TWELVE PAGES—ONE CENT

A Pertinent Question

If the government at Ottawa is eagerly awaiting the opportunity to develop St. John harbor at public expense, tear down old wharves and build new ones, and spend millions on modern equipment, why does it stipulate in the harbor commission act that hereafter the harbor revenue must be taxed three and a half percent per year on the cost of the grain elevator and government wharves already constructed and not hitherto charged against harbor revenue?

CHAMPIONSHIP IS IN DISPUTE

Near Riot Follows Downey-Wilson Bout in Cleveland.

Commission and Sport Writers Give Match to Downey, While Referee Says Wilson was Fouled—Late Sport News. Cleveland, July 28.—The middleweight boxing championship of the world is in dispute today. According to the Cleveland boxing commission and sports writers who were at the ringside, the title belongs to Byron Downey, of Cleveland, he having acquired it by a knockout over Johnny Wilson, of Boston, in the seventh round of a scheduled 15-round non-decisive contest. But Jimmy Gardner, of Lowell, Mass., former welterweight boxer, who refereed the match, declares Wilson remains the champion because Downey fouled Wilson.

Downey was knocked down three times in the final round. The round was just one minute and six seconds old when Downey sent Wilson down with a right to the jaw and a left to the chin. Wilson was on one knee when Gardner counted nine. Whether he counted ten is disputed.

Official time-keeper Foot, of the boxing commission, said he heard Gardner count the fatal ten and that his watch showed Wilson had been down 13.4 seconds. After Wilson regained his feet, Downey hammered him to the floor again and Gardner counted nine. According to Foot, eleven seconds elapsed before Wilson staggered to his feet, and almost helplessly, grabbed the ropes.

Downey again showed him with rights and lefts and Wilson's manager jumped on the platform and placed his hands on Wilson who was sagging to the mat for the third time. After counting seven Gardner stopped his bout saying Downey had hit Wilson while he was down.

Holders of ringside seats did not see Downey strike. The majority of spectators thought the contest had been stopped because Wilson had been counted out. A near riot followed.

A local referee had been named by the boxing commission to act as third man, but Wilson declared he would not enter the ring unless Gardner officiated. Although the men boxed at catch weight, Downey weighed 154 pounds and Wilson weighed 155 pounds, Dunn said. Wilson's weight was said to be about 172 pounds.

Downey's Record. Byron Downey, was born in Columbus Ohio, 1895 and began his ring career in February 1914, as a featherweight. He has been in about 110 contests, twenty of which he won by knock-out, and twice was a referee's decision against him. Once in Boston in 1918, he lost to Jack Britton, while Ted Lewis was champion welterweight, and Jack Malone gained a decision over him in Columbus.

New Western Record. Brandon, Man., July 28.—Bilston, owned by J. A. Shibley, Toronto, established a new record for western Canada at the trotting gallop at the Provincial Fair yesterday afternoon completing the heat in 2:15. Bilston won the event the purse of which is \$500.

Grand Circuit Today. Columbus, Ohio, July 28.—In the re-adjustment of the programme for today, due to Tuesday's rain and yesterday's unfinished card, four races will be in the Grand Circuit card today with the free-for-all race as the best feature. Single G. and other cranks will be in the field. The 2:08 trot, the Southern Hotel stake, purse \$3,000, will be the other notable events. In it Greyworthy and other novices will start.

The 2:13 class pace and the 2:15 trot for three year olds will complete the card.

S. government has mentioned November 11, armistice day, because of its appropriateness to the occasion.

Expect No Objection to Place of Conference But Date is Still a Question—Way is Now Open.

Washington, July 28.—The way was regarded as open today for the beginning of negotiations between the U. S. and other principal Allied and associated powers as to the date and the meeting place of the proposed conference on limitation of armaments.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "do you remember the San Francisco earthquake?"

"Yes, sir," said Hiram, "we give a little to help them there sufferers. Then earthquake is awful. But that ain't nothing to what you're going to see in St. John when the harbor holoceost begins. You've heard about it?"

"By which you mean?" queried the reporter.

"I mean when them three wharves begin to slide out into the harbor 'n' burn up," said Hiram. "Didn't you hear about it? Walter Giddens went and got the movie camera rights 'n' him 'n' me is gonto show it on shares out to the Settlement. I'll lick Vesuvius 'n' Niagara Falls."

"Will it pass the censors?" asked the reporter.

"Yes, sir," said Hiram, "we'll start out with picters of the city council 'n' board of trade fellows 'n' gradually lead up to the grand holoceost. We'll give the proceeds to put up a monument to the heroes."

"What heroes?" demanded the reporter.

"The list is now being made up," said Hiram. "I'll be finished Monday night. The Globe printed part of it last night."

Snappy Work of St. Louis Holds Philadelphia With Bases Full—Two Players Knocked Out—Big League Games.

New York, July 28.—A triple play was performed by the St. Louis Nationals against Philadelphia yesterday and snuffed out a Quaker bogy with the bases full. Rags, of Philadelphia, sent a line drive to Shortstop Hornsby, who threw to the bespectacled topper, who touched second base, doubling Peters. A quick throw to first baseman Fournier beat Winter's return dash for the bag.

