MUCH INTEREST IN ELECTION FOR GOVERNOR

Boston Police Strike An Outstanding Feature

REV. C. A. EATON TAKES HAND

Comes Out in Favor of Coolidge Against Long—This is An Off Year But Boston is Looking for Very Heavy Vote Today

(Special to Times.)

Boston, Nov. 3.—Coolidge or Long? Never before has an off-year election in this state—last of the forty-eight to choose a governor, yearly—been fraught with such significance. So comprehensive are the issues involved, so general the interest of the whole country in the aftermath of the Boston police strike that the eyes of the whole nation are turned toward Massachusetts awaiting her decision.

The eleventh-hour claims of the rival party managers—each brimming over with confidence in the success of the candidate—are about the only factors in the whole 1919 campaign which at all link it up with campaigns of other years. The Republicans are claiming the state for Coolidge by 60,000 with some as high as 75,000, while the Democrats are shy on forecasts, but their candidate, Long, makes up for that by saying in some places he will have 10,000 and in others 30,000, according to the temper of his audience.

The central labor union, which is sore on the governor for blocking its game to have the police enrolled, is out today in a blast against Coolidge and this is matched by a declaration from Henry B. Endicott, a great Democrat, prominent manufacturer and general labor pacifier, that he is for Coolidge and he is counseling shop workmen to follow him.

Rev. C. A. Eaton.

Answering questions of radical tendencies from a Ford Hall forum audience last night, Rev. Charles A. Eaton, director of the shipping board during the war, former pastor of Rockefeller's church in New York and known to many in New Brunswick, said that the people of Massachusetts would settle their questions as Americans on Tuesday by turning Calvin Coolidge to the governorship. Mr. Eaton said that the matter was entirely up to the people of Massachusetts and their vote at the polls would decide whether servants of the people had a right to desert their sworn duty to the people.

Rev. Henry W. Pinkham, whose pacifist sympathies resulted in the acceptance of his resignation as pastor of the First Unitarian church of Melrose in 1917, asked Mr. Eaton why the plan of railroad management and control by the workers should not be put into effect. "I have known the gentleman who asked that question for a long time and he is the most impractical man in the world," replied Mr. Eaton with some heat. "Plumb is a cheap attorney who never ran a railroad. Our railroad industry as a railroad should be run? He does not know as much about it as Pinkham, which is nothing."

(Canadian Press.)

Boston, Nov. 2.—The police strike in Boston, made a political issue, has aroused unusual interest in the state election on Tuesday. At a convention time there was considerable discussion of a league of nations, but the subject rarely was mentioned on the stump. Richard H. Long, Democratic candidate for governor, early in a vigorous campaign, declared that if he were elected his position would be that the striking policemen should be reinstated. Several former policemen have toured the state, appealing particularly to the working men.

Governor Coolidge, who at the time branded the striking policemen as deserters and unworthy again to be entrusted with the preservation of law and order, has reiterated that if re-elected he will stand where he stood when the men quit their posts. The Republicans have contended that the police strike was national in character and that if re-elected he would destroy all government.

Long was the Democratic candidate a year ago and was defeated by Coolidge whose plurality in the state was 17,063. In addition to the state officers eight congressmen and a new legislature will be chosen. An unusually heavy vote for an off-year is expected.

Death in Devon.

Fredericton, Nov. 3.—Miss Ruby Josephine Davidson died last night at the home of her parents, Mr. and Mrs. Howard Davidson, Devon, after a lengthy illness. She returned recently after taking treatment in the sanatorium at St. John. She is survived by her parents, one brother, Howard, and one sister, Mrs. Thomas D. Titus of Devon.

BOYS DIE IN WOODS TRAGEDY

Alvinston, Ont., Nov. 3.—While out hunting yesterday afternoon two boys were killed. Russell Barnes was accidentally shot by his chum, John Horsepool, and instantly killed. Horsepool, in excitement and remorse over the accident, shot and killed himself.

PRINCE CALLS ON ARCHBISHOP BRUCHESI, ILL IN HOSPITAL

His Grace Styles H. R. H. The "Conquering Prince" Who Has Won All Hearts

Montreal, Nov. 3.—One of the last acts of the Prince of Wales before he left here yesterday, was an impromptu visit to His Grace Archbishop Bruchesi, at the Hotel Dieu Hospital, where, for the last two weeks, the archbishop has been confined for treatment. The visit was an agreeable surprise to His Grace.

You know, Prince, remarked the archbishop, "what name the people have given you?" and as the prince seemed not to know, His Grace continued: "I wish to call you by another name: 'Conquering Prince.' You have passed through our country as a conqueror and your conquests are the finest that can be. You have conquered all hearts and most especially that of the Archbishop of Montreal."

Before leaving the Hotel Dieu, His Royal Highness signed the register next to the name of Cardinal Mercier and other eminent visitors, among whom are many royal names.

ALL MINISTERS BUT TWO FROM WITHIN RANKS

Statement by New Premier of Ontario—Strong For Enforcement of The Liquor Act

Barrie, Ont., Nov. 3.—"In forming the cabinet we will only have to go outside our own immediate ranks for two ministers, the attorney-general and the minister of education," said E. C. Drury, who will be called upon today to form an Ontario cabinet. "We have good cabinet material, there was never better. We shall adhere to our policy of farmers and labor men so far as we know. We feel that the moving sentiment that has brought us into power is a reflection of popular distrust of both the old parties. We could not make an alliance with either as a party, but we welcome all men to our aid who hope and desire to see better government."

Mr. Drury recapitulated his adherence to prohibition and asked with reference to the administration of the C. T. A. He was emphatic in saying: "We intend to see that the men in charge are sympathetic with us and the objects of the law, and that they squarely enforce it. If we find that certain phases of the law are abused in any way, we can soon see to that."

"The situation with regard to the medical profession will have to be regulated in some way. We shall have to ascertain, for example, whether any of the prescriptions given are dishonestly used. No doubt many doctors are opposed to the task placed upon them, and we must see what can be done."

Mr. Drury, leader of the U. F. O., has decided to accept the offer of H. G. Murdoch's seat in Centre Simcoe, though regretting losing Mr. Murdoch's services in the legislature. Mr. Murdoch, U.F.O., had a majority of 1,400 in the recent election.

SAYS BRITISH ARE CONSIDERING MATTER OF CONFERENCE OF ALLIES AND SOVIET

London, Nov. 3.—The Daily Herald, labor organ, declares it hears of good authority that the British government is favorably considering a proposal for a conference of Soviet Russia with the Entente allies. It says the conference would take place in a neutral country and would be on the lines of the proposed conference at Prinkipo.

WILL CAPE BRETON BE AFFECTED BY THE COAL STRIKE IN STATES?

Montreal, Nov. 3.—A despatch to the Gazette from Ottawa says there is some alarm felt in government circles regarding the probable effect, in Cape Breton, of the strike of coal miners in the Maritime provinces and St. Lawrence valley, while a pronounced low area is approaching the Great Lakes from the westward. The weather continues very cold in the western provinces and a fairly heavy snowfall has occurred. An east-early gale with snow now prevails on Lake Superior.

SIR THOMAS LIPTON AT HALIFAX TODAY

Halifax, N. S., Nov. 3.—The Carnarvon docks this morning, after a somewhat boisterous passage of eight days from Liverpool. After landing her 813 passengers for this port, she will coal here before proceeding to New York. Among the passengers was Sir Thomas Lipton, on his way to New York to inspect the Shamrock IV.

PRINCE REVIEWS VETERANS AT WINDSOR, ONT.

Veterans League In Toronto Out to Defeat Federal Government

Strong Resolution Passed at Meeting on Sunday on Matter of Report on Soldiers' Re-establishment

Toronto, Nov. 3.—At a meeting of the United Veterans' League here Sunday afternoon a resolution was passed condemning the report of the soldiers' re-establishment committee, declaring that it "discloses the most flagrant and pitiless disregard of the rights and necessities of returned soldiers upon the question of gratuities and pensions."

Whereas the recommendations made in the said report are but idle subterfuges of an already discredited government to evade its obligations and responsibilities to returned soldiers, and the financial inability quoted in the said report is designedly in accurate and untrue; and

Whereas the Right Hon. Sir R. L. Borden, through the minister of justice, stated that the question of gratuities would not be considered by the committee, the bad faith of the government in permitting the taking of evidence upon gratuities is established conclusively.

Therefore be it resolved, that this meeting pledge itself to encompass the defeat of the government and every member of parliament who speaks or votes in favor of adoption of the report.

WANT A NEW INDUSTRIAL COMMISSION

Locomotive Engineers' Advisory Board Makes Suggestion—Against Injunction in Miners' Strike

Washington, Nov. 3.—Immediate steps for assembling at Washington an industrial commission to deal broadly with present turbulent conditions, is suggested by the advisory board of the brotherhood of locomotive engineers.

Deplored "attempt at government by injunction" as a means of settling the coal strike, the board, speaking for 85,000 members, declared injunction proceedings would make conditions worse "and defer, if not defeat, a peaceful settlement."

The board stood out for an industrial commission that would "recognize the rights of all citizens and not be pledged to oppose collective bargaining." Its statement, the only formal one bearing on the strike issued here during the day, was considered a direct outgrowth of the miners' walkout, and was prepared after full and careful consideration of all questions leading up to the break between operators and mine workers.

OHIO MINE GIVES UP TWENTY DEAD BITTERLY COLD IN PARIS ON SUNDAY

Amsterdam, Ohio, Nov. 3.—With the recovery of twenty bodies from the burning Y. & O. Coal Company mine here, it is believed that all the miners who were entombed for more than three days have been perished from suffocation.

ROYAL ARMS IN COURT DISFIGURED AND SINN FEIN FLAG PAINTED ON WALL

Belfast, Nov. 3.—The magistrates of the police court at Belvoir, County Cavan, on entering the court on Saturday found the royal arms over the bench disfigured and with the outline of a skull drawn over them, together with the inscription "R. I. P." (requiescat in pace). A large Sinn Fein flag was painted on the wall with the flag of the Irish republic underneath. The republican flag is also flying over the town hall, the city council ignoring a request for its removal.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Horneburn, a Canadian soldier told me a story yesterday. In a hospital in France on the eve of his own departure for England, he wrote two letters: one to his mother in Australia and the other for his sweetheart in England. Though he was very weak his spirit was buoyant, and he talked out of a full heart to the Canadian. He said that he was soon to see his sweetheart, for he was soon to be sent to an English hospital. The letter to his mother told of battle fought and wounds received; of the beginning of the drive that would end the war; and of his own great satisfaction that he had been there and borne his part. Now he would soon be better, and by that time the struggle would be over. The two letters were posted on a Thursday. On Friday the Canadian visited the hospital again and was told by the Australian that the X-ray had discovered something that must be removed, and the surgeon had decided to operate at once. "The operation was performed at night, but the patient was too weak to rally. In the morning he was dead."

"And that story," said Hiram, in a little silence, "could be multiplied hundreds of thousands of times."

"Hiram," said the reporter abruptly, "for what did that young man die?"

"So the people in this country could go on being selfish and hevin' a good time," replied Hiram. "So the profiteers could go on skinning the people. So everybody could go crazy about this an' that kind of tomfoolery to put in the time. So the rest of the people could look with pity on anybody that thinks life means something more than gettin' an' spendin'. So some people could shiver an' starve with plenty all round 'em. So people could play crooked games, an' laugh at death an' jokes."

"In other words," said the reporter, "so that Babylon might be restored?"

"Well," said Hiram, "I guess that's about the size of it. We hear a good deal on Sunday about Bethlehem, but on Monday mornin' we go back to Babylon. We'll learn sense some day—but just now the an' awful lot of soundin' brass an' tinklin' cymbals—yes, sir."

PROHIBITION AND OTHER MATTERS AT ALLIANCE MEETING

Mental Survey of The Province Will Likely be Made

Help For The Y. W. C. A. Work—General Religious Revival in The City is Discussed

A meeting of the Evangelical Alliance was held this morning in the Y. M. C. A. with the president, Rev. F. S. Dowling, in the chair. The committee on the week of prayer reported four groups, as last year, and that the ministers arranged the places of meeting and the speakers in their respective groups.

A letter from the executive of the Y. W. C. A. set out the thought that the executive understood that the ministers of the city had previously agreed to raise \$1,500 for the maintenance of St. John's church, King street east, which has been purchased by the Y. W. C. A. for its work. The alliance discussed the subject extensively. There are between thirty and thirty-five congregations in the city and a yearly contribution of \$50 each would make up the amount. In raising this amount it was suggested that the women be asked to contribute by suggesting methods of raising money. The Alliance put themselves on record as being in sympathy with this work.

The president said that if the churches raised this amount they would have to be represented on the Y. W. C. A. board. On motion of Rev. M. E. Connor a committee was appointed to confer with the Y. W. C. A. executive and go into the matter thoroughly and see whether it would be deemed advisable to consider the matter further. Rev. F. S. Dowling, Rev. R. T. McKim and Rev. S. S. Poole composed the committee.

For Feeble-Minded.

Rev. George Scott and Rev. H. A. Goodwin presented the matter of a survey for mental defectives. A resolution that the churches and ministers respectively make such a survey of the province of the province. In view of this the alliance thought that no action would be necessary on their part.

The prohibition question was discussed. Rev. Thomas Marshall spoke. The following resolution was passed unanimously in this connection:—"In view of the many reported violations of the prohibition law of the province by licensed vendors this meeting of the Evangelical Alliance desires to express its strongest possible protest against the conviction that any licensed vendor convicted of selling liquor illegally should at the earliest possible moment forfeit his license and that no convicted vendor should have his license renewed."

"That a copy of this resolution be forwarded to the chief inspector of licenses with the assurance that this Evangelical Alliance will stand by him in any steps necessary to carry the above resolution into effect; that a copy be also forwarded to the premier."

It was announced by Rev. S. S. Poole that there were two Mormon elders in the city and he thought it was their purpose to flood the city with literature. The forward movement in the churches was also discussed and Rev. F. S. Dowling said that what was needed was a new spiritual awakening. Rev. A. L. Tedford moved that a committee be appointed to get a leader as soon as possible and start a simultaneous revival in the city, and if a leader could not be secured he thought that a united campaign would be undertaken here at any rate after the new year.

Rev. W. R. Robinson said that the spiritual awakening was what was needed. On account of so much unpreceded prosperity, people have gone pleasure crazy.

Rev. S. S. Poole said he was not over enthusiastic about a campaign of this kind, as there was always a certain amount of "flap doodling" which did more harm than good and when the revival was over the awakening began to show signs of spiritual dryness. The other members at the meeting agreed that in order to get results the work must be followed up.

Mr. Tedford said that with the consent of the second he would add to his motion that the committee be appointed to look forward to the inauguration of simultaneous evangelistic campaign at the earliest possible time. This was carried.

The following members of the alliance were present:—Rev. F. S. Dowling, president; Rev. J. C. B. Appel, secretary; Rev. A. H. Crowfoot, Rev. W. H. Sampson, Rev. W. B. Robinson, Rev. Neil J. McLaughlan, Rev. G. F. Dawson, Rev. S. S. Poole, Rev. R. T. McKim, Rev. M. E. Connor, Rev. George Scott, Rev. George Morris, Rev. A. L. Tedford and Rev. H. A. Goodwin.

THE GOVERNMENT DELEGATES ARE IN MAJORITY

Position of Affairs at International Labor Conference

CONTROL VOTING STRENGTH

Several Countries Have Not Sent Representatives of Employers and Workers—Effect on Question of the Eight Hour Day

Washington, Nov. 3.—(By the Canadian Press.) When the international labor congress reaches the business of the eight hour day, the situation will be mainly in the hands of the government delegates. They control the votes and the speakers in their respective groups.

Under the constitution of the conference each country represented is supposed to send two delegates, as represented by government delegates, with the result that government delegates have a large majority over employers' and workers' delegates combined. The government group almost always has the combined strength of the others.

Central and South American states in particular, are noticeable for the absence of employers' and workers' delegates. So far the British Empire has been represented by thirteen votes, four from Great Britain, four from Canada, four from India and one from South Africa.

The position of the United States in the conference remains obscure. Considerable doubt is expressed whether the United States senate will sanction the treaty in time for the United States delegates to take any effective part in the proceedings. A member of the United States government presides over the conference, but he is chairman and nothing more.

Should German delegates participate, the United States secretary of labor will be placed in the anomalous position of being called upon to preside over a gathering attended by representatives of a state with which his government is still technically at war.

This morning there was to be a meeting of the committee of the conference. This committee has appointed Hon. H. W. Rowell as one of two government delegates serving on the commission on adjustment of other states as members of the conference. Mr. Draper, Canadian workers' delegate, has been appointed one of three workers' delegates to a commission to examine the provisional standing orders.

Under the presidency of Mrs. Derry, both and shot in the chest, the resolutions committee of the international congress of working women is drafting resolutions touching on child labor. The women's congress passed resolutions on Saturday afternoon approving a night hour day with a forty-four hour week.

RHODES SCHOLARS IN STATES ANNOUNCED; SIXTY THREE OF THEM

(Special to Times.)

Boston, Nov. 3.—The first Rhodes Scholars to be appointed from the United States for two years were announced last night by Prof. Frank Aydelotte, of the Massachusetts Institute of Technology, American secretary to the Rhodes trustees, who was in charge of the selection. The names of the scholars were mentioned, the full number but one allotted to the United States this year, instead of the yearly quota of thirty-two. The same number will be appointed next year. Prof. Aydelotte said, to make up for the two years during which the scholars were suspended on account of the war.

A large number of the candidate were men who had been in military service, and many of them had already studied a short term at Oxford under the educational plan arranged by the American expeditionary forces.

Services to observe the 50th annual session of the Women's Foreign Missionary Society of the Methodist Episcopal church were held yesterday in the churches of that denomination in Greater Boston. Afternoon sessions were held in the People's Temple, where Bishop F. J. McConnell officiated at a service to commission 10 newly appointed missionaries to India, Japan, Africa, France, the Netherlands, Burma, Malaysia and Italy.

Among the participants were 200 students representing Wellesley, Vassar, Radcliffe and Wheaton colleges, Boston University, Y. W. C. A. and School of Religious Education.

ELECTIO DAY IN NEWFOUNDLAND

St. John's, Nfld., Nov. 3.—Newfoundland's general election, postponed from Sept. 16 by the war, was held today. The results will not be known for several days. The government party, led by Sir Michael Cashin, was opposed by a new organization headed by R. A. Squires and embracing the fishermen's protection union.

TRAINS COLLIDE AND 41 KILLED

Copenhagen, Nov. 2.—Forty-one persons were killed in many injured in a collision between an express train and another train on Saturday at Vigerslev.

