LET BRITAIN BE NEUTRAL PUBLIC'S URGENT DEMAND WAR PROSPECT APPALLING

Press and People Unite in Pressure Upon Government to Stand Aloof From Balkan Troubles—Steps Toward Mobilization Cause Anxiety

LONDON, Nov. 26.—(Can. Press.)—The possibility and danger of a greater war than that between the Balkan States and Turkey absorbs public interest far more than the first bout of diplomacy between the belligerents outside of Constantinople.

The steps towards mobilization which Austria and Russia are taking, although preliminary precautions, have made possible a vision of the vast consequences which, as far as Great Britain is concerned, are considered nothing less than appalling.

The British public apparently has no desire to sacrifice lives and money, paralyze commerce and risk the navy over the settlement of the status of Balkan peninsula. Yet it is uneasy, because ignorant of how far Great Britain's diplomatic engagements with France and Russia extend in the direction of an alliance, and of how much likelihood there is that the government will be drawn into a conflict in which one or both of its partners in the entente may be engaged.

Neutrality Urged by Press
The Liberal press is unanimous in urging Great Britain to preserve neutrality. The majority of the Conservatives demand the same policy. The Times declaring that none of the European peoples want war, and says: "Yet that is whether the nations are blindly drifting."

It asks: "Who then makes war?" and replies: "The answer is to be found in the chancelleries of Europe, among the men who too long have played with human lives as pawns in a game of chess, and who have become so enmeshed in formulas and the jargon of diplomacy that they have ceased to be conscious of the poignant realities with which they trifle."

The Pall Mall Gazette, almost alone, speaks in a warlike voice. It declares: "England ought to act firmly with France and Russia in refusing simply to be swept aside. If the conference desired by the British Government is

TORONTO FIRM IN BIG GROCERY DEAL

Dominion Bond Company Pays About Two and a Half Million For West- ern Business.

WINNIPEG, Nov. 26.—(Can. Press.)—The entire business of the A. McDonald Co., wholesale grocers, head office in Winnipeg and branches in the larger towns and cities thru to the coast, has been sold to the Dominion Bond Co., Limited, of Toronto, for a consideration in the neighborhood of \$2,500,000. B. G. Winans, vice-president of the purchasing company and F. R. Mackenzie, its solicitor, who negotiated the deal, left for Toronto last night.

The A. McDonald Co. was incorporated June 29, 1885, but for about seven years previous, Mr. McDonald conducted a grocery business.

SASKATOON GETS MIDDLE WEST C.N.R. SHOPS

Two Million Dollars Will Be Spent in Western City and Railway Works Will Be the Equal of Any in Canada— Will Not Interfere With Leasage.

The establishment of still another large car shops in connection with their transcontinental line is now being contemplated by the Canadian Northern Railway. It is the general opinion of western officials that on the completion of the thru line shops should be erected at some point between Winnipeg and the coast, and Saskatoon is the place favored by the C. N. R. for their location.

It is planned to spend two million dollars on the new middle west shops and to make them the equal of any in Western Canada. It is stated that the recent visit of a number of leading officials of the C. N. R. to the Saskatoon yards was with the idea of making them the site of the new shops, and that the chief reason for the establishment of the shops there would be the fact that a direct connection with all the C. N. R. western lines would be obtained.

It was learned, however, that the erection of the new middle west shops will have no effect on the building of the Leasage and other eastern shops and make no difference in the present plans of the C.N.R. for the establishment of the main shops at Toronto.

The Situation is Extremely Serious.

LONDON, Nov. 26.—(Can. Press.)—After several hours' conversation today with King Peter, Baron Hartwig, the Russian minister to Serbia, said to the leading Serbian journalist: "Gentlemen, get ready to pack your trunks soon. The King shares my opinion in every respect." "These words are interpreted to imply that the situation is extremely serious."

BOND GUARANTEE NOT WANTED BY C.N.R.

Sir William Mackenzie Says Work in British Columbia Can Be Carried On Without Assistance From Dominion Government—Transcon- tinental Finished by Fall.

"There is no truth in the report sent out from Ottawa that the Canadian Northern Railway Company will ask the Dominion Government for a bond guarantee of \$20,000,000 in order that the C. N. R. may complete its financing of the British Columbia section of the Transcontinental," declared Sir William Mackenzie, president of the Canadian Northern Railway, when seen in his private car at Atkinson at the Union Station last night. Both Sir William and Sir Donald Mann, vice-president of the Canadian Northern Railway Company, left for Ottawa in connection with railway matters last night. Sir Donald going by "Grand Trunk Railway" in his private car "Toronto" and Sir William leaving later in his private car by the Canadian Pacific.

"Not only are we not asking the government for any such a guarantee, but we do not want or require it," said Sir William. "Our present British Columbia grant and subsidy will be amply sufficient to meet all requirements."

Thru Next Year.
Sir William expressed the belief that the British Columbia section of the C. N. R. Transcontinental would be laid next year. With this in view the C. N. R. are devoting their chief energies in Eastern Canada to the completion of the Port Arthur section of the line. This also, it was expected, would be completed by next fall, and he hoped by this time next year to see a thru connection from Vancouver to Montreal.

Should the C. N. R. Transcontinental be laid by then, as was fully expected, they would bring the wheat down by way of Port Arthur right thru Toronto to Montreal. Now that all obstacles had been removed, it was the intention to push ahead with the short-cut across the province from Capreol near Sudbury to Ottawa. The completion of this section of the Transcontinental would be a brought about as soon after the Toronto connection had been made as possible. When the Capreol-Ottawa connection was completed, it was the intention of the C. N. R. to carry all wheat for Montreal direct across that way and make Toronto the receiving centre for wheat intended for Ontario distribution.

Toronto-Hamilton Line.
Regarding the Toronto-Hamilton and the Hamilton-Niagara Falls lines, Sir William said that it was the C. N. R.'s expectation that work on both of these lines would commence simultaneously next spring. Should no unexpected obstacles come up the thru connection between Toronto and Niagara Falls, which would involve a New York connection, would be completed within a year after the commencement of the work. The raising of the tracks thru Hamilton probably would cause the greatest delay. In this regard the arrangements between the railway and the City of Hamilton were now nearly completed.

East From Toronto.
Bright outlook was given by Sir William regarding the C.N.R. line east from Toronto. The Toronto-Ottawa line was now practically complete, but would not be put in service until early spring. This would be followed shortly by the opening up of the Ottawa-Montreal line and with the Ottawa-Capreol connection already completed, it would mean a thru service early next summer from Toronto right thru to the City of Quebec.

CHALLENGED BY WHITE ONTARIO LIBERALS NOT RECIPROCITY DEFENDERS

Only Hon. Frank Oliver and the New Brunswick Members Showed a Willingness to Reaffirm Faith in Defeated Pact—Finance Minister Declares Cut in Cement Duties in General Interest—More of the Macdonald By-Elec- tion Charges Are Aired by Liberals.

