MINERS' UNIONS ARE ELECTING DELEGATES

Question of Finding Work for All Men May Lead to a Long Dis-

are engaged to-day in electing delegates to the mine workers' convention, to be held in the Nesbitt theatre here next Monday, to consider the acceptance of the plan of arbitration submitted by President Roosevelt. These meetings are being held in accordance with the call sent out yesterday by the three executive boards. There is nothing on the surface at this time to indicate that the arbitration scheme will not be ac-

President Mitchell knows the sentiment of the men, and would not have agreed to the proposition had he any doubt that a convention would not raufy his action. Objections will be raised on the floor of the convention to certain features of the plan, but they will not be of a serious nature.

One of the many obstacles to be sur-mounted by the union is that of finding work immediately for all of the strikers. Every man wants his old place back, but as the companies have decided to care for all of the men who have stood by them during the strike, there will be some disappointments. This matter will be fought out on the floor of the convention. Officers of the union confidently believe that it will be amicably adjusted. It is probable that the business. delegates will decide to care for all men who are not given work at once.

Delegates Selected.

Mount Carmel, Pa., Oct. 17 .- Twenty meetings of locals of the United Mine Workers were held in this region to-day, and delegates to the Wilkesbarre conven tion were chosen. In nearly every intion were chosen. In nearly every instance the delegates were instructed to follow the advice of President Mitchell and York Yacht Club, which sailed from the district officers. Reply to President.

Washington, Oct. 17.—The latest cor-beyonderce between Provident Possible to the recent heavy gale off the Irish coast. She is so respondence between President Roose-veit and John Mitchell, president of the will have to return to Glasgow and go United Mine Workers was made public into dock for repairs. at the White House to-day. It consists first of the following telegram from President Roosevelt to Mr. Mitchell, dated Washington, October 15th:
"I have appointed as commissioners Brig.-Gen. John M. Wilson, Mr. E. W. Parker, Judge Geo. Gray, Mr. E. E. Clark, Mr. Thomas H. Watkins and Bishop John L. Spaulding, with Hon. I now most earnestly ask and urge that Sea. SAYS REVOLT IS OVER.

Gen. Perdomo Announces That Colombian Rebels Have Been Defeated.

VICTORIA, B. C., TUESDAY, OCTOBER 21, 1902.

Panama, Oct. 17.-General Perdomo yesterday notified the foreign consuls here that he had assumed the functions of supreme commander of the Colombian forces on the Isthmus, as well as those of the minister of state. General Perdomo has taken an active part in the military affairs of Colombia during the last 35 years, and to-day is the right hand man of Minister of War Fernandez. In an interview this morning with

the representative of the Associated Press, General Perdomo said:
"With the exception of the department of Panama, where General Herrera has his forces, and a few guerrilla bands in the departments of Magdelena and Boliwar, the republic is pacified. Traders travel through the country and are prodespite the remarkable spirit and conduct which you at first found in the company managers. We were in a position to sympathize with you, inasmuch as we had long been forced to endure arregance, insult and false witness from the same source. Our gratitude is due to you and to the American people and the press, who have supported us in the long struggle which we hope is now about to close."

tained a recommendation that Vancouver city jail be immediately closed on account of its total unfitness for the confinement of prisoners.

"We find that the city has grown out of all proportion to the accommodation provided for the number of prisoners who are at fimes confined therein," read the defeat of the rebel leader, Robles. In the department of bolivar there remain to-day not more than 100 organized revolutionists.

"As a result of my conversation with large absorptions of the continuary leaders, Marin and San Martin, who would have given much trouble, have been compelled to surrender. Not many days ago I received attelegram announcing the defeat of the rebel leader, Robles. In the department of organized revolutionists.

ALLEGED EMBEZZLER.

Man Held at Jersey City as a Fugitive

From Justice. New York, Oct. 18.—Stephen McMillan who is said to be the son of a member of the Canadian parliament, was arraigned in a police court at Jersey City to-day on a charge of having embezzled \$1,300 from his former employers, E. N. St. Charles & co., wholesale grocers at Montreal. The uestion was raised as to the police court's urisdiction, and the court dismissed the omplaint but held McMillan for the United States authorities as a fugitive from

It is a great affliction for a woman to have her face disfigured by pimples or any form of eruptive disease. It makes her morbid and sensitive, and robs her of social enjoyment. Disfiguring eruptions are caused by impure blood, and are entirely cured by the great blood-purifying medicine—Dr. Pierce's Golden Medical Discovery. It removes from the blood the poisonous impurities which cause disease. It perfectly and permanently cures scrofulous sores, eczema, tetter, boils, pimples and other eruptive diseases which are caused by the blood's impurity. It increases the action of the blood-making glands and thus increases the supply of pure rich blood, "For about one year and a half my face was very badly broken out," writes Miss Carrie Adams, of 116 West Main Street, Battlecreek, Mich. "I spent a great deal of money with doctors and for different kinds of medicine, but received no benefit. At last I read one of your advertisements in a paper, and obtained a bottle of Dr. Pierce's Golden Medical Discovery. Before I had taken one bottle of this medicine I noticed a change, and after taking three bottles I was entirely cured. I can well recommend Dr. Pierce's Golden Medical Discovery to any one similarly afflicted."

The sole motive for substitution is to

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."

T. P. O'CONNOR, M. P., ON THE SITUATION

How the Irish Land Question Might Be Settled-Thursday's Scene in the Commons.

caused by the Irish members in the will be employed in their former places.

serious notice as a symptom of and clue said: to the present political condition. John O'Donnell the chief character therein, is not the kind of a man one would expect of the kind of a man one would expect the condition. To my personal knowledge Mr. Morgan has been trying to settle the coal strike ever since he came back from Europe, two months ago. If others had been according to the condition of the cond to see figure in such a scene.

was the absolute helplessness, the cowed compelling him to seek a settlement, but inaction of the Unionist majority, so divided and harassed by the sense of their irresistible doom coming hourly upon their leaders that they cannot contact their leaders that they cannot contact their leaders that they cannot contact their leaders and are imported. ceal their depression, and are impotent by panic, and there was the other rea-son that the spectre of Ireland, which son that the spectre of Ireland, which was supposed to be laid, had risen again, Morgan could not very well be forced more menacing than ever, and finally ing to achieve for several weeks. there was perhaps some sense of shame at the feeling that this man, who was calling for the right to be heard in the House of Commons, had been gagged in House of Commons, had been gagged in the statement in justice to Mr. Morgan. We have had to quarrel with him, but desire his friendship, if he is willing to give it to us. I am creditably

the shape of a startling, gigantic surrender. One of the most important portents is the eagerness of nine out of ten tents is the eagerness of nine out of ten tents is the eagerness of nine out of ten tents is the eagerness of nine out of ten tents is the eagerness of nine out of ten tents is the eagerness of nine out of ten tents is the eagerness of nine out of ten tents is the eagerness of nine out of ten tents in the eagerness of nine out of tents is the eagerness of nine out of tents. of the landlords who are wealthy with operate with us in securing a permanestates in England, and are therefore ent and scientific solution of the labor independent of Irish agitation, and because they are, besides, politicians first and landlords afterwards. Every thinking man, whether landlord or tenant, be-lieves that two to three years' purchase and a small grant from the Imperial exchequer are all now standing between Ireland and a final settlement of the land question, and the reconquest of the land by the Celts from the English gar-

