HON, EDWARD BLAKE TRUE TO THE CAUSE.

Hon. Edward Blake has, with true spirit of patriotism, decided to continue in helping Ireland's cause as a member of the Irish Parliamentary Party. Speaking recently at Longford to his electors, whose confidence he enjoys in an unlimited degree, he is reported to have said: "The choice lay before him of giving up either the representation of the constituency or his professional work. He had decided to give up the latter, remaining their representative as long as they wished him to do so. Referring to the new Land Act, he said the farmers must never forget that they had at their backs the old safeguard, unsatisfactory as it was, of a judicial rent. They need not buy land upon any terms the landlord demanded.

The Church in China.

There is great work being done by the Catholic Church in China. The mission at Kiang-Nan has issued a yearly report which indicates that the ecclesiastical province of that name is divided into one hundred and five districts. There is one Vicar Apostolic over them, and under him are one hundred and seventy-six Jedes- suits, twenty-eight secular priests and seventy-seven Seminarists; there are twenty-four Marists, with twentyfour religious catechists. There are thirty-two Carmelite nuns, or whom twenty are natives; ninety-two nuns known as Helpers of the Holy Souls, of whom thirty are natives; one hun-"Ill fares the land, to hastening ills dred and fifty-eight Presentation nuns a prev suit Fathers are natives, as are four of the Seminarists. AT. ST. ANNE'S .- On Monday evening, the young members of the Society of Perseverance of St. Ann's parish held an entertainment in St. Ann's hall in honor of their new Rector, Rev. Father Rioux, C.S.S.R., who was accompanied by Rev. Strubbe, C.SS.R., Rev. Father Flynn, C.SS.R., and Rev. Father Fortier, C.SS.R., and Rev. Father Trudel. The performance was of a high order of merit, and included in the list performers representatives of many well known households in the parish. During the evening the audience manifested by much applause their welcome to the new Rector, and also at the return of Rev. Father Strubbe to their midst. St. Ann's Fife and Drum band was in attendance, under the direction of Mr. Smith.

The success of the concert was du to the members of the executive committee composed of Misses Maggie Mahoney, R. Lonergan and A. Gallery, assisted by Misses A. McArthur, Minnie Mahoney and S. McGarity.

LORD ROSEBERY «IN ROME. -A most interesting paragraph appears in an English Catholic paper concerning the recent visit of Lord Rosebery to the Pope. What a contrast with the President of a supposed Catholic country who goes to Rome and ignores the Vicar of Christ, Here is the simple and edifying account

'The Earl of Rosebery requested : private audience of the Pontifi out of his regard for the person of the Holy Father, whom he had not yet seen He had no errand or commission, 1 ut mercly this quite personal desire. His audience was as satisfactory as his anticipations had been pleasant. reached the Vatican from the British Embassy at about midday on Wednesday, May 4. His audience lasted eight or ten minutes. Mgr. Prior, , who, introduced him to the Pope remained during the interview and acted as interpreter, for His Holiness spoke in Italian. After the Papal audience, the visitors left the Papal apartment from the Clementine Hall and passed out through the loggias, where were assembled upwards 0 seven hundred pilgrims from Palom bara Sabina, a poor village of the Roman Campagna, lying towards Tivoli. The assemblage was very striking, the country people being in characteristic costumes. It was also composed of persons of every age. from infants to greybeards. Lord Rosebery was much struck by the presence and evident freedom of these people in the Royal Vatican of their Father, and the memory of the sight and thought which the strange throng presented will remain among thk most vivid of the impressions of his present visit to the Eternal City. His Lordship then called on the Cardinal Secretary of State.

A CONVERT'S EXPLANATION. Mr. A. R. Cooper, of Leeds, Eng land, has written a beautiful letter to the press, telling of his conversion to the Catholic Church. About eighteen months ago, Mr. Cooper, then a doubt Protestant, began to have about his religion. Though not in Catholic yet, he was very sincere his desire to know the truth. Her is what he now writes to a Catholic organ, with which he had consider able correspondence before his conversion : "I was received into the Church on the evening of Good Friday, and as each day goes by, more and more do I realize the wonderful goodness of God and the benefits He has bestowed upon me. I owe my conversion partly to the books I to conversations have read, partly with Catholics, partly to correspondence with many of your readers, who were good enough to come to my aid, but principally to the Divine Grace of God." Here we see how much good books can do, and how Catholics should learn their ow religion in order to be able to teach it to others. Great is the responsibility of the Catholic.

A VERSATILE DOMINICAN. The Rev. Sabastian Gates, O.P., who is exhibiting pictures in the Royal Academy, London, this year, affords an example of genius in a particular branch of art asserting itself after the age of maturity is reached. Father Gates has explained to the

a public reception tendered to in the Russell Theatre, Ottawa, last week, His Eminence Cardinal Ginbons of Baltimore, made the following dediaration in regard to the spirit of good-will and peace which should always exist between the United States and Canada. He said :

hin

"I earnestly hope that the pleasant and fraternal relations will always exist between these two great nations, and the more the increase of commerce and trade between one another, the more friendly will become, because we will understand one another better. Every rail that is placed across the from tier, every track that is laid, every track, I say, becomes a link binding the two nations together, becomes a living vein connecting the hearts Canada and the United States, and bringing them into closer, connection with one another and thereby bind ing them closer in sympathy and affection.

"I earnestly hope that if ever dispute should arise between these two nations, it will have no regard to war, but rather as to which shall surpass the other . in the fields of commerce and trade and of civiliza tion and of humanity. If any dispute should ever arise between the two nations, I earnestly hope that it shall always be settled by boards of arbitration; I earnestly hope that disputes, if any should arise will be settled, not on the battlefield but in the chamber of conciliation, not with the sword, but with the pen for the pen is mightier than the sword, especially when that pen is eminent peaceable wielded by such men and able statesmen as your chief executive officer in this country your illustrious Prime Minister, and

other distinguished statesmen. "It is not surprising, however, that

we should have these fraternal relations, because we have practically the same form of government, becaus we understand what liberty is. You in this country and we in our country have liberty without license, authority without despotism, and our respective countries hold the aegis of this protection over us without interfering with any man in the exer cise of his conscience and in pursuit of the religion which his conscience calls upon him to exercise.

