**They Say They'll Be Trapped by Country's Clerical Enemies.**

### Safety of France In Public School

Premier Briand Counsels French People to Be Calm and Not Be Trapped by Country's Clerical Enemies.

**Tuesday Night Will Show Who's Who—Meantime, it Looks Like Gagnor, Barnard and Hearst in Order.**

PARIS, Oct. 31.—M. Briand, the premier, in an eloquent discourse last night, at the dedication of the home of the Educational League, at which President Fallieres and several ministers were present, announced that one of the government's principal preoccupations would be the protection of the public schools, whose enemies were the real enemies of the republic.

"We shall carry every borough and elect practically every office of importance. Gagnor will get the most votes than Hearst and Barnard together. Hearst will run second.—MURPHY, of Tammany Hall.

"The public schools," he continued, "are the hope of the future security of France, and if their enemies succeed in undermining the schools, it is the republic itself which will be weakened. The government will strive to secure adequate laws, but the support and disunion of the people will be most efficacious."

**WEST IS NOT ENAMORED OF SIR WILFRID'S NAVY**

**Not Best Way to Settle Our Obligations to Britain, Says Bob Rogers.**

The most striking thing shown by the canvasses, so far as I have been able to learn to-day, is that Barnard is running with more strength than anyone has placed to his credit.

"In the west we don't believe that the founding of a Canadian navy would be the best way of paying our obligations to Great Britain for the services and protection rendered to us in the past, but in view of the record of the Ottawa administration, who under heaven could expect anything from that government?"

### TRENTON TO GET MOST OF THE BURNING

**Rates Under Proposed Agreement Will be High, Terms Onerous and Contract Without End.**

TRENTON, Oct. 30.—(Staff Special)—Dam No. 2 is in the whole object of the proposed agreement between the Trenton Town Council and the Trenton Electric and Water Co., Limited. The agreement practically amounts to an abrogation of the conditions agreed to and in operation respecting Dam Number One, and the effect will be to deprive the town of the revenue now received from Dam No. 1, the power plant in connection with which will be closed down. For the power generated at Dam Number One the town will only get, by clause 9 of the agreement, 50 cents royalty, and the 50 cents will not be paid on the horse-power generated, but only on the average horse-power sold or disposed of outside the town limits.

**THE DANGER OF THE PEAK LOAD.**

There is no arrangement for peak load, so that if at any time a consumer should use more than his normal amount, a greater amount of horse-power than he expected to pay for would be charged for the full quantity for the whole year. A man who expected to use 5 horse-power might run up to 8 or 9 horse-power on some occasion. He would be charged for that maximum quantity for the year. As a rule the consumption of power among small users is only for 10 or 12 hours a day, so that within minutes, a greater amount of horse-power than he expected to pay for would be charged for the full quantity for the whole year.

**RIGHTS ARE TIED UP.**

When the editor of the Trenton Courier last Thursday gave the agreement its full endorsement and declared that the rates were the cheapest in Ontario, he was neither frank with his readers nor accurate. He even deliberately misled them in regard to the town's rights to the water power. The preamble of the by-law sets forth the fact that the lease from the government is to be for 21 years, renewable forever, and the agreement is to transfer this right of a 21-year lease to the Trenton Electric and Water Co. The town, says the editor of the Courier, "cannot give any franchise beyond the 21 years, for a town cannot legally give anything she has not got."

**YOUNG RUSSIAN WOMAN ENDS LIFE WITH ACID**

**Found by Her Two Children—Teamster Caught Shopbreaking—Happenings.**

HAMILTON, Oct. 31.—(Special).—Mrs. Joe. Showonski, a young Russian woman who lived at 197 North Caroline-street, committed suicide Saturday night by drinking carbolic acid. She was found in her room by two of her young children. It is believed that she was mentally deranged. She had been known by the name of Clark. Joseph Kibble, 106 East Jackson-street, a teamster, was caught in J. H. Horman's store, South John-street, late Saturday night. Constable McKay saw a man lift up the grate in front of the store and drop into the cellar. He telephoned for assistance, and Constables Brannan and Gibbs responded. Kibble is charged with shop-breaking and theft.

**Secretary of State Says So—Also Intimates an Early Start on the Georgian Bay Canal.**

MONTREAL, Oct. 31.—(Special).—Hon. Charles Murphy, secretary of state, was dined here by the Reform Club on Saturday evening, making a moderate, yet interesting speech. He said that Sir Wilfrid Laurier had stated that the Georgian Bay Canal would be postponed on account of a falling revenue, but the revenue was now on the upward trend, and the great work will be started sooner than was expected. He predicted that Canada, thru the canal and the St. Lawrence river, would have absolute control of the grain trade of the continent, and the power generated along the route would pay the interest on the cost of the work, which is estimated at \$100,000,000. "As for the Hudson Bay Railway, that would be started as soon as the Hudson Bay port was decided upon. He would not attend to the details of the project, but one thing was certain, the terminals would be held by the government and the work would be done by the company of choice transportation."

**Build Our Own Navy.**

While not speaking for the government, he felt that every vessel for naval defence should be built in Canada, manned by Canadians. Two classes, he said, were opposed to this idea. One, R. L. Borden and the other, the second class, who would build the first class claimed that the building of ships would engender a feeling of national pride, and that it would be a non-partisan matter. The first class claimed that the building of ships would engender a feeling of national pride, and that it would be a non-partisan matter. The first class claimed that the building of ships would engender a feeling of national pride, and that it would be a non-partisan matter.

**The Barton Murder.**

There is a "Fred Gebhardt" alias Otto Mueller, who has confessed to the murder of a young woman as well as the attempt to burn their bodies. The New York police believe Gebhardt to be a moderate, but a "people" who saw the man walking with the woman whose body was found in a bush in the Toronto park, near the mountain, when shown a picture of Gebhardt, said that they could not be sure that he was the man they saw, as it is now about four years since the crime was committed. Chief Smith said he would probably make enquiries.

**WANT TO KNOW ABOUT CANADA**

New York Herald Sends a Permanent Man to Ottawa.

OTTAWA, Ont., Oct. 31.—(Special).—R. H. Patchin, a member of the Washington Press Gallery, will be the first permanent representative of an American newspaper to come to the Canadian capital. Mr. Patchin, who has arrived in Ottawa, will represent the New York Herald. He will become a member of the Parliamentary Press Gallery, but will remain in Ottawa all the year round with the object of sending a substantial Canadian news service to The Herald.

**ALLAN LINE AND C.P.R. Rumors Regarding Transfer of Ownership Again Revived.**

MONTREAL, Oct. 31.—(Special).—The Allan Line sale rumor to the C.P.R. will not die down. Greater credence is given to the fact that letters patent in view of the fact that letters patent were granted under seal of the secretary of state of Canada, on Oct. 12, incorporating Allan, Hugh Montgomery Allan, Hugh Allan, Andrew Alexander Allan, Gordon Allan, Walter MacDougall, all of Montreal, and Bryce James Allan, of Boston, for the following purposes: "To build, purchase, and sell shares in, acquire, lease, hire, charter and employ, operate, navigate, manage, hold, operate, and maintain any ships, vessels, lighters, necessary engines, furniture, tackle, equipment, and stores."

**KITCHENER SAYS "NO."**

LONDON, Oct. 31.—A deadlock between the colonial office and the war office on the question of finances, complicated by Lord Kitchener's refusal to go to Malta at all. As president of the selection board Lord Kitchener could not possibly be of service to his country if he were kept at Malta. The selection board meets at the war office in London, and that is where its president should be quartered.

**CHALLENGES WORK TO SWITCH PETITIONS**

Requests for Asphalt Block Pavement Overridden by Counter Pressure.

A situation has developed in connection with the letting of contracts for city street paving that needs remedying, and stamps some of the civic officials and members of the board of works committee as more or less weak-kneed.

Petitions that are circulated amongst property owners on streets to be paved, are duly endorsed and have passed the necessary stages to permit of a certain kind of pavement being laid, and sometimes ignored, as a result of counter pressure being brought to bear, and some other form of pavement is ultimately laid down.

After a petition is in and has been given the stamp of approval, rival paving blocks make a capital pavement, and "petition switchers" go around the neighborhood to spread dissatisfaction amongst the property owners with their sick arguments. A deputation is finally organized. They swoop down upon the board of works, possibly with a professional spokesman at their head, and an entirely different type of pavement is specified by that body.

Asphalt Blocks Knocked. A gentleman who has observed this practice has drawn the attention of the World to it. In several instances, he says, "asphalt block" pavements have got the knock. Now, asphalt blocks make a capital pavement, and should be more in evidence on the down town heavily traveled streets. When things get down to a straightforward, honest, and equitable basis at the city hall, it will be realized as the coming thing. The horses like it, because it is not slippery, and the horsemen like it because the horsemen like it.

Yet, it is learned that stereotyped letters are circulated broadcast whenever a petition specifies asphalt blocks, giving them the worst racket ever imaginable, and even hitting the firms that manufacture the product. A sheet of "asphalt blocks" is sent to every house, very clever writer and politician to smash up petitions in this and various ways. The arguments set forth in the letters are of a high order, and are sufficiently logical on the surface to appeal to the ordinary layman, who has not taken any particular pains to go into the thing for himself.

Berlin's Investigation. Just to show the fallacy of some of these lies at asphalt blocks, it might not be amiss to quote from the report of the Berlin board of works, who visited Toronto a week ago to look into paving matters. It says in part: "On Sackville-street, where the pavement is in its second year, some teamsters were interviewed. The first remark was 'asphalt blocks, the sheet asphalt being too slippery for horses, and being too brittle, because it got sticky in wet weather. The next man laid bitulithic, and he declared preference for asphalt blocks."

Whether one pavement is better than another, or more economical is not the question at hand. All measure up side by side. They are all good, and should certainly hold that when a pavement is once signed and certified by the city engineer, and a payment stipulated thereon, the police as well as the engineer, should be final. Wire-pulling, side-tracking and petition switching should be one away with in the city of churches.

**From The Sunday World**

CANADIAN.—W. J. McKee will be the Liberal candidate in North Essex. A. J. Carnovsky of Kingston gave a quart of beer to his sister's husband in a vain effort to save her sister's life. The Ontario companies incorporated in 1905 are 12,000. The Ontario companies incorporated in 1905 are 12,000. The Ontario companies incorporated in 1905 are 12,000.

LOCAL.—The G.T.R. has discontinued the special train for Essex, Ontario, to Mimico. The company want them to be discontinued. Ontario officials will ask the legislature for a protective measure. The Ontario companies incorporated in 1905 are 12,000. The Ontario companies incorporated in 1905 are 12,000.

GENERAL.—The Greek mutiny is officially reported to have been suppressed. The French minister of post and telegraphs will arrange for a special postal service with Canada. Russia's Proposal. PEKIN, Oct. 31.—As a result of the visit of Mr. Kokovtsov, Russian minister of finance, to Harbin, Russia has proposed to the powers the creation of a small international settlement outside the city of Harbin. Diplomatic opinion here is that acceptance would be tantamount to an agreement that China be deprived of all sovereignty over leased railway territory.

Riotous Student Arrested. Wallace Delahay, a S. P. S. student, who lives at 162 Robert-street, but whose home is in Hamilton, was arrested on Saturday night, charged with disorderly conduct in pulling the pole of a trolley car at University-avenue and College-street. He was out having a time with the rest of the students who were celebrating Halloween.

**Public Amusements**

Mary Manning Tonight. Many a morning, supported by a splendid company of players, headed by Charles Richmond, brings her newest dramatic offering, "A Man's World," to the Royal Alexandra Theatre to-night for a week's engagement. Miss Manning is under the management of the Shuberts, who, it is stated, have spared no expense of effort to give their beautiful and most popular star a setting worthy of her eminence. "A Man's World" is written by Rachel Crothers, whose strong and electric drama, "The Three of Us," electrified New York and the country a few years ago. At that time, it was a great success, and it is believed that Miss Crothers has given to the public a more tensely interesting story.

