**"Beaver Flour"**

is the finest blend of the two best wheats Canada produces—Manitoba Spring wheat and Ontario Fall wheat. One provides the rich gluten that makes bone and muscle, the other gives lightness and whiteness to the bread and pastry. Beaver Flour makes more loaves to the barrel than any other flour on the market—loaves that are sweet, nutritious and light, and it also makes delicious biscuits, cakes and pies.

Try it, and show your friends the excellence of your baking.

**CHAPTER XIV.**

**AN ANGRY SCHEMER.**

Lynette has written to you concerning Stephen Belcourt's love for her, her love for him, and how they were so cruelly forced apart. She has told you how she was forced into a betrothal with one she does not love, to gratify the pride of her family.

"She has appealed to you in her distress for aid and sympathy, and you—oh! how can I realize it, friend Edgar?—you have turned a deaf ear to the cry of your sister's breaking heart. You have let the world's clamor influence you. You have said to yourself that Lynette's name must not be mixed up with that of a man accused of murder—rather would you hush the beating of her heart by forcing her into marriage with another man—a man whose riches seem to blind you to his moral character.

"I grant you he is considered a grand parti—many girls envy your sister—but I have not forgotten that two years ago, when Graham Prentiss paid me some attention, you warned me against him in a friendly way, saying that he was not exactly the sort of man you would like to see me marry. Do you remember?

"Then surely you would not wish your sister to marry the man you vaguely distrusted always.

"I make no apology for this letter. I love Lynette, and wish to help her out of the entanglement forced on her in her weakness and inability to resist the authority of her family.

"It is your duty to come home. Lynette's wedding must not come off, though the cards are out, and the date but two weeks distant. If you are as noble as I once deemed you, Edgar, and if you ever wish for happiness yourself, nay, if you have one spark of tenderness and pity for your little sister, you will come home and save her from such a fate.

**Be Warned by Headache**

It tells of Serious Derangements of the Liver and Kidneys—Try Dr. Chase's Kidney-Liver Pills.

You can stop a headache with powerful drugs. But it is not generally wise to do so. A headache almost always warns you of derangements of the digestive system, the liver, kidneys or bowels. Awaken the liver to healthful action by the use of Dr. Chase's Kidney-Liver Pills and you not only free yourself of headache, but remove the cause which will soon lead to more dangerous results than headache. Pains are the result of poison in the system and whether you have headache, backache or aching limbs, you can be almost sure of relief and cure by the use of Dr. Chase's Kidney-Liver Pills.

They are wonderfully prompt, as well as definite and thorough in action. You can depend upon them, no matter how long-standing or complicated your case. One pill a dose; 25 cents a box; all druggists or E. J. Mansson, Sales & Co., Toronto.

his love to Lynette, and tell her to keep up heart.

His heart felt very light as he posted his letter, for the thought came to him that perhaps after this sweet Myrtle might give him a little tender encouragement to continue the correspondence.

"What a pleasure that would be!" he thought, and began to count the days, hoping to hear from her again.

The third day brought him another letter from West Virginia; but this was a brief one from his Uncle Jack: "Your aunt thinks I ought to tell you to come home and manage Lynette. She has gone home with Myrtle Dare to stay a few days, and Vida says as their two are driving about the country soliciting votes for Belcourt. The women folks are all crazy, I think, meddling with politics. Come home as soon as you can, or Lynette may turn giddy—she's in love with Belcourt, anyhow—and break off the match with Prentiss. No news, except that old Sally Ann Sims is ill of fever, and about to make a die of it, poor old soul. J. H. LEWIS."

**CHAPTER XV.**

**Myrtle's Resolve.**

Up at Belcourt the family could scarcely credit the news when they heard that Myrtle Dare had brought home Lynette Lewis as a guest.

"It seems like an affront to us, her taking up that girl after her shameful treatment of Stephen," complained Marion Caskie, the stately young widow, and Mrs. Lloyd Llewellyn, the six months' bride, chimed in:

"And the worst of it is she has come to stay with Myrtle just to be convenient to Miss La Mode while fitting her wedding-gowns."

"I have no patience with Myrtle, and I don't think we ought to call while Lynette is there," answered Mrs. Caskie.

"Certainly not," agreed Mrs. Belcourt spiritedly. "Still—"

"Well?" asked her younger daughter curiously.

"Why, my dears, don't you think that Myrtle may perhaps have a motive in being kind to Lynette? Were't she and the brother—that handsome Edgar—sweethearts before he went away?"

"They were great friends, certainly, and often together."

"Then Myrtle cannot afford a rupture with the brother through taking Stephen's part too strongly. She must not entirely estrange her future sister-in-law, although secretly indignant at her flirting propensities. Do you not see how it is, my dear girls?"

"Yes," agreed both.

"So we must not be angry with Myrtle, nor think she means any affront to us, because she has Lynette as a guest. We may simply show our disapproval of the girl by omitting to call," said the high-bred old lady; and her fond daughters rested perfectly content with her decision. They were tender and dutiful, and relied on her judgment.