LAW AND ITS LESSONS. -A correspondent of the London Daily News furnishes the following statistics to show the cost of litigation in England and Wales during recent years 'In the year 1902 no fewer than 1.410.484 proceedings were begun, ex cluding all criminal affairs. This is a record, and should be set against 1, 358,587 for 1901. If we reckon fiv to the family, we discover the cheerful fact that about one household in every four has been so enlightened as to appeal unto Caesar. The number of cases heard and determined. was 472,041 in 1902, as compared with 456,242 in 1901 Touching upon the financial aspec

he says :

"Now the cost of all this quarrel ing is not to be measured in pounds shillings and pence. No sum of money adequately compensates worry, for it is nevertheless significant that the bill for 1902 rose to £1,561,975 10s 7d. Litigation is press that he did not try to draw till the ultimate outcome of the friction

Gibbons stated that he signed the etter of request. It is evident that the aim of the Cardinal and of the to induce the ex-actress to come out again, was to have her splendid ex-ample and great moral influence play a part in the continuation or egeneration of the stage. But it has all proven in vain. The following cablegram tells the story: 'James W. Morrissey, recently came

to England with a letter to Mme De Navarro (Miss Mary Anderson) bearing the signatures of Cardinal Gib bons, Bishop Potter, W. K. Vanderbilt, George J. Gould and a score or more notable American citizens suggesting that she should undertake tour of the United States, giving readings from poets, per prospective manager, Mr. Nelson Roberts, agreeing that a part of the gross receipts be devoted to charity.

"Mme De Navarro has written letter expressing a sense of her worthiness of the honor bestowed by so many of America's most distin guished men, and regretting that she is impelled to decline their request, not wishing to return to the stage. . . .

CHURCH MUSIC. - Some time ago it was widely circulated that a protest was sent to Rome by American Bishops, representing that New would not be possible in the World to enforce the rules laid down by Pius X. in regard to Church mu sic. At the time we paid no attention to the rumor, nor did we even mention it. Now it turns out that the Vatican authorities deny having received objections from American Archbishops and Bishops regarding the subject of the Gregorian Chant. It is pointed out in this connection that the decree did not call for the exclusive use of the Gregorian chant, nor did it forbid congregational sing ing, including naturally female voices Hence we see what small amount of reliance is to be placed in those fabricated rumors concerning the doings of Rome and of the Church, abroad . . .

KAISER AND THE POPE. - The Emperor of Germany has again manifested his friendship for the Holy See by the presentation to the Pope of a beautifully bound copy of the first volume of the important work. on the Sistine Chapel, which is being edited by Dr. Steinman. On receiving the book from the Prussian Envoy, Pius X. expressed himself warmly appreciation of the lriendship of Emperor William, speaking not only of this most recent evidence, but also of previous actions of deference on the part of the German Emperor. To all he world the contrast between the Protestant head of a thoroughly Protestant State with that of the SC called Catholic head of a so-called Catholic State, is so pronounced that it is not necessary to draw attention

to it . . .

A CATHOLIC MUSICIAN. -Anton Dvorak, the Catholic musical com poser, died the other day at Prague He was in his sixty-second year, and succumbed to a fit of apopleptic chaacter. Like so many who have riser to fame, Dvorak was a self-made man the son of a Bohemian innkeeper. The great merit of his "Stabat Mater" has been acknowledged by the whole world. His mastery over the mo dern orchestra and his power emotional expression enabled him to reach a high mark in his art, and wherever he went he excited admira tion in an unusual degree. It would be unnecessary to give a detailed account of his life here. It has been written by Lord Orrey, by Hawkesworth, by Delany, by Johnson, and lastly by Sheridan. In these writers considerable discordance opinion occures. It is with truth that Johnson has stated that "he seems to have wasted life in discontent, by the rage of neglected pride, and the languishment of unsatisfied

Sheridan, indeed, has published elaborate vindication of Swift; but having determined that his character should be of pure and unmixed ex cellence, he has plunged into a series of inconsistencies from which he never knows how to extracate himself. The truth is that Sheridan was proud of the original information and materials which he had been able to collect and did not perceive that although they might furnish an impartial life of Swift, they could not support continued panegyric.

Yet for this Swift is not account able. His conduct, measured by his own principles, is seldom mysterious, and becomes so only when attempts are thus made to render it consistent with a character which he did not Doubts have been justly entertained of his religion; and there are many proofs that it was a religion which did little honor to the church of which he was a member His notions of what became the dig nity of a ministerial or clerical fice appear to have been very lax. As I moved on I re-A LESSON IN BUBBLES. -A few flected on all the bubbles I have nights ago business brought me blown in my life, and I wondered, as the capital, and having little to do, did the lad, where they had all gone to while away the time, I went to to. When I was a tiny boy I spent the House to hear the big debate on the great Transcontinental railway. I amusement, and the sight of the boy sat in the gallery and looked down and his game brought it all back at the scores of eager members awaiting a momentous vote. I noted them all from the Premier, all along the lines behind him, to the Leader the Opposition and the men who support him. But my thoughts were far from the subject of debate. Thirty one years ago I sat in that same gallery, in that same seat, and

I I would looked down on that same House There was then the question of the first great transcontinental line under I built up imagifiery discussion. Where the Premier of to-day sits, then sat Sir John A. Macdonald; where Hon. Mr. Borden now sits, then sat Hou, Alex. Mackenzie. In all that assembly could count only three men who were there on the former occasion - Sir W. Laurier, Hon. Mr. Haggart and the Hon. Mr. Costigan. All the rest. See old as the oldest may be, are very again, delight my ecent introductions. Since then Mackenzie has occupied the Premiership; then Sir John Macdonald; then Sir John Abbott; than Sir John Thompson; then Sir M. Bowell; then Sir Charles Tupper. And the two last mentioned are out of that House forever, while all the others have gone as the bubbles of my youth, and their names are not even recalled. This was a grave lesson for me in the matter of bubbles, and it taught me most potently how small atand unimportant we all are. In this connection I came upon some lines that appeared in the Indianapolis News, a short time ago, but with out any signaturel These lines added to my own reflections, will complete my observations and remarks upon bubbles.

