### WILL ASK FOR \$6 A DAY.

High School Teachers Put Value on Examining Papers.

The high school teachers will memorialize the government to raise the scale from \$3.25 to \$6 a day for examining papers.

The examiners met yesterday afternoon in the Normal school. Every department was represented, and the matter was thoroughly discussed.

Some of the teachers were in favor of asking for \$10 a day, on the ground that the pay for other services performed for the government had increased.

There were many others, however, to whom \$5 a day looks large, as it does when a man draws a salary only \$600 a year.

The question of a protective association among high school teachers for the purpose of demanding a general raise in salaries was not discussed by the examiners as a body.

Private and quietly the matter was talked over, and a high school teachers' union is in a fair way of formation.

So much educational work must be done that for the time the proposal is left in the hands of a discreet few to work out ways and means.

It may be further discussed before the teachers separate for the year.

### TO PRESERVE EXPORT FRUIT

Refrigerator Cars for Quebec and Montreal Next Week.

With the movement of export fruit getting under way, the refrigerator car service on consignments to Montreal and Quebec will go into effect on Aug. 1, continuing till the end of September.

A circular has been issued to the effect by W. B. Bulling, C.P.R. assistant freight traffic manager.

## HAMILTON HAPPENINGS

### ADJ. WHITTON SUMMONED

#### AUTO CAR GOES TOO FAST

Meeting of Finance Committee of Council—No One Blamed for Double Tragedy.

Hamilton, July 26.—(Special.)—Ald. H. B. Whitton's auto has got him into trouble with the police again. A short time ago he was fined \$10 because his chauffeur drove the car too fast, and this evening he was served with another summons to appear in police court Friday on a similar charge.

The finance committee this evening appointed a special committee to make arrangements if possible, with the 15th and 16th bands, for a series of band concerts in the parks.

The committee will report to the city council next Monday evening. W. A. Kerr, the tax collector, asked that provision be made for a yearly revision of the local improvement rolls.

He will see what is done in Toronto before taking final action. Representatives of the board of health asked that a bylaw be submitted to the ratepayers next January, asking them to vote some \$60,000 for the erection of a new isolation hospital for fever cases.

The board was asked to furnish more details, and it is likely that the bylaw will be submitted.

The creditors of the Webster Floral Co. met this afternoon and after appointing inspectors, adjourned for a week. It is said that the affairs of the company are in a better shape than was thought at first.

An enquiry into the circumstances surrounding the death of James Coll and Mrs. Annie Beach, who were asphyxiated in a fire last Sunday morning, was held this evening.

Nothing new was discovered and the jury brought in a verdict blaming no one for the tragedy.

Street Railway Earnings.

The earnings of the Hamilton Street Railway for the first half of the year show a big increase.

The earnings amounted to \$117,188, as compared with \$102,462 for the corresponding period last year, an increase of \$14,726, or almost twenty per cent.

The city's is \$15,122, or \$1600 more than it was for the same period last year.

Cataract Declines.

The Cataract Power Company has declined to accept the concessions recommended by the special conference committee of the city council.

The conference continued, and Dundas has been notified that the Seaford Football Club has defaulted, leaving Dundas the champions of the western district.

The license commissioners have inspected the hotels, and will probably renew all the licenses at their meeting Friday.

To Join Theatricals.

Police Constable Egan has resigned his position on the force to become an actor.

James Crooks was taken seriously ill at the F. B. B. race track.

It is claimed that he made a rule not to accept anything but in-incident cases, the authorities of the consumption sanatorium on the mountain have taken nothing but advanced cases.

Want Their Stock Back.

Some of the shareholders who sold their Hamilton, Steel and Iron Company stock at par to the directors for taking steps to upset the transfers, at the stock exchange, are now asking for their shares back.

## NUMBERED ON BLOCK SYSTEM

### RESIDENTS ARE PERPLEXED

#### Brunswick Avenue Householders Hardly Know Where They're at Under the Experiment.

Difficulty is experienced by people doing business with the residents of Brunswick-avenue owing to the confusion arising from the new system of numbering. The street has been numbered on the "block" system, but the residents persist in using the old numbers.

If the residents are not satisfied with the new system it would be better for all concerned if the city would revert to the old numbers. In any event it is felt that the department responsible for this change should make some effort to induce the residents to become reconciled to the new order of things.

and prevent an annoyance to business men and others who have occasion to deliver goods on this street.

The residents don't seem to care much which numbering system is followed, but they would like one or the other. For instance, Miles Vokes says his house is No. 19, and he thinks it is also "1003 or something."