A substitute player figures largely in one defeat of the New York Americans. McManus who replaced Siger at first base, hit a home run, triple and two singles, sending in four of the St. Louis runs.

Emil Meusel played his first game with the New York Nationals since his transfer from the Philadelphia team. The new outfielder caught one fly, made an error on the base and participated in a double play steal that scored a run.

Ess Young, of the Giants, hit a triple double and two singles in four times at bat.

Two men were knocked unconscious by the throw balls during practice. Schmandt, of the Brooklyn Nationals was hit in the head by a practice ball and will be out of the game for several days.

Manager McBride of the Washington Americans, also was struck on the head by a ball thrown by a Senator outfielder.

Lord Chancellor Defends Government's Proposals In the Irish Negotiations

REPLY TO MARQUIS OF SALISBURY REGARDING DELAY IN ANNOUNCEMENT

Urges Patience—Safety of Troops in Event of Failure of Negotiations Will be Looked After—Expect Release of Sinn Fein Prisoners Soon.

London, July 28.—An interesting debate revealing a clash of views among Unionist peers took place in the House of Lords on the Irish negotiations. The Marquis of Salisbury, inviting the government to make a statement on the subject, complained of the indefinite delay and protested that Unionist acquiescence in the delay might be interpreted as approval of the negotiations.

"The truth is," he declared, "we feel great shame and humiliation and we are only awaiting a government statement to make our position clear."

"For myself and my Unionist colleagues," said Lord Birkenhead, "we are utterly unconcerned of any shame or indignation in connection with the negotiations undertaken or the proposals made."

The lord chancellor proceeded warmly to defend the government proposals, saying they should be accepted. The government not only welcomed, but challenged criticism. If the proposals were rejected it would be none the less necessary to acquiesce in the nature of the proposals. Moreover, in the event of their acceptance, the government would recommend them to parliament, and if they failed to meet with the necessary support, the government would have to consider whether the necessary support was likely to be forthcoming elsewhere.

Safety of Troops. London, July 28.—The possible massacre of British troops in Ireland in the event the peace negotiations failing was the subject of a question addressed to Premier Lloyd George by Col. Archer Bisset in the House of Commons. He asked "whether any arrangement has been made in the truce terms in the event of the British troops breaking down so that the crown forces may not be surprised while unarmed and massacred."

The lord chancellor replied that he was aware that "plans to carry out such a massacre by surprise are known to exist in a near Dublin area."

Austin Chamberlain, the government leader, replying for the premier, said that he was not aware of any such plan, but he would correct the result of Col. Archer's remarks, but he added, the government would not overlook the safety of the troops.

Urges Patience. London, July 28.—Speculation and predictions regarding the Irish situation have taken many peculiar turns as a result of developments featuring the negotiations during the last twenty-four hours.

Of these developments, perhaps the most talked of is a speech made in the House of Lords yesterday by Lord Birkenhead, lord high chancellor, in which he invited parliament and the country to have patience with the negotiations. He also intimated that the negotiations may continue for several weeks.

Other outstanding features of the day were prolonged discussions of the proposals by the "Irish Republican council," a proposal by Mr. De Valera, and the postponement by General Smuts of his departure for South Africa until August 2.

The communication from De Valera is reported to have asked further elucidation on several doubtful points in the proposals, while the action of General Smuts in remaining here is taken to mean that he feels his services as mediator may again be needed.

Release of Prisoners. It has been stated frequently that the British government was willing to release thirty-six members of the Dail Eireann who are in prison or internment camps if De Valera will make the request. It is said, on the other hand, however, that Sinn Fein leaders are reluctant to ask for the liberation of their comrades lest it appear that they recognize Great Britain's right to imprison representatives of Ireland. How this difficulty, if it exists at all, will be circumvented is not apparent at the moment, but the view is taken that certainly before very long the Dailites will be released to participate in the Irish parliament meeting which is believed in many quarters already has been arranged for.

Still Looking For Gov. Small. Chicago, July 28.—The whereabouts of Governor Len Small, indicated on charges of embezzlement of state funds while he was state treasurer, early today remained a matter of speculation. Gov. Small disappeared from public view last night after holding all day conference here with counsel. He could not be located in Chicago, Springfield or at his home, although it had been thought that he intended to return to Kankakee.

Those in touch with the case today presumed that the governor would submit to arrest when he returned to Springfield.

DEATH OF EARL KITCHENER IS REFERRED TO

Parliamentary Secretary Says No Facts re Loss of Hampshire Being Withheld from the Public.

London, July 28.—Sir Richard A. Cooper, Unionist, in the House of Commons yesterday asked Lt.-Col. Amery, parliamentary and financial secretary to the admiralty, if he had any official information concerning the alleged divulgence by an officer on the staff of Earl Kitchener, the British war minister, who was lost in the sinking of the British cruiser Hampshire in 1916, of secret information respecting the intended trip of the Hampshire to Russia.

Col. Amery said that no such information was in possession of the admiralty and that no facts connected with the loss of the Hampshire were being withheld from the public.

