## GERMANS IN FULL POSSESSION OF CESEL ISLAND IN RIGA GULF

**RUSSIAN FORCES ARE CUT OFF FROM COMMUNICATION WITH PETROGRAD; HEAVY BOMBARDMENTS AND RECONNOITERING IN BELGIUM**

The Germans are entirely in possession of the island of Oesel, at the head of the Gulf of Riga, and the Russian forces still there are cut off from communication with Petrograd. Small naval engagements continue in adjacent waters and German aircraft are carrying out reconnaissance over the island.

On the mainland to the south of Riga there has been considerable activity on the part of the Germans, who one point endeavored to throw pontoons across the Dvina river. Russian artillery, however, prevented the landing of the stream.

A report which, if true, probably indicates that the Germans are preparing for a big naval demonstration against the Russians from the Baltic coast from the mouth of the Dvina. It says a large number of German warships were observed Monday and Tuesday, and that the belief prevails that they were reinforcements for the German Baltic fleet.

ONLY BOMBARDMENTS ON OTHER FRONTS

As yet the expected renewal of the great offensive by the British troops in Belgium has not eventuated. Heavy bombardments and reconnoitering operations still prevail.

There have been only bombardments on the southern front in France and the Austro-Italian theater, where, from the Isonzo front to the sea, the Austrians are heavily shelling the Italians. There has been a noticeable return of bombing operations by the British in Belgium and across the line in Germany, and by the Germans against French positions. British aviators have dropped tons of bombs on Bruges and also have lost explosives on a factory in Germany, while the Germans have bombed Nancy and Dunkirk. At the former place killing 19 persons and wounding 40.

German submarines in the North Sea recently were responsible for the sinking of a British merchantman of more than 1,600 tons, six under this tonnage and one fishing vessel.

The Italian parliament has just convened, and probably will discuss in secret session the military situation in Italy. It is expected that the change and political situation in Italy will be discussed in the coming days. In the Turin riots, news of which has been received for the first time, large numbers of persons are said to have been killed, machine guns and bombs dropped from airplanes being used to put down the disorder.

**THE FIRST U.S. CRAFT DAMAGED**

Although American torpedo boat destroyers have covered nearly a million miles since the United States entered the war, crossing the ocean, conveying troops and carrying supplies, only recently has a German submarine succeeded in damaging one of them with a torpedo. The attack occurred somewhere within the war zone last Wednesday, but though the destroyer was badly damaged, she was able to make port. One man, a gunner's mate, was killed, being blown into the sea by the force of the explosion of the torpedo. Five other men were wounded.

**DESTROYED THE BRIDGE**

Petrograd, Oct. 17.—At 10 o'clock this morning the Germans attempted to throw a bridge across the Dvina river, in the Riga region, but the Russian artillery destroyed their plan and destroyed the bridge work.

**GERMANS ARE REINFORCING**

Stockholm, Oct. 17.—The Swedish correspondent in a dispatch says: "What was Monday and Tuesday a great number of German warships were seen, including submarines and destroyers. It is thought here that the Germans are reinforcing their Baltic fleet."

**BRITISH BOMBING RAID**

London, Oct. 17.—The British official communication dealing with aviation, issued tonight, says: "British airplanes carried out a very successful bombing raid this afternoon through German ground, a factory west of Saardeschek, some miles beyond the front line."

**LAURIER REJECTS PROPOSAL FOR A PERMANENT SPEAKER**

Borden's Proposition Has Been Turned Down; Would Uphold Dignity of Office

Ottawa, Oct. 17.—The Journal this evening says: "Sir Wilfrid Laurier has rejected a proposal by Sir Robert Borden that Hon. E. N. Rhodes be made permanent speaker of the house of commons. 'For years past there has been an agitation among parliamentary leaders of both parties for a departure from the present system of electing speakers at the beginning of each session. It had been forcibly pointed out that such a system merely resulted in the choice of a partisan by parties and that therefore the office was brought down to the level of party spoils and its dignity and authority endangered.'"

**GERMAN PLOTS IN CHINA**

Peking, Oct. 17.—German plots to promote internal trouble in China are being disclosed almost daily and the situation is so serious that China undoubtedly will find it necessary to injure many Germans and Austrians. If not all of them, before the end of the year. The allied ministers are extremely uneasy over the situation.

