**FREDERICTON NEWS.**

FREDERICTON, Sept. 22.—The case of Fred Boyd, charged with assaulting his uncle, Daniel Boyd, and breaking his arm, came up before Judge Squire Hobbs at Gagetown yesterday. H. F. McLeod appeared for the defendant and John R. Dunn for the complainant. It appeared that the case has been greatly exaggerated. No arm had been broken, and in whatever disturbance there was both parties seemed willing to acknowledge as being equally guilty. After consultation the complainant withdrew the charge and each party paid his own costs.

## ANOTHER BIG CROWD TODAY.

The Rush to the Exhibition Is Growing.

Last Night's Rain Did No Harm and Everything Today Is in Fine Condition.

**TODAY'S PROGRAMME.**

- 4.00 p. m.—Farmers' Pavilion; addresses by F. W. Holson, Dominion live stock commissioner, and Dr. G. M. Twissell, Augusta, Me.
- 4.30 p. m.—Fifth R. G. R. band in Industrial building.
- 7.30 p. m.—Fifth R. G. R. band concert before the grand stand.
- 7.45 p. m.—
- 8.00 p. m.—Vitascope pictures.
- 8.30 p. m.—Vaudeville programme.
- 9.00 p. m.—Fireworks.
- 9.15-10.15 p. m.—Fifth R. G. R. band concert, in front of Grand Stand.
- 9.30 p. m.—Vitascope Pictures.

Last night's rain left the exhibition grounds in a soggy condition and the horse track was a sea of mud, but the bright sun of this morning, supported by a stiff breeze, soon dried up the pools and by noon the track was in fit condition for the carrying out of the afternoon programme. The exhibition management has therefore good reason to congratulate itself over the gracious manner in which the elements have acted ever since the show opened.

There was little doing this morning, since the judging of horses, live stock, poultry, etc., and early visitors were thus given time to make a careful tour of the industrial buildings, the carriage house, machinery hall, agricultural hall and the other enclosures and see all that was worth seeing. The Vitascope Co. gave one of their interesting shows this morning to a good audience and the occupants of the Midway, after they had dried their tents, shouted their battle cries as loudly as ever, and with fairly good financial results.

The ladies of Sussex did a rushing business in the dining hall yesterday, accommodations being tested to the utmost to accommodate the great number of hungry people. They are receiving good patronage today and are giving full satisfaction. The St. John school is in a fortnight. They are rushing forward supplies of ammunition.

**JAPS REPULSED.**

ST. PETERSBURG, Sept. 21.—General Kuratkin telegraphs that the Japanese yesterday twice attacked the position occupied by the Russians in the Da Pass, and that they were repulsed and that their turning movement was expected this week and it is predicted in well informed quarters that the reduction of that fortress will be accomplished within ten days or a fortnight.

**AN IMPORTANT EXHIBIT.**

One of the most important exhibits to our citizens is the Carleton Foundry Co.'s exhibit of stoves and ranges. They are the only manufacturers making stoves and ranges in the city. Go and examine their goods and try a guess on the weight of their new range, the "Villa Model" as they give away two of these ranges to the two nearest guessers to the correct weight of the range. His Worship Mayor White will weigh the range at the close of the fair.

**MORE VISITORS.**

Every train that arrived in the city this morning brought large numbers of exhibition visitors. The visitors from Fredericton were so many that it was found necessary to enlarge the train by five cars.

**HANLON AND MCGOVERN MATCHED.**

NEW YORK, Sept. 21.—Eddie Hanlon, the pugilist, who was recently defeated by "Battling" Nelson, has been matched for a six round bout with Terry McGovern. The contest will be held in Philadelphia, Oct. 10th.

**PROMINENT MONTREAL MAN DEAD.**

(Special to the Star.)

MONTREAL, Sept. 21.—City Comptroller Oliver Dufresne dropped dead this morning from heart disease at his residence here. He was responsible for the reform in civic finances inaugurated some years ago and held the office since 1890. He was 48 years old.

