EXTRAORDINARY SCENE AT VATICAN

Some of Swiss Guards Join In The Marseillaise

THREE LEADERS EXPELLED

Four Others Leave and Twelve Want to go in October—Had Hoped That Cardinal Merry del Val Would Favor Demands

(Canadian Press) Rome, July 24—Throughout yesterday the Vatican was in a veritable state of siege. This was the outcome of the mutiny of the Swiss Guards, whose demands, in the form of a memorial relating their grievances and setting forth the conditions on which they would remain in the service, were rejected.

Three of the leaders in the movement were expelled from the Vatican. Four others left last night and twelve have requested leave to depart for their homes in October. Those who left were accompanied by the gates of the Vatican by comrades. At the moment of separation, they cried "Vive Garibaldi." Some of them joined in singing the Marseillaise. Never before was such a scene presented in front of the Vatican.

On Tuesday the guards were relieved of their cartridges, and yesterday evening their rifles were taken from them, but it was discovered that they had succeeded in concealing cartridges.

Count Cocceperio, commander of the gendarmes, has been ordered to hold his men in readiness for emergencies. They are in control of all exits and have instructions to prevent any of the guards from leaving the building without express permission, or from communicating with those outside. The entire neighborhood is patrolled by strong forces of police.

Serious trouble was expected when the guards were notified that all their claims had been rejected, and it had been arranged that any of the guards attempting a demonstration should be arrested by the papal gendarmes and turned over to the Italian police for transportation to the Swiss frontier.

When the reply to their memorial was read, the commander and other officers, armed with revolvers, stood ready to suppress any show of force.

A letter was also read from Cardinal Merry del Val, the papal secretary of state, strongly condemning the attitude of the guards. This was the last straw, as the guards had hoped that the cardinal would favor their side.

The cardinal's attitude was interpreted as a refusal to grant the guards' demands, and it was believed that the cardinal would favor their side.

Fine Liberal Rally Held in Summerside

Hon. F. B. Carvell Among the Speakers—Apparent Manipulation of Train Against Interests of the Liberals

(Special To Times) Charlottetown, P. E. I., July 24—That the fire of liberalism is burning brighter than ever in Prince county, is evident from the success of a big demonstration held in Summerside yesterday. At a meeting of the West Prince Association officers were elected and resolutions passed. These were along the lines of resolutions of the Georgetown meeting with even stronger criticism of the Borden and Matheson governments.

Special reference was made to the unwarranted increase of freight rates of the P. E. I. Railway. Prince county is the chief center of the oyster industry, and the policy of the local tory government is proving very obnoxious to the oyster fishermen whose interests the liberal association have resolved to protect.

At an evening meeting the large hall was crowded. The speakers were J. W. Richards, M.P. for the county; E. M. MacDonald, M.P.; F. B. Carvell, M.P.; A. B. Warburton, ex-M.P.; and F. J. Buote, editor of L'Impartiale, a French Acadian organ, made an excellent address.

Great indignation was aroused at the meeting when it was learned that one of the special trains carrying a week before and paid for had suddenly been cancelled by the railway department without any reason being given. It was not known till ten o'clock when it was too late for people to take an earlier train, consequently many were unable to reach their homes that night, as they had planned. This outrage against the liberals by a tory administration will not soon be forgotten.

Risk Lives at Niagara Brink to Save Little Dog

Niagara Falls, N. Y., July 24—Taking their lives in their hands, Reservation Constable Arthur Alexander and Frank Glasbro, a blackman, formed a human chain in the rapids ten feet above the American falls at six o'clock last night to rescue a fox terrier which fell into the river fifty feet below.

The rescue was accomplished at imminent risk of the lives of the two men, while 100 spectators looked on in terror. Glasbro lost his footing on the slippery river bottom and was nearly carried over the brink. When the animal was rescued ashore, a woman member of an auto party, in a car bearing a Michigan license, took the animal saying: "I'll take him back to Michigan as a souvenir."

OFF TO JOIN IN LAST HOURS OF THE CRUISE

R. K. Y. C. Members Who Could Not Take Whole Trip—Fleet at Gagetown Today

Some of the members of the Royal Kenebecus Yacht Club who were unable to go along with the fleet on the annual "Happy Days" cruise to Fredericton are planning on sailing to Sand Point on Saturday. A gala time is being anticipated. One of the local yachtsmen speaking to another long distance phone to Fredericton last night was told that the cruise had been one of the most enjoyable on record. It had been remarkably free from accidents and the weather had been very encouraging.