He looks upon the new arrangements as foolish. Citizens generally think that the block numbering system would be desirable if it was put into use all over the city, but in this work it is bound to create confusion.

The letter carriers have a little trouble, but they in most cases know the names of the residents, but where there are summer visitors confusion is apt to arise.

At the general postoffice last night the meter did not seem to be considered serious. The route boys for the newspapers get a bit mixed up on the present arrangement.

Brunswick-avenue starts from College-street, where the first number is 1000. The idea of the block system is to create a house number for every 13 1/2 feet of property and bring the numbers on parallel streets the same right along.

It was only commenced a few weeks ago, and Brunswick-avenue is the first street to be numbered that way.

There is \$5000 set aside for the idea, but as it has cost \$150 to number Brunswick-avenue it can be seen that to do the whole city would run into a lot of money, perhaps as much as \$40,000, and unless the city is numbered that way through trouble is inevitable.

School trustee L. S. Levee lives on Brunswick-avenue. His house number is given in the telephone book as 83, while the white enamelled numerals on the wall make it 1172. The new telephone book lists the number as 83, while the change in the house numbering.

One source of inconvenience mentioned by Mr. Levee as a result of the change is its effect on getting help through advertisements. The big number leaves the impression that the house is away out in the suburbs.

The idea was adopted in this city thru the efforts of Ald. Dr. W. S. Harrison. It is successful in other cities, Mr. Levee thinks, but in this city confusion unavoidable. He says, however, that his neighbors really not making much complaint.

City Knew of Agreement Continued From Page 1.

At the University of Toronto last evening Dr. A. H. Abbott delivered a lecture on "Experimental Investigation of Complex Mental Operations."

Dr. Abbott indicated directions in which experiment is being applied to investigation of thinking, emotion and volition, and showed what conclusions these investigations warrant.

The same principle, he said, is found in the study of the facts of thinking, emotion and volition, and thus the investigation suggests that we have even a deeper unity of the mental life than has been supposed.

#### CITY KNEW OF AGREEMENT

Continued From Page 1.

from the street, doused in water and let to drain," said Mr. Lenox.

Hunter was entitled to \$7800 for the work he did, and he got just that sum.

Crown Attorney Corley asked for an adjournment on the ground that there were so many new features in the evidence that it would be necessary for him to call Mr. Biggar, Mr. Gibbs, Hon. S. C. Wood and others.

"Mr. Gibbs is dead and Mr. Biggar is in Italy," City Mr. Robinette.

The magistrate was mystified regarding the agreement as to the appointment of Hunter. He wanted to know where it had been all this time, as it was only a copy, Mr. Lennox said, and the original had been in the possession of the city for 15 years.

There was an interesting bit of argument on Mr. Corley's request for an adjournment. Mr. Robinette urged upon the magistrate that in the civic investigation Mr. Lennox was assumed to have done something wrong from the beginning.

That agreement was over the heads of the city hall when the investigation was going on, and could have been found if it had been asked for.

Mr. Kingford pointed out that Mr. Robinette had complained very bitterly that his client had not been given time to answer questions. He was going to be fair to the prosecution as well as to the defence. The crown claimed that it had not had time to get matters into shape. His worship thought it was fair to grant the adjournment. Mr. Fasken was anxious to get away for vacation.

Witness Was Nervous.

There was a bit of fun when Thomas Moore was called to the stand. The witness was deaf and very nervous as to whether he would make a mistake or not.

"You know charges of perjury are made very easily," remarked Mr. Robinette.

Mr. Kingford was kind and very lenient with the witness, who was plainly uncomfortable. Mr. Moore was asked whether other witnesses had been had on the Freehold building, and the Athletic Club. The Freehold people paid him, and Mr. Lennox said him for the Athletic Club, but the club provided the funds.

"What were these cheques paid to you?" asked Mr. Corley, producing a bunch of them.

"For services rendered," answered Mr. Moore, who said he would go into particulars if Mr. Lennox said he was at liberty to do so.

Mr. Lennox had paid him from time to time what he thought his services were worth. With considerable emphasis Mr. Moore insisted that the court that he had not got a dollar from Mr. Lennox that he had not honestly earned. The cheques produced were made in the years 1890, 1891 and 1892.

The case was adjourned till next Thursday, Aug. 1, when Mr. Moore will again be on the stand.

#### FIREMEN WANT A TAX.

To Be Levied on Insurance Companies for Volunteer Brigades.

