ELECTION ISSUE

PLACED BEFORE LARGE MEETING

W. F. Maclean Makes Address

in Behalf of Labor Candidate Whose Platform Includes Support of Modern Principles.

LONDON, Oct. 24.—(Special).—W. F. Maclean, M.P., arrived from Toronto tonight and addressed a mass meeting at the city hall, which was taxed to its utmost capacity.

The Labor candidate and the Labor party were busy today. Mr. Maclean visited one shop after another. This afternoon he went thru the Rolling Mills, making a personal canvass, and his vote to-night showed signs of his strenuous work.

During the day the principal topic of talk was W. F. Maclean. Many local Conservatives insisted that he would not come, and telegrams were sent to him at Toronto protesting against his thinking the stump against Major Beattie.

In his speech Mr. Maclean explained his position. He had been invited to say a word for public ownership, and he discussed his favorite question with uncommon vigor. He did not hesitate, however, to endorse the candidacy of the Labor candidate.

Mr. Maclean, M.P., was introduced as "the greatest exponent of public ownership," and was received with great applause. "I am here because I was invited to say a word in favor of a candidate who stands for the principle of public ownership," he said.

"I believe that every candidate for parliament should declare himself upon this principle, for to my mind it is the one big issue, the burning issue before the people. It is a principle in which I believe, and which I stand by, not as a false weather vane, but as a firm and places whenever I am called upon to address my fellow citizens, either in the house, or on the stump. Now what is the purpose and end of government? It has a duty of course to preserve order and to punish criminals. But that is only a small part of its duty."

"What should the government do for the people? It should make their lives more livable. (Applause.) It should bring the comforts of life to the greatest number of people. It should endeavor to make their lives brighter and happier. How is this to be done? It can only be done by making the necessities of life so cheap that the people will have some chance to procure for themselves by their labor some of the comforts of life. It is only by making many useful things which are now luxuries for the favored few, the ordinary comforts, attainable by all good, industrious citizens."

How was this to be brought about? Mr. Maclean insisted that it could only come thru public ownership. As things are now, we find that fuel, light, water-power and all facilities for the transportation of freight and passengers and for the transmission of intelligence by wire were monopolized by greedy and selfish men, who were making the unfortunate consumers not only pay a high price, but exorbitant prices. It was for the people to decide whether the necessities of life so cheap as to be their heritage, or whether it was to be cornered by the power barons of Canada. It was for the people to decide whether the necessities of life so cheap as to be their heritage, or whether it was to be cornered by the power barons of Canada.

SIXTY MILLIONS PAID TO RALLY WALL ST.

Dramatic Support of Great Financiers Prevents Utter Chaos and Restores Confidence.

NEW YORK, Oct. 24.—As a result of to-day's developments in the financial world there is every indication tonight that the crisis in the banking and trust company situation has been safely passed. The Trust Company of America all thru the day's banking hours paid out money to depositors as rapidly as possible and closed the day with all demands having been met.

The aggregate amount of money which has been contributed in order to weather the storm and restore confidence assumes truly colossal proportions. Roughly estimated it includes \$25,000,000, which Secretary Cortelyou deposited in New York banks; \$25,000,000 which the Morgan pool brought to the floor of the stock exchange; \$10,000,000 which John D. Rockefeller deposited with the Union Trust Co., as a means of stemming the tide at the Trust Company of America, and finally \$5,000,000 which the Rockefeller family understood Mr. Rockefeller stood ready to advance to meet any further stress of conditions—in all considerably in excess of \$100,000,000.

First and earliest in the day came the announcement of trouble in three minor state banks in the outlying districts of Harlem—the Hamilton Bank, the Twelfth Ward Bank, and the Empire City Savings Bank. These banks transacted only neighborhood business and their suspension of payment was absolutely without significance as bearing on the general condition. The Empire City Savings Bank was controlled by a Tammany Hall politician, and its business operations were confined to a small area. Altogether these banks were obliged to close because of lack of ready cash, State Bank Examiner Pudson declared this afternoon that all three were solvent and that they should be reopened.

By far the most notable, even dramatic, episode of the day was the emptying of millions of money into the stock exchange thru a pool headed by J. P. Morgan and other financiers. The second episode was a rather more serious run inaugurated against the Lincoln Trust Co. A rumor spread that this company was steadily thruout the day, but was not serious at any time, and the sums withdrawn were not large.

