NORTHROP & LYMAN'S  
**EMULSION OF  
 COD LIVER OIL**

— AND THE —  
**HYPOPHOSPHITES OF LIME AND SODA.**

*For the Prevention and Cure of Coughs, Colds,  
 Spitting of Blood, Bronchitis, Laryngitis, Scro-  
 fula in various forms, and all affections per-  
 taining to Consumption.*

Thousands perish before the meridian of life is reached in consequence of disregarding lung disease in its earlier stage. Consumption fastens its relentless grasp upon them while they do not even suspect its advent. Trifling or tampering with a cough will not answer. Delay and unwisely chosen medicines both encourage its progress. The proper course is to select a well-known and sterling remedy, and use it systematically at the outset. The best is Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda. The value of Cod Liver Oil as a pulmonary is too well known to require comment. This time-honored specific and tonic also possesses properties as a blood purifier which render it valuable in cases of scrofula. Persons of weakly constitution derive from it a degree of vigor obtainable from no other source, and it has even proved itself a most efficient protection to those troubled with a hereditary tendency to the maladies it is adapted to prevent and relieve. As before intimated, its prompt use is particularly recommended. In a climate rigorous as our own, and where the summer is so fleeting, persons with weak chests and lungs are specially in need of a reliable medicinal safeguard. They will find none so well adapted to their wants as this thoroughly tested and highly approved article.

It is composed of pure COD LIVER OIL, combined chemically with the HYPOPHOSPHITES OF LIME AND SODA, so as to retain all their medicinal qualities. The action of Cod Liver Oil is nutritive and alterative; it has long been used as a domestic remedy in chronic, rheumatic and strumous diseases, and the results have been most wonderful; and combined as it is with the Hypophosphites, which contain the active principle of phosphorus—and phosphorus is the most heating power of the blood and a vital element in the tissues of the body, brain, and nervous system—and the lime and soda, which constitute the strengthening properties of the bones, form an invaluable agent in supplying through the blood to the system the material essential to life and health. It excites expectoration, and causes the lungs to throw off the phlegm or mucus which chokes the secretions, heals the irritated membrane of the respiratory organs, and restores to the digestive organs, and the system.

Such is the immediate and satisfactory effect, that it is sure to break up the most distressing cough in a few hours, if no cough has long standing. When examined after death, the lungs of those who have died of tubercular consumption are found to be honey-combed with little cells full of purulent matter. To this terrible condition the lungs of any one may be brought who neglects a cough or cold. Unfortunately, many so-called cough remedies are ineffective as well as impure, containing ingredients absolutely prejudicial to the physical wellbeing of those who use them. There is, however, a source of renewed health and strength upon which persons harassed and weakened by lung and bronchial affections can depend with certainty. We refer to Northrop & Lyman's Emulsion of Cod Liver Oil and the Hypophosphites of Lime and Soda, which is justly esteemed throughout the Dominion for its effectiveness and purity. The medical faculty have long recognized the value of purified oil, obtained from the cod's liver, in throat and lung affections, and the hypophosphites are universally prescribed in cases of pulmonary decline and general debility. This medicine not only counteracts pulmonary inflammation and arrests physical decline, but is a valuable remedy in scrofulous cases. As a means of checking and compensating for the tremendous waste of bodily tissue caused by lung and chest diseases—of healing and soothing the irritated membrane of the breathing organs, and of promoting the development of pure, rich blood—this preparation has no equal.

**PLEASANT TO THE TASTE.**

Children and persons with weak constitutions have always found great difficulty in taking Cod Liver Oil, and from this fact it has not been universally used, but with Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda this prejudice is removed. It is so thoroughly disguised that you cannot detect the Cod Liver Oil. One physician writes us that it is used almost as a beverage in his family; another person informs us that he had to hide the bottle from his children.

**DIRECTIONS.**—Shake the bottle well before using, and give a tablespoonful three times a day to an adult, and a teaspoonful to children.

*Price, 50 Cents and \$1 per Bottle.*

Prepared by

**NORTHROP & LYMAN, Toronto.**

Read carefully the testimonials on page xx.

Pawnbrokers prefer customers who are without any redeeming qualities.

"Ten dimes make a dollar," said the schoolmaster. "Now, go on, sir. Ten dollars make one—what?" "They make one mighty glad these times," replied the boy; and the teacher, who hadn't got his last month's salary yet, concluded that the boy was about right.

# DR. THOMAS' ELECTRIC OIL

WORTH ITS WEIGHT IN GOLD

The most wonderful medicine ever sold in the New World is Dr. Thomas' Electric Oil. It has done more to alleviate suffering than any other preparation, and never was there a remedy which received ampler or more satisfactory endorsements. Testimonials constantly pour in demonstrating its superlative efficacy, and placing beyond doubt the fact that it fully deserves the confidence that the people place in it. And why has it received such special favor? Simply because it performs all that the proprietors claim it will do. Although only in this country but nine years, it has worked its way into nearly every house in the Dominion, and has become the standard healer, and has won for itself golden opinions from the afflicted.

It is welcomed with emotions of delight by those suffering the terrific twinges endured by Rheumatics, and many are the letters we have received telling of the wonderful cures when all other applications have failed.

This matchless compound not only possesses remedial efficacy of the highest order, but inasmuch as it contains no alcohol, its influence is not weakened by evaporation, which is the case with a great many oils of doubtful efficacy with an alcoholic basis. It is an incomparable specific for affections of the Throat and Lungs, remedies Chronic Hoarseness and Feebleness of the Voice, and is a superb remedy for that harassing, obstinate and consumption-breeding malady—Catarrh.

This peerless remedy overcomes with equal certainty, Swelling of the Neck, Inflammation of the Muscles and Stiffness of the Joints, Lameness and Crick in the Back, Tumors, Piles, Dysentery, and a variety of other painful and harassing disorders. It may be taken inwardly with as much safety as it is applied outwardly.

Reader, are you seeking relief from any of the many ills that the human body is heir to, or have you a friend that you wish restored to health and strength? If so, read the testimonials that you will find in this book, and what this wonderful oil has done for others it will do for you or your friend.

Do not suffer a lifetime of torture with Rheumatism, when an effectual remedy can be procured for twenty-five cents; and to the asthmatic we would say, use Dr. Thomas' Electric Oil, and you will not have to sit all night in a chair. It quickly removes the difficulty, and will allow you to rest on your couch.

SAFE, CERTAIN, PROMPT, ECONOMIC.

These few adjectives apply with peculiar force to Dr. Thomas' Electric Oil, the standard external and internal remedy for the cure of

Rheumatism,	Croup,

NOTICE THIS.—There are several unprincipled persons who are endeavoring to sell *Imitation Oils*, calling them "Electric" or "Electron," and when you ask for *Dr. Thomas' Electric Oil*, they hand out their imitation. Beware of such dealers. Ask for *Dr. Thomas' Electric Oil*, and see that the signature of *S. N. THOMAS* is on the wrapper, and the names of Northrop & Lyman are blown in the bottles, and take no other, as all others are worthless imitations. Price, 25 cents.

NORTHROP & LYMAN,  
Toronto, Ontario,  
Proprietors for the Dominion.

INTERJECTING PERSONAL PRONOUNS.—Highlanders have the habit, when talking their English, such as it is, of interjecting the personal pronoun "he" where not required, such as "The king he has come," instead of "The king has come." Often, in consequence, a sentence or an expression is rendered sufficiently ludicrous, as the sequel will show. A gentleman says he has had the pleasure of listening to a clever man, the Rev. Mr. — (let his locality be a secret), and recently he began his discourse thus:—"My friends, you will find the subject of discourse this afternoon in the First Epistle General of the Apostle Peter, fifth chapter and eighth verse, in the words, 'The devil he goeth about like a roaring lion, seeking whom he may devour.' Now, my friends, with your leave, we will divide the subject of our text to-day into four heads. Firstly, we shall endeavor to ascertain 'Who the devil he was.' Secondly, we shall inquire into his geographical position, namely, 'Where the devil he was, and 'Where the devil he was going.' Thirdly—and this of a personal character—'Who the devil he was seeking.' And fourthly and lastly, we shall endeavor to solve a question which has never been solved yet. 'What the devil he was roaring about.'"

At a camp meeting last summer a venerable sister began the hymn—

"My soul, be on thy guard;  
Ten thousand foes arise."  
She began too high. "Ten thousand," she screeched and stopped. "Start her at five thousand," cried a converted stock-broker present.

Many people have no other way to succeed in this world than to pull others back. But the true way is to elevate others as high as we can; then put ourselves above them.

The more intelligent a man becomes the less he thinks of himself and the more he thinks of others.

A Boston artist painted an orange peel on the sidewalk so naturally that six fat men slipped down on it.

An Englishman at a hotel in New York asked the clerk if there were "oysters in the hotel." "Oh, yes," was the answer: "step right into the restaurant, we don't keep them in the office." "Egad!" said Mr. John Bull, "I think you misunderstand me; you know, I mean a 'oyster, don't you know, a lift, a hellevator, maybe you call it in this country."

An Irishman once saw a clock which showed the Greenwich and Dublin time, and he saw that the Dublin time was twenty minutes behind that of Greenwich, and he asked how that was, and it was explained to him that Dublin being to the west of the first meridian, must have its time later than that of Greenwich. "Then, be the powers," says Pat, "there is another injustice to ould Ireland."

A DEAD WEED BEAT.—A young man was sent out by his mother to weed beets, and when she looked at the bed she found the beets all pulled up and the weeds remaining, she exclaimed, "As a weeder thou art a dead beet."

A sociable man is one who, when he has ten minutes to spare, goes and bothers somebody who hasn't.

## Holloway's Worm Lozenges.

Certain and Safe Remedy for Worms in Children and Adults.

Knowing the sad effects and innumerable diseases produced by worms, the proprietors of "HOLLOWAY'S WORM LOZENGES" offer them to the public as a certain and safe remedy both for children and adults; at the same time assuring them that no mineral or any other hurtful ingredient enters into their composition; they are composed of highly concentrated virtues of medicinal plants which prove effectual in expelling Worms, but cannot injure the constitution of the most delicate infant. At the same time the utmost care is used in their manufacture to secure uniformity of strength.

They are palatable and self-administered to the child; are sure to kill and expel worms from the stomach and intestines. They also aid digestion, and restore children to perfect health.

**SYMPTOMS OF WORMS.**—The following are a few of the very numerous symptoms and diseases which are caused by worms:—Deranged appetite, emaciated extremities, offensive breath, frequent picking at the nose, grinding of the teeth during sleep, and sometimes convulsive fits, pain in the head and stomach, unquiet sleep, faintings, tremblings, coughs, indigestion, low spirits, frightful dreams, and a gradual wasting away of flesh.

Sold by all Druggists and Medicine Dealers at 25 cents per box.

Each box contains the *fac-simile* signature of NORTHROP & LYMAN, Toronto, Ont., who are the sole proprietors.

N.B.—Ask for HOLLOWAY'S WORM LOZENGES, and take no other.

In Paris they call grey hair "a little dust from the road of life." Isn't that nice?

Ask a St. Louis man about Chicago, and he will admit that there is such a place in Illinois; but he will add, "It is all mortgaged to Boston."

A smart little boy in New Orleans was reproved by his mother for telling a fib. He insisted it was only in fun, but his pious mother told him he must ask Divine pardon. So the little boy knelt down and said: "Oh, Lord, forgive me. I wouldn't have done it, only I thought you could take a joke."

## Copland's Sweet Castor Oil.

EQUALLY SUITABLE FOR CHILDREN AND ADULTS

Endorsed by over 600 Doctors in Canada.

The difficulty of administering nauseous medicines, and the desirability of having them pleasant to the taste, induced T. Copland to undertake researches which resulted in the discovery of a sweet Castor Oil, perfectly palatable, of the same strength and medical qualities as the ordinary Castor Oil, and, while equally safe and harmless, yet acting with more certainty, and producing neither nausea nor griping. Some children say it is honey; others call it syrup—they all say they like it. One parent says: "My children drink it like water;" another: "We had to hide the bottle or they would have finished it right off;" another: "My little girl has taken it twice without any trouble, and does not know what it is, though she hates the ordinary Castor Oil, and we could never get her to take it without a fight." Yet another: "I wish you success of your Sweet Castor Oil; it is a splendid thing, sure to take the place of all the common oil."

The extraordinary demand for this improvement on a staple household medicine has brought fraudulent imitations into the market, but the public can guard themselves against substitutes (which unprincipled parties are attempting to sell on the reputation of this article) by seeing that the name "COPLAND'S SWEET CASTOR OIL," is on both wrapper and direction label.

Dr. W. COBURN, Oshawa, writes: I have prescribed your Sweet Castor Oil a number of times since its introduction to the trade and members of the profession in this place, and in every instance with the greatest satisfaction; in some cases in which I had occasion to administer it, notwithstanding the existence of a feeling of dislike amounting to almost absolute intolerance, the patients were unwilling to admit that it was the cause of their illness. I have every confidence in it and will feel it a pleasure to recommend it to my patients.

Below are names of a few Medical men acquainted with Copland's Sweet Castor Oil, who certify that it is a great improvement on ordinary Castor Oil, and recommend it as pleasant, harmless, efficacious, and supplying a long-felt want:

G. S. Herod, M.D., Guelph; Thos. Swan, M.B. Hespeler; W. H. Vardon, M.D., Galt; J. M. Fraser, M.R.C.S., Eng., London; Wm. S. Boyie, M.D., Bowmanville; D. J. Grant, M.D., Winchester; G. A. Carson, M.D., M.R.C.S.O., Whitby; H. T. Ridley, M.D., Hamilton; M. F. McTaggart, M.D., London; James J. Hall, M.D., St. Marys; J. Williams, M.D., Oakville; M. K. Church, M.D., C. M. Merrickville; R. Tracey, M.D., Belleville; Francis Rae, M.D., Oshawa; W. O. Eastwood, M.D., Whitby; E. J. Ogden, M.D., Oakville; Thomas Miller, M.D., West Flamboro'.