## RUSSIANS WILL FIGHT AGAIN NEAR MUKDEN.

Kuropatkin Will Not Retreat Any Farther—Another Great Battle Expected At Once—Japs Expect to Have Port Arthur Soon

TOKIO, Sept. 21, noon.—An impression is growing general that an engagement will soon take place at Mukden. General Kuropatkin is evidently preparing to make a determined resistance to any attempt to dispossess him and is entrenching and constructing defences. He has no intention of being available, but the opinion is expressed that the Pass would be a more favorable location for defense. The Russians, however, are unwilling to suffer the loss of prestige which would be involved by the abandonment of Mukden. Both armies are now rested and have recovered from the effects of the fight at Liao Yang. They are in condition to fight and the weather is favorable for military operations. The roads are drying and the Japanese are speedily restoring the railway. A party of military attaches who recently came to Liao Yang from Tokyo were carried in open trucks by coolies for 150 miles.

**A REPORT CONTRADICTED.**

ST. PETERSBURG, Sept. 21.—2.35 p. m.—Reports that Gen. Kuroki had crossed the Hun river at Pushun turn out to be incorrect. The Russian press strongly hold the road to Pushun and Beniput. It is pointed out that if the Japanese had occupied Pushun the Russian press would have been forced to evacuate Mukden, since Pushun is nearer T'ie Pass.

**JAPANESE ADVANCING.**

General Kuroki's Headquarters in the Field, via Fusan, Sept. 20.—11 a. m.—(Delayed in transmission.)—The Japanese are slowly pushing northward. The outposts are in touch near Yental and skirmishes between outposts and patrol parties occur daily. It is believed that the Russians are gathering a force at Yental, preparatory to making a strong stand for the protection of the coal mines. The Japanese are rapidly changing the gauge of the railroad from New Chwang and probably will be in operation to the Yental in a fortnight. They are rushing forward supplies of ammunition.

**JAPS REPULSED.**

ST. PETERSBURG, Sept. 21.—Gen. Kuropatkin telegraphs that the Japanese yesterday twice attacked the position occupied by the Russians in the Da Pass, and that they were repulsed and that their turning movement was expected this week and it is predicted in well informed quarters that the reduction of that fortress will be accomplished within ten days or a fortnight.

**THE AUTHORITIES CONTINUE SILENT.**

The authorities continue silent concerning operations here. The publication of a small list of casualties in the naval brigade operations on land is the only recent official utterance in reference to that stage.

**LABOR TROUBLE IN NEW YORK.**

NEW YORK, Sept. 21.—Issuance of a general strike ultimatum to the employers by the unions in the building trades occupied by four miles of railway rails and two hundred tons of coal.

**MARRIED AT FAIRVILLE.**

AT 6.30 o'clock at Fairville this morning Miss Bessie Cowan, of Fairville, was married to Melburn Watson, of Mahogany Road. The wedding took place in the church of the Good Shepherd, the ceremony being performed by Rev. Mr. McKiel. The bride was attended by Miss May McFarlane and the groom was supported by Mr. Maxwell. After the ceremony Mr. and Mrs. Watson left for a trip to Boston.

## LOTS OF WORK BUT NO NOISE.

A Strange Convention Begun This Morning

Deaf Mutes of N. B. Form Themselves Into An Association and Elect Officers.

The first convention of deaf mutes of this province opened this morning in the Y. M. C. A. building. This convention is beyond question the most unique gathering ever held in the city. Save for the address of His Worship, Mayor White, whose words were interpreted to the gathered mutes by Principal W. J. Stewart, of the Lancaster Deaf and Dumb Institution, the session was a particularly busy and animated one, and to the onlooker who could not fully appreciate the importance of the occasion, it must have been apparent from the elaborate sign movements, into which all the mutes entered, that something of unusual interest was taking place.

Major White, with the aid of Principal Stewart, welcomed those present to the city. After alluding to the peculiarity of the gathering, the mayor made some appreciative references to the institution at Lancaster. He hoped before long that it would be placed upon a better foundation. It had already attained a position in the community which entitled it to recognition from the government. A capitation grant from the provincial government, such as is granted by the Nova Scotia government to the deaf and dumb institution there, would tend to assist in the fulfilment of the object of the Lancaster institution.

The mayor was warmly applauded by the mutes for his words of welcome and encouragement.

The business of the morning session was then taken up by F. G. S. Boal, of Sussex, reading the constitution of the proposed organization, which is to be known as The New Brunswick Deaf Mute Association. The constitution, which was accepted, defined the object of the association as the advancement of the moral, spiritual, mental and intellectual interests of deaf-mutes in New Brunswick.

