Co.) for defendants, moved on consent for an order dismissing the action with costs and vacating certificate of its pendency. Order made. Company v. Long: L. V. McBrady, K.C., for defendant, moved to postpone trial, on ground of inability to find two necessary and material witnesses. A. W. Holmsted, for plaintiff, contra. Motion referred to trial judge.

Sovereign Jewellery Company v. Leusk: Louis M. Singer, for plaintiff, moved for directions as to service of statement of claim where no appearance has been entered. Order made. Whiten v. C. P. Railway: Walford

international-law and the rights of the weaker nations of Europe must rest on force both on sea and land. This has been brought home to the British people and whether willingly or unwillingly the present government must limit armaments cannot be impugned, but everything will have to give way to the question of national defence and the creation of an impenetrable wall of fire around the much loved isle.

Men's High Grade Suits and Silk Lined Overcoats

The very satisfactory "EATON Brand" suits at 16.50 and 18.00

New coloring, new patterns and new models, the fine colored worsteds of which they're made are all selected English fabrics. The new shades include olives, fawns, greens and browns, and come in shadow stripe effects, which are exceedingly stylish and handsome. Coats tailored in three-button single-breasted sack shape, the fronts interlined from top to bottom with haircloth and the whole forepart of coat with shrunken Irish linen duck; choice twilled Italian cloth linings; sizes 36 to 44. These suits at 16.50 and 18.00.

An "EATON Brand" Black Suit For \$15.00. The material is a soft finished vicuna cloth—a good sturdy woolen of medium weight. Coat, three-button, single-breasted. Collar felled on by hand, button-holes hand-worked, haircloth and shrunken canvas extending clear down fronts and into the edges, preventing creasing and sagging, best of trimmings. It's a satisfying and decidedly out-of-the-ordinary black suit for this money. 15.00

Silk-Lined Spring Overcoat 12.47. In points of style, fine finish and serviceable material this coat is worthy of very particular attention; of fine black vicuna cloth, an imported English fabric of soft finish. The coat is cut 44-inch Chesterfield length; lined with a fine quality black twilled silk, lapels faced with same material; glassed sleeve linings. This coat offers 12.47 men exceptionally good buying, at MAIN FLOOR—QUEEN ST.

Men Who Like Hats Conservative or a Bit Extreme

Can be accommodated here with equal ease and satisfaction. Just now the assortment is complete in the right shapes and styles. See the latest soft hat range in the very newest shades—olive, sage and asbentine green, fawns and browns; 1.50 to 3.00. Light weight easy fitting derbies come in different shades of asbentine and cuba, but the reliable black is still in the ascendant, 1.50 to 3.00. We sell American-made hats at the same price as the dealer next door to the manufacturer. As witness this: New Crofut and Knapp derbies, 4.00 and 5.00. We emphasize for Wednesday. Children's navy blue felt, tam o' shanters, soft crown, fancy lettered band and streamers at 1.17. New derbies of extra quality fur felt, narrow and medium, flat-set and rolling brims, rounding and full crowns; medium height, easy fitting Russia and calf leather cushion sweatbands, silk trimmings, color fast black; prices 1.00, 1.50, 2.00 and 2.50. MAIN FLOOR—QUEEN ST.

THE T. EATON CO LIMITED 190 YONGE STREET TORONTO

FIVE YEARS FOR HOLLAND

After pleading not guilty to eleven charges of false pretences and forgery, and going on the witness stand and contradicting the evidence of crown witnesses, Chris Holland suddenly gave the light, decided to plead guilty to "any two" charges, and was at once sentenced by Magistrate Denison to five years in the Penitentiary. The first charge on which evidence was taken was that of posing as David Newhall of Philadelphia, uttering a forged cheque for \$10,000 on the main office of the Bank of Toronto. Duncan Coulson, general manager; W. R. Wadsworth, local manager, and W. M. Beggs and J. W. Simpson of the staff, testified in support of the charge, while W. C. Chamberlain of Buffalo, and David Newhall, who is a millionaire, swore that the credentials displayed by Holland had been forged. Supt. Welsh of the Canadian Detective Bureau was not allowed to quote Holland's statements after his arrest. O. B. Stanton gave hand-writing expert evidence that the signatures of Holland and his wife were not in Cleveland on Feb. 11, when the evidence showed he was in Toronto, but other witnesses broke the alibi and he was held. Holland will be taken to St. Thomas to stand trial on other charges of forgery of express orders preferred against him there, and upon which he was extradited from Philadelphia by an officer came from that city last night.