The undersigned, having purchased Messrs. T. Copland & Co.'s interest in the above preparation, are now manufacturing it from the original recipe.

The man who don't advertise has his store hung around with shingles, pieces of barrel-heads, inscribed with lamp-black, "Irish Potatoes," "Korn Meel," "Flowers," "all kinds of contry produce," "Kaikes and Kandies for sale here." He says, "there aren't no sens in noospaper advertizen' as long as a man is smart enuff to tend to his own business and kin stand at the door and hol'er fellers in."

"As I was going over the bridge the other day," said a native of Erin, "I met Pat Hewins. Hewins," says I, "how are you?" "Pretty well, thank you, Connelly," says he. "Connelly," says I, "that's not my name." "Faith, then no more is mine Hewins." So with that we looked at each other again, and sure enough it was nayther of us.

The Sultan has 4,000 servants; and yet we dare say when the furnace fire won't work the Sultana tells him it is the hired girl's night out, and he has to go shining around in the cellar to warm up the harem again.

"Your handwriting is vory bad, indeed," said a gentleman to a friend more addicted to boasting than to study; "you really ought to learn to write better." "Ay, ay," replied the young man, "it is all very well for you to tell me that, but if I were to write better, people would find out how I could spell."

A small boy, boasting of his father's accomplishments, said: "My father can do almost anything; he's a notary public and he's an apothecary, and can mend teeth, and he is a doctor, can mend waggons and things, and play the fiddle; he's a jackass at all trades."

Mar's lot is not a happy one. No sooner is he free from his mother's apron strings and slipper, than he becomes the slave of some tyrant in pink and white, and marries. His wife then bosses him until a baby comes along, and then the baby bosses the whole family.

Freckles are not so bad. It is said that one girl does not object to seeing them on another girl's face.

# Northrop & Lyman's Quinine Wine.

The Best Appetizer and Tonic Known  
And in such diseases as

Fever and Ague, Intermittent and Bilious Fevers,  
Dyspepsia, Nervous Affections, Convalescence from Exhausting Diseases, and  
Functional Derangement of the Stomach,

It will be found unrivalled. The remedies frequently prescribed for Fever and Ague have reference only to preventing the paroxysm or breaking the chill, without regard to the condition in which the system may be left after the chills have been removed; whereas the mere suppression of the paroxysms in reality is but a small part of what is required to perfect a radical cure.

The various organs of the body, more especially of the stomach and liver, must be brought into a healthy condition, otherwise a relapse will be the result. The true reason, therefore, why relapses of Fever and Ague are so frequent is that the causes of the disease have never been thoroughly eradicated from the system.

This preparation combines all the medicinal virtues of those articles which long experience has proved to possess the essential qualities of a tonic in building up the weak and nervous system.

It excites the Digestive Organs to a new and healthy action, and exhibits its most important therapeutical powers as an anti-periodic, and is to be preferred to most other medicines as a tonic, being less obnoxious to the stomach and intestines.

After its administration the general system becomes more or less influenced, the pulse being fuller and more rapid, and a gentle stimulus imparted to the various organs of the body.

In persons of a nervous temperament it is specially recommended. It will remove that low, despondent feeling so peculiar to nervous persons.

After using it for a short time they will find their appetite improved, their spirits become more cheerful; sleepless nights, twitching of the muscles and trembling of the limbs, will disappear, and they will feel and know that every fibre and tissue of their body is being braced and renovated.

The peculiar operation of this medicine has undergone long and close observation, and it is believed it will never fail if properly and judiciously administered, unless other diseases predominate of a different character.

## PERSONS OF A WEAK CONSTITUTION

May take it without the least difficulty, as it contains nothing injurious to the most delicate constitution.

The following letters have been received from patients who have used it, and are ready to testify to its merits at any time:

Mr. M. M. WHITCRAFT, Manager for G. G. Green, 37 Front Street East, Toronto, writes: "My wife suffered many years from prostration of the nervous system, without receiving much relief until I tried your Quinine Wine, and I am happy to say that it has been of great benefit to her in restoring the vital powers, and also as an appetizer, and would freely recommend it to all suffering from nervous debility."

Mr. E. T. MULLIGAN, Toronto, writes: "In gratitude to you for what your most valuable medicine, 'Quinine Wine,' has done for my wife, I wish to express my best wishes, and hope that all sufferers from disease to which your medicine is adapted will not hesitate in resorting to its use. My wife having been troubled with general debility, and having no appetite or relish for her food, I procured a bottle of your Quinine Wine, and after submitting it to our family doctor, he told me he could prescribe nothing better. Thanking you for what it has accomplished, I am, &c."

Mrs. JOSEPH SPENCER, Toronto, writes: "Having been a sufferer from general debility and weakness, so peculiar to persons of a nervous temperament, I was induced to try your Quinine Wine. After taking the first bottle, it had such a decided effect that my system began to rebuild and my appetite was so much improved that I decided to continue the medicine; and I have no hesitation in saying that after I used the second bottle I was quite restored to my natural health. I feel as if I cannot find words to express my feelings to you for what your medicine has done. I have also recommended it to my friends troubled in like manner, and in every instance it has met with the same results. I wish your medicine every prosperity."

Mr. A. C. VANBUSKIRK, Kingston, N. S., writes: "Send me three dozen of your Quinine Wine at once. I have only one bottle in stock. It is a wonderful medicine."

Mrs. WILLIAM SHELTON, 32 Stafford St., Toronto, writes: "I beg leave to acknowledge the good I have received from the use of your most valuable medicine, Quinine Wine. For the past two or three years I have been subject to weakness and loss of appetite, and being recommended by a lady friend to try your Quinine Wine I procured a bottle from my druggist, and it gives me the utmost pleasure in informing you that it has done me more good than what is claimed for it. I do, without hesitation, recommend it to all sufferers from like diseases."

ST. PATRICK'S DAY.—Milkman to Bridget (who appeared in a bower of green ribbons in honor of the day)—“If you're not careful, Bridget, some peckass will be taking a bite of you, you're so green.” Bridget—“Try it.” Milkman subsides. It is easy enough to advise a boy to tell the truth, even if it brings him a licking, but it comes hard to live up to the principle where one is trading horses two or three times per month. “The only jokes women like to read are those which reflect ridicule upon men.” “Yes,” says a contemporary, “on taking up a paper a woman invariably turns to the marriage column.” A gentleman, speaking of a young lady who was studying medicine as “a dear little duck,” a friend remarked, “I am sorry to hear that.” “Why so?” asked the gentleman. “Because,” replied the friend, “if she is a duck, I am afraid she will make a quack doctor.”

An old darkey, who was asked if in his experience prayer had ever been answered, replied: “Wal, sah, some pras is ansud an' some isn't. 'Pends on wat you axes fo'. Just arter de wah, wen it was mighty hard scratchin' fo' de cullud bruddern, I 'sarved dat weneber I pway de Lord to sen' one o' Marse Peyton's fat turkeys fo' de ole man, dere was no notice took of de partition; but wen I pway dat he would sen' de ole man fo' de turkey, de matter was tended to befo' sun up nex' mornin', dead sartin’.” “What earthly use is it,” exclaimed a languid Washington swell, the other day, “our trying to be awistocwatic, morarchical and that sort of thing, when a senator of the United States eats peanuts while widing in the street cur! We're nothing but a hawid wupublic affaw ail.” When a man attains the age of 90 he may be termed XC dingly old.

REMARKABLE CURES OF RHEUMATISM

BY  
Dr. Thomas' Electric Oil.

A lifetime of torture is often endured by the rheumatic. Their pangs may, however, be promptly relieved, and the disease eradicated, with Dr. THOMAS' ELECTRIC OIL.

Mrs. D. MORRISON, Farnham Centre, P.Q., writing about this celebrated medicine, says: George Bell used it on his son, and it cured him of Rheumatism with only a few applications. The balance of the bottle was used by an old gentleman for Asthma with the best results. It acts like a charm.

HENRY CLEMENT, Ajmonte, writes: "For a long time I was troubled with chronic Rheumatism, at times wholly disabled; I tried anything and everything recommended, but failed to get any benefit until a gentleman who was cured of Rheumatism by Dr. THOMAS' ELECTRIC OIL told me about it. I began using it both internally and externally, and before two bottles were used, I was radically cured. We find it a household medicine, and for Croup, Burns, Cuts and Bruises, it has no equal."

JOSEPH BUSAN, Percy, writes: "I was induced to try THOMAS' ELECTRIC OIL for a lameness which troubled me for three or four years, and I found it the best article I ever tried. It has been a great blessing to me."

JOHN HAYS, Credit P. O., says: "His shoulder was so lame for nine months that he could not raise his hand to his head; but by the use of ELECTRIC OIL the pain and lameness disappeared, and although three months has elapsed, he has not had an attack of it since."

THOMAS ROBINSON, Farnham Centre, P.Q., writes: "I have been afflicted with Rheumatism for the last ten years, and have tried many remedies without any relief. Last January I got a bottle of Dr. THOMAS' ELECTRIC OIL, and found it gave me instant relief, and since then I have had no attack of it. I would recommend it to all."

A. B. DES ROCHERS, Assistant Postmaster, Arthabaskaville, P.Q., writes: "Thirteen years ago I was seized with a severe attack of Rheumatism in the head, from which I nearly constantly suffered until after having used your THOMAS' ELECTRIC OIL for nine days, bathing the head, &c., when I was completely cured, and have only used half a bottle. This I can certify under oath."

W. W. McLELLAN, Lyn P. O., N. S. writes: "I was afflicted with Rheumatism, and had given up all hopes of a cure. By chance I saw Dr. THOMAS' ELECTRIC OIL recommended. I immediately sent (fifty miles) and purchased four bottles, and with only two applications I was able to get around, and although I have not used one bottle I am nearly well. The other three bottles I gave

around to my neighbors, and I have had so many calls for more, that I feel bound to relieve the afflicted by writing to you for a supply."

A NEVER FAILING REMEDY.

Messrs. PARKER & LAIRD, of Hillsdale, N. Y., "Our Mr. Laird having occasion to visit Scotland and knowing the excellent qualities of Dr. THOMAS' ELECTRIC OIL, concluded to take some with him. The result you will find by the enclosed letter which speaks for itself. We may say that in several instances it has effected cures when ailments had been pronounced incurable by eminent practitioners."

ST. MARGARET'S HOPE, ORKNEY, SCOTLAND  
Messrs. PARKER & LAIRD: I am requesting several friends to order another parcel of your THOMAS' ELECTRIC OIL. The last lot I got you having been tested in several cases of Rheumatism, has given relief when doctors' medicines have failed to have any effect. The excellent qualities of this medicine should be made known to the millions of sufferers throughout the world may benefit by its providential discovery.  
Yours, etc., GILBERT LAIRD

N. McRAE, Wyebridge, writes: "I have used large quantities of Dr. THOMAS' ELECTRIC OIL for, in fact, for any affection of the throat it will cure like magic. It is a sure cure for Burns, Wounds and Bruises."

A young lady who has a Sunday school class rather bright boys, averaging between 7 and 12 years, requested each pupil to come on the following Sunday with some passage of Scripture bearing upon love. The lads obeyed her wish, and recited their verses bearing upon that topic, such as "Love your enemies," "Love your children, love one another," etc. The teacher then to the boy whose turn came last, "Well, Robert, what is your verse?" Rising, he responded: "Stay with flags, comfort me with apples; for I am weary of love."

A certain religious society in a certain college not far away had a catalogue of the subjects prepared for the daily prayer-meeting. A young man who held of the proofs, and the Christian young men were not a little surprised and horrified to see that they were to meditate on such things as "Christ cometh with His saints and His angels and His cousins and His aunts," and "What shall be the guide of a young man's life? Never trust your partner's acc."

A boy can imagine almost anything; he can imagine that he is having a howling good time. But all attempts to induce a boy to pretend that he is killing Indians when he is sawing wood will prove futile.

At a recent Sunday-school session the Superintendent was talking about idols, when it was ascertained whether the children were understanding what he was saying, he asked: "Children, what was an idol?" "Being lazy," was the loud and quick response of one of the members of the juvenile class.

When a woman makes up her mind, she shall not set, and the man shall not set, and the man shall not set, and the man shall not set, and every law of nature is violated.

A Massachusetts clergyman, who had been a year, which was raised to the rank of a minister, tested because it took half a year, and if he had the \$600,000, he would have been no time for writing sermons. After man came woman, and after him ever since.

Men are geese, women are geese, and a feather flock together. It is said that the most man can hold is that of a Mason.

The most useful pedestrian walks up and down the road with a baby.

When a woman makes up her mind that a hen shall not set, and the hen makes up her mind that she will, the irresistible meets the immovable, and every law of nature is broken or prevented.

A Massachusetts clergyman was receiving \$300 a year, which was raised to \$600. But he protested because it took half his time to collect the \$300, and if he had the \$600 to collect there would be no time for writing sermons.

After man came woman. And she has been after him ever since. Men are geese, women are ducks, and birds of a feather flock together.

It is said that the most unhealthy position a man can hold is that of being "the oldest Mason."

The most useful pedestrian is the man who walks up and down the room all night with the baby.

A little girl was reproved for playing out-doors with boys, and informed that being seven years old, she was too big for that now. "Why," said the little innocent, "the bigger we grow, the better we like them."

Always manage to live so as to leave something at death. A Chicago man of ninety-eight years of age married the other day because he thought it far better to leave a widow than nothing.

Learn not to judge too harshly of any one, either in respect to good or evil, for both are dangerous.

Artemus Ward once began a lecture by saying: "Ladies and gentlemen, I possess a gigantic intellect, but I haven't it with me."

A young lady who was rebuked by her mother for kissing her intended, justified herself by quoting the passage, "Whatsoever ye would that men should do unto you, do you even so unto them."

