

Ladies!

WHICH appeals to you more? A trash backed by a bond of good faith, or a mere claim?

Judge this: REGAL Flour yields the best quality and the utmost quantity of bread per barrel of any flour in the world. Costs a bit more but you save on the quantity it bakes. Lovely loaves, white and light. Fine flaky pastry too.

Essential points: Try one barrel. If we have not here signed our name to the truth, your dealer will return your money. Then we must pay him. And worse still, we shall lose your good opinion forever. Remember—Regal—the flour that is used exclusively by many of the best bakers in the provinces.

Beauty Patches on the Rage This Year

THE girl of today does not consider her toilet as complete until she has had her complexion checked or smoothed with a beauty patch.

This is just what her great-grandmother did in the colonial days, but I imagine this fair ancestress looked, if possible, more bewitching, as the powdered hair of that period afforded a striking

contrast to the ashy black patches scattered hither and thither over face and dipping shoulders. Are you a beauty patch girl? If not, why not? Not to be the owner of these ugly beauty patches that you are away behind the door to the drug store generally, is to invest in a whole boxful of these soul-destroying patches.

Daily Hints For the Cook

EGG FLIP.

Break an egg into a glass, add 1 tablespoon of lemon juice or 2 of sherry, 1 teaspoon sugar, pinch of salt and 1 of nutmeg. Beat well with eggbeater and fill the glass with carbonated or cold water.

BOILED SALMON.

Have ready kettles with enough boiling water to cover the fish. Pour on fish and then drain. Put salmon then in cold water and let come to a boil slowly. Simmer gently till done, 15 minutes to each pound. Throw in one tablespoon salt just before it is done. Serve with plain drawn butter.

TO COOK EGGS

Eggs should not be boiled, but put in cold water and allowed to heat gradually, or else dropped into boiling water and then removed from the fire in easy way is to put them into a bowl of boiling water, allowing a cupful for each egg and one for the bowl. Let them stand for at least five minutes. Cooked in this manner they closely resemble poached eggs.

SIXTEEN YEAR OLD GIRL NOW PLEADS GUILTY TO ATTEMPTED MURDER

Lowell Child Will Be Examined as to Her Mental Condition—Put Poison in Coffee

Boston, Nov. 15.—Gladous St. Dennis, a sixteen-year-old Lowell girl, charged with attempting to murder her uncle and aunt, Fred M. and Bertha M. Jordan, by administering poison, was arraigned in the Middlesex County Superior Criminal Court at East Cambridge, and after pleading not guilty changed her plea to that of guilty. The court decided, after hearing five witnesses, to appoint two alienists to examine the defendant as to her mental condition.

WOMEN FOR WAR

Compulsory Service Advocated by German Professor

Berlin, Nov. 15.—Compulsory military service for German women is the remedy suggested by Professor Witten, of Danzig, in order to safeguard the health of the army when engaged in active service. Every woman should, in his opinion, undergo a thorough course of training in Red Cross work, needlework, and field cooking; then, in the event of war, the feminine forces could be quickly mobilized and dispatched to the scene of operation with the regular army. The women's army would be officered by members of their own sex, and while on active service would receive wages in accordance with the duties performed.

PROGRESS ON THE CAPE COD CANAL WORK

One End of Great Waterway Practically is Finished

Buzzards Bay, Nov. 15.—Having finished the task of deepening the main ship channel in the bay here, the approach to the Cape Cod Canal, the big dredge Governor Warfield will now begin the work in the last section of the canal to be dug. The dredge is one of the two mammoth digging machines that were built along the line of the waterway during the last year, and since it has become "limbered up" has been excavating the material in a rapid manner.

Work on the great sea wall on the Cape Cod Bay end of the canal is still in progress, the weather having favored the contractors during the season as never before since the task was begun, over three years ago.

WOMEN POLICE HOLD MEETING. Women police officers of the Pacific Coast met in convention at Portland, Ore. a few days ago, and discussed road house, dance halls, "joy rides," and other hives which beset young girls. The delegates also considered the advisability of having the general public from courts where female delinquents are on trial, and of municipal provision for homeless girls. This is the first convention of women police officers held in the United States, and probably the first in the world.

FROZEN ALIVE AND THEN RESTORED TO LIFE

Remarkable Results of Experiments by Professor in Moscow

Moscow, Nov. 15.—Professor Bakhmeteff of Moscow University, has proved that animals may be frozen alive and then resuscitated without the slightest harm, according to an article by Professor Kalin in the "Russkoff Store." The first experiments were made with cold-blooded animals and insects. Butterflies were enclosed in a vessel containing air at a temperature of minus 23 deg. cent. The body fluids immediately froze, and all vital activities ceased, and, in ordinary phraseology, the butterflies were "frozen to death."

HAIR HEALTH

If You Have Scalp or Hair Trouble Take Advantage of This Offer

We could not afford to so strongly endorse Rexall "38" Hair Tonic and continue to sell it as an ordinary hair tonic, unless we were sure that it would give entire satisfaction to the users, they would lose faith in us and our statements, and in consequence our business prestige would suffer. We assure you that if your hair is beginning to unhealthily fall out, or if you have any scalp trouble, a box of Rexall "38" Hair Tonic is without question the best remedy we know of to eradicate dandruff, stimulate hair growth and prevent premature baldness.

“Worked Like a Miracle on Stomach and Nerves”

writes Mr. Martin Wohlschies. Before he started using Duffy's Pure Malt Whiskey his stomach was all out of order and his nerves shattered, troubles that were quickly checked by this valuable medicine.

Duffy's Pure Malt Whiskey

WHAT IT IS—WHAT IT DOES

It is an absolutely pure distillation of clean, selected grain thoroughly malted. It is a predigested liquid food in the form of a medicinal whiskey; its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

By assisting digestion and assimilation, it enables you to get from the food you eat all the nourishment it contains. It builds up the nerve tissues, tones up the heart, gives power to the brain, strength and elasticity to the muscles and richness to the blood. For stomach troubles, nervousness, typhoid, malaria, diseases of the throat and lungs it is wonderfully effective.

ROLLS OF GOLD WERE HIDDEN IN PIANO

Woman's Hoarded Wealth Found by Policemen and it Totals Half Million

(St. Petersburg Correspondence, London Standard).

The authorities of St. Petersburg are at present engaged in distributing the sum of £100,000 which has just been bequeathed to a number of churches and monasteries in somewhat singular circumstances.

The number of religious establishments that are to benefit by the legacy is said to be somewhat in excess of 200, and as the will is not a little complicated in the proceedings are likely to last some time.

The money was accumulated by an old woman, who had all the characteristics of a personage in Dickens or Balzac. Mme. Kolobova was thought to have died a pauper, and indeed was buried as such, but subsequently it fell to the duty of the police to search her rooms, as there was talk of a fabulous hoard said to be hidden in the piano.

At first the police found small traces of any wealth beyond a quantity of furs of some value, but which for the greater part had been irreparably damaged by moth. For the rest the rooms seemed to have served for nothing but a store house for old newspapers and for piles of rags.

On beginning to make a clearance, however, they soon discovered that what they had thought was a fairy tale was really more than true. In almost every nook and cranny they came across packets all the contents of which were hidden in the piano, an old and worthless instrument, they discovered quite a number of rolls of gold.