**EMPLOYER MUST ASSIST IN ENFORCING MILITARY SERVICE ACT**

Must Make Inquiry to Find Out How Many of His Employees Are Subject to the Conscriptive Demands

Ottawa, Oct. 17.—The duties of employers under the military service act laid down in regulations that will be issued shortly. After the issue of any proclamation the regulations lay down, it is the duty of every employer to make inquiries as to which, if any, of his employees are among the men called out by the proclamation. After the limit for reporting for service or claiming exemption has expired, in the present case (September 10) every employer must ascertain if any of his employees have any questions put to him by the employer for this purpose. The employer must report which, if any, of his employees have failed to comply with the act. An employer who refuses or neglects to comply with the regulation is liable to a fine of not more than \$100 and not less than \$50 for each employee or to imprisonment for a term not exceeding three months, or to both the one and the other. An employer who knowingly retains in his service a deserter or a man absent without leave is liable to imprisonment for not more than six months or a fine of not less than \$50 and not more than \$500.

**WILL RECEIVE BONUS**

Port Arthur, Ont., Oct. 17.—Employees of the Port Arthur Shipbuilding Company will receive a five per cent bonus each pay check from date, the company making the addition to the bonus voluntarily.

## SUBMARINE LOSSES LIGHT

London, Oct. 17.—Twelve British merchant ships over 1,600 tons were sunk by mine or submarine in the last week, according to the statement of the British admiralty tonight. Six vessels under 1,600 tons and one fishing vessel also were sunk. The official statement reads: 2,934; sailings, 2,994. "British merchantmen over 1,600 tons sunk by mines or submarines, 12. "British merchantmen under 1,600 tons, including two previously, 6. "Fishing vessels, one sunk previously. "British merchantmen unsuccessfully attacked, including two previously, 5."

In the previous week, 14 vessels over 1,600 tons, two under that tonnage and three fishing vessels were sunk.

## ITALY HAS FOOD CRISIS BUT WILL CONTINUE WAR

Turin, Oct. 17.—The Italian parliament has reopened its sessions at Rome under peculiar circumstances, two facts being so prominent as even to make a ministerial crisis possible. Owing to their nature they will probably be discussed only in secret session. One has to do with serious riots which occurred in Turin the latter part of August, due in part to the delay in providing the town with sufficient bread, and in part to political discontent.

Other questions concern the general food crisis throughout Italy, which led to the resignation of the food controller, Giuseppe Quaresima, whose place has been taken by General Alfieri. The Turin riots lasted several days and the authorities were obliged to use machine guns and tear gas. Barricades were destroyed by bomb throwers from airplanes, being the first time air-bombs were used in such a purpose. No official figures have been published as to the number of dead and wounded in the rioting, the number varying from 50 to 500, the latter number being given in the report of the minister of agriculture. The question of supplies is especially grave regarding wheat, coal and wool. Italy produces no coal and must import all she needs. Her wool is insufficient owing to the immense consumption for military clothing. But the most serious of the big crises in Turin is the lack of bread. The government is being called upon by parliament to justify its action in respect to both of these situations. Whatever the result is, the nation is determined to carry on the war to a victorious end and defeat the efforts of the intransigent Socialists who are trying to spread dissatisfaction among the troops and induce them to cease fighting after Oct. 31.

## RIOTS IN TURIN August Riots in Turin on Lack of Bread Supply and Political Discontent Were Very Serious

The new crop in the United States, which is the largest in many years, will come on the market soon, but in the meantime there is a warning to supply the normal requirements of the trade.

**SOUTH WEST COAL STRIKE CONTINUES; MINERS' OFFICIALS ATTENDING LABOR CONGRESS; FUEL CONTROLLER WILL USE POWERS**

Springfield, Ill., Oct. 17.—With one-third of the big mines in this state and several hundred smaller shafts closed, the high tide of the coal miners' strike continues. The strike is now in its eighth week, and the situation is becoming more desperate. The fuel controller has announced that he will use his powers to compel production of coal necessary to meet the needs of the country.

## TRAINMEN AND CONDUCTORS ARE LOYAL TO CAUSE

Send Resolution to Prime Minister Setting Forth Unswerving Loyalty to the War Aims

Ottawa, Oct. 17.—American and Canadian trainmen and conductors gathered together today in a message of loyalty to Sir Robert Borden, prime minister of Canada. The message, drafted by the railway workers, is a stirring appeal for the support of the government and the United States in the common cause for democracy. They set forth the unswerving and continuous loyalty to the war aims of both countries of the over 200,000 organized railway workers. The message, which was signed by the chairman of the eastern association of general committees of the Order of Railway Conductors and the Brotherhood of Railway Trainmen, is a stirring appeal for the support of the government and the United States in the common cause for democracy. They set forth the unswerving and continuous loyalty to the war aims of both countries of the over 200,000 organized railway workers.

