

PEACE TREATY OF VERSAILLES IS BEFORE THE PARLIAMENT OF CANADA FOR RATIFICATION

Submitted to the Commons Yesterday by Sir Robert Borden Who Urged Its Sanction With Minimum of Delay.

CANADA LED THE DEMOCRACIES

On Request of Opposition the Debate Was Held Over Until Thursday and There Will be No Session Today.

Special to The Standard. Ottawa, Ont., Sept. 2.—The Peace Treaty of Versailles is before the Parliament of Canada for ratification. It was submitted to the Commons today by Sir Robert Borden, who, after an exhaustive and most lucid explanation of its various provisions, urged that it be sanctioned with the minimum of delay. While he spoke in no boastful way, Sir Robert did not disguise his pride as a Canadian at the conference.

"On behalf of my country," he declared, "and enthusiastic applause, I stood firmly upon this solid ground that in this, the greatest of all wars, in which the world's liberty, the world's justice, in short the world's future destiny were at stake, Canada has led the democracies of both the American continents. Her resolve had given inspiration, her sacrifices had been conspicuous, her effort unabated to the end. The same indomitable spirit which made her capable of that effort and sacrifice, made her equally incapable of accepting the peace conference in the League of Nations, or elsewhere, a status inferior to that accorded to nations less advanced in their development, less amply endowed in wealth, resources and population, no more complete in their sovereignty and far less conspicuous in their sacrifices."

On the request of the opposition, who wished to have time to study the Treaty of Peace and documents connected with it, the debate was held over until Thursday, and the House will not sit on Wednesday. The pro- and little Canada attitude of the opposition was apparent in the few remarks made by the two opposition leaders, Mr. D. MacKenzie and Hon. W. S. Fielding. Mr. MacKenzie urged the utmost caution in dealing with a measure that would result in modifying Canada's relations with the motherland and other countries. Mr. Fielding wanted to know what would happen if Canada did not ratify the treaty—his inference being, as Sir Robert pointed out, that Canada's ratification was only a farce.

Ernest LaPointe, of Kamouraska, raised another point when he asked for serious consideration of Article 16 of the League of Nations covenant, which, he said, "would bind Canadian lives and treasure for all time to come in guaranteeing the integrity of nations." Mr. W. F. MacLean, South York, supported Mr. LaPointe, pointing out that this clause was proving the stumbling block to American ratification.

Lucien Cannon, of Dorchester, as might be expected, raised the usual language question. The authentic French version only arrived two days ago, and there has not been time to have it printed. There is, therefore, but a single French copy. Mr. Cannon asked that the debate be adjourned until each member could have copies in the two official languages.

"If this is not done before the resolution comes up again," he threatened, "I will raise a point of order, and the speaker will sustain me under the rules of the House."

But the one dramatic feature of the day was an exchange between the Prime Minister and Hon. W. S. Fielding, when at the close of Sir Robert's statement, the member for Queens-Shelburne, from his seat at the left of the opposition leader, asked what would happen should the Parliament of Canada fail to ratify the treaty.

"Defeat of the resolution would involve the defeat of the government," retorted Sir Robert.

Expected Shophmen Will Accept Advice Of Officers And Not Go On Strike

Washington, D. C., Sept. 3.—Partial returns from the railroad shophmen indicate, union officials said today, that the men will accept the advice of their officers and leave the matter of a strike in their hands, pending the result of governmental efforts to reduce the cost of living. This was the day originally set for a strike, and it was feared that some of the more rest- less might quit work.

THE HOARDING OF SUGAR FOR DOMESTIC PURPOSES CHIEF CAUSE OF PRESENT SHORTAGE

Sugar Situation Brought Before Board of Commerce Yesterday—Sugar Refineries All Represented and Showed a Hearty Willingness to Cooperate in Every Way in Providing the Public With a Supply—Do Not Expect Any Great Advance—Large Shipments to England and France.

Montreal, September 2.—"There is plenty of sugar to go round if everybody keeps his head," said Mr. D. Lorne McGibbon, of the Atlantic Sugar Refineries, Limited, at the close of the session of the Board of Commerce this afternoon at the Windsor Hotel. This reply was in an answer to a question by Hon. H. A. Robson, chairman of the board, who asked: "Is there any justification for domestic hoarding of sugar?"

Mr. W. F. O'Connor, K. C., also asked Mr. McGibbon: "Do you think there is any justification for the retailers in the West?"

Mr. McGibbon: "The retailer is not hoarding, but the public is. Sugar may go up a cent or two, but nothing like the advance that is rumored. A cent or two, however, is a great advance to the sugar man. My personal opinion is that before Christmas the whole sale price which is now \$10.50 will be \$11 or \$11.75."

Mr. J. W. McConnell of the St. Lawrence Sugar Refineries, Limited, here interrupted.

"Prices depends to a great extent on whether we are permitted to continue to fill our export duties, as with the larger profits that these represent we can average up."

Mr. O'Connor to Mr. McGibbon: "Why should there be such an appreciable increase in the price of sugar in view of the fact that the United States will have a big beet crop in October and Cuba also expects a big crop?"

Mr. McGibbon: "That will effect the American market principally. One of the main reasons for the advance is that Great Britain has given a preference to the British West Indies for their sugar, which, heretofore, came to Canada."

Mr. D. E. Turnbull, representing the Acadia Sugar Refineries, speaking of their export contracts said:

"Our last export contract was made some time during July. Judge Robson: 'How many permits have you outstanding now?'"

"I do not think we have any. We have applied for one export permit, but that has not yet been granted."

"How much are you still under contract to export?"

"Between ten and eleven thousand tons. About one thousand tons go to England, the balance to France."

Mr. Turnbull stated that having had a quantity of sugar on hand which they had failed to sell domestically, they had proceeded to export it.

THE COAL MINERS WEEKLY REJECT GOVT'S OFFER

National Executive Committee Has Resolved to Recommend to Delegates Such a Procedure at Today's Conference.

STRIKE MAY POSSIBLY FOLLOW

Conference Will Debate Whether They Should be Called to Force Country to Nationalize Mines.

London, Sept. 2.—(By The Associated Press)—The national executive committee of the coal miners has resolved to recommend to the delegates in attendance upon tomorrow's conference rejection of the Government's scheme for dealing in mines.

The conference will be decided Thursday whether to act immediately with the other unions of the triple alliance, which embraces in addition to the miners, the transport workers and railroad men or take additional steps toward forcing the government to appeal to the country on the question of nationalization of coal mines.

In an address before the House of Commons, August 18, David Lloyd George, the British Prime Minister, dealing with the internal affairs of Great Britain, said it had been decided by the government to reject the majority report of Justice Sankey's commission, which provided for the gradual nationalization of coal mines.

Mr. Lloyd George contended that there was no evidence that harmony would prevail with the mines under state ownership. He denounced the recent miners strike in Yorkshire, and the experience of the railroads under government control.

Auto Plunges Into Perry Point Ravine Killing Driver

Prominent Young Business Man of Sussex Has Life Crushed Out in Accident—Wife Sustains Severe Injuries.

Special to The Standard. Sussex, Sept. 2.—A deep gloom was cast over the town of Sussex today when the word was passed around that Arthur W. Maggs, one of the best known and most highly respected of the younger business men of the place, had been instantly killed as a result of an automobile accident.

Mr. Maggs, who is a well known contractor and builder, is also bridge inspector of the Provincial Government for Kings County, and left his home this morning about eleven o'clock to inspect a bridge in the lower part of the county. He was accompanied by Mrs. Maggs, and all went well until a point had been reached about half a mile this side of the Perry Point bridge, one of the most dangerous pieces of road in the province, the road being very narrow, with a hill on one side and a ravine, about twelve feet deep, on the other, the bottom of the ravine covered with large boulders.

As soon as Mrs. Maggs had recovered from the effect of the shock, she started along the road to look for help, and arriving at the summer home of Arthur W. Keith, of Sussex, told her story. In the meantime, two men who had been passing the river and witnessed the accident, hurried to shore and assisted by some others in the vicinity, had lifted the car off Mr. Maggs. Dr. Wetmore, of the town, was summoned and on arrival at the scene of the accident pronounced Mr. Maggs beyond medical aid. He then proceeded to the home of Mr. Keith and rendered medical aid to Mrs. Maggs.