The story is told with the realism and dramatic fervor shown by Miss Crothers in her other plays. Her sense of humor is a skill at character drawing, she has peeped her play with interesting men and women.

At the Princess. "The Coast of Chance" at the Princess Theatre, to-night promises to be one of the most interesting theatrical offerings of the season. Unusual local interest is taken by society in the appearance of Mr. Harris Revere, who has been a prominent figure in the city, while the other members of the cast are also favorably known. In "The Coast of Chance" Mr. Revere plays the part of a man who has been betrayed by his friends; she has no parent nor guardian to confide in, and the slowly crystallizing conviction that her fiancé is a selfish brute and the man she slowly loves is a professional thief, gradually completes the sum of her misery.

With Mr. Revere will be seen Miss Jeanne Carleton, Agnes Patton, John Maurice Sullivan, Frank Hatch, and Edwin Knott, all artists of exceptional ability. There will be popular prize matinees on Wednesday and Saturday when the best seats may be had for a dollar.

"The Lion and the Mouse." Now that the most affable element of the theatre-going public has been attracted to see Charles Klein's remarkable play, "The Lion and the Mouse," Manager Henry Harris has decided that the vast body of amusement lovers with moderate incomes shall have a like chance. In following this policy Mr. Harris will present this play at the Grand this week, with matinees on Wednesday and Saturday. In following this policy Mr. Harris will present this play at the Grand this week, with matinees on Wednesday and Saturday.

WANTED: PUPILS FOR LIGHT OPERA. I prepare you for light opera in nine to twelve months, and I secure you a position in a first-class company. No charge for testing your voice. Write, please, to J. P. McAVAY, 28 Hecouneville Ave.

L. O. L. 551. OFFICE: Members of L.O.L. 551, are invited to attend the funeral of our late brother, Thomas Stewart, from his late residence, 38 Mitchell-avenue, at 2 o'clock on Monday, sister Lodge, cordially invited to attend.

York Pioneer and Historical Society. The regular monthly meeting of the society of business will be held in the society's room, Canadian Institute, 28 College-street, on Tuesday, Nov. 2nd, 1905, at 8 p.m. Five minute addresses by the members.

ability and are costumed in gorgeous creations. The olio is large and varied in style of entertainment, and includes several headline acts, which have become favorites with the theatrical public. The male burlesque promises to be a revelation to the Star patrons, as he is a star in "A Night With the Burlesque Stars."

At the Gayety. This week at the Gayety, Theatre the Fred Irwin Amusement Company will present "Frenchie," a four-act musical farce, which is one of Irwin's best offerings.

The book is from the pen of Paul Ther. The French play, which is in four acts, it tells of a beautiful girl, who has been deprived of a fortune and forced to become a Parisian street singer. The attraction is said to be one of the best of the season.

Further particulars as to dimensions of leasehold, building capacity, inventories, etc., may be had from the assignee, J. P. Langley, 140 King-street West, Wellington-street, Toronto.

PARCEL 1.—Machinery, as per inventory, \$20,708.00. Engines, boilers, etc., \$2,000.00. Building, mill, stable and engine house, \$4,300.00. Dry kiln, \$2,500.00. Leasehold, \$2,000.00. Subject to mortgage and accrued interest, \$3,000.00. Lien on machinery, \$3,000.00. \$31,908.00.

ESTATE NOTICES. EXECUTRIX' NOTICE TO Creditors.—In the Matter of the Estate of Anna Augusta McCauley, late of the City of Seattle, in the State of Washington, one of the United States of America, Spinster, Deceased.

NOTICE is hereby given, pursuant to the statute in that behalf, that all persons having claims against the estate of the late Anna Augusta McCauley, who died on or about the eighth day of April, 1905, are requested to file with the undersigned, the Solicitor for Anna O. McCauley, Executor of the will of the said deceased, on or before the fifteenth day of November next.

And also after the last mentioned date the said Executor will proceed to settle the assets of the said estate among the persons entitled thereto, having regard to the claims of which she shall have notice, and that she will not be liable for the proceeds of the said estate, or any part thereof, so distributed, unless she has had notice of such distribution.

Up to the People. The World is full of apologies for directing attention to what might be done, when local authorities are willing to hand over to private corporations the best assets of the community. The citizens have awakened to the facts in the blunder of sacrificing such a valuable chance to benefit, not only Trenton, but the whole district around, and no doubt the bylaw will be defeated when submitted, and the way laid open to handle the water power in a more businesslike way.

ABDUL HAMID "FOILED" Ex-Sultan Donned Garments of Workman and Got Far as Street. BELGRADE, Oct. 31.—The ex-sultan, Abdul Hamid, has again attempted to escape from the Villa Alatin. A Serbian statesman, from Salonika, who has his bested repaired, had a working power from Niagara, 90 miles away, is figuring on 6 cents. It may be said that Toronto will have a large consumption. Fort William's rate is 6-10 cents, and this, respectively, so that Trenton is under no compulsion to the local company for its offer.

Trenton Gets Worst OF THE BARGAIN. Continued From Page 1. The purpose. In the lighting rates the unfavorable conditions of the agreement for the Trenton citizens are especially marked. It is understood that the lighting rates to be 8 cents per thousand kilowatts. Toronto bringing power from Niagara, 90 miles away, is figuring on 6 cents. It may be said that Toronto will have a large consumption. Fort William's rate is 6-10 cents, and this, respectively, so that Trenton is under no compulsion to the local company for its offer.

A DIVORCE GRANTED. After many years of patient suffering you can be divorced from your spouse by applying to the Dominion Government, which acts in 24 hours without pain. Refuse a substitute because "Putnam" is the remedy that is safe and painless.

Note and Comment

When half time came along at Rosedale Saturday it looked like congratulations for Joe Wright. But with the advent of Williams the Rough Riders took a sport and some more luck, with the result that our sculler boys have still their clean record of six straight wins...

JEFFRIES IS SERIOUS JOHNSON INDIFFERENT

How the Heavyweights Acted in Negotiating for Championship of the World. The actual signing of the articles between the champions was devoid of any show of friendship or the part of either man. Jeffries and Johnson played to a small house when they put their signatures to the articles after they had been typewritten.

A New York writer who did his best for Sporting Editor Price in the recent contest for the baseball presidency takes the defeat of his favorite with none too good grace. He forgets that the professional game was a dirty game, and says: The recent squabble in the Eastern League over the presidency further illustrates the same.

The fifth annual Vanderbilt Cup automobile race was decided on Saturday at Long Island, N. Y., when Harry F. Grant of Boston, driving the American Locomotive Company's car, won the race by a distance of 27.86 miles in 4 hours 35 minutes 45 seconds.

Milton Henry, the jockey, who has been riding Baron Rothschild's horses so successfully in the principal races of Europe, is about to return to his Yankee home. Henry is telling friends that he will take back with him \$50,000 a cool \$20,000 of European race courses during the last five years.

Bob Fitzsimmons is on his way to Australia, where he intends to fight the much abused Bill Scudder. The man needs the money and figures that Australia is a better place to get it than either England or America, where the fans know only too well that he has seen his best days.

Those who know are of the belief that Johnson and Jeffries will face the fight in Jeffries' arena in Chicago. It is claimed that this promoter has a secret understanding with the big pugilist to make the time come to select the best offer for the mill the Colma man will secure the notes, however, he is quoted as saying that he will build an amphitheatre outside Buffalo, N. Y., and will hold a tenting bid for the mill. When it was decided that the contest should be held in New York, only the fighters and their managers had their eyes on Independence Day, and it is likely that the fight will take place on the fourth.

Since signing articles ambitious heavies have been busy for a match with Johnson, who, however, is particularly anxious to fight anybody just yet. He says he needs a rest after beating Kaufman and Ketchell, within a week he will be anxious to either the shekels. He says that he will remain on the stage the remainder of his career, and will fight about two months to prepare for Jeffries. The latter will probably train near Los Angeles and will begin work of a strenuous nature about March 1 or perhaps a trifle later. Jeffries does not seem to be a bit rattled. He regards the negro as a comparatively easy proposition and is apparently delighted with the prospect of a chance to demonstrate his superiority.

"The match has been made," said Jeff yesterday, "and I have made good my promise that I'd fight again. I will be ready when the time comes to ring and ring and I'll win. There I hope the public will allow me to retire permanently if a white man succeeds me as champion, I hope he will draw the color line so that there can never be another controversy of this kind."

"Mister Jeff treated me fairly," said Johnson before leaving here for Chicago. "Now all I hope is that he will be at his best. I have to win. I want to do the right thing and I think I've succeeded. I'll win all right, never fear."

Here's a little incident which shows how good natured everything was at the signing of articles of agreement for the Jeff-Johnson fight yesterday afternoon: The photographers lined up their battery of cameras four deep and two of the men had a flash, filling the room with smoke, when some of the picture men discovered that the double flash had caused the picture to be dark on the picture. Accordingly they made ready to take another flash, cried one of the photographers: "That's all right, you can't get a picture of the photographers."

Johnson's lips parted in that renowned "golden smile" and he remarked in broad Alabama dialect: "An' yo' golt to gimme chance, gem-jum, or ah yo' speakin to Mistah Jeffries?"

The Bison City Farm. NEW YORK, Oct. 31.—For the first time in its history Buffalo will be a "farm" next year. The Eastern League Club in that city has made a deal by which it will be able to use the surplus players of Gary Hermann and Cincinnati club. Hermann's manager, Clark Griffith, has been instrumental in landing William Smith of Atlanta in the Buffalo city, for next year and in return for the favor of the Cincinnati club, the Buffalo city will enjoy the privilege of a farm in the Bison city. Incidentally, it is said that Hermann is the man who has been instrumental in the support of Powers in the recent struggle for the Eastern League presidency and that Hermann was the "white" one because he was under obligations to Powers in several ways. Stein of Buffalo, meanwhile may be said to be in a quiet dry. He did not want to vote for Powers and always was opposed to the farming club.

Cornell lost for the second time this season Saturday, Williams winning a field goal from the 30-yard line, the score at the end of the game being 2 to nothing.

The best hotel in Brockville, Ont., is "The Stratboughs" 100 modern rooms, complete in every detail, especially adapted to commercial men. W. H. BROWN, Prop.

Park Nine Shut Out Eatons Without Hit or Run in Last Game of Season. On Saturday afternoon on the Brock-avenue grounds the Park Nine beat the T. Eaton Co. B.C.C. by a score of 2 runs to none. Pitcher Fred Hickey did not allow the T. Eaton Co. a hit, and also struck out 17 men. Pitcher Hawkins for Eatons pitched a nice game. Score: Park Nine.....2 1 0 Total.....2 Eatons.....0 0 0 Total.....0

Take Your Time, Jeff

Take your time, Jeff, take your time, Johnson is an awful time. Johnson never fought a champ. That could take him into camp. Johnson has a yellow streak. With his tonal to his back. Do not break against your will. Contracts made with vander-ville. Johnson is an awful sick. Johnson is a weakling and a lick. Tommy Burns, the prince of dopes, has been crawling thru the ropes. The Bob Fitzsimmons fight was a joke. Knocked the dusky negro cold. He was stretched upon his back. By your little brother Jeff. He'll beat him to a frazzle. With the speed Jeff would dazzle. Sadler Burke, the new boy, made a Gave Jack's pride an awful jar. He was stretched upon his back. Take your time, Jeff, take your time. Take your time, Jeff, take your time. Johnson has a nerve sublime. Do not expect a fight with you. Greatly to be expected, made a Do not let the public say you. Let the old box office pay you. He ever made by a single cylinder motor. Contracts made with vander-ville. —Wm. F. Kirk in N.Y. American

SPOTS OF SPORT

The management of the Providence team of the Eastern Baseball League, which is now in the city of Buffalo, N. Y., has been notified by the Boston American League team, which is now in the city of Providence, R. I., that they will be in the city of Providence, R. I., on Saturday, Nov. 1, for a game. The Providence team is now in the city of Buffalo, N. Y., and the Boston team is now in the city of Providence, R. I.

