PROBS: Mostly fair and decidedly warm, but
local showers, chiefly at night.

THE MOVING TIDE.

The Toronto Star rather unfairly says of
whom The World calls "unimportant," are, after all, the backbone
of Canada. Surely it is possible to conduct a controversy
without misrepresentation and falsification? Where has The
World ever said the "masses" were "unimportant"? And what
possible good does The Star expect to do its cause by stating
what is not so?

The Star has gathered together the names of a few dozen
Conservatives, who have convinced themselves that reciprocity,
as negotiated by Messrs. Fielding and Paterson, is "a fair
measure of reciprocity." The Star and its converts can only be
convinced by some such harsh experiences as Canada has
already undergone. These have been sufficient to convince
the masses of Canada, whom we by no means consider unim-
portant, that it may suit The Star in the absence of facts to say
so, that any trade agreement with the Republican party of the
United States, on the eve of a presidential campaign, such agree-
ment having the avowed object of making its United States
author a successful candidate for re-election to the presidential
chair, is nothing more or less than an egregious blunder from
a Canadian point of view, useless, worthless, dangerous and
doomed.

The Star is just as much to blame in belittling the more
prominent men of Canada, as we would have been had we been
guilty of what The Star falsely charges us with—belittling the
masses. The one thing that is perfectly obvious to all lovers
of Canada is the absolute solidarity of the interests of all classes,
high and low, rich and poor, prominent or obscure, in opposi-
tion to the present agreement. Even were reciprocity in the
form which The Star advocates likely to bring all the bless-
ings in its train which its friends declare, the price has to be
reckoned. No law of nature is more definite than the decree
that you cannot get something for nothing. We have to pay
the price.

The ablest men of the Liberal party have declared that the
price is too high. It may be desirable to have a motor-car, but
only an idiot will mortgage his house and his future prospects
to buy one. The mortgage will have to be met.

We are confident that when the men of Canada, obscure or
not, are thoroughly familiar with the conditions involved in the
new reciprocity agreement which the Republican president, for
political ends, has allured Sir Wilfrid Laurier into acknowledg-
ing, they will repudiate it altogether. It may be that they may
not learn without bitter experience, but if that should come the
people of Canada will rend in pieces the party that has deluded
them.

There is ample evidence, however, that the people are
already becoming familiar with the serious side of the reciprocity
question—the price to be paid. It is not insignificant, what-
ever The Star may think, that the names gathered by it are of
men who have had less opportunity to judge national issues
than local ones. It may suit The Star to convince a voter here
and there that the gossip of his burgh is the murmur of the
world, but The Star knows that the destiny of Canada of the
Three Oceans is not to be determined by the beer-brewing
capacities of United States maltsters, or the flour-milling
capacities of Minneapolis, nor even the fate of the Republican
party.

We have to pay a price to the United States for this pact
with Taft, which will bankrupt us in honor and in pocket both.
To unite our destiny now with that of the American Republic,
which is on the brink of panic, with factories closing, credit
tottering, people of the cities groaning under the trusts, people
of the farms groaning under the tariff, the whole American
nation distracted under an unworkable constitution, and seek-
ing relief in the fatness of Canada, which to American eyes
looks like a land flowing with milk and honey, ready to be pos-
sessed by "God's people," as they call themselves—to favor a
policy of this kind, we say, is a full-moon infatuation.

But Canadians are not infatuated. As we said yesterday,
many people are changing their minds, and no stigma attaches
to the man who honestly changes his mind. But the greater
part of the changes are among those who have followed Sir
Wilfrid Laurier since 1896. Elections are carried by the long-
headed, clear-sighted two or three per cent. who are not swept
away by mere partisan pig-headedness, but who think more
of the nation than they do of the parish. It was that two or
three per cent. who placed Sir Wilfrid Laurier in power in 1896.
That two or three per cent. have been patient for fifteen years,
and they have been just and even generous. But the time has
come, as it comes for all parties and governments that place
their own interests and the interests of their personal follow-
ing before the interests of the nation, and once more Canada
must pass sentence.

For years we have wrought and striven to build up a people
independent of the great nation to the south. We have spent
unlimited millions to carry our farm produce from the west to
the east. We have fostered the freights into being one of the
empire in general. We have built Montreal into being one of the
great gates of the world. Vancouver sits like a queen in the
west with all the sunset ether before her, and Winnipeg and
Toronto among the inland cities are towering into metropolitan
vigor. The Star tells us it is all a mistake. Since 1866, when
our neighbors refused to be neighbors, we have been on the
wrong track, trying to find independence. Our true destiny is
to link up with the Republic in our most intimate ways of life.
Let us be hewers of wood and drawers of water for them. Let
us dig and plant and sow for them. Let us reap and thresh
for them and sell to them. Let us be their bond slaves and their
hired men, slaves of their politicians, hired men of their
merchants. We shall finger their greenbacks and we shall sing
the praise of their star-spangled banner. And by and by we
shall be allowed to vote for their president.

Why should we do it? Are we poor? Are we unprosperous?
Are we not still the Canada to whom the twentieth century
belongs? Have we not paid our mortgages? Is our revenue
not greater than ever year by year? Have our crops failed
or our flocks failed to bear? Are our vineyards and our orchards
unproductive? Are not the nations of the earth flocking to
our ports?

Why then, is it desired that we should rush into this agree-
ment, whose benefits are disputed by the shrewdest among us,
and whose dangers are evident to all? Merely because Mr.
Taft of the Republican party desires to make himself solid for
the next party presidential campaign. Is it not an inglorious
anti-climax? And yet this is the essential bottom fact.

There is evidence from every part of Canada that the people,
the great patriotic people, are becoming alive to the fact,
and where they know the conditions under which reciprocity
has been engineered, they will cast their ballots against the
measure, and in favor of the policy that has built up Canada,
with its magnificent home market, and its splendid manufactur-
ing industries into the most promising nation on earth to-day.

CROSSING THE CREEK

AN AWFUL LOAD.

240,000 PEOPLE HAVE VISITED 'EX'

Press Day Brought an Attendance
of 60,000, Making
Increase of 56,000 for
Five Days.

Press Day crowds piled up another
new attendance record at the Canadian
National Exhibition yesterday, when
60,000 people entered the grounds. On
the first Friday of last year's exhibi-
tion the attendance was 58,000, so that
the management have 2000 to add to
the increase, which they expect are to
make this year's total reach and
in all probably exceed the million
mark.

The exhibition this year has so far
been a record-breaker all round. In
the matter of attendance, increases
during the first five days have con-
tinued to pile up until they show that
56,000 more people have passed the
gates than were admitted during the
same five-day period of last year. So
far the attendance record this year is
240,000; last year up to this time it
was 184,000. Such a comparison is a
measure of the tremendous strides the
Canadian National Exhibition has
made in the favor of Torontonians.
And as with spectators so with exhibi-
tors; every building is crowded to
capacity, overflow exhibits are placed
in tents and still there is loud insis-
tent clamor for more space. For after
all, as one of the speakers said at the
press day luncheon, this fair is not
Toronto's alone—it is truly national
in scope and character.

The journalists of Ontario contrib-
uted a considerable quota to the day's
attendance, upwards of two hundred
attending with their wives and friends.
Maybe, too, they were responsible for
many of the curious. All day and
through the press has ever been
a great drawing card for any func-
tion.

The weather yesterday was ideal for
exhibition purposes. The sky was
cloudless and there was just enough
of a gentle breeze to make things com-
fortably cool, although toward evening this
dropped off and the temperature rose
almost too high. All day big contingents
passed the gates until the grounds
looked on a more crowded appearance
than they have had this week. It was
a specially good opportunity of seeing
the great fair at its best and of "do-
ing" its attractions in comfort and
Toronto's scores of thousands of pleas-
ure seekers made the most of it.
Big crowds surrounded the exhibits
in all the buildings, strolling casually
along or halting and craning on tip-
toe to watch some curiosity-monger
put the process, manufacturers and
educational buildings were especially
the mecca of the curious. All day and
every day people turn aside to visit the
educational exhibit to marvel at the
work done by Kiddles, to admire the
scientific and instructive exhibit or to
read and ponder the advice and warn-
ing on matters of health and sanita-

CANADA WOULD FEEL THE PINCH

U. S. Financial Disturbances
Would Extend to Dominion
Under Reciprocity, Says
Sifton at Halifax.

HALIFAX, Sept. 1.—(Special)—Five
thousand citizens heard from Clifford
Sifton at the arena rink to-night. Ex-
-president Forrest of Dalhousie Uni-
-versity presided over the meeting,
which was the equal in enthusiasm to
the Laurier meeting a few days ago.
The attention of the audience was held
by the speaker, a fact not nearly so
applicable to the Laurier meeting.

Mr. Sifton, on rising, was greeted
with immense applause. Without any
preliminary, he entered upon his sub-
-ject. He was not opposing reciprocity
because of partisanship, or he would
be speaking on another platform. Nor,
said he, was he animated by antipathy
to the government, for he was, he be-
-lieved, still regarded as a personal
friend by the members of the govern-
-ment. His presence was due solely to
his honest belief that reciprocity would
be a bad thing for the country. The
policy of protection had been followed
by the present government, which had
carried on actively the development of
Canadian railways, waterways and
natural resources. Immigrants had
been placed on western farms by hun-
-dreds of thousands. No country in the
world to-day has greater cause for
congratulation on the condition of its
people than Canada. Hundreds of
thousands still come in annually and
soon become producers of wealth. Ten
of millions of dollars is coming from
the money centres of the world for the
development of the deserving enter-
-prises, none of which need go begging.

U. S. Panic.
The continuance of such a happy
condition of affairs should be sought
for. The financial panic of 1907 in the
United States was spoken of. Nearly
every bank in that country at that
time suspended the payment of cur-
-rency. Canada went thru the crisis
practically without inconvenience. If
reciprocity should carry and a similar
panic should occur in the United States,

WELLAND WILL ELECT GERMAN

Reciprocity Faction Nominates
Candidate, But He May Not
Stand — Voices Raised
Against the Pact.

WELLAND, Sept. 1.—(Special)—The
Liberal convention of Welland
County declared a week ago that they
would put no candidates in the field
in opposition to W. M. German, the
Liberal, who has been representative
for the past twenty years, his strong
speeches against the reciprocity pact
and his declaration that he will vote
against it, brought about the conven-
-tion that was held to-day for the
purpose of bringing out a reciprocity
candidate. The choice fell upon Louis
Kinnear, M.A., a Fort Cobourne bar-
-rister. Mr. Kinnear asked for three
days in which to consult Sir Wilfrid.
He wishes to learn first if it is Sir
Wilfrid's wish that Mr. German should
be opposed, and second, who will get
the patronage of the county.

The head and front of the whole re-
-ciprocity movement in the county is
the Hon. R. Harcourt and J. F. Gross,
ex-M.L.A. Ever since Mr. German's
split with the party their activity has
been very marked. They steered the
reciprocity ship until to-day, and the
logical sequence of their captaincy
would have been the acceptance of the
nomination by one of them. Both
were nominated and both shrewdly de-
-clined, and Mr. Kinnear, an untired
fighter, was pushed to the front. He
was prominently mentioned as the
likely choice of the convention an-
-nounced to-night that he would vote
for German. Other delegates simi-
-larly expressed themselves.