"Among those who think that a gigantic surrender is inevitable at an early day, is, I have reason to believe, the Irish chief secretary, Mr. Wyndham himself. He urged the landlords to consent to a conference, even travelling long distances to their homes in order to put permanent pressure on them. He has already announced that there would be a bigger land bill next year, and I have heard he has said privately that coercion might be over in three weeks in case of certain events, whereby I undestood that he meant, if the landlords and tenants agree on a common basis of settlement. In the meantime pressure on the government is coming from various quarters. It is doubtful if the government can carry the Educa-tion bill without violent closure, which may lead to scenes inside the House by the English Nonconformists very like those caused by O'Donnell, so vehement in party passion, and outside it may pro-

The government is threatened from many quarters, and is divided, and is, I believe, doomed, while Ireland has in the great drama of British politics.'

THE GUILTY ESCAPED

those Responsible For the Murder of Two Missionaries in Chine Were

Pekin, Oct, 18 .- The new viceroy of Sze Chuan province, Tzen Chun Suan. reports that the Boxers have not been pressed at Chen Tu. and two other entres, and he asks that ministers and nissionaries to refrain from travelling central Sze Chuan at present. The Emperor's reception at the summer palace to-day was attended by the eclined all social intercourse with the ourt on account of the miscarriage of ustice in the case of the murdered Eng-Honan province, where the responsible peasants were beheaded.

TRIPLE MURDER. Murderer Afterwards Attempted to End His Life by Shooting.

Mount Pleasant, Mich., Oct. 16 .-Archie Woodin, in a fit of jealous fury, to-day killed his father-in-law and moth--in-law, Mr. and Mrs. Gulick, his own ne-year-old child and attempted to oot himself. His wound is not fatal. The tragedy occurred at Gulick's farm, near here. Woodin and his wife had day. Woodin went there to take her, or the child away, and got into an altercation with Gulick. Woodin, it is supposed, shot his father-in-law. He attack-

THE MINERS' CONVENTION. All the Unions Have Selected Delegates

-Morgan's Efforts to Settle Strike.

Wilkesbarre, Oct. 18 .- What is probably the last week of the anthracite strike closed to-day without anything developing to change the peaceful trend and sub-district headquarters throughout the entire coal fields on account of the election of delegates to Monday's and selected their representatives to the

Wilkesbarre gathering.
Probably the most difficult question which will come before the convention is the one relative to strikers securing their old places. The companies are on record as saying they will take care of London, Oct. 18.—T. P. O'Connor, M. all the employees who have stood by them during the strike. Many of the P., has written for the Associated miners want the convention to withhold acceptance of the arbitration plan until Press these impressions of the scene the union is assured that the strikers House of Commons, on Thursday, and This likely will cause a long debate, but what he believes the incident portends: | the officials of the union say the matter "I have seen many strange and exciting scenes in the House of Commons, what he knew of the report published President Mitchell was asked to-night but that of Thursday was the most that J. P. Morgan was going to interstrange and most exciting. It deserves vene in the coal strike, and in reply he

been as fair and reasonable as Mr. "Of all the points of that terrible scene, for it was terrible, the most remarkable settled a long time ago. I know nothing about Mr. Morgan's financial interests to do something which he had been try-Ireland by systematic persecution.

"This, perhaps, was why the ministerized labor: as an organizar of capital. "This, perhaps, was why the ministerialists sat cowed, helpless and abashed at the scene, one of the signs of some great coming change. It is impossible to foretell what it will be, but for a good reason Irishmen hope it may take the shape of a startling, gigantic surproblem in this region.

GERMAN TARIFF BILL.

Socialist Democrat Attacked Supporters of Agrarian Leader-Measure Likely to Be Defeated.

Berlin, Oct. 18 .- During the debate on the tariff bill in the Reichstag to-day, Baron Von Wangenhein, of the Farmers' union, after stating that Chan-cellor Von Bulow's speech on Thursday destroyed all chance of the bill passing, caused a scene of excitement and a great uproar by declaring that if the government continued to pursue the policy of the Caprivi era, they were themselves sawing off the branch on which the

monarchy rested.

Dr. A. Buchenberger, minister of Herr Dziembowski Pomain, representing the Polish party, and Herr Gaebel, the German Social Reform party, all advocated a compromise, based on the government bill

Another scene of excitement was precipitated by Herr Stadthagen, Socialist Democrat, who violently attacked the supporters of Baron Von Wangenhein the Agrarian leader, characterizing them all as "thieves and robbers." He was called to order, and the debate was adjourned to Monday.

ning up the situation, it may be said that the three days' discussion of the bill in the Reichstag has rendered bers into the ministerial lobby on the Education bill on the first night of the than ever. Chancellor Von Bulow's session, when Mr. Balfour insuited tre-land by refusing to give her a day to voice her wrongs, failed. To sum up, the Irish members feel that they have

IMMIGRATION RETURNS. once more rushed into the foremost place | Last Year Over Six Hundred Thousand People Arrived in United States

Washington, Oct. 18 .- The annual report of the commissioner of immigration was made public to day. It shows that of the 648,743 immigrants who arrived in the United States during the last fiscal year, 466,369 were males and 182,374

females. Of the entire number of arrivals, Italy supplied 187,335, an increase of 42,379 over the number for 1901; Austria-Hungary, 171,989, an increase of 58,-599: Russia, 107,347, an increase of 22,-090. Most European countries showed crease, but there was a falling off diplomatic corps and the commanders in the arrivals from Ireland, amounting of the legation guards, except the Brit- to 1.423, the total from this country be ish minister, Sir Ernest Satow. BID FOR REPUBLIC ORE. Crofton Smelter Quote a Low Rate Considering the Distance to Be

Hauled.

Mining men of Republic camp have been interesting themselves in the smelting rates and prices from the variof events. It was a quiet day at head- ous smelters have been obtained. The quarters, and a busy one in the district Granby smelter, being much more advantageously situated with respect to distance, is able to quote a rate of \$6.50 convention. All the "locals" have met a ton. Superintendent Hodge has visited the camp and made arrangements to take shipments from the Quilp and San Poll mines, the Black Tail and the Tom Thumb.

The Tacoma smelter, upon the strength of getting a \$5 per ton freight rate from Republic, have offered to smelter for \$2 a ton. They specify that they would take only ore carrying over 90 per cent. silica, as they wish to use it for converter linings. This is a rate of \$7 a ton freight and smelting charge, which is only 50 cents higher than the Gran

J. Breen, of the Crofton smelter, has ikewise quoted figures for Republic ore. which is in keeping with his statement before the smelter opened that he would seek ore in every direction in which it could be found.

