Members of the newly created "Jevenile Court Committee" staged their father, Thomas Pike, 10th Concession, Carodoc, of Anna Maude Pike, beloved wife of Sam J. McLellan in her 42nd year after a illness of about four years' duration. Mrs. Pike had no children and besides her husband is survived by her father and mother and one sister, Mrs. Wm. Scott, Beech street, Strathroy.

The body will be taken to her husband's home lot 28, Concession 12, Brooke, tomorrow from which place the funeral will be held on Thursday, July 12. Interment at Strathroy Cemetery.

Members of the newly created "Jevenile Court Committee" staged their initial gathering at noon to-day with Judge Warner. They will recommend that the city council pass for payment the sum of approximate by \$1,000, expended for permanent equipment in the new court.

When the council established the juvenile judiciary they set aside \$2,000 for maintenance purposes and no provision was made at the time for necessary fixtures.

Judge Warner is confident, however, that the \$2,000 will be ample for successful operation during the term.

Dr. MacMillan believes that each man with a line of traps should get one blue fox a week. These pelts, raw, bring about \$250 each in the United States, or \$350 or more as a starting point for the finished plece in New York. In addition, it is possible to obtain many more by trading with the Eskimos.

Not many years ago the Eskimos would turn over a blue fox skin for a few cents' worth of goods. Now, however, the price has gone up. The Eskimo expects about a dollar's worth. Oil, firearms, tobacco and food are first in the hearts of the food are first in the hearts of the Eskimos. > The accusation that the United States has robbed the Indian of his home and land, and has made no adequate return for it, is not substantiated by the facts for the assertion is made that tribally and individually the Indians of that country are the richest of all races. They own 7,000,000 acres of valuable timber lands located in fifteen states, which contain wood said to be valued at \$100,000,000. The Indian forests in extent are equal to the combined area of Massachusetts, Connecticut, Oregon Washington, Montana, Arizona, New Mexico, Wisconsin, Idaho, California and Minnesota. This, together with other property owned by the Indians, brings their per capita wealth up to \$2,400. In the past ten years the re-turns for timber lands to the Indians averaged \$1,500,000, and the amount is increasing constantly.

CRIPPLED CHILDREN

Kitchener - Waterloo Rotary Club Arrange Clinic For Ailing Little Ones.

Special to The Advertiser. Kitchener, July 10. - Sixty-five crippled children were examined by Dr. W. E. Gaillie, the noted orthopedic specialist of the Hospital for Sick Children, Toronto. In commenting upon the work of the Kitchener-Waterloo Rotary Club in arranging for the clinic, Dr. Gaillie declared that the members of the club had placed Kitchener in the lead of all Canadian cities in the matter of bringing prac tical assistance to sick children

A large number of cases examined by Dr. Gaillie were found to be suf-ferers from the effects of infantile paralysis. A great many of the cases were pronounced as not beyond hope, and it is the intention of the local Rotary Club to follow up these cases to see that the necessary treatment is received to bring them back to a normal condition of health.

The clinic was opened at the Kitchener-Waterloo Hospital at 9:30 o'clock, and concluded at 6 o'clock this evening. The wiv s of the Rotary members cared for the children during the progress of the clinic, furnishing refreshments. The children were motored to and from their homes by members of the club.

JUDGE TO CONSIDER

Special to The Advertiser

Brantford, July 10 .- With 34 out of the 54 polling subdivisions already covered in the recount now being held by Judge A. D. Hardy of the ballots cast in the provincial election in North Brant, J. M. Patterson of Paris, Conservative candidate, has challenged 46 of Hon. H. C. Nixon's of the water. Just what occurred in the three hours which intervened between the last entry of the log book and the time indicated by the majority of 56 votes, following the election.

It is possible that a new election may be held in the subdivision served by Tansley's poll, as every ballot in that division had the counterfoil still attached to it, the deputy returning officer, Mr. Alex Bailey, having failed to remove the appendage of the ballot papers before depositing the votes in the box.

