BLAMES WARS ON JEWISH FINANCIERS

Henry Ford, in Montreal, Talks on Presidential Election and Prohibition.
Montreal, Sept. 20.—"If the world could lay hands on the 80 biggest Jewish financiers who operate these things for profit and profit alone, then there would be no necessity for the League of Nations or any other body to stop war—it would stop itself."
Thus spoke the richest man in the world, Henry Ford, in Montreal today, according to an interview published in the Montreal Herald. He was en route from Detroit to St. John, N. B., where his family is summing up His Candidacy.
"Are you going to run for president of the U. S.?" Mr. Ford was asked. "I am not running for or against anything," was the reply.
He is neither a Democrat nor a Republican, he said. "They will have to show me the difference before I affiliate with either party. They are both tared with the same bunch."
Asked the inevitable question as to what he thought of prohibition, Mr. Ford said that it was the law and it ought to be obeyed.
"They should put the army and the navy into it," he said.

SLIGHT QUAKE IS FELT IN ENGLAND

Reports of Earth Shocks Also Come From Persia and Turkestan.
London, Sept. 20.—A slight earth tremor occurred yesterday morning at Cromer, Norfolk, says the Daily Mail. The vibrations were accompanied by a loud rumble, while windows rattle and ornaments within houses were displaced.
The tremor was felt in many of the parishes on the east coast, including Cromer, Mundesley and Sheringham, but apparently it was not noticed far inland.
The time of the shock was 11.32. The vibrations were especially felt by people seated or lying down, but not many persons standing or walking noticed them. They were most clearly perceptible on upper floors of larger buildings. Windows, urchin-brac and china were shaken in numerous houses. Men working on a tennis court in Cromer said they felt the earth move for ten seconds, while the strong iron standards supporting the wire netting around the courts returned to position by violent whirring.
One suggested cause of the tremor was an explosion at sea, but nothing of this nature has so far been reported.
One in Persia.

FRENCH SEE VICTORY IN CONFERENCE

Policy in Ruhr Believed Upheld in Baldwin-Poincare Meeting.
BRITISH HESITATE
London Press Silent or Non-Committal—Collapse in Ruhr Certain.

(Canadian Press Cable.)
Paris, Sept. 20.—The conversation between Premier Poincare and Prime Minister Baldwin yesterday is regarded as representing a victory for the French policy in the Ruhr.
This view is based on the tone of the statement issued after the meeting, for it admitted that only the broadest lines of the policy were discussed and no details considered.
"The statement means," says Le Matin, "that our neighbors across the channel are going back to the benevolent neutrality of Mr. Bonar Law, that they will not hinder us in the final stages of the struggle and that they will be again at our side when at last the goal—that is to say, payment—is about to be attained."
Other Expectant.
Le Petit Parisien and Le Journal, while observing that the meeting between the two statesmen was "crowned with success," do not go so far as Le Matin, being apparently desirous of seeing the outcome of the further talks or talks which the premises are reported as likely to have before Mr. Baldwin returns to London.
Perthuis, in the Echo de Paris, also remarks cautiously:
"Yesterday was only a beginning."
London Non-Committal.
London, Sept. 20.—The London press is evidently in no hurry to draw conclusions from the official report of the Baldwin-Poincare talk in Paris yesterday.
Several of the leading newspapers refrain from comment entirely, while such views as are expressed elsewhere are mostly non-committal or merely speculative.
The Morning Post describes the Premier's conversation as a "fruitful one with which there is every reason to be satisfied."
This newspaper seems to infer, although rather guardedly, that France and Great Britain are now to co-operate with respect to reparations.
"The fundamental stumbling block was the recalcitrance of the debtor, and that block is now being removed," says the Post's editorial, basing this statement upon the content upon the quarters here that passive resistance in the Ruhr has collapsed or is about to collapse.
Collapse in Ruhr.
The Daily News, one of the strongest opponents of the French policy in the Ruhr, but says the problem for France must nevertheless remain acute. It cannot see how Great Britain can co-operate with France in a policy London has already condemned.
The diplomatic expert of the Daily Telegraph warns the public not to be gratified by a communication as to the definite solution which is issued at Paris yesterday.
The Daily Express centres its attention upon the statement that no definite solution was reached, and reports that Mr. Baldwin was wholly unable to conform to the French view and may therefore be expected upon his return to London to develop a policy tantamount to separate action.
Visitors Entertained.
Paris, Sept. 20.—Premier Baldwin of Great Britain and Lord Crew, the British ambassador, took tea with President Millerand at Rambouillet yesterday. Later, Mr. Baldwin had a conversation with the president lasting an hour and a half, which was characterized in semi-official reports as being particularly cordial.

SEIZE ALCOHOL ON BOSTON STEAMER

Prohibition Officers Arrest Four Members of Crew at Portland.
Portland, Me., Sept. 20.—Deputy sheriffs and federal prohibition agents, led by Sheriff Graham, raided the Eastern Steamship Company passenger steamer Ransom F. Fuller on Tuesday and seized more than 10 gallons of alcohol distributed in various quarters.
Four members of the crew were arrested charging with liquor offences, and Sheriff Graham said that he intended to use evidence obtained in an effort to get an indictment against the steamship line before the grand jury.
Men arrested were Constantine Goomboos, an oiler; Melitides Cassel, a water tender; John Bertos, oiler; and C. W. Henderson, deck watchman. For the last 10 days deputies have been watching activities around the state pier, where the vessel ties up on trips from Boston in an effort to discover the source of various supplies of liquor.

Belgrade, Sept. 20.—The Jugo-Slavia Cabinet, after considering every phase of the Fiume situation, has decided to defer action until it receives from Premier Mussolini detailed proposals which are to furnish a basis for actual negotiations.
Thus the Fiume incident apparently has been definitely removed from the acute phase that endangered a peaceful settlement of the controversy.