F. W. Wallace, funeral director, of Sussex, was summoned, and hurried to the scene of the accident in his car, bringing back the body of Mr. Maggs. Later in the day Mrs. Maggs was brought in an ambulance to the home of her father, W. H. Culvert, where she is resting as easily as can be expected under the circumstances.

Mr. Maggs, who was about 38 years of age is survived by his wife, his mother, Mrs. W. A. Maggs, widow of William Maggs, two brothers, A. Bowman Maggs, of Vancouver, B. C., and George O. Maggs, M. GERMAN DYES TO UNITED STATES

Washington, D. C., Sept. 2.—Importation of a six months' supply of dyes from Germany for the American manufacturers will be allowed under a ruling announced today by the War Trade Board. Manufacturers have been requested to file statements with the Board showing the total quantities of dyes needed for the six months beginning October first.

In Moving the Address in Reply to the Speech from the Throne Dr. Whidden Emphasized the Importance of the Matters Which Were to be Discussed During the Session—Making of Peace a Stern Business Just as the Carrying on of the War—Freedom and Civilization Would Continue by Its Ratification.

Ottawa, Sept. 2.—Dr. H. P. Whidden in moving the address in reply to the speech from the Throne today, emphasized the importance of the matters which were to be discussed during the session. The most terrible war in history had been brought to a conclusion, and now members of the Canadian parliament were asked to ratify the Treaty which had terminated it.

Before referring to any length to the Peace Treaty, Dr. Whidden said that he wished to mention the visit of the Prince of Wales, and to express the pleasure which it gave him. The coming of the Prince, he said, was a timely one. He followed across the Atlantic many of those with whom he had been associated on the Western Front, and he was thus enabled to renew old friendships made within the sound of the guns.

Dr. Whidden referred to the fact so many Canadians had gone across to Great Britain and Europe to fight the battles for civilization, now a representative of the "old land" had come to interpret to the people of Canada the significance and advantage of British institutions and traditions. A democratic people was receiving a democratic Prince, who was a product of the most democratic Empire in the history of the world.

"The present session," said the speaker, "would probably be known as the Peace Treaty session. The making of peace was a stern business just as the carrying on of work, and in view of the conduct of our enemies severe treatment of them was not only natural but right. The meaning of the Peace Treaty to the world and Canada was an important one. This document meant that freedom and civilization, instead of being destroyed, would continue. Once more the safety of the world would be secure. A permanent peace, however, must be obtained, and it was in this connection that the League of Nations covenant assumed its great importance."

Dr. Whidden deprecated the class consciousness which at present characterized much of Canadian life. He prophesied that this would not last. As a cure for industrial unrest he advocated the adoption of principles for which sixty thousand Canadian soldiers lay dead in Flanders and France. Righteousness, freedom, truth and justice were the important lessons which must be assimilated by the people of all classes in the Dominion.

Measures to suppress profiteering were valuable, but a national sense of justice and fair play would be more valuable. He declared that the spirit of sectionalism must be suppressed and false distinctions destroyed if Canada were to succeed as a nation.

In conclusion Dr. Whidden said that Canada was standing at the gateway of her destiny, and in proportion as Canadians incorporated in themselves the spirits of their soldiers, so would the future of the Dominion best be served. Canada must listen to the new challenge and stand her ground amidst the nations which had fought to make this world safe for all peoples.

The member for Nanaimo, B. C., Mr. McKeen, in seconding the adoption of the address, expressed first the regret that we could be left throughout the country at the loss of the services of Sir Thomas White, as finance minister. His place had been taken by Sir Henry Drayton, who, Mr. McKeen thought, would no doubt repeat, as a member of the government, his successful career as head of the railway commission. The choice of Dr. S. F. Tolmie, as minister of agriculture was also referred to as being most satisfactory. Mr. McKeen also made reference to Canada's share in the sorrow felt in South Africa's loss through the death of General Botha.

The visit of the Prince of Wales was next referred to, Mr. McKeen expressing the opinion that the bonds between Canada and the Mother Country were never so strong as at the present.

The gallant deeds of the Canadian Army overseas were praised as also was the leadership of General Sir Arthur Currie, the corps commander. Mr. McKeen then turned to the Peace Treaty, dealing with the clauses which limited the threat of German world domination.

Mr. McKeen expressed the hope that labor would soon have much greater representation in the House, as he felt that this would in a great measure, make for stability in the nation.

Mr. D. D. McKenzie, who followed, congratulated the mover and seconder and then said he wished to associate the members of his side of the House, and Liberals generally, in the welcome being accorded to His Royal Highness the Prince of Wales. The Canadian people felt they had a right to expect great things from their future sovereign, and these highest expectations had been more than fulfilled.

Mr. McKenzie joined with the government in wishing the Prince happy during his stay in Canada and a safe return to the home land.

Dealing with the Peace Treaty Mr. McKenzie said there was in it a suggestion of changes in the relationship between Canada and the Motherland. He urged that extreme caution be exercised before any changes in relationship were agreed to.

Mr. McKenzie then said it had been arranged that the discussion of the address be adjourned for the present while the Prime Minister brought forth some important business which he wanted to place before the House. Seconded by Mr. Fielding, he moved the adjournment of the address.

When the Premier arose to speak, Sir Sam Hughes asked how long the debate was being adjourned. Sir Robert said he expected it would be resumed very soon.

Hon. Jacques Bureau protested against taking any definite action on the treaty before members had been given an explanation of it and an opportunity to consider it. He understood, he said, that the Prime Minister would make a statement, after which the debate would be adjourned.

Sir Robert replied that it was only reasonable to give members time to consider the treaty. After his explanation, he thought, would tend to clear up some obscure points, the debate might be adjourned.

HUNDRED BOYS AND A HUNDRED CATS SWARM BROOKLYN STREET

Brooklyn, "the City of Churches," is also the city of cats. The soft influence of a million feline eyes that shoot fire in the darkness and of myriad padded feet that tread the rug and the dark alleys rests upon Brooklyn.

Miss Alice Joyce, the Vitaphone star, and Wesley Ruggles, her director, found this out one other day in sensational fashion. They saw the Vitaphone studio in Brooklyn red and swamped by cats.

Each urchin had a feline in his arms or on his shoulders or hanging in his hand by the tail. In some cases the cats were bigger than the boys who held them and there were some harrowing adventures of scratching and struggles.

and make a brew around the ham. Sprinkle with paprika and paprika. Bran Muffins—(Specially good with salads)—Mix 2 tablespoons lard or bacon fat with 3 tablespoons sugar (brown), 2 tablespoons molasses, 1 egg, 1 cup sour milk, 1 level teaspoon soda, dissolve in hot water, 1 cup white flour, 1 1/2 cups bran flour, 1 teaspoon baking powder sifted with white flour, pinch of salt. Bake in hot muffin pans about 20 to 25 minutes.

TIPS TO HOUSEWIVES,

When canning sour fruits use medium heavy thick syrup. Corn baked with cut green peppers in it is an agreeable change. Cook peas and beans in a little water as possible. The result is a better flavor.

A little white sugar dissolved in hot water makes a good stiffening for delicate loaves. Add a couple of vinegar to water, in which colored clothes are washed. This prevents running.

A CLOTHES DECISION.

Little boy, my aird's not high. But I'm proud of my fine calf. Boys ain't got such pretty limbs. And they're jealous. Makes us laugh.

THOSE HATS!

The slaughter of millions of the most beautiful birds of the world for the purchase of the millinery trade is protested against in a powerful memorandum addressed to the Prime Minister and the President of the Board of Trade by a long list of distinguished men. It is pointed out that unless immediate action is taken many handsome birds will be extinct in the near future. The signatories urge that a bill prohibiting the importation of birds' skins and feathers similar to that which passed its second reading in 1914 be brought in without delay before the House of Commons. It is pointed out that the loss to the worker by the suppression of this traffic would be negligible. On the contrary the increase of substitute decorations that would follow the prohibition of the plume trade would increase the chances for labor.

TO HARNESS THE RHONE RIVER FOR INDUSTRIAL WORK

The Development of Its Power for the Manufacture of Electricity is Being Planned by the French. Paris, Aug. 18, (French Wireless Service).—Developments of the water-power of the Rhone river for the manufacture of electric power and organization of its facilities for river transportation and irrigation are provided for in a bill which the government has submitted to the Chamber of Deputies. The expenses of the project are estimated to aggregate 2,600,000,000 francs.

It is proposed to erect 20 hydroelectric power stations to produce an average of 715,000 horsepower. This would be equivalent to 5,000,000 tons of coal, or nearly 1-3 of the French coal output before the war, of 1-6 of the output in 1918.