LONDON STREET RAILWAY MEN THREATEN STRIKE

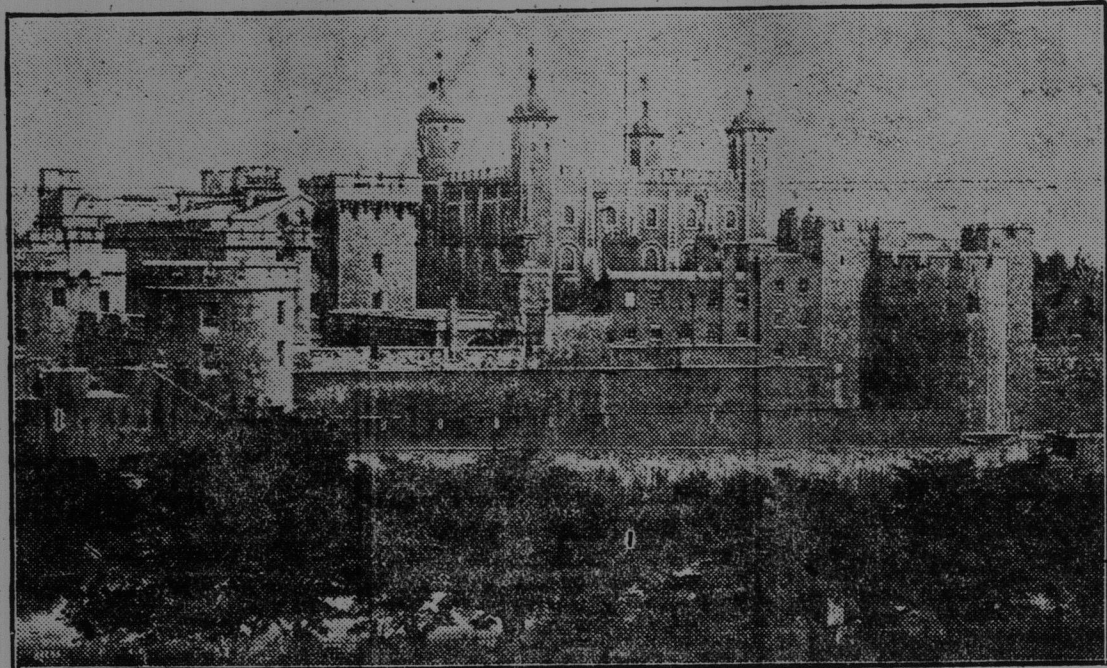

London, Ont., Nov. 3.—At a midnight meeting on Saturday, London street railway employees unanimously decided to strike unless the company added to their wages the six cents an hour which the company removed on Saturday. The cut followed the quashing in court of an increased fare by-law. An employees committee will meet company officials for further discussion.

INTER-SOCIETY DEBATES

A project to establish an inter-society debating class is now under way among the Catholic men's societies in the city. At a meeting yesterday in the Y. M. C. A. preliminary organization was carried on. E. P. O'Leary was chosen chairman and C. J. Mellyday secretary. Representatives were present from the Y. M. C. A., Holy Name Society, Society of the Immaculate Conception, A. O. H. and Knights of Columbus.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., MONDAY, NOVEMBER 3, 1919

THE TOWER OF LONDON

Famous state prison in which William Hohenzollern, former Emperor of Germany, will be interned should state trial by the Allies take place in London.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

THE OPERA HOUSE

One of the vaudeville features in the current programme at the Opera House, a dancing offering, uses a pet snake—a real live one too—and the big feature of the bill is Swain's Midnight Prowl—a comedy by cat and rat circus, with the celebrated boxing cats, the latter by the way being a huge laugh provoker, for they go at it like real professionals. Tonight will be the last time for this good programme, two regular performances, at 7.30 and 9.

The regular change of bill opening tomorrow afternoon offers a sterling male quartette as a feature, the well known Old Homestead Four, vaudeville's sweetest singing quartette, in songs of yesterday, today and tomorrow; Barrette in a novelty surprise bounding wire and flying rings act; Gwen and Clark in a comedy singing and musical skit; Ball Bros. and company in a comedy riot and knockabout acrobatic act; Gertrude Dingley and company in a high class comedy vocal and piano offering; and the serial drama, "Perils of Thunder Mountain." Tomorrow afternoon at 2.30, evening as usual.

JACK PICKFORD AND BASEBALL AT "IMP"

Jack Pickford in the sweetly human story "Bill Apperson's Boy," at the Imperial tonight and tomorrow will unquestionably register as strong an impression as he did in his renowned Tom Sawyer series (Mark Twain) last winter. The story is of the class of film production to which Mary Pickford's films belong, a superbly mounted quality with eminent players. On the same programme will be the late baseball championship series between Chicago and Cincinnati, as well as the British Weekly, Topics of the Day and Mutt and Jeff.

A CRACK CORPS

Halifax, N. S., Nov. 2.—Robert C. McCormick, proprietor of the Chicago Tribune, who is a passenger on board the Mauretania, now in port, and who in the war was overseas as a combatant officer, in speaking with the Canadian Press today said his observations had shown that the British army had many crack battalions and regiments, but that from what he had seen, the Canadian army was entirely a crack corps in all its departments. He said he had seen much of the Canadians.

104,000,000 SHOES

London, Nov. 3.—Sir Edward Penton, who throughout the war acted as director of the army boot department at Cordwainers' Hall, Cannon street, says that the department handled more than 52,000,000 pairs of marching boots, without taking into account such supplies as field boots for the cavalry, boots for the flying corps, for munition workers, Q. M. A. A. C. W. R. A. F., and many other patterns.

In his experience shoes on the riveted system had proved the superiority of their construction, while the welted showed themselves to be the least capable of standing the strain.

In the early part of 1916 there was a demand for 7,000,000 pairs for Russia, 4,000,000 of these being the long Cosack boots, and they were all delivered in time.

FLED NAGGING WIFE

London, Nov. 3.—John Woodhams was sentenced to six weeks' imprisonment for leaving wife and family chargeable to the parish of Camberwell. He told the magistrate that he had nothing but "nagging" night and morning for two or three months before he left home. "My head," he said, "was going round and round, and it fairly shook up my nerves."

WORDS OF BIBLE IN EVERYDAY USE

Has Contributed More to Our Language Than Any Other Book.

The contributions from the Bible to everyday speech are commented upon in an interesting article from a popular literary publication, "John o' London's Weekly," by E. E. C., who says in part:

"Leaving aside all theological and ecclesiastical terms and phrases, it has enriched our vocabulary and contributed more to our language than any other book. And whilst the words and phrases of the scientist and philosopher are upon the lips of the few, those of the Bible have become the current coin of the everyday language of life."

"The story of Eden has given us 'forbidden fruit,' and that of the flood has contributed the 'olive branch' as the symbol of peace. The confusion of tongues has bequeathed 'Babel,' whilst 'Ishmael' has a far wider meaning today than a single tribe."

"The mark of Cain, 'Naboth's vineyard,' the 'mantle of Elijah,' and the handwriting on the wall' have become common figures of speech."

"To sell one's birthright found its origin in Esau's transaction with Jacob; and we should never have had the idea of Jubilee but for the laws of Moses. The confusion of tongues has bequeathed 'Babel,' whilst 'Ishmael' has a far wider meaning today than a single tribe."

"The mark of Cain, 'Naboth's vineyard,' the 'mantle of Elijah,' and the handwriting on the wall' have become common figures of speech."

STIFF NECK, LUMBAGO

Aches and Pains of Rheumatism Sometimes Almost Unbearable.

There are weather conditions that make rheumatism worse. They are not the same in the cases of all persons. Some victims of this disease suffer more in dry weather than in moist cold weather, but all suffer more or less all the time. The cause of rheumatism is an excess of uric acid in the blood, affecting the muscles and joints. Hence the blood must have attention for permanent results in the treatment of this disease.

Hood's Sarsaparilla has given entire satisfaction in thousands of cases. Do not fail to give it a fair trial.

If a laxative is needed, take Hood's Pills—they don't gripe.

THE VICTORY OF THE ARABIAN

U. S. Cavalry Test of Great Interest to Breeders

CONDITIONS HUMANE

Animals Which Could Not Stand The Pace For 300 Miles Ruled Out—Contrasted With Some Hun Contests

(Toronto Mail and Empire.)

Under American army cavalry conditions an endurance contest has just been concluded at Camp Devens, Mass., which will attract the attention of horsemen and cavalry authorities in all parts of the world. The test was undertaken to learn what horses shouldering weight such as cavalry mounts might be expected to carry on active service would travel 300 miles and show the least signs of fatigue. It was not a race in the sense that the horses were to be hurried to their utmost, but was a contest that the humane Society might have approved, for if a horse showed serious distress he would not be permitted to continue. Nor was it an effort to learn how far a horse would travel in a day. The rules of the competition did not permit more than a sixty-mile journey, and each horse had to complete the daily stage in from ten to twelve hours. In other words if a horse was capable of doing his sixty miles in eight hours, it would be of no benefit to him. On the other hand if he happened to be an animal whose favorite gait was three miles an hour which he could keep up for the twenty-four hours he would be ruled out.

All Winners Arabs.

About a score of horses were entered, and the first to finish were Arabians or part Arabians. This will prove a disappointment to the admirers of the thoroughbred, who insist that their favorites can beat an Arabian at any distance from 100 yards to 100 miles. The test was not a conclusive one in so far as the thoroughbreds are concerned, for there was only one of them entered. The others were either Arabs, grade Arabs or Morgans, the latter being the breed especially cherished in the New England States and great favorites in parts of Canada as well. The winner turned up in the ten-year-old mare Rania, a cross-bred Arab, the second being Kingfisher, a grade Arab eight years old, and the third was Kheyr, another grade, aged eight. It is also worth noting that the winner is only 14.2 hands, a mere polo pony in height, while Kingfisher is an inch taller and Kheyr a hand and a half more. All the horses would be considered small, but the Arabs are smaller than the thoroughbreds, while the Morgans are preferred not much in excess of fifteen hands.

Feed Consumed a Factor

In the five-day trip the winning horses lost from forty to seventy pounds, which is not excessive in view of the fact that they carried a minimum of 200 pounds. It must be assumed that the horses were not trained for this contest as thoroughbreds are trained for a race. Their riders would have left some of the flesh to be worked off in the contest instead of sending them to the post wire-drawn. An important feature of the contest was the amount of feed consumed by the horses. Those that did their work on comparatively little grain and finished in good condition would naturally be given a preference over those that were heartier feeders, for one of the most desirable features of a cavalry mount is his ability to do his work with the minimum of forage, since in war conditions he might be carrying his rider through a country where grain was scarce. The horses were fed at given stations, and their allowance measured. They were given all the water they wanted to drink wherever their riders chose.

Other Endurance Tests

Last year there was a somewhat similar test of the Arabian horses, supervised by army officers, in New England. The route was 162 miles over muddy roads and the horses carrying 200 pounds finished in the good time of 81 hours 9 minutes. Twenty-four hours later they were inspected by a veterinarian, and pronounced to be in first-class condition. Shortly before the war the French army conducted an endurance contest from Biarritz to Paris, a distance of 700 miles. From Biarritz to Limoges, a distance of 440 miles over difficult country, was covered in a week, an average of a little more than sixty miles a day. The first horse to finish covered the last 250 miles in forty-eight hours, a remarkable performance. The winner was a half-bred Arabian, while the second horse appeared to have no particular breeding at all and looked more like a drafter of the light type. A thoroughbred finished fifth. It would

be interesting to know in these grades and crosses what other blood beside Arab enters into the horses' pedigrees. It is a thoroughbred blood, then the thoroughbred should be entitled to equal credit with the easterner.

Cruel Tests

In 1908 there was another notable competition by the Austrian cavalry in which seventy-nine riders took part, the course being from Budapest to Vienna, a distance of 143 miles. The winner was a small Arab, which covered the distance in sixteen hours thirty-eight minutes. Several horses died by the way. Another brutal test was that which German and Austrian officers put their horses in a race from Berlin to Vienna, 350 miles. The winner finished the course in a little less than seventy-two hours. Here again many horses were ruined by the race. The first two to arrive died, and several others were permanently disabled. This contest was a mere long distance race, and useless as a cavalry test, for some of the horses carried not much more than 100 pounds, and the roads were of the best. It is not in such conditions that horses may be expected to play any particular part in the wars of the future, but rather travel, and carrying at least an average man's weight, with equipment, which cannot be much less than 150 pounds.

Street cars virtually without seats are being tested on a cross-town, line in Tokyo. Three seats on each side of the car are provided for the aged.

GIVEN 50 CENTS FOR MEAL WANTED TO WORK FOR IT.

(Portland Evening Express.)

A stranger dropped into the store of a druggist in the lower part of the city a few days ago.

"Will you stake me to the price of a meal? I am hungry, but I'm no bum," he said to the druggist, whose name is not given, fearing he might be annoyed by other seekers after charity.

"Sure," said the druggist after sizing up the young man. "I never like to see a man go hungry. Here's 50 cents."

The man went out and the druggist never expected to see him again. About an hour later, however, the man came back.

"I have eaten two beef steaks and three orders of bread, around the corner and I feel better. Now I want to earn that half-dollar. Can't I clean up your floor?"

Surprised, the druggist said that the floor had just been cleaned, but suggested that his car in front of the store could stand a good washing and added that there would be another 50 cents in it for him. The stranger said nothing but got busy. He cleaned up the bay window, washed the sidewalk, started off, positively refusing to take the additional 50 cents which the druggist held in his hand. "A man may be down but he's never out," remarked the druggist to a reporter who was in the store and who told the story.

USE The Want Ad Way

Safeguard Your Eyesight

Do Not Let Fear Interfere With Good Vision

A common cause of neglect in having their eyes properly attended to is the fear most people have that they may have to wear glasses.

This is an injustice to the Optometrical profession and to themselves. If you do not really need glasses, no responsible Optometrist will advise you to wear them; and if you do need glasses, then you are cheating yourself out of a part of a valuable possession.

When you accept our invitation to a consultation regarding the condition of your eyes, you need not feel concerned about what we will tell you. You will learn the truth, and that cannot hurt you.

You Can Come Here Without Fear!

WREATHS PLACED ON THE GRAVES OF DEPARTED HEROES

Paris, Nov. 1.—Wreaths were placed on the graves of soldiers of the Allied and Associated countries by representatives of the government and of many patriotic associations today.

The Canadian colony of Paris met at the Bonards cemetery in Versailles and placed flowers on Canadian and Allied graves and at the cemeteries at Suresnes, St. Cloud and Levallois, the graves of Canadians and Americans were also decorated.

NOSE GRAFTED ON MAN AFTER BEING CUT OFF.

London, Nov. 2.—William Robertson was recently discharged from the King Edward VII. Hospital, Windsor, with his nose, which had been cut off in an accident, successfully replaced by a surgeon.

"I was in a stable at Windsor on Aug. 15," said Robertson, "when a skylight fell and cut my nose clean off. I was taken to the King Edward VII. Hospital, where the arteries were tied up. The surgeon then asked, 'Where is the missing nose?' The son of a doctor, 'cycled to the stable and made a search, finding my nose amongst the straw. It was brought back to the hospital, and an operation performed to replace it. My nose was off for three-quarters of an hour to an hour."

Asked how he felt, Robertson replied, smilingly, "Everything is going on satisfactorily, and my nose is on all right, as you can see."

FIRST FLYLESS TOWN.

Sarnack Lake, N. B., Nov. 3.—The health authorities here claim that the town is the first to be "flyless" in the world.

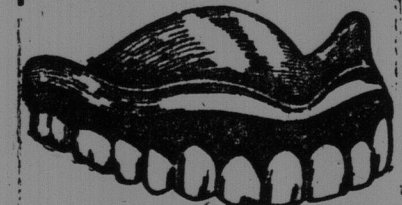

Despite the unusually hot weather during the summer there were hardly any more flies than most places have in January, and the prediction is confidently made that next year there will be none at all.

It cost the town about \$1,000 to eradicate the fly nuisance, which was accomplished by requiring that manure be screened and frequently removed.

FALLING? HERE'S WHERE IT SHOWS

Don't Worry! Let "Danderine" Save Your Hair and Double Its Beauty

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of delightful "Danderine" at any drug store or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Your hair will grow strong, thick and long and appear soft, glossy and twice as beautiful and abundant. Try it!

MASONS APPROVE EDUCATION IDEA

California Grand Lodge Indorses The Purpose of Smith-Townier Bill and Adopts a Strong Americanization Resolution

San Francisco, Nov. 2.—Two important resolutions dealing with public questions of the Grand Lodge of Free and Accepted Masons of the State of California, which has just closed its session here. One of these was an approval of the so-called Smith-Townier bill now before the United States congress, which proposes to establish a United States department of education, the head of this department to have a seat in the president's cabinet. This bill proposes to make an appropriation of \$100,000,000 annually to encourage the states in the promotion and support of education.

In passing this resolution it was stated that while the traditional policy of the craft, which precludes the consideration of political questions by the fraternity, finds its origin in its desire to preserve harmony in the lodge and to avoid the discord which might possibly arise from the expression of differences of opinion, there are certain fundamental concerns which there can be no differences of opinion among Masons, and one of these finds its expression in the support of the public school system.

The resolution, after declaring that the convention believed that the bill in question "gives promise of the realization of a free and untrammeled democracy, which depends upon the enlightenment and education of the citizens of the republic and the Americanization of its aliens," continued: "Not feeling justified in formally endorsing any specific measure of law and order to subvert and destroy government," this movement being "a manifest in the United States." Since this condition exists, the declaration, in effect, the Grand Lodge pledges its entire membership to use all lawful means to check the growth of the destructive and treasonable doctrines that now threaten our free institutions.

In order to carry out this work among Masons, the committee on education was enlarged and it was arranged to have speakers present the matter to the membership of the lodges. It was decided to have sufficient copies of the resolution printed to have one placed in the hands of every Mason in the state of California, and to have the secretaries of the lodges directed to deliver a copy to each member.

LOCAL NEWS

Rev. F. W. Parker, who was chaplain of the 64th Battalion, has been appointed postmaster in Sussex.

The St. John District I.O.G.T., on Saturday night paid a fraternal visit to Lorneville lodge and conferred a degree upon two new members. The visitors were pleasantly entertained.

A consignment of liquor amounting to twenty-three cases has been stolen from the C. N. B. freight sheds. It was part of a shipment of fifty cases for Bermuda.

In Fairville Methodist church yesterday, Rev. Thos. Marshall delivered an address on temperance. Rev. W. R. Robinson spoke on the same subject in Queen square Methodist church.

