CONSERVATIVE ORGANIZER CONCEDES ONLY SIX SEATS TO OPPOSITION

W. H. Hastings Phones "The West" That Chances for Sweep Are Bright with Brown Among the Fallen--What Our Correspondent Says

Excitement is running high in the city over the Manitoba elections and almost any kind of a bet can be had on the results. The West was in telephonic communication with W. H. Hastings, Conservative organizer this morning, and he is confident that the Government will sweep the province. He is one of the best organizers in Canada, but he only knows the country as an operator knows his machine.

He will not concede more than six seats to the Opposition and the Government has bright prospects of defeating Ed. Brown in Portage la Prairie. Dr. McInnis is also regarded as a winner in Brandon. There is a big storm raging in Manitoba today and both parties find it difficult to get the vote out.

(From our own Correspondent.)
Winnipeg, March 6.—The two powerful political machines will come together tomorrow in this province, and what the result will be both parties seem equally confident of. The Government with a majority of twenty-one in the present House has big odds against the Opposition, but there is strong feeling throughout the country on the grain trade question and the congestion of railway traffic is an usual chinked up against the government.
The most favorable forecast that can be made from the Opposition standpoint, however, gives the Government a good majority and they will no doubt carry the two bye-elections in Gilbert Plains and Gimli, which are being held later.
In the constituency of Arthur, A. M. Lyle is regarded as a winner for the Government.
Assiniboia will probably return the sitting member, Jos. Prfontaine (Liberal).
In Avondale Jas. Argue the Government member will be returned.
In Beautiful Plains, J. H. Head will defeat the Liberal editor, A. Dunlop.
Birtle has belonged to Charlie Mickle for a long time and he will undoubtedly be returned.
In Brandon City where Dr. McInnis has been a victor for many years a big fight is being waged and the Liberals claim the seat. It is said that the railway and labor vote is against the doctor. Although if Fleming wins Brandon there will be surprises elsewhere.
In Carillon, Albert Frodonais, Government, will no doubt be returned.
Cypress can be depended upon to return Geo. Steele, (Conservative) for another term.
In Dauphin the Conservative candidate will be elected.
Deloraine is doubtful but the Liberal candidate Dr. Thornton will probably win.
Dufferin is a cinch as the premier had nearly seven hundred to spare at the last election.
Emmerson is doubtful with chances against Dr. McFadden, provincial secretary.
In Gladstone, Dave Wilson will no doubt be returned as his old opponent, T. L. Morton is not out against him.

Hamiota is doubtful. The Liberals have the seat at present.
Kilbuck is also doubtful, as the big half-breed vote is very uncertain.
In Killarney Geo. Lawrence had an enormous majority the last election and it is L. Richardson who it will be the greatest victory of the campaign.
In Lakeside E. D. Lynch, Conservative member will no doubt win out.
Lansdowne is the scene of a stiff and uncertain fight. T. C. Morris was defeated last time, but the Liberals are counting on him winning.
In La Verandrye the Liberal member will probably be re-elected.
Manitou can be counted on as a safe Government seat.
In Minnesota Waddell (Government) ought to win.
Morden will be carried by George Ashdown, the sitting Conservative member.
Morris is doubtful as the Liberals claim that Hon. Collin H. Campbell will have a hard fight, but Government is hopeful.

Mountrail is a Liberal seat, notwithstanding that McInnis, Conservative, carried it in the previous election, and the Opposition ought to win.
In Norfolk, Bob. Lyons will be returned on the Government side.
Portage la Prairie is a problem that time alone can solve. The Government is exerting every effort to defeat the Liberal leader, Ed. Brown and the chances are good against him.
Rhineland is a pocket borough for the Opposition.
Rockwood has been Government for some time and the member is again in the running. He will probably be elected.
Russell will probably elect A. L. Bonycastle (Conservative) as the sitting member has retired.
St. Boniface is doubtful with the chances in favor of the Opposition.
Chevrier is the sitting member.
South Brandon will be won again by E. Carroll, Conservative.
Springfield is doubtful as two new men are running and the Government majority at last election was small.
In Swan River, J. W. Robson can hardly be defeated, as he is one of the best members on the Government side of the House.
Turtle Mountain will probably return Hon. Jas. Johnston, who however has been south during the campaign for his health. He has been speaker of the legislature until the close of the last session.
Virden is a safe seat for the Government.

Centre Winnipeg is regarded as safe for the Conservatives, but there are uncertain combinations against Taylor.
North Winnipeg is conceded to the Opposition. A. Macdonald is an Independent Liberal candidate.
South Winnipeg is a safe live for Jim Gordon and there is no worry about him.
In the new West Winnipeg seat, however, things are different and the chances are against Tom Sharpe. There are three men in the field but the Liberals expect to win.
This summary given the Government a safe majority and they ought to pull out well in the doubtful seats.