## Mitchell's Memorial Cologne.

The Most Exquisite Perfume of the Century.

QUALITIES FINE, FRAGRANT AND LASTING

Ladies and Gentlemen who would like a bottle of very fine Perfume, ask your druggist for Mitchell's Memorial Cologne, and you will get an article that will give you satisfaction. One of the peculiarities of this Cologne is that you do not require to use near as much as of any other, and it retains its sweetness and delightful aroma much longer than any other Cologne. In fact, it is preferred by many to the imported extracts of white rose and jockey club, as it continues to emit its delightful fragrance sweet and unimpaired as long as any trace of it remains. Mitchell's Cologne contains the most costly ingredients of any in the market, and is sold as low as some of the cheap, worthless articles forced upon the public.

The words "Mitchell's Memorial Cologne" are blown in each bottle; none others are genuine.

Price—25 cents, 50 cents, 75 cents, and \$1.00, according to size.

For sale by all Druggists and dealers in Perfumery.

NORTHROP & LYMAN,  
Toronto, Agents for Canada.

A game of cards—Formal visits.  
Popular definition of Conscience—My rule for another man's conduct.

Can a year remarkable for its hideous fashions be remembered as a year of grace?

Some men who are reported to live on their wits must live on very limited premises.

A prudent man, says a witty Frenchman, is like a pig—his head prevents him from going too far.

All efforts to make hay by gaslight have failed; but it has been discovered that wild oats can be sown under its careful rays.

A firm had an offer of marriage the other evening, and, rushing up-stairs, said, "Mamma, am I engaged to anybody now?"

A gentleman named two canaries "Wheeler" and "Wilson." His reason for this appellation is that neither of them is a "Singer."

An enthusiastic African, who had "spent the winter in Jamaky," found it an earthly paradise. He said he could "lie abed, and, putting his arms out de windy, pick oranges, pine-apples, and Jamaky rum right out de trees."

Says a Frenchman who has lived in America for some years: "When they build a railroad, the first thing they do is to break ground. This is done with great ceremony. Then they break the stockholders. This is done without ceremony."

TWO EPITAPHS.

Reader, I have left a world  
In which I had a world to do,  
Sweating and fretting to get rich  
Just such a fool as you.

Another:

John Trees, aged seventy-four years  
Poorly lived and poorly died,  
Poorly buried, and no one cried.

## Darley's Arabian Oil, for Horses

This is an external application, possessing extraordinary medicinal properties, and without doubt the best remedy for GALLS of all kinds, SCRATCHES, FLESH WOUNDS, SPRAINS, BRUISES, RINGBONE, SPAVINS, SWEENEY, CRACKED HEELS, WIND-GALLS, FISTULA LAMENESS, SANDCRAGAS, STRAINS, FOUNDERED FEET, and all cases where an external application is required.

This truly valuable preparation is composed of several rare and costly oils, and possessed of most extraordinary medicinal properties. It is always used by the Arabs for all purposes for which an external application is required. To the use of this article, in connection with the Condition Powders and Heave Remedy, is to be attributed, in a great measure, the superiority of their horses—their smoothness of limbs, polish of skin, gracefulness of action, remarkable speed, and ability to endure much labor and fatigue. It is, beyond doubt, superior to anything of the kind heretofore known or used in this country, and possesses properties which no other article of the kind does.

The Recipe for preparing this oil was originally procured by Mr. Darley from the same Chief of Sheik from whom he received the Recipe for the Condition Powder and Heave Remedy. He always used it on his own horses, and also furnished it to many of his most intimate friends, all of whom unite in expressions of unqualified approval. By its timely use, a vast amount of pain and suffering will be prevented, and not unfrequently have the lives of horses been saved. Its effects on the muscles and joints, in removing swelling and stiffness, also for cuts and bruises, are truly astonishing. The expense is but trifling, when compared with the benefit resulting from its use, and the satisfaction of always having a remedy at hand that can be depended on in cases of accident, to which horses are every day exposed.

NORTHROP & LYMAN, TORONTO,  
Proprietors for Canada.

Price, 25 Cents.

About the best schism a man can be guilty of is wilfulness.

Call the baby Elaine, after Tennyson's heroine; then when she is cross, call her Maclaclaine.

An Aberdeen girl supposes the reason that she has never kindled a flame in a man's heart is that she is not a good match.

If you would be known and not know, vegetate in a village; if you would know and not be known, live in a city.

"You must not play with that little girl, my dear," said an injudicious parent. "But, ma, I like her; she is a good little girl, and I am sure she dresses as pretty as I ever do, and she has lots of toys." "I cannot help that, my dear," replied the foolish mother, "her father is a shoemaker." "But I don't play with her father, I play with her: she ain't a shoemaker."

Second thoughts are best. It is not the same with mortgages.  
 "How do you pronounce s-t-l-n-g-y?" the teacher asked the young gentleman nearest the foot of the class. And the smart bad boy stood up and said it depended a great deal whether it applied to a man or a bee. Go to the head, young fellow.  
 If we could see others as we see ourselves, there would be more good-looking people in the world.  
 "Will you have some more beans, Johnny?"  
 "No." "No what?" "No beans," says Johnny solemnly.  
 The Emperor of Germany is always going over to Ems. He should be looked after.

"I am very much afraid of lightning," said a pretty lady. "And well you may be," replied a despairing lover, "as your heart is made of steel."  
 Farmer (to city swell): "I s'pose if I was in New York, I should go gawkin round, just as you do up here."  
 AN IRISH EXPLANATION.—An Irish soldier who was boasting of his great courage, was asked why he ran away in battle. "Faith," said Pat, "my heart is as bold as a lion's, so it is; but I happen to have a pair of cowardly legs, which always run away wid me body when I'd be after fighting the inimy, bad luck to them."  
 He who has injured thee was either stronger or weaker; if weaker, spare him; if stronger, spare thyself.—Seneca.

## Canadian Pain Destroyer.

As a family medicine, it is well and favorably known, relieving thousands from pain in the *Side, Back and Head, Coughs, Colds, Sore Throat, Sprains, Bruises, Cramps in the Stomach, Cholera Morbus, Dysentery, Bowel Complaints, Burns, Scalds, Frost Bites, &c., &c.*

It is one of the most important and valuable agents known for the eradication of pain from all parts of the system. Tic-Douloureux, Toothache, Neuralgia, and other painful diseases of a like nature, are easily overcome by its heating power; Sick Headache, Cramps in the Stomach, Cholera Morbus, Dysentery, Sudden Colds, &c., all disappear under its magic operation; and whether used externally or internally, it gives immediate relief. In severe cases of Burns and Scalds it has been tried, and its cures have been very remarkable. Vomiting, Sea-Sickness, Heartburn, Sour Stomach, Dizziness, Faintness, &c., are relieved by taking a few drops in water. In fact, it is the medicine that should be in every family and for all emergencies, and if on hand, it will save you much expense, and your physician will not be hurriedly called to your house at unseasonable hours.

Many of the preparations shoved upon the market at the present day have no medical value, being prepared by persons without any knowledge of medicine, and in too many cases by very unscrupulous men, who only expect to do business for the time being. Their mixtures may appear similar to the Canadian Pain Destroyer; but not having been prepared by a chemist, and without any regard to proportions of the ingredients, the chances are they will do you more harm than good.

But with this valuable and well known preparation it is different, as it is prepared with great care and by an experienced chemist, and is compounded from vegetable ingredients, the value and healing properties of which are beyond question.

Since first introducing the Canadian Pain Destroyer, we have made an alteration in the formula which has very materially improved it, and we are satisfied that it now has no equal as a pain destroying agent, and therefore recommend it with the greatest confidence to the suffering public; and to all sufferers we would say, do not let your prejudice or the prejudices of others stand in the way of relief that is sure to follow the use of this standard medicine.

Simple necessities: "Oh, yes, we can supply you with anything in the foot-ball line." Customer (Secretary of foot-ball club): "Ah, then, I take half a dozen pair of crutches and a few yards of sticking plaster."

## READ THE FOLLOWING.

AGRICULTURAL WORKS,  
NEWCASTLE, ONT., August 18th.

Messrs. Northrop & Lyman:

GENTLEMEN,—I have used your "Canadian Pain Destroyer" in my family for the last ten years and for a general medicine I believe it is the best I have ever used. For Rheumatism, Neuralgia, Pains Crick in the Back, Sore Throat, Pains the Chest and Side, Frost Bites, Burns and Bruises, &c., I do not think it has any equal.

I have from 100 to 120 men working for me constantly, and have heard many of them speak of its merits in the highest terms.

H. A. MASSEY, Proprietor.

Prof. A. B. KENT, of Newcastle, says:—"Having had occasion recently to test the qualities of the Canadian Pain Destroyer in cases of those complaints so peculiar to this season of the year, in my own family, as well as at other times to other ailments, I deem it but just to yourselves and a duty to the public to record my high appreciation of this remedy. It has never, so far, failed me, and I have great confidence in it, especially for summer complaint and colds."

NEWCASTLE, August 18th.

Northrop & Lyman:

SIRS,—I have been a great sufferer from Neuralgia for a length of time, and have tried several good physicians and quite a number of patent medicines, which afforded me only slight relief; finally, I was recommended to try a bottle of Canadian Pain Destroyer, which, in justice to yourselves, I must say has done me more good than anything else I ever tried. I have much pleasure in recommending this medicine to all similar afflicted.

Yours,

F. BOATE.

DR. SAMUEL SHERICK, Waterloo Township, says:—"I have used in my practice considerable quantities of Canadian Pain Destroyer, and with very satisfactory results in Rheumatic Affections, Diarrhoea, C. sic, Cramps, Lameness, Pains of the Bones, Joint s, &c." PRICE, 25 CENTS.

NORTROP & LYMAN,

Sole Proprietors, TORONTO, ONT.

Exceedingly evangelical young lady: "Poor old Jones seems to suffer very much from rheumatism. Though rather late, I think if he were confirmed it might do him good: don't you, Mr. Trotter?" But even the worthy little curate could not subscribe to this.

Shakespeare asks "What's in a name?" If he had been studying Eastern war maps he would have found that thirty-five consonants and three vowels were in most of them.

"Woman is a delusion, madam!" exclaimed a crusty old bachelor to a witty young lady. "And man is always hugging some delusion or other," was the quick retort.

**POINTS ON ETIQUETTE.**  
 Letters should never be crossed.  
 Anonymous letters are beneath notice.  
 Letters or introductions should be brief.  
 "Yours, etc." is a rude ending to a letter.  
 Say "Good-bye" and not "Good morning."  
 Upon leaving a room, one bow should include all.  
 Never wait over fifteen minutes for a tardy guest.  
 A note requires as prompt an answer as a spoken question.  
 Regrets in reply to invitations should contain the reason therefor.  
 At table you are not required to thank the one who waits upon you.  
 "Yours truly" is the correct form for closing business, not for friendly letters.  
 The custom of leaving a blank margin on the left hand side of each page of a letter is absolute.

To return a personal call with cards enclosed in an envelope, signifies that visiting between the parties is ended.  
 A BALD DESCRIPTION.—Scene near Ballachulish — "Sandy, will ye hae seen the new factor?" "Oo, ay." "And will he be a decent-looking man?" "Ay, he is a stoot lad, and barefooted on the croon o' his head!"  
 A young lady who had been married a little over a year, wrote to her matter-of-fact old father, saying: "We have the dearest little cottage in the world, ornamented with the most charming little creepers you ever saw." The old man read the letter and exclaimed: "Twins, by Jove!"  
 RECKLESS INFANT.—A little bit of a girl wanted more buttered toast till she was told too much would make her ill. Looking wistfully at the plate for a moment, she thought she saw a way out of the difficulty, and exclaimed: "Well, give me annuzer piece and send for the doctor."

## A Sure Basis of Popularity

*Merril, apparent to a "cloud of witnesses," is the basis upon which the popularity of THOMAS' ECLECTRIC OIL is founded. Throat and lung complaints, pain, soreness, stiffness, swellings, burns, and ailments of various other kinds, yield to the action of this speedy and safe remedy.*

THOMAS MYERS, Bracebridge, writes: "THOMAS' ECLECTRIC OIL is the best medicine I sell. It always gives satisfaction, and in cases of Coughs, Colds, Sore Throat, Burns, &c., immediate relief has been received by those who use it."

D. SULLIVAN, Malcolm, Ontario, writes: "I have been selling Dr. THOMAS' ECLECTRIC OIL for some years, and have no hesitation in saying that it has given better satisfaction than any other medicine I have ever sold. I consider it the only patent medicine that cures more than it is recommended to cure."

M. A. ST. MARS, St. Boniface, Manitoba, writes: "Your ECLECTRIC OIL is a public benefit. It has done wonders here, and has cured myself of a bad cold in one day."

P. M. MARKELL, West Jeddore, N. S., writes: "I wish to inform you of the wonderful qualities of your ECLECTRIC OIL. I had a horse so lame that he could scarcely walk; the trouble was in the knee, and two or three applications completely cured him."

F. BURROWS, of the firm of Burrows and Winstanley, Sarnia and Wilkesport, writes that he was cured of a very dangerous case of inflammation of the lungs solely by the use of five bottles of ECLECTRIC OIL. Feels great pleasure in recommending it to the public, as he had proved it, for many of the diseases it mentions to cure, through his friends, and in nearly every instance it was effectual.

JAS. SHANNON, Leaskdale, writes: "For many years my wife was troubled with chilblains, and could get no relief until about two years ago; she was then not able to walk, and the pain was so excruciating that she could not sleep at night. Your agent was then on his regular trip, and she asked him if he could cure her. He told her ECLECTRIC OIL was a sure cure. She doubted his assertion, but eventually tried it, and judge of her astonishment when, in a few days, the pain was all allayed and the foot restored to its natural condition. Since then she has had slight attacks of chilblains, but one or two applications prove effectual. It is also the best remedy for burns and bruises I ever used."