A mural tablet was unveiled on Friday in the Church of England at Freetown to Lieut. Knox church on Sunday. The west side pastors of Protestant churches spoke and arranged for the coming of Rev. Dr. Rees and his wife, who will conduct the services.

Rev. A. M. McLeod, of Glace Bay, Cape Breton, was the preacher on Sunday. Mr. McLeod is an eloquent preacher and he was heard with special interest. As yet no minister has been called to the pulpit of Knox church.

In the interests of a revival to be held on the west side, a preliminary meeting was held yesterday in City Hall. Rev. R. H. W. Pinkett, through illness, Gordon Stevens addressed the school in the afternoon and in a musical programme those taking part were Ethel Spencer, J. Bissard and Miss L. Williams.

Rev. D. Hutchinson, D.D., of Main street Baptist church, spoke last night on prohibition. He gave four reasons against the liquor traffic—it was the enemy of the home; the enemy of the Christian church; the enemy of all legitimate trade and commerce; and the cause of most of the vice and crime in the land. He said all engaged in this traffic should be put in jail without the option of a fine.

The Allenby Club of St. Andrew's church had a special treat at its regular meeting on Saturday night when Harry Huestis, of the Lend-a-Hand Circle of the Kings Daughters, the other by the Juniors of the N. H. S. Each netted a neat sum. Mrs. H. Colby Smith is the leader of the Lend-a-Hand Circle and the convener for the sale was Mrs. C. H. Green, others who assisted were Mrs. W. H. Golding, Mrs. Cosman, Mrs. R. W. Wigmore and Mrs. McKinney. For the other sale the conveners were Miss Audrey Campbell, Miss Margaret Dunlap and Miss Greta Lowe.

BE SUSPICIOUS OF TENDER GUMS

Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhea—an insidious disease of the gums that destroys the teeth and undermines bodily health.

Gradually the gums become spongy. They inflame, then shrink, thus exposing the unarmoured tooth-base to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system. Medical science has traced many ills to those infecting germs in the gums weakened by Pyorrhea.

They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions.

So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Pyorrhea (Gums Disease) if used in time and used consistently.

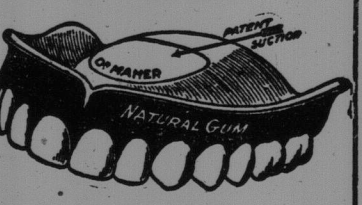

And in preventing Pyorrhea—it guards against other ills. Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps the teeth white and clean.

If gum-shrinkage has already set in start using Forhan's and consult a dentist immediately for special treatment.

The Victory Loan will go over the top and then some, for the same reason that "B" Brand Cider has gone over—because it has merit behind it!

The Maritime Cider Co.
St. John, N. B.

this school of thought, although considerable, was undoubtedly affecting a great many church members. If in this day of great peril and heartrending the churches were to meet the needs of the hour, there was urgent need for a revival and extension of personal consecration. It was time for them to hear the clarion cry of John the Baptist, "Repent for the Kingdom of Heaven is at hand!"

Continuing, Dr. Wallace said it seemed at one time reasonable to expect great aid in the propaganda of the Christian faith from science, education, and riches. To some extent they had not been disappointed. In some degree science had greatly helped the defense of the Christian faith. Reverend scientists, exploring in the various fields, have gathered the results of their reverent inquiry, and laid them at the feet of Jesus.

MR. SKELTON'S LETTER.

The letter of Mr. A. C. Skelton, on the subject of an athletic field, which appears in today's Times-Star, is not by any means the first appeal he has made in this regard. He was one of a delegation which appeared before the city council last spring, when it really appeared that something would be done this year toward making such a field at the entrance to Rockwood Park.

Those who attended Saturday's football game and saw the boys ploughing and rolling in the mud and water, coming out soaked and coated, felt a keen sense of shame that the city has not provided a field fit for such games. It should not be necessary to call upon old high school boys or the alumni to aid in securing such a field. It is a civic responsibility and should be pressed home until action is secured. There is another way, however, in which old high school boys and the alumni and the high school authorities can help. The boys who carry the high school colors need funds, to enable them to carry on, and to provide some entertainment for visiting teams. The boys are doing remarkably well when we consider the heavy handicap under which they play, with no suitable field for practice games. The last summer has produced three good neighborhood playgrounds, but none quite suitable for a game of Rugby. The big athletic field is yet to come. It cannot come too soon.

EDUCATION.

The emphasis that is everywhere being placed upon the need of universal education is one of the results of revelations made by the war. Both in Canada and the United States the discovery that so large a percentage of men were illiterate amazed and shocked the people, who had not previously given the subject of general education the attention it deserved. As soon as the war ended the duty of bringing about the adoption of a system which would ensure the schooling of every child impressed itself upon governing bodies and all intelligent citizens. Hence everywhere today we find leaders of thought urging that the means of education be made available, not only for every child, but for those past the ordinary school age who desire to train themselves for a more useful and a fuller life.

Some extracts from an address delivered by Dr. A. O. Thomas, state superintendent of schools, at a teachers' convention in Portland, Maine, last week, are strikingly applicable to the situation in Canada as well as in the United States. In opening his remarks Dr. Thomas said:

"The strength of our democracy lies in the ability of each individual citizen to function properly in the civic and economic life of the nation. Our nation cannot exist half strong and half weak. Our nation's chief business must be the preparation of its incoming citizens and the efficiency of a country of free peoples is in direct ratio of its educational privileges. Ignorance is the parent of superstition and fear; ignorance, superstition and fear breed violence. To become 100 per cent efficient a government of the people must provide its entire citizenry with the fundamentals of an education. Simply to be able to read laboriously a little and to sign a name in an emergency which is now the standard of intelligence is not sufficient, and yet the first selective draft found 700,000 of these between the ages of 21 and 31. Basing our test upon a working knowledge such as will enable the individual to read the daily press and gather the drift of the times and to write a letter our percentage of literacy would be far greater. From experiments made in cantonnements during the war approximately 25 per cent would fail in such a test. Any nation of free peoples cannot become efficient without an adequate school system; no system of education can become efficient which does not provide adequate educational facilities for all of the children of all of the people. As a matter of self-preservation and perpetuation a nation's chief business must be the training of its incoming citizenry. To neglect a child is to place a faulty stone in the foundation; to neglect a community is to foster a breeding place for the foes of our national life."

Dr. Thomas pointed out that only 60 per cent of those who enter school in the United States, and many do not enter at all, complete even the elementary course of study. Less than 40 per cent of those who complete the elementary course enter the high school, and only five per cent of these ever finish. Only one out of one hundred of those who finish go on into the university.

Dr. Thomas, "getting a sufficient quantity through the mill." But he makes another remark which deserves attention, and which is receiving more from educators everywhere. We quote: "There is no reason for confining the school age and the responsibilities of state and nation to the age of 21. The school should be open to every individual who finds a need of greater educational achievement. Men and women who are already employed in business and in profession and can increase their efficiency

by additional knowledge, should have an opportunity to enter either day, part-time or evening schools established in our centres of population."

At the same conference President Alecy of the University of Maine said:

"Today as never before education occupies the centre of the state. The public realizes as it has not realized before that the accomplishments of education are of untold value to the nation. It is now realized that if we are to cope with the problems of reconstruction we must support our schools better than in the past. We must see to it that the schools have the facilities of buildings and equipment; and better than that, of teachers that will teach men and women to think straight, to think through to the end, and thereby make them safe citizens."

Whether it be a district, a city, a province, or the whole Dominion of Canada, the problem of raising funds for educational purposes should not be regarded as insoluble; since it concerns the development of the most valuable asset of the state.

Word has been received that the Canadian National Committee on Mental Hygiene, of which Hon. Dr. Roberts is a member, is preparing to make a survey of this province as it did of Manitoba and British Columbia. There can be no doubt that the provincial government will formally extend the invitation, and that the department of public health which has initiated this movement here will be enabled to do infinitely more efficient work in the advancement of social welfare in New Brunswick. The problem of the feeble-minded is one that has caused deep concern to all who are interested in social welfare; and such a survey, with the recommendations accompanying it, will clear the way for intelligent action. Hon. Dr. Roberts has given the subject much attention here and on his visits to Ottawa in his official capacity, and public sentiment will heartily approve of a movement in which several other provinces are already far ahead of New Brunswick.

The policemen's strike in Boston will be an element in the state of Massachusetts tomorrow. Governor Coolidge, who stands for re-election as the Republican candidate, asserts that the policemen are deserters and should not be reinstated. Mr. Long, the Democratic candidate, takes the opposite view. A large vote is expected to be polled.

Canada is interested in the extent to which the coal strike in the United States may affect the miners in this country. An Ottawa despatch says it is hoped the trouble will not extend to Canadian mines. But even the stoppage of imports of soft coal into some provinces would be a serious matter.

Recent developments in Ireland indicate the necessity of action by the British parliament to end a situation that grows steadily worse.

The success of the Victory Loan is essential to the continued prosperity of Canada, and to a proper recognition of the soldiers and their dependents.

Labor scored heavily in the municipal elections in England yesterday. The like will doubtless be true of the next general election for the House of Commons.

Have you secured your Victory Bond?

CANNOT COLLECT FOR WORKER'S DEATH WHEN DOING UNASSIGNED WORK

(Montreal Herald.)

The manner in which workmen should conduct themselves while at work, the necessity of their fulfilling their task to the letter, not to occupy themselves with useless and dangerous tasks not immediately imposed upon them was the subject of a long dissertation by the Court of Review this morning in reversing the judgment of the Superior Court according \$2,000 to the plaintiff for the death of Anaton Carzai at the works of the Montreal Light, Heat and Power Company. The Court of Review, for whom Mr. Justice de Lorimier rendered judgment, held that there was inexcusable fault upon the part of the workman in that he had occupied himself with a dangerous task, that of working on a machine, which he had not been asked to do, which was not necessary, and which was not his work, instead of staying near the engine which he had been hired to tend, and which it was his duty to attend to. If he had been asked to do these circumstances, no fault could be imputed to the company. It would have been different as the judge, citing a supreme court case, if he had been asked or had dangerous work been his ordinary duty. The court therefore refused the \$2,000 awarded by the superior court.

Sells Locomotives to Egypt.

The Baldwin Locomotive Works is reported to have sold fifty locomotives to Egypt on a cash basis. The total value is said to be in the market for sixty-five additional engines, for which the American Locomotive Company has submitted estimates. The total value of the contemplated Egyptian purchases is estimated at \$4,000,000. The pending exportation of railway equipment to Belgium is held up by the delay in the negotiation of the Belgian loan. A large sale of railway equipment to Poland is also said to be under consideration.

(Copyright by George Matthew Adams.)

PROPHECY.

The prophets affecting are always predicting that evils are coming to pass; the oil we are pumping is billed for a slumping, and soon we won't have any gas. The prophets are warning that coal mines are failing and soon we'll have nothing to burn; we'll sit up and shiver from exhaustion and wish that old times might return. Our lands are wishbone to liver, and wish that old times might return. Our lands are exhausted and husbandry's frosted, and soon we'll have nothing to eat; there's not enough leather to make a good tether, and there'll be no shoes for our feet. The sheep are not bearing the wool for our wear; our hens are all roosters, our milk cows won't get down to tacks. The gods are against us, they've herded and fenced us preparing to hang. And the future's alarming, so let us be arming, for anarchy, riot, revolt. And we're joking and playing while doing our haying, and yipping and wagging our ears. The talk of disaster, it seems, cannot enter the natural pep of the soul; we ought to be drooping, but joyfully we're whooping while laying in cordwood and coal.

CANADA—EAST AND WEST

Dominion Happenings of Other Days

THE FIRST MARKET.

On Nov. 3rd, 1868, by a proclamation issued in the City of Toronto, the first public market in Upper Canada was established. Today almost every small town has one or two days each week when the produce of the locality is brought in from the country and offered for sale, either to the local residents or to representatives of the big produce companies operating through the large cities.

The establishment of the one in Toronto in 1868 marked the beginning of development of the new colonies in Upper Canada. The population of the capital of the district was growing larger each year and, in spite of the fact that land was cheap, plentiful and fertile, there was a constant increase in the number of persons whose food must be grown by others.

The market was a small affair, located in the locality of the Don River but it was the nucleus of the present day industry. It was a gay day in Toronto when the citizens flocked to the market to buy their weekly supply of vegetables, butter and eggs or whatever they required. It was quite the rage in that town then and rich and poor all types and conditions of residents gathered there with their baskets to procure from the few hardy settlers of the country round about what they required. As time passed and classes in the new place of public purchase but it continued to grow. Strange things were offered at auction at that time, not the least of which were slaves, for in the pioneer days there were in the British possessions in what is now the Dominion of Canada.

THE COCKATOO.

Green and yellow cockatoo.

Won't you let me know to you?

Or if you would kinder be,

Won't you come and talk to me?

Tell me all about the places

Where the children have black faces.

Armbands, anklets, copper rings!

Where the cannibals are kings!

Have a hungry crocodile

Ever met you with a smile?

Have you taken many a trip

In a rickety pirate ship?

Cockatoo, cockatoo,

How I'd like to talk to you!

But as you can guess, I'm

Gladder if you'd talk to me!

—Mary Carolyn Davies in "A Little Freckled Face"

LIGHTER VEIN.

Postlude-Largo.

Mrs. Brown was the back of the church waiting to have her baby christened. Baby was getting restless so she beckoned the vergor.

"No, mum," replied the vergor, "another half hour of it yet. He'll only be 'lastly'."

"But," said Mrs. Brown, "will it take him half an hour to get through his 'lastly'?"

"No, mum," was the demure reply, "but there's the 'one word more and I'm done' and the 'in conclusion' to come yet. Don't be impatient."

Thrust and Parry.

Fangs of jealousy were in Miss Coldfoot's heart when she heard that her late admirer had been accepted by Miss Lovelace, and when she happened to run across her in the bargain rush could not resist taking a jab.

"I hear you've accepted Jack," she gushed. "I suppose he never told you he once proposed to me?"

"No," answered Jack's fiancée. "He once told me that there were a lot of things in his life he was ashamed of, but I didn't ask him what they were."

Pittsburg Chronicle Telegraph.

Johnson—I say, Jeems, dat chile o' yours' mighty slow larin' in school."

Jeems—Yes, that's 'cause de school an' seben miles from heah, an' de chile forgets all de teacher say afo' he gith half-way home."

Willing to Oblige.

The sour-faced man looked at his seat companion on the train who was littering the floor with shells, and said sneeringly:

"Down where I come from they use peanuts to fatten hogs."

"That so?" said the other. "Herehave some."—Boston Transcript.

"Great heavens!" roared the policeman, springing upstairs three steps at a time and dashing with uplifted truncheon into the photographer's studio. "What are you fighting about up here? Have you all gone mad?"

Pa and ma, Uncle Bill, Aunt Jane, Cousin Gertrude and young Mr. Switzer, her young man; the two cousins from Birmingham and Uncle Cuthbert looked very sheepish and attempted lame explanations.

But the photographer waved the energetic constable aside.

"O, that's all right, old man! We're just trying to keep the baby quiet while we take his picture, bless it. Now bang those cymbals again, sir, please! Louder—louder! And you, madam, please make that funny face again! Now, miss, blow that trumpet! Get behind him, sir, and tickle him! Bready. That's it! Got him!"

FINE SPEECH ON TREATY OF PEACE

Lord Robert Cecil Deals With Points in Masterly Fashion—Suggestions as to Course.

(From Speech by Lord Robert Cecil.)

The dissatisfaction with the peace treaty ignores the fact that, like all international documents, it is a compromise, and it is the nature of compromise to satisfy nobody.

The thing to realize is that such feelings exist, and that they are the product of what is the greatest of all evils, anarchy. Men are no longer content with the old order of things. They will no longer accept pre-war axioms of social and political organization on any authority, however venerable. They say, surely with truth, the old system is an admitted failure. It had brought us within measureless distance of wholesale anarchy. Something fresh must be tried, since nothing but destruction and disaster await us on our present course. That, unquestionably, was the genesis of the League of Nations. Shocked beyond measure by the unequalled horrors of the late war, the peoples of the world demanded the erection of some safeguard against its renewal.

Chief Cause of Wars.

It began on the almost spontaneous expression of the passionate desire for peace of those who had experience of what war meant. Gradually, as the idea developed, it was recognized that the chief cause of wars in general, and this war in particular, was unbridled rivalry and competition between nations, which in the case of unscrupulous peoples or rulers, like Germany and Prussian Kaiserism, became a desire for world domination. But if the spirit of competition is strong, the spirit of co-operation is its equal. Without it German unity would have been impossible, and it was by its means that Germany sought to enslave the world. Since the disruption of Christendom no attempt has been made to utilize this for the pacification of the world. That is, the central conception of the covenant. As those who were responsible for framing it examined the problem before them they became more and more convinced that the existing international relations were based upon a fallacy.

A Complete Delusion.

They proceeded on the assumption that every nation was a potent enemy of every other nation. Hence came the whole paraphernalia of the old diplomacy—competitive armaments, secret alliances, the balance of power and all the rest of it. But as a matter of fact, the common interests of the nations of the world are largely the same. It is more important than national antagonism. The idea that the prosperity of our nation is an injury to the others is a complete delusion. The success is the success of all.

If there is distress on the continent of Europe, it means that we shall have fewer customers. If as a consequence of distress the standard of living fall in foreign countries, our standard of living will be threatened. If standard Europe is devastated by an epidemic we must take precautions to keep it from spreading. In finance the interdependence of modern countries is clearer still. Indeed, the close co-operation of the financial interests of the world has led to the creation of a largely mythical figure which is supposed to dominate world politics. Whenever I have met anyone who could be called an international financier I have not been struck so much by his want of scruple as by his extreme timidity. But whether you regard international finance as a sinister force of world-wide power, or as a group of men timorously speculating on the uncontrollable movements of public opinion, its importance to the prosperity of the world has been shown by the terrible difficulties in which Europe has been placed by its partial breakdown.

To Curb Lawless Competition.

The covenant, then, proceeds upon the theory that the only hope of curbing the lawless exuberance of international competition is by fostering international cooperation. How that idea is worked out in the League of Nations, and the text of the covenant itself to explain more fully. I will only here say that if we really believe the plan is worth a trial and, remembering the other side of the international difficulties has been even proposed, except a return to the old international anarchy—if, in the popular phrase, we mean business. It is not enough to have subscribed the document, we must carry it out in spirit as well as in letter. Our whole foreign policy must be based on the League of Nations. We must regard the misfortunes of other nations as a matter of national concern to ourselves. If foreign babies are starving for the want of milk we must go to their assistance diplomatically as well as pecuniarily. If we make an agreement with a semi-civilized country to help it in putting its affairs in order we must be ready to subordinate our own interests to the approval of our fellow-nations. Until a general arrangement for the limit of argument has been arrived at, and we should seek to regulate our naval and military policy in consultation with other gov-

ements. Nor should we stop there. It is at least a question whether the principles of the League of Nations may not be extended still further, and whether the only hope of averting the threatened disaster is by modifying the spirit of class war by the spirit of class co-operation.