It was announced today by the police coast shipyard strike situation by agreement of 26,000 employees of the Seattle and Portland yards to go back to work. ## KING TELLS OF GREAT WORK OF RED CROSS

### IMPORTANT STATEMENT FROM BRITISH KING UPON WORK OF UNITED, EFFORTS IN UNDERTAKINGS OF MERCY

Ottawa, Oct. 17.—His excellency the governor-general desires to communicate the following message from his majesty the king: Buckingham Palace.

During the last 18 months I have had constant opportunity of witnessing afresh, both at home and in Flanders, the great work of mercy carried on by the united efforts of the British Red Cross society and the Order of St. John of Jerusalem in England. In every theater of the war, regardless of distance, discomfort or danger, the task of alleviating pain and suffering and of ministering to those in need is performed with unparalleled devotion by the men and women who have taken service under the Red Cross. The prompt and unstinted provision of medical and general stores and comforts is an all important work, and one of the main responsibilities undertaken by the joint committee. In hospitals and convalescent homes, hospital trains, motor ambulances and launches our sick and wounded as well as those of our allies are, I know, indeed grateful for the aid and co-operation which the joint societies bring to the medical services of the armies; nor have the needs of our prisoners of war been forgotten in the allocation of your funds. I trust, therefore, that there will be no falling off of generous financial support on the part of everyone at home and overseas, without which this work could not be maintained. During the war I have had great satisfaction in sending the joint committee on October 30 a donation of £5,000. This year for the "Our Day" collection on October 15, it is a pleasure to me to contribute £10,000 to mark my appreciation of what has been achieved by the British Red Cross and the Order of St. John of Jerusalem in England in the past, and my deepest sense of the importance of continuing these achievements in the future.

(Signed) GEORGE R.I.

**ELECTIONS BEFORE CHRISTMAS**

Winnipeg, Oct. 17.—The Free Press Ottawa correspondent, in a dispatch tonight says: "Elections will be held before Christmas. That is definite, but only unforeseen circumstances will change the decision. December 17 is the tentative date the writs will be issued, nomination day will fall 28 days before that, and the soldiers overseas will start polling their votes the day after nomination. The polls will keep open overseas for the whole period thereafter until election day."

Washington, Oct. 17.—Good news came today from the Liberty loan campaign. Subscriptions, the treasury officials announced tonight, probably exceeded \$1,200,000,000, and may reach \$1,600,000,000, or half the minimum quota set for the country at the beginning of the campaign.

**IOWA WETS WIN BY 887 VOTES**

Prohibition Interests Will Ask for Recount of State Vote

Des Moines, Iowa, Oct. 17.—Complete unofficial returns from Monday's vote on an amendment to the Iowa constitution providing state-wide prohibition tonight showed the "wets" leading by only 887 votes, and it seemed obvious that an official recount would be necessary. The complete official returns gave the vote as 214,634 against and 213,747 for the amendment. Neither side claimed victory tonight.

**MANY U.S. IMMIGRANTS COMING**

Winnipeg, Oct. 17.—Three and a half times as many immigrants from the United States into western Canada have arrived during the first nine months of this year than during the same period in 1916, according to figures furnished by the department of immigration this morning. The number of such persons for the first nine months of the year 1916 was 5,337; for 1915, 14,023; and for 1917, 23,318.

## SOX FANS WELCOME VICTORS HOME WITH THE BIG MONEY

### The Winners Will Get \$3,666 Each for the Series

#### First Game in H. B. Bowling League Yesterday

Chicago, Oct. 17.—A cheering crowd of 5,000 white Sox roared the La Salle street station late today, to welcome home the world's baseball champions. The crowd broke through police lines when the train arrived at 4 o'clock and accompanied by brass bands swarmed around the conquerors of the Giants.

The appearance of C. Rowland, manager of the Chicago club, was the start of the demonstration. Some of the fans greeted Rowland to their shoulders and carried him into the street. Traffic was blocked for 20 minutes while the crowd sought to shake hands with the players.