There were 194 votes cast at this poll, 145 being for Nixon and 49 for the mayor of Paris. There are 268 names on the voters' list for that

Counterfoils Attached. Judge Hardy, when asked if the election would be upset there, stated that he would have to consider the matter. His decision will be later. Of the 145 votes cast for Nixon the solicitor for Mr. Patterson, Lt.-Col. Monteith of Paris, individually challenged five for various reasons over and above the fact that the counterfoils were still attached. Norman A. McCallum of Burford, ecording to remarks made by Mr. A. W. Roebuck, solicitor for Mr. Nixon laid himself open to a charge under the Ontario election act when he threatened the deputy returning officer, Mr. Frank Allen, at the Harley poll. The D. R. O. had refused a ballot to one, Davis Gordon, whose name was not on the voters' list for the poll. Mr. McCallum had later come into the poll and threatened Mr. Allen with a legal action if he did not give Mr. Gordon a vote. A ballot had then been given to Mr. Gordon, but it was kept separate from the others nd placed in an individual envelope Mr. Allen, who was present at th recount in person, stated that Mr Gordon's name had been dropped from the list at the court of revision, as he should have been voting at polling subdivision No. 4 instead of No. 7 at Harley. A recount is only being made of the votes cast for Mr.

Using the Swimming Pool on Sunday. There seems to be some misunderstanding about

the opening of the Thames Park swimming pool on Sunday. The Advertiser believes in a sane attitude toward the observance of the Lord's Day, and would time keep an eye on the family dog positively oppose anything here that looks like the continental Sabbath.

It is hard to see, though, where there is anything bathing pool on Sunday. If he has the time or money or the inclination he can go on the electric road to the Port and do the same thing.

The one big point, and it is well taken, is whether it is right for the corporation of the city of London to use its money to equip places of amusement, the opening of which on Sunday is an objectionable thing to many of the people who contribute this money.

The practice of today becomes the policy of to morrow, and it should be well considered.

When the Giant Spells.

C-A-T spells cat, but c-i-t-t-e-n doesn't spell kitten. London Rotarians and Kiwanians decided to battle it out on Monday to see which of these august bodies possessed the better spellers. Ever since the youngsters of London battled it out in The Advertiser spelling match the adults have been itching for a chance to get at it.

And so at the close of the Monday luncheon the Rotary Club and the Kiwanians lined up their best testants off to an easy canter at first. Before they plunged into the deep they let them wet their toes on such words as cat, cow and hat. And while this was going on the word "lxividium" was waiting for its chance. The grand old classic "phthisis" or "phthisic" was on the score card with crepe behind it. A man going down on the word "aphrodisiac" feels quite like hero that had a leg blown off with a 16 inch shell; he bears his honorable wounds well.

It appears that Shelby is not alone in having fistic complications. A writer in Le Temps of Paris, a journal which is invariably referred to as the "mouthpiece of the French government," and prides itself on its omniscience, has unearthed some secrets about the American ringside which have remained strangely unknown during the past decade despite the prying eyes of the members of the clan

Woodstock, July 9 .- No fewer than four motor accidents happened over the week-end, and all took place at the same spot on the Bower street hill, on the detour between Wood-

stock and Ingersoll.

All those mixed up in the accidents were American tourists, and fortunately there was no loss of life. The spot where the mishaps occurred is a very bad one, especially to those not accustomed to the road. There is a long hill, and at the top the road again drops with considerable steep-ness. The motorists come up one side of the hill at full speed, and reaching the top are well away on the bad liece of road that leads down the opposite side. It is here that the ac-cidents occurred, and Sunday all four cars toppled over at the same spot. A "drive slow" is placarded near the spot, but the tourists are of the opinion that it should be placed a considerable distance back in order to be of any aid to motorists.

Take First of Series 5--1, When Haines Is Touched

Johnny Carlin's aged yet sprightly ms pushed the Tecs into the recesses of the cellar yesterday, taking the first set-to of the series 5--1, cackling in the manner of the very as they tucked the victory away in their worn bat bags, the echoes of which selfsame cackle is still ringing in Buzz Wetzel's ears

W. Miller, who, besides having a different initial, does his hurling from the opposite side to the other Miller on the Hams' roster, opposed Hinky Haines, but at no time did this argument assume the proportions of a duel, for with the exceptions of the first, second and fifth frames, Hinky had a wary eye on trouble, waiting on some one of the bags, whereas W. Miller was singularly free from embarrassment of any kind until the 9th frame, when a rattling single by Schaefer right by his ankle and Churry's smash, which went clean through his waiting hands, had the visiting southnaw somewhat unpoised. through his waiting hands, had the visiting southpaw somewhat unpoised. Barbelon's choice killed off Churry at second, Schaefer going to third from whence he scored on McNamara's choice, which forced Barbelon at second. Getsie singled, but the rally fell flat on its face, when Mackey's batting for Haines stung one right at George Washington Stutz, the low comedian person at third, who put the ball in his pocket with one hand as he put his foot on the bag for the putout.