The question of Sir Richard's formation was occasioned by the recent publication in a London paper of an allegation purporting to explain the sinking of the Hampshire with Earl Kitchener aboard.

NEW MEMBER OF ONTARIO HYDRO COMMISSION

Appointment of F. R. Miller Comes as a Surprise—Attempt of Government to Get Greater Control?

Toronto, July 28.—Fred. H. Miller, vice-president of the firm of Roger Miller & Sons, a member of the Toronto Telephone Commission, is to be the new member of the provincial hydro-electric commission, in succession to Hon. J. B. Lucas, who handed the premier his resignation yesterday. It is generally understood that Mr. Lucas resigned at the suggestion of Premier Drury and the move was heralded in some quarters as an attempt by the government to get greater control of the hydro.

The appointment of a man already in close association with Sir Adam Beck therefore is said to have been a surprise.

Mr. Miller is regarded as a capable business man and a clever engineer. He had full charge of the imperial munitions board plant, and since the war his business has carried out gigantic harbor contracts for the dominion government.

DEMAND RELEASE OF U. S. PRISONERS

Secretary Hughes Sends a Formal Note to the Russian Soviet Authorities.

Washington, July 28.—(Canadian Press Despatch)—Formal demand for the release of United States prisoners in Russia has been made on the Soviet authorities by Secretary Hughes.

The state department was advised yesterday that the communication had been received by Consul Albert. The demand of Secretary Hughes reads: "In the name of humanity the United States government demands of the Soviet authorities that United States prisoners be at once released. It manifestly is impossible for the United States authorities to countenance measures for relief of the distress in Russia while our citizens are detained."

You Vote On the Act

The city council refused to accept or reject the harbor commission act, and passed it on to the people.

That is why a plebiscite is being taken. You are asked to vote on the act, and not merely on the principle of harbor commission. The city council has not been discussing the principle of harbor commission. It discussed the act, failed to agree on it, and referred it to the people. You vote on the act. There is nothing else before you.

NO RAIN FOR OVER THREE MONTHS

Drought Conditions in Europe Unprecedented, Says A. G. Turney on Return from Honeymoon.

(Special to The Times) Fredericton, July 28.—A. G. Turney, provincial horticulturist, who returned from Europe this week with his bride, after a honeymoon, reports that drought conditions in Europe are unprecedented. At the time he left London that city had not had rain for 109 consecutive days. Conditions of this kind have not occurred in England in seventy-five years. Agriculture is seriously affected.

Labor conditions in England are improving, the coal strike seeming to have had the effect of encouraging arbitration and settlement of disputes otherwise than by strikes. Prices have declined to some extent, but will fall further.

Mr. Turney's parents reside three miles outside of Brussels, and he and his bride spent much time in that country during the pre-war years, but are gradually going down.

The sum of \$100 was voted to the N. B. Temperance Alliance and a like amount to propagation work.

APPLE REPORTS NOT ENCOURAGING. Fredericton, N. B., July 28.—(Special.)—Yesterday G. A. Turney, George Danby, of the horticultural division of the department of Agriculture visited several orchards in the vicinity of this city, on both sides of the river. They found that the drop has been generally heavy and that the fruit is not nearly as large as it should be at this season of the year under normal conditions. The one exception to this statement is the orchard of the New Brunswick and British Colonization Company farm at Springfield. This orchard which is in charge of S. B. Hatheway shows up exceptionally well, there being what would be called a good crop even under ordinary growing conditions.

With the continuance of the heavy drought, it is as yet too early to say just how light the apple crop will be, but it is not considered encouraging by the officials of the department. Whether the apples now on the trees can be saved for maturity depends entirely on the weather of the next few weeks.

Today Mr. Turney and W. F. Fox, of Gagetown, fruit inspectors for the Federal Department of Agriculture are visiting orchards along the river east of the city.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

CLYDE FITCH PLAY WITH BILLIE BURKE

'The Frisky Mrs. Johnson' at Imperial Tonight Only—Is Adapted to the Screen With Excellent Results.

The late Clyde Fitch undoubtedly was one of the most successful playwrights of his day. One of his most popular comedies was 'The Frisky Mrs. Johnson' and it enjoyed a long run in New York. This play has been pictured by Paramount with dainty Billie Burke as the star and is being shown at the Imperial tonight only.

Miss Burke is delightfully cast in this picture. She is a gay charming American widow in Paris and wins the reputation of being 'frisky' because she is merely unconventional. But she has a brave heart as the proverb says, her sister from scandal at the risk of the loss of a strong man's love. Ward Crane is her leading man and heads a highly competent supporting company.

SCHOOL MATTER BEFORE COUNCIL

Building Committee Refers Matter of \$400,000 Debentures to Commissioners—Change in Street Railway Bond Authorized.

At the committee meeting of the city council held this morning, officials of the New Brunswick Power Company waited on the council in regard to the proposed issue of debentures for \$400,000 for the purpose of building a school on the west side and one in the north end. Mayor Schofield presided and all commissioners were present.

