PRESENT ADDRESS TO SIR FREDERICK

Pleasant Event at Supreme Court in Capital

CONGRATULATIONS OF BAR

Mr. Baxter Makes Presentation and Chief Justice Replies—Death of David Burpee, Prominent as Contractor and in the Liberal Party of Province

(Special To Times)

Frederickton, N. B., June 10.—A pleasant incident marked the opening of the June term of the supreme court here today when the Barristers' Society through the president, J. B. M. Baxter, presented Chief Justice, Sir Frederick Barkett, an address congratulating him on the honor conferred upon him by his sovereign.

Mr. Baxter referred to the fact that only two of Sir Frederick's predecessors, Sir James Carter and Sir John Allan, had received knighthood, while a third, New Brunswick Judge, Sir William Ritchie, had received the honor while filling the office of Chief Justice of Canada. He heartily congratulated Sir Frederick and spoke of the cordial relations which existed between the bench and the bar. He expressed the hope that Sir Frederick and Lady Barkett would continue to enjoy health and happiness.

Sir Frederick thanked the members of the society for their kindly expression and remarked that they had opportunities of judging the character of judges which those outside the profession did not have. "These kind expressions were therefore doubly valuable. It would be useless, said he, for me to say that I do value it. I take it not only as a compliment to myself individually but more especially as a compliment to the bench of the province. I hope that will continue on the bench the same good feeling will exist between the bar and myself as exists today."

Sir Frederick also thanked the bar for the kind remarks passed last winter on the occasion of his leaving on a trip to Europe.

Frederickton, N. B., June 10.—David C. Burpee, a well-known contractor, died unexpectedly at his home in Gibsons early this morning from heart trouble. He had been ill for more than a month but was able to attend to business until a few days ago. News of his death was a painful shock to the community. He was a native of Shelburne and was seventy years of age. For many years he carried on a business in partnership with his brother-in-law, the late James E. Simmons. They built the first highway bridge across the St. John river at this point and many other important structures in different parts of the province.

They also constructed most of the bridges on the line of the Bangor & Aroostook railway. In politics Mr. Burpee was a staunch Liberal. He is survived by his wife, three sons, two daughters, one brother, Thomas Burpee of St. John, and one of his sisters, Mrs. J. E. Simmons of Ottawa.

BAPTIST MINISTER'S SON KILLED IN VANCOUVER
Vancouver, June 10.—Robert Estabrook, a son of Rev. H. G. Estabrook, superintendent of Baptist missions, died last night after colliding with a street car while he was cycling.

ATTEMPT TO OPERATE WITH NON-UNION MEN A FAILURE
Nanaimo, B. C., June 10.—An attempt by the Vancouver-Nanaimo Coal Company yesterday to operate its jingle pole mine near here with men not members of the United Mine Workers of America was a complete failure. Fewer than half a dozen men, out of a total force of 250 responded. The half-dozen men who were willing to go to work returned home.

WEATHER BULLETIN
Issued by authority of the Department of Marine and Fisheries, R. F. Stewart, director of meteorological service.
Synopsis.—The barometer is unusually high over the interior of the continent and the weather is fine throughout the domain; to the Grand Banks and American ports moderate to fresh northwest winds.

WHISKEY MARKED AS "HARDWARE" SEIZED
Boston, June 10.—Because five boxes containing five gallons of whiskey all destined for Pine Point, Me., were marked "hardware," the shipment was seized. The action was taken under the pure food act.

FOUND DEAD IN STABLE; WOMAN AND MAN HELD
Govan, Sask., June 10.—As the result of the finding of the dead body of George White, a livestock man, in his stable on last Tuesday, Mrs. Dora White and John Goldpink have been arrested. Coroner Gotham conducted an inquest, and the jury returned a verdict of "death as a result of a wound inflicted by some person or persons unknown."

CONFIRM CAPTURE OF CITY BY REBELS IN TROUBLED MEXICO
Mexico City, June 10.—Twenty survivors of the federal garrison which was unsuccessful in the defence of Zacatecas today confirmed the capture of that city by the rebel forces a month ago. The reports which the survivors furnished were telegraphed to the official of the war department here.

THE RIGHT OF SEARCH

Are Canadian Police Justified in "Going Through" Prisoner?

Calgary, June 10.—Are Canadian police officers within their rights when they insist on taking away all the belongings of arrested men as soon as they are taken to the police station after being apprehended? This is a question which is being generally discussed as a result of a statement made from the bench here by Mr. Justice Beck of the Alberta supreme court in which he has decided issue with the police. Judge Beck said in part:

"The official regulation for search (mounted police) is for the purpose of taking from the prisoner dangerous weapons, evidence of crime or means of escape. In the case before me the supposed offence, which I found had not been committed, but which, if it had, would, under the circumstances, have been a trivial one, was committed in the presence of the police. It was not one in which any evidence of the offence could be found on the prisoner. He was a respectable citizen and there was no reason to believe that evidence of other offences would be found upon him or implements intended to enable him to escape."

A very casual search for such things would, in my opinion, have been sufficient without doing what was done, namely, taking from him his private papers. The police authorities do not, I fancy, think this a proper way of carrying out the regulations in the case of an unconvicted prisoner. If they do think so, they have my opinion, whatever it may be worth, to the contrary."

TO DETERMINE VALUE OF UNITED STATES RAILWAYS

These are the men who will determine the physical valuation of the railways of the United States—meaning that they will find out exactly what every rail, gas, engine, station building, warehouse, machine shop, tool etc., would bring if offered for sale to the highest bidder. They are, from left to right—Howard M. Jones, J. S. Worley, Edwin F. W. Endt, W. D. Pence and R. A. Thompson. Pence and Thompson come from the Wisconsin and California Railroad valuation, respectively. It is estimated that ten years will be consumed by the experts in completing their great task.

FERRY SINKS; FIFTY DROWNED

Dilapidated Boat Went Down While Crossing Russian River

St. Petersburg, June 10.—About fifty people were drowned by the sinking of a dilapidated ferry boat while crossing the river Tchepta on the Russian Asension Day, June 9, according to reports reaching here from Yastka. The boat was proceeding to the town of Glasgow, ninety-eight miles from Yastka. A riot ensued among the populace of the district owing to the indignation about the laxity of the police supervision of the ferry.

MAGNIFICENT DRESS OF QUEEN

Fourth Court of Year Held at Buckingham Palace Last Night

London, July 10.—King George and Queen Mary held the fourth court of the year at Buckingham Palace last night. The queen was dressed in Indian gold brocade, with a panel embroidered with diamonds and a train of Irish lace lined with gold tissue, with a deep emerald brocade border. She wore a diamond crown, with rows of pearls and pearls and diamond ornaments with the Order of the Garter.

OVERDRAFT REDUCED

The May Finances of City Show an Improvement

The city's financial statement for May which was submitted to the commissioners meeting this morning by Mayor Frink showed an improvement in the city's finances. The overdraft was smaller than in previous months and by next month when the taxes commence to come in, it is expected it will disappear entirely.

CARLETON LOSES AGED AND RESPECTED RESIDENT

In the death of Mrs. Elizabeth Olive, which occurred yesterday at the residence of her son, R. L. Adams, 267 Charlotte street, West End, Carleton lost one of its oldest residents. Mrs. Olive was the daughter of the late James Ketchum. She was twice married. Her first husband was Josiah Adams, lumber merchant, who died about forty-five years ago. After his death she married S. Whitney Olive, a well known boat builder.