At Dallas, Tex., two records were broken in the state fair automobile races Saturday. Robert Burns, in a 20 horse power Buick, established a new mark by driving 100 miles in 1 hour 41 minutes and 2 seconds. The other accomplishment was the breaking of the mile record by single cylinder motor cycles. Armstrong, in a Buick, made a mile in 1:25.5, declared to be the fastest mile ever made by a single cylinder motor cycle on a dirt track.

At Los Angeles, Cal.—A new American record for 20 miles on a circular track was broken in the state fair automobile races Saturday. Robert Burns, in a 20 horse power Buick, established a new mark by driving 100 miles in 1 hour 41 minutes and 2 seconds. The other accomplishment was the breaking of the mile record by single cylinder motor cycles. Armstrong, in a Buick, made a mile in 1:25.5, declared to be the fastest mile ever made by a single cylinder motor cycle on a dirt track.

At Westport, N.Y.—Cadet Eugene A. Byrne of Buffalo, who was injured in yesterday's football game between the army team and Harvard, died at 6:30 Sunday morning. He was 21 years old.

At San Francisco—Willis Britt, the well-known sporting man of this city, and brother of the former light-weight champion, James Edward Britt, died suddenly Saturday afternoon at St. Joseph's Hospital. He was 42 years old.

At Philadelphia—Michael Murray, 25 years old, died in a hospital Saturday night from a fracture of the skull received in a boxing bout in a tournament held by the Philadelphia Athletic Club. His opponent, Harry Haber, 21 years old, was arrested.

The Imperial Trotting Society of Russia has received a letter from the Russian trotting society, which will be sent to the stud of Prince Vorontzoff-Daniloff. All Parkdale Canoe Club players, both senior and junior, are requested to be at Diamond Park to-night, as hard practicing is needed for Saturday's game.

A good second in Green Shield, at Pimlico Saturday in the fifth race, the feature event of the day. At the time of the barrier Stanley Fay went to the front with the Dreamer hanging close. At Philadelphia—Michael Murray, 25 years old, died in a hospital Saturday night from a fracture of the skull received in a boxing bout in a tournament held by the Philadelphia Athletic Club. His opponent, Harry Haber, 21 years old, was arrested.

Mrs. Bunkin of 319 Bathurst-street, while alighting from a trolley at Church and Eglar-streets Saturday evening, fell from the car which started off before she reached the ground. She was dragged a short distance but was not seriously injured.

High School Rugby

All high school students and a big crowd of other Rugby enthusiasts will turn out to-day to see Parkdale and Jarvis in school Rugby honors. White school wins? That's the question that is both being all the students, and that the question that cannot be answered. On form, both schools have equal chances, both have paratively easy. All the players have been practicing faithfully and all are in good condition for a championship fight. The dope shows that the result, which figured it, is an even toss, and only played at 2 o'clock, and the seniors go to the field immediately after. Mr. Wren and Mr. Bunkley will officiate, and both these men have showed themselves to be thoroughly capable. The teams: Parkdale—Full, Burt; halves, Clark, Forgie, Zimmerman; quarter, Dutchie; backs, Houshaw, Routley; middle, Doan, McDonald; outside, Bowles, Clark. Jarvis—Full, Small; halves, Fleming, Davidson; quarter, Mills; scrummers, Hadden, Petturin, Dobby; sides, Lye, Clark; middles, Grant, Smith; outside, Armstrong, Brailwaite; Referee—Dunkley. Umpire—Wren.

Granite Curling Club Committees

The committees of the Granite Curling Club have been formed as follows: Chairman of executive committee, C. W. Bond. Vice committee—Tom Rennie, Harry A. McIntyre, Mortimer, Alexander and Thompson v. Lowe and Brock. Handicap event—F. Armstrong v. W. Bond, H. Brown and H. Hetherington and H. B. Hetherington v. H. H. Brown and G. Malone. F. McEneaney v. D. Greene v. H. V. Wrong and H. Tovel. Handicap singles—Prof. Assens v. G. D. Cholev, LeMoutier v. J. S. Beatty. Men's doubles—Meredit and DeBeck v. H. Armstrong and D. Woods. 3 to 4—Sifton and Campbell v. Le Mesurier and Wrong. Prof. Clasons and Wiekand v. Grassi and Dobbie. 3 to 2 open final, singles—J. D. Cummings v. G. Spenser.

Hockey in New Hamburg

NEW HAMBURG, Oct. 31.—The annual meeting of the New Hamburg Hockey Club was held at the Commercial Hotel here on Friday night. The following officers were elected: President, Dr. Anderson; vice-president, Messrs. J. P. Rau and D. Becker; president, Dr. Anderson; vice-president, C. S. Calcross; secretary, C. O. Wenzel; executive committee, Messrs. E. E. Beger, N. W

BERMONDSEY, THE BUDGET AND TARIFF REFORM.

Bermondsey election provided some surprises and two morals. It has always been an uncertain constituency and like others of its class, inclined to visit its immediate lies on the party and government in power. In 1892 Bermondsey returned a Liberal by 656 of a majority; three years later it reversed its verdict by 360.

In 1900 the Boer war election—the Conservative majority dropped to 300 and in 1906 it went Liberal again by 1759, the largest majority recorded for either side in the history of the division. The late Dr. George Joseph Cooper, whose death caused the by-election, was immensely popular, and was regarded by the Labor-Socialists as in all essentials one of themselves. A tacit understanding indeed existed that he would not oppose him, altho they have been assiduously carrying on their propaganda for some considerable time, and looking to the character of the electorate, no more favorable field for socialistic doctrine offers itself in Britain.

At this by-election the personality of the candidates was distinctly out of the ordinary. The Conservative party was, to begin with, taken at a disadvantage since Mr. Assheton Pownall, barrister-at-law, the official candidate, was in Australia on a tour of the world. This however, turned out to be a blessing in disguise, since it enabled the Tariff Reformers to put forward Alderman John Humphreys, a lifelong resident and for forty years of it a working man engaged in the leather trade, well-known through the length and breadth of the constituency. The alderman was a tariff reformer long before Mr. Chamberlain, and he hoisted his standard in a most promising fashion. Against him stood Dr. Alfred Salter, the Labor candidate, a well-known physician in Bermondsey, and an active member of many socialist and reform associations, while the Liberal colors were carried by Mr. Spencer Leigh Hughes, a distinguished Radical journalist, but not specially associated with Bermondsey. Both were strongly in favor of the present budget proposals.

Mr. Hughes' candidature was not taken very seriously by the London Conservative press, and the real struggle, it was generally anticipated, lay between the Tariff Reformers and Labor champions. This provided the first surprise, for instead of the Radical, it was the Labor-Socialist that came in as a bad, fall-out. Again, notwithstanding the tremendous effort made by the Conservative party, its candidate was less than a hundred votes in advance of the Conservative poll in 1895, but when it is remembered that the election was held on an old register, and that there had been over 2000 removals, the result shows a more remarkable advance than at first sight appears. Looking to the whole circumstances the by-election, to The World's mind, shows that the budget

is being favored, but not as the alternative to tariff reform. The Conservative vote must have been due to working class support, and so far as it goes, it confirms the opinion, gathered in other ways, that protection for home industries is being increasingly recognized in all sections of the community. The outcome further reveals the tactical blunder committed in dividing the Reform forces.

AGAINST "RATS."

In issuing an order to his employees to discontinue the wearing of "rats" in their hair the Postal Telegraph Co. took a step which must excite general masculine sympathy. Women have a fatal weakness in devising their infinitely varied costumes. They always, or nearly always, adopt some feature which stands out as a flaw in the general effect. Perhaps it serves to remind their admirers that, however angelic, after all they are but mortal and erring.

How many charming and otherwise unobjectionable girls have disfigured themselves by the adoption of the style of hair-dressing from among the cannibals of the Papuan Islands, it is impossible to say. But The Ladies' Home Journal, which is certainly an authority, declares that since the development of the "rat" the increase in the importation of vermicide-killers has been most significant in the United States. The "rat," therefore, is neither sanitary, nor sanitary, and the district superintendent of the Telegraph Co. has good grounds for this order.

Fortunately a greater independence of fashion is displayed by the most refined and cultured women every year. They wear what suits them, and not what some manufacturing concern wishes them to buy. Anyone who has seen the hideous piles of artificial hair-fabrics, known as "rats," and especially those who remember the chignon and the pats, greasy with Macassar oil, of a past generation, will pray that independence, refinement and culture may continue to spread in feminine circles. The sweetest, and best, and most feminine women of our civilization, and the girls who follow their example, rely less and less on artificial and extraneous aids in their toilet, and more and more on simplicity in their dress and habit.

Men like to think that their workmen are real and genuine all thru. They do not like to make the explanation, so frequently necessary nowadays, "It isn't her own hair."

CHURCH AND RURALISTS.

A correspondent of The Canadian Churchman calls attention to the ecclesiastical concentration in Toronto. Here live and labor the bishop, the assistant bishop, three archdeacons, two theological schools, a rural dean, and a whole battery of canons. By inference and in fact the rural districts suffer from the absence of pastoral care. Unquestionably the influence and example of good men in country parishes is of immense value in setting up and maintaining standards of conduct, and in spreading the humanizing forces of the age. The recent record of crime in Ontario has been of a bestial and scottish order.

The withdrawal of human influences in the city, the isolated character of much of our farm life, and laborious concentration on world ends is largely responsible for this. Whatever may be thought of religion, and especially sectarian religion, there are no two opinions about a good man. It is greatly to be desired that the rural population shall not be deprived of their due share of the detection and companionship of those whose training and dedication give them the responsibility of leadership.

M'KEE GETS LIBERAL NOMINATION IN ESSEX

Nominating Convention Was Held, a Strong Faction Being Out For Healy.

WINDSOR, Oct. 30.—(Special.)—W. J. McKee, lumber merchant, of this city, was this afternoon selected as the Liberal nominee in the North Essex by-election, to fill the vacancy caused by the appointment of Mr. Justice Sutherland. His nearest opponent was A. F. Healy, a barrister, who was only six votes behind on the final ballot.

The convention ended harmoniously by Healy's moving to make the nomination unanimous, his motion being seconded by James Anderson, who was also a candidate. The first informal ballot stood 72 for McKee, 66 for Healy and 26 for Anderson. A few other votes were scattered. After the result was announced the candidates made brief speeches. On the succeeding ballot McKee was five votes ahead. Anderson being low man dropped out, and on the final division the result was 81 for McKee and 82 for Healy.

Considerable time was taken up in the fore part of the convention in settling a protest against the election of the Windsor delegates. Three candidates held a conference and agreed to increase the representation by giving the chairman of the thing ward, which had not been allowed to file a list of delegates, power to cast ten votes. The Conservatives will hold a convention on Monday afternoon. Mayor W'rie of Windsor and Oliver Wilcox, a farmer from South Woodlee, are being urged to enter the race.

WHAT IS "OAKWOOD"?

"Oakwood" is the new residential sub-division in Toronto. A Dovercourt street car will bring you within four minutes' walk of it. We cannot tell here all the beauty of the place. You'll have to go out there and see for yourself if you want to appreciate that, or the possibilities of the property. It stands on that hill which skirts the northern boundaries of Toronto, and overlooks the city and the lake. There is good air in "Oakwood" and all the comforts of city life will shortly be installed because the Toronto school board have contracted for a modern high school to be erected on the northern end of "Oakwood." Property is selling there to-day at twenty to thirty dollars the foot. It won't stay long at that price, so that if you want to make a good investment in land or build a home "that is a home," here is your opportunity. Phone to Goulding and Hamilton, Main 3300, or call and look over the plans and get a full or idea as to terms. Goulding and Hamilton, 106 Victoria-street, Toronto edit.

