Algermen Drifted Away from the Council Meeting

NOTHING WAS DONE

Motion on West Side Dredging Was Prepared by Board of Works, but Council Members Did Not Vote On It.

There was a very interesting session of the common council, following a meeting of the board of works this morning, which was called to consider the dredging of the Sand Point basin.

The board of works recommended that the contract should be given to G. S. Mayes to do the work for \$28,440 on assurance that the government would reimburse the city for the outlay.

There was a very interesting session of the board of works met. Ald. Bullock occupied the chair and there were also present Ald. Hamm, Lewis, Sprout, McGowan, Kelley, Bullock, Baxter and Pickett, with Engineer Peters and the common clerk.

The sub-committee of the board advised a report recommending that G. S. Mayes do the dredging at the \$28,440 and if the city decided to go on with the work he would include in his estimate and the sewer measure.

Mr. Pugsley said he thought the government would assist the city of St. John to purchase a dredge rather than pay the money to a contractor.

Mr. Pugsley said he thought the government would assist the city of St. John to purchase a dredge rather than pay the money to a contractor.

Ald. Pickett moved that a vote of thanks be extended to the minister of public works for his attendance at the meeting and his interest in its affairs at this time.

Ald. Baxter moved that the report of the sub-committee be received and that a recommendation be made that the contract be given to G. S. Mayes.

Ald. Baxter said that while the city might make a good bargain, it was probable the work would cost more in this way, and he didn't propose to go on with it.

GRAFTERS ARE IN THE TOILS

Arrests Made Today in Connection With Notorious Harrisburg Capitol Job.

HARRISBURG, Pa., Sept. 18.—It was stated this morning that warrants would be issued before noon for the arrest of John H. Anderson, George F. Payne, Charles F. Vetter, and H. B. Cassell, contractors; Joseph M. Houston, architect; former Auditor-General Snyder, and State Attorney Matthewson, on charges of conspiracy to defraud the state in the construction and equipment of the state capitol.

Each of the defendants will be required to furnish a bond to appear in court. Snyder is here prepared to answer summons. Matthewson is ill at home. The others are said to be on their way here to accept summons.

Warrants were also issued for the arrest of seven others connected with the capitol scandal. This includes all the persons mentioned in the investigation commission report except Ex-State Treasurer Harris, Ex-Auditor-General Hartsenburgh and two others.

PHILADELPHIA, Sept. 18.—The arrests are based on the reports made to Governor Squire by the commission created by the recent legislature to investigate the capitol scandal.

They will be followed by civil suits for the recovery of a portion of the \$9,000,000 collected from the state by the contractors for the furnishing and equipping of the capitol.

In its report published about a month ago, the commission named 18 persons and recommended prosecution of "any and all persons concerned in the fraudulent transactions, named specifically, and all persons who may be directly or indirectly involved."

The Boys' Athletic Club

By WM. WALLACE JR.

In a little town in Maryland, there was an organization called "The Boys' Athletic Club." The ages of the club members ranged from 8 to 13 years, and they were as bright and wholesome a lot of fellows as one could wish for.

As the hot July days set in, The Athletic Club called a meeting of its members for the purpose of talking over the ways and means of providing the club with a tent and "equipment" for a camping expedition.

The meeting of the club took place in the old barn in the rear of an untenanted house. Middleton Parker, the president, called the meeting to order in a most original manner. Stamping his foot loudly on the echoing floor he cried out: "Kids, everybody sit down an' listen. Now, we've met to make some sort of arrangements to get hold of a tent so we can go a-camping next week. All in favor of this signify by sayin' 'I'."

"I!" cried all the members, save one, in excited voices. "Contraria, signifi by sayin' 'no' and at one time its president. He asked the question of a small boy who was perched on top of a crumbling old manger.

obliged to lend their help to Shorty. Then it was found that the insects that fly about in the summer air were extremely fond of diving into the jar of lemonade, and Piggie appointed himself chief bush-sweeper over the jar to keep the intruders away. Taken all in all, the Athletic Club had their hands full with the lawn fete preparations and waited with a good deal of impatience for the crowd of visitors to come in the evening and buy and eat and drink.

At eight o'clock the candles were lighted and all was ready for the "fete." A table presided over by Shorty's sister—hold the "fancy articles" at five cents each. There were parties of fancy articles, fishing lines, a cabinet picture of Shorty, a match safe, a pair of cuff buttons, a kite (Middleton's handiwork), a stuffed squirrel, an Easter egg, a tin can and a "grand old glass bowl. These articles had come from the homes of the club members, odds and ends from the boys' own rooms or from the household rag-bags of cast-offs. But they made a good showing and sold surprisingly well.