In consequence of their discovery they decided to question the servant girl who had nursed the old woman in her last hours, and ultimately, with the help of others who long ago had had some acquaintance with the reclus, they were able to piece together something of her history.

Ten or twelve years ago the reclus had her sister living with her, and at that time, although something of a "peculiar person," was by no means remarkable in her habits. Every Sunday she would receive countless priests, boggers, and Sisters of the Poor, and would have some money to give to each. Since the death of the sister, however, her door has been closed to all strangers, and only her servant and her landlady ever set eyes on her.

It is said that during all this time, and for several years before, she made it a rule never to open the windows. She prided herself that she never washed, and never paid for heating purposes. All the heat that she required she got from the gas lamps in her room, but in the winter she would sometimes move into the kitchen (employing her servant and placing her for the time being in her own room, despite the cold), and these were the only occasions on which she had a fire in the kitchen stove.

As a rule she prepared her food herself with the aid of a lamp placed on the piano, and in her very last days she threw the unaccounted fragments into the piano case. Every door was decorated with an assemblage of bolts and bars, so that the house was more like a prison than a dwelling place, but as these things were not enough, the miser had fixed up a double series of alarm bells on each door.

BETTER ASK MR. HAZEN

The Standard this morning tries to clear up the question about the alleged desire of the Grand Trunk Pacific to abandon its eastern section by printing as an editorial (with some slight changes) a recent Ottawa despatch to the Montreal Star. This is how it appeared in the Star:

"Between the commission and the Grand Trunk Pacific negotiations are still in progress respecting the lease of the Winnipeg Superior Junction section. The service there is now being operated by the Grand Trunk Pacific Company as contractors. The government wishes the company to exercise its right of lease, but so far it has failed to do so. Should the negoti- ations fall through, it is assumed that the government will operate this, as well as the other sections, until such time as the different divisions are linked up. The company does not wish to finally take over any one section till the whole is completed."

"This is how it appears in the Standard as an editorial:—"Negotiations are now in progress between the Transcontinental Commission and the company respecting the lease of the Winnipeg-Superior Junction section. The service on this section is now being operated by the Grand Trunk Pacific Company as contractors. The government wishes the company to exercise its right of lease, but so far it has failed to do so. Should the negoti- ations fall through, it is believed that the government would operate this section as well as the other sections, until such time as the different divisions are linked up. The company is taking the ground that it does not want to finally take over a part of the line until the whole of the eastern section is completed."

The Standard adds the assurance on its own account that the rights of St. John and Halifax will be protected by Mr. Borden.

A word from Mr. Hazen would, as the Times observed yesterday, be much more to the point. He knows more about it than the Montreal Star or the Standard.

MR. BORDEN'S CHOICE Mr. Armand Lavergne, the man who was offered a place in the Borden cabinet, was one of the speakers at a Nationalist meeting in Hochelaga last night. He denied that Canada owed a naval contribution to the mother country. In his view Canada owed very little to England, for he said the latter had at various times sacrificed Maine, Vermont, Michigan, Ohio, and the Alaskan ports. She also took the wrong side in the civil war. Also she always thought of her own affairs first, and Canada should do the same.

These, he noted, are the views of Mr. Armand Lavergne, who says he was invited to join the Borden cabinet, but declined to do so. Three of his friends, who share his views, did go into the cabinet, and Messrs. Nantel and Pelletier are there yet. They are good enough imperialists for Mr. Borden. But there must be many Conservatives who are ashamed of the alliance with the Anti-British party in Quebec, when the professed policy of the party is pro-British to an extreme. Yet they cannot very well denounce Mr. Lavergne, for there are still sitting around the table with Mr. Borden the friends of Lavergne, Messrs. Nantel and Pelletier.

IN NEW ZEALAND We are apt to picture New Zealand, as the land of advanced social experiments, as a happy and contented, and perhaps it is; but there are drawbacks, even in New Zealand. A Royal Commission on the Cost of Living was busy this year, and recently submitted its report. One of its findings was that highly protected industries had increased the cost of living to 68 per cent of the population, and that the duties on the necessities of life should be abolished. If assistance were to be given the Commission favored bounties to help any useful industry into active being. It therefore recommended the abolition of duties on all food stuffs and the most important commodities used by the primary producers, or, failing that, a reduction in all the duties. The Commission also urged the adoption of such a land policy as would break down land monopoly in town and country, which means taxation of land values on a larger and more general scale. Of general conditions the Commission said:—"In the opinion of your Commissioners New Zealand is an under-populated country. We have vast areas of valuable land lying idle and unproductive. The lands which are already in occupation are not producing all that is possible for them to produce. We have mineral resources only partially developed, and many of our manufacturing industries are hampered and checked in their growth from want of workers. This want appears to be growing more acute every day, and the evidence tendered on this point by your Commissioners was most convincing."

The Commission also urged a more active immigration policy, and an Auckland paper which is devoted to the single tax policy makes the following comment:—"It is not rather wonderful that our population has not declined? In my opinion it speaks exceedingly well for these islands that there has not been a considerable and very serious decline. Land rents, the selling prices of land, and the prices of commodities are so high that many immigrants are not disposed to set foot here. Not only is this true of many

immigrants, but it is also true of numbers of young people born in New Zealand. So far as land is concerned, Canada, Australia, and other parts of the world offer greater attractions, and as this becomes better known, emigration from the older countries to New Zealand will diminish year by year. Emigrants with their eyes open are not likely to go to countries where taxation is high and everything is very dear. Most of the men who came here in recent years from Europe did not know the true state of affairs in New Zealand, or they would have tried their luck in the best part of the American continent. We have not a few amongst us now who would at once do the same were it not that they are, for the present, prisoners of poverty."

Making all due allowance for the pessimistic outlook of the advocate of the single tax, it is still evident that conditions in New Zealand are not so much better than those elsewhere, and there are still grave economic problems to be solved. Protection, it will be observed, is not a panacea in that commonwealth.

FORCE OF LAW NEEDED The press of this city in the regular course of news-giving tells from time to time stories of neglected and unhappy children, whose parents apparently have no sense of responsibility and disregard the most friendly and urgent appeals to them to do their duty to their little ones. No doubt, if the person who went to them were backed by the authority of law there are many cases in which the warning given would be heeded, and more care would be devoted to the welfare of the children. But there are other cases, and one especially was brought to the attention of the Associated Charities Wednesday where there is no hope that parental care of the children a fair start in life will be exercised. In such a case the law should intervene and find other homes for the little ones. Such action cannot be taken without a Child's Protection Act, and there is therefore the more need that the effort to secure the passage of such an act should receive universal support. While public attention is only now and then directed to special cases, there are very many others, and such a law is greatly needed. Mr. J. King Kelley has expressed the belief that there would be one hundred and fifty such cases to deal with the first year. We know that the Ottawa Children's Aid Society now has three hundred children in its care, in new homes, and is constantly finding more. It is easy to say that the parents are responsible and should do their duty, and that the whole affair is none of our business; but that is hardly the right attitude in a Christian community. Moreover, it is our business, since society as a whole suffers from any increase in the defective, criminal or mendicant portion of the community.