One Man Dead In Destroyer Accident

Boston, Sept. 20.—The ramming of the destroyer McFarlane by the battleship Arkansas, near the entrance of Capt Cod Canal, yesterday, resulted in the death of one seaman, and injury to several more, and extensive damage to the destroyer. The dead man, Spencer William Brown of North Carolina, was drowned in a flood of oil, when the oil tanks of the destroyer exploded. Several others were caught in the same way, but the heroic efforts of two firemen, Stack and Smith, who, clinging to a rope, succeeded in bringing out the victims, prevented in bringing out the victims.
GIRL WAS DRIVING.
So far as can be learned it was purely an accident and resulted from an attempt being made to pass the crossing in front of the oncoming train. Miss Maud McAfee was driving at the time, and it is said that they did not hear the train whistle. Dr. Lewin, who is coroner for that district, said that he did not consider any inquest necessary, as it was purely an accident.

Quebec Judge Stops Annulment Proceedings

Quebec, Sept. 20.—Proceedings to annul the election of Joseph Dufour, member of the legislature assembly for the county of Charlevoix, were squashed yesterday by Justice Sevigny in the superior court on the ground that the legal delays within which such action could be taken had expired.

SAYS CITY NOT LIABLE FOR HYDRO UNTIL FIRST CURRENT DELIVERED

City Solicitor's Opinion Given to Council; Mayor to Confer Again.

The City Council, in committee this morning, had before it the opinion of the city solicitor on the matter of liability for the bill of \$40,150 rendered by the New Brunswick Electric Power Commission, and the reported bidding of a line by the Civic Power Commission for the Provincial Commission and the loaning to them of two of the city transformers. In the former it was decided to have the Mayor take up the matter further with the city solicitor for the purpose of having a resolution drawn which would safeguard the interests of the city, and in the latter to have His Worship take it up with the Civic Commission.

Relative to the \$40,150 Bill.

The city solicitor advised that under the contract the Provincial Commission was bound to give a thirty-day anticipatory notice, and the notice of May 18 did not carry out the terms of the contract, but the city might waive this provision by taking current from the commission, and in that event would be liable from the time they commenced taking the current. He said the city should give the bonds and accounts of the provincial commission to find out if they were actually in a position to supply the city with current during the period for which it was charged.

He also repeated the verbal opinion that it was not enough for the commission to say they could obtain current, but it must be under their control at the time. It closing, he advised the city to pay, assuming that Musquash was capable of supplying the current from the time current was first taken by the city.

Mayor Fisher then presented the following resolution for the consideration of the council:

Whereas, the city solicitor has advised this council:

- (1) That the notice received by the city from the N. B. Electric Power Commission on 18th May of last readiness to supply current was not sufficient to comply with the terms of the contract;
- (2) That the receiving of current by the city from the said commission on 28th July constituted a waiving of the said notice and an undertaking to pay for current from the date of commencing to receive it;
- (3) And that the council should, before paying for current on the basis of the amount contracted for, ascertain that the commission was in a position to supply the contract amount, therefore

Resolved, That the city waive notice from the N. B. Electric Power Commission with respect to ability to supply current for the months of May, June and July, provided that the commission will render a statement of the amounts of current which it was in a position to supply to the city in each of those months, and, for the purpose of verifying such statement, will allow the engineer and accountant of the power commission of the city to examine all books and records, papers, etc. of the said N. B. Commission, and also provided that the city will not be called upon to pay for more current in any month than the commission was in a position to supply.

Commissioner Thornton said this looked as though the Mayor wanted to disregard the advice of the city solicitor, and Commissioner Frink pointed out that, according to the advice of the city solicitor, the city was only liable from July 28. Mayor Fisher thought that was standing on a technicality, but the commissioner said he did not see how language could be plainer. The Mayor said he meant that going strictly according to the law was a technicality.

It was suggested that the Mayor take the matter up further with the city solicitor and find out from him just

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

DAME CLARA BUTT

Who Sings Here October 1-2 Has Had a Happy Married Life - Husband Always Travels With Her.

By consulting the records of the divorce courts, one might find confirmation of the popular conviction that married life and artistic life are incompatible. The marital experience of Dame Clara Butt, however, is the exception which may prove the rule, as this great artist is both a devoted wife and fond mother.

Kennedy Humford, Dame Butt's husband, is also a remarkable singer, and always sings on his wife's programme; and these prominent artists, concerning whom even the breath of scandal was never heard, are the parents of three husky boys, the eldest of whom is seventeen.

The Butt concerts at the Opera House in St. John will be outstanding events which should attract thousands, and are now being eagerly anticipated. The ticket sale opens Wednesday morning, the 26th inst.

Everyone is playing "house-house" at the City Cornet Band fair. See the new instruments tonight.

CAUSE TO CURE ADJUSTED, MADE RIGHT. CHIROPRACTIC is based on fundamental, natural laws. The organs of the body are the motors, the nerves are power lines which carry vital energy or life to all parts of the body. Impingement or pinching of the nerves interferes with their life-carrying power and disease is the result. The Chiropactor adjusts with his hands the misaligned vertebrae and the impinged nerves are freed. The flow of life enters the part diseased, normal functions are resumed and health restored. The Chiropactic way is Nature's way.

TAMPERING WITH WITNESS CHARGED

Defence in Walter S. Ward Trial Makes Allegations Against Prosecution.

White Plains, N. Y., Sept. 20.—The charge of tampering with witnesses was made yesterday by attorneys for the defence in the trial of Walter S. Ward, wealthy broker's son, charged with the murder of Clarence Peters, after a witness for the prosecution told of a conference with a representative of the Attorney-General.

Defence counsel Campbell made the charge after Ralph Collins, former state trooper, testified he had had lunch with State Trooper Green, a previous witness for the prosecution.

Collins refused to deny he had been told by Henry Untermyer, an special investigator for the Attorney-General's department, to get his testimony "on the straight." He declined to say under oath that he had not discussed the case with Green.