After hearing the lawn fete was in full swing, Middleton, at the ice-cream freezer, was giving vent to his lungs calling a sign on it. "Ice-cream, sweet, cold, finest that was ever sold! Everybody, come, partake; with each dish a slice of cake." And across the yard from him stood Piggie and Long Tom at the lemonade stand, their notes long drawn out and

sign to be tacked up on dozens of trees about the village. "LAWN FETE TONIGHT. GIVE BY THE BOYS' ATHLETIC CLUB. AT 100 DASH AVE."

IN QUEBEC PROVINCE

The political situation in Quebec province has lost nothing in interest during the past week. At Levis on Sunday Messrs. Bourassa, Lafamme and Lavergne addressed over six thousand people.

Mr. Lafamme then took up the revelations in the mining department brought out at the Asselin trial. He was not now covered by the immunity which protected him in the court room but he would repeat the charge he had made with regard to Mr. Peter McKenzie.

Mr. Lafamme proposed to make the position of the Gouin government decidedly warm. In connection with the Abitibi land deal, in which it is charged that seventy cents per acre was to go to the province and thirty cents for political graft, he volunteered to go at his own expense to Antwerp with a commission to secure the evidence of Mr. DeJardin, president of the Belgian land syndicate.

At St. Gertrude, on the same day, Mr. P. E. LeBlanc charged that Mr. Dupuis, who is now recorder of Montreal, bought certain lands for \$28,000 and sold them for \$85,000, making a profit of \$30,000, without putting down a single dollar, but merely giving his note, which was paid after he had resold the lands.

Those who did not attend Mr. Mantell's production of Macbeth at the Opera House last evening missed a genuine treat in the way of tragic acting and it is to be regretted that there was not a larger audience.

The really splendid work of Mr. Mantell in the title role and that of his clever leading lady Miss Marie Booth Russell was strengthened by a well selected cast, and the result was an excellent performance.

Those whose privilege it was to be present last night showed great admiration for Mr. Mantell's portrayal of Macbeth. His performance was one of tragic dignity, seldom, probably never, equalled in St. John.

Mr. McGinn made an admirable Macduff. Mr. Burby did splendid work as Banquo, and Mr. Bentsen did good work in the role of the porter.

This evening Mr. Mantell will appear as Shylock in the Merchant of Venice.

Gossip is only a lack of worthy theme, then—then "gossip" to your heart's content. Select something ennobling to talk about.

Mr. Gouin and members of his government have not accepted the invitation to hold joint meetings and face their accusers on the platform. The gravity of the charges against the personal honor of public men is such that they cannot be content to rest under them and retain the confidence of the people.

DELIVER THE GOODS

The Sun this morning printed the following: "It is true that the minister (Dr. Pugsley) declared that he felt himself under obligation to the local Conservatives, who had supported him and had refused to nominate a candidate against him.

The Times would not bind Dr. Pugsley to silence. It has already pointed out that it is his duty as a minister of the crown to speak out, and tell what he knows, naming names, without waiting for any action on the part of Mr. Borden.

The Sun itself devotes nearly a column to what it terms "Mr. Borden's Opportunity." The opportunity in question, we presume, is that of seizing Dr. Pugsley, and dragging from him certain information alleged to be in his possession, but which he firmly refuses to give unless forced to do so.

The report of the city engineer of Toronto gives the following interesting facts about that city:—The city's population is given as 265,000. Within the city limits are 277.41 miles of streets and 85 miles of lanes, of which 167.24 miles are paved and 80.17 miles unpaved.

The board of trade has endorsed the proposition to establish the Canada Wood-ware Company at South Bay, and as the enterprise is only dependent on the subscription of a comparatively small amount of stock by local investors, there should be no difficulty in the way.

It is proposed to take over an existing wood-working factory, erect new buildings, install the latest machinery and enlarge the business.

So Say Marathons to M. P. A. A.—See No Reason for That Body's Dilatory Action—Greeks Will Cut Loose from Maritime Body in Event of Refusal.

The Marathons have taken a decided stand in favor of the M. P. A. A. A. re-instating Hilton Belyea. A wire was sent to that body at Halifax last night by President Frank White, of the Maritime Club, which in effect expressed the opinion that with evidence now to hand, there was no good reason for refusing to re-instate Belyea and asking for an immediate reply.

SONOMA GIRL AGAIN TO THE FORE
California Mare Defeats Highball and Makes Fastest Mile in Year for Trotters.

Columbus, Ohio, Sept. 17.—Heavy rain broke up today's grand circuit races after four heats had been decided and a start made on a sensational programme. Sonoma Girl and Highball, both with manners nearly perfect, got together in the Hoster-Columbus \$10,000 stake and the California mare, when she won by half a length from the Geers 2 to 2 favorite, got a record of 2:05 1/4. This is the fastest trotting race mile of the year, a world's record for a green trotter, and takes three seconds off the record for the stake.