The ravages of disease among the Turkish soldiers bid fair to be as terrible as those of battle. Jack Johnson is out on bail. He should be very thankful, and the public extremely sorry. More wheat has been marketed at Winnipeg to date this season than to the same date last year. President-elect Wilson will call a special session in April to revise the tariff. It is to be a revision downward. He is pledged to that course. More than three hundred thousand immigrants have arrived in Canada in the last seven months. Compare the number with the total population of New Brunswick. The following paragraph suggests a way of keeping boys out of mischief:—"A settlement worker in New York has had success teaching boys how to make articles of furniture out of old packing boxes. The boys have done well, making such things as tables, chairs, washstands and cribs."

The Standard quotes a "recent" Ottawa despatch which says:—"There have been persistent rumors that the Grand Trunk Pacific would abandon the eastern section entirely, but no intimation to that effect has been sent to Ottawa, and official denials have been issued in Montreal." A word from Mr. Hazen would be much more satisfactory at this time.

The lady who has charge of an anti-tuberculosis exhibit in Bangor said in an interview with the Commercial:—"Fresh air as the means of a cure for tuberculosis is no mere fad, and it is recognized by every authority for its wonderful effect in preventing the disease. A case of tuberculosis was never known to develop in a person who, from childhood up, had lived and slept in the open air. One having active tuberculosis should not attempt to apply the open air treatment himself without the constant supervision of a physician. It's best effect is in the prevention of the disease and if people would only come to recognize the value of fresh, pure air there would be a great deal less tuberculosis to fight."

While New York City showed a net gain in native population of 5,734 in August last, according to the bulletin of the State Department of Health, the rest of the state gained only 2,227.

MORNING LOCALS The Tourist Association received a letter this week from William Cox of Belfast, asking for information regarding the whereabouts of his brother, Joseph, supposed to be located in St. John. In the police court yesterday afternoon James Watson and Michael Walsh, charged with fighting together in Union street, West End, were allowed to go on suspended sentence. Walter Walsh was honorably acquitted. A very enjoyable concert was given in the schoolroom of the Leinster street Baptist church last night. Rev. Wellington Camp presided. Those taking part were Miss Colwell, Miss Turner, Mrs. Perry, Mrs. Atkinson and the Imperial Orchestra under the leadership of Roy Robinson. The committee of the Women's Canadian Club appointed to deal with the proposal to erect an electric sign bearing the word "Welcome" as a greeting to incoming immigrants, met last evening at the residence of Mrs. J. H. Frink. Suggestions were made to have the sign on Partridge Island, near the three lamps, in Capleton or other places and action was deferred until they had more definite information.

VERDICT OF JURY IN INQUIRY INTO DEATH OF BERNARD CRIBBS The coroner's jury, in their verdict last night, found that Bernard Cribbs met his death by falling through the elevator shaft of the Donkrell building, and that his death was due to the neglect of some unknown person leaving the door open. They find that the hall and stairways are insufficiently lighted and recommended that the doors on the first and second floors leading to the elevator shaft and the door in the first floor leading to the alley be kept locked. TO MECCA ON A PILGRIMAGE

Remunerative Business Found In This By British Vessels

HELPING THE POOR TO GO

The Spirit of Charity—The Scene on the Steamer—"Sea Drunk" a Frequent Lament to the Inspecting Officers

(London Standard).

Among the multitude of services which British merchant ships perform for a wide world, perhaps the least known is the important and remunerative pilgrim traffic between Malaya and Arabia, the busy season of which is now commencing. It will be news to most that such a trade exists. Nothing has been written about it. The ships carry no other passengers, and an opportunity to witness the events of a strange voyage in a big steamer laden with the folk of the east cannot be purchased. That, perhaps, is just as well, for the surgeon of such a pilgrim ship has been known to deal with plague, cholera, and smallpox among the passengers all in one voyage. But for the courage of such a voyage has its compensations. It offers a unique opportunity to the curious and sympathetic man to obtain glimpses of the obscure working in the dark mind of the romantic Malay.

The Koran is a book fairly well known to English readers, but the passage in it which sends so many tens of thousands annually on the adventurous journey to Mecca is not so well known: "Oh! Ye who believe discharge the duty of prayer. As fast is prescribed for you, so is the pilgrimage, for a pilgrimage to the temple in a service due to God for those who are able to journey thither." Of these principal duties enjoined to the devout Moslem the pilgrimage to Mecca is the culminating act of that personal merit by which alone the faithful qualify for admission to the highest joys of their celestial paradise. "To those who believe and do the things that are right, for them we have the opportunity and to neglect it is a mortal sin.

Javanese Pilgrims

Accordingly, from Turkey, Egypt, and many parts of Africa; from the Persian Gulf, India, and the Archipelago, a flock annually throngs of Mahometans who, as the month Dhul Hijji approaches, converge on their holy city, sacrificing the savings of a frugal lifetime, health, and even their very lives, in pious visitation to the spots rendered sacred by associations with the prophet of Allah. For the Turk the way is usually made easy by his wealth; the Malays and Javanese, however, are poorer, and amongst them the poor must be included the Javanese, gentle as sheep and often as delicate as infants. The delicacy, indeed, might induce them to omit altogether this service, but for the insistence of Arab agents, resident in the Dutch East Indies, who tend to keep the pilgrim spirit alive. One is told that a traveler may be induced to enter continuous service, which he would not otherwise undertake, for pilgrimage expenses, and he is not infrequently sold to a Javanese merchant. Also that sometimes a benefit society is formed from which certain fortunate, chosen by ballot, are annually sent; a species of raffle for a place in Paradise which should strongly recommend itself to the nation's gambling spirit of the Malay. Besides those actuated by pure religious zeal some act as deputies for a death-bed vow, or for one himself incapable; a few go as cooks or guides; some with merchandise; others again treat it as a penance to expiate some fault. A life of merriment, a slip from chastity, a matter of homicide may require counterbalancing by this accessory act of virtue. But whatever the reason, desire is carefully fostered until a pilgrimage is formally vowed and tickets are sold for the sea voyage.

Duty of Charity

With the ticket must be secured a passport from the government authority of his district, and means be shown beyond a minimum limit. If dependants are left at home these must be supported during his absence. But amongst a community to which almsgiving is an essential duty, and by which the pilgrim is regarded as an immaculate and certain interceder, a hajji can never more be allowed to want. Often, therefore, the entire household is sold up, and children, father, mother, and grandparents, set out together; many, alas! with little expectation of return, but satisfied that should they do so a livelihood at least is assured.

Articles of clothing, including the orthodox dress and shroud, are packed in strong boxes encased in rope netting for slinging on camel backs; some pots and pans are carried in the hands; rolls of rugs and mats depend from the back; a belt for money and small valuables is fastened round the waist, and a tin case containing ticket and passport slung from the shoulders. Heedless slippers or sandals and an umbrella are essential for scorching Arabian sun—on those occasions when naked infants and heels, with a bare shaven crown, are necessary items of ceremonial. Then on foot, by wagon, by boats of various kinds, steamers, praus, sampans, double or single outrigger canoes; by train or tramcar, a picturesque, motley crowd of adults, aged, and children, male and female, hale and infirm, wealthy and poor, the dwellers in towns and the almost wild man of the interior or outlying islands, wend their ways to the ports of Batavia and Padang to reach the vessel upon which the passage must be made.

