YORK TORIES AT DOORS AS THEY GO INTO CONVENTION

Dr. Morehouse Likely Candidate But Not Without Protest—Royal Gazette Notes

(Special to Times) Fredericton, Mar. 15.—The public accounts committee held its first meeting this morning and after organization did nothing of note. The real work will begin tomorrow morning when the accounts will be taken up in detail.

The Conservatives are gathering for a convention this afternoon and it is freely stated that Dr. Morehouse will be the candidate chosen. Premier Hazen is expected to return from Ottawa today.

O. S. Crockett, M. P., was to have returned to Ottawa yesterday but remained here to assist in straightening things out. The machine has selected Dr. O. E. Morehouse, of Newville, as the candidate but it is by no means certain that he will get the nomination without a protest from the dissatisfied ones into line but with only indifferent success.

Fred. M. Tweedie, R. A. Snowball and others are seeking incorporation as the Chatham Curling Club.

The Royal Gazette contains notice over the signatures of Provincial Secretary Fleming notifying petitioners that they must use fewer words in future when requesting incorporation.

Several cases of diphtheria have broken out at Gibson and it has been found necessary to close the school there.

MILLINERY OPENINGS IN ST. JOHN; NEWS OF THE FASHIONS

The wholesale millinery openings are being held in St. John today.

The following article on spring millinery is quoted from the Maritime Merchant—

Shades.—The shades for millinery are, in the first place, Royal, Flamingo and coral, red, Beette and Pheasant and Turquoise. The bright Emerald shades are forgotten.

Shapes.—It is hard to say which will be really best for the coming spring, as the Paris milliners are presently showing shapes of all kinds, from the very small tight bouquets to the very large well-known picture hats of Georgette. Toques with their usual fitting and rather high crown towards the back, are still in great favor to the large hats, the mushroom shapes are still good, but have no more of those ugly turned-down brims down to the nape of the neck.

Materials, Trimmings.—These are a subject to an unusually great variety of hats with very little on the side. Others are entirely trimmed with flowers, or have a very fine ostrich plume attached up at the back, or a pretty fancy standing up at the back, or a pretty fancy standing up at the back, or a pretty fancy standing up at the back.

We repeat that the practical medium hats are in general trimmed with quantities of flowers, principally roses in high relief, the same shade or with two different colors, facings such as blue lined, matching the same effect in the rose. Small rose buds and small crushed roses in various dark colors mixed, and laid flat around the crowns are also largely employed as are dainty little bouquets of small flowers for a side ornament.

A very pretty trimming consists of smaller rose bouquets with silk foliage of the same shade or with two different colors, facings such as blue lined, matching the same effect in the rose. Small rose buds and small crushed roses in various dark colors mixed, and laid flat around the crowns are also largely employed as are dainty little bouquets of small flowers for a side ornament.

Several cases of diphtheria have broken out at Gibson and it has been found necessary to close the school there.

CARPENTERS MEET TONIGHT

Editor Times-Star, Sir—I have been making a canvass of the city and I find the carpenters as a rule, filled with enthusiasm, and eager for organization. They all feel that in order to meet the increased cost of living there must be an increase in wages.

The following facts concerning the United Brotherhood will give some idea of the support we have to fall back on. The total membership, which increased last year by 2,200, now amounts to 20,712. During the last two years the organization paid to members and widows of deceased members, in the form of death and disability benefits, the sum of \$497,747.13. During the same period there was special connection with trade disputes \$91,000. In conclusion, I want to say that this is not a small sum.

We are looking forward to a great meeting tonight in spite of the unfavorable turn the weather has taken. I sincerely hope that our carpenter will allow a little rain to interfere with the interests of himself and family, and of the trade generally, to the belief will be the biggest meeting of carpenters ever held in St. John.

Thanking you for your valuable space, I remain, Yours truly, UNDERPAID CARPENTER.

TO HELP IN PAYING OFF THE DEBT ON THE building erected by them a few years ago, the Alexandra T. of H. minstrels are making preparations for an entertainment which promises to be a distinct success, and which they will conduct on March 27 and 28. By means of previous entertainments of this nature and other sources the debt has been materially decreased. The members of the circle have considerable talent, and a good programme is promised. Hazen Taylor will act as pianist, and the soloists will be Elmer Holder, H. Dykeman, H. Taylor, F. Dykeman and Richard Dalbel. The ends will be Jas. C. Bond, Wm. J. Devereux, A. Bailey and W. Estay.