But at heart they were very sore. They had been so kind to Stephen's beloved, so fond and tender, and admired her so much, that her ingratitude cut deep, more especially for the wound it dealt to Stephen's heart.

Myrtle Dare was a very clever girl. She could guess, without being told, what her friends up at Belcourt were thinking. She chafed under it, but she could make no sign. She could only live in hopes that the truth would come out some day, and they would know Lynette at her true value—not the heartless coquette they deemed her, but a loving, suffering girl, placed in a false position by her guardian's despotic authority.

But she could not violate Lynette's confidence without her consent and the girl, weak from recent illness, and in fear of her relatives' anger, shrank from betrayal of the truth to the world, fearing its censure if it learned that she loved the man who was in prison on the charge of murdering his fair young wife. It was a cruel struggle she was waging between love and pride.

"We must wait till Edgar comes. We cannot make a move without him," she said timidly to her friend.

So the preparations for Lynette's wedding went on from day to day at Blooming Meadows, where the geese,

## The Evening Chit-Chat

By MUTE CAMERON

Do most of us wonder, realize, and utilize anywhere near to its full value, the suggestive power of praise? "I want you to be president," I heard the chairman of a nominating committee say very confidently to the nominee she had chosen; "because I feel that in this crisis we simply must have a strong personality to pull us through." The girl was elected to the office, and since then she has been straining every nerve to fill that rather difficult position in a superior manner. She has exerted herself as I never knew her to do before.

And she has accomplished wonders. Why? Simply because she has been trying to live up to the ideal of her possibilities which the other girl's praise put before her.

We use this sort of suggestion constantly with children. Who hasn't averted a cloud burst, by assuring the baby when he bumped his little head that "you are so glad he is a brave little boy who never cries."

Who hasn't stimulated a youngster to some unwonted activity by feeling sure "that a little boy as bright as he is can lace his own shoes or comb his own hair" or whatever it happens to be that you don't want to do for him just then.

Why then since we realize its value why don't we apply the principle to some of the grown up children with

whom we have to deal? Of course, the suggestion would have to be somewhat less crude; the coating on the pill a little thicker. But not so very much so. Cover it ever so slightly and "twill serve." We are so anxious to swallow anything that looks like the candy of praise, that the medicinal part doesn't have to be concealed very cleverly.

Why should we be suspicious of ulterior motive when someone expresses a good opinion of us. Is not that same good opinion something which we have held all along and rather wondered other people didn't share with us?

I know the girl who was president never the least suspected the deliberate intent of her friend's praise. Incidentally, that friend is a girl who is much wondered at for her cleverness in getting people to do what she wants them to do.

And I have no doubt that the secret of her success is simply that she does realize, and does constantly utilize its full value, the suggestive power of praise.

Of course you know the beautiful lines:—

"Be noble and the nobleness that lies in other men, sleeping but never dead. Shall rise in majesty to meet thine own."

Permit me to offer a slightly altered version to point my moral and adorn my tale:—

"Except nobility and the nobleness that lies in every man, sleeping but never dead. Shall rise in majesty to meet thine hopes."

## Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obtaining and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making material in a condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM--it says better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser, in Plain English; or, Medicine Simplified, 1000 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for \$1.00-cent stamps, to cover cost of mailing only. Cloth-bound, 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

## Household Notes.

Never rub fabrics roughly between the hands when cleaning them. It is sufficient to rub the cleaning fluid on gently with a fresh cloth.

When placing a mirror it is well to bear in mind that strong sunlight or intense heat is fatal to it, as the quicksilver will wrinkle and run.

A cereal pan is much more easily cleaned if cold water is allowed to run into it as soon as the cereal is dissolved. Hot water hardens the mixture.

Covering a pan when fish is frying is apt to make the fish soft. A solid firm meat, which is at the same time flaky, is what a good cook likes.

Ammonia should not be used in the evening or near a fire if the bottle is unopened. It is inflammable and the fumes are not specially healthful.

A glass of milk, to which has been added a raw egg, beaten light, a little sugar and grated nutmeg, will relieve physical exhaustion in hot weather.

In place of grape fruit for the first course at luncheon, serve the pulp of orange, ice cold, in sherbet glasses. Add a little lemon juice and chopped mint.

If a plate of sandwiches is prepared beforehand for a luncheon it is a

good plan to pierce them on a plate and then wrap the plate and all in waxed paper.

A good rule for making sponge cake is to devote exactly the same time to beating the yolks of the eggs as it takes to beat the whites to a perfect stiffness.

Mint may be raised in a rose bowl and thus a supply may always be had on hand for seasoning. The bowl should be kept where there is plenty of sunshine.

Fresh green vegetables will retain their bright color best if cooked uncovered. The steam confined beneath the cover of the kettle deadens any fresh coloring.

It is a mistake to think that ice tea can be cooled by a few lumps in the pitcher. There must be either finely chucked or shaved ice in the glasses to make it palatable.

Soak old flour sacks in borax water over night to remove the printing and then boil for half an hour in soapy water, and they will make excellent washcloths for dishes.