The yachtsmen at the capital said that the boys would leave there this morning and planned to make Upper Gagetown today. They were expected there tomorrow morning, and expected to drop anchor at Hampstead that night. The last stretch would be to Sand Point on Saturday, making the final leg to Millerville on Sunday. Plans for a programme of much social activity. There will be a brilliant illumination, several bonfires being lighted on Saturday night, a sing-song held, and a programme of dances carried out, while on Sunday the annual divine service will be conducted. It is expected that many boats from the St. John Power Boat Club will join the fleet at Sand Point for the week end.

ROYAL LOVERS AT STATE BALL

Prince Arthur and Duchess In Quadrille d'Honneur

PROCEDURE IS CHANGED

King and Queen Dispense With Strict Etiquette at Buckingham Function—A Great Display of Beautiful Dresses

(Canadian Press) New York, July 24—A cable from London this morning says: Special interest was lent to last night's state ball at Buckingham Palace, the last court function of the season, by the appearance of Prince Arthur of Connaught and the Duchess of Fife in the opening dance, a quadrille d'honneur.

It was assumed that the usual rule of procedure would be observed, and that the newly betrothed would not be seen dancing together until the later dances, but the king and queen decided to dispense with strict court etiquette in this respect and Prince Arthur and the Duchess found themselves allotted to each other in the stately dance. After the opening quadrille, the king, the queen and the royal family became spectators in turn while the dancing was soon general.

Queen Mary wore a dress of pale blue silk brocade, with corsage and centre panel skirt arranged with crystal and diamond hand embroidery, also crowned with pearls and diamonds. There was a great display of beautiful dresses.

Among those in the royal circle were the Princess Royal, Princess Maud, Princess Victoria, the Duke of Connaught, Princess Beatrice, Prince Henry of Battenburg, the Duchess of Albany with Princess Louise of Wied, Princess Alexander of Teck, Princess Marie Louise of Schleswig-Holstein, the Duke and Duchess of Teck and Admiral Prince Louis of Battenburg with Princess Louise of Battenburg.

FAIL TO BRING METHODISTS AND ANGLICANS INTO UNION London, July 24—Another attempt which ended disastrously was made at the Plymouth conference yesterday to bring about the fusion of Methodists and Anglicans. "A reaction must soon set in," he said, referring to the present monetary depression, "and when recovery takes place, I believe it will be as rapid as was the fall in prices. It might be probable that investors' attention will turn itself once more to home securities, which now yield such tempting returns."

NICKEL'S TRIO IN NEW NUMBERS TODAY
The Metropolitan Trio, which is creating such a furor of pleasure at the Nickel with their entrancing recitals, will have a complete new programme today and for the remainder of the week, as follows:—
(1) "The Rosary"—(Nevin)—Harmonized.
(2) "Last Night Was the End of the World"—(Von Tilzer).
(3) "Tenor Solo"—"Hear You Calling Me"—Mr. Fitzgibbon.
(4) Soprano Solo—"Arcadia"—Miss Lee.
(5) Finale by Trio—"Love Me While the Lovin's Good."
In addition to this fine list of mixed selections, Mr. Fitzgibbon will sing a special number in the afternoon, "The Indian Desert Song" by Amy Fadden. These vocalists are creating a great deal of the most favorable comment, and as this is their only week it is safe to assume the crowds will continue.

RECENT DEATHS

Professor L. W. Titus
Great regret will be felt by many friends learning of the death of Professor L. W. Titus, which occurred early this morning at his home in Padlock street. He was about 68 years of age, and is survived by his wife, one daughter, Miss Dorothy, two sons, Harry and Alvin, and four brothers and two sisters. Professor Titus will be sincerely mourned and his death will be a loss to musical circles about the city. He was a popular singer as well as singer, and has trained some of the leading singers in the city.

Toric Lenses

The superiority of these lenses lies in the deep curve of the lenses toward the eye. This deep curve allows the edges of the lenses to come close to the face while the centre bends away, thus preventing the lashes striking, and allowing a much larger field of vision than in the old style flat lenses.

We have made a specialty of designing and manufacturing Torics for a number of years. The skill and knowledge of how to make the most effective styles which comes from long experience is all at your service. If you think of getting new lenses let us make you a pair of Torics. You will realize a greater degree of comfort from them than you had thought possible in any glasses.