Voices Raised Against the Pact.
The convention was exclusively for
those who loved the reciprocity cause,
and yet, when Mr. Gross inadvertently
referred to Mr. Borden as the man
who hoped to be premier, he was in-
-terrupted by a voice: "I think he will
be," and another voice from the other
side of the hall: "I hope he will be."
Mr. Harcourt's speech for reciprocity
also brought out a dissenting voice.
Half the population of the convention
was supplied by Pelham, but Niagara
falls City was not represented at all,
and Welland town and Fort Col-
-borne had not ten delegates between
them.

A. J. Es, president of the Pelham
Liberal Association, called the meeting
to order. He said that the convention
had been called to protest against dis-
-honorable dealing to which the previ-
-ous convention had been subjected. It
was clearly evident in the speeches
which followed that Mr. German had
sunk many enemies among his old-
-time friends; one man even went so
far as to accuse him of being connect-
-ed with the "interests." Louis Kinnear
was the clear after being appointed by
motion. "Instead of resigning Mr. German
has placed himself in line with the
conservative convention it was made plain
that he played to both sides. In the
committee-room at our convention he
told us he would vote for reciprocity,

WE'LL EXTEND HOURS FOR S. YORK REGISTRATION

Rush of Would-be Electors Necessitates Course

Struck a Snag
OTTAWA, Sept. 1.—Hon. G.
P. Graham's campaign in
Brockville has encountered an-
other snag. Cheese in Brock-
ville is up. It is up above the
price paid across the bound-
ary, and the Graham canvass-
ers have to cast about for an
explanation. They are now
seeking to persuade the cheese
men that the price has been
manipulated by Conservatives
in Montreal.

Another story from the same
district is being told in Ottawa.
Two men in a motor car went
around the riding offering the
farmers big prices for their
hay for delivery "after the
passage of reciprocity." The
trick did not last long. The
farmers began teasing the
bona-fides of the hay buyers
by asking for deposits. The
two men disappeared.

FALLACIOUS ARGUMENTS
FAKED UP FOR FARMERS
John Livingstone, Montreal, Shows
How Hollow Reciprocity Repre-
sentations Really Are.

John Livingstone, 30 Fort-st., Mont-
real, asks to be permitted, as perhaps
the only man who has had the expe-
-rience covering the matters on which
he touches, to clarify the political argu-
-ment in these respects. He writes
The World as follows:
"Let the Farmer Have a Chance."
That is an obvious ploy on the part
of the Liberals to deceive voters, it
is the double hypocrisy that the Lib-
-erals have the interests of the farmer
and they anxiously wish the
farmers to think their interests are
being sacrificed to the manufacturers of
Canada.

In support of their arguments they
refer to the old reciprocity treaty.
That treaty dated from 1854, after
thirty years of that treaty, Canada
had made scant progress in manu-
-facture. And the farmers had no
chance.
But the crime was caused because
it was advanced and business became
more active. Canada needed the
reciprocity treaty as the stimulus to
the trade, which the reciprocity treaty is
supposed to have given, the old
treaty trade conditions were really due
to the demand caused by that war,
which advanced prices in Great Brit-
-ain, the United States and the
rest of the world. The farmers had
no chance in those advanced prices for
their produce, and they should have
had a chance from an industrial develop-
-ment in manufactures, for they had
no chance in what they had to purchase.
Great Britain had the largest share
in supplying the people of Canada—but
the United States was even then
developing as a manufacturing nation,
and its drummers were under-
-mining the British manufacturers for
the trade of Canada.

The manufacturers of both countries
were admitted to Canada under the
same tariff duties. The tariff was for
revenue only and not for protection in
the sense that there was no encouragement
to develop native industries.
Farmers Did Not Import.
The farmers did not import. Whole-
-sale houses were the importers. They
bought thru agents to whom they paid
commissions, cost and expenses in
advance on the United States; and
interest, freight, insurance, and all ex-
-penses were added to the cost, then
the wholesaler advanced the farmer
the cost so loaded, for the farmer
was unable to pay for the goods until
the wholesaler's profit, then the re-
-tail trader advanced the goods with
an advance for his profit.

The consumers, including the farm-
-ers, paid the duty, the expenses and
the profit, but there came a time
when one of the importers, unable to
skin the farmers, became a skinner of
the manufacturers and an under-
-miner of his competitors. Neither farmers
nor competitors were to have a chance.
Under that said treaty of 1854, bar-
-ley was exported to the United States,
the barley grown between Kingston
and Toronto being greatly preferred
by the U.S. maltsters, that preference
continued after the treaty was abro-
-gated, but the duty was then high,
probably to punish Canadians for their
sympathies of some of them for the
Southern people at the time of the
civil war.

The Canadian winter wheat was
Continued on Page 3, Column 3.
TO THE LAST PITCH
A. E. Kemp, Conservative Candidate,
Against Reciprocity Forever.

Mr. Kemp being asked if he had
anything to say about the position of
his opponent, Mr. Russell, on the ques-
-tion of reciprocity, said:
"I have noticed that Mr. A. J. H.
Eckardt stated at the Liberal conven-
-tion held in the Oddfellows' Hall,
Broadview avenue, on Wednesday
night, that Mr. Russell had been in
conference with him that day and
that Mr. Russell had given him his
word of honor that if the Liberals
were returned to power Mr. Russell
would vote with the Laurier govern-
-ment in favor of the reciprocity agree-
-ment, and that at a meeting in the
same hall on the following night Mr.
Russell, in speaking, confirmed Mr.
Eckardt's statement."
Mr. Kemp added: "So far as I
am concerned I am against the reci-
-procity agreement, first, last and
in all the times, and I will not un-
-der any circumstances, vote for
this agreement made between Sir Wil-
-frid Laurier's government and Presi-
-dent Taft."

Hundreds of Men Waited Long Last Night and Had To Be Turned Away—Assistant Re- gistrars Will Keep Booths Open After 9 p.m.

"MIDWAY" DISTRICT
IS POORLY SERVED

Would-be voters in South York, who
have been unable to register an ac-
-count of the crush at the various pol-
-ling booths will have a better oppor-
-tunity to do so to-night, as suppli-
-mentary registrars will be provided
in some places and orders will be given
to all of the registrars of the booths
by Judge Denton, chairman of the
registration court, to stay after nine
p.m. and take the names of all who
are waiting at that hour.

For the past three nights the crowd-
-ing at many of the booths, necessitat-
-ing waits of an hour in many in-
-stances, has disheartened many would-
-be voters and they have left without
registering. To-day, however, efforts
will be made to ameliorate this con-
-dition and enable all to register.

The enthusiasm, which is being
shown by the voters at this election,
is remarkable. Hundreds have stood
for hours waiting to get their names
down.

Complaints Loud and Long.
The injustice of the situation as it
has existed is easily apparent. Many
have had to leave the booths either to
return again and meet the same con-
-ditions or to stay away. Considerable
censure of the administration, which
so hedged the privileges of the intend-
-ing voters that they were unable to
get out considerable difficulty to register
and has been heard.

Things have been especially bad in
the Midway district. No polling booth
has been put there and the residents of
that district were assigned to the Nor-
-way booth. It has not been able to
handle the crowds of voters who
day night about the booths, when the
booth closed at 9 o'clock.
Last night about 200 were left out
in the cold. Many of these had to
travel a mile and a half from the Midway
district, so it was decidedly disap-
-pointing. Why a booth was not put in
the Midway district, it is reported,
there are nearly 3000 people living
there.

Judge Morgan, in referring last night
to registrars closing the doors
promptly at 9 o'clock, said that "in
common decency" they ought to con-
-tinue until they had the names of
those who were lined up at that time.
Judge Denton said he thought it
would be better to keep all of the
booths open until 9 o'clock. He
told The World that he was going to
find out this morning how many booths
would need supplementary registrars
for this evening, and he would see that
they got them.

"Anybody who is at a booth waiting
to be registered at 9 p.m. will not be
turned away," he said.

Rush in North End.
There were a great many people at
the Davenport's, polling booth and
quite a rush at Wychwood last night.
At Davenport the line was stretched
right across the road. About 40 peo-
-ple were followed in three attempts to
register by the closing of the booth.

A rather novel situation is reported
from the Norway district. A man who
wanted to register, works in the city
from 10 a.m. until 10 p.m., so he can-
-not go to the booth. He had to be
made to arrange it so that his name
could be put on the list by affidavit,
but the registrar would not consent.

REGISTRARS REFUSED.
Because of improper assessment in
the northern and eastern fringes of the
city in the Township of York, the
labor manhood franchise voters have
been disfranchised by Bower Downe,
township official. This means that
only do they lose their right to vote,
but the township is deprived of the
statute labor tax of \$1 per head.

NEWSPAPERMEN WERE EXHIBITION GUESTS

President Gooderham Acknowledges Obligations to the Press—Representatives Respond.

C. W. Young, president, and Hal Donly, vice-president, with the other officers and a representation of members of the Canadian Press Association from all over the province, were guests of the directors of the exhibition at luncheon yesterday.

"This is press day," said President Gooderham. "It is dedicated especially to the newspapermen, who have been the best friends of the Canadian National Exhibition."

The speakers of the day were C. W. Young, Hal Donly and Joe Downey, superintendent of the Orillia Asylum. "This is a time of year that we can ill afford to leave our offices, but we are always anxious to make our annual trip to the world's greatest exhibition," said Mr. Young, who paid hearty tribute to the courtesy of the management and especially to J. K. Munro, press agent of the exhibition.

"Occasionally we criticize Toronto and the exhibition, but mostly our comments are in fun, for we are really very proud of both," declared Hal Donly. "The exhibition is a great Canadian institution and its fame has gone far abroad."

"This great exhibition is truly national in its scope and influence," said Mr. Downey. "It was founded by the devotion and self-sacrifice of our pioneers; it has prospered through the genius, capacity and public spirit of the men who, year by year, have directed its affairs. To-day it has attained proportions which redound to the credit of the city, the province, and the whole Canadian Empire."

"The public are especially impressed with the determination of the management to keep faith. The case of the Coldstream Guards is a particular instance. I understand that to-morrow a special train is being sent east, at great expense to rush the musicians, who were delayed in England by the strike, right to the grounds."

"Have you ever considered the impression made on the American visitor by this exposition? It is an object lesson for him of the greatness, the progress, the prosperity of this Dominion."

"To the Canadian it acts as an incentive to loyal, patriotic pride. Illustrating as it does Canada's advancement as an industrial power. In these respects the Canadian National Exhibition is doing what no other institution can undertake. It is an advertisement for Canada; it educates and inspires the Canadian people."

The press men toured the ground during the afternoon. They were the guests of the directors at supper, in the administration building, and in the evening watched the show in front of the grand stand, a big block of seats having been reserved to accommodate members of the pen and pencil with their ladies.

The Chapman Double Ball Bearing Co.

The primary object of most of the exhibits at the exhibition is to bring the claim and aim of some product or the name and fame of some producer before the public; but there is an exhibit in the centre of the machinery hall of which it may be fairly said this is not the main object.

Those who know anything about machinery, and especially the thousand or more manufacturers who are using the bearing, know it to be the final word in power, speed and reliability. Because of its far-reaching effects in manufacturing and transportation the jury of awards at St. Louis Exposition made no mistake in awarding it a gold medal as one of the seven great inventions of the world.

But for the benefit of the man who wants not to be sold, but to be shown, here is an opportunity to see at first hand the Chapman Double Ball Bearings under various conditions and comparative tests. This exhibit is for him.

