ALLIES CHECK TEUTON-BULGAR DRIVE TO GREECE

ALLIES CLASH WITH ENEMY ON EXTENDED BALKAN FRONT

Bulgars, Supported by Teutons, Seize Greek Forts Unopposed and Press Toward Kavala Seaport—Franco-British-Serbian Forces Fiercely Oppose Advance.

PARIS, Aug. 20, 2:30 p.m.—Bulgarian forces are occupying additional Greek territory. The war office announced today that their patrols are pushing toward the Greek seaport of Kavala, and that they have occupied two more Greek forts in the region of the Struma. Near Florina fighting between the Bulgarians and Serbians continues. The British repulsed Bulgarian attacks near Lake Doiran, and the French checked Bulgarians who attempted to advance west of the Struma.

The official report of operations on the Saloniki front, from the French army of the east, follows:
Repel Bulgarian Attacks. "East of the Bulgarians have crossed the Nestos in small force and are sending patrols forward in the direction of Kavala."

"In the region of the Struma the enemy has occupied the Greek forts of Liasa and Starcista, on the right bank, and advanced some troops to the approaches to the river."

"West of the Struma Bulgarian attacks on Puroj Manion were stopped by our fire. Near Lake Doiran British troops repulsed Bulgarian attacks on Dodgeh. On the western bank of the Vardar there was rather brisk shelling, especially toward Kijajidj."

"On the eastern front, reports received from Saloniki show that the general engagement which began on Friday is continuing with intensity over an extended front, running from Florina near Monastir to the River Struma. This represents an irregular line, measuring upwards of 150 miles."

Gen. Sarrail is directing the united operations of the allies, with Gen. Cordonnier commanding the French troops. The operations have been long expected as a part of the coordinated offensive of the allies on all fronts. Its opening follows the arrival of Gen. Cordonnier after extended conferences with officials here. The advances received in Paris indicate that the Germans and Bulgarians

This successful action, split into several local combats, by reason of the strong nature of the German defences, is important as proving the ability of our forces to conquer ground after the lapse of fifty days; when the enemy, if ever, should have been capable of making a counter-concentration sufficient to arrest our progress. It also proves that our forces, are now immensely the stronger. It must be taken into account, too, that every successful blow dealt

British Lines Are Advanced Bulgarian Attacks Repulsed

British Forces Hold Tenaciously Ground Gained On Saloniki Front—Cavalry in Brush With Enemy on Struma.

LONDON, Aug. 20.—The British troops on the Saloniki front have advanced their line and have repulsed counter-attacks by the Bulgarians, according to an official statement issued by the war office. The text of the statement follows:
"Our troops are established on a line west and north of Bekeri and Cidemil and south of Dolozetzi where they repulsed counter-attacks with loss to the enemy. Artillery bombardment by both sides continues."

ENEMY LOSES SUBMARINES BRITISH TWO DESTROYERS

German Fleet Hurries Back to Port on Learning That British Are in Force—Two Light Cruisers Sunk, While German Subs Are Destroyed.

LONDON, Aug. 21, 1:24 a.m.—Two British light cruisers, the Nottingham and Falmouth, were sunk Saturday in the North Sea by German submarines while the vessels were searching for the German high seas fleet, according to an official announcement. Issued shortly before midnight. One German submarine was destroyed by the British, while another was rammed and possibly sunk, according to the admiralty statement, which follows:
"Reports from our lookout squadrons and other units showed that there was considerable activity on the part of the enemy in the North Sea Saturday, Aug. 19."

"The Nottingham was a vessel of 5,400 tons and was built in Pembroke in 1912. Her normal complement was 350 men.
The Falmouth was of 5,250 tons. She was built in 1910 and carried a crew of 376 officers and men.
The Nottingham was 450 feet long and carried nine 6-inch guns, four 2-pounders and two torpedo tubes. She was designed to make about 26 knots.
The Falmouth was 450 feet long and carried eight 6-inch guns, four 2-pounders and two torpedo tubes. In her trial trips she made slightly over 27 knots."

WAR SUMMARY THE DAY'S EVENTS REVIEWED

IT is the British army that again comes forward with the chief battle gains of the past two days. That army advanced in the resumed battle of the Somme along a front of eleven miles from Thiepval to the extreme right of Guillemont. Its forward drive yielded most successful results. First our forces captured a ridge southeast of and overlooking Thiepval. Unofficial despatches mention this ridge as the remaining portion of the Leipzig Redoubt that held up our advance on July 11. Two British battalions, under strength, rushed this stronghold, for it was manned by 2000 Germans with a great many machine guns. Secondly, our men captured more ground northwest of Pozieres. This latest gain is situated on the northern slopes of the high ground and it is valuable, for it gives the British an extensive view to the east and the northeast. Thirdly, north of Bazentin-le-Petit, our soldiers gained a further portion of the German trenches. Fourthly, they captured the northern edge of High Wood and trenches made by the enemy and extending half a mile west of this point, and they later repulsed a counter-attack, ejecting Germans from portions of the positions where they had gained a footing. Fifthly, they advanced our line half way to Ginchy and to the edge of Guillemont. They now hold the outskirts of this village, including the railway station and the quarry. These two positions are of considerable military importance. Sixteen officers and 780 men were passed back by the British as prisoners. Furthermore, after the conflict, which gained the British forces this general advance, they made a further advance northeast of Pozieres on both sides of the broad highway between Pozieres and Bapaume.

BRITISH MAKE ADVANCE ON ELEVEN MILE FRONT

Important Ground on Summit of Albert Ridge Falls Into British Hands, Giving Artillery Control of Much Country—Troops Enter Guillemont.