THRILLING FEATURE AT THE GEM THEATRE

"Wamba, Child of the Jungle," in Two Reels, Proves Strong Attraction—A. P. Cameron, Vocalist and Comedian, Wins Popular Favor

A thrilling two part Selig story, "Wamba, Child of the Jungle," was the feature offering at the Gem Theatre yesterday, and it gave immense pleasure to the patrons who saw it. The scenes were laid in the heart of an African forest and the adventures enacted with wild beasts playing important roles, as well as the lighter sides when love and romance were prominent factors, were greatly enjoyed. This feature is being given again today.

SEVENTEEN OFFICERS SAVE PRIVATE'S LIFE

Berlin, July 24—Bavarian army officers at Wurzburg, have shown commendable self-sacrifice in an effort to save the life of Hermann Frankfurter, a private in the Eleventh Bavarian Field Artillery Regiment.

Frankfurter's blood became affected, and the transfusion of blood from a healthy person was recognized as the only way of saving his life. Seventeen officers of the regiment, ranging from major down to lieutenant, volunteered to supply the blood, and Lieutenant Dittmar was selected as the first to volunteer in the transfusion.

ARCHDEACON FORSYTH FORTY YEARS AS RECTOR

Chatham Commercial—On Sunday, July 7, Ven. Archdeacon Forsyth celebrated the fortieth anniversary of the beginning of his pastorate in the parish of Chatham. This parish, it is said, is unique in the history of the Anglican church in Canada, in that it has had only three rectors, in almost a century. The late Rev. Samuel Bacon was priest in charge from 1821-49; the late Rev. W. S. Neales from 1869-72; and Archdeacon Forsyth from 1878 to the present time.

STIRRING RUNAWAY BUT NO DAMAGE IS DONE

Nearly a Dash Into Plate Glass Front and a Gallop Through Warehouse Part of Programme

An exciting runaway occurred in the North End this morning, when a horse owned by John McNutt of Bridge street, and which had been recently brought from the country, became alarmed by the tumult of the city streets and, darting down Victoria street, dragging a dump cart, dashed round the corner of Bridge street and sped towards Main, crossing which the animal made right for a large plate glass window in the store of John McCann. Mr. McCann, who was standing near the window, stepped back, expecting to see the horse dash through the glass, but after coming up on the sidewalk and when within a foot of the window the animal suddenly swerved and passed the store door, on to Bridge street again. In doing so it came in contact with the wagon of the Fleischmann Yeast Co., tilting it to one side till it almost balanced itself on two side wheels, but it righted itself again while the horse galloped to the warehouse which it entered on two side wheels, and then dashed out through another door and was finally stopped by a young man on its way up Kennedy street hill.

After all no damage was done.

NOTHING HERE TO MAKE THE OUTLOOK BLUE

Stores Doing Bigger Cash Business Than Last Year and Wholesalers' Collections Better

The Times has interviewed several wholesale merchants this week concerning the condition of trade, and finds that there is by no means a feeling of despondency, but one of cheerfulness and confidence with regard to the general situation. Several wholesale merchants said that collections with them have been better this year than they were at this time last year. Trade is as large or larger than that of last year, and the conditions generally are sound.

There is so much heavy construction work in progress, and the industries are all so busy, that there is a great demand for labor, and the outlook for wages is very large.

The outlook for the crops is excellent, and there is no reason at all to anticipate dull times. The conditions in the eastern provinces are much more satisfactory than they are in the west.

It is quite true that a great deal of caution is displayed with regard to speculative enterprises, but so far as legitimate business is concerned, there does not appear to be a single weak spot in the situation.

So far as St. John is concerned, the stores are doing a larger cash business than they did last year, a fact that is explained by the great amount of work in progress, keeping labor fully employed, and involving more night work than was ever before carried on in the city in the summer season.

BLIND-PIGGERS IN NORTH ONTARIO MEET TROUBLE

Provincial Police go Digging For Liquor With Good Results

Cobalt, July 24.—The provincial police are making a determined clean-up of blind-piggers all over the north country at present. Getting word of this practice going on at Elk Lake, Inspector Rowell, Inspector Blackwell, and Constable Milligan drove out to a shack about a mile back in the bush from the town, for the purpose of making investigations. The first thing that struck them on their arrival was the enormous number of empty bottles and corks strewn around and they at once knew they had hit the right trail. A thorough search was made and a ten-gallon cask containing a mash of prunes, raisins, currants, etc., from which the liquor was evidently brewed, was discovered by Inspector Blackwell and Constable Milligan.