If jellies are becoming candid, cover them with a quarter of an inch of pulverized sugar, underneath the paper, and they will remain in good condition, even for years.

To take out wagon grease, if it is the kind made of animal fat, sponge

with ether; if it is the kind made with coal tar, it may be removed with a cloth dipped in petroleum.

If you must carry hot coals from the fire and fear that they will spill, why not try dumping them into a long handled frying pan? They cannot escape and cannot hurt the pan.

To prevent thread from knotting when doing hand sewing, always make a knot in the end last broken from the spool. This done, stretch the thread by giving it several quick pulls.

If furniture has grown dull and streaked, try rubbing it with a mixture of equal parts of turpentine and coal oil. It polishes quickly and is much less expensive than the prepared polishes.

To remove tarnish from gold braid, first rub it free from all dust and then cover it well with powdered rock alum. After half an hour rub this off with a stiff brush and the tarnish will disappear.

Molasses cake is improved by being baked slowly. Have the oven hot when first putting in the cake, then cool it off so that the cake may be at least 40 minutes in the baking. A longer time will not hurt.

## Blood Flows in Row

Over the Weather at Montreal.

Montreal, Aug. 26.—One man is hovering between life and death, and two others may be fatally injured as the result of a row, which started in an argument over weather conditions, developed into a free fight, and ended by one of the combatants pulling a revolver and sending a fusillade of shots among his opponents. Emile Lisotte, 24 years, was shot in the side, and will die. Octave Lemieux, 24 years, has a bullet in his right leg. Arthur Peachey, a patrolman for a burglar alarm concern, and the man who did the shooting, is badly battered up, and is in the hospital with his two victims, while Xavier Yavivier, who escaped the bullets, had his head cut open in the fight which preceded the revolver fusillade.

Yavivier stepped into a pool of water, and after commenting on the weather, he remarked to Lisotte, who was with him, that it was too bad they had to pay taxes to walk in water. Peachey, who was going in the opposite direction, said it was good enough for them. That started the row; fists were first used, and then Peachey is said to have drawn his baton and struck Yavivier on the head. The baton was wrested from Peachey; he was knocked down, and Yavivier or Lisotte pounded him on the head with his own baton. Just as the police arrived some one lifted Peachey to his feet, and whipping out a revolver he fired three shots. Lisotte dropped to the sidewalk with a bullet in his left side. A second shot struck Arthur Lemieux, a barber, who ran across the street.

## Three Canadian Engineers Drowned.

Toronto, Aug. 31.—A. F. Stewart, of the Canadian Northern headquarters in Toronto, confirms the news of the drowning of district engineer R. H. McCoy and resident engineers Drum and C. H. Nelson in Lake Helen. He states that district engineer Hazan at Port Arthur had been in communication with him. The three men left Exandor Camp on Sunday evening and the finding of the canoe removes all doubt as to their fate. Mr. McCoy came from Spokane.

### Where Are the New Markets?

Where are the new fish markets that were promised to the fishermen by Sir Edward Morris and his candidates some three years ago. The whole world was to be drummed and new markets were to be found that would create such a demand for dry fish that prices were to soar, and were to be kept high, so that the catching, curing and marketing of fish would prove veritable bonanzas to all engaged in these operations. For two and a half years Sir Edward Morris and his party have been in power, and what have they accomplished in this direction? What new markets have been found to which no fish was shipped before the advent of Sir Edward Morris to power? How many quintals of dry fish has been shipped to such new markets during the past two and a half years? In short can the Government name a single new market, or feel as much as one quintal of cod fish being shipped to such a market as a result of any exertion on its part to carry out pre-election promises.

Again, the Government promised to supply fishermen with information weekly as to the prices prevailing in the foreign markets, the fluctuations, the demand for fish, and generally such intelligence as would guide them rationally to make fair and legitimate bargains for the local disposal of their catch. What has been done in this direction? Practically nothing. Nothing has been supplied on which any fisherman could base any rational course of action. Two or three beggarly statements which are absolutely useless is the sum total. What's the use of a Minister of Fisheries acting as a mediator for a number of Labrador fishermen when he is not in possession of full information as to the state of the several foreign markets and conditions generally? Can success be looked for under such circumstances? It would be better for Mr. Piccott to devote his time and energy towards the procuring, furnishing and distributing of such intelligence, than to strike-breaking. With nothing done, it is small wonder that the Fishermen's Advocate should state that:

"Piccott, from whom so much was expected has turned out the worse failure of all ministers of the Fishery Dept. He has absolutely done nothing to forward the interests of the fishermen. He has had a jolly good time of it since March, 1908—But so far as real progress in fishery matters go, or beneficial action to improve the fisherman's condition Piccott's term of office so far has been a complete failure."