LONDON, Aug. 20.—Important gains of ground along and near the summit of the Albert ridge were made by the British who advanced their lines on an eleven mile front in a series of sharp combats, it is announced in British official communications from the front. At one point, northwest of Pozieres, the British have captured and passed the summit on which a ruined sugar mill stands, and they are now going down hill. From this ridge, they command a view over a wide stretch of country, both to the north and to the east, and this is very important, for artillery observation, for the Germans can now be detected miles away moving troops, and these can be brought under the fire of the British batteries in 20 seconds. The British followed up this advance by making another advance on Sunday along the Albert-Bapaume highway, running thru Pozieres.

Another important gain was made on the extreme left of the British at Thiepval, where they carried the remaining portions of the Leipzig redoubt, which was held by 2000 Germans after the British were checked here on July 10.
Gain Round High Wood. High Wood, another important position, was also a centre of British gains. They captured positions west of this wood and now hold trenches taken from the Germans on a half mile sector west of this wood. They have also advanced their line half way to Ginchy and are now about 400 yards west of this village. It has been turned by the Germans into a strongly fortified point of support. Guillemont, which has held out for

several days, is now on the verge of falling into British hands, for they have captured the railway station and stone quarries in the outskirts.
Took Thousand Prisoners. A despatch from the Reuter correspondent on the British front in France says:
"The week-end fighting developed into one of the most important and successful battles of the western offensive. Not only is our progress towards the complete mastery of the ridge highly satisfactory, but we have captured about a thousand officers and men, many machine guns and a good deal of material. Several strong points have been destroyed and the way has been prepared for further progress."

"In the neighborhood of the Leipzig redoubt, the Mousquet farm and Martinpunch we met with much success. The enemy organized several strong counter-attacks, which, with one exception, were dispersed with heavy losses."
The text of the British communication follows:
"Operations carried out yesterday at various points along our front from Thiepval to our extreme right, north of Guillemont, a distance of about 11 miles, were most successful. As a result we captured a ridge southeast of and overlooking Thiepval, and northern slopes of high ground north of Pozieres, from which we get an extensive view of the east and northeast.
We are holding the western edge of High Wood and trenches made by the enemy extending some half mile west of the wood. We have advanced our

FRENCH DRIVES CAPTURE WOOD ABOVE SOMME

Strongly Organized Position Between Guillemont and Maurepas Falls. SEIZES MUCH BOOTY

PARIS, Aug. 20, via London.—The French have carried a strongly organized wood between Guillemont and Maurepas, taking a large quantity of war material, according to the official statement issued by the war office tonight.
The French have also driven the Germans out of the portion of the trench north of Maurepas into which they penetrated in their counter-attack Friday night.
The Germans made several violent attacks on the Verdun front last night, in an effort to recapture the Village of Fleury, taken last week by the French. The war office announcement of today says these attacks were repulsed.
Took Wood From Foe. The text of the French statement tonight is as follows:
"North of the Somme we carried a wood, strongly organized by the enemy, between Guillemont and Maurepas."

THE NICKEL QUESTION WILL NOT DOWN!

Independent of the discussion in Southwest Toronto on nickel, and that election is only an incident as far as this supreme issue is concerned, the public will be more interested than ever to know what the arrangement is between the governments at Ottawa and Toronto in regard to the treatment of ore mined by the International Nickel Co. at Sudbury and not required either by Canada, the Empire or the Allies. We are told that some kind of an arrangement has been made whereby the International Nickel Co. will only be required to refine in Canada sufficient for the requirements of this country and Britain; and apparently that that great concern is to continue to take the bulk of its ore out of Canada, refine it in the United States and sell it to whomsoever it pleases! How serious this question is and how unsatisfactory the answers given are may be gathered from the following letter received on Saturday:
Editor World: I must congratulate you on the able manner in which you have conducted this campaign on the nickel question. The governments of Canada and the United States are responsible for that twenty years ago when Queen's Park have been sleeping and run things as they liked, the International Nickel Co. was a company to time and make them the switch and let the nickel go to the Government required. Then we find out any more nickel from the International Nickel Co. Why?
What will International Nickel do with the nickel they are going to refine in Ontario if the British Government does not refine much nickel here. Hon. Mr. Ferguson was told before the nickel commission was appointed, also before the Government required, that nickel could be refined in Ontario; that was the big stick; this last two years.
All our nickel must be refined in Ontario if we are going to have any control over this nickel. International Nickel won't refine all the nickel here, then let us force the Dominion Government to confiscate the whole of their international nickel. Why don't we do the same? Then we can have the nickel refined in Ontario if our government were alive to the fact they would realize they were giving away one of the greatest resources of the world. Look what we are missing here. What are the Germans doing in taking everything back to their own country refined within its borders.
In my next letter I will touch up this and two other departments of the government and did not what they should have done and did not.
Subscriber, August 18, 1916.

The same subject is also discussed in The Cobalt Northern Miner of this week. It says:
Nationalize All Our Resources. British Columbia is likely to fall in line with Ontario in bringing its nickel benefits from its natural resources. While Ontario is worrying about nickel, Hon. Lord Dufferin, minister of mines in British Columbia, also declares in favor of having all metals produced in the country refined within its borders.

