### ANOTHER LETTER FROM THE FRONT

Mrs. W. P. Gray Receives Leng-  
thy Epistle From Her Son  
Charlie

Belgium, October 7, 1915.  
Dear Mother,  
Back again where we can write just  
what we want to. Am going to start  
where I left off at Longmoor.  
August 25th we left camp for  
Southampton, got on board a steamer,  
arrived on Calais 29th. Arriving, got  
the train there for Alveingham,  
changing to narrow gauge track at  
Furnes, marched to a farm near  
Hoogstade, arrived about 10 p. m.  
College we were that night that nobody  
thought of asking where the trenches  
were. Next day we found out that we  
were only four miles from the Ger-  
man lines. Went to the village of  
Lee, about two miles from the lines  
and saw the way they had battered  
the town up. Monday, Aug. 30, we  
went up to the trenches to start laying  
a narrow gauge line for supplies, we  
were about 800 yards from the Ger-  
mans. Did not know that they were  
so close till I heard a shell coming, it  
was shrapnel at that, but it burst at  
the back of us so did not do any dan-  
age. When the shell burst, the way  
that I got into a dugout was no way  
slow of course. After it burst it  
was harmless. Right after that the  
Belgian batteries replied, so we got a  
great baptism of fire that night.  
Working between the batteries is a  
great place to be, especially if you are  
fairly close and in line. I think not.  
Have gotten quite used to it now and  
don't mind it so much, as I can tell  
when a shell is coming close, you can  
hear them long before they break.  
Have never been in the trenches under  
fire, have had to quit work for a while.  
One Saturday afternoon we got  
caught in an open field. The Germans  
saw us from an observation balloon  
and shot fifteen or twenty shells at us,  
but did not get the range, that is  
how never been in the trenches under  
fire, have had to quit work for a while.

### LOCAL MEMBERS OF 26TH BATT IN THE LATE CASUALTY LISTS

Privates Savident, Thompson, G. Ilant, Belanger and  
Winchester Reported Killed in Action--  
Other Local Men Wounded.

#### LETTER FROM PRIVATE SAVIDANT

The war is now coming very close  
to us here in Campbellton. Reports  
are filtering through that the 26th,  
our own New Brunswick Battalion  
has been heavily engaged and the casu-  
alty reports are being eagerly scanned.  
The first battalion which suffered  
heavily at Ypres has again been shat-  
tered, there being reported fourteen  
killed and many wounded.  
Up to yesterday the local casualties  
include the following:  
Killed in Action:  
Pte. James Thompson, Richardville.  
Joseph Sylva Gallant, Athol.  
Jerome Melanger, Val Brilliant.  
Dawson Winchester, Dalhousie.  
George Almon Savident, Camp-  
bellton.  
The Wounded are:  
Pte. D. E. Delaney, Dalhousie.  
James McDavid, Matapedia.  
Watson Baird, Port Daniel.  
Jas. Earl Robertson, New Rich-  
mond.  
Harry S. Murray, St. Charles de  
Caplin.  
No doubt this list will be largely  
augmented before many days, but un-  
til official word is given of the casu-  
alties, it is wise to keep silent.  
When the word of the deaths was  
received here on Tuesday, a wave of  
sympathy swept over the community,  
and while there were many anxious  
hearts awaiting news, they did not  
withhold their kindness to those whose  
names were in the list of the fallen,  
and their sympathy was ever  
ready to be extended to those who  
were in the list of the wounded.  
While in all cases the official news  
of the casualty brings a heavy care, in  
the case of Mrs. Savident it was par-  
ticularly touching. She had only short-  
ly before had a letter from her son,  
when the Adjutant General's telegram  
was received, "Deeply regret to in-  
form you that 6088, Pte. George Al-  
mon Savident, 26th Batt., officially re-  
ported killed in action." This was a  
great shock to her and Mrs. Savident  
has been prostrated by the sad news.  
The letter from her son was as fol-  
lows:  
France, Oct. 8th.