Carlin bitting safely at short. At this painful juncture the impulsive Mr. Churry was overcome apparently by a wild desire to peg to second, which he did, and which was still wilder. W. Miller loping in with a run. Stutz stopped talking long enough to lift a sacrifice fly to center, scoring Gray and Bill Kuhn drove a single out to center, which brought in Carlin.

With one gone in the fourth, Haines issued Oakes a pass, and the rabbit 'opped it home when Joe Briger, the young college recruit Johnny Carlin sprang on the fans, nursed a double out near the sign boards. In the sixth, Hinky was again in close quarters. Kaylor singled to right, Blake whiffed, Oakes a pass, and the rabbit valed to right a run.

Little Lessons In Golf BY CHESTER G. HORTON, Nationally Known Golf

Many players ask me not only how to grip but where to grip the club. I grip my wooden clubs about the middle of the leather: my cleek, mid-iron, jigger and mashie at the top. My stoppum is gripped in all three places according to the distance to be made—at the top for full shots, at the middle for half shots, and at the

shots. Years of instruction have shown me that the first step in teaching was to unteach, so as to say, the habit of grabbing hold of the golf club as if it were a baseball bat, and making plain that golf is not a game of brute force. The player must manage to loosen his muscles in taking his grip. The grip, whatever the club, must be preliminary to a relaxation of the muscles of the body, so that the shot may be made with a rhythmic flow of muscular force.

In this picture we see S. Davidson Herron, former amateur champion, with an overlapping grip. It is essential in all shots that the hands and wrists work together, and doubly essential that they do so in putting, where the pendulum stroke must be obtained.

Down the Line In All Sports

The Tecs have three more cracks at the Hams. The sun out of the cellar may not strain the venerable Hams' eyes so much by Wednesday night. Mackey's pitching staff is the strongest it's been this year, and the team isn't limping anywhere except at bat.

The decision of the Ontario championships track meet committee to add the mile relay to the program leaves nothing to be desired by the

Big Representation From M.D. No. 1 Is Expected To Make Trip.

The annual prize meeting of the Dominion of Canada Rifle Association will be held this year at the Connaught Rifle Ranges, Ottawa, from the fl3th to 18th August. The prize last this year is a particularly attractive one, there being \$1,200 in cash prizes in addition to trophies to the value of \$10,000. Competitions will be held with the .303 service rifle, .22 rifle, .32 revolver and for any rifle and any ammunition. During the week of the shoot the competition for his majesty the King's medal for the best shot in the army will be held, and the selection of the Bisley team for .1924 will be made. There will be special cash prizes in every match for junior shot and cadets. Ammunition and rifles are furnished all competitors without cost as well as free tents for camping.

Rifle shooting is acknowledged to be the cleanest and heathlest outdoor sport, and as reduced fares are being allowed on all railways, it is expected that a large representation will go from this district.

Leo Watson **Discusses Sale Semi-ready Suits**

R. Leo Watson says that their sale of Semi-ready Suits, starting on Thursday morning at 183 Dundas street, will afford better values than they have been able to offer for seven years—for it is just seven years ago, he says. "When the nurchasing now."

Seventh race, 3-years and up, mile and sixteenth—Fornovo, \$9.45, \$5.55, \$6, won; Smarty, \$11.15, \$6.15, 2nd; Wylie, \$5.75, 3rd. Time, 1:49 3-5. "I regret to state that the fall prices show no decline. Woollen prices have advanced, and King's Own Serges which we can sell today at \$45.00 will be \$50.00 next season. So that our sale goes on, and our prices are down in the face of an advancing market.

SPAIN FINDS HOLLAND EASY IN DAVIS SINGLES

Associated Press Despatch.
Eastbourne, England, July 9.—Spain today paved the way to its participation in the finals in the European zone of the Davis cup tournament by winning the first two singles matches of the semi-finals contest with Holland.