BUBBLES I'VE SEEN. - I can count along the pathway that I have rod such a vast number of human bubbles that are to-day (save as concerns their souls) just as if they had never been. I saw them in chains of successes all linked to each other, all beautiful in their form and all different in their tractiveness, and I admired them in anticipation of their realization. I was an emo-tional, luxurious-minded, unprihciplnse, "Has he any ?" I say pected, for my colleague is in ed boy. I revelled in a psalm Holy Orders. This will, I think, sufthe quadruple chant, I hugged my fice me as a justification that I shall not seriously offend, if I try to show that the religion taught to the ave rage boy at the average school is practically a negligible factor in his ordinary life. In so doing, however, I do not for one moment, even with a view to fostering discussion, accept the view that schoolboys are without religion; on the contrary, 1 hold that every boy, even unconsciously, has one or another binding code, which controls his actions and another binding code, generally colors his life."

There is a doubt at once cast pew, that a boy might make an ap upon the existence of any real religion in the schoolboy, no matter what his teaching may be. Here is further explanation : the large majority of boys who

"All moral teaching, Christian under any Protestant denomination, Jewish or other form of Unitarian, is excellent. The beauty of holiness, of obedience to Divine rule, of selfabregation, of moral rectitude and corporal purity, is emphasized. The attainment to a high standard in the practice of these virtues is made an aim of surpassing importance, and the rejection of the opposing vices a duty, the failure to fulfil which is Presence, be the surroundings what punishable here and now, as well as they would. If a boy could get so in the eternal hereafter."

I quote this, because it sets forth the subject and in doing so it includes everything except Catholic religious and moral instruction. We are, therefore, placed face to face, by the author, with Protestantism and Judaeism, but there is no mention of or reference to Catholicity. Hence I say that all the strictures upon the religion of the present day schoolboy do not affect us-but they affect those who ignore Catholic teaching and Catholic systems.

GENERAL PRINCIPLES. - The writer lays down a series of general principles, that of themselves are very good. Of course they do not embrace all, nor nearly all that must be taught, if it is desired that the school-boy should be imbued with religion. But they contain all, or the best of all that can be had in the public or non-Catholic school. These are the principles mentioned :

ration. There are good men, like The Indifference inadequacy, who seek by all means in heir power to find some method whereby they may remedy the situation, and they seek on all sides, and they seek in vain. They see the lack of real religious and moral spirit in the rising generation; they see the Bible ridiculed, criticized and rejected; they see the churches abandoned and every evidence of Christianity going out of the social atmosphere They seek the cause and they find it in the want of religious and moral training in the school. Then they turn, as does Mr. Weisse, to find some remedy; and all they can do is acknowledge the evil, but cannot find the cure. Yet, at their very doors is the Catholic Church, with her God. filled schools, her moral code, her religious principles, her immortal sys tem of inculcation and they are forced to admire it all, but they will not bow down and accept it. Yet the day will come when they will have to accept it, or perish.

This is, briefly out, the story of his priestly career. The writer then proceeds, with some incidents illus trative of the character and spirit of the regretted priest. Among other he tells the following :

We all know how difficult it is to make a speech on such an occasion, and to say something new. When Abbe McAuley arose he began with a phrase that carried the audience with him. He

Of the Age,

The members of the Guild of Our Lady of Ransom resident in London and the suburbs kept with befitting solemnity on Thursday night . their annual special service at the Church of the English Martyrs. The High Altar and the Altar of Our Lady were most tastefully decorated with choice flowers. Father Fletcher officiated at the first part of the service, which consisted of Rosary.

The sermon was preached by Right Rev. Mgr. Robinson, M.A. Taking for his text, "Master, we have labored all night, and have taken nothing. Yet at Thy word I will let down the net." the right Rev. preacher said that was the sixth time they had done him the honor of asking him to occupy that pulpit, and he felt in consequence some difficulty in bringing before them that which was fresh, but he would do his best. 'What is your view of the outlook What, in your estimation, is the state of this unfortunate country from the point of view of the Catholic Church? Is it one that is bright or the re-

verse? Let them see what was on begged to remark that what he said was the real result of what he had side of what was bright and inspirsent time a continuously increasing was flourishing at the time. Here was another point that seemed to escape was clear. If there was confusion it was difficult to distinguish between friend and foe. It was a great thing to know what and whom they, wer fighting. They had got the ground lear in this way. The voice of the man of the world-the man of the clubs in St. James' Square and so on and the voice of the workingman of England-was this-"I don't profess Christianity at all, but if I do there is only one form of Christianity which will bear reasoning upon." With them it is either the Catholic Church or nothing. He (the right rev. preacher) called that clear ground There was another most extraordinary position at this time. A large section of advanced Anglicans seemed to identify themselves with every single Catholic doctrine, and were even prepared to recognize the privilege of Peter. It was extraordinary how so many Anglicans remained where they were, and it showed that intellectual conviction was not faith.

Intellectual conviction was one thing. faith another. There was many person who was said to have faller from the faith who never had the faith to fall away from, Now let them look at the other side of things.

The first thing that would tend to iscourage them was the growing indifference of this country to Christianity. A well known member of Parliament, recently advised the Noncon formists to withdraw their opposition to the Education Bill, "Because, we must avoid what we all dread," ad to him Amato

habit of going away for week-ends he often neglected to worship his God. Those four things, desirable in themselves, were having a somewhat disastrous effect, and they must not shut their eyes to the fact that there was a low wave of spirituality passing over the Catholic body. It

might be merely the hollow of wave, a reaction which could not be avoided in human affairs, and which would soon recover itself, but there was the fact and it was one of the sad facts in the outlook. There was another cause for anxiety. Who could say what the new Education Act would do ? He (the rev. preacher) had travelled up and down the country, and it had been said to him that this new Education Act had wrenched the priest from the school in its first stages. Were they able at the present moment to give adequate religious instruction to their children ? He answered Yes, in certain sections of society they were doing so, in certain circles of society, where there were certain oasis in the desert where the children were under instruction from the religious For the most part the nuns-God bless them ! -were giving acquate religious instruction to the girls un der their care, and the same thing happened to the boys under the care of the male religious. But could they answer the question satisfactorily for the vast majority of their children ? No, they could not. He was not blaming anyone, and there were few who could be blamed. It simply could not be helped, for the Act of 1870 had made it extremely difficult to give adequate religious instruction, to educate them so as to draw them out in conscience, soul and heart. Again, were they keeping in touch with their children afte they left the elementary schools ? Once more the religious came to the front, and in many cases they did keep in touch with them. But numbers of children left school at 15 or 13 years of age, and then the They priest saw no more of them. grew up, and although they might neglect they did not forget their re ligion, and when they came to die they sent for a priest. That was distinct source of anxiety. He did not mention these things to discour age them for let them remember that when darkness was most complete when hope seemed most distant, then vas the time when our Divine . Redeemer works. In conclusion, the r ght rev. preacher his hearers not o relax their efforts for the return of England to the Catholic Faith. -

