Trouble Over Bill For Examination of Lunatic.

County Refuge --- Anxious to Get to Circus.

The County Council did not procee very far in the work it has before it this morning. Most of the members were anxious to get to the nomination meetings that were held in the county to-day and consequently the business had to wait. It adjourned until tomorrow morning. The only thing of interest was a rather lively scrap over a bill that had been tendered by Dr Main, of Beverly, for an examination of a lunatic, who was to be committed to the asylum. There had been nothing to show that the lunatic was in destitute circumstances, and Councillor Binkley took occasion to block the work of the council for the course of an hour, until he was put right about the matter by the county treasurer, who said that the county was held liable for such examinations. The matter was referred to the township of Beverly to settle and allow the township to bill the county for the amount.

"But, mamma, what do you suppose to have been the cause of Marguerite's rejection of Lord William's addresses?"

"I think that she had two reasons, either of which would have been all sufficient to govern her in declining the alliance. The first was, that Marguerite could never yield her affections to a man who has no other personal claims upon her esteem than the possession of a good heart and a fair share of intelligence; the second was, that Miss De Lancie had too high a sense of honor to bestow her hand on a young gentleman whose addresses were unsanctioned by his family."

Miss De Lancie went down to pass the autumn at her own house in Winchester, where she remember of the month of her own to make the work of her sister, had she possessed one. So now she tapped her partner's hand with the room?"

The gentleman followed the direction of her glance, when onever waltzed, remained the centre of a charmed circle, formed of the most distinguished men present, until the waltzing, was over, and the quadrilles were called, when she accepted the hand of Colonel Randolph for the first set, and yielded her seat to the waltzen, where was conducted to the head of the set, then forming, and that she stood at someslite the state, while resting, could witness Marguerite. Now Cornelia sat, so that the latter, while resting, could witness Marguerite. Now Cornelia very much admired Miss De Lancie, and the quadrilles were called, when she conducted to the head of the set, then for the first set, and yielded her seat to the waltzen, until the waltzen.

autumn at her own house in Winchester, where she remained until the first of December, when, according to promise, she went to Richmond to spend the winter with her friend Cornelia.

The Comptons had taken a very commodious house in a fashionable quarter of the city, and were in the habit of seeing a great deal of company. It was altogether a very brilliant winter in the new capital of Virginia. Quite a constellation of beauties and celebrities were there assembled, but the star of the zacendant was the splendid Marguerite De Lancie. She was even more beautiful and dazzling than ever; and she entered with apirit into all the gayeties of the season. Tea and card parties, dances and masked balls followed each other in quick succession. It was just before Christmas that the belles of the metropolis were thrown into a state of delightful excitement by the issue of tickets from the gubernatorial mansion, to a grand ball to be given on the ensuing New Year's Eve. Great was the flutter of preparation, and great the accession of business that flowed in upon the milliners. mantia-makers and jewelers.

Miss De Lancie and Miss Compton went out together to select their dresses of the occasion, I mention this expedition merely to give you a cew to what I sometimes suspected to be the most elegant in the arms of Col. Randolph, and surrounded by ladies and burns were received at the dispatch. The gene Marguerite was more sainly like a queen through the dance, and said said:

"Miss De Lancie is certainly the most legant in the world—except top." While a glance, that the wasty of the most beautiful woman in the world—except top." While a glance, that the world—except top." While a glance, that the wasty of the most elegant in the room darguerite was now sand standing all her frame and bent anxiously between two gentleman with a stilled beauty.

Conelia flew to the floor, era a vicinity of the most elegant in the room, Marguerite suddenly gave a vicinity of the wasty of the was

pedition merely to give you a ciew to what I sometimes suspected to be the true motify that inspired Cornelia Compton's rather selfish nature, with t caressing affection she displayed Marguerite De Lancie, As for Mardevotion to Cornelia, it was one of those mysteries, or prophecies, of the human heart, that only the future can explain. Upon this occasion, when Miss De Lancie ordered a rich, white brocade for her own dress, she selected a superb pink satin for her friend's; and when from the jeweler's Marguerite's hereditary diamonds came, set in a new

ty set of pearls to alorn the arms and bosom of Cornelia. Colonel Compton knew nothing of his guest's costly presents to his daughter. With a gentleman's inexperience in such matters, he supposed that the hundred dollars he had given "Nellie" for her outfit had covered all the expenses. And when Mrs. Compton, who better knew the cost of pearls and brocade, made any objection. Marguerite silenced her by delicately intimating the possibility, that, under some circumstances, for instance, that of her being treated as a stranger, she might be capable of withdrawing to a boarding-house.

The eventful evening of the governor's hall arrived. The entertainment was by all conceded to be, what it should have been, the most splendid affair of the kind that had come off that season. A suite of four spacious rooms, superbly furnished and adorned, and brilliantly lighted, were thrown open. In the first, or dressing-room, the lac'es left their cloaks and mantles, and rearranged their toilets. In the second, Governor Wood stood, surrounded by the most distinguished civil and military officers of the State, and with his uncqualed, dignified courteey received his guests. In the third, and most spacious saloon, where the floor wise covered with canas for dancing, the walls were lined with mirrors, and festooned with flowers that enriched the atmosphere with odoriferious perfumes, while from a vine-covered balcong a military band filled all the air with music. Beyond the saloon, the

"It is a sudden misfortune, my dear madam! Only this morning have I reeeved a letter from my father, annousing the dangerous illness of my dear mother, and urging my instant return by the first homeward-bound vessel. The Yenture, Captain Parke, sails for Liverpool at tweive to-day. I must be on board within two hours," replied the young man, in a mournful voice, turning the same deeply appealing glance toward Marguerite, whose color slightly paied.

"We are very sorry to lose you, Lord William, and still sorrier for the occasion of your leaving us," said Cornelia. Compton. And so said all the party except—Miss De Lancie.

Lord William then arose to shake hands with his friends.

"I wish you a pleasant voyage and a pleasant arrival," said the colonel.

"And that you may find your dear mother quite restored to hea/th," added Mrs. Compton.

"Oh, yes, indeed! I hope you will, and that you will soon visit us again," asid Cornelia.

"Marguerite said nothing.

"Have you no parting word for me, Miss De Lancie?" inquired the young man, approaching her, and speaking in a low tone and with a beseeching look. Marguerite said nothing.

"Have you no parting word for me, Miss De Lancie?" inquired the young man, approaching her, and speaking in a low tone and with a beseeching look. Marguerite waved her hand. "A good voyage, my lord," she said.

He caught that hand and pressed it to his lips and heart, and after a long, deep gaze into her eyes, he recollected himself, hanthed his hat, bowed to the party, and left the room.

Colonel Compton, in the true spirit of kindness, arose and followed with the purpose of attending him to his saip, "There's a coronet slipped through your fingers! Oh, Marguerite! Marguerite fish hat, bowed to the party, and left the reom.

Marguerite waved her hand. "A good voyage, my lord," she said.

He caught that hand and pressed it to his lips and heart, and after a long, deep gaze into her eyes, he recollected himself, snatched his hat, bowed to the party, and left the room.

Colonel Compton, in the true spirit of kindness, arose and followed with the purpose of attending him to his ship.

"There's a coronet slipped through your fingers! Oh, Marguerite! Marguerite! if I had been in your place! Should have secured that match. For, once married, they couldn't unmarry us, or bar the succession, either, and so, in spite of all the reverend tutors and most noble papas in existence, I should, in time, have worn the coronet of a marchioness," said Miss Compton.

"And you would have done a very unprincipled thing. Cornelia," replied her mother, very gravely.

The blood rushed to Miss De Lancie's brow and crimsoned her face, as she rose in haste and withdrew to her own chamber.

"But, mamma, what do you suppose to have been the carea of Marguerite."

"But, mamma, what do you suppose to have been the carea of Marguerite."

The gentleman followed the direction of her glance, where Marguerite was moving like a queen through the dance,

while their partners rushed after glasses of water.

"Bring her into the dessing room at once, Randolph," said Colonel Compton, as he joined the group.

Accordingly Miss De Lancie was conveyed thither, and laid upon a lounge, where every restorative at hand was used in succession, and in vain. More than an hour passed, while she lay in that deathlike swoon; and when at last the efforts of an experienced physician were crowned with thus much success, that she opened her dimmed eyes and unclosed her blanched lips, it was only to utter one word—"Lost"—and to relapse into insensibility. closed her blanched lips, it was only to utter one word—"Lost"—and to relapse into insensibility.

into insensibility.

She was put into the carriage and conveyed home, accompanied by her wondering friends and attended by the perplexed physician. She was immediately undressed and placed in bed, where she lay all night, vibrating between stupor and a low muttering delirium, in which some irreparable misfortune was indicated without being revealed—was it all delirium?

"Oh, Nellie, do you truly love me: On, Nellie! love me! love me! lest I go mad!"

In reply, Cornelia haif smothered the invalid with caresses and kisses, and assurances of unchanging affection.
"Oh, Nellie, Nellie! there was one who on the eve of the bitterest trial, said to his chosen friends, 'All ye shall be offended because of me.' And his chief friend said, 'Although all should be offended because of me.' And his chief friend said, 'Although all should be offended yet will I not,' and furthermore declared, 'if I should die with thee, I will not deny thee in any wise.' Oh! failing human strength! Oh! feeble human love! Nellie! you know how it ended. 'They all forsook him and fled.'"

