"For two years, I was a miserable sufferer from Rheumatism and Stomach Trouble. I had frequent Dizzy Spells, and when I took food, felt wretched and sleepy. I suffered from Rheumatism dreadfully, with pains in my back and joints, and my hands swollen. A friend advised 'Fruit-a-lives' and from the outset, they did me good. ### Win The War Convention

Urges National Government And Extension of Parliament

Toronto, Aug. 3.—The convention of Win the War Liberals and Conservatives closed its business sessions here this afternoon and was followed by a mass meeting of women in the arena tonight at which the resolutions adopted by the convention were endorsed.

A large and representative committee, appointed in the closing hour of the convention, left tonight for Ottawa to present the resolution to Sir Robert Borden, whose prospect of a union war government has received a powerful impetus from this impressive gathering of men from all over the province.

The Resolutions  
The convention declared itself for a national non-partizan government in the following resolution:  
"Whereas this convention, deeply deploring as it does the holding of a general election in time of war,  
"Resolved, first, that the Prime Minister should, without delay, form a national non-partizan government representative of all who demand vigorous prosecution of the war and in determining upon its members should disregard previous party affiliation.  
Secondly—Immediately upon the formation of such a national non-partizan government, the leader of such government is to introduce a resolution requesting the extension of the term of Parliament."

Among other resolutions passed was one that in the event of an election, win the war elements in each constituency should unite upon a single candidate pledged to win the war policies and that such candidate should not accept the nomination of any political party nor represent it.

Another resolution recorded a deep seated conviction against the accumulation of wealth out of the exigencies of war and called upon the government to conscript in a large measure exorbitant profits due to the war.

Further resolutions called for three months' leave of absence for the men at the front, an increase in pay, and a guarantee that all soldiers be given a vote in the event of a general election, and that no expense be spared to see that they are given a proper knowledge of the issues involved.

On the motion of Col. Muloy, the convention declared that at this crisis in the affairs of Canada, the following principles ought to be adopted by all true Canadians:  
"That Canada must dedicate all resources of men and means to winning the war.  
"That in order to justify our national existence, to succor our living and to be worthy of the sad, measureless conscription of men and resources must be immediately adopted and enforced to maintain the strength of our forces at the front and to discharge our full duty in the existing emergency.  
"That a national non-partizan Government must be established for the vigorous prosecution of the war.  
"That no activities incident to approaching election be allowed to delay the impartial enforcement of the military service bill of 1917 immediately upon its becoming law.  
"That all elements in the country which place winning the war above all other consideration must be united to the end that they may be made effective to overcome selfishness and indifference, and that the people of Canada may be consecrated anew to their high destiny of service in the war.  
"That action on all controversial questions not affecting the war so far as possible be postponed until after the war.  
"That measures in accord with the above principles are greater than men, and their allegiance to any leader or who has not himself accepted those principles is inconsistent with win the war principles.  
"And this convention therefore de-

### Letter From Walter L. Maltby

Was Bruised in the Chest By a Shell at the Front

Mrs. Margaret Maltby, the wounding of whose son, Sgt. Walter L. Maltby, of the 15th Battery, was recently reported, received a letter from him last Saturday, in which he stated that he had been struck by a shell on July 5th, which tore his shirt and bruised the muscle of his right chest. He did not state whether he was then (four days after the accident) on duty or not.

ASKING FOR EXTENSION ON SALMON FISHING  
The fishermen of the Miramichi are petitioning the Hon. J. D. Hazen, Minister of Marine and Fisheries for an extension of fifteen days in salmon fishing, that is from August 15th to August 30. The fishermen claim that, owing to the lateness of the season resulting in the catch of salmon being much less than in former years, and the cost of fishing material having advanced 100 per cent., many of the fishermen have not cleared their rigging. Therefore they are asking for the extension which would in some degree compensate for the loss they have sustained.

The report in one of our recent issues that the extension had been granted on the North Shore was incorrect. The extension was granted on the St. John waters, but not on the Miramichi.

### Fighting For Happiness

When you get into a frame of mind that makes life seem one tiresome duty after another, with no pleasure in it; when ill-health seems to take all the joy out of life and you worry over things that are really not worth worrying about, when your nervous system is becoming exhausted, and you are on the way to a general breakdown in health. In this condition your health and happiness is worth fighting for and good, rich, red blood is what your system needs. It is a hopeless task to try to restore your health while your blood is deficient either in quantity or quality. And remember that no medicine can be of any use to you that does not build up your weak, watery blood.

