The Right Reverend Dr. Scadding, Bishop of Oregon, U.S.A., will preach in the Cathedral at 11 a.m. "The Cathedral, as a common centre of worship, will make the pulses of our Spiritus life beat more strongly. It will fill with fresh enthusiasm the hearts of our Church people. It will call out latent gifts and will bring the whole Diocese within the reach of those great Prophets whom God raises up in every age to unfold His will, and to apply the great principles and teaching of His word to the peculiar needs, distresses, temptations and problems of their own day. Our Cathedral will be the centre of Spiritual life. It will quicken as well as unify." Kindly send your subscription to the Building Fund to Rev. Canon Morley, 27 Howland avenue.

MISS McNEILL DIED at Fergus Hospital—Well Known Short Story Writer.

The death occurred at Fergus Hospital yesterday afternoon of Mrs. R. B. Neill, a complaint operator. She had been an invalid for years, not having walked for the past ten years. Although suffering from rheumatism, she bore it all with Christian patience and fortitude. She was of a literary turn of mind, and for years has written a short-story writer, contributing to The Globe and Sun, and other school publications. Mrs. D. Sharpe of Brantford is her cousin. The remains will be taken to Leamington at 10 o'clock in the family car.

## SHOWED FLOUR ON IRISH LEADER

### Suffragette Also Gave Redmond and His Wife a Beating.

## HAPPENED ON TRAIN

### Woman Was Forcibly Ejected and Turned Over to Police.

NEWCASTLE, Eng., Nov. 14.—(Can. Press.)—John Redmond, the Irish leader, and his wife, were attacked by a suffragette today while on board a train at Durham. The suffragette entered the compartment where Mr. and Mrs. Redmond were seated, and, after declaring that the Irish leader had not done enough for the women of Ireland, struck him on the head and Mrs. Redmond on the back. She then scattered the contents of a bag of flour over Mr. and Mrs. Redmond. A train attendant forcibly ejected the woman from the train and handed her over to the police. Mr. Redmond in a speech delivered in the town hall here this evening said that there was no demand, however extravagant or unreasonable that might be put forth on behalf of the Ulster Unionists which the Nationalists would not be ready to consider, so long as it was consistent with the principle of national self-government for Ireland. If the opponents to home rule remained obstinate and would accept no reasonable settlement, Mr. Redmond besought the country not to slam the doors in the face of Ireland "because of the year of famine or the bludgeons of bullets."

## MYSTERY SURROUNDING MAN KILLED AT THOROLD

### Steel Saw Found in Pocket is Regarded With Suspicion by Police.

(Special to The Toronto World.)  
ST. CATHARINES, Nov. 14.—Quite a mystery is surrounding the man killed on the Niagara and St. Catharines Railway at Thorold Wednesday night, whose name has been given as John Teagley of Berlin. The police of that city can find no trace of any relatives or any person who ever heard of him. The man was apparently about 44 years of age. To a tent mate who engaged a cowboy in Mexico, the man had talked as if he had not a living relative, but had visited various parts of the world, having been a cowboy in Mexico when 18 years of age. The finding of a small steel saw in his pocket, along with entries in a memorandum book regarding the safety of doors in the neighborhood, is regarded with suspicion by the police of Merriton and Thorold, where robberies have been frequent of late.

## SALVADOR BANK FAILED.

LA BIBERTAD, Salvador, Nov. 14.—(Can. Press.)—The Banco Nacional today suspended payments. It is not connected with the government in any way. The remaining banks have satisfied the government regarding their stability and are absolved from the obligations to change their notes to silver during the next six months. The economic situation of the country is excellent. The coffee crop will be heavy. No disturbances have taken place.

## ANXIOUS TIMES FOR PARENTS

### CHILDREN OFTEN SEEM PINING AWAY AND ORDINARY MEDICINE DOES NOT HELP THEM.

The health of children between the ages of twelve and eighteen years, particularly in the case of girls, is a source of serious worry to nearly every mother. The growth and development takes so much of their strength that in many cases they actually seem to be going into a decline. The appetite is feeble, brightness gives way to depression; there are often serious headaches, fits of dizziness or occasional fainting, and a complaint of weariness at the slightest exertion. Ordinary medicines will not bring relief. The blood has become thin and watery and the child must have something that will bring the blood back to its normal condition. At this stage no other medicine can equal Dr. Williams' Pink Pills. Their whole mission is to make new blood, which reaches every part of the body, bringing back health, strength and energy. Mrs. James Harris, Port Rowan, Ont., says: "At the age of thirteen my daughter began to look very pale, and seemed listless and always tired. She did not take interest in her school work or in those amusements of girlhood. In fact she just seemed to drag herself about, complaining of always being tired; did not eat well, and did not sleep well at night. I took her to our doctor, who said she was anemic, and advised me to give her Dr. Williams' Pink Pills. She took the Pills for nearly two months, when she was as well and lively as any girl could be. Gained nicely in weight, and has since enjoyed perfect health. I am quite sure that what the Pills did for my daughter they will do for other pale, weak girls. I have also used Dr. Williams' Pink Pills myself with the best results, and can only speak of them in terms of greatest praise. Sold by all medicine dealers or by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont."

## DISORDERS ARE DUE TO TIGHT CORSETS

### Tightly Drawn Belts Also Have Serious Results, Say Surgeons.

## CHICAGO, Nov. 14.—(Can. Press.)

Tight corsets on women and tight belts for men are constant causes of serious ailments of the stomach, according to surgeons who saw Dr. Herbert Patterson of London perform an operation to provide a new outlet for a stomach to replace a badly abused pylorus which had become inactive. The operation was on a woman, and the inertness of the pylorus and the intractability of the stomach were, chiefly due to tight corsets. Dr. Patterson cut the intestine a few inches below the pylorus and made a hole in the side of the stomach nearest the intestine, producing a new pylorus. College boys who wear belts tightly strapped around the abdomen take equal chances of stomach disorders, according to the physicians. Dr. John B. Murphy of Chicago, was chosen president of the clinical congress of surgeons of North America at the annual election, London, England, which will begin on July 26. Dr. George E. Armstrong of Montreal, was elected vice-president. Other officers were re-elected. The invitation for the American surgeons to hold their annual clinic in London was presented by Sir Rickman Godlee, president of the Royal College of Surgeons, and Sir Arbuthnot Lane and Dr. Herbert Patterson.