BUSY SESSION OF COUNCIL
Expert Accountant Makes Favorable Report—Debtenture Awards—Other Tenders

All members attended the city council last evening except Ald. Gillespie and Ald. Wright who are absent from the city.
Two comprehensive warehouse trackage schemes for the northern part of the city were submitted by the city engineer.
J. H. Menzies presented his special auditor's report which etologised the city treasurer.
Tenders for the \$180,000 debtenture issue were opened and are as follows:
Amelise Jarvis & Co. \$170,688
Nay, Anderson & Co. 171,103
National Trust Co. 273,035
Wood, Gundy & Co. 170,700
Tenders were also opened for curb, gutter and pavement construction.
The following were the tenders:
Langley & Cook, curb and gutter, per lin. ft. 73c
Curb, per lin. ft. 38c
Pavement, per sq. yd. 38c
Kettle River Quarries Co., Pavement, per sq. yd. \$3.40
Putting up a gasometer stand for 25 per cent. of contract. If 10 per cent. of contract is kept back, the price is to be \$3.50 per square yard.

ADDITIONAL LOCALS
Jonah Gilbert has been relieved until April 5th, and efforts are still being made to have the sentence commuted.

PROVINCIAL RIGHTS CONVENTION

Meeting of Haultain Supporters Called for March 19th--Smoker in Evening

The Provincial Rights party of the Province of Saskatchewan will meet in annual convention in this city on Tuesday, March 19. At a meeting of the full executive recently held it was decided that the week of the provincial fat stock show would be a convenient time to call this political gathering, as the delegates would also be able to attend the functions of the Stock Breeders' Association lasting until the 21st. The local House being in session, Mr. Haultain's supporters in the legislature will all be in the city on that date.

Three sessions of the convention will be held, one in the morning, one in the afternoon, and in the evening the delegates will be the guests of the city association at a smoker in the city hall where the convention will take place. The arrangements are in the hands of the local executive and every effort will be made to have this gathering even exceed in numbers and enthusiasm the meeting held at Moose Jaw last year.

Carter Stiff Hats

Spring styles in Carter Hats have just come in. We have eight new styles, you will find a block that will suit you.

Regina's Greatest Store Branch 10th, Ave. & St. John's St. Broad St.

A WESTERN MERGER

Winnipeg, March 4.—Proprietors of numerous mills in Manitoba, Saskatchewan and Alberta held a very important session yesterday. Arrangements were made for the immediate amalgamation of these mills.

Telephone Aubry, a linesman working for the Ottawa Electric company was found dead at the top of a pole. He had been dead some time. An electric shock caused death.

"Could the consumptives of any given community be seen at one time, or pass in panorama before the people, public consciousness of the magnitude of the affliction might be aroused. A physical disaster shocks the world and lets loose the sympathy of millions. A few thousand deaths are nothing as compared with the deaths from consumption." LAWRENCE F. FLICK, M.D., Medical Director of Henry Phipps Institute for the Study, Treatment and Prevention of Tuberculosis.

MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES.

Other hospitals refuse the consumptive. This institution cares for them.

Not a single applicant has ever been refused admission to the Muskoka Free Hospital for Consumptives because of his or her poverty.

Seven hundred and thirty-eight patients have been cared for since the Free Hospital was opened in 1902. Take a week's record:

63 patients in residence; 37 absolutely free, not paying a copper toward their maintenance; 15 paying 50 cents a day or less; 5 paying \$4.00 a week; 4 paying \$5.00; one paying \$7.00.

These figures tell plainly of a large deficit on maintenance account each month. To cover this the trustees are dependent upon the contributions that come to them from friends in all parts of Canada.

Not since the days of George Muller has so great a work of faith been carried on.

WILL YOU HELP DIVIDE THIS LOAD WITH THE TRUSTEES?

Contributions may be sent to SIR WM. R. MEREDITH, Kt., Chief Justice, Osgoode Hall, Toronto, or W. J. Gage, Esq., 54 Front Street, W., Toronto.

Applications for admission and all information from J. S. ROBERTSON, Secretary National Sanitarium Association, (Saturday Night Building), 28 Adelaide Street, W., Toronto, Canada.

Commercial advertising rates furnished on application. All communications, etc., should be addressed to THE MANAGER, The West Company, Ltd., Regina, Sask.

WEDNESDAY, March 6, 1907.

DIRECT TAXATION

When the Scott Liberals appealed to the electors in support of the autonomy terms the Provincial Rights party urged that the time would come when by reason of the land robbery the province would have to resort to direct taxation. This, is, however only the second session of the first legislature and a measure brought down to enable the Government to levy a direct tax of one cent an acre on all lands in the province for the purpose of the establishment of a provincial university, and an agricultural college. Both these institutions are necessary to the province, but not yet necessary to many of the communities who will find this direct tax a burden during the first years in the new districts that are being opened up by hardy settlers who have left over-taxed communities in the older countries. One of the hopes of these people have been that they would not have to pay direct taxation, and now they are confronted with the very system that drove them from their old homes. It will be a long time before these new communities have any more than the elementary system of education, and for them to have to contribute a direct tax the first year they are in the country is an injustice which the legislature should not sanction. It will discourage the immigrants coming to this country to be confronted with this sad reminder of the conditions they had tried to get away from. What the early settlers want, and what they have a right to expect is Government assistance to lighten their burdens instead of direct taxation. These taxes will be collectible with distress, if the farmers cannot pay, their very chattels will be seized and sold before their eyes and they will be powerless to prevent it.