To build up the blood and strengthen the nerves there is one remedy that has been a household word for more than a generation—Dr. Williams' Pink Pills for Pale People. It is the actual mission of these pills to make new, rich, red blood, which strengthens the nerves and tones the entire system. They give you a new appetite, make sleep refreshing, put color in the lips and cheeks, and drive away that unnatural tired feeling that oppresses so many people. If you want to experience new health and happiness give Dr. Williams' Pink Pills a fair trial.

You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**POULTRY BREEDERS ATTENTION**  
(Experimental Farms Note.)  
A disease (known as Coccidiosis) affecting the liver and bowels of growing chicks is causing considerable losses. It is quite prevalent and is probably responsible for many deaths at present attributed to White diarrhoea. It is caused by a small egg-shaped germ which inhabits the first portion and blind pouches of the bowels. It produces inflammation of the bowels and liver, the blind pouches showing the most marked alteration. The changes in the latter may vary from a filling up with a reddish granular looking mass of soft consistency to hard cores composed of lining cells, blood, etc. The liver may show changes varying from a fairly normal appearance to large areas of a yellow color which when cut into show a cheese-like centre.

Symptoms:—The chicks appear dull and usually remain in the hovel or under the hen. The feathers become ruffled; wings droop; appetite is lost and occasionally the chicks will give utterance to a shrill cry, particularly when trying to pass material from the bowels. A white discharge is usually present although it may be rather reddish in colour and the vent may become pasted with the material discharge. These are the prominent symptoms in typical cases but chicks may also be badly affected and exhibit no outward appearance of disease until death suddenly takes place. A remedy may be had in dissolving fifteen grains of powdered Catechu in a gallop of drinking water. This should be kept constantly in front of the chicks and should be changed every two days.

Prevention:—Prevention consists in the isolation of all ailing chicks from the remainder of the flock and the thorough disinfection of all the quarters and runs, by the application of a lime-wash solution made by adding two and one-half pounds of stone lime to a pail of water, to which is also added one-half a tea-cupful of a good commercial disinfectant. This should be applied full strength with a spray pump, brush or old broom, to all parts of the quarters, brooder houses, etc. The feeding troughs should be cleaned daily by scalding with boiling water and special care taken to prevent the chicks from getting their feet either in the feeding utensils or drinking fountains as the disease is transmitted from bird to bird in this way. The floor of the brooder houses should be covered with a coating composed of nine parts of sand and one part of air-slaked lime, and if the droppings are not removed daily, they should at least be mixed with a fair amount of air-slaked lime to insure proper disinfection. If the runs are not too large, it is also advisable to cover them with a thin coating of the above mentioned lime and either spade or plough, them up. The chicks should be kept away from all adult fowls and carcasses of dead birds immediately burned as burying only serves to keep the infection going from year to year.

### Dangers Threatening Young People in Towns

(Continued from page 7)

Chicago is almost clean. A number of nights on the streets failed to reveal one case of solicitation, or one open house, although resorts do exist. Many blocks of houses have been closed. A great share of the credit is due the midnight Mission, the Chicago Law and Order League, the Illinois Vigilance Association and the Committee of Fifteen. These organizations under the lead of Messrs. Bell, Farwell, Hallam and Thrasher have accomplished untold good. It's not the "old Chicago" of years gone by!

Battle Creek, a Michigan model

city, does not tolerate vice. It stands for Health and Morality against Disease and Vice.

Detroit is in very bad shape. The press reported it "cleaned up" a year ago. If so, it is "again wallowing in the mire" with about 150 wide open resorts, and with more actual "business" than any other place the writer visited.

After the investigation of Detroit, the writer returned to Toronto to observe conditions at the National exhibition which he found to be exceptionally good.

### HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—“When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I did not need the doctor. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it.”

### DANGERS THREATENING YOUNG PEOPLE IN TOWNS

Warning From Social Service Department And Report From Secretary of C. V. A.