JACK "TWIN" TALKS ON BURNS
"Tommy Burns" says Jack "Twin" Sullivan is more or less of an accidental champion. I fought Burns in Los Angeles, and we had a good scrap. I won Burns in a confident sort of a fellow. He never thinks of being beaten. Evidently he thought me a cinch, for he came around a day or two before the fight and asked me if I was stuck on splitting the purse even, as we had agreed to in the articles. I said I didn't care, and Tommy suggested 60 and 40 per cent. So we let it go at that. His loser's end, 40 per cent, didn't amount to much.

He appeared to be much surprised that Sir Thomas Lipton had again challenged for an opportunity to win the America's Cup, but still greater surprised that it was reported that William Fife, who designed the Shamrock III, was to make the design for the fourth Shamrock.

NO MORE POP FOR IRATE FANS
PITTSBURG, Pa., Sept. 16.—President Harry C. Pulliam today announced on the heels of an assault on umpire Billy Evans of the American League at St. Louis yesterday, that he would make it his personal business to try and have pop bottles barred from the National League grounds in the future and will look to the American league to assist him in this move. President Pulliam said: "I have come to the conclusion that for the best interests of baseball there should not be any pop sold in bottles in the bleachers and grand stands at ball games, and I will do my best to have it stopped. If there must be sold pop in deadly bottles, let it be sold at least far from the grand stands and bleachers. In this way we can avoid the fearful tragedy such as that yesterday."

OUTFIELD MCCARTHY, who was turned loose early in the season by Brooklyn, now leads the American Association at the bat. Spitaler pitchers in the Southern league are up against a tough proposition. The opposing players have been resorting to the use of tannic acid and icoric acid, and a number of twirlers, who make use of the saliva moistened ball, are trying to break up this practice by appealing to the umpires. The only solution is the prohibition of the spitball.

LATE LOCALS

At the last meeting of the District of the Methodist Church arrangements were made for celebrating at Point DuFort the fiftieth anniversary of the ministry of Dr. Chapman of Amherst—Amherst News. F. J. T. Beal, missionary to the Maritime Provinces, has agreed to make an apology, as he was requested, for publishing a notice not permitted by the St. John Baptist Association to preach to them. Before many weeks have passed telephone communication between Sackville and Cape Tormentine and intermediate points, hitherto so unsatisfactory, will be the very best. For some weeks two gangs of men, about twenty-five in all, have been on construction and good progress is being made.

IT WAS A GOOD YEAR

For Westmorland Lobster Fishermen--The Catch Worth \$100,000

(Sackville Post.) A Port Elgin man, who has been in close touch with the lobster fishing business this summer has given the Post a number of interesting facts and figures concerning this great industry as carried on in Westmorland County. The past season he says was a very satisfactory one, more so on the whole than the season of 1906. This year the catch was more uniform throughout the season. The majority of factories got all they could take care of conveniently but at no time were they rushed. The Post's informant states that the catch of lobsters along the Westmorland shore between Bayside and a point near the Shemogue hatchery must have been worth in the vicinity of \$100,000 to those engaged in the business. The Portland Packing Co., probably put up the greatest number, but Fred Magee, of Port Elgin also did a large business. At his Amos Point factory he put up nearly a thousand cases. Then he had two other smaller factories in operation, and in addition to those he bought quite heavily. It is reported that the lobster hatchery has done a big business this year. Hundreds of thousands of lobsters have been given a start and turned loose into the waters of the strait and already it is said the good effects of this work, which has been going on for several years, can be felt.

Report That New York, New Haven and Hartford Railway Has Offered \$10,000,000 For It.

BOSTON, Sept. 18.—It is reported here that President Miller of the New York, New Haven and Hartford Railway, which is in control of the Boston and Maine, has made an offer of ten million dollars for the Dominion Atlantic steamship line. As the officials here refuse to talk it is impossible to verify the report. Today Charles W. Morse's new passenger line to New York begins its service with the Yale, late of the St. John route, and the Harvard, the latest acquisition to the Eastern Steamship Company's fleet. The project is apparently in opposition to the Dominion Atlantic line. It is expected that the attempt of the New York, New Haven and Hartford to purchase the Dominion Atlantic may be a move to threaten Morse in the provincial traffic.

After a general discussion of methods, it was decided that this season the actual club membership will be limited to men who have been approved by a membership committee, and a nominal membership fee will be charged. The club will extend its privileges before to all men who conduct themselves properly while in the rooms, but those who do not will be promptly ejected. Following are the names of those placed in competition: Aldermen Pickett, Hamu, McGoldrick, Holder, Sprague, Baxter, Christie, Lewis, Kelley, Frank, Lantulum, Vanwart, Bullock, Sprout, Willet, Baskin, McGowan, Long, Fox, Hooley.