DREDDING CONTRACT. John Burns, dredging contractor, of Ottawa, is at the Royal on his way from Piquet, where he was looking after some dredging contracts. He will likely return home tonight.

LAMENT OF THE IRISH EMIGRANT

I'm sitting on the stile, Mary, Where we sat side by side, On a bright May morning long ago.

The place is little changed, Mary, The day is as bright as then; The lark's loud song is in my ear, And the corn is green again.

I'm very lonely now, Mary, For the poor make no new friends; But, O! they love the better still The few our Father sends.

I thank you for the patient smile When your heart was fit to break— When the hunger pain was gnawing there, And you did it for my sake.

I'm bidding you a long farewell, My Mary—kind and true; But I'll not forget you, darling, In the land I'm going to.

The meeting of the Miramichi Presbytery this week voted in favor of church union, nineteen to four.

MAKING IT ALL RIGHT.
Millionaire (to ragged beggar)—"You ask alms and do not even take your hat off. Is that the proper way to beg?"
Beggar—"Pardon me, sir. A policeman is looking at us from across the street. If I take my hat off he'll arrest me for begging; as it is, he naturally takes us for old friends."
—Flegende Blaetter.

TRIMMINGS.
Husband—"I gave you \$20 for a new dress, and now you want \$20 to trim it!"
What in the world are you going to trim it with?"
Wife—"With a new list, of course."

Watch That Bald Spot

Old, middle aged and young men should keep a sharp look out for thinning out of hair right on the top of the head.

If your hair has already started to fall, if you have dandruff and your scalp itches at times, your hope lies in Parisian Sarg, a really scientific hair preparation.

In Parisian Sarg there is one ingredient that supplies nourishment to the hair root, one that kills the dandruff germs and another that puts life and lustre into the hair. But most marvelous of all is one ingredient that makes it possible for the others to penetrate into the scalp, get to the root of the hair and do their duty.

This wonderful agent keeps the other ingredients to soak and get right down to the hair root. The hair worries and the scalp ailments, dandruff, itching, and the hair falls out. Parisian Sarg stops the hair from falling out, and it stops itching scalp.

Parisian Sarg is sold in a bottle of Parisian Sarg, 50c at E. J. Chipman and A. Chipman, where or by mail, charges prepaid from Groux, Mfg. Co., Fort Erie, Ont. The girl with the Auburn hair is on every package, also guaranteed in Parisian Sarg, at all drug stores.

The Evening Chit-Chat

By RUTH CAMERON

I WONDER if there is a person in my audience who owns any books at all, who has never in his life lost a book by loaning it to some one who completely omitted the little ceremony of returning it.

I doubt it.

I wonder also if there are very many people in my audience who could hold up their right hands and swear, "Haven't a book in my possession which have kept longer than I should have."

Again I am a doubter.

The cheerful latitude which many people allow themselves on the subject of borrowed articles—especially books—is really almost amusing.

I was at the home of a friend the other day when she was giving its annual spring overhauling to her library. In the course of this upheaval she came upon a volume which she had borrowed TWENTY YEARS ago.

She was greatly astonished at finding it.

"To think I never took that book back," she said, "and just think how long it has been dead!"

(By-the-by, please excuse an irrelevant remark, but isn't it queer that despite our belief in a better and happier world we continually refer to people who are dead as "poor So-and-So.")

My friend dusted the book and put it back on the shelf with a sigh that was evidently more for poor M. than for her own culpability in the matter of the twelve years. And yet she is in no matters a very conscientious woman.

Of course the man who has two or three books in his library which he borrowed so long ago that he actually doesn't know where they came from or if he does know, has lost track of the owners, would be indignant if you told him he had stolen from his friend.

And yet what is the difference between such prolonged borrowing and stealing? A difference in intent is to be sure but not much in results.

The borrower always has a comfortable feeling that "some day I must return that book."

Some day is a very dangerous word, my friend.

It is such a convenient curtain to hide your culpability from yourself.

Admit frankly to yourself, "I shall probably never return that book," and then perhaps you will feel such a sense of guilt that you will return it tomorrow. Or better still today.