Why are the cities, towns and villages exempt from this direct taxation? Surely the majority of the students attending the university for the next ten years will be from urban districts, and why should the farmers have to educate these people? The farmer pays the shot and the residents from the cities, towns and villages reap the benefits. It is another case of the farmer raising another class of the community in the lap of luxury.

Mr. Calder's bill is rank class legislation. If the province had retained the public lands instead of handing them over to the Dominion government to distribute among their friends, the university could have been established and handsomely endowed. The farmer would not need to pay direct taxation and when his children were ready to enter that institution he would pay the tuition fees but would not have to establish and maintain the university during his first struggling years. When the farmers read of such transactions as the now notorious Robins deal which so enriched certain Moose Jaw Liberals, they begin to think that it is very vervy of the men who make such graft possible to come down in the legislature now with a proposition of direct taxation. These public lands are gone, however: the province requires these institutions, and where is the money going to come from? Well, it did not take Mr. Calder long to decide. He was afraid of the storm that would blow on his scheme from the cities, towns and villages, so he decided to place the burden on the farmers, thus dividing the community for the purpose of direct taxation. No doubt the Opposition in the legislature will fight for the protection of the farmer's rights in this respect and the country will await with interest some alternative proposals from Mr. Haultain who, if his autonomy demands had prevailed, would have established and maintained both a university and an agricultural college, without resorting to the Calder scheme of direct taxation.

Mr. Calder states that his direct taxation scheme should appeal to the rural school districts, because they will get back not only the sum they contributed but a much larger additional amount. In reply to this Mr. Haultain's point is well taken, when he says that if the rural districts are to receive back the money contributed, why include them in the taxed area. The collection of this money in the rural districts will cost \$2,500,000 and this could be saved to those school districts if they were exempt from taxation. There must be some insincerity in Mr. Calder's estimate if he will persist in collecting \$100,000 from certain districts just for the sake of charging \$2,500 for doing it, when the Government has no intention of using the money and intends to hand it back to the districts, less the cost of collecting it.

This is certainly a strange principle of economy and appears to oppose the proper functions of government. THE RE-DISTRIBUTION The new schedule of Saskatchewan federal seats is now under consideration at Ottawa. Some time ago in commenting on the foreshadowed redistribution to conform with the provisions of the Autonomy Act, we suggested that there was but little scope to be unfair in mapping out the ten constituencies. In looking over the new schedule made public we find that while the principle that the constituencies should run as much as possible along the lines of railway, has been fairly well observed, the plan is not based on the old principle of representation by population. For the sake of comparison we take township twenty-five as the centre of population between north and south, and Prince Albert city is in forty-nine, we find that we have 26,165 more people in the south five seats than there are in the north five.

We believe that the Government should have provided a 500 line seat comprising from range eight, west of the second to range fourteen and from township thirteen on the north to the international boundary line. This would give the southern part of the province what is our right according to population, and which the north can lay no possible claim to. By this proposal Qu'Appelle, Regina and Souris would be reduced in size. Moose Jaw constituency is much too large in territory and eight townships should be taken off the north and placed in Saskatchewan and Battleford.

While there is only the principle of right representation according to our population ignored in the Government draught of the constituencies, it would be much fairer to the southern part of the province to have six seats. This legislation is only for five years and when the census is taken at that time as they will be, the north will no doubt, be entitled to equal representation with the south and we trust that the census will demand this, for to the north of the township dividing line, we have drawn for the sake of this comment, we have an unlimited heritage which will in time sustain millions of people. For the present, however, and the proposal under consideration is but for the present, the Government should give to the population of the south the representation in the federal House that according to the old George Brown principle, we deserve.

Not one acre of land for the endowment of the provincial university, nothing but the blue dome of heaven to cover it, and this is what the Government says is a "splendid financial arrangement" but of course they had the direct taxation scheme up their sleeve. Only the suckers get caught on the street corner when the fair says, if you will give "him" a dollar bill he will give you back two dollars and thirty-eight cents. This is also what Mr. Calder says, and if he catches more suckers than the other fellow, it is because he is not so well known. Under the Autonomy terms proposed and demanded by Mr. Haultain the farmers of Saskatchewan would have controlled all the public lands of the province including the coal areas and timber limits. With these unlimited resources there would have been no need for the direct taxation policy of the Scott Government.

right representation according to our population ignored in the Government draught of the constituencies, it would be much fairer to the southern part of the province to have six seats. This legislation is only for five years and when the census is taken at that time as they will be, the north will no doubt, be entitled to equal representation with the south and we trust that the census will demand this, for to the north of the township dividing line, we have drawn for the sake of this comment, we have an unlimited heritage which will in time sustain millions of people. For the present, however, and the proposal under consideration is but for the present, the Government should give to the population of the south the representation in the federal House that according to the old George Brown principle, we deserve.