Hon D. N. Eberts, speaker of the last B.C. legislature, Saturday received the Conservative nomination for Saanich constituency.

AT OSGOODE HALL.

ANNOUNCEMENTS.

Motions set down for Single Court for Monday, 1st November, at 11 a.m. 1. Cumming v. Barnet. 2. Colonial v. Spooner. 3. Saskatchewan v. Leadlay (2 appeals).

Peremptory list for Divisional Court for Monday, 1st November, at 11 a.m. 1. Royce v. National Trust Co. 2. Young v. Flaherty. 3. McAlpin v. Fleming. 4. Rensch v. Hecker. 5. Hay v. Bissonnette. 6. Re Cartwright and Napanea.

Master's Chambers.

Before Cartwright, K.C. Master. Bishop v. Bishop.—Dingwall (Johnston, Mack & Co.) for plaintiff, moved for an order discharging certificate of its pendens. Order made.

Beck v. Mopes Chemical Co.—Consolidated v. Beck, for defendant, moved on consent for order dismissing action without costs. Order made.

Kyle v. Small.—Stewart (Curry & Co.) for plaintiff, moved for an order for substitutional service of a writ of summons. Order made.

Leviner v. Osalky.—T. A. Gibson, for defendant, Phillips moved for an order vacating certificate of its pendens. L. M. Singer, for plaintiff, contra. Order made.

Telford v. Sovereign Bank.—J. F. Boland, for defendant, moved to postpone trial on ground of absence of a material witness, H. S. White, for plaintiff, contra. Order made postponing trial to non-jury sittings on 13th Dec. Costs of motion, and any costs lost by reason thereof, to plaintiff, in any event. Defendants undertaking to go to trial as above, and in default, statement of defence to be struck. Judgment, action dismissed without costs.

Keating v. Harner.—Thompson (Partrian & Co.) for defendant, moved for an order for medical examination of plaintiff, McCarly (Ryle & Co.) for plaintiff, contra. Order made for examination by Dr. Primrose at such time and place as he appoints.

Judge's Chambers.

Before Falconbridge, C. J. Re Nixon.—Lunsney-Eric Armour, for committee of estate, moved for an order authorizing committee to sell lands. No one contra. Order made.

Trial Court.

Before The Chancellor. McDonald v. Curran.—G. C. Campbell, for plaintiff. The defendant, Elizabeth Curran, appeared in person, contra. The action was to declare that the making of certain notes for damages for malicious prosecution and arrest, in submitting the case to the jury I divided the plaintiff's various causes of action into three, (1) in respect of the arrest and proceedings for forgery down to first demand; (2) in respect of proceedings from first demand until termination of proceedings for forgery; (3) in respect of the arrest and proceedings for forgery. Unfortunately one sheet of paper containing five questions for the jury became detached from the others.

This was only discovered after the jury had left the jury room, and the result is there is no finding in regard to those questions. They related entirely to the charge of forgery. The forgery charges must therefore be treated as untried, the plaintiff being at liberty, if he so desires, to go to trial on these two issues. I find on the jury's answers to questions that there was an agreement entered into by plaintiff and defendant on the formation of the Educational Publishing Co. that no by-laws, resolutions or proceedings of that company should be had or taken without the unanimous consent of all the shareholders and directors of the company, and for an injunction restraining defendant from any breach of such agreement. The trial judge found in favor of plaintiff, and on appeal of defendant the divisional court reversed the trial judge, and plaintiff now appeals to this court from such last judgment. Judgment: Appeal dismissed with costs.

Chandler—G. F. Shepley, K. C., for plaintiff, appealed from the judgment of divisional court. J. Bicknell, K.C., and F. R. Mackelcan, for defendant, the Imperial Bank, H. S. Rose, K.C. for defendant, McRae and Chandler. Plaintiff's action was against his co-partners, and the Imperial Bank of Canada, to recover \$55,251 moneys received by his partners in payment for construction of 22 miles of railway in the Province of Quebec, and alleged to have been placed by them in the Imperial Bank to the credit of the firm of McRae, Chandler & McNell. At the trial, the action was dismissed with costs, and plaintiff's appeal therefrom to a divisional court was also dismissed. Plaintiff now appeals to this court from the latter judgment. Judgment: Appeal dismissed with costs.

Gordon v. Matthews—G. C. Gibson, K.C., for appellant, R. S. Robertson (Stratford), for respondent. This is an action for a declaration that the plaintiff is entitled to rank as a creditor upon the insolvent estate of one Duncan S. Myers, with the other creditors of the said Myers, who assigned for the benefit of his creditors to the defendant. At the trial plaintiff's action was dismissed with costs. Plaintiff appealed to a divisional court, who set aside the judgment of the trial judge and declared that plaintiff is entitled to rank upon said estate for \$882.26 and costs. Defendant now appeals to this court against that judgment. Judgment: Appeal dismissed with costs.

Leslie v. McKeown—J. F. Hellmuth, K.C., for appellant, N. F. Davidson, K.C., for plaintiff, respondent. The action was for \$2500 damages for injuries arising from being struck by a horse and carriage of the defendant while being driven along College-street, Toronto, as is alleged at an excessive speed. The defence alleged negligence on plaintiff's part. At the trial judgment was given for the plaintiff for \$1000 and costs. Judgment: Appeal dismissed with costs.

McKinnon v. Harris—G. H. Watson, K.C., for appellant, defendant, A. B. Morine, K.C., for respondent plaintiff. The action was for a declaration that Abraham Harris, husband of the defendant, is entitled to the house occupied by the plaintiff in 1904, acted as agent of the plaintiff, and that the defendant acquired and holds the said

EATON'S DAILY STORE NEWS

Men's English Tweed Suits, \$8.39

'Heather Mixture' Ulsters, \$12.49

THE SUITS are of a good weighty winter cloth, 19 ounces to the yard, with all the service that the sturdy English tweed assures; given a smooth, dressy appearance by the SAXONY FINISH. It is a dark olive cloth, with faint purple stripe; or, another, a dark brown with green and purple pin stripe. Three-button single-breasted sack coat, with long lapels and fine Italian cloth linings; cut on dressy lines and tailored to a good fit. Price 8.39

THE COLLEGE ULSTER is of the "Yale" pattern; double breasted; Prussian collar buttoning close to the neck. It is a style winner, but the material is the strong buying argument; it is the Harris chevrot, so weighty as 30 ounces to the yard, in the new dark brown and olive heather mixture, with colored stripe of green and red. One of the smart effects of the season. Our own make; the workmanship guaranteed. Sizes 34 to 44. Price 12.49

Boys' College Ulsters and Winter Reefers

NORWAY REEFERS, of Oxford grey Canadian frieze, with warm tweed lining, double-breasted, fastening close to neck, high storm collar and tab; a good serviceable coat; sizes 24 to 28, \$2.65; sizes 29 to 33, \$2.98.

WINTER ULSTERS, in the newest patterns and shades of English tweeds, single or double-breasted, buttoning close up to the neck, sizes 28 to 33. Price 4.50

MICHIE & CO., Ltd., 7, King St. W., Toronto

property as trustee for the plaintiff subject to the payment by the plaintiff of the purchase money thereof, and for specific performance of the agreement to convey the said property to the plaintiff. The trial judge gave judgment for the plaintiff following Goldstein v. Harris as asked with a reference to the master to enquire whether the defendant was able to convey the lands free from any and all encumbrances, and if he finds she cannot so convey, then to enquire and state what sum the defendant should pay the plaintiff as and for damages in lieu of such conveyance. Defendant appeals from that judgment. Judgment: Appeal allowed, and plaintiff's action dismissed with costs.

Smith v. Hill—G. T. Blackstock, K. C., and C. C. Robinson, for H. A. Smith, appellant, G. H. Watson, K.C., and J. L. Macdougall (Halleybury), for H. S. Hill, respondent. This was an appeal from the order or decision of the divisional court, dated May 23, 1909, after the second trial of the dispute between appellant and respondent. The appellant filed a dispute with the mining recorder of the Timiskaming mining division pursuant to the Mining Act, on June 18, 1908, which was referred to the mining commissioner; the commissioner found against appellant, and on appeal to a divisional court, an order was made vacating the decision of the commissioner and directing a new trial on payment of costs by the appellant. Leave to appeal was denied respondent, Hill, and the parties went down to a new trial before the commissioner, who dismissed appellant's dispute, and by leave appellant appeals directly to this court from the latter judgment. Judgment: Appeal dismissed with costs.

Paquette v. Rideau Skating and Curling Co.—G. F. Shepley, K.C., and appellants, W. Nesbitt, K.C., and M. Gordon, for plaintiff, contra, Plaintiff, widow and administratrix of Alphonse Paquette, an electrician in the employ of the Ottawa Electric Co., who was thrown from a high ladder while repairing an electric light in the centre of defendant's rink, by reason of a boy skating against said ladder, sued the defendants for \$10,000 damages, alleging that the ladder supplied by defend-

ants was not properly constructed for the purpose for which it was to be used, but was unsuitable for the said purpose and defective in design and manufacture. At the trial before Anglin, J., and a jury, judgment was given dismissing the action with costs. On appeal by the plaintiff to a divisional court, this judgment was vacated and set aside, and a new trial ordered. From the latter judgment defendants now appeal to this court. Judgment: Appeal allowed. Judgment of trial judge restored. Costs to the defendants.

Before Moss, C.J.O., Osler, J.A., Garrow, J.A., Meredith, J.A., Riddell, J., Auerbach v. Hamilton—J. Bain, K. C., and F. H. Mackelcan, for defendant, appellant, R. U. Macpherson, for plaintiff, respondent. Appeal by defendant from order of a divisional court varying an order of Mr. Justice Clute, of 29th January, 1909, upon the application to him for judgment under the consolidated rules in an action for \$2400, interest on \$40,000, or 400 shares in stock of Canadian Oil Co., acquired by plaintiff from defendant, by allowing defendant to defend this action on condition that he pay into court \$2446.65 before a certain day and that in default his appeal be dismissed. Judgment: The order of the divisional court is varied. Judgment against defendant to stand, but defendant to be at liberty on payment of costs of motions before Clute, J., and the divisional court to amend his defence and file a counterclaim as may be advised. Costs of appeal to be costs in the action. If defendant fails to comply with the order appeal dismissed with costs. Meredith, J.A., and Riddell, J., dissenting with the majority as to the terms imposed, being of opinion that the defendant should be required to give security.

Hon. Richard McBride has postponed his mained tour for the purpose of a service campaign will be opened in Kamloops to-night by Hon. W. J. Bowser. The premier joins the latter in Revelstoke on Wednesday night.

MICRO-CINEMATOGRAPH FEAT

Life of Active Microbes Recorded on Films by Ultra-Microscope.

PARIS, Oct. 31.—Jean Commandan, a young scientist, has succeeded in making cinematograph records of active microbes. This feat is deemed of the highest importance as it enables their movements to be carefully watched by regulating the speed of the cinematograph. He thus explains his success: "It is due to the use of the ultra-microscope, in which the lighting of the preparation to be examined is done laterally, infinitely small organisms, seen as dust, are visible playing in a ray of sunlight because they are illuminated by the light of the microscope."

It is due to the use of the ultra-microscope, in which the lighting of the preparation to be examined is done laterally, infinitely small organisms, seen as dust, are visible playing in a ray of sunlight because they are illuminated by the light of the microscope. This method has enabled savants to discover a great number of new microbes which are invisible in an ordinary microscope, however powerful.