Council in Private Session

The announcement that the council intended to hold a public session this forenoon to discuss the Italian-Greek affair caused a considerable crowd to gather. But the council at 10 a.m. began a private session.

Soon after noon it was announced that the council had decided unanimously to investigate thoroughly, with the assistance of jurists all questions touching interpretation of the covenant and the powers of the council.

It was learned that the council had privately determined to avoid the dangers of an open debate on Italy's competency to handle the Greco-Italian dispute. It was said that ex-Premier Salandra, of Italy, at the private meeting opposed a public discussion, setting forth that it would be liable to aggression.

For the 12 months ending August, Canada exported 53,520 automobiles, compared with 24,600 during the corresponding 12 months a year earlier. Here They Are---\$80 Sets---\$59.75

Six points of preference, beginning with a price that might have been \$80, but marked by Marcus to \$59.75.

Two-color effects in four variations and they look very modern and dandy in a small dining room as well as a regular breakfast room.

Half a dozen pieces, shaped as pictured. Ivory with Blue trimming, Walnut with Buff, Ivory with Black, Gray with Blue.

Now, which would you choose? Isn't that a nice double drop table? Then the Buffet, and the way the Chairs look up with the colored border. It surely is a cute idea. See two in the window.

The Healthiest Hours of your Baby's Life

are when, after the morning bath, well fed, drowsy with sleep and exercise, baby is well sprinkled with Mennen Borated Talcum and cosily tucked in pram or bassinette and placed on verandah or in sunshine.

The comfort of baby is most essential to health, and in this Mennen Borated Talcum plays a very important part.

Mennen Talcum is an absorbent and acts like millions of tiny white sponges absorbing all poisonous moistures. Mennen Talcum is so fine and silky it guards baby's skin against chafing and clothes' friction.

Mennen Talcum has certain mildly antiseptic properties that help baby's skin to resist infections.

Says Carr Spoke Without Authority

Toronto, Sept. 20.—If Hon. L. Carr, minister without portfolio in the Ferguson Government was correctly reported as saying that "in all probability a referendum on the liquor question will be held in the province next year" he was not speaking for the Government, judging from statements made at the parliament building.

Attorney-General Nickle declared the same question had never even been discussed by the cabinet.

Criminals Turn Tear Gas Against Police

Washington, Sept. 20.—The use of tear gas by lawbreakers, especially bootleggers and rum runners, is becoming so widespread that War Department officials are convinced that legislation is needed to prevent the product from falling into their hands. Congress will be asked to enact restrictive legislation.

The statement is made that with the growing use of tear gas as a weapon by police and prison and asylum officials in the capture and control of criminals and maniacs, criminals themselves are learning to employ it. The fear is expressed that unless some method of control is devised the gas which has proved so satisfactory to officers of the law may become a boomerang.

The Police Departments of more than 600 cities are now said to be equipped with tear gas and apparatus for using it. The first police to utilize tear gas employed it in bombs, tanks and grenades and found them particularly efficient against criminals who had barricaded themselves or against riotous mobs in the streets.

To Free Your Arms Of Hair or Fuzz

(Boudoir Secrets.)
No toilet table is complete without a small package of deLatoine, for with it hair or fuzz can be quickly banished from the skin. To remove hairs you merely mix into a paste enough of the powder and water to cover the objectionable hairs. This should be left on the skin about 2 minutes, then rubbed off and the skin washed, when it will be found free from hair or fuzz. Be sure you get genuine deLatoine.

A resolution was passed relative to a new railway transportation penalty another in favor of elimination of Sunday funerals where possible and, shortening addresses at funeral services. Mr. Brenon of St. John spoke on the manner of making out accounts for funeral expenses, calling attention to the desirability of itemizing them. He considered that in many cases the undertakers did not get adequately paid for personal services.

An interesting talk on embalming was also given by Mr. Brenon who suggested that an embalming school be held for two weeks each year, possibly just previous to the annual meeting.

215 EXECUTED AT SING SING.
In 34 Years of Electric Chair 347 Have Been in Death House.

Ossining, Sept. 20.—Statistics prepared by Warden Lewis E. Lawes of Sing Sing Prison show that out of 947 prisoners sentenced to death there in 34 years since the electric chair was adopted for capital punishment, fewer than two-thirds were executed. There were actually 215 persons, including one woman, put to death, or about 22 per cent. of the number sent to the death-house.

Sixteen are now in prison awaiting execution, and the statement adds three have died, two escaped, 12 have been adjudged insane, 61 were commuted to life imprisonment, three were pardoned and 46 had reversals of judgment.

Ninety-three were between 21 and 25 years of age, and 31 were 20 or under.

Peter Arbo of Milford was badly hurt recently when an old building which he was tearing down, near the Wilson Box Factory, collapsed. His condition is regarded as serious.

MISS MURDOCH IS RE-ELECTED

Chosen President of Nurses' Association—Legislation to be Sought.

Changes in the constitution of the Association to provide that only registered nurses might become members were suggested at the annual convention of the New Brunswick Graduate Nurses' Association in Woodstock and legislation will be sought along these lines.

On Wednesday morning the business was resumed and the election of officers took place, resulting as follows: President, Miss Margaret Murdoch; 1st vice-president, Mrs. W. J. Mitchell, St. John; district representatives, St. Stephen, Miss A. Branscombe and Miss M. McMullin; Moncton, Miss McMaster and Miss H. M. Morris; Fredericton, Miss Winstow; Campbellton, Sister Carroll and Miss Bliss; Woodstock, Miss Budd; Newcastle, Miss J. W. Campbell; additional members of the executive, Miss H. Melkic-John and Miss Sarah Brophy, St. John. Miss Madge Retalick, St. John was elected secretary-treasurer as Miss Mitchell resigned her office as treasurer which she had held for several years.