Here by an ingenious arrangement of scales he has an opportunity to make a thoroughly satisfactory test. Two pieces of shafting are carrying a load which is weighted before his eyes. One shaft is equipped with ordinary bearings, the other with Chapman Ball Bearings, and the power user can make his own test of the power used by each and draw his own conclusions.

The thread belt, too, is a most interesting and convincing feature of the exhibit. A piece of common spool thread is merely thrown over the line shaft with no pulley to assist it and drives a counter shaft with pulleys, and back of that there is a large bearing capable of transmitting over three hundred horse power standing on the floor and this with six other large bearings is all run by this common spool thread, so that the total load driven by this thread is about half a ton.

The manufacturer can also see the bearing in operation, as all the machinery in the hall is driven from the line shafting equipped with Chapman bearings. There is also a practical demonstration of high speed work in the exhibit of a grinding machine equipped with the bearings running twenty thousand revolutions per minute and a pressure blower running four thousand revolutions per minute, also a friction clutch, a mule stand and horse pulleys, vehicle, automobile and all kinds of bearings, which goes to convince the onlooker what an unlimited field there is for this great device, especially those who are in the line of work who are looking for a cheap power and at the same time want to save half of it in shaft friction before it reaches the machines doing the work is not good business. The attention this exhibit is attracting among engineers, manufacturers and users of power generally goes to show how it is appreciated.

"See it."

If you see the best in any line at the exhibition, it matters little if you see the others. Therefore, do not miss the exhibit of the Toledo Company Scale Company, which is the only exhibit of its kind in the world. The manufacturer's building, honesty and quality has proven a success with this wide awake firm whose product is nothing short of wonderful. Don't miss it.

Wagstaff's Pure Fruits, secret of the ever-increasing popularity of Wagstaff's line of pure fruits lies in the painstaking care and splendid sanitary precautions taken in the factory in Hamilton, where the fruits are made. The factory is a model in every way. Besides the precautions taken by securing only the best fruits and using only the best and most improved machinery, it is fitted through in white enamel walls, mastic floors and with running water. Separate sanitary conveniences are provided for the men and women, and baths and showers are an added convenience. Only pure fruits can be made when such sanitary measures are taken.

THE WARREN "40." Of the many American moderate priced cars that have been sold in Toronto during the last couple of years, none have attracted more favorable attention than the Warren, handled here by the American Abell Engine & Thresher Company. The severest tests have proved this car thoroughly reliable and useful in every respect. The owner of the Warren is not troubled by repair bills. The car is easy on tires and the first price is moderate. Toronto motorists will have the opportunity of seeing the new 1911, 40 Horse Power Warren, at the exhibition next week. This is a big luxurious car, with all modern improvements. Especially noticeable is its up-to-date method of spring suspension, which is quite different from anything heretofore placed on the market. It guarantees easy riding, and long life to the engine. The wheel base of this machine is 116 inches.

The Warren people will be able to deliver these models in Toronto in about fifteen days.

The American Abell Company have a very interesting exhibit at the fair, where all of the Warren lines will be seen. A beautifully finished runabout, electric lighted, is a feature.

The C. P. R. Exhibit. This railway is giving prominence to the industrial side of the exhibition. The colonization and industrial agent of the road is present. The exhibits include many of the natural resources along the line of railway outside of the agricultural. The company's agent is ready to give information, for instance, about water powers situated near natural resources that could be used in giving work to the water power such as pulp wood and hard wood, gypsum, iron ore, glass sand, sand for foundries, and many other raw materials of this nature. While aesthetic arrangement is not neglected this exhibit is of a more practical kind than it ever has been before.

The cheapest possible settler's home is on exhibition. It is a warm, comfortable house, or houselet as we might call it, 15 feet by 9, which can be built with \$30 worth of material and seven days of labor.

Growing alfalfa and live plants, such as flourish in the way of house plants all over the northwest, are another feature of this highly interesting exhibit.

See the Glass Blowers. The wonderful dexterity with which the most beautiful objects of art are made from tube glass by O. H. Johns' company, glass blowers is the feature of the midway this year, as in previous years. Your visit to the exhibit is not complete until you visit the glass blowers and see for yourself their artistic work.

God Meets at Bird's. When at the exhibition eat at Bird's dining hall, directly behind the grand stand. There is no waiting. Seven hundred can be easily accommodated in the cool, spacious dining hall. "All you can eat" is the motto, and a quarter pays the bill. Take your friends to Bird's and enjoy a full course meal at a popular price.

Nasmith's Dining Hall. Because of the increasing demand for a high-class meal at the exhibition, Nasmiths have added to their dining room this year over 100 more seats, allowing over 300 to be seated at one time. By serving only one class of meal a better service can also be given. Their dining-room, which is located at the west end of the grand stand, is the largest, lightest and cleanest on the grounds.

Dean's Exhibit. Probably the most talked of portion of Walter Dean's popular exhibit of boats and canoes is a row boat with an auxiliary two-horse power engine that can make seven miles an hour. Finished workmanship and low price seems to be the motto of this firm.

Where to Eat. The seven hundred seating capacity at Bird's Dining Hall, directly behind the grand stand, is every day taxed to the limit. The reason for this popularity is not far to seek. Only the best food is served, and you get "all you can eat" for a quarter. When you visit the exhibition, eat at Bird's.

Guests. Who decorated the city streets? The D. Pike Co., 123 East King-st.

Wonderful Samai Twins. A wonder such as has never before been seen on the Midway is drawing thousands every day to the playhouse where the little Samai Twins are being shown. The little children from the Philippine Islands were born together, joined together, and according to medical and surgical science, they must go thru life and die together.

They are still more wonderful than the much talked of Siamese Twins. When little Lucio walks forward, little Simplicio is compelled to walk backward, and vice versa. They are fond of their play as any other children could be, and their little playhouse is crowded each night with children, and grown-up children, each with their expressions of wonder or sympathy. The twins are healthy and well developed, as their enormous appetites testify.

Don't fail to see them, as a visit to these wonderful twins will make you feel cheerful, and you will go away with joy in your heart, more than satisfied with life.

The Independent Order of Foresters. The luxuriously decorated tent of the Independent Order of Foresters is one of the most popular resorts on the exhibition grounds. Situated at the head of Society Row, it is the stopping place of hundreds of Foresters from all over the world who have called and registered. It seems to be the universal expression of all Foresters that this magnificent tent is one of the most beautiful spots on the grounds. Inside the beautiful "tent garden," as the pretty place has been called, every comfort and attention is shown to the members of the order as befits its constitution.

The enthusiasm shown by those in charge in telling of the many fraternal features of this great institution im-

FALL OPENING

Fashion-Craft Clothes

Saturday September 2nd

In All THREE Stores in Toronto

The third shop of Fashion-Craft, 426 Yonge street, corner Buchanan, will be opened on the above date, fully equipped to meet the requirements of our uptown patrons. All the newest models for fall and winter will be shown at either of our shops for your inspection and criticism on Saturday, September 2nd, and the following days. Men who appreciate the correct thing in clothes at reasonable prices are invited. Latest colors and styles in Suits, Overcoats, and Ulsters. Priced from \$15.00 to \$30.00.

Remember!

THREE Shops of

426 YONGE ST.—STEWART PRICE, MANAGER.

bues a like interest in all who talk with them.

The orphanage is their pet hobby. The caring for the orphans is a great work in itself, and one which should commend itself to every man or woman, rich or poor, "making them proud to be able to assist in such a noble work. This is not the only instance of the good work of the order in the Adirondack Mountains another branch of relief work has been established, where they have a sanitarium to which the greatest care is given to members who are afflicted with tuberculosis. It is impossible to describe what a Godsend it is to a companion or brother in that sad condition to be told, when because of lack of means they are unable to obtain proper treatment, that there is a sanitarium where treatment is given them and special attention granted them free of cost to each, supported by the grand order in the world to-day, with the meaning of fraternity, and their work and aims should commend themselves to every person.

The more the visitors talk with the brothers in charge of the tent, the more inspired they are with the importance of joining the Foresters which they can make application and pass the examination, and become protected with one of the best policies that is given in the world to-day, with the privilege and pleasure of uniting in this great fraternal work. There are some seventy-eight tubercular patients being cared for at the sanitarium in the Adirondacks at the present time, and the order has now under erection another large sanitarium on the Pacific coast and arrangements are being made to open a like institution here in Ontario.

To show how this great relief work appeals to the masses of people, no less than twenty-nine thousand, eight hundred and eighty-two applications for membership were received during the year 1910.

Remember, a yearly welcome is rendered to all at the L. O. F. tent, a place where you can leave your parcels as well as receive a souvenir blotter with the pictures of the orphanage, the sanitarium, the Temple Building, headquarters of the L. O. F., and the Honorable E. G. Stevenson, Supreme Chief Ranger. If you are a member, come and talk with the members in charge. If you are not a member, call on them and convince you that the Independent Order of Foresters is an order in whose charitable and relief work, to say nothing of the many benefits accruing from a membership.

Unique Piano Improvement. The Violotom System, a logical application of acoustic principles and a registered feature in the Martin-Orme, is one of the outstanding features that have contributed to the phenomenal success of the Martin-Orme Pianos and Players exhibited in the manufacturing building. This is one of several ideas employed that bring out a pure,

melodious singing tone entirely unclouded by harsh or metallic suggestion that characterizes unskillfully made instruments. Do not miss this exhibit.

Resalship. An expression of satisfaction bespread the faces of the hundreds of people who thronged the booth of the Producers Sales Company, selling agents for the famous Sealship Oysters. Plates of the "only oyster that has been inspected in the face" were served all day, and it seemed as if the people couldn't get enough. Call at the exhibit and test the superior quality for yourself.

If you allow flies to flock into your place of business your trade will fly from you. A hint to restaurant keepers and food vendors is THE WONDER FLY-KILLER. 136

MORE YONGE-STREET DEALS. Portion of Matheron Hall Property Sold—Collier-Street Corner Changes.

North Yonge-street property has been quite active lately. A part of the old Matheron Hall property at 393 Yonge-street has been sold by J. Lewis Burnand to J. H. Taylor for \$65,000. The property affected is 90 by 127 feet.

The northeast corner of Yonge and Collier-street has been sold by W. S. Dinnick to H. L. Armstrong at a price of about \$30,000. The corner is 42 by 129 feet, and it is believed will be used for a branch bank. T. L. Wilson has purchased 198 by 148 feet on the northwest corner of Avenue-road and Bloor-street for \$32,670.

Labor Day Excursions to Olcott Beach, Rochester, Buffalo and Syracuse, via splendid steamer Olcott and fast electric trains. Telephone Adelaide 540.

Aldermen in Labor Parade. The city council will take a part in the Labor Day procession, and the mayor has issued instructions for carriages to await at the city hall Monday morning.

YOUR VISIT TO THE EXHIBITION CAN BE MADE PROFITABLE TO YOU

Call at My Office and Take the Opportunity to Consult Me Free

As science advances the more apparent becomes the folly of employing harsh and dangerous measures in attempting to cure the ailments of men. Drastic dosing and useless cutting have done irreparable injury to thousands of cases. Cure all special diseases of men permanently and by painless methods that cannot possibly produce undesirable results.

My Treatment for Weakness Free. Functional derangement, such as premature loss of power, etc., is neither a "weakness" nor a disease. It is a symptom of gland disorder. To stimulate activity by the use of powerful tonics is an easy matter, but such results are merely temporary effects. Most doctors treat "weakness" in this manner because they do not know how to cure the real cause of the derangement. I am employing scientific and successful methods. I use no tonics at all. My treatment is a local one, and corrects every abnormal condition of the vital centres. My cures are real cures.