### Prominent Anti-Suffragists of Boston Put Forward an Appeal.

BOSTON, Nov. 14.—(Can. Press.)—Suppression of the sale in Boston of an English publication, the organ of the militant suffragists, was asked of Police Commissioner Moore today by Miss Eleanor W. Allen, Mrs. Chase H. Fiske, Jr., and Mrs. Ezra Thayer, prominent anti-suffragists. Their petition was taken under consideration by the commissioner. They had previously conferred with Mayor Fitzgerald and Corporation Counsel Joseph G. Corbett, who directed them to police headquarters.

## CARNIVAL OF NATIONS.

Who are "The Serenaders?" It has been asked on all sides. Well, "The Serenaders" are twenty of the cleverest of our singers who have been specially prepared by Stanley Adams to give 20 to 30 minutes from their extensive repertoire at each performance during the week at the armories, at "The Carnival of Nations." Miss Marion Jorle Knox and Stanley Adams will be heard in comedy duets; Miss Marion Frohlock, the young lady with the voice that is heard in duets with Stanley Adams, also sings the solo in the Rendezvous which will be danced by Miss Eleanor Mackenzie and Stanley Adams. A modern magician is Walter J. Blackburn, and a good one at that, and those who miss him next week at the armories at the Carnival of Nations will miss a treat that they may not have an opportunity of witnessing for some time again. Mr. Blackburn is not distinctly in class by himself in his work and his "Few Minutes of Mystery" will be a great attraction in the strong bill offered during the week.

## KILLED DANCING TEACHER.

CHICAGO, Nov. 14.—(Can. Press.)—Henry Spencer, confessed slayer of Mrs. Mildred Allison Rexroat, a dancing teacher, was tonight found guilty of murder by a jury at Wheaton, a suburb.

The Saturday Story.

(Continued From Last Saturday)  
Presently out came Daisy, calling, calling, and calling. Peter, Peter Gollwoog, come here! Peter—oh, I'm so afraid he's lost!"

She ran in and down the garden path, and at last she spied Peter on the post. She ran to him and called him. Peter looked away and pretended not to see her. She coaxed him and lifted up her arms to him, but Peter didn't stir. Poor Daisy almost cried. Finally Peter looked down at her, a long cross look. And Daisy understood.

"Peter," she said, "I'll never let anybody but you eat out of the pink saucer if you'll only come down and come home. And I love you better than all the puppies in the world! And Ching-aling is not nice at all, and I don't care for him. You are my only pet, and always will be."

Then Peter Gollwoog, slowly and with dignity, backed down off the post and walked up the garden path to the house, ahead of Daisy, only switching his tail twice on the way. And Daisy filled the pink saucer with cream, and Peter ate his breakfast; and when Ching-aling ran up and tried to put his clumsy puppy nose in the cream, Peter gave him one little slip (just to teach him manners). Daisy ran and brought her little red rocking-chair and sat right down in it close beside Peter Gollwoog, and watched him lap up every drop of all that breakfast cream until the pink saucer during the middle of the pink saucer. Then Peter Gollwoog began to purr, and Daisy began to smile, and Ching-aling lived didn't seem to mind, and they all lived happily ever after.

With hands ever ready  
To do what is right.

**THE GARDEN**  
CONDUCTED BY  
*RACHELE R. TODD, M.D.*  
Wool Ashes and Soot As Earth Purifiers.

There are several conditions peculiar to garden soil, that may be very materially benefited by the simple addition of ordinary wood ashes, from your kitchen stove. Coal ashes, from your hearth, are not so good, because of the difference between the composition of wood ashes and coal ashes—a difference that makes for health or death. When wood ashes is added to certain soils, such an improvement takes place in the whole character of it that it is capable of supporting plant life where before such was entirely impossible. Everyone knows how lightly fertile is the whole appearance of wood ashes. Non-porous is the condition of sour black soil—that soil that only too often lies along the north stretches of high walls and fences, a doughy, tough, unhealthy soil, incapable of producing anything else than disease, and impure gases. So many correspondents have complained to me, since this department was commenced, that owing to their next door neighbor's brick wall, or close board fence, which not only keeps out all air and sun, but also allows of constant dripping from overhanging walls, that the soil of their small patch of back-yard is absolutely unlike anything else on earth, than putty.

How to remedy this condition! For alas, it is only too true that hundreds of our small householders would quickly cultivate a small garden, were the immediate surroundings absolutely prohibitive of any successful attempt. Now, here mentioned above is one easy remedy, ready to hand. Wood ashes, when so many burn coal for cooking and other kitchen purposes? That is the question that assails us on every side. Well, then—burn wood! If wood ashes is desired that is the only way out of the difficulty. Now, how to use it, in changing the condition of this sour earth. Dig out layer after layer of the poor earth where the flower bed is to be. When a trench at least two feet deep is obtained, it is not necessary to lift out any more, but the bottom of the trench should be well spaded so that a proper opening-up of the soil is provided for immediate drainage. This being finished, it is wise to leave the trench open to the air (and sun if sun can reach the spot), while the dug-out earth is left standing where the sun can sweeten it. Turn this soil over with a pitchfork which is better than a spade, breaking it up into small particles. A week is not any too long to allow of the healthy action of sun and air, on this heap of poor earth. When you are ready to proceed, first sift into the trench a three-inch layer of dry, sweet, well-sifted wood ashes. No vermin, no noxious gases, nor any other deleterious substances can penetrate that three-inch layer. But the moisture from above will have not the least difficulty in going thru. Then, throw back the original earth, mixing occasional spadeful of ashes with it, in the proportion of about one spadeful of ashes to every three of earth. A frequent forking up of the whole bed, thru the warm spells of winter will work further wonders. This being worked out this season and thruout the winter, next spring will find the bed ready and eager for seeds and plants.

The total Indian population of the Dominion of Canada on March 31 last was 104,956. In addition there were 4600 Eskimos, making a native population of 109,556.

## THE GHOST BREAKER

### Continued From Yesterday.

Again came the faint answer. Jarvis blew out his lantern and dashed thru the same door which had closed on Jarvis. Jarvis shouted, "Jarvis is here!" while the ancient hall was lit only by the ruddy glow of the now waning fire and the cold rays of the moon. Then the outline of the door leading to postern gate appeared in yellow. The door opened and two men with lanterns entered. One was Maximo, the old veteran of Weyler's days in Cuba. The other spoke over his shoulder. "The rest of you stay in the passage until I call."