The ease with which the Spanish players won presages an early termination of the contest since, if they win in the doubles match, tomorrow, play would end, and it would be unnecessary to hold the remaining singles. Holland would end, and it would be unnecessary to hold the remaining singles. Holland won only one set of the two matches today, Van Lennep taking the first set from Eduardo Flacquer after the Spaniard had led 3--1. The final score was 5-7, 6-3, 8-6, 6-1.

Count de Gomar gave a brilliant display in bringing down the other Holklander, Vanderfeen, 6-3, 6-0, 7-5.

I SARAZEN LEADS FIELD

Chick Evans Only Amateur In First Field of Four To Stay.

Associated Press Despatch.
Inwood, N. Y., July 9—Gene Sarazen, golf wizard of Briarcliffe Lodge, turned the difficult Inwood Country Club course twice today in 148 strokes, the lowest card of any of the eighteen, led a field of ninety and qualified for the 1923 United States national open championship, to be played Friday and Saturday. The field was the first of four who will attempt to qualify. Sarazen had a 73 in the morning, and 75 in the afternoon. Those who negotiated the 36 holes in 160 today won places in the final 72 hole plan. Emil Loeffier of Pittsburg, Pa., open champion, set the first low mark for the others early in the afternoon, turning in a card of 152. This was equalled by Francis Gallett, the young Scotch professional, at Port Washington, N. Y., who, with Sarazen, had led in the morning round with a 73, one over par. Jock Hutchison of Chicago got in with a 152.

Of the three amateurs who took part in the tournament today, Charles (Chick) Evans of Chicago was the only survivor, with 158 strokes.

The eighteen who qualified were:

The others, Rennedy Reid of Ardsley, and Leonard Paton of Boston, fell by the wayside.

WILL ERECT BIG STEEL PLANT ON THE ST. CLAIR

Meeting of Sarnia Citizens Hears Details of Project From Officials.

Special to The Advertiser. Sarnia, July 9 .- Officials of the Alloy Steel Corporation met the leadmeeting held tonight, T. C. McCobb of Imperial Cil Ltd., presiding. The corporation had some time ago purchased 250 acres of land on the St. Clair River, and the meeting was called to enable the officials and the citizens to come to an understanding in regard to the project. In the course of the discussion it transpired that the company was prepared to go ahead with the erection of the first unit of the plant, contingent of one million dollars of stock being subscribed. The second and third from the first. The erection of this portion of the plant was estimated to take about 10 months. The amount subscribed up to date is \$200,000, and the six directors have \$50,000 between them. It is estimated that the first unit will produce from 30,000 to 50,000 tons of steel per annum. The directors are W. B. Boyd of Toronto, consulting engineer; C. Harold Wills of Marisville, Mich.; George A. Simpson, Hamilton; R. V. Lesueuer, M.P., for West Lambton; Sir William Mackenzie of Toronto and J. J. Mann of the Crucible Steel Company, New Jersey.
At the close of the meeting, Chester

Film May Attack

Your teeth tonight-while you sleep

There's a film on your teeth-a viscous film. It clings to teeth, enters crevices and stays.

While you sleep, acids may be formed in it. Most tooth troubles, most cloudy teeth, are due to film. This is to tell you how to combat it, and offer a convincing test.

Film troubles

Film absorbs stains, making the teeth look dingy. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. That's why so few have escaped tooth troubles. despite all care.

New ways found

Dental science, after long research, has found two ways to fight film. One acts to curdle film, one to remove it, and without any harmful scouring. Able authorities proved those methods effective.

Then a new-type tooth paste was created, based on modern research. Those two new film destroyers

WILL HOLD INQUEST INTO INDIAN'S DEATH

Sister of Dead Man Was Last To See Him At Midnight Saturday.

Special to The Advertiser. Brantford, July 9 .- A jury empanneled by Dr. C. C. Fissette, coroner to inquire into the circumstances surrounding the death of James Webster, the young Indian, whose body was found decapitated on the Mohawk Institute property, near the Canada glue works, on Sunday morning, viewed the remains of the deceased at Beckett's undertaking parlors at 11:30 o'clock this morning.