Under this plan it would be possible to operate 1200-ton barges on the Rhone providing transportation between the Rhone valley and central Europe. The construction work would require fifteen years. It is proposed to grant a concession for this undertaking to a company with a capital of 250,000,000 francs and the privilege of issuing bonds to ten times that amount. These bonds would be guaranteed by the state and the state would appoint 2-5 of the membership of the administrative council including the president.

OBITUARY

Mr. Douglas Baird, of Perth, passed away at his home on Friday night, the 29th August, after an illness of several weeks. For several years Mr. Baird was connected with the general Co., Ltd., later conducting a general hardware store, and was postmaster. He was well and favorably known. He was fifty-five years of age, and is survived by his widow, three daughters, Misses Edith, Muriel and Louise, and by one sister, Mrs. J. B. Porter, and three brothers, Daniel, of River de Chute; William and Wesley, of Baldeville. Much sympathy goes out to the afflicted relatives. The funeral was held on Sunday afternoon at 2 o'clock.

HOSPITAL COMMISSION COUNTY FINANCE TO PROCEED

Total Expenditure for 1918-1919—Original Lower Priced—Municipal Acceptance of Tenders

The County Council yesterday red the tenders for the construction of the nurses' home to the finance committee and tonight counted with power to act, and instructed to carry out the original plans as far as possible subject to a limit of expenditure of \$151,550.

On the first call for tenders the lowest was that of John Flood and being \$151,550. On the second call the plans were modified, by cutting tenders placed the cost at \$98,000. Their tenders were as follows: B. Mooney and Sons, masonry \$10,000; Stanley Williams, carpentry \$4,000; H. Doody, plumbing, etc., \$1,000; J. Pullen, painting, etc., \$1,000; Vaughn Electric Co. wiring, etc., \$1,000; B. Mooney and Son, fuel, \$1,000.

Neil Brodie, the architect and revised plans they had changed it also to a pressed brick front provided for cheaper finishing, new plans would save \$10,000, building would not look as well as the one originally proposed, but would be quite as serviceable. The revised plans left out the elevator.

The architect said that between first and second call for tenders price of some materials had gone up 50 per cent. Next year he thought would cost from 15 to 20 per cent more than now to build a new hospital and labor were going up 10 per cent. The cost of the hospital said figure \$129,998 did not include architect's bill.

Com. Fisher said that if the cost of the architect's bill was added the cost would be \$144,000, wanted to know whether temporary arrangements for the nurses could be made until prices went down at a new home could be built at a low cost. The hospital getting greatest possible revenue if it was made for more patients was the increased revenues pay for the accommodation for the nurses where?

Dr. Walker said that they had enquired and found that to board nurses outside and use their rooms for patients would not be payable. Dr. Heddon—"The cost of maintaining patients now is \$2.25 per day. Dr. Walker—"There is no profit taking in paying patients."

For Original Plans. Com. O'Brien said he was in favor of carrying out the original plans.

HOSPITAL COMMISSION AND COUNTY FINANCE COMMITTEE TO PROCEED WITH NURSES' HOME

Total Expenditure for New Building is Not to Exceed \$151,550—Original Plans Modified to Make Building Lower Priced—Municipal Council Give Authority for Acceptance of Tenders.

The County Council yesterday referred the tenders for the construction of the nurses' home to the finance committee and hospital commissioners with power to act, and instructed them to carry out the original plans as far as possible subject to a limit of expenditure of \$151,550.

On the first call for tenders the lowest was that of John Flood and Son, being \$151,550. On the second call, when the plans were modified, the lowest tenders placed the cost at \$129,998. Their tenders were as follows: B. Mooney and Sons, masonry \$ 60,800 Stanley Williams, carpentry 41,625 J. H. Doody, plumbing, etc. 18,930 J. Pullen, painting, etc. 4,467 Vaughn Electric Co. wiring, etc. 5,000 B. Mooney and Son, tunnel, 5,131

Total \$129,998 B. Mooney and Son undertook to assume responsibility for the completion of the whole work, and the hospital commissioners recommended that they be given the contract.

Dr. Walker said they had been struggling over the question for some time. He read a resolution of the hospital commissioners requesting the council to accept the lowest tender for building a nurses' home, though the figure was above the council's estimate. The commissioners had called for tenders twice and by cutting out various items they had got the cost down to \$129,998. With a home for the nurses the hospital would accommodate from 40 to 60 additional patients.

An Explanation. Neil Brodie, the architect said in the revised plans they had changed from a stone to a pressed brick front and provided for cheaper fittings. The new plans would save \$10,000. The building would not look as well as the one originally proposed, but would be quite as serviceable. The revised plans left out the elevator.

The architect said that between the first and second call for tenders the price of some materials had gone up 50 per cent. Next year he thought it would cost from 15 to 20 per cent. more than now to build. Cost of materials and labor were going up. Last week electrical fittings went up from 25 to 30 per cent.

Dr. Heddon of the hospital said the figure \$129,998 did not include the architect's bill. Com. Flaher said that if the elevator and the architect's bill were added the cost would be \$144,000. He wanted to know whether temporary arrangements for the nurses could be made until prices went down and a new home could be built at a lower cost. Was the hospital getting the greatest possible revenue? If room was made for more patients would the increased revenues pay for finding accommodation for the nurses elsewhere?

Dr. Walker said that they had made enquiries and found that to board the nurses outside and use their present rooms for patients would not be practicable. Dr. Heddon—"The cost of maintaining patients now is \$2.35 per day." Dr. Walker—"There is no profit in taking in paying patients."

For Original Plans. Com. O'Brien said he was in favor of carrying out the original plans. A HEAD ACHES NEURALGIA FLU WOMEN'S ACHES ASK FOR AK TABLETS

London, Aug. 28.—(Correspondence of the Associated Press).—One of the useful discoveries which the war has given the British nation is the Geddes family. Sir Eric Geddes, as Minister of Ways and Communications, and Sir Auckland Geddes, as President of the Board of Trade, are at the head of the two foremost departments engaged in the great work of reconstruction, while their sister is Commandant of the Women's Royal Air Force with a semi-military organization of several hundred under her control.

The Geddes brothers come from Scotland, which is apt to be a guarantee of success, and before the war they were almost unknown beyond the circles of their own professions. Sir Eric Geddes was a railroad manager, and a railroad magnate does not hold so large a place in the public eye in England as they do in America; smaller than a bishop or a Master of Fox Blounds, which last is about the most purple pinnacle of distinction, which Sir Auckland Geddes was Professor of Anatomy at McGill University in Toronto. Both of them acknowledge a debt to the invigorating atmosphere of the North American continent, where Eric first worked as a lumberman and later had his first railroad lessons on the Baltimore and Ohio.

Public Hospital for Riverside. Committees Having the Work in Hand for Establishing Such an Institution Are Perfecting Their Plans.

A meeting of the committees in connection with the proposed Public Hospital at Riverside, Albert County, got under way this afternoon, and the following board of directors were appointed: I. C. Prescott, Albert, chairman; T. J. Lewis, M. D., Hillsboro; Adam Peck, Hopewell Hill; E. W. Lynds, Hopewell Cape; J. A. Cleveland, Alma; Norman Smith, Harvey; W. J. Carvach, Riverside; E. B. Jones, Harvey, secretary to board.

It was also decided to form a commission of ladies to take the general management of the institution, and to operate with the board. In this it was concluded to appoint one lady from each of the above districts, and these to appoint two others from their respective districts, making a total of twenty-one. The following ladies were selected: Mrs. A. R. McCallan, Riverside; Mrs. R. V. Bennett, Hopewell Cape; Mrs. J. J. Orman, Hillsboro; Mrs. Alex. Rogers, Hopewell Hill; Mrs. Leonard Martin, Alma; Mrs. D. Cleveland, Albert; Mrs. Minnie Turner, Harvey.

Wish To Improve Sanitation of City of St. John. Board of Health to Help to Make Living Conditions Better—Milk Supply—Drainage for Sections of Town.

In line with the policy to make St. John as clean and as sanitary a city as any in Canada, the Board of Health in its monthly meeting yesterday afternoon devoted considerable time to a discussion of the report submitted by Inspector Solomon McConnell, regarding the inspection and licensing of lodging houses.