He wore a colonel's uniform and carried a carbine as did Maximo. His face bore the traces of the Hapsburg features, but they were softened and refined. He was the ample of the Hapsburg blood at its best. Just as the painting of Charles V., near which he stood, typified its worst. He was slight of frame, youthful in appearance, and in his excitement he moved and talked boyishly. "Maximo listened at the door thru which Jarvis and Rusty had gone, and nodded that they were gone. "Well done, Maximo," said the other. "I thought that you were the one of here. He gazed at the chimney and the gold on the floor, then he commanded: "Ask her highness to come quickly!"

Maximo on his way to the door, paused and faced about. In some hesitation, he said: "Your highness will pardon me for saying I still believe you are mistaken in this American. He's brave, so brave that—" "Brave," snapped the other, "yes, he must be, of course, he's brave. The game is too big for a coward. Bring Her Highness."

"Alone!" queried the old soldier. "Yes, leave the men in the passage and watch the room door. The princess echoed Maximo's sentiments. "O, Basilio," she said, "there must be some mistake." "Does that look like a mistake?" he said, pointing to the hole in the chimney. "O," groaned the princess, half audibly, "just as it said, behind the chimney breast, they found it."

"Yes," answered he of the Hapsburg countenance, "yes, he knew where to look and he lost no time. "But, brother," answered the princess, "it was her brother, the princess Basilio, whose disappearance had so dreadfully worried an hour and a half after Jarvis' violent and sudden departure, induced Maximo to accompany them to the castle. The prince with a dozen soldiers, reconnoitering about the castle near Jarvis' room, and Yarrow on their way up the mountain road to the castle. Stealthily they watched two carriages, one of which was the princess' carriage, and Yarrow on two more figures rode up to the castle. Basilio pounced on them and to the utter amazement and joy of both, found it was his sister. Explaining to the princess' story Basilio grew furious, what he called the impudence and villainy of the American. So it was that the brother and sister were still arguing when they surveyed the violated chimney.

"But, brother, how do you know? Carlos saw the locket too." "Do you know that Carlos went to Madrid last evening?" asked Basilio. "No, I don't," she replied, "Carlos thinks he didn't." "Oh," sniffed the prince, "this is a most amusing story. You may believe in him even now—still Carlos may be mixed up in it too. They may be working together, they'd be a queer pair."

From the princess: "No, they hate each other." "Pah, that's all in the game." "Then why did he kill Robledo?" "I hadn't thought of that," admitted the prince, somewhat at a loss. "Well," he continued, "we'll soon find out which one is behind that infernal conspiracy, this ghost mystery that has made fools of us all for so long. Stand behind that door and see for yourself."

The princess' reply was hushed by the sound of Jarvis' distant cry. "O-o-o-oh, Rusty!" she exclaimed. The three listened and it sounded again nearer. The two men hurriedly secured the princess into the passage and followed her, partly closing the door. Rapidly the voice grew nearer. The armory door was thrown open and Jarvis' pistol, held in his hand and unlighted lantern in the other, flashed around the hall in which the slanting moonbeams were slowly overcoming the dying fire. He shouted to Rusty once more, listened, then descended, lighted his lantern and climbed into the mantle, where he was peering into the hole when a voice behind him called:

"Hold up your hands, senor." Jarvis, seeing two rifle barrels aimed at his breast obeyed. He gazed from one to the other. Who Basilio was, he wondered somewhat, but he was more puzzled that the friendly Maximo explanation. The princess he did not notice until she spoke:

Nine Wore Lifebelts of "James Carruthers" and One of "Argus."

KINCARDINE, Nov. 14.—Ten more bodies were found this morning near Amberley, ten miles below this place. Nine wore life belts from the "Carruthers" and

the other one marked "Steamer Argus." The bodies were found by a farmer, James Blue. Four were at Point Clark lighthouse and three along the beach between the lighthouse and the county boundary between Huron and Bruce. Three more were found a mile or so still farther south. The "Argus" body was that of a man about five feet eight or nine inches, weight 175 pounds, smooth shaven, sandy complexion, tattooed on both arms. On left arm is a picture of a man and woman and two hearts joined. Over this are the words, "You and Me." A diary found in the pocket has the address Tom Nelson, 114 Trinity place, Buffalo, N.Y. Also the same name with address, 18 Lafayette street, Chicago, and, under the word Minia.

Choice of Two Big Games Today

Baseball New Players for Toronto

Hockey

St. Michaels, Elect Officers

CHANCES FAVOR VISITING TEAMS

McGill and Ottawa Favorites Over Varsity and Argos at Stadium and Rosedale.

It is an unusual situation in Toronto today with two big-class Rugby games as rival attractions on the program...

McGill may make themselves college champions again and an Argonaut victory over Combines will give the Big Four title to Tigers of Hamilton.

The unique situation is that the visiting teams are favorites, and the players have made it plain that they will not avoid the necessity of playing off Ottawa a week later, likely at Rosedale, for interprovincial honors.

Coach Shaughnessy is the big man from McGill today. The faculty, the management, the students and the players have made it plain that they will not avoid the necessity of playing off Ottawa a week later, likely at Rosedale, for interprovincial honors.

The night before the battle the four teams were reported near to top form. Every one of the student regulars on both sides will be in fine trim, and the Argos have Burkart and Ross Binkley, and the Combines are without Ryan and Stronach.

"It will be a very hard fight," said the McGill coach, "but we hope to win out. The men are in fairly good condition, and have been practicing hard all week. We realize that Varsity will put up a hard battle, but we are determined to do our utmost to clinch the pennant on Saturday. I have not yet fully decided what the exact line-up will be, as I have a very strong feeling for each position, and some are capable of holding down different places."

The game today at Rosedale is necessary, because of the tie game played between these two teams on Oct. 18.

Hamilton Herald: The picking in today's important rugby games is hard, and is divided as to the outcome of both the Argos-Ottawa and Varsity-McGill games. Locally an Argos and Varsity victory is expected, but Varsity is favored because two Hamilton boys are members of the Blue and White, and because if they win the intercollegiate honors they will play off for the Dominion title.

Montreal Mail: Several new players have been tried this week by McGill. The one to which most importance is attached is as follows: All the wings line up on the right of the scrimmage in order to draw the opposing wings to that side, and then an end run is worked to the weak side, the idea being that the team which follow the McGill wings when they shift over, it is expected that Varsity will play their wings back three yards, and the second team adopted the style of defense, so as to give the seniors plenty of practice in case this formation is tried.

Supporters of the McGill team were not lacking around Toronto yesterday. Odds were given at two to one, and at seven to three. One McGill man with \$1200 to spare was taken up by a Varsity man in short order, with odds at two to one. There is not, however, a great deal of money being placed on the game.