SAVING THE WHEAT One of the greatest problems now confronting the farmers is the question of the safe storage of their unsold crop till after seeding, for it appears that very little will be marketed until the next crop is in the ground. For some time the grain trade has predicted that the wheat now in the farmer's hands would bring good returns owing to the large consumption by the mills while no wheat was being delivered, and to the scarcity in Russia. Whatever the shortcomings of the railways have been, and no one will attempt to defend them further than say that the elements have this winter offered greater resistance to human efforts than ever before in the history of the country, it would now appear that the farmers who could not sell will make money. Criticism is no remedy for the needs of the hour. The farmers want to ship as much as possible and safely house the rest of the crop before the break-up occurs and they should have every assistance from the governing bodies. It might be practicable for our local Government to erect temporary warehouses in towns where there is limited elevator accommodation and give each farmer a bin or whatever space will allow him to get his wheat under cover. The lumber utilized could be sold any time during the coming summer and the government would not suffer much loss while the farmers would be greatly assisted through the present strenuous circumstances.

EDITORIAL NOTES The late deputy commissioner of agriculture had the whole Northwest Territories within the scope of his duties, and we were told when the incumbent was retired that the department required an expert. If the hand of this "expert" drew up the wolf bounty regulations which do not encourage the destruction of wolves, but encourage men to buy skins, then the Government should wait till he has made good before asking the House to vote an increase of salary to \$2,100. The government thinks that the province is being settled too rapidly and they have decided to check the flow of population by resorting to direct taxation. Eighteen months in office and all our funds gone, is the record of the Scott Government. It costs so much to run the machinery of government, that it has become necessary to impose direct taxation on the farmers of the province. The Government is even void of sympathy for the under dog. Their policy is: Kick it to the farmer, he has no friends.

With Mr. Motherwell representing the grain trade, and Mr. Calder with his direct tax on farmers, the grain grower is certainly up against it. Not one acre of land for the endowment of the provincial university, nothing but the blue dome of heaven to cover it, and this is what the Government says is a "splendid financial arrangement" but of course they had the direct taxation scheme up their sleeve. Only the suckers get caught on the street corner when the fair says, if you will give "him" a dollar bill he will give you back two dollars and thirty-eight cents. This is also what Mr. Calder says, and if he catches more suckers than the other fellow, it is because he is not so well known. Under the Autonomy terms proposed and demanded by Mr. Haultain the farmers of Saskatchewan would have controlled all the public lands of the province including the coal areas and timber limits. With these unlimited resources there would have been no need for the direct taxation policy of the Scott Government.

PRESS COMMENTS

(Toronto News) It is gratifying to see that the commission has taken an unequivocal stand as to the character of insurance funds. Insurance monies, says the report, "are in every essential particular trust funds." Nothing less than this decided stand would satisfy the insuring public. And it will behoove parliament so to frame the forthcoming legislation that the insurance companies' assets will be safeguarded as any other form of trust funds. The report explicitly defines the position of the insurance director as that of a trustee. The commission explicitly condemns any diversion of insurance funds from their essential trustee character, and condemns just as explicitly the irregularities and abuses which attend the management of these trust funds so as to aid the private interest of the trustee. This, surely, is the only safe attitude to take. If all our insurance directors had been guided by this fundamental law, many of the irregularities and abuses which attend the management of these trust funds would have been impossible. Public confidence in Canadian insurance has not been increased by the discovery that some directors were using insurance funds "to strengthen the market" as one witness naively described his operations. But what was especially distressing was the discovery that other directors were embarking on riots of speculation. Parliament must legislate so that these two evils will be practically impossible. The public has been educated by the investigation, and to restore public confidence in the integrity of the management of our insurance companies, parliament must have specific regard to the sanctity of our insurance funds.

LITTLE ONES NOW AT REST

Ten Victims of Montreal Fire Interred—Teacher's Sacrifice Publicly Recognised Montreal, March 1.—The funeral service for ten of the little children who perished in the fire at Hochberg's "toy store" took place this afternoon in St. Mary's church. Their bodies were brought into the church at noon. Floral tributes from the Protestant public schools in various quarters, both public and private, were banked about the ten coffins. Thirty-five constables from the police department acted as escort. On Sunday afternoon there will be a memorial service in St. Mary's church in memory of Sarah Maxwell, the lady principal, who lost her life in attempting to save the little ones.

MINARD'S LINIMENT Co., Ltd. Gentlemen,—My daughter, 13 years old, was thrown from a sleigh and injured her elbow so badly it remained stiff and very painful for three years. Four bottles of Minard's Liniment cured her and she has not been troubled for three years. Yours truly, J. B. LIVEFQUE, St. Joseph, P.O., 18 Aug., 1900.

IS VEREGIN IN JAIL

Kamsack, Sask., March 1.—There is well defined rumors in circulation throughout the Doukhobor settlement to the effect that Peter Veregin the leader of the colony, who went to Russia last fall to secure Government concessions in his native country. Thus far nothing has been heard directly from Veregin since he arrived in Russia. Prior to coming to Canada Veregin was banished to Siberia, and was released upon condition that he leave Russia and not return for twenty years. There is much dissatisfaction here among these people because their homesteads have been cancelled. They have steadily refused to "prove up" on their lands, insisting on looking their claims in communication with, without doing the proper homestead duties. The new agreement provides that if the Doukhobors refuse to take the oath of allegiance and their homesteads they may receive fifteen acres each and live in the colony formation afterwards the government.