The election of officers was a most interesting proceeding. A vote was signified by the raising of hands. A nominating committee of five was selected, whose efforts resulted as follows:

President, F. G. T. Boals, of Sussex.  
Vice-president—B. Chester Brown, St. John.  
Secretary—Mrs. George Tupper, St. John.  
Treasurer—James C. Avar, Moncton.

The board of directors includes the officers above named and the following: William Balle and Joseph Doherty, St. John. The following signed the membership roll this morning: John McPherson, Charlottetown, P. E. I.; Wm. Balle, Carleton; Mr. and Mrs. George H. Tupper, city; Frank L. Coates, city; Mr. and Mrs. Hugh Rennie, city; James McAuley, Petticoat; Douglas E. Trenholm, Port Elgin; B. Chester Brown, city; Howard Breen, Rothesay; Jas. C. Avar, Moncton; Jos. Doherty, city; Elderton Allen, Shemogue; Wm. J. Murray, Moncton; Miss L. McKay, Marysville; Miss Lena Logan, city; Mrs. Bradford Hines, city; A. E. Marsh, city; F. B. T. Boal, Sussex, and Harry S. Hampton, city.

Four honorary members were enrolled as follows: Peter McDougall, Halifax; D. A. Morrison, Sydney, C. B.; Mr. and Mrs. Trenholm, Amherst, N. S.; and Principal W. J. Stewart.

The second session began at two o'clock this afternoon. An evening session, principally of a social nature, will be held, commencing at eight o'clock.

## THE WEATHER.

Forecast—Strong northwest to north winds, fair and decidedly cool today and on Thursday; local frosts at night.

## THE RESPONSIBILITY.

While those Liberal journals which still lay claim to decency are forced into expressions of condemnation of the rank corruption revealed by the recent election trials in Ontario, they unite in voting that condemnation upon the heads of the unscrupulous instruments who were detected in the frauds. Not a hint is breathed that the government, which has profited by all those practices and which has not only refused to prosecute, but has shielded the offenders, is in any way responsible or deserving of any other sentiment save commiseration that it has such indiscreet adherents.

For instance, there are a couple of Sullivan, "Cap" John and Frank, his son, who have figured extensively in every Liberal election scandal in Ontario of recent years. They were prominent in the West Elgin business. In the Gamble case and have bobbed up maliciously in connection with these latest frauds. The Toronto Globe chooses these as the scape-goats and its editor—Rev. J. A. Macdonald, who was a delegate to the General Freshwater Assembly recently held here—vents his disgust in a piously bitter attack upon these "parasites, grafters and camp-followers," whose personal wickedness is casting suspicion on the great and pure Liberal party, and who at once should be cast into outer darkness. Says the Globe—"The number of those who approve of corrupt election methods or who would profit by them is insignificant, and if in anything we give honest voice to the sentiments and convictions of the Liberals of Ontario it is in deliberately and determinedly condemning the conduct of those who organized and carried out the St. John Marie election offences, and in demanding that in every other constituency workers of the unsavory Sullivan species be separated from the activities of the Liberal party by a gulf as wide as that which divides decency and honor from the ugliest and foulest crime."

Now the Messrs. Sullivan have feelings and this kind of talk from their friends hurts them. "It's not fair," says one of them in an interview in the Toronto World, "My idea of it, as far as the Sullivan are concerned, is that if we have done anything wrong at least it was done to save the Liberal party. If Mr. Macdonald wants to enter into a controversy on election methods and about what the Sullivan have done, I am quite prepared to take it on, and perhaps we could surprise somebody. That's the position I take, and I am holding on to it by means of their work. No government composed of decent, honest men would hold office under such conditions. And considering that the Ross government is really in a minority now and can only hope to stay in power by winning more corrupt bye-elections in the constituencies from which its followers are being ousted, there is soundness in the claim of the Ontario Conservatives that it is the duty of the Lieutenant governor in this emergency to demand that the people's opportunity to express their opinion of the condition of affairs shall be no longer delayed."

Mr. Sullivan has hit the point exactly. Personally he lays no claim to high political morality. He worries not at all when Conservative journals say nasty things about him. But he resents criticism from those who by adopting and profiting by and paying for his work—for the Sullivan and their kind aid believe all that is said, even when it ill-becomes The Globe, as the organ of the party which benefited, to talk of us like that.

