## Pithy Philatelic Points. Sayıngs and articles of noted writers carefully condensed. <br> By Reginald Kinnersley.

The forgeries, being turned out today, are far more dangerous and ten times more likely to deceive, than those of the ' 60 's and ' 70 's. We must not believe that we are out.growing the forger. The forgers have brought their art to a high state of perfection. No one can doubt that there are more high-class forgeries at present than ever. No doubt there is more counterfeiting of surcharges, grills, fraudulent postal cancellations on revenue stamps, fraudulent perforations, etc., than ever befole.-.John 1. Kirke.

It is probable that when all the County Clerlis in the U. S. have found all the revenue stamps and put them on the market these "boomed" stamps, with prices greatly inflated, will drop to their real value.- (jeorges Carion.

I sold these Columbians, unused, for less than face value, because they represent the total proceeds of a Harlem widow's fortune, which had been invested in them. The se.00 unused has been selling in quantities, for from $\$ 1.50$ to $\$ 1.80$ apiece, when the corner broke. The poor woman was in despair, having overs $100,0 \%$ invested. As a last resort we applied to the Postmister-(fieneral offering to sell the stamps or exchange them for others used at present. We received a very brief reply stating that "neither this depit. nor its postmasters, will redeem or exchange postage stamps."-Albrecht Loewit.

There are now being published many articles that should never have been allowed in a philatelic periodical, but pub.
lishers are compelled to accept them as the demand for philatelic Mss far exceeds the supply.-S. E. Simpson.

It is not the lack of manuscript. but the Lualty, which necessitates publishers tilling their pages with worthless articles.W. W. Jewett.

I do not deprecate the practice of reviewing publications and critizing writers to : certain extent. It is the extent and character of the criticisms to which I object. Here is "la juste millien."-W. L. Moise.

Another set of terms is added to the collectors descriptive vocabulary. The expression "N. W. corner" is used instead of "upper left hand corner," etc. The geographical terms save much space and should be adopted by all.-Ed. H Wilkinson.

A surcharged issue was adopted in British North Borneo to save delay and expense of preparing new dies. We are not Philatelists, and the objection raised against the stamps, which arises apparently from a collectors' point of view, is not one that we feel called upon to consider. Benj. T. Kindersley, Sec'y B. N. B, Co.

A person who knows anything worth while ubout Philately and Philoloyy, should be able to find many connections, very interesting, between the two.-A. E. Layman.

It is a weak plea to ask U. S. specialists to collect Cauada stamps hecause it may be annexed. The U. S. may be annexed to Canada. Canadians do not want annexation and the U. S. is large enough now to be comfortable. - W. Wethee.

This paper on trial 3 months for 2 cents.

Owing to at rhange in the money latis of . Faf:in, the wemement of that country has dombled the rate of postace to foreign patits and the cost is now 10 aten per hall ounce instead of $\overline{5}$ an before. A post card reached me the other day, its denomination was $\because$ nen and this was augmented by one of the pink two sen stampis of the Imperial Wedding issue being affixed to it.

The new issue of Camada stamps is not meeting with the approval it was fombly hoped it would re:eive. The objections to them are of importance and are chiefly due to the color. The difference between some of the varicties appearing to be but slight, whell viewed ia a hasty manner. In making, most of them dark the authorities did not count on the ease with which dishonest premons could obliterate the post marks by simply rubbing the stain into the color.

Then again there is the absence of namerals to denote the value, which has already heen cited as causing confusion when reaching foreign offices. These and other facts may induce our Post Master-(ieneral to change the present issue for a new one. His success in gaining revenue out of the Juhilee issue maty still also be fresh in his memory and form a further incentive to change.

## Hamilton Notes.

The Hamilton StampClub is progressing favorably, and the membership roll is swelling. A large and commodious club room has been rented in the center of the city. This will tend to make the club more popular. Preliminary arrangements are being
mate for D. P.A. convention. The executivewill shortly present a list of convenient diate to the trusteres of the D. P. A.

One of our friends at the Klondike writes home to the effect that all letters sent from Canada and U. S. to Dawson City are charged with an additional sl per ounce postage before they are delivered.

The new letter cards have arrived and we have seen some of the pust cards printed in red

Chas S. Applegrath.