NEW RAILWAY NEWS CALGARY

Calgary, June 10.—It was rumored here yesterday that the Great Northern Railway has acquired the charter of the Western Dominion Railway covering the construction of a line through the country southwest of Calgary through the lands now being prospected for oil.

More Brides of June Today

Frame-Cunningham

An interesting early morning wedding took place today at the home of the bride's parents, Mrs. and Mrs. Frank Cunningham, 77 Simons street, today, when their daughter, Miss Dollard, was united in marriage to Arnold E. Frame, Rev. R. H. McKinnon, rector of St. Luke's church, officiated. The wedding was solemnized at six o'clock and after a dainty breakfast served at the home, Mr. and Mrs. Frame left on a trip through Nova Scotia. On their return they will reside in Simons street.

AGAR-HODGINS

An interesting wedding took place this morning at 8:30 o'clock in the cathedral, when Miss Ella Hodgins became the bride of Allan E. Agar, son of Commissioner Agar. The ceremony was performed by Rev. D. S. O'Keefe. The bride was attended in a pretty fawn colored suit with a white hat and carried a bouquet of white roses. She was attended by Miss Gertrude Agar, who wore a blue suit and white hat and carried a large number of handsome and useful gifts. After the ceremony the party drove to the residence of "the bride's" parents, Mount Pleasant, where a wedding breakfast was served, after which Mr. and Mrs. Agar left by boat for a honeymoon trip to Boston. They will take up their residence in this city. The esteem in which they are held was shown by the large number of handsome and useful presents received.

BULGARIANS AND SERBIANS SAID TO BE FIGHTING

(Canadian Press)
London, June 10.—Many Serbians were killed today in a serious encounter between Serb and Bulgarian troops near the small town of Makra to the north of Istip, according to a special despatch to Belgrade, forwarded here by the Exchange Telegraph Company.

EVERY HOME CAN BE AS ATTRACTIVE AS THIS

Does this picture illustrate an evening scene in your home? Have you ever realized how much musical instruments add to the pleasure of evenings around the hearth-stone? Music is one of the strongest influences in making the home life happy. If there is any musical instrument you would like to have, turn to our Want Ad section and see if you do not find advertised there just the instrument you want. If you don't find what you want, one of our little Want Ads will locate it for you.

Use "The Want Ad Way"

Edmonton, June 10.—Henri Bourassa, Quebec National leader, and editor of Le Devoir of Montreal, arrived in the city last night to take part in a French language society convention. He will be the guest of the Canadian Club at a luncheon at the Corona Hotel on Wednesday afternoon. Mr. Bourassa will speak on "the racial problem in Canada."

EXCHEQUER COURT

Claim For \$180,000 is Being Heard Here

Hearing in the case of the King on information of the attorney-general vs. The New Brunswick Railway Company and the Central Trust Company of New York (the latter company being joined as defendants only on account of their being messengers) was commenced in the exchequer court this morning before Judge Audette. The crown filed their plea of expropriation and rested their case.

EVIDENTLY NOT "ADDITIONAL"

Churchill Pressed for Statement About Canadian Ships

(Canadian Press)
London, June 10.—In the House of Commons yesterday, Sir W. Byles said the first lord of the admiralty whether, in view of the fact that he informed the house in last December that the Canadian contribution to the navy was to be in addition to and not in any degree in substitution for the existing British programme, he would explain why that programme should be rendered in any degree inadequate by the temporary check in providing the Canadian addition.

"SENSATION" PETERS OUT

Guns Imported into Belfast so Old That No Present Day Cartridges Would Fit Them

Montreal, June 10.—A special cable to the Montreal Star says: All sorts of gossip continues to surround the recent discovery of several rifles of ancient date at Belfast and Dublin. The government's intentions are still unknown.

PROBATE COURT

In the probate court today the matter of the estate of Mrs. Jane Mitchell, late of Lunenburg, was taken up. James Macdonald, of Lunenburg, and John Avery of the same place, both merchant had been appointed executors and trustees. The latter died. The former has now filed the accounts of himself and his co-trustee up to the time of his death and his own subsequent accounts, and asks that they be passed and allowed. A citation was issued returnable on Monday, July 14 at 11 a. m. in Barnhill, Seving & Sanford are proctors.

BYE-ELECTIONS IN WEST

Regina, Sask., June 10.—Writs have been issued in connection with the vacancies in the two provincial constituencies of Hanley and Cumberland in the case of Hanley nominations will be held on Saturday, June 21. Polling one week later.

SUFFRAGETTES REMANDED

London, June 10.—Two women were charged today at Richmond police court on suspicion of having set fire to the stands on the Hurler Park race course yesterday, and causing damage to the extent of \$70,000. They gave the name of Kitty Marlon, who described herself as an actress, and Clara Elizabeth Gleason, who is a well known militant suffragette, and has undergone several terms of imprisonment. They were remanded for further hearing, but were released on giving bail for their appearance.

HOME RULE BILL LIKELY THROUGH WITH MAJORITY INTACT

(Times' Special Cable)
London, June 10.—So far as can be ascertained this morning the second reading of the home rule bill will go through tonight with a practically unimpaired majority. In this matter the Liberal party remains unchanged and not even Balfour's brilliant speech last night could hide the bankruptcy of Tory statesmanship when confronted with the problem of Ireland.

AMERICAN REPORT SAYS KING GEORGE IS LOSER ON C. P. R.

Slump in Stock Market Last Week Said to Have Cost Him \$100,000

New York, June 10.—A cable to the Tribune from London says: "Heavy losses by King George in the recent slump of the stock market were the occasion for a prolonged audience which Sir George White, the king's private solicitor, had with the king on the morning after Derby day. The consultation was to arrange for the realization on certain securities held in trust by the king by Lord Stamfordham and another member of the household, and the queen took part in the conference.

CANADA BUYS COTTONS IN INCREASING QUANTITIES IN UNITED STATES; BUT CHIEFLY IN OLD COUNTRY

Washington, D. C., June 10.—The Bureau of Foreign and Domestic Commerce, Department of Commerce, in a report on the cotton-goods trade and industry of Canada just completed, shows that the United States is second only to Great Britain in supplying cotton goods to Canada.

The report of manufacturers of cotton is almost entirely from England and the United States, the former usually supplying about two-thirds and the latter about one-fourth of the total. Switzerland ships embroidery and lace; Germany, hosiery and embroidered lace; and France, some lace embroidery, velvets, and women's clothing, but outside of these specialties the market for foreign cottons is dominated entirely by England and the United States.

The following table of the imports of cottons into Canada in 1900, 1905, 1910 and 1912 gives a good idea of the amounts supplied by various nations:

Countries	1900	1905	1910	1912
United Kingdom	\$4,646,690	\$6,004,294	\$11,114,594	\$14,975,664
United States	1,684,979	2,062,062	3,462,385	5,974,016
Switzerland	227,589	341,889	608,448	1,077,291

MUST HURRY WORK TO PREPARE FOR COMING TRAFFIC

City Council Will Ask for Federal Engineers to Revise Courtenay Bay Plans—Site Provided for Dredging Company's Blocks

The Grand Trunk Pacific will be delivering freight in St. John during the summer of 1914 if the reports current at present are true, said Mayor Frink at the meeting of the city commissioners yesterday, "and I believe that some prominent engineers such as Mr. Laffuer of the public works department should be sent here by the federal government to look over the situation at Courtenay Bay and decide if any change in the scheme of docks should be made. There are no facilities at Courtenay Bay yet for handling any of this freight and I suppose it would have to be taken to West St. John.