"Sea Drunk"

Then they with their baggage are received on the ocean steamer, which becomes a pilgrim ship protected by various penalties, binding the owners and master to the government. At the last moment, tobacco, betelnut, fresh fruit, and vegetables, are laid in by the way-farers as special luxuries, and the vessel steams away upon her long journey, leaving the farewell cries, blessings, and prayers of assembled friends and sightseers to grow quickly fainter, until remains only

PLANS FOR GOOD ROADS

Plans for a vigorous good roads campaign were discussed by the executive of the St. John City and County Good Roads Association yesterday afternoon in the hall of the Grand Hotel. It was decided to endeavor to increase the membership of the local association and also to try and induce people in other parts of the province to organize for the campaign.

HERE! MEN OF MODERATE HAIR

At Mrs. Blank's reception I met a gentleman who fulfilled my ideal of a man in all but one particular. He had a good head, fine physique, perfect manners, was a most successful personality, and bore himself with the distinguished air of a gentleman. His linen was immaculate and his shoes were as soft as butter.

HAD RHEUMATISM IN ALL MY BONES

"Sometimes I could hardly walk!" 2 Boxes of Gin Pills Cured Me!

SUFFERED from Kidney Trouble for five long years. I also had Rheumatism in all my bones and muscles—could not sleep at night—sometimes could hardly walk. I was treated by some of our best physicians, but without relief. I lost over fifteen pounds, was very weak, and friends who had not seen me for some time, were astonished. One day, I met one of our leading hotel keepers, who had been cured by Gin Pills, and he advised me to try them, so I bought two boxes at my druggist's. Before I had used one box, I felt a big change for the better, and before the second box was gone, I was completely cured. I assure you I can hardly believe it for if I had known what I know now about Gin Pills, I would not have spent over one hundred dollars for nothing, when two boxes of Gin Pills cured me. Anyone suffering from Kidney Trouble or Rheumatism, should never be without Gin Pills. EUGENE QUENSEL, Chief City Circulation Agent, "Le Patrie" Montreal. 293

Drive your old enemy out of your system. Be free of pain. Be able to walk and work and enjoy life. Away with pain in the back, Rheumatism, and Kidney Trouble. Take Gin Pills. A few boxes now, will mean ease and comfort for the rest of the year. Remember, Gin Pills are sold on a positive guarantee to give satisfaction or your money refunded. 50c a box, \$1 for \$2.50. You may try them before you buy them. Sample free if you write the National Drug and Chemical Co. of Canada, Limited, Toronto.

The excavations which have been in progress in Bridge street for some time have wrought a considerable change in the topographical lay of that section of Indiantown. People who have not visited the place for even a month would be greatly surprised at the change which has taken place about the lower end of the street towards Marble Cove, for the onslaughts of the crew of men employed, with their drills, dynamite and other factors in the work of removal, have been responsible in making away with a considerable portion of the hill facing the river and consisting of solid beds of rock. More is yet to be taken, and the work will probably continue through the winter should weather conditions not prevent.

On fine days about twenty-five or thirty men have been employed in the work, and been busy with the steam-drill, shovel, barrow, or otherwise engaged in the task of bringing the hill to the street level many yards below. The rock thus quarried is used for purposes of construction in Carlton, being carried by derricks in scoops near at hand and conveyed across the water.

When the job is finished, and that will be when the contractors are satisfied with the tremendous quantity of rock they have quarried from the hill, it is expected there will be provided splendid sites for warehouse purposes, or possibly for dwellings. The hill has covered quite an extent of ground, so that when it is levelled and all traces removed there will be a considerable stretch of level facing on the street. It will be valuable for warehousing because of the nearness to the boat landings.

The condition of the roadway in Main street, north side, from Paradise row up nearly to Fort Howe, is at present very bad. A few weeks ago there was considerable excavation work in progress there and the wooden block pavement was uprooted. The earth dug out from where the sewer construction was going on was put back in place again as soon as the work was finished, but the top was not recovered with blocks, presumably in view of the lateness of the season, and the possibility of something more substantial in the way of paving in the spring.

The heavy rains during the last day or so have made more noticeable the presence of the mud, and caused the road to become too soft for a street in which there is so much heavy hauling, particularly at this season of the year with fall freight being transported. With a day or two of dry, crisp, fall weather conditions would improve, and once the snow comes, it would matter little if there were a paved street or not, but at present the condition of the road is most unpleasant both to those walking and driving.

There is more trouble for the Tories in the neighborhood of the Narrows and Jerning. Two former adherents of the Conservative party active for years in the work, and who have a strong following about there, told a few facts yesterday when they came down river and evidently that Tory control is none too popular, and that the doing of the patronage controllers do not appeal strongly to the great many who have never voted the liberal ticket. They said that fully thirty had changed over recently, because of the matter of an appointment to the position of lightkeeper at Jerning.

The position, they said, had been faithfully attended to by George E. Nevers for three years, and on his death his son Fred had taken it for a while, and handled it to the satisfaction of all concerned. The Tory machine, however, allowed some wires to be pulled and because Wm. Sharpe, whose home is nearly two miles in the woods, away from the light, was a strong party man, he received the appointment. The usual idea connected with a light-house man is a little home near the shore, and it has been counted remarkable, that in order to hand out a boon to a party-beseler, it should be necessary to go into the woods to find a man to take charge of the light, when there were so many others nearer at hand, and when the job was being well attended to by another. But he was a Liberal!

In the rooms of St. Peter's Y. M. A. tomorrow afternoon what is expected to be a very interesting debate will take place when the question "Resolved that the 19th and 20th centuries have contributed more to science than the other" will be under discussion. J. McDonald will lead the affirmative and will be assisted by E. J. Doherty, Leo Dever and J. U. Haggerty, while the negative will be supported by R. Hansen, assisted by R. Cleary, Joseph Dever, and A. Howard.

Some prizes were drawn in connection with St. Peter's high tea last evening. The prize winners were as follows.—Ticket 2,002, photograph of Rev. Father Dicker; ticket 1,292, pickle dish; ticket 1,030, necktie holder, Mrs. Corr; 2 Brussels street; ticket 1,207, bird cage, R. TUNNEL ACROSS THE ENGLISH CHANNEL

Big Project Revived Once More In France

OBJECTIONS ANSWERED

Vegetarianism and Arterio Sclerosis—French Doctors Blocking the White Plague Fight—Fearful Close of the Life of a Braggart Murderer

(Times Special Correspondence). Paris, Nov. 16.—The estimate circulated in London and the progress of aviation has combined to give the project of a channel tunnel a new vigor...

The commission goes on to contend, further, that in the face of the estimate made between the two countries, opposition to the tunnel is childish and out of date...

Statistics show that cross-channel traffic increases by 50,000 passengers yearly. Consequently by the earliest date the tunnel could be ready, it might anticipate a clientele of nearly 1,000,000 passengers.

Arterio Sclerosis

At a pathological congress here, Professor Parrot of Nancy, showed that arterio sclerosis, which is the basis of the greatest functional troubles...