Meanwhile Inspector Rowell had been doing a little sleuthing on his own account and, noticing a patch of earth which looked as if it had been recently disturbed, he proceeded to poke about with a stick, with the result that he unearthed two bottles. A spade was next procured and in a few minutes the total number of bottles of liquor brought to light amounted to twelve.

Joe Para, the owner of the shack, was apprehended and sentenced to three months in North Bay jail.

H. Botarie, of Earleton, who has also been finding the illicit sale of liquor a profitable business, had to disgorge \$100 and the court charges from his ill-gotten gains for selling once too often.

Cobalt is also coming in for its share of the attention and it is probable that within the next few days Magistrate Atkinson will have a case or two to dispose of for the same class of offence. The local police also have not been idle and a teamster in town got a scare when a visit from Constable Sharp led to the confiscation of three cases of Scotch whiskey. No action was taken against him, however.

PAYS FOR HOME BY HER BERRY PICKING PROFITS

Skowhegan, July 24.—Paying for a home by picking wild berries is the feat performed by Mrs. Seth Davis, who for the last twenty-three years has been engaged in this industry successfully. Her major berry is the raspberry, and she averages about fifteen bushels of these profitable berries in a year. She picks about eight bushels of the field strawberries in a year, and many bushels of wild blackberries. Besides picking these she peddles them in Skowhegan.

She now owns a fine farm on the Canadian road and she remarked that she had paid for it by picking berries. She not only picks berries but she assists her husband in many ways about the farm. In the winter time, she will take a load of wood with a pair of horses, come to Skowhegan and find a market for it, unloading it herself.

Mrs. Davis is a cultured woman and is one of the most frequent patrons of the public library. She takes books from here and in her trips to and from the village she devours their contents. She believes that life is worth more to her by this outdoor life and work than it could be otherwise.

MORNING LOCALS

The Halifax express did not wait for the incoming Boston train, which was about an hour late last night and several passengers for points east of St. John were very indignant at the delay in the city over night, and also because they were not allowed to spend the night in the station.

H. G. Smith, of the West End, has sold his grocery business and will move to Florenceville, where he will engage in the lumber business.

A slight fire occurred last night near the furnace in the factory of Taylor & White in Elm street, but was discovered by Engineer Barlow and extinguished before any serious damage was done. Residents of Broad street and vicinity are opposed to the proposal of the common council to establish the projected incinerating plant in that neighborhood.

DRIVING ACCIDENT

Rev. C. J. Flemmington, of Gibson was driving over the highway bridge at Fredericton when an auto struck the front wheel of his carriage and frightened the horse. The animal started suddenly and Rev. Mr. Flemmington was thrown over the dashboard. He escaped without injury other than a few bruises, but was severely shaken up.

Imported leather hand bags, newest styles, are attracting many ladies to Wasson's sample sale.

SHOWS THE WAY TO MILLIONS BY THE PLANTING OF TREES

Sunab, N. H., July 24.—The planting of five million acres of New England land with timber would easily yield an annual revenue of \$10,000,000 and would produce all the timber required by the people of that section, said Dr. B. E. Fernow, dean of the forest school of the university of Toronto, in an address at a forestry conference yesterday.

He cited instances where intelligent forestry has increased land values from five to ten-fold in fifty years. For New England he recommended municipal enterprise in recovering waste lands, with state subvention, which he declared would be immensely profitable and effective in furnishing supplies.

In the United States there are 6,500 coal mines and about 6,000 metal mines which are producing and developing. There are nine copper refineries and 45 smelters. There are 28 lead smelting works, 38 zinc and 814 iron.

FOXES COST HIM \$40; HE REFUSES THOUSANDS IN NEW BRUNSWICK OFFER

Quebec, July 24—Probably few in this province have started a black fox farm at less cost than Robert Rowley, proprietor of the Laurentide preserves at Lake Edward. While at Roberval, Rowley bought four young pups, part red and part black at \$10 a head. The next morning Manager Fréchet, of the black fox ranch of Lieut-Governor Wood, of New Brunswick, was seen scouring the country for young stock, saw the foxes and offered Rowley several thousand dollars, but was refused. When the villagers realized the offer some of them almost collapsed on the spot and the place has been fox-crazy ever since.

HERE'S ANOTHER SING SING FIRE

Two in a Week to Accompaniment of Yells From the Cells

Ossining, N. Y., July 24—Another fire at Sing Sing prison today gave multitudes a chance for more riotous demonstrations. The blaze started in a clothing shop and the prison fire brigade extinguished it after a hard fight, without outside aid. It was the second fire in the prison buildings this week, notwithstanding the fact that the guards had been doubled since \$150,000 worth of property was burned there two days ago. While the guards and the "trustees" detailed to fire duty were attacking the flames, more than 1,000 prisoners locked in their cells, raised a chorus of yells that sounded high above the noise of the alarm. The men at work in the building were marched out in good order and the blaze was extinguished after most of the contents of the shop had been tossed out the windows and drenched with water.