Mr. Breen is reported to have offered to take 1,000 tons of Republic ores per nonth at \$8 per ton freight and treat-With a considerable quantity of the

ore running only from \$10 to \$12 a ton, this rate is regarded as prohibitive, but its near approach to the rates charged at Granby and Tacoma may make it practical in the case of such mines as the Tom Thumb, which has received smelter returns on a recent shipment of 50 tons of ore, which showed an average of \$16.55 per ton.

LANDSLIDE CLEARED.

Dease Lake Miners Bring News That Thibet Creek Mines Are Clear Again.

L F. Geblin and M. A. Grainger have arrived from Cassian and are staying at the Dominion. For three years these miners have been shut away from the outside world at Dease lake, engaged in placer mining. That their efforts have been attended with success is assured by the fact that they intend going

they landslide has been cleared away.

This is the only extensive work being carried on in that district, and the slide of earth which occurred some time ago resulted in the laying off of several of the men, as only about six could be employed in clearing the dirt away. This clearing work was finished before these placer miners left the lake, so that the Thibet creek mines are now in condition to proceed with work as

About Dease lake a number of placers xist, worked largely by Chinamen. There are, however, a few whites engaged in the work, like Messers Geblin and Grainger. The long carriage of freight by pack train, which costs 12 cents a pound, coupled with the fact that the miners are practically shut off from communication with the outside world, makes that section an undesirable one in which to carry on work, About two mails a year are sure to arrive in good condition, but the remainder of the time it is very uncertain when or in finance of the Grand Duchy of Baden; their destination, as they are sent in only when an opportunity presents itself for so doing.

MORE ERUPTIONS.

Soufriere Volcano Again Active and Distress Is Wors: Than Ever.

Kingston, St. Vincent, B. W. I., Oct. 18 .- The eruption of the Soufriere volcano on October 15th and 16th-the fourth terrific outbreak since the catastrophe of May 7th-has plunged the colony into deeper distress than before existed, crippling its agricultural resources by further devastating the arrowroot fields and completely destroying wide areas of growing crops on land, which while hot, fell in the windward district on the morning of October 16th. Even the Mesopotamia Valley, an ideal garden of tropical vegetation, although 12 miles from the volcano's crater, is burned with sand in some places six inches deep, and the lands to the eastward, bordering on the previously devastated area, are covered to a depth of nine inches. Travel on all roads in the windward district-the only means of communication between Georgetown this city-has geen rendered extremely

difficult. Large numbers of refugees and other persons left Georgetown for Kingston, a distance of 20 miles, on October 16th, and many of them failed on the way from hunger and thirst and fatigue, engendered by trudging through the sands. A number of animals even broke down under the strain of the journey.

THREE DAYS' BATTLE

evere Fighting Between Venezuelan Government Troops and Insurgents.

Willemstad, Island of Curacao, Oct. 15.—The battle near La Victoria, Venezuela, between the army commanded by President Castro and the revolutionary forces, which began Monday morning and resulted in the retirement of President Castro to La Victoria Tuesday afternoon, was resumed again fiercely at 5 o'clock Wednesday morning. At that ime the President had received rein-

MINERS GATHERED

MITCHELL'S SPEECH TO THE DELEGATES of business judgment and plain commo

Urges Them to Approve Officers' Action in Recommending Acceptance of Arbitration Plan.

Wilkesbarre, Pa., Oct. 20.-About 700 delegates from the United Mine Workdelegates from the United Mine Workers of America in the hard coal mining by the President of the United States, districts in Pennsylvania met at the Nes- I have no reason to doubt. bitt theatre to-day to act on the proposal to settle the long strike by arbitration. The convention was called by thought. Personally I should have pre-President Mitchell under the rules of the ferred an adjustment of the difficulties union, and it is to vote on the plan existing in the anthracite field by con-which is laid before it, and explained ference with the anthracite mine owners

fully in a lengthy address.

Previous to the assembling of the convention there were busy scenes at the strike headquarters in the Hart hotel, strike neadquarters in the Hart note, from which the miners' battle had been directed since the strike was called, 162 days ago. Before 8 o'clock the miner the majority of whom nor days ago. Before 8 o clock the miner delegates, the majority of whom prived on the early morning trains, began to gather there. President Mitchell was the centre of interest, and until he left for the convention hall was always surrounded by his lieutenants and others. The final details for the meeting was come a national calemity instifice the come a national calemity instifice the The final details for the meeting was action of the chief executive of our naarranged in his office this morning. The delegates were in the best of humor. Every one whose opinion was sought felt that the convention would do whatever the national leader advised.

"The proposition submitted for your consideration may have objectionable feathe national leader advised,

Among the late arrivals at the convention hall was National Secretary.

Treasurer W. B. Wilson, selected to be the secretary of the convention. He was of the opinion that the convention will end to-morrow, and that the men

take pleasure in extending a warm greeting and welcome to the accredited pose President Mitchell's recommenda-tion, but wanted their very careful conepresentatives of the 150,000 men and oys, whose heroic struggle for living wages and American conditions of emsideration. ployment has won the admiration of the whole civilized world. Language is inadequate to express the sense of pride I feel in you and those you represent. Jumped From Motor Car and Was Your noble defence of the principles of Crushed Under Wheels. ndears you to every man ar very woman in our land who works for or a livelihood. When the history of the struggles of toilers shall be written, ts pages will record no event more im-

the contest which I carnestly hope is now about to be happily ended.

It is not my purpose to review the progress of the strike, or even to enumbrate the important events which have been charted from the sufferings and hardships which have been endured. For five long months the eyes of the nation have been centred upon your actions, and it is a pleasure to say that the greath eart of American people throbbed is sympathy with you. It is, of course, a source of deep regret that the millions of under-paid workmen in our great cities should be the most acute sufferers by reason of this contest between now provents in the suffers of the suffering and in horible manner.

Dayton, Ohio, Oct. 18.—At Smithville, a source of deep regret that the millions of under-paid workmen in our great cities should be the most acute sufferers by reason of this contest between the site of the suffers of the suffers of the capabilities of the girls in office here for the substance of the dispatch which was received from Colonel wayne, commanding the British forces operating against the Mad Mullah, referred to the Mullah being in communication with "Kail Inger," in the direction of Webber river. He apparently means "Karl Inger," the former officer of the Austrian-Hungarian army, who have been centred upon your actions, and it is a pleasure to say that the great heart of American people throbbed is sympathy with you. It is, of course, a source of deep regret that the millions of under-paid workmen in our great cities should be the most acute suffered most from the sound and our employers, but strange as it may appear, hundreds upon hundreds of shose who suffered most from the lack of fuel sent works of commanding the employers and the current reversed, the wheels saideded and the current reversed, the wheels sudded on the great of the Mullah being in communication with "Kail Inger," in the direction of Webber river. He apparently means "Karl Inger," the former officer of the Austrian-Hungarian army, who leads the with with Wallah being in

hat the miners and their families might cure a sufficient wage to enable them enjoy a little happiness and sunshine ead of the gloom and sadness which is been their lot for many years.
"The debt of gratitude we owe out workers in this and other lands,

We recognize that right of capital to consolidate, to federate and to speak and act through its organization, but n accordance with these rights and privileges to capital we demand, and shall assert, the same privileges for those who toil. Between the combina-tion of capital on one hand, and the organization of labor on the other, there

SMELTER IN OPERATION

The First Charge Treated in Converter Yesterday-Interesting Process.