Under the new law all establishments that cater to promiscuous patrons and rent rooms to two or more people not belonging to the same family must be duly inspected and licensed. The law covers the size of rooms allowable, toilet conveniences, capacity and other details and though rather strict, is a decided boon to the transient public. The inspector's report was most complete and aroused considerable discussion.

Public Hospital for Riverside. Committees Having the Work in Hand for Establishing Such an Institution Are Perfecting Their Plans.

Another drainage matter that was discussed, following an investigation by Inspector McConnell, was that of the Shamrock marsh grounds, bounded by the Adelaide Road, Elm street and Lansdowne Avenue. On this ground there is considerable sewage from the rear of buildings in Main street, near the Union Hall and there is a great amount of sewerage from the buildings above the level of the land.

Consider the building boom that is now affecting Lansdowne Avenue and the menace to public health that is created by this marsh and dumping ground. The matter would be fully investigated, and the city authorities be urged to give the sewerage problem of this section of the city the earliest possible attention.

A letter from Dr. G. G. Melvin, chief health officer of the province, was read wherein the department has promised the local board every assistance in carrying the matter of civic sanitation through to a successful issue. It was stated that attention would also be given to the drainage needs of Eastmount and the Marsh Road, and even the aid of fumes or pipe being used to divert the refuse to the middle of the stream. During the discussion on this question several points were raised and the matter was laid over for another meeting, when more detailed information will be at hand.

ST. JOHN, N. B., WEDNESDAY, SEPTEMBER 3, 1919.

CIVIC TAXATION.

In criticizing the application of the new assessment law in St. John it is well to make sure of the facts. There has been comment to the effect that the imposition of a greatly increased real estate assessment will adversely affect business and living conditions, which is untrue if such comment is not founded on truth. And an evening paper which a few days ago referred to the new law in its editorial in certain assertions which were made.

In that assessment there was not included the C. P. R., the New Brunswick Power, or the New Brunswick Telephone Company properties. These accounted for approximately one and a quarter million additional valuation, and when it is also remembered that there have been added to the tax list for the present year the Atlantic Lodge, Orange Lodge, Knights of Columbus plant, and other parcels of real estate owned and occupied by similar organizations which have not been subject to this form of taxation in the past, it will readily be believed that the new values found in the assessment list for the present year amount to a very considerable sum. Yet the total real estate assessment for 1919 is only \$23,780,880, which represents an increase of \$1,781,900 over last year. Omitting from consideration the value of the C. P. R., the New Brunswick Power Company and the New Brunswick Telephone Company properties, it is found that the net increase in real estate for 1919 is \$557,200, which by far the greater portion may be traceable to the fraternal and charitable institutions mentioned.

It is true that more money is being collected this year from real estate than was collected in 1918, that the taxes on this class of property are higher, and that some persons are complaining. But this is due altogether to the fact that St. John is spending more money, and is not because additional valuations have been imposed. In 1918 the warrants authorized by the board of commissioners on which that year's assessment was based, amounted to \$3,041,688, while in 1919 the corresponding expenditure totalled \$1,995,678. This in itself meant a very decided increase in the rate of taxation, but that rate was still further affected by other changes in the method of assessment which had been introduced. Personal estate, for instance, was put in two, but fortunately loss from this source was more than offset by the discovery of new revenue from incomes. The decreased assessment on personal property was \$5,558,000, but the increase on incomes amounted to \$4,850,750.

The net result of the whole revaluation in all departments showed an increase of \$2,064,000, on which revenue might be collected. This increase of considerably less than ten per cent. on the total valuation was not, however, sufficient to meet the increased expenditures in view of the loss of special business taxes, and as a result the rate of taxation had to go up, this copying not to real estate alone but to personal property and incomes as well.

Of course it is recognized, and unfortunately there is no evident relief, that landlords—and this is a regrettable fact—have a facility of blaming increased rentals on advancing taxation. Within the past week cases have come to the attention of The Standard in which increases in rentals amounting to forty-eight dollars per year were made, effective last May, on the excuse of increased taxation by means of which total increased taxation did not amount to ten dollars in three years. As a matter of fact, if the increase in rentals were based wholly on increased taxation, rentals today would be much lower than they are for every class of property in the city.

But speaking of taxes—and the average man has been disastrously surprised with this year's bills—what puzzles most people is to realize that they are not paying more for their civic dues in smaller portions than that of any other city in Canada, and that consequently their latest charges are very low. And we know that the valuation of real estate, personal property and incomes for assessment purposes is quite high, practically as high as that of any other city in Canada. And, when, in addition to this, we realize that our rate of taxation is greater than that of the majority of other communities, we commence to wonder what it is all about. If our overhead expenses are small, if we are spending nothing for capital, and if we are carrying out no elaborate programme from current accounts, what in the world are we doing?

This is what puzzles many who do not follow closely the civic accounts, and who only realize that they are contributing rather heavily every year toward a revenue which seems to fall away, which produces no apparent result. It is true that we are paying a

shall be subject to the same penalties as are provided for murder of any other sort, unless it can be clearly shown that the person so killed was directly to blame. Murder is supposed to be intentional, and there is certainly an intention expressed in the recklessness of auto drivers who speed over country roads and city streets regardless of the rights of others and who are lacking in ability to handle a car when the safety of pedestrians is threatened. Fines of money will have no effect, but a few lengthy terms of imprisonment might put an end to a practice which is becoming altogether too common.

WHAT THEY SAY

Tuesday and Tuesday!
New York Herald—In Great Britain the collapse of the pound sterling is the shape of the harbour on which money has to be spent. This is not a fact, for even were the harbour a loss, which, according to Commissioner Bullock, it was not last year, the cost of the harbor is included in our interest charges on capital debt, which is less than in any other city in Canada. Then, when we are talking about streets and going to Upper Canada or the West to look at the class of paving enjoyed by residents in cities no larger than St. John, spending as much money as it does, has so little to show. We are not wasting our money on facts and figures, we are not spending heavily on new institutions, on ambitious programmes of civic improvements, and according to the Chamberlain's accounts, there is no waste of public funds. Yet the fact remains that with the very low interest charges, with the high rate of taxation on a high assessment value, we are evidently unable to do any more than provide barely sufficient for the ordinary administrative routine. What is the matter with us? Is our whole system astray or are we in a rut?

A Man Who Did.
New York Herald—It would be a graceful act if General Currier, the retired commander of the 10th Cavalry, were to come to New York for Pershing Day. Why not invite him? Americans would like to see him.

Have the Courage.
Toronto Mail and Empire—The German government is restricting imports, trying to save the country from about a million dollars of gold. It requires exporters to give two years' credit to German purchasers, in order to prevent early settlements further prejudicing the exchange situation. The German government has a terrible set of conditions to deal with, but its courage and vigor in facing them command admiration.

Heads, I Win; Tails, You Lose.
Kansas City Star—In other words, the railway executives with things to do on mainly as they are going now, with the gross receipts divided among the wage earners and the public paying the deficits.

Plot for a Movie.
St. Louis Globe-Democrat—It is humorous suggestion that government ownership of railroads would "cut the cost of living." Mr. McAdoo should write a scenario on this for his distinguished client, Charles Chaplin.

Unduly Stingy.
New York Tribune—President Johnson of the democratic national convention says that he needs a \$10,000,000 campaign fund to elect a democratic candidate for president next year. He thinks his estimate unduly stingy.

Rival Airliners.
New York Herald—Now the Germans are leasing a nation of their own. Was there ever such ingratitude? At the time, too, when all arrangements had been made to invite the President to the other party if they showed that they were reformed characters!

Wilson's Failure in Russia.
New York Sun—The situation of the American soldiers in Siberia from all accounts is highly unsatisfactory. It illustrates the failure of the President to deal with the Russian problem in a way to meet the needs of Russia or of the United States, and it emphasizes the absurdity of military policy in dealing with the Bolsheviks.

A BIT OF VERSE

THE HOUSEWIFE'S PLEA.
Lock the turkeys in the closet; double bar the smokehouse door; Where the slice of ham is hidden; both the cellar and the attic more; Where the cabbage and potatoes have been sealed and stored with care; padlock on the ice box—there's an ounce of butter there; Take the milk up to the attic or to some safe hiding place; Put the coffee cans in the leather or jewel case; Dump the pearls and rubies anywhere about the place you please; But mind you lock the attic and the passage and the cheese.