Whether the Ross government, which the Globe supports, is directly guilty of helping these men or not, is far from clear. It is certainly directly responsible for that it obtained power and is holding on to it by means of their work. No government composed of decent, honest men would hold office under such conditions. And considering that the Ross government is really in a minority now and can only hope to stay in power by winning more corrupt bye-elections in the constituencies from which its followers are being ousted, there is soundness in the claim of the Ontario Conservatives that it is the duty of the Lieutenant governor in this emergency to demand that the people's opportunity to express their opinion of the condition of affairs shall be no longer delayed."

modern plant is not in sight at all. This is a fine way to obtain debt extension. But railway extension is best obtained by requiring the construction of railways when the province pays for them—Sun.

There have been four election trials in Ontario against two Liberals and two Conservative members of the provincial house. As a result, the two Liberals have been unseated by overwhelming proof of corruption and the two Conservatives have been dismissed. In the case of Hugh Clarke, Conservative member for North Bruce, whose trial was concluded yesterday, the judge not only maintained him in his seat, but complimented him on the clean election contest he had conducted. The Ross government now has a majority of one, with four seats vacant, two trials in progress and one pending.

## MONCTON NEWS.

MONCTON, Sept. 20.—Raoul Demers, a lad 12 years of age, disappeared from St. Joseph's College, Moncton, last week, and his whereabouts is a mystery. He had auburn hair, wore grey cap and dark suit. Information in regard to his whereabouts will be gladly received at the college.  
Duncan Brown and C. E. Morton, L. C. R. brakemen, with W. J. Saunders as guide, secured a moose about seven miles from Kent Junction yesterday. It dressed 700 pounds and had a fine head. Stockton, the famous hunter of Salisbury, accompanied a gentleman from Hoboken, New Jersey, to the Canadian woods last week, and on Saturday they brought down a moose with one of the largest set of antlers seen in that place for some time. Roland Milton, the Little River, Albert county, lumberman, shot a large black bear on Saturday night about a mile from his home. The bear had been killing Mr. Milton's sheep. The skin trimmed up about six feet square. Part of the carcass was shipped to St. John yesterday. Heavy game is reported plentiful all through this section, and up north the farmers complain that the moose are eating and destroying their grain and turnip crops.

## EQUITY COURT.

Important Judgments Delivered by Judge Barker.

Four judgments were delivered by Judge Barker in the equity court yesterday afternoon.  
Goggin vs. Goggin was decided in favor of the plaintiff. The case arose out of a business formerly conducted on the Market square. Both parties were interested in the business and the plaintiff sought an accounting from the defendant of the affairs of the business. Mr. A. A. Stockton, K. C., and Geo. Gilbert, of Bathurst, for plaintiff; and A. A. Stockton, K. C., for defendant.

Robb & Co. Ltd., vs. Theault, a Gloucester county case, was decided in favor of the defendant. It was an action with regard to the fraudulency of certain deeds. A. O. Earle, K. C., and Geo. Gilbert, of Bathurst, for plaintiff; and A. A. Stockton, K. C., for defendant.

The Continental Trust Co. of New York, vs. The Mineral Products Co. and others, was decided in favor of the plaintiff. The plaintiff is trustee for securities to the value of \$40,000, and the court held that the securities covered certain leasehold property in Albert county claimed by the defendants. Mr. A. A. Stockton, K. C., and J. D. Hazen, K. C., for the plaintiff; Hon. Wm. Pugsley, K. C., Hon. L. J. Tweddie, K. C., for the defendant.

Carman vs. Smith was decided in the defendant's favor. The plaintiff alleged that he had conveyed to defendant more property than intended, but the court decided against him. Mr. A. A. Stockton, K. C., for plaintiff; Weldon & McLean for defendant.

## FELL DOWN THE STAIRS.

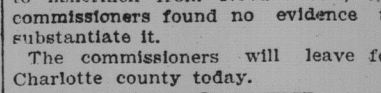

Just at the close of the exhibition last night, Miss Ethel Ward of Sydney street, while passing down the steps at the front of the main building, tripped and fell. She rolled from the top to the bottom of the stairs and was picked up unconscious by Sydney Wakeman and James Henderson. Dr. Lewis was called and found that she was seriously injured, although considerable blood was flowing from the head and was sent to Dr. Lewis. When she revived she said she was not seriously injured, although considerable blood was flowing from the head and was sent to Dr. Lewis. When she revived she said she was not seriously injured, although considerable blood was flowing from the head and was sent to Dr. Lewis.