### LIEUT. O. MOWAT WINS DISTINCTION

Letter Received From Lieut. T.  
O'Brien Gives Interesting  
News of Campbellton Boy

Mr. Max M. Mowat has received a  
most interesting letter from Lieut.  
Tim O'Brien, in which he gives some  
information regarding the work of his  
son Lieut. Ollie Mowat. At the re-  
quest of a number of friends the let-  
ter is herewith published.  
19th Battery,  
Otterpool Camp,  
Co. Kent Eng.  
c/o Army P. O., London.  
Dear Mr. Mowat:  
I must tell you a bit of most excel-  
lent news that I heard last night.  
As an introduction to this news let  
me tell you that from our Brigade we  
have sent four of our supernumeraries  
to the firing line. They went a week  
ago in order to relieve four other fel-  
lows, who were to be transferred back  
to us for a rest. These new men  
turned up yesterday direct from the  
firing line. One of them, Darling, by  
name, was in my tent last night hav-  
ing a cup of cocoa with a few of us,  
and we asked him if he had seen any  
of the late big scrap. He said yes, he  
had begun before he left. In the  
day time, there is hardly any shooting  
except a little from the big guns. The  
accommodations in the trenches are  
hardly as good as we have outside,  
because the water and food has to be  
carried such a distance and all done  
after dark. Don't forget to send  
something to smoke and a heavy pair  
of mittens. Love to all.  
Your son,  
ALMON.  
The sorrow which has entered many  
homes is shared by all the citizens and  
the grief is tempered in no small de-  
gree by the thought that the boys who  
have fallen saw their duty ahead to  
their King and Country, and fell sac-  
rificing heroes in the cause of free-  
dom. Their memories will be ever  
cherished.  
Halifax, Oct. 26.—Howard McPhee,  
134 North street, this city, this morn-  
ing received notification from Ottawa  
that his brother Morris McPhee, had  
died of wounds at the front. Morris  
McPhee was employed in St. John  
when the 26th was organized. He was  
among the first to enlist, and was a  
member of the machine gun section of  
that corps. He was about twenty-one  
years of age. According to the noti-  
fication, McPhee died on Oct. 3.  
Pte. McPhee enlisted in the 26th  
Batt. in Campbellton, at the time when  
Major A. E. G. McKenzie was signing  
on recruits here.

### RESTIGOUCHE BOY ON WAY TO THE FRONT

Pte. Daniel Delaney Passes  
Through Here Last Thurs-  
day With 44th Batt.  
Private Daniel L. Delaney, formerly  
of Flat Lands, but for the last sixteen  
years a resident of the West, passed  
through Campbellton, Thursday the  
21st on the first section of troop  
trains conveying the 44th Battalion.  
He was for a number of years employ-  
ed in the lumbering business of Ore-  
gon, but reading and hearing of the  
glorious acts of the Canadian boys,  
Dan said he could not resist the tempt-  
ation of coming to Sewell, Manitoba,  
to enlist in April just to get an Irish  
stroke at the Germans.  
No one in this troop were allowed  
to visit after enlisting. He wired to  
his mother, Mrs. William Delaney and

### RECRUITING SLOW HERE THIS WEEK

Four Men Signed on and Officers  
Have Number in View. Await-  
ing Billeting Arrangements  
The Recruiting Officers in town re-  
port a very quiet week in recruiting  
circles, only four men being signed on  
so far. This quiet time is explained  
by the officers, as being the result of  
the full arrangements for billeting the  
troops not being completed, but they  
have quite a lot of men in view, who  
will sign on whenever the word comes  
to start billeting. A proposal was on  
foot to try and get 500 men billeted  
here, but so far no definite word of  
this has been received.  
Recruiting Officer McDonald left  
this morning for Halifax to interview  
the head officers with regard to some  
details and it is probable on his return  
he will have full instructions regard-  
ing billeting of troops here.  
Lieut. de la Perrelle left on Tuesday  
on a recruiting trip over the Internat-  
ional road, and he will go as far as  
St. Leonards, working in Madawaska.  
Notwithstanding the lack of volunteers  
these last two weeks the officers are  
not discouraged, knowing that many  
will sign on to remain in Campbellton  
over the winter.  
Recruiting Officer McDonald has  
taken with him to Halifax plans and  
drawings of the old I. N. R. station  
and other suitable buildings near there  
which could be used for the billeting  
of troops, and put in order at little  
cost.

