### CYCLISTS FORM ASSOCIATION

Intend Themselves to Enforce Proposed New By-Law Protecting Pedestrians.

Officers to be Elected Next Week—The Duties of Members—A Commendable Course.

It was decided last evening by the wheelmen to form a regular association, and by-laws will be submitted on Wednesday evening, the 29th inst. at the old Town Hall. The election of officers will take place at the same time. The main object of this is to see that the by-law regulating riding on walks is strictly enforced. There can be no accident if the by-law is lived up to, and it will be the duty of each member to report to the officers of the association any violation of the privilege. Members will be supplied at a small fee with membership plates for their wheels.

New petitions will be circulated and the by-law submitted to the Council at an early date. The proposed by-law as submitted last night is as follows:

A. No person shall ride a bicycle on sidewalks, sidewalks or foot paths of any bridge or the city of Chatham at a faster rate than six miles per hour. Nor shall any person riding on such sidewalk, pass any foot passenger or other wheelman; but shall dismount before meeting or overtaking any foot passenger or other wheelman on any walk and pass on foot. Nor shall any person skate upon such walks.

B. No person shall ride a bicycle on the sidewalk along any paved street.

C. No person shall ride a bicycle between one-half hour after sunset and daylight without carrying a lighted lantern so placed as to be plainly seen from in front.

D. Nothing herein contained shall impose upon the corporation of the city of Chatham any liability to keep any sidewalk in repair for travel by bicycle or for any damage that may result from riding upon any sidewalk.

### COLLISION AT GALT

THREE MEN KILLED AND THREE INJURED.

Two C. P. R. Trains Crash Together—On Top of a Fifty-foot Embankment—A Bad Smash Up.

Galt, July 22.—A rear-end collision between two extra freight trains occurred on the C. P. R. at 12:35 a.m. yesterday, causing the death of three cattle dealers, who occupied the caboose of the leading train—Hugh McMillan and Donald McPherson of Dutton and Thomas Pinhale of St. Thomas. McMillan and Pinhale were killed instantly. McPherson was alive when found, but died shortly after being taken to the hospital. The accident occurred on the western end of the railway bridge, which crossed the Grand River just before reaching the Galt station. The caboose which contained the cattle men was struck and partly telescoped by the engine of the second train, the momentum of the impact throwing the caboose into two cars of waste over the side of the bridge into the river, 100 feet below. Engineer Ernest McCormell of Toronto Junction, who had charge of the second train, was the only railway employee injured, and that only slightly.

High trains were eastbound. The lead clock train, through one to Montreal, was taking water at the station, and the rear of the train extended over the long bridge. When the collision occurred the caboose and the two preceding cars were piled up for an instant and then toppled over into the river, 100 feet below. The cattle men were asphyxiated in the van and death came without any warning. The car was smashed to splinters and the unfortunate men were crushed and torn in a frightful manner. Of the dead men, McMillan, is supposed to have heard the train bearing down upon them from the west and to have jumped, expecting to light beside the track; instead, however, he fell about 30 feet on to the G. T. R. tracks, which ran underneath the bridge, and his head was crushed to a jelly. Pinhale was carried over the bridge in the wreck of the caboose, and his body was found in the river at daybreak this morning.

The other men were found lying almost underneath the cow-catcher of the engine and were hastily conveyed to the station and from there to the hospital in the ambulance. McPherson was able to walk to the station, but there became unconscious, and died in the hospital at 6:30 this morning.

### ELECTIONS IN MARCH.

The Times Anticipates an Early Dissolution.

London, July 22.—The Times announces that it is anticipated in official circles that Parliament will be dissolved early in the next session and that a general election will occur in March.

In connection with this announcement rumors were current yesterday that Premier Balfour intended in October to make a strong speech in support of Colonial Secretary Chamberlain's fiscal programme, and that thereupon Ritchie and the other free trade Ministers would resign, which, of course, would virtually compel Mr. Balfour to resign also and recommend a dissolution of Parliament.

### RUSSIA MOBILIZING TROOPS.

For Immediate Despatch to the Far East.

London, July 22.—The Standard's Odessa correspondent says that 128,000 troops are being mobilized from central and northern garrisons in Russia for immediate despatch to the far east in case of necessity. He also reports that on the return of Gen. Kurapatkin, the Russian War Minister, an extraordinary meeting of the Imperial Council of the State, which will be attended by the Czar, will discuss Manchurian and cognate questions.

### DEATH FROM DROWNING.

Inquest at Port Stanley on Miss Hurkett's Body.

Port Stanley, July 22.—The inquest on the death of Miss Hurkett, whose body was found on the beach here last Friday, was resumed. The doctor's report went to show that death was due to drowning, and the verdict brought in by the jury was that the deceased came to her death by drowning. The body showed no signs of foul play. The head was slightly marked, but this is thought to have been caused by striking some object when entering the water or shortly after death.

### THE KING IN IRELAND.

WELCOMES KING EDWARD AND QUEEN ALEXANDRA.

His Majesty, in Reply to an Address, Makes Feeling Reference to the Pope's Death.

(Associated Press Despatch.)  
Kingstown, Ireland, July 22.—King Edward and Queen Alexandra, accompanied by Princess Victoria and their suites, arrived here at 5 minutes past 9 o'clock on board the royal yacht Victoria and Albert. Immediately after the yacht took its position in the harbor the royal salute was fired by thirteen vessels of the home fleet. A heavy rain, which had been falling since an early hour, ceased at 9 o'clock, and the sky cleared, giving promise of fine weather for the royal entry into Dublin.

Thousands of persons lined the streets and wharves awaiting the arrival of their Majesties. A note of mourning was sounded amid the general rejoicings. It came from the great bell of the Roman Catholic Church of St. Michael, which was tolled solemnly in memory of the Pope. Their Majesties were rowed from the Victoria and Albert in a royal barge to the Victoria Dock, where they landed at 11 o'clock. They were received by the Lord Lieutenant of Ireland, the Earl of Dudley and a number of officials, and were conducted to a pavilion, where an address of welcome was read in behalf of the Kingstown Municipal Council. In reply, King Edward said he shared in the sadness of multitudes of his subjects over the news of the Pope's death. He remembered, he said, the kindness with which his Holiness had so recently received him and the interest which Pope Leo took in the welfare of the English people. The King added that his visit came at a time when a new era is opening for Ireland.

