RECENT DEATHS

Fenwick W. Parker.
Fenwick W. Parker, formerly one of the best amateur skaters, holding international amateur championships, died at a little after 12 o'clock night at his home, 819 City road. He had been confined to bed for only three days. He was a young man of about thirty-two years, very popular. His death will cause great regret and sympathy will be tendered to his bereaved family. Mr. Parker is survived by his wife, formerly Miss May Cosman, daughter of G. W. Cosman, of this city, also leaves one child. His parents, Mr. and Mrs. Charles Parker, and two sons, Sanford and Charles, also survive.

(Mrs. Adelaide Murray, wife of Dr. H. Murray of Campbellton, died yesterday. She was a woman of estimable character and was an active member of the Presbyterian church, also of the W. U. and Woman's Institute. She is survived by her husband and three children.

"WAR IS HELL"
Exactly What Sherman Said, Though He May Have Meant It (New York Times)

Half of the popular quotations are quotations, such as "A man convincing against his will," "He that contends against his will," "Speed the parting guest," "Speed the going guest," "All the world loves a lover" for a man loving a lover." In view of constant and tiresome iteration of saying "War is hell" and its scribbles to Gen. Sherman, it is somewhat of a pity to learn that this is a misquotation. What he said, as is pointed in a letter in the World, was, "War is hell, and you cannot refine it." He sent the protest of the non-battant population of Atlanta against order to them to leave the city. This aroused great indignation throughout the south and Gen. Hoon warmly

To Put on Flesh and Increase Weight

A Physician's Advice.
Most thin people eat from four to six pints of good solid fat-making food every day and still do not increase in weight one ounce, while on the other hand many of the plump, chunky folks eat very lightly and keep gaining all the time. It's all a matter of how they eat. It's not the nature of the individual. It isn't Nature's way at all.

Thin folks stay thin because their powers of assimilation are defective. They just absorb enough of the food they eat to maintain life and a semblance of health and strength. Stuffing won't make them gain a single "stay there" pound. All the fat-producing elements of their food just stay in the intestines until they pass from the body as waste. What such people need is something that will prepare these fatty food elements so that their blood can absorb them and deposit them all about the body—something, too, that will multiply their red blood corpuscles and increase their blood's carrying power.

For such a condition I always recommend eating a Sargol tablet with every meal. Sargol is not, as some believe, a patented drug but is a scientific combination of six of the most effective and powerful flesh-building elements known to chemistry. It is absolutely harmless yet wonderfully effective and a single tablet eaten with each meal often has the effect of increasing the weight of a thin man or woman from three to five pounds a week. Sargol is sold by good druggists everywhere on a positive guarantee of weight increase or money back.

Major General I. R. Jones died recently in London following an operation for appendicitis. He was sixty-five years of age. He served with the 2d Scots Guards in the Egyptian Campaign of 1885, and commanded the Guards' Brigade in the South African war. In 1903 he was in command of the Straits Settlements.

Some estimate may be obtained of the size of the apple crop in the orchard of Howard V. Keyser of Greene, Me., by the fact that he has purchased 2,000 barrels to hold it.

A New, Harmless Way To Banish Hairy Growth

(Beauty Topics)
By following this suggestion any woman, in the privacy of her own home, remove every trace of hair or fuzz from her face: Will powdered delatone and water mix enough paste to cover the not wanted hairs; apply in 2 or 3 minutes rub off and wash the skin. This method is simple, harmless and quick in results, but care should be employed to get genuine delatone.

Digging Out Corns Causes Blood Poison

To really make a corn go away, to remove it for all time, there is but one way. Paint on Putnam's Painless Corn Extractor, a soothing, helpful remedy that separates the corn from the good flesh, lifts it out root and branch—does it quickly and without pain. The name tells the story, Putnam's Painless Corn and Wart Extractor, price 25c.

MOTHER OF SCHOOL GIRL

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Daughter's Health.

Plover, Iowa.—"From a small child my 13 year old daughter had female weakness. I spoke to three doctors about it and they did not help her any. Lydia E. Pinkham's Vegetable Compound had been of great benefit to me, so I decided to have her give it a trial. She has taken five bottles of the Vegetable Compound according to directions on the bottle and she is cured of this trouble. She was all run down when she started taking the Compound and her periods did not come right. She was so poorly and weak that I often had to help her dress herself, but now she is regular and is growing strong and healthy."—Mrs. MARTIN HELVIG, Plover, Iowa.

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accumulated are constantly being received, proving the reliability of this grand old remedy.

If you are ill do not drag along and continue to suffer day in and day out but at once take Lydia E. Pinkham's Vegetable Compound, a woman's remedy for woman's ills.

Men's and boy's write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

THE WAR NEWS

Last night's official despatches from Paris said that the retreating Germans appeared to have decided to make a stand on a prepared front along the River Aisne.

Reports from the eastern theatre of war tell of further Russian victories over the Austrians and over the German armies in Russian Poland.

The British army in France has conducted its operations with a dash and cleverness which have won it undying glory.

THE TERMS OF PEACE

There is much speculation as to the extent of the reverses Germany will endure before she sues for peace.

There is very little prospect of an early termination of the war at the instance of Germany.

There is just one possibility which might if realized shorten the war, and that would be a revolution in Germany itself.

mind to accept the necessarily very severe terms which in the interests of civilization and of peace must be imposed upon her.

ECKHARDT BEATS BERNSTORFF

It had been generally assumed that Count Von Bernstorff, the German ambassador to the United States, was the humorist of the war.