POPE & BILLAN, Cedar Rapids, Iowa, write: "We never sold any medicine that gives so much satisfaction to the customer and pleasure to the

seller as Dr. THOMAS' ECLECTRIC OIL. We can refer you to numbers that have used it for Diphtheria with entire satisfaction and success.

ROBERT LUBBUCK, Cedar Rapids, writes: "I have used Dr. THOMAS' ECLECTRIC OIL both for myself and family for Diphtheria with the very best results. I regard it as the best remedy for this disease, and would use no other."

*Hearing Restored. The Wonder of the World!!*  
Messrs. NORTHROP & LYMAN

BETHANY, ONT.  
GENTLEMEN,—I feel it my duty to say a few words in regard to the great benefit I have received from the use of one of the wonders of the world, that is, Dr. THOMAS' ECLECTRIC OIL. I was one of the greatest sufferers for about fifteen months with a disease of my ear similar to Ulcers, causing entire deafness. I tried everything that could be done through medical skill, but without relief. As a last resort, I tried the ECLECTRIC OIL, and in ten minutes found relief. I continued using it, and in a short time my ear was cured and hearing completely restored.

I have used this wonderful healer successfully in cases of inflammation of the Lungs, Sore Throat, Coughs and Colds, Cuts and Bruises, &c.; in fact, it is a family medicine.

Yours truly,  
MRS. W. J. LANG.

PHYSICING HORSES.—Many persons physic their horses frequently—especially every spring. This is a great error, and one which has caused the loss of many valuable horses, as physic, as it is usually given, often produces inflammation of the bowels, which generally proves fatal; it also weakens the horse, and thus renders him more liable to disease or less able to throw it off. What is required is a medicine which will operate gently upon the bowels, and act upon the liver and lungs, removing all obstructions therefrom, purifying the blood and enabling all the organs to do their work without overtasking any, which is accomplished by the use of "Darley's Condition Powders and Arabian Heave Remedy"—it is always safe and certain. Remember the name, and see that the signature of Hurd & Co. is on each package.—Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all Medicine Dealers.

FIRE ESCAPE.—The oldest sort of fire escape on record is the fond husband who lies abed mornings.

"There, now," cried little Bessie the other day, rummaging a drawer in the bureau, "grandpa has gone to heaven without his spectacles!"

What middle-aged lady, who lets apartments, would not prefer to have a partial boarder?

The doctor's work fills six feet of ground, but the dentist's fills an acher.

A trying moment—when your new coat comes home from the tailor's.

A Toronto lady purchased a jacket at a Yonge Street store, and the clerk said he would send it right home inside of half-an-hour. In about four hours a pack-boy appeared with the garment, and the impatient lady exclaimed: "You boys are the greatest nuisance in the city. I suppose you stopped to play marbles or hunt up a lost dog?" "Indeed I didn't," he replied. "I went home to change hats, and ma she had to try on the jacket and parade before the glass. Then Katy put it on to make a call, and when she got back ma was determined to 'do' King Street to show it off, and I got here as quick as I could."

"Nothing in the world beats a good wife," said Jones, the newly-married. "Yes," answered Smith, the long-married, "a bad husband does."

"MARRIED.—At the residence of the bride's mother, by Epos Jones, Justice of the Peace, Ebenezer Sweet to Jane Lemon.

"Behold how strange extremes do meet  
In Jane and Ebenezer;  
For she's no longer sour, but sweet,  
And he's a lemon squeezer."

"How came these holes in your elbows?" said the Widow Smith to the irrepressible small boy. "Oh, mother, I hid behind the sofa when little Jack Horner was sayin' to our Jule that he'd take her even if you had to be thrown in; and he didn't know I was there, and so I held in and laughed in my sleeves till I burst 'em."

The carriage-maker never tires of the blacksmith does that for him.

## Young's Corn Solvent.

*Removes Corns in Twenty Minutes, without Pain or Cutting.*

The Solvent is a new compound, and contains neither Aquafortis, Vitriol, Muriatic Acid, nor any of those caustic ingredients generally used in medicine sold to cure Corns. As its name indicates, it softens the Corn, and it will not injure the finest muslin, if used in accordance with the plain printed directions supplied with the medicine.

### WHAT THE DRUGGISTS SAY

H. F. MACCARTHY writes: "Having tested YOUNG'S CORN SOLVENT, I find it to contain no acid or mineral in any way injurious. It seems especially adapted for the effectual removal of Corns. I have sold large quantities, and found it to give entire satisfaction."

C. O. DACIER, Ottawa, writes: "One of my customers had a toe so affected by a Corn that he decided to have the toe cut off. I advised him to try YOUNG'S CORN SOLVENT, which he did, and it entirely cured him in a short time."

W. A. JAMIESON writes: "Please send me immediately one gross of your CORN SOLVENT. My customers are delighted with its marvellous efficacy in extracting Corns."

**CAUTION**—Beware of Imitations. None genuine without YOUNG'S CORN SOLVENT on Label on top of each Bottle.

NORTHROP & LYMAN, Proprietors,  
TORONTO, ONTARIO.

A quaint old Scotch proverb runs thus: "An ounce of mother is worth a pound of clergy."

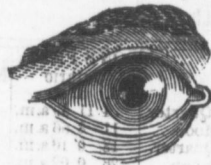

Conscious horse-car conductor (declining a tract which was offered to him with his fare): "Very much obliged, mum, but we ain't allowed to take any perquisites whatever, mum."

"Yis, yer riverence, all thim names he called me, an' siz I, 'I wouldn't demane meself to lose me timper wid such a low blaggard,' so I just knocked him over wid me sthick and kem away."

The pompous epitaph of a close-fisted citizen closed with the following passage of Scripture—"He that giveth to the poor lendeth to the Lord." "That may be," soliloquized Sambo, "but when that man died the Lord didn't owe him a red cent."

**CELEBRATE THE HOME ANNIVERSARIES.**—Whatever else you do or do not, see to it that you do keep up the home anniversaries. The days which are marked as with a white stone, because they brought a great joy to the house, the children's birthdays, the festal days of every kind, should not be passed by unnoticed. Multiply all the associations which will be dear to memory by and by, when the children are scattered far and wide, and the green grass waves over the graves of some now full of life and activity.

## Dr. J. D. Kellogg's Eye-Water.

*For the cure of all Diseases of the Eye, such as Inflammation, Films, Opacities, Specks, Abnormal Growths on the Mucous Surfaces, and Gangrene.*

The efficacy of this valuable preparation for most of the diseases to which the Eye is subject—such as acute or chronic inflammation, weakness or defect of vision, films, specks, opacities, abnormal growths on mucous surfaces, and gangrene—is unequalled, and the most aggravated cases of inflammation yield to its soothing influence and healing powers, and readily disappear under a persistent use of Dr. KELLOGG'S EYE-WATER.

Observe that you get the genuine Dr. KELLOGG'S EYE-WATER, which is now prepared only by NORTHROP & LYMAN, Toronto, and the wrapper on each bottle will bear a fac-simile of their signature. Sold by all Medicine Dealers at 25 cents per bottle.

## Payson's Indelible Ink.

Always reliable, is more indelible and leaves a blacker mark than any other writing ink. It will not spread after writing, and consequently can be used in cloudy or fair weather, and it will not injure the finest fabric; washing may be deferred until needed. The color, which is dark when written, becomes a beautiful ineffaceable Jet Black on exposure to a coal fire or a hot iron, or exposure twelve hours to the direct rays of the sun. This latter is best for securing a Permanent Jet Black. With care, Payson's Ink can be used with stencils and stamps.

NORTHROP & LYMAN, TORONTO,  
Wholesale Agents.

It pleases a woman to see a man hold a plate of refreshments on his knees at a party. He can't do it without turning in his toes.

A young apprentice to the shoemaking business asked his master what answer he should give to the often repeated question, "Does your master warrant his shoes?" "Answer, Thomas," said the master, "that I warrant them to prove good, and if they don't I'll make them good for nothing."

An impetuous fortune-hunter having been accepted by an heiress, at the wedding, when that portion of the ceremony was reached where the bridegroom says, "With all my worldly goods I thee endow," a spiteful relative of the bride exclaimed, "There goes his valise!"

A teacher asked a bright little girl: "What country was opposite us on the globe?" "Don't know, sir," was the answer. "Well, now," pursued the teacher, "if I were to bore a hole through the earth, and you go in at this end, where would you come out?" "Out of the hole, sir," replied the pupil, with an air of triumph.

The Philadelphia Chronicle-Herald says: "The reason why women have little or no success at fishing is because but few of them possess nerve enough to hold the worm between their teeth so that they can use both hands in getting the hook out of their back hair."

An admiring poet says of his best girl: "Upon her face a thousand dimples smile for me." How like the mischief a girl would look with a thousand dimples on her face. The poet must have meant freckles.

During the war an Irish peasant, who was posted with a musket on duty, and had wandered a little out of his position, was accosted by an officer with "What are you here for?" "Faith, your honor," said Pat, with his accustomed grin of good humor, "they told me I'm here for a century."

An old Highlander with two sons, one a minister and the other a doctor, being very proud of them, said to a friend, "Had I kent ane o' my sons was gaun to be a medical man and theither a clergyman, I wad never hae haen auld Jenny for their mither."

THE PLACE FOR A BOIL.—The last subject discussed by the Virgilian Debating Society was: "If you had to have a boil, where would you have it?" The unanimous decision the members was, "On some other fellow."

# PERSIAN BEAUTIFIER

For Beautifying and Preserving the Complexion,  
Removing Tan, Sunburn, Freckles, and all  
Roughness of the Skin.

THE PERSIAN BEAUTIFIER changes the sunburnt face and hard to a pearly, satin texture of rare beauty, imparting the marble purity of youth, and the distinguished appearance so inviting in the city belle of fashion.

It removes tan, freckles, pimples and roughness from the skin, leaving the complexion fresh, transparent and smooth, and imparting that bloom to the cheek which is the desire of every lady and the admiration of the sterner sex.

If a lady wishes to surround herself with admirers, she must not neglect her personal appearance. Beautiful women have been worshipped in all ages, and from present appearances are likely to be while the world lasts; and although some men may talk against the arts employed for retaining the freshness of youth, it is a fact that these same men are the first to withdraw their admiration of a lady if she is foolish enough to neglect her toilet by omitting the means placed within her reach for enhancing her beauty. As it is therefore so very necessary for the ladies to have a preparation of intrinsic value on their toilet, one that will give them perfect satisfaction and that is entirely free from anything poisonous or injurious to the skin, we would recommend them to use the PERSIAN BEAUTIFIER, and they will find a boon which has long been looked for. Price, 50 cents per bottle.

NORTHROP & LYMAN,  
Toronto, Sole Agents.

A Binghamton clergyman lately married a lady, with whom he received the substantial dowry of \$10,000, and a fair prospect of more. Soon afterward, while occupying the pulpit, he gave out a hymn, read the first four stanzas, and was reading the fifth,

Forever let my grateful heart  
His boundless grace adore,

when he hesitated, and exclaimed, "Ahem! The choir will omit the fifth verse," and sat down. The congregation, attracted by his apparent confusion, read the remaining lines:

Which gives ten thousand blessings now,  
And bids me hope for more.

# Bryan's Pulmonic Wafers.

The most certain and speedy remedy ever discovered for all diseases of the Chest and Lungs, Coughs, Colds, Asthma, Consumption, Bronchitis, Influenza Hoarseness, Difficult Breathing Sore Throat, &c., &c.

They do not dry up a cough, but loosen it, enabling the patient to expectorate more freely. Two or three wafers will invariably relieve a cough or tickling in the throat, and one box has repeatedly cured the most stubborn cough; and though so speedily and sure in their operations, they may be used by the most delicate female or children of any age with perfect safety, being purely vegetable and very pleasant and agreeable to the taste. In case of coughs, colds, croup, &c., we will guarantee a cure if taken in season. No family should be without them. They are within the reach of all, as the price is only twenty-five cents per box, and sold by medicine dealers everywhere.

Clergymen and lawyers use them, and say they prefer them to every other preparation for clearing the voice and for Bronchial affections. Our most noted singers use them to clear the throat and improve the voice, and say they are the very best medicine for the vocal organs.

To VOCALISTS AND PUBLIC SPEAKERS these wafers are peculiarly valuable; they will in one day remove the most severe occasional hoarseness; and their regular use for a few days will at all times increase the power and flexibility of the voice, greatly improving its tone, compass, and clearness, for which purpose they are regularly used by many professional vocalists.

See that the word "BRYAN" is stamped on each Wafer, and also observe the fac-simile signature of the proprietor, "JOB MOSES," on each wrapper, to counterfeit which is *forgery*.

BRYAN'S PULMONIC WAFERS are for sale by all Druggists. Price 25 cents per box.

JOB MOSES, Sole Proprietor, 18 Cortlandt St., New York.

NORTHROP & LYMAN, Toronto, Ont., General Agents for Canada.

Little Johnny went fishing last Sunday without consulting his parents. Next morning a neighbor's boy met him and asked: "Did you catch anything yesterday?" "Not till I got home," was the rather sad response.

The other day a lady went to pay her respects to one of the latest arrivals on the list of babyhood, when the following colloquy took place between her and the four-year-old sister of the new-comer. "I have come for that baby now," said the lady. "You can't have it," was the reply. "But I must, I came over on purpose," said the visitor. "We can't spare it at all," persisted the child, "but I'll get a piece of paper, and you may cut a pattern."

## Can Consumption be Cured?

This is a question anxiously asked by consumptives, and our answer is that pulmonary consumption, or other diseases of the lungs, are as curable as many other diseases, if the right remedies are promptly used. The disease is contracted by a neglected cough or cold, although it may be but a slight one at first; and if nothing is done to assist nature to raise up all this matter or phlegm, it will cause irritation to those delicate organs, the lungs, and in a short time it may come to its most fatal termination.