Brockville, May 31.-Jas, E. Ander on, the Toronto man arrested at Ren frew yesterday on a charge of bigamy, to which he pleaded guilty, has been public school inspector here since last September. Prior to his marriage he posed as a widower, though little was known of his past life. A few weeks ago, however, the Education Department notified the School Board that Anderson did not have the qualifications, but in order to retain his position he promised to secure them this month, and when he left here last Thursday it was presidually for Toronto to undergo the proper examinations. frew yesterday on a charge of bigamy

little over one month his second wife, who is a handsome and accomplished young lady, met many townspeople, with whom she at once became a favorite, and the two were preparing to entertain their friends, having furnished and leased a residence. Their marriage was announced in some newspapers a month before it occurred.

A Renfrew despatch says: James Anderson, inspector of schools, Brockville, and for two years principal of the public school here, was arrested this afternoon by Detective Rogers, of Toronto, on the charge of bigamy. When brought before the Police Magistrate he pleaded guilty to the charge, and was remanded to jail to await sentence on Saturdaynext. He was married to the Methodist minister's daughter of this place, Miss Florence Jamieson, in April, and since then has been living in Brockville. At the time of his arrest he and his second wife were visiting at his wife's home here. He is 34 years of age, and is said to have a wife and nine children living.

Owen Sound, May 29. James F. Creighton, the self-confessed murderer of his wife and his two stepdaughters, on Tuesday morning, was removed from the ward in the General and Marine Hospital, where he had been under treatment for the self-inflicted wound in his face, to the county juli this afternoon. The transfer from the one institution to the other, on the opposite side of the town, was quietly effected by Chief of Police McAulux and another member of the police force. The conveyance used was a closed cab, and the prisoner stood the ride without complaint.

the hicense business out of politics. This raised a general laugh, and Mr. Mihasaked why License Commissioner New was dismissed from office.

"If these gentlemen will wait till I am through my address," replied Mr. Scott. "I will answer all questions pt. to me."

The question so upset the promoter for the brewery merger that he had to ask the auditors where he was at when he was interrupted.

"You were speaking of the securing of subscriptions from hotelkeepers for the party funds," said an auditor. "Yes," he said, "the first thing I did when I arrived here was to notify the officers of the association that no license holder was to be asked to contribute to the Conservative campaign fund, and if any hotel keeper has paid in any money if he comes to me I will see that he gets it back." (Laughter.)

Finding that his license talk was not well received, Mr. Scott turned his attention to the immigration matter, although he did not explain what it had to do with the Provincial Legislature."

I say most positively that Mr. Studholme was not the first man that brought attention to the Central Prison contract, and long before Mr. Studholme was heard he (Mr. Scott) had taken the matter up with Mr. Whitney, and had letters from Mr. Whitney on the subject. "I can prove by the Spectator, he said, "that I had letters of assurfance from the Premier that the policy of the Government would be changed."

This caused loud laughter, and cries of "Oh, oh, oh;" "Who'd believe the Spectator," he said, "that I had letters of assurfance from the Premier that the policy of the Government would be changed." This caused loud laughter, and cries of "Oh, oh, oh;" "Who'd believe the Spectator," he said, "that I had letters of assurfance from the Premier that the policy of the Government would be changed." The crowd had grown by this time, and the meeting got beyond the control of the presiding officer. Velleys of hot questions were fired at Mr. Scott, some of which he tried to answer amid mixed begers and cat calls.

for continued ease. General continues very quiet. The turn for the better, noticed two weeks ago, has become slightly more positive; and the tendency is certainly towards improvement, the iron trade and the cotton goods industry leading in this respect. The market would undoubtedly be improved by an additional decline. Fresh buying would follow, and activity would be restored. The general financial situation is sound, and after the liquidation of the past six months no serious reaction should be anticipated. A good trading market is therefore possible.

Failures Last Week.

May 30.—Commercial failures this week in the United States, as reported by R. G. Dun & Co., are 277 against 336 iast week, 286 the preceding week and 165 the corresponding week last year. Failures in Canada number 18, against 41 last week, 25 the preceding week and 10 last year. Of failures this week in the United States, 101 were in the East, 84 South, 69 West, and 23 in the Pacific States, and 100 report liabilities of \$5,000 or more against 129 last week, Liabilities of commercial failures thus far reported for May are \$11,302,332, as against \$81,146,897 for the same period the previous year. Failures Last Week.

Industrial conditions continue to improve and arrangements have been made for the resumption of many plants next week, while retail trade is increased by seasonable weather. There is still a degree of conservatism regarding plans for forward deliveries, but sentiment is definitely better and progress is in the for forward deliveries, but sentiment is definitely better and progress is in the right direction, although slow. Floods have caused damage, but crop reports are nuusually encouraging, and high prices for grain are due to light supplies of last year's yield, with the aid of vigorous manipulation. Mercantile collections are more prompt and money rates are low, despite exports of \$40,000,000 in gold and Treasury withdrawals of \$45,000,000. Easy financial conditions abroad are indicated by a reduction in the official rate of discount at the Bank of England to 2½ per cent., the lowest

quotation since August, 1905. Traffic conditions are slightly better, but railroad gross earnings for May thus far were 21.7 per cent. less than in the same month last year, and the security market has lost part of the recent violent advance. Foreign commerce returns indicate a further gain in international trade balances, exports from this port alone for the latest week increasing \$1,284.105 as compared with the same week of 1907, while imports declined \$4,573,612.

Turkish Leader in Paris Loses Sister and Nephew.

Paris, May 31.—Mohamed Ali, leader of the Turkish community in Paris, befriended recently a poor countryman of his, a medical student named Rechid Mustapha, providing him with board and lodging in his mansion on the Boulevard Haussmann. Early to-day, after having spent the night roaming about the Latin quarter, Mustapha went home and stabbed to death the sister of Mohamed Ali, the Princess Fatima, and her son, Prince Sulah, while both were asleep.

Mustapha admits the crime. He declares he was the victim of the hypnotic suggestion of a doctor who has mesmerized him on several occasions.

SALVAGE "PLANK."

Scott has got a platform. Well, not exactly a platform, but he has found a few old planks lying around loose, and, not being in a position to be too particular, he has seized upon them

Plank 1-"A Technical College Hamilton." That means very much the same as declaring: Canals in Mars. The technical college fake is pretty stale election guff, Mr. Scott.

Plank 2-"Free school books and no school fees." There again spoke the political fakir. When Whitney was bluntly asked the other day about the rumor that he was to adopt a policy of free ol books, he haggled, equivocated, and suggested that the Tory credited the rumor must have been misreported! And "No school fees"! Why, ott, didn't you inquire of some of the school boys and ascertain before making yourself a laughing stock, that the imposition of school fees is a matter for local school board? That was a bad faux pas, Mr. Scott; a very bad

Plank 3-"Provincial influence against the present assisted immigration by the Dominion Government." Was this "plank" due to ignorance, also, or to wilthat you were not aware that there is such thing as "assisted immigration by the Dominion Government? And if you were aware of the fact, why the suggestio falsi? Are you not also aware that, while the Dominion Government. encourages no immigration to Ontario cities, Hon. Mr. Whitney complains that it does not give Ontario a fair share of the immigrants, but sends them as many as possible through to the Northwest Is it possible that you, who are supposed to be a man of average intelligence, do not know that Whitney has been taking great credit to himself FOR LARGELY INCREASING THE AMOUNT WHICH HE SPENDS ON BRINGING IMMI GRANTS INTO ONTARIO? The amount which he spent on colonization and immigration was between 1904 and 1907 increased by 161 per cent. And youoh, J. J. Scott!-actually give Whitney such a rousing left-hander!

Plank 4-"No prison labor contracts." Wonder what Hon, J. S. Hendrie will think of that plank? About three and a half years ago he used to swim around on that plank, and make a great deal of splashing. And what a lot of colored k and paper was wasted in advertising the performance! Where in the earth did you get that plank, J. J.? Or was it in the waters under the earth? Hon Mr. Hendrie hid it away as soon as he got into the Cabinet. Because, you see, it would have looked bad to give great prominence to that plank while he selling prison contract labor in competi tion with that of our honest mechanics at 3c an hour, everything found! You can see the absurdity of such a performance yourself without a spyglass, can't you, J. J.? Well, since that, Hendrie has not posed in the limelight as the great enemy of prison contract labornot, at least, to any great extent, that is to say. But people will be curious to know where in Tophet you found that old plank of his.

Well, timber is dear these times, and good timber is mighty scarce in Whitneydom. Can't afford to be too fastidious: can you J. J ? If there isn't enough out of which to construct a "platform" a few odd planks, no matter they're knotty and wormy, or even debris from the wreck of former plat forms, are not to be sneezed at in time of stress; are they, J. J.? They'll enable you to make a bluff at fooling the gullible, anyway. And then, your conscience will be so easy, you know. It's just MY platform, you see, and nobody's bound by it but me. And looking at Hon. J. S. Hendrie's prison labor contract deal, carried out in the very face of his plata platform, J. J.?

THE QUESTION AT ISSUE.