The cinematograph apparatus is attached to the eye piece of the ultra-microscope, and an uncolored drop of an infected animal's blood is placed between two strips of glass. Focusing is extremely difficult, but when accomplished, thirty-two photographs are taken in a second.

The magnification obtained after projection is from ten to twenty times that of the microscope. The ultra-microscope renders visible objects the size of which is one-two-thousandth part of a millimeter.

CAN'T FIND THE LEADER

Torpedo Boats and Arsenal Recovered—Tyaldos a Fugitive.

ANTHENS, Oct. 31.—Capt. Mizoules, commanding the battleship squadron, has recaptured the naval arsenal. Lieutenant Tyaldos, the leader of the so-called revolt, has disappeared. The torpedo boat Velos returned to the arsenal without him.

It is stated that the Military League has sentenced Tyaldos to death. He is said to have deceived the sailors by saying he had orders for his action from the league.

In the chamber last night a deputy suggested that the leaders of the military revolt be shot, and that twenty other members of the league should be shot. The officers of the former movement should also be shot. The Military League subsequently demanded leave to arrest these two deputies, but the chamber refused. This attitude of the house is taken as an indication that the power of the league is waning.

SUFFRAGETTES BREAK IN

And Get Asquith in Corner at Social Reception.

LONDON, Oct. 31.—Lady McLaren inaugurated the government hospital day of the winter season by a large reception to the prime minister on Friday.

Lady McLaren, who, in an ardent suffragette, is strongly opposed to "suffragettes" being invited to the course of the evening to see that the course of the militia ones had gained admission to the drawing room and were being conversed upon by the defenseless Asquith, who, being without his usual guard of detectives, was obliged to listen to their harangues.

Asquith did not seem to be particularly interested in the attention of Lewis Harcourt and Winston Churchill before they finally were asked to leave the house.

THE WEATHER

OBSERVATORY, TORONTO, Oct. 31.—(3 P.M.)—Depressions exist to-night in the lower Missouri Valley, and in the North-west, and pressure is high in Eastern Canada and along the Atlantic coast. The weather has been fine to-day in Canada, and in the lower or lake region, quite warm.

Minimum and maximum temperatures: Toronto, 48—64; Montreal, 48—64; Vancouver, 42—51; Edmonton, 24—30; Prince Albert, 16—24; Calgary, 20—30; Winnipeg, 22—32; Regina, 22—32; Saskatoon, 22—32; Ottawa, 36—46; Toronto, 48—64; Montreal, 48—64; Quebec, 22—40; Halifax, 30—40.

Probabilities: Lower Lakes and Georgian Bay—Fresh to strong winds, mostly southerly and southwesterly; very mild; showers and local thunderstorms towards evening or during night.

Ottawa, Valley Upper St. Lawrence—Light to moderate winds; fine; stationary or a little higher temperature.

Lower St. Lawrence, Gulf and Maritime—Light to moderate winds; fine; stationary or a little higher temperature.

Superior—Variable winds, strong to moderate gales; showery.

All West—Fair and mild.

THE BAROMETER.

DEATHS.

ELDER—On Oct. 29th, at his Palmerston-avenue, Nellie Hanington, beloved wife of Joseph Elder.

HARRIS—On Nov. 1st, at 10 o'clock to St. Francis' Church, Internment at St. Michael's cemetery.

HARRIS—On Nov. 1st, at 10 o'clock to St. Francis' Church, Internment at St. Michael's cemetery.

IN MEMORIAM.

PATTERSON—In memory of my dear friend, Mrs. Stewart Patterson, who departed this life Oct. 31st, 1909.

TURBINE LOCOMOTIVE.

One Being Built at Glasgow Which May Revolutionize Motive Power.

LONDON, Oct. 31.—President Hugh Reid of the Glasgow University Engineering Society has announced that a new locomotive is under construction which may lead to the application to the railway engines of the world of the turbine system, which has revolutionized steam propulsion on the Atlantic.

Mr. Reid describes this engine as the first steam turbine locomotive, which is the ordinary locomotive type, which is fitted with a superheater. The steam from the boiler is led to a turbine of 3,000 revolutions a minute, to which is directly coupled a dynamo or generator. The dynamo supplies electrical energy of from 200 to 600 volts to four series of wound traction motors, the armature of which are built on the four main or driving axles of the locomotive.

The exhaust steam from the turbine passes into an ejector-condenser, and together with the circulating and condensing water, delivered eventually to the hot well. As the steam turbine, unlike the reciprocating steam engine, requires no internal lubrication, the water of the condensation is free from oil and consequently is returned from the hot well direct to the boiler by means of a feed pump. The water evaporated by the boiler is therefore returned to the boiler again and again, and is actually circulating water for condensation purposes. This condensing water is circulated within what is practically a closed cycle by means of small centrifugal pumps driven by auxiliary steam turbines placed alongside the main turbine and dynamo.

TRIPLE MURDER REPORTED

Galician's Wife and Two Children Victims of Queer Crime.

GIMLI, Man., Oct. 31.—At 5 o'clock to-night a Galician farmer came to town with the report that a woman had been murdered and her two children killed at a farm house about six miles north of town. This was a German, who was visiting at a Galician home, got into a fight with the Galician, and after beating him up badly, chased him out of the house. The Galician returned to the house until he saw the German leave, and on returning to the house, found his wife and two children killed.

WAS MARBLE OPENING OF NEW HARRISON BATHS

Event So Popular That 300 People Were Turned Away—What Building is Like.

It isn't usually considered a sound conservative policy to start a new institution on its career with a big splash, but the Harrison baths on Stephentown place is an exception.

Everyone of the five hundred people who attended the ceremonies on Saturday night appeared to be a warm supporter of the civic undertaking.

Three hundred when people wanted to go in, but couldn't, and thereby missed a speech by Controller Harrison and a fine exhibition of national flag flying.

Expert navigators of the Toronto Swimming Club and Upper Canada College. They also missed getting wet, for there were few outside of gallery spectators and a fine exhibition of national flag flying.

Various concessions granted in the committee stage, and a loss of \$300,000 in the expenditure of \$1,400,000, leaving a whiskey duty, account for a decrease in the total estimates of \$2,100,000. Unexpectedly high yields from other duties amount to \$1,400,000, leaving a net surplus of \$700,000, which has to be added another \$350,000, necessitated by supplementary estimates for the unemployed.

To make up this total of \$1,050,000, the chancellor again raises the sinking fund to the tune of half a million—making in all \$2,500,000, which he has taken from this year.

This second raid on the sinking fund was strongly condemned in the house by Sir Frederick Banting, who said: "The New Balance Sheet."

The following tables show how the chancellor strikes his new balance sheet:

Table with 2 columns: Decreases, showing various tax and duty reductions.

Income-tax, 1909, \$300,000. License duties, 1909, 500,000. Paid to local authorities, 300,000. Sir Frederick Banting, who said: "The New Balance Sheet."

The following tables show how the chancellor strikes his new balance sheet:

Table with 2 columns: Total, showing various revenue and expenditure figures.

The building, which has a frontage of 52 feet on the south side of Stephentown place, by a depth of 140 feet, cost \$46,000, including complete equipment. The building, which is of brick, stone and concrete, contains a room for men and two stores for a depth of 28 feet, the remainder being one storey and basement, also the elevation is practically uniform.

The building is divided into two sections. The front portion, with a depth of 68 feet, contains an office, separate washrooms for men and women, and lavatory accommodation.

In the women's shower department there are eight shower and one bath tub, while in the men's section there are 14 showers, tub and two gang showers for boys.

The rear section of the premises has a depth of 74 feet, and contains office, plunge room, 72 feet by 36 feet; locker room, 72 feet by 36 feet, and a minimum of 4 feet, and contains about 22,000 gallons of water, which will be kept at an approximately uniform temperature of 70 degrees Fahrenheit. There are one hundred lockers and this number of the bathers may be accommodated at one time. Running expenses are \$11,000 a year.

The Swimming Program. H. A. Sherrard and A. L. Cochran, the latter swimming instructor at Upper Canada College, will be the instructors for events, which included fancy diving from a springboard, fancy swimming, 50 yards race, and 100 yards race.

Mr. Sherrard, who is a member of the Truro Rifle Club and one of the best marksmen in the province.

Troubled Every Winter With Severe Colds.

Dr. Wood's Norway Pine Syrup Cured Her.

Mrs. W. J. Hammond, Hamilton, Ont., writes: "I beg to say that I have used Dr. Wood's Norway Pine Syrup for my youngest girl who was troubled every winter with bronchitis and very severe colds. At night she would keep us all awake with her coughing until I tried your Syrup, which gave her instant relief. After the first bottle was finished I got more, and always kept a bottle in her room at night. Dr. Wood's Norway Pine Syrup is certainly a wonderful thing in a case like the above mentioned and no one can praise it too highly. I have taken every opportunity to recommend it to all my friends and relatives."

There is nothing to equal "Dr. Wood's" for the cure of Coughs, Colds, Bronchitis, Croup, Asthma, Hoarseness, Sore Throat, Pain or Tightness in the Chest, and all Throat and Lung Troubles.

It prevents Pneumonia and Consumption. Put up in a yellow wrapper; three pine trees the trade mark; price 25 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

CHANCELLOR EXPLAINS REVISION OF BUDGET

"Raid on Sinking Fund" is Condemnation of His Political Opponents.

The London Express, just to hand, reports Lloyd-George's budget revision as follows, under the heading: "Confusion worse confounded—Mr. Lloyd-George's budget revision is a confusion worse confounded."

The Chancellor of the exchequer introduced in the house of commons yesterday a new statement of revenue for the year. The original estimates which he laid before the house in April last have proved widely of the mark by millions.

To get his balance-sheet right Mr. Lloyd-George has had to resort to methods of financial jugglery entirely foreign to the traditions of his office.

Various concessions granted in the committee stage, and a loss of \$300,000 in the expenditure of \$1,400,000, leaving a whiskey duty, account for a decrease in the total estimates of \$2,100,000.

Unexpectedly high yields from other duties amount to \$1,400,000, leaving a net surplus of \$700,000, which has to be added another \$350,000, necessitated by supplementary estimates for the unemployed.

To make up this total of \$1,050,000, the chancellor again raises the sinking fund to the tune of half a million—making in all \$2,500,000, which he has taken from this year.

This second raid on the sinking fund was strongly condemned in the house by Sir Frederick Banting, who said: "The New Balance Sheet."

The following tables show how the chancellor strikes his new balance sheet:

Table with 2 columns: Decreases, showing various tax and duty reductions.

PARTRIDGE HUNTER - KILLED

Stumbled and Gun Discharged—Was Prominent Business Man.

HALIFAX, N. S., Oct. 31.—(Special.)—S. M. Bently of Truro, one of the most prominent business men in the Maritime Provinces, was accidentally killed in the woods yesterday while partridge shooting. He stumbled over a stump, the gun discharged and he entered his head. For two hours he lay in the woods and suffered terribly until located by two boys to whom he told the story of the accident, and soon after died. Mr. Bently was a member of the Truro Rifle Club and one of the best marksmen in the province.

SKULL FRACTURED IN FOOTBALL GAME.

PHILADELPHIA, Oct. 31.—As a result of injuries received in a football game between the Medical College and the Philadelphia College of Pharmacy, the skull of a student was fractured.

BRANKEN BADLY HURT.

GARDEN HILL, Oct. 30.—L. O. Wilson, G.T.R. brakeman of Lindsay, while switching at Garden Hill to-day, fell between the cars. His left arm and leg were badly mangled. He was rushed to Lindsay hospital.

The Women's College Hospital and Dispensary will hold its annual meeting at the Central Y.M.C.A. Tuesday afternoon at 4 o'clock.