The thickening of the arterial coating is a grave condition which has to be guarded against. The flesh-eating germ is now established, with at least an equal certainty, that an exclusively vegetable diet can effect the same results.

Doctors Block White Plague Fight

There is an agitation at present in progress in France in favor of the compulsory notification of consumption, but the doctors are opposed to it.

would be crushing. "And what would all the expense achieve? The isolation of a few microbes. Surely the Academy of Medicine that one has to remind people that every day one of us swallows tuberculous bacilli by the myriads, with security, because there is no soil for their culture. If you are going, in this way to add to the cost of living, as you must, the burden of an extra expenditure of perhaps £200,000,000 you will prevent for these bacilli good ground indeed.

Murderer is Executed

A murderer named Bour has paid the extreme penalty of a peculiarly heinous and brutal crime on the guillotine at May 14 last. Bour, finding himself without money, went to the house where his mother lived, in the Rue de Charonne, and terminated on theft. He found the door of Madame Schmitt, a laundress, open. He entered and began to rummage in the drawers. Surprised by the entrance of Madame Schmitt, he strangled the old woman...

On August 23 he appeared before the assize and was condemned to death, the jury being silent on the question of extenuating circumstances. His advocate, Michon, made a final effort to secure a reprieve for his client on Saturday last, when he was granted an interview by the president of the assize. In this, however, of the nature of the crime and the antecedents of the criminal, the head of the state decided that the law should take its course.

Asked if he had any last wish to communicate, he turned to the magistrate with a torrent of abuse. "I only regret one thing!" he shouted, "and that is that I did not kill you all, beginning with the man who arrested me!" Bour was then led away to the van which was to convey him to the place of execution.

Seeks Daughters For 16 Years and Finds Them

Brookfield, Nov. 16.—Mrs. Lucy A. Barnes has just found her two daughters after a separation of sixteen years. The children were placed in the care of the state when her first husband, Samuel B. Warwick, left her in 1896. She secured a divorce a few years later. Since her children were taken away she has searched everywhere for them. Her youngest daughter, Mary B. Warwick, is now twenty years old and is living in Canton, Ohio. The other daughter, Florence, is twenty-four, and her home is in Mathews, Ind. Mrs. Barnes expects her two daughters to make their home with her again.

Former Magistrate is Gunmen's Counsel

Between Sir Henry and his chancellor of the exchequer there was unreserved confidence, and on the failure of "C. B." health, Mr. Asquith deputized for him with a fine loyalty and a delicate consideration that deeply touched his chief.

Butterfly on the Wheel

A butterfly on the wheel, with a record of one year in both New York and London, was the attraction at the Opera House on next Friday and Saturday. The theme of the play is as follows: A young, pretty and neglected wife is thrust into the glare of publicity, through an unfortunate incident which shows the little girl indifferent, but not guilty of wrongdoing. Hence the plot centres in a divorce court.

ONE OF THE PRINCIPAL BUILDINGS OF CONSTANTINOPLE

THE PRIME MINISTER OF ENGLAND

Sketch of the Career of Hon. Mr. Asquith Whose Government is Passing Through Interesting Time

(Harry Jones in London Chronicle)

The prime minister was born at Morley, in the West Riding, on September 12, 1852. His looks belie the calendar, for in spite of whitened hair, his aspect, so alert and vigorous, is that of a man in the early fifties. It is Mr. Asquith's good fortune to enjoy at the same time the devotion of those who follow him and the unbounded respect of those to whom he is politically opposed.

Disinterested Aims

There has been no more honorable career in our public life than that of Mr. Asquith. At every stage of it—as a boy at the City of London School, as an undergraduate at Balliol under Dowry, as a practicing barrister, as a politician, as a minister—there is seen the improvement of a singularly noble, direct, and upright character.

A Butterfly on the Wheel

A butterfly on the wheel, with a record of one year in both New York and London, was the attraction at the Opera House on next Friday and Saturday. The theme of the play is as follows: A young, pretty and neglected wife is thrust into the glare of publicity, through an unfortunate incident which shows the little girl indifferent, but not guilty of wrongdoing.

How happy is he born and taught

That serveth not another's will? Whose armour is his honest thought, And simple truth his utmost skill!

to the working class, was destroyed by the House of Lords in 1903, and it was left to Mr. Chamberlain, in 1907, by his workmen's compensation act—accepted without demur by the House of Lords—to place on a proper footing the liability of an employer for accidents to those whom he employs.

DAVE, "BOY BROKER" SUING FOR PARDON

Said For Him He is Very Ill—Two of His Victims Sign the Petition

Boston, Nov. 16.—The pardon committee of the executive council is considering a petition for the pardon of Robert D. Davis, known as the "boy broker," whose financial operations finally caused his conviction. Davis has served about twenty months of his five years' sentence at Deer Island. Serious ill-health is the reason urged for his liberation at this time.

DIAMOND MERCHANT IS VICTIM OF MURDERER

Went on Hunting Trip Never to Return—One Arrest is Made

Antwerp, Nov. 16.—The mysterious murder of a diamond merchant is the cause of much speculation here. M. Provo, the murdered merchant, was last seen alive when he was leaving Antwerp in a motor car, accompanied by M. Gaston Vergents, a sportsman, and another man whose name is unknown.

Mr. Asquith of the honor that belongs to the originator of that noble measure. As prime minister, Mr. Asquith's magnificent work—including the successful passage of the parliament bill, with its restriction of the powers of the House of Lords—is too recent to need repetition.

SCOTLAND OF TODAY; A GENERATION AGO

He belongs to no particular school in the church, but his sympathies are with the broad churchmen. Much ecclesiastical patronage falls to a prime minister. To this phase of his duties Mr. Asquith devotes as much anxious care as did Mr. Gladstone. His appointments to bishoprics and deaneries have been unexceptionable.

Champion of Free Trade

This appreciation ought not to close without some allusion to Mr. Asquith's devotion to the cause of free trade. When Mr. Chamberlain, in 1903, and 1904, stumped the country in favor of the new protection, Mr. Asquith followed him from place to place, confuting the sophistries of tariff reform and setting forth the case for free trade with unanswerable force. Mr. Asquith is no fanatical champion of laissez-faire economics—his advanced views on many industrial and social questions would startle the old individualists. But freedom of trade and open ports he regards as vital to the national well-being. He believes, in his inmost soul that protection would be disastrous to our commercial and industrial interests, and that it would infallibly introduce discord into our now harmonious empire.

SOBRIETY'S STEADY PROGRESS

(Times Special Correspondence) London, Nov. 6.—Hector Macpherson, a newspaper writer, has written an article in which he contrasts the Scotland of today in the social, moral and spiritual aspects of its life with the Scotland of a generation ago. He notes improvement in the social habits of the people. "Intemperance still casts a shadow over the national life, but within the last generation the cause of sobriety has made steady progress." In this direction the influence of the church, Mr. Macpherson says, has been highly beneficial. Workingmen as a class are soberer and sturdier than formerly, and with the improved housing conditions which now obtain there is marked improvement in the social customs of the people. Tables of deaths are also more general.