A number of Victorians yesterday took in the excursion to Crofton, the attraction being the smelter, which is now in operation. They went on the 7 o'clock train to Sidney, where connection was made with the steamer Unican, which was waiting for them. There was considerable fog when the steamer started, but this gradually lifted and the trip proved a very pleasant one. Upon arrival at Crofton the natural course of the visitors was to the big establishment, which has commenced the smelting of ores. Interest in the plant was accentuated by the fact that the blow-in of the converter was to take

place and everybody was on the qui vive to behold this process. The converter is the big boiler like receptacle in which Ottawa, Oct. 20.—Senator Gibson, the matte is freed of impurities, principally through the agency of air blasts, and when the free place in which who accompanied Sir Wilfrid Laurier on his European trip, says that the Premier was at one time run down from over-duct is run into big moulds, the genuine work and suffering from indigestion. He article, and ready for the market. Durconsulted a specialist in Paris who told naces were busy fulfilling their func-tions preparing the ore for its final process in the converter.

The matte was then transferred to the

converter, the first charge, it is under-stood, to be so treated. It was from afterwards to Italy, and rapidly recovered. The Premier is now in excellent health.

A Yukon Appointment.

Converter, the first charge, it is understood, to be so treated. It was from Lenora ore and amounted to about seven tons. The process of treatment in the converter renders it necessary to F. X. Gosselin, Dominion crown and tip the big receptacle at intervals to altimber agent at Dawson, has been aplow the slag to pour out. Unfortunately pointed assistant gold commissioner in one of the tips was ill-timed, and the Kilpatrick, Mr. Young, F. M. Walter, molten stream splattered in all directions, causing the men at the lever to more stream splattered in all directions, causing the men at the lever to let go and bott. Over went the whole session. This act provides that foreign built British vessels must, before engaging in coasting business, take out a license and pay 25 per cent. at valorem on the value.

Hon. Mr. Tarte.

Hon. Mr. Tarte.

Hon. Mr. Tarte.

Hon. Mr. Tarte left for Toronto to attend the banquet of the British Empire League. The minister of public works will reply to the toast of the colonies. Before leaving for Toronto, Mr. Tarte was asked as to the truth of the stream splattered in all directions, causing the men at the lever to let go and bott. Over went the whole to go and bott. Over went the whole to leve to the value of the sensing in force the Coasting act of last converter, pouring its entire contents, matte and slag, not immoulds but on the ground. Two tremendous reports accompanied this mishap, and there was a general scattering of spectators. Several seathering of spectators. Several seathering of spectators. Several seathering of spectators are painfully son, and there was a general scattering of spectators. Several seathering of spectators are painfully son, and there was a general scattering of spectators. Ireland." The birds are wending their way In this vein, which irresistibly held the attention of the House, and which caused Mr. Balfour himself frequent

ist members continued the debate fiercely, declaring that Irish affairs were at present more important to England than any other questions mentioned in Mr Balfour's programme.

William Redmond regretted that the hish people could not go up in arms and strike a blow against the tyranny with which they were subjected. The present action of the government declared, afforded a reason why the Irish members would take the first opportunity of hurling the ministers from office.

Ultimately Mr. Balfour moved the Mr. O'Donnell stood up and his fellow Nationalists shouted encouragement and cheered vigorously. The Speaker repeatedly warned Mr. O'Donnell that he was out of order, and an exciting scene

Mr. Balfour moved the suspension of Ifr. O'Donnell, and the latter crossed the floor and stood in front of the Pre nier, shouting definance, and shook his fist in the Premier's face. The House suspended Mr. O'Donnell by a vote of 341 to 61.

Mr. Balfour smiled quietly as the Irish member shouted and gesticulated, and other members of the cabinet, fearing that Mr. O'Donnell would actually assault the Premier, moved towards him, but Mr. O'Donnell having concluded what he had to say, returned to his seat, and then left the House.

Previous to the action of the House in suspending Mr. O'Donnell, the Speaker made the usual formal request that the offending member withdraw, which drew forth derisive cries of "Call the police!" "Muster the Horse

The detate was then closed by a vote of 263 to 148. Mr Wyndham again came in for some lively hissing as he returned from the

division lobby.

Mr. Balfour's motion was then carried by a vote of 262 to 145, and the House went into committe on the Education

Mr. O'Donnell's suspension will pos-

sibly be only for a week, as the new rules increasing the penalties for disorderly behaviour have not yet been

VICTORIA ADVERTISED IN GREAT BRITAIN

Prominent Visitor Gives Material Expression of His Appreciation of Charms of This City.

If the work of the Tourist Association n advertising Victoria as a summer resort is rewarded in proportion to the efnt retired from office. Seven hundred forts being put forth next season's travel will easily exceed that of any other year. Not only are the charms this city and British Columbia boasts of being brought to the notice of people of the American continent, but steps have been taken to inform prominent people in Great Britain of the delights of a summer tour through British Columbia to Victoria.

Among the tourists who came here

was J. W. Widdowson, a prominent railway manager of England, who in common with other tourists was delighted with Victoria and vicinity. Shortly after Mr. Widdowson returned to the Old Country he wrote to one of the officers met by a committee of fifteen representing the "United Irish-American Societies of New York" and presented with an adorf New York" and presented with an adorf New York and Presented dress, in expressing his thanks and his Transvaal, he added, would also require London, Windsor, Hampton Court and appreciation of "American institutions," lattention.

Liberals Widdowson expressed his appreciation of the absence of Sir Henry Campbell-Victoria and vicinity as follows: 'My that is unjust and untrue. I never signed Patrick O'Brien, of the Irish members. assured, proved to be the most enjoyable tour made by me during the 40 years I I am not now, never have been, and never in a subject of Great Birtain."

Christmas be devoted to the discussion of affairs in Ireland.

Christmas be devoted to the discussion have been a railway official, and I hope of affairs in Ireland. to repeat it." Continuing, he said: "If high level the tourists of Great Britain tish Columbia is vastly superior in every

espect to a Continental tour on the old

lines and in the old world." Of course

Mr. Widdowson's proposal was accepted

33 Parkfield, Richmond, Surrey, Eng... 24th September, 1902. Dear Sir:—As desired, I have had the circular referred to in your favor of 3r September pranted and inserted in the "Booklet" respecting Victoria, and have to-day posted them to those in the uppedireles, as also to people who have ion vacations, and who, in my judgment, wie disposed to take a trip to British Counbia—if they can be induced to go onlonce I am sure they will always be plant to repeat the tour.

be disposed to take a trip to British Columbia—if they can be induced to go only once I am sure they will always be pining to repeat the tour.