OTTAWA, Nov. 26.—(Special.)—The debate upon the address made some progress today and will be resumed tomorrow, probably by Hon. Mr. Rogers. The Macdonald by-election was again to the front, being discussed interestingly and at some length by two of the visiting statesmen, L. J. Gauthier, M.P. for St. Hyacinthe, and G. Boyer, M.P. for Val-d'Aulieu. These gentlemen spent some time in the district campaigning for Mr. Richardson, during which they were shadowed by the provincial police and Mr. Boyer threatened with arrest.

Mr. Buchanan, West Peterboro, created a mild sensation by his reference to an alleged conspiracy in Canada to deprive French-Canadian of their language.

TWO MILLION FOR SCHOOLS

Board of Education Will Need That Amount For New Buildings and Sites.

Two million dollars will be the record breaking building estimates of the board of education for next year. The \$1,928,669 building estimates, for which a debenture bylaw was passed at the city council on Monday, will not reduce or affect the 1912 requirements.

The new commercial high school to cost a quarter of a million will be the next estimates, and new high school buildings for North Toronto.

SUFFRAGIST LOSES SEAT

Labor Member Who Resigned to Test the "Votes For Women" Sentiment Sus- tains Defeat.

LONDON, Nov. 26.—(C.A.P.)—The Bow by-election, thru the resignation of George Lansbury, resulted: Blair (Unionist), 4942; Lansbury (Suffragist), 3291.

Lansbury resigned because he wanted a straight fight on the question of women's suffrage, but owing to the many other issues which were introduced the election did not in any way be regarded as a reliable criterion of the views of the constituency regarding votes for women. The Liberal party ran no candidate, recommending the Liberals to abstain from voting. Suffragettes worked hard for Lansbury through the campaign.

POLICE WILL INVESTIGATE

The police commissioners de- cided yesterday afternoon to investigate the trouble at Har- bord Collegiate, when the stu- dents raided it last week. A squad of men will also be sent to England next spring to get pointers on the traffic problem. An officer will be instructed to report on the charges that many motor cars were left standing on the streets, thus blocking traffic.

CONTRIBUTION TO NAVY LIKE PENNY TO A BEGGAR, SAYS SIR GEORGE ROSS

Opposition Leader in Senate Indicates That Liberals Will Hold Fast to Laurier Policy of Canadian-Built Ships— Doubts Whether Britain Is Unable to Defend Itself, as He Alleges, Seems to Be Assumed by Borden and His Cabinet.

OTTAWA, Nov. 26.—(Can. Press.)—The debate on the address was commenced in the senate today and three strong speeches were made. The first, by Senator Daniel of St. John, who moved the address; the second, by Senator Rufus Pope of Compton, Quebec, who seconded it; and the third, by Sir George Ross, the new leader of the opposition in the upper chamber, who eloquently foreshadowed the line he would take when the naval proposals of the government came before the senate.

Sir George Ross in opening referred to his selection as leader of the opposition, thanking his associates for the honor, and expressed the hope that he would be able to discharge the duties in a manner which would facilitate the business of the country which came before the senate.

It was with regard to the naval policy that members of parliament have looked forward with greatest interest, often being called to conferences by the governor-general. The speech announced that four of the ministers during the summer had conferred with the admiralty to prepare the naval program of Canada. Four men at least had the secret of the policy locked up in their breasts. In British Premier Borden had made speeches on naval aid and he and his ministers had made them after returning to Canada, without disclosing the policy.

The measure was promised and would soon be brought down. Before the proposed measure is passed the basis on which the aid is given should be fully disclosed to the members of parliament and the senate.

—Is Aid Imperative?
The address, after saying four ministers had conferred with the British authorities and "conditions had been disclosed which rendered it imperative," said that Canada should give naval aid. Imperative was a strong word. What was the matter with old England? Had she no more sailors to man her ships? Had she no longer

IRELAND CANNOT CUT CUSTOMS DUTIES

British Government Forced by Pressure of Conservatives to Make Concession Obnox- ious to Nationalists, Who, However, Decide Not to In- terfere at Present.

LONDON, Nov. 27.—(C. A. P.)—Three opposition amendments to clause 15 of the home rule bill were rejected in the commons last night. The first, by Mr. Hewins, proposed that the Irish parliament should not be empowered to discriminate in levying taxes in order to provide bounties on production of export of native goods, was defeated by 111.

The second, moved by L. S. Amery, sought to reserve all power of Irish customs excise to the imperial parliament, was rejected by 138.

The third, proposed by Mr. Casel, provided that the Irish parliament should impose no taxes that were not of identical character with the imperial taxes, was defeated by 130 majority.

Several others were gullotted. On behalf of the government, Postmaster-General Samuel moved the import amendment, distasteful to the Irish because of Conservative pressure, prohibiting the Irish legislature from reducing customs duties. This carried by 108 majority, the Nationalists deciding not to interfere at the present juncture with the progress of the measure.

The final amendment relating to duties payable on release of goods from bond carried by 103. Owing to the operation of closure clause 16 was then added to the bill

AID FARMERS IN BORROWING

Banks to Be Empowered to Make Loans on Grain and Live Stock.

OTTAWA, Nov. 26.—(Special.)—Important changes of great benefit to the farmers, especially in the west, were foreshadowed in the house this afternoon by Finance Minister White, upon the suggestion of J. A. M. Alkins (Brandon) and W. F. Maclean (South York).

Mr. Alkins introduced a bill authorizing chartered banks to advance money upon the security of grain in the hands of the farmer, and Mr. Maclean suggested an amendment permitting the banks to loan to farmers upon live stock.

Mr. White asked that the bill be not proceeded with, saying that both reforms would be incorporated in the government bill providing for the general revision of the Bank Act.

Major J. A. Currie (North Simcoe) introduced a bill to amend the criminal code by making it an indictable offence for any one not a British subject to vote at an election in Canada, or to take any part as a canvasser at the election or during the campaign.

EDWARD JOHNSTON IS NOT GUILTY

Was Charged With Criminal Negligence in Death of Edna Johnston—Can Intimidate Pedestrians.

The jury in the criminal assize court yesterday afternoon returned a verdict of not guilty in the case of Edward Johnston, chauffeur for A. E. Rae, who was charged with criminal negligence.

In his own defence Johnston stated that the girl jumped right in front of his car. He had swerved to avoid her, he said, when she suddenly jumped across the road in front of him.

Defence counsel, T. C. Robinette, K. C., charged prosecuting attorney Meredith with unfairness in not calling certain witnesses whose names appeared in the indictment.

millions to get her on her feet let us place her there by all means. If she is ever again in the same place as she was, at one time there was a common hostility on the part of every European power from Blenheim down to Waterloo and she never went on her knees to anybody, but planted her flag wherever the sun shone, on every parallel of latitude, exacting tribute from every nation on the globe.

A naval policy on the basis of a contribution was no policy at all, he said. It was like throwing a penny in a beggar's cup. There was a naval policy on the statute book now. It had been put there by the late government.

In conclusion, Sir George referred to the proposal for highway improvements favorably, commending what the senate had done last year, and urged the government to hasten a fair redistribution based on the last census.