## CANADA EASTERN TRANSFER.

FREDERICTON, Sept. 20.—Hon. H. A. McKeown, H. H. McLean and David McLaren had a conference here today relative to the transfer of the Canada Eastern, but all that could be learned was that all difficulties that prevented the transfer of the road had been overcome. In the afternoon a meeting of the directors of the road was held, when a resolution was passed giving authority to execute transfer to the government and immediately after passing this resolution the deed was executed. It is further learned that Mr. McKeown, who is acting in the government interest, took possession of the deed, which he will forward to Ottawa to be recorded by the government and will take over the road.

A serious accident happened to Jesse McKenzie at Sussex yesterday. Mr. McKenzie, who is about seventy years of age, was driving past the Depot House when his horse bolted, being startled by a train. The team struck a telegraph pole, and Mr. McKenzie was hurled out. He had to be picked up and was taken to his home, where it was found he was badly bruised. A doctor was summoned, and last night the patient was doing as well as could be expected.

The moderator led in prayer. The conference then adjourned.

# Largest Shipment of Flour in the History of Canada.

## The "Royal Household" Mills Sending 65,000 Barrels to Newfoundland.

The largest shipment of flour in the history of the Dominion is taking place from Montreal to Newfoundland. The Ogilvie Mills, who make the famous Royal Household Flour used by the Prince of Wales, are shipping 65,000 barrels of their flour to St. John's. "This is the largest freight booking ever made in Canada," says J. E. Cookson, Montreal, agent of the Black Diamond Line, whose steamers are carrying the flour.

The flour is all to be delivered within two months. It would take more steamers than our entire fleet if the whole shipment were to be made at one time. It will take eleven of our steamers, each loaded with the usual amount.

### CAPTURED THE FLOUR TRADE OF NEWFOUNDLAND.

The flour all comes from the Ogilvie Flour Mills Co., Limited, of this city. The Ogilvie people have captured the flour trade of Newfoundland. Two or three years ago they were not doing anything down there. Now they are selling about all the flour consumed on the island.