Labor Leader Talks on Political Situation

(Toronto Star.)

That the Independent Labor Party has come to stay, and will bulk large in the future of Ontario is the opinion of Walter Rolfe, the member-elect for West Hamilton. Mr. Rolfe is the provincial president of the Labor party, and also was named in 1917 as a national leader of a dozen Labor candidates could go on the federal (Union government) election ballots.

"Yes," said Mr. Rolfe, "the future of the Labor party depends on the men who have been elected. Of the twenty-eight candidates that Labor supported in the elections, seventeen were elected. Five of these were the nominees of the U. F. O., whom we supported in return for their support of some of the candidates we named."

It was a politician, too, who some time ago declared that "the government kept cutting the wool off the sheep that lays the golden eggs."

Another speaker once said that the Union of England and Ireland would turn barren hills into fertile valleys.

But one M. P., speaking on total prohibition, rather overstepped the mark when he said: "The glorious work will never be accomplished until the good ship Temperance shall sail from one end of the land to the other, and with a cry of 'Victory' at each step she takes, shall plant her banner in every city, town and village of our country."

SILK SUITS FOR MEN.

London, Nov. 3.—"Nuclioth" is the name of a silk fabric just produced by a Pudsey manufacturer from the short ends of silk after the combers have extracted the long lengths. It is intended to meet the present demand for economical clothing. It is claimed for this cloth that it is untearable, equal in appearance and wear to worsted, yet can be sold at the price of shoddy. It is estimated that a boy's suit can be made for \$8.75 and a man's suit for \$15.75.

SIX LEGGED CHICKEN.

London, Nov. 3.—A prize-bred game hen belonging to R. H. Dolphin recently hatched a freak chicken with six legs, two heads and four wings.

RECENT WEDDINGS

Rose-Barker.
The marriage of Miss F. Vera Barker, daughter of Mr. and Mrs. G. M. Barker, of this city, to Captain Cameron A. Rose, M.D., of Oak Park, Chicago (Ill.), was solemnized at the home of the bride's brother, E. R. Barker, Salem (Mass.). The bride, who was given away by her father, was gowned in white duchess satin and georgette, with veil and orange blossoms, and carried a shower bouquet of bridal roses.

Dr. Rose is a graduate of the University of Illinois. During the war he was a captain in the Medical Corps, U.S.A., being stationed last winter in California, where he and Miss Barker became acquainted, when Mrs. Barker and her daughter were spending part of the winter in Los Angeles.

After a wedding supper Dr. and Mrs. Rose left for California to spend a few months before returning to their home.

RECENT DEATHS

Mrs. Catherine E. Shannon, widow of Captain George Shannon, died on Saturday afternoon at the home of her son-in-law, Joseph A. Murdock, 187 Orange street. She was of Loyalist descent, before marriage being Catherine E. Jones of Kars, Kings county. She leaves one son, Frank N., of the N. B. Power Company, and four daughters—Mrs. Sheldon, Mrs. John Erwin, Mrs. Joseph A. Murdock and Miss Mabel Shannon, all of this city. The funeral will be held from Joseph A. Murdock's residence, 187 Orange street, this Monday, afternoon, at 8 o'clock.

The late William E. Oagles, who died in the General Public Hospital last Friday, as a result of burns received in an accident some time ago, left a large number of relatives. Besides his wife, he leaves his mother, Mrs. Samuel Oagles, two sons, John and Fred, two daughters, Annie and Emeline; two brothers, James of this city and Thomas in the West; and four sisters, Mrs. T. Geymond, Mrs. H. Logie, Mrs. A. Davis, and Mrs. Annie Oagles.

NEW TRAINING FOR WOMEN

It seems probable that women will soon be employed in this country as engine cleaners and wipers. In both England and France during the war it was a common sight to see women in overalls, greasy and grimy, taking the place of men around the huge locomotives, and now the New York Central Railroad has intimated that the experiment will be tried out over here. The plans for the new \$200,000 round house at Watertown include a room most modern in its equipment and designed especially for women. There is no effort made to conceal the fact that it was planned for women, and that it is considered not at all unlikely, in view of present labor difficulties, that women will shortly appear in the yards, the repair shop and the adjoining quarters which have been provided. If they proved to be quite competent on the London & Liverpool and other railroads abroad, why not on the New York Central?

Would you lend a soldier \$50 if you knew it would save his life? Buy Victory Bonds and keep the military hospitals up.

LOCAL NEWS

MEETING THIS AFTERNOON
A committee meeting of the common council will be held this afternoon to take up taxation appeals.

CALL ON MAYOR
Elder Archie Smith and Mrs. G. A. Bryack representing the Church of Jesus Christ, Latter Day Saints, were in the city on Saturday and called on Mayor Hayes.

FOR THE ORPHANS
Mayor Hayes this morning received a check for \$100 as a contribution towards the Protestant Orphans' Home from a friend of the orphans who did not desire to make his name public. The check has been forwarded to the institution.

GOING TO PORT ARTHUR
Mrs. W. P. Caldwell will leave this evening for Port Arthur to join her husband, who is on the staff of the Bank of British North America. Mr. Caldwell was with the local branch of the Bank of N. A. before enlisting for overseas service.

HOME AFTER CONFERENCE
Rev. R. Taylor McKim, rector of St. Mary's Church, returned home on Saturday from Moncton where he had been in attendance at a Tuxis conference held in connection with the Canadian Standard Efficiency programme. Addresses were given during the conference by Rev. Dr. Robertson of the Presbyterian Young People's Association, Rev. Dr. King of the Methodist church, and Louis Buckley of the Y. M. C. A.

NO "NEWSIES" ON CARS
A recent order has been given by the N. B. Power Company to street railway conductors not to allow newsboys to jump on their cars to sell papers. The reason is along the lines of "safety first"—that accidents may be prevented. Some of the more ambitious and venturesome lads have been in the habit of jumping on a car in motion in order to try to make a sale.

STRICT ENFORCEMENT
Immigration laws at this port are being enforced more strictly than heretofore. Before a captain can secure clearance for any ship or place on board details of every member of his crew. The following notice has appeared in the clearance office of Customs House: "Collectors at ocean ports are instructed not to grant a clearance to any vessel arriving in Canada from, or departing for any port or place outside of Canada, until the immigration agent or officer in charge certifies that the master of the vessel has complied with the provisions of the immigration act."

CALL FOR WORK TO GET GROUNDS FOR ATHLETICS

Saturday's Football Conditions Bring Matter to Climax

LETTER FROM A. C. SKELTON

If School Board or City Cannot do it He Suggests High School Alumnæ to Take Matter up, With Ladies' Assistance, as Memorial of War Heroes

To the Editor of The Times,
Sir,—After watching the football match on Saturday between St. John's High School and Redway Collegiate School teams on the old Shamrock grounds, I cannot resist making one more appeal through the press—the last which I trust will be necessary—for some action to be taken to provide a proper athletic field for our older boys in St. John. The field on Saturday was nothing but a hopeless quagmire and yet that is the best—and in fact the only available ground for the High School boys for their matches and the practices which are necessary to produce a team.

Great credit is due to the High School boys for the efforts which they have made to get their team into shape under such unfavorable conditions. The game itself was an excellent exhibition, by both teams of clean sport under a most efficient and impartial referee and was just the kind of game which will develop the best type of vigorous, wholesome and hard hitting citizen, but the condition of the ground placed an almost insurmountable bar on any exhibition of skill on the part of the players, and from the spectators' point of view made it anything but comfortable.

Where proper facilities for athletics are lacking in a city, it often indicates that the city itself is dead, and as a citizen, it is a matter of great regret to me that no encouragement can be given to that fine aggregation of High School boys more properly to develop their athletic energies in open air sports. If the city or school board are unable to provide the proper facilities, are there not enough old High School boys, and parents of present boys, who will take a hand and procure at once a permanent athletic field for football, baseball and track events? Might I suggest that, if the men are afraid to tackle the job, the High School Alumnæ be called upon to assist? If the sympathies of the ladies can be enlisted the scheme will be carried through. Now get together, High School. Many of your finest athletes went overseas and will never return. Why not take up the idea in the shape of a memorial for them? You may find more sympathizers than you expect.

Yours truly,
A. C. SKELTON.
St. John, Nov. 3, 1919.

CITY WILL EXTEND Water and Sewerage To Douglas Court

Salvage Corps Ask for Payment of Soldiers' Day Bills—Exceeded Grant From Council—Other Matters Before Commissioners

The common council in committee this morning decided to recommend that the water and sewerage services be extended from Douglas avenue to Douglas court to serve the new lot of houses proposed by the St. John housing commission. A delegation from the Salvage Corps asking for the payment of bills amounting to \$264.94 in excess of the \$150 granted them by the council for the entertainment of visiting firemen on Soldiers' Day was heard. Their request will be considered later.

The delegation was composed of Messrs. MacRae, Clark, Cunningham, Nixon and McBeath. Mr. MacRae said that the amount granted was not sufficient to do justice to the occasion and he was given to understand by Commissioner Thornton that if their expenses exceeded that amount the city would be disposed to consider payment.

Tenders for excavation and backfilling for the installation of an 8 inch water main and 9 inch sewer in Lancaster street, West St. John, were opened. Figures were as follows:—

Moses, Tobias & Ferris.....	\$6.50	\$1.85
Lewis Stevens.....	7.00	2.10
King & Irons.....	5.00	2.25

This work is to be done in connection with the city housing scheme on the West Side. The matter was referred to Commissioner Jones.

Commissioner Fisher said the supply of material for paving for next year was a serious matter. He had received a letter from Morrison & Newlands, offering between \$50,000 and \$100,000 for the blocks at \$87.50. Other contractors had expressed the opinion that they could not supply this material except at a much higher rate.

In reply to Commissioner Bullock, Mr. Fisher said he was planning using the blocks for the track section in Prince William street, the south side of Market Square and City road.

Asked by Commissioner Jones, Mr. Fisher said that brick and concrete might be used in track sections, but this was inferior to granite blocks. The matter was left over until next meeting.

Commissioner Jones submitted an estimate of the cost of water and sewerage extension to Douglas Court, where the St. John Housing Commission is to build and recommended that the extension be made at an estimated cost of \$3,100. He estimated the revenue would be about \$800 in the water rates.

Commissioner Thornton said it had been brought to his attention that there were lots in Millidgeville avenue already served by water and sewerage. Commissioner Bullock said at the present time it was planned to build a new street car line as possible.

Commissioner Jones said there was a doubt in his mind whether the houses planned were suitable for the people for whom they were intended, but conditions in St. John were such that nothing should be put in the way of providing adequate housing facilities.

Mr. Jones' recommendation was carried.

The mayor brought up the matter of harbor commission and said that the question should receive attention in the near future. As the matter of a plebiscite would entail considerable discussion the question was held over.

WOMAN KILLED BY GAS FROM STOVE

Montreal, Nov. 2.—Entering his home yesterday, Oscar Leger of 1018 Gertrude street, found his mother-in-law, Mrs. Jos. Laplante, lying in her room dead from the effects of gas which escaped from the kitchen stove.

CALL FOR WORK TO GET GROUNDS FOR ATHLETICS

Saturday's Football Conditions Bring Matter to Climax

LETTER FROM A. C. SKELTON

If School Board or City Cannot do it He Suggests High School Alumnæ to Take Matter up, With Ladies' Assistance, as Memorial of War Heroes

St. John, Nov. 3, 1919.

ARCHDEACON RAYMOND IS MEMBER OF BOARD

Meeting in Ottawa on Matter of Conserving Historic Sites in Canada

Ottawa, Nov. 3.—There met in Ottawa last week for the first time an honorary board recently nominated by the Hon. Arthur Meighen, minister of the interior, to advise the department in matters concerning the preservation of Canadian historic sites.

This is a totally new departure in such preservation work in Canada and it is believed it is the best way of dealing with such work so as to result in the sites of historic interest from a dominion-wide standpoint being preserved to the best advantage of the whole country.

The question of preserving the landmarks in Canadian history has been engaged the attention of the department of the interior since before the war, when the dominion parks branch were given the responsibility of administering old Forts Howe and Annapolis Royal.

A general survey of all the other historic sites of the dominion was made by that branch, but the war interfered with any active development work in the last five years.

It is hoped now, however, with the co-operation of the public and those associations connected with such preservation throughout the country, that the results of the creation of the advisory board for historic site preservation will be seen in a broad plan being carried out which will eventually preserve all the important historic sites and with the minimum of expenditure.

It is realized that Canada is dotted with places which have strong significance in the founding and making of our country, and as the centuries roll on such historic sites will become invaluable as remembrances to the Canadians of the future, of what the first Canadians endured to acquire for this dominion a foremost position in the world.

The members of the honorary advisory board at present are: Brigadier-General E. R. Cruikshank of Ottawa, Dr. James H. Coyne, St. Thomas, Ont.; W. C. Milner of the Archives, Halifax, J. B. Harkin, commissioner of dominion parks, Ottawa; Dr. Benjamin Sulte, Ottawa, and Archdeacon W. O. Raymond, LL. D., St. John, N. B. The secretary is P. H. H. Williamson, Ottawa.

DEATH OF MRS. J. W. DANN

Hampton Village, Nov. 3.—In Moncton on Saturday evening Mrs. Fannie Dann of this place, passed away. Mrs. Dann had undergone an operation at the public hospital in Moncton and until the latter part of the week encouraging reports had been received. On Saturday, however, her son, A. M. Dann, was called to Moncton, but before he reached the hospital his mother had passed away.

Mrs. Dann was the wife of J. W. Dann, who died some years ago. A. M. Dann, of Hampton, with whom she had of late made her home, and Roy B. of Moncton, are sons. They have the sympathy of a large number of friends in their bereavement. The body was brought to Hampton yesterday, and the funeral will take place on Tuesday afternoon at 2.30 o'clock.

HANDSOME BLOUSES
in Many New Models

Mrs. Russell Sage Left Estate of \$49,051,043

Public Bequests Reach Total of \$25,000,000—Large Gifts to Charity—Friends and Employees Remembered

New York, Nov. 3.—Mrs. Russell Sage left an estate with a gross value of \$49,051,043, according to a report of the state appraiser, just made public.

The principal individual beneficiary is Mrs. Sage's brother, Joseph Jeremiah Sluom, who receives \$7,157,703. More than 50 charitable and educational institutions receive bequests ranging from \$100,000 to above \$1,000,000.

Because of these large public bequests, which are exempt from inheritance taxes, the estate will pay only \$455,820 to New York State.

Among educational institutions receiving bequests are:

Troy, N. Y., Polytechnic Institute, \$1,000,000; Hampton Institute, \$876,586; Yale, Union, Hamilton, Amherst, Dartmouth, Williams, Princeton, Barnard, Bryn Mawr, Vassar, Smith, Wellesley, Tuskegee Normal Institute, \$776,586 each; and New York University, \$484,868.

Bequests to charitable institutions include Russell Sage Foundation, \$5,436,104; Presbyterian Home Missions and Women's Board of Foreign Missions, \$1,578,172 each; New York Charities Organization Society, \$1,578,172; New York City Mission and Children's Aid Association, \$1,578,172 each; Metropolitan Museum of Arts, \$1,403,172; State Charities Aid Association, Presbyterian Board for Relief Disabled Ministers and Their Dependents and New York Infirmary for Women and Children, \$776,586 each; American Bible Society, \$684,879; Young Men's and Young Women's.

Assets include 57 real estate holdings; personal property mostly mortgages and securities, valued at more than \$10,000,000 and \$225,725 cash. Liberty Bond holdings total more than \$3,500,000.

Individual bequests in addition to that of Mr. Sluom include a life interest in \$100,000 and real estate in Lawrence, N. Y., valued at \$26,780 to Margaret Oliva Flinn, a niece; \$819,089 to Herbert J. Sluom, a grand nephew; and \$50,000 to Helen Chapman of Oneida, N. Y. Twenty-three friends and employees receive from \$2,500 to \$5,000 each.

E. E. LEMIEUX KILLED

Superintendent of Printing in Militia Department, Ottawa

Ottawa, Nov. 3.—E. E. Lemieux, superintendent of printing and stationery in the militia department, was killed on Saturday when a low telegraph wire swept him off a wagon near Petawawa Camp. He fell to the ground and the wheels of the wagon passed over his body. He had been 40 years in the department and was on an annual hunting trip.

FREDERICKTON MINISTER ON LIQUOR SITUATION

(Special to Times.)
Frederickton, N. B., Nov. 3.—Rev. L. Pash, pastor of the George street Baptist church yesterday morning, said that the liquor situation in Fredericton. He said that too much liquor was being sold in back-yards in this city, and there were too many boot-leggers. He also said that physicians issued too many prescriptions and the druggists filled too many of them. He said a delegation would wait upon the provincial government in support of a resolution passed by the recent Baptist meeting at Woodstock that a separate day be set for the registration of all women who have failed to register as voters.

On account of the enormous increases in the price of beaver pelts and the increase in the numbers of beaver in New Brunswick, there have been a rush of applications for special permits to trap the animals.

The provincial government will meet next week.

PERSONAL

Mrs. Joseph Key is to receive for the first time since her marriage, at the home of her mother, Mrs. W. B. Tennant, 70 Orange street, on Wednesday and Thursday afternoons, Nov. 5 and 6. Dr. A. E. MacAulay returned from New York on Saturday. He attended the meetings of the annual Congress of Surgeons in that city.

Rev. Dr. David Hutchinson and Mrs. Hutchinson will leave this evening for Toronto to attend the annual meeting of the Canadian Baptist Foreign Mission Board.

Mr. and Mrs. E. L. Rising will leave tonight for Los Angeles via Chicago to spend the winter months.

Mrs. F. B. Carvell and daughter, Mrs. A. M. Fisher, of the Woodstock, will return to Ottawa this week.

Rev. Canon Armstrong and Charles Ooster of St. John were in Charlottetown on Friday last and were guests at a banquet in St. Paul's church.

Mrs. A. M. Patterson of New Glasgow, N. S., is visiting her sister, Mrs. G. S. Sprigler, 125 Main street.