A law in imitation of that in the United States is being by the Provincial Volunteer Firemen's Association by which insurance companies would be required to pay a percentage of their profits up to a certain amount, the sum realized to be devoted to the equipment and improvement of the volunteer brigades.

The deputation consisting of President Moffatt, Merritt; Vice-President Pollard, and R. Clark, Hamilton, waited on Hon. J. J. Foy yesterday and preferred this request.

The attorney-general stated that the statutes permitted a tax to be levied on the insurance companies, but the proceeds went to the province, instead of to the municipalities for the volunteer firemen.

**DELEGATES DIDN'T ALL VOTE ON PREFERENCE RESOLUTION**

Result May Not Therefore Represent Opinion—Bradford Feels Slighted.

(Canadian Associated Press Cable.) London, July 26.—At a meeting of the directors of the Manchester Chamber of Commerce, E. H. Langdon, president, reported the result of the discussion of the congress at London. He stated that the resolution in favor of preferential trade put forward by the Canadian chambers had been carried by 105 to 41. The list of those entitled to vote, however, showed that of home and 35 colonial chambers, possessing together 102 votes, did not take part in the division.

Bradford Displeased. At a meeting of Bradford Chamber of Commerce, W. H. Mitchell, referring to the abandonment of the visit to Bradford of the colonial delegates to the congress at London, said he did not like to say anything in the nature of complaint. Not only in Bradford, but in other towns, extensive preparations had been made and a good deal of expense incurred, and the experience on this occasion might detract from the number of applicants to take part in the tour was less than thirty, half of which were for ladies.

Not Selfish. At a meeting of the Halifax Chamber of Commerce, commenting on the report of delegates from the chamber to the congress at London, J. H. Murray, president, said he thought the colonial delegates advocated their views with no selfish motives, but with an idea that the preference would be for the benefit of the mother country more than from the mother country to the colonies.

**FARMERS HAVE PREFERENCE FOR OTHER THAN ENGLISH INDUSTRIES ARE LOCATING ALONG ASHBRIDGE'S BAY**

'Tis Queer, But 'Tis So—Some Probable Reasons for the Feeling.

"No English need apply" is the poetic justice which time has meted out in Canada to the great nation in whose newspapers a similar legend still appears regarding the people of Paddy's Land.

A Winnipeg correspondent of The Yorkshire Post has written that paper stating that in the advertisements Englishmen are frequently tabooed. The Ontario Colonization Bureau could not frankly admit among farmers and tradesmen English are not so popular as Scotch or Irish.

"There must be some reason for it, for the fact is undoubted," said Director Southworth.

The intractability of the average Englishman is considered to be the usual reason. He brags with him a root of contempt for the colonial and all his ways, and he undertakes the mission of getting things done as they are done in England, and more adaptable objectionable type is not universal, but it is so common that the English as a class have gained a reputation for being intractable.

An illustration of the difficulties of handling Englishmen occurred yesterday, when a party of 15 were reported to have returned from Bala. Instead of going to the bureau in the first place, as they had been instructed, they went to an Italian employment agency in Toronto and were sent north, as they say, on a promise of \$2 a day wages. Not getting this from the railway company, they returned to Toronto, where they refused to take any less. Ample employment is to be had from the farms and the city, but the Englishmen are not so ready to adjust themselves to such conditions. The Englishmen, however, only had one idea to get back home, and that was to go back home, so some of them swam the river, and started to walk, the advance guard having arrived Friday morning, the others being on the way.

Any man who is not prepared to take what he can get to do and put up with it, is not fit to be in Canada or the United States, had much better remain in England.

An amusing incident on the street is the other evening rather odd to the argument. Two men were engaged in a hearty altercation at Church and Richmond streets and a crowd gathered to see the fight. One of the men was shouting at the other—

"You big hulking English blankety blank!"

It angered the other man, whose indignation at the sundry accusations brought back this earnest protest: "Now you look here, I'm NOT an Englishman."

**ALLIANCE TO BANQUET MEDICOS**

When Professional Opinions on Alcohol Will Be Presented.

The Dominion Alliance will tender a luncheon to the British Medical Association in the University gymnasium, August 2nd, at which prominent members of the association will be invited to discuss the question of the use of alcoholic liquors in health and disease, starting their views at present taken by medical men.

The subject will be introduced by Sir Victor Horsley, chairman of the representative meeting, and Prof. G. Sleswoodhead, professor of mythology in Cambridge University. John Y. Henderson, chairman of the National Temperance League and typhoid fever in Britain, will also be present and speak.

**NOTED MUSICIAN TO COME.**

Saint-Saens Has Consented to Conductor at Canadian Concerts.