SMITH-TUPPER FRAGAS IS BROUGHT TO LIGHT

Last Friday's Disturbance in Commons is Matched by Incident of the Seventies.

OTTAWA, April 5.—(Special.)—While it is noted that the incident of Friday night was the most disorderly that has occurred in the house for 20 years, old officials recall what was perhaps the most exciting passage between two members of parliament that has ever taken place in this country.

It was the closing day of the MacKenzie parliament of 1874, and the specific scandal which was to break had split the house into two hostile camps. Just at the time that the commons was waiting for the Gentleman (later Sir) John A. Macdonald, Mr. Smith (now Lord Strathcona) rose to a question of privilege, and objected to a remark of Sir John A. Macdonald.

"There were loud cries of 'order' and Mr. Aylesworth asked if it was in order for a member to accuse another member of saying what is false and untrue."

"When it is false," asked Mr. Bergeron, "what other word can you use?" For five minutes the house discussed the motion that the honorable words of Martin be brought down. Mr. Foster was arguing the point when Mr. Aylesworth arose to address the chair.

"Sit down," called the opposition leader, "is that what we have come to in the house of commons?" There were loud cries of "order" and Mr. Aylesworth asked if it was in order for a member to accuse another member of saying what is false and untrue.

"When it is false," asked Mr. Bergeron, "what other word can you use?" For five minutes the house discussed the motion that the honorable words of Martin be brought down. Mr. Foster was arguing the point when Mr. Aylesworth arose to address the chair.

GERMANY TAKES TO DIRIGIBLES

System Has Proven a Success—A Chatty Survey of Western Conditions.

Manitoba has proven government ownership a success. The province of Winnipeg to the world brought out the Bell Telephone Company. This year the rates have been greatly reduced, the treasury has a large surplus and a good many miles of lines have been built since they took charge.

"They are getting rural telephones all over the west. More phones were installed on the farms last year than ever before." "Some time ago I sat in my office in Winnipeg and made business arrangements with a farmer who was 30 miles away in his own home."

"What is wanted in the west now is men who will come and farm the land. 'Some people wonder why the western American farmer is the best settler. The reason why the English and Ontario settlers are not successful in the American is that they have not been trained under conditions necessary to promote success under western conditions.'"

"Ontario farmers have been doing mixed farming. English settlers come mainly from the east, and they are not so well adapted to the west. The American farmer is the best settler. The reason why the English and Ontario settlers are not successful in the American is that they have not been trained under conditions necessary to promote success under western conditions.'"

NEW YORK STATE WILL USE HER

Mother and Father as Witnesses In Endeavor to Prove Charge

LYONS, N.Y., April 5.—The work of selecting the jury which is to sit in judgment on the fate of Mrs. Georgia Allyn Sampson, placed on trial here to-day, charged with the killing last November of her husband, Harry Sampson, was completed when court adjourned to-day, after an entire session devoted exclusively to the examination of witnesses.

The presentation of the state's case will be made at the opening of the session to-morrow, after which the taking of testimony will be begun. The young defendant, robed in mourning, expressed herself as pleased by the high character of the moody evidence of her guilt or innocence, and again declared her belief that she would be freed. Through the legal proceedings she has managed to keep playing no apparent interest in the case.

Sampson lived with his young wife in part of the Allyn home, the house sheltering the two families. There had been quarrels the night before and on the morning of the shooting, when the father-in-law, who had a letter which he had received from a young man in Rochester, Sampson was last seen alive in the dining room of his home, and fell dead within a neighbor, John Ebert.