THE TRUE WITNESS AND CATHOLIC CHRONICLE

Laying of Corner Stone Of St. Michael's Church

nan, the zealous and courage ous pastor of St. Michael's parish in the northern district of this city, and his they had shown since the foundation loyal parishioners, had the happiness of witnessing the laying of the corner stone of their new parish church. The ceremony was performed by Mgr. Racicot, V.G., who was attended by Father Kiernan and the pastors and curates of the various Irish parishes, and many of the French parishes as well as members of the clergy sociated with well known education. al establishments in Montreal and surrounding districts. The attendance of the laity was large and representative of every Irish parish.

At the appointed hour-3 o'clock the clergy and laity formed into line at the entrance of the temporary chapel on the corner of Laurier Avenue and St. Denis street, and escorted Mgr. Racicot to the scene of the ceremony on St. Denis and Boucher streets, where a platform had been erected near the corner-stone.

After the impressive ceremony blessing and laying of the stone had been performed, Rev. Thomas Heffernan, of St. Anthony's parish, pro ceeded to deliver the sermon of the It was an eloquent effort and day. worthy of the great occasion, mark ing as it did another striking testimony of the devotion and loyalty of the Irish race to the Faith.

Heffernan's text was: Father "Wherefore I purpose to build a temple to the name of the Lord, my God, as the Lord spoke to David, my father, saying: Thy son whom I will set upon the throne in thy place, he shall build a house to my name.' (1 Kings, 5-5).

"But a short time ago," said the eloquent young priest, "application having been made, a decree was issued erecting this section of Montreal into a parish for the English-speaking Catholics. Where we would find a flock, we must find a shepherd. In the person of the Rev. Father Kiernan, His Grace, our beloved Archbishop, found a priest well-tried, true noble, a priest after God's own heart into whose hands he would place the destinies of the young parish. The cross was offered, above it hung low the dark clouds of troubles, of fatigue, but the true priest following in the footsteps of the One who came not to be ministered unto, but minister, beheld the lining of gold, of the grace of God, accepted the cross, has borne it to this spot, and to-day it rests upon the corner-stone of the edifice whose foundation is so be used for a time as sacristy : and solidly cast. In truth, then, upon the life of the beloved "Sogarth," the life of the beloved may I place the words of my text, "Wherefore I purpose to build a temple to the name of the Lord my God, as the Lord spoke to David, my father, saying: 'Thy son whom I will set upon the throne in thy . place he shall build a house to my name.' '.

A Week's Anniversaries

On Sunday last Rev. John P. Kier- members of the parish to always show the same loyalty, the same spirit of zeal and self-sacrifice which of the parish, and a worthy monu ment to the name of the Lord God, another grand temple to Catholicity would be raised up in the metropolis of Canada. He asked them to give generously to the erection of the new Church. To give not for the prais of the world, nor to have one's name heralded far and near, but because i is a law imposed by God. "What you give out of your substance to His House, God will accept as given to Himself, and He will reward you accordingly. The hundredfold and

life everlasting shall be yours, for you make God your debtor.'

The pastor, Rev. Father Kiernan followed. In a touching and graphic manner he outlined the efforts that had been made since the erection of the new parish. He referred to the encouragement and co-operation he had received from devoted members of his parish since the day of his appointment as pastor by His Grace the Archbishop. Much of the difficult preliminary work of organization had now been completed and the ceremony of to-day, he con sidered to be the starting point of a Michael's parish. newer life for St. In concluding he thanked Mgr. Racicot and the members of the clergy for their attendance, and the faithful for their display of enthusiasm in the noble endeavor they had undertaken of esecting another temple to the honor and glory of God in this city of Mary.

Mgr. Racicot also addressed the people, urging upon them to persevere in their undertaking and continue unceasingly in according taken of erecting another temple to had so generously done since his as sociation with them.

Chapman's Success

(By an Occasional Contributor.)

The week before last I took the liberty of occupying a couple of your columns with an account of William Chapman's success, as a poet in France. I desire now to add thereto another piece of information concerning the same poet. On Friday of last week Mr. Chapman showed me a cablegram from Paris an bouncing to him that his book, "Les Aspirations," has been crowned by the French Academy. Not only this, but he has been awarded the Arcison Desperouse prize. This is the highst prize within the gift of the French Academy for a poetic work. It is not to be confounded with Monthyor prizes that may be gained by a few lines of verse, and that do not necessarily demand anything above th These latter prizes ordinary. are numerous and of an honorary cha racter. The prize awarded to Mr Chapman carries with it 2000 france in money. This work has been lected from among those of som

thirty aspirants. While on this subject I wish draw attention to another merit for which we Catholics should be proud The other day the French Governmen declined to sanction the Academy's choice of Mr. Brunetiere as succ o a vacant seat amongst the "Fort Immortals" Why so ? THE TRUE WITNESS AND CATHOLIC CHRONICLE: if it were a charitable institution, it is more humiliating to consider the spirit that makes this begging neces-

sary. If the right spirit were equcated among Catholics, fairs and their abuses would never wait for episcopal condemnation. The Catholic who knows that it is a privilege to . be able to build temples to the worship of God, to increase the number of schools in which His truth is taught, to spread the benefits of religion in every direction, does not need to be "buttonholed" for a donation to the Church. The only right condition is where the Church stands as a recipient, not a solicitor, of the offerings of the people. And it is not an impossible condition. There have been and there are, congregations that have been taught that they are benefitting themselves first of all when they are generous in support of the institution which is their greatest benefactor. Viewed in this light, to forbid favors seems only an indirect attempt at reform. The direct means is to make fairs unnecessary by giving Catholics the true idea in regard to the duty and privilege of Church maintenance. -Notes on News in Catholic Universe.