SAVANTS AT BIOLOGICAL STATION IN ST. ANDREWS

(St. Andrew's Beacon) Quite a large number of biologists are pursuing investigations into various phases of marine life, at the biological station here. Among them are Professor Prince of Ottawa, commissioner of fisheries for Canada; Professor Knight, of Queen's University; Kingdon, A. B. Klugh, Mr. Miller and Mr. Detweiler, also from Queen's; Dr. Huntman, Mr. Martin, Dr. Wallace and Mr. Cooper, from Toronto University; Professor Cox, from the University of New Brunswick, and Dr. Frank, from Berkeley, Cal. Professor Perry, of Acadia College, and Professor Bailey, of Fredericton, are expected to arrive here. Professor Prince has been applying himself to the study of the distribution of young fish, and has discovered many varieties in our waters. Professor Cox is investigating the vitality of fishes. Other subjects that are being studied are the edibility of fish that are not now used for food purposes, the much-despised skate, for example, which is pronounced delicious eating; the effect of light upon certain varieties of fish, such as salmon, and the discovery of new sculpin breeds; new forms of bait, etc. Dr. Huntman is in charge of the station this year and everything is proceeding satisfactorily.

SHORT TRIAL

Tried and Sentenced to Transportation in Two and a Half Minutes

In these days of criminal trials long drawn out, it may not be uninteresting to glance back at a time when, in England at least, complaints were made of the excessive length of such trials. Such were the earlier years of Queen Victoria, when the old criminal code still survived in much of its archaic barbarity, and the picturesqueness of legal procedure inadequately compensated for its cruelty.

The late Lord Brampton, before known as Sir Henry Hawkins, refers in his reminiscences to the scandal of what he calls the "after-dinner" trials of that period. It was then the custom for the court to adjourn for dinner at five o'clock, which was the time when the accused would be brought in to the bar and returned to their duties before the judge. In confirmation of this, he notes that these "after-dinner" trials did not occupy, on an average, more than four minutes apiece, and, in illustration, cited an actual case, the piquant nature of which, contrasted with the gravity of the charges, threw a lurid light on the inhumanity of the times. The case was that of a pickpocket, in which the prisoner had, inconsiderately, pleaded "Not guilty," and therefore had a right to be heard. We may quote Lord Brampton's account, beginning with the examination of the witness for the prosecution by the prosecuting attorney: "I think you were walking up Ludgate Hill on Thursday, the 29th, about 2.30 in the afternoon, and suddenly felt a tug at your pocket, and missed your handkerchief, which the constable now produces."

"I suppose you have nothing to ask him?" says the judge. "Next witness."

"Where you following the procession on the occasion when he was robbed on Ludgate Hill, and did you see the prisoner put his hand into the prosecutor's pocket and take this handkerchief out of it?" "Yes, sir."

"Judge (to prisoner)—"Nothing to say, I suppose?" The prisoner: "Gentlemen, I suppose you have no doubt? I have none."

PERRY'S FLAGSHIP, "NIAGARA," IS FLOWING THROUGH WATERS TO SCENE OF FAMOUS BATTLE

A view of the deck of Perry's flagship, "Niagara," as she appeared in her dock at Erie, Pa., whence she is being towed by the United States training ship Wolverine of Erie, on her voyage through the lakes, where one hundred years ago Commodore Oliver Hazard Perry won his naval engagements in the war of 1812. The "Niagara," which was rebuilt from the hulk of the original flagship raised from the bottom of Lake Erie, where she rested for a century, through the lakes, where one hundred years ago Commodore Oliver Hazard Perry won his naval engagements in the war of 1812. WHY NOT MAKE ALL FIRE HYDRANTS IN ST. JOHN SANITARY DRINKING FOUNTAINS?