When asked Sunday night for a last message to the electors before election, Hartley Dewart, K.C., in reply, said that he was most appreciative of the way in which the electors had received the discussion of the issues in the campaign. It was an augury of success, he believed. He felt that the silent voter would be heard today, and also that the independent Conservatives would send a message to the seven sleepers on the hill.
It was rumored last night that some eleventh-hour roorback statements would be issued against Mr. Dewart. He wanted to warn the electors against any such roorbacks.
This, he declared, was a fight for all the people, and he was fighting the battle for all classes of the electorate.
Mr. Dewart also expressed confidence that the soldier vote in the riding would be mainly with him. He has been particularly careful to see that the necessary leave is granted to the soldiers who have the right to vote. It was Mr. Dewart's telegram to Col. Labatt, O.C., at Niagara Camp, which brought the following telegram of assent on Saturday:
"Hartley Dewart, K.C.—Members of units here who have a vote in Southwest Toronto have permission, if they so desire, to come to Toronto on Monday to record their vote. I also received instructions from the militia department to the same effect. Any other information you require, wire us.—Col. Labatt."

GOVERNMENT UNABLE TO ANSWER DEWART

Three Ministers on the Defensive in Regard to Nickel Question.
H. Hartley Dewart, K.C., will work for the restoration of Palestine to the Jews under British protection if he is elected today. He promised it at his wind-up meeting on Saturday night. The hall was packed with men and women, while children ranged round the door.
Rev. John Bennett Anderson raised a storm of enthusiasm when, waving his coat on one arm, he cried that war time was no time for disunion and that Mr. Dewart was the "union candidate."
"An appeal to you not as a Liberal candidate merely, but as the people's candidate," said Mr. Dewart, amid applause.
Jews Are Enthusiastic.
It was the most enthusiastic meeting Mr. Dewart has addressed in this campaign. "What do you think of our candidate?" asked one Jew of another after the meeting. "If he only gets fifty per cent. of the Jewish vote he will go in," said another. Time and again the Jews in the meeting assured Mr. Dewart that he would get their votes.
When he rose to speak they stood to cheer him. "Three cheers for the coming premier," cried one, and the applause was instantaneous. "We have only just begun the campaign," said the candidate later.
"Do you think Sam Hughes is a robber?" This was the only interruption. Mr. Dewart replied that he

The Fur Department Cordially Invites You to Inspect An Interesting Display of Handsome Fur Coats

Including an Extensive Array of Exclusive Models Reflecting the Latest Modes of Paris and New York.

HUDSON SEAL WITH TRIMMINGS OF ALASKA SABLE forms the handsome coat illustrated. This seal is made from specially treated, plucked muskrat skins and represents the highest perfection to which an imitation of real seal can be brought; to the touch of the hand and the inspection of the eye the difference is scarcely perceptible. The lining of this coat is of rose poplin figured in quaint blue and green design, and has one large shirred pocket. In every detail of material and finish this typifies the high-grade garment. Price, \$225.00.

A HUDSON SEAL COAT, WHICH FLARES AND RIPPLES more than one might expect even in this season when all coats follow such loose, voluminous lines, has a tremendous sweep of 116 inches.

The buttons are of the seal with crocheted centres; the collar is reversible; the cuffs are strapped over and button-trimmed; the lining is lovely—of black and white pussy willow silk with Paisley stripe; length 40 inches. Price, \$165.00.

NATURAL RACCOON forms the wide collar, deep cuffs and a broad band on the bottom of a third Hudson Seal Coat; length, 40 inches; price, \$165.00.

A PLAIN HUDSON SEAL with wide, flat collar, high cuff and a length of 44 inches is priced at \$145.00.

BLACK LYNX IS WONDERFULLY HANDSOME as trimming on another Hudson Seal Coat, which rejoices in a width of fully 110 inches. The collar is entirely of the lynx and is finished with the animal head, so that it may be fastened tightly in "chin chin" style, or it may be worn open, and the lining is of turquoise blue with medallions in gay Bakst designs; length 42 inches. Price, \$205.00.

NEAR SEAL is another good fur for coats; one in plain box style is made with revers and roll collar; sweep 82 in.; length 40 in. Price, \$72.50.

A double-breasted box coat of near seal of first quality is made in plain style; sweep 85 in.; length 42 in. Price, \$85.00. —Third Floor, Albert St.

The Preliminary Display of Autumn Dress Fabrics Reaches Its Second Day

BROADCLOTH PROMISES TO BE A GREAT FAVORITE

And When One Considers That This Material in the Same Quality, the Same Finish, and Under Absolute Guarantee is Offered at the Price at Which it Has Sold During the Past Four Seasons, the Fact Seems Scarcely Credible.

Taffetas Are Again to the Fore, But in a Weave Softer, More Pliable, and Almost, It Seems, More Lustrous Than Ever Before, and in a Perfect Galaxy of Luminous Hues.

Broadcloth at \$2.50 Per Yard

AMONG THE NEW TONES which will be leaders for the Fall and Winter seasons we find many which not only suggest the shade, but stimulate the imagination as well.

SUBMARINE GREY is as dark as can reasonably be expected, and yet is not wholly grey, but contains a green glimmer from the depths of the sea.

BLACK FOREST GREEN—what need to describe it! At once to the mind comes the picture of the "stilly wood where the shades are deep" and where there are "leaves in the shimmer and sheen of darkling shadow, diaphanous green."

PACIFIC GREEN—and we see the great forest-clad sides of the Rockies, rising tier above tier from the shores of the peaceful ocean.

BLACKBERRY IS A DEEP BLUE, scarcely distinguishable from navy, yet having in its make-up something of deep violet.

BURGUNDY and purple are other deep, rich colors, while African brown and navy are standard hues still favored with the imprimatur of fashion. Graphite is a medium grey, which tends to blue, and "Field Mouse" is taupe in a new and most alluring guise.

THE EXCELLENT FINISH of these broadcloths is due to their having been sponged and shrunken at the mills, so that when purchased they are entirely ready to be made into suit or coat. This same grade of goods, obtained from the same manufacturer, has been stocked by us for several seasons, and that never a word of complaint has come from the purchasers is proof of their excellence. Width, 54 in. Price, \$2.50 per yard.