GREAT REVENUE BUT PROVINCE PLUNGED DEEPER IN DEBT

Fleming, in Budget Speech, Adopts View He Condemned While in Opposition—Vigorous Reply by Mr. Tweeddale—The Figures

Frederick, March 14.—There were many absent members including Premier Hazen and Hon. C. W. Robinson, as well as empty galleries when Provincial Secretary Fleming began his budget speech this afternoon.

He made the most of his case and began his statements in regard to the finances of the year with moderation and finesse. He noted the net increase of the debt was \$185,280.23, which he contended was less than had been added for many years. For much of this, he said, permanent bridges were responsible, and that in opposition the house sprang to hear that such expense was proper for futurity to bear when some years ago, when in opposition, the provincial secretary was one of the strongest critics of that policy, holding that all such expenses should be paid out of current account.

He took up the Telegraph's statement in regard to the provincial secretary's amounts ordered paid by the treasury board November 8, were included in the over-expenditure amounting to the sum of \$1,147,830.23, but what is in the auditor's report, but it seems difficult to find them. On that date \$6,739,448 was ordered paid for bridges, and \$677,000 for wharves, and on page 130 of the auditor's report there is noted over-expenditure on roads and bridges, \$50,149.67, and wharves \$15,178.50. The amounts passed November 8 may be included in these over-expenditures, but there is nothing to indicate this in the auditor general's report.

Again, on October 31, the King's Printer asked for \$180.63 to pay bills, and this amount was passed and ordered by the treasury board November 8, but what is there to show that this amount is part of the over-expenditure of \$3,148.27 for printing?

The Estimates

In the estimates of the receipts for the coming year the provincial secretary places the territorial revenue at half a million, which is some few thousands in excess of the largest amount obtained last year. It is worth noting that he anticipates getting \$10,000 more from import duties, and that these and some other slight differences account for a small increase in estimated income of \$1,337,815.21, as against \$1,231,440.05 last year. The estimated expenditure is \$1,315,622.32.

Agriculture has increased from \$41,478.30 to \$57,888.33; education, \$274,310, as against \$255,922.80 last year; and executive government has increased from \$38,938.67 to \$47,262, while fish, forest and game protection has decreased about \$8,000. Printing, too, has gone up with the rest, \$15,880 being estimated as the cost, which is much larger than the estimate of last year, but less than the actual cost, which was \$14,448.27.

W. E. Foster's speech on public works last year and the estimate for 1911 is \$131,800.

A bill was introduced to give the University of New Brunswick some \$30,000 more. The increase of \$150,000 in the agricultural estimates is partly accounted for by \$2,000 for the encouragement of poultry raising, which covers the salary and travelling expenses of Seth Jones, the inspector, and \$15,000 increase in the appropriation for horticulture. Other items stand about the same as last year, with some slight increases. The salaries of the officials, nearly \$5,000, are included in the appropriation.

Mr. Tweeddale

Mr. Tweeddale began a vigorous reply to Mr. Fleming at 9:30 and spoke for half an hour, dealing effectively with the hostile speech of the provincial secretary. He ridiculed the idea that increased revenue was due to efforts of the old government and Dr. Papeley by securing \$120,000 more subsidy every year.

Then, in rapid succession, he dealt with the efforts of the minister of public works, when in the legislature, to obtain justice for this province and an increased revenue. He ridiculed the idea that increased revenue of the province came from any other source than the public domain of the country. It was not because of any great vigilance or honesty on the part of the administration, but because the lumber cut upon the crown lands had been greater.

The speaker made an excellent argument against the provincial secretary's referring to other avenues of export of lumber from the province, that the government inquiry into the dandruff and scalp ailments of the province has no certain knowledge of its forest resources. The public domain are placed upon the statute books by the former government, and if the department had followed out its provisions it would be in possession of exact information in regard to our forest wealth.

Amid laughter of the opposition, Mr. Tweeddale showed from the auditor's report how the money was expended on roads and bridges, and the large sums paid

DYSPEPSIA Can Be Cured.

This disease is the all prevailing malady of civilized life, and one which often baffles all ordinary treatment. It gives rise to a great variety of distressing symptoms, such as distress after eating, rising and souring of food, wind in the stomach, heartburn, etc.