It was decided that the annual convention should be held in St. John next year. The association has a membership of about 140 nurses at the present time. After the business was concluded the Women's Hospital Aid of Woodstock entertained the members at a lawn tea in the grounds of the hospital.

The delegates at the meeting came from Chatham, Newcastle, St. John, St. Stephen, Grand Falls and Woodstock. Those from St. John were Miss Murdoch and Miss Retalick, who remained over in Woodstock, and Miss Doherty, Miss Mary Downing, Miss Mitchell and Miss Ella Cambridge, who returned to the city last night.

BURNS "ALWAYS DELIVERS GOODS"

Montreal Boxer to Meet McIntyre Here Has Good Record.

Montreal, Sept. 19.—Joe "Kid" Burns is very popular in Montreal, particularly among the Irish of Griffin-town, a part of the city which for years has been an Irish stronghold. Here the people swear by him and they always attend any bout in which he takes part in large numbers.

He has been boxing since 1915 and at that time and often after appeared in Sohier Park, where the late George Kennedy used to stage his great wrestling and boxing matches.

USE

Nonsuch LIQUID STOVE POLISH

Established, owned & made in Canada for over 30 years by Nonsuch Mfg. Co. Limited, Toronto.

One of his former opponents was Benny Cohen, who of late has become a referee and promoter himself. He boxed a draw with Wallace and defeated Johnny Schiff. Georges Girardin has been one of his latter day opponents and is considered one of the strongest fighters of his calibre around Montreal.

He had a rattling bout with Joe Leonard in Ontario and defeated him on points. Among some other of the latter day fights he has fought were with Oscar Deschamps, who is also considered a tough customer, and "Kid" Henry.

Delivers the Goods.

There is one thing about Joe Burns, and that is that he always "delivers the goods." When he agrees to box there is a real bout, and that is the reason he has retained his popularity so long. When he is beaten there are no excuses.

GIANTS IDLE; REDS ADVANCE A STEP

New York, Sept. 20.—Cincinnati advanced a little more today in the National League, winning a double-header from Philadelphia, 1 to 0 and 6 to 5, while the Giants were idle, and the Pirates lost to Boston, 5 to 4.

The first Red game was a brilliant pitching duel between Rixey and Betts, each allowing only five hits. The one run was on a fumble by Metz, Duncan's single and a sacrifice.

The Pirates lost when the Braves started bunting hits in the first inning, taking four runs in a row.

Brooklyn and Chicago split even. The Cubs lost the first game 3 to 1 and won the second, a ten-inning affair, 4 to 3. In the first game the Dodgers concentrated their attack in two innings, with Keen on the mound. Chicago tied the count in the ninth in the second contest.

Detroit and Philadelphia split double-header in the American League.

the former winning the first 6 to 2 and dropping the second 4 to 3. Johnson, the Tigers' pitcher, allowed but one hit in six and two-thirds innings in the first game, but was forced to retire after he had strained his arm while pitching to Welsh.

The Red Sox made two runs in the ninth with one out and defeated the White Sox 2 to 1.

The game was Ehmk's twentieth victory of the season. Burns, Boston's first baseman, provided most of the thrills with some fancy fielding.

Washington beat St. Louis, pounding out 11 hits for 11 runs and winning 11 to 0. The hits were all well bunched, the Senators taking one run in the fourth, four in the fifth, three in the seventh and three in the eighth.

RACING LAW ULTRA VIRES

Toronto, Sept. 19.—Without leaving the bench, five judges of the Appellate Division today declared that the Ontario act prohibiting the publication of betting information was ultra vires and invalid.

The decision was based on the ground that this field of legislation was already occupied by Dominion legislation and so was ceded to provincial legislation.

The question was raised on the appeal of the province from the decision of Judge Denton, sitting as senior magistrate of Toronto.

"Toronto, Sept. 19.—I have directed that all prosecutions cease under the Ontario anti-betting act," said Attorney General Nettle this afternoon to a newspaperman. Mr. Nettle declared that in face of the unanimous decision of the judges that the Ontario law was ultra vires the Ontario Government would not pursue the matter any further. Asked what position the law was in now as a result of the judges' decision, he replied:

"It is practically non-existent. The Attorney General stated that the Dominion law was still in existence, but as far as Ontario statutes were concerned all prosecutions would cease." Ontario newspapers are now free to publish racing news, even to the extent of odds and tips. American sheets which publish betting odds and selections, it is claimed, federal law. TURF STARS IN FINE FETTLE FOR BIG FREDERICTON CONTEST

Many People at the Capital for \$3,000 Race This Afternoon.

Fredericton, Sept. 20. — Single G., 1.58 1-2; Margaret Dillon, 1.58 1-4, and Sir Roche, 1.59 3-4, were all reported in the best of fettle this morning for their \$3,000 race this afternoon, the climax of the racing programme in connection with the Fredericton exhibition, which brings the champion pacing-stallion, mare and gelding together for the first time they have raced it out over a half-mile track.

On half-mile tracks in the last two weeks. Owners of two of the horses are here, W. G. Bartfoot of Cambridge City, Ind., the owner and breeder of Single G., and Charles H. Traiser of Boston, owner of Margaret Dillon.

St. John Man Driving. Three noted retrainers—Ed Allen, George Loomis and Billy McMenemon, the latter a native of St. John—will drive the three great pacers in their race, while representative horsemen of the Maritime Provinces will act as officials with Al H. Standish of Boston, who has been starter on the Grand Circuit and the Bay State circuit all summer, will send the champions away.

The officials will be: Judges—F. W. Budd, Halifax (chairman); Charles F. Thompson, Sydney, and R. A. Corbett, Halifax. Timers—P. A. Belliveau, Moncton; W. S. Hooper, Fredericton, and Frank Boutillier, Halifax.

Horsemen from all parts of the Maritime Provinces and Maine are amongst the crowds here for the race.

The Other Events.