LOWER FREIGHT RATES MEAN CHEAPER COAL IN THE WEST
Saskatoon, Sept. 15—While the present tendency of other human necessities is to advance, the price of coal has been lowered all along the line, on account of the reduction in western freight rates which came into effect September 1. Approximately the following are the reductions:
Hard coal, Penn., 80c. a ton.
Steam coal—Lethbridge, \$1 a ton; Edmonton, soft, 75c. a ton.
Drumheller, soft, \$1.25 a ton.

A SMART LOOSE COAT.

played to make this coat. There are other materials which will answer the purpose just as well, however, chinilla cloth being also smart.
The coat is loose and fastens in single-breasted effect, having a yoke back and one-piece sleeves. Either a turn-down or military collar may finish the neck.
Two and one-half yards of 54-inch material at \$2 a yard will make an exact duplicate of models that sell for \$15 and \$20 in the shops.
First fold the goods; then lay along the lengthwise fold the yoke and yoke parts of the pattern. The stay may be arranged next the yoke and just below the sleeve, which is on a lengthwise thread. The front, underarm, belt, collar and cuffs are laid along a lengthwise thread. Following these directions will insure good lines for the model.
Now adjust the underfacing to position, underneath front. This may be contrasting material if desired. First, bringing "T" perforations to corresponding double "oo" perforations and tack.
Sew yoke to back as notched. Arrange stay underneath back, bringing corresponding small and large "oo" perforations in stay and in back at underarm edge together and tack. Small "oo" perforation in belt indicates upper front edge; adjust on front and stitch back edge between single small "oo" perforations at under-arm edge. Close under-arm seam as notched; close shoulder seam.
Close back seam of collar indicated by small "oo" perforation; sew to neck edge as notched. Roll collar and front as desired.
Close sleeve seam as notched. Close cuff seam as notched to small "oo" perforation; sew to sleeve as notched. Sew sleeve in armhole as notched. Close under-arm seam easing in extra fullness.
Unless a belt in suede is substituted use the same material, as this makes an effective finish.
Pictorial Review pattern No. 5810. Sizes 14, 16, 18 and 20 years or 31, 34 and 36 inches bust. Price, 15 cents.

Blanket cloth, which comes in very serviceable, yet smart colors, is excellent for this coat.

CUTTING GUIDE 5810

Fold of 54 inch material with nap. Patented April 30, 1907. Skirt, No. 5249. Sizes 14, 16, 18 and 20 years. Price, 15 cents.

Patterns published in this series may be obtained by sending price of pattern in cash or stamps to The Evening Times Pattern Department, 23 Canterbury Street, St. John. GEM THEATRE OPENS WEEK WITH BIG PROGRAMME
Lucille Love's Adventures Grow Even More Interesting—Stirring Military Drama of the Philippines Another Feature

The tenth installment in the great serial story of "Lucille Love, Girl of Mystery," shown at the Gem Theatre yesterday, gave much pleasure to the many patrons who have been following this series since its opening. A further element of mystery entered the story, yesterday in the tenth chapter when an unknown veiled lady came to the aid of Lucille in a trying predicament. This chapter, in two reels, will be repeated today and is one of the most fascinating yet seen in the portrayal of the career of the famous girl of mystery.
The Gem orchestra had a pleasing programme of novelty numbers while two other pictures also gave pleasure. A Lubin production entitled "A Traitor to His Country," a stirring military drama of the Philippines and a notorious insurance and a screamingly funny comedy "Willie Walrus and the Baby," in which an amateur detective sets out to learn the identity of an infant in the metropolis of New York which, as would be expected, he finds no small task.

STERLING ARRAY OF FEATURES AT UNIQUE; MILLION DOLLAR MYSTERY.
"Always a good show" is the slogan of the Unique theatre and the excellent array of features shown there yesterday forcibly demonstrates the fact that the management is doing its best to live up to its reputation at all times and invariably succeeds.

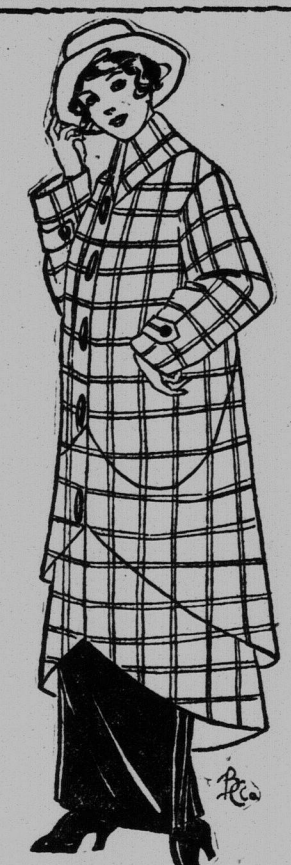

The Wiles of a Woman, which is the eighth chapter of the Million Dollar Mystery, adds considerable food for thought to the many who are following this wonderful serial photo story. The thrilling adventure of Norton the newspaper reporter, and incidentally the hero of the drama, after he has plunged through a street scene in the Russian title and the question remains in the minds of the audience how will it end? This chapter is particularly interesting. Between the Showers is a brilliant Keystone comedy, while the Reliance novelty production, A Lesson in Bridge, adds new interest to the entire programme.

