THE APPEAL FOR RECRUITS
The searching analysis of duty and of motive by such speakers as Mrs. Netta B. Brown and Sergt. Knight cannot fail to have an effect upon the mind of St. John.

THE UNEMPLOYED.
The Montreal Financial Times makes the following remarks on the subject of unemployment in Canada:—
"The general belief among business men, a belief which is fully supported by observation of conditions in Montreal and other large cities, is that unemployment is not nearly as serious as some interested parties would have it supposed, and that it consists very largely of the idler and obvious unemployed."

A BRAZEN ANNOUNCEMENT
The most brazen attempt ever made to cheat the people of Canada and give the present government an extended lease of power after the war is over without an appeal to the people is foreshadowed in the following Ottawa despatch to the St. John Standard:
Ottawa, Sept. 14.—"An extension of the life of parliament until some time after the war, if not, an election right away."

Why should there be "an extension of the life of parliament until some time after the war?" Nobody with an ounce of patriotism wants to distract the minds of the people from their great common task during the war, but after it is over, and the parliamentary term has expired, have they not a right to say who shall govern them?

Don't Use Dangerous Antiseptic Tablets

It is an unnecessary risk. Use the safe antiseptic and germicide, Absorbine, Jr.—it kills germs quickly and surely without any possibility of harmful results; made of pure herbs, non-poisonous and there is no danger whatever if the children get hold of the bottle. It retains its germicidal powers even when diluted one part of Absorbine, Jr. to 100 parts water.

A Sentence Neatly Expressed
There is a great deal in putting a thing nicely. A prisoner was being sentenced some time ago.
"You have a pleasant home and a bright fire, with happy children sitting around it, haven't you?" said the judge.

The Man Dilettante
The manager of a factory recently engaged a new man and gave instructions to the foreman to instruct him in his duties. A few days afterwards the manager inquired whether the new man was progressing with his work.
The foreman, who had not agreed very well with the man in question, exclaimed angrily:
"Progressing! There's been a lot of progress. I have taught him everything I know and he is still as ignorant fool."

NEW YORK GIRL SUES JOHN WANAMAKER, JR.
Claims \$100,000 in Breach of Promise Suit—Defendant Denies He Ever Asked Her to Wed

New York, Sept. 14—John Wanamaker, Jr., son of Rodman Wanamaker, and grandson of John Wanamaker, merchant prince, philanthropist, and former Postmaster-General, has been named as defendant in a breach of promise action for \$100,000. Miss Lucille Storer of this city is plaintiff.

This suit became known yesterday when Henry A. Wise, counsel for Wanamaker, moved in the supreme court for the transfer of the action from the State to the United States Court.

The fact papers show the defendant was served with the summons and complaint last July as he was about to return to England. He had come to New York on June 23, having the substance of the suit, to attend the wedding of his sister, Mary Louise, to Gurnee Munn.

Little could he be learned yesterday concerning Miss Storer, H. M. D. Connelly, her lawyer, said he did not wish to make a statement until he had consulted her. Miss Storer alleges Wanamaker began to court her in the spring of 1912. She says he promised marriage and to marry within a reasonable time and she implicitly on him. He continued his attentions, she sets forth, until late in 1914, and then informed her he did not intend to marry her.

Attorney Wise stated last night that his client will file a general denial of Miss Storer's allegations. The lawyer said his client was twenty-one, a Princeton student, when he met Miss Storer, and had accompanied her to places of amusement. He denied he ever asked her to be his wife.

WOMAN INSISTS SHE WILL BE NEXT VICE-PRESIDENT

Mrs. Kathryn Rutherford, of Chicago, Announces Herself Republican Candidate

Chicago, Sept. 15—She looks like a nurse, gray-haired and dressed in white. "I am Mrs. Rutherford, yes—the Mrs. Rutherford," she smiled, "who is going to be next Vice-President of the United States."

Leading the way to her office as housekeeper of the Municipal Tuberculosis Sanitarium, Mrs. Kathryn Rutherford sat down.

"I am not a politician, but a humanitarian," said she. "All women are humanitarians. Some are intellectually developed and that is what I am. I am going to be a candidate for the Vice-Presidency on the Republican ticket. Think of what an inspiring thing it would be to have a woman in the Vice-President's chair—and eventually a woman in the President's chair."

"What will I do if I become vice-president is interesting. I'm surprised you have asked me that question. Well, I won't let this country be involved in war—that fact will do all in my power to prevent it. Woman is naturally against war. It keeps her subjugated, no matter who wins. And then I am interested in labor questions."

"Oh yes, I didn't tell you that I think a nation should be treated like a child—lovingly. As vice-president I would be careful and act exactly the same as I do today."

Public Buildings and Phone System Declared Grossly Over-rated—Appraisal Company Engaged

Winnipeg, Sept. 14—The Norris government today contracted with the Canadian Appraisal Company, of Montreal, to make a complete appraisal of the public buildings in the province and the provincial telephone system, the work to be finished within sixty days.

This is the first step in a departmental investigation of the erection of every public building in Manitoba. The suggestion emanated from Hon. Edward Brown, provincial treasurer.

Mr. Brown said the appraisal was to place an accurate estimate of the cost of erection of the buildings. The result, he estimated, would show nearly \$4,000,000 less than the book values after taking in the telephone system purchase and the new parliament buildings.

REVEREND THOS. HARRISON GIVEN LEAVE TO GO AS CHAPLAIN

At the afternoon session of the Presbytery of St. John yesterday, Rev. Thos. Harrison was granted one year's leave of absence from his church in St. George to accept the appointment as chaplain of the 64th Battalion.

The application of Rev. G. S. Squires, a Methodist minister of Hull, Mass., for admission to the church was approved and ordered forwarded to the General Assembly.