Immediately after the ceremony their Majesties, accompanied by the Lord Lieutenant and a brilliant staff, and escorted by Horse Guards drove off in the direction of Dublin amid the greatest enthusiasm on the part of the crowds lining the road between Kingstown and Bull's Bridge.

A special performance which had been planned for the Royal Theatre in Dublin July 24 has been countermanded in consequence of Pope Leo's death.

The entry of King Edward and Queen Alexandra into Dublin was made the occasion for a general holiday. The decorations surpassed anything hitherto attempted in Dublin. The grand stands were crowded, while the people were massed on the sidewalks. Their Majesties bowed their acknowledgments to the warm greetings. Their Majesties lunched with the Lord-Lieutenant, and the day's programme was concluded with a formal visit by their Majesties to the Duke of Connaught.

London, July 22.—In the House of Commons to-day, Premier Balfour, in the absence of Irish Secretary Wyndham, moved the third reading of the Irish land bill. The bill passed the third reading by 217 to 20.

### ALDERMEN GOT THEIR BUMPS

Algonac Representatives were too Much for Them 'tis Said.

Did Ald. McCoig Sell the Game? Starring Stunts by Edmondson and Marshall—A Great Game.

The Christ Church Sunday school excursion to Walpole Island yesterday was a huge success in every way. The excursionists, and they were many, were favored with a most beautiful day and a most enjoyable time was spent. Decoy's orchestra was on board and furnished excellent music during the entire trip.

The ladies who had charge of the refreshment stands were kept very busy and they realized a neat sum of money over and above their expenses. The ladies who were in charge were Miss Sandys, Miss Knight, Mrs. Fraser, Miss Kingston, Miss Flossie McCosh, and Miss Margaret Barassin. Harry Pritchard also deserves a great deal of credit for the success of the excursion. He is a born hustler and was a very busy man yesterday selling ice cream, etc. To J. W. Shackleton, the superintendent of the Sunday school, is also due a great amount of credit.

And then it was no wonder that the excursion was a success—the aldermen were on board, although they are not saying much about it to-day. And they played baseball on the Island, too—at least they kept walking on and off a baseball field, mostly on the Algonac side, which was there and did most of the shouting after the game. The score was 7-4 all the end of the sixth innings when umpire J. G. Kerr called the game on account of rain.

It was a good game and Chatham had the honor of being ahead at the end of the third innings. It might be said that all of the Chatham players were not aldermen, and it was understood that a few of the Algonac men had never handed in a notice of motion.

Ald. McCoig—Beg pardon, acting Mayor McCoig—was there and played first base. It is said that if he had not made that error when the third baseman sent a stinger over the diamond to him the game would have been won. Archie, however, blazes at the centre-field man; Ald. Edmondson. If Archie did nothing else he made a hit, got a run and kept the crowd amused. It is said that Archie sold the game for he was heard going through the crowd as he would at a question sale, yelling "How much am I offered? How much!"

Ald. Scullard claims that he never had a baseball or a baseball bat in his hands before. He, however, used to play cricket in his younger days and, in spite of Ald. McCoig's coaching, he would swipe at the low balls and those above the wickets he would let go past, regardless of the fact that they were over the plate. Umpire Kerr says that Ald. Scullard made a most beautiful cut clear to the boundary. Ald. Scullard bowed to the audience and, turning to the scorer, said, "Give me three runs." But Umpire Kerr looked disgusted and called "foul!"

Shortstop W. E. Merritt also made a hit and Ald. Edmondson got hit. It might also be mentioned that Ald. Marshall and Edmondson had a private consultation before the latter went to bat, in which Ald. Marshall was heard to remark, "Let him hit you." Ald. Edmondson was so anxious to get hit that he held out his hand for it, and got at the finger. He is exhibiting the wound to his friends to-day. Ald. Marshall acted upon his own advice to Ald. Edmondson and waited for the ball to hit him and, as a result, he got his base on balls. One feature of the game was the perfect fielding of W. E. Merritt. Mr. Merritt is an old baseball man and played with the Louisville team when they defeated the champions of Kent. His early training came in well yesterday, as he appeared perfectly at home on the field. Unfortunately these were all of the aldermen and the balance of the team was picked among the excursionists. Ald. Edmondson feels so enthused with the game that he is anxious

for another. He thinks it quite possible to defeat Algonac.

W. Graham and Matt Sides were the Chatham battery and it should be mentioned that they played well, and both added to the score. Mr. Graham also on second base played faultlessly and made the fourth run.

The Algonac aldermen are a jolly lot of men and everyone in and out of the game enjoyed a very pleasant hour.

One event in the sports which should not be overlooked was the fat man's race in which J. W. White won from the fastest fat man in Michigan. During the return trip Ald. McCoig, who thought that the event should receive more than passing attention, assembled the crowd at the rear of the boat and, making a neat little address, presented Mr. White with his prize, a diamond stick pin. He informed the people assembled that Mr. White had won from the fastest fat man in Michigan.

Mr. White was quite honored and as he rose to reply he was greeted with several rounds of applause. He made a most fitting reply, saying that he would treasure the pin with the many other prizes he has received for fat man's races. He announced that he has never yet lost a fat man's race, which was greeted with many cheers and much applause.

The rest of the return trip was spent in stinging. One delightful feature was a vocal solo from Miss Nara Bogart. The boat returned to the city about nine o'clock, everyone feeling that they had spent a very pleasant day's outing.

WEDNESDAY, JULY 22.

#### GOOD LUCK TO LIPTON

Our loyalty to Britain leaks out in divers ways. We cheer her soldiers. We rejoice at her victories in war. We applaud her victories in peace. These are usually big things that cannot but help stir up the blood in our veins and draw us closer to the motherland. But the small things put us on Britain's side just as easily. Sir Thomas Lipton, in his efforts to win the cup that marks the yachting championship of the world, from the Yankees, gets our sympathy every time. Why? None of us know the genial knight, but he is a Britisher, fighting for Britain's supremacy on the water, and that's enough for us. Right here in St. Thomas there is a keen interest taken in the coming yacht race as can be found in any place the same size in the motherland. Sir Thomas Lipton has failed twice, but we hope the third attempt will bring back to old England a cup that the United States hates to lose, but that we want to see resting amongst the laurels won by British sailors. Good luck to Shamrock III, and its crew.—St. Thomas Journal.