Shortly after Sampson staggered into the Allyn apartments with a bullet in his breast, and fell dead within a neighbor, John Ebert. AN IMPORTANT CASE

Railway Board to Consider Complaints of Lumbermen

OTTAWA, April 5.—(Special.)—The board of railway commissioners will hear on Wednesday next one of the most important cases which they have been called upon to adjudicate since the board was formed.

The freight rates on lumber under the tariffs which came into operation May 1, 1908, have been protested by the Canadian Lumbermen's Association on the ground of the increase in rates. The Canadian Manufacturers' Association, represented by J. G. Walsh, and the Montreal Board of Trade, represented by W. S. Tilston, are parties to the complaint.

Wallace Nesbitt, K.C., is counsel for the complainants, and the railway companies, in addition to their regular counsel, have retained George Shepley, K.C.

# COBALT---Mining Market Shows Increased Trying Power---COBALT

## MINING MARKETS WIDENING BIG ORDER FOR HARGRAVE

Brokers Report Heavy Buying of Cobalts From New York—Shipments Highly Satisfactory.

World Office,  
Monday Evening, April 5.  
The mining markets came into further evidence in today's business, the operations being considerably in excess of any day last week.

Brokers who are in touch with New York report that very heavy buying of Cobalts is going on from that section and that many of the local transactions are due to orders from New York.

There were no spectacular movements in the two local mining exchanges today, but on the whole prices were decidedly strong with some issues showing improvement from the close of last week. Temiskaming waste active in the higher priced issues, and in those of smaller value they principal transactions occurred in Little Nipissing, Nova Scotia, Peterson Lake and Rochester. The two latter were much better demanded than usual and held at firmer quotations.

It was announced during the day from Cobalt that the Beaver buildings had been burned down, but it was learned later that this will not interfere much with the workings on the mine, and the effect therefore on the stock was not material.

Olisse and Hargrave were principally in demand from New York, where the strongest kind of bullish feeling exists in regard to both these issues. During the day a large order was received for Hargrave from the States from an investor who appears confident of the intrinsic merits of the company's property.

The shipments from the camp for the week ending last Saturday included the output from not less than 11 mines, the total reaching the good round sum of 600 tons of ore.

At the close both brokers and clients felt cheerful over the present outlook in the market, and the further broadening in operations, together with rising prices, is thought to be now here.

**BEAVER POWER HOUSE BURNT**  
Machinery Little Damaged—Work to Start, Using Temiskaming Power.

The power house of the Beaver Consolidated Mining Co. was burnt down Sunday night. The company, however, have had advice from the mine to the effect that the machinery was very little damaged, and work is expected to be resumed at 7 o'clock this evening by using the Temiskaming power.

**THE COBALT MARKET**  
The Worst Features Now Out of the Way, a Bull Market is Expected.

Usher, Strathly & Co. say in their report: The Cobalt market during the past month has been subjected to violent fluctuations, with the main trend upward until the last week. The upward features now seem to be well in sight of the way. The elements from the camp continue to be most satisfactory, and the total tonnage shipped during 1909 will probably equal that of last year, notwithstanding the fact that in many cases concentrates only will be shipped this year. We are bullish on the general outlook for the Cobalt stocks, and think on any further decline from present prices it will pay to buy good stocks.

**COBALT ORE SHIPMENTS.**

# GOWGANDA--Roads Into New Camps Beginning to Break Up--COBALT

## A Mining Engineer

Says This  
About the Eight Claims  
I Am Offering  
at

# Gowganda- Elkhorn

"Just came down from Gowganda and completed the work and surveys on claims on Elkhorn Lake, and the showings there are most gratifying."

"We found a ridge of diabase running southwest and northeast, and it looks as though a little prospecting between Hangingstone Lake and Elkhorn would show up wonderfully well. Sunday Mr. McKenzie of McKenzie & Mann, and Mr. Cameron, made a visit with myself to the different properties. I went up as far as Morgan Mines and took in Boyd-Gordon, Mann, Bartlett, Doble-Reeves, and they all certainly have grand showings. If you will notice on the map, that same productive belt cuts across Hangingstone Lake and Elkhorn Lake. I firmly believe that this summer will show the southwest portion of Elkhorn and Hangingstone lakes as good as the rest."