An additional grant of \$100 was recommended for the new church at Westfield.

At the morning session Rev. J. C. Mottin of Hamilton declined a call to Grand Falls.

Arrangements were made for taking the vote on church union, not later than November 14.

WEDDING ANNIVERSARY OF FAIRVILLE PASTOR

Between forty and fifty of the young people of the Fairville Baptist congregation gathered at the parsonage last evening to tender hearty congratulations to Rev. P. H. Hayward and Mrs. Hayward on the seventh anniversary of their wedding. The young folks greeted the worthy pastor and his wife with the following salute, to the tune of Tipperary:

"It's a short way to the Baptist parsonage.
It's a short way to go.
To the dearest couple we know.
Goodbye Fairville people.
Hello Inspiration Hill.
It's a short way to the Baptist parsonage.
And my heart's there still."

On behalf of the gathering a handsome dinner set was presented to Mr. and Mrs. Hayward as an expression of sincere congratulation, after which games were played and a general good time enjoyed by all, concluding with refreshments provided by and served by the young ladies.

The Kansas story of how the farmers put beer kegs instead of wheels on their binders in order to harvest in wet weather this year recalls the old story that was often told in the days when there was a law that permitted the sale of liquor for medicinal, mechanical and scientific purposes. A farmer came in one day and offered to purchase a gallon of the stuff from the local druggist. Out came the druggist's book, in which all sales and the purposes for which the liquor was to be used must be registered.

"What are you going to use it for, medicinal, mechanical or scientific purposes?" asked the druggist.

"I want to put it down as mechanical," replied the farmer. "I'm going to have being brought from Burgundy and Bordeaux for maturing the new vintage."

It Is Only A Step

So to speak, from Poor Sight to Blindness.

Perhaps it never occurred to you that a defect in the sight is not, as a rule, a disease of the eye. So often it is a condition which the proper Glasses will not only relieve but many times entirely cure. Sight is restored, eyes are made strong, headaches disappear, the nervous strain is relieved, and the eyes are saved, perhaps, from blindness.

If you have Eye Trouble, a personal talk will interest you.

VISITING ODDFELLOWS

Visiting Oddfellows from Winstimmet Lodge, Chelsea, Mass., are being entertained in the city by fellow members here. In Golden Rule Lodge, West of the city, they gave an excellent performance of the second degree which was most successful. Following the ceremonial a united meeting of the members with Jewel and Sapphire Rebekahs was held, a banquet given and dancing enjoyed.

The visiting Oddfellows are: M. L. Crad, G. G. Sherman, L. P. Bovine, F. S. Ordway, F. B. Rye, J. R. Rice, E. Taylor, L. Knowlton, J. W. Fenwick, E. Bolwin, J. G. Davis, J. H. Barnaby, J. S. Smith, A. E. Frowe, W. B. Jones, C. A. Coleman, A. F. Douglass, G. G. Brown, A. Grove, R. Monson, J. T. Anderson, C. A. Douglass and J. J. Smith. The team is specializing in degree work and during the trip is being called upon to officiate quite often.

Remember the date! Conventions begin next Monday.

THE LEAGUE OF NIGHT WATCHERS REVIVED

Composed of Those Who Cannot Sleep Because of Worry Over Fate of Friends at Front

London, Sept. 15—The Christian, a religious journal, says the newest and oldest of all missionary societies in the world is the League of Night Watchers. Because of worry over fate of friends in the trenches and on battlefields vast numbers of English people found it impossible to sleep at night. Some of them discovered that knowledge that others similarly afflicted were praying or perhaps merely thinking of them helped them to pass the hours and bring cheer.

Means were taken to let each other know names, circumstances and causes of worry, and now the league numbers thousands, and is growing rapidly.

The leaders held a convention recently and decided to welcome contributions for the welfare of plans for relief might divert attention and induce sleep. It was decided also to form two branches, one composed of members who cannot sleep because of war worries, the other of those who must not sleep because of duty as nurses, guardsmen, physicians or military officers.

PROSPECTORS RUSH TO KOWKASH REGION

Great Search Being Conducted For Promising Claims—Much Land Staked

Cochrane, Sept. 15—Reports from Kowkash received here state that the country is now full of prospectors and that they have scattered over a wide area in search of claims to stake. Hundreds of claims have already been staked and the search for quartz veins has begun. So far the best samples seen, it is said, have come from the original Dodd's claims, but investigators are of the belief that when sufficient time elapses for them to make a thorough search they will be successful in uncovering some promising showings.

A considerable amount of freight is now being sent over the National Transcontinental from this point to Kowkash including camping outfits and provisions.

Pink Champagne May Be ONE RESULT OF WAR

London, Sept. 15—Pink champagne is one of the probable results of the war, owing to the great destruction of casks used in maturing red wine. Casks are being brought from Burgundy and Bordeaux for maturing the new vintage.

How Often Do You Look At Your Watch?

The average person consults his watch at least a dozen times a day or about 4,000 times a year. Keep a record some day for yourself and you will be surprised at the frequency with which you consult your timepiece.

The person who owns a Waltham has the double satisfaction of seeing the word Waltham on the dial and realizing that he is learning the actual time. Character, prestige and accurate service—all these belong to the Waltham owner.

Waltham Watches

are made and guaranteed by the greatest watch organization in the world. There is great gratification in possessing the best of its kind, and this is the privilege of every Waltham owner.

We have just issued a booklet containing a great deal of interesting information about watches. We will gladly mail it to you free if you will send us your name and address.