#### A MILLION IMMIGRANTS

It is estimated that in the twelve months ended with June about 1,000,000 immigrants flocked to the American continent, points out the St. Thomas Times. If they brought with them on an average of \$10 apiece and that is a moderate estimate—they added \$10,000,000 to the money supply. In May the influx was 145,000 persons, an increase of 17 per cent. over 1907. The year makes a new record, exceeding even the figure for 1882, when 789,000 came over. Not a few of the newcomers settled in the Atlantic coast region, but it is believed that the great majority went West to speed the development of that section. Perhaps ten per cent. of the immigrants came to Canada, either direct or through the United States. That is a small proportion, but it will grow year by year. To take these people West—if all had gone West—would require 20,000 passenger cars, to say nothing of baggage and freight cars for their belongings. It has been supposed that the incoming foreigner competed with native American labor and kept down wages. But wages have seldom been higher than now. In fact, our foreign-born workers, with their habits of subordination, support their unions very faithfully in fights for higher wages and appreciate an improved income as much as anybody. There are, indeed, kinds of employment for which the native Canadian or American does not much care, and these fall naturally to the immigrant. But for him not a little difficulty would be encountered in getting certain kinds of work done at all.

### THIS CANADA OF OURS

Lord Dufferin. Never has any people been endowed with a nobler birthright, or blessed with prospects of a fairer future. Whatever gift God has given man is to be found within the borders of your ample territories. It is true the zone in which your lives are cast is characterized by ruder features than those displayed in lower latitudes and within more sunward stretching lands, but the north has ever been the home of liberty, industry and valor; in the true you are not so rich as some other communities, but the happiness of a people does not so much depend upon the accumulation of wealth as upon its equitable distribution. In many of the wealthiest nations of Europe thousands can scarcely obtain their daily bread and though Canada is by no means a nation of millionaires there is not amongst us an agricultural household, between the Atlantic and the Pacific, where content and plenty do not reign and in a thousand localities the earth is bursting with the mineral wealth which only requires improved transportation to develop.

### Ernest Grant took Dodd's Kidney Pills—They Removed the Cause

He Had Backache and Urinary Troubles for Twelve Years Before He Used the Great Kidney Remedy.

Montreal, July 20.—(Special).—Ernest Grant, 287 1-2 Urban street, this city, is among those who never let an opportunity pass to say a good word for Dodd's Kidney Pills. He has his reasons for this, and here they are in his own words: "I had been troubled with Backache and Kidney Disease for twelve years," says Mr. Grant. "My urine was very dark and high colored. I would lose my rest at night on account of having to rise so often to urinate. I could get nothing to help me. "I tried several remedies, but all failed until I used Dodd's Kidney Pills. When I had taken four boxes I was able to go to bed and take my rest, my Backache left me and I was cured. It has never come back."

When Dodd's Kidney Pills cure, the disease never comes back. They remove the cause.

Reports.

From W. G. McGeorge, C. E., enclosing plans and specifications for a concrete culvert or a steel bridge over Duffie Creek, cost of concrete culvert \$2,500 and of bridge \$1,700.

From John Cain, township engineer, stating that he had inspected the tile drain on lot 91, T. R. N., and had same repaired. Engineer's fees for same \$2.

William McLarty and J. C. Williams, committee re Duffie Creek bridge, report that they have examined same and find it in bad shape and recommending a new steel bridge as soon as possible, as we consider it would be the safest and most satisfactory structure to build.

From A. F. Campbell, reeve, stating that he had met on three drains under the D. & W. Act. On the Marston drain we were able to come to an agreement, but on the other two drains were unable to do so.

From A. F. Campbell and E. Brien, committee re Goff gravel pit, report that there is considerable gravel in the north and west corners of pit, and would recommend purchasing gravel by the load for the present year.

From John Brown, certifying to the performance of statute labor returned in 1907 against Mrs. Williams.

From D. Cochran, clerk of Ridgetown, report plans, specifications and estimates of Thos. Scane, C. E., for the re-excavating Harrison drain, total cost \$575.00, Howard's portion \$153.00.

From Jas. A. Bell, C. E., re South March drain, stating that the drain with the exception of the tiled portion, is in fairly good condition; considering that if the tiled portion of drain was placed in a proper state of repair and the drain cleaned out from outlet to the tile, say about 1,000 feet, that this is all the repairs the drain requires.

### ODDITIES IN PET NAMES.

Cat and Pig Are the Terms Coveted by French Women.

"If a man in this country calls his wife a cat the foundation is laid for a divorce suit," said the man who travels. "But a French woman takes the same word as a term of endearment. It's odd how the choicest phrases in the vocabulary of affection of one people are used for quite an opposite purpose by another nation. One of the most familiar and most coveted phrases of endearment among the French, for instance, is 'my little pig,' and 'my little puppy dog' is also well liked.

"But if the Frenchman were to call Mme. Narcisse 'duck,' as an American husband might lovingly call his better half, she would be very much offended. One of the oddest pet names that I ever heard of was that used by a famous German general, who always called his wife 'my little kernel of coffee.' They were divorced at last, however, and a cynic said that the general's pet name should have been 'my dear little stack of bayonets,' for the lady was said to have had a very sharp tongue. I know a devoted disciple of Walton, who, when writing to his wife while on a fishing expedition, calls her 'my dear little speckled trout.'"

### Why Razors Get Tired.

"Do you know why we dip a razor in warm water before we begin shaving, and do you know why some ignorant men say a razor is 'tired'?" asked the barber. "Well, this is all due to the fact that a razor is a saw, not like a knife. Examined under the microscope its edge, that looks so smooth to the naked eye, is seen to have innumerable and fine saw teeth. When these teeth get clogged with dirt all the honing and strapping in the world will do no good—the razor is dull and nothing will sharpen it. Then is the time the ignorant say it is 'tired' and stop using it, but the wise know it is only clogged.

"The wise, though, don't suffer their razors to get clogged. They dip them in warm water before they use them, and thus the teeth are kept clean. It is because a razor is a saw that lather doesn't soften the beard, as so many people think. It stiffens it, so that it will present a firm and resisting surface to the razor."