The Opposition at Ottawa continues its policy of obstruction. Greatly to its exasperation the Government pursues the even tenor of its way, manifests no inclination to be browbeaten by the minority and prepares to continue its course and to carry out the policy it laid down in the beginning. The wrath of the des perate and unprincipled obstructionists s bitter in consequence. The Mail and Empire announces with disgust that the Government has decided to cancel the Wednesday night recess and to require the House to sit in the mornings also. It boasts that the Opposition is out for "war to the knife," but the manner of boast is in the tone of the horsethief who had just received his sentence In it there is an acknowledgement that it feels that whether the obstruction of disloyal Opposition be long or short, in the end it must submit, and receive the severe condemnation of the country whose interests it has deliberately injured in the hope of effecting, by unconstitutional means, its own unjust partisan

The organs continue to allege that the obstruction of the Opposition is "a great fight for the people"; that the Aylesworth bill introduces "the traceable ballot and padded voters' lists." The statements are, of course, utterly false

The contentious clauses of the bill pro wide only (1) that where the voters hists are not prepared by the municipal authorities, and for the Dominion con stituencies, lists shall be prepared before any election by Dominion officials; and (2) that when, by error of a deputying officer, ballots are numbered or initialed (as was done at Valens, in Province and the industrial masses.

this county) the voters should not there the franchise. To give the member every assurance of justice being done Sir Wilfrid Laurier offered to have it stated in the bill that the officials who should revise and redistrict the lists should be Judges of the County Courts The proposal, although greeted by the Opposition with favor, and received by the Tory press as a fair and reasonable arrangement, was rejected afterward by Opposition that it would, by an organ ized campaign of obstruction, compel the majority in Parliament to abandon this the lists to the manipulation of Tory bring to a standstill the public business of the country.

And that course of obstruction it has deliberately, and with malice afore thought, pursued, and, to its shame, the Tory press generally has approved of the unpatriotic, unconstitutional and un gentlemanly course. The Toronto World explains the plan of campaign by which a little coterie of discredited politicians conducts this war against the country whom they disgrace. Other Tory organs announce in advance from time to time the programme of deliberate time-killing. The principle involved is the question of majority rule. Given even a small Opposition, as the rules of the House now stand, if it is composed of men so utterly lost to principle, and so regardless of their oath of office in spirit and in letter, and so willing to sacrifice the interests of the country's service to partisan gain, it can greatly obstruct and delay business, harass the leagues! Government, and put the country to an enormous unnecessary expense.

That the Opposition has set out with the object of establishing minority rule, even at the cost of holding up supplies and compelling the civil servants and those who have dealings with the Government to wait for their pay, is made very clear. They say, in effect: "We are a small minority, but we can rule the majority. We are determined to re tain the party advantage of lists prepared by our appointees. We shall prevent by obstruction the granting of supplies until the majority gives way to

That this is exactly the Opposition's object has been shown again and again, not only by the Opposition's actions, but by the official statements of its leaders and its organs. Both Borden and Foster stated that they would not permit a supply bill to pass until the Elections Bill was withdrawn. It was no question of whether the supplies asked for should be granted or not. George Taylor, the chief Tory whip; brazenly said: "WITHDRAW CLAUSES ONE AND SEVENTEEN OF THE ELEC-TIONS BILL AND WE WILL GIVE YOU SUPPLY IMMEDIATELY." How far removed are such men, sworn mem bers of Parliament, from being foresworn? The Mail and Empire echoes the same sentiment as it laughs at the idea of the civil servants and others who suffer by the Opposition's holding up of supplies: "The Government at Ottawa complains that the Opposition to its election bill deprives the civil servants of their salaries. Then why not withdraw the bill?" The Ottawa Citizen sees an easy way out of the trouble; the Government, it says, "should either amend or withdraw the atrocious bill and everybody would be happy."

There need be no mistaking the situa-ion. A few unprincipled and degraded politicians seem to have attained control of the Ottawa Opposition, and to have conceived the idea that they can, by abuse of the rules of Parliament, and the exercise of brute force, compel the majority to yield to the minority. That, of course, cannot be tolerated. It may cost time and annovance, and not little expense to the country, but it must be disciplined and taught its place. And the rules of the House-rules which were formed for gentlemen who had some regard for duty, and some respect for themselves must be changed so as form-Pshaw! Why shouldn't you have to provide some protection to Parliament and its business against organized ction such as Parliamentary ho lums have this session indulged in.

WHAT WAS HER PULL?

The Central Prison labor contract made with Ellen Charlotte Taylor seems to have been a mighty good one for Ellen Charlotte and those that were be hind her. Getting the labor at 30 cents a day of 10 hours she is said to have made a clear profit, over what free labor would have cost, of at least \$21,000 a year! Beside she was relieved of pay ing \$6,000 a year for supervision of the prisoners, got the free use of yards, buildings, machinery, fuel, etc., and the Government even paid part of the cost of keeping up belts, etc

What was Ellen Charlotte's pull with Whitney and Hon. Mr. Hendrie that she them to make such a contractand after Hon. Mr. Hendrie's profuse promises and pledges that there would be no more prison labor contracts? And Hon. Mr. Hendrie even provided that the product of this prison labor at 3s. an hour should be sold in open competition with free, honest labor

Is it any wonder that Ellen Charlotte could make money with such a snap In 1902, the Central Prison Inspector's report showed that the prison earned for the Province, \$16.727; in 1903, \$22. 697; in 1904, \$23,243. This helped to pay prison costs.

In 1905 there was, under the Whitney regime and the outrageous contract im-posed by Hon. Mr. Hendrie and his colleagues on the Province, a dead loss of \$4,073 and at a time of high cost of

It was a disgraceful betrayal of the

Preferred Death to Loss of His Lov.

Utica, N. Y., June 1.—It developed to-day that Frederick W. Emerson, the wealthy Bostonian and classmate of President Roosevelt at Harvard, who shot himself in his summer home at Tupper Lake, a few days ago, committed suicide because of his unrequited love for a beautiful young woman.

Mr. Emerson, who was something of a recluse, never took part in the social functions, and was looked upon as a confirmed bachelor by his neighbors and the summer population that flocked to the shores of Tupper Lake every season. It is now known, however, that the last few years of his life were given up to a consuming passion for an Adirondack maiden of the French-Canadian race, and that the tragedy that took place on the shores of the mountain lake was the culmination of her marriage to a Canadian physicjan.

From the hour of her marriage Emeron, the hour of her marriage tempton that flocked to the shores of Commons. Mr. Macdonald delighted the electors, both in St. Catharines and at Beamsville by his grasp of Provincial affairs, his easy platform style, and fluency of eloquence.

CANNON WAS TAKEN BACK.

Was Released Without His Lawyer Being Notified.

Telegram Countermanding Extradition Order Came too Late

the Prisoner Is Now In Columbus

The machinery of the law runs in a very unexpected manner some times. On Saturday afternoon Nelson Cannon, who has been held in local jail for some weeks past, for extradition on a charge of briacross the line by Detective Phelan who had been around the city for two or three days previous, evidently expecting that the extradition warrant ould arrive, and it evidently did. he part that appears peculiar is the act that Mr. M. J. O'Reilly, K.C.,

would arrive, and it evidently did. The part that appears peculiar is the fact that Mr. M. J. O'Reilly, K.C., who was the counsel for Cannon, was not notified that he was being taken out, until it was too late.

About three weeks ago Cannon was brought before Judge Snider and a prime facie case was made out, on the charge of bribery, and the warrant was signed by his Honor for Cannon's extradition. Cannon had 15 days in which to appeal from Judge Snider's decision, and Mr. O'Reilly took the case before a single court, with Justice Clute presiding. His Lordship upheld Judge Snider's decision, and Mr. O'Reilly decided to go to the Court of Appeal, which does not sit until September. The work of entering the case to the Court of Appeal was entrusted to the firm of Blake. Lash & Cassels, of Toronto, who are Mr. O'Reilly's agents there.

Mr. O'Reilly, was not worrying about the case going before the Court of Appeal, and it was with a great deal of surprise that he learned late on Saturday morning that the warrant had arrived in the city. He was sick in bed at the time, but he wired to the Minister of Justice that an appeal had been entered, and to countermand the warrant for extradition. A reply came back with instructions to hold Cannon, but it was too late as the prisoner had been taken out of the jail and was well on his way toward the States.

The warrant arrived on Saturday morning addressed to Crown Attorney Washington, who immediately turned it over to Mr. George Lynch-Staunton, who acted for the State of Ohio. He took it to the jail and, as Governor Ogilvie had at that time received no instructions to the contrary, Cannon was surrendered to Mr. Phelan and Mr. Staunton. Cannon was taken by boat and thence back to Columbus.

Mr. O'Reilly said this morning that it was not necessary for him to notify the Minister of Justice that the appeal was pending, there being nothing in the law to require him to do so. He had notified the Governor that Cannon could not be legally released, on account of the appeal having be

THE VADERLAND

Resumed Voyage After Mishap Was Repaired.

Dover, June 1.—The agent of the Red Star Line here states that he has re-ceived a despatch from Antwerp that the steamship Vaderland is anchored in the River Scheldt, having a defect in

the River Scheldt, having a defect in her machinery.

Considerable anxiety was felt here on account of the rumors that the Vaderland had gone ashore or been in collision on account of the fog that has prevailed in the English Channel for the past thirty-six hours. Evidently the steamer met with some mishaps after her departure from Antwerp, as she sailed on Saturday, and was due here on Sunday. The nature of the mishap at present is Junknown.

Antwerp, June 1.—The accident to the Red Star Line steamer Vaderland was very slight, consisting of a simple disarrangement of her machinery. The steamer returned to Flushing after repairs had been completed and left that port at 10.15 o'clock this morning for Dover and New York.

Thursday the racing world heard with deep regret that Colin had bowed both front tendons, but was in a measure prepared to see him under colors to-day. Late last night one of Mr. Keene's representatives sent a scatement to the press to the effect that Colin's injuries were not so serious as at first believed and that he was a possible starter to-day, providing there was no rain.