"Some engineers have pointed out that the berths on the western side of Courtenay Bay are completed there will be very little room behind them for the handling of freight. It has been suggested that the wharves should be extended out 200 feet further into the bay than at present proposed and that the eastern shore wharves should be run back 200 feet further than the plans call for. These changes were not approved by the government. It may be unwise to criticize the work but I think that there would be general satisfaction if an eminent engineer came here and looked over the work.

Commissioner Schofield approved of the remarks of the mayor and he suggested that the minister of marine and fisheries should be interviewed as soon as he arrived in the city and the matter thoroughly discussed.

The commissioner of public works was given authority to call for tenders for the paving of Union street between Charlotte and Waterloo streets and German street between Princess and King street. This work was decided upon several weeks ago and the necessary advertisements have appeared.

The order of council by which persons having electric signs and light poles in the streets were required to have the lights lighted until 10 o'clock each evening was changed so that all such signs and lights will have to remain lighted until 11 o'clock each evening.

Dr. J. D. Maher was given permission to erect an electric light pole in front of his premises in Main street as well as at the corner of Union and Waterloo streets.

Lot 896, Guys Ward, was again leased to the present holder for a term of seven years at an annual rental of \$20 instead of \$12 as at present. The Rhodes-Curry Company was granted a lease of lots 4, 5, 9 and 10 in block I, between Sydney and Broad streets for a term of one year for a stone cutting yard in connection with their contract for the new post office at an annual rental of \$120, the lease to be terminable at any time on one month's notice.

The order in council of March 24 for the conveyance of certain lots in St. John West was varied so that the deed may be made to the Roman Catholic Bishop of St. John.

The fee simple in lot 674, Queens ward, now under lease to the Buchanan estate, is to be sold for the sum of \$1,000.

A renewal of a lease for seven years for part of lot 400, Queens ward, was granted to Isabel A. Nelson at \$15 per year instead of \$1, as formerly. Annie M. Sommerville was granted a renewal of lease to lot 269, Prince ward, at an annual rental of \$15 instead of \$5.

Slip Granted.

It was decided to grant to the Norton Griffiths Dredging Company a lease of a space 42 by 200 feet in Sidney Market slip for a term of five years for the purpose of building blocks for the sum of \$600 per annum. The blocks are to become the property of the city at the expiration of the lease. If at any time the city wishes to take over the property it may do so by giving the company one month's notice and paying for the cost of the construction of the blocks a sum not to exceed \$2,500. The dredging company is to assume all liability in connection with the rights of others in the slip.

The commissioner of harbors, ferries and public lands was authorized to proceed with the sheathing of the northern wing of the east side ferry floats by

day's work. Scow hire was fixed at \$10 per day and workmen at \$8 a day.

The commissioner of harbors was also given authority to purchase 8,000 feet of hard pine for railings at a price not to exceed \$41.90 per thousand delivered at the east side ferry slip. He was also given power to buy bolts, washers and trenails to the extent of \$200.

It was also decided to vary the specifications for the sheathing to be used on the east side floats and birch will be used instead of oak. The northern wing is to be sheathed at an estimated cost of \$4,750.

A communication was received from St. Mary's Board asking that it be given a share of the concerts in the squares during the summer.

The election of E. M. Olive and H. M. Alexander as members of No. 1 salvage corps was approved.

Arrangements will be made with a committee from the Loyalists' Society for a meeting in which matters in connection with the upkeep and improvement of the old burying ground facing King street east, will be considered. It has been decided to do something to preserve the graves of the Loyalist founders of the city and the commissioners and members of the Loyalists' societies will unite in this direction.

GENERAL ASSEMBLY DEBATES QUESTION OF CHURCH UNION

Toronto, June 9.—After a strenuous afternoon session spent in the discussion of church union, the General Assembly of Presbyterian Church in Canada spent a quiet evening in discussion of the Sabbath school and Young People's Society work.

Rev. Dr. C. A. Myers, of Edmonton, was appointed assistant to Rev. Dr. J. C. Robertson, secretary of the Sabbath school and young people's society board. Dr. Myers will take charge of the work in western Canada and will probably make his headquarters in Edmonton.

A spirited discussion arose this afternoon when the question of church union came up, each speaker being limited to ten minutes. Walter Ball of Montreal opened the debate placing himself on record as opposed to union at the present time, while David Christie, who followed, made a strong appeal for union. Dr. Gunn, of Toronto, Dr. Gordon of Winnipeg, Principal Murray, Dr. Campbell, and others took an active part in the debate. Dr. Campbell particularly contributed in a notable manner to the debate.

Canadian imports of cotton goods have more than tripled in the last twelve years, and they have about quadrupled in the last fifteen years. During the period from 1900 to 1912 the total imports of cottons increased by 221 per cent., while English cottons increased by 209.18 per cent. American by 282.88 per cent., and those from other countries by 222.87 per cent. The latter figure, however, is larger than it should actually be, as embroidery and lace were formerly stated separately from the cotton schedule, but now white and cream colored cotton embroideries are included under that schedule.

Of the total imports of cottons in 1900, England is listed as supplying 67.48 per cent., the United States 23.18 per cent., and all other countries 9.34 per cent. Of the total imports of cottons in 1912, England supplied 38.16 per cent., the United States 29.28 per cent., and all other countries 10.58 per cent. Allowing for the usual fluctuations from year to year, England and the United States seem to be maintaining their relative positions in the increasing trade.

REFORESTATION WORK

Spokane, Wash., June 10.—In 1912 12,285 acres of burned-over land in northern Idaho were reforested by the federal government. Seedlings raised in government nurseries were planted on 2,154 acres, and 10,144 acres were planted to seeds. The average cost by the two methods was \$4.18 an acre. This year 8,000 acres will be reforested in northern Idaho.

Come Up Where You Belong!

In the human body, "man-power" comes from food. But the food must be right.

The gray tissue cells of Brain and Nerves are composed principally of water, albumen and Phosphate of Potash. The first two exist in every-day food, but phosphate of potash is frequently lacking.

This necessary element is supplied in

Grape-Nuts FOOD

Made of choice wheat and barley, it contains all the vital mineral salts of these grains, including the phosphate of potash so essential for proper nourishment of Brain and Nerves.

Grape-Nuts food is thoroughly baked, digests easily (in about one hour), and thus forms a perfect complement to ordinary food in the dietary of the average person.

Grape-Nuts—more than any other one factor—supplies both body and Brain with nourishment up to the standard of Nature's requirements.

If health and the efficiency which comes with it appeal to you, try Grape-Nuts!

Ready to serve direct from the package with cream and sugar—and wonderfully appetizing.

PASTORAL LETTER BY ARCHBISHOP BRUCHESI

National Perpetual Adoration of Blessed Sacrament as Reparation

(Montreal Star) A pastoral letter from Archbishop Bruchesi, on the national archbishop due to Jesus Christ was read yesterday in all the Catholic churches. In it His Grace establishes a perpetual and national adoration of the Blessed Sacrament.