In the preparation of Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda, we bring plainly before the public the most advanced agent as an antidote, as well as the best agent known for the reconstruction of tissues, and the fortifying of systems of that delicate organization in which the germs of this fatal disease are implanted. It has long stood the test as an effective remedy for all cases of pulmonary decline or wasting diseases. Its persistent use has effected transformations in the building up of weak constitutions, which speak louder in its favor than all the arguments science could devise or pen could indite.

To physicians we would say that this preparation is so compounded that each dose contains two grains of the Hypophosphites of Lime and Soda.

Read the following testimonials from doctors who use it in their practice, and patients who testify to its merits where all other remedies have failed:

Dr. J. CURLIS, St. Thomas, writes: "During ten years' active practice I have had occasion to prescribe Cod Liver Oil and Hypophosphites. Since your preparation came under my notice I have tried it, and take great pleasure in saying that it has given great satisfaction, and is to be preferred to any I have ever used or recommended. I have used it in my own family almost as a beverage during heavy colds, and in every instance a happy result has followed. I cheerfully recommend its use in all cases of debility arising from weakness of the muscular or nervous system."

Mr. ABRAHAM GIBBS, Vaughan, writes: "I have been troubled with asthma since I was ten years of age, and have taken hundreds of bottles of different kinds of medicine, with no relief. I saw the advertisement of your Emulsion of Cod Liver Oil with Lime and Soda, and determined to try it. I have taken one bottle, and it has given me more relief than anything I have ever tried before, and I have great pleasure in recommending it to those similarly afflicted."

Mr. JAMES J. ANSLOW, Newcastle, N. B., writes: "Mrs. Anslow was troubled with lung disease, and until she took your Emulsion of Cod Liver Oil and

Hypophosphites of Lime and Soda had little or no appetite; but after taking a bottle or two she gained appetite and had a relish for her food, which was quite a help to her in keeping up against the disease. As we are out of yours and cannot procure any here, she is taking another Emulsion; but as we prefer your preparation to any in the market, will you kindly ship me some at once, and oblige."

Mr. J. R. CUTHERBERTSON, Toronto, writes: "My wife had a very severe attack of Pleurisy and Inflammation of the Lungs, about three years ago, and ever since has been subject to severe colds on the slightest exposure; in fact, they were so frequent that her system got quite reduced. She tried several remedies, but without any permanent effect, until she was induced to try Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda, and I am happy to say it has exceeded our anticipations. I have no hesitation in recommending it as a ROYAL REMEDY for all affections of the Lungs and Chest, and for all classes of Wasting Diseases, and Building up of Weak Constitutions."

Mr. C. P. BROWN, Crown Land Agent, Sault Ste. Marie, writes: "Two or three of my friends and myself were recommended to try your Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda, in preference to Compound Syrup of Hypophosphites. We prefer your Emulsion, and think it better for the system than the Syrup," &c. &c.

HOW TO PREVENT HAIR FROM BECOMING GREY.—Cut it off, do it up in tissue paper, and put it away in a drawer. It will not become grey as long as you live.

A QUESTION OF PRIVILEGES.—Lady: "You can have one night a week; but I shall expect you in every other Sunday." Cook: "No, ma'am, I couldn't agree to that; I must have every other Sunday out."

"Have you one of them slip-flaps and a cool off?" inquired an old lady of an astonished dry goods clerk in Savannah the other day. After a lengthy examination, he finally discovered she wanted a palmetto fan.

"Father, did you ever have another wife besides mother?" "No, my son; why do you ask?" "Because I saw in the old family Bible where you married Anno Domini, 1846, and that can't be mother, for her name is Sally Smith."

As a rich and pretentious shoddyite was looking at some paintings which he proposed to buy, the dealer pointed to a fine one, and said, "There is a dog after Landseer." "Is it really," replied the pretender; "what is the dog after him for?"

At a parish school: "What is the wife of prince called?" "Please, ma'am, a princess." "And what is the wife of an emperor called?" "Please, ma'am, an empress." "And what is the wife of a duke called?" "Please, ma'am, a drake."

HAVING AN EYE TO BUSINESS.—A youngster who had several teeth extracted, was comforted by the dentist with the assurance that they would come again. With an eye to the immediate future, Johnny inquired, "Will they come before dinner?"

The best answer to the frequent question why there are so many marriageable women who never get married is made by the *Norristown Herald*, which says it is owing to the fact that there are so many young men not worth having.

A little boy entered a fish market the other day, and seeing for the first time a pile of lobsters lying on the counter, looked intently at them for some time, when he exclaimed, "Them's the biggest grasshoppers I've ever seen!"

A lecture entitled "All about the Devil," had an audience of only thirty persons. The balance of the populace thought they couldn't learn anything new.

There is no end of cats in the Isle of Man, because they have no tails.

"I say," said a dandy to an intelligent mechanic, "I have an idea in my head." "Well," replied the other, "if you don't cherish it with great care, it will die for want of companions."

"Aurelia, dear, when we were married we were made one; and I thought I should be that one. But a man can't always tell what he hasn't found out."

Archie: "See, old man, how I am hunted after; all these are invitations." Friend: "Good gracious! All invitations? Invitations to what?" Archie: "To call and settle their accounts."

1st Grocer: "Is Col—— a man to be trusted?" 2nd Grocer: "I think you'd find him so. If you trust him once you'll trust him forever. He never pays."

# Darley's Condition Powders and Arabian Heave Remedy.

For Horses, Cattle, Sheep, Pigs, Poultry, &c.

The most useful animal we have is the horse, and perhaps there is no animal that is so much neglected. Where you will find one person that looks after the condition of his horse, you will find twenty that take no care further than to get all the work they can out of him, and when he becomes reduced by disease, he is exchanged for another and better cared for animal.

There is something peculiarly attractive in a horse. His intelligent eye and ear; his lofty carriage; his free and graceful motion; his vast strength; his obedient temper and his indispensable use, all endear him to us. But it is only when the horse is properly cared for, when he is free from disease or unsoundness of any kind, that he will exhibit these points of attraction, and without which he is of little value.

There are but few horses so bad but that their condition can be improved and rendered more valuable and useful for their owners, and to effect which there is nothing equal to Darley's Condition Powders and Arabian Heave Remedy, the well-known and thoroughly tested Horse and Cattle Medicine.

Are your Horses or Cattle lean and poor, having no appetite, or do they devour their food ravenously yet derive no benefit from it? If so, they require your attention. Give them Darley's Condition Powders according to directions, and they will soon be brought to a healthy condition.

It first acts gently upon the bowels and then on the liver and lungs, and removes all obstructions therefrom, purifying the blood and enabling all the organs to do their work without overtasking any.

For hide-bound it is a complete success. In a very short time the disease will disappear under its operation, and a sleek and shining coat will follow.

For Heaves, Coughs, Colds, and all diseases which affect the wind of Horses, it has no equal.

As a Condition Medicine for Horses, Cattle, Sheep, Pigs, Poultry, etc., it is a decided success.

It is gratifying to know that it has been thoroughly tested and has proved itself worthy the confidence reposed in it by all stock-raisers. We know of no article which has given such

general satisfaction and which has been so largely sold, and it has not lost any of its original virtues but still possesses those wonder working properties which have rendered it so popular, and constrains those who have once used it not to use any other when it is possible to procure it. It never fails to give satisfaction, and no one who owns a horse or fattens cattle should be without it, or will be when made acquainted with its virtues.

As a spring and fall medicine it is safe and thorough, and will not injure a horse whether sick or well, and can be given at all times without interfering with his work.

NORTHROP & LYMAN, Proprietors,  
Price 25 cents. TORONTO, ONTARIO.

## Burns and Scalds.

The first and most important thing to do when so unfortunate as to burn or scald yourself, is to protect the afflicted parts from the atmosphere, and to do this thoroughly there is nothing better than the Canadian Pain Destroyer. Apply immediately and it will at once remove the intense heat, and in a very few minutes will bring it down to the ordinary temperature, allaying all inflammation and removing the pain. One very important feature noticed where this article has been used is that no blisters follow, and that the parts heal with remarkable rapidity.

Robert Colby, of Toronto, accidentally put his hand in a pot of hot sealing wax, causing the skin to peel off with the wax. In less than one minute from the time the Canadian Pain Destroyer was applied the pain was subdued; in two hours he was ready to attend to his duties, and in less than a week the hand was completely healed.

A young lady of Newcastle was unfortunately enough to spill a pail of boiling water on her foot. She at once applied the Canadian Pain Destroyer, and the pain was removed and no further trouble experienced from it.

As a family medicine it is indispensable, and should be in every house ready for any emergency.

OTTAWA, July 31, 1880.

Messrs. Northrop & Lyman:

I have been dispensing and jobbing your Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda for the last eighteen months, and consider that there is no preparation of the same kind better in the market. It is very palatable, and for Chronic Coughs it has no equal.

H. F. MACCARTHY.

CAN TELL.—"What's honor?" asks Falstaff. That's easy. Any woman who sits behind another woman in church can tell what's on 'er in two minutes.

**INCREASABLE.**—That must be a hopeless case of intemperance when a man takes castor oil for the sake of the brandy which helps it down.

The first of April has been very appropriately selected by the New England Millerites as the date of the world's ending.

Sea-captains should be good-natured. It would not be safe to have a can't-anchor-us man to command a ship.

The notes that compose favorite tunes: Bank notes—they compose fortunes.

a grain of sand in the eye like a school-master's cane? Because it hurts the pupil.

What is better than a promising young man? A paying one.

Swift said the reason a certain university was a learned place, was that most persons took some learning there, and few brought any away with them, so it accumulated.

One item in an Oregon horse doctor's bill reads: "To holding a *post mortem* examination on a horse that afterwards recovered, \$1.50." It was paid on the ground of square professional talent.

See how wonderful are the ways of Nature in Illinois. A pair of boots costs just two loads of potatoes, and to raise the potatoes just wears out two pairs of boots.

The largest ground rent on record—the earthquake.

"Press on, young man, though you be poor." We knew a youth who, with only his hands and a crow-bar, opened a jewellery store, and now he is living in a fine stone residence in Sing Sing.

On a very pretty girl saying to Leigh Hunt, "I am very sad, you see," he replied, "Oh, no, you belong to the other Jewish sect—you are very fair, I see."

## POROUS PLASTERS.

The principal ingredients used in making these Plasters are Gum Olibanum—or better known as the Frankincense of the Bible—Rubber, and Burgundy Pitch; which, when scientifically compounded, is full of electricity, and when combined with the pure medicinal gums, is found to be one of the greatest healing mediums ever brought before the human race.

They possess all the soothing, warming, supporting and strengthening qualities of all other plasters,—recommended by the pharmacopœia and dispensaries. Many is the electrician who has been relieved of *Rheumatism, Tic-douloureux*, and various other pains in his *Kidneys, Breast or Side*, and who believes it is solely done by the electrical qualities which the Porous Plasters contain, and which is imparted to the system, thus restoring them to a healthy condition, and the morbid sensation leaves.

Sceptical persons will be perfectly amazed by trying them, to see the great benefit derived. Even headache is quickly cured by wearing one just below the breast-bone; and for the hysterics, relief is found at once by the application of one over the navel. *Dysentery*, and all affections of the bowels, to the worst cases of *Chronic Costiveness*, cured by wearing a Porous Plaster over the bowels.

Weakness and fatigue are invariably cured at once by their use. Doctors of all classes, both in this and in foreign countries, are daily recommending them for all local pains. I am constantly having large orders from the various hospitals of our country, as well as from foreign countries, for my celebrated Porous Plasters; and with each order they comment on the great virtue of the Porous Plasters, and the great blessing they are to the human race, and are continually telling me of my being a public benefactor.

In this changeable climate they should be worn between the shoulders and on the breast, or over the kidneys, especially by those who take cold easily. The Porous Plaster is easy to wear, and puts new life into persons who feel dull and morbid. Experience has proved to the most sceptical that Mitchell's Porous Plaster is a great blessing to the consumptive.

If you wish for a superior Plaster, one that is scientifically made, call for Mitchell's; and be sure that a *fac-simile* of the proprietor is on each Plaster, if you wish the genuine. It is very soft and pliable, still very adhesive; and is a sure cure

for *Weak Backs, Pains in the Side and Breast*; and is invaluable to those who have a *Cold* of long standing, and often prevents *Consumption*. Some even tell us they believe they were entirely cured, by the use of them, of a long-seated *Consumption*.

Prepared by GEO. E. MITCHELL, Lowell, Mass.  
NORTHROP & LYMAN, Toronto, agents for the Dominion.

## Canadian Cholera Remedy

FOR THE CURE OF

Diarrhœa, Dysentery, Relaxe Condition of the Bowels succeeding Cholera Infantum, &c., &c.

Among the many ills that flesh is heir to, perhaps there is none that has carried more to a premature grave than *Diarrhœa* and *Summer Complaint*, when allowed to become chronic, and at no time does it work greater havoc than at the tender age of infancy. Thousands of children are carried off every year by this disease, that is so quick in its action that the cold hand of death clasps its victim before we are aware that danger is near. The strong man may for a time withstand its shock, but the tiny flower of a few weeks or months droops and fades away at the first chilly breath.

All infants are more or less subject to this disease; older children and adults generally bring it on by eating green vegetables or unripe fruit, and in every instance it soon weakens even the strongest. It should be checked on its first appearance, and to do this effectually there is nothing better than the Canadian Cholera Remedy, an article possessing excellent medicinal qualities for the disease named above. It acts with wonderful rapidity, and never fails when taken at the commencement of an attack. Before placing it on the market we tested it, and are fully convinced that it will soon work its way to the confidence of the suffering public.

Mr. L. C. HAWKEY, of Toronto, says he was cured of a severe attack of diarrhœa by the use of two doses, and has pleasure in recommending it as an excellent article, doing all that it claims to do. Price, 25 cents.

NORTHROP & LYMAN, Toronto, proprietors.