(Canadian Associated Press Cable.) London, July 26.—Camille Saint-Saens has consented to conduct his works and other French compositions for the Canadian people at the second cycle of musical festivals to be given through Canada by Dr. C. L. E. Harris. The festival composer was influenced by credentials which the Canadian composer presented from Earl Grey and Sir Wilfrid Laurier bearing upon this international musical propaganda.

**The World's Richest Perfume.**

No perfume is so strong as sassafras. Remember the yield is less than one-twentieth of one per cent (0.04) of the raw wood. For 1 lb. of attar more than 4000 lb. of roses are needed. The peasant gets about 10s an ounce. For the same quantity as sold in Paris and London (writes Mr. J. Foster Fraser), the price is 28 an ounce. So strong is the odor that nothing short of a hermetically sealed jar will resist it. A glass stopper, however, tight, will not keep it tight. Indeed, so strong is the odor that it is nauseating. To remedy this, and to make it genial to the nostrils may be put forward, as a kindly explanation why it is so often adulterated and weakened. To be in a Kasaalik store was to be in a thick and sickening atmosphere. I put my nose over a copper jar in which was 28000 worth of attar, and the smell was so powerful as to disgust and produce of headache. The time to visit Kasanlik is about the birth of June. Then you can get attar for your horse and ride for two days, 40 miles a day, feast your eyes on a land of damask blooms, and breathe the scent of millions of roses. When the gentle breeze carries the roses of Kasanlik have their perfume carried 30 miles.

**Fruit Germicides.**

Here is something that about next time you eat an apple or orange, as an antidote to the bacteria which have shown that the acids of lemons, apples, and other fruits—citric acid, malic acid, and others—are capable of destroying all kinds of disease germs. Cholera germs are killed in 15 minutes by lemon juice on lemons, and typhoid fever germs are killed in half an hour by these acids, even when considerably diluted. If you squeeze a lemon into a glass of water containing cholera germs, and let it stand 15 or 20 minutes, you may drink the water with impunity, as the germs will be dead; these juices will kill all other disease germs. In ordinary cases of biliousness, sick headache, and nervous headache, a fruit diet is a wonderful purifier.

**NO OTHER FOOD IS SO DELICIOUS, NO OTHER FOOD SO HEALTHFUL, AS MALTA-VITA**

"The Perfect Food"

MALTA-VITA provides the body with all the valuable nutrition of malted whole wheat without giving the stomach a lot of hard work to do, for MALTA-VITA is practically pre-digested when we eat it. All its food elements are quickly taken up by the system, forming rich blood in abundance and bringing strength and health to the body. You never tasted anything quite so good as MALTA-VITA. Every grain of the malted whole-wheat is a little wafer flake, baked crisp and brown, that simply melts in the mouth.

Get some MALTA-VITA to-day. Eat it with milk or cream or fresh fruit. Delicious for breakfast. Just as good at any other time.

**Cable Report Says So, But Official Denial Follows.**

New York, July 26.—A special cable to The New York Herald from Paris dated Wednesday says: Just after being honored by President Fallieres at the Elysee Palace to-day Major Dreyfus was publicly insulted in the Cercle Militaire, one of the most exclusive of Paris, by a commandant who slapped him in the face. As soon as Major Dreyfus came into the salon an officer, whose name is not yet known, ran up and slapped him in the face. The major did not reply.

**Formal Denial.**

Paris, July 26.—An official denial was issued to-day regarding the rumor that Major Dreyfus had been assaulted yesterday by a brother officer at the Military Club. The official statement says: According to custom the officers of the First Cavalry Division gave a dinner to the newly appointed lieutenant colonel the minister of war authorized the officers, upon their unanimous request, to invite Major Dreyfus.

**Major Johnson Loses.**

Cleveland, July 26.—Mayor Tom L. Johnson and W. J. Springborn, director of public service, appeared before Judge Ford in common pleas court to-day to answer to the charge of contempt, filed by the Cleveland Electric Railway Company because they failed to obey an injunction restraining them from tearing up the company's tracks. The destruction must cease.

**C.P.R. Getting Ready.**

Regina, July 26.—The C. P. R. will construct a commodious new yard here to accommodate the rush of freight. At least 22 cars per day arrive and more than has been found necessary. The company will also construct a yard at Saskatoon and will build a new line from that city to the capital.

**\$2 to Fort Erie Saturday.**

**CRAMPS CURED.**

I was troubled with Cramps for a long time, and had several doctors attend me, but my medicine did not seem to do me any good. I got three bottles of Dr. Fowler's Extract of Wild Strawberry, and it cured me. It is the only medicine I can recommend. I would not be without it in my house.