### HUNTING TRIP

Mr. and Mrs. R. K. Shives and party  
returned on Monday from a most suc-  
cessful hunting trip. They were able  
to bring away with them two deer,  
one moose, and a good quantity of  
partridge.  
Campbellton Station. There a reu-  
nion of half an hour took place, after  
an absence of sixteen years. Tears  
were in many eyes at the brave words  
of the mother, "I am proud of my  
soldier boy" and despite the downpour  
of rain crowds of old friends were  
there to give Dan a hearty handshake.  
He was very popular with every one  
who knew him.

### FRENCH RESERVIST WINS PROMOTION

News Received Here That  
George LaCaroze is Promoted  
For Valour on Field  
Word has been received by relatives  
here that George LaCaroze of the 10th  
Regiment Colonial, has been promot-  
ed to the rank of sergeant.  
Sergeant LaCaroze originally hailed  
from St. Pierre Micelon, where he  
served his time in the French Navy.  
He removed to Campbellton where he  
worked for some time as a carpenter,  
and was called up at the beginning of  
the war and transferred to the 10th  
Infantry Regiment, in which he has  
seen much service. He took part in  
the great drive in the Champagne dis-  
trict and a few weeks ago was detailed  
for special duty, which he accomplish-  
ed successfully and as a reward was  
promoted to the rank of sergeant.  
His relatives here have been well  
informed by him of the progress of the  
war, and in one of his letters he  
speaks of the last fight his detachment  
was engaged in, where they attacked  
the enemy 217 strong and came out  
with only 86, the rest being killed and  
wounded.  
So far he has received no injury and  
looks forward to the time when the  
Germans will be driven clear out of  
France.

IS APPOINTED AS ASSISTANT PROVOST

Federal Government Recognizes Effective Work of Mr. D. A. Noble of Sydney

The Sydney, N. S. Record says: "Information was received by the Record this morning that D. A. Noble, chief agent of the Dominion Coal and Steel companies for the past five years, has been appointed assistant provost-marshal for the Island of Cape Breton, with headquarters in Sydney.

It is understood that the new official, who will hold the rank of captain in the Canadian militia, has been appointed in recognition of his services for the federal government in connection with the supervision of the residents in this district hailing from alien enemy countries.

Since war was declared Capt. Noble has, without remuneration, it is learned, added to his numerous duties as chief peace agent of the two great industries that of keeping in touch with the workmen of alien enemy nationalities, of whom there are quite a number in this part of Canada.

Cape Breton has been singularly free of disturbances emanating from alien recalcitrants and this state of affairs is credited to the quiet but effective work of Chief Agent Noble.

Capt. Noble was for eleven years previous to coming to Cape Breton connected with the I. C. R. police service, four of which he held the position of inspector. He is probably the most widely known peace officer in the maritime provinces.

Captain Noble it will be recalled, was employed for many years as I. C. R. police inspector between Moncton and Lewis, and when Mr. M. J. Butler assumed the management of the Dominion Coal & Steel works at Sydney, he recognizing Mr. Noble's ability and faithfulness as police officer, appointed him as special agent for the Company, and placed all its offices both at Sydney and at Springhill, N. S., under his charge.

Since the breaking out of the war Mr. Noble has been particularly active in watching and checking the movements of the different aliens in the mining towns of Nova Scotia and reporting to Col. Sherwood, the Commissioner of the Dominion Police at Ottawa.

It is because of his excellent ability shown in efforts in the direction pointed out that he has received the well merited appointment announced in the preceding paragraph. His host of friends in Moncton and along the North Shore will be pleased to learn of his advancement.

Mr. Noble is married to a daughter of Mr. and Mrs. G. E. Aker of this town.

GLOUCESTER MEN IN THE 64TH BATT.

- C. Doucet, Petit Rocher. Philip Arseneau, Petit Rocher. Jule Malley, Tracadie Beche. John Miller, Bathurst. John McGovern, Bathurst. Edward Lavigne, Bathurst. Edward Leasure, Bathurst. Frank Hachey, Bathurst. F. Hebert, Caraquet.

Sleepy policemen who do not report hourly in the early morning in Philadelphia are being fired.