Nearly everything that enters a weak dyspeptic stomach acts as an irritant; hence the great difficulty of effecting a cure.

The long train of distressing symptoms, which render life a burden to the victim, is dispelled by the use of Bile Beans, a natural, pure, and effective remedy.

B.B.B. regulates the stomach, liver and bowels, purifies the blood, and cleanses the system.

CURING CATARRH

Accept My Advice and Try This Remedy at My Risk

Catarrh is a disease of the mucous membrane. The mucous membrane, it is one may say, the interior lining of the body. Catarrh therefore may exist in any part of the system.

When the catarrhal poison attacks the mucous membrane, inflammation and congestion are produced and nature fails to throw off the accumulated poisons. The organ which has been afflicted ceases to perform its proper function as nature intensifies should. The result is a suppuration which may lead to other and more serious affections.

I have used the special Muc-Tone emulsion and the prescription of an eminent physician who made a long study of catarrh, and his great success with this remedy has led me to advise you to try it.

If you are a sufferer from catarrh in any form, to give Muc-Tone a thorough trial. Use it with regularity and persistency for a reasonable time, then if you are not satisfied, come back and tell me, and without question or formality I will hand back to you every cent you paid me. This is certainly the finest offer that any one could make and should attract my sincerity of purpose. It comes in two sizes, prices 50 cents and \$1.00. Remember you can obtain it only at—The Retail Store, Chas. R. Wason, 100 King street.

HALLS TO LET

WHY DO CHILDREN LIKE ZAM-BUK?

A Chat With Mothers

"Whenever my children have any sore places, cuts or skin troubles, they ask for Zam-Buk. They can always depend upon it doing what is needed."

So says Mrs. A. M. of 170 Chatham Street, Montreal. A missionary, writing from the West Coast of Africa, says: "The boy who was treated for a bad case of ulcer, came back recently and said 'I like best that green medicine. The green medicine is Zam-Buk.'"

Now why should children, all the world over, show such a marked preference for Zam-Buk?

Children like Zam-Buk because, as soon as applied to a burn, a cut, or a sore, it stops the pain and then gradually, but surely, it heals. As soon as the pain of a wound or sore is relieved, a child can go on with its play and learn Zam-Buk to finish off the healing.

Mothers might look a little suspiciously into the action of Zam-Buk. It is highly antiseptic. As soon as applied to any all danger of festering, blood poisoning, and inflammation. Second, it soothes. It cools the wound or sore; soothes irritation, stops the pain and soothes. Then, thirdly, it stimulates the cells beneath the injured part to healthy action. It causes the speedy creation of healthy tissue.

Just try Zam-Buk for cuts, or burns, or cold sores, or eczema, ulcers, rashes, bad leg, piles, varicose ulcers, or any inflamed or diseased condition of the skin. Its effect will highly satisfy you. It is sold in drug stores and stores 5c. box, or free from Zam-Buk Co., Toronto, for price. Return harmful imitations and cheap, worthless substitutes.

THE SHAMROCKS MEANING

What does the shamrock mean, mother? What does the shamrock mean?

It's only a flower that fades in an hour. Like every other we've seen.

Why do the Irish rejoice, mother? Why do the Irish rejoice?

O'er that odorous gem lying hid in the glen, And claim it's the pick and the choice?

Give ear and I'll answer you plainly, Give ear, and I'll answer you, I say.

Why the Emerald Isle with a tear or a smile, The trefail will ever display.

It's the emblem of legions unconquered, It's the emblem of peace and of love; Among all other gems it's a rarity, That's set from the realm above.

It's the emblem of legions unconquered, Thro' the length and the breadth of the world; And the flag of the empire is anchored 'Neath ere it once is unfurled.

In the far distant suburbs of Brussels, In the Crimean Valley they died red thro' the carnage and heat of the battle, Victorious legions it led.

The awful mistake at Majuba, It rectified now by Ode; And peace and prosperity reigning To-day on the African veldt.

And we hope ere another year opens, That the hope that has long been our dream, At the silence a century unbroken, In the parliament hall, College Green.

May be broke by that one grand oration That will echo the civilized world, That Erin once more is a nation, Tho' the harp with the crown's still unfurled.

That's why the shamrock revered, love, O'er the length and the breadth of the earth, By the brave and true hearts it has reared, love, Scattered far from the land of their birth.