Colin was brought over from Sheepshead Bay and a hundred or more horsemen saw him unloaded with great interest. His legs were ewathed in bandages, but he did not take a lame step nor even limp. Because of the downpour of rain, the public feared that Colin would not start, akhough on the wet grounds. But when the numbers went up, Colin was posted as one of the starters. He was promptly made an odds-on favorite, and was well backed generally. The rain was so heavy during the running that little could be seen of the context, but men stationed around the track say that he was in front all the way. He was tiring a bit at the end and inclined to stop, while Fair Phay was gaining, but Colin stuck it out to win by a need. He pulled up and cooled out perfectly sound, and it may be that he is destined to win many good races see.

CLELL TURNEY'S CUP.

Toronto, June 1st—Seven races were on the programme at the Woodbine on Saturday, the six furiong selling event having received so many entries that, even when divided, & gave eixteen horses a chance to run in either end. The feature was the Toronto Cup, the richest race of the meeting, as it has \$5,000 added by the club to the stakes put up by the nominators. The bulk of it went to Mr. Turney, who furnished first and third horses in Clell Turney and Mertin Doyle, and took down \$4,000, of which 300 was won by Martin Doyle in third place. Moyie, and took down 44,800, of which 300 was won by Martin Doyle in third place.

Mr. Seagram withdrew Inferno and depended on Main Chance. Care Adeum and Eilteott were scratched, and Oxford and Zipango were added. Main Chance was the opening favorite, but the Turney pair held that bonor by post time.

favorite, but the Turney pair held that honor by post time.

The Turney pair evidently had forcing orders, for they were rushed to the front at once, and with Main Chance they made a pace throughout. Oxford was the only other one of the starters who cut any figure in running, but he never looked really a factor, for all that he was among the contensing horses in the etretch run, and Main Chance bumped into him in making his way to the front. Martin Doyle looked almost like a winner a sixteenth of a mile out, but when Main Chance got through and made his final effort Martin's big burden and the pace at which he had been kept told on him, and he was bearing over on the Seagram horse just was bearing over on the Seagram horse just at the end. Here Ciell Turney, fortunately for the stable's interests, was able to come to the rescue, and, though Main Chance beat Martin Doyle home, the young horse saved Martin Doyle home, the young horse saved the day for the Turney colors. The winner was very capably handled by young Frank Bergen, whose father was the late "Marty" Bergen, famous, among other incidents of his long career, for his riding of Salvator. Martin Doyle's race was a fine performance, for he carried 131 pounds, practically made the pace, and was never behind any horse but his stable companion until the very end. Uncle Toby is evidently not a mud-runner, He could not keep up at any stage on Salthe could not keep up at any stage on Sat-urday, though he carried only 99 pounds and was ridden by Murphy, one of the best of the lightweights. Charivari was outclassed. The other winners were: Royal Oaxy, 8-5: mal 4-5: Lois Cavanagh, 3-1; Spe

DR FRECHETTE DEAD

Famous French-Canadian Poet Author Passes Away.

Montreal, May 31.—Dr. Louis Frechette, the Canadian poet-laureate, and veteran litterateur, died to-night &t 10.20, after an illness of twenty-four hours. Dr. Frechette, who was in his 70th year, had been living with his wife in the Deaf and Dumb Institute on St. Denis street for about a year. Though Denis street for about a year. Though not in vigorous health, he was not considered to be suffering from any malady, except the burden of his age. He was suddenly seized with a stroke of apoplexy on Saturday night and never regained consciousness. Medical aid was plexy on Saturday night and never re-gained consciousness. Medical aid was at once summoned, as was his daughter-who is the wife of Mr. Honore Mercier-son of the late Premier Mercier, who ir an alderman and member of the Legisla

London, May 31.—Lord Chief Justice Alverstone during the week pointed out a weakness in the new Criminal Appeal Court that he said he regretted. The weakness consists in the fact that the law does not allow the court to order a new trial of a case. The case in point was the conviction of a man for the manslaughter of his child. One of the effects of cruelty was committed 15 ects of cruelty was committed laths before the child's death. The

effects of cruelty was committed limonths before the child's death. The trial Judge directed the jury to take this into account.

On the hearing of the appeal it was shown that the acts alleged to have caused the child's death must have been committed within a year and a day of the death to figure in the case. The Appeal Court, therefore, was obliged to quash the conviction, as the jury had considered inadmissible evidence, thus causing a miscarriage of justice, as the causing a miscarriage of justice, as the Appeal Court was unable to order a new trial.

TRUE IMPERIALISM. Principal Peterson Fires Hot Shot,

Speaking at St. John.

St. John, N. B., May 31.—The Principal of McGill, addressing the Canadian Club here on "True Imperialism," dain Club here on The Imperiation defined it as a voluntary and united effort to bind the empire tighter and preserve its ancient traditions. He then sketched the growth and possibility of Canada, and pointed out some of the dangers to be met with, closing with suggestions as to the convincing of sceptics and opponents of the idea. He referred to "a blantant lawyer wandering from Ottawa, addressing Canadian Clubs, who saw Canada a free and independent nation, separate from the empire."

This was taken to refer to Mr. P. S. Ewart, who lately addressed the Canadian Club here. Dr. Peterson also had a shot at Judge Longley, of Nova Scolia, who recently in New York prophesied for Canada a separate nationhood in alliance with Great Britain.

LIBERAL NOMINATION AT ST. CATHARINES CONVENTION.

n. G. P. Graham Talked About Trans portation Problems and the G. T. P.

-Mr. E. M. Macdonald, of Nova
Scotia; Hon, Senator William Gibson and Others Addressed the Meeting

ot. Catharines, May 30 .- Mr. Welland . Woodruff, an influential business an and a farmer of extended operations, was this afternoon unanimously chosen by the Liberal convention as candidate for the Dominion House of candidate for the Dominion House of Commons, and in the coming Federal elections will oppose Mr. E. A. Lancaster, the present Conservative member. The meeting was very well attended and responded with warm enthusiasm to a most convincingly earnest and forcible address, delivered by Hon. George P. Graham, Minister of Railways. Mr. E. M. Macdonald, M. P. of Pictou, N. S. Hon. Senator William Gibson, Mr. J. McCarron and Mr. William Mitchell, candidate for the Local Legislature, were among the other speakers.

The chairman was Mr. A. Begy, of St. Catharines. There were in all only two nominations made, that of Mr. J. McCarron, a St. Catharines colicitor, and Mr. Woodruff, Mr. McCannon withdrew

his name in favor of Mr. Woodruff, who was named by ex-Mayor A. Riddell, seconded by Hon. Senator William Gibson. The nomination was made unanimous. Mr. Woodruff's address was brief: "I will do all I possibly can," he said. "to win the votes of the county of Lincoln. I intend to talk not only to Liberals, but to Conservatives also. I thank you, gentlemen, for the honor you have conferred upon me. I assure you I shall strive to make a winning fight and go to Parliament to represent this magnificent county as it ought to be represented."

In opening his address Mr. Graham spoke of Provincial politics. "The heart and soul behind the Hon. A. G. MacKay," he said. "I'll stand up with him every time, and the best thing this Province can do, the best thing this Province can do, the best thing this represented."

"The protection of our people on the question of carrying their goods to market lies in the waterways." said Mr. Graham in speaking of Canadian transportation facilities. "The railways are inevitable, but it is the waterway tuat heips most to keep down the rair rates. We want deeper waterways. I'm not going to say that your Welland Canal will ever be made bigger. I care only about getting our products from west to east, and east to west. There are many schemes: the Georgian Bay Canal some think it all right, but some don't. I'm not talking about that yet. At present large boats drawing, say, 19 to 21 feet, have to lighter at Port Colborne to get through the Welland Canal. Meanwhile the Americans are going to improve the Eric Canal. But Canada must keep apace—and we know Canal. Mearwhile the Americans are going to improve the Eric Canal. Bug Canada must keep apace—and we know she can do it—and find equally good or better means of going seaward. Suppose our Welland Canal were 21 feet deep, we could get our wheat down from Fort William to Prescott for two cents a bushel on the average, while the American estimate on the New Eric Canal will be three and one-half cents to New York. We would have one and one-half cents to jeover the cost from Prescott to Monsfeal. For myself, if it were proposed building another canal or deepening the present, I'd make it 25 feet and finish the thing up properly." The Grand Trunk Pacific would be, Mr. Graham said, the best transcontinen-

Mr. Graham said, the best transcontiner

Mr. Graham said, the best transcontinental railway in America in point of grades, directness, curves, roadbed and weight of rail. "The cost will be \$63.000 per mile," pursued the speaker, "and it's worth the money."

Concluding, Mr. Graham pointed out how "increased population, increased capital invested and better transportation" had affected Canada. The 1908 total of exports and imports stood at \$650,000,000, almost thrice the 1906 total.

MAN OF MANY WIVES

FRED J. WATSON UNDER ARREST AT PITTSBURG.

Believed to Have Married at Least a Dozen Young Women, Whom He Then Robbed and Deserted— Toronto Actress Among the Number.

Cincinnati, Ohio, May 31.— The husband of at least a dozen young women who succumbed to his blandishments and his oily personaiity, and wifose sudden departure from as many cities was hastened by his fear of the same number of police d'partments, is the record of Fred J. Watson, who is under arrest in Pittsburg as a many times over bigamist. Watson is a second Johann Hoch, with the difference that he is not accused of killing any or his wives.