The most fatal grapeshot comes from the bottle. When a farmer puts a ring in a hog's nose, he strikes at the root of the thing.

The rain falls on the just and the unjust; but not on the man who has just stolen an umbrella. Young Lady: "Oh, I'm so glad you like birds; which kind do you admire most?" Old Squab: "Well, I think a goose with plenty of stuffing is about as nice as any."

"I had nine children to support, and it kept me busy," said Smith to Jones, as they met, "but one of the girls got married; now I have"— "Eight," interrupted Jones. "No, ten, counting the son-in-law," said Smith. With a sigh which might have been heard afar off.

A lady who, on the death of her first husband, married his brother, has a portrait of the former husband hanging in her dining room. One day a visitor, remarking the painting, asked: "Is that a member of your family?" "Oh! that's my poor brother-in-law," was the ingenious reply.

Darwin says that infants do not know how to weep until they are several days old. We do not know whether he can prove the statement or not; but there are a good many unhappy fathers who will give him all they possess in this world if he will prove that infants do not know how to howl.

"Professor, will you have a cigar?" said a man in the office of a Boston hotel, and nineteen men stood up and replied: "Thankye, don't care if I do."

A father, in consoling his daughter who had lost her husband, said, "I don't wonder you grieve for him, my child; you will never find him equal." "I don't know as I can," replied the sobbing widow, "but I'll do my best."

A celebrated wit once said of his debts, that was neither his interest to pay the principal, nor his principle to pay the interest.

Never nod to an auctioneer unless you wish either to buy or be sold.

Some people have peculiar constitutions. Mark Twain once complained, after a long interval of idleness, "This working between meals is killing me."

A confectioner who twelve months ago taught his parrot to say "Pretty creature" to every last customer, is now a millionaire.

A table of interest—the dinner table.

# The Great Shoshonees Remedy

A perfect Invigorator and Renovator of the System. It is sensibly beneficial in all, and permanently cures in a very large majority of diseases arising from impurities of the blood, such as: Scrofula, in all and each of its varied forms; Erysipelas, Salt Rheum, Canker, Scald Head, Pimples, Blisters, Eruptions, Ulcers, Old Sores or Fever Sores, Disease of the Liver and Kidneys, Dyspepsia, Bronchitis, Rheumatism, Neuralgia, Pains in the Sides and Shoulders, Costiveness, Headaches of all kinds, Female Weaknesses, Pains in the Back, and above all for that "all-gone" feeling so prevalent among those of sedentary habits, and general Languor and Debility from whatever cause, either from undue exposure, over-taxation of the bodily or mental powers, neglected Colds, or even to the second stage of Consumption itself. In prescribing the Great Indian Remedy, we do not claim that it always performs cures which would be preposterous of any medicine. But we do say, and say it with the fullest confidence, as the experience of our Medicine for many years will bear us out in, that this Great Indian Restorative and Tonic Medicine is a Matchless Medical Discovery; and that for Purifying and Refreshing the Blood, and permanently Curing a very large majority of Diseases arising from impurities thereof, it stands far ahead and unequalled among the thousands of competing medicines of the day. It is, as it were, a beacon light to the sufferer. Whilst hundreds of other medicines spring into existence, and are sold upon the public through the lavish expenditure of money and influence, this Great Remedy has stood the test of a discriminating public, and is asked for and sold in almost every civilized country under the sun. Therefore, we unhesitatingly say, for all Diseases that we recommend it will do all we claim for it and more. It will cure all Scrofulous and Unhealthy Humors from the body, and Cure Scrofula in all its stages, from the smallest Pustule to the most desperate case, and all other available medicines have failed. The Summer Restorative it stands unrivalled, being the system to bear up against the constriction to which it is subjected by a high temperature.

## THE SHOSHONEES Vegetable Restorative Pills OF THE CELEBRATED INDIAN, DR. LEWIS JOSEPHUS, (SUGAR COATED). Warranted to Contain No Minerals.

These Pills are prepared strictly in accordance with the original receipt and instructions of the celebrated Indian, Dr. Lewis Josephus, author of the Great Shoshonees Remedy; and as a gentle laxative is required during the use of the Remedy, they are designed to go with it, and assist in its action. There is not a single ingredient in them but the very active principles, doubly refined and purified, of vegetable preparations that are perfectly compatible with every ingredient entering into the composition of the Great Shoshonees Remedy. As these Pills are the only laxative compounded with a view of meeting in harmony the exigencies of the Great Shoshonees Remedy, we would strongly advise the afflicted taking the Remedy by all means to use the Shoshonees Vegetable Restorative Pills. Any other pill but the Shoshonees Pills are likely to interfere with, if not destroy, the good effects of the Remedy, but more particularly those which of necessity are put up in glass or crystal vials, to protect them from the deconposing influence of the atmosphere, are certain to destroy the curative properties of the Great Shoshonees Remedy. No pill but that which will retain its properties for years in wooden boxes should be imposed upon the public. For directions in using the Shoshonees Pills with the Remedy, see general directions in the Treatise. These pills are composed of the active principles of the choicest Vegetable Extracts, Balsams, &c. They are very mild, yet most certain in their effects, operating in from eight to twelve hours, without nausea, pain or griping, and will strengthen rather than debilitate the system. In the first attack of a violent cold, a full dose of these pills, followed after their operation with the sweating process, as given in the treatise, will break up the cold at once; and by continuing the Great Shoshonees Remedy for a few days, according to general directions, you will eradicate the dregs of the cold from the system, and thereby obviate the danger of chronic disease hereafter. On account of their extreme mildness, yet great certainty of action on the bowels, in all cases of infant, adult and old aged people, as well as their soothing and healing influence on the stomach, bowels, liver, kidneys, etc., it is the BEST PILL AS A FAMILY MEDICINE now in use, and as such, give from one to three pills, according to age and circumstances, for Biliousness, Sluggishness of the Liver, or in cases of taking cold, headache, dizziness, rush of blood to the head, pain in the head, etc., or when there is a feeling of languor, stupidity or heavi-

ness, etc., in consequence of the efficient action of the Pills, 25 cents each. PREPARED BY

Read the following convinced testimony of the Remedy

Rev. F. R. S. "I have found your Remedy for Liver Complaints, and was obliged to give them a trial."

ALEX. MCKAY, troubled with Liver Complaints, retained any food for several months. I would you to send me the Remedy.

NEIL KEENAN, of Lung Disease, cured by the Remedy and Pills.

HENRY HARRIS, had the Consumption, and could not live three months. The Remedy restored him.

Mrs. A. D. PIERCE was sorely afflicted with the Lungs. After using the Great Shoshonees Remedy, she knew a medicine too good for me. I cannot speak too highly of it.

HENRY KING, Georgia, was intensely afflicted with the Lungs. We consulted several physicians, and received three bottles of the Great Shoshonees Remedy. He is now hearty and well.

Rev. T. C. BROWN "My wife was very ill with the Liver Complaint. A physician said her medicine could help her, but she chased a bottle of the Great Shoshonees Remedy, and after using it for a few days, she was greatly better. She was decidedly better for a time she was perfectly cured."

AMBROSE WOOD, of Georgia, proved that there is a Remedy will cure Liver Complaints. It is the Great Shoshonees Remedy, with these diseases greatly reduced in severity. I determined to try the Great Shoshonees Remedy, and cured a bottle of the

ness, etc., in consequence of there not being sufficient action of the bowels.

Price of the Remedy, in large bottles, \$1.00; Pills, 25 cents a box.

PREPARED BY J. C. CHAMBERLAIN.

NORTHROP & LYMAN,  
Toronto, General Agents

*Read the following Testimonials, and be convinced that the Great Shoshonees Remedy and Pills have no equal*

Rev. F. R. STRATTON, Demorestville, writes: "I have found your remedies particularly beneficial for Liver Complaint, Dyspepsia, and Bronchial affections, and would advise all similarly affected to give them a trial."

ALEX. MCKAY, of Truro, N. S., writes: "I was troubled with Liver Complaint, and could not retain any food on my Stomach. By the use of the Great Shoshonees Remedy, I was cured in a month's time. I am now in business, and wish you to send me three dozen."

NEIL KEENAN, of Kemptville, says he was cured of Lung Disease by the use of the Shoshonees Remedy and Pills

HENRY HARRIS, of Oxford Mills, writes: "I had the Consumption; my friends thought I could not live three months; but the Great Indian Remedy restored me to health."

Mrs. A. D. PIERCE, Waverley, N. Y., says: "I was sorely afflicted with Dyspepsia and Disease of the Lungs. After having used six bottles of the Shoshonees Remedy I have become well. I never knew a medicine to have such wonderful effects. I cannot speak too highly of its merits."

HENRY KING, Geneva, N. Y., says: "My wife was intensely afflicted with Dyspepsia for a long time. We consulted physicians of three different schools, and received no benefit. She has taken three bottles of the Great Shoshonees Remedy, and is now hearty and well."

Rev. T. C. BROWN, Methodist minister, writes: "My wife was very low with Lung Disease. The physician said her lungs were tubercled and no medicine could help her. As a last resort, I purchased a bottle of the Great Shoshonees Remedy, and after using it for a few days, her symptoms were decidedly better, and by its continued use for a time she was perfectly restored."

AMBROSE WOOD, of Consecon, says: "I have proved that there is at least one medicine that will cure Liver Complaint and Dyspepsia, and that is the Great Shoshonees Remedy. I was afflicted with these diseases for three years, and became greatly reduced in strength. Hearing of your medicines, I determined to test them, and procured a bottle of the Great Shoshonees Remedy

and a box of Pills. I have now taken ten bottles, and find myself a well man. I have a good appetite, and attend regularly to my business."

LEVI JONES, Markham, says: "I had a severe attack of Bronchitis. I was so bad that I could hardly get my breath. I sought for a quick remedy, and seeing the Shoshonees Remedy so highly recommended, I procured a bottle, and am happy to say that by the time it was taken I was entirely well, and have remained so, although I was much exposed through the winter in travelling."

JOHN HOSKINS, St. Louis, says: "I have suffered greatly from Erysipelas; and by the solicitations of my friends I procured three bottles of your Great Shoshonees Remedy, and it has, in my case, worked a perfect cure, and I would earnestly advise any one suffering from this wretched disease, if they wish to be permanently and speedily cured, to adopt the same treatment without delay."

Mrs. J. ELLIOTT, Hungerford, writes: "I have been very poorly for the past two years, from Liver Complaint and Dyspepsia; I was afflicted with a bad pain in my right side, had a very poor appetite, and a sense of weakness and sinking about the stomach; in fact, what I ate seemed like a rough distressing load. I have used the Great Shoshonees Remedy, and am more than pleased to state that it has removed the pain in my side, and my stomach has quite recovered. My Son was taken with a bad cough and spitting of blood from taking cold; he used the Remedy, and quickly recovered."

G. W. LAMBLY, Inverness, P. Q., writes: "I have much pleasure in recommending the Great Shoshonees Remedy not only for the benefit I have derived from it, but for the good effect it has produced on several of my friends. Some years ago I contracted a severe cold which settled on my lungs, and every winter for three successive years I was compelled to wear a plaster on my chest. Two bottles of the Shoshonees Remedy completely cured me, and I have not been troubled with a cold since. The Shoshonees Remedy has been used in this neighborhood with never-failing success for all diseases of the kidneys and bladder, as can be testified to by parties I am well acquainted with. I can certify to one advanced case of Consumption which was completely cured by using the Shoshonees Remedy. I consider it the best medicine in the market."

This is the little rhyme that a St. George's Ward man sings: The plumber came down like a wolf on the fold, his pockets were laden with solder and gold, and four mortal hours he made love to the cook, and seventeen dollars were charged in the book

A young mother was giving to her five-year-old son a touching description of the misery into which the Prodigal Son had fallen, obliged to take care of swine, with nothing to eat except the husks of corn, &c. "Then why didn't he eat the pig?" was the practical reply of the youngster.

# DYEING

## GENERAL REMARKS.

Everything should be clean. The goods should be scoured in soap, and the soap rinsed out. They are often steeped in soap ley over night. Dip them into water just before putting them into preparations, to prevent spotting. Soft water should be used, *sufficient to cover goods well—this is always understood where quantity is not mentioned.* When goods are dyed, air, rinse well, and hang up to dry. Do not wring silk or merino dresses when scouring or dyeing them. If cotton goods are to be dyed a light color, they should first be bleached.

## RECEIPTS FOR COLORING.

**SCARLET** (very superior).—Three ounces of cochineal, three ounces of cream of tartar, and four ounces of solution of tin; powder the cochineal and rub through a bag into blood-warm water sufficient to cover the yarn; when it is a little warm, put in the cream of tartar, and simmer, then add your solution of tin—your yarn must be wet with clean water; steep it in the dye till the yarn is properly dyed. Dry your yarn before you wash it. This will color three pounds.

**WINE COLOR.**—One pound of wool, half a pound of red powder, one ounce of madder compound. Soak the powdered wool in warm water all night, mix the madder compound with about half a pint of water (in a glass), and add it to the rest; rinse the wool in warm water and put it in the dye; boil about half an hour, take out the wool and rinse it in cold water. A color almost as fine may be had by using a quarter of a pound of alum, and boiling in the same way.

**GREEN.** For five pounds goods use five pounds fustic and eighteen ounces alum. Soak in water until the strength is extracted, put in the goods until of a good yellow color, remove the chips and add extract of indigo in small quantities at a time until the color is satisfactory.

**PINK.**—For every three pounds of yarn or cloth, take three and a half quarts of water, or enough to cover the article you wish to color, two ounces of cochineal, and half an ounce of cream of tartar; steep the cochineal in warm water two hours, or until the strength is entirely extracted, and add the cream of tartar; then wet the cloth in clear water, wring it out and put it in the dye—bring it to a scalding heat, let it remain in a few moments, and it will be finished.