POLICE INQUIRY

Chief Clark Takes the Stand in His Own Defence and Tells of His Administration—Prominent Citizens Testify For the Chief

Chief Clark took the stand in his own defence at the police inquiry yesterday afternoon and said he was appointed in 1890 and made many changes and improvements in the system after his appointment. The force consisted of 46 men at that time while there were now only 44, including himself. He said he had asked to have copies of the Marshall manual printed

FIRST PHOTOS OF HAVOC WROUGHT AT LIEGE

These photographs, just in from Berlin, show what those terrible 16-inch German siege guns did to the stubborn turret forts which held out so long at Liege. These forts of nickel-armor steel, with concrete walls as thick as a house, were torn to pieces, as shown in the photographs, and the places they occupied made the craters of veritable volcanoes.

Germans Make Stand At River Aisne But Allies Cross
Stirring Report on the British Operations—News From Russian Fighting Line Continues Good

London, Sept. 14, 4.45 p.m.—The official press bureau this afternoon issued the following statement:

"All day yesterday the enemy stubbornly disputed the passage of the Aisne by our troops, but in spite of the difficulty of fording the river in the face of a strong opposition on nearly all the crossings were seized by sunset.

"On our right and left the French troops were confronted with a similar task in which, like ourselves, they were successful. Many more prisoners were taken.

"It is reported from the French headquarters that the German Crown Prince's army has been driven back and that he has moved his headquarters from St. Mennehoult to Montefaucon."

Broadly speaking, the German lines to the northeast of Paris have been driven back by the Allies about half way to the Belgian frontier. They extend today from a point north of Amiens to the Argonne region and are from sixty to eighty miles distant from Paris and about an equal distance from the boundary lines of Belgium. From the Argonne the line runs northeast to Verdun, which fortress is thirty miles from the Luxembourg line. From Verdun the German line would appear to run southeast to a point north of Nancy whence it continues in an easterly direction to the frontier of Lorraine. Here the German and French troops are virtually on the border.

The statement of the official press bureau discloses the fact that the German crown prince, who heretofore had been supposed to be directing the attack on the fortresses of Verdun, really was in charge of the German centre army, which made a desperate attempt to break through the French line at Vitry Le Francois.

St. Mennehoult, the deserted headquarters of the crown prince, is at the southern extremity of the Argonne forest and about twenty miles to the north of Revigny. Montefaucon, the new position taken up by the crown prince is about eighteen miles to the northeast of St. Mennehoult and twelve miles to the northwest of Verdun.

BRITISH REVIEW OF GREAT BATTLE.

London, Sept. 14, 2.45 p.m.—Important details of the operations of the British army in France are contained in a report which the War Office issued this afternoon.

When the German army began its eastward movement to cut the French centre, according to General French, it was ignoring the British as a factor in the fight. The Allies began a general advance on Sept. 7, against the German rear guard of their right wing, which had been left along the river Ourcq. The British army was reinforced. The Germans began a retirement on their right on the 7th. It was the first time that they had turned back since the battle of Mons.

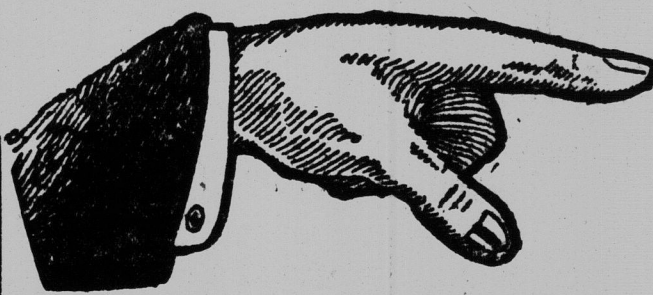

According to letters found on prisoners they had expected to enter Paris in a few days. The order to retreat was a bitter disappointment. The British crossed the river Marne on the 9th with the French, and on the 10th captured 1,500 men, four great guns, six machine guns and fifty transport wagons.

The Germans of the right army seemed demoralized. They were without food and surrendered readily, according to the British report. The continued advance, General French says, has delighted the troops who, with the reinforcements received, are filled with zeal and anxious to press on, carrying all before them at the point of the bayonet.

"On Monday, Sept. 7, there was a general advance on the part of the Allies. In this quarter of the field (the German right), our forces which had now been reinforced pushed on in a northeasterly direction in co-operation with the advance of the French fifth army to the north and of the French sixth army to the eastward against the German rear guard along the river Ourcq.

REASON FOR GERMAN RETIREMENT.

"Possibly weakened by the detachment of troops to the eastern theatre of operations, and realizing that the action of the French sixth army against the line of Ourcq and the advance of the British their own flanking movement in considerable danger of being taken

I. CHESTER BROWN
 32 - 36 King Square Next The Imperial Theatre

in the rear and on its right flank, the Germans on this day commenced to retire towards the northeast.

"This was the first sign that these troops had turned back since their attack at Mons a fortnight before, and from reports received the order to retreat when so close to Paris was a bitter disappointment.

"On Tuesday, Sept. 8, the German movement northeastwards was continued. Their rear guards on the south of the Marne were being pressed back to that river by our troops, and by the French on our right, the latter capturing three villages after a hand-to-hand fight and the infliction of a severe loss on the enemy.

"The fighting along the Ourcq continued on this day and was of the most sanguinary character, for the Germans had massed a great force of artillery along this line. Very few of their infantry were seen by the French.

"The French fifth army also made a fierce attack on the Germans in Montmirail, regaining that place.

"On Wednesday, Sept. 9, the battle between the French sixth army and what was now a German flank guard along the Ourcq continued.