Canada's Prosperity. In moving the address, Senator Daniel said that by the end of the present year Canada's trade would amount to over a billion dollars, which was very satisfactory for a country of Canada's population.

The naval policy could be best discussed after the navy bill has been brought down, he said. For some years there had been a growing feeling that the Dominion should share in maintaining the force which afforded her protection.

Senator Pope, in responding to the address, said that he had been in the west only last summer and could testify to the warmth of the welcome accorded the Duke and Duchess of Connaught there.

Chesterville, Ont., Jan. 25, 1911. "For over 20 years I have been troubled with Kidney Disease, and the doctors told me they could do me no good, and that I would be a sufferer for the rest of my life.

"I doctored with different medical men and tried many advertised remedies, but none of them suited my case. "Nearly a year ago I tried 'Fruit-a-tives' and have been using this fruit medicine nearly all the time since, and am glad to say that I am cured.

"I give 'Fruit-a-tives' the credit of doing what the doctors said was impossible. "I am now 76 years old and in first-class health."

GEO. W. BARKLEY. In all the world there is no other remedy that has cured so many cases of so-called "incurable" kidney disease as "Fruit-a-tives."

This famous fruit medicine acts directly on the kidneys—healing and strengthening them—and ridding the system of the waste matter that poisons the blood.

**SHOULD NOT KEEP
INSANE IN JAILS**

Associated Charities Ask That
City Provide Proper Accommodation For Detention of the Insane.

PROBLEMS TO SOLVE

Rev. Wm. Findlay Gave an Address on the Vagrant and His Idiosyncrasies.

Resolutions urging that the city forthwith proceed to provide accommodation which will obviate the necessity of detaining the insane those suspected of being so, in the common jail; that a committee be appointed to urge the government the passing of legislation which shall prevent such a committee to have the features of the annual meeting of the Associated Charities at the city hall last night.

An effort will be made to cover a deficit of \$225,000 by the report of the treasurer. Letters are to be sent out to raise this sum. This report was accepted upon motion with that of the secretary, which set out as social problems, which might be regarded as solved, the handling of delinquent children thru juvenile court; the provision of a farm for inebriates; co-operation of charitable effort thru the establishment of a board of directors and the adoption of the plan to provide temporary accommodation for the insane, awaiting removal, which was later in the meeting the subject matter of a resolution of protest.

As problems yet to be solved, the secretary set out, institutional care of the mentally defective, the care and ward children, lack of hospital treatment of nervous diseases, amendment of the criminal code respecting wife desertion and non-support, home for aged couples, municipal lodgings, inspection of boarding houses, the suppression of the white slave traffic and prohibition of indecent shows and gambling dens.

Rev. Wm. Findlay, in charge of the city's industrial farm, delivered an interesting address upon the vagrant and his idiosyncrasies. He traced his origin to the tribal vagrants of history, who chose rather to subsist upon the proceeds of occasional raids than upon habitual labor. He declared that the only way to reform such men was to put them to work in cheerful, helpful and healthy surroundings. He urged that these men should be cared for after their discharge from the farm.

Dr. George G. Nasmitz, of the medical health department, delivered an address upon organized effort in provision for communal needs. He described just what should be done for the individual by the community and what he must do for himself.

CONTRACTOR IS GIVEN THE BLAME

Should Have Placed Temporary Flooring in Factory as Precaution Against Accident.

In the opinion of Coroner Elliott's jury the contractor building the Metallic Roofing Co. factory, at King and Dufferin streets was to blame for the death of James W. Bitton. On Nov. 13, Bitton, an employe of George F. Eagles, painting contractor, fell from the first to the ground floor in the building and fractured his skull on the cement floor. Bitton, who was working with him at the time, said that the flooring had been taken up and nothing had been put in its place. Bitton was carrying a can of paint when he was going to do some painting, but he stepped on a board which gave way and went down. James McKenzie, who had the contract for the carpenter work, said that he had finished the flooring on this flat before any painting was done. Bitton had a defect in the roof of the building, but he was not aware of it. The floor fell on the pine floor and was so soaked it. He was afraid of dry rot and as he was going to do good work he had the floor taken up and put in dry kiln. No temporary floor was put down and part of the space was unprotected for several days.

G. F. W. Price, city architect, said that it was an uncommon case. Robert Tice, an inspector, had passed the building in October as completed before the floor was taken up. Mr. Price said that the department should have been notified when the floor was raised and he also said that a temporary floor should have been laid in its place. Mr. Eagles said that his men should have done the painting from the outside, but he admitted that they had a right to use the floors of the building. The coroner contended that the carpenter should have put in a temporary floor as protection.

The body of Bitton stepped on was mowed half way thru near one end. He was a heavy man and was 56 years old. He leaves a widow and two delicate daughters, who live at 256 Westmoreland ave.

GARDENS OF EDEN WILL COME TO PASS

Lockie Wilson's Scheme For Growing Flowers on Vacant Lots Now Assuming Good Shape.

LOTS BEING OFFERED

Many Owners Will Follow Example of Frank T. Lee of Niagara Street — Penny Banks to Be Organized.

"The Garden of Eden," which G. Lockie Wilson said in a recent address before the Ontario Horticultural Society was possible in Toronto if owners of vacant land would consent to allow the idle space to be used by school children and others for the growing of flowers and garden products, may yet be realized. Dr. James L. Hughes has received a letter from Frank T. Lee offering his vacant property on Niagara street, opposite Niagara Street School, for this purpose. Dr. Hughes, who is chairman of the horticultural committee of the Toronto Playgrounds Association, a few days ago, wrote a letter to the press asking for offers of this nature, and Mr. Lee's is the first response.

Many Will Follow.
Dr. Hughes stated yesterday that the world that he feels confident many owners of vacant lots in the city will volunteer the use of them for purposes of beautification during the present winter. Arrangements will be made to convert Mr. Lee's lot into a flower garden.

Other Schemes Under Way.
Vacant lot gardening is one of the five things Dr. Hughes intends to work hard for in future, according to his statement last night. The other four movements in which he will identify himself actively, and in connection with which he is already prominent, are penny banks, cadet service, playgrounds, and the procuring of good pictures for schools in all parts of the Dominion.

Plotmen's Convention.
J. Lockie Wilson, secretary of the Ontario Playgrounds Association, stated yesterday that arrangements are being made to hold a big convention of plotmen from all parts of Ontario in Toronto early in February. The association is at present without a president or first vice-president, owing to the death within the past three or four months of Simpson Rennie and William Walking, sen. of King.

TORONTO HARBOR SCHEME ENDORSED

Vote Was Eighteen to Four and Debate on the Project Was Prolonged.

An unexpected debate was precipitated when the question of giving the city's sanction to the harbor commission to go ahead with the scheme to improve Toronto's harbor was discussed by the city council yesterday.

What at first seemed to be a note of dissent was struck by Ald. Sam McBride, when he moved that a conference between the civic officials, board of control and harbor commission be held in order to discuss what bonds are to be issued and how also as to how the civic departments are affected by the scheme.