### One Oculist's Advice.

"So you have been trying to doctor your own eyes," remarked the oculist as the patient removed the bandages, displaying an aggravated case of conjunctivitis. "In many cases you can cure yourself, but if you don't know what treatments to avoid you are liable to do yourself injury. Old-housewife remedies are all right in their place, but I would advise you not to use tea leaves. They often give relief, but they bring on other complications. In fact, the 'tea leaf eye' is well known to the profession. The lid is puffy, flabby and lifeless. If you wish to reduce the inflammation in your eyes use hot water with a cloth. That is enough. Yes; you may add salt if you wish, but it is not necessary in most cases. Salt is merely an antiseptic and has no other virtue for eye lotions."

### All Brushed Off.

A lady called at a chemist's shop, then, after examining one or two articles, remembered that she wanted some cosmetic for the toilet and turning to the chemist, asked, "Have you any bloom of youth?"

The merchant, over whose head more than fifty summers had passed, turned to one of his assistants and asked in a business way, "Have I any bloom of youth left?"

The clerk looked up with a quiet smile and answered, "I believe not, sir."—London Globe.

### SILENCE!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of free consultation by letter. All correspondence is held as strictly private and sacredly confidential. Address Doctor K. Y. Pierce, Buffalo, N. Y. Dr. Pierce's Favorite Prescription establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

"Having used Dr. Pierce's Favorite Prescription and Golden Medical Discovery during the past year," writes Mrs. Mattie Long, of Florida Valley, Perry Co., Pa., "I can truthfully recommend these medicines for all female weaknesses. I have used several bottles of Favorite Prescription, which I consider a great blessing to weak women. I was so nervous and discouraged that I hardly knew what to do. Your kind advice for home treatment helped me wonderfully. Thanks to Dr. Pierce."  
Biliousness is cured by the use of Dr. Pierce's Pleasant Pellets.

### MR. JAMES BRYCE.

Mr. Justin McCarthy's British Historian.

Mr. Justin McCarthy says: James Bryce has, in face and form, the characteristics of a stalwart fighter. His forehead is high and broad, with strongly marked eyebrows, straightly drawn over deep and penetrating eyes. The features are all finely modelled, the nose is straight and statuesque, the hair is becoming somewhat thinner and more grey than it was when I first knew Mr. Bryce, but the moustache and beard, although they, too, show some fading

MR. JAMES BRYCE.

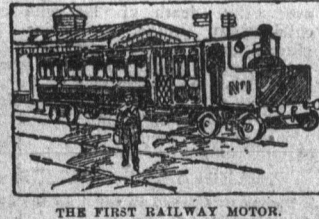

In color, are still thick and strong as in that past day. The face does not look Irish; its expression is, perhaps, somewhat too sedate and resolute; but, on the other hand, it does not seem quite Scotch, for there is at moments a suggestion of dreaminess about it which we do not usually associate with the shrewd North Briton. Bryce is a man of the most genial temperament, thoroughly companionable, and capable of enjoying every influence that helps to brighten existence. Always a student of books and of men, he is never a recluse, and I do not know of anyone who seems to get more out of life than does this philosophic historian. The Parliamentary career of Mr. Bryce began in 1880, when he was elected as Liberal representative for a London constituency. Later, under Gladstone, he filled the important office of Under-Secretary for Foreign Affairs. Later still he became Chancellor of the Duchy of Lancaster, and in 1894 President of the Board of Trade. Long prior to his public life, he had published his great historical work, 'The Holy Roman Empire.' In 1888 'The American Commonwealth' appeared. He has traveled, and in 1877 published a narrative of his explorations in Transcaucasia, with an account of his ascent of Mount Ararat. In 1897 his 'Impressions of South Africa' were issued, and within a few weeks we have had a volume of his brilliant 'Studies in Contemporary Biography.' Mr. McCarthy says that in the new effort now so sorely needed, to create once more a true Liberal party, England requires, above all things else, the constant service of such men as Mr. Bryce.

### British Army Statistics.

A recently issued British Blue Book states that the regular army on January 1, 1903, was 324,653, consisting of 1,490 "Household Cavalry," 29,397 Cavalry of the Line, 1,610 Imperial Yeomanry, 34,959 Royal Horse and "Field Artillery," 23,174 Royal Garrison Artillery, 18,757 Royal Engineers, 9,966 Foot Guards, 176,580 Infantry of the Line, 15,503 Colonial Corps and Indian Infantry, 8,443 Army Service Corps, 6,020 Army Medical Corps, 2,638 Army Ordnance Corps, 854 Army Pay Corps and 362 Army Post Office Corps. At the date mentioned 153,438 were in England, Scotland, Ireland, Wales and the Channel Islands, 95,475 in Egypt, China, Crete and the Colonies, including South Africa, and 75,740 in India. There were 4,311 desertions. Of the non-commissioned officers and men 195,080 were of the Church of England, 22,900 were Presbyterians, 14,284 were Wesleyans, 2,953 were "Other Protestants," 46,883 were Roman Catholics, 159 were Jews, 2,459 were Mohammedans, Hindus, etc., and 26,668 were unreported as to religion. As respects race there were 213,873 English non-commissioned officers and men, 26,303 Scotch, 35,717 Irish, 2,190 born in India or the Colonies, 638 foreigners and 26,667 not specified.

wheels at each end, and in one body contains engine, luggage van, and first and third-class passenger compartments. The first-class compartment seats 12 persons, the third-class 32 persons. The motor-car can be illuminated by gas, and warmed in the winter by a special apparatus. The car runs every 10 minutes, the time of the journey being four minutes each way.

### A New Magazine.

A magazine has recently been started in India, which promises to answer every objection against Islam and to discuss every question bearing upon religion. The editor, Mirza Ghulam Ahmad of Quadian, promises an "impartial review of the existing religions of the world, Christianity and Islam in particular."