**BLACK ON WOOL, SILK OR COTTON.**—For every pound of cloth, it will require one ounce of extract of logwood and half an ounce of blue vitriol. Prepare an iron kettle with a sufficient quantity of water to admit the yarn or cloth to be worked in the dye without being crowded; bring the water to a scalding heat, then put in the yarn or cloth a

xxviii

few minutes; when it is thoroughly wet, take it out and drain it; in the next place add the blue vitriol, and when dissolved, and the water skimmed carefully put in the material to be colored, and let it remain half an hour at a scalding heat, airing it occasionally; then take it out and rinse it in soft water; the vitriol water may be emptied into a separate vessel, and the extract of logwood dissolved in a sufficient quantity of water, brought to a scalding heat, and skimmed; put in the cloth, keeping the dye in the same temperature, and let it remain half an hour, airing it frequently; then take it out and drain it; add the vitriol water to the dye, and put it in again; let it remain fifteen minutes, airing as before. Cleanse it well. For cotton, add a little common glue.

**CRIMSON.**—Use one pound of lac dye, together with two ounces of madder compound, to every two pounds of cloth or yarn. Soak the lac dye over night in a brass or copper kettle, then add the compound, and stir; then the cloth, and bring your dye slowly to a scalding heat; then vary the time as you wish the color. If dark, let it remain some hours; if not, one hour—then rinse in soft water without soap.

**BROWN.**—For each pound of wool take a quarter pound of alum and two ounces of cream of tartar, and boil for half an hour. Take half a pound of red powder, quarter pound of fustic, and two ounces of logwood chips; soak these a night in sufficient warm water to cover the wool; take the wool out of the alum water, and boil with the woods for about half an hour. If a dark brown is wanted, add about a tablespoonful of coppers.

**MADDER RED.**—Take one pound of madder for every two pounds of yarn or cloth; soak the madder in a brass or copper kettle one night in warm water, enough to cover the yarn you wish to color; next morning put in two ounces of madder compound for every pound of madder which you have soaked, then wet your yarn or cloth in clean water, and wring it out in clean water; afterwards put in the dye; now place the kettle over the fire and bring it slowly to a scalding heat, which will take about half an hour; keep it at this heat half an hour if a light red is wanted, and longer if a dark one, the color depending upon the time it remains in the dye. When the color is made, rinse the cloth immediately in cold water; it will then be finished.

**YELLOW.**—One pound of wool or cloth, three-quarters of a pound of fustic, quarter pound of alum; put all into an earthen vessel and pour on sufficient hot water to cover the wool and keep it warm all night; give it half an hour's boil in a brass kettle, and then rinse in cold water. A much deeper and richer yellow may be made by using turmeric powder instead of fustic, and proceeding in the same manner.

## A Speedy Cure for Bronchitis and Asthma.

The coughing and wheezing of persons troubled with bronchitis or asthma is excessively harassing to themselves and annoying to others.

### DR. THOMAS' ECLECTRIC OIL

Obviates all this entirely, safely and speedily, and when taken according to directions, never fails to effect a lasting cure. Great results have been achieved by its use in the last seven years, and many a poor sufferer has blessed this wonderful oil that gave them rest and sweet repose.

H. F. MACCARTHY, Wholesale and Retail Druggist, Ottawa, writes: "I was afflicted with Chronic Bronchitis for some years, but have been completely cured by the use of Dr. THOMAS' ECLECTRIC OIL, in doses of 5 drops on sugar. I have also pleasure in recommending it as an embrocation for external use."

G. A. DIXON, Frankville, Ont., says: "I was cured of Chronic Bronchitis that troubled me for seventeen years, by the use of ECLECTRIC OIL."

JABESH SNOW, Gunning Cove, N. S., writes: "I was completely prostrated with the Asthma, but hearing of your ECLECTRIC OIL, I procured a bottle, and it did me so much good that I got another, and before it was used I was well. My son was cured of a bad cold by the use of half a bottle. It goes like wildfire, and makes cures wherever it is used."

S. CHADWICK, of Arcadia, Wayne Co., N. Y., writes: "I have had severe attacks of Asthma for several years. I commenced taking the ECLECTRIC OIL; the first dose relieved me in one hour. I continued taking it in teaspoonful doses for a few days, and have not had an attack of it since, now nearly one year."

O. BORTLE, of Manchester, Ontario Co., N. Y., writes: "I obtained immediate relief from the use of Dr. THOMAS' ECLECTRIC OIL. I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Another writes: "I have been troubled with Asthma for years; have used half a bottle of ECLECTRIC OIL, and the benefit I have received from it is so great that I would not take one hundred dollars for the balance if I could get no more."

### PHYSICIANS RECOMMEND IT.

Messrs. NORTHROP & LYMAN,—Your THOMAS' ECLECTRIC OIL commands a large and increasing sale, which it richly merits. I have always found it exceedingly helpful; I use it in all cases of

Rheumatism, as well as fractures and dislocations. I made use of it myself to calm the pains of a broken leg with dislocation of the foot, and in two days I was entirely relieved from pain.

JOS. BEAUDIN, M. D.

HULL, P. Q., July 2nd, 1875.

Messrs. NORTHROP & LYMAN are the proprietors of Dr. THOMAS' ECLECTRIC OIL, which is now being sold in immense quantities throughout the Dominion. It is welcomed by the suffering invalid everywhere with emotions of delight, because it banishes pain and gives instant relief. This valuable specific for almost "every ill that flesh is heir to," is valued by the sufferer as *more precious than gold*. It is the elixir of life to many a wasted frame. If you have not purchased a bottle do so at once, and keep it ready for an emergency. Its cheapness (25 cents per bottle) places it within the reach of all. To the farmer it is indispensable, and it should be in every house.—*London Herald*.

DEAR SIRS,—I have been watching the progress of your ECLECTRIC OIL since its introduction to this place, and with much pleasure state that my anticipations of its success have been fully realized, it having cured me of bronchitis and soreness of nose; while not a few of my "rheumatic neighbors" (one old lady in particular) pronounce it to be the best article of its kind that has ever been brought before the public. Your medicine does not require any longer a sponsor, but if you wish me to act as such, I shall be only too happy to have my name connected with your prosperous child. I am, yours, &c., JAMES CULLEN.

POOL'S ISLAND, N. F., September 26th.

A. D. NOYES, Newark, Michigan, writes: "I have inquired at the drug stores for ECLECTRIC OIL, but have failed to find it. We brought a bottle with us last fall from Quebec, but it is nearly gone, and we do not want to be without it, as my wife is troubled with a pain in the shoulder, and nothing else gives relief. Can you send it in packages of, say half a dozen," &c., &c.

J. H. EARL, West Shefford, P. Q., writes: "I have been troubled with Liver Complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. THOMAS' ECLECTRIC OIL, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horse in cases of Cuts, Wounds, &c., and think it equally as good for horse as for man."

A bear attacked a Texan farmer's cabin one night, when the farmer got up into the loft, leaving his wife and children to take care of themselves. The wife seized a poker and aimed a happy blow at Bruin. "Give it to him, Nancy!" cried the valiant husband. After Bruin was dead, he came down from the loft, and exclaimed, "Nancy, my dear, ain't we brave?"

## Coloring Receipts.

(Continued).

**CHEAP BROWN FOR WOOL OR COTTON.**—For ten pounds goods, take half pound japonic, one ounce blue vitriol, two ounces bichromate of Potash; put the japonic into four gallons of soft water, boil until dissolved, add the blue vitriol and stir well; put in the goods and keep at boiling point for two hours; wring out and put into the solution made with the potash, let it remain for half an hour, then wash in soap suds.

**WINE COLOR.**—For five pounds goods take one pound of camwood, boil twenty minutes, dip the goods one hour, boil again and dip forty minutes, then darken with one and a half ounces blue vitriol, and should you wish it darker, add half lb. copperas.

**PURPLE.**—For ten pounds of goods use three-quarters pound alum, one teacup muriate of tin, pulverized cochineal quarter pound, cream of tartar quarter pound. Boil the alum, tin, and cream of tartar for twenty minutes, add the cochineal and boil five minutes, immerse the goods two hours, remove and enter them in a new dye, composed of Brazil wood, three-quarter pound; logwood, one and three-quarter pound; alum, one pound; muriate of tin, two cupfuls, adding a little extract of indigo.

**ORANGE.**—For ten pounds goods, use sugar of lead half a pound, boil fifteen minutes; when a little cool enter the goods and dip for two hours, wring out, make a fresh dye with bichromate of potash, one pound; madder, one quarter pound; immerse until of the desired shade. The shade may be varied by dipping in lime water.

**LIGHT SILVER DRAB.**—For five pounds of goods, use one and a half ounces of logwood; alum, one and a half ounces. Boil well, enter the goods and dip for one hour. Grade the color to any desired shade by using equal parts of logwood and alum.

**LILAC (for silk).**—For one pound of silk use archil, one and a half pounds. Mix it well with the liquor, make it boil quarter of an hour, dip the silk quickly, then let it cool, and wash in soft or river water.

**GREEN.**—For every pound of yarn or cloth, add three and a half ounces of alum and one pound of fustic; steep to get the strength, but not boil; soak the cloth until it acquires a good yellow color; throw out the chips and add the indigo compound slowly, until you have the desired shade of green. An ounce or more of the compound is required for the above quantity, varied according to the depth of shade.

**BLUE.**—A splendid blue may be produced in an hour by the following process:—For each pound of wool or cloth take two and a half ounces of alum

and an ounce and a half of cream of tartar. Boil these together in a brass or copper kettle for about an hour; now take sufficient warm water to cover the cloth or wool, and color it to the shade you wish with the liquid blue; put the whole into the copper pot and boil it a short time, taking care to keep it stirred; remove the cloth and rinse in clear cold water, and hang it up to dry.

**SALMON.**—Take one pound of wool, a quarter of a pound of annatto, and a quarter of a pound of soap. Take water sufficient to cover the wool, in which dissolve the annatto and soap; rinse the wool in warm water, put it into the annatto mixture and boil about half an hour. The shade may be made lighter or deeper according to the quantity of annatto used.

**PURPLE.**—For every pound of yarn or cloth, take two ounces of cudbear, rinse the cloth well in soap suds, then dissolve the cudbear in hot suds (not quite boiling), and soak the cloth till of the required color. The color is brightened by rinsing in alum water.

**ORANGE (on cotton).**—For one pound, take two ounces sugar of lead and one and a half ounces of bichromate of potash. Dissolve each separately in just enough boiling water to cover the cotton, and dip it alternately from one to the other three times, or until the desired shade is obtained.

**BLUE (on cotton).**—For one pound take two ounces of copperas, dissolve it in sufficient boiling water, put the cotton in, and let it soak one hour. Dissolve three-quarters of an ounce of prussiate of potash in same quantity of fresh boiling water, and add half an ounce of sulphuric acid (by weight), then dip the cotton alternately from one to the other three times, or until the desired change is obtained, and rinse well with cold water.

**GREEN (on cotton).**—Dip the cotton colored blue into the orange dye.

**PINK (on cotton).**—For five pounds, take two pounds of newwood and four ounces solution of tin; put the cotton in and let it remain till the shade suits.

**NEW BROWN.**—For five pounds, take five ounces bichromate of potash, half pound camwood, and two and a half pounds of fustic. Dissolve the bichromate of potash in boiling water, put the yarn in and boil for one hour, take the yarn out and rinse in cold water; put in enough fresh water, add the woods, then the yarn, and boil for an hour and a half.

### DOVE AND SLATE COLORS OF ALL SHADES

are made by boiling in an iron vessel a teacupful of black tea with a teaspoonful of copperas and sufficient water. Dilute this till you get the shade wanted.

All fancy colors should be colored in brass or copper vessels, with plenty of soft water, and wet before putting them into the dye.

Dr. A. Trask's

The GREAT HEALING

The Proprietors of this medicine challenge the world to test the efficacy of Esculapius doctore's Arcana of Medicine, which excel the intrinsic properties of any other medicine.

The worst Sores, Blisters, Disorders, Sprains, Rheumatism, Lameness, internal affections characterized by Inflammation, yield to its influence. Wherever there is inflammation, and you will never be cured.

It never fails to restore the skin and equalize the complexion.

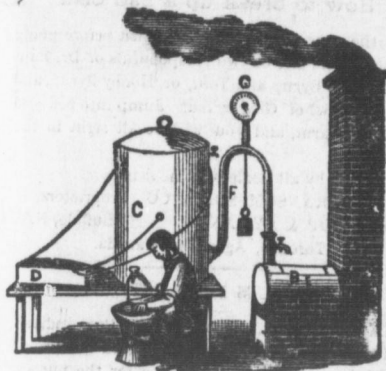

It penetrates to every part of the system; every bone, every ligament is searched out, and soothing and healing is effected readily with internal application. Its success has been manifested in the most obstinate cases of Inflammation of the Throat, Lungs, Bowels, and other organs of the human frame. It is the most eminent physician for Sores or Injuries attended with Eruptions of the Skin, and Lameness, and its operation is speedy, and its application is safe, provided the patient is in a proper state of health.

P. I.

There is no disease which will more quickly yield to its influence than this, and the Proprietors declare that they have cured every case, however obstinate, provided the patient is in a proper state of health, and where hundreds of cases have been tried and failed, the success of this medicine has proven successful.

XXXI

## Dr. A. Trask's Magnetic Ointment.

### The GREAT HEALER of all Inflammation.

The Proprietors of this sovereign remedy challenge the world to furnish anything, from the days of Esculapius down to the present time, in the Arcana of Medicine which can vie with or excel the intrinsic properties of this Ointment.

The worst Sores, Bruises, Cuts, Burns, Skin Disorders, Sprains, Sore Throat, Croup, Rheumatism, Lameness, and all external and internal affections characterized by INFLAMMATION, yield to its influence as if by magic. Wherever there is inflammation try this Ointment, and you will never be without it.