The intermediate boys' Union rugby team plays its final game with Central Neighborhood House today. Every member who can should be out to see the game. Phone the office, College 601, and find out where it is.

There will be a meeting of the Balm Beach Rugby Club in Room 23, at 24 Victoria street, on Monday evening, Nov. 11, at 8 o'clock. The following members are requested to be on hand, as matters of great importance will be discussed. Messrs. D. J. Lauder, Dr. J. A. Carvill, R. L. Moran, Jas. J. Dolan, J. Chisholm, W. Commins, Stas. Ruffo, Ed. McEwen, Walter Reid, R. C. Ross, Bert Abbott, Allan Kieley, F. H. Wood, Roy Switzer, W. J. Nelson, E. C. Berkinshaw, Harold Lorimer, Geo. Edmonds, F. J. O'Callaghan and T. E. Mulheed.

The Combines will arrive this morning, putting up at the Prince George.

BASEBALL PLAYERS BOUGHT AND CHASED

President McCaffery Returns From Columbus—Likes New Schedule.

James J. McCaffery, president of the Toronto Baseball Club and owner of the Hamilton club, returned last night from the meeting at Columbus, Ohio, where he rounded up a lot of good men, let several others go and has issues, Trout and Jones still for sale.

The president thinks well of the new schedule arrangement with the American Association. The International Association will wind up some time between August 2 and 15, the same as the American Association, and the two leagues will then form a 14 club circuit, playing a double schedule for the AA championship, winding up about October.

First Baseman Borton, secured from New York, and will not report to the Toronto club, and the president says it is for Borton to worry. Tim Jordan, who has been sold to go west. Toronto's last purchase, Third Baseman McMahon, from Boston, will be sent to Hamilton.

Other deals are as follows: Catcher Kelly, secured from Pittsburgh for \$3500, and Shortstop Fisher from Brooklyn.

The purchase of Outfielders Leo Callahan and Benny Meyer from Brooklyn. First Baseman Tim Jordan has been sold to the Western League.

Second Baseman Ambrose McConnell from Boston will be sent to Hamilton. Catcher Peaches Graham sold to the Venice Club of the California League.

Thus the team will line up with Borton at first base, Fitzpatrick at second, Fisher at shortstop, Eick at third and W. Bradley as utility infielder, and Kroy, Callahan, O'Hara and Meyer in the outfield. The three catchers will be Kelly, Borton, and Fisher, and the pitchers will be Brown, Herbert, Maxwell, Graham, Schwab and others.

Arrangements for the spring training trip of the Leafs have been completed. The team reports at St. Louis March 14, arriving at Miami Springs, Fla., ready for work March 16. They will spend two weeks in the training camp, playing practice games that in Houston and Beaumont, New York Giants will be in camp with Toronto for a week, playing practice games with them. Toronto will be alone the second week. The Leafs start north April 1, with the following schedule: April 1, Waco; April 2 and 3, Dallas or Fort Worth; April 4 and 5, Texas; April 6, Memphis at Little Rock; April 7, 8, 9, 10, Memphis; April 11 and 12, Nashville; April 13, Knoxville; April 14 and 15, Richmond; April 16, opening game of season at Baltimore.

RUBE WADDELL'S CHANCES SLIGHT. MINNEAPOLIS, Nov. 14.—In spite of his belief of a week ago that he was suffering only from a slight attack of influenza, Rube Waddell, well known as a baseball player, left Minneapolis tonight to begin a battle with tuberculosis at his sister's home in San Antonio, Texas. A short time ago a story was current that he had fallen a victim to the white plague, but he scoffed at the idea, and then he was suffering from a severe cold. Since then he has been growing steadily weaker and has been in bed for several weeks at his home here. His physicians said tonight that Waddell's chances for recovery are slight.

At a formal meeting of representative motorcyclists at the Bay Tree Hotel last night definite steps were taken for an amicable amalgamation of the two associations which have been governing the sport of motorcycling this year, into a combined body to be known as the Canada Motorcyclists' Association. This organization is to control motorcycling all over the Dominion.

The association is to hold its regular annual meeting at Winnipeg between Christmas and New Year's Day, when the country probably will be divided into eastern and western divisions, each governed by a vice-president with a president to look after the whole association. No trouble is anticipated in arranging a reciprocal agreement between the Canadian Motorcyclists' Association and the Federation of American Motorcyclists, the governing body of the States.

The best of feeling prevailed at last night's conference, which was presided over by Mr. A. E. Humphrey. A dozen representatives present took every precaution to bury the differences of the past, absolutely no reference to any former situation being made.

A meeting of delegates of all affiliated clubs through Ontario and Quebec is to be held on Wednesday, Dec. 17, for the purpose of arranging further details and to select delegates for the Winnipeg convention.

The Queen City Curling Skips Are Elected. The Queen City Curling Club held their regular November meeting last night, which was largely attended, and a number of applications for membership were reported. The club voted in favor of playing the single-rink trophy as a biennial event, and the number of ends to fourteen. The following club skips were elected: V. E. Ashdown, P. A. Brown, Rev. R. N. Burns, W. Duffett, J. W. Flavelle, W. M. Gemmel, H. A. Halsey, E. T. Malone, R. Rennie, A. W. Phillip, E. C. Pearson, R. Rennie, R. B. Rice, R. K. Russell, J. C. Scott, C. A. Tobin, J. R. Wellington, A. A. Webster, D. T. Webster, J. P. Rogers, H. H. Morgan.

THE HOUSE QUALITY. The National Gun Club, Queen's Wharf (next to Bathurst street), will hold a clay bird shoot Saturday afternoon at 1 o'clock. All trap shooters welcome.

## TECHNICAL SCHOOL OUTPLAY PARKDALE.

### Creating Three Cornered Tie in Interscholastic Rugby League.

In an interesting game Friday evening at Jesse Ketchum Park Technical defeated the Parkdale C.I. team by 5 to 2. A large crowd from Parkdale came to cheer their team, for had Parkdale won they would have been winners of the Interscholastic League. The Technical team showed great play under Mr. Ferguson's careful coaching, and although Coach Reed had a well balanced team, they at no time were considered dangerous. In the third quarter Technical bucked over nicely for a touchdown, while Parkdale made their lone two points on punts by Birdsell. Technical have won the last four games played, and have only had scored against them in all seven points. This shows that, although for first place they have perhaps the best in the league. Lou Marsh handled the game very satisfactorily. To show the careful drilling Mr. Ferguson has given his boys they didn't lose once on interference, nor did they miss a punt and were always ready to get a loose ball. Every man of the following line-up deserves credit for the victory: Flying wing, Green; halves, R. Lock, Erriart, Starke; quarter, McKenzie; scrummen, Atchison, Molyneux; loose forward, outside wings, McCavin, Eccles; inside wings, M. Lock, Ogilvie; middle wings, Model, Epstein. Hill replaced Epstein in third quarter. Burt replaced McKenzie, who was injured, in last quarter. —League Standing.—

## ESKIMO'S APPETITE DEFIES ALL LAWS

Gastronomic Capacity and Powers of Digestion Are Unlimited.