Adjournment was made until 8 o'clock next Monday evening.
According to Mrs. Jamieson, a sister of the dead man, Webster had been visiting her home on Saturday evening, departing about midnight That was the last seen of the Indian until his body was discovered by W. Johnson, a glue factory employee, proceeding to work on Sunday morning. In addition to his head and arm being discovered at varying distances of five and twenty feet from the body, pieces of the jaw and tongue were ocated on Sunday afternoon.

It is stated that Webster was struck by the train while crossing the T. H. & B. railway track about midnight.

Cowan head of the narcotic division of the Federal department of health at Ottawa, in which the ex- meeting of the Port Stanley compert says, "A considerable amount of dope changes hands at London and day if the Citizens' Research Bureau other smaller cities and these towns are favored by the drug ring as clear- agement of the chamber of coming points.'

"This, said the chief," is an overstatement of the facts of the case. If the federal authorities came to London tomorrow all they would find would be one or two poor little Chinamen with a little opium and that is not what we have come to know as dope. Dope is cocaine, and heroin, and all preparations of this kind in-cluding the various solutions that are

injected with syringes." As to another statement by Mr. Cowan that innocent-looking women were being used by the drug ring to carry the dope from one town to another, the chief was inclined to agree. These women are not themselves addicts and detection is very difficult. "As to all the addicts and all the peddiers in London we know them all and always keep them under ob-servation, and as I said London is particularly free from this kind of

What Cowan Said.

The despatch which drew Chief Birrell's comment is as follows: Ottawa, July 9.—Respectable-lookng young women free from the drug pabit are the most elusive dope-run ners with whom the Canadian auth-

orities are called upon to cope.

This opinion was expressed today
by F. W. Cowan, head of the narcotic division of the federal department of health, when his attention was called to the recent conviction of a Toronto dope peddler who had peen making use of the mails to ob-ain his supply of drugs.

The narcotic division chief claimed that the big dope distributors were ploying innocent-looking women to carry their wares from place to place Canaga. It was hard to detect these amazonian runners because they were not drug addicts, and made a point not to be seen in the com any of those who were known to the plice as victims of the habit. Officials of the narcotic division elieve that Welland, Thorold and St. atharines have been seized upon by he dope ring as strategic distribution oints. Aldermen With Him on New City Hall Have Fought Him on Other Matters.

Since assuming the role of chief magistrate of this city's affairs in January last, Mayor Wenige has been eminently successful in breaking up formidable and determined ombinations that have, almost daily natched their strength against him. Whether the mayor's success in any particular instance has tended for the betterment of London generally is not an issue at this moment, and will, in any event, be determined by the people, if, in December next, he chooses to take his record to the electorate for a mandate.

It is self-evident, however, that certain of the mayor's victories in the council chamber have been possible—not because he has a permanent majority of "last ditch" supporters behind him, but because the 1923 councillors, eight of whom were newcomers, split their opposition on proceeding the progress of peace in the newcomers, split their opposition on the progress of peace in the newcomers, split their opposition on the general European situation is practically every issue of major importance that has claimed attention since their predecessors stepped out.

Are Married In London Bungalow Tea House, Springbank, Is Scene of Romantic Nuptial Supper—Reception At Latter Day Saints' Camp.

Although June, the month of weddings, has passed, romance is still in the air, and a wedding which may be termed a runaway affair took place Sunday afternoon at the Latter Day Saints' Church, Maitland street. The young couple, who have a large circle of friends in their home town, pleaded that they were merely running away from a large wedding, but at any rate they journeyed from Windsor, together with a small party of friends, and were married in the Forest City. Elder R. C. Russell of Detroit performed the ceremony.

BLACKHEADS, SURE.

There is one simple, safe, and sure way that never fails to get rid of black-heads, that is to dissolve them. To do this, get two ounces of peroxine powder of a hot, wet cloth—rub over the blackheads have dissappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear. Blackheads are a mixture of dust and dirt and secretions that form in the pores of the skin. The peroxine powder and the water dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural and the condition.—Advt.

The much-heralded contest, sponsored by The Advertiser, attracted William McPhillips made their first the largest crowd of the year to the Rotary luncheon. When the troops lined up for the encounter they re-

With only three men remaining to the Rotarians six, the chances of a Kiwanis victory appeared slim for a time. Four Rotarians were bowled over in rapid succession, however, when the supplementary list of braintwisters was reached, leaving Dr. Cameron Wilson and Tom Yull of Kiwanis opposing Dr. Alf. Grant and Rev. D. C. MacGregor for Rotary.