Percy W. Thomson, general manager of the power company, and H. A. Brown, chief electrician, were first heard. Mr. Thomson said an order in council was passed on May 17, permitting the New Brunswick Power Company to do certain things. The city engineer had reported that the work in Brussels street in regard to the bonding of the rails was not in conformity with the order. The company wished to modify the method. Mr. Thomson said the company had not been able to get them until late in August. He proposed a different bond in Brussels street.

H. A. Brown explained the bond the company wished to use and produced samples of which were examined by the council. Harry Wilson, the city electrician, was present and said the council of the bond was superior to the one proposed to substitute. The company representatives said the bond would cost three times as much as the cancelled bond.

The mayor thought using the proposed bond was a return wire down the devil strip to prevent the bonding from affecting the water system by electricity.

In regard to welding the fish plates to the rails without any bond, Mr. Wilson said if the work worked loose on the sleepers the joint would break.

Mr. Brown produced photographs of tests made of welding fish plates and efforts made to break the bond. He said it was permitted to use the arc-weld 'X' bond.

Mr. Wilson said that with the return for the bond, the city would not be required to pay for the work. He said the city representatives then withdrew and the mayor asked the road engineers to report on the proposed bond. He said that the city would be safe in going ahead with this bond. He preferred the bond that use this bond through out if they could not get the cancelled bond.

Mr. Frink moved that the order-in-council of May last be amended so as to permit the use of the 'X' bond. The motion was carried.

School Buildings. A delegation from the school board, consisting of H. G. McKewen, Geo. E. Day, E. W. R. Ingraham, Thomas Nagle, Allan McIntyre, G. H. Green, H. C. Brown, J. W. G. Leavitt, and the secretary, A. G. Leavitt, was present.

Judge McKewen told of the lack of accommodations in the north and west ends. It was suggested that the Newman street school be replaced, another would be necessary in a few years. He read the enrolment and the high school classes. The number of pupils assigned to the different teachers should be limited. He suggested that the school be enlarged in the north end and also in the west end. One teacher in Albert school had sixty pupils, and others nearly as large classes. He claimed there ought to be provision for a grade nine on the table for further consideration.

The mayor asked if the proposition to use the schools longer hours was feasible. Dr. Bridges said it would be feasible. Dr. Bridges said this system had been tried in New York and was a failure.

In reply to a question, Dr. Bridges said few children came in from the country.

Mr. Frink explained that when they went to the government, they had to mention a specific amount. There are detailed plans for the Newman street school. It would cost about \$150,000, and the west side school would cost about \$200,000.

Mr. Day explained the site for the Newman street school had been secured and tenders had been called for the work. They were waiting for permission to issue the debentures.

Mr. Bullock thought the trustees should decide among themselves which school should be built this year.

Mr. Day said the trustees had got a very low price for the Newman street school. He thought the city should go ahead so as to provide work for the unemployed.

The mayor replied that the bricks would be made elsewhere, and only a few bricklayers and carpenters would be employed.

AUSTRALIAN TENNIS PLAYERS ARE HELD UP

Taken Off Train at Black Rock, N. Y., Not Having Necessary Passports.

Pittsburg, Pa., July 28.—Captain Norman Peach and the remainder of the Australian Davis tennis cup party were taken from a railroad train at Black Rock, N. Y., by U. S. immigration authorities last night because they were not provided with the necessary passports for entrance to the U. S., according to a message received here this morning by J. B. Yale, general manager of the Pittsburg and Lake Erie Railroad.

The Australian party last night left Toronto, where they played against the Canadian team, and were due to arrive at Pittsburg this morning. They reached Black Rock about midnight. Arrangements had been made with the Pittsburg and Lake Erie Railroad to have the through train stop at Coraopolis, a suburban station, in order that the players might be taken directly to the Allegheny Country Club, on the other side of the Ohio River, without passing through the city. Charles L. Childs, secretary of the Pittsburg tennis committee, and a number of other tennis enthusiasts remained at Coraopolis and was informed by the conductor that the Australians were at Black Rock.

Are Released. New York, July 28.—The Australian Davis tennis players who were taken from a train at Black Rock, N. Y., last night by immigration authorities, have been released, the United States Law Tennis Association was informed today. A telephone message from Black Rock to the association said the players status had been determined and that they had resumed their journey to Pittsburg.

Canada has no Pure Bedding Laws
 ~ but Simmons Limited has!

A WOMAN orders a new mattress. She pays for a new mattress—and her dealer sells it to her in good faith.
 But what she too often actually gets is a "made-over" product, stuffed with left-overs, odds and ends—all sorts of insanitary, even disease-ridden scraps.
 For every responsible manufacturer—there are many who do not hesitate to slip in material "renovated" from old, dirty mattresses, or even mattresses discarded by hospitals and homes where there has been contagious disease.
 This condition worries your dealer as much as it does you. For your protection and his own he is concentrating on Simmons Mattresses.

The Label of Simmons Limited is your assurance of a mattress built for sleep—of pure, clean, new cotton.
 Simmons Limited makes this Unqualified Statement to every merchant who sells Simmons Mattresses
 "Cut open any Simmons Mattress that comes into your store. If you do not find it up to specifications, or better—ship back every item of Simmons merchandise and never send us another order."
 Each Simmons Mattress sealed in a carton roll in the Simmons sun-flooded work-rooms. Never opened until you open it in your own home.