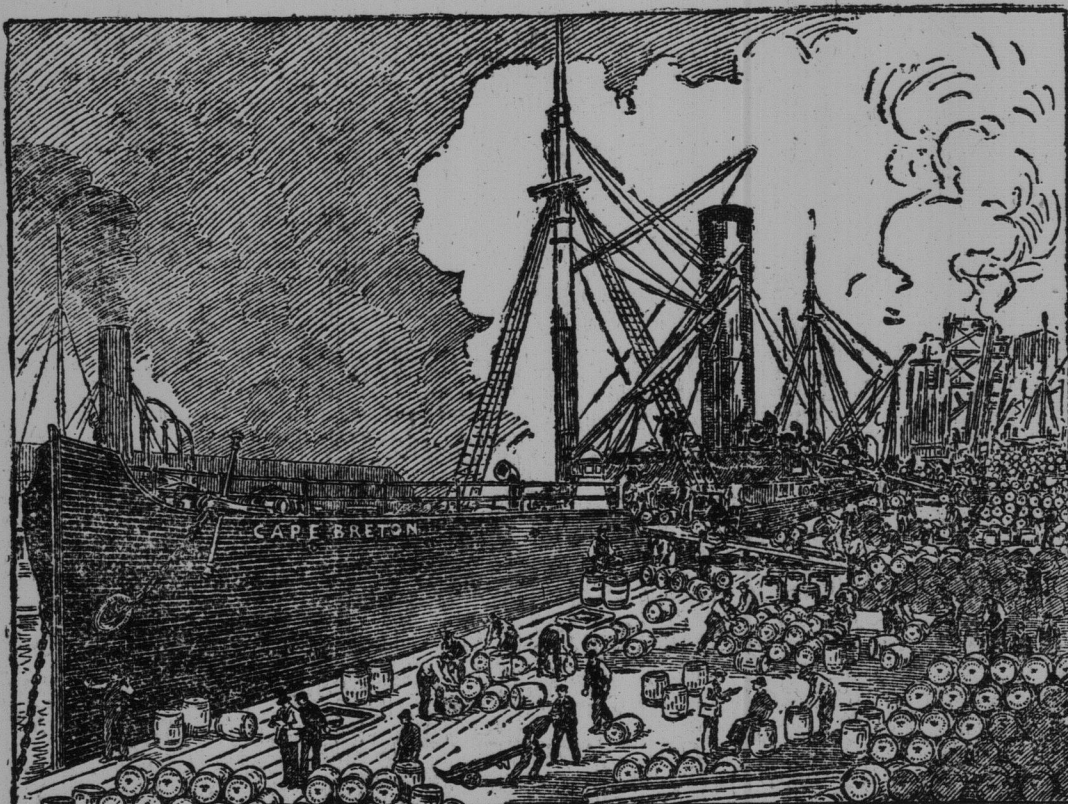

They have driven out American flour and all other brands of Canadian flour. They have a special process of making flour that gives them a great advantage.

### A PROSPEROUS COUNTRY THAT EATS GOOD FLOUR.

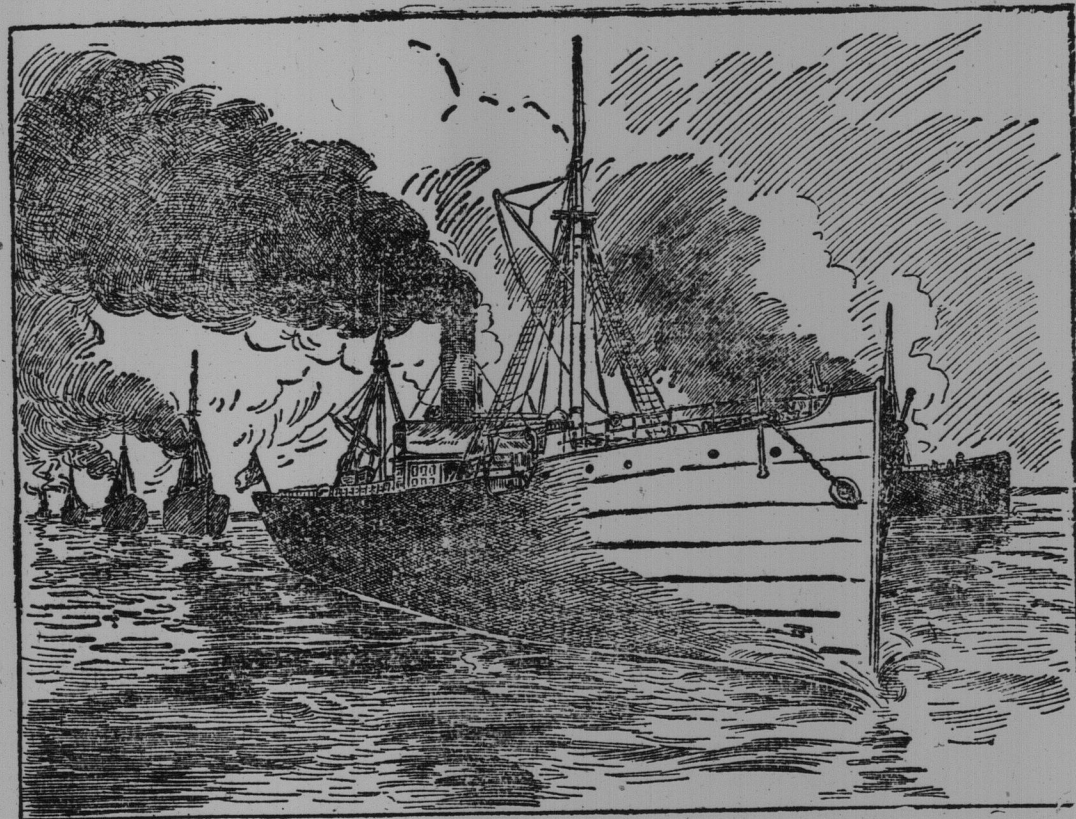

"Is Newfoundland prosperous?" "Yes, sir. So much so that they took the duty of flour last year and so American flour can come in on equal terms with Canadian flour. But Newfoundlanders prefer the best Canadian flour. They want the best and have the money to pay for it."

The reporter went down to the wharf and had a picture made of a Black Diamond steamer in the act of loading the flour.