"On one of the McIntyre properties we have a vein 26 inches wide, carrying iron and some smallite. I believe in holding all the ground in that section, as we have good diabase, and it is only reasonable to expect, with a little work, we also will have a good location."

"Our veins are very strong and well defined, and I am sending you a piece of rock from one of them. Your properties are all well located, and the ground is very high. In fact, your ridge is the highest in that part of the country, and shows great bluffs and good contacts."

"Personally, I am holding my own properties, preferring to develop them myself, and from what I have seen in doing my assessment work I can see no reason now to change my opinion; in fact, it has only strengthened it."

"Few people realize what we have up there, but it can be seen by anyone, for they all have silver."

## GRAND JURORS SUGGEST THEY BE DISPENSED WITH

Superfluous and Unwarrantably  
Expensive, They Declare, in  
Their Presentment

"We recommend the abolition of the grand jury, as being superfluous, for the following reasons:

"All cases that come before the grand jury are previously investigated by the magistrate whose trained mind is naturally better able to deal with them than the minds of the inexperienced laymen composing the grand jury."

"Malicious prosecutions are guarded against by the high ethical standard of the magistracy and by the petit jury."

"The grand jury have the power to defeat the ends of justice by shielding a criminal with whom they have sympathy, a power which should not be."

"The annual expense of many thousands of dollars, for which no value is received, could be saved to the taxpayers of the country."

"After a bitter discussion the above recommendation was passed into the presentment of the grand jury before it was presented to Judge Winchester yesterday."

"His honor said that he would be sorry to see the grand jury abolished, as it was a useful check upon laxity in public institutions, but that he well knew that there were jurors who were false to their oaths and trusts, and that when such jurors or jurors were discovered they would be quickly dispensed with."

"The grand jury condemned the overcrowding at the jail and his honor commented:

"It may come to pass that the grand jury may indict the city for not having a proper jail. That will make the authorities act, or they will be subject to a large fine, which will go properly

to enlarge the jail. The jail might be termed a common nuisance."

"The G. T. K. level crossing at West Hill, Scarborough, was declared to be extremely dangerous and the bell signal of little use."

"Other suggestions were that women prisoners for the jail be sent to the Mercer and the men be put in the women's wards; that the meat supply to the Industrial Home at Newmarket be looked into; that wife-beaters be whipped; and that the Toronto police department enforce the bylaw in regard to vehicles standing in the streets."

## NEW COUNSEL FOR C.N.R.

F. H. Phippen of Winnipeg Receives Appointment

Fred H. Phippen, ex-judge of the high court of Manitoba, has become general counsel of the Canadian Northern Railway.

Z. A. Lash, K.C., stated to The World last night there had been more counsel work in connection with the Canadian Northern than one could properly attend to, consequently the board decided to add another to the staff.

Mr. Lash will be retained as special consulting counsel, but intends to gradually retire from active practice, and enjoy the comforts of a well-earned rest.

In Fred H. Phippen Manitoba, less a brilliant lawyer and able leader. Twenty-five years ago he was a clerk with Blake, Lash & Cassels, in Toronto, and later with Osler, Moss & Eggleston, in Winnipeg, with the firm of Macdonald, Tupper & Phippen, he enjoyed a lucrative law practice.

Mr. Phippen will assume his duties about the middle of the month.

Suspected as Firebug  
WIARTON, April 5.—John Voght is under arrest here on suspicion of being responsible for fire which caused \$300 damage to Gilpin Bros' planing mill Friday night, and in Sparter's oil sheds shortly after.

No Progress in "All-Red"  
LONDON, April 5.—In the commons today Mr. A. Fell (Con.) asked the president of the board of trade if any progress had been made towards the establishment of the All-Red route, and was told none.

## GOWGANDA MAY HAVE TWO DOCKS

Engineer, Who is to Report on  
Conditions, Much Feted Man  
—Estimated Cost \$4000.