The Eskimo is said to defy all the laws of hygiene and thrive. He eats until he is satisfied, but is said to never be satisfied while a shred of the feast remains unconsumed. His capacity, according to a writer in Harper's Weekly, is limited by the supply and by that only. The Eskimo cannot make any mistake about the manner of cooking his food, since, as a rule, he does not cook it. Nor, so far as the blubber or fat of the Arctic animal is concerned, is the Eskimo concerned about his manners of eating it. Indeed he may be said not to eat it at all. He cuts it into long strips an inch wide and an inch thick and then lowers the strip down his throat as one might lower a rope down a well. Despite all this, the Eskimo does not suffer from indigestion. He can make a good meal of the flesh and skin of the walrus, provision so hard and gritty that in cutting up the animal the knife must be continually sharpened. The teeth of a little Eskimo child will, it is said by those in a position to know, meet in the middle of an apple, the hide of the walrus is from half an inch to an inch in thickness and bears considerable resemblance to the hide of an elephant. The Eskimo child will bite it and digest it and never know what dyspepsia means.

## ELECTRICITY IN WORLD'S CREATION

Novel Theory of Professor Birkeland as to Part It Played.

The novel theory of Prof. K. Birkeland, as brought to the attention of French scientists, accounts for planets, moons, planetary rings and ring and spiral nebulae by the combined action of electric, magnetic and gravitational forces. Each star is assumed to have an enormous negative electric charge—some 600,000,000 volts in one sun—and experiments indicate that discharges may be accompanied by a continual projection of electrified particles into the magnetic field about such a body. Mathematical investigation proves that most of these particles may fall back, while some reach limiting circles, where they continue to revolve perpetually. The distances of these circles depend upon their mass, and those having the highest charge form the outermost circles. The retrograde motion of the farthest moons of Jupiter and Saturn may be a result of difference in the electrification of particles from portions of the solar surface distant from the magnetic equator. Experiments show that the emission of particles from a cathode is attended by heat, as is that from radium, and this suggests a new source for the heat of the sun. By this theory most of the matter of space must be finely dispersed. If the solar system were distributed in a sphere having the radius of the diameter of Alpha Centauri, there would be only one atom to a centimetre, and 100 times as great a density would probably escape detection by any means known.

## DEFINING MAN'S RANGE OF SOUND

One of the Fascinating Problems That Have Interested Psychologists.

In the sense of hearing, numerous problems have interested psychologists, writes Prof. A. T. Hoffinger in The Strand Magazine. Among these may be mentioned the range of sounds that can be heard by an individual—that is, the limit above and below which no sound can be heard. The solution of these two problems, the determination of the upper and lower limits of sound, has occasioned a great deal of careful work and the construction of many forms of apparatus. For determining the upper limit of sound for an individual—and individuals differ considerably—the Galton whistle is generally used. It consists of a tiny pipe, which is lengthened or shortened by a piston actuated by a micrometer screw. This little instrument can be regulated to make a tone which is too high for any human ear to hear, and which will finally produce only a painful sensation. The Galton whistle was devised by Francis Galton for his study of individual differences. He had one of the whistles in the end of his cane, and as he walked thru the Zoological Gardens he would blow it near the ears of the various animals. He adjusted the whistle too high for his own ear to hear, and if the various animals responded to the sound he knew that the upper limit was greater than that of the human ear. The ordinary human ear can detect a tone whose vibration rate is, at least, twenty-five thousand vibrations per second, while the whistle will produce fifty thousand per second. This upper limit varies with the age of the individual to such an extent that, if the upper limit at sixteen years was fifty thousand vibrations, at sixty years of age it would be about twenty-five thousand per second.

## ONE JERSEY COW WAS A DEAD LOSS

Feed Cost Eight Cents Per Day More Than She Produced.

## MAKING CATTLE PAY Is the Object of Educational Literature Distributed From Ottawa.

At the famous National Dairy Show, held in Chicago the last week in October, the authorities had gathered nine demonstration cows to prove, for one thing, how easy it is to lose good money feeding poor cows. All feed was weighed, all the milk was weighed and tested, the results of each day were placarded in bold figures above each cow. These two furnish the extremes for one day: A seven-year-old grade Jersey, consuming 21 cents worth of feed, produced only 12 cents worth of fat. This means that she required a loss of 9 cents for that day; that the feed cost of one pound of fat was 92 cents; that the feed cost of 100 lbs. of milk was \$2.90, and that for every dollar's worth of feed given to her she yielded only 66 cents worth of product.

## SAFEGUARDS FOR THE CZAREVITCH

From Day of His Birth Under Espionage of Cossack Soldiers.

From the day of his birth, the Crown Prince of Russia, was put under the care of a Cossack guard, who is held answerable with his life for the safety of his charge. The soldier, says The Wiener Journal, never leaves the child; he sleeps in the anteroom of the czar's bed-chamber. The room is locked, but a series of bells would at a touch communicate with the outside world. Two sentries parade in front of the bedroom door, and a few paces farther on is another double guard. Little Alexis was four years old before his eyes fell on any sight beyond his own small garden bounded by the wall of a courtyard. He did not even play as other children do, for while he was digging in the sand or running about with his only companion, the son of a lady in waiting, other children were acting as his ghosts and running about in another part of the garden to distract attention and make security doubly sure. His own Cossack guard

## ed the imperial child of Russia, while a second Cossack guard simulated duty over the other little ones.

An English tutor entered upon the service of the czaritch when he was seven years old, but all lessons are done in the presence of the Cossack and he beheld the grounds of the imperial residence, and from the decks of the Standart his eyes greeted the Baltic. On one occasion only was the son of the czar at a military reception, and the precautionary measures adopted were of the strictest kind. The czar and czaritch have tried to prevent any possible risk of their child being poisoned, attacked or kidnapped. He eats nothing until it has been examined by his special "taster," who makes trial of every dish before it appears on the table. For refracting either sunlight or artificial light for use as a curative agent a Philadelphian has invented a lens shaped glass vessel that can be filled with liquids of any desired color. In an electric fountain for table decoration invented by a Boston man, the falling water turns a wheel which changes the colors of the lights which illuminate it. An Ohio inventor's electrical welding machine is featured by electrodes mounted on swivelled holders, capable of radial movement in any direction.