A. DEMERCHANT, Bath, Ont.

**WEAK BOWELS CURED.**

After a severe attack of Typhoid Fever my bowels were left in a very weak condition, and I could get nothing to do me any good until I commenced taking Dr. Fowler's Extract of Wild Strawberry. I take a great deal of pleasure in recommending it to all sufferers from bowel complaint.

Mrs. Jno. M. STEWART, Little Current, Ont.

**DYSENTERY CURED.**

I was very bad with Dysentery and used Dr. Fowler's Extract of Wild Strawberry, and it completely cured me. We keep it constantly on hand, and could not get along without it. It has saved us lots of doctor bills.

E. M. ADAMS, Stanbridge East, Ont.

**DIARRHOEA AND CRAMPS.**

I take pleasure in telling you what Dr. Fowler's Extract of Wild Strawberry has done for me. I was taken with Diarrhoea and severe Cramps in the Stomach. I secured a bottle of your medicine and had only taken a few doses when my trouble disappeared. In the future I will always keep it in the house ready for use.

Mrs. M. JACKSON, Normansdale, Ont.

**BABIES TEETHING.**

Ever since my mother first knew of the wonderful curative qualities of Dr. Fowler's Extract of Wild Strawberry, it has always been kept in the house. She says that it always acts like magic, and especially when given to teething babies.

## BULLS STILL IN CONTROL

Arrival of Morgan Made the Object of a Demonstration—Toronto Stocks Firm.

World Office, Thursday Evening, July 26. A fair amount of spirit is imparted to the Toronto Stock Exchange again to-day, but the doubtfulness of traders has not yet succumbed to the large volume of business and somewhat higher level of prices. It is not believed to be possible that anything more than a light manipulated advance in prices will be accomplished to-day. Those who are parting with shares are thought to be turning in rising prices are willing to concede that late in the fall a bull movement of good dimensions may be brought into being, providing the agricultural year concludes with a fair proportion of the present promise, but they are unwilling to concede that the financial institutions can finance any permanent rise in securities and the crops at one and the same time. The daily advances are very narrow, as floor traders positively refuse to carry stocks beyond where they can see a profitable turn of anything exceeding 1/4 of a point. The same parties are making a point of taking on no issue that does not offer a free market. The continued buoyancy of Wall Street, the real strength of the Canadian financial market are duly chronicled and the general character of the book displays the same indications of an underlying optimism. Mr. Houston's publication needs no recommendation to those already acquainted with it. The growth of the Canadian investment market must bring the work a continuously growing clientele, as in no other way is so favorable a nature of securities to be readily or accurately obtained.

## Interest to You

It is a wise plan to lay aside a small amount each week and to deposit it with this Company, where it will earn 3 1/2% interest.

**On Wall Street.**

Marshall, Spader & Co., of J. G. Beatty (King Edward Hotel), at the close of the market to-day: Many stocks advanced to new high records for the movement. In some directions, however, there was evidence of a slight reaction, which looked like the effort to realize aid at the same time restrict the trading within conservative limits. The market appears to be accepting this class of liquidation with a good tone and while some of the news of the day was of a pessimistic nature, there was nothing in the situation to warrant a change of sentiment. The banks appear to have lost their sub-treasury operations about \$1,700,000, but last week's surplus reserve was in excess of \$19,000,000, and this item could easily make a further loss without infringing the strength of the local institutions. The weather and crop news of the day continues exceptionally good, the some reports of rust in the Northwest were more or less effective in the grain markets. In an upward movement of the market, reactions are always in order and we believe any recession to-day is best of this nature. We consider stocks a purchase on all weak spots.

Ennis & Stoppani wired to J. L. Mitchell, McKinnon Building.

The market to-day has developed exceptional strength and power of resistance in face of heavy selling and disappointing news of the fact that no action was taken at the St. Paul meeting, except declaration of a 2 1/2 per cent. dividend. It was stated that the company had sufficient funds to care for present requirements. The return of Morgan was made by the Canadian Pacific. The feeling in good quarters is that the market will be carried higher.

Charles Head & Co., to R. R. Bonagraz. The opening market was firm with advances of half to one point within the first quarter hour. London prices were generally half point higher and a better feeling

HEALTH OF THE PROWAGE

The returns of 738 division-registrars for June proved one of the most complete in the history of the department.

It will be observed by the table of contagious diseases below, that scarlet fever, diphtheria, measles, typhoid and consumption, show a marked decrease.