STRONGLY URGE THE NEED OF MORE RECRUITS

"From reports I see that all Canada is still recruiting men and working them into shape. All will be needed. This war is only beginning. It is hard to imagine that men, supposedly sensible, thinking men, can stand on one side and not jump into the game. What were they born for? Are they blind? Don't they want to take a man's part in this, the greatest and most momentous event in the world's history? What are they waiting for? It is this hanging back and not giving us men and munitions at the start that is costing all these lives. It will not do any good for them to come forward too late. We are going to win."

Restaurant Politics

"I tipped every waiter in the dining room," said the man at the summer hotel.

"And thereby secured the best of attention?"

"No. The head waiter asserted his authority and called a boycott. He was indignant because I didn't hold out on the other boys and give all the money to him."

IS CROWN PRINCE OUT OF HIS MIND?

Reported That Kaiser's Eldest Son Has Broken Down Under the Strain of War

London, Sept. 15—A despatch from Northern France to the Central News gives a sensational report from German sources, via Rotterdam, that the Crown Prince is suffering mental aberrations as the result of worries of the campaign.

He undoubtedly has not spared himself in the attempt to strike a decisive blow on the western front. Friends say that he did not sleep for three days during the recent offensive, and that he has broken down under the strain.

Despite the entreaties of the princess, the prince refused to relinquish his command, even temporarily.

GLASS AND EMERY IN LUBRICATING OIL OF LINER ST. LOUIS

When Vessel Stopped For Engine Trouble, an Oiler Jumped Overboard, Was Rescued, But Died

New York, Sept. 15—The American liner St. Louis here from Liverpool, had been laid up for a week to overhaul her engines, which had been damaged, according to a rumor emanating from the crew, by emery dust placed in the lubricating oil. The vessel had declined to discuss the matter, but said that a fall report had been filed at the company's office in Liverpool.

Edmund N. Todd, vice-president of the Hanson & Van Winkle Company, manufacturers of chemicals at Newark, N. J., who was on the St. Louis on her last trip from this port, said tonight that he heard that gravel glass was found in one of the engines.

Mr. Todd said that on the fifth day out as the ship was supposed to be on the Irish coast, something went wrong with one of the engines. When the trouble was discovered, one of the oilers jumped overboard. A life-boat put out and rescued the man, but he died aboard the liner.

Mr. Todd said a ship's officer told him that particles of gravel glass were found in the cylinders of one of the engines. The officer threatened to damage the bearings and put the pistons out of commission. Whether the pieces of the oiler had anything to do with the trouble to the engine Mr. Todd could not ascertain. The St. Louis arrived in Liverpool on Saturday morning and was expected to arrive here last Thursday.

REVEREND THOS. HARRISON GIVEN LEAVE TO GO AS CHAPLAIN

At the afternoon session of the Presbytery of St. John yesterday, Rev. Thos. Harrison was granted one year's leave of absence from his church in St. George to accept the appointment as chaplain of the 64th Battalion.

The application of Rev. G. S. Squires, a Methodist minister of Hull, Mass., for admission to the church was approved and ordered forwarded to the General Assembly.

An additional grant of \$100 was recommended for the new church at Westfield.

At the morning session Rev. J. C. Mottin of Hamilton declined a call to Grand Falls.

Arrangements were made for taking the vote on church union, not later than November 14.

DULL OUTLOOK FOR LUMBER IN MAINE
 (Bangor Commercial.)

That the lumber cut on the St. John river waters will be 40 per cent below normal this season is the opinion of a prominent Bangor lumberman, who is interested in large holdings in northern Maine. It was off 25 per cent last year, and a further decrease is looked for this season. The low market and small demand for lumber is the chief cause.

"The operators should be getting under way here," said he, "but this far along in the season I know of none who have commenced operations. It may be that they are waiting for the millmen to indicate what they will need, but at this time in other years the camps have usually been started."

"I cannot see where there will be more than 50 per cent of the normal cut this season if the operators cut the way they are planning and talking now."

"There is little or no demand for lumber and the operators are piling up manufactured lumber in the mill yards, the shipments being unusually light."

"The log which was hung-up on the St. John below the mouth of the Alleghans has been moved, but the several millions of logs which were held at Seven Islands and above there because of low water, are still there, or were at last reports, and will probably remain there until the fall freshets when it is hoped that they can be moved down the river."

RIGHT KIND OF FATHER.
 Is Careful Not to Shift Individuality of His Boy.

The father who has kept his son was wise enough to remember that there are no sorrows in the world so bitter as the disappointments of childhood. For instance, the boy will never forget his father's tender solicitude on the morning when they got up to find that the cat had eaten his pigeon. He had moved ladders and wedged gardens all summer with no word of complaint, because the money that he earned was to purchase the finest pair of fancy pigeons in town. In the evening after the hard day's work, he built the little house that was to be the pigeon's home and fashioned the yard of wire around it. One evening when the summer was nearly over he trudged up town with the earnings of all his work in his pocket and came back with the two beautiful birds. He longed for his usual bedtime. That night the cat found a place where the wire around the yard was not secure and killed one of the birds.

Some fathers might have passed it off with a laugh and an offer to replace the lost bird; and such fathers would have wondered in later years, a trifle resentfully, why their sons went always to their mothers for comfort and for advice in their problems.

He was wise enough, too, to know that there is no such thing as a "normal" boy, that the thing which makes one boy a trifle strange, which sets him apart from the other boys, is the germ of personality that is most precious. When his boy drew back a little from sports and showed an eagerness to be alone and to read, he who himself had been the roughest of the crowd in the games of his own youth, made no effort to create his son's boyhood in the image of his own—Woman's Home Companion.