"The British corps, overcoming some resistance on the river Petit Morin, crossed the Marne in pursuit of the Germans, who now were hastily retreating northwards. One of our corps was delayed by an obstinate defence made by a strong rear guard with machine guns at La Ferte-Sous-Jouarre, where the brigade had been destroyed.

"On Thursday, Sept. 10, the French sixth army continued its pressure on the west, while the fifth army, by forced marches, reached the line of Chateau Thierry and Dormans, on the Marne. Our troops also continued the pursuit on the north of the latter river, and after a considerable amount of fighting captured some 1,500 prisoners, four guns, six machine guns and fifty transport wagons.

"Many of the enemy were killed or wounded, and the numerous thick woods, which dot the country north of the Marne, are filled with German stragglers. Most of them appear to have been without food for at least two days.

"Much brutal and senseless damage has been done in the villages occupied by the enemy. Property has been wantonly destroyed. Pictures in Chateaux have been ripped up and houses generally have been pillaged.

"It is stated on impeccable authority also that the inhabitants have been much ill-treated.

"One of the features of the campaign on our side has been the success obtained by the Royal Flying Corps. In regard to the collection of information it is impossible either to award too much praise to our aviators for the way they have carried out their duties or to over-estimate the value of the intelligence collected, more especially during the recent advance.

All the news coming in today seems to confirm the Russian reports that the Russians have inflicted another crushing defeat on the Austrians, who, on the right, were supported by some German divisions. By the capture of Tomaszow, the Russians drove a wedge between the Austrian army which had invaded Poland as far as Opole, Krasnostav and Zamosc, and the army which they defeated at Lemberg, and which, although it lost heavily in killed, wounded, prisoners and guns, managed to reform to some extent and undertake the offensive.

The Germans, who reinforced the Austrians, according to latest reports, shared in the defeat. They are trying to reach the fortress at Przemysl, and the rear guard is endeavoring to keep off the Russian cavalry which are pursuing them.

Austria had in Poland and Galicia an army estimated at 1,000,000 men, with 2,500 guns. At Lemberg, Austria lost many thousands of men in killed, wounded and prisoners. It is now stated, although not officially, that the total number of prisoners amounts to 130,000, and that 1,000 field guns were taken, besides the guns in the captured forts and an immense amount of war material.

The Servians after taking Semlin, over which they had great rejoicing as it relieves Belgrade from a continuation of the bombardment, have resumed the offensive against the Austrians, and, like the Montenegrins, are taking advantage of Austria's weakness on that frontier to push into her territory.

POLICE PROTECTION
 Editor Times:
 Sir,—As a property holder and tax payer of St. John I want to say that there is no other city in Canada where the tax payers would stand for the same conditions as we do. It is a disgrace of the worst kind. Ladies and children have to go out in the middle of the street to pass the Gem, and there should be a change at once. Just because civic officials are at logger heads the people have to suffer. It is time for some other action to be taken. If there had been as much attention given to police protection as there has been to investigations it would have been more satisfactory to all. St. John has just about half the police force it should have. If we are paying for it, give it to us; or go back to the old aldermanic system, as a property holding tax payer I fail to see any improvement.

WHAT MAKES CHAMPIONS?

Work! and Lots of It! Declares Fullerton, Who Points Out Glowing Examples

(By Hugh S. Fullerton.) Francis Ouimet plays a difficult golf course in seventy strokes; Christy Mathewson, in a desperate crisis of a deciding game, drops three twisting fade-walks just at the right spot, a batter strikes out and the game is saved; Brickley kicks three field goals, Harvard wins the crowd goes mad; Mike Griffin azies an opponent by his speed of and and foot, and retains a champion-ship.

We all say: "Aren't they wonders?" and perhaps envy them their skill in some particular line of athletic.

Why are we not all able to do the same things? We are, perhaps, not to cite such a degree of excellence as they possess, but every normal young man, possessed of good eyes, good muscles, and an average man can do these things if he will work.

Take the case of Mike Gibbons. He is an average man; big but not heavy. He possessed, perhaps, less than the average strength and health. He was only mediocre boxer, but he decided that it was worth while to box at all, it was worth while to do it well.

The rest is merely a story of work and work and persistent effort. He boxed, was whipped, won some fights, became a boxing instructor teaching others while he was learning the game himself. By patient effort he mastered footwork, got a hot temper under control, and became master of himself. He learned to hit, to put every ounce of power behind his blows, to use the leverage of arm and shoulder and wrist to best advantage. Then he battered his way to the top of his class.

Click Evans another case. He was caddy at Edgewater and wanted to earn the game. He studied the players or whom he caddied. He got some hints. Hours of patient work by the roadside with his irons taught him that leadly skill at approaching, which is the strongest point. It was work, steady, consistent practice that made him perhaps the greatest of American amateurs. Ouimet advanced in almost the same manner. He had more early advantages, but his success is due to perfect nerves and absolute attention to business.

We wonder of the skill of Charlie Brickley at kicking a football. Why is he able to do this? A year ago this summer Brickley was employed to teach the youths at Lake Forest who needed kicking. On the estate there was a barn perhaps twelve feet from the ground, a small window that stood open. Hour after hour, every day during the summer, Brickley stood on the ground twenty-five, thirty, thirty-five, forty yards from that barn, at all angles, kicking, kicking, kicking until he was tired, spinning through that window two out of three times.