It was during the Eucharistic congress at Madrid, in the month of June, 1911, that the project of national perpetual adoration was proposed, for the first time, in public. Two months later the entire Belgian episcopate, in a joint pastoral letter, instituted in Belgium this work of national reparation, by means of the perpetual adoration of the Blessed Sacrament already established.

SPANISH VIOLINISTE NEW STAR ATTRACTION AT THE NICKEL

Capacity business was the order of the afternoon and evening at the Nickel again yesterday. The stellar attraction was Amina, who can best be described as a bright vivacious and temperamental little Spaniard with a rich-toned old violin. Small of stature with a wealth of coal-black curls and snapping eyes Amina made a pretty stage presence.

The Nickel's pictorial list was another big feature. Many have seen the old melodrama "The Octoroon" on the stage but under the name "The White Slave" it received its premiere in motion pictures at the hands of Vitagraph's talented players. This is a Southern American story in the pre-slavery days. The Octoroon is the heroine of the play (Clara Kimball Young), and the other parts were taken by Mrs. Maurio, Leo Delaney, Lillian Walker, William Reous, Kenneth Casey, William Siles, and others.

To COST ABOUT \$32,000. The plans for the extension of the Lancaster sewerage system in Beaconsfield were before the city commissioners at their noon meeting today for consideration and were finally approved. The work is estimated to cost \$32,000 and tenders for it will be called immediately.

THE LYRIC'S NEW DOUBLE VAUDEVILLE ATTRACTION

Jimmie Green, eccentric comedian, and Laven and Cross, Roman athletes, are the principal attractions at the Lyric Theatre the first three days of this week. It would be hard to discriminate between the two offerings. Jimmie Green is made of the calibre that commands a laugh immediately upon his appearance. When, with a deep gruff bark imitating a dog, he steps upon the stage, the fun commences and Jimmie is a hit. He possesses one of the most peculiar voices ever heard in St. John, he can give sound to almost any of the hazy language and is a treat in his impersonations. He found immediate favor with last night's audience and hearty laughter was enjoyed. Laven and Cross are seen in ancient Roman costumes, displaying some wonderful feats of strength. This act is prettily dressed while special scenery is added to the attraction. The two vaudeville acts, with an excellent bill of pictures, make up a programme the equal of which has not been presented at the Lyric for many a day.

JAMES V. RUSSELL RETIRES FROM BOARD OF SCHOOL TRUSTEES

Changes in Teaching Staff—Non-tariff Companies to Get Share of Insurance. James V. Russell, who has been a member of the Board of School Trustees for the past twelve years and whose term of office has expired, was present at the monthly meeting of the board for the last time last evening. His retirement was the subject of comment by several members of the board who expressed their deep regret at his loss and it was decided to prepare a memorial expressing the board's appreciation of his past services.

A number of resignations were read and referred to the teachers' committee. Applications for position on the teaching staff were received, from Miss Dorothy A. Smith, Julia A. Evans, of Cornwall (Eng.), Clara C. Hay, of this city, and Beatrice Constance, Sadie R. Fairbanks, of St. Stephen, applied for a position as teacher of household science. These applications and that of Miss Ella MacAlary, who asked for leave of absence until Christmas because of ill health, were referred to the teachers' committee for consideration. The amount of \$816,615 insurance was ordered placed upon the different school buildings of the city upon the polling expire towards the end of the month. This is an increase of \$15,650 over the previous amount carried. Seventy-five per cent will be placed in the hands of the new Brunswick Board of Underwriters, who will distribute it among tariff companies but the finance committee will reserve the right of final selection. The other 25 per cent will be placed in non-tariff companies chosen by the committee who are given power to act. Trust Officer McMan's report for May showed that there were eighty-eight irregular attendants, and seven truants. Twenty-eight pupils were sick, eight were unable to attend for want of clothes, eleven because it was necessary for them to work. Two students were out of town. Fourteen truants were brought back to school and thirteen notices served. The application of the High School Association for the use of the High School assembly hall for social conversations was granted. A request from Mrs. Matthews for the use of the hall for her kindergarten class was referred to the teachers' committee. The residents of Douglas avenue were given permission to hold the harvest of the Douglas Avenue school for a meeting to protest against the location of the tuberculosis hospital on Douglas street. Miss Thorne's application for leave of absence was referred to the superintendent with power to act. The board decided to call for tenders for the coal supply.

ANNUAL MEETINGS OF FAIRVILLE AND LUDLOW ST. BAPTISTS

Ludlow Street Baptist church closed its seventy-second year last night when the reports submitted at the annual meeting showed that the year just passed had been the best in its history. The membership has passed the four hundred mark and the church work has generally progressed. The sum of \$27,739 was collected during the year and of this amount \$640.87 was contributed by the parish school. The results of the election were as follows: Clerk, R. C. Mackinney; assistant clerk, Alton B. Mackinney; treasurer, L. E. Smith; superintendent of Sabbath school, R. H. Parsons; president of Y. P. S. of C. E., Miss Irene Cochran; trustees, E. O. OUR SUMMER AMUSEMENTS. Horrible, hairy, human, with paws like hands in prayer, Making his supplication rose Adam-sad the Bear!

The Journal of Commerce says the thing to do is not to take the tariff out of politics, but to keep it where the directly elected representatives of the people can, at any time, make such changes in the tariff as may be demanded by circumstances. It says:—

Mr. Fox's method, evidently, leaves little to be desired. It is not explained definitely whether or not he had any more weapons than the bear, but, however they fought, whether under the Queensbury rules, or whether hitting in the clinches was permitted, Mr. Fox seems to have acquitted himself with marked distinction. It is to be noted, that "the bear was said to be the largest seen in that part of the country."

Another Borden Scheme Gone. It is announced at Ottawa that the Borden government will undertake the revision of the tariff at the next session of Parliament, but whether the tariff is to be revised upward or downward, our Conservative friends have not yet the courage to announce. The Minister of Finance is to make a tour of the West this summer, and when he returns he probably will report to Mr. Borden how much, if anything, can be done for the "interests" without causing the West to revolt.

Aid for Police Reporters. Extensive List of Titles for Men Who Are "Stewed." Roland B. Elliott, who keeps a big cafe in New York, is compiling a dictionary of slang phrases referring to the inebriated, and already has a memorandum book pretty well filled up.

Far from affording the least foundation for the belief that a tariff commission would eliminate doubt and difference of opinion on the tariff, the debate has shown that the short experience with such a commission has merely added to the number of questions already outstanding. Two schedules were given special attention by the board or commission which was appointed under President Taft.

On raw wool has been advocated by ex-members of the Tariff Board who signed the report of that body on the ground that the report then rendered showed there was no need of the duties. However, the cotton bill drawn up under Tariff Board supervision has been roundly denounced both by cotton manufacturers themselves and by Republicans.

BIRTHDAYS OF NOTABILITIES

TUESDAY, June 10. Matthew Henry Richey, prominent citizen of Halifax and former lieutenant-governor of Nova Scotia, celebrates his eighty-fifth birthday today. He was born at Windsor, N. BREAKING IT GENTLY. Maid—"Thieves got into a house in this street last night and stole all the silver."