Finally Dr. Grant succumbed and Dr. MacGregor was the only support.

Finally Dr. Grant succumbed and Dr. MacGregor was the only supporting bulwark of Rotary. Then Dr. Wilson faded away on a terrific word, and the battle evened up again. The

Mayor George Wenige, Kenneth

Jared Vining negotiated the hard words and crumpled up under the onslaught of a comparatively simple ones. A. R. Kennedy had never heard of "aphrodisiac," but wrestled with i of "aphrodisiae, but wiested with valiantly albeit without success. W. Yendall got mixed up with "be-leaguered," reducing the Rotary rep-resentation to three men, and Dr. Cameron Wilson, after maintaining 100 per cent efficiency a dozen times, finally succumbed to a veritable cranium cracker.

Saves His Club.

To Tom Yull goes the glory of sav-ing his club from defeat. Mr. Yull is a master of three languages, and this probably aided him in achieving victory. Rev. Dr. MacGregor objected to the word "hacienda," claiming it was Spanish, and he had never heard of it before. It was an unfortunate objection, however, for the next word was a real mind breaker, "phthisis," which proved too much for the last of the Rotarians.

During the contest Mr. Vining was asked to spell "instil," which he did. The judges claimed he was wrong, but on consulting the dictionary Mr. Vining's contention that the judges had made a mistake proved true.

Burns Bros.—In connection with the Burns Bros. situation, attention was drawn today by a Broadway house to the report that some former owners of Burns Bros. stock, who were forced out by some of the earlier brokerage troubles, have been credited with replacing their interest. Burns Bros. is said to have over \$7.500,000 net quick assets, and to be earning about 20 per cent on the "A" stock. Quick assets included \$1.500,000 cash and Liberty bonds. They expect a good coal market in the summer, being as yet unable to put coal into storage.

A Mid-Continent Oil Cut.—Price advices from the Tulsa district today were Maxwell M. A do, B Miami Copper M. States Oil Midvale Steel Miss. Pacific Mother Lode Fleishman National Lead Marland Oil N.Y. Central vices from the Tuisa district today were to the effect that a reduction in price of Mid-Continent crude oil, following today's decrease of 25c a barrel in the Pennsylvania territory, was inevitable. No confirmation is available regarding the extent to which Mid-Continent will reduce prices if they believe it expedient to follow the Pennsylvania lead in this direction.

Steel and Tube Preferred.—There Steel and Tube Preferred.—There were reports that some difficulty had been encountered in the sale of the \$40,000,000 Youngstown Sheet and Tube 6 per cent debenture bonds, which were offered by a syndicate recently at 99 and accrued interest, and the proceeds of which were intended to finance the purchase of Steel and Tube by the Youngstown Company. Lately more opposition to the merger from the interest represented by the Allied Chemical and Dye Corporation was said to have arisen, and the stature of the whole situation is not clear.

Continue Negotiations on Demands Made by U. S. Anthracite Workers.

DELAY WAGE SCALE

Atlantic City, N. J., July 10 .- A bi partisan sub-committee, composed of four representatives of the anthracite coal miners and four operators. resumed negotiations here today following adjournment of the joint wage scale conference. The operators have conceded two of the eleven demands of the miners and assured openmindedness on the other nine. The chief concessions yesterday were the abolition of the 12-hour

the requirements that the anthracite board of conciliation make a decision within 30 days. The bi-partisan committee will ne-gotiate all the remaining issues. A proposal that mining be continued after Sept. 1, when the present contract expires, even though the re-newal of the scale had not been agreed upon, was rejected by the miners, who held that all differences could be adjusted and the way paved The miners' attitude on this point was explained today by Ellis Searles, editor of the United Mine Workers

By ELLIS SEARLES, Editor United Mine Workers' Journal. Atlantic City, N. J., July 10.-The anthracite miners are determined that new wage agreement with the Aug. 31, and they propose that there shall be no delay beyond that date if That is the reason why the min-

ers in the joint conference here refused to vote for a resolution of-fered by the operators which provided that the mines should continue in operation and the miners remain pending and no agreement reached before Sept. 1.