Mathewson is much the same way. When he came into baseball he had a strong arm, terrific speed and a wonderfully fast curve. He used the speed and curve and won as many a strong-armed young pitcher who had the speed and strength on the arm. The speed no longer as there, and the curve had lost its sharpness. Mathewson really studied. He worked, patiently, diligently, and achieved a slow ball, a twisting, dropping, slow ball that, by contrast, made its speed seem as great as ever.

In every line it is the same—hard work, patience and thinking.

TWINS

Some Remarkable Family Records—Sixty-Four in One Household

(Person's Weekly.) Medical men and others who have made a special study of the subject, entertain no doubt—strange though the assertion may sound—that twins run in families.

Some years ago Doctor Cory, of St. Thomas's Hospital, investigated the history of seventeen cases of twins which came under his notice professionally, with the result that he discovered that in no fewer than thirteen of the cases there had been previous births of twins among near relations of either the father or mother.

As the proportion of multiple births to single births is only a little over one per cent, it is, of course, quite conceivable that this could be due to chance merely; so that we should be compelled to assume that there is in certain families a hereditary tendency to multiple births, even if Doctor Cory's figures stood alone.

But they do not. Other doctors have made similar investigations, and these have been attended with very similar results. In a case mentioned by Doctor Mac-hall, twins were born in four out of five consecutive generations; while in yet another instance he traced a history of multiple births for four consecutive generations. In this latter case, in the first generation a woman, whom we will call Ann, gave birth to twin daughters, one of whom died. The other married, and likewise had twin daughters. Both these lived to womanhood and married. One had twins once and four single children, the other had twins twice and five single ones. In the fourth generation one set of twins was born.

Startling Single Cases. It is, however, when we cease dealing with statistics extending over several generations, and concentrate our attention upon single cases, that we get some really startling examples. For instance, during the recent sagitation in France

which had for its object the inducing of the government to refrain from taxing the fathers of large families, the chairman of one meeting announced that he had thirty-three children, including three sets of triplets and five of twins, while three of his sons who had married, one was the father of two lots of twins and the other of a quartette.

Another well-authenticated case concerns two Lancashire lassies (twins) named Dermodey. They were married their seventeenth birthday, and by the time they were twenty-one they had brought into the world no fewer than seventeen children, their joint record including seven sets of twins and one of triplets.

The classic case of all, however, and one which seems to clinch the matter entirely, concerns an Italian peasant family named Gravata, living near Rome. Mrs. Gravata was one of twins, and the daughter of a mother who was herself a twin. She was not married until she was twenty-eight, an unusually late age for an Italian peasant girl, and there were many sly jokes among her friends and relations as to whether she was going to carry on the family tradition.

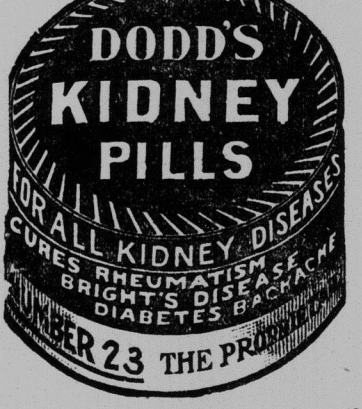

Gave Birth to Six. As a matter of fact she did not in the beginning. Her first child, born a year after marriage, was just an ordinary baby girl. The following year, however, she re-established the family record and astonished not only her own people but practically everybody in Rome, by presenting to her hubby six boys—small, but healthy.

The next time there were five more boys, and then followed two sets of triplets and a quartette. By this time all Italy was interested. Visitors from everywhere flocked to the little cottage, and gifts, both in money and kind, poured in upon the proud parents. Even royalty itself, in the person of Queen Margherita, herself then newly married, came to see and admire, leaving behind her a substantial memorial of her visit in the shape of a purse filled with gold pieces.

"You had better rest on your laurels now, signora," remarked Her Majesty, laughingly, as she took her departure. But this Mrs. Gravata apparently was not at all inclined to do.

Indeed, as a matter of fact, she had at the time of the queen's visit only about a third part of her complete family about her, for after a long series of ones and twos this extraordinary woman had the proud satisfaction in November, 1885, of presenting to her husband four bonny boys, thereby bringing her living family up to sixty-four.

THE STATE OF TRADE. More Optimistic Feeling Prevails in Wholesale Trade Circles—Business in Some Lines Fairly Active. Dun's Bulletin says of Montreal trade: Reports from the surrounding country districts are to the effect that the grain crops have now been harvested in good condition and show a fair average yield, and at ruling prices for all agricultural products, farmers should be well able to meet all their obligations. In the city retail business there is a quietness, especially in such lines as are more or less luxuries. Wholesale dry goods Mr. Fries is seeking the republican nomination for probate clerk.

THE ONLY CURE FOR CONSTIPATION

Is "Fruit-a-tives"—That Wonderful Remedy Made From Fruit Juices

Avon, Ont., May 14th, 1913. "I have used "Fruit-a-tives" for indigestion and Constipation with most excellent results, and they continue to be my only medicine. When I first started about six years ago to use them, I took four at a dose, but gradually reduced the dose to one tablet at night. Before taking "Fruit-a-tives," I took salts and other pills, but the treatment was too harsh. I thought I might as well suffer from the illness as from these treatments. Finally, I saw "Fruit-a-tives" advertised with a letter in which some one recommended them very highly, so I tried them, and I have no hesitation in recommending them."

COMMON COUNCIL

Warehouse For Potato Shipments—Contracts Awarded—Gymnastic Apparatus For Soldiers on Partridge Island

The weekly meeting of the common council was held yesterday afternoon with Commissioners Frink, Wigmore, Russell and Potts present.