Taffetas at \$1.25 to \$2.50 Per Yard

THE DEEP COLORS OF AUTUMN are nowhere exploited more alluringly than in the shimmer and sheen of these wondrous taffetas which, grouped together, present such a medley of rich autumnal tints that they are a veritable feast to the eye, ranging as they do from the russets of the changing leaves through the purples and golds of harvest to the dun, dull tones of the serene fields touched by November's frosty chill.

THE DEEP PURPLE OF ROYALTY bids fair to be one of the season's favorites; the purple hat is the last word in smartness, and with it must be worn the frock, either wholly of that rich hue or combining some other tone with purple, so why not one of purple taffetas?

TELE DE NEGRE continues to be a favorite, as does also Copenhagen blue, which in these silks is an unusually lovely color, inclining toward turquoise. Myrtle green, too, would make a handsome afternoon frock with the metallic trimmings so much in vogue this season.

PLAIN COLORED CHIFFON TAFFETAS, directly imported from Switzerland, make up this special display for Tuesday. Does the reader realize the significance of this—that Switzerland is one of the few countries from which reliably dyed goods are obtainable? Thus, these represent excellent quality, durable weave, good style and "fast" dyes.

COLORS TAFFETAS, 36 inches wide, are \$1.25; 39 to 40 inches wide, are \$1.50; 43 inches wide, \$2.50 per yard.

BLACK TAFFETAS, 36 inches wide, are \$1.35; 38 inches wide, are \$1.50 and \$1.75; 42 inches wide are \$2.00, and 44 inches wide are \$2.50. —Second Floor, Albert St.

The Dark Side of Autumn Fashions

Is Typified in the Serge Dress of Navy or Black for House or Street Wear; Yet Chic and Well-tailored It Becomes One of the Most Attractive, as it is the Most Serviceable of Cool Weather Garments, and When the Serge Combines With Silk as in Several Models it is Truly Charming.

THE ODD LITTLE POCKETS ATTACHED OVER THE PLEATS of the straight-line skirt in the model illustrated are decidedly smart. The whole effect tends to prove that the silhouette is becoming more slender—in fact, Paris is said to be dallying with the Directoire conception of beautiful line. The material is navy or black serge; the collar is white silk with colored embroidery; the price is \$25.00.

SATIN AND SERGE COMBINE in a fascinating frock in which satin extends in pleats from the plain serge yoke to the deep band around the bottom of the skirt; a sash of serge is embroidered in silver at back and front, and knots falling in long ends at the side. Price, \$25.00.

IN BASQUE STYLE is a quaint dress with elaborate band of white embroidery around the skirt; the same repeated on the two patch pockets, and the whole given the true touch Parisienne by a row of small chenille tassels around the edge of the basque. Price, \$23.50.

A SATIN PANEL is inset down each side of the skirt, which is pleated and trimmed with military braid; an unusual trait is a cuff which ends in a braided curve at top and bottom. Price, \$22.50.

ONE OF THE SEASON'S LARGE FICHU COLLARS—extending in this case in a point quite to the waist at the back—is distinctive on a serge and satin dress of which the puff of the sleeve is of saten, and the cuff and tightly-fitted underpart is of serge; the skirt has a pleated panel at back and front. Price, \$23.50.

EMBROIDERY IN BLUE AND GOLD on the front of the belt gives an air of undefinable chic to a charming frock of brown serge and taffeta, in which the silk forms the sleeves, yoke of skirt, and belt; the loose, wide sleeves open over white satin under-sleeves, with high-buttoned cuff; a wide collar of the white is also notable. Price, \$27.50.

Knitting Yarn in Cream, Grey and Natural

FOR THE WOMAN WHO KNITS for the soldiers' comfort—and who does not—are several well known Canadian and English yarns featured for Tuesday.

THE "QUEEN MARY" quality in grey, natural, or cream is a favorite for its softness and durability. One pound is sufficient for three pairs of socks. Price, per lb., \$1.50.

The "Foot Guard" is in grey only; price, per lb., \$1.35. The "C.E.F." also is in grey; price, per lb., \$1.25.

Higher grade yarns are shown at \$1.75, \$2.00 and \$2.25 per lb., the last making four pairs of socks for each lb. —Second Floor, Centre.

ONLY ONE FAILED TO PASS THE TEST

Percentage of Recruits Obtained Saturday Was Unusually High.

FOURTEEN ATTESTED

Forestry Battalion Had Four and Other Units One Each.

Recruiting was fairly active for the half day that the recruiting depot was open on Saturday, when 14 recruits were attested out of 15 who came up for examination. As only one failed to pass the medical test, the percentage who were attested was unusually high. The men were distributed as follows: 36th, 1; 18th, 1; 20th, 2; 21st, 1; 23rd Forestry Battalion, 4; University Training Company, 1; 67th Battery, 1; Home Guard, 1.

Want Fifty More Men. There is just one more week in which men who wish to catch a place on a battalion going overseas quickly can do so, for the 23rd Forestry Battalion have already received their marching orders, and by the end of next week they will be closing up their recruiting and will head for overseas. During this last week the Foresters are out for one big sweeping campaign to bring in fifty more

men to the Toronto company of the 23rd.

Owing to special permission from Ottawa, Toronto company of the 23rd will remain here a little longer than was at first anticipated. The balance of the battalion has received orders to leave for concentration camp at Halifax on the 23rd, but as the battalion will not be sailing until some ten days later the local company has received permission to remain here until the end of next week.