RECENT DEATHS

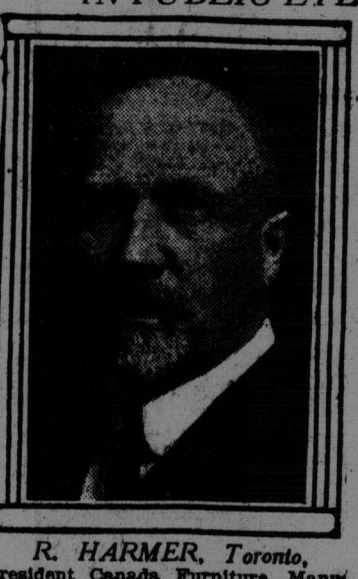

James A. Marks passed away at his home at Demoselle Creek, Albert county, on Sept. 10. Mr. Marks was one of the old-time ship-carpenters of St. John. He is survived by his wife, one son, W. Marks of Grand Bay, Kings county, and two daughters, Mrs. W. Brittain of Sydney, C. B., and Mrs. W. A. Smith of West St. John. Mr. Marks was in his eighty-sixth year.

The death of L. J. Pollard of Moncton, occurred Tuesday. He was sixty-seven years of age, and leaves five children—Mrs. David Wallace in the United States; Mrs. Robert Cameron and Mrs. Angus McDonald of Moncton; Mrs. Joseph Clark in Seattle, Wash., and one son, Harry, in the United States. He also leaves three brothers and one sister.

Albert Murray, of Shelburne, has received news of the sudden death of his sister, Mrs. Walter Williams, which occurred in Buenos Ayres last week. Mrs. Williams visited Mr. Murray in May, sailing afterwards from New York accompanied by Mr. Williams and her son-in-law and daughter, Mr. and Mrs. Lindgren, with whom Mr. and Mrs. Williams were to make their home. Mr. and Mrs. Williams formerly resided in San Diego, Cal., where a son, Albert, survives them.

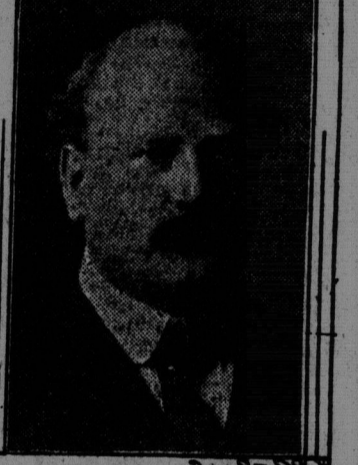

In Carleton, Me., Donald McTavish, a former resident of Newcastle, died recently, after an illness of six weeks. He was born in South Esk seventy-two years ago, and about thirty years ago removed to Robinson, Me., where he was successful as a potato buyer. About two years ago he retired and removed to Carleton, where he was accompanied by Mrs. Williams and her son-in-law and daughter, Mr. and Mrs. Lindgren, with whom Mr. and Mrs. Williams were to make their home. Mr. and Mrs. Williams formerly resided in San Diego, Cal., where a son, Albert, survives them.

MY SALARY.

It is when people drudge at drudgery, uncomprehending, hated tasks that they become greedy. Then, no wonder they are the most greedy they can get their greedy hands on. They are the most greedy yet shrilly philippic jingles.

How does the busy bee
 Delight to bark and bite
 And gather honey all the day
 To eat it up at night?

Now, to my way of thinking, the most attractive point about my profession is that it always allows me to eat my honey as fast as I gather it. My work is my pleasure. Give me a pulpit, a paragon, decent living and freedom to "labor" and the very uttermost limits of my strength and my life is an unceasing stream of happiness and responsible satisfaction. My salary doesn't pay me for preaching; it simply gives me the opportunity to preach. And, granting just one condition, it is ample for my needs. It permits me to live as comfortably as the bulk of my people do. Why live better? But I cannot insist too earnestly on that one condition, and perhaps I shall emphasize it effectively if I repeat a scrap of dialogue beneath a picture I once saw in the back of a magazine.

"Two actors were talking. Said the first: 'It is a hundred dollars per week they offer you, or a hundred dollars a week?'"

Said the other: "Why, what's the difference?"

"All the difference in the world. If it's a hundred dollars per week, I'll take it."

Schools Are Not Always to Blame for the Spread of Contagious Disease

It is not uncommon for parents to believe schools responsible for spreading scarlet fever, diphtheria, septic sore throat, and other contagious diseases, including tuberculosis, among children. This idea, to a great extent, is wrong. Children often contract disease from unclean, impure milk taken with porridge or as a drink (little as you may have suspected it); your doctor will tell you that. Why not investigate your milk supply? It is a duty you owe your family.

PRIMECREST FARM PURE MILK

is Guaranteed Free from Disease, Perfectly Clean, Strictly Fresh, for our cows are tuberculin tested and regularly inspected; our barn, milking and dairy staffs are thoroughly disinfected monthly; everything the milk touches is scoured, rinsed and sterilized. The milk is doubly clarified, scientifically cooled and delivered in sterilized, protected glass cans.

NERVOUS DYSPEPSIA

For 11 Years—Completely Cured by Dr. Cassell's Tablets The Famous All British Medicine

Pain and Wind So Bad It Nearly Choked Her.

Palpitation, Faintness, and Extreme Nervousness.

Was Very Thin and Anemic.

Now in Splendid Health Through DR. CASSELL'S TABLETS.

Those here in Canada suffering from Digestive or Nerve Troubles who read the true story cannot fail to get new hope from its personal Mrs. Rogers, of 246 Whitehall road, Bristol, England, had suffered from acute dyspepsia for eleven years, ordinary treatment had failed to do her any good, yet Dr. Cassell's Tablets cured her.

"It is quite eleven years since I first began to be troubled with pains and wind after food, and all that time I was never quite free from dyspepsia. Of course, I was better sometimes, a little better than at other times, but frequently I had frightful attacks of pain in my chest, and wind in such quantities that it almost choked me. My heart would palpitate till I went quite faint. I was very nervous, too, so nervous, in fact, that my husband actually stopped the clock because I could not bear the ticking."