DISEASE WAS SPREADING

Till D. D. Cured it

This is a translation of a letter written in French, on April 18, 1910, by Mr. Des Babin, Cap Lambert, N. B. "I had been suffering with eczema for about 6 months, and had consulted several doctors, who did not do me any good. The disease was spreading and it was most uncomfortable. I thought I would go away. All my friends were telling me I would lose my mind unless I found the right treatment.

One day I read in the Montreal Star about D. D. treatment and I bought the medicine. It did me so much good that I immediately ordered two more bottles. I took eight bottles altogether. I shall never be without a bottle of D. D. in my home."

The records of ten years of complete cures of thousands of the most severe cases show that D. D. D. stands today as the absolutely reliable eczema cure.

Write today for free trial bottle to the D. D. D. Laboratories, Dept. S. T., 49 Colborne street, Toronto. It will give you instant relief. Chas. R. Watson and E. Clinton Brown, local agents.

McFarland Beats Moran

New York, March 14—"Pucky" McFarland, the Chicago lightweight, outpointed Owen Moran, champion of England, in their ten round fight before the Fairmont A. C. here tonight. It was a hard fought battle, throughout, in which the Chicago boy fully demonstrated his superiority in boxing over the Englishman.

Donnelly Shows up Well

In the boxing bout between McGill University at the M. A. A. at Montreal on Saturday, the collegians captured four of the six events. In speaking of the heavyweight "go," in which Donnelly, St. John ball player, represented McGill, the Star says: "Donnelly, of McGill, outpointed McMurty, a former McGill man, now representing the M. A. A., in the heavyweight class, but an extra point was to be boxed before the judges could render their decision."

A Western Hankin

According to Norman Rankin, whose sketch of George Lane, in March, CANADA MONTHLY, occupies the first pages of the magazine, Lane's history has been the history of the West.

Lane was born in I-o-way, and when but a strapping moved into Kansas with his parents. When he grew to be sixteen years old, could kick every kid of his age in the district, detested "gurus" and smoked cigars, he took the long trail across Nebraska and Wyoming into Montana. His father had "blazed the way" there some years before, and the kid "ran him down" in "Virginy City."

It was a common practice in those days to drive beef 700 miles to market, shipping at Grange via the Union Pacific.

Chicago. Big herds would start in April for October shipment. In '83 he made a trip as far north as Fort Kipp in Alberta, and when he returned in the spring, he announced his intention of making Alberta his headquarters.

It is said of George Lane, that he has a great respect for the maple tree, for it was the source of his first earnings. When he was a small kid back at home, he picked two sacks of maple seeds, which he sold for ten dollars, real money; this money he converted into two calves, the foundation of his present enormous cattle business.

Today his estate is numbered by the thousands, and in addition to his land interest in the Bar U, owns a small ranching in acres south of Dawson, "Flying E" ranch at Willow Creek, and other trifling properties. At the "Flying E" he has a summer home, and generally spends part of each year there with the family.

Mr. Lane doesn't always care his trousers, and his hat is the same old Stetson that he has worn since "way back"—"I don't say how long," he says, "but I don't know how long. His pepper-and-salt long-tailed cutaway is known from the Coast to the Pac. His is a picturesque figure; an attractive personality; a double-barrelled, back-action, high-pressure, electrical dynamo at full speed; a living example of perpetual motion, mental, physical and corporal; a six-foot giant with towel-curl hair and the smile of a saint of charity. His skin is tanned the color of a saddle, or a sorrel horse, and his voice rumbles like a big drum.

The Chess Masters

San Sebastian Spain, March 15—(Canadian Press)—Before the beginning of play today in the fourteenth round of the International chess tournament, it was announced that Duras beat Marshall on Monday in the thirteenth round. It had been erroneously reported that Marshall and Duras had played a drawn game. The results of yesterday's play were:—Duras best Burn; Niemzowitch drew with Marshall; Maroczy drew with Vidmar; Capablanca drew with Teichmann; Spielmann drew with Rubinstein. The games between Leonard and Tarasch, Schlecter and Bernstein were adjourned. Jasovitch a bye.

BOARD OF HEALTH

At the monthly meeting of the board of health yesterday afternoon, it was decided to send a communication to the common council asking that a committee be appointed to confer with the board regarding the establishment of an incinerator plant for the destruction of garbage.