THE MINTO AWARD

It is reported in the board of conciliation on the dispute between operators and miners in the Minto coal region that a majority report by Chief Justice H. A. McCown, chairman, and Mayor Hanson, representative of the operators, has been forwarded to Ottawa. It is understood that a few of the demands of the miners are met in the report, but that the majority are not. J. R. Walker, representing the miners, sent in a minority report.

Remember this sale ends promptly Saturday evening, November 8, London House, Daniel, Head King street.

IN MEMORIAM

CHANDLER.—In loving remembrance of Harry Allington Chandler, died November 1, 1918, aged 18 years.

The charmed circle broken. A dear face missed each day from its usual place. But cleansed, saved, perfected by grace. One more in Heaven.

MOTHER.

BERTHAM.—In loving memory of our dear mother, Harriet Mercer Bertram, who died Nov. 2nd, 1894. This day brings back to memory a loved one gone to rest. And those who think of her today Are those who loved her best.

SON AND DAUGHTERS.

SPEIGHT.—In loving memory of Pte. William Sanford Speight, who died of wounds in France, on Nov. 2, 1918, aged 19 years.

Somewhere in France he is sleeping. In a soldier's honored grave, Gone but not forgotten. By the ones he died to save, And the angels watch over him In the distant land where our darling hero lies.

And it is for us to meet him In the home beyond the skies.

—FATHER, MOTHER, SISTERS AND BROTHER.

MICKEY OPENS AT THE UNIQUE TODAY AND WILL BE SHOWN ALL WEEK

"Mickey," featuring Mable Normand, will be the feature attraction at the Unique this week. It comes to this theatre as a repeat showing, and no doubt will be welcomed by many who were unable to see it when it was presented in the city some time ago. "Mickey" is an excellent picture, it contains pathos, comedy, suspense, and in fact anything that could in any way contribute towards making this feature the most talked of picture of the year. It will be shown four times daily, namely at 2 and 8.30, evenings at 7 and 8.30, prices slightly increased. Matinees, 10 and 15c.; evenings, 15 and 25c.; so please come early and avoid the rush.

LIVED ON 75 CENTS A DAY.

New York, Nov. 3.—Although Mrs. Charlotte V. Ackerman, a widow, left an estate of \$250,000, a report filed with the Surrogate's Court shows that she lived on seventy-five cents a day. Her only cash accounts were for bread, ice and gas, and her food never cost more than seventy-five cents a day.

CHARLES H. STEINWAY DEAD.

New York, Nov. 3.—Charles H. Steinway, president of Steinway and Sons, piano manufacturers, died here last week after a short illness. He was 63 years old.

FULL "MOVIE" REPRODUCTION OF HIS TOUR PRESENTED TO PRINCE BY THE C. P. R.

Montreal, Nov. 3.—The Prince of Wales will at his leisure be able to see scenes in which he figured during his tour through the dominion. A complete moving picture record of his tour has been presented by the C. P. R. to His Royal Highness. Duplicates are being sent to England for public presentation.

MORE ESTIMATES AT OTTAWA; HOUSE MUST KEEP AT WORK

Ottawa, Nov. 3.—A decision by the government to bring down some estimates this session, in all probability makes prorogation of parliament this week impossible. Up to noon today estimates to be tabled will include an amount for the negotiations to be instituted to fix the value of Grand Trunk stocks to be acquired by the government, additional sums to cover the cost of the session owing to its unexpected prolongation and other items.

The senate met this morning, but the Grand Trunk bill was not ready for consideration.

LOAN \$8,000,000 AHEAD OF 1919; IT GOES WELL IN CITY

Toronto, Nov. 3.—The total for Canada in the Victory Loan campaign for the first week has been increased to \$12,416,000 by the figures reported up to noon today. This compares with \$14,851,500 reported for the first week last year. The totals for provinces are: British Columbia—\$4,425,950; Alberta—\$8,192,800; Saskatchewan—\$2,267,060; Manitoba—\$9,510,750; Ontario—\$39,446,800; Quebec—\$77,157,100.

New Brunswick—\$1,245,830; Nova Scotia—\$8,676,000; P. E. I.—\$194,200.

These totals represent five reports from British Columbia, Alberta, Saskatchewan, Manitoba, Nova Scotia and Prince Edward Island. New Brunswick has added in four reports, and Ontario and Quebec six.

LARGE GAINS FOR LABOR IN MUNICIPAL ELECTIONS REPORTED

London, Nov. 3.—(C. A. P.)—Returns of the municipal elections held on Saturday show notable gains for labor candidates. They captured nine out of twelve seats in Westminster, near London. In Wimbledon, labor secured two unopposed seats and beat three independent parties. At Richmond they improved their position, the previous position being twenty-one reformers and fifteen labor. The laborites gained fifteen seats at Liverpool and four out of eight were successful at Portsmouth.

DRUNKENNESS ON WANE.

Great Britain has decreased 85 per cent since 1913, according to official figures made public by the government in the annual Blue Book. The number of convictions throughout the kingdom in the last year is the lowest on record. The remarkable decrease is attributed to the various police forces placed upon the sale of intoxicants, and to the fact that dilute drinks are replacing the stronger ones in such great demand before the war.

BURR-HAMILTON PISTOLS.

Philadelpia, Nov. 3.—The pistols which were used in the famous encounter between Aaron Burr and Alexander Hamilton, in which the latter was slain, are at auction at an auction sale here. The articles were part of the estate of Caesar Rodney, a signer of the Declaration of Independence. Harry B. Hamer, of this city, was the purchaser.

EXCUSE FOR LATE HOURS.

London, Nov. 3.—Because she returned to her duties rather late one evening after peace relations, Sarah Walker, an Ashby-de-la-Zouch domestic servant, was dismissed by her employer.

She was awarded damages in the county court yesterday in London today, for claiming that a little latitude might have been allowed. The girl had to walk four miles to her employer's house.

GOT A FINE MOOSE.

Gordon Nuttall of this city last week bagged a fine big moose near Lepreau where he is now spending a few days. Its antlers spread fifty inches, with fourteen points. The head is now being mounted in the city and has excited much admiration.

NEARLY COMPLETE.

Tomorrow should see the completion of the work which has disorganized street car traffic in Douglas avenue.

Prince in Toronto

Toronto, Nov. 3.—The Prince of Wales arrived in Toronto this morning for his second visit to this city.

A RECORD CATCH.

(Boston Globe.)

One of the largest single trips of fish landed at the South Boston Fish Pier in a long time was recorded today when the steam trawler Walrus warped into the pier with 236,000 pounds of haddock, cod, pollock and other groundfish. She made the big catch on Georges Bank.

The day's receipts aggregated more than 61,000 pounds. Among the arrivals were the schooner Natalie Ham, 24,000 pounds; Genesta, 34,000 pounds; Rebecca, 32,000 pounds; H. L. Marshall, 31,500 pounds; Angie L. Marshall, 40,500 pounds; Mettaconnet, 21,000 pounds; Viking, 20,000 pounds; Reliance, 11,000 pounds; Elizabeth A., 16,000 pounds; Frances S. Gruby, 85,000 pounds. In addition to her catch of groundfish the Rhoda also brought in a big swordfish.

AT THE HOSPITAL.

The condition of James Riley, who was injured on Saturday morning when he fell down the hold of the Royal Mail Steam Packet liner Chalder, is said to be improved at the hospital this afternoon.

You decide me not, afford a Victory bond.

No General Walk-out To Support Steel Strike

Statement Made by Fitzpatrick — Coal Situation Practically Was Unchanged Today

UNABLE TO ISSUE MEAGRE RATIONS

Austrian Government Without Food and Fuel—Communities Demand Autonomy

Vienna, Nov. 3.—(By the Associated Press.)—The Vienna authorities announce that they are unable to issue the meagre seven kilograms (about fifteen pounds) of coal for each household weekly, which was recently promised. Thus the fuel situation grows worse, and the failure of the owners of the forests near Vienna to fulfill their contracts, made long ago, because of the depreciation in the value of the crown, aggravates conditions. The government apparently is helpless.

A sub-committee of the reparations commission is investigating the food and fuel problem for a report to Paris, and the press and people pin their hope on its recommendations.

Efforts to induce the provinces to release food and carry out their agreements are futile. One province has furnished 104 of the supplies agreed upon, while the largest quota is 28.

The food embargo against Vienna is said to be partly connected with the increasing propaganda for extreme autonomy on the part of the national states, particularly the rich provinces of Upper Austria and Tyrol. At Linz, capital of Upper Austria, representatives of the Christian Socialists and Communists yesterday passed a resolution demanding not only virtually complete autonomy for the state, but also for the communities as against the state itself.

THE ARREST OF BARHAM BY THE BOSTON POLICE

(Boston Globe.)

Edgar W. Barham and Edward McGugin, both of St. John, N. B., were arrested this morning in a house in the South End by Special Officers John A. Sullivan and Thomas F. Ryan.

Barham, it is said, escaped from St. John jail, where he was awaiting trial on a charge of larceny from a hardware store. The flight took place six weeks ago and according to the police, McGugin, a law-abiding citizen, was found in the store. The saw was found inside of Barham's cell.

The arrest of two men in this city is considered very clever, for all that Sullivan and Ryan had to work on was a circular which contained the pictures and record of the pair.

This morning Sullivan and Ryan went to the house and after a talk, placed Barham and McGugin under arrest. The authorities at St. John have been notified of the apprehension of the two.

The men gave their names at the house where they lodged as James and Arthur Mackay, but did not represent themselves as brothers or even related. To the special officers they admit their identity.

The police say that McGugin very much resembles the man who held up and attempted to rob a maid on Hampstead road, Jamaica Plain, about a week ago. The woman had a good look at her assailant that night and declared at the station house that she would know the man if she ever saw him again. She gave a good description of him. She has been requested to visit police headquarters to see if she can identify McGugin.

Both prisoners appeared before Judge Bennett in the municipal court charged with being fugitives from justice. The court was notified that both were now being sought by the federal government because of international proceedings. So they were held pending action by the United States court.

SENTENCE OF LONG TO BE IMPOSED TOMORROW

Montpelier, Vermont, Nov. 3.—George A. Long, formerly a convict, has been convicted of murder in the second degree for the death of Mrs. Broadwell, is to be sentenced on Wednesday. The term for that crime is life imprisonment. After the jury's verdict was announced Long maintained his nonchalant air. He was asked for a statement and this was what he said:

"I know nothing about the crime, and if the time ever comes when the guilty party or parties are found out they will know I was telling the truth."

Long declared that an appeal to the Supreme Court would be filed and the next time he would go on the witness stand. He said he let his attorneys settle that point this time, and that they decided not to plead guilty to a crime of which I am not guilty if the sentence was only 10 years. You will hear more about this case now. People who wouldn't talk for fear of getting into court will tell some things and the truth will come out some time.

"I told the truth in that statement when I said that Mrs. Broadwell left the Parker house between 11.30 and 11.45 o'clock. My conscience is clear. The witnesses who testified as they did about me will have more to account for than I have."

NOTABLE LOSS FOR THE REDS REPORTED

Stockholm, Saturday, Nov. 3.—The town of Krasna Gorka, a strong Bolshevik position on the Gulf of Finland, just to the west of the island on which the fortress of Krasna Gorka stands, has capitulated to the forces of General Yudenich, according to a dispatch received here from Royal today.

Copenhagen, Nov. 3.—Reports that the Bolshevik batteries in and around Kronstadt and Krasna Gorka have been silenced by bombardment of Allied warships came from Royal.

New Swimming Record

Hampden, Nov. 3.—(Associated Press.) Norman Ross broke an American and a world's swimming record (open water) on Saturday. He swam 880 yards in 11 minutes, 12-2-3 seconds, breaking the American record of 14-2-5 seconds. He then continued swimming to 1,000 yards, which he did in 12 minutes, 44-3-5 seconds, breaking the world's record by 7-2-5 seconds.

THE PRINCE AND MAYOR OF HAMILTON IN FRONT OF CITY HALL, HAMILTON, ONT.

BY COURTESY OF C.P.R.

BELGIAN QUEEN
TALKS OF GIRLS
AND WOMEN

Her Majesty Approves of
Equal Suffrage

She is Impressed by the
Health and Pleasant En-
vironment in American
Work-rooms — Is Asked
About Fashions.

On Board King Albert's Train in
Pennsylvania, (by the Associated Press)—
Queen Elizabeth of the Belgians ad-
vocates votes for women, but she does not
believe in the equality of the sexes any
more than in employing militant methods
to obtain suffrage. She said so today in
the first interview she has given in Amer-
ica.

War has no terrors for her Majesty
and she felt no fear of German conquest,
but she was as embarrassed as a girl
when asked in English her views on
topics of common interest to all women.
She turned her head aside and the color
flushed her cheeks as she exclaimed:
"What shall I do?" in French to Lieut-
Col. Nolf, her physician, who sat beside
her regarding her with a paternal smile,
half of amusement.

She clung gaily to English, however,
and displayed one of her traits of char-
acter when she quietly, but with obvious
determination, disregarded a suggestion
that she converse in French and let Dr.
Nolf act as interpreter. As the inter-
view proceeded she regained her serenity
and seemed to enjoy it.

"It is like school," she said. "You are
the teacher and I the pupil having my
examination."

Impressed by Rosy Girls.

"You ask if I have gained any impres-
sions from the factories I have visited,"
her Majesty continued with one of her
charming smiles. "I have been very much
impressed with the clean-eyed, red-cheeked
girls I have seen in your work-rooms.
I think their evident happiness is due to
the pure air, the cleanliness and the gen-
erally splendid surroundings. It is my
hope that employers of working people
in Belgium and all over Europe will
model their factories after those in the
United States."

"We have lost so many men in war,"
she added sadly, "that the women must
work, and as women are the mothers of
the race, everything possible should be
done to protect them."

Queen Elizabeth has very definite ideas
on the education of girls, it developed.
She does not believe in the separation of
the sexes in schools, although she advo-
cates emphatically educating girls along
one line and boys along quite another.

"The war taught me," she said, "that
there is no equality of the sexes. My
husband was a soldier and I was a nurse.
So it was with all women. The future
should see work divided along the same
lines. When women are forced to earn
their own living, I have no objection to
their doing that for which they are best
fitted, but those who do not need to work
should learn hygiene and general hospi-
tality work. They should be social workers,
librarians and playground instructors."

Why Women Should Vote.
Her Majesty explained, however, that
lack of equality between the sexes should
not prevent women from voting.
office in the general elections."

"I know they are best qualified to se-
lect school trustees," she said with a nod
of her head, "for they know more about
school affairs, and their intuition will
tell them what men are best qualified for."
Asked how best the women of Amer-
ica could aid in the reconstruction of
Belgium aside from gifts of money, her
Majesty seemed rather puzzled.

"It is difficult to bring about a close
understanding between two peoples who
speak different languages," she responded
after a few moments' hesitation. "One
way would be for we Belgians to learn
English, and you Americans to learn
French."

Is Student of Medicine.

As a means to this end she suggested
exchange of professorships not only in
colleges but in high schools.

Herself a student of medicine and the
daughter of a world-famed oculist, al-
though he was a Bavarian Duke, the
Queen has been fascinated by the hospi-
tals in the United States, and she has
lost no opportunity to visit them. Her
greatest ambition is to have established
in Belgium an institution similar to the
Rockefeller Institution for Medical Re-
search. She has been vastly impressed
with the size of the hospitals she has in-
spected and their complete equipment.
The research laboratories in them have
been a revelation to her.

The Queen looked rather worn, and
she was asked if she were not weary of
traveling.

"No, no; I enjoy it," she responded,
with a winsome smile. "It must be your
climate which keeps me feeling so well."
She confessed that she had been rath-
er bewildered by the great expanse of
America, but explained that she looked
up on the map each day the places she
visited.

Her Majesty wore a gown of yellow
chamoise silk, cut in long and flowing
lines and admitted it was of her own de-
signing.

Fashions for Women.
"What does your Majesty think of the
trend of modern fashions for women?"
she was asked.

"They change so often I can't keep
track of them," was the laughing reply.
"What are they?"

Short skirts came first to mind.

"I do not wear them," she responded
with a shrug of her shoulders. "I am al-
ways behind the procession."

The prediction was made that her pre-
ference for turbans would establish a
new millinery mode in this country, and
the Queen explained why she always
wears close-fitting hats. She originated
the style during the war, when she found
it so convenient to wind a simple piece
of silk around her hair when she visited
the trenches or the hospitals. She has
become so attached to the idea that she
positively refuses to abandon it.

CANADA NEEDS MONEY

War Expenditures Still to Be Met
From Proceeds of Vic-
tory Loan.

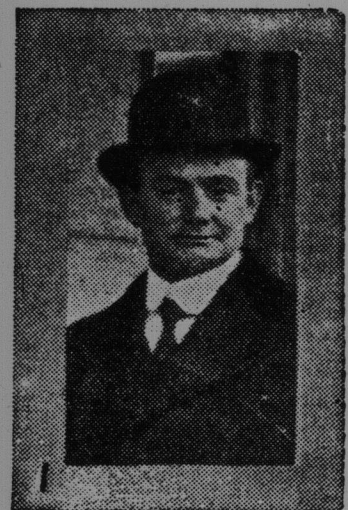

The war is over and won; but Cana-
da's major expenditures in war will not
be complete until well on into
1920. The \$610,000,000 raised last
year has all been spent, \$400,000,000
having been largely devoted to sol-
diers—to maintaining them, bring-
ing them home, providing the neces-
sary medical services, training them.
Most of the balance of the loan was
lent to Great Britain to enable her
to buy our surplus products. And
money is still necessary—for sol-
diers, for providing markets, for our
surplus products, for the needs of
reconstruction. And that is why an-
other Victory Loan is necessary.
Canada still needs money, and needs
it badly.

DEFEATED SIR ADAM.

W. D. Black, Conservative, who was
re-elected by acclamation for Addington
in the Ontario election.

PROMINENT FARMER M. P.

E. C. Drury, who is mentioned as the
possible choice of the U. F. O. as leader
in Ontario. His father was Ontario's
first minister of agriculture.

PERPETUATING THE
SUPPLY OF PULPWOOD

Pulp and Paper Companies Co-
operate With The Commission
of Conservation in Studies of
Tree Growth

(A. D. in Conservation.)

Canada produces annually about \$100,-
000,000 worth of pulp and paper pro-
ducts. During the past ten years, es-
pecially, the industry has made rapid
progress, until it is now one of the most
important in the country. The three
outstanding requisites for the main-
tenance of the industry are large accessible
forest areas, particularly of spruce and
balsam, adequate cheap power, pre-
ferably water-power, and a plentiful
supply of labor. As to the two former, na-
ture has been prodigal in her gifts to
Canada. Water-power is not only abun-
dant but is widely distributed. The vir-
gin coniferous forests of eastern Canada
were of vast extent, and it is perhaps
not entirely surprising that the early
settlers and explorers considered them
to be all but limitless.