"The result of all this suffering was that I became quite thin and anemic, and so weak that if I tried to do my household I simply fainted. I had to pay to have it done for me. Latterly I could not get about the house without support, and I used to turn the broom upside down and use it as a sort of crutch. At night I always had pepper-tint by my bedside to relieve the wind."

"Of course, I had treatment. I even attended an institution, but I got no better. They always told me to have my teeth out, and that I did not want to do, but when I got Dr. Cassell's Tablets what a change! They relieved me almost at once, and I am stronger than I have been for years. Certainly, I shall never cease to praise Dr. Cassell's Tablets, and as I persevered with them my pain, wind, heartache, and nervousness gradually disappeared, and now I am in splendid health. I can SO BAD COULD NOT WORK. Is Now Perfectly Cured.

The value of Dr. Cassell's Tablets to all who have to earn a living is well seen in the following true story. The teller of this story, Mr. Mandham, of 11 Princess Road, Old Filton, Peterborough, England, had long been too ill to work, but now he is in steady employment, made well and strong by Dr. Cassell's Tablets. He says—

"I am glad to be able to testify to the wonderful curative power of Dr. Cassell's Tablets. They cured me when nothing else I tried would, and enabled me to keep steadily at work. I had suffered for years from dyspepsia, sleeplessness, and bad nervous attacks. I could do nothing while these attacks were on, and they were so frequent that I was as much away from work as at it. I was always more or less ill, and had severe pain after food, with volumes of wind, and a dizzy sensation that I could not shake off. Headaches, too, were frequent and severe, and sometimes I had shivering turns like ague. I tried all sorts of things and had endless medicine, but it was only when I got Dr. Cassell's Tablets that I got any real benefit. It was really wonderful how they cured me. I got sleep at night, could eat without suffering, and now I am in splendid health."

WANTED RECRUITS FOR Canadian Overseas Service

IMPORTANT

THE NATIONAL PATRIOTIC FUND COMMITTEE has decided on a basis of distribution of funds among the wives and children and other dependents of volunteers. IT IS ESTIMATED that a wife on her own account requires Thirty Dollars per month for her maintenance. THE CANADIAN GOVERNMENT provides Twenty Dollars per month of this amount and the PATRIOTIC FUND the remaining Ten Dollars, IF REQUIRED. Children between eleven and fifteen years inclusive are allowed twenty-five cents per day; from six to ten years of age inclusive fifteen cents per day; and under six years of age, ten cents per day. Thus a wife and three children of the ages of three, seven and twelve, MAY receive a total monthly allowance of Forty-five Dollars, of which Twenty Dollars is payable by the Canadian Government and Twenty-five Dollars by the PATRIOTIC FUND. This is of course in addition to the Thirty-three Dollars per month paid to the soldier, and which may be assigned by him to his family.

Besides the above, provision is made for a compassionate allowance for temporary extraordinary need, such as accident, sickness, etc. In short the whole purpose of the PATRIOTIC FUND is so to supplement the GOVERNMENT ALLOWANCE as to provide all reasonable comfort for the families of soldiers on service.

EACH INDIVIDUAL CASE IS SUBJECT TO THE REPORT OF LOCAL COMMITTEES, who shall consider all the circumstances of the families affected, with respect to the earnings of members of such families, amounts received from former employers of the soldiers, and other sources of income.

Every reasonable provision is thus made for dependent relatives.

"THE LISTENING POST"

Full of Pleasant Prose and Poetic Quips—"The Diary of a Real Soldier" and Other Special Features

"The Listening Post," a pretentious four-page journal published by the 7th Canadian Infantry Battalion (1st British Columbia Regiment), Somewhere-in-France, has made its appearance...

"It must be Sunday for there goes the Padre and his hatbox carrying a bag. I wonder if it is heavy? I must make inquiries to find out how they land these jobs."

"I landed the job (padra bitman) all right, but had quite a struggle. The padre is very particular who he has around him. The examination of my pay book proved to him that I had never been in 'chink'."

"A number of 'Limericks' are among the contributions to 'The Listening Post'. This is one of them: A recruit in the Canadian Artillery whose parents had christened him Hilary, went dotty with joy when they told the poor boy he'd be billeted in a distillery."

"The editorial page of 'The Listening Post' is written seriously. It deals with the visit of the Canadian Prime Minister to England and France and the honors conferred upon him. One paragraph states: 'It is scarcely too much to say that the recent admission of the Rt. Hon. Sir Robert L. Borden, G.C.M.G., Prime Minister of Canada to a meeting of the British cabinet, marks an epoch in the history of our imperial relations. Never before has a minister from the dominions been invited to share the inmost councils of the empire, and we are encouraged to hope that precedent of war may become a settled usage of peace. That the end of strife may witness a mighty weakening of Imperial sentiment—the beginning of a great Anglo-Saxon race—and a wise consolidation of the empire's resources, is our fervent hope.'"

Houses For The Soldiers Are Blasted Out of The Solid Rock—Private Enterprise Helps

Italian Front in Trentino, Aug. 25.—A former visiting the Italian army along any of the fronts is quickly impressed with the camaraderie existing between officers and men. The highest mountain peaks are the most available of all the Italian officers to the soldiers. King Victor Emmanuel is perhaps the most powerful motor car in his almost constant tours along the fronts, but he is always accompanied by a staff of officers and men who have actually made for excellent discipline and bravery, military experts state. And for this reason all attempts to enforce the German system of discipline in the Italian army have been abandoned.