GIVING AWAY THE HARBOR.

With a fine but misguided benevolence Mr. M. E. Agar would make the federal government a present of St. John harbor if that were necessary to get the harbor commission act approved at Ottawa.

WHAT WE HAVE WE HOLD

Where are the legitimate successors of the men whose faith in St. John prompted them to tax themselves to build wharves and demonstrate the capacity of this port for national traffic?

THE TIMES CHALLENGES MR. AGAR

The Times challenges Mr. Agar or any other supporter of the act to find in it even a hint that the government intends to spend one dollar of public money to develop the harbor.

Mr. Elkin, M. P., admits that the act does not bind the government to do so. What it does simply provide for a commission of three men who will expend on the harbor just what the harbor revenue will bear.

Mr. Agar believes the harbor commission act binds the government to do anything in the way of harbor development, he is reading into it something it does not contain.

Mr. Agar believes the act binds the government to pay off the harbor bonds of \$1,840,000 as well as the \$650,000. But the city solicitor admits that the act does not say so, and suggests an amending clause in the agreement to cover it.

WARM JOINT DEBATE ON HARBOR QUESTION

Miles E. Agar and H. R. McLellan in Lively Discussion on Merits and Iniquities of the Act at Last Night's Meeting in St. Vincent's Auditorium.

All the Money Must Come Out of Harbor Traffic—The Government Sets an Impossible Task for the Proposed Harbor Commission—The Mayor Presided—Audience Warmly Applauds as the Bargain Is Well Hammered.

The arguments of those in favor of harbor commission under the present act were badly shared again last evening by H. R. McLellan who, in a strong and vigorous speech before 200 persons in St. Vincent's auditorium, pointed out the perils and pitfalls for the city if the vote on Monday should be in favor of the act.

Mr. McLellan, in his address, made a marked impression on the meeting and several salient points brought out by him were greeted by vigorous applause from time to time, and when he concluded he was again heartily applauded.

Mr. Agar continued by saying that there had been some criticism of the act, and that he was glad to hear that the act was not to be given or bartered away as a consideration for any individual or selfish interest.

CHILD KILLED AT RENFORTH

Little Constance Girvan, two-year-old daughter of Mr. and Mrs. Frederick W. Girvan, 183 King street east, wandered away from the family's summer home at Renforth about 6 o'clock last evening and was struck and instantly killed by an east-bound suburban. The tragedy occurred at about twenty minutes to seven near a culvert, which is about 125 yards from the Renforth station. The engineer and others on the train knew nothing of the accident until some time later.

The tragedy took a most pathetic turn when the mother, becoming alarmed at the little girl's absence, commenced search. It was she who found her child's body lying across the tracks, practically severed. Dr. D. C. Malcolm, of St. John, was immediately summoned by the grief-stricken father but nothing could be done and the body was brought into the city late last night.

Dr. O. R. Peters, of Rothesay, the coroner, was notified but after a brief investigation he decided that, in view of the circumstances, an inquest was not necessary.

The little victim was hardly two years old and the pet of the family, which includes also one little boy, Donald.

MORNING NEWS OVER THE WIRES

The personal assets of L. K. Liggett, president of the United Drug Co., have been placed in the hands of trustees, on account of the decline of the common stock of the company, which was occasioned by the dropping off of sales and the fact that the stock in trade of the company was purchased when the prices were at their peak.

Arnold Daley, son of Dennis Daley of Eight, was killed in an automobile accident near Albert, yesterday. Several other members of the party were seriously injured. The accident was caused by defective steering gear, it is supposed.

A significant feature of yesterday's developments in the Irish situation was the postponement by General Jan Christian Smuts of his departure to South Africa until August 6. This is taken to imply that his services as mediator may again be needed.

The unemployed men in Halifax yesterday held a parade to city hall and presented to the deputy mayor a demand for work or, in lieu of that, the necessities of life. They were promised consideration.

Fire yesterday in Chatham destroyed the planing mill and boiler plant at the J. B. Snowball Co.'s saw mill. The loss to the company will be heavy.

CANNOT SEE EYE TO EYE WITH LLOYD GEORGE

Ecclesiastic Authorities Raise Protest Against His Dictum That Churchmen Should Keep Out of Politics.

London, July 28.—(Associated Press)—Prime Minister Lloyd George has aroused the ire of prominent churchmen by telling them that they ought to keep out of politics.

The occasion was the General Assembly of Welsh Calvinistic Methodists at Portmadoc, Wales, when the premier delivered an address, in the course of which he complained of public utterances by highly placed divines at church conferences and elsewhere on questions of the day such as Ireland and the industrial unrest, which, he asserted, "they were not in the least competent to discuss." He stigmatised their observations as "interferences in the task of government, which, if followed, are replete with mischief both to the church and to the state."

AGAINST CEDING TO UNITED STATES

West Indies Will Resist It to Bitter End, Says Sir Gilbert Carter.

Plymouth, Eng., July 11.—The people of the West Indies are wholly opposed to any suggestion that the islands should be ceded to the United States as part payment of Great Britain's war debt, according to Sir Gilbert Carter, who has just returned from the islands.