Mistress—"What stupid people to leave things unlocked! Whose house was it?"

Maid—"It was No. 7."

Mistress—"Yes, ma'am but I did not want to frighten you."—Judge.

HER MIND RELIEVED. "Well," said the artist's wife, "I'm glad on one account that Reginald has become a cubist."

"What is that?" her friend asked. "Is he making more money than he did while he was painting real pictures?"

"No, he really isn't making as much, but formerly he had to hire girls to act as his models. Now all he needs is a pile of kindling wood."

BALLS EXPENSIVE LUXURIES. More Money Spent on Them Each Successive Season. Are costume balls becoming more and more expensive luxuries as season succeeds season?

They are, undoubtedly, according to a popular London bachelor not unknown in politics who has been giving his impressions to the Daily Sketch. He happens to be an exceptionally fine waiter, and receives as many invitations probably as any man in London.

"It is largely due, I think," he said, "to the phenomenal rage for dancing. This rage set in with the introduction of the American system of waltzing, which killed the old-fashioned stately waltz. It was found to be livelier, and, above all, it made dancing so much easier."

As an instance of the expenditure attached to an up-to-date costume ball this gentleman quotes "the fete at Versailles." At this function in Albert Hall on June 6, the various "Cours of Europe" were represented, as at the great fete given at Versailles by Louis-Quintore on the occasion of his marriage with Marie Therese. It is obvious that costumes befitting the ball cost in the aggregate a very large sum.

Output finds scant favor with many a good housewife, because, no doubt, experience is either wanting or unfortunate, and bread seems often to have been a cause for displeasure.

Whatever your experience may have been of your views may be, you'll find BUTTERNUT BREAD to your liking, because of the good, old-fashioned taste. A dainty loaf of BUTTERNUT BREAD, with its even, golden crust and white, flaky texture; its just moist enough.

DYSPEPTICS WARNED BY GERMAN PHYSICIAN

Prof. Reigel, World-Famous Authority on Stomach Diseases, Points Out Lurking Danger. Franz Reigel, Professor of Clinical Medicine in the University of Gieszen, pronounced the world's greatest authority on diseases of the stomach, makes the positive statement that peptic must not be used in treating acidity of the stomach. Millions of people are taking all sorts of dyspepsia tablets because they contain peptic which affords slight temporary relief. But every dose contributes to serious harm in time. What is needed is something to neutralize the excess acid. The best thing for that purpose is ordinary druggist's Bisulphate of Magnesia. You can get it at any drug store for a few cents. Take a half teaspoonful in a quarter glass of water after each meal. You will get immediate and complete relief with no danger or bad after effects. Authorities agree that acidity is the cause of nearly every form of stomach disorder, and if not checked it is likely to lead to stomach ulcers and cancer.

CANAL READY FOR GENERAL TRAFFIC BY JANUARY, 1915

New York, June 10.—By January 1st, 1915, anything that floats can pass through the Panama Canal between the Atlantic and Pacific oceans, declared Colonel George W. Goethals, chief engineer of the canal zone, who arrived here last night from Colon. "I shall send a vessel through the canal just as soon as we get water into it. I promised that the Fran should go first, but the initial passage probably will be made by a smaller craft." Of the frequent landslides reported along the canal, Colonel Goethals said that such are to be expected until the high banks become eroded to gradient sufficient to overcome gravity.

CAPTAIN'S APPEAL ALLOWED

The appeal of Captain Hoy, formerly
master of the Bengore Head, against the
sentence of the Dominion Wreck Com-
mission Court, which was held in Que-
bec on October 17, 1912, was heard in
the Admiralty Court in London on May
28, and the appeal was allowed. The
evidence showed that when the Bengore
Head was stranded in the vicinity of
Shoal Cove, near Flower Island in the
Straits of Belle Isle, on October 3 last
year, Captain Hoy had been on duty
for thirty hours, in consequence of foggy
weather, and had actually been on the
bridge for twenty hours.

PRINCESS IS A BIG GIRL NOW

Longer Skirts and Her Own
Suite at Buckingham Palace

LONDON SOCIETY NEWS

Magnificent Heirloom Among
Presents of Princess Victoria
Louise—News of Canada—
Strathcona's Granddaughter is
to be Married on Saturday

(Times' Special Correspondence)

London, May 24—With the letting
down of her frocks, Princess Mary has
made several steps in the progress of
growing up. Her skirts now come to the
tops of her shoes. It was in Princess
Mary's confirmation day that the all im-
portant alteration was made, and her
new frocks ordered for the summer are
made the same length. But a greater
dignity still was conferred upon her at
the same time. She was given a set of
apartments of her own at Buckingham
Palace, and next year she is to have a
lady-in-waiting. Of course, next year
many important things will happen, for,
in all probability she will come out.

Princess Mary's rooms are a charming
suite looking out on to Constitution
Hill and over the Green Park, and were
previously occupied by her aunt, Princess
Victoria, in the late King Edward's
time. They have been considerably altered
to suit their young occupant, and the
princess was allowed a certain amount
of liberty in the choice of colors and
wallpapers for her new domain. There
are five rooms altogether, one of which
is occupied by her governess. Then there
is the ornate bedroom, which has a
pretty rose-patterned wallpaper, pink
hangings to the windows, a white bed-
spread and cushions in pink and white,
a pale rose colored carpet. Out of this is
the school-room a nice large light room,
which will be converted into her book-
closet, and when she outgrows the school-
girl stage. Here the walls and carpet are
a particularly neutral shade of green,
while the furniture is covered with a
chintz gay with roses.

The Princess' books that fill the book-
cases round the room are bound in rose-
colored leather. Prominent among these
volumes are the works of Ruskin which
Her Majesty likes her daughter to read.
Besides Ruskin, there are volumes of
memoirs of famous people, biographies,
history and travel, and a few very few
novels. The little princess has probably
read less fiction than any other girl of
her own age in England. There is hard-
ly any time for it, for there is so much
that the poor child has to know.

Keeps a Diary

Near one of the windows stands the
Princess' desk, and in it lies the diary
that she has kept with the greatest regu-
larity every day for the last five years.
As she has already assisted at many
ceremonies and met a great many fa-
mous folk, this diary, should it ever be
published, ought to be most interesting
reading. A piano stands near another
window, and in one corner of the room
are a pair of light colored, and a pair of
dumb bells with which Her Royal
Highness does an hour's light exercise
every morning. This is her father's
idea.

Out of this room is yet another which
Princess Mary calls her "workshop."
Here is a small gas stove, where she
cooks cakes and other light dainties,
about which her mother's chef her
mightily when they are at home, but
which they never fail to devour all the
same. On a table which stands near
she makes her pastry.
In the farthest corner from the win-
dow is a table devoted to photography,
at which Her Royal Highness may
most often be found in her spare
time. To meet the latest fashion, the
princess does all her own developing
and printing, and on the shelves in the
school-room are the prints of which
she pastes a print of each of her photos.
These albums are doubly interesting
from the fact that she has the signatures
of nearly all the celebrities of whom she
has taken a snap shot. This room has
a green linen run floorcloth, and a pair
of white tiles, that look both business-
like and dainty. In one corner are kept
golf clubs, hockey sticks, skates, and all
such implements.