With the exception of the British fighting in France, it is said no other nation takes as good care of its soldiers as Italy. The food is excellent and plentiful. The rations are served hot, and the soldiers are kept in the trenches, on the reserve firing line, or on the highest mountain peaks. The first aid corps provides adequate facilities for handling wounded along the lines. Many of the field hospitals are located convenient to the fronts. Several large base hospitals have been established.

Twelve men joined the colors in St. John yesterday. Two largely attended meetings were those held yesterday at which Mrs. Netta B. Brown, of Montreal, was the chief speaker. Authority Over Austro-Hungarian Nationals Exercised to Tie Up Munitions Plants

New York, Sept. 15.—Dr. Constantin T. Dumba, the Austrian ambassador, has been outdone by Count Von Bernstorff, his Teutonic colleague, in a surprise effort to stop the manufacture of munitions and ammunition in this country by compelling workmen employed in these industries to leave their employment, according to a Washington despatch.

While Dr. Dumba merely suggested to his home government that he could seriously cripple American munition industries if he were authorized by his government to exert his authority over Austro-Hungarian nationals in this country, with this end in view, Count Von Bernstorff has actually exercised his authority over German subjects in this country for more than a month.

THE BATHURST REVELATIONS

Chatham World. Evidence taken in Bathurst by the Chandler Commission shows that A. J. H. Stewart, M. J., sold the Farm Settlement Board a farm and received in payment a cheque for \$1000, and that one month later he bought the same farm from the Royal Bank for \$1200 and made the cheque payable to that bank. \$1200 of the amount, goes to the credit of the former owner of the land and \$800 to Mr. Stewart's credit. It does not yet appear how Mr. Gleason explains his paying for the land before it was bought by the seller. Surely the government will not approve of such a transaction if the provincial funds by its farm board.

How to Absorb an Unlovely Complexion

The face which is admired for its beauty must have a soft, smooth skin, pink and glowing with youthful bloom. The only thing I know of that can make such a complexion out of an aged, faded, or discolored one—I mean a natural, not a painted, complexion—is ordinary mercurized wax. This remarkable substance literally absorbs the unsightly cuticle, lifts each day, the clear, healthy, girlish skin which gradually peeps out, until, within a week or so, it is wholly in evidence. Of course such a treatment is a wash, and you will require an ounce of mercurized wax at the drug store, use like cold cream every night, washing this off morning, you'll find it a veritable wonder-treatment in a few days. Another valuable natural treatment is a daily application of Dermol or powdered borax in 3 pt. water. Rub the face in the and you'll find it "works like magic."—Phyllis Moore in Town Talk.

A Touring Car with the Heart of a Racer

The Chalmers Six-40 seven passenger touring car is not a racer. Yet within the limits of road car service the great valve-in-head overhead camshaft motor will do for you that it did for DePalma and Resta when they won the Indianapolis and Chicago 500-mile races. The same gear power, the same "trigger-quick" get-away, the same iron-hearted endurance, are yours applied to touring car demands.

Comfortable As a Rocking Chair

There is the comfort of your favorite rocking chair in the Six-40. The body is big and roomy with plenty of leg-room for all. It is a real seven passenger body. The U-door are unusually wide and swing back out of the way. The upholstery is deep and luxurious.

Beautiful Coach Finish

The Chalmers Six-40 is a beautiful car. Its lines are charming. Chalmers bodies are neither sprayed, dipped nor baked. Twenty-one operations are required to bring them up to Chalmers quality standards. The body is carefully prepared for the finish by the process known as sand-blasting. It is then painted in the good old fashioned way that created the wonderful coach beauty of other days.

TELLS OF GERMANY IN WAR TIMES

Neutral Writer Finds Much Of Interest

CONCEALMENT OF FACTS

Do Not Want Another Winter Campaign—Germany's Injustice to Her Austrian and Turkish Allies

(London Times) We publish below one of the series of articles from the pen of a neutral writer whose sympathies are strongly with the Allies...

The mixture of frankness and concealment; the extraordinary promptness in flashing victories round the world, and the delay in issuing estimated admissions of defeats are puzzling to those who do not understand the German mind.

Added to this is the policy of the news-exaggerating real successes. The official announcements of the taking of Antwerp and Warsaw were briefly itself. No more words were lavished on those subjects than on the defeats of the Falkland Isles and at Tsingtau.

The propaganda in the United States seems to be quite distinct from that in the little countries that may yet be enormously powerful in the war; it seems to be a separate organization clumsily run by German-Americans themselves.

The concealments of Germany consist in hiding the losses of particular operations of their armies. Losses of Zeppelins—and I strongly suspect also of naval losses—are withheld from the public.

The vital question as to the amount of German losses is constantly discussed here by military writers, but none of the calculations I have read agree with the opinions I have formed—on inadequate grounds, I admit—by much travel and inquiry in Germany, Austria, and Hungary.

Within the last few days I have received in a roundabout way a letter from a friend—an officer in the left wing of Mackensen's Army. It contains certain information as to the terrible amount of marching and the discomfort thereof.

Despite all the vigilance of the German authorities, much correspondence does pass between the army and the civilian population. There is altogether in this war a considerable amount of clandestine letter-writing.

The Austrian losses and those of Hungary had, when I left Germany, been assured by those in a position to know that Austria has never been short of ammunition since the war began.

It is not difficult to discover broadly the reason for the intentional concealment.

PRODUCTS OF GERMANY

The use of the products of Germany, or goods produced by Germans anywhere, is being discouraged throughout the British Empire.

Why is it, then, that German Beers are still being sold in St. John? Who is using them? Surely not our loyal citizens.