Watson is believed to bave married three young women here—Miss Marie Young, of Newport, Ky, Miss Frances Evelya Stewart, of this city, and a Miss Vandeman, of Dayton, ohio. Besides this he is known to have married Miss Hattle Connors, in Buffallo, Miss Agnes Mullen, an actrees, in Toronto, and others in Detroit and Wisson and chiefs fazer. Cincinnati, Ohio, May 31 .- The hus

len, an actrees, in Toronto, and others in Detroit and Windsor and other large cities. Watson's method is to marry young women, live with them long enough to rob them of what money and jewellery they possessed, and then desert them. In this manner he is said to have accumulated thousands of dollars.

From the Dayton wife he secured in the neighborhood of \$2,000. From the Newport girl \$500, and from Miss Stewart a little over \$1,000. Most of it was in cash, representing the life's savings of his victims.

Vancouver, B. C., May 31.-Eight infuriated Japanese all but killed Cana dian Pacific Conductor Thomas Hughes dian Paeific Conductor Thomas Hughes, of Revelstoke, last Saturday night in one of the most peculiar encounters that has been recorded since the brown men have come to British Columbia. Hughes is now in the hospital suffering from his injuries. His case was but du incident in the patting to flight of an entire train crew of the C. P. it, and the delaying of traffic on the main line for a couple of hours. Hughes stopped his east-bound freight train at Carine siding, about half way between Kamloops and Revelstoke. He was under instructions to pick up a car of lumber there. While this was being carried out it was necessary to move a Japanese "outfit" car, in which eighty of the Mikado's countrymen were sleeping. The brake rigging of the Japanese car fell off and the wheels were thrown from the track. In a minute nearly four score Japanese were outside Jooking for a fight. They picked up sticks and clubs, and started down the tracks after the train crew. Hughes was the first man they met, and they nearly killed him. He was beaten black and blue, and will for many days te in the hospital. The brakeman and engineer and fireman rushed to his rescue, but were driven back, and all four ran for their lives. The brakeman and conductor finally excaped from the infuriated Japanese into the woods. Other Japanese chased into the woods. Other Japanese chased the engineer and fireman back to the locomotive. The fireman succeeded in cutting off the engine from the cars and the locomotive was run "light" to Tappan siding, where the incident was

Real Facts About Sciatica.

Like other parts of the body the sciatic nerve is subject to an inflammation known as sciatica, and the pain it excites is almost beyond endurance. No remedy in existence can equal Nerviline in curing Sciatica. The instant effect of Nerviline is simply grand— it penetrates the tissues, soothes the irritated nerves, dispels all pain. Not for a thousand dollars could anything stronger or better be used. Wherever there is rheumatism, neuralgia, lumbago or sciatica, that is where Polson's Nerviline should be—because it surely will cure. Real Facts About Sciatica

"Well, what do you want now!" shouted the farmer.

"I want to warn you that you'd better get those old plugs of yours out of the way as quick as you can." yelled the chaiffeur. "I'm going to take this hill at a twenty-mile an hour gait!"

Toronto, June L.—The eight members of the Italian family of Joseph Carumone, living in the four-roomed cottage at 180 Chestnut street, were saved by the outery of a child and the promptitude of P. C. Matthias, of Agnes Street Police Station from suffocation by gas early vesterday morning. In the chil-

rune of F. C. Matthias, of Agnes Street Police Station from suffocation by gas early yesterday morning. In the children's room one of the boys had turned off the gas, then in mistake turned if on again, climbed into bed with his brother and went off to sleep.

Just before 3 o'clock yesterday morning a youngster of ten years was roused by a younger brother turning in the bed beside him, He woke up, and, discovering the room to be full of gas, rushed to his father, and the house was soon roused. Joseph ran frenziedly out of the house and, waving his arms wildly, attracted the attention of P. C. Matthias on his beat. The constable came at the double, went into the house and threw up the windows and opened the doors. Then one by one he carried the five unconscious children out into the fresh air and resuscitated them.

ADVICE TO SUFFERERS OF KIDNEY DISEASES

Mix the Medicine at Home

There are many of the symptoms of kidney diseases, such as backache, weak bladder, urinary troubles, sciatica, etc., which can be treated successfully at home, says a well-knewn authority. The following prescription has proven itself to be most satisfactory:

Once ounce Fluid Extract Dandelion. One ounce Compound Salatone,

Four ounces Compound Syrup Sarsaparilla. Mix, shake well, and take a teaspoonful after each meal and

These vegetable ingredients are harmless, and can be procured from any good prescription druggist and mixed at home

There is no better general remedy known to relieve all forms of rheumatism, either, because it acts directly on the kidneys and blood. It cleans the clogged-up pores in the kidneys so they can filter from blood the poisonous uric seid and waste matter which, if not eliminated, remain in the blood, decompose and settle about the joints and muscular tiseues, causing the untold sufferings and deformity of rheumatism.

METHODIST CONFERENCE

Stationing Committee Met Here This Afternoon.

General Session Opens on Thursday Afternoon.

Special Services of Week on Sunday Next.

This city will have the fourteenth annual session of the Hamilton Methodist Conference this week. The conference ence proper opens on Thursday next, but whole week and three days of next week will be taken up with the work, including that of the various committees. The business will be very largely routine, with several important religious meetings, but there is nothing of a very special nature to be considered this year. The important committee of the conference is the Stationing Committee, and its business this year is not onerous, because there are not many changes—none whatever among the Hamilton churches unless it is Barton Street. Rev. H. G. Livingston has been there five years already, and the congregation are anxious that he should remain longer, on account of the important building and expansion work which has been carried on under him, and which is not yet completed. There may, however, be difficulty about arranging it, and a change there is quite probable.

The Stationing Committee had its first session this afternoon, in the board room of Centenary Church, where all the meetings are being held, except those of the Laymen's Association. The statistical secretaries will meet at 2 o'clock tomorrow in Centenary school room, and at the same hour the Conference treasurers will meet the financial secretaries. The Board of Examiners will meet at 1.30 on Wednesday, and the Laymen's Association will hold sessions at 8 p. m. on Wednesday and 9 a. m. on Thursday The important committee of the confer

Association will hold sessions at 8 p. m. on Wednesday and 9 a. m. on Thursday in First Methodist Church.

Rev. Dr. Gee, formerly of Emerald Street Methodist Church, this city, being President of the Conference, will direct all the devotional exercises. Rev. H. G. Livingston, of Barton Street, will have

all the devotional exercises. Rev. H. G. Livingston, of Barton Street, will have charge of the singing, and Rev. F. G. Farrill, of Kensington Avenue, Crown Point, will be postmaster-general of the Conference. The local committee of arrangements consists of Rev. R. J. Treleaven, Rev. H. G. Livingston and Rev. R. Whiting.

The ministerial sessions of the Conference will be held on Wednesday at 2 and 8 p. m. and Tursday at 8.45. The transfers and questions of discipline come up at these sessions.

The general sessions open on Thursday at 2 o'clock. The meetings of importance to the public are the missionary anniversary on Thursday evening, at which Rev. J. E. Hughson, B. A., and Mr. N. W. Rowell, K. C., of Toronto, will speak; the reception of probationers on Friday evening, when Rev. H. W. Crews, M. A., and Rev. J. E. JUVENILE GOOD TEMPLARS.

At the regular weekly meeting of the international Juvenile Temple, I. O. G. T., held in the C. O. O. F. Hall, on Saturday afternoon, Mrs. D. B. Smith, Superintendent, presided over a good attendance of members. One candidate was admitted into membership, and two propositions were received. In a short address the Superintendent outlined what Good Templary in its real and true sense meant. A Good of the Order programme was thereafter submitted by Miss Grace Statom. It comprised songs by Nellie Morison and Robert Yuille; piano solos by Lizzie Smith and Master Walter Seddon, and Mrs. C. A. Hardy and Miss Lottle Riviers each sang a sacred sold in good style. W. Seddon's birthday party will embertain next. Saturday.

COLES CIRCUS ON WEDNESDAY.

GREATEST AMONG THE BIG SHOWS OF THE YEAR.

Fine Street Parade and Other Free of the Circus Itself.

The day after to-morrow, Wednesday, to be explicit, will usher in the circus season in Hamilton, and the entire population of Boyville especially will be in "Fountain of Youth," Cole Brothers' world-toured shows, will be the attrac-tion, and the three trains on which the show is transported will reach the city

world-toured shows, will be the attraction, and the three trains on which the show is transported will reach the city early Wednesday morning. By the time breakfast has been served in the majority of the homes in the city, the tented city at the show grounds on Barton street rill have been erected.

It is really a marvel of organization, and it is surprising how much like clockwork every detail is conducted. It is no easy task to build a city occupied by a community of over one thousand persons every day, and the manner in which everything is accomplished is one of the wonders of the amusement world. Cole Brothers' show is the biggest circus that will visit Canada this season, and its features comprise many new and interesting offerings that have never before been introduced. An elephant that turns a somersault, a dog that rides a horse, an Englishman who turns a double somersault on the bounding wire, and a congress of forty-one clowns are but a few of the novelties contained in the long and interesting programme. and a congress of forty-one clowns are but a few of the novelties contained in the long and interesting programme. The series of free exhibitions, including Mille. D'Zizzi, the only woman who leaps death's gap on a bieycle, is an original feature, and will be seen for the first time next Wednesday. These attractions are all given in the open, directly after the morning parade, and again in the evening at 6.30 o'clock. This special feature allows all, whether or not they are able to view either of the performances, to obtain a little enjoyment on circus day.

This season's parade outclasses any other procession offered by tented organizations. One of the novelties is the appearance of twelve beautiful ladies, riding white horses, the equestriennes all garbed in white. They are followed by a dozen men, dressed in black, astride coal black steeds. The comparison invariably creates enthusiasm, and, on the whole, the entire parade has met with a series of receptions and words of commendation wherever it has appeared.