**ROWED ACROSS**

**Four Venturesome Cleveland Lads Take a Trip to Rond Eau.**

Cleveland, O., July 21.—Four Cleveland lads—Jack Lloyd, Joe Voght, Chas. Herbst and Jay Landeman—crossed Lake Erie from Cleveland to Ronseau, Ont., in two open rowboats. Starting from Cleveland at 7.30 p. m. Wednesday, they reached Ronseau, Canada, at 3.30 p. m. Thursday, having rowed across the lake, a distance of 85 miles, in exactly 20 hours. The boys met with no mishap, crossing or returning. Part of the way going the lake was somewhat rough, and the rowing was hard work.

**A BIG DAY**

F. C. Wood, chairman of the excursion committee, and J. T. Percival, secretary, were on Chatham to-day arranging for the entertainment of the excursionists from Port Huron who will spend the 6th of August in this city. They desire to have a baseball match and a lacrosse match. They will bring the Port Huron Tigers with them and they desire to arrange a match with the Chatham team for the morning. In the afternoon a lacrosse match will be arranged, probably between Chatham and Wallaceburg. There is a good deal of rivalry between these two teams, and it has by no means subsided since Wallaceburg won. This game will be looked forward to eagerly by Chathamites, as they think that the Maple City team is the better.

The gentlemen in the city to-day also arranged with the livery men to provide busses to drive the excursionists about the city and see the residential streets, the house John Brown platted in when here, the public buildings and other sights. The excursionists will be accompanied by the Uniform Rank, a military organization in connection with the K. O. T. M.

Arrangements will also be made so that the visitors can see the carriage factory of William Gray & Sons, which is the largest in Canada, the Binder Twine factory, Taylor's big flour mill, and the brewery.

**PASSED AWAY**

Mrs. Julia Jacques, wife of Francis Jacques, Harvey street, passed away this morning. Mrs. Jacques had been in poor health for about two years and for the past six weeks had been confined to her bed. The deceased lady was in her 69th year. Besides Mr. Jacques, five children survive. They are Mrs. David Johnston, of this city; Frank Jacques, superintendent of the carriage factory, Pontiac, Mich.; Alexander and Andrew, of the firm of F. Jacques & Sons; George Jacques, of the firm of Thibodeau & Jacques; and Miss Jennie, her adopted daughter. Mrs. Cassidy and Mrs. Jacques, of Tilbury, are sisters, and Louis Trudell, London, is a brother.

The funeral will take place from the family residence, Harvey street, Friday morning at ten o'clock to St. Joseph's church, thence to St. Anthony's cemetery.

**CANADA'S TRADE LAST YEAR.**

Total Amounted to Over \$467,637,900.

Ottawa, July 22.—The unrevised figures of foreign trade for the fiscal year ended June 30th were made public by the Department of Customs. The aggregate foreign trade for the year, which embraces the total imports and total exports of domestic and foreign produce, amounted to no less than \$467,637,900, which is an increase of \$43,750,000 over the trade of the fiscal year 1901. On the basis of imports which actually entered into consumption, and Canadian produce only, exported, the trade for the year amounted to \$443,188,999, as compared with \$398,811,358 for the previous year, or an increase of \$44,377,641. On this basis our trade has more than doubled in the last seven years, as appears from the following figures:—

Trade of 1903.....\$443,188,999  
Trade of 1896.....220,502,817

It may be interesting to note at this point that during the eighteen years of the National Policy, the increase was only \$60,000,000. To put it in another light, our foreign trade in imports entered for consumption, and domestic produce exported, amounted to about \$1,500,000 per working day last year, whereas in 1884 it was about \$730,000 per working day.

**CANADIANS AT BISLEY.**

Loss the Kolapore Cup Through Hard Luck.

Bisley Camp, July 21.—The weather to-day is cool and breezy, the conditions for the Kolapore Cup match being ideal. Australia won, with Canada second, England third and Natal and Guernsey following in the order named.

Staff-Sergeant Hayhurst is bitterly disappointed. He says he made the worst shot of his life when he hit the wrong target.

The teams competing scored as follows:—

	200	500	600	Total
Australia.....	207	257	247	771
Canada.....	207	249	237	752
Mother, country....	260	253	239	752
Natal.....	260	252	248	760
Guernsey.....	258	246	231	735

The Canadians scored as follows:—

Team	200	500	600	Total
O'Brien.....	32	34	33	99
Hayhurst.....	33	33	31	98
Simpson.....	33	33	32	98
King.....	35	29	33	97
White.....	35	31	30	96
McGregor.....	34	34	26	94
Skeddon.....	34	33	26	93
Stuart.....	30	32	26	88
Total.....	267	249	237	753

In the shoot-off of ten competitors tied for the highest score in the Daily Graphic, Skeddon came in fourth, winning \$5 and three framed sketches, donated by the newspaper. In The Graphic match Hayhurst shot off his tie, and also won \$5 and two framed sketches.

As a result of the protests the Americans have been counted out of all the prize lists in which they appear.

In the Prince of Wales' match, Spearing was third, Bayles thirty-third, Simpson fifty-seventh.

The Canadians scored as follows in the Alexandrs:—Whyte, 22; Smith, 31; MacNaughtin, 23; O'Brien, 26.

In the Steward match, Whyte made a possible. MacGregor ties with the three first competitors.

The Canadians shot as follows in the Golden Penny:—Stuart, nineteenth, Peddie twentieth, 33; MacNaughton thirty-sixth, Simpson forty-fifth. These two scored 32. The winner scored 34.

**ANOTHER GALT MISHAP.**

A Wheelman Rides Into a 20-Foot Chasm.

Galt, July 22.—Ralph Rolland, aged about 20 years, was seriously if not fatally injured yesterday while returning from the scene of the railway wreck. He was riding a wheel along a footpath skirting the river and turned off to allow two ladies to pass, but evidently miscalculated the distance between the roadway and a rock-faced chasm twenty feet deep, into which he rode, falling headfirst to the bottom. He was rendered unconscious and on examination it was found that besides being injured internally his left arm was broken, one rib torn away from the breastbone and his upper lip cut in two. Young Rolland, who came here two years ago from Listowel is a blacksmith in the employ of J. E. Hilbert.

**Swallowed Paris Green.**

Toronto, July 22.—Dependent on the death of his wife and child, John Logic, a marine engineer, ended his life yesterday by swallowing a quantity of Paris green. Logic took the poison at East Toronto about 10 a.m. and died in the General Hospital about 8 p.m., a short time after his admission.