Fit-Reform Made To Measure

Certainly, we make Suits and Overcoats to individual measure. This part of our work has made many good friends for this establishment. The unusually large number of patterns that we are showing—and the certainty of getting perfect fitting garments—are two attractive reasons why we should make your Suits and Overcoats to order.

SHARP ATTACK REPULSED

Dangerous Condition Relieved Just in Time By "Fruit-a-lives"

MR. F. J. CAVEEN

For two years, I was a victim of Acute Indigestion and Gas In The Stomach. It afterwards attacked my Heart, and I had pains all over the body, so I could hardly move around. I tried all kinds of medicines but none of them did me any good. At last, acting on the advice of a friend, I decided to try "Fruit-a-lives". I bought the first box last June, and now I am well, after using only three boxes. I recommend "Fruit-a-lives" to anyone suffering from Indigestion, no matter how acute". FRED J. CAVEEN.

NO LIQUOR WHERE TROOPS ARE BILLETED

If This Rule is Violated the Soldiers Will be Removed

Ottawa, Ont., Oct. 21.—Sir Sam Hughes in a telegram sent out to all recruiting centres announces that no troops are to be billeted in Canada at any establishment where liquor is sold and that the regulations will be rigidly enforced. Where there is any abuse of the Military Department's standards in respect to liquor, troops will be removed from the locality. Otherwise, all troops above a minimum of twenty-five, accepted for enlistment, will be permitted to remain where they are until military needs require their removal.

"While we have every faith that the soldiers everywhere in Canada, will as in the past, conduct themselves as gentlemen and that the citizens in each locality will establish high standards," reads the message, "yet should any place permit abuses to remain the troops would promptly be removed."

THE DAY

(By Henry Chappell, in the "Daily Express") The author of this magnificent poem is Mr. Henry Chappell, a railway porter at Bath. Mr. Chappell is known to his comrades as the "Bath Railway Poet." A poem such as this lifts him to the rank of a national poet.

You boated the Day, and you toasted the Day, And now the Day has come. Blasphemer, braggart and coward all, Little you reck of the numbing ball, The blasting shell, or the "white

arm's" fall, As they speed poor humans home, You spied for the Day, you lied for the Day, And woke the Day's red spleen. Monster, who asked God's aid Divine, Then strewed His seas with the ghastly mire;

Not all the waters of the Rhine Can wash thy foul hands clean. You dreamed for the Day, you schemed for the Day; Watch how the Day will go. Slayer of age and youth and prime— Defenceless slain for never a crime— Thou art steeped in blood as a hog in slime, False friend and cowardly foe.

You have sown for the Day, you have grown for the Day; Yours is the harvest red. Can you hear the groans and the awful cries? Can you see the heap of slain that lies, And sightless turned to the flame-split skies— The glassy eyes of the dead?

You have wronged for the Day, you have longed for the Day That lit the awful flame. 'Tis nothing to you that hill and plain Yield sheaves of dead men and the grain; That widows mourn for their loved ones slain, And mothers curse thy name.

But give the Day there's a price to pay For the sleepers under the ead, And He you have mocked for many a day— Listen, and hear what He has to say: "REPENTANCE IS MINE, I WILL REPAY."

What can you say to God?

FRENETTE-CULLIGAN A popular wedding was solemnized by Rev. T. Van de Moortel in St. John the Evangelist church, Belledune (N. B.), Tuesday morning at 8 o'clock, when he joined in marriage Miss Opal Culligan, youngest daughter of the late John Culligan and Mrs. Culligan, and Arthur Frenette, popular traveller for Reed Co., Ltd. The bride, attired in her travelling costume of blue serge, black picture hat and mink furs, the gift of the groom, was attended by Miss Annie Uitevan, in tobec brown corduroy velvet, while the groom was ably supported by his brother, Delphis. A tempting breakfast at the home of the bride's sister, Mrs. George Annett, followed the ceremony, after which the bridal party motored to Bathurst, where Mr. and Mrs. Frenette took the Limited for a honeymoon trip to St. John, Portland and Boston. The young pair received many beautiful and costly presents, testifying to the high esteem in which they are held by their many friends, who wish for them future happiness.