I did not consider it judicious to send the "Booklet" to these "well-to-do" people in an open envelope, because if I had done so I feel sure it would not have got into the hands of those for whom it is intended. I therefore used a good "taking" sort of envelope and sealed it up, a sample of which I annex.

I attach also a copy of the circular, likewise rough lists showing the names and addresses of those to whom I have had the "Booklet" mailed, and I hope that what I have done you will be pleased with. I enclose an account of my "out of pocket" expenses and shall be glad to recive a draft for same at your convenience. I have done my very best for your association, but you can readily see that 200 booklets will go only a little way in a population as numerous as is ours over here. I have 300 circulars in hand, and if you would like to send me over 300 more booklets I will have them disposed of in the same way as the first lot of 200 were dealt with. I think they would come to me by parcels post much cheaper than by mail. Try it on.

When you reprint the "Booklet" I would suggest that you insert the close months for game, it will be useful to intending tourists; also a small map.

Yours truly,

I. W. WIDDOWSON.

F. I. Clarke.

A Gratifying Outlook for the Erection of Fine New Hostleries Here

Next Summer.

The Colonist denies the statements in last night's Times that a new C. P. R. hotel and another on the site of the Mt. Baker hotel are contemplated. In order that Times readers may properly understand the situation the exact words of the morning paper are here quoted. It says:

"As noted in the Colonist some weeks ago a proposal is on the railway company, but up to the site of the building or on some more suitable location, but the movement has not as yet assumed definite shape."

Out of the above incoherency it is evident that something has not assumed "definite shape,"

F. I. Clarke. whom attractive circulars were forward- | hotel, the patient reader must decide, ed were Lord C. Beresford, Sir Robt. Hunter Lord Hotham F. M. Porter Earl de Gray, Sir Wm. Grantham, Lord Bishop of Lichfield, Judge Ed. Parry, the Marquis of Lettand, Sir A. Charles,

following report:

Gentlemen:—Your house committee met at the hospital on Tuesday, October 14th, 1902. Present, Messrs, Helmcken, Wilson, Humphrey and Forman.

Accounts—Accounts for goods not tendered for were examined and those approved were signed.

Fire Escape—The skylight in the corridor at the foot of a tire escape has been protected.

Sinks and Basins—Old sinks and basins have been replaced with new ones of modern make and the account for same will be presented to you in the regular way.

Gasoline—Having ascertained that the fire insurance policles would be violated by the use and storage of gasoline, your committee have arranged for the substitution of coal oil, and now recommend the purchase of four stoves at a cost of \$6 each. These stoves will be used in generating heat in the sterilizing apparatus.

Heaters in Ward—Your committee does not see their way to recommend any change in the heaters in the public wards at present. This is a matter, however, which should be reconsidered as soon as funds are available.

Radiator Pipes—The suggestion that the Radiator Pipes—The suggestion that the committee of present. Sinks and Basins-Old sinks and basins

heating pipes connecting radiators be pro-tected for the purpose of saving heat, is under consideration and further time is in

requested.
French Benevolent Society—Your committee has under consideration your desire in regard to the admission and retention of members of the French Benevolent Society, but are not in a position to report

ciety, but are not in a position to-report at present.

Insubordination—Your committee having enquired into the circumstances which resulted in the suspension of one of the nurses, find that the nurse in question absented herself while on duty, without leave, and your committee recommend that the doctor's action be approved and that the nurse be dismissed.

Mrs. Musgrave—The doctor presented a letter which he had received from Mrs. Musgrave, of Cowichan, in which the desire is expressed to maintain a bed in one of the public wards. A reply has been ordered advising that you will consider the matter, and your wishes are now asked for. It will be necessary to determine the conditions under which the proposal can be effected.

All clauses of the report were accept-

Regular Meeting Held on Wednesday Last-An Interesting Paper.

The fortnightly meeting of the Mothers' Club was held in the Spring Ridge school on Wednesday. The question has often been asked: "What is the object or the use of these meetings?" This was ably answered in a paper by Mrs. M. King. She clearly poi some of the benefits to be derived from an interchange of thoughts between the mothers themselves, and between mo thers and teachers. All mothers meet with problems in regard to the training of their little ones, and much valuable help may be obtained by discussing the trolia Advertiser. "The happy event was solemnized at the residence of the met, and perhaps overcome, the same difbride's parents, Tank street, at 4 o'clock, in the presence of about forty of the most intimate friends of the contracting met, and perhaps overcome, the same difficulty. The report of H. A. Walker, the expert sent by the London & Northern

published. Mr. Walker sums up as folbefore you that the American companies Vancouver, Oct. 18.—The Canadian Pacific Rallway Co. have decided to make large additions to all the hotels west of Calgary for tourist traffic, the work to be started immediately on plans being made by Mr. Camble. The contract was awarded to day to Messrs. Desette & Fox for the erection of a sixty-room addition to the Field hotel, to be the headquarters of the tourist travel to the Yoho valley.

considered of much less importance there than here, and I am of the opinion that in this respect the British railway officials have nothing to learn from their American confreres." Mr. Walker gives figures showing that twice as many passengers are carried on the United Kingdom lines as on the American, though the latter has a nine times greater mile-

age, while American figures show a much larger proportion of accidents and fatalilarger proportion of accidents and launties to passengers and employees. The large number of accidents at crossings receives considerable mention. Mr. Walker attributes the larger proportion of accidents in America to the almost eneral absence of block working, and the fact that the permanent way is neither laid nor maintained in the cient manner usually adopted by the British railways. He says that in the majority of cases there is no protection at all at the level crossings.

(From Friday's Daily.) It has been decided that the annual ball to be given by the Women's Auxiliary of the Provincial Royal Jubilee hospital on Monday, November 6th, will not be fancy dress as at first announced. For the Cindrella dance to take place on the following night, fancy paper and flower

-A magnificent moose head, in the show window of Dixi Ross & Co., has attracted a great deal of attention for several days past. The moose was shot on Bonanza creek, Klondike, and its tenpoint antiers and massive head was impressed into good service by Mr. Heald in his window dressing effects.

-The marriage of Mr. Daniel Carmody, of this city, to Miss Anna, daughter of Mr. and Mrs. James Dolan, of Auburn, Wash., took place on Wednesday. The wedding was celebrated in the Church of Our Lady of Good Help, Seattle. Mr. and Mrs. Carmody have gone to San Francisco, where they will spend their

-The Crofton smelter is making satisfactory progress. The work of convert-ing is now commenced. It is reported that labor is scarce at the smelter town, which is causing the management some little trouble in keeping all the works going. The water jacket furnace is going to be capable of handling the full shaken up, but with the exception of a amount expected of it, which was 400 few bruises was uninjured.