The total deaths from all causes are 1968, from a population of 2,657,256, which makes a death rate of 13.7 per 1,000.

Smallpox, scarlet fever, diphtheria, typhoid, whooping cough, measles, and consumption.

PROBLEMS OF ASSESSMENT DEMAND SOME PUBLICITY

The assessment department officials, according to an evening paper, admit "complaints from small dealers" respecting the "business assessment."

Under the recent act. They add that "the larger retail dealers and the wholesale men are doing their usual amount of kicking and there are some cases in which the department is dissatisfied also."

The officials have accepted the returns as to the income without any question, but as was stated at the city hall yesterday afternoon, "there is no way to get a full return except through publicity."

Among some of the large income assessors picked at random from the books yesterday are:

Sir Wm. Mulock, \$24,822; Geo. Crawford, \$15,000; John W. Langmuir, \$10,000; Sir Frank Smith, \$11,900; E. R. Wood, \$45,000; S. C. Wood, \$1,750; D. R. Wilkie, \$20,214; Alex. INGERSOLL'S MAYOR DIES SUDDENLY AT PORT BURWELL

Citizens were shocked to-day on being apprised of the sudden death at his summer cottage at Port Burwell of Mayor James P. Boles.

Mr. Boles had been in poor health for some time, and his death was not generally expected.

He was a man of splendid physique and of the most generous and noble of spirits.

Friday, June 29, 1906. LONDON LIFE INSURANCE CO. CLEAN; PROBES SHOWS HONEST DEALING

Manager J. G. Richter on Stand Yesterday, and Close Enquiry Elicits No Transformation of Questionable Notice.

With apparently a mutual understanding that frankness on both sides was to be their policy, Mr. J. G. Richter, manager of the London Life Insurance Company, and Assistant Examiner Tilley faced each other yesterday morning at the first session of the Dominion Government Insurance Commission.

Mr. Tilley gives the impression of being quite anxious to secure the good things that insurance companies may do as possible shady transactions, but his tones would never indicate the time at which he scored a point.

It would have been unnecessary for any examiner to use a cudgel on such a witness as Mr. Richter, how- ever, the highest of willingness to answer every question, and on many occasions volunteered information which was beneficial.

Having permitted so many labors, the act resumes its role of apparent prohibition and real license. Except in cases of emergency, it shall not be lawful for any person to permit any employe in telephony, telegraphy, transportation, or in the work of any industrial process, to 'go on the Lord's Day' without giving them a full day of rest.

TORONTO RAILS AND PARK PURCHASE.

World Office, Thursday, July 26. The Montreal pool in Toronto railway stock has accepted the present high and favorable working of a few more of the shares.

The company has had the benefit of the park travel now talked of for several years, and whereas a great increase in benefit to the shareholders is compared with other tractions the current increases in Toronto Railway are proportionately smaller, but this is particularly favorable to the shareholder.

Increase in business awaits the company, but principally from extensions which cannot be so profitable as from the present concentrated system. The shares have lost attraction both as a speculation and investment to Toronto dealers. The tone of the local market improved slightly again to-day, but there was not a share of Toronto Ralls included in the transactions.

**ALL ABOUT HOG RAISING**  
YORKSHIRES MOST POPULAR

Lead in 33 Out of 42 Counties Dealt With in Provincial Report.

An important bulletin of the department of agriculture on "The Swine Industry in Ontario," was issued yesterday, an official remarking that the culture of hogs was not confined to Toronto. A total of 2,267,574 hogs were slaughtered in the province in the year ending June 30, 1906. Kent County leads the list with 117,007; Simcoe following with 113,888; Grey with 106,917; Essex with 102,880; Huron with 89,437; Wellington with 84,253; Perth with 81,643; Oxford with 80,275 and Middlesex with 77,408, before York with 64,921. Haldiburton, last of the list, had only 2884.

The bulletin will enable those engaged in the swine industry to decide more intelligently as to what their policy should be in the production and feeding of their stock. It is mainly a synopsis of the replies received from a large number of correspondents in answer to a circular letter of enquiries regarding the swine industry. Each county is dealt with separately and a summary is appended. Out of 42 counties the Yorkshire is reported to be the principal breed in 23 and in 7 others ties with some other breed for chief position. In one county Berkshire is the principal breed, and ties in 7 counties with another breed, coming second in 23 counties. Tamworth is the principal breed in the County of Durham. Berkshires are fairly evenly divided, and Tamworths are mostly used in sections taking in Bruce, Grey, Simcoe, Dufferin, Peterboro and Victoria, and Northumberland to Dundas. The most popular cross is between the Yorkshire and Berkshire.