There's a sliding panel somewhere in the dressing-room or hall—Go see if you can find it and the draw, or within the wall; We must hide the lard and sugar—throw the tins and papers out; And put the rattan bags in—we can't leave them about; Put the plate and glass and silver in the cool box down the stair; The plate chest's for the eggs—and throw the silver anywhere; Now step into the closet that the ham is hanging in—I want to give another spike to shut the door in.

Is the pork chop well secreted? Did you bury the soap bone? Where one of us can find it, if he comes back home alone? Did you turn the combination when you shut the safe just then? There's a leg of chicken in it—better go and look again; Rip the mattress just a little till I hide this slice of bread; Hide that string bean in the stove pipe—no, the frequency, instead; I'm so much afraid of burglars—these are truly trying days—And with father and the children I am going out to grass.

Everybody in the Christian States. "The speaker, it was the last day of a very long session, and everybody was worn out. That was the close of the session, and the speaker, Mr. Cannon, said the following picture of the close of the Sixty-fifth Congress, March 4, 1837. "This is the description of the Christian States. "The prevalence of the American nation broke loose for an hour. Speaker Champ Clark saw way to the veteran co-speaker, Frederick Riewald, Gondola Point. DIAMONDS

A Diamond Is Its Own Bargain Today

There are really no bargains in diamonds—in the way of price cutting, because no one cuts the price of goods that have "intrinsic value" and that are advancing in value all the time.

In the last few years diamonds have advanced over 100 per cent, and are still going up. That is the reason why a diamond investment is its own bargain—and furthermore diamonds cannot depreciate in value, at least until new diamond fields are discovered. "As a gift—or for a personal investment"—you cannot go wrong if you make a purchase of one of our diamonds.

GENERAL ALVARO

General Alvaro Obregón, perhaps the most probable successor to the Presidency of Mexico, has issued a manifesto to the Mexican people stating forth his policies if elected next year. His stand is radical in a Mexican political sense. It promises no specific programs, the author commenting that Mexicans are "tired of programs, which, at

Bowels Moved as Many as 25 Times a Day.

Dysentery manifests itself with varying degrees of intensity, but in marked cases the attack is commenced by some amount of diarrhoea which gradually increases in severity and is accompanied with gripping pain in the abdomen. The discharge from the bowels succeed each other with great frequency, and the matter passes from the bowels, which at first similes those of ordinary diarrhoea, soon change their character, becoming scanty, mucous or slimy, and a sequently mixed with, or consist wholly of blood. Never "shoot" at first appears to be a slight attack of diarrhoea or dysentery may set in. Care the first symptoms by the use of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Jno. V. Tanton, R. R. No. 1, Warford, Ont., writes:—"My daughter was taken down, two years ago, with dysentery, and I could not do anything until I got a bottle of Dr. Fowler's Extract of Wild Strawberry. She was only two years old, and ate something different to what she was used to, and had as many as twenty-five movements a day, and mostly blood. We had doctor several times, but no relief came until we used Dr. Fowler's. I could not do without it in the hour for a good bit."

Be sure and get "Dr. Fowler's" when you ask for it. Price, 35c. Sold in many as twenty-five movements a day, and mostly blood. We had doctor several times, but no relief came until we used Dr. Fowler's. I could not do without it in the hour for a good bit."

George F. Hatheway, Mrs. Herbert B. Wardrop has received advice of the death at his late residence, Brookline, Mass., on Saturday last, of her brother, George F. Hatheway, formerly of this city. Two daughters and a son also survive. Mrs. Hatheway having died several months ago. The late George F. Hatheway left St. John in his youth and later in life conducted a business of general merchandise on Central wharf, Boston. Interment took place on Monday last at Brookline.

Don't Knock The Town, But Boost Some Suggestions for Improving St. John and Making it a Real Live City.

"There is a whole lot of talk about this town being slow, but I never see many people coming forward with any good suggestions or any practical help to make it better," was the statement made yesterday by a prominent citizen. "A city cannot possibly be any better than the people who live therein, and in St. John there are too many people ready to knock anything that is being done and yet none give a hand themselves. "We will take yesterday, Labor Day, for instance. Outside of a couple of baseball matches, green races at Moosepath Park, and swimming races at Indiantown, there was practically nothing to amuse the thousands who stayed in the town, that is not the fault of the town, some person was waiting for some person else to start something—and there you are. If some of the boys of the old brigade were in harness to day, there would have been a good programme of sports for Labor Day and instead of the folks hiking for other towns to spend their money, they would have stayed right here in town and saved money and had a darn good time in the bargain. "There is a lot of complaint about the streets, the sidewalks, public utilities and other things. Well, the people had a chance to have good sidewalks laid, with the abutter paying half of the cost, but when that plan was proposed there was a cry raised. "When any public improvement is under discussion, or any meeting held for public welfare or entertainment, it is certainly disheartening to see the empty chairs that make up one-half of the audience. Then if that

Live Canadian Political News

Some Bits Culled from Newspapers in Different Parts of Canada.

The Farmer's Position. In most of the farmer conventions the heavy debt and expenditures of the Government are dwelt upon as a reason for making steady change and giving men with no connections with outside enterprises a chance to show what they are capable of doing. At the Hamilton, P. O. convention Mr. M. W. Doherty put it that enormous debt of Canada must be paid from the soil and under present conditions the farms are becoming depopulated. The Government failed to protect the farms and the only solution was to select a farmers' parliament. These are others besides farmers who feel much for Mr. Doherty's views. The Winnipeg Free Press, discussing temptations to make friends with patriotic, philanthropic, socialistic, crank, and selfish advocates of the expenditure of public money by the Government, puts itself on record in the following, which is straight to the point: "The imperative duty of every Canadian citizen, as it is also the imperative duty of the Canadian Government, is to curtail expenditures to reduce borrowings for any purpose whatsoever to the lowest, to produce all that industrial processes which the financial and economic losses of the war have been to a large extent repaired, and not until then, will it be possible to turn the national resources into instruments of social and industrial experimentation. Meanwhile only the clearest necessity can justify government in incurring new liabilities."

Political Speculation. (Montreal Gazette.) The idea that early in the session which opens today the future of the Unionist party will be settled is somewhat widely held, and the declarations of the various parties above may be designed to influence coming events. The development of a Unionist party to carry on the policies and ideas originated by the Conservatives has been before the public for some time and it is understood that have been discussed at a caucus of not yet a dozen accomplished, it would appear. The Toronto Times, a strong supporter of the Government and its policies, in its Ottawa correspondence intimates that another caucus will be held at an early date, and adds: "The caucus decides against a new Unionist party, a break-up of the Cabinet is likely. While Hon. J. A. Calder, Hon. N. W. Rowell, General Newburn and other Liberal-Unionist ministers are expected to merge with the Conservatives, a coming event, a new party, they will not agree to step into the Conservative party. The Liberal-Unionist would almost certainly follow. Robert Borden would either have to resign as Prime Minister or reorganize on Conservative lines and appeal this fall to the country."

Dodging to Avoid Punishment. (Toronto Telegram.) The Liberals appear to have decided that with Hon. Mackenzie King and his war record as leaders there is a little chance of their making headway in Ontario in the west. Consequently they are hinting that when a farmer has the field they will not put up a candidate. "I know that Mr. King can, under existing circumstances, make a clean sweep of Quebec, and that he can emerge with a goodly following from the Maritime constituencies. But west of the Ottawa River it is different. Even sitting Liberal members in Ontario are feeling that the handicap of an anti-conscriptionist, Mr. Borden, would be a heavy one to carry. The addition of the German voters in the west does not promise a rich harvest of Liberal votes."

The Liberal Wilderness. (Peterborough Review.) With King and Gleggarty before them, how can the Liberals claim that they have gained anything or strengthened themselves in the least by the election of Mr. King? The differences in the party have not been smoothed out by placing him at the head of the column. The Liberal party will find itself in the same jam-handler position it has held since the beginning of the war, and even the alien leader cannot muster the support of the French-Canadian electorate, lacking racial and other qualifications as he does. Mr. King and the Chinese. (London Free Press.) Mr. King was, and is, opposed to that poll tax. To use his own words, the tax "serves to lead into slavery thousands of coolie laborers." He is not sympathetic with the working man, who, looking for a job, is willing to leave home and the scenes of his youth to work among strangers.