GOWGANDA, March 30.—This ambitious, growing without-a-struggle settlement is simply proving the old story that civic improvements cannot come and cannot go without municipal dissection.

The board of works was split on the subject of a dock and now the dock is split—at least the appropriation asked for is.

And splitting the appropriation means two docks, one on the east side of the lake and one on the west side of Look-out Point, where the recording office is being built.

The appropriation was \$4000. It is called an "appropriation anticipated" and the petition for this dock was started on its rounds by Dave Conroy, the man who brought in the first supplies to be sold.

Hughie Mullins, pioneer hotel man, was in two days before Conroy, and Hughie helped the dock petition on its way.

It evidently means that the department of public works read the petition and considered it worthy of attention as a representative called in on the residents and dug holes in the ice, endeavoring to find the dock location.

At a caucus of the board of trade and some other citizens, old members of this locked-up, staked-out mining district volunteered expert information as to depths and formations suitable for the dock.

All of these men had canoed over the lake and they knew the lake's funny! Where one man saw weeds and big fat frogs, another saw a hardy rock bottom, and another saw a gravelly bottom.

Still another saw soft sand and gravel, and another got "depth" and one more waded.

It's a truly versatile lake, surrounded by versatile men.

At any rate the board split, as I've said before.

Their recommendation is that two docks be built. And if the department choose not to build two docks—well then, there is a strong recommendation for the main dock—costing \$4000 more or less to be located on the east shore as near Sixth-street as is possible.

But after all is said and done, no doubt the engineer who is to report on conditions will have something to say.

Plenty of engineers have been in the phonograph act on his impression apparatus.

This engineer was asked to dinner, to supper, and even to breakfast at one end of the bay, on the other side of the lake and even out Prospectors-road, where no dock is required, but where a corduroy road is needed. "The cigars on the counters are no good!"

"Have one of my special brands," said another, and I believe the smokers did come from Halleybury.

"Have some of my excellent Scotch," said the next man and nobody blamed the engineer for taking, and he might say the work in a miserable drizzling rain demanded it, and lots of others wished for the same.

But all they had done that day was sit around the hotel stove, munch on McDonald's black slabs and discuss the "how" dock. Each man had a new idea with every fresh munch, and a few docks were built, pulled down and raised again. Everything was completed except landing the freight.

And besides the bunch who didn't get the Scotch lived across the lake and down the beach, and he might appreciate difference to the man with the bottle.

On March 29, the president of the board of trade, J. M. Laing of Toronto, drew his pencil out of his boot top, glanced at the calendar and wrote "dock discussion day" across the figure.

The engineer left this morning, and he didn't say why. There were plenty of suggestions coming, and he might have spent another day taking notes on weeds and rocks. While he was here the main dock went on a big, long haul to the town. He was asked how to build docks and also received a lot of instruction, gratis.

Now that he has gone, those residents whose chances for the dock are comparable to those of a snowball in Hughie Mullins' cooking range are using vile language against docks and engineers in general.

It's a rough village, but we all like it. The Scotch is hard to realize, and those who don't get the dock or docks are going to build their own, and it's a safe bet they will.

But just the same, \$4000 could not be spent in a more useful way. Tons of freight will be handled this summer and a substantial wharf will be a necessity.

With the same route from Bliscoe on the C.N.R. and the old canoe route from Elk Lake and each canoe carrying about 700 lbs., the reason for a dock is apparent.

There are plenty of boats. Every day a lawyer and a launch arrive. Just at present there are ten of each. Most of the launches are commodious ones, capable of doing a lot of carrying, and if the supply of gasoline holds out, there will be lots of work to be done.

Besides the launches are flat boats, "alligators," punts, house-boats, and it is safely estimated that over 200 canoes are now on the shores of Gowganda, and half of them fresh from the manufacturers.

Everything indicates an unprecedented rush to the silver fields west. This will be encouraged to a great extent by the magnitude of the finds made here and judging from present results of the winter's work done amidst the rigors and hardships of cold weather, the most optimistic will be satisfied.