The miners insist that there ample time in which to reach an agreement in the next seven weeks and thus relieve the public mind of

all anxiety and fear as to a continuous coal supply. If the miners were to agree to coninue work without an agreement for an indefinite time after Sept. 1, it would be almost a certainty that the operators would prevent any agree-ment before that date, and the public would thus be in suspense for perhaps weeks or months. What the public wants is an agreement and not interas to fuel supply for the winter. By voting against the operators' motion the miners' representatives in

RECEIPTS OF BERRIES SHOW LARGE DECREASE

Cherries, Currants and Raspberries Provide Local Market's Chief Supplies.

The attendance at the local market this morning was not large, but sup-plies reached the regular Tuesday average. The receipts of strawberries toferings of last week, there being per-

ferings of last week, there being perhaps six or seven thousand boxes offered. Wholesale prices ranged from 10c to 12c per box, and 11c to 13c retail. The quality was not of the best, except for a few small lots. This week will probably see the last shipment of strawberries for the season.

Raspberries, red and black currants and cherries continue to increase in supply, and the prices are somewhat high, as is usual for the new offerings. Black currants were 25c per box, and 15c for the red variety. Cherries were \$1.25 for the 11-quart basket.

Old potatoes are scarce, and are selling at \$1.40 to \$1.50 per bag. The new crop has not yet been large enough to displace the former to any extent.

Eggs are 25c to 23c per dozen retail. No wheat or oats were offered, and only two loads of hay, one of the old variety and the other of this season's growth, \$13 being paid for the former and \$10 for the latter, which was well cured.

Otherwise prices remained at the day, which involves 3,000 miners, and

'Johnny," explained Mrs. Stowe to the Ad-taker, "wants a pair of black rabbits-Black l'lemish Giants if he can get them."

"They're scarce in this town," piped up Johnny. don't know of a single person who keeps them, and nobody else knows. If I can't get the Flemish, I'll take any black ones."

Mrs. Stowe handed the Want Ad to the Ad-taker. As he glanced through the copy with practiced eye, he saw that the message didn't square with the situation. It advertised for "purebred Black Flemish Giant" rabbits. That was what Johnny wished to get if he could, but he would be satisfied with just plain black rabbits if he couldn't get better. 'There is something you can do," the Ad-taker sug-

gested, "that will increase the certainty that Johnny will get his rabbits from this Want Ad. As it is written, only purebred Black Flemish owners will reply. Suppose there are none in town with such to sell? There are certain, though, to be owners of black rabbits. "What I would advise is this. Instead of "purebred Black Flemish;" say, "Black Flemish or other black rabbits."

ODDS FAVOR FIRPO **BECAUSE WILLARD** HAS AGE HANDICAP

Former Champion Has Trained Well, However, and May Spring Surprise.

IS HIGHLY CONFIDENT

By HENRY L. FARRELL. Copyright.
Special to The Advertiser.

New York, July 10.-Some big man with a hefty punch has a great chance to become the next heavyweight champion. This conclusion was drawn after Dempsey failed to stop little Tommy Gibbons in fifteen rounds in Shelby. There are three outstanding big men with a punch in this division—Harry Wills, Jess Willard and Luis Firpo One of them will be eliminated in Jersey City Thursday night when Willard

sey City Thursday night when Willard and Firpo meet in a 12-round bout under the direction of Rickard.

The proof which Gibbons gave that Dempsey is not a superman or an unbeatable champion has made the Willard-Firpo fight the most important battle of the season. Rickard expects a crowd that will come close to 100,000. Firpo has been established as an 8 to 5 favorite in the betting, but the odds seem a little bit puffed and are due perhaps to the feeling that Willard is too old and that Firpo, will be too strong for him.

Completes Training.

Whilard finished his training yesterday in Yonkers, where he was working under the eye of Jack Skelly. He did only a little boxing and some exercise. Willard says he has worked himself down to 237, and he does not look much heavier. The former champion looks even a little better than he did in his comeback fight against Floyd Johnson some time back. He still looks a little bit puffed about the waist. Of course, at his age and with his excessive poundage, it is impossible for him to lose all the flesh about his mid-section. Willard will have to be prepared to take some heavy body punches as it is a cinch that Firpo's tutor, Jimmy De Forest, who trained Dempsey for his title-winning fight with Willard, will direct the big South American to center his attack "downstairs." It was a terrible right hand crack to the heart following a left feint to the jaw that brought Willard down for the first of his seven trips to the floor in Toledo, and Firpo no doubt will follow the same plan of battle. Completes Training.