A Recent Conversion,

The following account of the conversion of a leading citizen of Buenos Ayres is recorded in the Messenger of the Sacred Heart by one of its correspondents: "A remarkable conversion took

place in Buenos Ayres towards the end of last year. The brother of the President of the Republic, General Rudedindo Roca, father of one of our pupils, had been for many years grand master of the Freemasons and a practical infidel, but he fell danger. ously ill, and lit was then seen that the faith was not dead within him but only sleeping, to be aroused by the fear of the judgment of God. When death seemed to be approaching he sent for the Archbishop, made his general confession, and then asked to have as many persons as possible present at his solemn retraction not only to make it as public possible, but that there might be many witnesses to the fact that made it in his sound mind and with

the deepest humility and submission to our Holy Mother the Church, for he knew well the Freemasons would be capable of saying that he had been influenced, and was not in full posession of his mental faculties. Our dear Lord seemed to second his up right intentions by giving him some weekei more of life, during which he gave example of heroic patience and esignation, and even when a slight improvement in his state gave hopes of a return to health, his perfect perseverance in his good disposition gave proof of the sincerity of his return to God. He received Holy Communion several times. The Archbishop and the Nuncio and different members o the clergy visited him otten. The for-

His death was holy and peaceful, and his conversion has done a great deal of good. I have no doubt, as he was well known all over the country, having held several high offices in the government during his lifetime. On this last account, he had a magnifi-

general in the army, the troops assisted. Consequently, many of his former Freemason friends were there in their military capacity. What gave greater publicity still to his conver sion were the telegrams exchanged he**EMIGRANTS AND** IMMIGRATION.

The statistical tables relating to migration and immigration from and into the United Kingdom in 1903, and the report of-Mr. H. Llewellyn Smith, C.B., to the Board of Trade thereon, have been issued as a Parliamentary paper (145). 'The report ment to British North America and South Africa being especially noticeable; and that, so far as can be deduced from the statistics, the net addition to the foreign population of the United Kingdom resulting from these movements was considerably less than in 1902, while the net outward movement of British and Irish persons was greater than in any year since 1889. The tables, taking the

influx of about 14,000 foreigners, the net balance outward being thus

from this country to places out Europe was 441,489, of whom 259,-950 were British and Irish and 181,-539 foreigners, an increase of 62,227 or 16 per cent., as compared with 1902. As regards the separate divi-sions of the United Kingdom, it appears that the proportionate increase was less amongst the Irish than amongst the English and Scottish passengers. The English formed 68 per cent., the Scottish 14 per cent., and the Irish 18 per cent. of the total number of native immi-grants, as against 67, 13 and 20 per cent. respectively in the preceding year. The proportion of Irish sengers was, in fact, lower than in any previous year. Of last year's passenger's outward, 188,561, or 42 per cent., went to places within the

South Africa, 12,573 to Australia and New Zealand, 5532 to India and Ceylon, and 7.050 to other British colonies and possessions. The re-maining 260,445, or 58 per cent. of the total outward passengers, went to foreign countries, including 251, 941 to the United States. Compar-

ed with 1902, this is an increase of 19,842 in the case of passengers to the United States, of 31.982 in the case of passengers to British North America, and 10,983 in the passengers to South Africa, but a de crease of 2,102 in those proceeding to Australia and New Zealand. Of the British and Irish passengers outward, Roch's Cemetery, R.I.P. 130,952, or rather over 50 per cent. went to places within the British Empire, 23 per cent. going to British North America, 19 per cent. to South Africa, 5 per cent. to Austral lia and New Zealand, 2 per cent. to British India and Ceylon, and the remainder to other British Colonies and possessions. Of those going to foreign countries nearly the whole -48 per cent. of the total outward pas sengers-went to the United States Deducting the inward passengers, the net result of last year's movement between this country and places out of Europe was an excess outward to the extent of 249,321, the movement

tain number of whom subsequently left this country, although not des cribed in tge lists as transmigrants. Included in the Parliamentary paper are a number of consular reports on emigration to the United Kingdom from British Consuls on the Con-

tinent, reports from the police autho rities in certain towns in the United Kingdom on the number of destitute aliens resident in their district and tables showing the relief granted to aliens by poor law authorities.

An Indian Congregation

A religious body, Catholic and Indian, known as the "Congregation of American Sisters," was founded by a full-blooded Indian woman some ten years ago. Her name is Mother Catherine Sacred White Buffalo. Her successor, Mother Bridget, is not a full-blooded Indian, as she is the daughter of Chief Cloud Eagle's ronized by visiting seamen and the daughter, who was married to an friends of the organization. On Wed-Irishman named John Peats, Capturan ed with four soldiers, he saved his life by his bravery, which the Indians admired; and so pleased were they with him that they gave him the Chief's daughter for a wife. Their daughter was sent to an Indian school on the reserve, and thence to a convent at Fort Pierre, where she was received into the order. The Assistant General, Mother Anthony, is the granddaughter of Chief Spotted Tail,, a chief of the Brule tribe, of the Sioux Indians. Sister Joseph is famous among her tribe 8.8 being the daughter of old Chief Two Bears, the sister of second Chief Two Bears, and the aunt of the third, Chief Two bears. During the war between Spain and America four Sisters of this Indian community went to Florida to nurse the sick soldlers in the Third Division hospital.

Notes on Temperance.

Dr. Robert Jones, Medical Superent of the London County Coup cil Asylum at Claybury, recently a paper on the relation of ebriety to mental disease. Alienists all agree that alcoholism tends to bring on insanity, but as to whe ther the habit is a fertile source of mental disease is a point upon which agreement has not been reached. Some contend that drinking to excess is responsible for a large proportion of the cases of insanity which occur with apparently increasing frequency in civilized lands, while others clare that Bthe harmfulness of taking an undue amount of stimulating drinks, so far as the production of mental disorders is concerned, has been greatly exaggerated. Dr. Jones takes the more pessimistic view of the matter, and attributes to drink in