**Twin Partners**  
(By J. H. Hazlewood, Department of Social Service, Toronto.)  
“The harpies carry off lonely soldiers to their rooms, make them drunk, often with vile liquor, and inoculate them, likely as not, with diseases which, thanks to the agitation of well-meaning fools, have had free trade granted among us.”  
Strong language surely, but not too strong! It is Sir Conan Doyle who writes in a recent issue of the London Times, this tremendous indictment of the evil of intemperance and its twin, impurity.  
It has long been known to all social workers that the saloon has been the hot-bed in which social vice found its chief source of life and strength. Whosoever the saloon is there will the brother be also. Destroy the saloon and a long step has been taken towards ridding the world of this awful foe to its physical and social welfare.

Our enemies murder, slaughter, butcher (call it what we may) our men, in what today is spoken of, perhaps all too lightly, as “the game of war.” But awful as these consequences are, they are not to be compared to the disastrous effect upon the future well-being, physical and moral, of the victims of this twin partner of the saloon evil.  
Generations unborn will begin life with the seeds of death sown in their bodies, and the community will “reap the whirlwind” in the impaired vitality, and consequent inefficiency of its members, and in the burden of caring for a people prematurely unfit. “Behold how great a matter a little fire kindleth.”  
From the top down—that is the way alcohol works. It first attacks the most delicate part of man's mental machinery, his moral nature. Consciousness is lulled to sleep, with physical and mental powers still alert, the work of the temptress is made easy. With the deadly drink problem not yet completely solved in our own land, and with conditions in the Motherland as they are, to keep silence will be criminal, to falter will be sin.

#### MORAL CONDITIONS IN 41 NORTH AMERICAN CITIES

(Abridged from a summary made in 1916 by Rev. R. B. St. Clair of Toronto.)  
It has been suggested to the writer who, as secretary and chief inspector of the Canadian Vigilance Association, has just completed a tour of 7,000 miles of Canadian, United States and Mexican territory, that he publish the following concise statement of his observations.  
While investigation was at all times the outstanding feature of the tour, organization work in Canada and co-operative work in the United States were also prominent.  
At Sudbury, the mining capital of Northern Ontario, a bright little city of 10,000 the efficient chief of Police was found to be energetically enforcing the law and preserving order. This was also found to be true as regards Copper Cliff, a busy town claiming 4,000 of cosmopolitan complexion. Sault Ste. Marie, the prosperous lake port of 25,000, with Chief Vincent in charge, assisted by an extraordinarily efficient plainclothes man and an able force of subordinates, was found to be remarkably clean. No street soliciting or ill-fame resorts were discovered.  
On the United States side, the city of Sault Ste. Marie, Michigan had street soliciting, to a limited extent, and a segregated district of eight houses, located at the outskirts of the town. Kanistiquie, Mich, a bright city, located on the west shore of Lake Michigan, appeared to have but little of a disorderly nature.  
St. Paul, Minn., under Chief O'Connor, did not present much evidence of vice. In fact, conditions appeared very creditable to Chief O'Connor. Detective Dawson, and others having the situation in charge in Minneapolis, a nearby city, (the two having a combined population of nearly 1,000,000, and boundaries joined at points), street solicitation was not noticed and unfortunate women gathered mostly at four or five downtown resorts. They were not, however allowed in these cafes, to approach a table where a gentleman was seated, it being a police regulation that the gentleman must approach the lady. In speaking to one of these girls, in an endeavor to ascertain why she had entered a life of shame (and this the writer did whenever a suitable opportunity presented itself) the information was given that her husband had deserted her, and that, as she was unable to support herself in a departmental store without supplementing her wages by illicit trafficking, she decided to “go all the way.” Chief of Detectives Gelvin and Inspector Glasgow, with whom the writer conversed, together with the Mayor, appeared to have the problem intelligently grasped.  
Copperstown and Portal, North Dakota, were both in excellent shape. Estevan and Weyburn City, Sask., had little, if any public vice, but were “alive” with gambling devices.  
Regina, the capital of Saskatchewan, population 35,000, under the conscientious guidance of Chief Eruton and an able corps of subordinates, absolutely refuses to tolerate vice or gambling, at least in a public form. Private vice, it is practically impossible to detect.  
Moose Jaw, 20,000 population, is a different type of a city. For some reason, or other, unfortunate women appear to feel free to “make for Moose Jaw” and inclined to steer clear of Regina. About forty-five of this class were pointed out to the writer in the downtown streets.  
Saskatoon was thoroughly investigated and conditions found to be satisfactory. Edmonton, the furthest point north on the Canadian Pacific, R. R., a beautiful city of 50,000, reflected great credit upon the police administration.  
At Calgary, 90,000 population, were found hundreds of gambling machines and considerable “street-walking.” Macleod, in southern Alberta, was in good shape.  
Natal, British Columbia, had a wide-open house run by a Japanese to which no attention was paid by the authorities. In striking contrast was a restaurant where the Lord's Day Alliance had prevented the sale of ice cream on Sunday.  
Fernie, B. C., a mining city, had the widest open “district” visited by the writer in his entire 7,000 mile trip. Girls called to men 500 and 300 feet distant. One, a madam, told the writer that she had been on a theatrical circuit, and her weekly salary was reduced, upon the outbreak of the war, from \$200 to \$60. She said it was utterly impossible for her, upon the lesser salary to pay travelling expenses and keep up an elaborate wardrobe, without supplementing it by violating the moral code, so she decided to run a sporting house. She now has three in British Columbia, all wide-open.  
Libby, Montana, had two “houses,” but conducted business very quietly and the police allowed no street-walking or soliciting. Troy, Montana, one house. Regulation similar to Libby.  
Bonner's Ferry, Idaho, a pleasant little city, has little vice and only a few gambling devices.  
Spokane, Washington, is decidedly clean. The writer spent a week there and, although he went through the downtown districts repeatedly, saw no evidence of vice or intemperance. The Mayor, the Commissioner of Public Safety, and the Rev. M. Covington, representing the Ministerial Alliance, all appear to be working with energy and intelligence to maintain a clean Spokane.  
Seattle, Washington, does not compare favorably with Spokane. Many of the hotels have a “girl” upon each floor whose duty it is to approach each male guest, in his bed room, and solicit for immoral purposes. There are also a couple of shady dance halls, and a considerable number of houses of ill-fame where girls call from the windows, doorways, etc. This applies to at least one of the hotels.  
Tacoma, Washington, once a “wide open” city is now tightly closed. The morality squad is very active.  
Portland, Oregon, is a very clean city, little street walking or vice being apparent. Supt. McLaren, of the Anti-White Slave Society, gives considerable attention to the situation and with very encouraging results.  
Seattle, Spokane, Tacoma and Portland, are all under Prohibition.