On the card, in addition to the feature race of the afternoon, are the 2:14 class and a named race. The 2:14 class brings The Problem, 2:14 1-4, the former Grand Circuit pacer now owned by the Caribou Driving Club, against College Swift, 2:11 1-4, and Crescendo, 2:14 1-4, the pacer which gave him a thrilling five-heat battle before he won at Woodstock last week, as well as Ruth Cochato, 2:14 1-4; Miss Abbe Brina, 2:18 1-4, and High Knob Beauty, 2:14 1-4. In the named race are Xanthia Bee, 2:30; Quilnesset, 2:17 1-4; Rosetta McKinney, 2:18 1-4; Gurnsey Boy, 2:18 1-4, and Royal McKinney, 2:14 1-2.

The weather this morning was fine, with little wind and prospects of a summer-like afternoon. The track record is 2:05 3-4, made in July by John R. Braden, 2:02 3-4, when he hung up a three-heat record for Canada on a half-mile track.

Yesterday's Contests. The programme yesterday brought out keen competition. Fifteen heats were required to decide winners in the three classes. The junior free-for-all went to Little Anna, three out of four heats, best time 2:11 1-4. The 2:18 trot was won by The Manor, three out of six heats, while the 2:28 trot was captured by Margaret McGregor, best time 2:18 1-4.

In the 2:18 class event thrills were being forthcoming. In the first heat, MacSteele, driving Peter Verde, cut in

towards the pole and almost caused a spill. Peter Verde finished ahead, but was set back to third place. In the second heat Confection made a jumping break coming into the home stretch and her sulky was hooked by another horse and Driver Billy Hood of Sydney was thrown, but uninjured. In the third heat Driver McDonald of New Glasgow cut in towards the pole with Fillmore Dillon, a jam ensued and two sulkies were broken.

WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

STRONG TONE IN WALL ST. TODAY

Large Fractional Gains—Trading Active, Prices Irregular in Montreal

New York, Sept. 20.—(Wall street, noon)—Opening prices in today's stock market displayed a strong tone in response to a series of favorable dividend announcements and the increasing prospect of an early reparations settlement. Higher prices of raw and refined sugar led to a good demand for the sugar shares. Baldwin, American Can and most of the other pivotal stocks gained large fractions on initial sales. Some of the minor oils were slightly reactionary.

New York, Sept. 20.—(Wall street, noon)—Trading quieted down after the initial burst of strength, there being a disposition in some quarters to await the outcome of important dividend meetings today and more definite details concerning the progress being made in reaching a reparations settlement.

Free offerings of American Woolen forced that stock down 3-8 points to 79-1/4, the lowest of the year, and caused some realising in other quarters.

Studebaker, Kelly Springfield and a number of the steel and low-priced oils dropped fractionally below their last night's close.

Toward mid-day the market began to creep upward again, Dupont rising 1/4 and Mack Truck 2. Call money opened at 4-1/4 per cent.

Montreal, Sept. 20.—(10:30)—Trading was active and prices were irregular at the opening of the local stock market. The most active issue was eastern, being off 9-8 to 40-8. Laurentide was unchanged at 91-1/2. Brasillan was up 1-8 at 41-1/4. Detroit was down one point to 66 and Quebec was unchanged at 106.

Other issues traded in included breweries up 1-2 to 48-1/2; Shawinigan off 1-2 to 119 and Power was unchanged at 129.

The balance of the list showed little price changes. Abitibi was unchanged at 90-1/2.

OPINIONS ON THE STOCK MARKET
(McDougal & Cowan)

New York, Sept. 20.—Evans says—"There is no change in the situation. The market rallies from time to time on short coverings, especially in those portions of it which have been most heavily attacked. There is no inducement to take the long position at the present time. Still, believe in those who believe that a scale down that it is a purchase on declines."

Prince Whitley—"The best that can be looked for at present are only moderate rallies and we would take advantage of them to sell stocks."

Housman & Co.—"There are some evidences of really good buying in the oil, buying on a scale down that it is not particularly concerned with day to day fluctuations."

Hutton & Co.—"There is reason to think that some strong people who have been working on the bull side have abandoned their position."

Bache & Co.—"It still holds motor stocks, would not hold them any longer."

EXPANSION OF BOARD OF TRADE

More Members Wanted, is Council Declaration—Important Resolution.

The Council of the Board of Trade stressed the need of maritime co-operation at a lengthy session this morning and gave considerable thought to the need for expansion of the board membership, so as to secure increased revenue for publicity and other purposes, and also to obtain greater assistance in the promotion of the interests of the city and port. It was the general feeling that in order to secure results the Board of Trade should receive the fullest measure of co-operation from all business men and organizations. The matter is to be followed up by the Finance and Membership Committee.

The resolution which was agreed upon by the joint committee of the Board of Trade and the Retail Merchants' Association was endorsed by the Council.

Co-operation
The following resolution was also adopted: Resolved, That the Council of the Board of Trade desires to express its appreciation of the co-operative spirit which was displayed by the representatives of the several boards of trade at the Maritime Board of Trade convention in Halifax, also that it is impressed with the value of many of the suggestions and recommendations which were made by these sister boards, such as the getting together of the three Maritime Province Governments for the purpose of establishing immigration agencies in Great Britain and for promoting other Maritime Province interests; a close consideration of all phases of the farm and fishery situation in these provinces; the strengthening of our commercial relationship with the British West Indies and other British areas south of us, as well as overseas; that it is strongly impressed to the people of other parts of Canada as to the basic factors of Confederation in so far as the Maritime Provinces are concerned; increase in the percentage allowed under the British preference on goods coming into Canada via Canadian ports; the providing of more tourist facilities and conveniences throughout the Maritime times; the consideration of a form of land settlement for the Maritime Provinces, along economic lines, etc.

