BULLETS FOR A MOB

Several People Killed at Urbana—Lynching of a Negro Rape Fiend.

The Militia Were Guarding the Prisoner and the Mob Pressed too Close.

Columbus, O., June 4.—A special from Urbana says that the negro, "Click" Mitchell, who made a criminal assault upon Mrs. T. M. G. Gaumer, has been lynched.

After the firing of the militia on the crowd of spectators during the early morning hours, Governor Bushnell ordered Company B of the Third Infantry of Springfield, to come here at once.

The company, 36 strong, under Captain Bradbury, marched up town to the jail, where they found 2,000 people.

The crowd got into the jail in short order. They did not want to burst the door to some one who had tucked the locks with sledge hammers and the door soon flew open.

Mitchell was standing in his cell and offered no resistance and did not utter a word to some one in the crowd had a rope and it was placed around the brute's neck and the crowd made for the door, Mitchell following at the end.

The rope was quickly slipped over his head again and a rush made for a tree in the corner of the court yard. The end was thrown over a strong limb and a thousand willing hands pulled the wretch up.

His body was left hanging for an hour or more and the people of the city flocked to see it. It was finally drawn down and placed in an undertaker's box and left lying in the court yard open to public gaze.

Urbana, O., June 4.—Never was there such a tragedy in this city as that which was enacted at 2:30 this morning. Two men lay dead and six others severely wounded, with one more that may die.

tempt was being made by a mob to enter the jail from the rear.

This city of 5,000 inhabitants is an unusually orderly one. With its colleges it has always had the highest reputation, but pandemonium reigned last night.

STREET DEPARTMENT

Ald. Kinsman Tells of Some of His Troubles as Chairman of Streets Committee.

Manure from Corporation Stables Was One of Street Superintendents Perquisites.

Ald. Kinsman had something to say to-day in regard to the discussions in the city street department, to which he referred at Monday evening's meeting of the city council. He blames Superintendent Wilson for all the trouble, the cause of which calls for an investigation. As an example of how things are run by the superintendent, Ald. Kinsman referred to a piece of work at Ross Bay. Early in the spring, when the roads were muddy, Ald. Kinsman and the superintendent drove out to Ross Bay. They agreed that it would be just the thing to put beach gravel on the road referred to, as the mud would bind it. The superintendent did have the beach gravel put on the road, but not until after the mud had dried up and there was no mud to bind it. As bicycles could not get through loose gravel, and it was rather hard for horses to pull carriages through it, it was decided that it would have to be covered with clay. So a lot of clay was hauled from Spring Ridge and up Parkers street for the purpose, and even then had to be mixed with the gravel, pretty much as is done to make concrete. All this would have been saved had the gravel been put on a few weeks earlier, when the road was muddy.

But this is not what Ald. Kinsman complains of mostly. What he is making very serious objection to is the action of the superintendent in doing work that the street committee has decided shall not be done. For instance, there was some talk of a drain being dug on a short street running into Moss street. The committee decided that the work should not be done, but it was done before the committee heard of it and stopped it. The engineer said he did not order the work to be done.

Some time ago a sidewalk was being laid in Victoria West. The residents interested telephoned Ald. Kinsman that the sidewalk would not benefit them as it was being laid. Not wishing to interfere with the workmen, Ald. Kinsman went to the city engineer and told him of the message he had received. The engineer could not go over that afternoon, but authorized the alderman to have the sidewalk altered to suit the residents, if there was sufficient lumber on the ground. The foreman said there was sufficient lumber and the men started to make the change. The alderman reported to the engineer that the change had been made, and the engineer in turn told the superintendent of it. The next morning Superintendent Wilson went over and had the sidewalk laid according to the original plan, despite the orders of the chairman of the street committee and the engineer and the wishes of the residents, and when the alderman asked why the change had been made, the only explanation he could give was that he had no business to interfere with the men. The superintendent afterwards said he would apologize if he had said anything wrong.