HEALTH AND HYGIENE

(By H. M. Speechly, M. B. C. S. (Eng.) L. R. C. P. (Lond.) Believing that it is the duty of every English Churchman to help forward any scheme which will tend to further the interests of our Church in the West, I have undertaken to write for "The Canadian Church Courier" a regular series of notes on the above topics. It will be a pleasure, also, to assist the Editor in providing a Church paper that shall have interests other than those of the ecclesiastical. I must ask, however, for the indulgence of our readers if at times this column bears evidence of haste in composition, as without this additional work the days seem all too short for the first call of practice, and for the secondary calls of Church work, civic work, and literary work. It is alone the ever present demand of "chores" and other social activities. Some of our readers doubtless will recognize me as a literary acquaintance of some years in the columns of the "North-West Farmer," to which we shall not "make strange" from the very beginning but will be quite old friends in the work. My aim is to be rather conversational than didactic, a plain talker rather than a pedant, and explanatory of those things which ought to be known, and which I am holding an intellectual superiority. In short, if these articles are to be readable, and if they are to be of any use to our readers, they must be written in plain terms and stated in as pleasing a manner as I may have at my command. Possibly some of the subjects discussed in these columns may give rise to some query or suggestion from our readers. With the Editor's permission I will be glad to receive communications if they are sent directly to me, so that further information on any given topic may be elicited if possible. It is through the West at the present time an epidemic of the common catarrhal cold is raging I propose commencing with the common cold as topic for discussion. I make bold to say that Religion and Education are largely responsible for the prevalence of this annoying complaint which prepares a seed-bed for all those uncomfortable ills whose names end with "itis." Nearly all Churches and far too great a number of our Western Schools are so badly ventilated that the vitality of those who frequent them becomes lowered by the effects of foul air. In those congregations or amongst those school children there is nearly always at least one person with a common cold. This person coughs, or sneezes or expectorates in such a manner that a few more get infected and so the ball is kept rolling. "But is a cold infectious," do I hear some one ask? "Well, can you doubt it? From everyday experience." Take any family of three or four. Johnnie comes home from school with a fit of sneezing and a stuffy nose with a tickle in it. Next day his throat feels dry and quite hoarse. Perhaps all the other members of the family follow suit, or perhaps only three or four take it. Why do the others escape? It is almost certain they have all been infected by the germs which cause a cold, but their blood has a greater power of resistance than that of the rest of the family. That explains why in other infectious diseases one is taken and the other is left in like manner. But what are the germs which cause the common cold? I much regret that I cannot tell you anything definite. Dr. Oiler says, "The disease probably depends upon a micro-organism," and dismisses the subject. My own belief is that the attack on the system is made by all those germs which are responsible for inflammatory diseases of bronchial tubes and lungs. Nearly all such cases begin with colds. Despite all the evidence that colds are infectious and due to the action of ever-present germs some one is sure to say "Oh, do you think so? What about chills and draughts?" Well, a chill is only an indirect cause. It will lower a person's resistance. Someone travels in a hot stuff railway car and gets infected by an air laden with germs distributed by one or more fellow-passengers. He is attacked, but can resist the attack up to a certain point, only unfortunately he drives home five miles and gets chilled so much that his resistance to the germs is broken down. He then attributes his cold to the chill wrongly. He ought to put it down to the best ventilated railway car. In like manner some people readily get a cold when curling, because the low temperature of the rink lowers their resistance so that the germs distributed by that disgusting habit of expectoration get his weight exactly and land on the face every time. Perhaps no disease germs are so widely distributed as those of the common cold. Every sneeze sprays the air with them. The more careless a person is in the habits of nose-blowing or expectorating the more the surrounding atmosphere becomes. Clearly, therefore, the best preventives are cleanliness and good ventilation. What a pity we cannot adopt such a course of perfection as the isolation of people with colds! Or how would it do to legislate that everyone with a cold should wear a pink hand round the left arm? When you reflect that a really good old-fashioned cold stays with you somewhere about three weeks from start to finish, during

WEEKLY REVIEW

A militia order has been issued asking officers commanding to recall the return to ordinance stores of the rifles now in possession of the army...

At the annual meeting of the Ontario Lumbermen's Association, at Toronto, J. B. Miller, the retiring president, drew attention to the advance in the price of lumber and predicted that they will still higher.

Edward Solomon, president of the Nationalists, has joined the Transvaal cabinet as Minister of public works. General Smuts becomes colonial secretary and minister of mines, and Deweller takes the portfolio of the Minister of justice.

Julius H. Ward, an escaped inmate of the Queen street asylum, Toronto was found unconscious in a room in the Maple Leaf hotel with the end of an eight foot gas tubing, through which gas escaped from a jet, secured in his mouth by means of a string.

The Thaw trial entered upon its seventh week yesterday, and it seems that unless some radical changes are made in the procedure, the trial will be nearly three weeks before the jury renders a verdict.