York Rangers Meeting. The 220th York Rangers Battalion conducted a large and successful recruiting meeting on Saturday night. The bugle band furnished the music and drew an unusually large crowd. The chairman of the meeting was Capt. C. F. Mills, and the speakers were Lieut. W. H. Jamieson, Sergt. Gibbons, Sergt. Strutt and Dr. J. Brown. Sergt. Gibbons compared a young man, who refused to enlist, but persisted in singing, "We'll never let the old flag fall" to a man who would stand on the edge of the bay watching another drown, making no effort at rescue and singing "Rescue the perishing." Two recruits were secured.

Officers' Weekly Meeting. The weekly officers' meeting of the battalion was held on Sunday even-

ing with Lieut.-Col. B. H. Brown presiding. The report of the town to town canvass throughout the county was highly satisfactory. The men in charge are well received, the popular opinion seeming to be more and more in favor of recruiting and good results are expected after the harvest is over.

BROCKVILLE HOTELS WILL STAY.

Special to The Toronto World. BROCKVILLE, Ont., Aug. 20.—When prohibition becomes effective in this province all the hotels of the Brockville business district will continue to do business, with two exceptions. The other proprietors have applied for licenses under the standard system.

SUSTAINED FRACTURED ARM.

Special to The Toronto World. WHITEBY, Ont., Aug. 20.—James Hogg, in charge of the construction work on the large government hospital here, sustained a fractured arm and other minor injuries on Saturday afternoon. He was inspecting in the work in the power house, and in stopping from one platform to another, a plank broke and he fell to the cement floor below, a distance of 17 feet. He was rendered unconscious.

POLITICAL NOTES

The speeches have been made, the handbills circulated and the electors in Southwest Toronto have today to do the voting.

Three issues override all others: Hydro-electric, nickel, prohibition. To us, nickel in these war times supersedes the others, the prohibition and the Beck hydro-electric policy come home to everyone.

How the election will go depends largely on the foreign vote—and the majority of the voters are foreign-born and may therefore be more concerned over prohibition than anything else. Mr. Norris has gone about the division, and so have his agents saying he will get them their glass of beer; and still other friends of the government have told them that the Hearst prohibition law is only an experiment; that if the people do not want it will be repealed. Hon. Mr. Lucas said this on the platform. This is rather rough on Premier Hearst, who said he

handed the shares. As a matter of fact the bulk of the shares are in "street certificates," which contain no names, or the names of trust companies; and down in the cellar will be found German ownership and German control. What happened to Australian spoils or zinc has happened to Canadian nickel. But Australia seized the ores and metals and took them out of German hands—an example that Canada was restrained from doing by an organization within our own country. Italy woke up a few months ago to find the bulk of Italy's banks in German control. No one can begin to imagine the control exercised by Germany in the metal industries of the States.

Even more interested in this question is the hotel and liquor shop interest, also the breweries; and they will place their votes where they think they will be most effective in protecting their investments. Some think Dewar, some Waldron, some Norris—there does not seem to be a solidarity.

Nor does anyone seem to be able to say how the prohibitionists will go. One paper advises them to go to Mr. Conner.

The World believes that Mr. Dewar ought to be elected and will be elected because of his patriotic stand on the nickel issue. He has begun the work of laying bare this insidious German plot whereby all our nickel ore has gone to the United States, where it is owned, refined and disposed of according to the policy of its German owners. Anyone who believes that the control of International Nickel is in the hands of American owners is simply relying on a scrap of paper, and all anyone has ever got is a list supplied by stockholders who

TURN BULGARIANS BACK WITH LOSSES

Serbian Statement Says Enemy Was Repulsed By Heavy Attacks.

SALONIKI, via London, Aug. 19.—The Serbian statement, issued Aug. 18, announces:

"Yesterday at dawn the Bulgarians attacked along our front in the sector of Moglenica, to the north of the Villages of Scupina and Pojar. The Bulgarians were repulsed by our powerful counter-attacks, and were thrown back upon their original positions after sustaining enormous losses.

"The Bulgarians occupied the town and station of Florina.

"An enemy aeroplane squadron threw three bombs upon the British ambulances at Verbekop. Six persons were killed.

"Fifteen allied aeroplanes dropped eighty bombs upon the enemy hangars at Monastir. Excellent results were observed."

The capture by the Bulgarians of the Greek town of Florina, five miles from the Greco-Serbian border, and fifteen miles southeast of Monastir was reported yesterday by the Berlin war office.

BRIBES RECEIVED BY LEGISLATORS

Cawthorpe and Pierce Declared Guilty in Saskatchewan Commission's Report.

MOORE ALSO BLAMED

Commissioners Unable to Agree in Cases of Other Legislators.

REGINA, Aug. 20.—C. W. Cawthorpe, Liberal member for Biggar, and H. C. Pierce, Liberal member for Wadena, in the provincial house, are declared in the report of the Brown-Elwood commission, issued tonight, to have accepted large sums of money from the Licensed Victuallers' Association, an offence in connection with liquor licenses. The report states that Pierce not only received a bribe, but allowed himself to be used as an agent in an attempt to influence anti-liquor legislation.

The commission also finds that A. R. Moore, Liberal member for Pinto Creek, was guilty of culpable conduct in connection with a deal for a liquor license in which he used his influence. The commissioners disagree on the question whether Gerhard Ens, Liberal member for Roethlisberg, had been shown to have received \$500 from a liquor fund, and also as to whether Hon. A. P. McNab, minister of public works, was a party to having charges against him withdrawn on consideration of their giving party support.

The general charge of a conspiracy to bring about the defeat of the prohibitory law in April and May of last year is held to have been not proven. Members Accused.