Edmund Brees in "The Master Mind." "The Master Mind," a play by Daniel D. Carter in which Edmund Brees will be seen at the Princess Theatre next week, is the latest thing in crook plays.

A king of crooks known as the Master Mind plans vengeance upon a district attorney, who in his charge of his duty, convicted and sent to the electric chair the brother of the Master Mind. This revenge consists of providing the district attorney with a wife, a mother-in-law, a father-in-law and a brother-in-law, all of whom are crooks with records. The district attorney is running for governor and the Master Mind tells him the secret of the wife and her supposed family, withdrawing from public life the family affairs will be made public scandal.

After completing his revenge the Master Mind, unable to make the husband suffer without ruining the happiness of the wife, allows the candidate to go free. Mr. Brees, in the title role is said to give an excellent portrayal of the master crook. He is supported by Stewart Robbyns, Francine Lawrence, Frank Allworth, Celine Kirk, James Edwards, Marie Downs, Archie J. Curtis, John P. Dougherty and Ben. Holder. There will be given matinees on Wednesday and Saturday, the former at popular prices.

Only a Mile and a Quarter North of the Great Ashbridge Industrial District Lies Danforth Glebe Estates

DANFORTH (Bloor East) AND GREENWOOD The city is reclaiming Ashbridge's Bay. Now useless for commercial purposes, this section will undoubtedly be a veritable hive of industry, employing thousands of hands who must seek homes in the eastern part of the city. The location of Danforth-Glebe Estates is ideal for the purpose—only a short distance due north.

At present the prices in Danforth-Glebe Estates have not felt the impetus that will follow the development of this work. It is claimed that thousands of homes are needed right now; a large number of additional homes will be needed as the work progresses. Study the developments—the opening of the Danforth avenue car line, the building of the Bloor street viaduct, the reclaiming of Ashbridge's Bay. The present low opening prices will be advanced very shortly. NOW is the time to select and purchase your lots.

Write or phone for full particulars, and make an appointment to inspect the property; or take the Danforth car line to Greenwood avenue and meet our representative on the property.

MAY BE DISSOLUTION OF ROYAL MARRIAGE Prince William of Sweden and Grand Duchess Marie Pavlovna Unhappily Married.

STOCKHOLM, Nov. 13.—(Can. Press.)—Negotiations are proceeding between the courts of St. Petersburg and Stockholm, according to the Stockholm newspapers, for the dissolution of the marriage of Prince William of Sweden and the Grand Duchess Marie Pavlovna.

IF KIDNEYS AND BLADDER BOTHER Take Salts to Flush Kidneys and Neutralize Irritating Acids.

Kidney and Bladder weakness result from uric acid, says a specialist. Uric acid is a waste product of the body which filters through the blood and passes it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs, which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water, drink which quickly relieves bladder trouble.

LAKE SHIPWRECKS HIT UNDERWRITERS London Men Figure Loss at Million and a Half—Rates May Go Up.

LONDON, Nov. 13.—(C. A. P.)—The Canadian Associated Press understands that considerable shipwrecks have sprung up among London underwriters in connection with the recent Canadian shipwrecks. They feel that in adopting the present rates on vessels trading on Canadian lakes they have not taken into account the possibilities of such serious gales as those that have just taken place. Roughly, their loss is estimated at \$1,500,000. Judging by later cables, however, this figure may be considerably increased.

TO HELP ULSTER A few officers of the three Toronto lodges of the Orange Benevolent Association met on Thursday evening. A ladies' branch of the Canadian United League was formed, the following officers being elected: President, Miss Callum; vice-president, Mrs. Rowe; secretary, Mrs. Alex. Gordon; assistant secretary, Mrs. De Mille; treasurer, Mrs. Hazelton; chaplain, Mrs. R. Gordon. Arrangements for a lecture on Ireland, to be given in December, the proceeds of which will be sent to Ulster for the anti-home rule cause, were put under way, particulars of which will be announced later.

BOYS WILL PARADE TO CHALMERS CHURCH Rev. H. A. Macpherson Will Preach to Boys Tomorrow.

Tomorrow morning at Chalmers Church, Dovercourt road and Dundas street, will be held the tenth annual church parade of the West End Y.M.C.A. boys' division. Invitations have been sent out to all of the eight hundred and fifty members, and with fair weather a record breaking turnout is expected. Rev. H. A. Macpherson, the minister, will deliver a special address to the boys. Bruce Gray, one of the older boys, will give a ten minute outline of the work of the boys' division.

SHIP OWNER'S WILL Robert Redford, of Montreal, the well-known ship owner, who died March 15th last, left an estate of \$2,012,488. CLOGGED NOSTRILS OPEN AT ONCE HEAD COLDS AND CATARRH VANISH In One Minute Your Stuffy Nose and Head Clears, Sneezing and Nose Running, Cough, Dull Headache Gone.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear; by morning the catarrh, cold-in-head or catarrh sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately. Don't lay awake tonight struggling for breath with head stuffed, nostrils clogged, yawning and blowing. Catarrh or a cold, with its running nose, foul mucus dropping into the throat and raw dryness is distressing but truly needless. Put your faith just once in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

NOTED EGYPTOLOGIST

The distinguished Egyptologist, Prof. Max Mueller, of the University of Pennsylvania, will give an illustrated lecture under the auspices of the University of Toronto and the Toronto Archaeological Society on "Egypt of the Time of the Pyramids." Prof. Mueller will be much pleased if anyone possessing small Egyptian antiquities will bring them to the lecture and afford him an opportunity of examining them. The lecture will be given in the physics building, Monday, Nov. 17, at 8 p.m. An invitation is given to the public to attend.

TRAPPER SHOT ON STURGEON RIVER

Killed by Bullet From His Own Rifle Which Had Become Jammed.

BODY FOUND NEXT DAY

Accident Happened at Deer Camp, Fourteen Miles North of Warren.

(Special to The Toronto World.)