With the exception of E. Collins, Mel Volzgang, Urban Faber and John Collins, every member of the club was in the party. Eddie Collins left the party at Albany. Faber returned yesterday, pointing to his home at Cascade, Iowa, for a hunting trip.

Rowland carried with him a check for \$91,738 1/2, the White Sox share of the series money. Twenty-two players will divide the spoils, each receiving \$3,666.

**Giants Get Their Cols**  
 New York, Oct. 17.—The last touches were put on the 1917 world's baseball series here yesterday, when John Bruce, treasurer of the National Commission, handed a check for \$61,222.28, the losers' share of the series, to Captain Charles Herzog and John Robert, of the New York club. Herzog and Robert were delegated by their teammates to receive the money and it was distributed to them by Herzog.

The National Commission decided to comply with the request of the players not to hold out any of their world's series money, after they had pledged themselves not to take part in any exhibition games.

## Will Class One Provide The One Hundred Thousand Men?

### It will be greatly to the advantage of Canada if the entire quota of 100,000 men to be raised under the Military Service Act can be secured from the first class; that is, from the men between the ages of 20 and 34 who were unmarried or widowers without children on July 6th, 1917.

This is almost self-evident for the following reasons: it is admitted that, between the ages of 20 and 34, the average man is at the height of his physical strength and is most adaptable to the change of conditions from civilian life; the military Service of unmarried men and widowers without children would occasion less distress than that of most others, since they are largely without dependents. Also, it would entail less financial burden for Canada, through separation allowances, etc.

Authorities estimate that, after all proper examinations have been allowed, Canada should be able to produce from the first class 100,000 men fit for service, so the drain upon the man power of the country will not be severe.

Members of Class One will be well advised to present themselves for examination immediately to the Medical Board in their district. Upon examination as to their physical fitness, they will be placed in one of the following categories:

- Category A—fit for service in overseas fighting units.
  - Category B—fit for service overseas in Army Medical Corps, Forestry Battalion, etc.
  - Category C—if fit for service in Canada only.
  - Category E—if unfit for military service of any nature.
- If not placed in category A, the applicant will know that he is not liable for immediate service, but will go to the Post Office and send in a claim for exemption with his Medical Certificate attached, when he will receive in due course a certificate of exemption until those in his medical category are summoned for service.
- Where a man, who is placed in category A, feels that exemption should be allowed, an application form can be secured from the postmaster. This form, when filled in, will be forwarded by the postmaster to the registrar of the district, and the applicant will be informed by mail as to the time and place for the consideration of his application by the Exemption Board.
- Issued By  
**The Military Service Council.**

## SOLDIERS AT FRONT GET CANADIAN DAILY NEWSPAPER

### News Bureau in Ottawa Supplies News for Canadian Daily Record

Ottawa, Oct. 17.—Although the large majority of Canadians are unaware of the fact, soldiers of the Dominion overseas, even those in the trenches in France and Belgium, receive a daily newspaper filled with news from Canada. This little publication, which is of such immense value to the boys at the front because it contains news of home, is published in London and goes by the name of "The Canadian Daily Record." It is the latest development of the Canadian militia authorities in Canada and overseas to meet the demand of the Dominion's soldiers for news of their own country.

Ever since December, 1915, the military authorities here have been trying to furnish the boys at the front with news.

Finally, at the beginning of this year, it was decided to publish an independent daily newspaper under the auspices of the Canadian war service office in London, a government department headed by Lord Beaverbrook. The newspaper started with a modest circulation among units in France and Belgium and camps and hospitals in England, and was received with enthusiasm and a demand for more copies.

Owing to the appreciation expressed by officers and men, and at the suggestion of Sir George Perley, Sir Edward Kemp in September decided to extend the news service from Canada, and for this purpose establish a news bureau in Ottawa to supply the material for the Canadian Daily Record.

Capt. W. M. Wallace, M.C., formerly of the Toronto Star, who had been wounded and invalided to Canada, was placed in charge.

## FREIGHT CONGESTION REDUCED

### Petrograd, Oct. 17.—The freight congestion at Vladivostok already has been reduced 25 per cent by more efficient railway operations as a result of the work of the Stevens commission.