Sir Gilbert, who has been successively governor of the Bahamas, Barbados and Trinidad and whose wife is the daughter of the late Frances Parker of Boston, Mass., admitted that the interests of the West Indies are largely American; "but if I know anything of the temperament of the people of Barbados, they would resist a cession to the bitter end," he said.

Sir Gilbert added that since the opening of the Panama Canal, Barbados has become one of the great health resorts of the world, where visitors from both North and South America congregate.

TEMPERANCE BODY IN ANNUAL SESSION

Elections of officers for the ensuing year, discussion regarding the coming referendum on the liquor traffic and consideration of important matters connected with the halls, occupied the time of the seventy-fourth annual session of the Grand Division, Sons of Temperance of New Brunswick, yesterday afternoon and evening in the hall of the Granite Rock Division, No. 77, West Side.

The following were elected officers for the ensuing year: G. W. P., Rev. W. J. Kirby, Moncton, by acclamation; G. W. A., Mrs. W. J. Kirby; G. S., T. A. Clarke, Newcastle, re-elected by acclamation; G. T., Mrs. T. A. Clarke, re-elected by acclamation; G. C., Rev. C. W. Corey, re-elected by acclamation; G. Conductor, C. L. Taylor, Notre Dame; G. of protest and rebuke among Mr. Lloyd George's former colleagues in the free churches, and resolutions have been passed at various evangelical council meetings strongly dissenting from the prime minister's attitude.

Dr. John Clifford, a veteran Baptist leader, asserts that the premier's doctrine is contrary to his own, which is that "the churches should take such action as to secure the application of the principles of the Gospel of Christ to the political conditions of the world."

More outspoken is the Rev. H. J. Taylor, a Primitive Methodist leader, who says: "The premier declares that the business of the church and its ministers is to mind their own job. Their job is to demand that the premier should practise religion in the law of the land."

From the pulpit of St. Paul's, Covent Garden, the Bishop of Chelmsford flatly told the premier that he wouldn't accept his rulings.

"If he had said the church must not interfere in party politics, we might be agreed; but that is very different to politics," the bishop said. "The government touches human life at every point, and the church cannot agree to refrain from expressing her opinion upon that which touches all her members."

"We are going to make continuous war upon all that poisons the atmosphere," continued the bishop, "we intend to have our politics impregnated with the right spirit—that of Christianity."

TO GRAND LODGE.

Stephen B. Bustin, grand master of the New Brunswick Grand Lodge of Orangemen, left on Saturday for Toronto to attend the annual session of the Grand Lodge of British America. He was accompanied by Past Country Master Francis Kerr, East County Master J. K. Kelly, the grand secretary, W. H. Sells, and S. W. Palmer, County Master J. M. Chappelle left on Tuesday evening.

P. Rev. A. A. MacLeod, McKee's Mills. Officers were installed by Deputy Most Worthy Patriarch Filmington.

Before the close of the Grand Division session those present were entertained during a recess with cake and tea cream by the members of Granite Rock Division, after which the Grand Division listened to fine addresses by Rev. C. W. Corey, the grand chaplain, and Rev. W. D. Wilson, general secretary of the N. B. Temperance Alliance.

A SUCCESSFUL TEA.

The ladies of the "Seven Club" of the Victoria street Baptist church were the hostesses at a successful and dainty tea

held in the vestry of the church last week. Mrs. Herbert W. Parlee was the convener and she had able assistants. The many small tables were decorated with daisies and the whole room was prettily arranged. The cakes were contributed and were most gratefully received. During the afternoon Anthony Bourdoin sang a pleasing solo. The proceeds, which amounted to \$75, will be devoted to the building fund of the new church.

ALLANT RIDE TO SAVE HIS FRIEND

Youth with Fractured Skull Drove Motorcycle 11 Miles With Body in Side Car.

Atlantic City, N. J., July 28.—Despite a broken skull and loss of blood a youth named Samuel Forbes rode his motorcycle eleven miles into Atlantic City early on Sunday in a supreme effort to save the life of a companion whose skull also had been fractured, and whose unconscious body lay in the side car.

In front of the institution, Forbes collapsed, fell over the handlebars and lay in the street. Hospital attendants carried him and Leopold Dusen, his companion, into the institution, where both their lives are despaired of.

The two young men were the victims of a hold-up by a big negro, who assaulted them with a baseball bat. He snatched the jewelry while the boys were fighting with their assailant and fled, avoiding attack.

The assault occurred on a side road near Absecon, just off White Horse Pike, two miles from Absecon. The girls' shrill screams were plainly audible on the main highway as the negro battered their companions with his bat, but motorists, who could be seen flashing past in the darkness, only put on speed refusing to come to their aid.

The whole countryside has been aroused by the brutal and desperate attack, and while homes near the scene are ringing with praise for Forbes' gallant ride, posters, organized by local officials, are beating the brush and working along the shore in the hope of finding the negro.

THROUGH RAIL SERVICE ATLANTIC TO PACIFIC

Canadian National Railways Furnish Direct Connections With Famous "Continental Limited" Out of Montreal.