NORTH BAY, Nov. 14.—Archie Stevens, an Indian trapper, was accidentally shot and killed by a bullet from his own rifle Wednesday while hunting on the Upper Sturgeon river.

Stevens, with his son, a lad of fifteen, was at his hunting camp about 14 miles north of Warren, and Wednesday afternoon about 5 o'clock he left his son at the camp while he took his rifle and started on a deer trail.

Not long after his departure the son heard a shot and thought his father had located a deer, but when light closed down and his father did not return he became apprehensive of trouble.

After waiting all night for the return of his father young Stevens started out at dawn and paddled three miles down stream to the house of a settler named Nadeau, who with two others accompanied the lad in search for the father.

The body was found in the locality where the shot had been heard, the bullet apparently from his own rifle having entered the eye and passed thru the head.

SOPHOMORES PLAYED "HOME SWEET HOME"

When President of Victoria College Freshmen Rose to Speak.

GOOD ROAD BUILDING

Was Subject of Address to Science Men—Girls' Swimming Meet.

"Home, Sweet Home," greeted the opening remarks of class President H. E. Swann when he attempted to give his address at the freshmen reception which was held at Victoria College last evening.

Some adventurous sophomores concealed behind the organ were responsible for the music, and small ceremony was used by the freshmen in drawing the offenders from their concealed position.

This was only one instance of the many efforts of the second year men to make things lively for the members of the year of '13.

Addressed Science Men. To an audience of over 150, composed mostly of School of Science men, Mr. E. Dwight Gray delivered an address on "Roads and Road Construction" at Castle Memorial Hall in McMaster College last evening.

Gray was the superintendent of the construction of the "Kingsway," the famous paved twelve-mile road from Vancouver to New Westminster, B.C., and proceeding from such a source the remarks of the speaker were received with deferential attention.

Two excursions have been made by School of Science men to American plants this week for the purpose of observing the methods of the most advanced American engineering.

At the Y.W.C.A. at 21 McGill street, last evening, a swimming exhibition was given by Miss Mary Beaton, assisted by Miss Margaret Pines and two of the junior members of the swimming class before a large number of interested ladies.

ELEPHANTS THAT GUARD CHILDREN

Hindoo Mothers Not Infringe Commit Babies to Animals' Care.

In India it is not an uncommon thing for the children of a mahout—the keeper of one or more elephants—to be cared for by his animals.

It is pointed out that no jackal or wolf would be likely to pick up and carry off a baby which was thus confined to the care of an elephant.

On arriving at the water the elephant, ostensibly in obedience to the child's command, lies down and enjoys himself, leaving just a portion of his body like a table in the water.

From London comes word that the trustees of the British Museum, have just acquired a manuscript of the Fadhli Albatiniyah, an account of the doctrines of the Karmathians, Ismailis and other esoteric and unorthodox sects of Mohammedanism.

These urhins, when they grow up, become assistants to the mahouts, and in time eventually attain the dignity of becoming mahouts themselves.

OLD MANUSCRIPT OF ARABIC ORIGIN

From London comes word that the trustees of the British Museum, have just acquired a manuscript of the Fadhli Albatiniyah, an account of the doctrines of the Karmathians, Ismailis and other esoteric and unorthodox sects of Mohammedanism.

This is apparently a unique Arabic manuscript, as no other copy is on record. In it the author systematically sets forth the doctrines of the various sects and refutes them.

He studied under the great imam al-Harmani in Nishapur. In A. D. 1091 he became a professor at the Nizamiya College, in Bagdad, where he worked for four years.

He then resided in order to continue his own studies and effect a satisfactory concordat of orthodox reason and mysticism. He died in Tus in A. D. 1111.

His influence upon the later developments of Islam has been enormous. Suyuti, a famous author, says: "If there could be another prophet after Mohammed, it would certainly be Al-Ghazzali."

The present manuscript was copied in A. D. 1266, and is perfect, except for a few pages at the beginning.

QUITE BUOYANT FOR SOME ISSUES

Toronto Market Improves in Spots, But There Are Weak Ones.

SHORTS ASSIST PRICES

Navigations Irregular—Richelieu Up, St. Lawrence Down.

Compared with recent markets the Toronto Stock Exchange was quite buoyant yesterday. New York swayed local sentiment by opening up 11-2 points higher on some issues. Locally this was accepted as indicative of a clearing of the Mexican trouble and incidentally as of general benefit to the world's financial fabric.

In a speculative way the local market is providing one of the surest signs of improvement. It has usually been the prerogative of brokers to do the short selling on this market, but outside traders are now encouraged to adopt this method, and in some cases are doing so. There is only one way for the market when the public get in good and strong, and if they now take the short side the market is bound to move in the opposite direction. This is certainly the case in Dominion Steel Corporation shares, which further rose to 41-2 yesterday.

Brazil extended themselves slightly to 83-4 but relapsed to 83-2 at which point they closed. Twin City was firmer, and for a board lot 7-8 of a point advance had to be made. Navigation shares acted at cross purposes. St. Lawrence dropped another 4 points to 105 while Richelieu advanced 2 points to 103-1-8.

Another anomaly in the market was Mackay. Heavy selling of the preferred was forthcoming at 94, and the shares closed still on offer at that figure, while the common was advanced to 78 and was wanted at that price without offers.

A run in of shorts in Nipissing brought these shares up to 8.15. Non-speculative investment issues were steady and not active.

LONDON MARKET WAS STRONGER

Relief in Mexican Situation Was Cheering—American Firm. LONDON, Nov. 14.—Money and discount rates were a stimulus to the stock market started bright and cheerful. The better Mexican situation induced general professional covering and repurchase of shares. The improvement, with advances ranging from two to five points; oil shares were active. Foreign exchange continued under New York buying, but prices reacted a fraction in the late trading and closed steady.

TRADE CONDITIONS

Toronto.—Trade in wholesale lines in Toronto was a little better the past week. The colder weather was a stimulus to the sorting-up business in drygoods, and there was some improvement in retail circles. The jobbers in fancy goods, jewelry, etc., anticipate considerable activity the next few weeks. Orders for staple lines for the spring trade are a little more numerous, with prices generally unchanged. Building operations are on a small scale with the outlook rather disappointing. Hardware is fairly good, with an active demand for seasonable lines. Travelers are sending in satisfactory reports as to the spring business. Groceries are selling well, with shipments of a larger volume. Leather is firm and hides unchanged. Ontario grains very dull, with wheat too high for export. Manitoba in fair request. Bran is a little lower. Provisions quiet with little change in prices. Cattle are firmer, owing to the smaller run this week. There were nine failures to report in the district this week.