### Strike-Breakers!

Intense indignation prevails at the action of Mr. Piccott in assisting Hon. John Crabbie to break the strike on his premises. Whoever heard before of a man in public life, and while occupying the position of a Minister of Fisheries, assisting another man, who was also a Minister of the Crown, to break a strike? Yet we have a case in St. John's, with both of the principals members of a party that has the temerity to misuse the name People's Party by applying it to themselves. A Government mean enough to set up a competition with the out-harbor sellers of splits may properly be called a Split Government. A party of extravagant expenditure, gigantic givings-out, whose members are continually taking trips abroad may well be named a Plieie Party.

But a party which has strike-breakers among its leaders can never earn recognition as a People's Party. Its right name is quite different. It should be called the Scab Party, and the Government which it supports the Scab Government. The attempt at strike-breaking took place on Sunday and Monday, and it faltered because of the fellow feeling of the Bay Roberts men. But one Minister of the Crown on Sunday took over in his automobile, as the letter implies, another Minister of the Crown to help him to get some of the latter's constituents to assist him to break a strike on his premises. In plain words these two men conspired to break this strike. Both are Ministers and both are strike-breakers.

Crosbie is blameworthy because he induced Piccott to aid him; Piccott is blameworthy because he consented and did afford the aid, although he was a Minister of the Crown. We now ask what is the Premier doing about it? Last night we understood there was an Executive meeting. Was this matter discussed there? There is a rumour abroad that it was. But the main questions we ask are: Has Sir Edward Morris called for the resignation of Hon. J. C. Crosbie and Mr. A. Piccott? If not, will he dismiss them? Otherwise he cannot assume his party nor his Government from the odium of being a Scab Party and a Scab Government.

### Invermore's Passengers.

The s.s. Invermore arrived at Port aux Basques at 7.55 a.m. to-day. Her passengers were Mrs. F. A. Crane, W. H. Hibb, J. P. Chetynd, F. C. Pearce, W. L. Wood, F. E. Langham, E. Coleman, Miss T. Arneid, Mrs. Jno. Hann, Miss M. Pitman, J. H. Peables, E. Sherwood, W. E. Spragne, M. Williams, S. S. and Mrs. McMillan, S. McDonald and Miss C. Jones.

### Received His Deserts.

Geo. Hearne, who attacked and brutally kicked a bluejacket of the Brilliant, named Robert Lenton, on Henry Street last night, as referred to in another column, was arrested by the police at 9.30 last night. Had his boot taken the seaman a little lower the kick might have killed the man. In court to-day he said he was drunk and did not know what he was doing, but this was not taken as an excuse and he was fined \$20 or 30 days' hard labor. He paid the fine.

### Schooner Runs Over Boat.

MEN NARROWLY ESCAPE DROWNING.

Shortly after 10 o'clock to-day as a schooner, evidently from the northward, was beating up the harbor after coming in out of the Narrows, she ran over a boat in which were Wm. Rowe and John Ellis, of St. John's, two fishermen who had just come in off the ground, and had their boat filled with fine large codfish. They were under sail and were in "run" water with not a breath of wind, so that their boat hardly had steering way. When the schooner bore down on them the men, seeing a collision inevitable, yelled to those on board to keep her away, but they were unheeded. The schooner ran completely over the boat, capsizing her, and but for the agility of the two men they would have been drowned. When the schooner's jibboom came in over their boat they jumped, caught the head gear and swung themselves on board. All the fish came out of the boat when she turned away, and the sails lying flat on the water kept her from sinking. The men lost all their fishing gear and Ellis had his shoulder hurt. Mr. Geo. Lewis and others with Job's launch uprighted the boat and brought it to Job's wharf where the crane was used to keep it on an even keel while the water was being bailed out. The men will make the captain of the schooner stand to the loss they sustained.

### MARINE NOTES.

The Wasia arrived at midnight to this port coal laden.  
The Kamford arrived at Sydney from Bell Island on Tuesday after a very stormy passage.  
The S.S. Utstein will leave Sydney on the 12th inst. for here and will load fish at the Nfld. Shipping Co.'s premises for Naples and Alicante.  
The Florizel will not get away until late to-morrow evening. She has 27 saloon passengers booked from here and will have over 100 when she leaves on board.  
For this exceedingly good fish story the Cleveland "Plain Dealer" vouches: "A bashful young man invited to a dinner party was paired with the prettiest woman in the room. His seat was in front of the roast fowl, which he was to carve. There was also a fried sole in front of him. He had never done a lick of carving in his life for he was a bachelor. But he made the best of the situation by asking the lady at his side what she would have."  
"A little of the sole," she replied.  
He began to cut off a slice of the chicken's breast.  
"No, no—the sole," she whispered.  
No, no—was the soul of a hen? He thought for a minute and then attacked the wing.  
"The sole, the sole!" cried the lady.  
He looked for the feet, but no soles were left, so he tried a drumstick. But she still shook her head and said, "No, I only want a piece of the sole."  
Then did this young man arise in his wrath, stick a fork through the fowl, and put it all on the woman's plate.  
"Take it!" he shouted, "take it body, soul and all!" Then he helped himself to the fish.