UMPIRE APOLOGIZED

"Yes, it was a hit, and it was a dandy. Why, it was a three-bagger," chuckled Ald. Edmondson as the Blaine man wandered into his shop with the usual greeting. "What are you talking about?" queried the scribe. "Why, I thought you were asking me about that grand three-bagger I made yesterday," responded the elder man. "There were three men on bases when I strode up to the plate. I landed on the ball for keeps and made as pretty a three-bagger as you ever saw, but J. G. Kerr called it a foul. I was running around the bases just covering myself with glory and winning the game when Jack called my three-bagger a foul. I was pretty sorrowful at first, but it's all right now. Jack fixed it up. When he found what he had done he apologized and that squared matters. I got my base on a hit after all. The pitcher threw the ball behind me. I stuck out my hand and the ball hit me on the finger so I got my base on a hit all right. We took Jack Kerr down on purpose to win the game but he simply lost it by not giving me my three-bagger. It was a great hit, though, and I was proud of it."

Late returns elect Hicks, Conservative, in Lansdowne; Agnew, Conservative, in Virden; and Carroll, Conservative, in South Brandon.

TWO DAYS BATTLE.

In the Streets of the Capital of Venezuela.

Soledad, Venezuela, July 22.-Since the last despatch was sent to the Associated Press at 3 o'clock yesterday afternoon the battle between the revolutionary forces at Ciudad Bolivar and the Venezuelan Government army, commanded by General Gomez, has raged madly. As fast as barricaded houses were abandoned by the revolutionists the Government troops would occupy them.

In the evening the Government forces, which were advancing from all directions, arrived near the centre of Ciudad Bolivar. Firing was renewed with more vigor at 9 o'clock at night, and illuminated the sky. At 3 o'clock in the morning the inhabitants of the commercial and foreign parts of the city abandoned their homes and sought refuge in other parts of the city, amidst a hail of bullets and shells. Many men in trying to protect the women fell, struck by bullets, in the middle of the streets.

At 8 o'clock the Government Generals decided to push the city back on the centre of the city. Behind a barricade in the public park was found more than thirty dead soldiers, lying on top of each other, while wounded men were seen on all sides. At 10 o'clock the Government commanders ordered twelve guns to open fire on the Alameda, and at the same time the Venezuelan fleet opened fire. The soldiers on both sides have had no food for two days, no ambulances are used, and yet the fighting continues.

At 4 p.m. Monday the advance of the Government troops reached the market place. The old customs house and waterworks were captured. The Dalton block, the property of the United States Consul, where all the leading German and French firms reside, was then being attacked. All the defeated revolutionists have concentrated at the jail, where the fighting continues. It is estimated that more than two hundred men have been killed in that vicinity. The artillery of the revolutionists is fiercely replying to the attack of the fleet. The fleet shelled La Soledad, which has suffered terribly. The capital is still in possession of the revolutionists, but the complete success of the Government forces is assured.

Soledad, Venezuela, Monday, July 21, 7 p.m.-The fight between Government forces and revolutionists from 1 o'clock this afternoon has been horrible, and at this hour the only places which resist the onslaught of the Government troops are the jail and the capitol. Early in the afternoon the Government troops, numbering 5,200 men, were ordered to make a general attack on all positions still held by the rebels. At 5 o'clock this afternoon, the Zamora, called the Sebastopol of Ciudad, was stormed and captured. Ninety-four dead rebels were found inside, among them being Gen. Azanza, one of the revolutionary leaders, whose head had been blown off by a shell. It is impossible to give an idea of the carnage which occurred at this point. The revolutionists are without provisions and water, the supply pipe having been cut yesterday. Their situation is considered desperate and hopeless. The shops are being pillaged.

EVILS OF STOCK GAMBLING.

The House of Commons Discusses the Subject.

Ottawa, July 22.-The evil effects of stock-gambling and the ruin of the lives of youths who are carried away by the glamor of the stock market and the seductive voice of the ticker formed the topic of an interesting discussion in the House of Commons yesterday. The subject was introduced by Mr. Bourassa, upon the motion to go into supply. He pictured in eloquent terms the wreck of promising careers, the misery and sorrow which resulted from the mania for speculation in stocks, and denounced the methods of stock brokers of a certain class. His address gave evidence of a careful study of the question, and the keynote which he sounded found many echoes from all parts of the House.

Immediately after the House opened in the afternoon Mr. F. D. Monk moved the adjournment in order to call attention to the delay in holding the election in the St. James' division of Montreal. By a motion on the 3rd of April last the Speaker was instructed to issue his writ for an election, but the instructions of the House had not been obeyed. It was, he contended, a manifest injustice to the electors of the division that they should not be represented when so many important matters were being dealt with by the House. That it was deprived of that representation was due not to the House, but because the Liberal party could not harmonize the conflicting interests of the numerous candidates who desired to obtain the nomination. Mr. Monk spoke at some length upon the subject, criticizing the Government.

Sir Wilfrid Laurier replied that Mr. Monk's memory was somewhat at fault, and that the Government were not to blame for delaying the election. When that gentleman moved that the writ issue, the Government had not taken the slightest exception to the motion, which was carried unanimously, therefore Mr. Monk's loud disquisition was entirely uncalled for. The reason why the writ had not been issued was that Mr. Monk had, a couple of weeks after the motion to issue the writ was carried, from his place in the House given notice that upon a subsequent day he would call the attention of the House to the fact that the writ had not been issued, and the Premier stated that he had ever since been waiting for Mr. Monk to do so.

Mr. Borden emphasized the fact that three months and a half have elapsed since Mr. Monk called attention to the matter, and the election might have been held and the constituency might have been represented for the past two months and a half. The Premier might as well blame Mr. Monk for the delay in bringing down the policy with regard to the G.T.P. Railway, as to blame him for delay in this matter. He ventured to suggest that the difficulties in selecting a candidate rather than any of the reasons assigned by the Premier were the cause of the delay.

### PIONEER LIFE.

Some Phases That Are Now Almost Forgotten—the Pioneer of Ontario—Country Life in Canada.