But, for at least thirty years, keen
observers have foreseen the possibility
and, indeed, the probability, of exhaust-
ing the natural supply of pulpwood.
The rapid growth of the paper industry has
brought the time within measurable dis-
tance. The larger producers of paper,
particularly in Quebec and northern Ont-
ario, where the industry is mainly cen-
tered, have sensed the danger and have
taken initial steps to put the pulpwood
forests on a permanent basis. It goes
without saying that it is a great advan-
tage to have an adequate supply of pulp-
wood forests at the "back door" of the
mills. Consequently, extensive planting
of cut-over lands has already been un-
dertaken.

What is of at least equal significance
and importance, scientific studies of for-
est conditions are being carried out as
quickly as possible; guesswork is to
cease. Even expert estimates, valuable
as they are in the absence of more exact
data, are to be supplemented by both
extensive and intensive studies of tree
growth, the relations that exist in for-
est stands between different species of
trees, the effect of different methods of
cutting and skidding on the future forest
crop, the range and control of injurious
insects and plant diseases, and the in-
fluence of climate on the reproduction of
forests. Each of these problems has a
vital bearing on reforestation, and only
the lack of trained workers, coupled with
man's faith in his unproved assumptions,
prevented the study of them a genera-
tion ago.

The studies are now being conducted
under joint governmental and private
auspices. Some of the larger pulp com-
panies have entered into a co-operative
arrangement with the Commission of
Conservation to carry on such studies
on their limits, which have been cut over
at various periods, some of them three
or four times. The investigation, which is
under the general supervision of Dr.
C. D. Howe, acting dean of the faculty

A World of
Philosophy in this Packet

"To live well with the world"—

To forget, for a little while, the strain and
rush of business—

To relax the nerves—

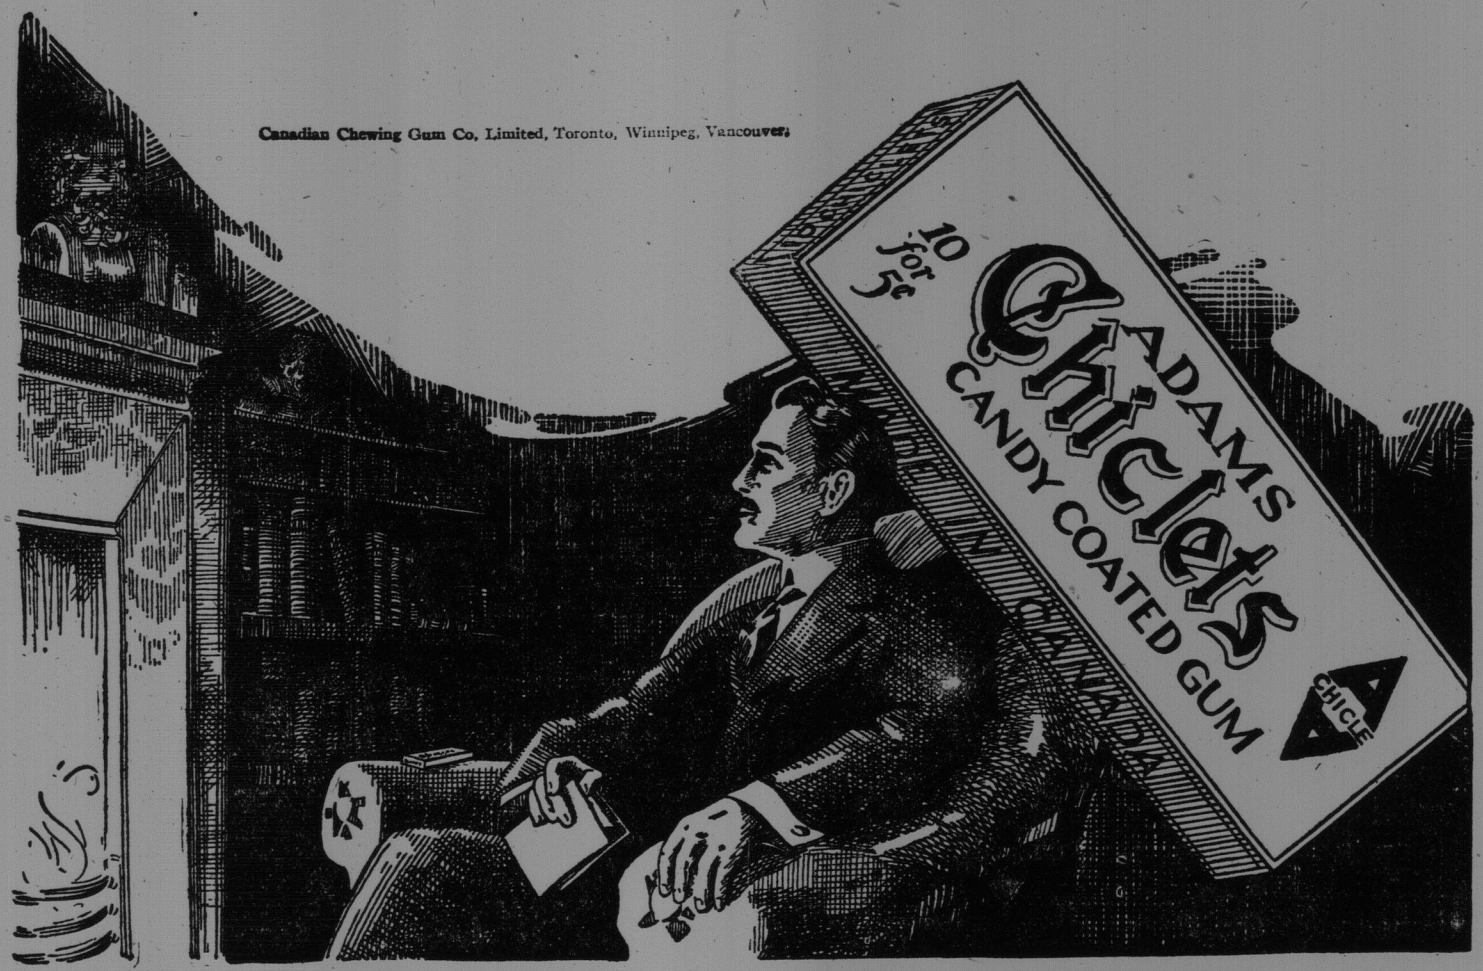

Such is philosophy.

A quiet corner by the fireside, a good
book,—and a packet of dainty, candy-coated
Chiclets.

These "Really Delightful" confections,
with a tingling peppermint flavor, bring
good digestion to the aid of leisure hours;
relieve the tension; give an impetus to clear
thought.

Sold everywhere at ten for 5c. For home
use—the big Week-End box at 25c.

—an Adams product, particularly prepared

Canadian Chewing Gum Co., Limited, Toronto, Winnipeg, Vancouver.

VICTORIOUS IN ONTARIO.

A. M. Rankin, who retained his seat
for Frontenac in the Ontario legislature,
defeating U. F. O. and Independent can-
didates.

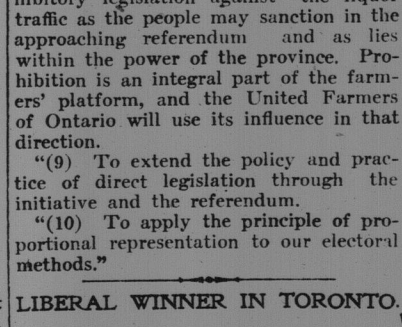

ONTARIO FARMERS' PLATFORM

"(1) To cut out all expenditures that
are not absolutely essential.
"(2) To abolish the system of party
patronage.
"(3) To limit governmental activity
respecting commercial co-operation to
legislation facilitating co-operative effort,
to the keeping of accurate records, and
to general education along co-operative
lines.
"(4) To provide equal educational
opportunities for all the children of all
the people by greatly extending and
improving educational facilities in the
rural districts.
"(5) To substitute for the policy of
expensive provincial highways a policy
of organized continuous road main-
tenance, and of making good roads for all
rather than high-grade roads for a few,
the cost of road construction and main-

tenance being equitably distributed be-
tween city and country.

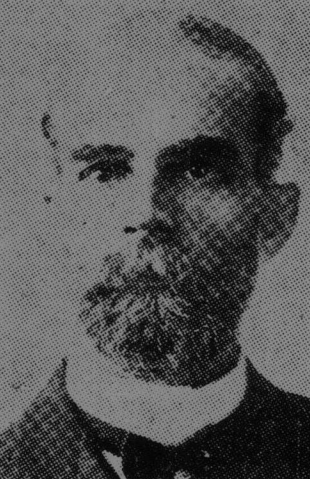

"(6) To promote a system of fore-
stry which will maintain and increase
the public revenues from this source,
protect and perpetuate our forest re-
sources, reforest the waste places of Old
Ontario, and encourage municipalities to en-
gage in forestation enterprises.
"(7) To encourage and maintain
effective public control over it.
"(8) To enact and enforce such pro-
hibitory legislation against the liquor
traffic as the people may sanction in the
approaching referendum, and as lies
within the power of the province. Pro-
hibition is an integral part of the farm-
ers' platform, and the United Farmers
of Ontario will use its influence in that
direction.
"(9) To extend the policy and prac-
tice of direct legislation through the
initiative and the referendum.
"(10) To apply the principle of pro-
portional representation to our electoral
methods."

LIBERAL WINNER IN TORONTO.

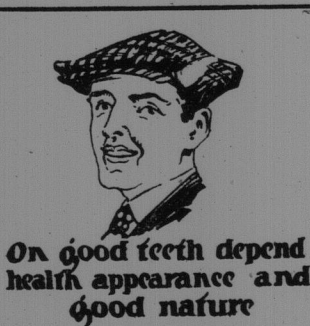

John O'Neil, one of the five Liberals
elected to a seat in "Tory Toronto." He
won seat "B" in the South East Divi-
sion.

little as \$1.25 a week by means of our special easy payment
offer. Come in and get full particulars.

Amherst Pianos, Limited
7 MARKET SQUARE

THE PRINCE VIEWING THE CROWD FROM THE MAYOR'S CAR, PORTAGE LA PRINCE

TO AID WORK OF PROTESTANT ORPHANS' HOME

S. E. Elkin, M. P., Chairman of Citizens' Auxiliary Organized on Sunday Afternoon

A citizen's auxiliary committee in support of the work being carried on by the Protestant Orphans' Home, Britannia street, and in West End, was organized in the lobby suite of Imperial Theatre yesterday afternoon. Dr. Thomas Walker, president, before rising the new body appointed committees and discussed plans for the prompt prosecution of extending the orphanage work in hand and even went so far as to contemplate the not distant future, when a brand new and modern institution—along lines as found in up-to-date communities—will be erected in this province to care for parentless little ones of the Protestant faith.

While the meeting assembled only as a citizen's body, it was a quite full representation of the various fraternal societies as well as others not so identified. Free Masons, Knights of Pythias, the Orange order, Sons of England, Prentice Boys, Oddfellows, Clan MacKenzie, St. Andrew's Society, St. George's Society, the Newfoundland Society and the Orphanage directors were all represented. Those present were:

Dr. Thomas Walker, Judge J. G. Forbes, W. Shives Fisher, T. H. Estabrooks, R. W. Wignmore, M.P., Stanley E. Elkin, M.P., H. E. Rankine, J. King Kelly, T. H. Carter, Joseph Likely, Rev. Dr. Heine, F. A. Kinnear, David Hipwell, Jos. A. Murdoch, William Wat-son, Chas. F. Jones, Cecil Mitchell, W. H. Golding, Wm. A. Campbell, Robert Wills, William A. Sanderson, Clifford Price, Oriel Duffy, Benjamin L. Shepard, Richard C. Thomas, Isaac Mercer, Charles Ledford and C. W. Till.

T. H. Estabrooks, president of the orphanage directors, explained that the west side building would be ready for occupation soon and would accommodate 100 children. The first year's budget of \$18,000, he said, was based on a combined tenancy of eighty-five children, with all expenses paid for both houses, including the new work. The west side scheme was not necessarily permanent, the lease being for five years and before that time a broader scheme must be launched, providing for erection of a larger building. The resolution forming the auxiliary was then passed. Officers were elected as follows:

President—Stanley E. Elkin, M. P. Vice-president—William M. Campbell.

Secretary—Walter H. Golding. Executive committee—T. H. Carter, Robert Wills, Charles T. Jones, Dr. Thomas Walker, Isaac Mercer, William Sanderson, J. E. Rankine, Jos. A. Murdoch, Frank A. Kinnear and Francis F. Burpee, being a composite body of fraternal society representatives, though acting unofficially as private citizens.

W. H. Golding briefly explained the plan of campaign now in hand in building up an annual subscription list and made additional suggestions. He said the directors of the orphanage was meeting with much encouragement on all sides in branching out into a second building and that the following few weeks would doubtless see funds flowing in freely to Treasurer H. C. Rankine. He would beg for helpful suggestions from well-wishing organizations desiring to co-operate. Mrs. David McLellan, in charge of the furnishing's committee for the new building, is also pleased to communicate with intending helpers and donors. She is at the Clifton.

ITALIANS ADOPT WOMAN SUFFRAGE

Owing to Register Difficulties, Measure is Not Applicable to Elections Yet

Rome, Nov. 3.—The Italian chamber has accepted by a majority of 119 in a secret vote a bill for conferring upon women the same electoral rights at both political and municipal elections as those enjoyed by men, and the senate has approved the decision of the chamber. Thus, woman suffrage has been adopted in Italy, with, however, the proviso that it is not to come into operation in political elections until the next dissolution of one, that is to say, in, at most, five years time. This limitation is only due to the practical difficulty of preparing a new register, containing some 11,000,000 of women voters, in time for the next general election, which is to be held in November.

Your dollar may be the last straw that sweeps the Victory Loan over the top. Would you take the chance making it a failure?

ROBERT J. C. STEAD NOTED CANADIAN AUTHOR

His Visit to Moncton—Immigration Matters—Future of Farming in Maritime Provinces

(Moncton Transcript.)

One of Canada's distinguished authors was in the city on Thursday in the person of Robert J. C. Stead, director of publicity, department of immigration and colonization at Ottawa. Mr. Stead is apart altogether from his official position, well known as a Canadian novelist and poet. He is the author of several Canadian novels and his last novel, "The Cow-Puncher" giving a vivid picture, as the name implies, of western life in Canada, has already had a sale in Canada alone of 17,000 copies. He is also called "The poet of the prairies," and has written poetry, revealing the soul of life in the prairies as few other Canadians have done. No fewer than 5,000 copies of his book of poems entitled "Kitchener and Other Poems" have been already sold in Canada. Mr. Stead was one of the dominion government officials who accompanied the American editors in their recent tour through the Canadian north-west.

During a short period of leisure yesterday Mr. Stead visited various institutions of interest in Moncton, including one of the large churches, and the Aberdeen school and incidentally expressed the opinion that Moncton was the one town in the maritime provinces which had all the manifestations of a progressive western community. It seems to be so distinct from other maritime province cities that he could not help being impressed with the fact.

Mr. Stead also called upon F. W. Summers, agent-general in England for New Brunswick, and discussed with him some matters affecting immigration and its promotion so far as it affects this province. Mr. Stead has also been visiting Nova Scotia and while in Halifax gave to the Chronicle an interview respecting his impressions as to the farming future of that province. In the course of that interview, he said:

"With the high prices for farm lands in the United States prevailing and in view of the fact that farm lands in western Canada have been rapidly going up in price and that the free lands in the west are practically exhausted, it seems inevitable that there will be a movement of United States farmers to the maritime provinces," he said.

"You may not know that, for instance, farm lands in Iowa have risen to \$400 and even \$500 per acre. The prime reason for the high values of farm lands in the United States is the density of population rather than any intrinsic value in the lands; and it is not the intrinsic value of the farm land in eastern Canada that would favor a movement of emigration of farmers from the United States to the maritime provinces; but simply that a movement to somewhere must occur, and that the best possibilities are in eastern, rather than in western Canada.

"In the natural course of events," Mr. Stead explained, "people on the lookout for farm land will look in unexpected directions; and that is the chief reason why I am here in Nova Scotia—to investigate the nature and possibilities of the land for larger agricultural scope. I shall make a similar investigation in New Brunswick and Prince Edward Island; and though I am leaving this province tomorrow morning, I hope shortly to pay an extended visit and complete my investigation."

The Transcript understands that Mr. Stead, who left yesterday, will pay another visit to this community and vicinity at no distant date.

EXCEEDED EXPECTATIONS

The fair conducted in Orange Hall, Germain street, in aid of the Protestant Orphans' Home in Wright street, was brought to a close on Saturday night. The attendance was very large and the promoters realized almost double the amount they set out to get. The results of the various contests were as follows: C. A. Blair came the nearest in guessing the number of yards of cord in a bottle and received a handsome hat. The guess on the bean bottle was won by G. O. Akery, who got an umbrella. Mrs. Francis Kerr won the ladies' bean toss, a handsome bag. James Moore won the men's prize, a barrel of flour. In the first lottery, Thomas Horsman won an electric iron, holding ticket No. 588. The second lottery, a rocking chair, was won by J. S. Henderson, No. 1376. The third was won by No. 685, H. C. Lawton, a pickled teakettle. Mrs. F. E. Brown won the fourth lottery, a hand bag, with ticket 512. The fifth was won by Mrs. Covey, pair of slippers, No. 373. W. A. McNely got a bag of flour in the sixth lottery, with ticket No. 1,435.

TURTLE AN OLD SETTLER

Christiana, Pa., Nov. 3.—Charles P. Sweiter, finding a large turtle that appeared very old, found carved on the breast of its shell, "J. H. Homsher, 1840." Mr. Homsher, who was for many years a prominent citizen of lower Lancaster county, died years ago.

Daughters of Canada

The mother, the nurse, the women with the needle, the ambulance driver, the canteen worker, the "farmerette" and the daughters of industry in factory, office and store—all inspired the manhood and ennobled the womanhood of Canada by their labours of love and sacrifice in the days of the nation's anguish—now happily past.

And their response, to give and to lend of their money time and time again—was beyond all praise.

And—Canada—being mindful of their past example—and conscious of their all-pervading influence again asks her Countrywomen to buy Victory Bonds. Yes, she asks them to buy them, even

at the sacrifice of some cherished longed-for purchase.

It is self denial to do without something that will lend background to ones charm, but the time is not long and the debts of honour must be paid.