Controlled by a Tammany Hall politician, and its business operations were confined to a small area. Altogether these banks were obliged to close because of lack of ready cash, State Bank Examiner Pudson declared this afternoon that all three were solvent and that they should be reopened.

Half the houses at Ferruzzano and Brancalone collapsed and many persons were buried in the ruins at Sinopoli and St. Ilario many are said to have lost their lives. Panic prevailed everywhere. Rocella, Jonica, Reggio, Cosanzza, Baradico, Clita Nova, Palmi, Geracia, Mazina and other towns also suffered from the shocks, but not severely. The ancient cathedral at Torre di Gerace was thrown down, as was also an ancient tower in the Village of Gerace are in ruins.

PHILADELPHIA, Oct. 24.—The Canadian royal commission which is investigating the Quebec bridge disaster, today inspected the plant of the Phoenix Bridge Company at Phoenixville, Pa., where the steel for the collapsed structure was made.

NEW YORK, Oct. 24.—(Special).—A Dominion C.B. man bought a wife for \$20 a short time ago and has now lost her.

CONTROLLERS SUPPORT

"Greater Toronto" Idea—The Claims of East Toronto.

TO BE ANNEXED.

North Dovercourt and Wychwood, and all territory north of the city limits, south of a line drawn 280 feet north of St. Clair-avenue, to Deer Park, taking in both sides of Dunvegan-avenue, turning east at the south limit of Upper Canada College and going north at the east limit of the college to the south limit of North Toronto, thence easterly to Yonge-street, thence following the ravine, which is the south and western limit of Mount Pleasant Cemetery, to the C.P.R. tracks.

The board of control at a special meeting yesterday afternoon unanimously decided to recommend to the city council at the meeting on Monday next that the territory, as above given, be annexed by the city. In view of the opposition of Assessment Commissioner Foran and City Treasurer Coady to the taking in of East Toronto and to Toronto Junction, the board proposed acquisition of these municipalities.

Mr. Forman's hostile attitude was based mainly on the apprehension that annexation would open up an era of land exploitation and speculation, and that before considering annexing East Toronto, attention should be given the financial standing of both municipalities and the city. Mr. Coady thought that the financial standing of both municipalities rendered them undesirable.

There were present deputations representing all the districts under consideration, including Mayor Baird of Toronto Junction, Mayor J. McP. Ross of East Toronto, and a number of Deer Parkers.

Controlled by a Tammany Hall politician, and its business operations were confined to a small area. Altogether these banks were obliged to close because of lack of ready cash, State Bank Examiner Pudson declared this afternoon that all three were solvent and that they should be reopened.

INSURANCE JURY

DECIDES IN THE TOMBS

Jury Find Dr. Gillette Guilty of Perjury—First Big Official Reached by the Law.

NEW YORK, Oct. 24.—The first conviction in the cases based on the disclosures in the legislative investigation of insurance affairs in 1905-06, was obtained by the district attorney's office tonight, when a jury in the criminal branch of the supreme court found Dr. Walter R. Gillette, former vice-president of the Mutual Life Insurance Company, guilty of perjury in the third degree. The verdict was accompanied with a recommendation for mercy. The maximum penalty for this degree of perjury is ten years' imprisonment.

Justice Dowling remanded Dr. Gillette to the Tombs. During the trial the defendant had been held under \$100,000 bonds. The jury was out one hour and 25 minutes, in the interval Dr. Gillette chatted with his son and daughter. If he was at all nervous he did not betray his state of mind. When called to face the jury however, he paled perceptibly, the pallor giving way to a flush as he entered the verdict. For a moment he appeared surprised, but promptly recovered himself. He was accompanied by his son and daughter to the entrance to the Tombs.

Dr. Gillette is 57 years of age and is well and favorably known as a physician, from the practice of which he retired some years ago. He was born in Philadelphia and is a graduate of Madison University and of the College of Physicians and Surgeons of this city. He served in the civil war as acting assistant surgeon and later coming here was named as a member of the State Asylum for the Insane and became consulting physician at several hospitals. Later he was associated with the insurance business, resigning only last year the vice-presidency of the Mutual. His home here is at 24 West 47th-street.

Dr. Gillette's reputation for integrity, after which former Justice Hatch summed up for the defendant, had been so well known that when the grand jury began its inquiry regarding special insurance funds, the disposition of which was concealed from the policyholders, of funds for "confidential legislative purposes," it was not surprising that it should have been so well known.