AMPLE PROOF WILL BE GIVEN YOU ON REQUEST. If you haven't confidence in electricity, let me treat you at my risk. I will give you the Belt on trial, without one cent of risk to yourself. Give me reasonable security and I will take your case, and you can PAY WHEN YOU ARE CURED

Let me treat your case in my own way. Let me apply a steady current of Galvanic Electricity to your weakened system with my Dr. McLaughlin's Electric Belt. Wear this appliance night after night for a few weeks, and it will drive out all those pains and aches; it will restore energy and equilibrium to your nervous system; it will fill your body with fresh strength and energy; it will give you back the powers of Manhood and make you a Man among Men.

The Dr. McLaughlin Electric Belt is a cure for all signs of Breakdown in Men and Women. The Vitality of the body is Electricity—the force in the Nerve cells. My Electric Belt will give you back this power and enable you to fight on in the Battle of Life.

3,800 PAIRS OF MEN'S BOOTS

Have Full Marching Orders

There are two big lots in this special purchase—passed over to us at a very attractive price—owing to late delivery. We pass these \$5 Boots over to you at the very **\$3.45** attractive price.

Lot One Q.O.R. Specials

2,200 pairs in this lot, heavy boots which missed connection in delivery, made specially for officers and men of our own Queen's Own Rifles. The boots are tan and black, and made of thoroughly waterproof calf, best selected leathers, solid oak tanned soles, bellows tongued, Goodyear welted, made in shapely comfort-giving lasts, and in a complete range of sizes—splendid fall and winter boots for any man to wear—soldier or civilian, made to be the best military boot that ever left the factory to sell at \$5.00, with a "marching order" sale ticket on every pair, at...

\$3.45

Lot Two—Factory Samples

2,600 pairs of these man's boots. This is a remarkable lot made in our own factory. Sample Boots—"trial" pairs—many of which never have been duplicated, an accumulation of real worthy boots that all factories are subject to. High-grade boots, mostly fall weights, reasonable footwear, every pair of them new style, very best leather, tan and black, laced and buttoned. Lines that would sell in the regular \$4.50 to \$8.00 class, and we are tying them up to the big Q.O.R. Special to give the greatest kind of an assortment, and offering them also at...

Wells Offered \$30,000 Purse.
NEW YORK, Sept. 1.—George MacDonald, manager of Matt Wells, the champion English lightweight, who defeated Knockout Brown on Wednesday night in Madison Square Garden, announced this afternoon that he had received by cable an offer of \$30,000 for a bout in London between Wells and either Packer McFarland or Ad Wolgast. McDonald said he would do nothing until after the McFarland-Wolgast bout in Milwaukee, when he would begin negotiations looking to putting Wells in the ring at London, or in some western city of this country, in a bout to be staged by Tex Rickard.

"C. C. M."—The gentleman's Motor Cycle.
Tommy Burns, former heavyweight champion pugilist of the universe, and a member of the Vancouver lacrosse team, which beat New Westminster last Labor Day, blew into Vancouver from Seattle in some swell togs, and at once announced his faith in the ability of Vancouver to separate New Westminster from the Minto Cup, backing the announcement up with an offer to wager any part of \$2500 that Vancouver will win the mug.
Tommy has been following the lacrosse situation from his home in Calgary, where he is now located, and he has closed up

quite a bit on the series so far, as he believes the green-shirts are superior to Westminster, and is willing to back his opinion. He called on the sporting editor of The Province this morning and made the declaration regarding the wager. He will back it up with a marked check from his Calgary bank, and in the meantime he has arranged with President Jones of the Vancouver Club to deposit the necessary amount with the sporting editor of The Province pending the arrival of the cheque from Calgary.
The former champion is figuring on having a Calgary team in the Coast League next season. He says there is backing to the extent of \$10,000 for the team, and he thinks it would be self-supporting, particularly if Victoria also entered the league and made it a four-club circuit.

Burns was only in the city long enough to fan a little on lacrosse. He came in from Seattle by boat and left on the east train this morning for Calgary, Vancouver Province.

Nothing to do but enjoy it—"C.C.M." Motor Cycle.
"A penny stamp, please—and, by the way, haven't I seen you before?"
"Yes, madam. I had the good fortune to save your life last week."
"To be sure—to be sure—two penny stamps, please."—Punch.

His Own Fault.
Two young employees of a florist in Philadelphia, who are supposed to be variously employed in the rear of the establishment while the boss looks after things in the front, were recently startled by the appearance of the "old man" while they were engrossed in a game of checkers.
The proprietor was justly indignant. "How is it," he demanded, "that I hardly ever find you fellows at work when I come out here?"
"I know," volunteered one of the youths; "it's on account of those rubber heads you insist on wearing."—Harpur's Magazine.

Erratic.
"One objection it seems to me against being a great man," said the person who habitually does his thinking along erratic lines, "is that after a statesman has made footprints on the sands of time it keeps him busy trying to obliterate them."—Puck.

Mutt and Jeff
Will Be Back Next Week

UP TO CLOSE AT WINDSOR DENHAM MINS HANDICAP

Question Mark Lands Distance Event in Fast Time—Horses Going to Montreal.

WINDSOR, Sept. 1.—The Valley Farm Stables furnished the winner in today's feature race at Windsor, the Canadian Handicap, to which a purse of \$1200 was added, conditions calling for Canadian-bred horses. Denham made a show of his field, he carried top weight, 122 pounds, made all of his own pace and won in a romp. Question mark appreciated the easy victory of Wednesday by running the mile and a sixteen hundredths in runaway fashion. McCahey rode the first three winners in the mile maiden race My Fellow and Emerald also were supposed to be good horses. Filles and mares, three-year-olds and up, selling, 5 furlongs: 1. The Pippin, 112 (McCahey), 6 to 1, 2 to 1 and even. 2. Flying Footsteps, 107 (Steele), 3 to 1, 4 to 3 and 2. 3. Top Note, 112 (Koerner), 5 to 1, 4 to 1 and 2 to 1. 4. Time Lick, Abrasion, Corinth, Anna L. Daley, High Flown, Muskmelon, Minnie Bright and Malaine also ran. SECOND RACE—Purse \$500, selling, 5 furlongs, three-year-olds and up, Canadian-bred. 1. Denham, 122 (McCahey), 9 to 20 and out. 2. Saper Sause, 112 (Wilson), 3 to 1, 1 to 4 and out. 3. Comnola, 108 (Henry), 5 to 20 and out. Time 1:40 2-5. Only three starters. THIRD RACE—Purse \$500, three-year-olds maidens, mile. 1. Outlan, 112 (McCahey), 7 to 5, 3 to 5 and 1 to 4. 2. San Berito, 107 (Hoffman), 20 to 1, 8 to 1 and 3 to 1. 3. My Fellow, 107 (Goose), 5 to 1, 2 to 1 and 4 to 5. Time 1:40. Emerald Isle, Otter, Little Earl, Choplank, Wilfred Gerdes and Donnybrook also ran. FOURTH RACE—Purse \$500, selling, handicap, three-year-olds and up, 1 1-16 mile. 1. Question Mark, 108 (Wilson), 5 to 1, 2 to 1 and 4 to 5. 2. Blackford, 107 (Sweeney), 13 to 5, 7 to 5 and 7 to 10. 3. Time Lick, 110 (Hoffman), 15 to 1, 5 to 1 and 5 to 2. Time 1:45 2-5. Taboo, Console, Ta Minton and Beauport also ran. FIFTH RACE—Purse \$500, two-year-olds, selling, 5 furlongs (Burns), 20 to 1, 8 to 1 and 4 to 1. 2. Congressman James, 108 (Peak), 8 to 1, 2 to 1 and 1 to 1. 3. Hamilton, 108 (Wilson), 8 to 1, 3 to 1 and 3 to 5. Time 1:31 2-5. Commuter, Reas, Seven Stars, Flamma, Yankee Lotus, Onisco, Diamond Buckle, Alooha and Pekelsho also ran. SIXTH RACE—Purse \$500, three-year-olds and up, selling, 5 furlongs. 1. Montclair, 110 (Henry), 5 to 1, 2 to 1 and out. 2. Blackoana, 108 (Diggs), 11 to 5, 7 to 10 and out. 3. Venia Storme, 110 (Wilson), 11 to 1, 2 to 1 and out. Time 1:32 2-5. Vreelid also ran. SEVENTH RACE—Purse \$500, four-year-olds and up, selling, 1 1-8 mile. 1. Montgomery, 101 (Wilson), 9 to 5, 4 to 5 and 1 to 2. 2. Lad of Langdon, 106 (Diggs), 5 to 1, 8 to 5 and 1 to 2. 3. Third Rail, 106 (Bell), 9 to 2, 3 to 2 and 2 to 2. Time 1:52 2-5. My Gal, Brevite also ran.

The World's Selections BY CENTAUR

Hotel Kraussmann, King and Church Sts. Ladies and gentlemen. German grill. Breakfast 12 to 12.30. Served German beers on draught.

O'Keefe's Canadian Barley-Malt Beer vs. U. S. American Corn-Rice, etc. Beer

The following extract from The Mail and Empire, of August 23rd, is borne out by facts developed in an investigation instigated by U. S. Secretary of Agricultural Wilson.

WHAT GOES INTO AMERICAN BEER

"The layman's understanding of beer is that it is composed of barley, malt, hops, yeast, and water. In the United States, however, it would appear that much of the beer is composed of CORN, STARCH, CARAMEL, SUGAR, SACCHARIN, SYRUPS, RICE, GLUCOSE, LUPULIN (which is an acid imitation of the essence of hops), and any one of a dozen different drugs that will give beer a distinctive color. Among the thousands of breweries in the United States there are only twenty-five that are turning out barley-malt beer. In fact, the counsel for the barley growers said that BARLEY-MALT BEER is almost extinct."

The Purity of O'Keefe's Beer, Ale, Porter or Lager is Guaranteed Under Canadian Excise Laws.

The Canadian Excise Law enforces a severe penalty when any ingredient other than water, Barley-Malt and Hops are used in the brewing of beer. None of the articles mentioned in The Mail and Empire article are used in the brewing of O'KEEFE'S ALES.

All O'Keefe's Brews are made from the finest Canada barley-malt and choicest domestic and imported hops, and pure, filtered water.

Not much wonder that O'Keefe's Brews are known as those that are driving imported beers out of Canada.

O'Keefe Brewery Co., Toronto

The Sort of a Job He Wanted. "There's what I'm looking for," said the layman going thru the want advertisements for an easy job, as his eye lighted on a call for canvassers to sell something that "would sell itself."
"That's the sort of a job I want," he said to himself. "Something that I can earn money at without work. And he thought that really some day he must go down and look 'em up."

"Mr. Khalil's Identity.
"When he is shown of his royal locks the man who is in the 'king business' does not differ much from the ordinary mortal," says an American tourist, writing from Carlsbad to The New York Tribune. While on tour at Baden, near Vienna, he had as neighbors Mr. and Mrs. Khalil of Bagdad, and their two children, a girl of 8 and a boy of 2 years of age. Mr. Khalil was gouty and lame, but he took long walks with his family, which seemed to us to be an 'ideally happy' one. Everyone knew that the Bagdad people were the ex-Shah of Persia and his wife and children, but knowing that they were there innocent no one ever referred to them otherwise than by the name which they had assumed.