Business Man Is Enthusiastic

W. W. Paynter of North Rustico Praises Tanlac for Helping Him and His Wife

It is doubtful if there is a better known or more highly respected man in the vicinity of Charlottetown than W. W. Paynter, general merchant and proprietor of the hotel at North Rustico, Prince Edward Island. While on a business trip to Charlottetown, recently, Mr. Paynter called at Rodin Brothers' drug store to make a purchase of Tanlac and stated that both himself and his wife are using the medicine with wonderful results. When asked if he was willing for his experience with Tanlac to be published, Mr. Paynter said: "Yes, indeed, for it was by reading the statement of others that we heard of it and were induced to give it a trial. I had suffered from a bad stomach, poor appetite and a general run-down condition for years. I could not digest anything properly, and as a result I lost weight and strength continually. I was extremely nervous, slept but little, and had that tired, no account feeling all the time. This condition had existed so long that it was beginning to wear down my whole system. What I would eat nearly always caused me nausea, cramps in the pit of my stomach, or some other form of indigestion. I also suffered from dizziness, felt listless and hadn't the energy to attend to business properly. I was not sick exactly; that is not sick enough to take to my bed, but was just about one-half efficient and getting worse all the time. "My wife was affected practically the same way I was and had gotten in this run-down condition on account of the care and worry of running the hotel. So after reading the high endorsements in the Charlottetown papers we decided to try Tanlac, and while we have only taken two bottles each there is all the difference in the world in our condition already. My wife says she is feeling like a new person, and as for me, why, I have my old time vigor and energy back and am just feeling fine. Everything I eat agrees with me perfectly now, for I have no more pain or distress of any kind after meals, and my sleep is sound and restful every night. We are going to continue taking Tanlac for a while longer and I don't hesitate to recommend it for I have never run across a medicine that I consider in its place. "There is not a single portion of the body that is not benefited by the helpful action of Tanlac, which benefits its work by stimulating the digestive and assimilative organs, thereby enriching the blood and invigorating the whole system. Next, it energizes the weak, worn-out stomach, thoroughly digests its food permitting the nourishing elements to be converted into blood, bone and muscle. It overcomes, he said, that great exciting cause of disease—weakness. It renders the body vigorous and elastic, keeps the mind clear and energetic and throws off the symptoms of nervousness and indigestion. It builds up the constitution weakened by disease and mental and physical overwork, quickens consciousness and is an unfailing source of comfort to all suffering from such troubles. Tanlac is sold in St. John by Ross Drug Co. and F. W. Munro under the personal direction of a special Tanlac representative—Advt.

STANDARD'S SPORTING SECTION

LITTLE BITS OF SPORT CHATTER

Over in England a new description of Jimmy Wilde, the wonderfully clever flyweight champion, is going the rounds of the newspapers. It seems that Pedlar Palmer, himself a battler of no mean repute, was met by a boxing writer after an exhibition bout between Wilde and another London favorite.

"Pedlar, what do you think of Wilde?" asked the writer. "A bloomin' ghost with a hammer in 'is 'and," was Palmer's prompt response.

Harry Davis, veteran baseball man, a fine player in his day and a credit to the game always, is a candidate for a seat in the new Council of Twenty-one of Philadelphia. Davis is a member of the present City Council from the Thirty-eighth Ward, and in the present campaign has the backing of the Harry Davis Republican Club.

Lefty Lefield, who was doing good work when Babe Adams was a babe, is still doing good work. Pitchers? They last the longest. Look at Lefield, Adams, Johnson, Cicotte, Shawkey, Bender, Benton, Daus, Fisher, Saline, Ames, Caldwell, Cooper, Demaree, Hamilton, Marquard, Tyler, Vaughn and Hendrix.

If he can get the necessary consent, Duffy Lewis will have a team in Fresno, Cal., the coming winter to play Sunday games. Quinn, Pipp, Hannah, Foster, Gedeon and Sotiron are players who want to go with him.

Since he annihilated Willard, Jack Dempsey from time to time has selected Asbury Park, Salt Lake City, Chicago and Detroit as his future home. He hasn't named Newport or Palm Beach, but one must draw the line somewhere.

The English golfer wouldn't think of golfing unless wearing a coat, but the English tennis player, it seems, has not such fastidious sartorial scruples. He even unbuttons his collar.

Manager Cravath declares Dave Bancroft is the greatest fielding shortstop that ever played the position. Except, possibly, Herman Long, Hugh Jennings, Ned Williamson, Tommie Corcoran, Rabbit Maraville, Kid Elberfeld, Freddy Parent, Everett Scott, Al Bridwell, Bill Dahien, Joe Tinker, Honus Wagner, Heinie Wagner, Rube Buckinpaugh, Terry Turner, Jack Barry, Charles Holocheer and Don Bush.

Rolls Mergle, recently acquired by St. Louis from Joplin of the Western League, pitched his first major league game and lost to Detroit, 4 to 1, at St. Louis. A triple play executed by Gedeon, Garber and Sider, with two men on the second, featured.

Floating Event At Marble Cove

Miss Edna Driscoll Won Medal Offered by William Hawker—A Match Race Too.

The competition for the silver medal offered by William Hawker for the best exhibition of floating was held yesterday afternoon at the Marble Cove swimming scows and furnished a fine specimen of true sportsmanship. Three young ladies had entered for the contest, Miss Edna Driscoll, Miss Constance Carney and Miss Hatch. They were given their instructions, which were that whatever position was assumed at the start had to be maintained until time was up. Miss Driscoll changed her position and thereby under the rules governing the contest was out of it, and Miss Carney was declared the winner. Some objection was raised by Miss Driscoll, when asked by the judges, said she had not understood the one position must be maintained, and Miss Carney, with the fine spirit of the true sport, offered, rather than have any dispute about the matter, to have the contest over again. This time it was decided that the one making the best showing for one minute would win and the judges decided in Miss Driscoll's favor.

Only one contest took place in the expected competition between the pupils of the North End and West End scows. This was a hundred yards dash, the entries being A. Ready, representing the West Side, and Fred Bryant, the North End. The race was won by Mr. Ready, the time being: Mr. Ready, 1:03; Mr. Bryant, 1:07.

62 FRENCH WOMEN QUIT YANK HUSBANDS AND RETURN HOME

Paris, Aug. 31.—Sixty-two French women who had married American army officers or soldiers and subsequently had been divorced in the United States returned to France on the same steamer last week, according to the newspaper Avenue. Most of them, the newspaper added, returned not because of personal differences with their husbands but because of the inability of the wives to adapt themselves to the American mode of living.

Nine Games For World's Series

National Baseball Commission Makes Changes in the Arrangements for the World's Championship.

Chicago, Sept. 2.—Because of the unprecedented demand for World's series seats this fall the National Baseball Commission reported that the series will be increased to nine instead of the usual seven. The proposal was sent tonight to the club owners of the American and National Leagues for immediate ratification. Under the proposed plan, the rival clubs would share in the receipts of the first five games instead of the first four, as in former years. The victorious team would have to take five of the nine contests to win the world's championship. Heretofore the championship was decided when one of the clubs won four of the seven games. The players would divide their apportioned share of the five game receipts on a sixty and forty per cent basis, sixty per cent going to the winning club.

August Herrman, chairman of the commission explained that the resolution was made for no other reason than to benefit the public by permitting a larger number of persons to see at least one of the games.

Although the Cincinnati club has not clinched the National League pennant, Chairman Harrman, who also is president of the Reds, said he had received 29,000 applications for seats outside of Cincinnati.

Chairman Herrman announced that plans for the series would not be made until the pennant races are definitely decided, which probably will not be for ten days or two weeks.

WON MINTO CUP.

Vancouver, B. C., Sept. 2.—New Westminster won the Minto cup and the professional lacrosse championship of the Pacific coast yesterday, when they defeated Vancouver three to nothing, and took the scheduled series by seven to five.

LORDS COVE WON.

The Lubec (Maine) baseball team was beaten by Lord's Cove on Saturday, 8 to 6.

PACIFIC SOCCER.

Vancouver, B. C., Sept. 2.—Hillhurst of Calgary, champions of the Alberta Football League, and the International at Longshoremen's Association, champions of the Vancouver Football League, played a one-all draw here yesterday. The game was featured by good, bad and indifferent soccer.

The visiting team scored first shortly after the game started, and the locals before half time. The second half was scoreless.

ALERTS WON.

Stafford, of the Alerts, broke into the no hit, no run column last night in the game between the Alerts and Rose on the East End diamond. He had the opposing team completely at his mercy, no less than thirteen of them going out by the strike-out route. The game went five innings, the Alerts making four runs in that time. The batteries were: For the Alerts, Stafford and Coughlin; for the Rose, Sterling and Doherty. Tonight's game will be between the Cotton Mill and Imperials.