Ald. Kinsman told of the action of the street superintendent, of which the council is informed, but has taken no action. The Old Men's Home committee wanted the manure from the corporation stables for the garden at the home. Ald. Kinsman when he told the street superintendent to have the manure sent out, received the reply that the manure was a perquisite of the street superintendent. The street superintendent was given to understand that this could not be, but even then there was difficulty in getting the manure to the home. The superintendent said the corporation teams were too busy. Another team was therefore hired, and although the driver called several times, there was no manure at the stables. A Chinaman has been there each time before the team engaged by the city. Finally some of the manure did get to the home garden. These are small matters, but they raise the question as to whether the chairman of the street committee has any power or whether it is all vested in the superintendent of streets.

LAW INTELLIGENCE.

At the conclusion of the arguments of counsel in the Gordon vs. the city of Victoria last night his lordship the chief justice said he had not before him sufficient material on which to deliver judgment and he directed an enquiry as to whether and when by-law was passed by the city council in 1892 relative to the expenditure of corporation money on bridges. The matter will come up again at 10.30 to-morrow morning.

In B. C. Investment Agency v. Ladder et al, argument was heard by the court.

Mr. Justice Drake this morning. Judgment was reserved.

In Macaulay vs. O'Brien, Mr. Gordon Hunter this morning moved before Chief Justice Davie for an order setting aside the capias proceedings under which the defendant, a Yukon trader, was arrested here the other night, at the instance of James S. Macaulay. Several grounds are urged as fatal in the order on which the capias was obtained, among them being that in the process issued to the sheriff, some words are written in and not initialed by the registrar; that the law stamp on the order was not cancelled, and that the copy of the affidavit on which the order was obtained was not served on defendant at the time of the arrests. The affidavit is also attacked on the grounds that it does not sufficiently show a cause of action. Neither of the parties to the suit makes his place of residence in Victoria and the cause of action arose in the Yukon, and on such a state of facts the learned counsel for the defendant contended the whole proceedings are an abuse of the process of the court. Mr. Cassidy for the plaintiff showed cause. Judgment will be delivered at 10 o'clock on Monday.

In Gordon vs. Victoria, evidence was given this morning before Chief Justice Davie as to what by-laws were passed in 1892 authorizing the expenditure of city moneys for the repair of streets and bridges. Judgment in the action was reserved.

OBITS, VOLTS AND AMPERES.

Inspection of Electric Lighting—The Law Now in Force.

The act passed three years ago extending the weights and measures system to cover electric lighting, and electric light meters is now being put into operation in Manitoba and British Columbia, and Mr. Ormond Higman, chief electrical engineer of the Victoria revenue department at Ottawa, is here installing the necessary apparatus for carrying on the work of inspection.

The act provides that all meters shall be tested for accuracy before being installed on the consumer's premises. Any violation of this provision subjects the supply company to a penalty of \$25 for every unverified meter put in use. All meters in use prior to the coming into force of the act are to be replaced by tested meters as soon as circumstances will permit of their being changed. All meters are to be verified every five years, but the consumer or supply company may demand a test at any time if they have reason to doubt the accuracy of the meter—the party in fault paying the fee. At all other times the owner of the meter pays for the test.

Parties tampering with the wires or registering of the current are deemed to be guilty of theft and are liable to the tender mercies of the criminal code. Provision is also made for the testing of electrical pressure at the consumer's terminals. The limit of variations is placed at 3 per cent, above or below the regular standard pressure.

It is understood that companies in the east, where the act has been in operation for the past two years are well satisfied with its provisions and the manner in which it is being enforced. In every case the gas inspector has been made electrical inspector, and these officers, after being instructed by the efficient in carrying on the work.

COAL COMPANY REVIVED.

Messrs. Heaps and Harris Secure the Wellington Coal Mine. The Wellington Enterprise is authority for the statement that the West Wellington Coal Company, originally organized by Mr. Dennis Jordan, has been revived by Mr. Heaps, of Vancouver, and Mr. D. R. Harris, of Victoria. The capital of the company is said to be \$100,000.

This new company has secured the option on quite a large number of properties from which Mr. Heaps and Mr. Harris for the coal rights. Among others, there are Messrs. Jno. Dixon's two places; George Dunbar, 160 acres; Jno. Tippet, 160 acres; H. Brunell, 160 acres; Jas. Knight, 130 acres; Wm. Hamilton, 160 acres; the 'Wall' estate, 160 acres, and several others.