The two performances will be given exactly as promised, the afternoon show commencing at 2 o'clock, and the evening show at 8.

THE BOILERMAKERS.

James Crombie Attended the International Convention.

Mr. Jas. Crombie, of the Sawyer-Masev Co., who has been attending the International Master Boiler Makers' convention at the Hotel Pontchartrain, Detroit, during the past week, has returned to Hamilton. He says: "It was an inspiration to listen to C. M. Schwab and to see him going about in our midst all the afternoon and evening as if he were one of ourselves. Mr. Schwab very kindly took my pen and wrote his autograph for me." There were no prizes to compete for this year, but a lot of useful work was done during the sessions.

Mr. Crombie is one of the executive of the International Master Boiler Makers' Association, and has to read a couple vention at the Hotel Pontchartrain, De-Association, and has to read a couple of papers at the next convention, which

will be held in Louisville, Ky., in 1909. AT THE SAVOY.

Summers Co. Will Present "The Little Minister" This Week.

At the Savoy to-night J. M. Barrie's great Scotch comedy, "The Little Min-ister," will be presented by the Summers Stock Company. Stages with special scenery and electrical effects, it should prove an exceptionally strong number at popular prices. Theatregoers who have seen this play before will welcome en opportunity of seeing it again. In the hands of Mr. Summers and his 'elever company is an assurance that it will company is an assurance that it will receive a faithful interpretation. The same offering will be the attraction all week and Wednesday and Saturday matinees. Specialties will be presented between the acts.

Mrs. Leslie-Carter's Advance Sale.

The advance sale of seats for Mrs.

next. Mrs. Carter is to be seen here in
her incomparable impersonation, Du
Barry—a role which she has assayed
with marvelous succesa, It is generally
accepted that Mrs. Carter's rendering of
this character has not been equalled in
any play by any emotional actress in
modern time. Du Barry is one of
those master-strokes of dramatic composition that are of exceeding rareity.
For versatility of powers Mrs. Carter

KNOX HEARS NEW PASTOR.

Rev. A. E. Mitchell Began His Ministry Yesterday

With An Earnest Talk to His Congregation.

Prof. Farmer, of Toronto, at James St. Baptist.

Preaching his first sermon as pastor of Knox Presbyterian Church, Rev. E. Mitchell took occasion yesterday morning to remind the congregation that the people as well as the minister had an obligation to discharge and that their part in church work was fully as important. A fluent, earnest speaker, presenting his

views in a manner not likely to be nisunderstood, Mr. Mitchell impresses one with the idea that simplicity in his sermons is one of his aims. Al-though his discourse yesterday morn-ing was largely in the nature of a

anis sermons is one of his aims. Although his discourse vesterday morning was largely in the nature of a talk to his new congregation on the duties of pastor and people he commanded attention throughout and made a very favorable impression.

Announcing as his text II. Cor. xii-14, "I seek not yours, but you," he said in part: If I come to you with a true conception of my work as your minister these words of my text must be an expression of my heart's desire as was the case of Paul. You, my brethren, are of infinitely more value to God than yours and you must be of a great deal more value to me, your minister, for Christ's sake, than yours can possibly be. Your esteem and good will, and all that you are pleased to give men, are of great value to me, but above all, and beyond all these things, my object and aim must be, as your minister for Christ's sake, to bring you into closer relationship with Lord Jesus Christ. So this text I trust will be my heart's desire, "I seek not yours but you." Yet I realize that it would be a great deal easier to get yours than you, for a great many people are just as willing to give of theirs to carry on the Lord's work as they are willing to let others do the works. I have no hesitation in saying that I believe the greatest undeveloped resource in the church to-day is not our money but the membership of the church. Characterizing as inert, motionless and powerless a large section of church membership, deploring this spiritual inactivity and emphasizing that often the opportunity of the people for carying on God's work, by bringing before all those with whom they come in contact, a strong Christian personality the speaker said, "O. what a mighty power we might have

bringing before all those with whom they come in contact, a strong Christian personality the speaker said, "O, what a mighty power we might have in the church if it were developed and bringht into activity."

The sub-stratum of Christianity was religion. While it was true that Christ alone could save the world, Christ could not save the world alone. He needed those whom He had redeemed by His life and death, to bring before their fellowmen the blessings and truth of the gospel. God, he did not believe, had regenerated any man simply to take him to heaven, but he had placed us on this earth as his representatives to do His service. Mr. Mitchell dealt at length with the duty every Christian owed to Christ in advancing his work on earth. Closing his discourse he declared that no matter what might be the outcome of his ministry here, he believed that there was a work here for him to do, and that he had been called by God to do it. The servant must not be less passionate than the Master for souls and

Prof. Farmer Here.

Prof. Farmer Here.

Professor J. H. Farmer, LL. D., of Mc-Master University, Toronto, preached at James Street Baptist Church last evening before a large congregation, in the absence of the regular pastor, Rev. J. C. Sycamore, who occupied the pulpit in the Bloor Street Baptist Church of Toronto. His subject was taken from St. Mark xvi., 15: "And he said unto them, Go ye into all the world, and preach the gospel to every creature." The first generation in Christian history was a missionary generation. The Bible speaks of the missionary work of Paul and Peter, but does not give the record of the twelve. However, there is evidence to show that they were sent cast, west, north and south to preach the gospel. One hundred and twenty-five years ago the Protestant Christian world was practically dead. About a year later missionary work was begun, at first missionary work was begun, at first amid storms of ridicule. But the work spread. Young men and women came forward, offering their services as mis-sionaries. The Protestant Christian ed in this generation. One of the great factors in this work is the Laymen's Missionary Union, which scattered information by sending out deputations. It is a shame that so much missionary It is a shame that so much missionary work is left to women and children instead of calling on the ability, wisdom, judgment and experience of the business man. There never was a time when evangelization was needed more than the present. Many foreigners are coming to our shores, and it is up to the Canadians to bestir themselves or they will find all their national ideas and standards lowered and disgraced.

AERIAL CONTEST

Great International Match of 3r Balloons

Near London.

London, May 31.—The greatest balloon race in the history of British aeronautics was started yesterday afternoon from Hurlingham. It was held in connection with the International Aeronautic Federation, that had just had its fourth annual convention here. The winning point was three miles west of Maidenhead. Thirty-one balloons, decked with the flags of their respective countries, and carrying upwards of one hundred passengers, were successfully sent off in a gentle breeze from the northeast. Several of the cars carried women passengers.

Germany, Great Britain, Beigium and Switzerland.

The English balloon Valkyra, C. F. Pollock, pilot, was the first to land, coming down about one mile from the winning post.

THAT PAMPHLET

Hon. A. G. MacKay's Thirteenth Letter to the People of Ontario.

Entirely discreditable to the Government is the campaign pamphlet issued by them, and which furnishes a text for Conservative campaign speakers and newspaper writers, who have not the original docu innocently circulate the misrepresentations therein contained. The following illustrations may be noted:

FINANCES-At page 12 the "current" income for 1907 is stated as \$8,168,196. These figures are obtained by deducting \$125,233 obtained as timber bonuses from the gross receipts of \$8,320,-4.9. The financial statement, containing the receipts and expeditures for 1907, showed receipts from the absolute sale of mining lands to be \$1,184,719.06, and from the absolute sale of agricultural lands \$69,584.57, making a total of \$1,254,303.63. And yet these amounts are treated as "current" revenue, while in the comparison of the receipts for several years those from timber bonuses are treated as "capital" receipts. Surely if the price of timber is a "capital" receipt, the price of the actual land is also. But the figures are thus juggled to make a favorable comparison. Again, at page 15 a surplus of \$606,000 for last years is figured out in the same way, that is, by treating the receipts from the absolute sale of agricultural and min-

MONEYS RETURNED-Under the heads of railway taxes, license fees, schools, roads, colonization roads, hospitals and charities. The Government boast that they have "returned to the people \$908,000 more" in 1907 than the old Government did in 1904. These same people, whose servants the Government are, will not overlook the fact that the receipts in 1907 were \$8,320,419; in 1904 but \$6,128,358. In other words, the present Government received \$2,192,061 more revenue, out of which they returned this \$908,000

SOURCE OF INCREASED RECEIPTS-The boast is made that the revenue of the Province has gone up by leaps and bounds owing to the better financial management. What are the facts?, The excess of revenue in 1907 over that of 1904, in round figures \$2,200,000, is practically all accounted for under two items, namely, mining, \$1,690,000, and the increased Dominion subsidy, of which \$394,742.40 was received last year, making a total of \$2,085,000. Deducting from this \$27,000, the receipts from mining in 1904, leaves \$2,058,000, whereas the difference in the total revenues of 1904 and 1907 is less than \$2,200,000. And yet the Government boast that the increase in revenues comes from the better handling of the various departments! The present mining receipts are the result, after a year's delay, of the adoption of the principle advocated by the Opposition. The extra subsidy is the result of negotiations commenced under the old Government and completed by the present.

T. & N. O. COMMISSIONERS-At page 32 appears the slander against T. & N. O. Commissioners, where it is stated that they "staked out mining locations themselves." These officials have absolutely denied the statement, and challenge proof. The Government do not attempt to produce the proof; but the slanderous statement

THE POWER QUESTION-Truth is deliberately murdered in the discussion of this question. It is said that "another form of opposition was led by the Hon. Mr. MacKay, Leader of the Opposition, contended that the proper way to get cheap power was not from Niagara but by means of gas engines. This question is dealt with in former letter, but it is interesting now to note that the City Auditor of London, under instruction from the City Council, has from the estimates actually furnished by the Commission figured the cost of power in London at \$44, whereas the highest figure given by the users of gas engines in the same city is less than \$25.