John F. Stevens, head of the commission, has returned to Petrograd and expresses satisfaction over the work accomplished in view of the physical difficulties of the undertaking. Three thousand loaded freight cars, some of which had been standing a year in railroad yards, have been distributed. Every day sees a larger tonnage handled and many mechanical improvements for the speeding up of freight handling have been installed or are under way.

## MANY DESERTERS CROSS TO HOLLAND

### Dutch Suspicious That Huns Have Other Purpose Than to Escape

New York, Oct. 17.—The Sun publishes the following special cable from London, dated October 16: "The London Evening Standard says that during August and September 35,000 German deserters crossed the Dutch frontier. At several points the frontier guards of the enemy joined the deserters.

"The dread of having to endure another winter in the trenches and then having to face a new army from the United States is probably the chief reason for the desertions, but the suspicion is beginning to take hold in Holland that these desertions may mean something different and that the Germans are allowing the men to pass the lines for a hidden purpose."

## GERMANS IN FULL POSSESSION OF OESSEL ISLAND

### Repulse Austrians

Rome, Oct. 17.—The war office communication issued today says: "South of Mori our advanced posts repulsed enemy patrols and took prisoners. From the region of Monte Nero to the sea the enemy's artillery was very active yesterday, but everywhere was effectively countered by our batteries.

"On the northern slopes of Monte St. Gabriele enemy parties were dispersed by our rifle fire. North of Selo our patrol broke into enemy trenches and threw its occupants into confusion.

"Numerous enemy airplanes attempted to fly over our territory. Hindered by our anti-aircraft fire and repulsed by our chasing squadrons, they had to return to their lines. Only a few of them succeeded in reaching their objective and dropped bombs. There were casualties and no damage resulted."

## CONDITIONS ARE BETTER

### Petrograd, Oct. 17.—Regarding the situation in and around the Gulf of Riga, the semi-official newspaper today issued the following summary of conditions there as coming from a competent naval authority:

"While our fleet in the zone of operations is being pressed by the German four times its strength our army finds itself in a more favorable position, the strength of the German troops landed being insignificant. Tagga bay, the only place where reinforcements can be disembarked, is exposed to the northerly gales which have been blowing for two days. The transport of our reinforcements to the island of Oesel does not depend upon weather.

"This explains the persistent efforts of German destroyers to penetrate as far as Moon sound, thereby threatening our communication, and the enemy's desper-

A GOOD PROMOTION

Hon. A. J. McLean has been transferred from the important portfolio of provincial secretary to the still more important portfolio of public works, perhaps the most important in many respects of all the posts in the cabinet.

As head of the department of the provincial secretary, Mr. McLean has shown his worth to the country, though he is not a success at advertising his own achievements.

Mr. McLean does not recognize the patronage system in his department. He selects the ablest men and gives them full liberty to vote as they please.

The new union government is running along as smoothly as can be without a bump or a ripple.

The only regrettable thing about the appointment of George P. Smith to the cabinet is that it puts an end to the Smith-Leedy duel, which has already become one of the features of modern life in this province.

The Gary system of education is under fire in New York. It is one of the innovations in education which may have been ideal for a city like Gary, with a foreign-born population.

Dr. Lafferty, one of the most prominent men in the province, a student of this city well on to half a century, a public man of experience and influence, has acted wisely in facing the Calgary situation and has announced a convention of all parties and all citizens for the purpose of a win-the-war organization.

Many men have recognized the wisdom of some such action, but no one had the courage to make the start. The cause is right, the time is opportune and Dr. Lafferty is the right man to make the move.

Dr. Lafferty took a strong stand at the Winnipeg Liberal convention, seconding the Turriff resolution, adding to the win-the-war resolution the words "by conscription if necessary" and supporting it in one of the strongest speeches at the convention.

George P. Smith is not the first newspaper man to be in an Alberta cabinet. W. A. Buchanan, of the Lethbridge Herald, was in the old Balfour cabinet for a few minutes, but he did not tarry long. He soon learned that particular cabinet was no place for him.

In some of these cabinet shake-ups the premier will do well to place his eagle eye upon the humble village of Cochrane and summon from there Charles Wellington Fisher, who from his immemorial has been speaker of the house. A man who has been speaker of the legislature for 14 sessions and has listened to something like 100 miles of oratory per session should receive some consideration from any premier.

GET TOGETHER

The preliminary, unofficial negotiations between certain members of the retail merchants and retail clerks regarding the early closing bylaw were not very satisfactory and the two delegations were unable to get together at all.