Dr. Gillette's reputation for integrity, after which former Justice Hatch summed up for the defendant, had been so well known that when the grand jury began its inquiry regarding special insurance funds, the disposition of which was concealed from the policyholders, of funds for "confidential legislative purposes," it was not surprising that it should have been so well known.

ALL ON THE WATER WAGON

EARTH SHOCKS PICTOU TOWNS

IN CALABRIA

List of Dead Placed From 20 to 120—Towns Panic-Stricken.

ROME, Oct. 24.—The details received here during the day regarding the earthquake at Calabria yesterday tend to show that the damage done was much more extended than at first estimated, but that the loss of life had not been great. The lowest estimates place the number of killed at about 20, and the highest at about 120.

Half the houses at Ferruzzano and Brancalone collapsed and many persons were buried in the ruins at Sinopoli and St. Ilario many are said to have lost their lives. Panic prevailed everywhere.

EARLY MORNING FIRE

One of Griffin's Amusement Theatres Gutted.

Fire broke out in the Griffin Amusement Theatre at 183 Yonge-street, near Queen, at 1.05 this morning. The blaze broke out suddenly and flames shot half way across the street. Defective wires from the shocks, but not severely.

SAW PHOENIX WORKS

Canadian Royal Commissioners Investigating Bridge Disaster.

NOVA SCOTIA AT NORFOLK

NORFOLK, Vt., Oct. 24.—Nova Scotia proposition to-day, with Lieut. Gov. Fraser, and with the treatment and assistance they had received from the Phoenix Company officials.

AID THRU TRAFFIC AT EXPENSE OF LOCAL

two systems are consecrated to handling the thru American traffic, and that these high officials one and all scorn to do anything in regard to local traffic, and turn it over to their underlings, and even to the striplings in their employ. Apparently Sir Thomas Shaughnessy, Mr. McNicoll, Mr. Hays and Mr. Morse, Mr. Wainwright and all the other magnates in Montreal do not wish to be bothered about the local traffic in Ontario. It is enough for them if they attend to the long-distance messages from Chicago, insisting on quick thru meat and grain trains, and answering the complaints of the Armours and the Cudahys and men of that class, and that they are quite willing that boys at \$6.00 a week, and chief clerks and other irresponsibles attend to the complaints of the ordinary people of Ontario.

WATT'S CONTRIBUTION

Explains His Contribution to Party Funds—Bribery Plot Unfounded.

Hugh Graham, proprietor of The Montreal Star, writes The World as follows in explanation of certain matters which have lately agitated the politicians of both parties:

From several attempts which have been made to interview me since my return to Canada, touching the subject of my subscriptions to the Conservative election fund for the Quebec district during the last general elections, I infer that there is still some public interest in the subject, and as it is of importance to myself, at least, that any impression which goes abroad shall be accurate, I have nothing to conceal. That I do not regard it better to deal with the matter in a signed statement than in an informal interview.

Perhaps I may say, to begin with, that there is still some public interest in the subject, and as it is of importance to myself, at least, that any impression which goes abroad shall be accurate, I have nothing to conceal.

The Toronto World

A Morning Newspaper Published Every Day in the Year. MAIN OFFICE 83 YONGE STREET

Table with circulation statistics for the week ending Sept. 22, 1907. Columns include dates from Sept. 1 to Sept. 22, with corresponding circulation numbers.

Net Average for 25 Days 41,608

Net Average Five Sundays 39,559

The foregoing figures include all papers actually sold and do not include damaged papers, samples or returned copies.

Declared before me at the City of Toronto, in the County of York, this 1st day of October, D. 1907.

(Sgd) JAMES BAIRD, A Commissioner.

FOR CHEAP POWER. On Wednesday, with an ill-concealed air of triumph, The Globe published a front page diagram with the legend underneath, "What a Power Curve Really Is."

The data on which they worked have been fully disclosed, and have been published for many months. They have not been challenged, although scrutiny and criticism have been invited.

What is needed in the Canadian Parliament to-day? Emphatically, men who have clear convictions on the important problems that clamor for solution and who refuse to subordinate their convictions to the exigencies of the party machine.

These figures are well worth noting because they indicate what, in the view of the Electrical Development Company, was a proper ratio between kilowatt and meter rates.

Toronto in April, 1906, remarked that the company's president, when floating the bonds in London, had been able to claim that of the first 50,000 horse power issued, not one-half of that allowed, the profits were \$800,000, or five per cent. on \$16,000,000.

Public services corporations when fighting with their backs to the wall to protect their franchise privileges, are never scrupulous in their efforts to influence public opinion.