RUMANIA REFUSES TO SIGN TREATY WITH AUSTRIA

Think it Would be Beneath Their Dignity to Accept Certain Clauses in the Treaty.

Paris, Sept. 2.—Rumania will not sign the Peace Treaty with Austria, according to intrasigant, because of clauses introduced at the formal request of the American delegates concerning Rumanian minorities.

Rumania also takes exception to a clause regarding the treatment of commerce and railroad rates. Intransigent says, considering that it would be undignified for her to accept it. The newspaper adds that the resignation of J. J. Bratine is imminent.

REDS ARE INCITING NEGROES TO SOVIET REVOLT, IS CHARGE

Blacks Being Organized to Overthrow Government, Declares Representative Byrnes.

Washington, D. C., Aug. 25.—Negroes of the country are being organized by the I. W. W. and the "Reds" to assist in overthrowing the present form of government in the United States and installing the soviet rule, according to charges made on the floor of the House today by Representative Byrnes, of South Carolina. Representative Byrnes read sensational extracts from various negro magazines tending to support his claim. He charged that the present race riots in Chicago and Washington were in part the result of this movement and announced that he will call on the Department of Justice for action. He declared, in this connection, that he was bringing particularly to the attention of the Attorney General the various publications by the South Carolinian declared that the Germans in the occupied portion of France treated the negro soldiers of the United States with far greater consideration than the white Americans did, and one declared that the status of the negro would be better off "if the war had lasted a little longer and America had been given greater chastisement."

Says Violence Was Planned.

An extract from the July number of the Messenger, a negro monthly, was read by the South Carolina member. After calling on the negroes to insist on having men of their race made police captains in all the large cities, the article said:— "All such big negro communities are magazines of race prejudice, ready to explode at any moment upon putting the flame to the fuse. Riots are imminent—real race riots—in all such large cities as New York, Philadelphia, Baltimore, Washington, Chicago, Pittsburg and St. Louis."

Commenting on this, Mr. Byrnes said:— "Since the publication of this article most unfortunate race riots have occurred in Washington and Chicago. In determining who was the aggressor the above statements are enlightening. They show that the negro leaders had deliberately planned a campaign of violence."

At the outset of his address the South Carolina Congressman called attention to the recent race riots in Washington and Chicago. "These riots and the many other disturbances throughout the country," he said, "have caused the press to speculate as to the underlying causes of the conflict between races. It is manifest that when sanguinary conflicts take place in cities so widely separated and in so short a time the cause is general and not local."

He then quoted as follows from an editorial in the Crisis, entitled "Returning Soldiers":— "We sing:—This country of ours, despite all its better souls have done and dreamed, is yet a shameful land. It lynches. It disfranchises its own citizens. It encourages ignorance. It steals from us. It insults us."

Supporting this, Mr. Byrnes showed, was a short article read in part as follows:— "This is the country to which we soldiers of democracy return. This is the fatherland for which we fought! But is our fatherland. It was right for us to fight. The faults of our country are our faults. Under similar circumstances we would fight again. But by the God of heaven we are cowards and jackasses if now that the war is over we do not marshal every ounce of our brain to fight a sterner, longer, more unending battle against the forces of hell in our own land!"

"We make way for democracy. We stand it in France and, by the great Jehovah, we will save it in America, or know the reason why?" Referring to the articles in the Messenger, Mr. Byrnes called attention to the fact that it was printed on paper of fine quality and did not carry a half a dozen advertisements as other radical publications do. "It is evident," he said, "that it is supported by contributions from some source. The material in the magazine would indicate that the source from which the support comes is antagonistic to the United States. It appeals for the establishment in this country of a soviet government. It praises the treatment of the negro by the Germans as contrasted with the treatment accorded the negro by the allied forces. It urged the negro to join the I. W. W.; pays tribute to Debs and every other convicted enemy of the government and prays for the establishment of a Bolshevik government in this land. It is evident that the I. W. W. are financing it in an effort to have the negro of America join them in their revolutionary plans."

Following are some of the other extracts put into the record from these negro papers:— From the Messenger May-June, 1919, under the title of "The March of the Soviet Government":— "Soviet government proceeds apace.

Offers "Race Liberty Bonds."

The recent decision of the Supreme Court confirms the convictions of Eugene V. Debs for having advised defiance of the Selective Service act as described in the Messenger as definitely stamping the United States "as the most archaic, antiquated and reactionary of the alleged civilized nations."

"The same issue contains a two page announcement of an offering of \$25,000 issue of stock in the magazine at \$6 a share, and negroes are urged to buy a race liberty bond."

"The concluding article of the issue, entitled:—'We Want More Bolshevik Patriotism,' exclaims:— 'We want patriotism represented by a flag so red that it symbolizes truth by the oneness of blood running through each one of our veins. That is Bolshevik patriotism, and we want more of that brand in the United States.'

JAPANESE ACTION WITH CONSORTIUM BARES WEAKNESS

Hara Government, Friendly to United States, Declared Awed by Militarists.

Washington, D. C., Aug. 25.—The decision of the Japanese Cabinet to insist upon the exclusion of Manchuria and Mongolia from the consortium arrangement, by which the United States and other Powers propose to undertake the financial rehabilitation of China, is interpreted in Washington as evidence of the weakness of the present Hara government. For the moment it appears according to the official dispatches, that the military party, which has been responsible in the past for recent friction between the United States and Japan, has been able to force its demands. The Liberal element now in control has evidently decided to follow the more expedient course. Whether the United States will consent to a modification of the consortium agreement to comply with the demand of the reactionary Japanese element is doubtful. No decision has been made until it has been officially brought to the attention of the government. If the Japanese assert they are being pressed it will undoubtedly add to the difficulties which already threaten to disturb the friendly relations between the two countries.

If a Cabinet crisis should occur in Japan it seems probable that the military party will come into control of the government. In this event a solution of the problem of Shantung would be much more difficult than if the negotiations are conducted on the part of Japan by the present Hara government, which has always shown a disposition to co-operation with the United States.

It is accepted as a foregone conclusion that the military party will, if it comes into power, attempt to enforce the Japanese claims of special interests, not only in Mongolia, and Manchuria, but in other portions of China. To the Japanese militarists and reactionaries much of the friction that arose in Siberia which at one time during the war threatened a serious controversy with the United States, was bitterly criticized in the vernacular press for not adopting a more aggressive policy or cooperating with the pan in setting up factional leaders.

The Hara government until this time has succeeded in maintaining itself without any sacrifice of policy, but the point now seems to have been reached at which it finds it necessary to compromise with the military party. This is to take an accounting in some measure for the apparent reluctance to make public the assurances given in Paris for the restoration of Shantung to China.

WANT MANCHURIA AND MONGOLIA EXCLUDED
Tokyo, Friday, August 22 (by the As-
sociated Press).—It is reported that
the meeting yesterday the Imperial
Cabinet, upholding the opinions ad-
vanced by the military element in the
government, decided to insist upon the
exclusion of Manchuria and Mongol-
ia from the consortium in which the
United States, Great Britain, France
and Japan will assume a dominant po-
sition in the finance of China. It is
said that negotiations will be resumed
with the Powers on that basis.
The Ashi Shimbun says that Vice-
Minister, Foreign Minister, spoke
in favor of Japan's unconditional en-
trance into the consortium, explain-
ing that Manchuria and Mongolia were
excluded from the scope of the agree-
ment. It might be interpreted as show-
ing Japanese designs upon China and
might obstruct loans which are urgent
for needed by China. He is reported
to have expressed the belief that such
an impression would be inimical to the
interests of Japan and might place the
nation in a position of complete iso-
lation, adding that on the contrary,
Japan's unconditional adherence would
remove suspicions on the part of China
and the Powers regarding the result of
the acquisition of important interests.
It is understood that leading bank-
ers of the consortium, at the meeting
of the American proposal, but the mili-
tary groups fear to jeopardize special
political interests in Manchuria and
Mongolia.