TORONTO BONDS

The City of Toronto has just awarded to A. E. Ames and Company, of Toronto, an issue of \$700,000 of city debentures, payable July 1, 1953. The bonds are in denominations of \$1,000 and carry interest at the rate of 4 1/2 per cent. half yearly, payable on the 1st of January and July. Principal and interest are payable in Toronto or New York.

DENIES REPORT

New York brokers are circulating a report that Nipissing has run into ores in a coss cut from its new deep shaft with the idea of proving Cobalt & deep ore camp. David Fasken, a director of the company, denies that they have found anything to warrant such a report.

Detroit United.

The Detroit United Railway's gross earnings for the week ending Oct. 31 were \$213,411, a decrease of \$2,873; and from Jan. 1, \$10,399,590, an increase of \$1,078.

MEXICAN NEWS SWAYED STOCKS

Irregular Movements Ended in Display of Real Strength Towards Close.

GOOD LONDON BUYING

Strength of American Stocks Abroad Imparted Strength at New York.

NEW YORK, Nov. 14.—At the end of the day of mixed price movements and considerable confusion in speculative sentiment, the principal stocks showed net gains of fair proportions. Business was almost entirely professional, and traders concerned themselves primarily with attempting to interpret the news from Mexico in terms of stock market quotations. The Mexican situation has exercised a steadily increasing influence on the stock market during the last few weeks until at present it is recognized as overshadowing all other considerations. The improvement late yesterday based on the hopeful utterances of the president, was continued in the early morning. However, a few weeks ago Mexico were conflicting, however, and the market gradually fell back until the early afternoon. Late in the session, after the news tickers had disseminated sensational reports of serious developments and had given publicity to optimistic Washington dispatches, the market picked up again, until it came close to the earlier high level.

Heavy Foreign Buying

Important buying was a potent impetus. Large purchases of Steel, Copper, and Amalgamated were made for foreign account, the balance on the buying side being perhaps 30,000 shares. The break here at the opening was due to the advance in American stocks in London.

New Haven was again weak, reaching a new low level at 73 1/4. The Southern Pacific strike caused that stock to drag behind, and Missouri Pacific was reflected by a continuation of the selling which has been in progress for several days. Bonds showed an improved tone.

STRONGER TONE IN MONTREAL STOCKS

Power, Richelieu and Dominion Iron All Scored Good Advances.

MONTREAL, Nov. 14.—Leading stocks in the Montreal market were marked up sharply in the first hour today as the result of decided improvement in both London and New York. A few stocks continued the early rise well to the close, notable features in this respect being Power and Richelieu. Business was only moderately active. A much more cheerful feeling, however, prevailed. Power was the feature stock and was followed by Richelieu. Opening at 208 Power made a further advance of 1-2 in the morning and of a full point in the afternoon. Last sale at 209-3-8 was off only 1-8 from the day's highest and the close was strong. Dominion Iron opened at 44 with an overnight advance brought about some receding.

C. P. R. at 225 in final sale was up 1 point on the day, and at 224 3-4 was quoted 5-8 higher than at Thursday's close. Brazilian opened at 84, but fell back to 83-3-8, where it closed, but with a net gain of 5-8.

The European Bourse.

PARIS, Nov. 14.—Prices were quiet on the bourse today. Three per cent. rentes, 87 francs 15 centimes for the account; exchange on London, 25 francs 31 centimes for cheques; private telegrams of interest, 3 7/8 per cent. BERLIN, Nov. 14.—The bourse was firm today on favorable Mexican reports. Exchange on London, 20 marks 50 pfennigs for cheques; money, 2 1/2 per cent; private rates of discount, 4 1/2 per cent.

SERIES OF MEETINGS TO DISCUSS PURCHASE

Mayor Hocken Will Address First Municipal Association Luncheon. Next Tuesday at McConkey's Mayor Hocken will address a luncheon meeting of the Municipal Improvement Association on the street railway question. This will be the first of a series of weekly luncheons to be held by the M.I.A., of which Mr. John Macdonald is president, to discuss phases of the street railway purchase.

The Second Luncheon will be held on the following Tuesday, when Mr. Mark H. Irish will speak against the purchase from a business man's viewpoint.

NOTHING MORE TO DISCOUNT—MOODY

John Moody in a dispatch to Erickson Perkins & Co. says: "Stock prices are down again almost to the lowest of the year, and there is but little in sight to carry them lower. The bad news is all out. The public is familiar with crop conditions, with the decrease in railroad net earnings, with all the real facts and a lot of imaginary ones in the currency bill, with the consequences of the new tariff, with the falling off in steel orders, and with the worldwide demand for new capital. Unless we are to have war with Mexico there seems to be little else for the market to discount."

NIPISSING HAD ANOTHER ADVANCE

Peterson Lake Off Slightly—Porcupines Are Practically Neglected.

An advance in Nipissing to 8.15 was the feature of the Standard Stock Exchange yesterday. After opening at two points below Thursday's close, the price steadily went up. Peterson Lake had a good day's selling, opening at 25, which is higher than the previous close, but dropped to as low as 23-1-2 to recover to 25-1-2. Chambers Ferland had a good day's going as high as 17, but fell off to 15-1-2 to close. The Rose was strong and advanced to 17 1/2. Timiskaming was up fractionally while McKinley recovered from the drop of the previous day. Gould fell off to 3-1-2 and public interest seems to have been lost completely.

LA ROSE OCTOBER MINE PRODUCTION

The October production statement of the La Rose Consolidated Mines Co. is as follows: Total production of value \$203,454 ozs. \$120,829. Sundry income 3,724. Less: Marketing, concentrating and operating expenses 65,126. Profits for October, 1913 \$57,927.

CAN THEY DEBATE THE LICENSE ACT?

Liberal Members of the Legislature Are Commencing to Wonder. There is some speculation among the Liberal members of the Ontario house as to whether the provincial license act which has been in the hands of the revision commissioners, will appear before the members in debatable form when the legislature is called. During the last session the revised form of several statutes came in for some prolonged discussion on the part of the opposition and the disposal of the license law was looked forward to with considerable interest. It is a possibility that with the increased power granted the commissioners by recent amendment, the act will not of necessity appear on the floor. The authority in question grants the right to the commission independent of the sanction of the formal assembly to make minor revisions and amendments which do not concern the spirit of the act. It expedites the work of statute revision in general and relieves the order paper of items of an uncontentious nature.