An hour spent on the O'Kelley properties is certainly one of expectant surprise. The shaft is now down some 60 feet, and it's a big hole in the rock at that. Some of the samples of ore taken from their shaft show that the diabase ridge running north and south along the west shore of Gowganda Lake is rich beyond expectations.

Over thirty men are now working on the O'Kelley claims, while another gang are on the Fairburn and Welsh.

At the Reservoir it's almost impossible

# Montreal River Consolidated, LIMITED

Our advertisement of a block of this stock has met with a success which we scarcely anticipated. The offering, however, has undoubtedly appealed to investors who are looking for a square deal in Ontario mines promotion. As previously pointed out, we have never offered a stock in which we thought there was so much intrinsic merit or such immense possibilities to investors.

The total capitalization of this company is only \$500,000, in 500,000 shares, \$1.00 par value. Of this amount there is left in the treasury the large number of 300,000 shares, with which to undertake a thorough development of all the company's claims. Although the capitalization is so modest it really becomes insignificant when it is considered that the company has ten properties of forty acres each; all well situated in the Montreal River district, in the townships of Willett and James.

Each one of these properties has been proven, and on no less than seven has native silver been taken from the surface. On M.R. 700, which is in close proximity to the Lucky Godfrey and the Devlin and Enright mines, a calcite vein has been uncovered nearly three feet in width, and trenching is now being gone on with on this wonderful showing.

The eight claims in Willett are all immediately adjoining one another, while the two in James are also immediately adjacent. It will, therefore, be seen that the development of the properties can be economically undertaken. It may be that when the

properties have been developed that it will be thought advisable to increase the capital of this company to at least \$3,000,000, thereby giving present shareholders six shares for one, and, if the claims come up to the expectations of the present shareholders, and the reports which have been made on the properties, the capitalization will then be only of a conservative character.

As these properties have been paid for in full, and the company is free from debt, it is in a position to devote the sale of its treasury stock to development purposes. We hold 60,000 shares of the treasury stock, and are now offering it for sale at 50 cents per share.

These are the directors of the company, and their names stand out as a guarantee of honest administration of the company's affairs:

- R. H. C. BROWNE, ex-police magistrate of Cobalt, President.
- R. K. SPROULE, Toronto, Vice-President.
- J. M. ROWLAND, Toronto, Secretary-Treasurer.
- A. F. SPROTT, Esq., Toronto, and
- DONALD C. HOSSACK, Barrister, Toronto.

We cannot urge too strongly on our friends to participate in this exceptional chance to make money in the Montreal River District, and as the offering of the stock is so small we advocate immediate application for reservations.

### MATCHES POISON BABE.

ST. THOMAS, April 5.—(Special).—Luella, the baby daughter of Edward Wilson, Edge Ware-road, near this city, at the head of some matches yesterday and died to-day.

New Island Bridge.  
The island committee yesterday approved the plans of the park commissioner for an armored concrete bridge over the newly opened cut at Chippewa-avenue.

The channels at Hanlan's Point, Centre Island and the Lakeside Home require dredging, and sand pumps will be placed on the work at once.

Commissioner Harris will report on the establishing of a landing place for rowboats and other small craft on the waterfront between Akroyd's boat house and the Bay-street dock.

The public are invited to suggest a name for the new bit of park land at the island made out of the old Heber property.

### Want Streets Widened.

In a letter to the mayor, Manager Fleming says that portions of Wiltont-avenue have been narrowed so much that cars cannot be run safely until the sidewalks have been put back in their proper place.

A deputation of North Rosedale residents yesterday asked Mr. Fleming for an extension of the Church-street car line over the Glen-road bridge. He said that the company was willing to lay a line up to Edgar-avenue south of an extension of the Church-street car line over the Glen-road bridge.

### Rolled Peanut With Toothpick.

Frank Budway yesterday morning paid the penalty of a wager placed on Mr. Longboat by rolling a peanut with a toothpick from the Labor Temple to the bay. A large crowd were edified by the many difficulties he encountered.