The early closing bylaw must be voted upon by the electors at the coming municipal election, whether or not and nothing can prevent it. The early closing bylaw is objectionable in some respects, however it may be viewed.

The suggestion of the clerks was that a bylaw should be passed and all parties agree upon amendments to the act, which might be presented at the next session of the legislature.

The main thing is for the two parties to arrive at a satisfactory agreement. That should have been done before the matter was placed before the legislature. It can easily be done now, if each party is anxious for an agreement and is willing to make some sacrifices.

The touch of winter that we have experienced shows us that the one-man car has not been fully tested yet. It looks as though it would not stand up under the severe winter weather.

The submarine report for the week is once more favorable with losses much less than the average for the last eight months.

The Calgary night classes which were opened up in a billiard on Tuesday night were very well attended.

If any person has any remarks to make about the Alberta weather, now would be a very good time to make them. But this is the very kind of weather that the country has been calling for.

Eighty per cent of the men who are affected by the compulsory draft are claiming exemption, which is another proof that any further effort at voluntary enlistment would not have got us very far.

The Russian bear is giving the world an example of what kind of a fighting animal he is, when he gets a good straight chance at the foe.

Across the line a prominent public man has been sentenced to one year imprisonment because he advised certain people to defy or resist the draft.

The young man who asked for exemption because he was going to be married should remember that Mars is at bat at the present moment and that though Cupid may keep active, that he should preserve his arrows for the munition factories.

A win-the-war convention will clear the political atmosphere and probably arrive at a definite union of our party and after that we may be able to eliminate party politics and give our undivided attention for a while to the victory loan and paying the city taxes.

Ald. Marshall's argument that as the Borden government has not placed a labor man in the cabinet that therefore the city should elect Ald. Talon to the house of commons, is not exactly consistent, but the conclusion that he arrives at is not to be scoffed at.

If the merchants and the clerks could get together and arrange a satisfactory settlement about the half holiday and early closing. We shall never have a half holiday happy and satisfactory to all unless there is some sort of unanimity in the celebration.

Petrograd, Oct. 17.—The general arrested for participation in the Korniloff uprising on their departure from Birdtchev, province of Kiev, on October 10; were compelled to walk three miles to the railroad station, while they were jeered, pelted with missiles and threatened by a mob of several thousand persons.

SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism depends on an acid which flows in the blood, affecting the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive process and remains there because the liver, kidneys and skin are too torpid to carry it off.

24,980 Classified as Fit for Duty Overseas; All of First Half Volunteer for Examination

Ottawa, Oct. 17.—Twenty-five thousand men approximately, have already passed category "A" before the medical tribunals established under the military service act.

With the exception of those of Saturday last, when the first proclamation under the act was issued, these medical examinations were entirely voluntary.

There has been some questioning why postmasters require that forms of report or claims for exemption shall not be taken away from the post office. It is pointed out here that the regulation is necessary for the keeping of an accurate check on all forms issued.

It is manifest, the Canadian Press, Ltd., is also informed, that it would have been impossible to entrust to the 15,000 and more postmasters throughout the Dominion uncontrolled authority to issue receipts without an accounting.

The system of reporting for service or claiming exemption in writing was devised to prevent the extraordinary inconvenience and dislocation of business that would result if the members of the class selected were obliged to report in person.

That Hemorrhoids, or Piles, Can Be Completely Cured, Read This Letter. They Are Sworn Statements.

Toronto, Ont., Oct. 17.—Next to personal experience the strongest evidence obtainable, if you have any doubt that Dr. Chase's Ointment will positively and completely cure piles, these letters should convince you.

Mr. Donald M. Campbell, Campbell's Mountain, N.S., writes: "I have used Dr. Chase's Ointment with great success for hemorrhoids for the last fifteen years standing. After trying all kinds of so-called pile cures, three boxes of Dr. Chase's Ointment gave me a complete cure. I have also used Dr. Chase's Kidney-Liver Pills, and there are no others so good. You may use this letter, if you wish, for the benefit of others who may suffer as I did."

"For the Red Cross"

Ye that have gentle hearts and fair To succour men in need, There is no voice could ask in vain With such a cause to plead— The cause of those that in your care Who know the debt to honour due, Confide the wounds they proudly bear, The wounds they took for you.

Out of the shock of shattering spears, Of screaming shell and shard, Snatched from the smoke that blinds and sears They come with bodies scarred, And count the hours that idly toll Restless until their hurts be healed— And they may fare, made strong and whole, To face another field.