Judge Armstrong, solicitor for the board was instructed to legislate action against some fifteen persons who have neglected to install proper sanitary appliances in their premises as required by law.

The secretary reported 89 deaths for February. Reports were received from other officials and routine business transacted.

CONSERVATIVE WHO HIT HARD BLOW AT BORDEN

PREPARING FOR RACE ON THE THAMES

London, Mar. 15—Interest is becoming marked in the Oxford-Cambridge Varsity race to be raced on the Thames on April 1.

One or two important changes have taken place in the Oxford and Cambridge variety crews, and it is believed that the final selections have been made, so that the last weeks of training should be entirely uninterrupted.

As regards Oxford the most important change is the inclusion of D. Mackintosh, former Cambridge rower, who was a resident, and was not expected to row at all. His presence will make a material difference in the Oxford crew in the matter of steadiness on the bow side.

The Oxford crew expect to arrive on the Thames in London about March 18, for their practice over the course, and they pass them from the hands of their coach, H. B. Purvis, to Harvard Gold, who coached them last year.

The Oxford crew started the season with two old blues, G. G. Bourne (stroke) and A. S. Garton (6). They are in strict training and at present under the coaching instructions of Dr. Bourne, who so far has been very promising and it is generally conceded that the crew is full of genuine workers.

As regards Cambridge the most important change is the inclusion of D. Mackintosh, former Oxford rower, who was a resident, and was not expected to row at all. His presence will make a material difference in the Cambridge crew in the matter of steadiness on the bow side.

As regards Cambridge the most important change is the inclusion of D. Mackintosh, former Oxford rower, who was a resident, and was not expected to row at all. His presence will make a material difference in the Cambridge crew in the matter of steadiness on the bow side.

The Cambridge crew expect to arrive on the Thames in London about March 18, for their practice over the course, and they pass them from the hands of their coach, H. B. Purvis, to Harvard Gold, who coached them last year.

The Oxford crew started the season with two old blues, G. G. Bourne (stroke) and A. S. Garton (6). They are in strict training and at present under the coaching instructions of Dr. Bourne, who so far has been very promising and it is generally conceded that the crew is full of genuine workers.

It is said of George Lane, that he has a great respect for the maple tree, for it was the source of his first earnings. When he was a small kid back at home, he picked two sacks of maple seeds, which he sold for ten dollars, real money; this money he converted into two calves, the foundation of his present enormous cattle business.

Today his estate is numbered by the thousands, and in addition to his land interest in the Bar U, owns a small ranching in acres south of Dawson, "Flying E" ranch at Willow Creek, and other trifling properties. At the "Flying E" he has a summer home, and generally spends part of each year there with the family.

The Chess Masters

San Sebastian Spain, March 15—(Canadian Press)—Before the beginning of play today in the fourteenth round of the International chess tournament, it was announced that Duras beat Marshall on Monday in the thirteenth round. It had been erroneously reported that Marshall and Duras had played a drawn game. The results of yesterday's play were:—Duras best Burn; Niemzowitch drew with Marshall; Maroczy drew with Vidmar; Capablanca drew with Teichmann; Spielmann drew with Rubinstein. The games between Leonard and Tarasch, Schlecter and Bernstein were adjourned. Jasovitch a bye.

BOARD OF HEALTH

At the monthly meeting of the board of health yesterday afternoon, it was decided to send a communication to the common council asking that a committee be appointed to confer with the board regarding the establishment of an incinerator plant for the destruction of garbage.

Judge Armstrong, solicitor for the board was instructed to legislate action against some fifteen persons who have neglected to install proper sanitary appliances in their premises as required by law.

ROAD IMPROVEMENT SCHEME IN IRELAND—FIFTEEN HUNDRED MILES TO BE BUILT OR IMPROVED

Dublin, March 15—The road improvement scheme which has grown out of the finance bill of last year is now being made public in Ireland. Provision is made for the remaining or improvement of 1500 miles of road. There will be a highway all round the island, giving access to the county councils of each of the twenty-nine counties through which these roads will pass.

Cork and Sligo have already, it is said, come to an agreement with the board and will therefore be the first to benefit, and the work will be continued in each county as it accepts the conditions, such as steam rolling, laid down. The proportion of the fund to be spent in Ireland amounts to \$750,000 and is derived from the taxes on automobiles, petrol, etc.