San Francisco, not the “Paris,” but the “Sodom-Paris of America,” is the utmost limit of degenerate lewdness. And the people are content to have it so! With a Fellow of the Royal Geographical Society, a traveller of wide experience, the writer made the round of the vice resorts on the “Barbary Coast” and the “Line.” Never anywhere had either of us seen or heard of vice being flaunted by gesture and word, in so degenerate or perverted a manner. The writer feels an apology is due both Sodom and Paris, or even Hell for linking them up with Frisco. Over 100 vice dens, 35 of which are of the sexual pervert order, with the lowest prices obtaining anywhere are to be found in the main district. Two other districts, viz., the “Upper Tenderloin” (Mason St.) and the Fillmore section, do a thriving business. Mr. Bascon Johnson, Pacific Coast representative of the American Social Hygiene Association, is putting up a hard fight against the “interests” and is making progress. Oakland, Cal., is quite clean, although the Chief advocates, but does not practice, segregation. Berkeley is in excellent order.  
Los Angeles is so different from Frisco. Here, with the Moral Efficiency Committee actively co-operating with the city and county governments, an excellent condition obtains. And Los Angeles was once “wide-open.” Dr. R. C. Barton, the able secretary of the Committee, is an honorary lieutenant of police and a number of police officers, including Detective Craig, work under his direction. This is a co-operation unique in the annals of civic history.  
Venice, Cal., a seaside city is clean, with the exception of certain women who are “on call” at several hotels.  
Yuma, Arizona, is a wide open town. “Everything goes.” One of the girls here told the writer that she had started to work in a factory but that starvation wages had forced her to become an inmate of a resort. There are 11 houses in Yuma.  
El Paso, Texas, 75,000 population, with 40,000 militia stationed nearby, has 117 wide-open resorts, with 10