Recent events have caused the thoughts of many to turn back to early times in Ontario. One of the best known historians of that period is Mr. Cannif Haight, whose book, "Country Life in Canada," is a treasury in its way. The author's memory unfolds like a cord to the time of the Mackenzie rebellion. The distant past is magically summoned by the author on the first page, when he merrily remarks that he does not remember being born, though present at the time. He does remember how his father thrashed the wheat when it was still a baby, and tells of the settler turning the sheaves over and over on the barn floor, while the horses and oxen were driven round and round. He recalls, too, a barn raising, and the custom of hurling an empty bottle from the top of the building to the ground. If it was picked up whole, it was a good omen, if not, well, it had probably struck something hard. The settlers were a cheerful lot, and did not permit the hardships of the life they led to make them pessimists. He mentions the lavish hospitality universal in the early days, and tells how the plate of a chance visitor would be buried under the rude abundance of hearty fare. To toy daintily with the victuals was to deprive the host, to have no appetite an insult. In this connection the absolute social equality of master and man is mentioned. They ate at the same table, and one would not go farther than the other in comments, favorable or the reverse, on the meals before him. It was the custom for girls to go to neighbors to live if their own parents could get on without them. In effect, they were servants no more than at home, except that they were paid for their work. The idea of the girl's social inferiority to her mistress never entered the head of either. As Mr. Haight says: "The fact of the girl going out to work did not unfavorably affect her position. On the contrary, it was rather in her favor, and showed that she had some ambition about her." Indeed, in those days it was rarely the case that a girl shrank from domestic service in order to be a typewriter.

Sunday School Teacher—Harry, can you tell me why the lions didn't eat Daniel?  
Harry—I guess it was 'cause they didn't know how good he was.

"Oh, dear!" sighed small Harry. "I do wish I was a man!"  
"What would you do?" asked his mother.  
"I'd grow a beard so I wouldn't have so much face to wash," was the reply.

Teacher—Elmer, can you tell me what the largest diamond in the world is called?  
Elmer—Yes, ma'am. The ace.

Small Tommy—The teacher wanted to box my ears this morning.  
Grandma—How do you know he didn't?  
Small Tommy—'Cause he wouldn't have boxed 'em if he hadn't wanted to.

Mamma—Are you asleep, Bobby?  
Bobby—Why do you ask, mamma?  
Mamma—Because if you are awake you must take your medicine.  
Bobby—Oh, I'm asleep.

"Why is it you can't get away from the foot of your class, Johnny?" asked the father of a precocious youngster.  
"Because," explained Johnny, "by the time the teacher gets down to me I've forgotten my lesson."

"Mamma," said little Elsie as she looked up from her book of Bible stories. "I don't believe Solomon was as rich as people think."  
"Why not, dear?" asked her mother.  
"Because," replied the small investigator, "this book says he slept with his fathers, and if he was so awfully rich I guess he would have had a bed of his own."—Chicago News.

Recreations of the Time.  
Coon hunting was popular then, as now, and spearing fish by torchlight often kept a sportive pioneer up all night after a hard day's work. Wild pigeons were so numerous, and so easily killed or caught, that one could hardly call the preceding sport. They were so daring that they would swoop down on the seed grain before it had reached the ground after being cast by the sower's hand. Game of ever sort abounded. One who did not enjoy hunting or fishing may have had trouble in finding pleasure or recreation after the day's work. If he loved reading, and had access to a backwoods library, he could plunge into Buchan's "Domestic Medicine," Brown's Union Gazetteer, Rickerson on Health, Jessy Kersey, "Memories of a Deceased Friend," reports of the British and Foreign Bible Society, Job Scott's Journal, or Lewis' "Dispensatory," all of which would be at his disposal. If these times did not attract, he could often hire himself to the school-house and plunge into a debate on the subject, "Which is the more useful to man, wood or iron?" or "Was Wellington or Napoleon the greater general?"

Success in Canada.  
"Birkenhead" writes to The London Daily Mail: "My son, who was then sixteen years of age, had twelve months ago: 'Father, I am tired of office work. Give me £5 and I will go to Canada.' He worked his way out on board a steamer, paid his railway fare to Winnipeg, got immediate employment on a farm, and has already remitted most of the money he took away. He writes that the climate is splendid; that he enjoys the life, and is developing into a big, strong fellow. As soon as the harvest is over he intends taking up a grant of 160 acres. These are facts, and show what an English lad with grit can do in a new country."

Jim Dumps, at Buffalo, went through Large mills, and more delighted grew At every step. "How clean!" said he. He saw them mingle skillfully Malt, wheat and sunshine—strength for him. "And that makes 'Force,'" nods "Sunny Jim."

**FORCE**  
The Ready-to-Serve Cereal  
crisp cleanliness and purity.

Cleanliness the Characteristic.  
"I have thoroughly inspected the mills and the method of manufacturing the product called 'Force.' I find that the sole ingredients—wheat and malt—are of the highest possible quality and of absolute purity, and that every step in the process of manufacture is characterized by perfect cleanliness. The final drying or roasting, thoroughly sterilizes the product, and from the time the grain is delivered at the mill until the final sealing of the packages, the food is handled entirely by machinery."

### WIT OF LITTLE ONES.

Teacher—Elmer, can you tell me what the largest diamond in the world is called?  
Elmer—Yes, ma'am. The ace.

Small Tommy—The teacher wanted to box my ears this morning.  
Grandma—How do you know he didn't?  
Small Tommy—'Cause he wouldn't have boxed 'em if he hadn't wanted to.

Mamma—Are you asleep, Bobby?  
Bobby—Why do you ask, mamma?  
Mamma—Because if you are awake you must take your medicine.  
Bobby—Oh, I'm asleep.

**CONTROL OF THE CHURCH.**  
HAS BEEN ASSUMED BY CARDINAL OREGLIA.

Merry Del Val Secretary—The Conclave for the Selection of Leo's Successor Will Probably Meet on August 1.

Rome, July 22.—The government of the Catholic Church has been officially assumed by Cardinal Oreglia as Dean of the Sacred College, and as Dean of the Cardinal Bishops. He will be assisted by the Dean of the other two orders of Cardinals, Cardinal Machi for the Cardinal Deacons and Cardinal Rampolla for the Cardinal Priests, the latter, however, merely as a substitute for Cardinal Netto, the Patriarch of Lisbon, who, when he arrives, will take over his own duties. The Cardinals present in Rome met yesterday under Cardinal Oreglia in a preparatory congregation, held in the hall of the consistory. Oreglia communicated to them the first instructions he has given since the death of the Pope, informing them of the numerous messages of condolence received from all parts of the world and of the universal mourning for Leo XIII. An exchange of ideas took place regarding the ceremonies preceding the conclave. When Cardinal Oreglia asked for the advice of one of the Cardinals present, the latter replied: "It is difficult to give advice. Indeed, you must teach us what to do, as not one of us has ever participated in a conclave."