After outlining the duties and powers of the commission under which the commissioners were appointed, appreciation of the assistance received from the various courts engaged on the commission, and the provincial and Royal Northwest Mounted Police, in securing the attendance of witnesses, the report enumerates and criticizes charges made by J. E. Bradshaw.

Charge No. 1.—That between Dec. 11, 1913, and Dec. 15, 1913, the following Liberal members of the legislative assembly of the Province of Saskatchewan, were bribed to oppose the government bill to prohibit the sale of liquor in the provincial assembly in December, 1913, namely: J. Nolin, S. C. Simpson, A. F. Totzek, C. Lochead, J. A. Sheppard, C. W. Cawthorpe, G. Ens, H. C. Pierce, and G. E. Sharpe.

Charge No. 2.—That in December, 1913, large sums were drawn from the bank account of the Licensed Victuallers' Association for the purpose of being used to influence members of the legislature, in connection with the liquor legislation then under consideration. They find that Clayton Peterson and Frank Brunner were the most active agents in the use of money, although, undoubtedly, it was being used to the knowledge and with the consent and approval of several members of the Licensed Victuallers' Association, more particularly R. G. Waddell, R. J. Barry and G. E. Sharpe.

Of the members of the legislature charged with bribery, the commission finds that there is absolutely no evidence that in any way implicates J. Nolin, A. F. Totzek, C. Lochead and J. A. Sheppard, while they refuse to make a finding against anyone on the unsupported evidence of Frank Brunner, the main witness, more especially where such evidence is contradicted by party charges, as in the case of S. S. Simpson.

The commissioners find that C. W. Cawthorpe received a large sum of money from the Licensed Victuallers' Association, thru Clayton Peterson, as a bribe in connection with the liquor legislation. Cawthorpe, however, he also allowed himself to be used as an active instrument to further the plans of the victuallers in an attempt to defeat the liquor legislation, in the finding of the commission deduced from the statements made by Pierce to Barry, Brunner and Waddell and the evidence generally.

Commissioners Disagree.—Separate reports are handed out by the commissioners in the charges against G. Ens, Commissioner J. T. Brown stating that Brunner certainly drew \$500 from the funds of the victuallers, and that he advertised the fact that the money was for Ens "I am not at all satisfied that Ens received this money or any part of it, and for that reason I refuse to make a finding against him." There is no evidence, other than Brunner's, that Ens did actually receive the money, says Commissioner Brown.

Saskatchewan, for the purpose of securing the license. The commissioners are unanimous in this charge, finding that J. A. Sheppard, thru one H. E. Mead, a member of the Saskatchewan Hotel Properties, Limited, advised Ben Marshall, who built a hotel at Limerick, Saskatchewan, in the spring of 1913, and Delaney and Baumbach, to whom Marshall sold the hotel when completed, that whoever got the license had to contribute \$1000 to the party campaign funds. Seven hundred dollars of this \$1000 was paid, Sheppard handing \$200 to J. D. Simpson, secretary of the local Liberal Association, and opening a new banking account at Moose Jaw, deposited in his own name the \$500.

Charge No. 3.—That J. A. Sheppard received money during May, 1914, at Moose Jaw, from Jos. Bernhardt and Anthony Bernhardt, now of Winnipeg, applicants for a liquor license for the purpose of securing such license.

The Bernhards were the owners of the Windsor Hotel at Moose Jaw, and when they applied for a transfer and renewal of the license it was refused by the board of license commissioners, because the house failed to meet the requirements of the Liquor License Act. Joseph Bernhardt then had an interview with Sheppard and J. D. Simpson, secretary-treasurer of the local Liberal Association, when he was advised to renovate his hotel and renew the application. It was then suggested that Bernhardt should contribute \$1000 towards the campaign funds, which is finally agreed to and paid Simpson at that time \$200 and the balance in three instalments. The commissioners do not find that Sheppard received any portion of the \$1,000. On the contrary, it appears, says the commissioners, that he has been paid to Simpson for campaign purposes. Nor does it appear that Sheppard or Simpson made any effort to influence the license inspector or the board of license commissioners. They do find, however, that the Bernhards were given to understand that the \$1,000 payment was necessary to have their application favorably considered.

Two Vindictive.—Charges 4 and 18.—That in Jan., 1913, Mr. C. Lochead received a promise of political support and a promise of \$500 towards campaign funds from G. E. Sharpe of Gull Lake, in consideration of stopping or stifling a complaint or of stopping a prosecution against C. E. Sharpe of Gull Lake in return for promised political support.

These charges, Numbers 4 and 18, were dealt with together by the commissioners, having arisen out of the same transaction. G. E. Sharpe, owner of the Clarendon Hotel, Gull Lake, was summoned to appear in Regina to answer the charge of selling two bottles of whiskey to one customer over the bar, but this he refused to do. The master, president of the Licensed Victuallers' Association, closing up by saying that he would contribute \$500 to the Liberal party fund. This letter he showed to Mr. C. Lochead, member for that district in the legislature, who accompanied Sharpe to the legislative buildings, where they met Attorney-General Turgeon, the charge being finally withdrawn. The commissioners do not think that the charge was dropped because of political support, and that it was not wronging on Lochead's part to use his influence in having the charge withdrawn or on the attorney-general's part in instructing the withdrawal.

Charge 5.—That Mr. C. Lochead received \$100 from one Rushford of Gull Lake, in consideration of stopping or stifling a complaint or complaints against the said Rushford, a liquor licensee, date unknown.