The steamer Quee has arrived from the west coast, and brought news that the Indian report of the wreckage of a steamer on Heslop point.

The legislature will act on the contract within a few days.

Washington, March 5.—President Roosevelt's determination to acquire the Panama Canal constructed by army engineers, with labor employed by the government, has aroused unusual interest in the big project.

Accompanied by Joslin, the last night of the trip was made and the lonely shack of the homesteader was reached. It lies sixty-five miles from Macoun by trail; the surrounding plains were bleak and cold, and a feeling of isolation came over the travelers as they drew up to the shack.

He did not enter the house at once, instead, he went and looked in at the stable. There were the yoke of oxen said to have perished in the valley with their owner. The Sergeant and Joslin entered the house. He was not surprised to see it opened by Ratcliffe himself. On inquiring for the family they all came out, mother and children, and the picture of health. There were provision on hand to carry them well into the spring, and two and a half tons of coal still remained of their winter's supply.

Needless to say the visitors were welcomed, being the first since about New Years. Sergeant Lett had with him what matter lay in the post office for Ratcliffe's intending to turn it in at the coroner's request. Lett is just as well satisfied as though the return trip had been made with the sleigh box filled with the remains of the Ratcliffe family.

Saskatoon, March 3.—Mr. W. Braun, immigration officer of Saskatoon, has returned from his trip of investigation out west for the department of the interior. He was accompanied by Mr. John Peckie, and together they had an eventful trip, which occupied seventeen and a half days. They went west to the home of Mr. E. L. Hobbs, 144 miles west of Saskatoon. They also visited the home of H. Turner in the Tramping Lake country, and found all well at and although supplies of wood were the Hobbs and Turner homesteads, low they were well provisioned otherwise.

For six days Mrs. Hobbs was alone in December with her two children. Mr. Hobbs had gone for wood and was caught in the worst blizzard of the winter. Mr. Hobbs only saved his life by covering himself up in a blanket and burying himself in the snow.

Port Arthur, March 3.—A post-mortem on the body of Ernest Irons, whose dead body was found in the snow beside the track near McKenzie yesterday morning, leads to the belief that the young man was murdered and the body afterwards placed on the track. The wound on the throat which undoubtedly caused death, was made by a knife which was found near the scene. There was also a deep cut on the unfortunate man's elbow, which is thought to have been received while warding off a blow. An inquest will be held.

McKENZIE MURDER MYSTERY

Port Arthur, March 3.—A post-mortem on the body of Ernest Irons, whose dead body was found in the snow beside the track near McKenzie yesterday morning, leads to the belief that the young man was murdered and the body afterwards placed on the track. The wound on the throat which undoubtedly caused death, was made by a knife which was found near the scene.

TO SHORTEN SEA ROUTE

New Line From Ireland to Newfoundland—To Tunnel Straits

St. John's, Nfld., March 1.—In the legislative assembly tonight Premier Bond proposed the adoption of a contract between the Newfoundland government and the Messrs. Ochs, capitalists of London and Paris, providing for the establishment of a short line of trans-Atlantic liners between Killery, on the west coast of Ireland, and Green Bay on the plan provides for a two hour rail-trip across the colony to Port Au Beague, whence a twenty knot steamer would convey mails and passengers to Gaspé, Quebec in summer and Sydney, N.S. in the winter.

The Newfoundland government stipulates that the project must take shape within two years or else liability on the part of the colony will cease. Should the capitalists carry out their announced plans the Newfoundland government proposed to pay them \$75,000 annually for twenty-five years.

The legislature will act on the contract within a few days.

ARMY CALLED OUT

Washington, March 5.—President Roosevelt's determination to acquire the Panama Canal constructed by army engineers, with labor employed by the government, has aroused unusual interest in the big project.

No secret is made of the fact that the president has got so thoroughly tired of the continual bickerings that he decided to dismiss the whole lot of high priced talent and start in anew with men under military discipline. He is not willing to run any risks with private contractors, and believes that construction by Army engineers presents many distinct advantages to the administration.

Minard's Liniment Cures Dandruff.

MAGNIFICENT TRACT OF LAND

Ottawa, March 3.—Prof. J. A. Burr Tyrell, mining engineer of Toronto, appeared before the senate committee Saturday and made a statement with reference to the Northwestern country. He said that from the north end of Lake Winnipeg west to the Nelson river, there was a tract of magnificent agricultural land 200 miles wide running the whole way to the Athabasca river, some 595 miles, that this country was now covered with excellent timber, and of it fit for manufacturing purposes, that the soil after the timber was removed was equal to anything in the west and that the climate could not be beaten; and that there was large possibilities of coal and petroleum being discovered.

Minard's Liniment Relieves Neuralgia.

The News—No Pure Drug Cough Cure Law would be needed, if all Cough Cures were like Dr. Shoop's Cough Cure is—and has been for 20 years. The National law now requires that if any poison enters into a cough mixture it must be printed on the label or package. For this reason mothers and others should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must be on the label. And it is not only safe, but it is said by those who know it best, a truly remarkable cough remedy. Take no chance particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully with Dr. Shoop's package with others and see. No poison marks there. You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by the Regina Pharmacy Stores.