The tendency in this province is to produce more hogs of the approved back type. Pure bred sires are used almost entirely in 25 per cent of the counties. The number of piglets born in litters was decreased considerably in 1906, while 1906 shows an increase over both 1905 and 1904. The increase is particularly marked in the eastern part of the province the industry is growing more rapidly than further west. The average number of pigs per litter to reach weaning age is figured at 7.77.

Cost of feeding is put at an average for summer feeding of \$4.51 per cwt. and for winter feeding at \$5.38 per cwt. With comfortable quarters and cows a number of correspondents state that the cost is no greater for winter than summer.

Prof. Day, O. A. C., adds three pages of valuable comment on the merits respectively of the fat and the bacon hog. There is a certain demand for fat hogs at home, but when the export point is reached Canadians find themselves face to face with American competition which can beat the Canadian fat hog on account of cheap corn and a superior market. Farmers should realize, says the professor, that the sale of the fat hog depends on the production of the bacon hog, which holds the key to the situation. He cautions against experiments on both sides of the line that breed has little to do with the cost of putting on flesh.

Individuals are far more effective than breed or type in determining the cost of production," he says and concludes, "Canada has nothing to gain and everything to lose if she abandons the production of the bacon hog."

**Boy Chokes in Elevator.**  
Albany, N. Y., July 26.—George Miller, a bell boy, said to be from Philadelphia, was killed by the elevator at the Globe Hotel early this morning. An employee was started at seeing Miller with his head thrust thru the elevator door, the glass from which was missing. The elevator had caught him by the neck, holding him fast and choking the life out of him. Evidently the boy thrust his head thru the door when the elevator was down.

or at least in the effective repression of the anarchical forces."

**Necessary Acts.**  
As to the suppression of newspapers and wholesale arrests M. Stolypin said:

"Arrests, expulsions and other measures of administrative order are indispensable under the present circumstances. The newspapers suppressed were purely and simply revolutionary organs whose appearance would not be intimated in any country in the world."

M. Stolypin gave the correspondent to understand that until last month he had considered a compromise regarding the cabinet possible, if not probable.

The members of parliament might have been given certain portfolios, out of the party exigencies of the "Caretakers" could not for a moment be admitted.

M. Stolypin declined to express an opinion of parliament's attitude of general land expropriation. He said:

**Close to His Heart.**  
"The interests of the peasants lie near the emperor's heart. His majesty and those closest to him admit the justice of the claims of the peasants, and nothing will be left undone to solve the agrarian problem in a spirit of sympathy, generosity and equity. I believe the peasants will recognize this when the details of the land proposals are fully explained to them with the aid of local commissions nominated from among those enjoying the confidence of the peasantry. When the cabinet is complete we will come forward with an exhaustive program covering the land question and other subjects demanding immediate solution."

M. Stolypin discussed the vicissitudes of the regimen of the late Interior Minister Von Plehve, ex-Interior Minister Prince Sviatopolk Mirsky, and Count Witte. While dissociating himself entirely from Von Plehve's ideals, M. Stolypin expressed the opinion that a policy of benign inactivity was equally inadequate to solve the stupendous problems facing Russia. What was needed was a well considered program with the intention and will to carry it out. The worst resource was delaying with all parties and all policies.

**Opera Bouffe.**  
The Viborg manifesto M. Stolypin described as an opera bouffe production, unworthy officialism. He laughed at the idea that the government had not arrested the signatories of the manifesto because of fear. No steps, he said, would be taken against the members of the parliament unless they attempted to agitate in their own constituencies or elsewhere in

**FALSE NEWS.**

The government is using every means a tithe disposal to create the impression both at home and abroad that the crisis has been successfully passed, and that the probability of a general upheaval has disappeared. The semi-official press is filled with comforting assurances that the government now has a firm hold of the situation and that the confusion and demoralization in the councils of the opposition politicians and the bars, and much of the disorganizing produced by the coup d'etat render united action impossible.

Moreover, the official reports seek to create the impression that there has been little response among the masses to the plan for a general strike as a preliminary to a universal uprising. The application of the old methods, the government confidently asserts, has already landed the most dangerous of the leaders behind bars, and much stress is laid on the importance of the capture of a number of revolutionary ringleaders at Moscow, which, it turns out, was the result of a complete failure of the complete plans of a revolutionary military organization which enabled the authorities to close the revolutionary channels into the government. The government's sudden access of optimism, however, is a reality traceable to the consternation over the disastrous fall in Russian securities at home and abroad.