### Assaulted His Wife.

Shortly before 8 o'clock last evening a man residing on Bell Street went down to the police station and informed the officers there that a man on that thoroughfare was ill using his wife in his house. Head Sparrow hastened to the scene, found that the man had assaulted the woman, that part of her clothing had been torn off, and took him into custody at her request. She promised to appear against him to-day.

### Appreciates Work of Rev. J. K. Curtis, B. A.

The Charlottetown P. E. I. Guardian contains a report of the Charlottetown Methodist Financial District Meeting, held recently at Souris, P.E.I., from which we reproduce the following appreciative reference to the work of Rev. J. K. Curtis:

Souris, P.E.I., Aug. 30.—After discussing the work of Rev. Mr. Curtis, of Newfoundland, referred to in yesterday's issue, the Methodist Financial District Meeting in session here yesterday passed the following resolution:

This district meeting has much pleasure in placing on record its appreciation of the helpful and inspiring work of the Rev. J. K. Curtis. Mr. Curtis is distinctly an organizer and has the capacity of making the essential points of Sunday School organization very clear. His services are of an evangelistic nature and many circuits are now feeling the benefit of his visit. The district heartily endorses the work of Mr. Curtis and pledges itself to co-operate with him in every possible way. It was decided that a ministerial association of the district be formed and that they meet some time in November. The matter of program be left to a committee as appointed by the district.

### A Brutal Assault.

Shortly after 9 o'clock last night as Mr. Joseph English, bailiff of the Central District Court, was passing along Henry Street he saw a bluejacket of the Brilliant on the ground and writhing in pain, while bleeding from a wound in the lower part of the abdomen. Seeing the man was in a bad way Mr. English procured a cab and had the tar driven to the lockup where the police did all they could for him. Supt. Grimes procured the services of Dr. Rendell who dressed the wound he had received, and he was then put on board the warship. Three boys who were present came to the station and stated that a man named Hearne, whom they knew, met the navy man on Henry Street, collared with him and when he asked for an explanation they stated that the man dropped to the street. The kicks took effect in the groin, and the man was considerably cut. Hearne will likely be arrested to-day to answer this charge of brutal conduct.

**MAY BE TYPHOID.**—Yesterday a woman residing at 41 Hamilton Avenue, and who it is feared is developing typhoid, was taken to the fever hospital for observation.

### Seen Stealing Potatoes Barn and Contents Destroyed.

Yesterday afternoon a woman named Young, who lives in another part of the city, visited a large garden which she keeps on Pennywell Road and was told by neighbors that a man had repeatedly visited the place and had filled his pockets and a sack with the largest tubers, leaving the smaller ones behind. He stole most of the potatoes in the garden and the police are now on the look-out for him.

### Freights at Montreal.

At present there are large freights offering at Montreal, and for the rest of the season the Black Diamond boats plying here will have all they can attend to. The Bonavista this trip will have a big cargo, she was delayed in sailing and will not arrive till Monday, though according to schedule she should have been here to-night.

**BURDEN CUP.**—The Methodist Guards championship shoot for the Burden cup took place this morning at 7 o'clock and was won by Pte. Clayton Rose. The scores were: Pte. Clayton Rose, 4, 4, 4, 5, 4, 5, 4, 30. Corpl. J. Barrett, 5, 2, 5, 4, 5, 3, 29.

### CHILD FIRES IT WITH MATCHES.

Wednesday, just as the shore train was pulling into the station at Clarke's Beach, a large barn filled with hay and farming utensils took fire and burned for over an hour, until it and its contents were utterly consumed. It was owned by Mrs. Mugford of that place, and when it was seen to be on fire the whole of the locomotive was kept blowing until all the people of the place reached the spot. They could however, do little to save it as the nearest pond was over a quarter of a mile away and no water could be had nearer. The barn was situated quite near a number of houses, and had a strong wind been blowing a serious conflagration must have ensued. The hay and other property in it was valued for several hundreds of dollars, and the loss to Mrs. Mugford is a very serious one. As far as we could learn the fire was caused by the woman's four year old boy playing matches and lighting them in the place.

### Labrador Lumber Here

What is said to be the finest Labrador lumber to arrive in St. John's came here yesterday for the Horwood Lumber Co. in the schooner, Capt. Doyle. This was cut at Grand River and dressed at the Dickie Co's mill, there being 100,000 feet of it in the cargo. Experts who saw the lumber say it is of excellent quality, and is being discharged at Horwood's West End premises. The Olive left here on Arr. 2nd, loaded supplies at N. W. River for Seville Bay, and then proceeded to Grand River for this lumber. She left Thursday week and had a good run to port.

### M. G. B. Parade.

The Methodist Guards will hold their anniversary parade to Governor St. Church on Sunday next at 10:15 a.m. The service will be conducted by the Battalion Chaplain, Rev. F. R. Matthews, R.A. and all the ex-members will be asked to participate in the parade. On Thursday evening next, the 10th inst., the anniversary supper will be held in the College Hall when present and past members of the brigade will participate.