### GIN PILLS

**What They Have Done**

"I suffered a great many years with kidney trouble; tried several remedies, and also doctors' medicine, with no result. Two years ago I read an ad. in a newspaper of 'GIN PILLS FOR THE KIDNEYS,' and sent for two boxes. They did me more good than all the medicine I had ever taken. After I used the first two I sent the two more boxes, and I am satisfied, and also know that Gin Pills are the best kidney remedy made.

"I used to have to rise three or four times in the night; now I can sleep and don't have to get up at all, thanks to GIN PILLS. Am seventy-two years old."

Campbellton, N. B., Oct. 28, 1915.

The statement that the L. C. R. authorities had refused permission to the band to play at the station on the arrival of soldier trains, has proved to be an idle rumour. The following article from the Montreal Transcript should therefore set all fears at rest.

"The editorial which appeared in these columns on Saturday respecting the Bands being prevented from meeting at the L. C. R. station, it is claimed by the I.C.R. authorities was mistaken. So far as they are concerned, no such instructions were given. This journal is assured, both by Mr. Gutelius, the General Manager and Mr. McNeillie, the General Superintendent, that investigation reveals that no such instructions had ever been issued or were contemplated, but that on the contrary the sympathies of both these gentlemen are strongly with encouragement being given to the troops as passing through, whenever there is an opportunity for so doing.

It appears that the misunderstanding arose through an order, which was given, affecting only one special occasion being interpreted by the Band to mean every occasion.

It is difficult to get at the bottom of the trouble, but inasmuch as the publicity given in these columns to the matter has led to a complete clearing up of the situation, this journal is glad that it published the article. It will be the means of creating a better feeling in the city.

So far as the one special occasion is concerned, the facts underlying the reason why the request was made, have been communicated to the Transcript, and it is satisfied that Mr. Gutelius and Mr. McNeillie and the officials of the road acted wisely in the course which was then adopted.

The Transcript further learns that the views of the I.C.R. Management are that the serenading of the troops at reasonable hours are a distinct public advantage, and it agrees with the view expressed in these columns that thereby recruiting is encouraged.

Some months ago an article appeared in The Montreal Gazette, in which it was pointed out that among the places in Canada, which were really and heartily cheering and encouraging the troops was Moncton, and it said that the citizens deserved much credit for so doing. It is understood that the inspirer of that article was Mr. Gutelius, the General Manager of Government Railways, for which he deserves commendation."

**IN SOUTH AFRICA**

General Botha's victory in the Union of South Africa elections has been complete. The return of fifty-four government candidates and forty-four Unionists assures a united strength of ninety-eight in a House of one hundred and thirty members. The four labor members are not hostile to the imperial policy of the government. The bitter campaign carried on by the Nationalists under Hertzog has given them only twenty-seven seats. Although the safety of the government depends on the support of the Unionists, there is little danger of a break in friendly relations between Botha and the Unionist parties, at least while the war continues, for it was that issue which brought them close together. The Botha party is made up largely of Boers friendly to British connection, while the Unionist party is largely of British element. The Nationalists looked for support from those openly or secretly opposed to British rule, those friendly to the rebels, Moritz Byers and DeWet. The loyalty of the Boers who only a few years ago were at war with Britain is proven by the splendid support given Botha, and the signal defeat administered the Na-

tionalist agitators, the object of whose campaign was to prevent a South African force being sent to Europe. Premier Botha's victory is more than a personal triumph. It is a splendid endorsement of Great Britain's colonial policy, a splendid tribute to the foresight of Sir Henry Campbell-Bannerman and the Liberal government which gave self-government to the Boers. The surprise of the campaign was the almost complete extinction of the labor party. In the great crisis facing the country men forgot local differences and united to support the Premier, who, at the head of the armies of the Union, carried the Union Jack to the German capital and brought under British rule the great African empire of the Kaiser. South Africa has many problems yet unsolved, problems which may make and unmake governments, but until war is over there is but one problem, and to the solution of that the best-thinking men of all classes are given their undivided attention, under a leader who as a Boer general demonstrated those qualities which have since made him one of Britain's greatest colonial statesmen.—Globe.

### THE SUMMONS OF THE BAGPIPES

When the wind is on the heather,  
Whistling wind that whips and thrills,  
And the voice of many waters  
Wanes and waxes in the hills,  
In Braerach's mighty corrie  
Hanging high o'er Pools of Dee,  
Sounds the elemental music:  
"Come, my children, follow me!"