Likes the Out-of-doors

One other room—and the one least in-
habited by Her Royal Highness—is a
small drawing-room, in which she enter-
tains her friends by tea. They come to see
her, for "playing hostess" is regarded as
part of her education. Little Princess
Mary regards this part of her life as a
"dreadful bore." Not that she does not
care for her friends, but she is such an
"out-of-door" girl, that open air pur-
suits and boys' games are her favorite
pastimes. A game of cricket with her
brothers she loves and, indeed, she can
give them all a good game, even the
Prince of Wales himself. She is a good
and fearless rider, and can swim, golf
and play hockey as well as most girls
of her age.

Her chief friends are her cousins, the
four children of the Duke of Teck,
Queen Mary's eldest brother. There is
more than meets the eye in this. Queen
Mary has a great wish that they should
all grow up to gether like brothers and
sisters, so that there shall be no danger
of a sentimental feeling between the
boys and their cousin, as the queen is
against marriage between cousins. Lady
Newton's children come up pretty regu-
larly to Buckingham Palace to take tea
with their little hostess, and Lady Mary
Cecil, Lord Salisbury's daughter, is per-
haps Princess Mary's most intimate
friend.

A Princess' Wedding Gift

One of the most interesting presents
which Princess Victoria Louise of Prus-
sia has received is an heirloom from the
Cumberlands and is a kind of "tempo-
rary" affair. It is presented to the bride
of every heir in the house of Cumber-
land, and as soon as he succeeds as the
head of the house, his wife is to give it
up and it is put back in the Cumber-
land strong room until the next heir
marries. It is a necklace of emeralds,
and pearls, and rather more interesting
than handsome, since these two stones
do not go well together. There are nine
generals of the most enormous size,
each one being nearly as large as a pig-
gion's egg. They are set in platinum,
and between each one is a huge pearl.
All the stones are of great value and
beauty, and the emeralds are said to be
the finest in Europe. It is many years,

MORNING LOCALS

David Whelan, a member of the chain
gang made his escape yesterday while
the men were at work at the General
Public Hospital and is still at large.

The residents of Waterloo street, near
Brinkley, were very much disturbed
only this morning by the actions of a
man who was heard around the win-
dows of one of the houses and who was
believed to have burglarious intentions.
One of the occupants of the house
aroused some of the neighbors and a call
was sent to central station, but, when
the policeman arrived on the scene, the
man was not to be found.

Building permits issued in St. John
for May, 1913, show an increase of 10.4
per cent, or \$7,800 over May 1912. The
total value was given in the Financial
Post as \$77,200. Comparison of five
months total of the cities of the east
with those of the west reveals the sur-
prising knowledge that the east leads
with an increase of 22.9 per cent.

The steady increase in the demand
for bacon has led to a proposal to es-
tablish a bacon factory at Perth. It is
pointed out that the imports of pig
products in the United Kingdom amount
to about £28,000,000. The proposal is
to equip a factory capable of dealing
with 200 pigs a week, the capital being
£20,000.

Railroad Stocks on The Toboggan as Result Of The Minnesota Decision Slump of Three to More Than Four Points in Some--General Marked Depression in Sympathy

New York, June 10.—Wall street interpretation of the effect on the railroads of the Minnesota rate decision on the railways was shown at the opening of the stock market today when railroad stocks slumped badly. The Hill stocks, which were directly concerned in the Minnesota case, were the heaviest sufferers, but virtually all stocks traded in fell to the lowest level of the year with losses extending to more than four points. Brokers were clustered about the trading posts on the floor of the stock exchange long before the opening of the market, which was the signal for excited selling. In the first downward rush blocks of stock were marketed. Great Northern pfd., another stock directly concerned in the outcome of the case declined 3 points. Other railroad stocks were depressed sharply, losses ranging from 1 to 2 1/2.

WE HAVE WONDERFUL GIFTS IN OUR FORESTS AND WE SHOULD CONSERVE THEM Greatest in Canada, Says Speaker at Noon Luncheon Here—The Duty of

"New Brunswick has the greatest forests in Canada and there should be some measures taken at once in order to provide proper protection here from destruction by fire," said James S. Whipple, of Salamander, N. Y., at noon today members of the Canadian Club and Board of Trade at a luncheon in Bond's restaurant. "Forests are the greatest natural resources of any country," he continued, "and New Brunswick should be proud to have such fine tracts of forest land. You people should get together at once and make it plain to the government that proper fire protection should be provided at once."

BEWARE OF OINTMENTS FOR CATARRH OF THE NOSE THAT CONTAIN MERCURY

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous membrane. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is held to be the good you can possibly derive from them. BARK'S CATARRH OINTMENT, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying BARK'S CATARRH OINTMENT be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials freely sold by Druggists. Price 75c per bottle. Take BARK'S CATARRH OINTMENT for constipation.

War in Few Days; or Peace

Belgrade, Serbia, June 10.—The Serbian minister of war today said that the question of war or peace between Bulgaria and Serbia would be decided in two or three days.

Constipation is an enemy within the camp. It will undermine the strongest constitution and ruin the most vigorous health.

It leads to indigestion, biliousness, impure blood, bad complexion, sick headaches, and is one of the most frequent causes of appendicitis. To neglect it is slow suicide. Dr. Morse's Indian Root Pills positively cure Constipation. They are entirely vegetable in composition and do not sicken, weaken or gripe. Preserve your health by taking Dr. Morse's Indian Root Pills.

WANT TO BE READY FOR G. T. P. FREIGHT HERE Possible to Have Service to Mencton Next Year

When asked regarding the prospects of freight originating on the Grand Trunk Pacific Railway arriving in St. John next year, E. P. Goodwin, inspector of the National Transcontinental, said this morning that the line would be completed to Moncton and the Quebec-Levis car ferry would be in operation next year, and it would be possible to bring freight through to Moncton. The haul from Moncton to St. John would be shorter than to Halifax and facilities were provided at St. John which would be the natural shipping port for the traffic. If it would be necessary to send the goods around to West St. John for shipment the extra charges and the possible delay would probably offset the cost of the longer haul to Halifax.

LOCAL NEWS

THE PRETORIAN The Allan line steamer "Pretorian" arrived at Glasgow at three o'clock this morning. FREDERICK VS. BANGOR. Much interest is being manifested in the baseball game this afternoon between Fredericton and Bangor in Fredericton. Flynn will play third base for the visitors and Marcott goes to the bench for this afternoon. Absorbing story of heart interest, the hand of fate ruling over the life of a convict, his return to old-time habits, and the conquest by Providence in "Retrospection" by Mr. Powers will play third base for the visitors and Marcott goes to the bench for this afternoon.

SEEK RECALL OF BRITISH VICE-CONSUL IN LOS ANGELES

Petitioners to Foreign Office in London Say He Showed Inefficiency Following Disaster Los Angeles, June 10.—British residents of Southern California have begun a movement for the recall of C. Mortimer, British vice-consul in Los Angeles, as sequel to the Empire Day disaster at Long Beach, which cost thirty-eight lives through the collapse of a pier. A petition requesting the removal of the vice-consul was drafted at a meeting of the Empire Day celebratory committee and will be forwarded to Sir Edward Grey, head of the foreign office in London.