Much disapproval was evinced at the remarks of the alderman. "It will not be good for the council to express the first words of disapproval of such a laudable scheme," declared Controller McCarthy. "The proposition will increase the city's park area by 400 acres, which will ultimately be worth \$2,000,000. It will also mean the development of \$3,000,000 worth of industrial property at Ashbridge's Bay. This will mean large returns to the civic coffers."

Ald. Hilton thought that more attention should be given to the present city parks rather than incur other expenses on park properties. "The federal government has endorsed this proposition put in Controller Maguire, and has given \$8,000,000 towards its construction, and we are asked to contribute \$2,000,000, and we are partners in this scheme, holding the greater share. It is in our interests to give this scheme our enthusiastic support."

The department heads have not the time to give towards compiling a report on this matter. They want to make an early start on this project. Therefore I move that the report be adopted."

The vote on the adoption of the report was as follows:
For: Ald. Spence, Mayor Hocken, McBride, Con. Foster, McDonald, Con. McCarthy, Saunderson, Church, Maguire, Ald. Graham, Howland, West, McBrien, Yeomans, Vaerness, Robbins, Rawlinson, McCullich, Anderson, O'Neill, Dunn.—18.

INTAKE INQUIRY

Engineer Report of Overcharges of Contractors Amounting to \$8000.

At the continuation of the intake inquiry yesterday before Judge Winchester, Mr. S. Vinen of the city engineer's staff, presented a carefully tabulated report, which put the overcharge of Contractors Miller, Cummings and Robertson at over \$8000. On the grounds that they had no notification that this report was to be presented and could not sum it up on such a short notice, the company's clients refused to consider it. The report as handed in by Mr. G. H. Kilmer, counsel for the firm, shows an overcharge in wages and time amounting to but \$2000.

FOUND HER HUSBAND DEAD ON RETURNING FROM WORK

Mrs. Metilda Smith, Upon Entering Her Home on West King St., Found Husband's Body on Floor.
When she returned at 8:15 last night, after working all day long, Mrs. Metilda Smith found her husband, Samuel Smith, dead on the floor of their room at 309 West King street. The chief coroner was notified, and the body taken to the morgue. It is likely an inquiry will be held. Little is known of Smith, as he only took the rooms on Monday. He is said to have been troubled with his heart of late.

Ormsby Company Will Get It Subject to Settlement of Litigation Now Pending.

Advocates of mechanical filters received a setback yesterday when a representative of the Mechanical Filter Company of New York appeared before the board of control to ask for a definite statement as to the city's policy in the matter of its water supply. He discovered that the city had decided upon another method of installing a mechanical filtration plant.

Ald. Yeomans did not give his pet scheme support right to the last ditch, as was naturally expected of him. He voted for the construction of a 26-inch water main, extending from West Queen street to Eglinton and the pumping station. He was not in the council chamber when the eyes and nays on the question were taken.

In reply to a request from the board of control, Commissioner Hartwick, later in the day, declared himself to be believers in reciprocity.

CHALLENGED BY WHITE ONTARIO LIBERALS

Continued From Page 1.

Ontario accepted this challenge but Hon. Frank Oliver, of Alberta, at the time, and Mr. Turgerson of New Brunswick, later in the day, declared themselves to be believers in reciprocity.

Mr. White resented the insinuation that the cut in the cement duty, made by order in council last summer, had been made as a political expedient. He read to the house a large number of letters and telegrams received by the government from municipalities, boards of trade, construction companies and others throughout the west, urging suspension of the duty on account of a cement famine. These representations came from Winnipeg, Brandon, Saskatchewan, Calgary, Edmonton and many other points. They were supported by all the western newspapers irrespective of party.

The minister said that he found, upon investigation, that the Canada Cement Co. commonly known as the cement merger, supplied western Canada, exclusively. He communicated with that company and the company admitted the existence of the famine in the transportation companies.

Not Political Expedient.
He found that relief could only be given by a cut in the cement duty, and the cut in the duty had been ordered, not as a political expedient, but in the public interest. It was the most accident that the cement famine chance to synchronize with the Saskatchewan elections. Opposition members laughed somewhat boisterously at this statement, but the minister insisted that he would have been deterred in his duty had he made a change in the tariff for political purposes. He assured the house that no tariff change would be announced except in the budget speech, and that he appreciated the importance of a stable tariff. He was glad to say as a result of the cut in the cement duty the cement merger had placed a new fleet of vessels on the great lakes and was about to establish branch factories in the west.

In this connection the minister expressed the hope that all the big eastern manufacturers would establish branches in the west.

Challenged on Reciprocity.
Mr. White then discussed the reciprocity question and taunted the Liberals with their lack of unity on this issue. He asked one by one, Sir Wilfrid Laurier, Hon. George Graham, Mr. Pardee, Mr. Hugh Guthrie, and others to get up and say where they stood on reciprocity. No one responded to the

Trickery and Personalities Resorted to by Aldermen

Saunderson Calls Colleague a "Cur" and is Brought to Task by Mayor—Members Finally Destroy Useful Bylaw, Unusual Conduct—Controller Foster and Aid. Sam McBride Have a Tilt.

Yesterday's resumption of the council's bi-weekly meeting, which was adjourned on Monday, was, if anything, less orderly than the day before. On Monday, the complaint made by the majority of council members was the incessant and prolonged interruptions indulged in by a few who have no regard for the amount of work yet to be accomplished by the body or for the council's dignity.

Trickery and personalities were resorted to, as well as lengthy talks, especially by Alderman McBride, who has been previously censured by responsible people for his behavior in council. Again items of small import were given precedence over those questions to which the people are looking for final settlement. Two hours were wasted by a discussion on the feasibility of either accepting Commissioner Chisholm's report to abolish the civic garage at the St. Lawrence Market, or the board of control's recommendation to continue it in its sphere of usefulness, and a matter of importance, such as the bylaw sanctioning the changing of the Assessment Act to eventually bring about a maximum of justice for the many relative to land taxation, was killed in a manner described by many members as "despicable."

The situation evolved itself out of a request made by Controller Church that council go back into committee of the whole and rediscuss the bylaw to provide for the submission to the electors of the question to revise the Assessment Act so that an assessment can be made on improvements on a lower basis than land.

Council had just risen from the committee stage and reported the bylaw as thrown out by a vote of 9 to 2 and Controller Church wanted the matter taken up again, to give it its second reading, and the members could have passed upon it then.

Six members of council simultaneously rose and presented motions to offset the controller's actions, and above the subsequent noise and commotion rang the mayor's gavel calling for some semblance of order. At this the majority of members left the room, and the measure was thrown out on account of lack of proper majority of council. Among those who answered to the roll call were: Mayor Hocken, Controllers Foster, McCarthy, Church and Maguire, Aldermen Ryding, Anderson, Graham, May, McBride, O'Neill and Rawlinson.

It was the defeat of Alderman Saunderson's pet scheme, the Sparkhall avenue diversion, that raised that gentleman's ire, and feeling ran high between him and Alderman May, who had skillfully taken advantage of the absence of many supporters of the Albemarle avenue residents' contention to call a snap vote on the question which resulted in the city solicitor being given authority to help the Toronto Housing Company fight their case for the diversion in Osgoode Hall.