PERHAPS NOT. (Brooklyn Life)

An instructor in a church school where much attention was paid to sacred history, particularly on the phrase, "And God took him," said that he had been asked many times in connection with the resurrection of the Bible what is said of Enoch's death. But this was the answer he got: "Enoch was not what God took him for."

Could Not Rest at Night. Back Was So Weak.

Weak, lame and aching backs are the primary cause of kidney trouble. When the back aches or becomes weak it is a warning from the kidneys that everything is not right with them.

heed the warning: cure the weak, lame, aching back and dispose of any chances of further trouble.

If you don't do this, serious complications are very apt to arise and the first thing you know you will be troubled with Dropsy, Diabetes or Bright's Disease, three most deadly forms of kidney trouble.

On the first sign of anything wrong, don't let your kidneys get taken. They go to the seat of kidney trouble and strengthen them by Dr. Williams' Pink Pills for Pale People.

Mrs. John P. Parkdale, Man., writes:—"I have used Doan's Kidney Pills and find it doing me good. I could not rest at night my back was so weak. I tried everything, but could not get anything to do me any good until I was told by a friend to use Doan's Kidney Pills. I tried them and I am not the same weak woman I was before. I am very thankful to have found so speedy a cure."

AMUSEMENTS FOR OURSELVES AND OTHERS

OPERA HOUSE

For the first time in this city, Clamence Pollock's charming romance, Such a Little Queen, will be seen this afternoon and tonight in the Opera House. This play was produced in New York last year, where it ran for over six months and later duplicated its success in Boston. Such a Little Queen is under the direction of Henry B. Harris, the well known manager, who has given the American stage such successes as The Chorus Lady, The Third Degree, The Traveling Salesman.

THE STAR

The Star Theatre for tonight and tomorrow promises a fine new bill of pictures with which to regale its patrons. There will be a new comedy of unique type, "Vivian King is in the programme in dainty costume songs; free shamrocks for Thursday night's patrons; a real sprig of Ireland's plant for everybody.

THE UNIQUE

A western drama abounding in thrilling situations and good western settings is announced in the American story, "In the Land of the Cactus," to be featured at the Unique Theatre today and Thursday. The scene where the guard of the bandits' hideout is thrown from a cliff marks it as somewhat unusual. Little Mary King of Biograph fame will be seen in "The Day of the Doves," "Her Dark Hour," with the popular actress as the village school teacher. Plenty of good comedy is in the program tonight. "The Days of the Flood," Miss Mackenzie has scored a hit singing "Silver Threads And Needles" with appropriate costumes. This act is said to compare favorably with the dancing Mitchell.

THE GEM

A feature which is always a welcome source of diversion in moving pictures is a story of the high seas, dealing with piracy, smuggling, and adventure, and such is the production entitled "The Gem," by the Selig Co., announced at the Gem Theatre for today and tomorrow. The picture is replete with thrilling and sensational incidents, the capture of a man and woman by the Buccaneers and their escape as swash-bucklers in dramatic and exciting. The Biograph Company will present a pretty tale of poverty, love, and romance in the streets of east side New York, entitled "The Lily of a Poem," showing the oppression of a poor young girl and her family by a tyrannical rich man, and how the latter's son changes the condition of affairs. The third reel is a "Warrath" comedy, "A Lunatic at Large," Tom Waterall will sing, "Oh You Dream" and the orchestra has some nice new pieces. On Friday there will be special Irish music and Irish songs, with another big feature.

But yet you love us! Yes, we do! The work we do is all for you, For you we delve deep in the mine, For you we buy the valentines, For you the cowboy chaps steer, For you the actor sheds his tears, For you we rise at early morn, And turn the wheels and plow the corn, For you we eat the ragus main, For you we hustle home again, For you we rush from place to place And cure grave wrinkles in our face, And we grow stooped, Till, seeing you Say—sizing up your gown and hat—"How could she ever marry that!"

TELEPHONE MATTER OFF ONCE AGAIN

Adjournment Until Next Wednesday Because of Mr. McLennan's Illness—Chairman Asks for Further Information From Company

The adjournment of the Public Utilities Commission when they met today to commence the hearing into the matter of the New Brunswick Telephone Company and the hearing goes over until Wednesday, March 22, at 10 a. m.