PRICE OF SCHOOL BOOKS-At page 53 is the following statement:—"The contracts for the old readers having come to an end, it was decided to throw the printing and supplying of the books open to public competition. This at once reduced the prices, for the pubishers were forced to compete with one another. The lowest tender was accepted." This is a deliberate falsehood, and one that is being repeated by Ministers of the Crown on the platform. They had not the courage in debate on the floor of the House to attempt to support this contention. The facts are that the contract of the Canada Publishing Company had come to an end. The Department then de-clared that those readers should cease to be authorized after the lapse of one and one-half years. Then the Department advertised for tenders for the publication of these same readers, but made the specifications such that the large stock of books the Canada Publishing Company had on hand would not fit the specifications. The binding, etc., were to be different. Tenders were received, but the contract was not let on these specifications. Had it been, the whole stock then on hand would have been a dead loss to the Canada Publishing Company. Situated as the Canada Publishing Company were, every dollar they got for that stock on hand would be a dollar found. They could not use their then stock on a tender under the new specifications, therefore their only way of preventing an absolute loss of all their stock was to make a special remnant sale. They did so. Although tenders were called for, none of these tenders was accepted. The specifications were not followed by the Department, but, with a club over their heads, the old company took what price they could get, not for publishing the books according to specifications advertised, but for running off their old stock, all of which would have been a dead loss had they not struck this special bargain with the Department. The misrepresentation of the Government as to this transaction is made bold and barefaced. Commissioner Cooper has, however, exposed this cheap Governmental fake. There ought to be at least common honesty of statement at the head of the Educa-

Mr. Bennett, of Simcoe, the Conserva-tive member, who makes supervision of dredging his specialty, protested against this, and declared that the extension of

this, and declared that the extension of contracts without new tenders was a scandalous evidence of Government corruption and graft. Mr. Bennett was supported in his position by Mr. Borden and the whole Conservative following. They threatened to make this an excuse for the withholding of supply.

Dr. Pugsley announced that he would meet the wishes of the Opposition and would cancel the order in Council extending the Ontario and Quebec deedging contracts and would call for tenders and install competition. This was accordingly done. The new tenders, with the exception of those for one or two minor places, were all higher than

rates.

Total estimated increases, based on engineer's estimates of quantity to be dredged, for Ontario, \$59.355.

Total incretse for Quebec, \$90.442.
This makes a total extra cost for the two Provinces of \$149.797.

Therefore, while calculations show a loss of a hundred and fifty thousand dollars, it is thought the amount will be nearer two hundred thousand dollars, as the departmental engineers' estimates of quantities are roughly made for the purpose only of approximating the cost of the work, and experience has shown that the man with the dredge finds a good deal more material to remove than the engineer calculated there would be.

It is calculated that Mr. Bennett and

DREDGING BILLS.

OPPOSITION MOVE COSTS COUNTRY

Mr. Bennett Was the Leading Objector to the Renewal of the Old Contracts, and the New Tenders Were at Enhanced Prices.

Ottawa, May 31. -The country will have to pay from one hundred and fifty to two hundred thousand dollars as the result of the Conservative attitude in regard to this year's dredging contracts. Last March the Minister of Public Works announced that it had been decided not to call for new tenders on certain dredging operations, which had been begun the year before, but the department would extend the contracts at the same rates paid last year. Hon. Mr. Pugsley said there were two reasons for this decision. The first was that his engineers reported the rates on all the contracts as reasonable. The second reason was that was decable to hurry the work, particularly on some of the Georgian Bay ports, where the Canadian Pacifice, Canadian Northern and G. T. R. wanted dredging work at terminal ports as soon as possible, and it would be better to renew the contracts with men who had plants on the spot than to invite tenders and give other contractors time to get their dredges at the place of contract in case their bids were lowes.

Mr. Bennett, of Simcoe, the Conservative member, who makes supervision of result of the Conservative attitude in

two minor places, were all higher than the rates on the contracts which it was proposed to extend. The increases nge from one or two to twenty-five

here would be.
It is calculated that Mr. Bennett and
his friends have taken two hundred
housand dollars from the treasury of
the country and put it into the pockets of dredging contractors.

PARASOLS FROM THE CONGO.

Paris Has the Latest Idea in Sunshades.

Paris, May 31.—It is not often that Paris gets its fashion ideas from the Congo, but this is true of the latest style in sunshades. This week four of the principal houses in Paris sent models to the race course supplied with sunshades, the handles of which were composed of a combination of pampas grass and precious jewels. The grass is woven in native African style on a light bamboo base, and then studded with pet. Is, sapphires and emeralds. The general effect is extremely cool and refreshing. The linen of the parasol is itself embroidered with grass in a variety of fancy designs. Some parasols, are so richly adorned that the price runs to thousands of dollars. The fashion was inaugurated by the grassing the hospital.

BANK OF HAMILTON

Security versus Profit

Many shrewd people prefer to keep a substantial proportion of their means in a good Savings Bank, rather than invest in more or less speculative enterprises.

While many propositions promise higher returns than Bank interest, it must always be kept in mind that the risk of loss of principal is nearly always in direct ratio to the prospective gain. "The greater the profit the greater the risk," is a sound commercial axiom.

Money deposited in a Savings Account pays a reasonable return in interest-and that return is sure. It is also paid every three months.

Of still greater importance is the fact that your Capital is safe—and immediately available whenever required.

The Bank of Hamilton invites the permanent deposit of large or moderate sums of money, paying the highest current rate of interest on same every three months. Such deposits may be withdrawn in whole or in part whenever desired. Interest may be withdrawn in cash.

LADY MINSTRELS IN TROUBLE. Carried Off Property From Show in

Norwich and Are in Jail.

Woodstock, May 31.—Six members of the ladies' minstrels, an organization that was to have appeared in Norwich on Thursday night, are in jail doing short terms for theft and vagrancy. When the company struck Norwich the six minstrels, four of whom are girls, deserted the show and carried off several suit cases of articles that belonged to the show. They got about four miles out of town when the police arrested them. They were taken before the Norwich Magistrate, and four were sentenced to \$5 fines, and one got a \$25 fine or three months. None of them had any money, so they were all brought down to Woodstock jail. Norwich and Are in Jail.

A TERRIBLE WARNING. Finnish Doctor Says Lunacy Follows Votes for Women.

London, May 31.—The Lancet hands out to the British suffragette a terrible warning by the Finnish Doctor Gran-holm, who asserts that there is a certain connection between the women movement and the frequency of mental disease. Dr. Granholm has been carefully investigating in Finland, where women vote for members of, and are eligible to serve in, the Parliament, and he has come to the conclusion that domestic life has become unfavorable for the normal development of the young of both sexes, the result being a marked increase in mental aberration in the municipality of Vurmes where the doctor claims he is able to exclude any common causes of mental disease, and where very emancipated views are held by the female population, and particularly by the female teachers. He speedily noticed that the number of lunatical increased from 29 in 1900 to 67 in 1906. The population had increased in that period from 11,888 to 12,137. mental disease. Dr. Granhe

HAMILTONS WON AT ROUGH-HOUSE LACROSSE.

Brantford Bunch Beaten Here on Hocking .. Saturday.

Thirty Players Sent to the Penalty Time Keeper In the Course of the Game-Brooklyn Handicap This Afternoon.

It was a sad outlook for the opening championship lacrosse game at the Cricket Grounds on Saturday afternoon when the rain started in shortly before the time of the game, but when the game started the grounds were drying out below a bright sun, and shavings and sawdust made the running at least a little bit secure when going straight ahead, but dodging was out of the question and this may have been some excuse for the nany fights and collisions. The crowd numbered about four hundred. No less than thirty men were ruled off the field for periods averaging six ninutes each, fifteen men from each team, and not in any one of the thirty penalties imposed was there any room penalties imposed was there any room to criticise the referee. Speaking mildly the game was very rough. The Tigers started the slashing, and with their heavy men they were a little better at it than the Brantford team and soon had those worthies all showing signs of the fray while some of them looked as if they had been kissed by a fifty horse-power battering ran. Archie LaLonde showed himself to be a star in that kind of going and scored several knockouts. Heffernan is a light man, but he got in some swiping that kept him on the bench for a while. Moffat, of the visiting team, went around looking for trouble and he was a bad man to monkey with. A record was reached when eight men, five from the Brantford team and three from the Brantford team and three from the local, were on the bench at one time. Principals got ten minutes on the bench as a rule, but all those who were in a fight at all got more than five minutes, that being the penalty for the swipers. The list of players ruled off in the game and the time they were down for, is as follows:

First. Quarter:—

Hamilton—McPhail 5. LaRose 5.

Brantford—Howell 5, Hamburg 5.