"You are a dirty cur!" hurled Alderman Saunderson at Alderman May "I saw you look across the floor and, as soon as you saw your chance, you asked for the vote."

"That kind of talk is unparliamentary," cried the mayor, bringing his gavel down upon his desk with a bang, "and I ask you to withdraw those remarks."

"I will not; I will leave the chamber first, and even the council," declared Alderman Saunderson, "and I will leave the council in the hands of the mayor." "You will have to withdraw your remarks, Mr. Alderman," continued the mayor.

"The alderman took an unfair advantage of the situation," said Alderman Saunderson. "Do you intend to make such remarks?" "Whatever the alderman did, you have no right to make such remarks," added the mayor. "All right, then; if they are unparliamentary, I will withdraw them," declared the alderman, seeing trouble ahead.

Controller Foster and Alderman Saunderson also had what would have been a serious tilt earlier in the proceedings, but for the timely actions of Mayor Hocken. The alderman was expressing his feelings towards the economical controller, and was resorting to drastic epithets, when the mayor came to the assistance of Chairman Ryding by stating, "That will do, Mr. Alderman; we are not going to have any such conduct here; kindly consider the dignity of council."

The alderman subsequently gave vent to his feelings by talking first and last on every question that came before the council during the session, sometimes sandwiching a short speech in between, under the pretence of asking the individual speakers questions.

Invitations, however, except Hon. Frank Oliver, who declared himself to be still in favor of the pact.

Mr. Gauthier, the Liberal member for St. Hyacinthe, testified from personal experience, to the tribulations of the Liberals in the Macdonald-by-election. "I was shadowed," he declared, "by provincial detectives for 11 days, my hotel bedroom was entered and ransacked and even my grip was examined."

Gauthier Assails Roblin.
He assailed the Conservative of the subject and the right of free speech had been assailed by the Roblin government. He also complained of the alleged action of the Dominion Government in discharging men at Sorel shipyard because of their support of an independent candidate in the Richelieu-by-election.

Mr. Gauthier touched the naval question gingerly, insisted that if Mr. Monk was right in leaving the cabinet, Messrs. Pelletier and Nantel were wrong to remain.

Deserved It, Says Burnham.
Mr. Burnham, the Conservative member for West Peterboro, was of the opinion that the persons arrested in Macdonald deserved more punishment than they got, at the same time lamenting the low standard of political morality in Canada.

"Had I been the attorney-general," he said, "for a provincial constable, I would have made a few arrests in West Peterboro at the last election." The charges referred to by Mr. Oliver, he affirmed, were serious in their nature, but scarcely supported by the evidence.

Mr. Burnham, in closing, made a serious statement to the effect that he had heard that there was a conspiracy on foot to deprive the French-Canadian of their franchise in the forthcoming election. Personally, he would rather forego speaking for the balance of his life than see any such conspiracy succeed.

FRONTENACS WANT TO BREAK AWAY Kingston Trying to Get Brockville to Join Them in Inter-provincial Union For a Western Section.

LIST OF PRO. PLAYERS Men the N. H. A. Clubs Have Signed Up—Local Clubs Getting Into Line For the Season.

Kingston Frontenacs have made a stir in the O.H.A. during the last few days and they would like to see them dropped out. The latest is a despatch from Brockville to the effect that the Limestone City club are tired of O.H.A. company, and that they would like to form a new western section of the Interprovincial Union, with Brockville as one of the towns.

Kingston Frontenacs have agreed to play in Boston during the Christmas holidays.

Ontario Agricultural College of Guelph will again have a team in the intermediate series of the O.H.A.

The public are getting suspicious of this hockey war talk, and not a few claim it is a big bluff. A despatch comes from Montreal saying that the eastern hockey clubs are paying little attention to the reported awful struggle between the Kingston and Brockville clubs.

The arena will have ice early next week. The pipes are being tested, and it will take the rest of the week to repair all the defects, and ice will not be the order for the first of the week.

This looks like the year for the amateurs. Ottawa is claiming a banner year for the amateurs, and says that with the N.H.A. greatly weakened, the amateur city team will flock to the amateur games in preference to the professional articles.

The Maritime Provinces Pro. League is the latest reported to be in the air. A few weeks nothing but the goal posts will be left on the hands of the owners of franchises in the N.H.A.

The following is a list of players claimed to be signed by the different N. H. A. clubs: Toronto—Goal, Harry Holmes, W. Hanley, Fort Arthur; Ray Marchand, Kingston.

Defence—Harry Cameron, Pembroke; George Roonan, St. Catharines; Neaghe, Fort Arthur; Ed. Powers, Toronto; Gus McLean, Westminister; Allan Davidson, Kingston.

Forwards—Cully Wilson, Monarchs of Winnipeg; Fred Doherty, Galt; Ed. Longfellow, Sherbrooke; Bob McPherson, Dillingham; Cal. Bruce Ridpath; George Carmichael, Halifax.

Al. Rahn of Preston and other crack amateurs have promised Bruce Ridpath that they will serve him if they turn professional.

The Toronto squad will commence practice on Dec. 1 on which date they will be ordered to report. Cameron, Wilson, Hanley, Powers, Longfellow and Ridpath are already here, and Kelsby and Rochon will arrive this week.

Defence—Glen W. Nicholson, Cobalt; Forward—Harold McNamara, Canadian Soo; George McNamara, Canadian Soo; George Cobalt, Toronto; Harry Smith, Cobalt; Horace Gault, Ottawa; Alex. Nicholson, New York A.C.

The Tecumseh team has some important announcements to make in a day or two. They intend to have all their players report by Dec. 10, which will give them three weeks to get into condition.

Defence—E. Dubaut, J. LeVito, H. Forwards—Don Smith, Verina Lalonde, R. Fayan. Dubaut used to play for Galt in the Ontario Pro. League. Fayan is a Montrealer.

Ottawa—Goal—Percy LeBauer, Clint. Defence—Harold Gibson, Fred Lake, Arthur Duford, Jack Tourner. Forwards—Eugene Roman, Jack Darragh, Harry Broadbent.

Wanderers: Goal, Geo. Broughton, Arthur Boyce, Albert Cadotte; defence, Art Ross, Ernie Johnson, Sprague, Cleghorn, Ernie Russell, Gordon Roberts, Arthur Bernier, Harry Hyland, Frank (Bud) Glass. Quebec: Goal, Moran; defence, D. Pire; forwards, E. Malone, J. Marks.

At a very enthusiastic meeting of the Trusts and Guarantee Company, Limited, to enter a team in the General Pro League. The following officers were elected: Hon. president, James J. Warren; president, D. B. Stockdale; first vice-president, G. S. Hamilton; second vice-president, P. B. Rapp; business manager, D. N. Soper; secretary, H. V. Conlin; delegates to meeting, N. Soper and R. V. Conlin.