There were present this morning Col. D. McLennan, chairman, G. O. D. Oddy and F. P. Robinson, secretary of the commission; A. P. Barnhill, K. C., counsel for the telephone company; H. Powell, K. C., counsel for the board of trade and Mrs. E. B. Smith, stenographer. The chairman announced that, just after adjournment at the last meeting a telegram had been received from Dr. Belliveau, stating that Mr. McLennan was ill in bed and he had forbidden his leaving. He would be able to come to St. John on Monday next. It was decided, however, that as the monthly meeting of the board would be held on Wednesday next, that adjournment would be made until that date.

The chairman said to Mr. Barnhill that he had been looking over the summary of the accounts of the telephone company and some of the items were not quite clear to him. He said that he should send a letter to the company pointing out the trouble the pocket was causing, and if this did not prove sufficient, other steps would be taken.

The complaints said that the coal dust, blowing almost constantly from the coal pocket, made it very uncomfortable for passengers on the steamers, and that the dust sifts through the doors into the cabins, so that babies are unable to sit there without soiling their clothes. They contended that the ferry being a public utility, it was a matter for the city to see that the service was satisfactory in every way.

Mr. Starr promised to bring the matter to the notice of the Dominion Coal Co. by wire, and he thought this could be sufficient to bring about the desired arrangement. This, he thought, the company would be willing to do. It was also decided that the mayor should send a letter to the company pointing out the trouble the pocket was causing, and if this did not prove sufficient, other steps would be taken.

TO REMEDY THE WEST SIDE COAL DUST TROUBLE

Delegation Heard By Mayor—Coal Company To Be Notified By Agent and His Workshop

A large delegation from the west side waited upon Mayor Prink this morning and made formal complaint about the trouble at the west side ferry boats, caused by coal dust from the Dominion Coal Company's coal pocket, on the wharf north of the floats. Among those in the delegation were: G. S. Mayes, C. B. Lockhart, Constable Glen G. Brown, S. Merritt Wetmore, W. O. Dunham and others. E. P. Starr, was also present, representing the coal company.

FIRST RAIN STORM SINCE FEBRUARY 4

Came Down in Good Style and Caught Many Unawares—Helps The Streets

St. John is "enjoying" or "enduring" the first rainstorm of the season today, and, as it has developed into a downpour of very generous proportions, the street railway has been reaping a harvest from the unsuspecting ones who were caught unawares. The rain was accompanied by a fairly high wind and many umbrellas came to grief and were abandoned by their owners.

The merchants dealing in rubbers, rain-coats and umbrellas welcomed the change in the weather, as business in these lines was given quite an impetus. Today's rain is the first St. John has experienced since February 4, and one good result will be to give the streets and sidewalks a well-needed washing. A number of catch-basins in various parts of the city were taken off-guard and refused duty, with the result that sidewalks in several streets are flooded. The rain is likely to weaken the ice in the river and to have the effect of taking considerable frost out of the ground.

AWAY TOMORROW
J. N. Harvey who is spending a few days in the city will leave for New York tomorrow night. He expected to leave tonight but was unable to get away. He will be accompanied as far as New York by Mrs. Harvey. From New York Mr. Harvey will proceed right on to the coast. Mrs. Harvey returning to this city. In all probability Mrs. Harvey will leave for the west in June.

OPENING DISPLAY OF SPRING STYLES IN Men's and Boys' Clothing

A special invitation is extended to the men and women of St. John and vicinity to our store Friday and Saturday—two days set apart for our first complete showing of the first complete showing of the correct fashions for the incoming season.

Parents' interest, boys' comfort—both considered and met in this Spring Showing of the New Oak Hall Clothing for Boys.

As long as parents pay for their boys' clothing, they are interested in the SERVICE and COST, as well as the APPEARANCE of the clothing they buy. The boy who WEARS the clothing is more particular that it should be COMFORTABLE and have the general style of clothes that "other boys wear." Oak Hall Clothing for Boys satisfies both parent and child.

The new Spring Showing is very handsome. There are many specially selected fabrics, in BOYISH patterns, and they are made into suits—in models not shown in any other store—by SPECIALISTS in boys' clothing.

Come and inspect whether you want to buy or not—you are very welcome.