### The Round Trippers.

Some sixty of the round trippers who arrived here by the S. S. Florio will return by the Seville. The women will remain here and men will go up to Montreal by the Seville. By yesterday's train some went up the country for a few days fishing, and will go home next week by one of the expresses. The Seville next week will have a large number of tourists.

### Brilliant-Collegian Football Match.

Yesterday evening the Collegians—this year's league champions, and a team from H. M. S. Brilliant met in a football match on St. George's Field. There was a good gathering of spectators, and the evening was an ideal one for the game. Though the world was somewhat exceptionally good players they could not do anything for our boys who played a rattling game, giving a good exhibition of passing and combining play. The naval men were defeated by a score of 7 goals to 1.

### A New Departure.

We understand that an arrangement has been entered into by which ships which find ball here for Medicaments will be the first to do this being the S. S. Brance which is being loaded by Mr. A. H. Murray. These ships will meet here at intervals of about two weeks, and it will be a great convenience to people here who have friends in that section of the world on vessels to be able to write them and have their letters forwarded expeditiously.

### Coopers' Union Meeting

The quarterly meeting of the journeymen's Coopers' Union was held last night in the British Hall. The reports submitted were of a satisfactory nature, and the combination of officers for the ensuing year proceeded. A meeting will be held next week for the election of the officers.

**NOTE OF THANKS.**—Mr. and Mrs. H. H. and family beg to sincerely thank the many kind friends who sympathized with them in their bereavement and also those who sent wreaths and flowers to adorn the coffin of their dear daughter, Minnie, and the following who sent messages and notes of sympathy:—Capt. N. Snow and members of the C. I. B. Band, Rev. J. and Mrs. Bell, Mrs. J. LeMay, Mr. and Mrs. O'Leary, Mr. and Mrs. T. H. Millett, Mr. A. Ross, Mr. J. Snow, Mr. R. G. MacDonald and members of the C. ### Items of Interest From Montreal.

For some time there have been in circulation stories to the effect that the Conservatives have been furnished by the American Trusts money wherewith to fight reciprocity in Canada. This was denied by the Opposition and a story went out from their headquarters that all the money forwarded by the American trusts was employed by the Liberal Party and that that story is the truth, is known by them. The "Star" has now offered \$25,000 for convincing proof of the source from which this money is obtained. If any has come.

### Wedding Bells.

A very pleasant event took place at Bell Island on Monday forenoon when Miss Aggie Cahill and Mr. John J. Carey were united in the holy bonds of matrimony. The ceremony, which was performed by Father McGrath, took place at the residence of the bride's mother, and the rooms were beautifully decorated for the occasion. Only the intimate friends of the contracting parties were present. The bride, who is a well known and popular young lady on the island, was attired in a wedding costume of white silk, with veil and orange blossoms, and was attended by Miss May Liddy, of Torbay, while the groom, who has been employed by the Nova Scotia Steel and Coal Company at Bell Island for the past ten years, in the office of which he occupies a responsible position, was supported by his brother, Mr. W. J. Carey. After the ceremony a wedding breakfast was served, at which the health of the happy couple was toasted by their friends. The party then returned to the residence of Rev. Fr. McGrath, where they were entertained by music and refreshments. At 2 p.m. they proceeded to the steamer which conveyed the bride and groom to Kelligwas, whence the train was taken for Placentia where the honeymoon will be spent. The presents received were both numerous and costly, and testified to the popularity of the young couple. The Telegram joins with their many friends in wishing Mr. and Mrs. Carey very many years of happiness.

### An Ocean Race.

The schooner Ethel and Empire leave here to-day with cargoes of codfish for Oporto. Both vessels are an interesting race between them across the herring gull. Some of the nautical men are getting up small bets as to the outcome of the race.

A Crushing Defeat.

Special to Evening Telegram. WASHINGTON, To-day. The ex-Shah of Persia met with a crushing defeat in his attempt to reach Teheran, according to information supplied by the Department of State by the Persian Legation. The cables advise that the Government troops encountered rebels on Monday and Tuesday. On the first day, the Government forces united and made a general assault upon the rebels, capturing all the guns, taking prisoner the commander of the rebels, and killing or capturing five hundred men. The defeat of the rebels is complete.

The New Agreement.

Special to Evening Telegram. LONDON, To-day. The Franco-German Agreement, according to the Daily Mail, will take the form of a Convention, signed by the European powers and the United States. It will acknowledge that France has both political and military interests in Morocco and that the dispute regarding the interpretation of the treaty (Algeiras) have been referred to Europe and the States.

Dutch Anxiety.

Special Evening Telegram. AMSTERDAM, To-day. The Dutch reservists are being kept under arms for an extra period of 23 days, and naval manoeuvres are being carried out in the North Sea. These measures are due to the anxiety of Holland over the Moroccan negotiations.

Wanted on a Charge of Bigamy.