Queen City Tankard And District Cup Skips

Messrs. Haisley, Lyon, Gernell, and Munn Are the Players Selected.

At a meeting of the Queen City Curling Club last night, Association skips were appointed as follows: Ontario Tankard—H. A. Haisley, Geo. S. Lyon. District Cup—W. M. Gernell, W. M. Munn.

Granting that the Alerts will beat Toronto, says The Hamilton Spectator, the one hockey question which remains to be answered rests with the Ontario Tankard.

Alerts to give the Argos a run for the money. There is no getting away from the fact that the Alerts are a real champion outfit, capable of playing just as well away from home as at home, and there is absolutely no doubt but that the Alerts will be able to give a real good account of themselves.

The Alerts will have the edge in the outside wing. As the Alerts did, but the Argos show superiority over the Argos' rear defence. The Alerts will have the edge in the outside wing.

In Hamilton they are looking for the Alerts to win the O.R.F.U. final at Oakville. They were ordered to play Toronto Central Y.M.C.A. in the play-off game at Oakville this afternoon.

INTERNATIONAL MEETS NEXT MONTH

President Barrow Issue Call for December 9, in New York—The Spring Training Trip.

NEW YORK, Nov. 25.—A call for the annual meeting of the International League, which is to be held at Victoria Hotel on Dec. 9, has been issued by Edward G. Barrow, the league's president.

The delegates will convene one day before the National League owners gather for their annual session, and will be on hand to get whatever players they major organization decides to release.

Several of the international clubs hope to have an amendment passed limiting salary limit for the league. The Toronto, Baltimore and other clubs are vitally interested in the salary limit question.

Arranging Games. President E. G. Barrow of the Toronto is busily engaged arranging games to be played by the champion Leafs next to their way north from the training camp at Macon, Ga.

Six games have already been carded with the Boston Nationals. The latter will train at Athens, Ga., which is only a short jump from the Toronto camp at Macon. Three games will be played in each camp.

On the way north the Leafs will play at Atlanta, Ga.; Richmond, Va.; and other of the larger cities. The final preparations for the opening of the season will be made in Tri-State League and New England League cities.

The International League has released Tom Kelly, the veteran umpire.

GOOD CITY GOVERNMENT.

Mayor Whitlock of Toledo, Ohio, who has been investigating municipal conditions in various countries of Europe, gave the Berlin correspondent of The New York Times a summary of his conclusions on the eve of his departure for the United States.

Two things chiefly struck the Toledo mayor as accounting for good city government in Europe. First, that trained professional men are in charge more or less permanently of municipal affairs.

COAL MONOPOLY AND ITS REMEDY. In Pennsylvania the State Railroad Commission has been investigating complaints that the freight rates levied on coal carried from the anthracite mines to Philadelphia are prohibitive and discriminatory.

THAT VARIETY BRAWL. Varsity students should be aware of the law in the reasoning that acquits them of all blame because Principal Magarity did not exercise the discretion that might have been expected.

BALKAN AMBITIONS. It, as is reported, the Imperial government has intimated to the powers immediately concerned that under no circumstances will Serbia's demand for a port on the Adriatic be supported by force of arms.

SILVER BUFFERS. For the finger nails must be used to keep the hands in presentable condition. Your fastidious friend will appreciate one as a gift.

a pioneer of the movement for the distribution of the hydro-electric current at cost. United States cities are already intimating their intention to take advantage of the new plan devised by Mr. Fisher and Hon. Adam Beck.

LALOR'S LAND TAX. Assessment Commissioner Forman relies much on the fact that, as he puts it, "the opinion of the officials who are most closely connected with the work of assessment is worth something, even if the powers that be are advocates of single tax."

shows that the Balkan States and the other powers immediately concerned will best consult their own interests by recognizing that these are not exclusive. Now that the states have learned the benefit resulting from confederation in war, they should be prepared to appreciate the advantages of confederation in peace.

Recipes for Wrinkles and Bad Complexions

(From Art and Nature).

Of all the beauty recipes in my scrap book, here are two that have always given complete satisfaction: Wrinkle Remover—One ounce powdered salicylic acid, dissolved in spirit which has been washed with alcohol. It brings instantaneous results.

Face Peeler—Pure mercerized wax, applied at night like cold cream, only not rubbed in; wash off in the morning. It causes the worn-out skin to peel off in strips, leaving a smooth, pink, little each day, until the fresh young complexion is wholly in evidence. The beautiful rose-tinted complexion thus obtained is not to be compared with one made over with cosmetics, and the wax is sufficient.

The ingredients named are inexpensive and can be found in any drug store.—Louise Lablana.

The Daily Hint From Paris

A COAT AND VEST TOGETHER.

Some of the new coats have a vest of contrasting material, which may be removed, if desired. The coat used as the subject of this sketch is made of a woolly cinnamon brown material, with a lining of a little lighter shade, striped with black. The vest is of an ecru cloth, with buttons of the same. The large buttons on the coat are jet, banded with gold-toned and white chrysanthemums were banked in the chancel, where Rev. C. J. James performed the ceremony. Music was rendered during the service by Mr. Kilmasner. First came the four ushers, Mr. Jack Spence, Mr. Hudson Turner of Chicago, Mr. James Watkins and Mr. Bright Siskath, followed by the bride's only attendant, Miss Mildred Marsh, who was in white crepe de chine with Russian coat of pale yellow chiffon, black hat with white osprey, and carried sunset roses. Next came the beautiful little bride with her father. She looked lovely in a dress of hand-embroidered cream satin and duchess lace train. Her veil was held off her face with wreath of lilies of the valley, and she carried an old-fashioned posy of the same flowers encircled in a paper frill. The groom's gift to her was a sapphire ring, and to the bridesmaid a silver vanity box. To the ushers pipes, and to the best man, Mr. Boyd Morton of Indian Head, gold sleeve links. A reception was held after the ceremony by the bride's mother, who was wearing a taupe satin gown with taupe velvet and sable hat to match. Mr. John Lewis wore a handsome gown of the best man, Mr. John James, and carried violets. Later in the afternoon the bride changed her wedding gown for a tailor-made of navy blue with moleskin hat and shawl, and throwing her slipper, filled with flowers, in a white satin bag, to her girl friend, she drove away to catch the 8.20 train for New York before going to her future home in Ottawa.

Port Credit Methodist Church was the scene of a wedding on Monday afternoon 26th, when Mildred Irene, daughter of Mr. and Mrs. John James Kane, was married to Mr. Thomas Greer, Toronto. The ceremony was performed by Rev. F. Nourse, pastor of the church. The bride, who was given away by her father, wore a tailor-made of king's blue and blue beads hat with blue wings, and carried a bouquet of white roses. Miss Beatrice Smith, Highland Creek, was bridesmaid, in navy blue and black velvet hat, and carried a bouquet of pink roses. Mr. Gordon Gibb, cousin of the groom, was best man. Little Miss Melba Kane was the little flower girl wearing a pale blue velvet dress with pink, and hat to match, and carrying a basket of marguerites. Mr. J. W. Smith, uncle of the bride, played the wedding march, and during the signing of the register Miss Ina Johnston sang "Because." Messrs. W. A. Henderson and Norman Brown acted as ushers. Immediately after the ceremony Mr. and Mrs. Greer left by the 4.20 train for Toronto for a short honeymoon, after which they will reside at the Kelvin Apartments.