And yonder where the battle waves Broke yesterday o'erhead, Where now the swift and shallow graves Cover the Empire's dead: Think how your sisters play their part To serve as in a holy shrine, Tender of hand and brave of heart, Under the Red Cross sign.

Ah, by that symbol, worshipped still, Of life blood sacrificed, That lonely Cross on Calvary's Hill, Red with the blood of Christ; By that free gift to none denied Let pity serve you like a sword, And Love go out to open wide The gate of life restored.

Sir Owen Seaman in "Punch"

The British Red Cross once more makes an earnest but confident appeal for our help. That is why today, October 18th, has been set aside as "Our Day" for giving. Canada's trust is, that out of their abundance every man and woman will give generously to aid the work of the British Red Cross.

Give Generously Today

Need of sacrifice. "While many parties may not be in favor of some member in the union government we must sacrifice our likes and dislikes and accept the government as it is constituted. We are committed to carry out one imperative need, the reinforcement of our men at the front with the least possible delay, and it is our duty to support it."

"My suggestion is that the people should come together, not a few men of one party or another, who, while they may have the confidence of their party have not the confidence of the people and do not represent the people, and discuss the situation. It is a vital question for the whole people to deal with, and I would advise that two candidates be selected whose convictions on the question of conscription of men, wealth and resources are well known and will pledge themselves to advocate and support these convictions in parliament; that one of them be a Conservative and one a Liberal, and that they be elected by acclamation. This is no time for party or sectional strife. It is unfortunate that a general election is necessary, but 'at the city of Calgary lead the way and have no election as far as the representatives are concerned, with the hope that many conscriptionists may follow our lead."

Cinch Special Prize

If you have made good progress during the time the special \$50 prize has been on back up your work by making a finish worth while.

There is a likelihood of many candidates running very close for the \$50 special. The logical reason for this conclusion is that there are so many candidates who are devoting about equal time to contest work and who seem to have about the same ability to gather subscriptions.

Another point worth considering is that you will get more extra votes for each dollar in subscriptions turned in on or before next Tuesday night than you will get after that time.

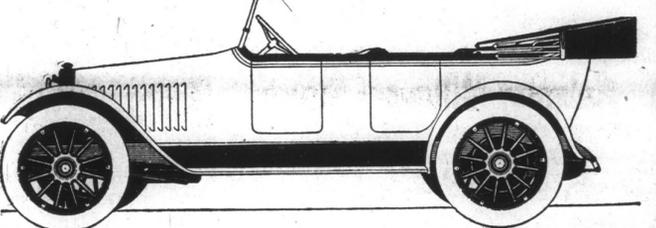

Candidates! While you are working the last week of the \$50 Special Prize. Offer and the last week to get 100,000 Extra Club Votes.

The contest period is almost half over. It always takes very hard work to get a good start at the beginning. It seems to be a habit with many people to try and discourage candidates. They are told all kinds of wild stories, mostly a long way from the truth.

Owing to an error, Mr. Ward's vote was given as 227,190, when in fact it should have been 244,190 in the standing of the candidates yesterday.

Monthly Meeting of General Hospital Board Advocates Saving; Milk Supply from Pallesen

At the monthly meeting of the General Hospital Board last night, the superintendent, Dr. Fisher, gave an interesting account of his visit to the American Hospital Association meeting in Cleveland, and other American hospitals which he visited while in the United States.

Financial Report As the board has already been advised, the Laycock Dairy Co., with whom we had a contract for supply of milk, has become insolvent and they had asked the Carlyle Dairy Co. to supply their customers.

We have been paying 22 cents a gallon to Laycock and the best quotation Carlyle could make would be 35 cents per gallon in bottles or bulk, while Pallesen gives a price of 24 1/2 cents per gallon in bulk, 35 cents in quart bottles.

The question of raising the fees from \$1.50 to \$2.00 per day for soldiers being cared for at the Mountview hospital, was discussed, and the committee would recommend that this be done in view of the increased cost of bread, milk, butter and eggs—the staple foods at the institution, which must be used in large quantities.

Ald. Marshall Advocates Placing Win-the-War and Labor Candidates in Calgary Ridings

Ald. R. C. Marshall, who has just returned from attending the territorial convention of the Y.M.C.A. at Vancouver, has a suggestion to offer to the politicians of Calgary which he believes might help to partly overcome the omission of a strong labor man from the union cabinet.