There is another thought, too, that wives and mothers will appreciate. The success of the Victory Loan makes for Prosperity. Steady employment is dependent upon prosperity. Without prosperity uncertainty will follow.

Hence Canada sounds a clarion call to her daughters for their aid in making an abundant success of the Victory Loan 1919.

Buy Victory Bonds

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

CARDINAL MERCIER SAILS FOR HOME, RECEPTION OF PRIMATE IN QUEBEC

Quebec, Nov. 2.—His Eminence Cardinal Mercier, primate of Belgium, and one of the most heroic figures of the war, was the guest of the city of Quebec from early Saturday morning until he left this evening on board the steamer Megantic to return to Belgium. The entire city was gaily bedecked with flags, the papal colors predominating, in honor of the distinguished visitor, and as he arrived at the Union Station at 6.30 Saturday morning, he was met by Mgr. Roy, auxiliary bishop of Quebec, Mayor Lavigne and other officials by whom he was escorted to the cardinal's palace.

He officiated at pontifical high mass at the basilica Saturday morning, the feast of All Saints, and at the conclusion of the solemn service addresses of welcome were presented him by Canon LeBlanc, pastor of the Basilica and by His Eminence Cardinal Beugin, Archbishop of Quebec. The church was crowded with people who followed with deep attention the reply of Cardinal Mercier to the greetings of the clergy of Quebec.

At four o'clock on Saturday afternoon an official reception by the province and city of Quebec was extended to the distinguished prelate at the legislative buildings. On Saturday evening a reception in honor of the Cardinal was held at Laval University and this afternoon he attended a religious ceremony in St. Sauveur church where he addressed a congregation of laborers.

Touching on labor unrest which had been referred to in Mayor Lavigne's address, Cardinal Mercier said that the situation was practically the same in all countries. The Belgian workmen had done nobly during the war and had endured deportation cheerfully rather than work for the enemy. They had hoped, however, that immediately the armistice was signed they would be able to secure employment and high wages but it was found that the Germans had destroyed all means of individual labor and there was much disappointment. There, as here, Bolsheviks and radical socialists exploited the people and the unrest became very intense, so much so, that there was no assurance with regard to the future. "We are not in this world to sleep," said Cardinal Mercier, "we must be up and doing and must meet all trials and battles even in times of peace."

Referring to the damages caused to universities and cathedrals in Belgium, Cardinal Mercier declared: "They burned Louvain, they shelled Malines," he said with spirit, "but we shall rebuild. I leave for Belgium with a new motto: 'We shall rebuild.' We shall build materially and endeavor to build morally as well."

BURIED ON SUNDAY

The funeral of Mrs. Sabra Coleman took place yesterday afternoon at 3.30 from the residence of her daughter, 1 High street. The service was conducted by the Rev. J. C. B. Appel. Nephews acted as pall bearers. The floral tributes were very beautiful and numerous. Interment was made in Cedar Hill cemetery.

STRONG SUPPORT
FROM MEMBERS
OF PARLIAMENT

New Brunswick Representatives in Ottawa Pledge Assistance to G. W. V. A. in Campaign Against Appointment of Outside Officers.

The Great War Veterans' Association has entered a strong protest against the appointment of Lieut.-Colonel Sparling to the staff of Military District No. 7 and the appointment of Lieut.-Colonel Brown, formerly commander of the 29th New Brunswick Battalion in his place has been urged. Communications setting forth the views of the members of the association had been forwarded to the New Brunswick representatives in the house of commons. Replies have been received as follows:

From R. W. Wignmore, M. P.: "I have duly received your wire of 27th inst. protesting against the appointment of Lieut.-Colonel Sparling to the staff of Military District No. 7. I will take this matter up at once and see what I can do in the matter. I have been protesting against the practice that has been in vogue, in the appointment of outside men to the staff of the St. John district, for the last years with some results, as in some cases where I protested the conditions were changed. You can rest assured that I will attend to this promptly, and will put the case up just as strongly as I can. I will let you know just as soon as I can get any definite information from the department as to what they intend to do."

From H. F. McLeod, M. P.: "I have your telegram in regard to the case of Lieut.-Colonel Sparling, and I shall do what I can to prevent any other officers being brought from outside the province to fill positions that can be as well filled by officers of our own. I, especially, have a warm feeling for Lieut.-Colonel Brown, who served under me for some months, and for whom I have the very highest regard. The whole principle of bringing officers from other provinces to our province is wrong, and I trust we shall be able to successfully combat it."

From A. B. Cope, M. P.: "Your telegram of 27th inst. re appointment of general staff officer M. D. No. 7, St. John (N. B.), received. In reply I beg to say that I have taken this matter up with the minister of militia and defence, strongly placing before him your protests and at the same time insisting that

N. B. officers be given proper consideration when positions are to be filled in that province."

From O. Turgeon, M. P.: "I have duly received your telegram of the 27th inst. protesting against the appointment of Lieut.-Colonel Sparling as general staff officer M. D. No. 7 and recommending that an officer of New Brunswick be placed instead. Your request is receiving my attention and in a couple of days, I hope that I will be able to let you know what success we may possibly get."

From Pius Michaud, M. P.: "You can feel assured that the recommendation of the Vets will be gladly supported by me. They know what they want best and surely they should be entitled to have their views carried out."

From W. S. Loggie, M. P.: "In reply I will consult with Mr. Wignmore, and act along the lines suggested by you as far as is consistent with my present position."

WANT CHURCHES IN
INDUSTRIAL MEETING

National Bodies Send Message to Wilson—Ask That Protestants and Catholics be Appointed Members of Conference.

New York, Nov. 2.—President Wilson has been asked by the Interchurch World Movement of North America to include representatives of the Protestant and Catholic churches in the personnel of the new industrial conference which he is about to appoint. The following message, signed by Charles S. MacFarland, general secretary of the Federal Council of Churches of Christ in America, and S. East Taylor, general secretary of the Interchurch World Movement, was sent to the president:

"We urge respectfully and most earnestly that you include in the personnel of the new industrial conference or commission which you are about to appoint, representatives of the Protestant and Catholic churches, men who command public confidence, who have had extended experience in social work and practical economics, and who will accentuate in the conference the ethical point of view."

"The great issue in the impending industrial crisis is a moral one, and in your endeavors to arrive at a solution of the problems on a national basis, constructive and practical. Both Protestant and Catholic churches have been dealing with industrial problems on a comprehensive, organized basis for months, and they have gathered valuable data and have men well equipped and well trained that are all at your command."

"The viewpoint of the Church is at once national and unselfish, and we submit that it may be made of greatest service in the present emergency."

THE BUSINESS COLUMN.

(Continued from page 7.)

mit we were not as cocksure about it as we would have been about a sale of women's fur coats. The latter case had been tried before; it was an institution, and then, too, women had the bargain instinct more keenly developed than men."

"We went ahead. The first advertisement was run a day ahead of the big one giving the details. It simply carried the word."

ON SATURDAY, before leaving Montreal, the Prince of Wales paid an informal visit to the Canadian Pacific head offices in Windsor street station. With characteristic consideration, his royal highness desired to convey in person to Lord Shaughnessy, the chairman of the company, and to E. W. Beatty, the president, his appreciation of the attention paid by the C. P. R. to the comfort of himself and his staff during their two months' travel through Canada on the royal train which the Canadian Pacific had provided. The prince was accompanied by Admiral Halsey.

As early as 9.30 worshippers began to gather at the Cathedral gates but up to 10.45 only seat holders were admitted through the side doors. The church was packed, many people having to stand in the transept and many were unable to gain admittance.

Bishop Farthing preached the sermon which dealt with the inter-church forward movement which the Anglican church is about to launch.

LAST PUBLIC
APPEARANCE OF
H. R. H. IN CANADA

Prince Attends Christ Church Cathedral, Montreal, When Bishop Farthing is Speaker.

Montreal, Nov. 2.—The last public appearance of the Prince of Wales save at the railway station on leaving the city, was at divine service at Christ Church Cathedral here this morning. The prince and his suite, including Major-General Sir H. E. Bustall, Commander Newport and Lord Claude Hamilton, were met at the porch of the church by a procession of clergy in which were Bishop Farthing, Rev. Dr. Symonds, the vicar, the Ven. Archdeacon Norton, the rector, Rev. Dean Evans, Rev. H. Fricker and Chancellor Davidson. The pew in which the royal party sat was covered by a royal standard.

Bishop Farthing preached the sermon which dealt with the inter-church forward movement which the Anglican church is about to launch.

As early as 9.30 worshippers began to gather at the Cathedral gates but up to 10.45 only seat holders were admitted through the side doors. The church was packed, many people having to stand in the transept and many were unable to gain admittance.

PRUDENTIAL CO.
RELINQUISHES
TRUST FUNDS

Money Deposited With That Company For Construction of Valley Railway Will be Turned Over to Trustee to be Named by Provincial Government.

Hon. W. E. Foster, the provincial premier, and W. P. Jones, K.C., president of the St. John & Quebec Railway Company, had an interview in Montreal recently with officials of the Prudential Trust Company in regard to the balance of trust money deposited with that company in 1912 for the construction of the Valley railway. Since the present government came into office it has succeeded in obtaining something more than \$250,000 from the Trust company, and now about \$400,000 still is in their hands. The money was to be paid out to the railway company as the work of construction proceeded.

With respect to 170 miles of railway, being approximately \$22,500 per mile, only 188 miles have been built and the Trust company claim the right to retain in its hands approximately \$280,000 until the remaining twelve miles are constructed. The company also claims the right to retain \$120,000 and set off the amount against the balance of the loan it made in 1912 to A. R. Gould and others, for which it holds notes of the railway company and practically all the shares and stock in the railway company as security.

There is also a provision in the trust mortgage that the railway company shall pay to the Trust company \$42,500 per year, for forty years beginning in 1921, to constitute a sinking fund for the redemption of the railway bonds. In view of the fact that much difficulty

To Help Nature Shed
a Bad Complexion

Beauty devotees are enthusiastic over the beautifying qualities of mercialized wax. Nothing discovered within recent years accomplishes so much, so quickly, without harm, at such small expense. The principal reason for its wonderful merit is that it works in harmony with physiological laws. Instead of hiding complexion defects, it removes them. It actually takes off the aged, faded, sallow, freckled or blotchy surface skin—gently, gradually, causing no inconvenience. It is Nature's way of renewing complexions. When the natural process is retarded because of deficient circulation or nerve tone, mercialized wax comes to the rescue and hastens the skin shedding. The new complexion which appears is a natural one, youthful, healthy, exquisitely beautiful. If you've never tried mercialized wax, get an ounce of it at the drug store, use at night like cold cream, washing it off in the morning.

DEATH FROM SPLINTER.

London, Nov. 3.—Mrs. Phoebe Barrett, aged thirty-five, of Dudley, has just died in a hospital there from tetanus, caused by a splinter. The splinter stuck in her right hand while she was sweeping with a broom. Relatives announce that the manufacturer who made the broom and the dealer who sold it will be sued.

LIGHTNING'S FREAK.

London, Nov. 3.—At an inquest into the death of Percival Simpson, who was killed by lightning while standing under a tree, it developed that there was an exact impression of the tree on the man's stomach.

Is Canada Weary
of Party Politics?

THE recent election in Ontario demonstrated the rather astonishing disintegration of the old party spirit in Canada. Voters deserted from the ranks of the two old parties in such numbers that the calculations of politicians were sadly confounded and governing power shifted to a class.

Previous to the election, the press in all parts of the country was commenting on the general lack of interest in politics and the failure of the old party slogans. Does it mean that Canadians are tired of the ancient game of the "Ins" and the "Outs"? That henceforth issues will be regarded as greater than parties?

MACLEAN'S MAGAZINE has made a careful toll of the press of Canada on this intensely interesting subject and presents a summary of what is being said in succinct form under the heading, "Is Canada Weary of Party Politics?" It is shown that the old ties, in some sections at least, have loosened and that the thinking man is going to vote according to the issues as they arise instead of following the straight furrow of one party. Some of the reasons for this change, as gleaned from the press, are set forth.

Every month MACLEAN'S selects the most important Canadian problem that is being discussed in the press and gives a careful summary of the best opinion, with brief comment thereon. This material, which runs under the department heading of "This Month's Vital Question," makes very interesting reading indeed, summarizing as it does the opinion of Canada from coast to coast on the important and pressing problems of the moment.

Ralph Connor on
"The New Canada and Its Needs"

Ralph Connor, the famous Canadian novelist, who served for several years at the front and saw the war from many angles, is convinced that Canada must be prepared to make important changes if she is to profit by the lessons of the war. He has written a series of articles embodying his views. The articles were written for MACLEAN'S MAGAZINE and the first appears in the November issue, under the title: "The New Canada and Its Needs."

"The Idle Hands at Ottawa"

By J. K. Munro
The recent session of the Dominion House was in many respects an idle one. There was not a great deal done, so the members had a lot of time to stir up things, and the result was some hugely interesting political situations, all of which J. K. Munro tells about in his usual unsparing and tersely humorous way.

Other Features of November MacLean's

Lemonade from "Well."
A Wichita, Kan., druggist recently doubled his sales on lemonade by having a stonecutter make a top of sandstone which he placed on a section of his counter. Beneath this he placed a stone jug in a box lined with ice. A sign, reading "Ice-cold lemonade direct from the old stone well," completed the arrangement.
Each person who secured a check drew his own dipper of ice-cold lemonade from the stone well, which, after a few days' advertising, was thronged all day long.

Cobb, Runyon and Macbeth Get
Big Game—Guests of H. C.
Grout at Final Event of Delight-
ful Stay

Delighted with their week's sojourn in the New Brunswick woods and with two moose and three deer to their credit, Irvin S. Cobb of the Saturday Evening Post, Damon Runyon of the New York American, and William Macbeth, assistant sporting editor of the New York Tribune, started for home on Saturday night. After a hike of eighteen miles through the woods they went by auto to Fredericton and from there took the train via Fredericton Junction. From the junction to McAdam Junction they were the guests of H. C. Grout, general superintendent of the C. P. R., in his private car. Joe Page, baseball writer, also met the party at Fredericton Junction and accompanied them as far as McAdam.

When asked how the party had enjoyed themselves, Mr. Macbeth said that they had the best time of their lives. "We had great luck, we brought down two moose and three deer. Macbeth got a moose and a deer; I got a moose and Cobb got two deer." They left St. John on the previous Saturday and went into the woods on Monday, accompanied by Harry Allen, president of the New Brunswick Guides' Association, and "Moose" Allen, another guide, and camped about eighteen miles behind Peniac. Mr. Macbeth and Colonel Bulger went to Clear Creek camp and the other two went to Cedar Spruce camp within a short distance of the others. Colonel Bulger left on Thursday but the other three carried on until Saturday morning. "We had a great time getting those two moose," said Mr. Macbeth. "Moose Allen went out on Friday morning and

started to call and I went with him. He said he was sure there was a moose around, but after he had called for about twenty minutes I got fed-up and we started back to camp. Moose and I went out again in the afternoon. He called and soon we heard the rustle, and out came a bull moose and a cow. They were a long way off but I tried a pot at the bull and missed him. We went back, disgusted, but later Runyon, Moose and I went after them again. This time two bulls broke cover and one of them came straight on for me. I got him cold. The other started off but Runyon nailed him shortly after I got mine. My moose has a spread of about forty-five inches. I think Runyon's is a little less."

Just at this time the train pulled in and Mr. Grout who, although he had just arrived from Montreal that day, had hurried out in his private car to meet the writers, advanced and escorted them aboard his car. Here an excellent dinner was served and the three journalists kept everybody in laughter recounting stories of their experiences and making witticisms at the expense of each other.

Mr. Macbeth described the eighteen mile hike from the camp saying that they broke camp at 6 o'clock that morning and were in Peniac at 12.04 although Mr. Allen had given them two more hours to do it in. "Cobb fell into a stream on the way and went right in to his neck," said Mr. Macbeth. "We had some time getting him out. Then he went to work and sprained a ligament in his leg, so it's a wonder we are here at all."

"I would have given a lot to see Cobb in that stream," remarked Damon Runyon. Mr. Cobb weighs about 200 pounds and is quite rotund.

Mr. Cobb, when asked how he had made out, said that he got two deer. "The moose of course were a great opportunity for the indifferent shot but we finer shots went after the deer," he explained, as his reason for not obtaining one.

"I have never been to your province before this trip but I certainly intend coming back here again. Runyon and I, and Macbeth, too, if he can manage it, are coming back here to do some trapping and bear hunting and we expect to make it a three month's trip," said Mr. Cobb. "I think you have one of the

finest countries that God ever made. Great game, for although I had heard the story of the man who asked another fellow to come up and shoot a moose that was eating his apples, I never believed it until I saw how plentiful they really are."

"The attractions of the wilds are numerous," remarked Irvin Cobb, after dinner, "but civilization in the form of a white tablecloth, oysters, and excellent roast beef is very tempting." The other guests agreed with him and expressed their appreciation of the hospitality of the C. P. R. all through the trip and of Mr. Grout's kindness in this particular instance.

"This little ride down in your car, and the excellent dinner we had is a fitting climax to a glorious week," exclaimed Mr. Cobb, "and we leave with very kindly feelings towards New Brunswick, a new insight into your country and a fervent hope that we may be able to return next year." The members of the party also paid a very high tribute to Allan Seymour, general tourist agent of the C. P. R., who they said, did everything in his power to make their stay in Canada a pleasant one. "And he certainly succeeded," said Damon Runyon. The transportation of their kit and rifles was looked after by the C. P. R. who are also superintending the transportation of their game which will be forwarded to them so soon as certain technicalities of the law can be arranged.

116 LIVING DESCENDANTS.
London, Nov. 2.—John Manning, of Northamptonshire, who has just celebrated his nineteenth birthday, has had 139 descendants, of whom 116 are now living. His married life started at the age of seventeen years and lasted sixty-nine years. His present occupation is that of housekeeper for one of his sons.

CROSSED SEA 20,000 TIMES.
London, Nov. 3.—Captain T. G. Clay, of the London and Northwestern Railway Irish Steam Packet Service, who has just died, crossed the Irish Sea no fewer than 20,000 times.

SHIP IN TROUBLE

Halifax, N. S., Nov. 2.—A wireless message from Cape Race states that the steamer Avondale is in difficulties in latitude 44-20 north, longitude 42-25 west. Her engines were broken down and a heavy northwest gale was blowing with heavy seas running. The message added that assistance might be needed. The Avondale belongs to the American Shipping Board. She is an oil tanker, and is on her way from Portland to New York in ballast. It is believed she will be able to proceed.

Y. M. C. A. Indoor Events

The indoor weekly athletic events got under way in the Y. M. C. A. among the boys' classes last week, when the fifty yards was run off and some very good times were hit.