Second quarter:—

The total number of men sent to the timekeeper, 30—15 from each team. There were only three men on the Hamilton team who played real lacrosse, they were McInnes, Fink and Newsy LaLonde. McInnes was there every way and played a good game as he does at all times. Newsy held his own in goal, but evinced a strong desire to get out on the field and left his goal open periously several times to run out for the ball, Fink in centre in place of Fid Cummins, is as good and a little better than the much touted Fid who went home to Cornwall a few days ago. He was on the job all the time, was not ruled off once and played a good, clean game of lacross in the face of the fact that the and played a good, clean game of la-crosse in the face of the fact that the crosse in the face of the fact that the Brantford men, recognizing his ability took a crack at him every time he came within reach, and they were not all body blows either. Hocking, the local man, made a couple of good runs, but his passing was not up to the mark. Don Smith played a poor game compared with the game he played on the holiday, and the only time he showed any of his old form was near the end, after an enforced ten minutes on the bench nforced ten minutes on the bench trying to make a Brantford man

FIRST QUARTER—The game started off with some fancy combination work by the visitors that took the ball into Newsy LaLoude's yard. Several shots were stopped by him, but the visitors' second home man, Howell, managed to grounder in. This was remembered and Howell played the second—and third quarters with a badly bruised and strained leg and in the last quarter was compelled to stop playing as his leg got so stiff he could not navigate on the slippery ground: Heffernan and Smith on one side of the field showed up well, but could not score and it was left to McInnes to make the Tigers first goal with a hard shot. Regan and Tanguay were responsible for the next goal made which put the locals ahead. The latter passed it to Regan who placed it in the net before he could be raught by the defence players who had been trying to get Tanguay down. Regan and Tanguay tried the same combination a few minutes later, but Slattery was ready for them and stopped the ball, McInnes and Tanguay were responsible for the next, the latter placing it in from a pass from McInnes. This brought the score up to 3—1 in the locals favor, and at this it stood when time was called, a few minutes later.

COMMENT AND GOSSIP

It is suspected in some quarters that Manager Hubert has been feeding the Hamilton Tigers on raw meat.

In baseball slugging is demanded, but it is different in lacrosse.

Lacrosse never was in the list of par-lor games, but just the same the bet-ter class of patrons do not want blood shed at every game.

SECOND QUARTER—In the second quarter there was no scoring, and it was chiefly noted for the dirty play which started in them. The referee did not stand on ceremony with any offenders, simply sending them to the bench. Colling and Tanguay were penalized. THRD QUARTER—In this quarter Skelding, Taylor and Gilligam were knecked out by face blows, and their opponents were ruled off. Taylor, after recovering, and around looking for his asseilant and for swiping a Hamilton man in the face was gently but firmly sent to the bench, where he bameaned his fate, being ruled off for hitting the man that had hit him. George S. Lyon, of Toronto, the Canadian representative in the Olympic golf tournament, may be the Olympic golf tournament, may be the Olympic golf tournament, may be the Olympic golf champion without a game.

A Canadian Associated Press cable says: "In the Olympic golf contest a number of British entries were received by the Olympic Council but were so confused that they had to be returned for further particulars. To-day the entries closed, and the only entry fully in order was that of George S. Lyon, the Canadian champion. The competition was, therefore, abandoned, and Lyon has a walkover, and ray, if he wishes, claim the medal."

The chances of Mr. Lyon claiming the medal without a contest are decidedly slim, he being a true sportsman.

BALL FANS

Sporting Editor of the Times,-Being an observer of baseball in our city I take the liberty of encroaching on your page for a short space to express my sentiments on our latest "professional sentiments on our latest, "professional" ball team, and would ask, at the same time, just how much does this word "professional" indicate when applied to the vocation of ball playing. I think there are a great many ways of looking at this word. For instance, there are, as we all know, real professional ball players, as was demonstrated when the Toronto B. B. C. visited our city a few days ago, then again there are professional players in name only, but not actually so, again there are amateur not actually so, again there are amateu

not actually so, again there are amateur players who according to their ability compared with the former, might also be termed professional, and lastly there are professional men so called simply because they possess the knack of drawing a salary for their services. Now, sir, in view of what the baseball public of Hamilton have seen in the past 15 years, and professional and amateur baseball, can some person inform me in which of the classes mentioned above does the present Hamilton B. B. C. belong?

I do not wish to say anything detrimental to the welfare of the local club.

mental to the welfare of the local club, but what I would like to say is this

—that the ball players imported here from outside this city, with possibly one or two exceptions, are not in any way superior to the men who are obtainable right in our midst, and the quality of ball handed out bears out this statement and does not surpass, or in some cases, equal the brand dished up by the City League in the last few years. In the support of this statement I have only to refer you to the local men on the team at present who were fortunate enough to pass the critical eye of the management, who, I think, are showing up as good, if not better, are showing up as good, if not better, than the imported talent, and I have no doubt that these men are equalled in ability by many others in the city at

ability by many others in the city at present.

In conclusion, Mr. Editor, I would make a suggestion that might meet with the approval of the management of the Hamilton B. B. C. and that is this: I have been given to understand that a local club, who were represented in the City League in years past, would be willing to select a team of local players and play Mr. Paige's aggregation an exhibition game, which I am sure would prove quite successful from a financial prove quite succes point of view to the local management, or the proceeds might be devoted to some char-able cause. Now, I think the result of such a game as this would demonstrate very clearly that at present we are seeing no better quality of ball than that handed out by the City League. I would like to hear what Mr. Paige says to this proposition.

If the rain hadn't come just when it did it is altogether probable that Hamwould have sojourned with a double defeat stowed away under the girdles just by way of receiving a little variation of the monotony of continuous and unchecked victory with its accompanying palling effect on sister clubs and their supporters. When the tale of the nine whirlwind innings that was offered the whirlwind innings that was offered the fans in the first game was all told it was found that good old Cy Parkins, with his leisurely ball, southpaw whip and foxy old grey matter had let the Hamilton phenoms down with a goose egg wrapped up nicely in crepe, and Harvey Murr, with the delivery that would shame a prize contortionist, had lost his game by two runs.

no sooner come to a close than the sec-ond game was announced for seven in-nings and after two of them had been nings and after two of them had been played, George Bradford, the "Village Blacksmith," had been touched up for three runs, while the visitors had annexed one from the delivery of "Fat" Payne, who, although the Students had touched him up pretty well so far, was steadying down nicely when the torrent descended. For that reason it was too bad altogether, for the winning of two games would have adjusted matters not a little in the race for the pennant. But that first game redeemed the Beavers from all previous misdemeanors, for they put up an article of ball that simply couldn't lose.

The fatal fifth did it for Hamilton

ply couldn't lose.

The fatal fifth did it for Hamilton and raised the Beavers to the status of real modern ball team. In the first place Bill Klincke, who always figures in the scoring, larroped a grounder at John Brennan, which John cast to the donn Brennan, which John cast to the right field bleachers, and by the time Finnemore, the indefinite extension, recovered it. Bill was at third. Then our own belaved "Nig" answered to the call and swiped to centre left for as pretty a two-bagger as ever was lammed. Nice

work and great excitement among the humans in the stand at this juncture. Tommy Dewan, who filled up a sod gap in the garden, pulled off his second clean sacrifice of the day and was called safe on Finnemore's error. Cy Parkins here stepped into the breach and recognizing the necessity of immediate action he singled mightily to right and Chester received his welcome home. That was all the scoring, for a double play stopped further trouble. The second game started out with plenty of hitting, but both pitchers had nicely steadied down when the rain came.

NOT IMPOSTERS.

One day last week an item appeared in the city papers to the effect that two Sixtes of Charity were not collecting for any purpose of the Catholic Church in this city. The two sisters called at the Times this morning and showed their credentials, a letter from Bishop Sal-ford, of Manchester. England, endorsed by Archbishop Farley and several bishops of the United States. They came bishops of the United States. They came to this country to raise funds for a hospital for working girls, in Manchester, but, not getting the sanction of Bishop Dowling, did not canvass in Hamilton or vicinity. They are guests of a personal friend, Miss Sullivan, 279 King street east, and have received subscriptions to their fund, unsolicited, from a few friends. They do not desire to raise meney here in opposition to the wishes of the bishop, but they feel that Hamilton people should know that they are working in a worthy cause and are not imposters.

Early Closing.

Early Closing.

It has been our custom in past years to close our stores at one o'clock on Wednesdays during the months of June. July and August.

We find the mid-week holiday a pleasant rest during the warm weather, and our clerks appreciate it. On Wednesday we begin our early closing for this season, and our patrons can materially assist us by bearing this in mind and doing their shopping earlier in the day.—Peebles, Hobson Co., Limited.

Fralick & Co. Have Just Flaced In stock some of the nobbiest young men's suits seen this season, and for value they would be sold in most stores at \$25. For quick sale we've priced them at \$16. Take our word, these are great suits. We'll be pleased to have you see these nice suits.—Fralick & Co., 13 and 15 Jam's north.

MORE SMALLPOX.

The health authorities have another case of smallpox and a suspected case on their hands. Five or six days ago a young woman employed as a domestic took sick and, after being closely observed several days was removed to the Isolation hospital on Saturday morning. That day a rash appeared on a young lady who had been in the same place, and this morning she was also taken to the Isolation camp, although her own physician does not consider it smallpox.

A BIG SUCCESS.

The Tremendous June Sale of Linens at Right House Attracts Thousands of People.

Right House linen sales are well known for their genuine saving oppor-tunities and for the vast varieties that are out on sale. But this immense June sale seems to have eclipsed all former efforts, not only in joint of variety and broad assortments, but in values as well.

Absolute reductions and great special purchases are bringing to the people of this vicinity some most extraordinary bargains, demonstrating, in no uncertain way, the supremacy of the Thomas C. Watkins linen store.

All day long to-day the linen section was thronged with eager buyers, and, is judging by the many favorable comments overheard and the extremely brisk selling, the June sale of linens will be the greatest of all the splendid linen sales in Right House history.

Every user of linens will find it good economy to supply all their needs now.