-The last of the machinery for the Tyee smelter at Ladysmith will be installed very shortly. Ore is being steadily carried by means of the aerial tramway to Stratton's crossing, and at Ladysmith, the roasting of the ore is in progress. From tests conducted it is believed that the gold values of Tyee ore will run higher than was anticipated.

The receipt of reading matter during the month of September is acknowledged by the manager of the Seamen's Institute from the following: Miss F. Mason, Mrs. H. D. Helmcken, Mrs. R. Maynard, Mrs. E. Johson, H. Burnett, J. F. Mullens, J. C. MacKay, Bishop of Columbia, Navy League, B. C. Branch, Union Club, (Victoria), Times and Colonist, daily papers, and Miss Goodwin and Miss Hunt, flowers.

-I Moss, of Quadra street, who makes a speciality of sweet peas, has received from Dawson a bunch grown from seed supplied by him, and which bloomed in that northern climate in the open air. They were grown by Townsend & Rose, of Dawson, who inform Mr. Moss that the pea vines grew to a height of seven and a half feet. They were of the hardy English variety, which Mr. Moss makes a specialty of, and with which he has won so many prizes.

The proposal of a "frontage tax" for the purpose of providing for sewer extension is to be discussed at a public meeting in the city hall next Tuesday evening. The meeting is the result of an arrangement entered into with the mayor and aldermen by the Voters' This has been undertaken by the Voters' League in order that the citi- jured. zens may be given the fullest informa tion upon the subject. All interested are invited to attend. Ald. Barnard and other members of the council are expected to speak upon the subject.

-Fred Curley, who was yest-rday taken into custody upon suspicion of being tons, has been added to the home fleet, implicated in the stealing of money and although as ret the craft has not made len's marine ways, was released to-day. The provincial police authorities, after investigation, found no evidence against erty.

-Plans are being prepared by the department of lands and works for the erection of a new school house at Espuimalt, which, when completed, will supply a long felt want. The present building, as pointed out in the Times some weeks ago, is wholly inadequate. A new school house is to be erected at Vernon and a court house at Ladysmith. Plans for these are also in course of preparation. The department of lands and works has awarded contracts for the building of school houses at Sunbury, near Ladners, and Minto, near Cumber

-A Chinese driver in the employ of Wah Yune & Co. had an interesting time last evening on Fort street. A tram car striking the rear of the waggon the horses became frightened and dashed down the street. The Chinaman was thrown from his seat and beneath the waggen. In his excitement he grasped the front axle and hung tenaciously to it, being dragged several blocks in this way. Fireman Moss, of No. 2 fire hall, and another, grabbed the horses at Stanley avenue, and brought them to a stand-The driver was considerably

-The Granby smelter some time since was forced to cease operations in three of their four blast furnaces owing to low water in the Kettle river, which furnished the necessary power. Now another furnace has been started and shipments from the Phoenix mines have again been increased and about 750 tons a day are being sent to the smelter. The threemile spur line of the Cascade power supply is being pushed forward and upon pletion the other two furnaces will be blown in when the shipments of ore are expected to reach 10,000 tons a week. The Sunset and Mother Lode smelters use steam power and have not been interfered with by the low water.

(From Monday's Daily.) -R. Brittain, patent attorney, Vanouver, sends the following list of patents issued to British Columbians: J. B. Uren, Lillooet, nut lock, and D. Morri son, Nelson, hose coupling.

-C. A. Imbert, who sustained serious njuries to his skull while stepping from moving car on Friday last, is still unoscious. He is being given the best of treatment, but his condition has not maerially improved. He evinces no desire whatever for nourishment of any kind. out when fed swallows the food mechanically.

ASSOCIATION FOOTBALL

Probability That New Westminster Will Enter Senior League—Team From Cowichan.

No notification has yet been received from Nanaimo announcing the date of the postponed meeting of the B. C. Senior Association Football League. It is understood, however, that the officials at the Coal City are awaiting to hear whether the newly organized club at New Westminster intends entering the league. If the Royal City takes this step more teams will contest the league this season than has been the case for many years. Already entries have been received from Victoria, Garrison, Golümbias, Cowichan and Nanaimo. The Cowichan team' is also a newly organized club, and nothing is yet known of charmingly attired in a pretty fawn travelling dress, trimmed with applique, and hat to match. Only a few of the most intimate friends and relatives of the contracting parties were present. A large number of handsome presents were received. Mr. and Mrs. Hawkins will take up their residence at 31 John street after, returning from their honeymoon trip to the Sound.

GUARDING THE MINT'S WEALTH. The average visitor to the mint cudgel his brain in vain to understand how sheek can be kept on all its wealth, check can be kept on all its wealth, for there is scarcely any waste, and theft is unknown, says Mr. Charles Oliver, in Living London. The explanation is simple, however, for, contrary to general supposition, nobody is searched when he goes nome at night, and there is no system of esplonage; but no employee engaged in the making of money is allowed to leave the building until the day's work is doncthe making of money is allowed to leave the building until the day's work is done—the men must take their dinner on the premises—and until every particle of metal has been weighed. If a valuable piece of metal is missing from any department, the employees in that department have to find it before they go home.

Several other precautionary rules have to be observed, not because there is any doubt as to the honesty of the workers, who bear the best of characters—the greed of gold is not for them, familiarity with the precious metal having removed all temptation—but in order to prevent the ingots from going astray. Each department is kept locked throughout the day, and no man can visit a room other than his own without the sanction of the officer who is over him. Further, the metal is weighed as it is passed from room to room. The head of each department knows by his books the weight of metal that was given rout in the morning, and consequently has no difficulty when work ceases for the day in ascertaining the exact amount of gold and silver, after allowing for waste, that should be in his hands. Even the dust on the floor is taken, into calculation. Before the bells sound for the nightly exoduse each room is carefully swept, and the particles that have accumulated during the var having hear collected they are nut into icles that have accumulated during the

enormous expense in sailing vessels."

"The Ward left Unalaska on August
29th for Sunelga island, famous for its blue foxes, with two passengers and lumber and stores for the settlement on the

men and returned to the Manning after with respect to Unimak and St. Law-days. This vessel will be the Garland, out so quickly and in the face of such adverse weather conditions."

E. B. MARVIN SAILS.

Schooner E. B. Marvin, Capt. Anderson, expects to get away for the Falkland islands on Monday. Like the of expert lumbermen, to log it all in the next four years. This means 250,000,000 feet a year will be ped onto the market, and as it is ped onto the market, and as it is so the Blakeley will remain in the hands Japan waters, while others are making ready in other ways. The Enterprise,

During the last few weeks there has been no news whatever from the fleet still operating in Behring Sea. They are provisioned for long cruises, and it is the opinion of local sealers that they will stay in the sea until the end of the present month, it having been found that good hunting is often to be found in October. Therefore it is not thought that any of the fleet will arrive home before about the middle of next month, unless stormy weather occasions their return at an earlier date.