The committee is of the opinion that the board should buy from Pallesen and Dr. Fisher will see that the milk is carefully pasteurized.

SNOW STORM STOPPED UP BRANCHES OF CIVIC CAR LINE

Greatest Trouble Occurred On the Ogdén Line When Workmen Lost 11-2 Hour's Time

The street car service was badly affected by the storm which struck the city on Wednesday and Thursday. The service was interrupted on Capital Hill, Killarney, Tuxedo Park, Ogdén and several other lines.

The most important difficulty was experienced on the Ogdén line, because of its affected position in the morning. The passengers held up on the other lines could walk to their destination, but not so on the Ogdén line. The regular car operated by one of the oldest motormen on the line was derailed early in the morning. The conductor was an old employee also. This held up the special workmen's cars and caused them to lose 1 1/2 hours.

Failure of One-man Cars Another difficulty in the storm has emphasized, is that when one man cars are crowded the front window is covered quickly with moisture from the breath of the passengers. This makes it exceedingly difficult for the motorman to see the road in front of him. Before the cars were altered from two men to one man cars as are now used on the Ogdén line, the front window was forced to stand in the front vestibule with the motorman-conductor.

SUPERINTENDENT'S REPORT ON NUMBER OF NEW PATIENTS

21 Admitted to Isolation Hospital During the Month

Dr. Fisher, superintendent of the Calgary General hospital, at the meeting of the hospital board last night reported that at present there are 10 patients suffering from typhoid fever in the general hospital; 21 patients were admitted during the month. Eight were diphtheria and seven diphtheria carriers. Two chicken pox cases were admitted, one of which turned out to be small pox and was transferred to the smallpox hospital.

BIJOU "THE SOCIAL LEPER" Of all the remarkable situations ever shown in motion pictures some of the most remarkable are seen in "The Social Leper," the new world picture Brady-made, which comes to the Bijou for three days, commencing today, with Carlyle Blackwell and June Elvidge in the principal roles and with Arthur Ashley and Evelyn Grealey in the cast. These situations show the great lengths gone to by a desperate woman who seeks to enslave a man with whom she has become infatuated. She almost succeeds and then a man she has turned down, turns on her and kills her for his sweetheart. Needless to say the drama is enthralling and interesting from start to finish.

"THE BATTLE OF ARRAS" That the reports emanating from Germany to the effect that the morale of the German troops is better than it ever has been and that the men are as one in their hatred for the allies and their desire to fight, are myths, is proven in "The Retreat of the Germans at the Battle of Arras," the British government's official war motion picture, shown in their theatres and instalment at the Orpheum next week. Several scenes in this episode show Germans in their trenches surrendering to the victorious British. They look terribly scared until they realize their conquerors are smiling benevolently at them, then they break into smiles of joy at the prospect of quitting fighting and leaving the trenches forever.

That is the advice given by Maybelle Darrell in the team of Tower and Darrell, to be seen at the Orpheum next week. She tried out the method and found that it pays. Strange to say, her husband, Billy Tower, does not mind the walloping a bit, although he admits that it would take more than passing imagination to interpret them as love taps. Some of the blows he receives would knock an ordinary man cold, he says, but he got used to punishment of the fistic kind early in his career when he had quite a reputation as a boxer.

ALBERTA'S CROP WILL AVERAGE 16 BUSHELS ACRE Red Deer District Has Not Completed Threshing; Several Districts Have Big Yield With considerable threshing done through the country, the early estimates of wheat averages will have to be revised considerably. But from reports received by various firms from their agents throughout the province it would appear that 16 bushels of wheat to the acre would be a fair estimate. Crops have been heaviest in the Delroy and Standard districts and at Fort Saskatchewan and Berrland. They have been good east of Edmonton and on the Aldersyde and Maceled lines. But some crops on the Goose Lake line did not thresh out more than two bushels to the acre. On the C.P.R. line east of Lacombe the average was about nine bushels to the acre. The Red Deer district is the last to get through with the harvest. No satisfactory estimates can be made from that district as yet. SPECIAL MEETING There will be a special meeting of the Trades and Labor Council at the Labor Temple tonight for the purpose of considering the report of the committee appointed on the questions sent by Ald. Arnold to the city council re finances. This meeting will be open to all trade unionists.
