The Michaelmas term for lawyers commenced to sit also on that day, in the present old Parliament buildings, and I was practising law in Hamilton. I came to Toronto on that Monday in a steamboat, arriving at night with some other lawyers of among them Myles O'Reilly, now dead, all of us unaware of any rising or intention to rise, but to attend, as we thought, to a term of two weeks' business. To save Time and money is always an important matter—and the people are gradually finding this out merespect to the real estate business as well as any other. When people want to sell or purchase a homestead the easiest and best way to do it is to go to a reliable agent. In all large metropolitan cities the respectable land agent fills a useful place in facilitating the sale or purchase of landed property for his clients—and this is what we endeavor to do.

AUCTION SALES. The entire Oakdale Herd of Registered Holstein Cattle. Although considerable sales have been made lately the herd now numbers 55 head, including bulls, imported cows, heifers and calves. This is undoubtedly the finest lot of Holstein cattle in the Dominion. We have no pen and ink records for our cows, but we invite farmers and others wanting to buy Holstein cattle to go to the farm, spend a day there and test and weigh for themselves the milk produced. The herdsmen will gladly afford them every facility for so doing.

The bulls in use up to this season were the great prize winning animals Presto and Adanac. Presto was the only bull ever brought to Canada that was a first prize winner at the great Alkmar Fair in the Netherlands and was a great prize winner in Canada. Adanac, whether judged by Canadian judges or an American expert, always took first. He was never beaten and was so perfect as a show bull that Mr. Stevens, the expert, said he would score a full hundred points. This is a dispersion sale and all animals not disposed of by first of March will be sold by anction, as the farm will be sold or rented by first of April next. Catalogs will be issued in a few days, for which address John Leys, 18 Court-street, Toronto.

This herd at the large exhibitions of %7 '88 and This herd at the large exhibition of \$\cdot \choose \text{and silver}\$

89 won more diplomas, more gold and silver medals and more money prizes than was ever won by any herd of any breed of cattle at same number of exhibitions in the Dominion. At the Industrial in 1889, when F. O. Stevens of Attica, an American export, was judge, this herd literal.

natistral in loss, when F. C. Stevens of Attica, an American expert, was judge, this herd literally swept the show ring, taking first for aged bull; sweepstakes for best bull of any age; first for yearing bull; first, second and third for cows and first herd prize for bull and four females.

This was enough glory and the herd was not exhibited in 1890 and 1891. THE BEST TEETH INSERTED ON RUBBER or celluloid for \$8 and \$10, including extracting and vitalized air free. C. H. Riggs tracting and Yonge. Telaphone 147s.

Kennett, Hopkins & Co. to R. Cochran: The wheat market had no help from cables, which were generally easier, though Berlin and Parls showed some strength, but pit conditions favored a railly. Broom traders pounded the market most of the session. When they found it didn't yield to the attacks there was liberal covering at close which advanced prices one cent from bottom. The exhibition of firmness here ought to have a good effect on foreign markets and bring better cables in the morning. We think a somewhat further raily is probable, but do not expect the strength to last long. Export engagements continue small. HUDOR

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually tuit up until strong enough to resist every tendency to disease. Hunareds of subtle maiadies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