and to be: Where conditions are good soldiers, by the thousands, many come on the U. S. side they are “bad” on the Mexican, and vice versa.  
Topeka the capital of Kansas, is an ideal city. Gov. Capper and other officials with whom the writer conversed appeared to be anxious to keep it so.  
Kansas City, Missouri, has a good-sized district, which appears to be opening more and more. A couple of instances of street solicitation were also noted. Secretary Spencer of the Society for the suppression of Commercialized vice, is planning an active campaign.  
Davenport, Iowa, is decidedly moral, but this statement does not hold true of Rock Island, Ill, which besides having its quota of dens, (Continued on page 6)

Pretty Wedding at Storetown

Miss Tessie May Storey Becomes Bride of Frank L. Holmes—Doaktown Happenings

Doaktown, Aug. 7—The farmers around this vicinity have been taking advantage of the good weather which we have had for the past week many of them have finished haying. It is reported that there will be an abundant crop throughout the country.

A very popular wedding was celebrated at Storetown on August the first, when Frank L. Holmes of Doaktown, was married to Tessie May Storey, of Storetown. The groom is the son of the late Mr. and Mrs. David Holmes, and the bride the daughter of Mr. and Mrs. James Storey.

The ceremony was performed by the Rev. Arthur J. Patstone at the home of the bride's parents. The bride was prettily attired in white embroidered voile and carried a bouquet of pink and white flowers. She was supported by Miss Rena Storey who was also in white.

The wedding luncheon was served out of doors and well over a hundred guests partook of the generous hospitality of the host and hostess. After luncheon the guests spent an enjoyable afternoon around the homestead. The newly married couple will reside in Doaktown where they have a very snug little home and farm.

The good wishes of the whole community go out to them. The many presents to view on the wedding day was proof of that. Miss Mary McCormick left on Saturday for Barnaby River where she will visit her sister, Mrs. Peter Bohan.

Mrs. Frances Whyte, has returned home after spending a few days in Blackville, the guest of Miss Bertie Berry. Mrs. May Phillips and little son of Fredericton, are guests in town this week.

The Rev. A. J. Patstone and family are visiting friends in Newcastle and Bay du Vin this week. Miss Bertha Ogilvie and niece Miss Isabelle left on Monday morning for Fredericton, where they will spend their vacation. While there they are to be guests of Mr. and Mrs. E. A. Logan.

Miss Mina Parker, of Marysville arrived home last week and will spend a few weeks with her parents Mr. and Mrs. Geo. Parker. Mrs. Arthur Ballard and Mrs. Burns of Blisfield, were visitors to town on Saturday.

A motor party consisting of Miss Hazel Holmes, Misses Annie and Elsie Murray, Miss Lillian Price and Mr. Akerley Holmes as chauffeur, motored to Newcastle and Chatham one day last week. They were accompanied back by Miss Vera Murray of Chatham.

The attendance at the Patriotic Service of Intercession on Aug. 4th was small, owing in some measure to the appearance of a real moving picture show in the village. However the service was held and the resolution passed. In moving it Rev. A. J. Patstone contrasted German and Anglo Saxon ideals, and spoke of the need of more prayer. Mr. T. Parker seconded the resolution in a few telling words, especially eulogizing the sacrifice of the men who have served the Empire even unto their death.

Mr. and Mrs. Everett Betts of Houlton, who motored to town a few days ago, have returned again to their home. They were accompanied by Mrs. Betts' mother, Mrs. Geo. Donald.

Mrs. Roy Mitchell who has spent the past few weeks visiting relatives in Chatham, has returned home. Mrs. McDonald and Mrs. Stewart of Chatham were the week-end guests of Mrs. Roy Mitchell, South Road.

Mrs. Ray Holmes has returned home after a trip to Montreal. Mrs. Howard Holmes, of Carrolls Crossing attended the Holmes-Storey wedding last Wednesday.

Misses Beatrice and Flossie Simms have returned home after spending a pleasant vacation with their mother Mr. Jack Simms of Gibson. Miss Dora Holt and Miss Doris Marr are guests of Mr. and Mrs. Frank Russell this week.

Miss McDougall and Miss McNaughton arrived in town last week and will spend their vacation with their cousins, Misses Annie and Margraet Doak.