Then he interviewed Mr. F. W. Thompson, the vice-president and general manager of the Ogilvie Mills. Mr. Thompson, with Mr. C. R. Hosmer, a Canadian Pacific director, bought the Ogilvie Mills two years ago and has been making out for a world trade in the flour made famous by the fact

STEAMSHIP LOADING OGILVIE FLOUR AT MONTREAL

THE FLEET OF STEAMSHIPS THAT IS CARRYING THE FLOUR.

that the Prince and Princess of Wales used it exclusively in their household. "Yes, we have undertaken to ship 65,000 barrels of our flour to Newfoundland in two months," said Mr. Thompson. "It would take the entire product of an ordinary mill for a year to fill such an order, but we can fill it as requested and still not fall behind in our other shipments."

### A LARGE ORDER FROM GREAT BRITAIN.

"Here is also an order for 33,000 barrels from R. Hunter Craig, of London.

He wants his flour all within a month. "You see the demand for Royal Household flour has increased enormously." "On account of the name?" "On account of its character. It's the best flour in the world. We have a special process of purifying flour by electricity. It is controlled by us and no other mill can use it. This process makes better flour than any process heretofore used."

"Better than the Hungarian process?" "Oh, yes, indeed. The Ogilvie Mills were the first to use the Hungarian

process. These mills introduced it into this country years ago. Now it is out of date, and we have discarded it, having found something better."

### THE NEW WAY OF MAKING FLOUR.

"This new way of making flour gives us the best flour the world has ever seen. It leaves every bit of nutriment in the flour that was in the wheat, but takes out everything that ought to be taken out. It makes such good bread and makes it so easily that it is becoming a fad among women of the highest social circles to make the

bread for their families out of Royal Household Flour. Most of these ladies never made bread before in their lives, but they find bread-making with Royal Household flour a pleasure, and their husbands are asking them to keep up the practice. It is a fact that in all countries the women of highest social prominence are following the example of the Princess of Wales in giving special attention to getting the best possible for their cuisines."

### WHERE ROYAL HOUSE- HOLD BREAD IS MADE.

Mr. Thompson took the reporter up

to the testing room, where the Royal Household Flour is baked into bread daily, and thus the millers are able to know that one day's milling is just as good as another day's milling, and that the Royal Household makes better bread than other flour, bread being baked at the same time from each of the other brands of flour upon the market, and the testing process being applied to each to make sure the Royal Household bread holds its position at the top of the list.

As the reporter was leaving, the manager showed him cablegrams from many foreign countries asking for quick shipments of the new flour.

**Dealers Getting Rich**  
**Out of Royal Household.**

"We co-operate with dealers and thus enable them to push their own interests and the interests of the public at the same time," he said. "One man, by dealing in this new flour, increased his profits very considerably last year over the year before. People everywhere give their trade to the merchant who has the best articles for sale. So we make the best there is in flour and thus the best dealers handle it in preference to other flour. This is an age when the best is the only winner."

# THE NEW WAY TO MAKE BREAD.

A Recipe Invented that Makes it Easy for Anyone to Bake Better Bread even than "Mother's Bread."

To bake good bread has always been among the first of the household virtues. Proud is the title "A Good Bread Maker."

Local fame holds no higher honor. Like the secrets of Hindoo magic, the secret of baking good bread has always been unknown to the uninitiated.

So thousands of families have had to go without good bread and content themselves with something of lesser deliciousness, lesser health, the bread baked by the baker or by the wife who has never learned how.

The day of good bread making has dawned. Everyone can now make good bread.

A recipe has been invented for making the best bread in the world.

By this invention any woman can make her own bread and make it so good that no other bread can excel it in deliciousness or health-giving qualities.

### WHAT A GOOD BREAD RECIPE MUST CONSIST OF.

The new recipe for making bread is so simple it can be mastered at a single reading. It has no complex things in it. The measuring is done with an ordinary coffee cup.

### SOCIETY WOMEN INTERESTED IN BREAD-MAKING.

In fact the process is so plain that women once reading over the recipe feel an inclination to try bread making, even though they may never have made a loaf of bread in their lives.

There is at the bottom of the feminine human heart a lurking desire to excel in that greatest of all arts—the art of cooking.