Thanks to the grand jury system of the United States the discrimination charge was investigated, with the result that the jury reported that Mr. Moffett had no knowledge of any of the facts relating to the particular shipments, and that they were of opinion that nothing warranted the statements in the pamphlet which, they added, "we believe to be without foundation."

Take Flags, One Glory More! (A play written before the famous engagement and found in the scrapbook of Chaplain John Nunn, Toronto.)

people—in utilitarian phrase, the greatest good of the greatest number. Public ownership is advocated by The World because it is in the interest of the people, because it brings with it cheap and efficient service, because it is only right that those who make public franchises valuable should get a proper return for their money.

AID THRU TRAFFIC AT EXPENSE OF LOCAL

(Continued From Page 1.)

these things, and perhaps they will begin to wonder where things are all going to land, and whether there is any limit to it, and whether there is any good in electing members of parliament to protect public rights and to compel great corporations to perform the duties for which they were franchised.

A long string of grievances came to the ears of The World yesterday by letter from shippers, by telephone and otherwise. Most of the complaints were pleased with the course of The World, but when The World tried to secure information from a firm of grape-growers at Winona, the party who got on the telephone was "hot."

A fruit man on the Esplanade informed The World that T. H. P. Carpenter of Winona spent \$15 recently telegraphing and telephoning in an effort to get cars to handle an immense quantity of grapes, which were threatened with damage by frost.

A Toronto wholesaler stated to The World that a consignment of goods was shipped to his firm on July 15 from Montreal. One case was missing on arrival here, and never turned up until a few days ago, when it was of no use to the firm.

Another man accounted for the long delay in receiving shipments by the fact that the C. P. R. employed cheap labor at Quebec to load cars with merchandise taken from the Empresses.

A complaint that is frequently heard is the delay in securing satisfaction from either of the railway companies in regard to claims for losses by consignees. The staff that looks after this part of the work is altogether inadequate to the large number of claims daily received.

AT OSGOODE HALL. ANNOUNCEMENTS FOR TO-DAY. Chambers. Cartwright, master, at 11 a.m.

NEW YORK, Oct. 24.—In the course of a desperate fight over the ownership of an automobile, Dormans Ormsby "shot" his rival, Frederick Wehmann last night.

EATON'S DAILY STORE NEWS

The Winchester Repeating (10 Shots) Rifle for \$16.25 Your Choice of 32-40 or 38-55 Caliber

The rifle, according to critical sportsmen, has the most perfect repeating action made. All parts are constructed on the most accurate calculation and experiments, to work with ease and surety.

THE ACTION is manipulated by a finer lever, the firing pin being first withdrawn, the gun unlocked and opened, the empty cartridge ejected, a new cartridge presented and forced into the chamber and the firing pin held back until the gun is again locked.

THE BARRELS are 26-inch, bored for black powder or low-pressure smokeless.

THE TRIGGERS are easily pulled, and the hammers being without any projecting parts, are safe and reliable.

The total length is 45 inches and the weight about 7 lbs. all the metal parts have the "blue" finish, handsome and weather resisting. Price \$16.25

This rifle, like all our goods, carries the guarantee of satisfaction or your money refunded.

We carry a complete stock of guns and ammunition of highest quality at lowest prices.

WITH a blaze of "pumpkin" lights, entrancing music, decorations and displays, this Great Festival has started off with a bound almost past our calculations.

ENGINEER'S COSTLY ERROR. NEW YORK, Oct. 25.—Miscellaneous. NEW YORK, Oct. 25.—Miscellaneous. OKOLONA, Miss., Oct. 24.—Charged with having over the telephone insulted and threatened the life of a young white woman of this place, Henry Sykes, a negro, was taken from an officer near Van Vleet, five miles from here, last night and hanged to a tree.

HOW RAILWAYS CAN SHORTEN DISTANCE

The distance by the Canadian Pacific from Toronto to Ottawa is 256 miles, and the C. P. officials have said that they can shorten their line so as to reduce the distance to, say 225 or 220 miles, and they also say that they can also straighten out their track and reduce some of their grades, and in that way shorten the time by two hours.

MAN OUT OF WORK JUMPED OVER YORK ST. BRIDGE

Despondent from Reaction of Excessive Drinking, Edinburgh Man Ends It All.

Without a job and crazed by the reaction of a prolonged spree, David Thompson, 42 years old, 179 Simcoe-street, threw himself over the York-street bridge, a distance of over 30 feet, to the tracks below last night.

