

European Intelligence

HUNGARY AND AUSTRIA.

A very large and enthusiastic meeting was held in London at the London Tavern, to express public sympathy with the efforts being made by the Hungarians for the achievement of their independence...

It is certain that up to the hour of the very latest intelligence from the seat of war, there are only reasons for entertaining the greatest confidence in the strength and glory of the Hungarians...

More triumphs in Hungary.—The Liverpool Journal of the 25th ult. contains the following intelligence, received by electric telegraph...

Another battle has been fought by the Russians and Hungarians. Dembinsky has achieved another victory at Duna Kessli, midway between Pesth and Waizen...

Three short bulletins, of Gen. Bem, announced the capture of Brickwitz, the retreat of the Russians, his pursuit, and their defeat after a seven hours' battle...

Other accounts say that the Russians have retreated to Cronstadt, and that Bem is preparing to attack them. He appears to have complete command of the south.

LIVERPOOL TIMBER MARKET.—The arrivals from British America during the month consist of 62 vessels, 32,509 tons, against 44 vessels, 22,878 tons, in same month last year...

There are no troops at San Francisco, and none were needed. The rainy season had set in at Chagres, and much sickness prevailed at Panama.

Accounts from California, by letters and papers, state that Gen. Smith had taken refuge on board a ship from Mobile. Real estate at San Francisco was uncommonly high. The Parker House rents for \$95,000 per year.

The accounts of ill success in California, from Mexican journals, are wholly untrue. The ship Philadelphia, belonging to New

York, was burnt to the water's edge on the 26th of June, at San Francisco.

General Riley had summoned a Convention to meet at Monterey, to form a plan of a territorial government.

It is rumoured that Lord Elgin has resigned.

The accounts from the mines are very contradictory, but digging appears to go on briskly. Mechanics of every kind are in great request; and carpenters command any rate of wages.

Notwithstanding the absence of civil law, the country remains in a perfectly tranquil state, and no depredations of an atrocious character have occurred, except those committed by the volunteers.

Houses still command enormous rents, and lodging is stated to be as high as three dollars per night, without a bed to lie on.

Houses and lumber are very high and scarce. A house, about forty feet long by twenty feet wide, worth in the States four hundred dollars, would readily sell here for \$2,500.

Though immense quantities of gold has been found, it was considered to be unexhausted. At the mines, Lynch law was supreme.

Nearly every sailor that arrives, runs away to the mines and works a while, but soon returns to San Francisco, to take a spree and spend his money.

From Florida.—The Indian outrages in Florida continue. The plantations are all deserted, and the frontier towns along the St. John and Lake Monroe are all placed under military protection.

A Murderous Establishment.—An Ohio paper, noticing the erection of a new Bank building erected in Cleveland, "does it up," in the following fanciful manner:

To show that we are progressive people, look at the elegantly constructed and arranged new State Bank building, on the corner of Bank and Superior streets.

The majority of vessels that arrive from the United States, go up to Benicia. Twenty vessels, from Boston, New York, and Baltimore have arrived, among which are the Carolina, and the Pilot Boat, Hackstaff.

The health of San Francisco was good. The gambling houses are closed on Sunday, and labour of every kind is suspended. Four churches have been built.

San Francisco looks like a beleaguered city, there being 2000 tents in its vicinity. Fifty or sixty cargoes of goods remain unsold. Gold is plentiful, and selling at \$15 per ounce for specie, and \$16 for gold.

Merchants are generally doing well, charge 10 per cent for commission for selling and guarding merchandise consigned to them.

On the first of August, a Convention was to have been held, at which delegates were to be chosen to form a territorial government, and apply for admission into the Union.

There is a city government already established and in operation. The health of persons at the mines was very bad. Fever and chills prevailed to a great extent.

The sloop of war Warren was lying at San Francisco. The Ohio had gone to the Sandwich Islands. About 100 vessels were lying at San Francisco, entirely destitute of sailors who were very scarce, and wages were from \$100 to \$200 per month.

The steamship Panama was announced to leave Panama on the 28th of August, and the Oregon on the 1st of September. 700 emigrants were at Panama waiting for a passage.

The Empire City arrived from New York as the Falcon left Chagres. Accounts from California, by letters and papers, state that Gen. Smith had taken refuge on board a ship from Mobile.

Real estate at San Francisco was uncommonly high. The Parker House rents for \$95,000 per year. Single large rooms rent for \$18,000.

ARRIVAL OF THE AMERICA.

ONE WEEK LATER FROM EUROPE.

The English news by the Steamship America, was received in St. John by the Press Express, on Wednesday last, and a synopsis of the intelligence, was given in an

LAUNCH.—On Saturday last there was launched from the building yard belonging to Chas. Macpherson, Esq., at Fredericton, a fine copper fastened Brig of 254 tons, O.M., called the "Clancy," built for Mr. Macpherson by Mr. Abner Titus, from the best material to be found in the country. For strength, symmetry, and workmanship, the Clancy will bear comparison with the finest vessel of her class registered in Saint John, and is pronounced by competent judges to possess all the requisites of a fast sailing and safe sea vessel. She carries as her head the figure of a Highlander in full costume, carved by Mitchell of Saint John, in a style which reflects great credit on the artist.

More than twenty years have elapsed since the inhabitants of this city had an opportunity of witnessing a ship launch "at home," consequently the novelty of the thing, which combined with the interest which our good people feel in the revival of this branch of industry among us, attracted an immense concourse of spectators.—Head Quarters.

As there is a probability that hay will be scarce during the ensuing winter, we would suggest to our agricultural friends the policy of securing the corn stalks for fodder, this may be done by topping them just as the corn begins to turn. Cattle will thrive as well on corn stalks secured in this manner, as they will on hay.—Carleton Sentinel.

A correspondent at Halifax writes, that several cases of cholera have occurred in that City, according to the opinion of Medical men, but there have been no deaths.—[New Brunswick.

REGISTRATION OF LORD ELGIN.—Montreal, Aug. 8th.—The rumour is continually gaining ground that Lord Elgin has resigned and will shortly leave by the way of Upper Canada for Buffalo and New York.

Lord Bruce was christened on Monday last. A select company of about 50 persons were present on the occasion.

Aug. 7.—The Government agreed last night to subscribe £125,000 in the stock of

St. Lawrence and doe in 5 years.

7th—Securities given by all Officers of Trust, The Board of Directors in St. John have the General Managers of the Society, and for the purpose of accommodating persons resident in other parts of the Province, Branch Offices, are established, where Shares can be obtained, and all the payments made in the various districts, and Local Boards of Management will be established as soon as the number of Shares taken in any district renders it desirable.

8th—The Form is presented from the Most Hon. Secretary of the Members, and also from Shares invested in Paid up Shares, which will ensure ample means for meeting the advances required.

9th—Profits are certain, because the amount paid by the borrower, for an advance, is not less than the loan for paying the lender.

10th—The Expenses of the Society are small, as the Officers are gratuitously, with the exception of the Secretary and Treasurer.

11th—The Fund and Loans form a Contingent Fund out of which the expenses are paid, and the balance, which will be very considerable, will go into the general Fund, which will secure the duration of the Society.

12th—Every information, with copies of Prospectus, Rules, &c. can be obtained on application at the Office of the Society—or at the Offices of the Agents.

By order of the Board, CHARLES L. STREET, Secretary & Treasurer, Prince William street, St. John, N. B. December 25, 1847.