PERSONAL AND SOCIAL NEWS OF THE WEEK IN ST. JOHN

This week will long be remembered as having been the gayest in the social history of St. John, also it will be recalled on account of the variety of the entertainments given which afforded everyone a choice in the selection of the amusement most delighted in. Lectures, music and the drama, ried with dinners, dances, weddings and receptions, in attracting society to the doors, behind which such functions were taking place, and it speaks volumes for the society women in our city, that at different hours, the same persons who attended the teas and dinners in fashionable drawing rooms, also attended the more substantial feasts of season, such as Mrs. Short's very interesting lecture on Tuesday afternoon before the Women's Canadian Club.

On Saturday evening last, Mrs. R. Cruikshank entertained informally at three tables of bridge, Mrs. Walker Harrison and Miss Clara Schofield being the prize winners. Those present were Mrs. Harold John Magee, Mrs. J. Bright Gault, Mrs. J. Lee Day, Mrs. W. A. Harrison, Mrs. Charles Bowditch, Mrs. F. S. White, Miss Clara Schofield, Miss Edith Skinner, Mrs. Bartie Hagan, Mrs. Arthur Bowman.

Miss Elizabeth Purinton is in Rochester (Mass.) the guest of her uncle, Mr. John Fennell.

Mrs. G. W. Y. Dibble, of Fredericton, spent a couple of days in St. John this week.

Mrs. Ralph Robertson, Mackinburg street, who spent a short time in Fredericton, the guest of Mrs. Thomas, has returned to St. John. She has received much social attention while in Fredericton.

The Edith Skinner entertained most enjoyably at tea on Tuesday afternoon, the table which was placed in the drawing room had needed guests for central decoration. Presiding over the tea and coffee were Mrs. Roland Skinner and Mrs. Roy Skinner, the former being assisted by her grey and white chiffon on which were touches of cerise, black picture hat with feathers, Roland Skinner wore a blue and pink shot silk with chiffon tunic, black hat, the feathers tipped with coral.

The hostess was assisted with the refreshments were Mrs. Percy Thomson, Mrs. H. B. Robinson, Mrs. Royden Thomson, Mrs. B. G. Walker, Mrs. Walter J. P. Chittie, Mrs. Charles Bowditch, Mrs. Fred Peters, Mrs. Pope Barnes, Mrs. F. S. White, Mrs. Frank Fairweather, Mrs. W. D. Foster, Mrs. Arthur Bowman, Mrs. Miss Alice L. Fairweather.

Mrs. H. A. Austin and Miss Edna Austin, who spent the winter at Lewiston, Me., returned to the city.

Mrs. James Dever was hostess on Wednesday afternoon at a very pleasant drawing room tea for her guests, Mrs. George McLeod, of Pictou (N. S.), who is at present the guest of her sister, Mrs. George F. Smith, Union street. Mrs. McLeod has many warm friends in St. John, who welcome her visits to her former place of residence. On Wednesday in the city.

Mrs. Kate Hagan left St. John for Ottawa, P. Q., on Friday last.

Wednesday Mrs. Dever in receiving her guests was handsomely gowned in black satin trimmed with real lace and jet. Mrs. McLeod wore black broadcloth and black and white tulle and marabout stole and muff. The handsome mahogany table was covered with a large centrepiece of Renaissance lace upon which was a cut glass vase holding scarlet geraniums, silver candelabra, holding wax candles with crimson shades, added a pretty touch of color to the other handsome table appointments.

Mrs. George Coster, in grey and white silk and black hat, presided at the table. Those who assisted with the refreshments were Mrs. Mabel Sidney Smith, Miss Bayard, Miss Winifred Belfer, Miss Mary MacLaren, Miss Laura Hasen. The guests included Mrs. McLeod, Lady Tilly, Mrs. McMillan, Mrs. Warner, Mrs. F. E. Barker, Mrs. Walker, Mrs. Kestor, Mrs. G. F. Smith, Mrs. L. R. Harrison, Mrs. C. H. WHY SHOULD NOT OLD PEOPLE RETAIN THEIR YOUTHFUL VIGOR

No Reason Why Men and Women of Sixty, Seventy and Eighty Should Not Be Well—The Secret of Happy Old Age

"Fruit-a-tives," The Famous Medicine Made of Fresh Fruit Juices, Again Proves Its Great Value in Curing Kidney Trouble

Old age pays the cost of living. Few men and women of fifty, sixty and seventy are free of Kidney Trouble. Hard work, mental strain and general debility, tell in the long run. And many men and women show they have Kidney Trouble by suffering with pain in the back, headache, rheumatism, scintilla, bladder disease.

To such people "Fruit-a-tives" has proved one of the wonders of the age—and the most remarkable discovery of the century in modern medical science. This fruit medicine has performed hundreds of cures where the sufferer had been told that the case was incurable.

Take, for instance, Mr. Geo. W. Barkley, a prosperous farmer and one of the leading citizens of Dundas County, Ontario. At seventy-six, he is the picture of health—with the vigorous actions and the sprightly step of a man of fifty.

Yet for twenty years, he suffered with Kidney Trouble. He took "Fruit-a-tives" and it cured him. CHESTERVILLE, ONT., JAN. 26th, 1911.

"For over twenty years I have been troubled with Kidney Disease, and the doctors told me they could do me no good, and said I would be a sufferer all the rest of my life. Nearly a year ago, I tried "Fruit-a-tives." I have been using them all the time since and am glad to say that I am cured. I give "Fruit-a-tives" the credit of doing what the doctors said was impossible."

GEO. W. BARKLEY. "Fruit-a-tives" is the only medicine in the world made of fruit, and is the only one that acts directly on the kidneys. It cures 50c a box, 6 for \$2.50, or trial size, 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

"77" FOR GRIP & COLDS

Everybody says that Colds hang on most tenaciously this fall, especially for so early in the season, before the bad weather sets in.

This is the best reason in the world for keeping the remedy at hand.

It is well known that Dr. Humphreys' "Seven-seven" taken at the first feeling of lassitude, the first chill or shiver, will break up a Cold without delay.

Don't wait till you begin to cough and sneeze or it may take longer.

A small vial of pleasant pellets fits the vest pocket. At your Druggist 25c. or mailed.

A BEAUTIFUL BABY

Gained Wonderfully After Being Put On A Well Known Food.

Mrs. E. Warner of 30 Wilmfrid Ave., Toronto, in writing about Neave's Food, says: "I have used Neave's Food for my baby and it has agreed when everything else failed. He has gained wonderfully since I started giving it to him."

Mr. A. J. Forgue, Labelle Street, Montreal, writes under date 13 Oct: "My little daughter, born Aug. 19th, likes Neave's Food very much. She is a bunch of fat."

Mrs. J. Fallon of Whitby, Ont., says "Neave's Food is the only food that has agreed with my little boy. He is bright and healthy and is fatter than I have seen him for some time."

DOCTORS ADVISE OPERATIONS

Saved by Lydia E. Pinkham's Vegetable Compound.

Swarthmore, Penn.—"For fifteen years I suffered untold agony, and for one period of nearly two years I had hemorrhages and the doctors told me I would have to undergo an operation, but I began taking Lydia E. Pinkham's Vegetable Compound and am in good health now. I am all over the place."