The second installment of the big loan negotiated prior to the assembling of parliament, is due Aug. 11, and the outlook in Russia has frightened the holders into refusing to pay any further cash. The situation has evidently caused quite as much alarm among the financiers who underwrote the loan abroad as it has at the treasury here. Finance Minister Kokovsov has been bombarded by telegrams from French, English and German bankers, urging on him the necessity of supporting the market. This accounts for the activity of the government bankers in bidding up prices on the bourse here and at Moscow yesterday, as well as the rosy view of the future sent abroad by the official telegraph agency last night under M. Kokovsov's inspiration.

As a matter of fact, the government can hardly be blind to the fact that it is living over a volcano and that the danger of an eruption is far from ended. For the last 48 hours the central committees of the Social Democrats, Social Revolutionaries, Peasant League, and the military committees have been conferring both separately and jointly with the parliamentary groups, and not on the question of calling a general strike, but actually on the question of attempting a counter-coup by setting up a provisional government.

No final decision has yet been taken, but practically all the representatives of the organizations, including that of the revolutionaries, are in the city.

**CASTORIA.**  
Bears the Signature of *Chas. H. Fletcher*

road men, but excepting the telegraphers, have already pronounced in favor of this step. The members of the Group of Toll and Social Democrats of the out-constituted Democrats to discourage any active revolutionary step, but secretly they have agreed to support or join in it if it can be successfully inaugurated. A hundred of them met last night in Finland, under the presidency of Prof. Milukoff.

**To Fight With People.**  
The possible extent of the support which a revolutionary movement will receive from the army is, therefore, vital. At Helsinki, Finland, Tuesday night, 1500 soldiers and sailors of the garrison took an oath to fight on the side of the people.

It is quite apparent to disinterested judges of the situation that the government's entering on its present policy made a perhaps fatal blunder in lacking the hardihood to arrest the members of the outlawed parliament. This left them free to conduct a conspiracy against the life of the government. When the plot is complete and the signal has gone forth arrests will be useless, and the government will again find that it acted too late in closing the political clubs, which has been followed by the closing of all the workmen's unions and suspected tea houses.

The prefect of police has issued an order proclamation warning the population that persons guilty of armed resistance or attempts to commit political crimes will be court-martialed, while lesser offences, like participation in the formation of leagues, incitement to strikes, etc., will be punishable administratively without trial by a fine of \$1500 and imprisonment of from

three to six months. The reports from the provinces indicate that the authorities do not fear to employ harsher methods than are used at the capital. The editors of confiscated newspapers are compelled to give hostages as guarantee against attempts at illegal publication.

**INCIDENTS.**  
Six of the elected members of the Council of the Empire (upper house of parliament) have resigned.

There are indications that the government, following the complete surrender to the demands of Finland, will seek to propitiate Poland and the Baltic provinces by concessions, for the purpose of divorcing them from the revolutionary movement in Russia proper.

**TAXING THE FIELD ESTATE.**  
Must Pay More Than He Was Assessed on Last Year.

Chicago, July 26.—The three-cornered controversy between the board of review, the executors of the Marshall Field estate and the city corporation council's office came to an end yesterday when the taxing body decided that the Field estate should be taxed a total of \$1,300,000 this year, including back taxes. The decision means that the executors of the estate will be compelled to pay the county \$2,300,000, which is more than the total amount of property on which Mr. Field was taxed during the last year of his life.

The greater part of this sum to be paid is to come from the collection of back taxes, on which Mr. Field is held by the board to have escaped payment. The members of the board estimate the back taxes without any authentic figure to guide them.

The personal property, upon which the estate shall be compelled to pay taxes for this year, was placed at \$25,000,000.

**OBITUARY.**  
**Edward Graver.**  
A pioneer of Barrie, Simcoe County, in the person of Edward Graver, died at his residence, 2 Olive-avenue, Toronto, yesterday morning. The deceased was born in March, Cambridge, England, on Dec. 8, 1830, and came to Barrie in 1850, shortly afterwards entering the hardware business, which he carried on for a great many years. Advancing age necessitated his retirement some time ago from active duties, but he continued to reside in Barrie until last year, when he and his wife, who survives him at the age of 85 years, removed to this city. With the widow is left an only daughter, Mrs. John Culverwell, Barrie. A service will be conducted at the house, 2 Olive-avenue, this evening by Rev. J. J. Redditt, a former pastor, and to-morrow morning by the 9 o'clock train, the remains will be conveyed to the Union Cemetery, Barrie, for interment.