Long ago some cunning clansman  
Caught the secret of the Bens,  
Shut it up within a sheepskin,  
Bore it from the hidden glens,  
And today in sordid cities  
Something stirs in the wind,  
When the pipes cry down the cause-way:  
"Come, my children, follow me!"

Hear them in the streets of London  
Drawing men in growing ranks,  
Men who never saw a corrie  
Or a mountain's smoking flanks,  
But their heart-beats tell them truly:  
"Follow if ye would be free!"  
Straight they answer to the summons:  
"Come, my children, follow me!"  
—D. H. L. in the Glasgow Herald.

### THICK, GLOSSY HAIR FREE FROM DANDEUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application to the hair restores its natural beauty, besides it immediately dissolves every particle of dandruff. You can not have nice, wavy, baby hair if you have dandruff. This destructive scrub robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair root loosens, falls out, and the hair falls out fast. Surely get a 25-cent bottle of Knott's Danderine from any drug store and just try it.

### GOOD FISHING BY BRITISH TRAWLERS

The British navy having virtually cleared the great oceans and the North Sea of predatory German warcraft, is now directing its attention towards the Baltic Sea and evidently from the tenor of the despatches, the fishing is good. An interesting development of the war is the marvellous use to which Great Britain has placed her trawling fleet. Under the conditions of warfare, it was difficult for the trawlers to go out on the North Sea and fish securely, because their presence here might be the means of permitting other nationalities availing themselves of the fishing and afford an opportunity of German mine laying, but Great Britain took her trawlers and changed them into mine sweepers and employed about 2,300 of these vessels on that service. Some of the trawlers have been employed even in the operations in the Dardanelles. There is a rumor that one or two of them have been employed in the St. Lawrence estuary. When the newspapers almost daily chronicle the destruction of a British trawler by a mine, a sort of pessimism was created at the loss of so many ships, engaged on a peaceful vocation. But the fact was that the trawlers were actually lost in mine sweeping and were not the accidental victims of the mine. It was a dangerous occupation, even more dangerous than being on an ironclad, but these plucky British trawlers nevertheless faced the situation and rendered their country a service, second only to that of the navy. These trawlers were scattered everywhere, and their patrol lasted fifteen days in each month, with about one-third of the month lying at moorings, ready to go out and the remainder of the month used for shore leave. The strain upon these men when at sea was tremendous. They had to patrol five miles, back and forth, with no change, looking, always looking for the almost hidden danger in mine, which was surreptitiously laid, and which it was their duty to locate. No matter whether he be moderately rough or a fierce hurricane, they were

### HAD ECZEMA 20 YEARS

Cured by Zam-Buk

Mr. Joseph Johnson, 584 Broome St., New York, writes: "Over twenty years ago eczema appeared on my hands and face. I went to a doctor, but his treatment afforded only temporary relief. Finding medical attention and treatment of little avail, I commenced to try first one and then another of the so-called remedies which were recommended, but for over twenty years I suffered from this painful, humiliating disease. During this time I spent hundreds of dollars and all I got was temporary relief. At last Zam-Buk was suggested to me; I decided to give it a trial, but did not expect a cure.

"The first few applications proved this remedy entirely different to the scores of preparations I had used in vain. Perseverance with Zam-Buk and Zam-Buk Soap, I am more than glad to say, has effected a complete cure. Zam-Buk is beyond all question a marvellous preparation and I most heartily recommend it to all sufferers from eczema."

Think of it, suffering day in and day out for twenty years! Think of the grip this disease must have had on the entire system! Think of the healing power of Zam-Buk which, despite the long-standing nature of the disease, effected a cure! How much more easily and more quickly the cure could have been effected had Zam-Buk been applied at the outset!

If you suffer from any skin disease or injury, piles, ulcers, abscess, rheumatism or sciatica, take this lesson to heart. Try Zam-Buk first and give it a fair trial.

At all druggists and stores, or paid from Zam-Buk Co., Toronto, 50c. box; 3 for \$1.25. Zam-Buk Soap, 25c. tablet. Send in stamp, this ad. and name of paper, and we will mail you free sample of Zam-Buk.