THE BLAKELEY'S SALE. No higher figure was bid at yesterday's sale of the brigantine Blakeley than that only about one-half the producing capawent to press last evening. The sale Britain alone, so that one may readily took place on the Rice Mill wharf, and understand the recurrence of the sea-faring fraternity was present in such great depression in the shipbuilding large number In the crowd it was trade as are likely soon to experience. TWO OF THEM TO BE HELD IN THIS CITY

Works of British Composers Will Be Sung by Victoria Chorus Conducted by Sir Alex. Mackenzie.

With the arrival of Mr. Harriss from the East the air is full of festivals, choruses, choral works, eminent soloists and music, creating quite an excitement in professional and society musical circles. Fifteen months ago the Times announced the possibility of such a move ment about to be set on foot. In August last, cable dispatches made it known all over the world that Sir Alexander Macof the London Royal Academy of Music, had consented to conduct a series of musical festivals in Canada, and, Mr Harriss's advent in Victoria at this moment is to call our local singers to gether, invite them to form the Victoria Musical Festival Chorus, decide upon what choral works shall be put into re hearsal for the two days' festival which is to be held here next April under the conductorship of Sir Alexander Mac-

call to arms. Preparatory exercises will prevail all through the winter months until the coming of the great general in music, who will finally take charge of osing musical manouvers. Choruses formed in all sections of Canada at ony time and under ordinary conditions would be fraught with much good, but the purport of this great cycle of festiwals is born of a desire on the part of the instigator to place them on an elevation whence the very best influences ma be brought to bear upon those participating actively in the festivals as re gaids the choice of compositions to be studied, thus broadening their musical intelligence, besides being brought into personal contact with a very great and learned composer and director such as Sir Alexander Mackenzie is justly known | Esquimalt, on Wednesday evening to be. Even the soloists are specially engaged to come from England. Everything is to be done to make this effor worthy of the celebrated conductor, a credit to Canadian voices and, above all, worthy of Canada.

Another factor in this laudable effort tish in themselves, for the reason that the whole of the works to be put in hand are from the pens of British composers, such as Stanford, Parry, Sullivan, Cowen, Bridge, German, Coledridy, Taylor, MacCunn, Elgar, Mackenzie, etc. Such men as these and their masterworks are the stronghold of the great musical festivals England is so justly to be heard in Canada from these com posers are works which they have created for the festivals held in Great Bri-

A local chorus master will be ap-

Oycle of Festivals include Mackenzie's "Dream of Jubal" (composed for the Philharmonic Society); A. C. Macken-zie's "Story of Sayid," Mackenzie's "The Cotter's Saturday Night." C Hubert Parry's "Blest Pair of Sirens," (composed for the Bach choir of London) Parry's "Ode on St. Cecilia's Day" (com-Villiers Stanford's "Revenge," Stanford's "Battle of the Baltic," Arthur Sullivan's "Golden Legend" Choral Society). F. H. Cowen's "Coroned during the evening: ation Ode" (written and composed in honor of the coronation of King Edward VII.), Ed. Elgar's "The Banner of Sain George." Frederick Bridge's "Ballad of the Clamperherdown," Coleridge Taylor's "Hiawatha."

Orchestral compositions Cowen's "Scandinavian Symphony." Stanford's "Irish Rhapsodie" (composed for the Norwich Festival, 1902). Ed.
German's "Gipsv Suite," Sullivan's
overture, "Di Ballo," Hamish MacCunn's overture, "The Ship of the
Fiend," Elgar's Meditation, "Lux Christi," Mackenzie's new orchestral suite, *Tondon Day by Day," Mackenzie's Seatch Rhapsody," (No. 1); Mackenzie's "Burns's Scotch Rhapsody, (No. 2); Mackenzie's "Coronation March." dedicated by gracious permission to H. M. King Edward VII., performed at the solemnity at Westminster Abbey); Mackenzie's Nautical overture, "Britannia," Mackenzie's overture to "The Cricket or Bolle Sans Merci" (after Keats). Mr Belle Sans Merci" (after Keats. Harriss will compose a new work which will be known as "Edward VII. Coronation Mass."

A PATIENT CHARGES

W. J. Wood, of St. Joseph's Hospital, Arrested Yesterday Afternoon-A Peculiar Case.

Walter John Wood, an employee at St. Joseph's hospital, was arrested yesterday by Constables Carlow and O'Leary on the charge of stealing \$175 from a Mr. Chapman, who is a patient

It appears that when Mr. Chapman entered the hospital to undergo an operation four or five weeks ago, he was advised by Wood to turn over his watch and money for safe keeping, being told that such was the custom. He did so, and thought his valuables were all right until last Saturday, when he discovered they were stolen.

The discovery came about this way. He received an article from a store in the city and a bill for its cost. He referred the party who brought the article to the Sister Superior for payment out of his money, Wood having told him that he had handed it over to her.

Much to his surprise Mr. Chapman earned that the Sister Superior had not received the money, so he at once comnunicated with the police, and Constable Abbot was sent out to investigate. As result of the investigation Wood was placed under arrest, and is now in con-

finement at the police station.

The purse in which the money was ept was found in a desk in the Sister Superior's room, it is understood by Wood. The Sister Superior says she never keeps valuables in this desk. Wood admits taking the money from Mr. Chapman, but claims he handed it over to the Sister Superior, who denies having received it

Woods was at one time in the navy. The case was called in the police court this morning, but remanded until Mr Chapman is able to appear.

SUCCESSFUL ENTERTAINMENT Was Held at Soldiers' and Sailors' Home on Wednesday Evening

The harvest thanksgiving entertainment at the Soldiers' and Sailors' Home, proved an unqualified success exceeding the expectations of the most sanguine. It was the first event of this description held in the new institution, and the result is a source of much gratification to those responsible for it. The hall in is that the festivals will really be Bri- which the entertainment was provided has accommodation for more than two hundered, and this was taxed to the ut-

> preceding the concert, and the tables were continuously crowded. The first tables were surrounded almost entirely by soldiers and sailors, while civilians ntributed to a throng which kept the waiters and waitresses busy from beginning to end. Following the tea the concert took place.

The chair was occupied by Arthur Lee, secretary of the trustee board of the home. An excellent programme was pointed during Mr. Harriss's stay in the city. Further particulars as to the chorus membership, enrollment of the chief promoter of the institution. In a few remarks Rev. Mr. Hicks explainable of the chief promoter of the institution. EMPLOYEE WITH THEFT TWO NEW HOTELS ARE CONTEMPLATED

PLANS DISPATCHED TO SIR W. VAN HORNE

For Palatial Edifice on Mud Flats Site -Proposed Structure at Oak Bay.