RICORD'S SPECIFIC
The only Remedy which will permanently cure Gonorrhoea, Catarrh of the Bladder, Stricture, etc. matter how long standing. Two bottles cure the worst case. My signature on every bottle. Question Blank. Medicines furnished in tablet form. Hours: 10 a.m. to 1 p.m., and 2 to 4 p.m. Sundays: 10 a.m. to 1 p.m. Consultation free. 647 B' Toronto St., Toronto, Ont.

W. A. CLARKE GIVES GOOD PAPER TO ASSOCIATION

And All the Items Were Adopted—Will North Toronto Roads Bylaw Carry?

Among the many good papers contributed at the annual meeting of the Ontario Municipal Association, which closed on Friday, was one of especial interest from W. A. Clarke, assessment commissioner of York Township...

One of the suggestions made by Mr. Clarke, and later adopted unanimously, was that the Ontario government should be memorialized to inaugurate a special municipal department to deal with statistics, health, drainage, colonization, roads, audits, railways and municipal rate, legislation, etc.

Referring to the question of municipal sinking during the past 25 years, Mr. Clarke stated that very little improvement had been effected, except thru the appointment of a provincial municipal auditor...

Referring to the assessment question, Mr. Clarke said: "The assessment of many of the townships is much larger than that of the towns and in some cases equal to the smaller cities, and I fall to find any reason why such townships should not be permitted to enter a collective rate in the collector's roll..."

A number of other matters are discussed by Mr. Clarke in his paper, which was of a most valuable character and replete with information and timely suggestions.

WEST TORONTO, Sept. 1.—(Special.)—Registration in West Toronto on the opening day was brisk, his voters taking the trouble to get on the roll, and yesterday 45, with it is thought about the same to-day. Saturday is expected to be a big day...

WEST TORONTO, Sept. 1.—(Special.)—The idea of a circular letter setting out all the good points of the parallel roads is a good one, especially as it is expected that a copy will be sent to every property-owner...

WEST TORONTO, Sept. 1.—(Special.)—Now that the contract has been finally disposed of for the electric lighting, and last night's meeting of the fire and light committee was the first held since the passage of the bylaw, a good deal of interest is centered in the matter...

PICKERING MEDICAL, SURGICAL AND X-RAY INSTITUTE

PICKERING, ONTARIO. R. ELGIN TOWLE, M.B., M.D., C.M., Physician-in-charge.

PEASE THE FURNACE

What it does Stands for simplicity in furnace construction. Distributes heat evenly from every register. Requires the least attention. Lasts longer with a minimum of repairs. Extracts the greatest quantity of "heat" possible from the fuel used. Has a special contrivance which assists in consuming the gases which would otherwise escape up the chimney. Makes practically no dust at all in the house, on account of its specially constructed cup joints. Is the most economical both from a fuel burning standpoint and cost of upkeep.

What it costs It may cost a little more to instal than most furnaces because only the highest quality materials are used throughout its entire construction. But it costs less for fuel because of the special construction of its combustion chamber, air blast, and radiating surface. It costs less to operate because owing to the high quality of material used throughout it costs practically nothing for repairs and lasts longer.

What it saves Your temper, because it always works right and is "on duty" all winter through. Labor, because there is practically no dust when you use a "PEASE." Money, because it burns less fuel and needs almost no repairs. Backache, because you don't have to stoop with its new shaker. It will save you from all future heating troubles if you instal one this summer.

"ASK THE MAN WHO HAS ONE."

**FALLACIOUS ARGUMENTS
FAKED UP FOR FARMERS**

Continued From Page 1:

ground into flour and shipped to the New England States; spring wheat and the flour therefrom, other than used in Canada, was most largely shipped to Great Britain, where also peas, chamois butter, apples, etc. found a market. The butter of the townships and from the Brockville district, accounted for some U. S. jobs, but too good for sale as Canadian butter, was accordingly re-stenciled under the name of a high-class make of butter before being re-exported by U. S. exporters.

Oats were sometimes sold in Great Britain and sometimes in the U. S., the army contractors were large buyers at the time of the civil war.

Peaswood in Demand.

The days of success in working wood into pulp, were those in which the United States mills were working rags and other fibrous material, they had wood in plenty when demand of the mills.

During late years I have traveled over the United States, and have been surprised to see that the pulp woods are about exhausted there. The exhaustion of supply is a matter of fact. It has been an influence in the U. S. in favor of the reciprocity pact, and to have it made quick, but what was the consideration that influenced Laurier, Fielding and Paterson, to have it made quick; in what way could that hustle give the farmers a chance?

A national give-away increases desire.

A tariff for revenue promotes no industry.

The intense desire in parliament, in the Liberal press and in ambiguous speech, in a give-away, in which there is no honesty in the obvious phrase.

Neither the farmers nor the manufacturers have been taken into the confidence of the three nation-brokers, the people would suffer by blind-fold negotiations.

Fortunately the politicians of 1886 had vision of the three nations, and after the abrogation of the said treaty, they showed that they were builders, not wreckers, and Canada prospered as never before in all the years of and since the abrogation of the said treaty.

The provinces were united and the flour from the Ontario mills found customers in the maritime provinces, the fish and oils in exchange finding buyers in Ontario and Quebec, instead of New York and Boston.

It became, however, evident that an industrial policy was necessary to Canada, and the late Sir John A. Macdonald on March 2, 1871, then leader of the opposition, moved:

National Policy.

"That this house regrets that the financial policy submitted by the government increases the burden of taxation on the people, and that it is not compensating advantage to the Canadian industries; and, further, that this house is of the opinion that the deficiency in the revenue should be met by a diminution of the expenditure and by such readjustment of the tariff as will benefit and foster the agricultural, mining and manufacturing interests of the Dominion."

The farmer at that time had had their chance, but the Liberals deflected the motion in the house of commons.

When that motion was submitted to the electors, the people of Ontario and defeated the now Sir Wilfrid Laurier in his home constituency.

Canada has since developed industrially, even American manufacturers, relying on the stability of the tariff, have erected branch factories in different parts of the world, and the farmers and artisans have made a home market as well as the foreign markets.

In those markets the farmers have prospered.

The Laurier, Fielding, Paterson party have not dared until now—and it may be fairly asked why, now, have they dared to confuse the social, political, transportation and commercial conditions, which have been attained under the motion then carried by the electors and since confirmed by the consent of the people, in that the carrying out of that motion has been a benefit to the agricultural, mining and manufacturing interests of the Dominion?

Evil Effects Already.

The effect of their mischievous interference is already felt in the disposition of the investors of Great Britain to aid in Canadian undertakings, and it is seen in a go-slow trade in Canada; in one far-sized factory, where I was to-day, there was silence, no work doing, only a few men in the place. Why? The answer is: "The makers in the United States are sending large quantities of their like goods into Canada, possibly at a loss; we cannot see how they can make money at their prices; we cannot compete with them."

Would the closing down of 100 or 1000 such factories in Canada give the farmers a chance? If not, vote against Laurier, Fielding and Paterson.

Is it not a wickedness that three men dared, of their own will, unsolicited by the people, to threaten hostile legislation to the agreement between the people on Sept. 17, 1878?

The will of the people is the sovereign will.

The manufacturing development in Great Britain was an argument in favor of Cobdenism, because its industrial development required the foodstuffs of other countries; and under the like law of demand, as the industrial development of Canada progressed, the demand for the foodstuffs of the farm increased, and the farmers got their chance. Canada has thriven on the productions of the soil required by industrial labor and by the artisans in their industrial development. The farmers and artisans have made Canada a land to live in; the combines, monopolies, traitors and underminers would make it not alone a "finished town," but a finished country, and the present is a time to be suspicious of the motives of Laurier, Fielding and Paterson.

United States' Panics Start.

Referring to the next historic event in the said reciprocity event:

In 1857 a bank failure in the United States. It started prices downward. The United States suffered from a financial panic in which there were many failures; real estate and commodities were hard to sell at any price; two United States railway companies suspended payments; and Canada, inter-acting with the affected was in the condition. Flour and wheat was almost unsaleable; the treaty neither gave better prices nor a market.

I remember that the firm of J. & D.

INHERITED A FORTUNE.

CHATHAM, Sept. 1.—(Special).—F. Garner, Richmond-street, who conducts a tailoring and pressing establishment on West King-street, two door east of Bradley's grocery, yesterday received word that he had been left heir to £10,000. The legacy was left by a bachelor uncle, who left £10,000 each to Mr. Garner and his surviving brothers, their father being a favorite brother. Mr. Garner has a wife and a family of seven. He was born in the old country and came to Chatham about sixteen years ago, where he has since worked at his trade as a tailor and cutter.

The Last Great Day.

Monday is the last of the summer holidays and the last on which the lake steamers make extra trips. A splendid service will be in force on the Hamilton route, both the Steamers Macassa and Modjeska making extra trips to provide for the traffic. The sailings from Toronto will be at 8 a.m. and 11 a.m., 3.30, 7.30 and 11.15 p.m., and from Hamilton at 8 and 11 a.m., 2.15, 8.15 and 10.15 p.m. The 50 cent fare is in force.

Take Triscuit with You

Take it with you on the fishing trip, on the automobile tour, to the Summer camp, the bungalow in the woods, the cottage by the sea, wherever you go to escape the trials of housekeeping, the worries of business or the weariness of Summer days.

TRISCUIT

is the Shredded Wheat wafer, made of the whole wheat, steam-cooked, shredded and baked by electricity. It is crisp, tasty and full of nutriment. Serve it with butter, cheese, caviar or marmalades—or eat it with nothing. Enough Triscuit can be taken in a fisherman's creel to supply all the strength needed for a day's sport.

Shredded Wheat Biscuit with berries of other fresh fruit, served with milk or cream, makes a complete, wholesome, nourishing meal. If you like Shredded Wheat Biscuit for breakfast you will like Triscuit for any meal with butter, cheese, caviar or marmalades. Contains more nutriment than meat or eggs and is more easily digested.

Made only by
Canadian Shredded Wheat Co., Limited
Niagara Falls, Ont.

Liquor Habit

THE GATLIN INSTITUTE
A PRIVATE SANITARIUM FOR THE SUCCESSFUL TREATMENT OF ALCOHOLISM, 428 JARVIS ST., TORONTO.

THE GATLIN TREATMENT IN THREE DAYS

Removes all craving and desire for liquor, without hypodermic injections. It is the most successful treatment in the world for the liquor habit.

Each patient is accepted for treatment under legal contract that it has to be entirely satisfactory in every particular, or the fee paid is refunded when the patient is leaving the Institute, and the treatment costs nothing.

The Gatlin Home Treatment is just as effective as Institute treatment if simple directions are followed.

Call, write or phone for booklet, copies of contracts, etc.

TORONTO WOMAN MURDERED.

NIAGARA FALLS, N.Y., Sept. 1.—(Special.)—That the young woman whose body was found in a lonely field near Lewiston, August 14, is that of a Toronto woman, Coroner Harry. Ems to-night admitted that he believed. He said that two slips of paper, each bearing a Toronto address, had been found last Monday in the field where the murder took place. He went to the Canadian city and learned that a young woman was missing from one of the addresses. He refused to divulge the address or tell the name of the missing woman. The body was so decomposed that identification was impossible. A bullet was in the back. An arrest is expected any time now.

There Was a Reason.