There is much less discontent and restlessness among country people and dissatisfaction with their lot than city made literature and city bred speakers would have us believe.

worst they ever saw, and do not hesitate to say that the boxes did not try. McFarland does not mind what the public thinks of him, for he has engaged in his last bout. He has a lot of money besides the big bundle he got out of the Saturday night affair, so he does not have to worry about the future. With Gibbons it is different. While he also has a good bank roll, he intends to stay in the game, but he is going to have a hard time getting any more good guarantees from the promoters. The latter will fear taking any big risks on Gibbons, because the fans, in view of last Saturday's bout, might be suspicious. Why so many of the fans "fall" for the bait is a surprise, as the air seemed filled with predictions as to what kind of a bout it would be. There were many who did go to the bout who were not disappointed, but those who went there as a sort of an outing. It was a fine night, and they went to see if the boxers would dare go through the stunt they did.

While the crowd was a large one, it was greatly over-estimated, and when the promoter gets his books squared up he is likely to find he was a loser on the venture. The affair proves that what the late P. T. Barnum said years ago was true about the public. "The bigger the bunks the bigger the crowd," so to speak. While the boxing fans are now "licking" about the scrap, they will fall again when another bout, advertised as last Saturday night's was, is arranged. They are now saying "Never again," as they always do, but they have always come back.

News of the Boxes.
K. O. Brennan of Buffalo will meet Jim Tigue in Buffalo on next Friday night. The bout between Joe Mandot and Rocky Kansas, which was to take place at Buffalo on next Friday, has been postponed, as Kansas' hand is in bad shape. The chairman of the Minnesota Boxing Commission is to have that body permit a referee to give a decision when a contestant is disqualified for fouling. This move was brought about by the recent Erle and Williams bout in St. Paul, when Williams was disqualified for fouling and the referee gave the decision to Erle, when he is not allowed to under the rules of the commission. The referee's action will make Erle the bantam champion, for they were not boxing at the class weight, and the referee is not allowed to give a decision under any circumstances.

Two New Records by Leahy.
Chicago, Sept. 13.—Peter L. Leahy of the Gaelic Athletic Association, broke two American records in a meet here yesterday. In the three standing broad jumps he covered thirty-six feet. The former record was thirty-five feet nine inches, made by W. S. Lawton, in San Francisco. Weights were used in this event. In the standing long jump Leahy made thirty-three feet. The former record was a few inches more than thirty-two feet, made by W. W. Butler, at Oak Island Grove, Mass.

RAFTING SEASON ENDED
Rafting operations by the St. John River Log Driving Company ended yesterday at the Douglas Boom. The river is now clear of logs from the foot of Grand Falls to the mouth. No more lumber will come down this season, unless there is an exceptionally heavy autumnal freshet. A large quantity of lumber was hung up below Grand Falls and some is jammed at the Falls. Walter Jackson, boom manager for the St. John River Log Driving Company, stated that the amount of lumber rafted this year was about 85,000,000 feet. During the present season there was more lumber rafted than in 1914, when the total was slightly in excess of 81,000,000.

TRANSFERRED TO REGINA
The report that Frank Shute, manager of the Royal Bank at Yarmouth, N. S., had enlisted for overseas service turns out to be incorrect. Circumstances over which he had no control made it necessary for him to abandon the idea. He has recently been notified of his transfer to Regina and will visit Fredericton with his family before going west.

QUIETER TONES PREVAIL
Greys and Sergeants are in Great Favor During the War
"With 100,000 of the smartest young men in Canada under arms for the defence of the realm it would be idle to pretend that the tailoring trade is as good as over," said a Semi-ready salesman.
Yet there is a noticeable improvement this season in the selling of Semi-ready garments, and the demand for the fall and winter style book has been commented upon.
Quieter colors prevail, greys are much worn in tweeds and worsteds, blue serge is well represented, while striped materials of a not too dark hue are fashionable. There is a tendency to cut the length of a lounge coat a trifle shorter. Well-dressed men like the new Semi-ready designs. The quick alteration of bodies are brought to the fore. Special Orders to measure in four days at the shops is a distinct advantage.
John P. Condon, of 84 King street, has the only Semi-ready store in the city.

A CALL TO ALL WOMEN.
To the Editor of The Times Star—
Sir—Will you kindly give space in your valuable paper for the following article:—
In speaking of young men who are rather dilatory in enlisting in the service of their king, we often hear them called cowards, shirkers, sidewalk heroes, etc. While I would not excuse any young man whose way is open to the recruiting office, I would like to ask the question. What about our fair sisters who take little or no interest in the comforts of our soldier lads who are called away from their homes? Some women seem to think that it is the men whom all responsibility rests. Certainly by this is a grave mistake. As women we have our part to do in this gigantic struggle and while we are not able to shoulder a gun or take our place in the trench, we can work at home for those who are risking their lives for us. The cold weather is coming on; our brave boys will need socks, as they take their place in the trench; our wounded heroes will need nightdresses, as their lacerated bodies are brought to the hospital. say then, as women, let us all get to work, lay aside your fancy work, and other things that are not badly needed, and give some time and thought to those brave and noble men who have given up home and comforts for us in order that we may enjoy the rights of British subjects and be saved from the fate of poor down-trodden Belgium.
Yours in the work,
MRS. ARCHIE C. DICKSON.

The Man In The Street

Moved by fashion's dictates and seconded by the wicker man, that straw hats are now in the discard.

Fall fashions for men tend strongly to military styles. The recruiting sergeant will be glad to tell where the best kind may be secured.

Complexions as much as patriotism are liable to influence the decision of the ladies on the question of joining the khaki-clad women's reserve.

From latest reports from the Dardanelles it would seem the Turks might soon be in for a series of games on the home grounds.

That He Who Rides May Read
A soldier at the front has written home telling of "cold-boxes" bursting near his helmet, but one way he was no further astray than the I. C. R. in connection with its sign-post near Coldbrook. Passengers approaching the station have been amused to read "Coldbrook—one mile."