That is why so many society women are taking an interest in their cuisines—why such society leaders as Mrs. Stuyvesant Fish at Newport, the Mecca of American fashion, are going right out into the kitchen to see that things are cooked for their families as they ought to be cooked, and why in Montreal there is a woman getting prosperous from teaching prominent Montreal women—the wives of the richest and most prominent citizens—how to cook and how to superintend the cooking done by their servants.

### TRYING IT ONCE, THEY KEEP ON.

The other night an automobile party stopped at one of Montreal's most fashionable homes to take a little tea and the conversation got around to the subject of cooking.

"Do you know," said one of the ladies, "I am beginning to get a big reputation as a breadmaker. I got hold of that new recipe for making the Royal Household bread, and I tried it. You know that is the flour the Prince and Princess of Wales found out about

NATURALLY PROUD OF IT.

when they were over here, and have been using ever since. Well, I found I could make just as good bread as anybody and easy as nothing at all, and since then I have had to make all the bread eaten in our house. Our folks simply won't have any other."

"My experience exactly," said another young matron. "We have always been eating bakers' bread, but one day I tried that recipe you mention, and now we are eating the bread-I make. It's tough on me, but I don't mind it really. You see, it's so easy to make bread that way."

"My wife is getting to be a famous bread baker," said one of the men, "and I am getting to be a great bread eater. It's really fine when you get it the way my wife makes it. I like it so much that I pretty nearly live on it. My system needs toning up, and my doctor says a good simple diet is the thing. He says good bread is the best thing in the world for one's health, but to look out for heavy bread and sour bread—the kind of bread that gives you dyspepsia. I never knew what good bread was till we took to using this Royal Household flour and making our own bread."

### ROYAL HOUSEHOLD MAKES THE BEST BREAD.

This recipe is the one the Royal Household people have published.

It is the recipe that embodies the best bread making ideas in the world—studied out by a man who has put his whole life into a study of flour and of bread. He went to the West Indies and converted the colored people to good bread by going among them and showing them how to make good bread out of good flour. He went to the Mediterranean and introduced good flour and good bread there. He returned to this country, where he has converted the most aristocratic families into good bread makers by preaching the doctrine of good bread and good health, and then putting his ideas into the form of a recipe that will bring out all the deliciousness and health and energy there are in the flour and doing it so easily that there is no longer any excuse for anyone having anything less than the very best bread made out of the very best flour.

**DUNLAP, COOKE & CO.** The exhibit of these banner furriers in the heart of the main building is a thing of beauty and attraction. The public is free to discriminate between what is meritorious and what is feeble and frothy. Solonky has a permanent display of the most artistic eye, but stand the most minute inspection on their merits; hence their growing patronage as well as their ability to retain patrons once they transact business with the house.

Fred M. Sproul, of Hampton, told the press his most interesting in Dunlap, Cooke & Co's exhibit than in anything else he had seen in the building and grounds. It was a revelation to him to find a maritime province firm standing so far to the front over the active competition of Montreal and Toronto fur manufacturers houses. As a resident of this part of the Dominion he was proud to note this demonstration of what maritime brains and energy could accomplish.

**VITAGRAPH PICTURES DELAYED.**

Cameras Missed Connections and St. John Will Not Be Photographed Till Tomorrow

It was expected that the photographic of the American Vitagraph Moving Picture Company would commence work in this city today. A programme was arranged and all was in readiness for the work which was to begin at 11.30, when the Victoria school children in a fire drill would be taken. The programme for the day had to be abandoned, however, as Mr. French, the company's photographer, wired Meyers Cohen that there had been some delay in transferring the cameras across Boston from one depot to the other and that the train connection had been missed. Consequently he could not get here till 11.15 o'clock this evening. In consequence of this the programme has been revised as follows:

**Saturday—8 to 12.**—Rothway on the train at 8 a. m. to be looked after by Dr. McVey and party and driven back to city before 12. 12 noon—Tug boat at 4.30. **Monday—Details of programme have not yet been arranged, but there will likely be a fire drill of the school children at Victoria school and the balance of the day will be spent on the river, going as far as Fredericton.**

**POLICE REPORTS.**

William Riley was being reported by the police for climbing over the fence into the exhibition grounds.

A lady's belt found on Main street has been left at the North End police station.

Christopher Nichols and "Cris" Nichols have been reported for selling candy in the city without a license.