### APPEAL MADE TO N. B. TRAVELLERS

To Form a Platoon in the New 104th Regiment Under Lieut. Col. Fowler

An appeal is made to the members of the New Brunswick Commercial Travellers' Association to form a platoon for the 104th Battalion under Lieut.-Col. Fowler. There are about six hundred members of the association in this province, and a large majority of them are of military age. The response is expected from the younger men. The appeal is made to their patriotism, and it is for the honor and safety of their homes and of Canada they are asked to enlist. They are an intelligent body of men, who do not need to have the case argued with them to prove the urgency of the need, or the way the finger of duty points for them. "Why are you not in khaki?" is a question that is likely to be asked of commercial travelers as well as of other young men seeking business when real business of this country is at war, and when the wheels of commerce can be kept moving by those who are not physically fit to go to war.

Lieut.-Col. Fowler will welcome a platoon of commercial men, and their comradeship will be continued in arms as on the road, with the difference that their rivalry will only be that of soldierly quality instead of trade competition. Moreover, by enlisting they will set a splendid example at this particular time when King George himself has found it necessary because of the gravity of the situation to make a personal appeal to the manhood of Canada.

There should be no difficulty in organizing a platoon, perhaps a whole company. A meeting of travelers will be held in the board of trade rooms on Saturday evening to be addressed by Lieut.-Col. Fowler, and every knight of the road who can get to the city for the meeting should attend. It is the king's business, which in this crisis is also the business of every citizen of Canada. It should appeal to none more forcibly than to the members of the New Brunswick Commercial Travellers' Association.

The Hohenzollerns have ruled in Berlin for five hundred years and ruined Germany in one.

### MONTREAL MAN IS SHOT AT BATHURST

Went to Home of His Wife's Relatives and Tried to Force an Entrance

Bathurst, N. B., Oct. 23.—A man named McQuig, who recently removed here from Montreal, landed in the lockup Friday with a bullet wound in one hand and one in the knee, as the result of his efforts to force his way into the residence occupied by his wife's relatives here, with whom he has been living since his arrival here from Montreal.

He is a machinist by trade, but being out of work at Montreal, he came here and got a job as an offer at the mill. He was getting everything fixed up comfortably for his winter, but fell off the water wagon Thursday night. When he went home his wife's relatives refused to let him in, and when he tried to force an entrance he was shot through the hand and knee, but not seriously wounded being then arrested.

Friday morning his first enquiry was not for a doctor, but a lawyer.

### RELIC FROM THE FRONT

White's Drug Store have on exhibition in their window the remains of a German shell sent from the front by the Malcolm boys to their parents here, who kindly lent it as an exhibit, as many persons were desiring of seeing it. This shell was responsible for the wrecking of their motor truck, which the Malcolm boys charge, which was proceeding with material to repair a culvert under a railway bridge which had been damaged, killing and wounding six Belgian workmen, but fortunately none of the Construction Corps. The shell appears to have been a high explosive one and what is left weighs about six pounds.

### DISTRIBUTION OF SEED GRAIN AND POTATOES

From the Dominion Experimental Farms, 1915-1916.

By instructions of the Hon. Minister of Agriculture a free distribution of superior sorts of grain and potatoes will be made during the coming winter and spring to Canadian farmers. The samples will consist of spring wheat (about 5 lbs.), white oats (about 4 lbs.), barley (about 5 lbs.), and field peas (about 5 lbs.). These will be sent out from Ottawa.

A distribution of potatoes (in 3 lbs. samples) will be carried on from several of the Experimental Farms, the Central Farm at Ottawa supplying only the provinces of Ontario and Quebec.

Each application must be separate and must be accompanied by the applicant's name and address. Only one sample of grain and one of potatoes can be sent to each farm. If both samples are asked for in the same letter only one will be sent. Applications on any kind of printed form cannot be accepted.

The destruction by fire of the cereal building at Ottawa, which contained grain-cleaning machinery and a large stock of seed grain for distribution, may make it necessary to curtail the distribution to a certain extent. We shall fill as many as possible of the applications which conform to the rules; but requests received after the end of December will probably be too late. Samples cannot be sent in response to applications (no matter when received) which fail to state clearly the needs of the applicant, his experiences in crop-raising, and the character of the soil on which he intends to sow the seed.