Further, that it is strongly impressed with the necessity of all Maritime Province cities and towns striving to strengthen their board of trade organizations, so that they may more effectively and actively in promoting the varied interests of all sections, particularly in the effort to secure more business for their ports and industries, a greater development of the natural resources of these Maritime Provinces, the dissemination of more publicity of an informing nature through literature and also by means of a special canvassing of the Dominion from the Atlantic to the Pacific, and it would recommend that the boards of trade of the Maritime Provinces endeavor to arrange for an early conference with the view of fixing up on a general promoting policy along above lines.

MORNING STOCK LETTER.
(McDougal & Cowan)

New York, Sept. 20.—A lot of very favorable news was the main reason for some very extended covering yesterday. The industrial average rose 1/8, an advance not particularly large when the short interest is taken into consideration. Little of the good news of yesterday was true news, however. There were several favorable dividends, cheap call money and several bullish predictions. Yet, at the same time there was a large cut in Mid-Cont. crude oil prices while the trade reviews pointed out that all important steel products were still firm, the price tendency was in the buyers' favor. There were some lower prices in less important products also. Briefly, we do not think the market can advance to any extent, in fact we think prices will go still lower until there is a distinct change in business conditions.

We think this advance presents another opportunity for selling stocks. The re-landing of last week, while showing a big drop from the previous week because of the holiday, still present a high daily average close to the record. This is the reason the rails have been fairly strong on this break when compared with the industrials.

UNITED FRUIT CO. A GREAT SUCCESS
(Mendon Transcript)
Ernest W. Robinson, M. P., for Kings County, N. S., passed through the city this afternoon enroute to Ottawa.

Speaking to a Transcript representative on the conditions of the apple crop in the Annapolis Valley, Mr. Robinson stated that it was in excellent shape and that moreover costs of handling the fruit proved to be much lower than they have been for the last two or three years.

Referring to the way the business was handled, Mr. Robinson said, "Nova Scotia has one of the finest examples of co-operative enterprise in the Dominion, in the United Fruit Company, which operates in the Valley."

"This concern is composed entirely of farmers who banded together to protect themselves against the so-called 'speculators' who had previously disposed of the fruit," said Mr. Robinson. "Financially it has been a great success, and, without any outside assistance whatever, it has gained practically amounts to the absolute control of the industry and the farmers are now reaping the benefits of their foresight," declared Mr. Robinson.

"The same plan might be adopted in almost any branch of farming, such as milk disposal and the sale of dairy products, without any serious modification," concluded Mr. Robinson.

BRITISH LUMBER MARKET.
(Parworth & Jardine's Wood Standard)
Liverpool, Sept. 1.—Business ruled quiet in practically all branches of the Trade. Imports were generally on the decline, but there was a slight recovery in keeping pace. Now that work is resumed at the Manchester Docks, the deliveries show expansion compared with the previous week. Values were fairly well maintained, although in some of the leading varieties a little weakness was detected, but may possibly recover now that the holiday season is drawing to a close.

New Brunswick and Nova Scotia Spruce and Pine Deals, etc.—The imports to the Mersey (including the Manchester Canal) came to a substantial total, viz., 7,780 Standards. Deliveries were about equally distributed from Liverpool and Manchester, amounting to 4,790 Standards. Stocks are therefore increased to 13,100 Standards, in comparison with 12,200 Standards at the end of the corresponding month of last year. There is little change to report in market conditions. Values remain more or less firm. Pine Deals.—Holdings are unimportant.

Birch.—Logs. No fresh arrivals. Demand quiet. The Manchester Market is now bare. Stocks in Liverpool amount to 35,000 cubic feet. Planks.—Imports were moderate, and exceeded by deliveries. Stocks are full, viz., 191,000 cubic feet. Values for Fresh Wood in good condition remain firm.

Canada's Amendment To Article Ten Is Replaced By League
Geneva, Sept. 20.—The commission of the League of Nations, yesterday adopted a resolution interpreting Article X of the covenant. The commission adopted a new compromise formula, replacing the Canadian Amendment. The first clause declares that when council deems military measures necessary, it shall take into consideration geographical situation and special interest of each member state. The interpretative resolution now goes to the assembly for their approval. It is generally regarded as removing many of the existing fears that Article X would force states too far into possible military adventure abroad without the sanction of the home parliament.

"Hands Off" Reparations.
The reparations problem for the moment at least, was decided today by one of the main commissions of the League of Nations. This decision, it is believed, will affect the entire attitude of the League Assembly on this problem. It was not reported without some murmurs.

Canada Sells \$50,000,000 BONDS
Ottawa, Sept. 20.—The Finance Department announced yesterday the sale of \$50,000,000, 5 per cent. bonds to meet maturing obligations. The issue was bought by a Canadian syndicate, and will be offered for sale by nearly all the important financial houses in the Dominion.

"Tanlac gave me almost every day from stomach trouble, but this treatment restored my health completely five years ago and I have not had a sick day since." Is the striking statement made recently by Mrs. M. Gumbrell, Country Club, Barfield, Ont., Canada.

"Tanlac gave me almost immediate relief, and soon had my stomach in better order. I eat heartily of anything I desire without pain or discomfort. My nerves are calm, I sleep splendidly, and work is a pleasure."

**REVOLVERS AND SHOTGUNS USED
IN CHICAGO BEER-RUNNERS' WAR**

**Bullet Riddled Bodies of
Two Men Found by
Police in Auto.**

Chicago, Sept. 20.—Guns blazed in a Chicago beer runner's war Monday night, and the police found the bullet-riddled bodies of George Meehan and "Blot" Brucher, agents of O'Donnell Brothers, huddled on the floor of a Ford roadster at Laflin street and a Garfield Boulevard.

They were shot to death a few minutes before six o'clock by the occupants of another car armed with revolvers and sawed-off shotguns. So many bullets and shotgun slugs were poured into the car that the faces of both victims were almost unrecognizable.