White in the ambulance he told P. C. Robert Scott that he had jumped over the bridge and said he had been drinking. It was not at first thought that the man was seriously injured. It was afterward discovered that his back was broken.

THE BEAUTY OF LABOR.

(From The Philadelphia Saturday Evening Post.) The economy of the day by a strike of the young women who pay for their boarding and lodging partly in service they did not object to waiting on table, but certain other of their domestic duties were of such a nature

that the term chambermaids was applied to them, which was more than they could stand. The matron pointed out the folly of this. All honest labor, she said, is equally honorable; only the silly and snobbish could possibly lose self-respect by performing any necessary task. The workman in whatever position is upheld by a deep sense of the essential dignity of all useful labor.

"BRICK'S TASTELESS"

It is an extract of fresh cod livers, containing all the virtues of pure Cod Liver Oil without the nauseous grease, combined with Phosphorus in the form of the Compound Syrup of Hypophosphites, nutritious Extract of Malt and the Fluid Extract of Wild Cherry Bark.

TO PROTECT THE SHIPPING ON ST. LAWRENCE RIVER

The international waterways commission defer decision on power application. The international waterways commission during a private session at the Queen's yesterday morning, approved plans for compensating works at Sault Ste. Marie, and had under consideration the project proposed to be done in order to lower the level of the Richelieu River in the Province of Quebec with the view of preventing floods.

LONDON ELECTION ISSUE

Continued on Page 8. The company wishes to take 40,000 cubic feet of one per second from the river. The question was referred to Prof. Haslewood, chief hydraulic engineer, and Mr. Mathews of Minneapolis, submitted plans for placing a dam and lock in the River, but he had not applied for the department of public works at Ottawa for permission to do so.

VIOLENT EXPULSION OF AIR KNOWN AS COUGHING

At this season of the year, when people are especially subject to coughs and colds, it isn't out of place to know just what it is that causes one to cough, and the action of a cough on the organs involved. The violent expulsion of air from the lungs, through the mouth, results in an irritation in the air passages, which is commonly known as coughing.

HUGH GRAHAM

Continued From Page 1. I believe, I was only following the policy I have accepted and lived up to, for a third of a century. For thirty-three years, The Star has taken a keen, aggressive interest in municipal, provincial and federal elections, and has always endeavored to make its views more effective by helping to elect the candidates which represented them.

VARSAITY APPOINTMENTS

Board of Governors Make Additions to Faculty Staff. A meeting of the board of governors of the University of Toronto was held yesterday afternoon, at which the following appointments were made: Faculty of Arts, seasonal appointments—J. F. Mackay, M.A., assistant in the chemical laboratory.

NOT IN ACCORD

To-day The Star is not in accord with either of the two political parties, but in reflecting upon this it must be borne in mind that The Star gives its support to neither the present policy of the two parties as unworthy of the best traditions and insufficient for the needs of the country.

ONE OF THE "BIG ONES" CONVICTED

NEW YORK, Oct. 24.—The jury in the case of Dr. Walter R. Gillette, former vice-president of the Mutual Life Insurance Co., who was charged with perjury, tonight returned a verdict of guilty. The verdict was accompanied with a commendation for mercy. Dr. Gillette was remanded until Monday for sentence.

NON-SUITED.

Chief Justice Falconbridge in the jury assizes yesterday dismissed the action brought by W. H. Curtis, an M.C.R. brakeman of Niagara-on-the-Lake, to recover \$5000 damages for the loss of a leg when thrown from his train near Welland in January of this year.

Money is Still Plentiful WHEN GOOD Sound Secured Investments ARE OFFERED

\$250,000 is the authorized capital of Goderich Wheel Rigs

THE COMPANY will manufacture a full line of all kinds of wheel rigs, viz.: Baby Carriages, Go-Carts, Folding Go-Carts, Boys' Express Wagons, Rowing Wagons, Auto-pedes, Toy Carriages, Sleighs, and a line of Reed and Rattan Furniture.

There is to-day only one concern in Canada manufacturing this line of goods complete, and there are over one hundred in the United States.

A very large percentage of the goods consumed in Canada are at present imported from the United States, against which we have a Protective Tariff of 35 per cent.

The Company will also manufacture a high-class Patent Wheel which surpasses all others in style, finish, durability and price.

\$211,400 of this stock has already been subscribed. The balance, \$38,600, we are offering for sale, being 386 shares, par value, \$100 each.

Both the Canadian and American manufacturers paid large dividends in 1907.