Isaac Taylor, watchman, aged 71, was brought to death in a fire which destroyed the corner of Main-street and a scaffold, fell fifty feet from a scaffold, and was killed.

Rev. T. W. Murphy, M.A., who leaves to-night to assume the rectory of St. Paul's Church, Charlottetown, P.E.I., was escorted by the officers and teachers of the Church of the Redeemer Sunday school yesterday afternoon with a bucket of water on his head.

PLAYWRIGHT PRESEBRY HERE

Author of "Coast of Chance" Begins Career as Theatre Director.

Eugene W. Presbrey, who is one of the most successful of present day playwrights, is here to note how the Toronto public receive his latest production, "The Coast of Chance," which is to be presented at the Princess theatre to-night. The play opened at Rochester last week. After its run here, it goes to Montreal, and will face the critics of Gotham in about three weeks time.

Mr. Presbrey considers the present offering superior in construction to anything he has yet written, and expects that its success will be fully equal to that of "The Barrier," which is recognized as one of the dramatic hits of the season.

While Mr. Presbrey has had more than a dozen plays produced, his greatest triumph was achieved with "Raffles," a dramatization of Horneburg's widely read book. Before venturing upon play writing, he was a young director of a New York theatre, and undertook to write plays, as he says, merely to get the author's point across.

He decided to devote himself entirely to the more profitable field.

\$70,000 FIRE AT WINNIPEG

SIX-STOREY BUILDING BURNED—WOOD STOCK CO. A LOSER.

WINNIPEG, Man., Oct. 31.—(Special.)—On Saturday the west-side brick and stone building of C. H. Newton caught fire, the three upper stories being gutted, and the goods on the lower floor ruined by water. A stock of sample oil on the fourth floor exploded, blowing out the windows and driving the flames into every corner. The firemen were greatly hampered by the high pressure electric railway. Another drawback was the fact that the high pressure system, which blocked the nozzles. The principal losses are: Buildings, C. H. Newton, value \$70,000; loss \$100,000; insurance, \$20,000; first floor, Newton Davidson and Cherry, official assignees; second floor, Warehousing and Finance Co., \$50,000; insurance \$50,000; third floor, Hyndman Commission Co., loss slight; fully insured; James Stewart Manufacturing Co. of Woodstock, Ont., stove, loss \$10,000; insurance \$500; fourth floor, E. Roy, commission agent, oil, loss and expenses, loss \$500; Gourock Rope Works of Scotland, loss \$100,000; first floor, Winnipeg Envelope Co., loss \$500; insurance \$500.

Jockey Stabs Horseowner. NEW YORK, Oct. 31.—R. L. Thomas, a wealthy lumber merchant of Paris, Ky., and an owner of jockey clubs, was stabbed this afternoon by Carroll Shilling, a jockey, in his employ at a race track. Thomas was trying to induce Shilling to sign a contract with him to ride another year. Shilling refused, there was a heated argument, and Thomas is said to have struck Shilling, when he was struck, backed away from the turfman and put his hand on his hip pocket. Thomas, seeing he was going to draw a gun, rushed in, but Shilling pulled a long thin penknife, which he plunged into the side of Thomas' neck. The knife penetrated a lung. Dr. Lyle said Mr. Thomas was in a very serious condition. Shilling is at large.

Skull Fractured in Football Game. PHILADELPHIA, Oct. 31.—As a result of injuries received in a football game between the Medical College and the Philadelphia College of Pharmacy, the skull of a student was fractured.

Branken Badly Hurt. GARDEN HILL, Oct. 30.—L. O. Wilson, G.T.R. brakeman of Lindsay, while switching at Garden Hill to-day, fell between the cars. His left arm and leg were badly mangled. He was rushed to Lindsay hospital.

MEMORIAL SERVICE TO LATE C.P.R. TRAINMAN

Big Gathering in West Toronto on Sunday—Lively By-Election—Suburban News.

NORTH TORONTO, Oct. 31.—(Special.)—The campaign inaugurated by the nomination on Friday evening of J. W. Brownlow and James Peers for the office of councillors, bids fair to be one of the most strenuous of recent years. Already friends of the respective candidates are lined up for the Titanic struggle, and the incoming week will be a busy one around town generally.

The West-End last night J. W. Brownlow said: "Owing to business arrangements completed long before I had consented to allow my name to be placed in nomination, I had made no plans for a business trip of a total of two weeks, which I will occupy the greater part of the week. I am depending largely upon the efforts of my friends, and of those who regard me as fitted for the duties of the office. I am free, however, to say," continued Mr. Brownlow, "that the reports received from all parts of the town are most encouraging, and indicate that the principle, the outstanding principle for which I stand, the will of the majority, is still the popular one."

The friends of Mr. Peers, and they are largely those who endorse the action of Councillors Murphy and Grice, assert that the election of Mr. Brownlow is an endorsement of the principle of the majority, but this is not borne out by the facts.

"As far as I know," said Mr. Brownlow, at the nomination meeting on Friday night, "all the members of the present council are favorable to a sewer, while I personally voted against it. The point, and to my mind a vital one, and which I regard as the one of the greatest importance, is that the ratepayers having by their votes once decided on a sewer, it was the duty of the council to carry out the will of the people."

In Deir Park Anglican (Christ) Church to-night, the retiring assistant rector, Rev. E. R. Ladbroke, gave a farewell address prior to his return to England.

S. W. Armstrong is making satisfactory progress toward recovery. A number of friends are either in course of erection or contemplated along Glen Grove-avenue and other northern points.

The question of the improvement of Yonge-street within the town limits, as outlined by Mr. Waddington at Friday night's meeting, is being seriously discussed. No action is being taken in course of erection or contemplated along Glen Grove-avenue and other northern points.

The question of the improvement of Yonge-street within the town limits, as outlined by Mr. Waddington at Friday night's meeting, is being seriously discussed. No action is being taken in course of erection or contemplated along Glen Grove-avenue and other northern points.

### HOUSES FOR RENT

We have our renting department under the management of expert men, who devote their entire time and attention to this department. We have houses in all parts of the City. Get our list.

### FACTORY SITES

We have a limited number of factory sites on our lists. In the north end, on the C. P. R. we have a particularly fine location, about 150 feet frontage by 200 feet depth to the tracks and fronting on a good street, with first-class pavement. There are also some splendid deep lots on Dundas Street, all with railway siding facilities.

## WE WOULD GIVE \$10,000 IN CASH

If the people in Old Ontario could be made to realize that the greatest offer that has ever been made in real estate—or probably ever will be made—is embodied in our proposition to sell lots in the City of Port Arthur at \$100 each on easy terms—because if the situation were actually understood by every person in the country, there would not be one single foot of property left twenty-four hours after this knowledge was brought to their attention. We are selling lots for \$100, some of which will be worth in a few years \$10,000 each, if you will take into consideration some of the elements which go to make up the future values in the City of Port Arthur—Canada's greatest fresh-water port; three great transcontinental railways converge at this city; immense areas of mineral, timber and farming country, which extends for hundreds of miles, all of which center here; immense grain elevators; smelters; factories; ship-building industries; large docks; and, last but not least, a splendid harbor of which the Dominion Government think enough to spend several hundred thousand dollars per year in improvements on it. Write us for particulars to-day.

- | CITY HOUSE PROPERTIES.   | CITY HOUSE PROPERTIES.  | CITY HOUSE PROPERTIES.  |
|--|---|---|
| \$6800 - RUSHOLME ROAD, SEMI-detached, solid brick, ten rooms, three-piece bath, gas and electric light, hardwood and pine floors, two grates, verandah and balcony. Situation on Wall Street Sounder Than Ever Before

Syndicates in Command Continue the Distribution Movement - Canadian Markets Ruled by New York

World Office, Saturday Evening, Oct. 30. Traders in New York stocks will have learned from last week's operations in this market that the short absence of activity is not always the profitable one. Wall Street promoters have the defective instinct of knowing just the time to stand in relation to the market. The only profitable operation among the few fellows is to run notations adverse to the desires of the outside trader and in accumulating the stock during the public during the last couple of weeks the present rally in the market will exact another tribute from those who play this institution as a day to day proposition, or who endeavor to operate on both sides of the market in concert with the majority of their fellows.

The turning point in prices was reached on Wednesday morning, after the close on Tuesday the quarterly statement of the Steel Trust was given out and was immediately seized upon by the commission houses and their holders, not up to what they had been led to expect. The weakness on Wednesday morning at the opening permitted those of this opinion either to liquidate any long stock they had or to put out short lines around the bottom prices, after which a steady and continuous rally followed through the week. Now as to what is considered a good statement by the Steel Trust it would be hard to define. The net earnings of this corporation for the three months were nearly \$39,000,000 and the surplus for common stockholders showed a twelve per cent return on the common stock outstanding. The directors at the time of issuing the statement also placed this stock back in its former position of one per cent dividend quarterly. It cannot be argued perhaps that this security, an industrial, only paying a four per cent dividend on par, is worth its present value. This is where the speculative feature of the market comes in. If the promoters of this stock are satisfied with its former position, why not increase them as some people think, the shares may be comparatively cheap at present levels. If, however, the steel trust is to meet a similar disaster to that which has been experienced in its past history, the stock can easily be expected to sell considerably below the price at which it is now held.

With the announcement on Thursday that the Bank of England had decided to place in the hands of the bulls in the New York market. As stated on previous occasions there is no doubt in the world that the big New York syndicates have made full provision for all the funds that might be necessary during the period, particularly with the distribution of the securities held by them. It is also taken for granted by many that the Bank of England is to meet any emergency that may arise, namely that the gold reserve held in British hands will not be further depleted, but will rather tend to increase as a five per cent rate, particularly so when the Bank of Germany has refused to take up the gauntlet thrown down by the British bank. New York is not being strained for gold, certainly. Obligations on this account for Canada and some of the South American states are now being assumed by the Bank of England, but particularly in the latter case it is alleged that gold exports of twenty or twenty-five millions could be met without causing any special disturbance to money conditions.

The high prices at which farm products are being held are undoubtedly retarding exports of these commodities and thereby lessening the interior demand for money accommodation which usually occurs when rapid realization is being made by the farmers. Non-speculative market letters have been put out by some of the New York houses during the past few weeks calling attention to possibilities of a panic in the case, and in another of a collapse. Perhaps there have been few occasions in the history of the New York market when the situation has been sounder than it is just now, from a market standpoint. There are few stocks outstanding in the hands of the public, most of them being held by financial institutions who are able to see them thru to a definite distribution. Outside of the market conditions cannot lead one to suppose that any calamity is impending and until things change very materially from what they are now, New York can suffer very little embarrassment. The big holders are not unwilling to sell stocks at the present time, but if outside traders continue to buck the market as they are doing, prices will undoubtedly see much higher levels than those which now exist.

The absolute way in which Canadian markets are ruled by the New York exchange has again been demonstrated by the movements of Toronto and Montreal in the last three weeks. Just as soon as buoyancy left Wall Street, supporting interests in Canadian securities immediately relaxed their efforts in favor of higher prices and refused to take stocks except at fair

concessions. The turn on Wall Street during the present week was also the signal for another change in the domestic markets and prices again rallied. With the subsidence in manufacturing, the coal-steel merger dropped out of sight and speculators who had been drawn into the belief that there was a substantial proposition being made weak-kneed and threw out their holdings, particularly the steel shares.

The only two matters of importance in relation to the Toronto market this week were the advance in call rates of one half of one per cent, and the announcement that London was again buying in this market to a much greater extent than has been the case for a long time. The rise in the call money rate is here viewed simply as a business proposition among the financial institutions. These houses have not had any too profitable loaning rates for some time and they simply took advantage of the opportunity to put money prices up as any other business venture would have done when a better demand had risen for its special commodity. It is not generally believed that the rise in the rate is intended to obtain on good collateral and there is therefore no menace to market prices on this account. With London as a buyer, a substantial bottom has been given to securities wanted by that market and as the floating supply of stocks of this class seems to be small, the rise in price is a perfectly natural one.