There is every reason to believe that Victoria's imposing array of handsome buildings will be enhanced in the near future by the erection of a couple of palatial hotels, both on splendid sites. One of these, it is expected, will be for the C. P. R., thus completing the chain that this corporation has established throughout the West. The other will replace the ill-fated Mount Baker hotel. and will probably be built by the B. C Electric Railway Company. Plans for the former have been completed and forwarded to Sir William Van Horne Those for the latter are now in course of preparation

In regard to the Oak Bay structure, it has been reported for some time that the space occupied by the building recently destroyed by fire would shortly be filled by a more pretentious edifice. The name of the Electric Railway Company has frequently been associated with the proposed establishment, and it is positively known that a prominent architect has been at work on plans for some time This was admitted by a gentleman in a position to known, in conver-sation with a Times representative the other day, but he unalified his admis sion by the observation that the company had not definitely decided to build. Several figures have been mooted as the cost of the proposed hotel, one of them anging as high as \$200,000. The fact that plans are being prepared is an indication that a new building is con-templated, and it is to be hoped that the near future will witness the inaugura-

of operations. Much has been said about the proposed C. P. R. hotel here. It has been "authoritatively" stated, and as often authoritatively" denied, that the big corporation contemplated erecting a cely affair either on the present Douglas gardens site, or the James Bay mud flats. When Sir Thomas Shaughessy was here a deputation of promi-tent citizens brought the matter to his attention and he promised to bring it before the shareholders. Subsequently when Vice-President Nicoll visited Vic toria a deputation also waited on him, He was escorted to the Douglas gardens, and its adaptability as a site impressed ipon him. He manifested a considerable interest in the proposal, asked a number of questions, noted the proximity of the gardens to the park, and, like Sir Thos. Shaughnessy, promised to bring the pro-

The last prominent official of the C. P. to whom the subject was broached is Sir William Van Horne, who was re-cently in Vancouver. A well-known Victoria architect, who has been identified with the construction and improvement of a number of the company's hotels in the West, in conversation with the magnate reminded him that they had pointed out that the company had estab-lished a chain of modern structures throughout the country, which could not be more happily nor profitably completed than by the erection of one in Victoria.

Sir William appeared considerably attracted by the idea and asked a number tracted by the i Association had borne fruit in the visit of hundreds of sight-seers who would have omitted this city from their itinerary had its charms not been industriously advertised. Its prestige as a resort would undoubtedly be immeasurably enhanced by the addition of the two struc-tures just referred to, one adorning what promises to be one of the most attractive ocalities of the place and the other the favored site so long marked by the destroyed Mount Baker hotel.

A BABY CHANGED.

The Mother Tells How It Was Accom-

plished. "A wonderful change," is the verdict of a lady correspondent who writes us about her little one. "I take pleasure," writes Mrs. R. B. Bickford, of Glen Sutton. Quebec, "in certifying to the merits of Baby's Own Tablets, as I have found them a sure and reliable remedy. My baby was troubled with indigestion, and was teething and cross and restless, and the use of the Tablets made a wonderful change. I think the timely use of Baby's Own Tablets might save many a dear little life, and I would recommend moth-

ers to keep them in the house." The opinion of this wise mother is echoed by other correspondents. Baby's Own Tablets give such comfort and re-lief to a sick baby, they so infallibly produce calm, peaceful sleep, that you would almost think them a narcotic. But they are not. They are only a health-giver for children of any age. They cannot possibly do harm—they always do good. May be had from druggists, or by mail, post paid, at 25 cents a box by writing direct to the Dr. Williams' Medicine Co.,

Sofia, Bulgaria, Oct. 15.-A report has

MUSICAL FESTIVAL Local Musicians Meet C. A. E. Harriss Last Night-The Works Selected

For Rehearsal.

On Friday night at the Driard hotel further and important progress was made in carrying out C. A. E. Harriss's great scheme of a series of festival performances throughout Canada. As Times readers know, the proposal is that Sir A. Mackenzie should conduct the festivals, supply the soloists, and engage the orchestra, while the local leader should supply and train the choruses, limited in number to 200 voices. His idea was cordially supported by a representative assembly of the members of the musical profession in Victoria, and their amateur contemporaries which met Mr. Harriss to hear from him the details of his scheme. The works selected for rehearsal are as follows: A. C. Mackenzie's "The Cotter's Saturday Night," Villiers Stanford's "Revenge," Herbert Parry's "Ode to St. Cecilias Day," Coleridge Taylor's "Hiawatha," C. A. E. Harriss's 'Festival Mass."

Herbert Taylor was appointed local associate conductor, and E. Howard Russel unanimously elected sub-associate conductor, and the following committee 3374a. chosen: Rev. Canon Beanlands, Messrs. J. G. Brown, J. G. Burnett, G. Hicks, Rev. J. C. Kennedy, J. Longfield, Ross Monro, G. Phillips, H. Taylor, E. H. Russell, F. Sehl and P. Wollaston. It now remains for the musical talent of Victoria to heartily co-operate in the work of rendering the Victoria festival second to none in Canada, and this it is believed they will gladly and enthusiastically do. Applications to join the chorus should be made to George Phillips of Esquimalt, who has undertaken the work of secretary and treasurer. Mr. Harriss was especially impressed with his reception here by the musical

profession and naturally will expect

great things from Victoria, which is de-

stined to give the last festival of the

series, and it is hoped, the best.

VISITOR FROM THE HAWAIIAN ISLANDS

The statement of the export of gold T. S. Kay Speaks of the Labor Conditions on the Plantations

CELEBRATIONS IN

tion of Caring for Miners not Get Work May Prov Serious One.

Wilkesbarre, Oct. 21.-With kers, who have been on st May, received the official declaring the strike off a When the news was flashed to

ons, the strike affected resumed on Thursday. The principal objection t arbitration proposed was tha ion was contained in the s e care of those men who w get back their old position mable to get any work at long discussion the ques

the hands of the three adopted: The question of taking care of fail to get work immediately rious one for the union. The ot the executive boards w of the engineers, firemen ; but there will be thous asses of mine workers who to be looked after. Now ike is over the volume of relidecrease, and the local un compelled to call upon the ney now on hand runs out. Hundreds of men who are at work to-morrow morning in order to get the men for coal. All the locals esident Mitchell received t latory telegrams from all ry after the news spread was ended. On his ret uarters he was asked for on of his views on the acti tion, and in reply he sai

pleased with the action of ite mine workers in decidir the issues which culmina ent of the United Sta ike itself has demonstrated t and dignity of labor. Cons elligent trade unions received cus, the effect of which car leasured. I earnestly hope and elieve that both labor and capit arned lessons from the miners hich will enable them to adopt humane and business method ting wage differences in the After Mr Mitchell had notifie Roosevelt of the action of ion and had received a reply ect that the commission woul Washington on Friday at 10 a at out the following announ ough the press to the strike strike was off. It was addr miners and mine workers in leite region, and was as follow You are hereby officially notify as unanimously decided to-da gates attending the special that all mine workers she for work Thursday mornin

adjustment to the commissioned by the President of the "We are authorized by the e ers of districts one, seven a caution all those who resur exercise more than usual car that accidents to life and li averted. Owing to the cond mines after an idleness ths, there will be great dang r this advice by the fact tha se of the strike two years ago ore accident and deaths occur e place when the mines are o (Sd.)