Another killing was expected in the beer war, but the "dope" went wrong. It is believed that Meehan and Brucher were out to avenge the recent murder of "Jerry" O'Connor, when members of the rival gang "beat" them to a 38-calibre gun was found in the roadster, and Meehan's pockets were filled with 38-calibre cartridges.

O'Connor was shot to death just outside a saloon on the night of September 7, and it was this killing which led Mayor Devers to launch his crusade against beer running. Daniel M. C. Fall, a deputy sheriff, was arrested as a member of the mob who killed him.

So things stood when the sliver, in which Meehan and Brucher were riding, purred down Laflin street towards Garfield boulevard shortly before six o'clock.

It is believed that the car containing the slayers had been following the Meehan car south, and that the driver, realising the car would have to stop at the boulevard, timed the murder car so that it would be near the other at the proper moment.

The Meehan car stopped at the north drive of the boulevard, then crossed and stopped for the traffic on the south drive, when the murderer's machine sped directly in front of it and hardly ten feet away. Shotguns and pistols roared at the same time.

No chance was given either of the occupants to seek cover or return the fire.

A full charge from the shotgun evidently had struck Brucher. Thirteen slugs were found in his head and body. Meehan was not killed by the first volley, and had turned to leap out behind the car, when a bullet caught him in the back and ripped his way up his spine to his head.

According to witnesses the slayers' car turned slowly into Laflin street directly alongside the Meehan machine and another volley of shots was fired into the two huddled forms at closer range. Then the killers' car sped away and was lost in the traffic.

**WILL NOT AFFECT
ST. JOHN SHIPMENTS**

The Department of Agriculture at Ottawa received yesterday the following cable from the High Commissioner in London:

"Am advised by the Ministry of Agriculture that Manchester is included in foot and mouth disease controlled area into which only animals for immediate slaughter may be moved. They ask you to arrange to suspend shipment of Canadian stores to Manchester until further notice."

The new rule, it is said here last evening, will not affect shipments to ports other than Manchester.

C. M. Kerrison, of Nagle & Wignmore, Ltd., said last evening that the closing of the port of Manchester would have little effect on shipments of cattle from St. John. The destinations of the cattle carrying ships from this port have been Dundee, Glasgow and Liverpool.

**AID OF SCIENCE FACILITATES
DRILLS IN ARMY CAMP**

Loud Speaking Apparatus Enables All to Hear Orders Easily.

New York, Sept. 19.—If 250 lusty-lunged sergeants of the regular army should get together and shout "Attention" in their best drill-ground style, the effect would scarcely equal that of the voice amplifier recently purchased by the Signal Corps and installed in a mobile form on a motor truck. The new equipment can be used to handle large bodies of troops, to make speeches and music audible to assemblies or to supply entertainment received by radio, according to "The Scientific American."

The apparatus is technically known as a public address system. Sounds are picked up by a high-grade transmitter placed a few feet from the speaker, or near the bandstand, and stand if music is to be handled. The electrical output of the transmitter is increased about 600,000 times, using a four-stage vacuum tube amplifier. Then the current goes into a group of six horns, mounted on a folding tripod. Under ordinary quiet conditions a compact crowd of 750,000 persons could hear a man speaking in an ordinary voice through the use of this system.

"Pimples broke out on the back of my head and neck. At first the pimples were small and then they ran into each other and formed sore eruptions about the size of a ten cent piece. The skin was sore and red and itched a great deal, causing me to scratch."

**MORE MEN WORKING
IN MONTH OF JULY**

Ottawa, Sept. 19.—Increased employment was reported by the Employment Service of Canada during July, 1923, due to the active demands for agricultural workers in the west and for outdoor construction laborers in all districts. Compared with the same month in 1922, a marked improvement was shown in the number of vacancies offered and placements made.

At the beginning of August, the percentage of unemployment among members of trade unions was 2.9, as compared with 3.4 at the beginning of July and with 4.1 at the beginning of August, 1922.

The time loss due to industrial disputes reported to the Department during July, 1923, or August, 1922. DIED AS SHE HAD FORETOLD.

Her Last Meal, Guest Said—Found Dead From Gas.

New York, Sept. 20.—"This is my last meal with you people, I'll be dead tomorrow," Mrs. Ellen Lindstrom, 46 years old, a guest at the home of Mr. and Mrs. John Sandberg, said Saturday night after getting up from the dinner table.

"Oh, that's nonsense," the Sandbergs told her, adding "Cheer up."

The rest of the evening was spent in jollification. Sunday morning Mrs. Lindstrom did not appear at breakfast and going to her room, Mrs. Sandberg found her dead. The windows had been closed and a gas jet turned on. An ambulance surgeon said the woman had been dead four or five hours.

Mrs. Lindstrom had been ill.

FIRPO TAKES TO CENTRAL PARK TO ESCAPE HIS MANY ADMIRERS

New York, Sept. 20.—A national hero in his native South America, Luis Angel Firpo is somewhat of an adopted hero in our own United States and particularly in this city. Evidence of his popularity is furnished daily. Before the Dempsey bout Firpo was popular, but his popularity has grown tremendously since the battle. Last Saturday a crowd hung about the entrance to the apartment house where Guillermo Widmer, Firpo's secretary, makes his home, waiting eagerly for a glimpse of him. On Monday Firpo had to take his conspicuous automobile and spend the afternoon touring through Central Park to escape the crowds of hero worshippers. By actual count, according to Widmer, Firpo traversed every motor lane in Central Park eleven times, and when the party returned to Fifty-first street and Broadway it was necessary to park Firpo's car in an adjacent street to escape the crowd. Firpo received hundreds of telegrams and cablegrams of congratulation yesterday, one of the messages coming from Algeria.

BRITISH FOOTBALL

London, Sept. 19.—In the first division of the Association Football League game played on Monday, Blackburn defeated Newcastle by two goals to one.