## Stamps in Canada.

Stamp collecting in Canada is growing very fast. And why shouldn't it? This country has some of the prettiest and rarest stamps in the world. Canadian old insues are sought for ly collectors and dealers the world over. The stamp journals of Canada are as eagerly read as some of the bect in the Cuited States. Canada is destined to to take a great part in the philatelic world and collectors are becriming to realize it and to take a joy in pushing ahead all that may lead to that end. At the end of another year, if we keep on at the rate we have been travelling in the past year, we shall be nearly on a level with the states (taking into consideration the difference in population) as regards stamp collecting, parers published, and the trade in general May it be so!

## Encourage the Boys.

Most Philatelists would like to help along, in some way their grand old hobby (or if they don't they ought to.) There are numerous ways of doing this as youall know, but no better way exists than to encourage and help the boys. In fact the future of philately depends on it.

Very few collectors would spend so much of their spare money in the rater varieties if they thought they would be unable to sell their collections for at least as much as they paid for it or, perhaps, even more. Aithough they expect stamps to advance in price, they do not help as much as they should to bring about this result

There may be a few men start collections but the great majority of the beginners are boys. They may not possess very large collections, yet the mania for collecting is started and, like fire, the more it is fed the larger it becomes; so the more encouragement the boy gets the more enthusiastic and ardent he becomes, and perhaps in a few years he may get together a collection worth many hundred dollars. Certainly there are exceptions, but just as certain is the fact that the more attention that is paid him from older collectors, the more attention and study he will naturally give to stamp collecting.

Lou are not supposed to buy rare stamps to give away, or spend all wour spare time praisiug up stamp eollecting, but the thing is to have a chat with beginners now and then to keep them interested. Show them your collection explaining a few things such as watermarks, different kinds of paper etc. Tell them how and where you got some of your favorites, also the value of stamps now and a few ye.rrs ago.

Who can tell how far the results of a few small acts may go. It may be the means of adding a number of new recruits who may in time become the great men of Philately. F. H. M.

## A New Method.

In the Febrary number of the "Virginnia Philatelist" appears an illustiation of the type-set form of letter cancellation used by Perry Mason \& Co, of the "Youth's Companion," Boston, Mass., to cancel the 2c stamps which were to prepay $t^{\text {ha }}$ ir annual calender. This form of cancellation was also used on the present iesue le stamps, as I have a specimen so cancelled which franked the "Youth's Companion announcement for ' 98 ." From this it appears that Mr. Kern's latter reason for them so doing -which was that it was done to accomodate the post office-was the correct one, as it would in no way injure the "announcements" to be post-marked by a hand stamp. It is indeed a unique cancellation, and I would add, 'a modern improvement'

## 4280 Words.

Mr. Paul Madliger, while in Brantford, wrote a post card to his cousin, Mr. Paul Pequegnat, of Berlin, which contained 4,280 words written in the French language, all legrible to the naked eye. This card was written without the aid of a magnifying glass. It would require seven pages of tho Advocate to reproduce it in print. Mr. Madliger has returned to town and says he intends to make his next attempt 6,000 .

If any of our readers can equal this Mr. Pequegnat would like to hear from them.

Parties sending articles for publication had better not use a post card.

## Our

New Dress.

During the jui.t month we have added consi lerable material to our otfice, for the purpose of giving our readers a journal which can be truthfully called "A representative journal of Canada." We are sure that our readers appreciate the improved appearance of this journal both in its typography and the quality of its reading matter.

Our aim has always been to give useful and interesting articles, and up-to-date news, to our patrons. Although we have not always presented as representative a monthly as we wished, we are now giving the philatelic public a fine Canadian journal, and one that can be relied upon to appear on or before the 1. th of each month. We are constantly adding new type to our plant; the body type of this issue is from Miller \& Richard, Toronto, Ont., who are sole agents in Canada, for the renowned, hard finish Scotch type.

## Of late years, philatelists

> Summer observed that during the Season. summer months "snrys" can be most always picked up from some of the dealers. The reason of this is that dealers try to keep up the average sales per day ol week, that they have in the winter. Those philatelists who do not purchase many stamps in the winter but wait for the summer season are becoming more num rous. This will no doubt lead to a revj 1 of trade in the summer months, an dealers will soon be doing as profitatue a business in summer as they now do in winter.

We have just received another large supply of 8c Jubilee stamps to be given with a years subscription at 25 c . Don't wait there was only a limited number issued.
"F. D. S." in the Boston Stamp Book as regards the Gmaha stamps, says, "The 'Omah mposition lssue' is what we should call the new-comers, or, better perhaps, if one may be allowed a deadlypunwhy not call them the 'J-Gury-Types.'"