We learn from people who arrived from over the Bay by yesterday's train that a warrant was sworn out at Harbor Grace for a man of the North Shore, on a charge of bigamy, and that officers went down the shore yesterday afternoon to effect the man's arrest and convey him to Harbor Grace jail. The story told of the occurrence is that about 9 years ago, shortly after this man married, he left his wife and proceeded to the United States. He never wrote a line to his wife after deserting her and she concluded that he was dead, and married another man after a period of 7 years had expired. The woman now lives with her second husband and has a family, and about a year ago she received a shock when her former husband came back to his native place. She remained with the father of her children with whom she lives happily. Since returning this man became enamoured of another young woman belonging to the North Shore and they determined to marry. The man approached the clergyman of two denominations asking that they perform the marriage ceremony, but they refused having heard all the man's previous marriage and his desertion of his wife. He then, it is alleged, proceeded to Harbor Grace and was married by a clergyman from whom he withheld the knowledge of his previous matrimonial venture. The police went down the shore looking for him yesterday afternoon and hope to arrest him to-day.

McMurdo's Store News

FRIDAY, Sept. 8, 1911. A drink of Partridge Berry Soda has been compared with the mythological nectar—the drink of the Gods of Greece. But there is nothing mythological about it, and it has a sharpness and pliancy to which has never been laid claim. We fancy the latter drink to have been over-sweet and cloying to mortal palates. That is just what Partridge Berry is not. It is delightfully "more-ish." It has in fact, just the characteristic taste of the real thing, and few flavors equal it—certainly none surpass it. In appeal to the palate. But our arguments will be wasted if you do not try it; and unnecessary if you do. Come in and have a glass, anyway. Price, 5c.

Caviar.

Caviar has been found to be an antidote for cholera, according to a report from St. Petersburg, where the Ottoman Bacteriological Institute has been making investigations. The discovery is the result of a protest against the Turkish Government's exclusion of Russian caviar from Turkish territory, for fear of cholera infection. The institute experimented with a pot of caviar which had been infected with cholera bacilli. In four days it was found all the cholera germs in the caviar had been destroyed.

Proved His Mettle.

Last evening a colored sailor of the Brilliant showed himself to be possessed of more than ordinary pluck and also proved himself to be a pugilist of ability. He was set upon near Adelaide Street by four other sailors of the ship, and though he was pretty badly smashed by their blows, he saluted in and put three of them hors de combat. A St. John's chap, seeing so many odds against the colored man, also took a hand in but was arrested by the police, who arrived when the fracas was pretty nearly over. They arrested the wrong man and should have taken the quartette, who acted in such a cowardly manner.

Cricketana.

BRILLIANT VS. CITY. There will be an interesting cricket match to-morrow beginning at 1 p.m. on St. George's Field between a city team and a team from H.M.S. Brilliant. The city eleven will be Messrs. R. F. Goodridge, Captain; A. Hayward, F. H. Donnelly, J. J. Grieve, Bernard Ayrs, Gerald Harvey, W. H. Peters, J. C. Royley, H. W. Dickenson, G. F. Boone and A. Nother.

Had Hand Mangled.

By Wednesday night's train there arrived here Mr. Chas. Cooper, of Spencer Street. He is running a mill at Cape Dog, where he has seen a good deal of lumber. That morning his hand accidentally became caught in some of the machinery and was terribly mangled. The operators stopped the flow of blood by putting a tourniquet on the arm and on arrival here he went to hospital. To-day he was put under an operation, the better part of the mangled hand being taken off.

Uncle Walt THE POET PHILOSOPHER.

Reggie, you're a fine young fellow, but you're bound to have your way, and you'll marry Arabella spite of all that I can say. Though asked from me if I am a daisy, smooth-sail, I never saw, but the neighbors say she's lazy, and she will not help her man. She is stylish, and her eyes are simply grand; but the people say she's sassy, found it is the law that no sane, well-balanced offered, wed a girl who'll sass her man. She may have a thousand graces to adorn her fair young life, but you'll find she'll bust the traces when you get her for a wife. You had better hunt some other damsel in this country wide, for a girl who'll sass her mother will give brass to you as a bride.

"Tim" Shannahan on Wrestling

When wrestlers come from far away to show us "signs" for which we pay, 'twould be a kind of consoling, if when they'd enter in the ring, they'd bring with them the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden. Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a bottle of Dr. Stafford's Prescription. A sure cure for persons afflicted with stomach troubles. It can be obtained at DR. F. STAFFORD & SON, Duckworth St. and Theatre Hill. Small size, 25 cents; postage 5c. extra; large size, 50 cents; postage, 10c. extra. Mail orders must be accompanied by remittance.—aug3

To Have His Leg Amputated

A man named Peter Edwards, of Lawn, is expected to arrive here to-day to go to the General Hospital. He is 60 years of age, and as the result of an accident one of his legs is in a bad state. When he arrives at the institution it will be amputated.

The Olive's Report.  
When the Olive which arrived from Labrador with lumber yesterday, called at Black Tickle and Batteau going north and coming this way, went into Hawke's Harbor, the banker Loch Lomond, Capt. Nurse, of Bay du Nord, had reached there the day before and made a good start fishing. She reports 70 or 80 schooners coming south with her, some of them with fares ranging from 300 to 600 qts. The Pogo, of Pogo, had 600 qts.; Larkspur, of Greenspond, 500; Capt. S. Bages two vessels had 800 qts. each. They had been fishing near King's Bay. As the vessel passed Elliston, T.B., a fleet of boats were doing well with the fish.