Results of games played in the Association Football League today were as follows:

First Division. Everton, 2; Aston Villa, 0. Third Division, Southern Section. South End U., 0; Portsmouth, 1. Bournemouth, 1; Wafford, 1. Third Division, Northern Section. Wrexham, 0; Wiganborough, 0. In a Rugby Union game at Cardiff today, the locals defeated Pill Harriers by 14 to 0. Bath defeated Readingstone in a Northern Rugby League fixture by 21 to 2.

Firpo Going Back To South America

Will Not Return Unless Profitable Offer Made for Another Bout.

New York, Sept. 20.—Luis Angel Firpo will return to his native Argentina without engaging in further bouts here this year, unless an unusually profitable offer is made for him to remain for another heavyweight battle. This statement was made by Guillermo Widmer, Firpo's secretary and interpreter. According to Widmer, the South American giant plans a short trip to Canada, after which it is likely that Firpo will return to Buenos Aires for the winter.

\$300,000 FIRE IN FREDONIA

Flames Spread Through Buildings in Town's Business Section.

Fredonia, N. Y., Sept. 20.—A fire in the business section here on Tuesday caused a loss estimated at \$300,000. It started in the boiler room of the Fredonia laundry, which, with a pool room, a shoe store and a residence were destroyed. The flames spread to the American building on Main street, damaging Munroe's pharmacy, Griswold's shoe store, the Fredonia Hardware Company, A. B. C. stores, Odd Fellows Hall and the Western Union Telegraph office.

RATES FOR LIGHTING

Commissioner Thornton was notified yesterday that the rates for lighting the market building and the fire engine houses would be the ordinary commercial rates of the Civic Power Commission. The commissioner said the information furnished was hardly full enough and he would take the matter up further with the commission.

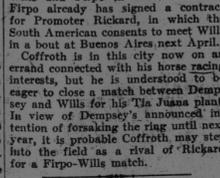

May Box Wipes in a Year

Widmer repeated that Firpo will tackle Harry Wills, New Orleans negro heavyweight, if a suitable offer is made for the bout. It is highly probable, however, that this contest will be held this year. Present indications point to a delay in arranging the match. It is regarded as the natural outcome of the Dempsey-Firpo bout, since it would bring together Dempsey's two foremost rivals and thus produce a rival for the champion in a bout that could be held next summer. Because of the great popularity which Firpo enjoys as a result of his showing against Dempsey, and because of the great interest which would attach to a clash between Firpo and Wills, it is probable a Firpo-Wills encounter would attract a larger crowd than any indoor arena could accommodate.

According to Paddy Mullins, manager of Wills, the "Brown Panther" of

PARTY DINNER AT LOCH LOMOND

Some 60 or 70 Conservatives Hear Addresses at the Table.

A gathering of some 60 to 70 members of the Conservative party was held at Johnstone's hotel, Loch Lomond, last evening. Several prominent party men motored to the city from Kent and Westmorland Counties and were guests of friends of the party here at dinner at Johnstone's. The chair was occupied by P. D. Tilley. An excellent menu was enjoyed and won high praise of those at table. Autumn leaves made very pretty decorations.

Mr. Tilley extended a hearty welcome to the visitors, and called upon Hon. J. B. M. Baxter to propose the health of the guests, and W. H. Harrison to second it, the latter speaking in French. The other speakers of the evening were Hon. D. V. Landry, who spoke in English and French; Ferdinand Robitoux, ex-M. P.; Dr. Murray MacLaren, M. P.; St. John; Antoine J. Lezer of Moncton; E. Albert Rully of Moncton; Raleigh Trites of Sackville; M. E. Agar, St. John; F. L. Potts, St. John; J. Roy Campbell, St. John; Noel McLaughlin, North Shore, and Thomas Nagle of St. John. E. Rene Richard of Sackville and R. M. Rive of Moncton also were among the guests.

As this was not a public function, the newspapers were not represented, and there was no report of the addresses or their purport given out except that the establishment of an Acadian daily newspaper in Moncton was one of the matters discussed.

ICE CREAM CASE IN COUNTY COURT

Suit of Purity Company for the Sum of \$22 From J. D. O'Connell.

The case of the Purity Ice Cream Co. Ltd. vs. J. D. O'Connell was begun in the County Court this morning, Judge J. A. Barry presiding. Dr. J. B. M. Baxter, K. G. and R. A. Davidson appeared for the plaintiff company, and D. Mullin K. C. for the defendant. The evidence of George Crowe, Gustave Stern, A. L. Stern and Miss Della Gannon of Havelock, constituted the case for the plaintiffs. Their evidence referred to the placing of an order for fifteen gallons of ice cream, for a child's picnic in Havelock, the shipping of it and the action taken by Mr. O'Connell when A. L. Stern called on him at the Royal Hotel, towards the latter part of September 1922, and asked for payment, which same was refused by Mr. O'Connell on grounds stated.

Mr. Mullin in opening the case for the defendant, moved for non suit on the ground that the County Court did not have jurisdiction in this case, as the cause of action arose in the city of St. John, and although the amount in question did exceed \$20, it did not exceed \$80. He contended that the jurisdiction in the case belonged to the City Court of St. John. At the request of Mr. Mullin, Judge Barry reserved decision on this point until the close of the evidence.

Mr. O'Connell had just completed his evidence when the court adjourned to meet again this afternoon at 2:30 o'clock, when several witnesses from Havelock will be examined. The amount involved in the case is \$22.

Are You Giving Enough Attention to the Furnishing of Your Home?

The home is admitted to be the corner stone of civilization, yet we learn that we spend less on its furnishings than on many of the non-essential items of everyday life. A recent issue of a well known journal is authority for the statement that the people of Canada spend \$3.50 per capita for soft drinks, \$5.50 for confectionery, \$5.50 for taxable amusements (not including many lesser forms of amusements which are not taxed), \$22.00 for automobiles and only \$5.00 for house furnishings of all descriptions!

There is food for serious thought in these figures. Are you doing your duty by your home?