It never fails to restore the natural functions of the skin and equalize the circulation of the blood.

It penetrates to every portion of the human frame; every bone, muscle, vein, nerve and ligament is searched out and made sensible of its soothing and healing influence. Hence it copes readily with internal as well as external disease. Its success has been marvellous in the most obstinate cases of Inflammation of the Eye, Brain, Throat, Lungs, Bowels, and other delicate organs of the human frame, where the skill of the most eminent physicians has been baffled, while for Sores or Injuries attended with inflammation, Eruptions of the Skin, as Salt Rheum, Pimples, &c., and Lameness, it is without a rival. Its operation is SPEEDY, and, containing no minerals, its application is safe, producing immediate relief.

#### PILES.

There is no disease more torturing, nor one which will more quickly derange the whole nervous system, than this, and yet thousands of sufferers declare that they can get no relief. But every case, however aggravated and desperate, can be cured, provided the proper medicine is obtained, and where hundreds of so-called remedies have been tried and failed, the MAGNETIC OINTMENT has proven successful beyond all parallel. In

xxx

fact, we sell the Ointment directly to hundreds of people, who, having used it themselves, wish for more to supply their suffering friends. Regarding its effect in this disease and others, we have multitudes of testimonials in our office which we have not space to insert here, but in pamphlet around bottle will be found a selection of the most striking cases of cure.

#### RHEUMATISM.

GENTLEMEN.—Among many remarkable cures performed by "Dr. Trask's Magnetic Ointment" in this section of the country, I send you the following: Calling on my friend Deacon Barber, of this place, I found him prostrate and helpless, under a severe attack of Inflammatory Rheumatism. Knowing the curative effect of your "Magnetic Ointment" in this disease I proposed a trial of it, and with his consent I made a thorough application of it to the diseased parts, rubbing it on with my own hands. I used the whole of one small bottle. The next morning he was able to come to the breakfast table, and said he felt like a new man—thought a good Providence had sent me there. Within one week he was perfectly well and at work on his farm.

Yours truly, JOEL E. KEELER,  
Wheatland, Mich.

\$1,000

Is offered if above is not genuine, or any other certificate published by us.

Many eminent physicians have introduced the MAGNETIC OINTMENT into their practice, and speak in the most enthusiastic terms of its success over a large class of diseases. The following have handed in their names for reference:

Drs. Geo. & Wm. Cleveland, Waterville, N. Y.  
Dr. Buckingham, Marshall, N. Y.  
Dr. Preston, Sangerfield, N. Y.  
Dr. Bingham, Utica, N. Y.  
Dr. Bronson, Clinton, N. Y.  
Dr. Bissell, Clinton, N. Y.

CAUTION.—There are several parties endeavoring to sell a Magnetic Ointment, which is palmed off as the genuine article. Beware of such, and only take Dr. A. Trask's Magnetic Ointment, and see that the name is blown on the bottle.

Sold by all dealers in medicine.

D. RANSOM, SON & CO.,  
Proprietors,  
NORTHROP & LYMAN, Buffalo, N. Y.  
Toronto, Agents for Canada.

Mr. Jones carries his money in his hat, and the other day when he saw the entire supply going off on the winds of heaven, he bitterly remarked, "That's what you get with your infernal inflation."

A lady ate oysters all through the month of August, when she could get them. Under the supposition that there was an "A" in that month, "August" was the way she spelled it.

**DR. RANSOM'S**  
**HIVE SYRUP AND TOLU**  
**HONEY SYRUP**

**"Dr. Ransom's Hive Syrup and Tolu,"** in addition to ingredients for ordinary Hive (or Croup) Syrup (or compound Syrup of Squills, used by physicians throughout the world for over 100 years, the formula of which is contained in the United States Dispensatory), contains Balsam of Tolu, Decoction of Skunk Cabbage Root, Lobelia and Hops; a combination that must commend it to everyone as a superior remedy for

**Croup, Whooping-Cough, Asthma, Bronchitis, Coughs and Colds;**

Indeed, for all affections of the Throat and Lungs where a cough medicine is necessary.

This Syrup has been carefully prepared under the personal direction of a regular physician of over twenty years' practice, whose signature is attached to the directions on the bottle.

**Parasiteness.**

Carry a bottle of Dr. Ransom's Hive Syrup and Tolu, or Honey Syrup, in your pocket, and moisten your throat with it every half-hour, or hour, and it will restore the voice in twenty-four hours. It is of incalculable value to singers and public speakers, removes in a few minutes the huskiness of the voice, restoring its natural smoothness.

**Why People have Consumption.**

Frequently because they neglect a slight Cough. It is not necessary to consult a physician, but take Dr. Ransom's Hive Syrup and Tolu, or Honey Syrup, and cure your Cough at once. This is an excellent prescription of an eminent physician, and adapted to all Coughs and Colds.

**Throat and Lungs**

At this season of the year, when Coughs and Colds are troublesome, every family should have a safe and certain remedy at hand. Dr. Ransom's Hive Syrup and Tolu, or Honey Syrup, is the very thing. It is not only pleasant for children to take, but is a certain cure for Croup, Whooping Cough, Bronchitis, Asthma, Coughs, and all affections of the Throat and Lungs. Sold by all druggists. Price 25 cents per bottle.

**Why Cough yourself to Death.**

A few doses of Dr. Ransom's Hive Syrup and Tolu, or Honey Syrup, will stop your Cough and heal your lungs. Physicians use and prescribe it.

xxxii

**How to break up a Bad Cold**

Bathe your feet in hot water just before going to bed; take one or two teaspoonfuls of Dr. Ransom's Hive Syrup and Tolu, or Honey Syrup, and drink a bowl of Ginger Tea. Jump into bed and wrap up warm, and you will be all right in the morning.

sale by all dealers in medicines.

**EXTRACTS FROM LETTERS**

DAVID G. KERN, Milton, Wayne Co., Indiana, writes:—Your Hive Syrup and Tolu has proved itself the most reliable medicine for the purpose intended of which I have any knowledge

EDWARD NEWHOUSE, of Edwards, Wis., says:—I have sold all the Magnetic Ointment your agent left me last summer, and wish you to send a supply as soon as possible, as I don't like to lose my customers by not having it always in hand.

W. O. AUSTIN, White Pigeon, Mich., writes:—I find your Hive Syrup and Tolu an excellent remedy for Whooping-Cough and Croup, especially for the former, which is prevailing in a neighborhood south of us. I must not be out of the Syrup; please forward me a supply without delay.

ANGEL & NORTH, Grand Haven, Mich., writes:—Please send us six dozen Hive Syrup and Tolu; we have sold all your agent left with us. We cannot afford to be without it.

G. A. BUFFINGTON, Jerseyville, Ill., writes:—Your very reliable medicines have a great run here. I am out of your Hive Syrup and Tolu; please send me a gross as soon as you can.

WAYSON & NOBLE, Indianola, Iowa, says:—We have sold all the Hive Syrup and Tolu left with us, and could have sold double the quantity. It gives general satisfaction. We want a supply at once.

J. L. BEST, Chatham, Four Corners, N.Y. says:—Send me a supply of your Hive Syrup and Tolu, and Trask's Magnetic Ointment; I am entirely out, and cannot keep shop without them.

DAVID PARSONS, Tafton, Grant Co., Wis., says:—There is no medicine that sells so rapidly as your Trask's Magnetic Ointment and Ransom's Hive Syrup and Tolu. The Syrup of Tolu stops coughing almost instantly, and is a certain remedy every time for the Croup. The Magnetic Ointment is a universal remedy. I have used in my own family, including what my neighbors have borrowed, no less than twelve bottles. It is the best for Burns, Sores, Swellings, Sore Throat, and indeed everything it is advertised to cure, of all the medicines used for such purposes. I am out of the two medicines. Send me a supply at once.

## Dr. Kellogg's Catarrh Snuff.

This Snuff has thoroughly proved itself to be the best article for curing Catarrh, Cold in the Head, and Headache. It has been found also an excellent remedy in many cases of Sore Eyes and Deafness. Hearing has often been greatly improved by its use. It is fragrant and agreeable, and

### GIVES IMMEDIATE RELIEF

To the dull, heavy pains caused by cold in the head. The sensations after using it are delightful and invigorating. It opens and purges out all obstructions, strengthens the glands, and gives healthy action to the parts affected.

Mr. PAUL THIBODEAU, Cavendish Road, P. E. I., writes: "I have had Catarrh for twelve years, and fifty cents worth of KELLOGG'S SNUFF did me more good than \$50 worth of medicine which I had from the most eminent medical men of Montreal, Quebec, St. John and Charlottetown. I think one more bottle will completely cure me."

For sale by all Medicine Dealers. Price, 25 cents per bottle.

NORTHROP & LYMAN, TORONTO, ONTARIO,  
 Sole Agents for Canada.

## Family Aniline Dyes.

For Dyeing all kinds of Woollen, Cotton or Silk Goods, Feathers, Artificial Flowers, &c., giving a beautiful and brilliant color, unsurpassed by any other dye, easier done, and more lasting than by the old process.

They are used for all purposes where a coloring agent is required, such as Basket and Leather Work, Grasses, Everlasting Flowers, &c., &c.

The purple makes an ink much superior to what you can buy, it does not corrode the pen, and is much cheaper than any other ink, and in every way will give you more satisfaction.

They are put up in packages, handy and convenient, and if the directions are followed, the results will be all that we claim for them.

As there are several persons putting up package Dyes, don't fail to get the "FAMILY ANILINE DYES," with our names on each package.

NORTHROP & LYMAN,  
 Proprietors, Toronto.

The other day there appeared upon the placard of a daily paper an announcement of "Fatal Cases of Drowning." We hope that when any cases of drowning that are not fatal occur, they will be carefully reported.

"I'm not in mourning," said a young lady frankly to a lady querist, "but as the widows are getting all the offers nowadays, we poor girls have to resort to artifice."

A stamp you can't buy—The stamp of a gentleman.

## It is a Pitiabie Sight

To behold a young person enfeebled, nervous, pale, and obviously sinking into a premature grave. Yet how often do we see men and women, long ere the meridian of life is reached, in the condition described. It is the height of folly to neglect those premonitory symptoms of chronic ill health, which develop themselves in the shape of debility, loss of appetite, nervous sensations, Dyspepsia, and an irregular state of the bowels. Deal summarily with the minor ailment before the greater assails you. If the enfeebled physique is not speedily built up it will assuredly succumb to the inroads of disease. Many persons are deterred from the use of medicines by the presence of some ingredient unsuited to a delicate constitution. No such objection as this can be urged against NORTHROP & LYMAN'S QUININE WINE, as it is eminently wholesome. It is not a mere palliative of the disorders and disabilities to which it is suited.

*It re-establishes Health upon a permanent basis by entirely removing the cause of its loss.*

### TO BUSINESS MEN, STUDENTS,

And those who have much brain work, we would say, try our QUININE WINE. It will strengthen you and keep your system in regular order, and enable you to successfully combat with the work before you.

This article is prepared from the pure Sulphate of Quinine, combined with fine sherry wine and choice aromatics, and is made an agreeable and pleasant invigorator to the whole system. It is a well-known fact that Quinine has been acknowledged by the medical faculty for many years as the best appetizer and tonic known. And for General Debility, this combination will be found superior to all other preparations.

It imparts to the stomach tone and energy, and fortifies the system against infectious diseases and exposure to change of climate. It is pleasant, and contains *Nothing Injurious to the Most Delicate Constitution.*

The properties of Quinine are a febrifuge tonic and antiperiodic. Small doses, frequently repeated, strengthen the pulse, increase muscular force, and invigorate the tone of the nervous system.

The peculiar operation of this medicine in GENERAL DEBILITY, and as an APPETIZER, has undergone long and close observation, and it is believed it will never fail, if properly and judiciously administered, unless other diseases predominate of a different character.

**Northrop & Lyman's Canadian  
Liquid Hair Dye.**

While some people admit that grey hairs are honorable, yet we have not met with that person who would prefer to exchange his or her locks of brown or black for the honorable hairs. There may be some with an objectionable color that would make the exchange, but to such we would say, try a bottle of the Canadian Hair Dye, and it will change both red and grey to a beautiful black or brown, as may be preferred, allowing it to retain all the freshness and lively appearance of the original hair.

It has been on the market for over twenty years, and is gaining in popularity every year, and now has a larger sale than all other Hair Dyes, which is due entirely to its merits.

Unlike many other preparations, it will neither rub nor wash off, and as it is complete in itself, it is much more convenient than those requiring two separate bottles.

It is easily applied, and quickly and effectually produces the desired color.

Give it a fair trial, and satisfactory results will follow.

Price 50 cents per bottle. Sold by all druggists and medicine dealers.

Prepared only by NORTHROP & LYMAN, Toronto.

**Northrop & Lyman's Glycerin  
Cream,**

**For Chapped Hands, Cracked Lips  
Sunburn. Tan, Softening the Skin**

AND

**BEAUTIFYING THE COMPLEXION.**

This article is one of the most delightful and indispensable things in the Dominion for a lady's toilet. After being out in the wind, if used on the face and hands, it will remove all roughness and irritation, soothing the sunburnt parts, and removing **redness** from the skin.

By using occasionally on the face it will soften the skin and give it a smooth surface, thereby arresting wrinkles.

Keep your temper unruffled, your thoughts on things pure and noble, and use Northrop & Lyman's Glycerine Cream, and you will reach a good old age before Nature has made its abode upon your face.

For pimples, eruptions and sores that disfigure the face, it will be found very valuable, and all sores that require a cooling and healing ointment, it is peculiarly adapted. It will both soothe and heal, and as it is nicely perfumed is not objectionable like many other articles. As it possesses real merit, it may be relied upon to attain the object we claim for it, viz to soothe, heal, beautify, and cause admiration in the person using it.

Price 25 cents per pot. Sold by all druggists and medicine dealers.

Prepared by NORTHROP & LYMAN, Toronto.