In all 18 peanuts and 25 toothpicks were needed.

**BUOYANCY NOW RAMPANT IN THE WALL ST. MARKET**

Trading Broadens and Prices Follow Activity—Toronto Market Remains Inactive and Only Steady.

World Office, Monday Evening, April 5.

An exceedingly quiet market developed at the Toronto Exchange to-day. Speculative transactions were unusually small and no peculiar issue was favored with anything more than what might transpire on the duller of days. The principal business of the day appeared to be a little investment buying of the better class of securities.

There was nothing in the day's news to indicate any speculation and traders were simply become disengaged with this market as one available for quick returns. The attention of most of these is still concentrated on the New York Exchange, where the latitude is wide enough to permit of in-and-out trading without much difficulty.

On the whole most of the speculative securities here were fractionally easier, but there was insufficient stock offering to really give an indication of the trend of values.

**Wall Street Posters.**  
Tariff bill expected to pass the house of representatives this week.

Delaware and Hudson annual report shows 22.39 per cent. on capital stock, as against 3 per cent. last year.

Weather report for March shows disappointingly light rainfalls were most needed.

Public service commission orders N. Y. C. and Delaware and Hudson to use oil instead of coal in Adirondack forest district.

London financial journals, including Outlook, Economist, Statist and others, are optimistic, believing reassured political conditions and abundance of cheap money will be reflected in advances in securities prices.

Two hundred men of the 1500 laid off at St. Louis and San Francisco shops had been taken back to work.

Owing to falling off in coke shipments, 1100 coke ovens in Cannonsville field have been shut down in last two days.

Joseph says: There is an immense short interest in Coppers. Sell only on good rallies. Specialists: B.R.T. is going to hold Pacific and East. Buy and hold. Buy Sugar and Mexican Central.

A director of the B. R. T. Co. stated to-day that there is no doubt that the dividend for the current quarter would be but one per cent. This rate, he estimated, would be maintained for some time to come, owing to the excellent condition of the property for the present, which is resulting in increased earnings. In regard to any increase in the disbursement to shareholders he stated that it was the policy of the board to act conservatively.

Cross-currents are likely to be witnessed in the stock market to-day. Industrial will be brought forward prominently later. After temporary irregularities, higher prices are probable. Purchases of standard issues on recessions are advisable. Lead is reported ready for a rise. Further short covering is expected. Locomotive, A. B. T. P. is noted on Chesapeake & Ohio. Reading should be irregular on account of the expected decision. Some selling may occur in Amalgamated. Information continues favorable to the purchase of New York Central and re-consideration of Southern Pacific, Pacific and Atchison should be bought now and on a scale down. Steel should be bought only on reactions. Good buying on Consolidated as declines is reported.—Financial Bulletin.

In no event do we believe that with so much financing on hand the bull party would let go control of the situation and we would take advantage of any sharp dip to buy good stocks. Toledo, St. Louis and Western issues, owing to Alton dividend prospects and good buying on Consolidated are likely to sell much higher. Washburn and Kansas City Southern stocks are being accumulated ostensibly for Harman's account, while the same good buying continues in Denver and Western Maryland, and this group should all do better. The Brooklyn pool expects to put that stock above 80 and the outlook is in its favor. Locomotive and Car and Foundry are about the best of the industrial, but People's Gas, Western Union and North American are worth staying long of. On dips we would buy Southern Pacific for turns, but would wait for bulges and sell for moderate profits. Steel, Fuel, Copper and Smelting, owing to the fact that Hawley for increased earnings are not at all bright.—Town Topics.

World Office, Monday Evening, April 5.

The Toronto stock market struggled thru the day's business without any exciting events. Transactions and quotations were on about a plane with those of last week, and there appeared to be no immediate disposition to develop any particular speculative movements. It is now thought by traders that any specialty movements at the Toronto market will be left until the New York market has quieted down, and when there will be less opposition.

And Wife No. 2's Enquiries Lead to Arrest For Bigamy.