Come, Brace Up! It Cured Me and It Will Cure YOU

Why do you sit there depressed by gloomy thoughts, with that aching, outraged, haggard face, when there is within your grasp the means by which you can regain your vigor, energy, ambition and happiness. It is time for you to brace up, be a man, take an interest in the good things of life. Look at me! Wasn't I in the same condition as you? Now I am happy, full of strength and ready to tackle any obstacle. Yes, I, too, tried drugs, but they failed. Electricity will not cure me, and it will cure you. No weak man will ever regret a fair trial of this great Belt—it has brought health and strength to thousands in the past year. Here is one of the many men cured.

These Bridges, Aahod, Ont., says: "I have been greatly benefited by the Belt. I purchased from you some time ago. My heart is much better, and the rheumatism in my arm has all left. I feel improved in every respect. It has done all you claim for it. Thank you for the interest you have taken in my case."

Isn't this alone evidence enough to convince any man that we tell the truth? Here is another: James Hest, Beach Hill, N. S., writes: "I am glad to tell you that you Belt has proven good. I have never felt as strong and well in my life as I do now. The pains in my chest and back are gone, and I have gained fifteen pounds in weight. I can work every day, and do not feel the first symptoms of pain in my body. It is a pleasure to say that I have at last found a remedy that would cure me of my aches and pains."

Dr. McLaughlin's Electric Belt will make you strong. It will send the warm life blood circulating through your veins. You will feel the cheerful spark warm your frame; a bright dash will come to your eye, and a

doubt that my cure is permanent, as I have not felt rheumatism or catarrh, my principal ailments, since I got your Belt nearly three years ago. I recommend it at every opportunity, and will continue to do so as long as I live. I believe it has saved me a world of suffering. I am now 73 years of age, and hale and hearty, thanks to your Electric Belt."

It is easy to be cured my way. You put my Belt on when you go to bed; you feel a glowing warmth passing through your body, and the electric power gives you new life. When you wake up in the morning you feel bright, lively and vigorous, and you wonder where your pains and aches have gone. Our Belt has removed them, and they will never return. That's a better way than making a drug store of your stomach. And who ever saw anybody actually cured by drugs? I tell you drugs don't cure—and if you have tried them you know it. Nearly all my patients tried drugs first.

I have a book which every man should read. It tells facts that are of interest to every man who wants to remain young in vitality at any age. Call if you can; if you can't, send coupon for beautifully illustrated 84-page Price Book.

The Casting Way of CLARENCE Q. DOOBY

By HARRIS MERTON LYON

Copyright 1909 by HARRIS MERTON LYON

THERE are many infallible tests whereby you can gauge a man, and one way to spot him surely and mark him down is to observe his wife's pleasures. It was Mrs. Dooby's pleasure to sit for long hours looking out of a window.

Let us go back and start over. Mrs. Dooby had forsaken that pleasure. She no longer sat with passive eyes fixed upon a cabinet photograph of Clarence Q. Dooby, which leaned back peacefully in the garish clink of a gilded metal frame. She no longer allowed her steady gray-blue eyes to sweep across and beyond his picture, through the patch of windowed daylight and into the blind land of her dreams. Mrs. Dooby had, at one stroke, deprived herself of all these things. To put it bluntly—and that is the way it came upon Clarence Q.—Mrs. Dooby had fled.

First it was a tragedy; then it elongated itself into a bore; then it flattened itself into a Burslesque. I am not referring to the effect which Clarence Q. had upon Mrs. Dooby—though doubtless she ran the gamut of exactly that trio of sensations. I am speaking of the effect which the bereft husband had upon us at the office.

It was four days before Thanksgiving. The gentleman who gave advice to the lovers was on the city desk, while the regular city editor covered an honest political convention. He was arguing, with a short and peculiarly vicious pipe between his teeth. He was arguing with the chief of the engraving department... a mere mat-

ter of ornament. He objected to a star in the hair of a dark-eyed eighteen-year-old beauty, and wanted it removed; he wanted the picture, which the engraving department had lifted from a European magazine, should be placed at the top of his column and labeled "Miss Davenport, friend of the loved and beloved." The star, he supposed, was another of the engraving department's efforts to do the work of a viler name; and withdrew triumphant.

And it was then that Clarence Q. Dooby came over from his typewriter and asked Dixie if he was his friend. Dixie laid down his pipe, and, with a voice that was modulated out of a box expert's ease with smoky small loans, tentatively admitted that he was.

Dooby looked at him a moment intently. Then his chin gave in and he said: "Mike—that was Miss Davenport's real name—'Mike'—that was left me!" He fumbled with a paperweight for a moment, and then hurried out, desperately.

"Come on up to the house with me."

Mike got up and said: "Bore." "I, too, had nothing to do for two hours, and so I went along; and so this story came to be written. On the way up, Dooby was morose. His thoughts were monotonous. His words were a dreary, dull variation of the one theme: "Why has she gone?" "Why did she do it?" "Why has my poor little Emma left me?" "Oh, why?" "Why?" "Why?" And Dixie and I, out of respect for his grief, let him alone.

The rooms were tidy to a degree; neat as a bird's feathers. The rigid photograph of the striated man stuck firmly to its accustomed place; the center table was a shiny disk; the windows bounced and accurate; the sharp little clock sniped off the seconds with a clean, precise ticking... and yet somehow the small, cozy flat seemed strangely vacant. It was forelorn, as if recently the life had gone out of the air there and left it dead. The little husband looked around with a whisper in his throat. "She's gone," he quavered...

"Gone."

"That's the worst sight of a pair of her old shoes—the only neglected articles in the room—and this brought on a sobbing incoherence. 'Fellows, I don't stand it'—and he looked at me—'I tell you, I just can't. I'll kill myself... that's what I'll do.'"

Mike, my wife has left me."

I'll get a gun and kill myself." I stared at Dixie and he stared at me. "This will pass," our eyes said; and again we let him alone.

She had left no word, no traditional note pinned to the proverbial pillow. Mrs. Dooby had simply and unostentatiously gone. I wondered not why Mrs. Dooby had left—for I knew Dooby—but my wonder was why Dooby should kill himself. Great grief poisons our heads, I argued, and poisoned but the grief of Clarence Q. was not that sort of a grief.

However, we respected him for his evident sorrow and, man-fashion, we watched over him carefully, thinking swiftly of how to keep him away from revolvers.

"How long had you been married?" asked Dixie, sitting on the center table and picking up the rapid photograph.

A sob sounded like "Ten years." Dooby was twenty-eight.

"How old was—was your—your wife?" I suggested, with a glance out the window where Mrs. Dooby had so often sat.

Another sob crystallized into "Thirty."

We murmured vague words of consolation. "She was older than you?"

"Oh, yes. Two years older." Whereat I became much interested, for I like to know things about women who marry men younger than themselves. Their reasons are not always obvious. Sometimes, but seldom. A twenty-year-old Emma talking to husband an eighteen-year-old Clarence Q. presents subtleties. I intimated as much, only del-

anyway. She told me it was my temperament."

"Ten," said Dixie Mike, lighting a cigarette. "And did this go on for ten years?"

Dooby looked at us solemnly. "Ten years," he answered. Then he was a sudden and unlocked for remark: "And now she's gone off with another man."

This was not nice of him; but it was sincere. Measure it all up according to Clarence Q.'s standards, and that must have been her reason. But somehow I didn't think Mrs. Dooby had eloped with another partner. Somehow I fancied Mrs. Dooby had had enough of partners.