The army in Flanders had begun to swear dreadfully. "We've got to do it to keep warm," the soldiers explained. "The war department doesn't give us enough blankets!"

THIS MOVING PICTURE SHOW WORTH A SPECIAL VISIT

Free Entertainment in the N. C. P. Building Full of Interest and Helpful Ideas.

If you would like to learn how expert landscape gardeners would arrange your garden:
How to arrange vines, shrubs, flower beds to secure the best effects;
How a whole neighborhood was transformed and beautified through the efforts of one man;

How vacation time can be made both interesting and profitable to the boy;

And how one of the largest employers on the continent has provided for the comfort, health and happiness of his 5000 employees by providing a restaurant, rest and reading-rooms where they can enjoy all the comforts of home during dinner hour, also a gymnasium and baths, library, hospital and other conveniences to brighten their working hours, and an athletic field, tennis courts, country club and other privileges to make their leisure hours enjoyable.

If these things interest you, be sure and take in the lecture which is given every hour in the National Cash Register Company's own building, situated near the former women's building, a few steps north from the main entrance to the grand stand.

The "Lecture" is almost entirely one of pictures—beautiful colored slides and most interesting motion pictures—whose varied subjects provide one of the most interesting and fascinating features of the whole exhibition.

You will come away with feelings of surprise, delight and appreciation. The lecture is given every hour, admission is free. Comfortable seats are provided and refreshments are served to all without charge on the lawn after each performance.

Many appreciate the welcome, rest and the novel entertainment which is provided.

CONFESED TO INCENDIARISM

Perjured Himself Seven Times During Investigation.

MONTREAL, Sept. 1.—Henri Carufel, in the witness box to-day, related to Judge Lanctot how at the investigation of Ovide Lambert, the lessee of the hotel, he had sworn to Pelouquin's Hotel on May 28 last. As a result of his confession Ovide Lambert, who up to date has been out on bail for \$2000, was sent to jail to await his trial. The cross-examination conducted by Mr. N. K. Lafamme brought out that Carufel had perjured himself no less than seven times during the investigation before Fire Commissioner Riches a few days after the fire.

Carufel claimed that he was employed by Lambert to work for him as a bartender. Three weeks before the fire Lambert had showed him two large suitcases which were stored in the back room of the hotel. At the time he said that he understood that a man named Roy had offered to set the place on fire.

About eight days before the blaze Carufel claims that Lambert came to him and made some remarks which regard to taking Roy's place. Carufel claims that Lambert told him to empty the two jugs of oil in the bar, throw a match into the pool and run to safety.

He claims that he did as he was instructed and the hotel was burned.

WOULD WRECK BUSINESS

Thomas Robertson, Big Manufacturer, Disgusted With Liberal Policy.

Another prominent Liberal has abandoned his party on the trade issue. Thomas Robertson, head of the confectionery firm of Robertson Brothers, the largest manufacturers of confectionery in Canada, has announced that he will not support his party at this election.

"We are going to be crowded out by the confectionery manufacturer from the other side of the line. In fact our place will be destroyed altogether," said Mr. Robertson, whose factory employs 200 people. "I want to know what right any man has to take away from me my business. How would the farmer like to have his farm wrested from him?"

"Now, the duty on confectionery is going to be reduced two and a half per cent, and the anti-dumping clause will not apply to confectionery. Take corn syrup for instance; if it comes over in the form of finished confectionery the anti-dumping clause does not apply to it. Now if the American Government were to allow a drawback on confectionery to the same amount as their duty on imported sugar, we would be exposed to their competition all along the border. American confectionery would pour into Canada, and the anti-dumping clause would not apply to it."

"There is nothing strong enough I can say in condemnation of this reciprocity agreement. Language cannot express disgust with the whole business."

Car Lines Near Completion. Assistant Engineer Powell states that the street car lines under construction for the Toronto Railway Co. are nearing completion and will soon be ready for use. The Whitton-avenue line is being held up by the Broadview-avenue street widening proposals. The laying of the new line on St. Patrick street, east of Spadina, has been commenced.

Alleged Horse Thief Wanted. A warrant was sworn out yesterday by Inspector of Detectives Duncan, for the arrest of W. N. Fitchet of Burk's Falls. Fitchet is charged with stealing three horses from W. D. Martin of Barrie, selling them in Toronto and then making his way west with the cash.

Foot Guards Go to Albany. OTTAWA, Sept. 1.—The Governor-General's Foot Guards embarked tonight for Albany, N.Y., 400 strong. A large crowd saw them leave the armory in parade to the station. They will leave New York State capital again on Monday night for Ottawa.

1912

The Reo Special

30 h.p. five-passenger
with complete equipment, \$1,500

This is a NEW REO and a beauty. The Reo has always been a big dollar's worth, but the Reo Special offers more for your money than ever. It is a roomier car—easier running—simpler to control—and has better and more complete equipment. Everything that can be used on an automobile is supplied with the Reo special. All its metal trimmings are of nickel. Investigate this Canadian-made car, and remember that back of it is a factory service—right on the ground—that is anxious to make you a satisfied owner.

Easy Driving

In the REO SPECIAL both hands are free to drive. It has a left-hand steering wheel, and a right-hand change-speed lever. The latter is mounted in the centre of the car, close to the seat, just where the driver can reach it without bending. There are no other levers. The clutch and service brake are operated by one pedal with the left foot, while the emergency is the right pedal. The car can be brought to a stop without taking one hand from the steering wheel. This arrangement does away with side levers and permits free access to the driver's seat from either side of the car.

Comfort

The REO SPECIAL will run smoothly. A 112-inch wheel base, big 34x4-inch tires, longer and flatter rear springs, wider and roomier tonneau, and more foot room in front, will make for more touring comfort and longer wear in city use.

Construction

The REO chassis and the motor will be much the same as in 1911. The construction that stood the strain of that grueling cross-continent trip through sand and mud—over good roads and bad, early in 1911, when the REO ran from New York to San Francisco in 10 days, 15 hours, 13 minutes, ought to be good enough for even the REO SPECIAL. REO motors have done much to build up REO prestige. They are 4-cylinder, cast in pairs, 4x4 1/2-inch type, developing 30 horse-power, built in our own factory at St. Catharines. The general construction of chassis could not be made more durable. We have made some small changes, however. For instance, the running-board has been strengthened by using three supports in place of two. These supports are of channel steel, run under the board and

Specifications

Wheel base 112 inches; Motor 4x4 1/2 cast in pairs; transmission selective; Tinker and High Duty bearings; Ignition, Low Tension magneto and batteries, jump spark; Drive, direct shaft to bevel gears, Timken bearings; Front Axle, drop forged 1-beam—Timken Roller bearing spindle; Rear Axle, semi-floating—Timken bearings of gear, High Duty roller bearings at wheel (full floating differential); Tire 34x4 inches; Frame, pressed steel; Whesia, wood artillery, 24-inch demountable rims; Springs—front half elliptic; Rear, three-quarter elliptic.

NEW VITALITY FOR MEN Use the Free Coupon

Vitality gives you the manly courage to protect those depending upon you, as portrayed in the picture. No matter what thoughtless action or early indiscretion may have sapped your strength, Vitality restores it to you. It makes you over into a strong, vital, manly man, without an ache, pain or weakness. Vitality puts the real VIGOR OF YOUTH into your blood, no matter how nervous, debilitated you may be; it puts the sunshine of vigorous manhood into your life. I make you feel young and keep you feeling young, without the use of drugs, without the necessity of dieting, without one bit of change in your present mode of living, except, of course, dispensation must cease. But lead a manly life and use my HEALTH BELT, everything else will come. My HEALTH BELT, with suspensory attachment, worn nights, pours a great soft stream of MEDICAL STRENGTH into your blood, nerves and organs during all the hours you sleep; in one night it takes the kink, pain or weakness out of your back; ere long, friends will say, "How well you look," and you are answering, "Never felt better in my life!" Your eyes will sparkle with health; you will have that "pleasing" influence of fascination and control which comes to all full-blooded, strong, vital, manly men. Thousands upon thousands are now using my Health Belt all over the world. With special attachments it cures rheumatism, kidney, bladder, stomach disorders, etc.

Let Me Send You This Book FREE

This 36-page book, illustrated with photo-illustrations, gives a fund of health, vigor and vitality information which no man, single or married, can afford to be without; it points out Nature's way to preserve manhood and how to restore it. I send it to you willingly, free of charge, in a plain, sealed envelope. There will be no obligation on your part. Keep it in your pocket, think over what it contains, then if you need me, an order at your service. The book fully describes my Health Belt. It contains a chapter on rheumatism, stomach disorders and other ills. If you are in of need, Toronto drop in to see me; no charge whatever for advice. Please fill in the coupon when you send for book. Hours, 9 to 6.

TALKING PACT IN GOTHAM

Hot Discussion Going On in Hotel Corridors—W. E. Bagnall's Views.

Canadian arguments in New York City upon the reciprocity campaign seem to have centred largely at the Hotel Brestlin, David B. Mulligan, the manager of the hotel, is a Canadian and he says every incoming Canadian guest joins the little knot of men and women who nightly hold forth upon the possibilities of the issue.

The latest arrival to join in the meetings and make pertinent remarks about Laurier and reciprocity is W. E. Bagnall of Ottawa and also Prince Edward Island.

Mr. Bagnall said, among other things:

Olds Engines

FOR GAS, GASOLINE OR KEROSENE

SOME OF THE SPECIAL FEATURES:

FIRST—The jump spark system of ignition, being the most simple and effective system known. No complicated parts.

SECOND—The water jacket, cylinder, valve chamber and main frame are four entirely separate castings, making the engines very accessible, and reducing the cost of repairs to a minimum.

THIRD—The speed-changing device enables the speed to be changed at will while the engine is in operation.

FOURTH—The cylinder head is cast integral with the cylinder. There is no packing to blow out, nor are there any ground joints to leak. One solid casting.

FIFTH—The piston and cylinders are made of the very hardest of iron, and are ground to a perfect fit. Each piston is ground to fit the cylinder into which it is to go.

SIXTH—The governor is of the hit-and-miss type. This is the most economical type known.

SEVENTH—Our patent Seager mixer permits a perfect mixture of gasoline and air, and is so constructed that the gasoline is lifted to the mixer without the use of a gasoline pump.

EIGHTH—The bearings are large, well oiled, and lined with genuine anti-friction Babbitt Metal.

NINTH—The OLDS combines simplicity and quality in every detail of its construction.

New Catalogue, "Farm Power," just off the press, is yours for the asking

CLEAN-UP SALE OF 50 LOTS

TO-DAY and LABOR DAY

you have a chance to enjoy a holiday outing, and also to make some money while you play. Just north of Stop 26, Lake Shore Road, you can take your choice of about 50 of the best investment lots along the lake shore. Prices start as low as \$6 PER FOOT. Terms: \$10 down; balance \$5 monthly. Find out about this NOW, and arrange for a holiday trip to the lakeshore.

Look these lots over to-day or Labor Day. The quicker the better, for they cannot remain unsold long at such low prices.

TO-DAY AND LABOR DAY

This property is most convenient. It is only a short distance from Sunnyside on a Lake Shore car. Get a plan of property. All offices are open all day Saturday.

LAKESHORE GARDENS

IMPROVEMENTS are making this property exceedingly valuable as an investment. The street car line is being double-tracked, the railroad viaduct is being built, the Lake Shore road is about to be macadamized, and the construction of the seawall and lake shore drive are a few big reasons why property here will double in value for investors very soon. Values now are exceedingly low, and opportunities for investment were never better.