Conditions here favor steadiness if not firmness for the immediate future, and with any mooming of speculation, a better market on the Toronto exchange is inevitable.

Wall Street Pointers. London Stock Exchange closed Monday. New York City budget adopted by board of estimate at \$18,000,000. Seaboard receivers report an increase of 15 per cent in gross earnings. Bradstreet's report full manufacturers order books and general reports of sufficient skilled labor to meet requirements.

Dun's says further progress in trade expansion and financial conditions are more settled. U. S. Steel in last week received orders averaging more than \$5,000,000 a day.

Mercantile agencies report further progress being made in business expansion and financial conditions improving. Known movements of money indicate loss of \$3,517,000.

Business outlook declared most satisfactory, general prosperity reported and spring trade in good volume. Total United States bank clearings for the week show increase of 33.2 per cent.

Joseph says: The Copper stocks are still very good. Better keep long of Pennsylvania, Atchison and Baltimore, these are going much higher. Specialties: Reading should be bought consistently. Hold Steel. Bull People's Gas.

Amalgamated Copper may do better, but we would not be inclined to climb into it now? Smelters should sympathize with it. M. K. & T. may be put up. Atchison and Southern Pacific should continue to be bought on call reaction. Northern Pacific still do better. Financial Bulletin.

It might be wise for those who are bereft of speculative stocks to take profits and await the reaction before again buying. Next week, however, unless there is some kind of higher bank rates abroad, which is not now looked for, should intervene, we believe there will be a good advance all around. Town Topics.

On Wall Street. Erickson Perkins & Co. (Beatty & Glassco) wire at close: As we anticipated, stocks showed the effect of further realizing, and under the weight of selling orders, gradually sagged off. A good many closed substantially lower. To break the force of selling, a few specialties, such as the Michigan Southern Railway and Rock Island were advanced. This is a very old device. Look to see stocks sag lower Monday, then we may get some further rally.

New York Clearing House. NEW YORK, Oct. 30.—The statement of Clearing House Banks for the week shows that the banks hold \$13,969,523 more than the requirements of the 25 days clearing reserve rule. This is a decrease of \$2,734,000 in the proportionate cash reserve as compared with last week. statement follows: Loans, decrease, \$781,800; deposits, decrease, \$6,402,500; circulation, increase, \$522,300; legal tenders, decrease, \$910,000; specie,

THE STERLING BANK OF CANADA

Notice is hereby given that a dividend of one and one-quarter per cent. (1 1/4 per cent.) for the quarter ending 31st October instant (being at the rate of five per cent. (5 per cent.) per annum on the paid-up capital stock of this bank) has been declared, and that the same will be payable at the Head Office and Branches of the Bank on and after the 15th day of November next. The Transfer Books will be closed from the 20th October to the 30th October, both days inclusive. By order of the Board, F. W. BROUGHALL, General Manager. Toronto, October 12th, 1909.

decrease, \$4,325,600; reserve, decrease, \$4,324,700; reserve, required, decrease, \$1,600,700; surplus, decrease, \$2,734,000; ex-U.S. deposits, decrease, \$2,732,950. The percentage of actual reserve of the clearing house banks to-day was 25.38. The statements of banks and trusts companies of Greater New York, not reporting to the clearing house, show that these institutions have aggregate deposits of \$1,288,197,400; total cash on hand, \$149,612,900, and loans amounting to \$1,106,482,900.

Situation Unsettled. Henry Chews & Co. say: Hibernia is still the chief characteristic of this stock market. We have seen some decline in prices, due to liquidation enforced by the monetary conditions. The speculative situation, however, continues unsettled. Values are above the level that attract investors and speculative forces on the bull side have been considerably weakened. There is an abundance of capital seeking employment, but just at present it is finding other outlets more profitable than those offered by the stock market.

There is nothing in the general situation to cause uneasiness. The volume of business in the United States continues large, and the net dividend of satisfactory features is on the whole about what we may look forward to a period of continued business activity, however, more than discounted every favorable feature in business and industry, adjusted itself to new and less favorable conditions. Liquidation is incomplete, the big holders of high priced railroads securities having only partially succeeded in distributing their surplus stocks. We are thus in a position where, hence a good trading market for the balance of the year at least. Serious buying is still in evidence, but it must not be overlooked that as stocks gradually pass from strong hands into weaker, the technical situation of the market will be inevitably weakened.

TONES IS UNCERTAIN Difficult to Foresee Future Tones of Silver Market. Samuel Moutagu & Co., London, write as follows: The price of silver has been depressed since the outbreak of the war. These are occasioned, not only by the effect of the war on the supply, but also by the fact that this year, the demand for jewelry in connection with the wedding season, is less than in previous years. A larger amount of the white metal than last year.

It is believed that during the next few months the daily off-take is likely to be not less than 100 bars. As an indication of the extent to which India relies upon her harvest, it is interesting to note that, even in a comparatively bad year, the total of the total exports of 2,000,000,000 of the produce of the land was responsible for no less a sum than 20 millions sterling.

Advice from China are not encouraging. The demand for silver is still strong, as silver has been shipped to Hongkong or Shanghai direct from this market. The London market is still very active, admits of forward purchases, the imports of cotton goods being on such a small scale that the balance of trade is a factor means of adjusting the balance of trade.

If the price of cotton remains at its present high level, it is quite likely that the delivery of the silver forward purchases take place. If, on the other hand, the price of cotton were to fall to such an extent as to induce Chinese merchants to buy piece goods, a large quantity of silver would be thrown on the market.

It is, therefore, very difficult to forecast the future of the silver market in the near future.

extreme uncertainty and weakness finished bright and cheerful with a hardening tendency in most departments. The chief adverse influence in the early part of the week was the dearer money and the consequent higher carry-over rates for the settlement which induced much liquidation, especially in the American and Canadian Pacific. The action of the bank in buying up gold in the open market in the absence of any change in the Zer- and London Bank rates, and also discount houses were inclined to set authorities in taking cash off the market, indicated a determination to make the five per cent. rate of discount effective, and caused a necessary improvement in outside rates. Home rails and other British investments stocks responded to the more cheerful feelings at the end of the week and show a good recovery. Canadian Pacific and Grand Trunk issues closed strong on good September revenue statements, but Buenos Ayres American shares, with cheaper money against the various bear drives. The six per cent. carry-over rate of the settlement caused a moderate setback, but by upward sales and with the market to-day firm, the rally was at least 10 points higher than on last Saturday.

STOPS EXECUTIONS. BARCELONA, Oct. 31.—Premier Moret to-day telegraphed the authorities here with martial sentences until the cases could be examined by the government.

Teamster Killed. GUELPH, Oct. 31.—(Special.)—William Ferguson, a teamster, 63 years of age, who lived with his wife at 87 Water street, was run over by his own wagon while it was filled with a heavy load of sand and instantly killed.

Lighting Pipe Caused Death. His Horse Bolted and He Was Thrown and Killed. KINGSTON, Oct. 31.—(Special.)—In a runaway accident on King-street last night, John McCall, coal driver, lost his life. He went to light his pipe and dropped his lines. The horse bolted and he passed over his body, and he met almost instant death. McCall was an Englishman, 24 years of age, and served three years here in the artillery. He was unmarried.

New York Metal Market. NEW YORK, Oct. 30.—The metal market was quiet and nominal in the absence of a local exchange of foreign cables. Tin—Quiet, \$20.25 to \$20.50. Copper—Nominal, \$12.87 1/2 to \$13.00. Lead—Quiet, \$12.25 to \$12.50. Spelter—Dull, \$8.00 to \$8.25. Iron—Steady at recent prices.

THIRTEEN TIMES REMANDED Dilatory Justice for a Prisoner in Sandwich Jail. WINDSOR, Ont., Oct. 31.—(Special.)—Thirteen times in succession at eight day periods Edward Johnson, charged with obtaining money from a local hotel, man under false pretences, has been brought before Magistrate Leggat, and each time he has been sent back to jail again because the crown was not ready to proceed. Johnson was arrested several months ago at Fort Erie since which he was brought to Sandwich jail, where he has remained ever since. Johnson pleaded not guilty and asked for an immediate trial. The case is unique in police court annals.

Reunion of Gompers Family. NEW YORK, Oct. 31.—Two hundred members of the Gompers family held a reunion in New York Saturday night, to honor to Solomon Gompers, head of the party in America, and father of Samuel Gompers, the labor leader. The elder Gompers is nearly 90 years of age. Two great-granddaughters of Solomon Gompers, dressed in red, white and blue, were present. Before the reunion Samuel Gompers spoke on labor conditions before the Young Men's Hebrew Association. Incidentally he said that he was in favor of woman suffrage.

Japan Withdrawing Troops. WASHINGTON, Oct. 31.—That Japan intends to keep its pledge with China to remove its military forces from Manchuria, a territory lying between Manchuria and Korea, which long has been in dispute, is indicated by the fact that by Nov. 2 next, all the Japanese troops in that region will be entirely withdrawn.

## STUDENTS UPROARIOUS BREAKUP PARTS DANCE

With Shoe Polish Blacken Faces  
of Gallant Escorts and Raise  
Cain Generally.

Hallow'een is always considered to be one of the gala evenings of the term by the university students, and there is no doubt but what last Saturday night was equal to what their traditions of all other preceding wild nights were. In fact the college policeman declared that he had never known a worse time in his life, but the students tabbed it as the best time they ever had known.

As early as half past seven the "school" or the students of the S.P.S. were at the north gate of the university waiting impatiently for the arts men and their fair young ladies to arrive to attend the autumn dance in the gymnasium building. The former were also well supplied with boot polish. This was plentifully supplied to the "fussies" as the "school" termed those who were to back in the smiles of the "sweet young things." The "boiled shirts" did not like cosmetic, as it was dabbed on with a shoe brush, but they had to take it just the same and before Christy, the varsity cop, arrived on the scene, over a baker's dozen were looking like spotted Indians.

Of course, the new comer put a different complexion on the scene. He ferreted an escort to the victims. It was then that the gallant general of the besieging forces called together his forces and a great pow-wow was held. After a great deal of noise, it was decided that the tribe should split into two bands. One under the command of the great chief would hold the grounds at the north gate, the other under the leadership of the sub-chief would hold up all the people at the south of the gym. This was great generalship and the preserver of the peace was kept jumping around like a wet hen.

Fun With Lawn Roller.  
After the last straggler had got in the door the students went down to Convocation Hall, but all the good they did there was to bring out the president, who gave them a lecture. Back to the gym they went and after a scrap with the cop, the two-horse roller was discovered. The advent of this was hailed with a howl of delight. Soon willing hands were hauling it along the street. In Queen's Park a dozen policemen held them up. Some wanted to leave the roller in the street and let the cops take it away. The aforesaid chief, however, was a man of gigantic intellect. He ordered his hand to take the roller to the entrance of the medical building, where it was hauled down the thirty-foot entrance. A plow was then discovered. It went down, so did the bicycle rack.

Another war council was held. The decision was that a bonfire was required. So up came the board sidewalk. After some grins and sniggers were wanted. Off to the hall where the feast for the medics banquet was. The night watchman was on guard at the rear door. A plank was perched and the door was smashed to bits, while a window went the same way. The entrance was now open, but the leader had no nerve.

About this time out came the medics. Inside President Falconer had given them a talk about being good. To prove that they appreciated his advice they no sooner got out than a great confab was held around the bonfire. This result was both hands joined and went to break up the dance. On the way an auto was met. All heads went for it. It was hauled into the park. The driver put on full steam, shifted the crowd, and ran over both feet of a "school" man.