MAINE BROTHERS ARE REUNITED AFTER THIRTY SIX YEARS

Spokane, Wash., June 10.—For the first time in thirty-six years, two brothers, C. G. and J. M. Staples have just met. Thirty-six years ago the brothers left their home in Bangor, Maine. J. M. Staples went to Dover, N. H., where he has since resided. C. G. Staples went to San Francisco, then to Portland, Ore. and finally to Spokane, where he built up a comfortable fortune in candy manufacturing, retiring about a year ago. A few weeks ago the Spokane man wrote to his New Hampshire brother, asking him to come here to make his home.

WOMAN WITNESS IN BIGAMY CASE SAID TO BE MISSING

Whitby, Ont., July 10.—A case against W. J. Watson, police magistrate of Ottawa, on bigamy charge, is set down for hearing this afternoon. It was said this morning that the chief, and in fact the only witness, the woman who laid the charge, who was Miss Annie Long, and who said she was Watson's first wife, had disappeared.

TWO HUNDRED PUT TO DEATH IN CHINA FOR CONSPIRACY

Peking, June 10.—Some women of modern education were among the alleged anti-government conspirators placed under arrest at Tien Tsin, and in Pekin in the last few weeks. It is reported that 200 conspirators already have been executed after only a summary examination.

NEWBRO'S HERPICIDE COSTS NO MORE THAN "SOMETHING JUST AS GOOD"

For a woman to adorn her head with false braids, puffs and rats, or a man to wear a toupee, is like buying off-brand hair preparation instead of Newbro's Herpicide. The "false hair" and the "off brand" are both substitutes for the real thing. The original is always conceded to be better than any imitation or substitute. "Something just as good" is a heresy of the rankiest kind. Newbro's Herpicide is the remedy and does as promised. Years of success and thousands of satisfied users have made it standard. Herpicide destroys dandruff keeps the scalp clean and stops falling hair. Its proper use before baldness appears makes false hair and wigs unnecessary. Newbro's Herpicide in 50c. and \$1.00 sizes is sold to do all that is claimed. If you are not satisfied your money will be refunded. Applications may be obtained at good barber shops and hair dressing parlors. Send 10c. in postage for sample and book on "The Care of the Hair," to The Herpicide Co., Dept. R., Detroit, Mich. E. Clinton Brown, Special Agent.

MARATHONS WIN FROM BANGOR EIGHT TO FIVE

The Marathons had their batting eye yesterday afternoon and landed on everything that came within reach, defeating the Bangor team, 8 to 5. Until the fifth inning, good ball was served, but at that stage Gerard loosened and six runs were scored before the Marathons were retired.

The umpire got in wrong with both the players and the fans early in the first line-up, Gerard, pitcher, and Perry, in left field, who played a good game and gathered in two nice ones. The Marathons all played good ball, although Waterhouse was unable to get through until he did good work outside this, having three put-outs and four assists.

The ball went up in the fifth when four singles and a double by Gerard and Wild heave netted six runs for the Marathons. The Marathons then took advantage of Gerard's weakening and a pass and three singles gave them three tallies. The Marathons got one in the sixth and another in the seventh and the Marathons also finished the seventh with two more to their credit.

The last two innings were scoreless. The score was: Marathons AB R H T B P O A E. Bangor AB R H T B P O A E.

McCarty's Death One of Four in Various Lines of Sport

By TOM ANDREWS

There were three deaths in the sporting world in one recent week. In fact there were four within seven days. Luther McCarty, the title holder in the heavy weight ranks, died from the effects of a blow over the heart in his fight with Arthur Peley at Calgary, Canada; Julius Sim, a young motorcycleist killed in a race at Cleveland, O.; Vance Fought, twenty years of age, killed by being hit on the head with a baseball.

Little or no attention was given to the young men killed in the baseball games, and a mere mention was made of the youth killed in the motor races, which were devoted to prove that there must be unusual interest in the boxing game or the papers would not give so much space to a matter of that kind when they can pass other events as they see fit.

It might be mentioned, too, that men are killed in mills, shops or mines daily, through carelessness or defects, but the people do not seem to be interested in these deaths.

From all the data at hand there is no doubt that Luther McCarty had no business in the ring that day, as a man in good health could not possibly succumb to a blow over the heart or under the heart, such as Peley delivered.

Dr. Fox of Milwaukee, who was an athlete himself, tells me that it might possibly have been from a blow to the solar plexus, which might for a few moments paralyze the heart.

John M. Christopher, William A. Spence and George W. Wilson, is estimated at \$8,400. Both Bob Johnson and Peley were in the ring with McCarty.

Both catchers who were here last season with the Lynn club have caught on in the New England League, Gus Dunson with Brockton and Weeder with Fall River. The latter club also has Tom Logan, who was sent by the Lynn team to the Eastern Association.

Willie Mains, the well known old timer, has written Manager Magoon that he has a boy wonder in a pitcher, a left hander, and Bill has been given permission to ship his protégé to Bangor for a try-out.

A pitcher from Boston said to be a second Walter Johnson, wants to join the Marathons and may be taken on. This week's games: Tuesday Bangor at Fredericton. St. John at Calais.

Wednesday St. John at St. Stephen. Thursday St. John at Fredericton. St. Croix at Bangor. Friday Fredericton at St. John. St. Croix at Bangor.

The Players' Records: The list of batting and fielding averages of the N. B. & Maine League players, as published in the Times last evening, has been the source of some very complimentary comment regarding Manager Leonard's aggregation.

THE "FIGHTING CROUCH" LIKELY TO DISAPPEAR

The disappointment of many of the fans over the recent Kilbane-Dundee fight convinces me that the "fighting crouch" will soon disappear from the ring, writes Jimmie Dunn, manager of the feather champion of the world, in the Los Angeles Times.

It was Dundee's crouch that spoiled the fight. You hear a great deal about Dundee chasing Johnny around the ring, but on the few occasions when they really mixed it hotly, Dundee covered up like a mud turtle and all that Kilbane could do was to hammer his fists on the top of Dundee's head.

A crouch nearly always spoils a fight, which he could hit with his right hand, which he could hit with his left hand, which he could hit with his right hand, which he could hit with his left hand.

Let us consider the case of Bat Nelson. He had a curious kind of crouch with both arms in front of his face. Most fighters would have been hopelessly handicapped by this attitude of Bat's, but he had two very peculiar advantages.

One was a savage crouch downward; the other what he called "accidental blow." He delivered this blow by turning his wrist and bringing the side of his hand down into his opponent's liver. This, he could deliver perfectly from his crouch.

Even at that, Bat's crouch might have been a very dull affair in a best game fighter, but he kept whirling in and viciously all the time that it didn't matter how he kept covered up.

Ad's crouch was of a different type from Nelson's. He kept his right hand up in front of his chin. He made no attempt to guard a blow, but merely turned his chin a little and took it on the side of his head and smothered it on this globe.

He never raised both arms and peeks out from between them like a man looking for a way out.

Jim Jeffrey's crouch has seldom been thoroughly understood. He did not crouch like either Nelson or Volagast. He did not lean over into his opponent, but crouched away from him by his own thrust left hand. This crouch, as every one knows, proved the perfect boxer in the ring of the clearest boxers in the world.

I don't believe in Joe Rivers' crouch. He never raises both arms and peeks out from between them like a man looking for a way out.