LOTS are large and deep. Many buildings are now going up. 400 lots have been sold here already. Necessaries and conveniences are at hand. See this property for an hour on the holiday. Take a street car from Sunnyside out to Stop 26, where our representatives will be waiting to receive you all day to-day and Labor Day. Motor cars will be at our Sunnyside office, both days from 9 a.m. to 5 p.m. This advertisement is your invitation card to a most pleasant and profitable holiday outing.

FARMS FOR SALE.

\$50 PER ACRE will buy this comfortable farm home, situated right at a nice little village, about 20 miles from Toronto; five minutes' walk from church, school, postoffice, railway station, stores, etc. The buildings consist of a comfortable 8-roomed brick house, large hip-roofed barn, with splendid stabling underneath (cement floors in stalls), cement silo in barn, pigsty and drive house, about 2 1/2 acres, about half an acre of good orchard. This farm consists of about 23 acres, and last winter the owner kept 21 cattle, 12 of which were fat cattle, six horses and a number of pigs, on this farm. Farm is watered by well, clean and springs. The soil is a good, heavy loam, in excellent heart. If you are looking for a farm home, pleasantly and conveniently situated, don't fail to see this. Terms, \$200 cash, balance arranged. Further information from Philip & Beaton, Whitevale, Ont.

FOR SALE—Choice farm, 3 miles from C. E. R., 2 miles from G. T. R. station, water, 3/4-mile from church, school, station; telephone in, also rural mail delivery. If not sold soon will offer all under 5 acres and upwards. Thos. Hartley, Downsview.

90 ACRES—Scarboro, Lot 25, Con. 2; nine miles from Toronto; 60 rods from C. E. R., 2 miles from G. T. R. station, Agincourt; close to postoffice and church; soil clay loam; 8 acres hardwood and spruce; eight-roomed house; bank barn, hog pen and hen house; good well; for particulars apply to Wm. Spencer, Agincourt.

FARM for sale—100 acres, about ten miles from Toronto; close to good roads; within quarter mile of school and railway station; good soil; splendid orchard; spring creek; fine timber; bank barn; valuable property; only thirteen thousand. James Manning, 28 Scott Street, Toronto.

W. A. Lawson's List
FARMS FOR SALE by W. A. Lawson, 102 Church Street, Toronto.

24 ACRES—7 1/2 miles from Toronto, close to Kingston road cars, postoffice, school and church; rich soil; all under cultivation; six hundred and fifty.

5 ACRES—4 1/2 miles from Toronto, on good road; splendidly situated; superior clay loam; all under cultivation; fertilized this year; two hundred and sixty per acre.

8 ACRES—Near Richmond Hill, close to Metropolitan line, school and church; clay loam; under cultivation; splendid water, good fences; five-roomed house, barn and henery; twenty-seven hundred.

22 ACRES—Near live town in Muskoka; school, postoffice, church and station less than five minutes' walk from this property; rich loam; all under cultivation; 8 1/2 acres of bearing orchard; quantity of small fruit, plenty of water; good fences; ten-roomed brick house, bank barn and fruit house; forty-five hundred.

50 ACRES—Welland, near Niagara; 2 1/2 miles and half from station; school and postoffice close; sandy loam; forty-four acres cultivated; balance pasture; school section; ten-roomed brick house, peaches, pears, plums, 5 acres of strawberries, acre of raspberries, half-acre of asparagus; splendid fences; running water; ten-roomed house, modern in every respect; two barns, frame drive stable; twenty-five head of stock; thirty-three hundred; and it is worth the price.

100 ACRES—King, twenty-five miles from Toronto; main line station; clay and sand loam; forty-five acres under cultivation; balance pasture; 2 1/2 acres of bearing fruit trees; good buildings; also spring in pasture; good fence; eight-roomed house; bank barn; stable; twenty-five head of stock; thirty-three hundred; and it is worth the price.

SOUND FINANCING FOR PUBLIC UTILITIES

Municipal Association Delegates Favor Liberal Replacement Fund - Controller Spence President.

The distribution of the profits of municipally owned utilities was the main subject of discussion at yesterday's session of the Ontario Municipal Association.

His stand was opposed by Charles Gordon of Owen Sound, where all utilities are publicly owned.

A. R. Bunnell, the city treasurer of Brantford, proposed the establishment of a portfolio on municipal affairs.

BAND CONCERTS SUNDAY

Music at Hanlan's Point and Stirling Attractions Next Week.

Visitors to Toronto will have an excellent opportunity of hearing Toronto's famous musical organization, the 48th Highlanders' Band.

LAST CHANCE TO REGISTER

Conservatives are urged to make certain of qualifying.

All Conservatives, and especially those in the newer sections of West, East and North Toronto, would do well to ascertain before it is too late whether their names are on that portion of the municipal voters' list which entitles them to a vote in part II.

Build Your New Home - IN - the Suburbs

Your health and your love of nature demand a home outside the city. A lot in

LAWRENCE PARK (NORTH TORONTO)

Not only surrounds you with country air and lovely landscape, but you have all the conveniences you would have in the city - good car service, water, gas, electricity, sewers, etc.

LOTS ARE \$20 Per Foot up

Dovercourt Land, Building & Savings Company, Limited, 24 Adelaide St. East. Tel. M. 7280

An Ideal Trip for Saturday Afternoon or Labor Day - Visit

ALEXANDRA GARDENS

"On the Highlands of Toronto"

Select a Lot in this New Section of this Property for a Home at Opening Prices

The demand for choice homesite lots has been so great in Alexandra Gardens - that most desirable of the city's new residential sections - that the management, to meet it, are making a new survey to include the Bathurst street section, in natural beauty and situation just as desirable a section in which a man could build a home for himself as the Yonge street section; just as beautifully wooded, just as pretty ravines, just as delightful an outlook, and within a very short while will be just as convenient to reach because of its proximity to the new proposed car lines, which will put this section of Alexandra Gardens within a half-hour's ride of the business centre of the city.

By making a choice of a lot in this new section - and making it early - a man may have his ideal for a homesite that will not only give him everything that could be desired in point of situation - high and dry air, country environment, with ready accessibility to the city, etc., at ridiculously low prices, a property which is bound to rapidly enhance in value and, therefore, make the best of investments.

Representative will be on the ground on Saturday afternoon and Labor Day, or special appointments may be made to have you see the property if you are interested.

Some very choice lots will be offered at \$10.00 to \$15.00 a foot. Ask yourself where you can obtain a homesite in a restricted district at any such low prices.

THE TRUSTS AND GUARANTEE COMPANY LIMITED Managers for the Owners Phones M. 7475 and N. 3571 43-45 King Street West, Toronto

WELLAND REAL ESTATE INVESTMENT In a fast growing town is the best on earth The fastest growing town in Canada to-day is WELLAND WELLAND has 25 manufacturing plants. WELLAND has seven railroads. WELLAND has the Welland Canal. WELLAND has natural gas at 25c per M. WELLAND has electric power at \$12.00 per h.p. WELLAND needs 500 houses built. WELLAND needs 1000 men.

We own and offer as the best speculative investment in Canada a few choice lots in WELLAND SOUTH, adjoining the manufacturing district of Welland, at from \$100.00 per lot up. A REMINDER to either send NAME and ADDRESS to CANADIAN GENERAL SECURITIES CORPORATION, Limited, 39 Scott St. - Toronto.

FREEHOLD PULP AND MINERAL LANDS. 320 ACRES - 43 (discount for cash); no shipping restrictions; convenient for shipping. Lake Superior or Canadian Pacific Railway; Heron Bay; in rich mineral belt, of great promise; bargain to close an estate. Williamson, 15 Toronto street, Toronto. TENDERS. TENDERS will be received up to Friday, Sept. 8th, for all painting and glazing required in the erection of a 6-story warehouse at the corner of King and Parliament streets. 89 Lots Left Just the Place for Workingmen's Homes Every workingman should own his own home. He has no right to waste his money paying rent to a landlord, when he can own his own home and be a landlord himself for about the same money. We originally held 200 lots in the PARSONS ESTATE but have sold all but 89. Over 1000 families are living on the property, thrifty, comfortable and respectable. It is the most attractive of all the suburban settlements. Our plan is to put a man in possession of his land on payment of \$10, and he is then at liberty to go ahead and build his little home in spare time and get it finished in time to move in before winter. LOTS - \$5 to \$15 Per Foot TERMS: - \$10 Down, \$5 Monthly Go and choose a lot Saturday afternoon. Take Carlton or Lansdowne-avenue car to terminus, and go east to Dufferin, and north on Dufferin until you see the sign on the property. Make no mistake, Parsons Estate is the right place. If you cannot go, write for free illustrated book and full particulars. Dovercourt Land, Building & Savings Co., Ltd. 24 Adelaide St. East Tel. M. 7280

Queen Mary's Auto. Queen Mary's automobile is equipped with a top basket. The car is of English make, painted green, picked out with fine lines of lighter green, and the mouldings are black. The principal seat is for two persons with a rather loose folding seat in front hinged to the back of the driver's seat. The interior is lined with green morocco to match the paint and the fittings are of the mother of pearl and mouldings of brass. The radiator, crown and cipher are embossed on the door, in the back panels and on the dash.

ESTATE NOTICES. NOTICE TO CREDITORS - In the Matter of the Estate of William Henry Phillips, late of the City of Toronto, in the County of York, Builder, Deceased. Notice is hereby given pursuant to the statute in that behalf that all creditors and others having claims against the estate of the said William Henry Phillips, who died on or about the 28th day of March, A.D. 1910, are required on or before the 20th day of September, 1911, to send by post, prepaid, or to deliver to the undersigned solicitor herein for Catherine P. Phillips, the administratrix of the estate of the said William Henry Phillips, deceased, their names and addresses and full particulars in writing of their claims, and a statement of their accounts, and the nature of the securities, if any, held by them. And further take notice that after the 20th day of September, 1911, the said administratrix will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which she shall then have notice, and that the said administratrix will not be liable for the assets of the said deceased, or persons of whose claim notice shall not then have been received by her at the time of such distribution. Dated the 22nd day of August, 1911. GRAY & GRAY, 32 Lameden Building, Toronto. Solicitors for the said administratrix.

ESTATE NOTICES. NOTICE TO CREDITORS - In the Matter of the Estate of Christopher Archibald, late of the City of Toronto, in the County of York, Widower, Deceased. Notice is hereby given that all persons having any claim or demand against the said Christopher Archibald, who died on or about the 21st day of July, 1911, at the City of Toronto, in the Province of Ontario, are required to send by post, prepaid, or to deliver to the undersigned solicitor herein for the said Christopher Archibald, their names and addresses, and full particulars in writing of their claims, and the nature of the securities, if any, held by them. Dated at Toronto, this 19th day of August, 1911. ELLIOTT AND HUMBLE, 20 Adelaide-street west, Toronto. Solicitors for the executors of said estate.