John Rushford, proprietor of the Lakeview Hotel, Gull Lake, thru license inspector, was reported for having a dirty yard, etc. Mr. Lochead's assistance was solicited and Rushford asked Lochead to go to Regina about the matter, and paid him \$100 for making the trip, although Lochead only asked for \$50 as his fee for such service. Lochead went to Regina, and on his return, on learning the nature of the license inspector's report, advised him that he would have to clean up. There is no evidence that would warrant the commissioners in finding that Lochead stopped or stifled any complaint against Rushford, or made any attempt to do so, nor is there any evidence that would warrant the commission in finding that he had received any money under false pretences.

Charge No. 6.—Cawthorpe Accepted Money.—That in 1914 C. W. Cawthorpe received \$100 from John Markling, a liquor licensee, in consideration of stifling an alleged complaint against him, or the alternative that Cawthorpe obtained from the said Markling the said \$100 under circumstances amounting to an obtaining money under false pretences.

The commissioners find that C. W. Cawthorpe received from John Markling, the proprietor of an hotel at Moose Jaw, \$100, which he appropriated to his own use. The money was paid Cawthorpe on the understanding that he would stifle any prosecution or complaint against Markling.

Charge on McNab.—Charge No. 7.—That in Sept., 1915, the Hon. A. P. McNab, was a party to having charges against one William Robertson of Alaskan, withdrawn in con-

consideration of promise of political support.

For the second time, the commissioners differ, separate reports being submitted by Commissioners Brown and Elwood. On a charge that in September, 1912, Hon. A. P. McNab, was a party to having charges against William Robertson of Alaskan, withdrawn in consideration of political support. Commissioner Brown finds "that the evidence of Robertson in itself is unlikely, that Robertson is an unreliable witness," and being denied by McNab, he is of the opinion that there is no evidence in support of this charge "on which we would be warranted in imputing any wrongdoing to McNab." Commissioner Elwood declares that "Mr. McNab's evidence is by no means satisfactory. It seems to me that there is a direct conflict between what he swore before us, and what he swore before the Magee committee. He declares that the prosecutions were withdrawn "as the result of the interview which took place between Robertson and McNab," and he prefers to say that the withdrawal was the result of assurances by Robertson that the infractions of the license law took place in his absence, and that he would support the government while he held the license."

Serious Charges.

9. That in 1913, J. A. Sheppard received money, amount unknown, from August Baumbach of Limerick, an applicant for a liquor license, for the purpose of securing such license.

10. That J. A. Sheppard received money, amount unknown, from Herscher and McCall of Moose Jaw, applicants for a liquor license, for the purpose of securing such license.

11. That J. A. Sheppard received money, amount unknown, from Nagi Haddad of Kincaid, an applicant for a liquor license, for the purpose of securing such license.

12. That C. W. Cawthorpe received \$500 from Louis Perlmutter of Biggar, in consideration of stopping a complaint or prosecution against the said Louis Perlmutter, a liquor licensee; or in the alternative, the said Cawthorpe obtained from the said Perlmutter the said \$500 under circumstances amounting to an obtaining of money under false pretences.

17. That in September, 1914, C. W. Cawthorpe received \$500 from Louis Perlmutter of Biggar, in consideration of securing a liquor license.

19. That J. A. Sheppard received money from the Western Commercial Liquor Co., an applicant for a liquor license, for the purpose of securing such license.

20. That in 1913, the Hon. George Langley, thru an official of the government named George W. McPhee, then license commissioner, did receive money from William Katarynes of Hatford, Sask., an applicant for a liquor license, for the purpose of securing such license.

The commissioners announce that charges 9 and 11 were dropped, no evidence whatever being offered in support of them, and that in the cases of charges 10, 12, 17, 19 and 20, "although evidence was given there was no evidence that supported the charge or gave any indication of wrongdoing."

Cleared on Charge.

Charge No. 8.—That in November or December, 1913, the Hon. A. P. McNab was a party to having charges against one Sutton, a liquor licensee of Saskatoon, withdrawn in consideration of promise of political support.

On the charge that Hon. A. P. McNab was a party to having charges against J. Sutton, a Saskatoon hotelman, withdrawn in consideration of promise of political support, the commissioners say they intimated at

the hearing that no case had been made out, which needed an answer. Moore Equally Culpable.

Charge No. 13.—That in 1913, S. R. Moore received three notes for \$1,500, and afterwards money in payment of the notes from Nagi Haddad of Kincaid, an applicant for a liquor license for the purpose of securing such license.

On charge No. 13, involving S. R. Moore's alleged connection with negotiations for an hotel license in Kincaid, the commissioners are "not satisfied that Moore was financially interested in the notes, but add that "it is clear that he (Moore) with full knowledge of the facts, gave every assistance to Berger in the planning and carrying out of the scheme and for that reason he is, in our opinion, equally culpable."

Reviewing the evidence, the commissioners point out that two men, Crippes and Haddad, were erecting hotels in Kincaid. Crippes transferred to Berger an option on the property the Crippes himself had no title. Moore, it was stated in the license, guaranteed Haddad a license and Haddad gave Berger notes for \$1,500 for the latter's withdrawal from the field. On these notes \$500 was paid. The commissioners find that there was never any intention on the part of Berger or anyone connected with him of proceeding with the construction of the hotel.

Moore Again Involved.—Charge No. 14.—That R. S. Moore received \$500 from Joseph Kennedy, an applicant for a liquor license, for the purpose of securing such license. Charge No. 14 also involved S. R. Moore, member of the legislature for Pinto Creek. The charge arose from the desire of Joseph Kennedy to construct an hotel at Shaunavon, Kennedy having offered Berger and Moore an it was arranged that the Frontier Hotel Company, in which Berger and Moore were interested, should withdraw from their plans to build an hotel in Shaunavon, that Kennedy should build and that he should pay the Frontier company \$50,000 for the first license and \$5000 if he got the second. Kennedy completed the hotel and paid Moore \$500 in favor of the Frontier Hotel Company, "which was apparently subsequently divided between the members of the company, Moore getting his share," according to the report.