Com. Wigmore was authorized to purchase water meters at a cost of \$1,000. A request of the Atlantic Sugar Refineries, Ltd., for the refund of the balance of their deposit, now \$30,000, was referred to the mayor.

A communication from the secretary of agriculture for warehouse room for the shipment of potatoes for the imperial authorities was referred to the commissioner of harbors with the suggestion that berth number seven might be found suitable.

Malcolm W. Jones presented a bill for \$11.15 for repairs to windows broken by street blasting. The letter was referred to the commissioner of public works.

The same commissioner was asked to inquire into the complaint of John Mullin regarding his dismissal from the department.

Tenders for laying a permanent sidewalk on Queen square were opened and the contract was awarded to Moses, French and Sims for \$3,517.82.

Peter Ferris was given the contract for a retaining wall in Tower street for \$867.

Russell was allowed an overdraft of \$8,500 for his department, the shortage being due to the falling off in the receipts from passenger steamers last winter.

Mayor Frink announced that the soldiers at Partridge Island want some gymnastic apparatus and he and Commissioner Frink will visit the island to see what is required before the council considers taking any action.

SCHOOL BOARD MEETING

At a meeting of the school trustees last evening Mr. Manning reported that leaks in gas stoves in the Domestic Science schools had been repaired. The head of the school wanted a new equipment costing about \$100. The committee in charge of domestic science were given power to act.

The buildings committee reported that the Emerson school had been accepted. The finance committee is purchasing \$22,000 of 4 p. c. bonds of the Province of New Brunswick at a price which will yield 5 1/2 p. c. The purchase was made out of the sinking funds.

The teachers committee reported that 48 teachers had increases in pay which went into effect at the first of the present term. Nine teachers had a raise of \$15; thirty-six of \$25; and three of \$30, a total of \$1,185.

George E. Day said that the Centennial janitor wanted to put up a glass hot room. The matter was referred to the building committee to report.

The janitor of Winter street school asked for extra pay for painting the hot room. The matter was referred to the building committee to report.

Applications for teachers' positions were received from Miss Emma L. Fairweather, Geo. H. Lunn, Miss Winnifred C. G. Long, Miss Annie M. Miller, Miss Robertson, Miss Mildred E. Carson, Annie Graham, Jessie E. Stewart, M. B. Caples, Gertrude Shea and Helen M. Corbett. They were referred to the teachers' committee.

Miss Margaret R. Graham was granted leave of absence till January at half pay; and Miss Ada E. Allan till January at half pay.

Miss Lingley was granted an extension of leave of absence.

Notice was received that Mrs. E. R. Taylor had been appointed to the board in place of Mrs. Skinner. Mrs. Taylor was appointed to the domestic science committee.

THE CROPS AND THE SITUATION IN THE WEST

Saskatoon, Sept. 15.—Cutting is practically finished and threshing in full swing. Labor is scarce. This year very few men were imported from the east by means of the ordinary harvester excursions. A large proportion of the necessary help has been provided from city unemployed all over the west. As the wages run about \$2.75 a day and board, and as the work will continue until the freeze up, harvesting will go a long way to help many people through the winter. Such being the case, those who are in a position to judge, do not anticipate any marked degree of distress during the season. This, because the harvest help money which usually goes back to the east and elsewhere will this year remain among the people of the west.

The somewhat doleful conceptions of our crop are now being dispelled by actual threshing results in conjunction with the fact of record prices for grain. As far as the yield is concerned, it is much better than was anticipated; and the grade is high. Lots of wheat on well-farmed land is running from eight to twenty-five bushels an acre while, in some cases, oats, which are this season a very short crop, are actually running as high as sixty bushels an acre. The consequence is that business people now realize that with his stock which has increased phenomenally during the last season, the farmer will have at least as much money this fall as ever before—and the present probability is that he will have more. It is well to remember, too, that the 1913 crop went far toward the reduction of the farmer's indebtedness, and that he has taken on no new

FALLS FROM EIGHTH
STORY OF THE REFINERY
AND LIVES TO TELL IT

To fall from the eighth story of the main building of the Atlantic Sugar Refineries, Ltd., plant at the Ballast wharf, a distance of between 110 and 120 feet and live to tell the tale, was the unique experience of Ralph Smith, a painter in the employ of the E. G. M. Cape Co. He is now in the hospital with a dislocated elbow, a gash on his lower lip and two broken teeth, but otherwise apparently uninjured, although internal complications may develop.

Smith and another painter, whose name is said to be John Mudge, were on a swinging stage suspended by rope from two blocks at the top of the building and were engaged in painting the window sashes on the eighth floor. Without a moment's warning the rope on the end on which Smith was, gave way and before he could realize what had happened, he was falling to the ground more than 100 feet below. Those who witnessed the accident hurried to the spot where the man had fallen, expecting to find him badly injured, but he was dead. But luckily he fell in a pile

WILL OF SAMUEL WILSON
DIVIDES A \$21,000 ESTATE

In the probate court today the will of Samuel Wilson, late of Carleton, was proven. He gives all his property to his executors and trustees in trust for the benefit of his wife during her lifetime with power to use a portion of the principal if necessary for her maintenance and after her death to pay to his brother, William Thomas Wilson \$4,000; to his nephew, Samuel Wilson, \$400, and the rest to be paid to his daughter, Gladys Elizabeth Wilson, and he nominates his wife, Elizabeth Wilson, and Walter E. Foster executors and trustees. They were duly sworn in as such. Real estate consists of property on the West Side valued at \$1,000; personally \$20,000; total estate \$21,000. Baxter & Logan are executors.