The World and the Bible.

The phenomenal success achieved by The World in the distribution of Bibles, which closes with this week, has probably never been equaled by any publication in Canada. Bibles are considered such a common commodity that it has been impossible to excite any enthusiasm outside of strictly religious circles. This impression has been dispelled, as evidenced by the thousands of people of all classes who have flocked to The World office, and stood in line waiting for their turn to secure a copy.

This book, while familiar to everyone, was decidedly new in that the publishers had recreated it, making it attractive by reason of hundreds of picture plates, many of which are reproduced from the Tissett collection, and enclosing the whole in an elaborate and rich leather binding. The Illuminated Bible, as it is termed, has created a place for itself, and it is now fact the convenient hand Bible in thousands of homes where formerly it held an honored place on the top shelf of the bookcase.

The World's extraordinary distribution will cease on Saturday next. You should not lose this last opportunity of obtaining this really admirable book: one coupon from the current issue of this week's World, together with a nominal charge, will secure it for you.

A copy of the New Illuminated Bible, bound in limp leather, with overlaid edges, and gold lettering, would make a suitable Christmas gift. Clip the certificate today. The World's distribution of these Bibles will be discontinued after Saturday next.

Contributed Ideas

Unique pinepins for children may be made of pine cones with a small square of leadboard tacked to the lower end of each cone to make it stand firm, instead of ordinary balls used for chestnuts. This is an easy way to provide a good time for the little folk.

My small daughters were so restless when indoors and so excited over Christmas that I was taxed to keep them contented and self-amused. Upon large sheets of wrapping paper I drew with colored crayons a pine tree for each child, and fastened them low upon the wall. The girls spent three weeks in filling them and never once tired. Old catalogs and magazines were searched for just the proper gifts, which were cut and pasted upon the tree for each member of the family and old friends. Paper dolls were dressed, pictures painted, cards sewed, tiny mysterious bundles wrapped, wreaths of holy cut and two really attractive pictures of heavily laden Christmas trees were the result. Then the people came. Fashion books were searched for family and friends, cut and grouped around the base of the trees.

When buttoning or unbuttoning a garment, forcing the buttons across the width of the hole will soon tear out the latter. For this reason buttons with only two holes are better than those with four and should be placed so that their holes will be on a line with the length of the buttonhole. Some women place buttons with four holes, so that only two holes need be sewed thru, thus making them last longer than if all four were used.

Lightweight bedclothes are better and warmer than heavy quilts and blankets. You can make thick, light comfortable bedclothes by using three or four layers of cotton, the soft kind that comes in big rolls, for a very little money, that will give as much satisfaction as an eiderdown silk comforter. The stores are full of attractive cheese cloth or silkoline and the cotton to fill them is cheap.

Apple batter pudding—Peel and core a half dozen nice apples and set closely together in a well-buttered pudding dish. Sprinkle over them a half cupful sugar and a cupful of water; cover and bake until tender. Take out and bake until tender. Pour over them a batter made of five heaping tablespoonfuls of flour sifted with one teaspoonful baking powder and a saltspoonful melted butter, three eggs beaten light and one pint of milk. Return to the oven, bake quickly and serve with a liquid sauce.

Apple and sage pudding—Peel and core a half dozen nice apples and set closely together in a well-buttered pudding dish. Fill the centres of the apples with sugar seasoned with grated nutmeg. Have ready a cupful of sage that has been cooked in water to seal until clear, pour around the apples and let get too dry and a little more water during the baking. Serve cold with cream.

Apple dumplings—Pare and core ripe apples, filling each apple with a tablespoonful of sugar. Make a rich dough of flour, butter, salt and a large enough amount of water to make a ball in the centre of each, put a square around the top and fold the pastry over the apple, seal the joints with a dripping pan or earthen pudding dish and cover the dumplings with cold water. Add for each dumpling a tablespoonful of sugar and nutmeg. Bake about two hours, keeping the pan covered. The first hour, no sauce will be needed besides that in the pan.

QUEEN SENDS BOOK OF BIBLE STORIES

A most interesting event took place at the monthly meeting of the Toronto branch of the Aberdeen Association Monday evening, when Mrs. Mary Macdonald, through the Victoria League, a number of beautiful books, to be distributed by the central branch of the A. A. at Ottawa, which forwarded one to the local branch—a collection of Bible stories, with an inscription by the Queen. It was difficult to decide to whom such a great treasure should be given and out of those spoken of three were almost equally popular. First, a woman of 85, who has no other family, and is a mother of her own, but is a mother to all the mothers of the neighborhood. Second, one of the association's best clients, who takes infinite pains in distributing all literature sent to her. And third, a young girl who has been paralyzed since early childhood, but who can do nearly all the ordinary work of the family, sewing and knitting. Finally, the choice fell upon the second person mentioned, and the books are now being distributed. These parcels are now being put up, and the branch would be very grateful for any toys, games and children's books, sent to the express office, parable buildings, or money to pay the severe drain on the slender exchequer.

NO INTIMIDATION OF THE WITNESSES

Foreigners Giving Evidence in Humber Bay Assault Case Will Be Prevented From Talking.

Great care is being taken by the crown in the trial of Joseph Napoli, on a charge of murder, that no intimidation of witnesses shall take place. Owing to the fact that the case hinges on a sort of feud between the Pollocks and the Italians of the Humber Bay community, it is feared either party may attempt intimidation. The conflicting statements of Martin Garada in the witness stand yesterday, in which he at first declared that the prisoner was not the man who struck the blow, and later, on further questioning, admitted that his brother was bleeding after his struggle with the prisoner, led a crown official to remark that it looked as if the very first witness in the case was very unwilling to admit certain details. Hereafter it will be arranged so that

The Gourlay is an Extraordinary Piano

The appetite for good music is never appeased.

The more good music we hear the greater our longing for it, and as we learn the subtleties of music our appreciation and enjoyment increases.

But it is not possible to produce surpassing music on a piano of low calibre.

The Gourlay is an extraordinary Piano. It has a rich resonant tone quality not surpassed by any piano made in the world. It has responsiveness of action which engenders high ambitions. It has qualities of workmanship that perpetuate these qualities for a lifetime—it is a durable piano.

It is the piano not only for the accomplished and gifted musician, but it is the piano that meets most successfully the conditions surrounding every Canadian Home.

METHODIST UNION.
Fifty Ministers Attended Meeting of New Association.
About 50 Methodist ministers and representatives of Toronto churches attended the first meeting of the board of directors yesterday of the Methodist Union of Toronto. The meeting was held at the Wesley Building, Richmond street, and was presided over by John Donogh who was appointed acting

chairman, and Alexander Mills secretary. The chairman explained to his fellow-directors that the corporation was an entirely new one and chartered under the Ontario statutes. The Methodist Social Union and the Toronto Methodist City and Fred Victor Mission, which were consolidated in the new corporation, had no charters. The first business of the directors would be the election of a board of directors

and the adoption of a constitution and by-laws. Committees to report on the organization of the directorate in accordance with the statement of the chairman, were approved. They will report to a meeting to be called at an early date.