The finest train service to the Pacific coast is afforded by the Canadian National-Grand Trunk "Continental Limited" now leaving at 9 p. m. daily from Bonaventure station, Montreal.

The route of this finely equipped all steel train to the coast is via Ottawa, North Bay, Cochrane and via the Trans-continental to Winnipeg and by Grand Trunk Pacific to Saskatoon and Edmonton and via Canadian National Railways to Vancouver—the finest of scenic routes through the Rockies and over the smoothest roadbed.

From maritime province points there is connection by Ocean Limited with the Continental Limited daily, and by the Maritime Express daily except Sunday.

The Maritime arriving in Montreal at 7.40 affords the most direct connection, but passengers by the Ocean Limited will have the advantage of a day spent in Montreal. The Maritime arriving at Levis at 1.50 p. m., affords connection with train No. 11 leaving Quebec daily for Cochrane at 5 p. m. This train makes connection at Cochrane with the Continental Limited, so it will be seen there is really a choice of two distinct routes.

There is also the through service to the Pacific coast by train leaving Toronto at 10.30 p. m. via Sudbury, Port Arthur, Fort William and Winnipeg. Connection for this is made by the Ocean Limited to Montreal, and the Grand Trunk International Limited to Toronto.

Particulars of these splendid rail services to the west will be explained by all C. N. R. ticket agents, and folders and illustrated matter may be obtained by application to any of the city ticket offices or by writing the general passenger department, Montreal, N. B.

THREE BOMBS DISTURB ST. JOHN'S EVE

Violent Explosions Outside Lisbon Printing Offices, in Which Men are on Strike—Attempt Against Judge's Life.

London, July 10.—(Associated Press by Mail)—The festivities of St. John's Eve were interrupted by the explosion of three dynamite bombs of enormous dimensions, placed by unknown hands in different parts of the city, outside three printing offices of which the printers are on strike.

The first explosion was so terrific that although Lisbonites are becoming accustomed to bombs, real panic was produced among the merry-makers in the streets of the Bairro Alto who, leaving their open air balls and bonfires, fled into the lower part of the town. Although there were no victims the force of the explosion brought down the ceiling of the houses near which it burst. A dense and suffering smoke filled the whole street and many people fainted.

Another bomb did less damage in the Rua dos Correiros, and the third, which was of the same powerful type as the first, burst near an open air ball seriously wounding three persons. Some arrests were being made but no real clue has as yet been discovered.

Another of the most powerful attempts against the life of a judge of the Tribunal of Public Safety was also made about the same time, two shots being fired at him in the street without wounding him.

NIAGARA PEACHES NOW.

Hamilton, July 28.—The first shipment of peaches will be made by the Niagara Fruit Growers this week. It was announced by T. J. Mahoney that, although in some sections of the Niagara district the peaches were a short crop, upon the whole they were fairly good. He was at Stamford and Queenston the latter part of last week and found the crop there very encouraging. Early peaches are of good quality and will be on the market in quantities for domestic use by Wednesday. The late peaches are showing up well, although there is not the large crop of last year. Berries were much helped by the rain early in the week, and are lasting longer than was anticipated.

SCENTS DANGER IN CO-EDUCATION

Bishop of Exeter Wants New University Properly Supervised.

London, July 19.—(By Mail)—Questions concerning the proposed university for the South-West of England are raised by the Bishop of Exeter in a diocesan letter. He says:

"A point which I think needs to be cleared up is the system of discipline under which the students are to live. I have been told by members of the Students' Christian Union that the profligacy of the continental universities passes all description. Men and women not only teach, but practice ideals of free love. This is not true of English universities, but there is not an educationalist in England who will not allow that in university education the moral factor is very important. It is not right to bring a large number of young men and young women into a city like Exeter unless two things are provided—first, proper supervision; and secondly and chiefly, large playing fields, or, to use the American expression, a campus, where the superabundant energy of youth could be spent in healthy sports made quite clear to the country where they propose their buildings should stand and how they propose to attach to them sufficient recreation grounds."

Harvest Excursions via "Canadian National"

30,000 Urgently Needed To Grow In The Bumper Wheat Crop of Canada.

To garner in Canada's bumper crop of golden grain, 30,000 harvesters are needed from Eastern Canada.

From all parts of New Brunswick there will be special fares by special trains on August 14th and August 15th, via Canadian National Railways. The fare from St. John to Winnipeg by these trains will be \$20.00—first, proper supervision; and secondly and chiefly, large playing fields, or, to use the American expression, a campus, where the superabundant energy of youth could be spent in healthy sports made quite clear to the country where they propose their buildings should stand and how they propose to attach to them sufficient recreation grounds."

Particulars regarding these excursions can be secured from the City Ticket Agents of the Canadian National Railways, 40 King Street or by writing E. W. Robertson, General Passenger Agent, Moncton, N. B.

A FAREWELL PRESENTATION.

The In His Name Circle of the King's Daughters, was very pleasantly entertained at the residence of Mrs. R. C. Thomas, at Moncton, yesterday. Some of the members went out in the early afternoon and the others arrived in time for supper. To Mrs. F. McArthur, the leader of the circle, who is leaving the city shortly, was presented a brooch with pearls and peridot, which was a parting gift and a mark of the appreciation of the members of the circle. The presentation was made by Mrs. George Doherty and Mrs. McArthur although greatly surprised made a suitable reply.