According to a statement coming from a high ecclesiastic, arrangements at the Vatican are being pressed forward which will enable the conclave of Cardinals to begin sitting August 1.

At the morning's meeting of the Congregation of Cardinals Monsignor Merry Del Val, the first Apostolic Delegate to Canada, was provisionally appointed Secretary of the Consistory Congregation, replacing the late Monsignor Volpini. This, probably, will be followed by making the provisional appointment permanent. The position of Secretary of the Consistory Congregation has additional importance, since it will lead to the nomination of Mgr. Merry Del Val as Cardinal by the new Pope.

London, July 22.—King Edward has commanded Irish Secretary Wyndham to express to Cardinal Logue, the Archbishop of Armagh and Primate of all Ireland, his Majesty's deep regret at the news of the death of the Pope, and to ask his Eminence to convey to the Sacred College his Majesty's sincere regrets.

**ENORMOUS DEFAUCATION**  
By Confidential Clerk of a Buffalo Law Firm.

Buffalo, N. Y., July 22.—A defalcation already aggregating \$300,000, and likely to be increased to a larger amount when all the facts are known, has been uncovered in this city.

The alleged defaulter is a confidential clerk and trusted bookkeeper in the office of one of the wealthiest law firms in this city. They handle estates valued at several millions. The alleged defaulter is under 30 years of age. He was born in this city, and every detail of his life was supposed to be known to his employers. Shrewd real estate men, bankers and lawyers unknowingly helped him to carry out his schemes.

**BASEBALL**

The Highgate baseball team will play here against the Maple Leaf team next Friday.

This should undoubtedly prove a good exhibition, as the visitors have the best team this year they ever had. They defeated Tilbury in the final game at the Ridgeway tournament by a score of 14-1.

The Chatham team will be about the same as that which played against Tilbury here last week.

**Sick Headache—Lack of Appetite.**

Its glorious to feel right in the morning—ready for work. But how seldom one does. Sick headache, lack of appetite, disagreeable taste in the mouth—these are the usual morning feelings of most people—even of careful livers. This morning illness shows that the organs of digestion are not working properly. They need a tonic. Take a teaspoonful of

**ERIEAU**

Master James Boyd has been appointed as agent of The Planet at Erieau. Subscribers of this paper who fail to receive it regularly at their cottages will please report the matter to him and he will receive and forward any orders from those who desire The Planet sent to their cottages.

Wm. Robertson was last evening a guest at Glendale.

Mrs. J. Kime and daughter Olga were Erieau visitors.

Miss Bessie Truesdale, of Hamilton, is a guest at Drumtochty Lodge.

Geo. J. Fielder and Frank Judson were visitors to the Eau yesterday.

Rev. Mr. Cobbledick and family spent yesterday the guests of friends there.

Mrs. J. Oldershaw, of Mushroom Cottage, returned to the Eau last evening.

Miss Kate Garrett, of Sandy-Knowe, is visiting for a few days in the Maple City.

Ernest Burke, of Cleveland, is visiting his sister, Mrs. W. D. Sanson, at Drumtochty.

Miss Gertrude Somerville, the popular soprano soloist, is the guest of Erieau friends.

Mrs. J. C. Fleming and children spent Monday and Tuesday the guests of Mrs. M. Houston.

Capt. Fellows' gasoline launch was out for a spin last evening and made a bit with the excursionists.

Misses Hattie and Mamie Northwood, Daisy Rolls, Flossy Atkinson and M. Monk spent yesterday at the Eau.

A trim schooner yacht with a party of pleasure seekers from Buffalo arrived at the Eau last evening.

Erieau's stringed orchestra purpose presenting another impromptu dancing program at the pavilion to-night, weather permitting.

The Band Concert excursion last evening was somewhat of a "frost" owing to the inclement weather. A very short program was rendered and dancing was difficult owing to the wet platform. It would be an entertaining and popular move on the part of the railroad to erect a covering for the dancing platform.

**MONTEREY ABANDONED.**  
The C. P. R. Steamer Probably a Total Loss.

Montreal, July 22.—On the strength of an expert's report on the condition of the C. P. R. steamer Monterey, which is at St. Pierre, the vessel will be abandoned to the underwriters, as it is believed that she will be a total loss. Most of the cargo, especially the cattle, has been unloaded, but a part of it, including the grain, will be lost. The officials of the company estimate the total loss at not a great deal more than half a million. The vessel is valued by them at \$350,000, and the cargo insured at \$600,000. The shipping men think it fortunate that the powerful boat Perseid has been stationed in the gulf this season, where she is in close touch with all the telegraph stations. Although at Channel, Newfoundland, a hundred and twenty miles from the scene of the accident at the time the Perseid, on being notified, was alongside within twenty hours of the mishap. She is equipped with seven powerful pumps, comprising three of fifteen inches, two of twelve inches and two of ten inches, besides a powerful compressor for pumping into the hold.

**Funeral of James Innes.**

Guelph, July 21.—The funeral of the late James Innes, ex-M.P., took place this afternoon from his late residence, Palmer street. It was the largest that has been seen here for a long time.

**BLENNHEIM**

July 22.—Miss Minnie Stewart leaves on Friday next for Manitoulin Island to visit her brother, W. Stewart, for two weeks.

Messrs. R. L. Gosnell, Jno. W. Shillington, G. J. Gibb and J. H. Ferguson left yesterday morning for London to attend the bowling tournament there.

Messrs. John Crookshank and E. G. Palmer returned from Toronto on Monday evening. They have been attending the annual meeting of the Masonic Grand Lodge.

Mr. H. J. Neale, Canadian Bank of Commerce, is holidaying at the Eau. During the storm on Tuesday the blacksmith shop of J. B. McCracken was struck but not badly damaged, only two windows being broken.