Books are out from one to four weeks. As soon as a book is retired a statement is mude, commission deducted and stamps not disposed of are returned to the owner. SENI) YOUR APPLICATION TG THE SECRETARY. J. O. WATERS, 407 Fatherland St. Nashville, Tenn.

## D. O. MINION on D. P. A. Affairs.

As all members are aware, the atfairs of our Asociation have noq been running any two smoothly since last election, but 1 am am pleased to say that matters are at last brighteming.
The first trouble was occasioned ly the inability of the Auction Manager and the pullishers of the official organ to come to an agreement as to the reports of the auction sales. The publishers demanded ic for each lot advertised-this being what the former official organ received. Mr. Widdicombe contended that the report should be published free of all charre. This trouble has been settled by the likerality of the Starnaman Bros., who now agree to give one column free; they to receive $\overline{\mathrm{c}}$ a lot for all over that space.

Many complaints have been heard from various parties about our Secretary not answering communications on Association matters. Mr. Graham should certainly answer all communications which are consistent with his office and I hope he will be more particular in future.

In my opinion a statement of the financial standing of the association, should be made monthly so that the members may know just where we are at.

The election for convention seat has caused much disatisfaction among many members, Gf about 200 members only 31 took advantage of the opportunity of voting and of these live members a majority of three declared themselves in favor of Hamilton. Every member received due notice of the mail vote and those who did not vote did Not do theik dity. The majority rules, sothe Eastern members should make the best, of $i t$.

## The Brattleboro Stamp.

By H. I. S. Tokin.

"Not to know it mrgues yourself unknow:." lts history has been so thoroughly and frequently treated by able writers that I hesitate to continue for fear my remarks may prove but feeble repetitions of their ideas.

However it maybe of interest to some, to learn that the second postage stamp issued to the United States, was engraved by Thomas Chabbuck at Brattleboro, over fifty years ago. Mr. Chabbuck wats in Brattleboro from 1845 to 1848, and had an ottice directly over the post otlice, by which he became intimate with F. N. Pulmer the jnistmaster. At that time it. cost five (ents $t_{0}$ ) send a letter, and prepayment was optional. l'ostmaster's salaries, more over, were graded, as they are now to some cxtent, by the amount taken in at the office and the postmaster at New York, thinking that people would be more apt to prepay their postage if they could do so by means of stamps, had some struck off at his own expense. One of these rached the Brattleboro post office, and commended itself to Mr. Palmer's judgemen, and he determined to increase the revenue of his office if powible, by the same means.

Accordingly he employed Mr. Chabbuck to prepare a copper plate for him, containing ten stamps, and had sol sheets printed or $\mathbf{i N 0 0}$ stam!s in all. It is thought however that only one-tenth of these were used. They were printed in black upon buff paper, and were about the size of those now in use. The design was very simple: an octagonal shaj $\kappa$, differing from the border in the direction of the tinted lines. The center contains the initials of
the postmaster, "F. N. P." in fac-simile of his own hondwriting; above it, was "Bhattl ibuho," below "FiveCents," and on the sides, "P. O." Before the jow sheets were used, the (iovermment began to isisue prostage stampsand the destruction was ordered, both of the stamps on hand and the dies. Hence has happened the extreme rarity of the stamps, which has led some to doult their existence.

Mr. Chabbuck had a single sheet of the stamps in his book of sumples of his work for a number of years, but finally sold them about 20 years ago, to a gentleman who grave him a dollar a piece for them leaving the engraver chuckling over his bargrain. Meeting with the gentleman afterwards, Mr. Chabbuck learned that he had disposed of the stamps for $\$ 1 \bar{i}$ a piece "but the man I sold them to," said he, "got $\$ 30$ each for them." This gentleman wrote an account of the stamps which was published without Mr. Chabbuck's knowledge. In consequence of this being published, Mr. Chabbuck has received many letters inquiring about the stamps, and offering as high as $\$ 300$ for one of the stamps; another offered to give $\$ 500$ for the original plates, if obtainable. The plate, however has been destroyel, and the stamps are never seen except in the album of some Philatelist who has been fortunate enough to secure a copy of this rare stimp).

The adoption of an international stamp, would make a radical change in philately. Either it woulii be the means of greatly prospering our fair groddess, or else it would be the means of trailing philatelia's banner in che dust.-I. E. Patterson.

This paper on trial 3 months for a two cent stamp.