A match was arranged. All formed into fours and escorted by a bunch of policemen, they started off. But when they got to the entrance to the park, on College street, a break happened. The medics wanted to go back to the dance. The "school" were for going down town. Things were shaping well for a glorious fight, when a street car came along. One of the school pulled the pole off and a waterful copper pinched him. A dozen more of his ilk flew to support him, and the students crowded around. Some wanted to rush the bunch. Others would not. All yelled. Happily better counsel prevailed and the bunch started off to get a man to haul him out.

Back to the Dance.  
Soon they forgot the idea and marched back to the dance. The crowd was just coming out. All eyes up and out came the shoe polish. The medics wanted to try their hand at the game. Some of the arts men put up a scrap. Two or three stand up fights took place, but they all got it, including a professor. He broke his stick on one of them, so he received a liberal dose. One fighter took refuge on the back porch of Wycliffe College. The besiegers started to rush the steps, but he held the fort nobly. Others tried to climb the wall, but his fair defender shoved them down. Then the excitement proved too much for her and she fainted. Of course the other besiegers rushed to her side and up came the bunch. They painted him and then revivified the girl.

While this was going on, President Falconer was trying to keep the others in check. They took down the north gate and laid it across the entrance, forcing all rigs to turn and drive back. This caused a blockade, and one caddy just his temper and struck a student with his whip. Now that was exceedingly foolish, and he soon found it out. His seat was taken away and his rig drove up the embankment, which surrounded the main building. How it ever got up without capsizing will never be known, but it did. The driver was then hustled to good style and made apologize. He was also painted and forced to make a speech. In fact he declared that he was glad to escape with his life. He finally drove away minus a three dollar whip, but rich in experience.

The young wanted something to do, so they hustled the special cop. Now he was a member of the Toronto police force. He was made to smoke a cigar, eat half a dozen pies, and sing a foot of himself generally. But finally being tired of bawling him, a new bonfire was made and there the students stayed, rolling gongs until four o'clock Sunday morning.

GEN. BOOTH'S LIFE STORY.  
LONDON, Oct. 31.—Gen. Booth of the Salvation Army is writing his autobiography. He intended to publish this week after undergoing surgical treatment for a defect in his eyesight. During his hours of darkness he was dictating his life story.

H. H. FUDGER,  
President.  
J. WOOD,  
Manager.

MONDAY, NOV. 1, 1909

### We Are Having Great Success With our Suits

WHEN we look back it seems only the other day since we began to ask you to come and pass judgment upon our Suits. And here we are on the threshold of November.

We are glad to be in a position to say that in that interval, which seems so short, a verdict in popular favor of our Suits has been passed by an overwhelming majority. Since the beginning of the season we have sold suits two thousand to one as compared with last season.

Our Suits are chiefly characterized by a distinctive simplicity of style. Our tailoring is manly. Those qualities have done much to make Simpson Suits the success they have proved this season.

We call attention to a line for Tuesday at a very popular price. Other items will, doubtless, also interest you—dresses, coats, skirts. Our Cloak Department is enjoying the height of the season, and stands to-morrow as always very much at your service.

#### Tailored Suits \$12.95

Tailored Suits of French Venetian, suitable for misses or ladies who take misses' sizes. Coat lined with broche, semi-fitting back, trimmed with buttons, skirt full gore, trimmed with buttons to match coat. Comes in navy, green, ashes or black, \$12.95.

#### Winter Dresses

Dresses for misses and small ladies, made of all-wool Panama, in brown, navy, green, also black, fancy tail effect on front, piped with silk to match, trimmed with silk covered buttons, \$7.50.

Dresses of all-wool poplinette, in navy, brown, grey or black; yoke and collar of fine net; front panel, collar, sleeves and belt, finished with jet buttons, \$8.75.

#### Ladies' Imported Winter Coats

A fine collection of Ladies' Winter Coats, of good ser-

vicable qualities of English tweeds and new camel hair cloth, in mixtures of green or brown tones; long, semi-fitting back, with large manly shawl collars, some with tailored coat collar; newest designs; suitable for street wear or travelling, \$20.00.

#### Ladies' Voile Skirts

Ladies' Separate Skirts, of good crisp quality black voile; has 13 gores, made in full flare gore style, trimmed with wide and narrow strappings of satin or taffeta silk. Sizes 38 or 42 front lengths, \$10.00.

### Underskirts of Moirette at \$5.00

WHEN you buy a Moirette Underskirt you pay anywhere from \$3.50 to \$7.00. We are able to offer you at \$5.00 a particularly nice skirt at the present time. We think them quite equal to underskirts costing a dollar or two more in the ordinary way. We won't tell you just why. We think it wise to offer them at \$5.00—but the exigencies of store keeping have worked to your distinct advantage in the cost of these \$5.00 Skirts.

Moirette Petticoats, extra quality, made with deep bounce of accordion pleating, with rows of novelty headings, finished with velvet binding, black, navy and brown. Also several distinctive styles in black, tan, navy, wisteria, sky and rose. Special value, Tuesday, \$5.00.

#### Black Saten Wrapper \$1.50

Women's Wrappers, of fine quality imported mercerized saten, pleated back; full skirt made with deep bounce, buttoned cuffs, full over shoulder; collar and front is trimmed with fancy braid, sizes 24 to 40. Tuesday, \$1.50.

### Warm Winter Waists

TUESDAY we emphasize warm winter waists. We have specially gathered together a great variety to offer at one very moderate price.

These include fine wool delaines in light and dark stripes, also in plain cream, cut in strictly tailored styles, also flannelettes in light and dark polka dots, shepherd checks, and dark fancy designs. These are all tucked, some with button effect and pipings down front, new shirt sleeve.

250 altogether, Tuesday at 89 cents.

### Pastel Broadcloths

Another shipment of these beautiful cloths, in evening wear shades, chiffon and glove finish, for graceful "one-piece" modes and opera wraps. These cloths will be on display Tuesday, as you step off the Queen street elevators, dress goods section, 52 inches wide, \$1.50 per yard.

SPECIAL DISPLAY OF HIGH-CLASS BLACK DRESS GOODS, SUITINGS AND COATINGS.  
Broadcloths, Coating Cloths, Diagonal Settings, wide wale weaves, West of England worsteds, in smart stripe effects, English chevots and serges, in coating and suiting weights. Nice tailoring qualities for stylish fall and winter suits, and popular full length coats, rich full undating blacks. Thoroughly sponged and shrunk, 52 and 54 inches wide. Tuesday, per yard, from \$1.00 to \$3.50.

#### Women's Cashmere Gloves 35c

Half silk lined Cashmere and Cashmerette.  
Dome fasteners.  
You pay 50c for this grade ordinarily, Tuesday, pair 35c.

#### 45c Hosiery for 29c

English samples.  
Plain and ribbed Cashmere, full fashioned.  
All weights.  
Double heel and toe, 45c value, Tuesday, 29c.

### A Riot with Cushions

Art Needlework Dept., Main Floor  
We cleared the samples of Rich Silk Brocades from a high-class English maker, and have made them up into cushions in our own workroom. We calculate the prices are just one-half to one-third the regular price.

65 Silk Brocaded Cushions, in rest and square shapes, made by ourselves, filled Russian down edged handsome silk cord, practically every color in the lot, regular prices of them would be \$2.75, \$3, \$3.50 and \$4. Tuesday to clear \$1.48. No phone or mail orders.

### Little Sister Snow

By Frances Little, the author of "The Lady of the Decoration."  
Illustrated by Genjiro Kataoka.  
16 mo., uniform size with "The Lady of the Decoration."  
A charming story of Japan, told with all the fragile delicacy of the "Decoration," but the author's first book, and more, though not in the form of letters.  
All those who cherish lavender and tender sentiment will surely like this little book, the story of a Japanese girl's discovery of love, and how she bade it farewell.

The illustrations are by a Japanese artist, and in colors.  
A delightful book, pure and fragrant as a flower—a book of little smiles and motes of eyelids. You must read it! 90c in the Book Department.

### New Books

Some new reprint copyrights, printed from the original plates, richly bound, illustrated, handsome volumes. Published at \$1.25, \$1.50. Our price 60c each.  
"The Shuttle," by Frances Hodgson Burnett; "A Million a Minute," by H. Douglas; "Arms and the Woman," by Harold MacGrath; "Love is the Sum of It All," by G. C. Eggleston; "New Chronicles of Rebecca," by Stewart E. White; "Arizona Nights," by J. M. Patterson; "Arizona Nights," by Stewart E. White; "Arizona Nights," by Percy Frohner; "Light Fingered Gentry," by David Graham Phillips; "The Second Generation," by David Graham Phillips.  
(On sale Book Department.)

### Fur-Trimmed Overcoats \$14.95

Made of heavy black beaver cloth, and lined with quilted Italian cloth. Sleeves lined with black glissade or haircloth, with leather shields at armholes. Collar shawl style, of full furred German otter. Warm, comfortable winter coats at a very moderate price, with all the appearance of the regular \$14.95 fur-lined coat.

### Monogram Towels For the Guest's Bedroom.

Purest of linen, finest of huckaback and damask with place for monogram woven ready to be worked over. Our showing this season naturally exceeds all previous ones as it is made in the new department where space is less at a premium.

The Christmas towel idea has been well provided for this time—beautiful designs, rich borders, spoke-hemstitched and scalloped ends. Every thread pure linen—don't miss that point.

Guest Towels 50c to \$5.00 per pair.

Staples Department, Second Floor.

### A 17-Jewel Watch \$5.95

THE best watches made have 17 jewels. The poorest to amount to anything have seven. This one has seventeen! Pretty near the maximum, and yet the price \$5.95 only!

But that's not the way such watches usually sell. This store offers 50 of them, but that is no criterion as to their recognized value in the trade. Ordinarily seventeen jewelled watches in the old-time 20-year cases, as they used to be called before the new regulation, sold for \$10.50, and there is nothing to say against that figure as their regular price to-day, have fifty to sell at \$5.95.

50 16-size, open face, 17 jewelled movements, with patent non-magnetic bridget hairspring, with double roller and steel escape wheel, exposed winding wheels, stem set and wind; fitted in a gold filled case, and guaranteed to be reliable timekeepers. Tuesday \$5.95.

50c Wall Paper for 11c

OUR new Wall Paper Department has so many things in its favor there need be no wonder that business this fall has outstripped all records.

The light is so good, choosing is easy. We have plenty of space and plenty of stock, and the pick of the world's designs.

We can show our papers to advantage this season. Hence the extra activity and the need to clear our stocks Monday.

2,560 rolls Imported Papers, in two-ones, two-colors, blends, flats and silk effects, in blues, greens, yellows, browns, reds, for dining rooms and parlors. Regular to 50c. Tuesday 11c.  
Room Moldings. Regular 2 1/2c. Tuesday 1 1/2c.  
Plate Rail. Regular 10c. Tuesday 7 1/2c.

Rice Boilers and Kettles \$1.25 and \$1.00 Alarm Clocks 69c

Two Specials in the Basement To-morrow.  
First quality, Tree coated enamel Rice Boilers, 2 sizes, inside boiler 4 and 6 pints. Regular 90c and 75c. Tuesday 49c.  
Copper Nickel-plated Tea Kettles, sizes 8 and 9. Regular \$1.25 and \$1.45. Tuesday 93c.

300 Alarm Clocks, nickel and copper finish cases, loud alarms, lever to stop bell, reliable movements, guaranteed timekeepers. Regular value \$1.00 and \$1.25. Tuesday, 69c.

"Victor" Shoes Are the Ideal Shoes for Men

They come in all the fashionable lasts and leathers—boots or Oxfords. We have included a very superior grade of the newest shapes finished with extra care and beauty to sell at \$4.50 and \$5.00. With these styles added to the "Victor" series we can challenge comparison with any shoes sold in Canada. All popular widths and sizes.

\$4.00 \$4.50 \$5.00