All applications for grain (and applications for the provinces of Ontario and Quebec for potatoes) should be addressed to the Dominion Cerealist, Central Experimental Farm, Ottawa. Such applications require no postage. If otherwise addressed, delay and disappointment may occur.

Applications for potatoes from farmers in any other province should be addressed (postage prepaid) to the Superintendent of the nearest branch Experimental Farm, in that province. J. H. GRISDALE, Director, Dominion Experimental Farms.

### PACK VERY CAREFULLY PARCELS FOR SOLDIERS

Directions as to Shape, Covering and Other Conditions

Ottawa, Oct. 21.—The Postmaster-General points out that a large number of parcels for prisoners of war abroad are still found to be unfit for onward transmission in consequence of inadequate packing. Parcels should be very strongly packed. Even where proper materials are used, it is important that the contents should be lightly packed, so as not to shake about during transit.

In view of the exceptional conditions of transit, involving several transshipments and exposure to great heat, it is necessary that parcels for the Mediterranean expeditionary force should be very carefully packed. The following recommendations are made as a result of the experience of the Army Post Office:

All parcels should be as nearly round as possible, and should be well padded with shavings, crumpled paper or other similar protective material. The outer covering should consist of strong linen, calico or canvas, or other textile material, and should be securely sewn up.

As an alternative, parcels may be packed in boxes made of strong, double-corrugated cardboard or straw-board. Parcels merely wrapped in paper, or packed in thin cardboard boxes, such as shoe boxes, cannot be accepted. No perishable articles may be sent, and anything likely to become soft or sticky, such as chocolate and sweets, should be packed in tins.

### CARD OF THANKS

Mr. and Mrs. Wm. Gaudin of Escuminac and family, wish to thank their many friends for their kindness shown them in their recent sad bereavement.

# Your Child's Cough

Is it nothing? Is it to be neglected until it leads to that terrible scourge consumption? Peps stands between winter coughs and colds, and serious consequences. Peps are tablets made up of Pine extracts and medicinal essences, which when put into the mouth turn into healing vapors. These are breathed down direct to the lungs, throat and bronchial tubes—not swallowed down to the stomach, which is not ailing.

Try a box of Peps for your cough, your croup, hoarseness or asthma. All druggists and chemists sell Peps. In Toronto, write to the manufacturer.

## PETIT ROCHER

A recruiting meeting was held here Sunday afternoon. Officer Naubert, who has been at the front and who fought at Langemark addressed the meeting. Messrs. O. Turgeon and P. J. Veniot also said a few words on the necessity for the young men to enlist, if we want to see the Germans beaten.

Officer Naubert was wounded twice, but that does not prevent him going back to the front as soon as he will be free to do so. He gave the audience a very vivid account of the German activities in Belgium and the North of France. Officer Naubert is as good a speaker as he is a soldier and his address made a very good impression. The meeting was well attended.

Dr. Richard and Mr. R. J. DesBrisay residences will be completed this fall.

Farmers are done digging potatoes. The potato crop this year is as small as we have seen for many years.

### TWO HUNDRED AND FIFTY STORIES.

And every story a good one. They are entertaining, but that is not all you can say about them. You know there is hardly a periodical published that is not full of time-wasting stories, but not a single story in The Youth's Companion is a time waster. Take the stories of C. A. Stephens. It would be hard to pick out one from which you cannot learn something useful and yet entertaining.

Some of The Companion stories refresh your knowledge of geography; some tell you the mysteries of chemistry, some reveal the secrets of forestry and domestic industries. They cover a wide range. They are chosen with an eye to the possible fitness of every member of a Companion family—stories of vigorous action and stirring adventure for boys, stories of college life and domestic vicissitudes for girls, stories that range all the way from sheer drollery to deep seriousness for men and women. There are no stories quite like these in The Companion.

If you are not familiar with The Companion as it is to-day, let us send you sample copies and the Forecast for 1916.

New subscribers who send \$2.25 for 1916 will receive free a copy of The Companion Home Calendar for 1916. In addition to all the remaining 1915 issues from the time the subscription is received.
