PAY A LITTLE MORE AND GET ALOTMORE

Don't put a mortgage on your judgment in buying a car.

There's many a man who paid too low a price for his car—and lived to regret the day.

We are not saying anything against lowpriced cars. There are a number of good ones. They do the job well.

We are trying to get people to get a bird'seye view of the motor car situation instead of a worm's-eye view.

Sometimes by paying a hundred or two hundred more you get \$500 extra value.

We refer now to the 1917 3400 r. p. m. Chalmers. Here's a car that has been run more than 1,000,000 miles in the hands of owners, yet attained a service record of 99.21% perfect.

That is the mark of a great car. And though it costs, possibly, a little more than you ever paid for a car before—remember that extra little sum gets you from the zone of a fair car to the zone of a great car.

It is not only money in your pocket in the long run, but pride everywhere you drive. There's a pleasant and interesting satisfaction in driving a regular car.

The big Chalmers plant at Walkerville is turning out the cars for Canada, and puts us in a position to satisfy all Chalmers owners in the matter of service.

Prices-5-Passenger Touring, \$1475; 2-Passenger Roadster, \$1475; 3-Passenger Cabriolet, \$1900; 7-Passenger Touring, \$1775. All f. o. b. Walkerville.

be like the natural warmth of June—the air as warm, as healthfully humid, as fresh and pure. The Sunshine Furnace radiates the health-

ful heat of the sun. Pure air is sent evenly over the house, warm, fresh-and clean. The dust and fine ashes, so often seen whenever most furnaces are shaken down, never get out of the Sunshine Furnace.

Dry air not necessary

The Sunshine Furnace supplies air as balmy as summer. This comes from a large water pan so located that it can be refilled easily.

Firing up and closing the dampers of the Sunshine Furnace does not send coal gas into the house. The volume of gas freed from the new coal is drawn off up the chimney. The Sunshine not only keeps the whole house warm and cosy, but continually circulates clear, pure air.

New York, Aug. 25.—The arrest of two nto this port, is likely to unearth a ecret system of carrying semi-official nails between the United States and termany, according to the New York Vorld today, which names an official f the Deutsche Bank here as concerne the plot. It is indicated that for the past three months large quantities of prespondence addressed to Copennagen but really intended for transmision to Berlin have been carried by essengers as personal luggage aboard candinavian liners, replies being reeived from Berlin through the same hannels. United States customs ofcials are said to be investigating this violation of federal statutes.

DIETING UNNECESSARY

There are two ways by which people who suffer from indigestion, dyspepsia, sour stomach, flatulence, etc., can overcome the trouble. First, as practically all cases of the above are directly or indirectly traceable to acidity and fermentation, they can eliminate from their diet all foods which ferment and form acid, such as all starches and sugar and foods containing them, thus prohibiting bread, potatoes, fruits and most meats. About the only safe foods are gluten breads, spinach and small quantities of white meat of chicken or turkey. This diet is almost a starvation one, but it is sometimes quite effective. The second way, which appeals especially to those who like to eat hearty meals of good foods, is to eat whatever is reasonably digestable, neutralize the acid and stop fermentation by the use of a good antacid, such as a bisurated magnesia, a teaspoonful of which in a little water immediately after eating or whenever pain is felt, instantly neutralizes the acid, stops the fermentation and permits the stomach to do its work without pain or hindrance. Owing to its simplicity, convenience and effectiveness, this latter plan is now being adopted, instead of the old-fashioned, expensive, weakening starvation process. In this connection it is interesting to note that since the widespread use of bisurated magnesia was established, many druggists have arranged to supply it in 5-grain tablets, two or three of which are equivalent to a teaspoonful of the powder form, and are much more convenient.

It Sure Pays to Advertise!

Many people imagine that it costs a big sum of money to get results from advertising, but as an evidence of the returns received from a very small investment the following letter was sent to The Advertiser.

Dear Sirs .- Please insert a small add for me, as I found that a small add I placed in your paper was well worth the money. I advertised some 100 bags of Dorley Potatoes and could have sold 2,000 bags if I had had them. It surp pays to advertise. R. R. No. 1.