Superintendent of Waterworks Beekman C. Little of Rochester, N. Y., Tells How it Can Be Done at Small Cost

A ROCHESTER SANITARY FOUNTAIN

(By Beekman C. Little) Superintendent Water Bureau, Rochester, N. Y. At a cost of but a few dollars apiece, any of all fire hydrants can be utilized during the summer months as sanitary drinking fountains, without impairing their usefulness as aids in fire fighting or street sprinkling, or the like. This method is employed in Rochester. On one of the fire hydrant nozzles is screwed an extension nipple which has an upright service pipe, equipped with a small valve. A sanitary drinking fountain is connected to this upright service, and a small waste pipe is extended down and out to the curb, or street gutter, which is generally closed on into the hydrant—all of the nozzle caps of the hydrant being screwed up tightly to prevent leaking—and the small valve is adjusted so that the proper amount of water is served to the fountain. After the adjustment is made the key to the valve is removed, so that there is no incentive, or at least no way, for the user to tamper with the flow of water. We even think it wise to let a small stream run continually and remove the rabbit ears from the faucet in the fountain itself, as these faucets do get out of order with constant use, even if not meddled with, destroyed, or stolen, and account of the danger to the hydrants from freezing. This scheme was thought out and designed by one of the employees in the Rochester water bureau, who has applied for patents, but has generously given his native city free use of the idea.

AT THE CAPITAL

The Marathons went to Fredericton today to meet the "Pats" in another game. Tarbell or Woodbury was to pitch and Flaherty, the new man, to officiate behind the bat. McPherson, the lately acquired shortstop from the St. Croix team will be out of the game for a few days.

CHARMING GOLF

When the sun has gone down and the golfers' clubs are leaning against the wall in a corner of the room, the player himself sitting in an armchair with a pipe in his mouth, golf shows its most charming side, for, if we have failed today, there is always the dream of a perfect day's golf tomorrow.

STAR'S NOVELTY SHOW

PLEASES THEM ALL

At the Star Theatre last night a rich novelty programme of pictures were shown. The first appearance of the Besanay Co's reorganized group was shown in a thrilling western drama entitled "The Ranch Girl's Partner," and for smooth, clever acting this picture certainly made a hit. The same old sheriff was on deck scoring at every move. In a pretty Vitagraph comedy, Miss Leah Priest, E. K. Letton and T. Johnson kept the audience guessing over a "Leap Year Proposal," which wound up with an uproar of laughter. Johnny Brennan, of the Kalems Co., steamed and puffed and kept the crowd laughing at "Fatty's Busy Day." "Old Women of the Streets of New York," was certainly a novelty treat in travel pictures, being beautifully photographed with all the rush and bustle of the big metropolis. The same show will be given at the Star tonight.

Toronto Sells "Mighty Tim"

Toronto, July 24.—The expected shake-up in the Toronto baseball team has arrived. President McCaffery announced last night that "Mighty Tim" Jordan has been sold to the Buffalo club. Jordan has been in a batting slump all season, and his 1912 hitting was badly missed.

The Toronto club is close to the salary limit with the new players secured within the last few weeks and somebody had to go. Jordan will report to the Buffalo club at once.

The Reds
It is surprising what had hitting the Cincinnati team has done this year in winning only thirty-three of its eighty-eight games. There are many men over 200 on the team, but Cincinnati is well represented in the honor class. However, there are more players hitting over .275 on the Cincinnati team than in any of the other seven clubs, and with the good hitting the team has been doing some steady work in the field.

The main trouble with the Reds has been in the pitching staff, which has not come through very well. Of eleven boxmen Tinker has tried his season only one has been able to split even, this being Benton, whose record to date is nine games won and nine games lost. Benton, Ames, Johnson, Brown and Suggs have been the main staff of the Reds, while a few games have been pitched by Packard and Harter. Powell, Smith and Works have also been tried out.

Early in the year the Reds secured Ames from the Giants and Promme went over to the New York camp. Before McGraw took him Promme had won one game for Cincinnati and had lost four games, but under the Giants' standard has had a considerably better record. Ames has been held responsible for ten of the Reds' games this year, and of these he has won three, losing seven.

Struck Out Twenty-Two
What is believed to be a world's record was established at Dunkirk the other day by Eddie Matteson of the Pullmans, when he struck out twenty men in a fourteen inning game. The Pullmans won the contest against the Alton, and the local twirler allowed but five hits. Matteson was in rare form in the contest, and the further the game went the more effective became his pitching.

Up to Saturday, according to the baseball records, the best strike out record was twenty-one in a game. In 1908 Mike Lynch, a college pitcher, struck out twenty-one opponents and in 1911 Pitcher Gonzalez of Brown, famed twenty-one Columbia batsmen; and later Pitcher Gillens of Sewanee, at Clarksville, Tenn., duplicated the trick, pitching against the S. F. U. college nine.