SMITH'S FALLS, April 5.—(Special.)—Francis Arcand, a farm laborer, aged 58, living a few miles from here, has been arrested on the charge of bigamy. Arcand, it is alleged, was married 35 years ago in Prescott to a woman whom he deserted about 14 years ago, when he went to the Mississippi district and soon afterwards, it is alleged, was united at North Bay in marriage to another woman, with whom he lived at Sturgeon Falls, until a couple of years ago, a few months ago he returned to Smith's Falls and has since been living with his first wife. Wife No. 2 began making enquiries and this led to his arrest. Arcand has four children by his first wife.

**An Actor's Death.**

CHICAGO, April 5.—Earl Stirling, who was a member of the company that played at Ford's Theatre the night Abraham Lincoln was assassinated, died to-day. A few months ago he was playing at the Chicago Theatre, while his wife was dying in a hospital. There was no one to take his place and he was forced to play while his wife was dying. After the performance, when he learned that his wife had died, he collapsed. He never recovered from the shock.

**Boy Burned to Death.**

COBOURG, April 5.—At Fenella, a village 20 miles north of here, Mr. Davy's 2-year-old boy was left alone in a room for a few moments. The little lad got the coal oil on, and it is thought that when it ignited, setting fire to his clothing, and he was burned so seriously that he died before morning.

# We Never Dreamed of Such Millinery Enthusiasm

ALL pre-Easter records for selling of millinery have been broken so far. People seem to have realized as never before what a priceless advantage Simpson taste adds to the material quality of a hat. Our salon of millinery has been positively thronged for over a week past. On Saturday our only problem was how to serve our customers. We anticipate a rush on Easter Saturday of even greater proportion. To lessen the difficulties of the "last-minute" problem we ask all those who can arrange to choose their Easter hats to-morrow to do so, unless that pleasant duty has already been performed. We offer as an inducement:

150 Trimmed Hats for Wednesday, every one new for the first time. Carefully made and trimmed with the newest materials imported this season. Styles are the best our expert milliners can create for this popular price, every one different, and all colors represented. Special Wednesday ..... **\$5.50**

## Fashionable Silks in Utmost Profusion

WHEN you consider that this exposition of silk does not include all silks, past and present, in any general demonstration of the development of the silk weaving industry, but only the Simpson choice of the fashionable silks of to-day, it cannot but strike you as a wonderful display.

We are offering 50c and 65c Silks for 39c a yard Wednesday

5000 yards Fancy Silks, in stripes and checks; large, medium and hairline stripes, all the various size checks, also broken checked designs, in splendid range of color combinations, including browns, reds, amethyst, greens, grey, lilac, sky, rose, pink, mauve, navy, black, and white designs. Guaranteed first choice qualities of pure Japanese habutai, superior finish, extra heavy qualities, will launder perfectly. Regular value of these beautiful silks 50c and 65c yard. On sale Wednesday .....

## High-Class Black Dress Goods

WE accept second place on the continent of America to no one in the matter of Dress Goods. We choose the best clothes made in Europe in their grades, and a knowledge and experience of years of leadership in the Dress Goods trade prompts our choice. Black goods are the test. They require expert judgment. You may rely upon the Simpson blacks. We make them a special study and have done so for years. Come to us when you want dress goods and go nowhere else to be sure of your blacks.

Sale of 2000 yards of new French Worsted Suitings, high class designs and qualities that have just been received from the looms of the best worsted manufacturers in France. Suitings that are controlled by us and can only be purchased in this store. Thoroughly shrunken and unspottable. A variety of stripes in self and two-tone effects, also pretty color combinations.

There is a full range of the new season's shades, in the self stripes, taupe, rose, canard, reseed, tan, browns, amethyst, greys, etc. In the two-tone stripes, there are some pretty effects in reseed, brown, tan, greys, peacock, amethyst, canard, etc. The same colorings with fine black stripe are very effective.

These suitings represent the most fashionable shades and colorings, and the most stylish weaves, in materials for this season's tailored suits, whilst the values are incomparable. On sale Wednesday .....