JUDICIAL NOTICE - To the Creditors of Dome Lode Development Company, Limited. Pursuant to the winding-up order, made by the High Court of Justice in the Matter of Dome Lode Development Company, Limited, and in the matter of the Winding-up Act, Chapter 144 of the Revised Statutes of Canada and An Act respecting the winding-up of companies, passed in 1911, the creditors of the above named company and all others who have claims against the said company, are hereby notified to send by post, prepaid, or to deliver to the undersigned solicitor herein for the said company, their names and addresses, and full particulars in writing of their claims, and a statement of the securities of which they are in possession, and the nature and amount of the securities (if any) held by them, and the specified value of such securities, verified by oath, and in default thereof they will be peremptorily excluded from the benefit of the said act and winding-up order. The undersigned master-in-ordinary will hear the report of the liquidator on the 25th day of the month of September, 1911, at 11 o'clock in the forenoon at his chambers in Osgoode Hall, in the City of Toronto, Ontario, and the liquidator will hear the claim of creditors submitted to him pursuant to this notice, and let all parties be heard. Dated at Toronto, this 23rd day of June, A.D. 1911. GEO. O. ALCOCK, Master-in-Ordinary.

Mortgage Sale of Valuable City Property. Under and by virtue of the power of sale contained in a certain mortgage of sale contained in the vendors' title to the property, which will be produced at the time of sale, and on default being made thereunder, there will be offered for sale by public auction on Saturday, the ninth day of September, 1911, at the hour of 12 o'clock noon, at C. M. Henderson & Co., Auctioneers, 87 and 89 King Street East, Toronto, the following property, namely: That parcel or tract of land and premises in the City of Toronto, being composed of parts of lots Nos. 21 and 22 on the south side of Springhurst Avenue, according to plan No. 722, more particularly described in said mortgage registration as No. 496222, having a frontage on the south side of Springhurst Avenue of 100 feet, and a depth of 110 feet (1 inch) by a depth of eighty feet (80 feet), on which is said to be erected a semi-detached, solid brick dwelling house containing six rooms and a bathroom, and known as No. 48 Springhurst Avenue. Said lands will be sold subject to a first mortgage made by the vendors to the Toronto General Trusts Corporation, dated the 14th day of August, 1910, on which there remains due the principal sum of \$1250 and interest thereon, which is payable due to the said Toronto General Trusts Corporation, maturing on the 14th day of August, 1911, at 6 per cent. per annum. Terms - Ten per cent. of purchase money, to be paid down at the time of sale, balance to be paid within fifteen days thereafter. For further particulars and conditions of sale apply to F. W. CARNEY, 15 Yates Street, Solicitor for Vendors. Dated at Toronto the 17th day of August, 1911. 19,26,29

Commercial Reports

Deliveries Less Than Expected Market Moves in Narrow Range

Wheat Market a Stand-off Affair, With Prices Fractionally Firmer—Outside Business Decidedly Flat.

CHICAGO, Sept. 1.—Unsettled concerning Morocco furnished the wheat market to-day with a backbone. Accordingly, prices at the close were 1/2 to 3/4 to 1/2 higher than last night. Latest trading in corn varied from 1/2 to 1/4 to 1/2...

Northwest Receipts

Receipts of wheat in the primary centres were as follows: Week. Year. To-day. Week. Ago.

European Grain Exchange

The Liverpool market closed to-day 1/4 higher than yesterday on wheat and 1/2 higher on corn. Budapest closed 1/2 higher on wheat.

Winnipeg Inspection

Winnipeg receipts of wheat to-day graded as follows: No. 1 northern, 1,775,000 bushels; No. 2 northern, 1,000,000 bushels; No. 3 northern, 1,000,000 bushels.

Argentine Shipments

The Argentine shipments with comparisons, follow: Last wk. Last yr. This wk. Last yr.

World's Estimates

Broomhall estimates wheat and flour shipments from the Argentine for the week ending Sept. 1, 1911, at 4,000,000 bushels.

Broomhall's Cables

Australian wheat shipments, 1,000,000 bushels, against 1,000,000 last week and 600,000 last year.

India—Wheat shipments, 800,000 bushels, against 1,000,000 last week and 800,000 last year.

Russia—Our agent in the southeast cables that the demand from the south east for wheat from the Volga region is smaller.

Liverpool Wheat Market

LIVERPOOL, Sept. 1.—The market opened nervous, with a strong undertone, and prices higher, being influenced by the news in America yesterday and the increasing friction over the settlement of the Morocco situation.

Primaries

Wheat—To-day. Wk. ago. Tr. ago. Receipts 93,000 76,000 1,207,000. Shipments 33,000 40,000 474,000.

Liverpool Grain Prices

LIVERPOOL, Sept. 1.—Wheat—No. 1, 100s. 100s. 100s. No. 2, 100s. 100s. 100s. No. 3, 100s. 100s. 100s.

Winnipeg Grain Market

Winnipeg—Close. Open. High. Low. Close. Wheat—85 1/2 85 1/2 85 1/2 85 1/2 85 1/2.

ST. LAWRENCE MARKET

Receipts of farm produce were 300 bushels of grain, 15 loads of hay and a few dried beans.

HARVESTING RETURNS HIGHLY PROMISING

Optimistic Reports From Our Northwest, But Market Refuses to Enthuse.

Wheat—The outcome of the wheat market bears securing, the action for the day they expected. Best prices of the season were made on opening trades. First important consideration for wheat traders this morning was the smaller delivery than expected on September contracts.

Hay and Straw

Hay, per ton... 11.00 to 12.00. Straw, bundled, ton... 14.00.

Fruit and Vegetables

Apples, per bushel... 1.00 to 1.25. Potatoes, per bushel... 1.00 to 1.25.

Dairy Produce

Milk, per gallon... 10.00 to 11.00. Butter, per lb... 15.00 to 16.00.

Meats

Beef, per lb... 10.00 to 11.00. Pork, per lb... 12.00 to 13.00.

Grain and Produce

Local grain dealers' quotations are as follows: Canadian western oats, No. 1, 45c.

TORONTO SUGAR MARKET

Sugar are quoted in Toronto, in bags per cwt. as follows: Extra granulated, 9c.

Frost Damage Small

Despite newspaper stories to the effect that frost had done more or less damage to wheat crops, and that the grain was not ripening on account of continued cool weather, authoritative dispatches from all parts of the country seem to indicate there is no need to be at all alarmed.

UNION STOCK YARDS

Receipts of live stock at the Union Stock Yards were 25 cars—10 cattle, 100 sheep and 20 horses.

Total Live Stock

The total receipts of live stock at the City and Union Stock Yards for the past week were as follows: Cattle 2,700.

DOMINION SECURITIES CORPORATION—LIMITED

TORONTO, MONTREAL, LONDON, ENG.

Three Years' Trial

has proven the "Safe Lock" fence to be, without a shadow of a doubt, the strongest and most serviceable wire fence on the market in Canada.

Look at the illustration herein. There is absolutely no kink required to prevent the stay from slipping on the strand, therefore the horizontal wires are as strong at the point where the stay is attached to it as at any other place along the wire.

The "Safe Lock" is the only fence made of No. 9 wire throughout that has no kinks or sharp bends in the strand wires.

An ordinary kink which is frequently put in wires to prevent the stays from slipping, weakens the wire to the extent of approximately two hundred pounds. By this you can appreciate the advantage gained by the "Safe Lock" in that it is a fence in all respects, as the strain of a fence is all put upon the strands.

Write us for the name of our nearest agent and for our catalogue. We still have some territory open for live agents. Write us for agency if you can handle a good line of fencing and gates.

The Owen Sound Wire Fence Co., Ltd.

Owen Sound, Ontario.

The Canada Northwest Land Company (Limited)

\$3.50 RECIPE FREE FOR WEAK MEN

Send Name and Address To-day—You Can Have It Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, falling memory and lame back, brought on by excesses, unnatural diet, or the follies of youth, that has cured so many worn and nervous men.

This prescription comes from a physician who has made a special study of the human system, and is the surest acting combination for the cure of deficient manhood and vigor failure ever yet known.

I think I owe it to my fellow men to send them a copy in confidence, so that they may know, anywhere, who is weak and discouraged with repeated failures may find a cure in a few days, and a great many do.

Send me a prescription like this—but send it entirely free.

Oh Dear! Manufacturers' clothes are driving out the picturesque peasant dress of many sections of Europe, and now come word that the Asiatic caravan is being equipped with the automobile. Such is progress, and we must pay the penalties of it.

Manufacturers' clothes are driving out the picturesque peasant dress of many sections of Europe, and now come word that the Asiatic caravan is being equipped with the automobile. Such is progress, and we must pay the penalties of it.

Mostly fair and decidedly warm, but local showers, chiefly at night.

SIMPSON

To-Day's Great Opportunities at the Simpson Store

School Opens Tuesday!
This is the last and the best day to get the youngsters fixed up.

Travellers! Look at To-day's Prices on Club Bags and Suit Cases

(Main Floor)

Our Travelling Goods Department is on the Sixth Floor, but when Suit Cases and Club Bags are selling at factory prices we do not wish to congest the elevators. So we are arranging for this sale of Travelling Goods to be held on the Main Floor. Customers will find this more convenient, too.

Near the Queen Street entrance to-day will be held this great two-hour sale of Club Bags and Suit Cases.

Regular selling price 6.25
To-day's price 4.49

Our buyer secured 200 of these from a leading Canadian manufacturer, and proved again the buying capacity of the Simpson Company.

They are all made of first grade cowhide, and, in spite of the increased price of raw materials, we are enabled to sell these high-grade Cases and Bags at factory prices to-day.

Embroideries and Neckwear on Sale To-day at Half-Price

These are the finest Swiss loom ends, 2½ to 5 yards in length. All are perfect and clean. No seconds included.

There are Cambric and Nainsook Edgings, Cambric, Nainsook and Swiss Embroideries, Cambric, Nainsook and Swiss Flouncings; Nainsook, Cambric and Swiss All-overs; Swiss, Nainsook and Cambric Beadings and Bandings; Cambric, Nainsook and Swiss Corset Cover Embroideries; Dimity and Cross-Bar Swiss Flouncings, and "Baby" Swiss and Nainsook Skirtings.

LACE NECKWEAR CUT IN TWO FOR TO-DAY'S SELLING.

Round Collars, Dutch Collars, Stock Collars, Stock Collars with Jabots, and Swiss Stocks to sell at half price this morning:

\$1.00 Neckwear for50
75c Neckwear for38
50c Neckwear for25
35c Neckwear for18
750 Embroidered Shirt Waist Fronts, with plain material to match. To-day19
No phone orders filled.
1440 dozen Women's Lawn Handkerchiefs, with narrow colored borders, in good shades of blue, pink and mauve, with a very handsome colored embroidered initial to match the border 3 for .25

To-day's Sale of Ribbons

To-day will see the Ribbon Department at its best. Three lots of ribbon worthy of special notice:

Our line of fancy effects at 35c yard, just the right width for millinery, and the patterns are the most desired in stripes in shot effect, Oriental with stripes and plain with fancy stripe border35

Then our famous "9000" Duchess Satin, 5 inches wide, with its beautiful bright finish, in all colors. There is no ribbon more popular or better adapted for millinery purposes. To-day, per yard20

And now a 6-inch Taffeta Ribbon, in all the most desired colors. This is the line it is so hard to keep in stock, such is the demand for it; it is 6 inches wide, and most suitable for millinery, hair bows and sashes. Per yard15

To-Day!

The Store Will Be Open All Day

And don't forget that Monday, Labor Day, being a holiday, the store will be closed all day; so anything you'll need between now and next Tuesday morning,

GET IT HERE TO-DAY

The Great September Blanket Sale

It opened Thursday with the greatest first day's business we've ever done. To-day's values will delight the thrifty housewife.