In the high school section, Pattison proved the fastest man, getting credit for 6-4-5 seconds, with I. Ryder, F. Fritz, W. Curran and J. Wilson all tie at 7 seconds.

In the junior "B" class several boys tied at 8 seconds, K. Plimpton, A. F. Finley, C. MacKay, Corbett, N. Smith, H. Humphrey, D. McLaughlin and M. Belding getting credit for this "time."

The junior employed boys scored up well in their sprints, G. Fitzpatrick being given credit for 7-1-5, with L. McKeith, B. H. H. R. Lawson, E. Innis and A. Dalton all getting credit for 7-3-5.

In the junior "A" class, a big squad took part with the following results: 1st R. Connell and R. Ward, tie, time 7-3-5 seconds; 2nd, R. Cummings, L. Stratton, H. Armstrong, time, 7-4-8 seconds.

The intermediate and senior athletic programme is being decided this week, with the aim of starting the regular weekly events next Thursday and Friday evenings, respectively.

Members of Fairville L. O. L. No. 7, attended service in the Fairville Baptist church yesterday in celebration of Guy Fawkes Day. Rev. A. S. Bishop spoke on the activities and aims of the Orange Order. About 250 Orangemen marched to the church.

WEST SIDE FAIR

The attendance at the Protestant Orphan fair, conducted by the "Prentice Boys in West St. John, on Saturday evening was the largest of any night so far. There were three door prizes; the first, half barrel of flour, was won by ticket No. 4512, held by Mrs. Margaret Thompson; No. 3284 took the third prize, a nickel teakettle. E. Brown won the ten pins prize, a reading lamp. Bean bag, first prize; fancy clock, was taken by R. Campbell; second prize, a pair of gloves, by T. Macaulay. Excelsior, a clock, was won by J. Cook. A shaving outfit, the prize for air gun, was won by A. Campbell. Devil-among-the-tailors, was won by Mrs. MacFarland, half dozen fruit knives. The flood-gates, first prize, went to F. Campbell, a cut glass water set; second prize, a catcher's mitt, went to H. C. Jeffrey. D. Foshay captured a clock, the bugatelle prize. Ladies' ring toss, a silver pickle dish, was won by Mrs. Perry. Mrs. Geary won the ladies' bean bag prize, a casserole. The ladies' hoop toss was won by Mrs. Currie, who received a fancy pin cushion.

WAITERS AND TIPS.

London, Nov. 3.—Training waiters is one of the schemes of the British and Allied Waiters, Chefs and Hotel Employees Union. One of the speakers said waiting was a skilled trade. It is proposed to initiate the apprenticeship system, thereby improving the service and reducing competition. Demands to be placed before the employers include: minimum wage; public daily menu for the staffs; pay for overtime; extra pay for Sundays and holidays. The association has a membership of 17,000.

WANTS ROLLING PULPITS.

Burlington, N. J., Nov. 3.—The Right Rev. Paul Matthews, Episcopal Bishop of New Jersey, is sponsor for a plan to teach the gospel in out of the way localities by means of "rolling pulpits." He has asked for an appropriation of \$8,400 with which to buy an automobile truck fully equipped as a rolling pulpit, with living quarters for the clergyman.

Luxurious Furs

Furs, as no other article of dress, possess the power to convey that subtle impression of quiet opulence which is the rightful prerogative of a charming personality.

The assortments shown here are the finest and most exclusive in the city, but because our manufacturing and buying facilities are so great you will find the

Prices Eminently Reasonable.

Hudson Seal Coats	\$325.00 to \$650.00
Electric Seal Coats	185.00 to 300.00
Muskrat Coats	145.00 to 300.00
Black Pony Coats	145.00 to 250.00
Marmot Coats	100.00 to 195.00

We are also showing many exclusive models in other Fur Coats at attractive prices. Our lines of small furs are now complete.

Sidelights On Sport

Every now and then something arises
which brings home to the people of St.
John the crying need of an up-to-date
athletic field. It was a shame to see
the boys in the Interscholastic League
have to founder around in the mud and
water on the Shamrock grounds on Sat-
urday afternoon.

"Stranger" Lewis and Joe Stetcher are
to meet on the mat in Madison Square
Garden, New York, this evening. The
only hold that is to be barred is the
strangle. George Bothner, a veteran
wrestler, will be referee.

There is a report that Jack Dempsey

Game Was Postponed.
The soccer game on the East End
grounds Saturday was postponed on ac-
count of weather conditions. The G.
W. V. A. and East End clubs will meet
next Saturday.

A meeting of soccer followers will be
held tonight, when a league probably
will be formed, and a schedule drawn
up.

McGill Defeats Toronto.
The Rugby team of McGill defeated a
team representing the University of
Toronto on the latter's gridiron Saturday
16 to 3. It is estimated that 10,000 peo-
ple were in attendance.

Hamilton Wins.
The Hamilton Tigers defeated the
Argonauts of Toronto Saturday, 9 to 6.
Montreal Defeats Ottawa.
Montreal defeated Ottawa on Satur-
day 13 to 6 and earned a right to play
off with Hamilton for the interprovincial
rugby union.

"ZEPPEPS" MADE HIM STEAL.
London, Nov. 3.—The novel plea that
nervousness occasioned by the Zeppelin
and airplane raids on England during
the war had caused him to steal was
entered by counsel for Alfred Harpham,
a Midland railway goods foreman. "My
client has never been since the narrow
gauges he had in three bombing
raids," the solicitor declared. The
magistrate reserved decision in the case.

FOOTBALL MATCH
LIKE WATER POLO

Saturdays 'Contest on Shamrock
Grounds—The Player Who
Could Swim Best Had Best
Chance

Through two long, sloppy, slippery
periods the St. John High School and Roth-
say Collegiate football teams splashed
their way on Saturday afternoon, neither
side being able to dock the piskin in
the port of their adversaries.

It was a reopening of the submarine
warfare of war days and the battle took
place in the Shamrock ocean in the
North End. Several of the contestants
narrowly escaped drowning. Uniform
colors went early in the game and per-
sonal features became so obliterated that
it was only by the direction in which a
man was traveling that it could be de-
termined whether he was friend or
enemy. The natural camouflage was
wonderful.

The local forward fleet outclassed
Rothsay in weight and tenacity but the
visitors again demonstrated better com-
bination work among the mosquito fleet
of backs. The lineup was as follows:
St. John High: Rothsay Collegiate.

Turner Creamer
Halfbacks.
Knight Teed
Gosnell, Capt. Douglas
Fraser Skinner
Hutchinson Seammell
Quarterbacks.
Robinson Creamer, Capt.
Tansley Kitchen
F. Williamson Gibson
Forwards.
W. Williams Tufts
McJannet Taylor
Ellison Black
Atkinson McPhail
Dalton M. Stevens
Johnson Bostwick
Jennings Petrick
Subs—St. John High: Thompson,
Lowe and Tansman. Rothsay: Ber-
nell, J. Longley.
Captain D. C. Malcolm refereed in an
impartial manner greatly to the satisfac-
tion of all concerned.

The editor was not quite sure whether
to put this story under the heading of
"football" or "aquatics."

FREAK PITCHING IS
DOOMED IN MAJORS

American League Comes Out for
Reform in Deliveries—National
Favors Plan

Chicago, Nov. 1.—President Ban
Johnson of the American League has
requested August Herrmann, chairman
of the National Commission, and John
A. Heydick, president of the National
League, to call a joint meeting of the
Rules Committee of the two leagues to
take action in regard to the abolition of
the "spit ball," the "shine ball," and
other freak pitching deliveries. Presi-
dent Johnson said these deliveries should
be legislated out of the major leagues.
He also has several suggestions to make
on the scoring rules.

This action by the president of the
American League, who will be backed
up by his club owners, foreshadows the
end of the spital, a delivery which has
been used with marked success by many
major league boxmen during the last
twenty years.

That the National League will prove
a willing ally in Johnson's effort to
curb the practice of using foreign sub-
stances on the ball or in any way
changing the condition of the sphere
goes without saying. President John
Meydler has been against such pitching
for some time. Barney Dreyfuss, own-
er of the Pittsburgh club, has been a
strong advocate against freak pitching.
He announced that he will bring the
matter to the attention of the National
League in December. Other club own-
ers are known to hold similar views.

N. S. COMMENT ON
FOOTBALL IN THE
TWO PROVINCES

(Sydney Record.)
It is difficult to size up the prospects
for the season on account of the fact
that many new men are playing today
and there is no nucleus of "last year's
players" to determine the form of the
various teams. U. N. B. in the western
division had a good deal of trouble at
the start of the season getting a team
together and the matter became so seri-
ous at one period that the captain hand-
ed in his resignation. Since then, how-
ever, the difficulty has been smoothed
over and under the coaching of Jack
McNair the team has been getting ready
for the season. But apart from the
more or less rumored information that
they start out with a bunch of poor
material, U. N. B. will remain pretty
much a dark horse until their first
game.

Acadia has had the coaching of Lloyd
Black of Amherst, captain of the
Acadia team in the fall of 1911, and
whatever else they may or may not
have, it is certain that under his in-
structions they will develop a rough,
hard-hitting game. In a practice game
with Kings they put it over the latter
10-0 and their forward line was re-
ported heavy.

In the other division of the League,
Dalhousie in its game with St. F. X.
displayed a well balanced team, with
a heavy forward combination and a fast
"heady" half line. Dalhousie has a
large attendance this year and will
probably walk away with league silver-
ware, although it is a somewhat reckless
business predicting where so little is
known of the teams. Kings showed
good form in their game with Acadia
and the burden of their defeat seems to
rest upon the grumbling attacks of the
heavier Acadia forwards, which goes to
show that the Windsor team is suffer-
ing from the same apparent trouble as

St. Francis has a light forward line by
comparison with Dal's but whether that
means that St. F. X. has a light scrim
or only that Dal has an extra heavy one
is impossible to say at present. In the
Dal game St. F. X., according to the
newspaper reports, showed want of
coaching and faked team play.

(Halifax Echo)
Of course one never knows, does one?
But with our possibly more accurate
knowledge with respect to the Tigers
and a few minor tips we received on
U. N. B., we predict with a certain de-
gree of confidence that the champion-
ship match will be played by Acadia and
Dalhousie and that very probably the
cup will rest in Halifax for the coming
year.

MORNING NEWS
OVER THE WIRE

An Ottawa despatch says that reports
indicate great difficulty on the part
of lumber operators to get crews for the
woods this year. It says returned sol-
diers are not taking to the offer kindly,
the majority seeming to prefer work in
the city.

In a raid on the police barracks at
Bolivar, Ireland, on Saturday by masked
men, a sentry was killed and quite a
quantity of ammunition stolen.

In a collision between a train and a
motor truck laden with Holloway mas-
queraders at Woodbury, N. J., on Friday
night, fourteen persons were killed and
thirteen injured.

A Paris cable says that Berlin will
be asked to make good all violations of
the armistice agreement.

Gerald White of North Renfrew, Ont.,
has been named as a senator. Sir George
E. Foster is mentioned for the post of
librarian in the commons. Martin Br-
rell who had been mentioned for the
post is likely to go to the senate.

ROBBER TAKES SAFE.
Philadelphia, Pa., Nov. 2.—While
pedestrians watched them with interest
thieves wheeled a safe through the front
door of the Child's restaurant, at 708
Chestnut street, loaded it into an auto-
mobile and drove away. When the
manager opened the restaurant several
hours later he discovered the theft. The
safe weighed 800 pounds and contained
from the same apparent trouble as \$50.

SPORT NEWS OF
A DAY; HOME
AND ABROAD

BASEBALL

Diamond Sparkles.

Hans Wagner is to appear in a movie
film. He has signed with a Pittsburgh
producing company and will "act" in
a baseball comic picture.

Manager Garry Cravath of the Phil-
adelphia Athletics, according to reports printed in Los
Angeles, expects to secure a couple of
C. L. League players during the winter.
Men he has in mind are Bill Peticola
and Curly Brown.

The eight clubs of the National
League engaged in 1,116 games this year.
Only two games were played, one
between the Robins and Phillies and the
other one the Braves and Cardinals.

Outfielder Tommy Griffith of the
Brooklyn Dodgers says he will quit the
game and go into business, probably in
Columbus, O.

Babe Ruth is still hitting home runs.
He took part in a ball game in Brook-
lyn the other day, one team being made
up of American League players and the
other of international players, and one
of his stunts was to hit the ball out of
the lot.

According to report from Hod Eller's
home town of Danville, Ill., he will not
return to his job as a member of the
fire department in that town, but will
be salesman for an automobile concern.

There may be two McCarthy's man-
aging teams in the American Association
next year. Joe is pretty sure to stay
at the head of the Louisville Colonels,
and it is said Alex may succeed John
Janey at Kansas City.

Though Jack Dunn trained his Bal-
timore Orioles at home so well last spring
that they won the pennant, he is going to
take them farther south next spring, and al-
ready has his club secretary scouting
around in Dixie for a suitable camp.

Wild tales about a lot of the White
sox players being let out or traded off
re denied by both President Comiskey
and Manager Gleason. The Sox will
have to have new material of course, but
there won't be any such "clean-up" of
the team as rumors have had it.

Guarded intimations that Walter Mar-
ville of the Boston Braves will be
found playing shortstop for the New
York Giants next season lead to the con-
clusion that the oft-reported transfer of
Rogers Hornsby to the Giants is not to
be. Morganville is quoted as saying it is
his ambition to play with the Giants.

BOWLING.

City League Formed.
A meeting of those interested in the
formation of a city bowling league took
place in Black's alleys Saturday evening.
Seven teams were entered and an-
other is expected. Commissioner Thor-
nton offered a trophy for the man making
the highest average for the season.

FOOTBALL.

British Results.

Morton, 1; Celtic, 2.
Queen's Park, 2; Hibernians, 2.
Raith R., 2; Partick Thistle, 0.
Rangers, 6; Third Lanark, 1.

The teams and scores for the Junior A
league were as follows:

WHO WILL WIN THE GUN?

Charlotte County Started the Ball Rolling, the St. John Chairman Gave It a Shove, Now They're All in the Game

The New Brunswick Victory Loan executive has announced the award of a captured German field gun to the county or district in New Brunswick making the largest percentage of gain over its objective. This gun is to be placed in the shiretown of the winning county and will bear a brass tablet with the names of the Victory Loan committee of that particular county inscribed thereon. Immediately the announcement was made, the Charlotte County Chairman intimated that the site was being chosen at St. Andrews and R. D. Paterson, St. John Chairman, came back with the statement that a car load of cement had been ordered for the erection of a site in King Square. But the other County Chairmen are making other predictions.

Here are the telegrams, beginning with the one from St. Stephen, which started something:

St. Stephen, N. B., Oct. 27, '19.
T. H. Estabrooks,
Provincial Chairman, Victory Loan, 1919:
Just received particulars regarding trophy offered to the county or district making largest percentage of gain over its objective and I think we can see the boys in the shiretown of St. Andrews getting busy and picking out a spot on which to place the gun.
A. R. MacKENZIE,
Chairman.

Fredericton, Oct. 27, '19.
T. H. Estabrooks,
Chairman Provincial Executive, Victory Loan, 1919.
Please put us down not only as active workers but as successful competitors for the trophy. I feel that the organization we have perfected will land us on top and that the gun, as it should, will come to the provincial capital. Away to a good start and am well satisfied with prospects.
R. W. McLELLAN,
York County Chairman.

Chatham, N. B., Nov. 1, '19.
T. H. Estabrooks,
Chairman N. B. Victory Loan, St. John, N. B.:
St. Andrews site will be of no use to us but St. John can give us the car of cement as they may not need it. They had better advise shipper to hold it in the meantime. Being Scotch we are too conservative to either order cement or select a site but presume if Northumberland East wins we can place the gun in Chatham.
W. H. SNOWBALL,
Chairman.

Albert, N. B., Nov. 1, '19.
T. H. Estabrooks,
St. John, N. B.:
In reply to your wire will consult chairman and advise you later as to location of German gun which is coming to Albert. Wish to report to date \$56,500 which is more than half county allotment.
E. B. Jones.

Five Days' Results to Friday Night

	Amount Subscribed	Applications
St. John City and County	\$ 969,750	993
Kings	52,300	85
Madawaska	74,900	263
Queens-Sunbury East	29,150	40
Queens-Sunbury West	8,000	6
Upper Gloucester	245,850	119
Restigouche	46,600	127
York	224,450	291
Albert	60,600	No Report
Westmorland	269,400	No Report
Kent	63,600	21
Northumberland West	38,350	83
Northumberland East	48,300	101
Victoria	18,950	2
Carleton	46,750	57
Charlotte	205,000	186
Total	\$2,391,200	

Edmundston, N. B., Nov. 1, '19.
T. H. Estabrooks,
Chairman N. B. Victory Loan, St. John, N. B.:
Replying to your wire of yesterday requesting me, as chairman of Madawaska county, to state what this county will have to say regarding the capture of the German field gun trophy, I beg to reply that Madawaska county will have all to say about it. The chief difficulty with us will be to agree on the best site. Already an animated discussion has arisen over the question but my own view is that it will be placed in the rear of the court house on the beautiful shore of the river St. John to guard our new proposed international Highway bridge. J. Wort Hall did not have to order the cement. He has it on hand and Bob Hammond has had it earmarked for this gun. Hon. L. A. Dugal will be asked to dedicate it to the county.
J. M. STEVENS,
Chairman Victory Loan, 1919.

Grand Falls, N. B., Nov. 1, '19.
T. H. Estabrooks,
Chairman Victory Loan Executive, St. John, N. B.:
The Victoria county committee have already made arrangements to fire a royal salute in front of the court house at Andover, May 24, 1920. It is our intention to use that German Field Gun for this purpose.
C. A. ESTEY,
Secretary Victory Loan.

Bathurst, N. B., Nov. 1, '19.
T. H. Estabrooks,
St. John, N. B.:
Replying to yours. Concrete base for German field gun, just completed and now being protected from frost while awaiting gun.
B. C. MULLINS,
Secretary, Upper Gloucester.

For the foundation of this gun, the Provincial Central Committee has granted \$100. The winning of the trophy is an honor not to be despised. But it cannot be done by the workers alone. They must have the co-operation of every investor in their district.

The Rest of the Province is Keen for This Trophy, St. John Must Wake Up if the Gun Goes on King Square

One-fourth the objective in a little less than One-third the time is the record of City and Province. St. John and New Brunswick cannot afford to lag behind.

BUY VICTORY BONDS

This space donated to the Victory Loan 1919 Campaign by The Evening Times-Star