The court took up the matter of the estate of Mrs. Caroline Tennant, widow of David Tennant, who was St. John Inspector of water meters. Mrs. Tennant died intestate on July 16, 1914. She left one brother, Thomas Moss of Black Diamond, Washington, formerly a miner. There are five sisters, Mary, wife of John Foster; Jane, wife of William Foster; Frances, wife of William Kennedy; Ann, wife of John Holland, and Isabella, wife of Benjamin Burgess, all of whom with their husbands died before her, most of them leaving children, some of whom live in Springhill, others in Sydney Mines, Nova Scotia, Freehold, Pennsylvania, and elsewhere. On the petition of the brother and of Mrs. Mary Canning, of Springhill, a niece, Henry F. Puddington of St. John, barrister at law, was appointed administrator. There is no real estate, personally \$400.

EARLY BEGINNING OF AN ANNUAL TROUBLE

John Parkham, seventy years of age, a native of Labrador, was St. John magistrate this morning for the second time within a week, charged with being a common vagrant. He said he came to St. John on a two-masted schooner from Halifax. He was remanded to jail. The magistrate said that Detective Killen should find out what vessel or railroads brought such people to St. John at this time of year, as it seemed to be an annual event to have such men "dumped" here.

Montreal May Buy

Montreal, Sept. 15.—The board of control's report in favor of the city purchasing the Montreal Water and Power Company's business at approximately \$7,700,000, definitely decided upon by a majority of the board yesterday, will be considered by the city council on Thursday.

ENGAGEMENT ANNOUNCED

Mrs. Louisa F. Ramsey, 27 Murray street, has announced the engagement of her daughter, Rosena, to Henry J. Wagner of Miami, Fla., and now of New York. The marriage is to take place in St. John early in October.

WOULD FORM BATTALION
OF P. E. I. INFANTRY

Desire is to Have it as One Unit Under Its Own Officers — The Oats and Money Contributions

Charlottetown, P. E. I., Sept. 15.—Volunteers are now being called for raising a battalion of infantry to go to the front as one unit under its own officers. So far about 250 men have left the island for war service.

Oats and Money

Preparations for collecting the 100,000 bushels of oats which the island is presenting to the British government are now well under way, and on the 20th the canvassers will begin work among the farmers. Whilst the Nova Brunswicks government are buying from the farmers the 100,000 bushels of potatoes for presentation to the mother country, the Prince Edward Island government is not called upon to expend any money. The oats are being donated by the farmers, and each man will do his own bagging, as well as carting to the wharf. The order from abroad, arrive. The expense of shipping, including the cost of the bags and the freight across the Atlantic are being borne by public subscription. For this purpose the Army Field Service Fund was started. Already amounts to \$7,000. The Nova Brunswicks government are also contributing. Some wealthy fox men are among the generous contributors, there being some gifts of \$500 and quite a few of \$250. It is expected that the \$10,000 required will be readily raised. When it is considered that more than 4,000 was raised for the Canadian Hospital Ship Fund and that the Red Cross Fund is now about \$2,000, it will be seen that the people are alive to the need of rendering Britain aid in the great struggle.

The Red Cross movement is just beginning to be taken up in the country districts and in addition to money large grants of clothing &c. will be forthcoming.

So far nothing has been done with respect to the Patriotic Fund for the relief of the wives and families of the soldiers called to the front, but there is no doubt that contributions to this will be forthcoming. The government may devote a portion of the amount received on account of the oats to the Patriotic Fund.

The island this year has probably the largest crop of oats in its history, more than 6,000,000 bushels.

THE POLICE

George McCarthy, charged with interfering with Policeman Dykeman in the discharge of his duty, was fined \$16 by the magistrate this morning. The fine was allowed to stand. The magistrate said it never could be said truthfully of him that he was down on any one of the policemen. He said that if a policeman went beyond his authority he would fine him the same as he would a man who interfered with the police. He had several cases on these points, which were upheld by old English cases, but on appeal he found that in most cases decisions of the House of Lords in England were over-ruled in St. John.

The magistrate said that the people of St. John did not give the police the respect due them and that this attitude formed the nucleus of riots. He said that he had told the safety board ten years ago that when a policeman went out on his beat in the winter he was not half paid.

NOT A GOOD TIME FOR
GLOBE-TROTTING GAME

Moncton, Sept. 15.—A young Montserrat, named Arthur Thibodeau, who started out to travel around the world on foot, has reached Moncton, on his way to Halifax, where he expects to sail for Havre, France, and continue on foot through European countries. Thibodeau has until May 1, 1921, to get back to Vancouver, whence he started on May 24, 1913.

In addition to working his way, Thibodeau must secure the signatures of 200,000 persons, also the signatures of 50,000 officials of places he visits.

RUSSIA TO CANCEL GERMAN PATENTS

London, Sept. 15.—A despatch from Paris gives the Figaro as authority for the statement that the Russian government has decided to cancel all German patents within the empire.

DEMOCRATS
CARRY MAINE

Portland, Me., Sept. 15.—The democratic victory in Maine's state election was measured by 8,587 votes, the plurality by which Governor Bailey C. Curtis of Portland, defeated Governor William T. Haines, Republican, for re-election, according to the unofficial returns from all but thirty-seven of the 921 cities and towns early today.