It is impossible to get an accurate judgment on Willard's boxing, but he will have to be better than he was against the light-tapping Johnson if he is to ward off the pile-driving blows of the South American giant. The former champion is sure to be more cautious against Firpo than he was against Johnson. It took Willard only three rounds to find out that Johnson could not hurt him, and he knew he was the winner when he became sure of that. He will be in great danger if he star's to test the power of Firpo's

punches.

Willard, no doubt, will start out on a defensive fight with the idea of tiring Firpo and making him miss himself into an opening for counter-punches. The former champior seems extremely confident. He is more affable than he has ever been, and it is a rather unusual sight to see Willard in a jovial mood during his training.

Jack Skelly and Scotty Monteith, who will be in Willard's corner, believe that the former champion will win by a knockout in six rounds, but they have knockout in six rounds, but they have

FIRPO ENDS TRAINING. New York, July 10.-Luis Angel Firpo suspended fistic activities to-day, and devoted himself to less strenuous preparation for his en-counter with Jess Willard on Thurs-day night, while enthusiastic gentlemen from various points south of the Rio Grande flocked to local ticket of-fices to scramble for choice points of vantage in the big pine arena at Boyle's Thirty Acres. Willard also started on a wind-up program of light training, content that he was in last-minute condition to meet the onslaught of his South

YOUTH IS KILLED **AS CAR CRASHES** NEAR[®] DELAWARE

Harry Wilson of Toronto Is Instantly Killed on Longwoods Road.

SWERVES INTO DITCH

Harry Wilson, aged 18, of 533 Ronderick avenue, Toronto, was in stantly killed, and four others are in Victoria Hospital, suffering severe bruises and shock as a result of motor car accident on the Longwood road about one mile east of Delawar

at 8 o'clock last night. Samuel Wilson, the victim's father who was driving the car, while re-turning from Detroit last night turned out to avoid a strip of grave on the right hand side of the road and was driving on the wrong side of the road when another car going to Chatham approached. He quickly turned into the gravel and the from wheel broke under the impact. The car pinned three of the occu over several times. It hurled Elsie

Wilson, the nine-year-old daughter of Samuel Wilson, a distance of 15 Those in the car at the time were the boy's parents, Mr. and Mrs. Samuel Wilson of the Ontario Cloak Company, Toronto, their daughter Nellie, and a friend of the family, Mrs. Esther Kozia of 575 Dundas

street west, Toronto.

Harry, who was sitting next to his father in the front seat, was instantly killed when parts of the windshield pierced his head, making Passersby, motoring to Chatham saw the accident and attempted firs aid and sent in an emergency call for Dr. Bice of Delaware, who sum-

moned an ambulance from the hospital in London, Dr. Clegg, who attended the injured at the hospital this morning, stated that Mr. Wilson could give no reason for the accident. The shock of his son's tragic death, combined with the severe bruises suffered by himself, rendered him incapable of

Apparently Mr. Wilson escaped the fate of his son through being lurched to the left, thereby avoiding the splintered glass showered from the windshield. Although thrown 15 feet from the

car with terrific force, Nellie Wilson landed on a section of soft ground, which probably accounts for small extent of her injuries. other passengers were severely hurt At the spot where the accident happened the road is in good condition except for the small stretch of freshly laid gravel. The occupants of the car were excited this morning and could give chance

little explanation as to how the ac-cident occurred. The two men who rendered first aid and saw the acci-dent stated they noticed the Wilson car swerve first to one side and then to the other. The car rolled over twice and landed in the ditch at the ide of the road.

The drop into the ditch was no very great, only three or four feet, which probably accounts for the miraculous escape of the three people who were pinned underneath it. The car was traveling along at a moderate rate of speed, and whether there was a defect in the wheel of the car. was a defect in the wheel of the car or the driver lost control of the steering wheel is not known. The body of the dead youth was taken to Logan's undertaking rooms. No inquest will be held, according to Dr. Bice, the coroner, and the body will be taken to Toronto this afternoon at four o'clock.