It is expected that two drills will be at once used to prospect for coal. One is already in operation on Brunell's ranch, in charge of Messrs. Wells and Langley. The other will be set up in the vicinity of Big Lake.

It is intimated that the British Company from which Mr. Heaps obtained an offer for the Dunsaville mines at Wellington, which was refused and which refusal led to the suit of Harris vs. Dunsaville, which Mr. Harris won, is interested in the new company.

SPAIN AND CUBA.

Possibility of the Recall of Captain-General Weyler. New York, June 5.—A Madrid cable to the Journal says: "The recall of Weyler is almost certain, as the Liberals have decided to take this step if Senor Sagasta assumes office. Senor Pidal yesterday advised the Queen to reform the Conservative cabinet in the direction of honestly implating reforms in Cuba, recalling General Weyler and sending General Campos to the island. Campos himself advised the Queen, but not form any intermediate cabinet, but to trust the government to the party which offers the best and most definite solution for Cuba."

THE CANADIAN TARIFF.

Britain May Denounce the Treaties With Germany and Belgium. Berlin, June 4.—According to the Kolnische Zeitung, the powers are paying a great deal of attention to the Canadian tariff; and the foreign diplomats in London, who have repeatedly held exhaustive discussions on the subject, are convinced that Great Britain will denounce the trade treaties with Germany and Belgium, unless a definite adherence to the German and Belgian protest has been postponed.

BOAT'S CREW LOST

The Schooner Geneva Loses a Boat and Its Crew on the Japan Coast.

A Well-Known Hunter Dead—Hapsh Arrives—A Bad Accident on the Angeles.

The sealing fraternity have for some time past been eagerly awaiting news from the schooner engaged in hunting the seals on the Japanese coast, and yesterday, when the first news was brought to Victoria, it was very bad news. Mr. Richard Hall, the owner of the sealing schooner Geneva, yesterday received a letter from Captain William O'Leary, the master of that vessel, dated from Akishi Bay, in which the misfortune which befel that schooner's crew are told. Towards the close of February, Joe Andrews, a half-breed hunter, is perhaps better known to Victorians as Joe Cameau, began to suffer most severely from hemorrhage of the lungs, and on March 3rd, while Capt. O'Leary was running the schooner to secure the services of a medical man to attend him, he died. He was buried at sea sewn up in canvas and lowered beneath the sea cover which he has often called Andrews no more. Capt. O'Leary for several years on the schooner Geneva, and prior to engaging on that schooner he was on the Gooey Belle and the Belvedere, a hunter and trapper. His occupation requires him to endure a great deal of exposure and hardship, more especially when the snow lies thick and deep on the ground in our cold waters. A few years ago, Mr. Yeomans tells our correspondent, that he was seized with a severe bilious attack and a complication of diseases, such as stomach, sick headache and rheumatism. Mr. Yeomans' version of the facts are: "I became very ill and suffered the most excruciating pains in my arms, legs and shoulders, so much so that I could not rest in any position. I frequently could not sleep at nights, and when I did I awoke with a tired feeling and very much depressed. One day I was very poor, and if I ate anything at all, no matter how light the food was, it gave me a full, heavy feeling in my stomach, which would be followed by vomiting. I suffered so intensely that I could not raise my hands to my head. I tried different remedies, but all to no purpose. A neighbor came in one evening and brought me a box of 'Dr. Williams' Pink Pills.' I had not, but then determined to try them, and procured a box, and before the pills were all gone, I began to improve. This encouraged me to purchase more and in a few weeks the pains in my shoulders and arms were all gone and I was able to get a good night's rest. My appetite came back, and the dull, listless feeling left me. I suffered so intensely that I could not raise my hands to my head. I tried different remedies, but all to no purpose. This encouraged me to purchase more and in a few weeks the pains in my shoulders and arms were all gone and I was able to get a good night's rest. My appetite came back, and the dull, listless feeling left me. I suffered so intensely that I could not raise my hands to my head. I tried different remedies, but all to no purpose. A neighbor came in one evening and brought me a box of 'Dr. Williams' Pink Pills.' I had not, but then determined to try them, and procured a box, and before the pills were all gone, I began to improve.