Differ as to Bole.—Charge No. 15.—That in 1913, J. F. Bole, then a member of the legislative assembly, received the sum of \$500 from George Velle Company, an applicant for a liquor license, for the purpose of securing such license.

The commissioners differ in their findings on the charge that J. F. Bole in 1913 when a member of the legislature received money from the George Velle Company for the purpose of securing a liquor license. Commissioner Brown finds "that the charge has not been proved." He quotes evidence that F. M. Knudsen, solicitor for the company, received \$1500 in cash from Steffel, manager of the company, and continuing "that this money was used to pay a political note for \$1548.25, to which Bole was a party. There was absolutely no evidence, says the commissioner, of any improper interference with the license commissioners, either by Bole or anyone else. On the whole, Bole impressed me as a truthful witness." Commissioner Brown says he can quite conceive how Anderson might have collected the money from Steffel, but that he cannot see how Anderson could have had any reference to Bole, and subsequent knowledge by Bole of the contribution of the Velle Company and its application to the note would not imply wrongdoing on Bole's part.

Commissioner Not Convicted.

Commissioner Elwood states that if the evidence of H. M. Hillman and his wife is to be believed, "it seems to me that there can be no doubt that he (Bole) was in some way a party to the obtaining of the money from the Velle Company and the payment of the note in that way." He adds that he sees no reason why he should not believe the Hillmans. "I cannot believe," says Commissioner Elwood, "that these people would act before us and deliberately concoct their story. On the other hand, Bole showed that at least his recollection of the various transactions was correct. His evidence, to my mind, was most unsatisfactory, and I therefore, accept the evidence of the Hillmans and find that he was a party to the obtaining of the money from the Velle Company, and to its being applied on this note." He finds also that no bribe influence was used with the license commissioners in connection with the application.

Charge Unproved.

Charge No. 16.—That in 1912, J. F. Bole, then a member of the legislative assembly stifled prosecutions in the Victoria Hotel Co. and Michael Elman and Andrea Eelman, at Craik, liquor licensees, in consideration of political support of Andrea Eelman.

The commissioners were unanimous in finding unproved the charge that J. E. F. Bole stifled prosecutions against certain liquor licensees in consideration of political support of Andrea Eelman.

Allegation of Conspiracy.

Matter under investigation.—Whether a conspiracy was entered into between certain persons in the year 1915, to bribe members of the assembly in connection with the government's liquor policy, introduced into the assembly in the session of 1915, and whether attempts were made to bribe certain members, and if such conspiracy existed who were the conspirators? And if any attempts at

Turf Seagram and Whitney Win Saturday Stakes

SEAGRAM RAN ONE-TWO IN THE DOUBLE EVENT

Christie, at Long Odds, Won the Handicap—Big Saturday Crowd at Windsor

WINDSOR, Aug. 20.—The Seagram entry with Gale Dress, A. Picketts, won the Windsor double event, the second of the big stakes at the present meeting. Picketts pressed Gale Dress as the bunch came out of the last turn, drew alongside Minnie and Galley Head, now running in the drive toward the crowd was a feet yelling almost unceasingly for the Seagram horse. Minnie fought with all her strength against the two challengers, but the pair was too much for her and she seemed to bow to the inevitable, making the last few strides, Gale Dress crossing first and Galley Head second. Gale Dress, also of the entry, was fourth.

Christie, a tip which circulated thru the stands was good in the fourth race and won the Walworth Handicap. There were but five horses in the race, but among these were the crack horses, Yentee and Phil J. Yentee got the lead in the field. Christie was second all the way until the last turn, when jockey McKeown gave the bay gelding his head and he romped home a two-length winner. Yentee was second and Phil J. third.

M'TAGGART'S RIDE LANDED HOURLESS

Rich Order Stake at Saratoga to Belmont's Imported Runner.

SARATOGA, Aug. 19.—August Belmont's imported runner, Hourless, cleverly ridden by Johnny McTaggart, scored an impressive victory in the \$7500 Grand Union Stake this afternoon. He finished two lengths ahead of likely, a whiney color-sewer, which, in turn, was a neck ahead of Tom McTaggart. Hourless ran the 4 furlongs in 1:12 1/2, the fastest three-quarters of the race. The victory of the colt must be credited to the driving of Johnny McTaggart, who took a desperate chance at the turn for some. Hourless closed at 2 to 1, a slight favorite over Omar Khayyam.

The Finn captured the Merchants' and Citizens' Handicap in clever fashion, equipping the track record of 1:58 for the mile and three-sixteenths. Buck Crump and Roamer finished behind him in the order named. The Finn paid 2 to 1, while Ed Crump ranged around 7 to 1. Roamer was heavily played at 5 to 1, but he was not in the running. Crump took the jump, but Roamer saved him going up the back stretch. He turned the turn. The Finn began to move. He swung into the stretch he came on like a wild horse, passing the leaders on the outside.

THE SIMPSON STORE

"Preparedness" for Exhibition Time is the Watchword Here Today

Get Ready! During the next three weeks all roads will lead to Toronto and the Exposition, and hundreds of homes will be thrown open to the visitors. We have made great preparations to supply the manifold needs of these homes in accommodating the season's guests.

The August Furnishing Sales comprise hundreds of special values that will be helpful. You can make the improvements in your home permanent by joining the **HOMELOVERS' CLUB** and buying now the grade of furnishings you really want, instead of those that merely "will do." See Club Secretary, 4th Floor.