Dan Comerford has charge of Sockalexis, and he speaks highly of the Indian's condition. Dan says he is in great shape and will make all the others hustle from start to finish. 2,000 MILE AUTO TRIP

Charles H. Edgcombe and Party Had Remarkably Good Luck on Tour to New York and Return.
(Frederick Gleason.)
Charles H. Edgcombe, A. B. Kitchen, Albert Smith and W. R. Worman arrived home yesterday after an extended auto trip to New York in Mr. Edgcombe's McLaughlin-Buick automobile.

Mr. Edgcombe and party enjoyed the best of weather, not having a rainy day on the trip. They also had no engine trouble at all, and only three punctures, two of which occurred as they were heading garages and the other on the road. They only changed one tire on the trip.

Leaving here they went to Bangor, Portland, Boston, Newport, R. I., Narragansett Pier, and finally New York. It was on the trip to New York they had the longest daily run of 187 miles from Rumford Falls to Bangor. They returned via the White Mountains and at Bangor were joined by A. B. Kitchen's son, Walter, who returned home with them.

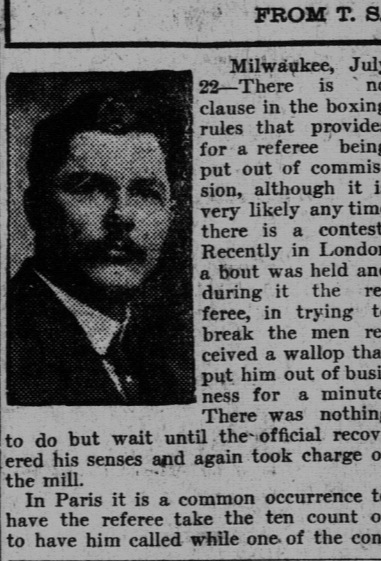

This is the second trip for Mr. Edgcombe's car, he having made a similar trip last year with equally good results. The average daily run for the car on the trip was between 125 and 140 miles.

When the Referee Was Knocked Out

FROM T. S. ANDREWS

Milwaukee, July 22.—There is no clause in the boxing rules that provides for a referee being put out of commission, although it is very likely any time there is a contest. Recently in London a bout was held and during it the referee, in trying to break the men received a wallop that put him out of business for a minute.

There was nothing to do but wait until the official recovered his senses and again took charge of the mill.

In Paris it is a common occurrence to have the referee take the ten count or to have him called while one of the contestants recovers from a foul. Here is a chance for the club promoters to get together and formulate some rule to cover the point in question.

Bob McAllister, a Pacific coast middleweight, who has been making such a fine showing in the last six months, and whom Jim Corbett says is the coming middleweight champion, intends to make a tour of the middle west and east soon. He will be accompanied by his brother, who will have charge of the arrangements. He is particularly anxious to get on with Eddie McGoorty and Jimmy Clabby and may come to Milwaukee with that object in view.

Bob has had several fights since turning professional and has done well in all of them. However, he will find Dillon, McGoorty and Clabby pretty hard game to tackle, but if he can run the gauntlet with that crowd then he will have a right to consider himself as a candidate for the title.

Labor Organizer Here
Organizer J. E. Potts, of the United Brotherhood of Joiners and Carpenters, arrived in the city yesterday and was present at the meeting of the carpenters held last evening. Mr. Potts is on an extended tour through Canada in the interests of organized labor and will visit all the leading cities. He told The Telegraph last night that while here he would lend all his influence to the movement that is reported in action towards the settlement of the millmen's strike, and hoped that he would see its realization.

MORE WORK AT MINES IN MINTO

New Developments to Follow Mr. Gear's Inspection

MECHANICAL COAL CUTTER

Apparatus to Make up For Skilled Miners May be Installed and Several More Shafts Opened and Output Increased

New developments in the Rothwell Mine in the Minto coal fields are expected to follow the visit of W. I. Gear, general manager, and H. C. Schofield, local manager of the Robert Reford Co., Ltd., which company is large interested in the mine. Mr. Gear and Mr. Schofield, accompanied by Mrs. Gear and W. W. Gear, spent yesterday and today at the mine inspecting the property and the equipment and investigating the possibilities of development on a larger scale.

One of the chief difficulties in the way of larger operations has been the scarcity of skilled miners. A large number of men are being brought over from Great Britain this year, but these are not sufficient to cope with the demands of the market. It is believed that a solution which will greatly improve the situation will be found in the adoption of the Hardy coal cutter, an apparatus operated by compressed air. Instead of requiring skilled miners these machines each will do as much work as five or six miners.