A LUCKY FIND

Bayonne, N.J., March 4.—Five minutes work earned \$8,000 for H. Nelson, a poor man, who has for years occupied a free cot the old La Foye mansion on First street. He was tearing down a shanty at the rear of the mansion when he uncovered a chest full of copper, silver and gold coins.

The happy man put the coins in a sack and hurried with them to New York. The coins were Spanish, Italian, English, Chinese, Portuguese and American. They range from pennies to double eagles. Some of the American pennies were dated 1871, and the latest date was 1890. The coins dealers say that because of the promise of some of the pieces the coins are worth \$8,000. It is believed the chest was buried by the La Foye family.

EXPRESS MEN KILLED

Toronto, March 1.—A head on collision at Mountain, 288 miles from Toronto, occurred on the C.P.R. at six o'clock this morning. Express messengers William Hitchins of Toronto, and C. C. Nicholson of Montreal were killed. The express car containing a lot of valuable Hatter was completely burned. The wreck was caused by a west bound freight colliding with the passenger train. Engineer Hartney, who took the train on from Smith Falls had his hand smashed, and the baggage man had his nose broken. The passengers were badly shaken up.

GOVERNMENT MAY ACQUIRE

One of the clauses of the New Alberta Railway bill provides that the government may acquire any railway constructed under charter given by the province. The legislature could, of course, repeal the charter, but it seemed best to insert the clause in the bill.

PUGLEY PREMIER

Ottawa, March 5.—Premier Tweedie was sworn in as Lieutenant Governor at Fredericton today. Attorney general Pugley was called upon to form a new cabinet and Speaker Robinson, of the New Brunswick legislature will be taken into the government. Mr. Osman of Albert will be made speaker.

ENLARGE WELLAND CANAL

Ottawa, March 4.—A large delegation representing the marine and business interests of the Dominion waited on Sir Wilfrid Laurier and asked that the Welland canal be enlarged so as to enable the passage through it of any vessel which can pass through the Soo locks.

HEAD OF FORESTERS DEAD

Toronto, March 3.—A wire from Savannah, Georgia, tonight announced the death of Dr. Oronhyaktha of Toronto, head of the Independent Order of Foresters.

HEALTH AND HYGIENE

which time you are more or less of a nuisance to yourself and your friends and a possible source of infection of worse than a cold, it is no unreasonable for people to avoid kissing at least, and to keep at home instead of frequenting public places. Babies are often given colds by thoughtless friends, who, though they are kissing with cold, insist on hugging "the baby." Parents should also avoid people with colds avoid visiting houses where a new baby has just arrived. On such occasions, and partly for that reason, no visitors whatever should be allowed for at least seven days. In my own practice I put a good disinfectant in the bedroom, and to that effect, I mix a solution of this disinfectant in the water of the wash tub. For unaccompanied catarrh only of the nose and throat nothing else, however, need be used but

MANIAC AMUCK

Fort William, March 4.—Manson Patterson, ran amuck in a Riverside boarding house this afternoon, and as a result two men are hovering between life and death. General Armstrong was shot through the lung and will die before morning, while Arthur Costello, the second victim, may recover. The proprietor of the house was also slightly wounded.

Armstrong and another carpenter named Abbey were working upstairs on some minor repairs, when Patterson rushed up and fired a gun. The maniac then rushed down stairs and fired at Costello, who was just emerging from the cellar. Costello grabbed the gun and broke it over the maniac's head. Constables then came in and secured him. Armstrong was able to give an account of the fray.

COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrapper and attest its correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody, Dr. Pierce being desirous of having the search light of investigation turned fully upon his formulae, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formulae on their bottle wrapper—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, when not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those asthmatic conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-coughs, which, if neglected or badly treated, lead to and finally terminate in consumption.

Take the "Golden Medical Discovery" as these and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials. They are not given away to be expressed with but are sold by all dealers in medicines at reasonable prices.

GOVERNMENT TO DIRECT

(Continued from)

of the whole, he refused to have a proper jury, that where streets or sidewalks, a jury were allowed to be able to give a proper council, which some cases in being ousted from office.

Mr. Haultain—You change the jurymen the case.

Mr. Langley—Oh, no, a jurymen is general pretty elastic thing.

The bill was given and the House was of the whole, the propositions were of committee reported asked leave to sit again.

MONDAY, MAR

On the re-assembling on Monday Mr. Sutherland a petition for the Elks Club at 5:30.

Mr. Haultain presented from S. J. Donaldson, a petition for the Elks Club at 5:30.

Mr. Haultain presented from S. J. Donaldson, a petition for the Elks Club at 5:30.

At the general election majority of the voters.

The following

Assembly of Saskatchewan.

The petition of Samuel J. Donaldson, Prince Albert, in the Saskatchewan, humbly

1. That an election for the electoral division of Regina, to elect a member to the said electoral Legislative Assembly, be held on the 13th day of December, 1907.

2. That at the said election, the said electoral division be divided into twenty-six polling stations, and that the number of electors in each station be certified to be not less than 100 and not more than 200.

3. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

4. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

5. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

6. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

7. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

8. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

9. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

10. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

11. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

12. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

13. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

14. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

15. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

16. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

17. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

18. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

19. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

20. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

21. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

22. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

23. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

24. That the names of the electors in each station be certified to be correct and that the names of the electors in each station be certified to be correct.

Local and General

Geo. Colbeck has returned to this city from Victoria.

Peart Bros. have applied to the city for five lots in the north end as a warehouse site.

The board of trade will hold their regular monthly meeting tomorrow evening.

The C.P.R. are making a pipe connection from their tank here to the city main on Broad street.

N. Bell of Calgary was in the city Saturday visiting his brother Alex. of the Lansdowne hotel.

Mr. and Mrs. A. Cohen and children returned Monday from Winnipeg where they had been visiting friends.

Merrin, Thompson & Co., of British Columbia are endeavoring to get a warehouse site for their wholesale fruit business.

Canon Flett of Prince Albert is in the city. It is stated that he will be the returning officer for the Prince Albert elections.

Whitmore Bros. have asked the city to exchange a portion of Stephen square held by them for block 466 adjoining their property in the south of the city.

Mrs. Brennan, who has been head dressmaker in one of the big Toronto houses, has arrived in the city and accepted a similar position with the Glasgow House.

The city will pay Mr. Jolly of the Fargo House by special grant the sum of one hundred dollars in settlement of his claim in connection with the quarantine placed upon his house last fall.

Ald. Thomson, chairman of health and relief, has advised the city to procure an incinerator to consume the garbage of the city this being the only effectual means of insuring complete sanitation.

The health and relief committee of the city council has recommended that blocks 223 and 224 be set aside as a municipal hospital site. This property is south-west of the old assembly buildings on Dewdney street.

The hockey team returned on Monday evening from a rather unsuccessful trip to Alberta cities. They were defeated both in Calgary and Edmonton, winning but one game in each city.

Regina's rink at Indian Head came off very well in the local spiel having captured the Merchant's competition, winning out from Hyde of Balgonie in the finals.

Mr. Marshall of Calgary has arrived in the city to assume the business management of Cushing Bros. here. Mr. Hamilton who has been acting manager for the time being will take charge of the factory.

A handsome new chair for Mr. Speaker has arrived and has been placed on the dais at the assembly hall. The high back of this beautiful piece of furniture bears the royal insignia.

N. B. McInnis has returned from an extended visit to Seattle, Frisco, and other coast cities. While at Victoria Neil purchased a fine residence with valuable and spacious grounds.

J. P. Gordon, who has been principal of the Alameda school for two years has purchased the Dispatch of that town and has entered upon his editorial duties.

Mrs. Arthur Neild is rapidly recovering at the Park Sanatorium. Her infant son died on Friday last. Mr. Neild has booked off his run on the north line for a few days owing to the illness of his wife.

Mrs. Joan Nicholson, aged 41 died at the Park Sanatorium on Monday. Deceased was suffering from an acute attack of pneumonia and was very low when removed from her home on Oiler street to this institution. Mrs. Nicholson leaves seven little children. The funeral took place today from the Presbyterian church.

A car of horses went north yesterday and another car went south this morning to Francis. The latter were from New Market, Ont. their trip lasting about ten days.

W. G. Pettigell has stated that the school board will have his support in making such improvements to the city schools as will prevent such a calamity as was experienced in Montreal the other day when so many children lost their lives in the burning of a school building. Mr. Pettigell is in favor of fire proofing the city schools at the earliest possible date.

Mr. and Mrs. Churchill returned on Friday from Boston where they spent the greater part of the winter. Mr. Churchill stated to The West that while in the New England states he had numerous enquiries regarding the Canadian west and he succeeded in interesting capitalists in Regina and district. He will have several parties arrive during the spring and will show them what this country has to offer in the way of investments.

J. A. and B. F. Marshall left last week for York, Nebraska, the former going on a visit to his old home and the latter returning to his present abode where he has large business interests. J. A. Marshall is business manager for J. M. Young and is a shrewd financier who since his residence in the city has made many warm friends. While south he will combine business with pleasure and will feature Regina's possibilities, which are unlimited, to Nebraska capitalists. B. F. Marshall is associated with J. M. Young in the application of the gas franchise in this city and the tentative scheme submitted by them will be followed by a concrete proposition, which, if it reaches a successful issue, will result in Mr. Marshall moving to this city where he will be a welcome acquisition to our business community.

Wilmot Haultain of Regina, brother of the leader of the Opposition in Saskatchewan was in town on Sunday. He brought to the hospital W. P. Pocklington an ex-mounted police man of '77, ex-chief license inspector under the old Territorial Government, and a man well known in the west in his various official capacities which included the position of agent on the blood Indian reserve south of Macleod. Mr. Pocklington is in the incurable ward, having suffered from a stroke from which no hopes for his recovery are held out. He is sixty years old, and a big, strong framed man of six feet and one inch. Regina has no accommodation for incurables and Mr. Haultain says that under a Territorial agreement Medicine Hat hospital must accommodate him.—Medicine Hat Times.