### Cable News.

Special Evening Telegram.  
BERLIN, Sept. 7.  
The French Ambassador visited the Foreign Office this afternoon and received the draft of the German counter proposals to the revised proposals submitted by France regarding the Morocco dispute. Officials of the Foreign Office have hopes that the counter-proposals will be the means of promoting a settlement. The Government are keeping the draft secret and have asked France to do the same. The counter proposals, it is believed, do not imply the rejection of any of the French suggestions, but indicate the acceptance of some of them and the modification of others.

Special Evening Telegram.  
BOSTON, Sept. 7.  
The lives of many missionaries are believed to be endangered by rioters at Chenglu, in the opinion of officials of the American Baptist Foreign Missionary Society. To-day a cablegram was received which said, "The American consuls desire us to leave." To-day's message convinced the officials here that the situation had reached an acute stage, and the lives of the missionaries and the mission property are in danger.

Special Evening Telegram.  
PEKIN, Sept. 7.  
Missionaries in the outlying districts of the Szechuen province have been ordered to concentrate in the larger towns in consequence of general unrest among the natives, arising from the Government's railroad policy. All foreigners in Chenglu, the capital of the Szechuen province are taking refuge in the province of the Methodist Church of Canada.

### Here, There and Everywhere

To swim from Liverpool to Boston is the desire of Dr. Denner, who is known as the world's champion long distance swimmer. The day set down to start is Feb. 13, 1912. Two hundred days will be required in which to complete the performance; the swim will be continuous, but not sustained effort; the doctor will be accompanied by a barque manned by 18 men and a physician and a physicist will form part of the equipment. Denner is 38 years old and an Australian. He has lived in the water since he was 8 years old.

Tom Longboat, the great Indian runner, a short time since won a great race in Toronto. The course was twelve miles, and Longboat was opposed by A. Shrubb and W. Woods (a former English champion), while several other runners also took part. Longboat won in 1:02:32-3-5, beating Woods by six inches. The race was witnessed by 7,000 people, and Longboat received a great ovation at the finish.

Capt. C. Williamson, a Scotman, will begin operations on the Virginian Coast to recover treasure, to the value of \$2,000,000. He will use an iron tube plunging three hundred feet below the surface of the water.

A bag of mail lost overboard at Plymouth from a steamer, has been recently picked up at Falmouth, having drifted over 50 miles.

The biggest warship in the world built for the Argentine Republic, was recently launched at Quincy, Mass. It is of 28,000 tons.

Several degrees of frost have been reported from Manitoba and the crops have suffered in consequence.

Great Britain has three million horses over four years old that can carry harness or saddle.

British securities show a shrinkage owing to recent labor troubles, of over \$365,000,000.

The world's gold output last year was \$94,125,635.

### The Bonavista Branch.

There are now about 250 men at work on the Bonavista branch railway and most of these were engaged ballasting the road or loading timber. The work is finished to a point three miles west of Catalina and will be opened for traffic one month hence. The station being erected at Bonavista will be the second largest in the Colony, will be nicely furnished and will be one of the most imposing buildings in Bonavista.

IN AN UGLY FIGHT—Wednesday night there arrived here by the train a young man named Samuel Higden. He came from Clareville and his head and face was swollen in a terrible manner. His condition was caused by decayed teeth, which had cut the jaw, and blood poison, resulting. He is now under the doctor's care.

### Public Notice.

#### CENSUS, 1911.

The following Regulations in connection with the Census are published for general information:—

1. The father of a family, if alive and present, is the proper authority to give information of his family; if the father is dead or absent, then the mother or person in charge shall speak for him;
  - (a) Provided that any child over sixteen years of age objecting to be classed in religion by the parent may be permitted to name his or her religion to the Magistrate;
  - (b) That the wife, boarder or servant, or other person of full age present in a house, may speak for themselves, and can have alterations made by applying to the Court of Revision.
2. No person who has been continuously absent from Newfoundland for eighteen months immediately preceding the time of taking the Census, but this shall not be taken to exclude:—(1) Any child who is absent at school; and (2) Any head of a family who is employed out of the Colony, but whose family continues to reside in the Colony.
3. Every person resident in the colony at the time the Census is being taken shall be included without reference to the length of time during which such person has resided here. In other words, the name of every actual and bona fide resident must be included.

### DICKS & Co

POPULAR BOOKSTORE.

Why should I buy a roofing that needs to be painted every little while to keep it tight, when for the same money or less, I can buy AMATITE which needs no painting?

The outer surface is composed of real mineral matter, which makes painting unnecessary.

With an Amatite Roof on your building you end your roofing troubles. When you buy a roofing that requires frequent painting you begin them.

Smooth roofings that require painting are a nuisance and an expense. When you buy them, you buy trouble—not protection.