This will enable the company, with the same number of men, to operate on a much larger scale, and it is probable that several additional shafts will be opened and the output greatly increased. From Minto Mr. Gear and his family will go to St. Andrew's via Fredericton, and will remain there until Monday when they will return to Montreal.

AS TO FORESTALLING

It is said that the custom of forestalling, which was quite ordinarily in vogue until a few months ago, has been almost entirely given up after the prosecutions which were carried on. Whatever dealers in the market do buy goods from the farmers before they should, do it so quietly that it has escaped the notice of the police.

DEER NEAR BROOKVILLE

The numerous reports of deer near the city indicate that game is plentiful this year in this section of the province at least. GIVE OPENING TO MARKET IN STATES

C. T. P. Said to Be Interested in New Bridge

SPAN AT VAN BUREN

Another Structure Across to Gaspe Peninsula - See Bigger Prices For the Farmers and the Fishermen of New Brunswick

The construction of the bridge across the St. John river at Van Buren, which is under consideration, may be of even greater importance to the country through the northern section of this province than has been previously intimated. It has been learned that the Grand Trunk Pacific are interested in the project and, if the bridge is built, will have running rights over it, thus giving the road access to the United States from New Brunswick and offering a large market for the products of the country through which the G. T. P. passes. Another important development which may follow the completion of this bridge is the construction of another bridge across the Restigouche which would give connection with the Gaspe Peninsula. On account of the fact that the International Railway, which traverses the northern section of the province with its terminus at Campbellton, and which was a party to the agreement, may be taken over by the government. Negotiations are now in progress with prospects of completion and if this change in ownership takes place, the promoters of the bridge will have to reach an agreement with the federal government before they could put their plans into effect.

Some Benefits expected

As an instance of the benefits which would accrue to many of the residents of this province if the bridge were constructed, it is said that the price received by the north shore fishermen for their catches would be doubled and perhaps trebled. At present their fresh fish can be shipped to the American market only by a roundabout rail journey during which a large percentage of the shipments is said to spoil. On account of this and in order to allow the dealers to recoup on the shipments which do get through in good condition, they can afford to pay only a very small price for the fish. With a direct line to the north shore fishermen, the losses would be reduced to a minimum and the fishermen could command much better prices.

Last year one and a half million pounds of small alone were shipped from the north shore to the American market, and under better conditions this quantity would be largely increased. It is also believed that a much greater market at improved prices for all their products would be ensured and would prove a great boon to the people of this section of the province.

Not only the fishermen but also the farmers along the lines of the International and the Grand Trunk Pacific would benefit. A convenient market would be opened for lumber and farm products and the wool enhance the value of the land in a great area of the province and stimulate settlement.

The Gaspe peninsula is a rich country capable of profitable development which has been greatly neglected on account of lack of transportation facilities. With a direct line from Campbellton to the United States there would be a greater incentive than ever for the construction of the bridge across the Restigouche which has been advocated for several years, and the construction of the facilities on the northern side of the bay would open up this whole country.

WATER FOR THE SIMMS PLANT

The Times a few days ago published an item to the effect that after boring to secure a water supply of their own, T. S. Simms & Co., Limited, had found it necessary to depend on Spruce Lake for their entire supply for use in the factory and for fire protection. It is learned that this statement is not entirely correct. It appears that a mixture of water from their well with that from Spruce Lake has been found to give better results in their boilers than either the one or the other alone could give. This has been proved in other plants on the west side. T. S. Simms & Company therefore put in a two-inch lead from the city main from Spruce Lake and also a four-inch lead to the sprinkler system. For all factory and toilet uses, and for their main dependence for fire purposes, their own well water will still be used, as it is excellent for every purpose except for use alone in the boilers.

THE OAK HALL MID-SUMMER SALE
of Men's and Boys' Clothing and Furnishings
Enables You to Save the Most Money

After all's said and done, it's the actual saving in cash that makes a sale important to any one. And judged from a money-saving standpoint this mid-summer sale of ours far outclasses all other clothing sales in St. John.

The reason for this is clear. When you buy at Oak Hall you buy directly of the makers and you save the middleman's profit. You pay one-fourth to one-third less than you'd have to pay elsewhere for the same grade of merchandise. Now for this clearance sale we have greatly reduced these less-than-others' prices. This is why you positively save more in buying at this sale than you can save in buying anywhere else. And as far as quality, style and service go, you can't get any suits that will prove more satisfactory than these, no matter what you pay.