a substantial percentage of the anity in England and Wales. Dr. Jones aivided the class of inebriates into two divisions, the peridic drinker and the more or less constant drinker. The victims of these two classes were of different ages those in the periodic class being most ly young men who, in the intervals of their paroxysms, were apparently rational, and fulfilled their obliga tions both to society and to their friends. There doubtless was in all inebriates a considerable mental deterioration, as was evidenced by the fact that over 20 per cent. of all the inchriates under treatment in retreats and reformatories in Great Britain were transferred during one year 8902, into asylums for the insane The author then gave statistics deal ing with the effects of alcohol. He stated that out of the 116,000 insane patients at the present tim detained in English asylums thera were probably no less than 11,000 males and 6.000 females whose in sanity was directly or indirectly caused by drink. He guoted the statistics of the London County Asylums for the ten years 1893-1902. inclusive, stating that during this period 35,916 persons had been admitted into these institutions, whom a proportion of 21 per cent. the men and 11 per cent among among the women were ascertained to owe their insanity to drink alone. To Claybury Asylum there had been admitted during the period, 1893-1902, inclusive, 9544 persons, of whom 8664 owed their insanity to drink, a proportion of 22.7 per cent. among the males and 13.1 per cent among the females. He stated that there were 400 persons at present in retreats and reformatories whose detention was caused through inebriety, and that this only represented a small proportion of the inebriates in the country whose pre sence among the young was most injurious, both directly through their neglect and cruelty towards those

for whom they were responsible, and indirectly by their evil influence and example. Dr. Jones said that "his experience of the treatment of 'drink cases' in asylums had been a disappointing one, as to the actual recov ery which took place, for when such patients were discharged they almost invariably relapsed if they tasted alcohol at all, and they were only few who could afterward go through life without it."-Medical Record.

Sir Horace Plunkett And Church Building

"M. O. R.," in a communication to the Dublin Leader, refers to the at tack of Sir Horace Plunkett on Irish Catholics for building too many churches, as follows :

In Ireland there are 2417 Catholic Churches for 3,308,000 Catholics. In Great Britain there are 1954 Catholic Churches for 2,013,400 Ca. tholics

In the United States there are 11, 000 Catholic Churches for 12,000,000 That is to say:-In the United States every 1090 Catholics are pro wided with a Church; in Great Brit ain, every 1030 Catholics are pro vided with one; in Ireland there is a Church for every 1368 Catholics. Again there are in Ireland 1362 Protestant churches for 581,009 Episcopalian Protestants-I am leaving out the Presbyterians. Methodists and others. That is to say, whilst every 426 Protestants are provided with a church, there is only a church for every 1368 Catholics. I will be reminded that 426 Protestants could better afford to build a church than 1368 Catholics. I admit it. I am not at all accusing them of extravagance in church building. Far from it: their churches are to me a symbol not of their extravagance, but of their "economic sense," inasmuch most of these have been built at the expense of Catholics. I do not refer to the old church of which they despoiled our forefathers; I refer to modern churches built, even within the 19th century. Sir Horace Plunkett has not made a full indictment of the

extravagance in church building against the Catholics of Ireland. take leave to add another item the charge. He indicts Catholics only for extravagance in building churches for themselves; 1 indict them for the additional extravagance of building churches for Protestants also.

Amongst the most shameless iniquities which the Catholics of Ireland have had to bear in modern times were the Vestry Laws. A few Pro testants met together, and, without let or hindrance, control, or respon sibility of any sort, levied a at their discretion or caprice on the Catholics for the building or repairing of their churches, for cleaning it for ringing the bell, for washing the parson's surplice, buying wine fo the Communion, paying the parish clerk, the pew-openers and vestrymaids, etc. It was bad enough that Catholics should have to bear these burdens at all, but it was worse that they should not dare to ask if they were necessary, had no option but to pay whatever it please

he vestrymen to levy. From 1725 when Catholics were excluded from having a voice in vestries, their po wers passed through three processes of extension until it came to this,

Bishop Grimes and New Cathedral.

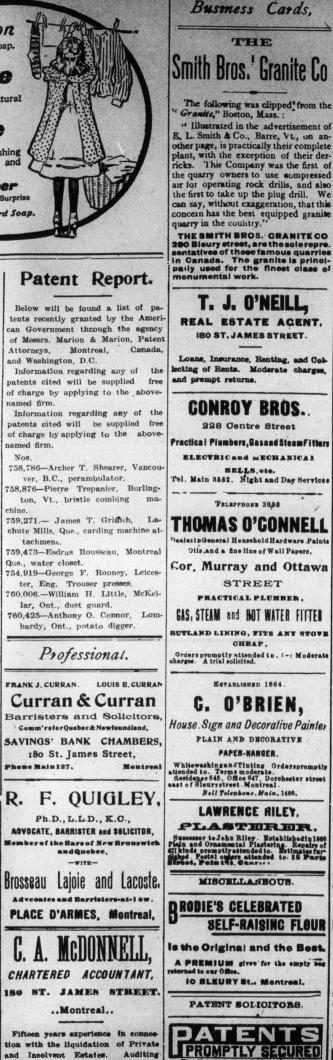

In a communication to the Zealand Tablet, his Lordship Bishop Grimes gives an account of the progress made in the erection of a new Oathedral, and makes a strong appeal to his flock for the necessary financial aid to complete the under taking. His Lordship sava :

"Will you kindly allow me, through the medium of your valuable journal, to say a few words which. I trust, will be of deep interest to many its readers. The Catholic Cathodral now in course of construction in the city of Christchurch was begun thre years ago last February. We are ssured by the contractors that we may rely upon its being completed and ready to be opened soon after the coming Christmas, unless we are compelled to stop the works-a cala mity which may God avert !

Even in its unfinished state noble and majestic building is the admiration of all who behold it. Competent authorities have declared it their conviction that our new Cathedral building, when finished will be one of the richest and handsomest buildings in the southern he-It is estimated to cos misphere. £48,000. Nellie." Mrs. Daton took the card, and Cecelia noticed a light flush on her face as she gazed on the boyish features.

"Who is it, mother? Do you know ?' "Yes, Cecelia; it is a brother

lost long ago, several years before either of you girls were born." "Strange we never heard of him before," said Agnes.

"It is sometimes hard to speak of the dear ones who are gone, was the reply, "especially to those who never knew them."

Agnes was satisfied with this explanation, and took it for granted that the brother in question had been dead for many years, but not so with Cecelia; the strange con versation with regard to Charlie, between her mother and auntie came back to her, and she rightly guessed this to be Charlie's picture. He returned the salute with a smile, and at the same time some of the audience, who like himself had been vainly trying to catch a sight of her face, were re warded, but her head was turned followed by the two girls. Cecelia back too quickly to please the was enveloped in an opera cloak of miring public, some of whom had raised their opera glasses in order to get a better look at her.