DISCOUNTED IN RUSSIAN ARMY

Government's Alleged Failure to Uphold International and Military Dignity is Bitterly Resented.

LONDON, Nov. 26.—(Can. Press.)—“Public opinion is slow to express itself in Russia, says a St. Petersburg despatch to the Reuter Telegram Co., but indignation has been growing the last few weeks at the alleged lack of virility in upholding Russia's international and military dignity. A few brief statements have been issued denying all military preparations, and Russians are allowed to know nothing more about the government's attitude.”
“In a country where every family is represented in the army,” the despatch continues, “serious sentiment is inevitable. The officers complain that they are treated as supers, while any display of enthusiasm for the Balkan States has been repeatedly repressed.”
“Nevertheless, the pro-Balkan feeling is developing and societies to carry on the campaign are being formed in St. Petersburg and the provinces. A street collection at Moscow yesterday for the war reached 100,000.”
“The fourth duma will assemble Thursday and the government policy of secrecy will undoubtedly be assailed. The official attempt to manipulate the elections failed and the constitution of the fourth duma is practically the same as that of the first, but more adverse to bureaucratic methods.”
“In the meantime the working classes are unquiet and the university troubles have started again. Opinions differ concerning the morale of the rank and file of the army.”

MANY WESTERNERS ARE GOING 'HOME'
Returning to Spend Christmas Holidays With Friends or Relatives in the Old Country.

An unusually large number of westerners are going across the ocean this year to spend Christmas in the old land, according to officials of the different steamship companies. The steamers scheduled to sail from Halifax and Quebec during the course of the next three weeks will be booked to capacity from present indications, the trade officials estimate. Opinions differ as to the number of westerners returning from the west. The steamer Royal Edward, which sailed over for the first C.N.R. train to come thru on the special Canadian Northern train from Winnipeg, which arrived in Quebec yesterday. This train, which consisted of four sleeping cars, a dining car and two day coaches, was of considerable interest to railroad men as it was the first C.N.R. train to come thru from the west. It left Winnipeg at 5 p.m. Sunday evening, travelling over the C.N.R. line to Port Arthur, thence over the C.P.R. from that point to Montreal, thence over the C.N.R. to Quebec City.

Winter Tours to the Land of Sunshine and Summer Days.
At this season of the year a great many are planning their winter tours to the sunny south, others to California, while a considerable number prefer the flowers and sunning Florida, together with the very even climate.
Owing to modern railway facilities, an extensive trip both interesting and educational, can now be made in speed and comfort at comparatively small expense.
The Canadian Pacific Railway offers particularly good service to Detroit, where direct connections are made for Florida, via Cincinnati, Ohio, and Atlanta, Ga. Jacksonville, Florida, is reached second morning after leaving Detroit. Excellent connection can also be made to Florida via Buffalo.
The Canadian Pacific Railway route will be found the ideal line to Chicago, where direct connection is made for the southern states. New Orleans, La., is reached second morning after leaving Toronto.
Direct connection is also made at Chicago for points in California, Mexico, Texas, Arizona, etc.
The dining parlor and sleeping car service between Toronto, Detroit and Chicago, is up to date in every particular. Connecting lines also operate through sleeping and dining cars. These contemplating a trip of any nature will receive full information from any C. P. R. agent.

The Electric Heating Pad. Needed in the nursery
To protect the children from taking cold, it is necessary that the feet be kept warm at night as well as during the day.
An Electric Heating Pad is an ideal bed and foot warmer, as it does not grow cold like a hot water bag, but steadily throws off whatever degree of heat is required—warm, very warm, or hot—and for as long a time as wanted.
The Electric Heating Pad is covered with soft eiderdown cloth and is light and flexible. It is easily and quickly adjusted and is made ready in a moment's time.
It is economical to use, and being practically indestructible should last a lifetime.
The many purposes for which an Electric Heating Pad is adopted makes it a Christmas present that will be appreciated by anyone.
Call at the demonstration office and examine one, or have it sent to your home. The Home Comfort Number is

FAVORABLE TURN OF EVENTS SENDS WHEAT DOWN ONCE AGAIN

Lower Prices at Chicago Due to Clearer European Outlook and Bearish Domestic Developments -- Corn and Oats Close at Small Decline.

CHICAGO, Nov. 26.—Wheat prices slid down today chiefly because European quotations appeared to make a war scare absurd. The market closed heavy 1 to 1-1/4c under last night. Corn finished 1-4c to 3-8c down, oats unchanged to 1-4c off and provisions varying from 17 1-2c decline to an advance of 5c.

Transatlantic indifference to chances that the war would spread took the wheat pit by surprise. The result was much unloading. In addition the leaders in short selling renewed their attacks.

Heavy receipts and a big increase in the visible supply tended further to discourage the bulls. Argentine crop advices were of a bearish sort, and there was practically no milling or foreign demand. The only sign of a rally came when transient gossip said that a break had occurred in negotiations for peace.

Larger receipts and fine weather depressed corn. Trade at times was rather slow. Cash grades were heavy. Covering by shorts kept the oats market relatively steady.

Stock yard houses unloaded provisions and discounted hog cholera reports.

Northwest Receipts.

Receipts of wheat at northwest points, with usual comparisons, follow:

Week	Year
Chicago	\$1 130 48
Minneapolis	87 420
Winnipeg	78 538
Duluth	43 400 142

European Markets.

The Liverpool market closed 1/4c lower on wheat, and 1/4c to 3/4c lower on corn. Antwerp wheat closed 1/4c higher, Paris 1/4c lower, London 1/4c to 1/2c lower, and Budapest 1/4c lower.

European Visible.

The visible supply of wheat in Europe this week is 83,000,000 bushels, against 82,100,000 bushels last week, an increase for the week of 900,000 bushels.

LIVERPOOL GRAIN EXCHANGE

LIVERPOOL, Nov. 26.—The market was unchanged to 1/4c lower at the opening on the firmness in Antwerp, but the uncertainty of political outlook, and later there was an advance with some covering by shorts. There was a rally and the continued favorable weather and crop news from Argentina, decreased demand for cargoes and a large export market was under pressure.

Corn opened steady and unchanged with wheat. Later there was a decline of 1/4c on pressure of Plate offers, decreased speculative demand and large arrivals at Liverpool from Argentina.

CHICAGO GOSSIP

Wheat—May price closed at bottom for the day at a decline of 1/4c from last price yesterday. This result was unexpected by a large element in the trade, which felt that there could be no safety in the selling side of wheat so long as the foreign political situation was so uncertain. In fact, the fear of foreign war rumors held trade in check and close to the market was dull and narrow for a portion of the session. Before the close a rally occurred, but the market appears to be somewhat disturbed by the foreign political situation to prevent a natural decline.