GREATEST HEADACHE CURE IN THE WORLD

Tortures of Chronic Dyspepsia Cured By "Fruit-a-tives."

SHANLEY, ONT., Sept. 23rd, 1910. "You certainly have the greatest Headache Cure in the world. Before 'Fruit-a-tives' came before the public, I suffered tortures from Headaches caused by Stomach Disorders.

One of your travelers called on me when I had one of my raging Headaches and had my head almost raw from continual applications. He insisted on my trying 'Fruit-a-tives.'

I did so with what I would call amazing results. They completely cured me and since then (nearly six years ago) it is only necessary for me to take one or two applications to preserve me in my present good health."

Dealers everywhere have 'Fruit-a-tives' at 50c a box, 6 for \$2.50—trial size, 25c, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

Used more correctly, but you will notice that he nearly always gives it a sort of downward whip when he hits, thus destroying part of the power.

The Rivers' Crouch: Rivers is naturally a straight puncher and it is next to impossible to deliver a straight punch without straightening up and abandoning his crouch. The consequence is that Rivers is either crouching or fighting. When the fight is coming his way too strong, he retires into a crouch like Dundee. When he fights, he has to straighten up and leave his crouch.

The crouch has been harmful to the boxing game in general. I notice that the preliminary boys and the boxers at the four-round Venice fights are beginning to crouch when they box. You can see that they don't know why they crouch; they only do it because they have seen or read of the prominent boxer who use that style.

You will see the crouch disappear very soon. The fans will demand it. The continuance of its use will bring about too many repetitions of the Kilbane-Dundee fight, where a fine boxer was in a hopeless position owing to the fact that his opponent covered up like a turtle and remains inactive every time the fight goes hot.

CUT DOWN YOUR WORK ONE-THIRD

(Department of Agriculture, Ottawa)

A decrease of labor with no diminution of income, but with general improvement of results, is a combination which appeals to any one. Labor-saving machinery and thoroughly efficient machines might just as well be used by dairy farmers as by any manufacturer. So the questions come: Have we efficient cows? Do they save or make work? Are they so good that they decrease both comparatively and actually the necessary amount of labor in keeping cows, and at the same time increase the income? Every dairy farmer needs to answer such questions as applied to his herd, and he can answer them satisfactorily when he keeps dairy records.

A statement made by the dairy division, Ottawa, regarding Ontario cows last year, was that dairymen are keeping sixteen cows to do the work of ten. So it is quite possible to cut down work one-third, and rejoice because possessing more efficient cows. To the scrap-heap with the old junk.

A Quebec dairymen after one year of cow testing writes the dairy division that he now gets as much milk from his thirty-two selected cows as he used to get from his larger herd of forty-two cows. Ten inefficient were beefed. Dairy farmers have not time to waste working for poor cows, so make sure that each one pays.

WATCH BANGOR; MAINE TEAM IS STRENGTHENING

Bangor Commercial, Editorial:—One in ten is not a large average, but now that the Bangor ball team has made a start in the right direction better things may be expected. There has been no discouragement in the city as the enthusiasts well understood the conditions and that a winning ball team cannot be obtained in a few days, but a team that is getting an even break will arouse considerably more enthusiasm than one that does not.

McGraw's Review Of the Big Leagues

By JOHN J. MCGRAW, Manager of the Champion Giants

(Copyright, 1913, by John J. McGraw) The American League contest has developed into a beautiful battle. In the early days of spring it looked as if it would be a walkover for the Athletics, but, out of the stable of dark horses, Cleveland has advanced and is giving the Philadelphia team a great old nip and tuck fight.

off for pitchers as he was last year. If Coombs were in the shape that he showed in 1910 and 1911, the race would be over now, but Coombs has been in bad condition all season and is just now recovering from a severe illness. It is foolish to count on him to do much for a month yet, and he may be off all summer.

Hope in His Pitchers
McAleer's pitchers are his biggest hope of repeating. It was a wonderful staff last year and is a wonderful collection now on paper. Bedient looked like a world beater to me in the big series last fall, and I expected to see him do big things this year. He had everything back at second, but he was not in the championship of the world back in 1912.

Much on Eastern Trip
As far as the Cleveland club is concerned, much depends on the result of this eastern trip. If Birmingham can keep his club up within two or three games of the Athletics until he gets back home, he will have a much better chance to win eventually. If he is crushed by Philadelphia, Washington and Boston, he is going to have a tough time.

and keep all the players on their toes. Norton and Zelder, who came to New York in return for Chase, are young players and ambitious. Callahan spoke very highly to us of Zelder recently and regretted he did not have room to play him regularly in his club. He is very well thought of in Chicago by baseball men. But the fans have been bothering him some, and the change should be a benefit to his work. Borton has done very well in his games this year and the few he played last season.

Tom Daly's Work Wins Good Words From Boston Sport Writer

Sam P. Carrick, a sporting writer of the Boston Post, devoted some thing a little better than a column in that paper on Saturday last to the speedy Lowell, Mass., team which has been playing snappy ball since the opening of the season.

Sam P. Carrick, a sporting writer of the Boston Post, devoted some thing a little better than a column in that paper on Saturday last to the speedy Lowell, Mass., team which has been playing snappy ball since the opening of the season.

He then singles out a few of the players and, treating of one of them, Eddie Miller, says he "should go higher next season, for he is certainly on" of the former North End lad Carrick writes:— "The name may be said of Tom Daly, a former Cambridge school boy, who is now playing his first professional ball. Daly gets after fouls nicely, throws to bases well and handles himself like a catcher of several years' experience instead of a man just breaking in. All that he needs is a little more experience to make him a valuable man for a big league team."

RODMAN LAW WENT OVER STILLWATER FALLS

Moving Picture Plan, Which Failed Here, is Success in Maine

Bangor Commercial.—For the first time in the recent history of Stillwater Falls, which is one of the roughest bits of rapid water in this part of the state, a man went over it on Saturday afternoon and came out alive. That man was Rodman Law.

Law made the break neck trip in a bathtub. The river swollen by recent rains, was almost at freshet pitch, and the current swift. Over the great concrete dam, a sheet of water made a sheer drop of more than twenty feet, boiling in whirling foam through jagged rocks below. Then there was a dangerous whirlpool, a succession of rapids, before the stream, hundreds of feet farther down, relapsed into a more placid course.

SOME CLOTHING FACTS FOR MEN WHO THINK
All students of economics agree that the high cost of living is largely due to the present method of buying necessities through the middleman.
Direct dealing with the producer and the consequent elimination of the middleman's profit will, they say, solve the problem.
Take the case of clothing for instance: When you buy clothing at any store in Saint John, except Oak Hall, you must pay TWO PROFITS—the manufacturer's and the retailer's.
It is the combination of profits, the manufacturer's plus the retailer's, which increases the cost to the consumer.
At Oak Hall you buy directly of the producer and you pay but one profit.
You get everything that you can possibly get anywhere else, and more, too. You get the best fabrics, the finest tailoring, the most approved style, an unequalled assortment of styles, patterns and color effects.
You get satisfaction at every point, and you get it for far less than you'd have to pay anywhere else.
It's simply a case of eliminating the middleman's profit, and you save from 25 to 33 1-3 per cent.
Now these are facts that will be clearly evident to any man who investigates, and we think you will agree with us that they are worth investigating.