"She is a perfect beauty," omelady remarked, "far prettier even than the blonde, but that dignity of hers shows a proud, cold nature, and it. would be much harder to approach her thon the other one."

Such is the mistaken judgment of human nature, for could that same woman have seen the girls in their own family circle she could easily have seen whose nature was the prouder. But her judgment was at least partially correct, for Cecelia, though ever a true friend whom the poor and needy feared not to approach, had built a barrier around her which few among the wealthy would find it easy to scale. But the chosen few to be favored with her rare friendship would know well how to appreciate it as they should, for they were to be mostly the ones who would be able to see the hidden gems Maurice Carroll was destined to be among the happy minority.

When the curtain fell for the first time Maurice came over to the Daton box and, after saluting the occupants, took a chair Mrs. Daton offered him beside the two girls.

"Where have you ladies been keeping yourselves during the past few weeks ?" he asked, "I have missed of things before her. In spirit she you from the gatherings."

"I am happy to hear it; and now, how are you enjoying the opera ?" "Very much," said Agnes.

"And I, too," Cecelia answered, 'Madame Bement has the sweetest voice I ever heard. I could listen to her for hours."

"She has, indeed, Miss Daton; but without descending to flattery I may also say that with equal training your own voice would be just good."

THE TRUE WITNESS AND CATHOLIC CHRONICLE.

"Russia in the Far East," is title of an srticle contributed by Count Cassini to the last number the "North American Review," in which many phases of the war be tween Russia and Japan are discuss ed. The writer says :

5

"A common belief is that comes only when diplomacy fails. As a general proposition this idea is correct; but it must be remembered that there are instances on record where diplomacy has been invoked for the specific purpose of precipitating war. Russia's diplomacy has ever made for her peace and that of the world. It was in this spirit that she entered . into negotiations with Japan last summer, in the fervent hope that an understanding satisfactory and honorable to all con cerned might be the result. Russia believed that Japan's diplomacy was directed to the same end. She saw her mistake only when Japan, without fair warning, substituted arms for diplomacy. It was then that my country realized that her patience in the negotiations had been abused and that Japan was using diplomacy as a time-gaining device that she might better equip herself for the war upon which she appears all along to have been determined.

"When I was in Paris last summer a prominent a prominent Japanese remarked to me : Before we meet again our coun-

tries probably will be at war." " "Why do you say that ?' I asked.

'Russia's desire has always been for peace, and the war would, not be of her making." "'Certainly not,' he replied. 'It

would be what my country has so long been hoping for and expecting. have been another friendly act on She needs a war to place her in the the part of my government in co-opefront rank of nations; and while your ration with France and Germany, to diplomats may stave off hostilities a little while longer, Japan will get a war with you before a year has the spoils of victory. How much gone.

"I hoped my Japanese friend was wrong; my government hoped so; and yet even then there were many evidances that he spoke the truth. The the Asiatic mainland. correctness of his statement was not fully appreciated, however, until the treacherous midnight attack on boats while the Japanese Minister at St. Petersburg was still enjoying the protection and the courtesies of the Russian Government to whom he had only a short time before expressed the confident hope that war might be yet averted.

. . .

Russia has never ceased to wonder why the idea she was willing and anxious to make war with Japan became so prevalent in the United States. Prejudiced minds, or those having nothing beyond a superficial knowledge of my government's position preceding the unexpected and dishonorable attack upon our fleet at Port Arthur may dispute the state-ment that Russia hoped for , and tried to maintain peace, but I have no hesitation in making it. If proof of the assertion be demanded, it lies in the simple but uncontradicted answer, Russia was not prepared. For the personal representative of , the Russian Emperor to make an admission seemingly so humiliating to national pride may appear strange and remarkable to the people of the United States, but it is made with full appreciation of its importance and significance. I repeat that Russia was not prepared for war because she had no reason to expert and her faith that the negotiations with uprising of 1900 emboldened parties with the object of reaching an amicable and an honorable adjust ment of their differences, she was not conscious that the outcome was to be other than peaceful. Faithfully adhering to the terms of her treaty with China respecting Manchuria, she had withdrawn the major portion of her troops from that province until between sixty thousand and seventy thousand only remained. Such a proceeding makes ridiculnus the allegation that Russia, actuated by designs upon not only Manchuria, but Corea, was from the first de termined to possess this territory by force of arms, and that negotiations were prolonged for the purpose of giving opportunity for the concentraon of the Russian forces upon Manchurian soil. Had Russia desired war, or even had she expected it, no eration would have induced ber to evacuate Chinese terittory,

the Russia is at war for the purpose gratifying the ambition of her op ponent to become a great nation. Russia is fighting to defend ner position in the Far East; or vast interests which it would be foolhardy for her to abandon. That Russia, fore

most in developing Manchuria, holds a privileged position in that vast expanse of territory, will not be de nied by fair-minded men. It is popular impression that Russia ha attained her present foothold in this Chinese province through the right of virtual military conquest. No idea could be more erroneous. Through the pacific channels of diplomacy my government acquired privileges which, accepted in good faith, have been exercised in a, spirit of tru modern progressiveness, until now the flower of enlightened civilization blooms throughout a land that a few years ago was a wild, and in many parts a desolate seemingly unproduc tive waste. Before the signing of the treaty which I had the honor to nogotiate on behalf of my sovereign giving to Russia railroads and other concessions in Manchuria, no white man could have ventured into that province without danger to his life. "China, of her own free violition, conferred upon Russia permission to build a railway through Manchuria to Port Arthur, and it was to Russia

that China turned when, forced to assent to Japan's demand for , one hundred million dollars as a war indemnity, she found herself unable to meet this enormous obligation im posed upon a defeated country, bankrupt, or practically so, by the exactions of a costly war. China's appeal was not in vain; she received the loan from Russia. I claim it to save China the Liaotung peninsula which Japan had seized as part of more serious even than it is to-day, would have been the menace to Europe and to the whole world, if Japan had secured a firm foothold upon

. .