Baltimore, Md., July 28.—When V. D. The proprietor had to mount the desk to keep from being crushed by the mob, and a hurry call had to be sent for police. Meanwhile the mob broke down the partitions, smashed the benches in the outer office and broke the windows. Jones called up Police Commissioner Gaither's office and asked for help. When a squad of police reserves arrived the job hunters were quieted and Jones had the police turn all but thirty men out of the office and these were given the jobs.

LOUIS MELLIDAY LOSSES HIS LIFE NEAR OTTAWA
Carried Beyond Depth While Bathing With St. John Friends — Body Not Yet Recovered—Was Here Last Week.
 Under very tragic circumstances, S. Louis Melliday, son of Mr. and Mrs. F. X. Melliday, of 113 Sydney street, this city, met death by drowning at Britania, near Ottawa, last evening. News of his death was heard with keen regret by a host of friends in the city.
 Mr. Melliday was employed with the office of the Business Systems, Ltd., in London, for some time, and was transferred about a year ago to the Montreal office. He was on his way to the head office of the company in Toronto when the accident happened and was visiting L. A. McIntyre and Miss Florence McIntyre, son and daughter respectively of Mr. and Mrs. William E. McIntyre, formerly of St. John, but now residing in Montreal.
 Mr. Melliday was in the city last week on vacation, visiting his parents, and left on Friday for Montreal. He was a popular member of the Knights of Columbus and was a veteran of the great war. The sympathy of a wide circle of friends will be extended to his bereaved relatives.
 Besides his father and mother he leaves two sisters, Mrs. A. J. Simms, of Lancaster avenue, and Miss Frances at home, and one brother, John, of New York.
 A Canadian Press despatch from Ottawa this morning says:—
 S. L. Melliday of St. John, N. B., a visitor in Ottawa, was drowned under tragic circumstances last evening at Britania, about six o'clock while bathing with his Ottawa hosts, L. A. McIntyre and his sister Miss Florence McIntyre, of Waverly street.
 Mr. Melliday, accompanied by Mr. and Miss McIntyre, went into the water not long before six o'clock on the west side of the Britannia pier a short distance from the bathing house. All three went up to their necks in the water, and Mr. McIntyre and his sister, who are fairly good swimmers, started to swim out. Melliday was paddling in the more shallow water, he being unable to swim.
 This was about the time of a big storm or a little after and the water was quite rough. Both Mr. and Miss McIntyre turned back after a short swim and both experienced considerable difficulty in getting back to shallow water on account of the rough water and the wind.
 In the meantime Melliday had sunk. No one could be found who actually saw him sink. He was apparently carried out to the deeper water while paddling and sank with a struggle. The body has not been recovered.
No Report of Body.
 Ottawa, July 28—(Special)—Up to this morning no report of the body of S. L. Melliday, the St. John man who was drowned, while bathing off Britannia Pier last night. The event has created a deep impression in this city on account of the tragic circumstances. The beach where the fatality occurred is one of the safest for non-swimmers in the country, except beyond the pier, where the water is shallow on one side but drops to considerable depth just in front of the pier. It is thought that Mr. Melliday, being a stranger, tried to avoid a sudden squall by making for the front of the pier instead of the side.
 The Longshoremen Partly Resumed Work Today—Meeting With Lumber Shippers.

BACK TO WORK ON ALL BUT 2 SHIPS
 The Longshoremen went back to work this morning on all the boats which are loading lumber except the Mount Whitney and the Rebecca W. These boats will not be touched until the crews are present alongside have been taken away and scows loaded by union scowmen put in their places. J. J. Donovan, president of the Longshoremen, said this morning that the crew of the Mount Whitney refused to handle the lumber until the union have signified their willingness for them to do so. However, it was understood that the crews of several other vessels which are nearly loaded will finish the cargo so they will be able to sail. Scows loaded by workmen in places where no union exists will be treated as fair lumber by the local union.
 The lumber shippers and representatives of the Longshoremen union met this morning, but nothing was given out for publication except the statement that nothing definite was arrived at yet. The union men have to report back to the union before any more steps are taken.

IMPROVEMENTS AT MIDWOOD
 Little River Community Club Has Important Meeting—Branch of Girl Guides Formed.
 A large number of people were present at the Little River Community Club meeting held last evening in the Midwood Methodist church, Georgia avenue, at which eighteen new members were enrolled. Frank Godwin occupied the chair and Councillor Dalliel was one of the speakers of the evening. Reports were made of the purchase of an outfit for the baseball team of the club. Plans were made for the formation of a ball team consisting of the youths of the Little River Boy Scouts, Troop 10.
 The main discussion of the evening was the plan of improving Georgia avenue. It was decided to widen the street and to set a number of shade trees on it, and other ways to beautify and improve it. A branch of the Girl Guides was formed, with Mrs. H. B. Harrington as president.
 The people of Little River are very much interested in the club which, although it was only formed a short time ago, is doing much for the community.