She would have been a good partner for a ten-year-old boy, and there would have been horse sense and much heart in the partnership. Now, mind you, I've seen Mrs. Dooby only twice, and all I saw then was a brow and a neat dress and a chin—and two eyes. But these things speak as a free speaker—she was the kind of woman that never would have talked talk-talk, anyway—and I think I heard the secret that they murmured. Ten years of Dooby had had enough of partners.

But humor in Dooby was as rare as forearm muscles in Dooby. He rambled a bit, giving us his precise journalistic ambitions: how he cultivated cleverness in editorial phraseology, how he turned over neat "paragraphs" in his head at breakfast (instead of talking home talk to his wife), how he piddled in politics. But it was thrilling for character, so I dragged the conversation back by the scruff of the neck.

He was getting ten dollars a week in a town of two thousand, and he wanted to quit going to school. (Clever editorials and political.) But he wouldn't hear of it. She used to sit and hold his hand in her lap and tell him to stick to it. She said she would "give him an education, if it broke her back." There was a good deal more of the same sort which it would have done a woman good to hear—or not to hear, just as you look at it. He was to be a great man, her great man.

He wrote three sonnets which, out of a possible hundred or thousand submitted, had been accepted by one of the great magazines in New York. The editor of this periodical was a fastidious somnolent himself. He wrote Dooby a letter saying that the three sonnets "approach" Keats in their "pagan wealth of imagery." Mrs. Dooby framed the letter. The verses were each given a full-page illustration when published. And Mrs. Dooby framed them. The other reporter-copy boy-editor-a hustler went around town saying Dooby got "fifty dollars apiece for his poetry." And Mrs. Dooby let him. As a matter of fact the price was eight dollars per sonnet, and Dooby wrote, thought, dreamed nothing but sonnets and abstruse rhymes schemes for six months, and talked of nothing but sonnets to his wife when he should have been talking her love.

She told him he was to thrill the world with his poems. "Keep studying; that's all you need to do. I'll stay out and work. Maybe I can go to summer school." Dooby explained that they held summer school at his university for the teachers who have to work all winter. Such students were scolded at—"summer paper" they were pretty called—by the lords of the long winter term.

Em did get a little more schooling the summer after Dooby—now studying the Greek Ode—30. When she came up for Commencement she rented his Commencement gown for him. Paid

three dollars and a half for it. Dooby was full of odes—the Pindaric, the classic Cowley, the elephant-trodden epodes of Ben Jonson—strophes, antistrophes, epodes. And Em had for them eighty-seven dollars and six cents in the bank. Tears came down her cheeks—so Clarence Q. affirmed, and we could believe it—when he received his diploma. Afterwards she confided to him that all the time the bacchantes speaker was saying those things about the graduates going out to conquer the world she just knew he was talking about her. "She always did think I was going to conquer the world. She said so time and time again after that. She was the only one I had to go for on encouragement. She cheered me up whenever I lost a job... somehow I was always losing my job. But—she—you know how a newspaper man drifts,

Dooby was lazy or finicky or trying. None of those. He was simply unsatisfactory when viewed in the light of a possible three-hundred-and-somewhere years. Dooby by made you blink when you thought of Mr. Brewington's "Grew old with me, the best is yet to be, the last of life for which the first is made." He was dreadfully important about the unimportant things; a busy little soul, like a cockroach in a glass bottle. Mrs. Dooby had tried; she had brook on the bottle, which only resulted in the consequent bewilderment of Clarence Q. So, carefully sweeping up the shards of glass, Mrs. Dooby had strolled away.

By the way, how she had broken that bottle might be of interest. It happened one morning at breakfast. They ate late. Dooby was seedy and weak and trembly. He had been drinking—not as a strong man drinks, with gusto, but with it-

standards during the corresponding period last year; about two-thirds to Manchester. Deliveries have been satisfactory, amounting to 10,140 standards, compared with 9,100 standards last year. Stocks are now within a very moderate compass, amounting to 18,500 standards, as compared with 27,800 standards at this time last year, and as the arrivals for the remainder of the season will undoubtedly be light, values have considerably improved, and it is anticipated a further advance will be established as stocks become further reduced.

"Discouragement a Big Evil. "Perhaps the most common of disease-inviting habits of thought is discouragement. I dare say we have all been on intimate terms with it one time or an-

other and while we have never found it cheerful company, we have not looked upon it as a sinister visitor. Yet that is just what Christian Science shows it to be.

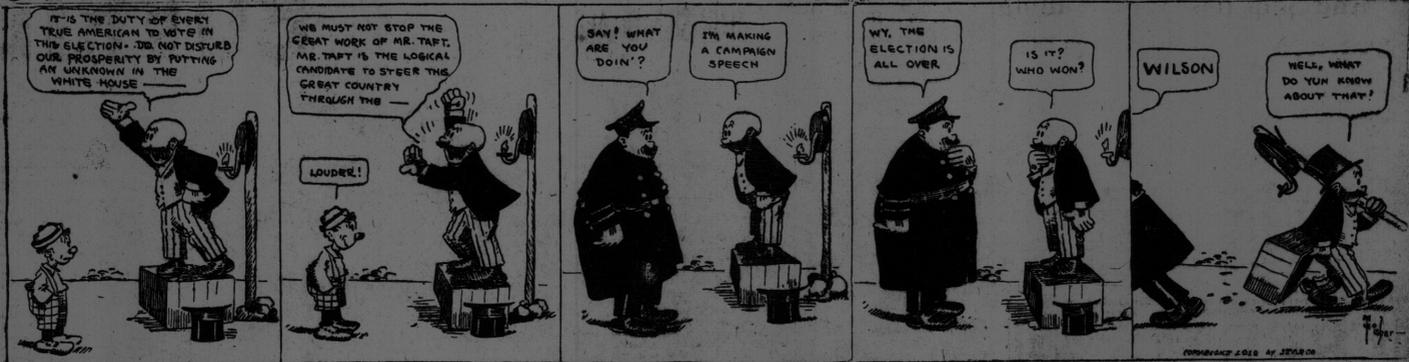

"Discouragement wears the inviolable livery of evil and is constantly and constantly working for its master. It is always pulling down and never building up.

"Did you ever know any one to accomplish anything worth while when in the grip of discouragement? It paralyzes effort, stifles thought and dissipates purpose."

"You will find lots of good things like above extract in Mr. Rathvon's lecture in the Opera House tomorrow, November 17, at 8 o'clock; and you will find the time well spent. Seats free and no collection."

WOMEN'S WORK IN THE PLAYGROUND MOVEMENT

By Joseph Lee

Women have had a great deal to do more than men, I think-with the starting and carrying on of playgrounds in this country. Our present playgrounds are the result of several strands of interest.

From this beginning the sand gardens, or playgrounds for small children, have spread all over the country and have been the most successful kind of playgrounds.

Some Pioneers in the Movement The women I should say have done as much as the men for the larger playgrounds.

Our belated attention to playgrounds for the bigger girls, and especially to folk dancing, has come, as was natural, almost wholly from the women-notably a committee of New York ladies-although Dr. Gulick has contributed valuable leadership in that direction.