Upon the basis of the rights to com mercial exploitation thus peaceably Port Arthur by Japanese torpedo obtained, Russia built a railway into and through Manchuria. She built bridges, roads and canals. She has built cities whose rapid construction and wonderful strides in population and industry have no parallel, certainly in Europe and Asia, perhaps even in America, Harbin and Dalny are monuments to Russian progressiveness and civilization. These great undertakings, wonderful even in day of marvellous human accomplishment, have cost Russia more than three hundred million dollars. To have abandoned them in the face of the menacing attitude of an ambitious and daring nation would have been an act of stupendous folly that would have made Russia not only the laughing stock, but the object of the scornful pity of the whole civilized world. Had the menace not existed, however; had China not failed to offer satisfactory guarantees of ade-quate protection to Russia's interests in Manchuria, Russia would cheerfully have continued to carry out arrangements with China for the withdrawal of the Imperial military forces from Chinese territory. It may properly be asked, and

doubtless is asked: Why was a Russian army sent to Manchuria at all? The answer involves only a simple and Japan, signed the peace protoco Initial successes achiev- of 1900. However, in another effort ed by the Boxers in the anti-foreign to bring the negotiations to a peacethem ful conclusion, my country did to cross the Amur river, which divides Russian territory from Manchuria, and attack the Siberian city of Blagovistchensk. There were regular Chinese troops in this attacking Such a declaration had already been force, commanded by officers of the Chinese Imperial service. That fact made this marked concession solely gave Russia cause for war. It was in the interests of peace, my governan act of war. But Russia, with a ment waited the Japanese a forhearance that contradicts swer in the the expectation that it would charges against her of a desire to disleast be diplomatic in character, and member the territorial integrity of would furnish the basis for the fur the Chinese Empire, took no therance of the negotiations to a sa advantage of the situation. Before the Rus tary forces in Siberia vigorously resian Minister at Tokio could deliver sented the invasion, and punished the this reply, the Japanese answer came invaders, and then, in accordance not through the regular channels, Just with that high law of self-preservaas a torpedo attack at midnight. And tion, crossed the frontier to protect now that war has come, Russia does the vast Russian material interests not doubt the issue. in Manchuria from the destructive, de signs of the fanatical hordes of soldiers and Boxers whose rallying cry It is not a thoughtless statement "Death to all foreigners." was thus lose the opportunity of ending Manchuria that province would doubt that were Japan to obtain supreme Had not Russian troops gone into control in Manchuria, the dominent military spirit of the Japanese would less have witnessed scenes of carnage; lead them to organize the Chinese isto a modern army of such propor-tions that Europe and America would ganization, thus imparting that se pillage and wanton destruction that would have created a sensation

throughout the world. Russia re stored order in Manchuria. She held her military forces there pending an adjustment of the differences petween China and the Powers. When enguiries were made as to Russia's intentions towards Manchuria, assur ance was promptly and cheerfully given of her willingness to evacuate as soon as China had furnished guarantees absolutely necessary to the preservation of Russia's vast interests. "In accordance with her expresse

purpose, Russia negotiated an arrangement with China which provided among other things for the evacuation of Manchuria by the Imperial troops, and more than half of these troops had been withdrawn when the failure of China to furnish the re quired guarantees produced a halt. In failing to complete her evacuation of Manchuria on October 6 last Russia is charged with the violation her agreement with China. It requires but a reading of every Russian note on the subject to prove the injustice of this charge. Russia in all her:diplomatic exchanges, written and verbal, on this subject, has qualified this pledge with the condition : "if action of others Powers proves no obstacle thereto."

Jealous of the growing interests of Russia in Manchuria, the Japanese government long ago endeavored to establish a parallel between its position in Corea and that of Russia in the Chinese province. The justice of this contention my government has never for a moment admitted. To consent to the establishment of such a parallel would be to surrender principle which the Powers, Japan included, have repeatedly recognized, and the same powers have stood, or claimed to have stood, for the absolute integrity of the Corean Empire and for its indepenuence. Having promised protection to the interests foreign Powers in Manchuria, Russia refused to, enter into a bargain with Japan by which that country might secure certain rights that in them selves would affect the political and territorial integrity of Corea.

"In the progress of the negotia tions begun last summer between St. Petersburg and Tokio. Russia show ed at all times a most conciliatory spirit, She modified her terms again and again so intent was His Majesty the Emperor upon preserving the peace of the Empire. At all times, however, my government insisted upon a mutual and unconditional guarante of this principle of the in dependence and integrity of Corea; on an undertaking to use no part of Corea for strategic purposes, as the authorication of such action on "the part of any foreign Power was di rectly opposed to the principle of the independence of Corea, and finally upon the preservation of the full

freedom of navigation of the Straits of Corea. The Japanese Government declined to accept these conditions, and replied by demanding again that Rus sia incorporate in a separate treaty between the St. Petersburg and Tokio governments a declaration defining anew the rights which Japan was to enjoy in Manchuria, and reiteration of the statements of my government's future intentions in that province. First, because such a subject was irrelevant to the negotiations, in progress, and for the additional reason that Manchuria was a gpestion to be settled between Russia and China in which Japan was no more legitimately concerned than any other power, my government refused to accede to these demands. To have entered into a separate arrange-

ment with Japan regarding Manchuria would not only have been a vioria would not only have been a vio-lation of good faith with China, but of national aggrandizement. You of with the Powers which, with Russia

None of the religious movements of the last half century surpase in their rapid development that of the Apos tolate of Prayer. When we imagine that the membership now rises thirty millions of souls scattered over the whole world, we cannot but perceive the hand of God in work. Since, however, of all inhabitants of earth only about the the fifth have ever heard of Christ, we can form some idea of the stupendous work that still awaits those who

have consecrated themselves to the glorious work of the Apostolate Prayer. The aims of it are thus Grace and Life. It is well for graphically pictured : " In this holy crusade the Apostle ship seeks to enlist all who

move the heart of God in our behali and become to ourselves and others ources of untold blessings. It is th direct aim of the Apostleship of Prayer to lay hold of this intercessory power of our daily lives and apply it to work for the glory to God and salvation of souls. Apart from the prayers that are constantly affered up we have in this grand association of souls another splendid source of strength-that is the monthly communion. This is an act of devotion and of reparation to our Lord for all the sins and outrages perpetrated by men. Thus does the Apostleship of Prayer lead us up by degrees, beginning with the simple morning and evening prayers, and carrying us along from one practic to another, until the greatest possibl number of Christians reach the high state of spiritual perfection,