All four congressmen, three Republicans and one Democrat, were re-elected.

IS HERE AGAIN.

With his many friends about the city and province it would hardly be called an enjoyable summer without a visit from Joe McNamara of Boston, director of the big municipal gymnasium at Jamaica Plain. He has been coming to St. John on a vacation trip every summer for many years and on his arrival yesterday was again welcomed heartily.

WOULD LIKE A VISIT.

Residents in the vicinity of Fort Howe are desirous of a visit from the city dog catcher. They say that there are too many unchained dogs about the neighborhood. One night recently the locality was stirred by the continual loud barking of several dogs and it was found that four or five of them had been annoying a cow owned by one of the residents.

VISITING RUNNER.

A visitor to the city is Wm. McVicar of Boston, who has established quite a name for himself in athletic circles in the states, notably as a runner. He has won the one mile, five mile and ten mile championships of New England. He has been engaged as coach for the Olympic marathon runners from the United States this year. Mr. McVicar is the guest of Joseph Kieriva, of Spar Cove Road.

BUSINESS SLANTS
CAUSED BY THE WAR

Interesting Communications Which Reach Local Firm

The different effect which the war has on different lines of business is illustrated by announcements being received by local merchants these days. In one mail a business man received communications of this nature from three Canadian firms. One announced that the war would have no effect on the prices of the goods they manufacture; another, feeling the effects of the loss of supplies which cannot be secured from Germany, announces an increase in prices; the third, dealing in articles which may be classed as luxuries and for which the demand may be lessened, offers a substantial discount off the regular prices.

In the same mail he received a letter from a British manufacturer urging the adoption of their line in place of goods made in Germany, and another from a company in the United States urging their lines as a substitute for those formerly secured from Germany.

While the Canadian business houses are pushing the lines they already handle there has not been much evidence yet that they are trying to secure new business to secure the trade which Germany has lost to British and American firms are already active in campaigns of this kind.

MONCTON BRIDE; THE
6 O'CLOCK FROM ST. JOHN

Miss E. Madge Belyea and Wm. F. Mackin Married Today

Many friends in this city will be interested in a pretty nuptial event which took place this morning in St. Bernard's church in Moncton, when Miss Madge Belyea, now of that city, became the bride of William F. Mackin of the local post office. Rev. E. Savage performed the ceremony at nuptial mass in the presence of a large number of friends with whom the bride and groom are very popular. Miss Belyea, who was given away by her brother, Holly Belyea, was prettily attired in white crepe de chene and satin dress with ribbon train, and wore a veil with orange blossoms. She carried a white prayer book. Her sister, Miss Marie Belyea, as bridesmaid was nicely dressed in pale blue chiffon over crepe de chene with black picture hat, and carried a shower bouquet of pink roses. Wm. A. Flaherty of St. John was the best man.

Following the wedding luncheon was served at the bride's home, after which Mr. and Mrs. Mackin left on a honeymoon trip to Boston and neighboring cities. The bride's travelling dress was of tailored grey with black velvet hat. On their return they will make their home at 48 Douglas avenue, North End.

Many handsome and useful wedding remembrances were received, including a valuable piece of furniture from some intimate friends of the groom in I. L. & B. Society. His associates in the St. John post office, by whom he is most highly esteemed, presented to him a purse well filled with gold. The bride was formerly in the employ of J. M. MacIntosh & Co., stock brokers, in this city, and both she and Mr. Mackin enjoy the best wishes of many friends for future happiness.

HOME RULE

London, Sept. 15.—Lord Crewe in the House of Lords today, pledged the government to introduce an amending bill to give effect to the home rule before the coming session.

The conservatives held a meeting at the Carlton Club and decided to accept the government's programme from patriotic motives.

The principal reason that the liberals desire to have the home rule measure pass is that it will encourage recruiting in the south of Ireland. Eight thousand Ulster volunteers have joined Earl Kitchener's army.

At a Unionist meeting yesterday, Bonar Law declared that, however bitter the Ulster resentment might be, they had to remember that counting name before party and that nothing the government had done would change in any respect their action with regard to the war and everything connected with the war.

When the war was over, however, Ulster could depend upon the support in whatever form the Ulstermen thought necessary to maintain their rights.

IS AT VALCARTIER
 Harold W. Cunningham, a former St. John boy, who has been with the Bank of Nova Scotia in Quebec city, is now in Valcartier, the Canadian contingent. Mr. Cunningham, who is a son of Mr. and Mrs. S. A. Cunningham, City Road, is with the 8th Royal Rifles.

BUYS FINE PROPERTY
 J. A. Barry has purchased from Mrs. Emily, widow of Benjamin Appley, her property in Dufferin Row, West St. John, near the Church of the Assumption. The property includes a lot 100 by 200 feet with comfortable and commodious self-contained house, barns, etc. Mr. Barry has bought the place for his own use and will move in within the next week or two.

THE DIRECT
Route To Sales

When a National manufacturer advertises, he wants to sell goods. He expects to sell them over the counter of the retailer—who either buys directly from him or through the jobber.

But the manufacturer wants to centre the demand into the stores he wants to move the goods from the dealer's shelves.

When he uses the newspapers in the dealer's own town, he goes straight to the point of attack without using any highways or byways.

He creates the demand and sends customers to the dealers who have his goods.

He also gains the good will of these dealers. The latter are anxious for sales and are naturally quite ready to co-operate with the manufacturer who makes business for them.