Now that the policemen are supplied with white gloves it is only reasonable to expect that, for next days, umbrellas should follow.

The visiting funeral directors have the best wishes of the citizens for every thing but a busy season.

The Germans seem to have organized a regular series of "Scouting England by Zeppelin" excursions with baby-killing as the chief attraction.

German bankers in the United States are sore because they are not allowed to help finance the campaign against their fatherland. A business-like people those Germans.

The Turks might give our folk some pointers on how to run an auction; they are offering captured infants to the highest bidders. Wonder if the proceeds go to their patriotic fund!

A factory for making big guns would be an attractive ornament to this city. Here's a chance for the Board of Trade and the commissioners to get busy.

Working men here would appreciate it and besides it would give the city an opportunity to opportunity a few more \$3 head-taxes.

Possibly, though, it might be better to keep that head-tax feature under cover until the new industry is secured.

First thing you know these warlike times will be inspiring Commissioner Potts and Manager Hopper to settle their little differences by mortal combat.

WOMEN'S VOLUNTEER RESERVE AND CORPS OF BUSINESS MEN

These Phases of Local War Situation Discussed by Mrs. Netta B. Brown Today

Mrs. Netta B. Brown, who is doing admirable work for recruiting in the province by showing altogether new ways in which people can help, especially by ladies, received several young ladies at the Royal Hotel this morning who were interested in her outlined scheme for forming a Women's Volunteer Reserve in the city.

This was the outcome of the fine meeting that Mrs. Brown entertained in St. Andrew's Rink last evening. Mrs. Brown did not then touch specifically on the work of that body in Canada, of which she is the heart and soul, but the fact that her address on quite other features of the same great object so moved some that they desired to take up more active work, a striking tribute to her gift of inspiring others to their own boundless enthusiasm.

Nothing was decided upon but new plans for the project among the younger ladies of the city were outlined. About 100 invitations have been issued. The main reason for the calling of the meeting is that it is being more and more felt in our city that if the business men, as apart from the worker and the mechanic, were to express in some way, it would help to bring the fact that the dominion is actually at war before the people at large in all grades. Mrs. Brown says that she is aware that many men in business feel the call of the country more than some who are actually enrolling, but as so many of them cannot leave their posts without dislocating the whole scheme on which the business is built, and in which possibly other people's money and interests are tied up, they could still be preparing for greater eventualities that the empire may have to face.

Indeed, Mrs. Brown talks quite frankly of the chance of conscription coming if things do not alter. Voluntary recruiting has reached a stage where some think it is at its limit of possibilities. Should compulsory service come, then the business men will, by the training they will get if a businessman's corps is formed, be in a better position to take up their share. They should want to be better and more efficient in their work, not to do their little bit, but that, as they are something in the nature of the workers in the machine, they could not go without causing great changes, that the going of the man at the bench would not entail.

This is to be in no way a "home guard" movement, for it will be a training for eventual overseas service. Mrs. Brown feels that too much home guard ideas is not favorable to recruiting, for it leads many men to the argument that "well, I am doing my share here, let the Englishmen do his over there and all will be right." But Mrs. Brown points out that the home guard in Canada or England is passive; that the only way this fight can be finished right is by striking an aggressive blow in France and Belgium.

Mrs. Brown's plans are not yet quite complete, but it is believed that she will go to Sussex, Moncton, Chatham and Newcastle before leaving the province. Speakers at tonight's open air meeting in King Square will be Hon. R. J. Ritchie and M. M. Sproule of Hampton. This meeting is to begin at eight o'clock, possibly, if the weather is unsuitable, will be held at St. Andrew's Rink.

The march on King Square and the recruiting office in Mill street will remain open for any intending recruits.

SUSSEX MAYOR A VOLUNTEER

Mr. Wallace Places His Application With Col. Fowler For Place in New Regiment

Mayor Wallace of Sussex, who is attending the meeting of the New Brunswick Funeral Directors' Association, has declined office in the association, having placed his application with Col. Fowler for active service in the new regiment to be formed by him. Mayor Wallace, if accepted, will go in any capacity. He is negotiating with Mrs. Netta B. Brown to go to Sussex in connection with recruiting, which he will now vigorously devote his attention.

The friends of Mayor Wallace throughout the province will appreciate the splendid spirit of patriotism and sacrifice which has prompted him to take this step.

ST. JOHN SOLDIERS IN LONDON CONCERT

A copy of an elaborate souvenir programme issued for a matinee concert in the Queen's theatre has been sent from England to Mayor Frink. A glance at the programme shows that some of our St. John men have won a place for themselves among distinguished company on the other side. Major F. T. McKean and Lieutenant D. B. Pigeon both were down for several selections. The concert was given under the auspices of the Women's Volunteer Reserve and the Girl Guides and under the patronage of Queen Anne of Portugal. Sir R. Baden-Powell delivered an address. The programme shows some Canadian views, specially drawn, and also includes a group photo of the headquarters staff of the second Canadian contingent.

MEN'S NEW FALL HATS
Particular men of fashion are already wearing Felt Hats. Some have waited until today, the fatal 15th, when all the straw hats must, must go! Many will be equipped today with the new and fashionable soft Felt Hats. DEATH AT COLDBROOK

The death of Augustine Viger took place last night at Coldbrook, at the age of 85. He lived at the home of his son-in-law, John Newman. There are left to mourn his wife, three sons and two daughters, George of Hampton, Me., and Angus and Joseph of this city, and Mrs. John Newman and Mrs. Walter Todd of Coldbrook. The funeral will take place tomorrow morning at 10 o'clock at St. Joachim church, Silver Falls.