LOGGIEVILLE
Loggieville, Aug. 22—Campbell Huz-
sell, who numbered with those who
responded to the call of King and
Country during the early days of the
war, and who has been in military ser-
vice continuously since then, returned
to town last week. He was accom-
panied by his wife, who is an English
lady. Campbell's many friends are
welcoming him back. He is receiving
many warm handshakes.
Rev. W. B. Rosborough of Picton, N. S.,
who was formerly pastor of Knox
Church for several years, spent a week
of his vacation in town. He occupied
the pulpit of Knox Church on the even-
ing of the 10th, when a large con-
gregation assembled and listened to an
eloquent sermon. During his stay
here Mr. Rosborough was registered at

AROUND THE CITY SHOWERS

GOVERNOR HOME. Lieut-Governor Pugsley, who returned yesterday from Ottawa reports that he was informed by His Royal Highness the Prince of Wales that the reception given him in New Brunswick had been most gratifying.

DAYLIGHT TIME. The city council yesterday adopted a resolution continuing the city clocks on daylight time until September 30, and following this lead it is likely the schools will continue on daylight time until that date.

TO FOREIGN FIELD. Rev. E. C. and Mrs. Hennigar, who have been visiting Mr. and Mrs. E. S. Hennigar, Orange street, will leave tonight for Japan, where the Rev. Mr. Hennigar will resume his labors in the mission field.

VISITING ST. JOHN. Colonel Miller, secretary of the local service work of the Salvation Army, for Canada and Newfoundland, arrived in the city yesterday. It was here where he had been in connection with the construction of the new maternity hospital there.

NOTHING DOING. The surprised and questioning look on the faces of St. John's "Inest" last night was probably due to the fact that there were no arrests made during the entire day and night. It was a real and rare holiday for the police force.

SANITARY MATTER. Complaints are beginning to come in regarding the condition of the men's closet in the City Market. The outstanding features of the place as it is now is a profusion of lemon extract bottles and a floor that would make the trenches in Flanders look like a carpet square.

NEW BUSINESS. The secretary of the Board of Trade has received an enquiry from Omaha, asking about opportunities for the establishment of a branch house here. Other enquiries are for the names of butter dealers in the city, the manufacturers of hardware novelty goods, wharfage charges here, the provisions of the game refuge act, and the area covered by the act in the province.

MET LAST NIGHT. A meeting of the East and grounds committees of the Eastern Improvement League was held last evening in Thorne Lodge hall after the ball game. It was decided to announce the new schedule of games in Thursday's papers. Several matters of routine business were disposed of.

WILL HOLD INQUEST. The enquiry into the death of little Marion Crawford, who was struck by an automobile, Sunday, Aug. 24th, and died Labor Day, as a result of the injuries received, will be held on Friday night. Last night Coroner Kennedy and the following jury, Albert Wilson (foreman), Louis J. McDonald, John Jackson, Fred McLean, Fred Bryden, Robert McAfee and Charles Donald, viewed the remains.

YOUNG GIRL MISSING. Miss Geraldine Duff, aged 15, is missing from the home of her cousin, Mrs. A. Lahey, 371 St. James street. She is a bright looking girl, with dark hair and dark eyes, of medium height and when last seen was wearing a light grey coat with red buttons, black sailor hat, black stockings and grey boots. The police are helping the relatives look for her, but up to a late hour last night the search was unrewarded.

SCHOOLS OPENED. The schools of the city opened yesterday with a splendid attendance of pupils, the reports from all schools being that practically all were in their places when the opening bell rang. The number of permits issued up to last night is slightly less than last year, being 946, as compared to 999 up to the close of the opening day, 1918. Of this number no less than 211 were issued yesterday. A number of changes have been made in the teaching staff, a full list of which had not been made up last night.

SECURED SPECIMENS. William McIntosh, curator of the Natural History Museum, with several of the members of the junior Natural History Society, made a canoe trip up the river after the close of their annual camp last week and secured two splendid samples of some 30 different native trees, which will be prepared in eight or ten different ways and placed on exhibit in the museum. Some of the woods, such as white oak, iron wood, scarlet oak, butternut, hornbeam and black ash made a journey up river imperative, but the major part of the collection was secured during the regular encampment at Nepesic.

THE LABOR FAIR. More than a thousand people attended the Labor Fair in St. Andrew's rink last evening, and everything went with a swing. The crowds were merry and bright. The Great War Veterans' Band was present and furnished a fine programme of music, which was much appreciated by all. The door prize, which is a ton of coal, donated by George Dick, was won by ticket No. 22. The ladies' bean bag prize, a thermos bottle, donated by M. R. A., was won by Mrs. Monaghan. The gentlemen's bean bag prize, a safety razor, donated by Robertson, Foster and Smith, was won by Mr. Copp. This evening the Temple of Honor Band will be in attendance, and there will be a tug-of-war and other features with an all round change of prizes.

Macomber-Porter. At the residence of the bride's father, William B. Porter, 319 King street, West St. John, on August 30, Miss Minnie L. Porter, daughter of J. C. Porter, was united in marriage to Herbert L. Macomber, of this city, by Rev. W. C. Young. The bride was attended by Mrs. William B. Porter, while Mr. Porter supported the groom. Mr. and Mrs. Macomber will reside in the city.

THE COUNTY HOUSING SCHEME CALLS FOR SPECIAL MEETING

Councillors Consider Matter of Dominion Plan of Supreme Importance and Will Discuss Matter in Special Session Next Week—Councillor O'Brien Wishes Building to Start Immediately.

The question of appointing a housing commission for the county was brought up at the special meeting of the County Council yesterday after the nurses' home question had been referred to the finance committee and after a long discussion it was decided to take steps to hold another special meeting next week. The county secretary said it would cost about \$50 to hold a special meeting. The councillors draw mileage, but get no pay.

Councillor O'Brien moved that the three councillors of the Parish of Lancaster be appointed as part of a commission to handle the county's housing scheme. Councillor Thornton said the council having been called for a special purpose they could not legally take action on another matter. Councillor O'Brien said the Lancaster councillors had gone as far as they could without more powers. If more powers were not granted them a matter of vital importance to Lancaster would be held up. They wanted to get some buildings underway at once.

Councillor Jones—"You seem to be able to go ahead and Mr. Bullock can't. I'd like to know why." Councillor O'Brien said the Lancaster councillors had interviewed the local government, and on advice of Hon. C. W. Robinson had visited Moncton and got the benefit of the experience of the commission there. Councillor Thornton said the housing commission at Moncton was not building many houses. It was not true that the Moncton commission were proceeding without regard to the Dominion act.

Councillor Bullock—"Are they building two family flats?" Councillor Thornton—"No." Warden Golding said that Moncton had about 21 houses under way, and contracts let for twenty-nine.

Councillors Hayes, Thornton and Fisher said there was no disposition to hold up the county scheme, but the county secretary, their legal advisor, was of the opinion that the council could not deal with another matter at this meeting. Councillor O'Brien said that on his notice it was written that the meeting was for the purpose of dealing with the nurses' home and other matters arising out of the last regular meeting.

The county secretary said that was on the notice sent out to members, but not on the requisition calling for the special meeting. Councillor O'Brien—"There's a deception again."

Councillor Jones—"The councillor hardly means that." Councillor O'Brien wanted to know why his motion was being held up by a technicality. If they were all unanimous, why worry about a technicality.

Councillor Bullock said the proposed members of the county commission were good and honorable men, but in other communities the aim was to secure commissioners who were not in favor of the county scheme. He wanted to get rid of his job as a housing commissioner; it was a job to take up one man's time. He thought the city and county housing commission should work together and warn the councillors they would have a heavy job working out a housing scheme.

Councillor O'Brien endeavored to get the council to take action. At last some of the members suggested that another special meeting be called next week, and on motion of Coun Howard this was agreed to.

Came To Town On Bicycle, He Said

Howard Parker Claimed to Have Made Trip from Halifax Here in Sixteen Hours—Remanded.

If his claims are correct, Howard Parker, who says he hails from Halifax, should be booked as one of the cycling wonders of the universe. Arrested in Mill street Saturday at 4 p. m. by Policemen McNeill and McNice on the strength of his suspicious actions, Parker claimed that he rode a bicycle from Halifax to St. John in 16 hours, passing two automobiles on the way. He left Halifax at 8 p. m. Friday, he claims, and got into town at noon Saturday. He says he lived in Halifax four years but never heard of any explosion there. Saturday afternoon he was persuading two boys on Mill street to buy the bicycle when he was arrested. Parker appeared before the police court yesterday afternoon and was remanded for further hearing.

Outing And Feast For The Orphans

J. D. O'Connell Will Entertain Children of the Orphanages at Rockwood on Saturday, September 13.

Saturday, September 13th, will be a day looked forward to by the orphan children of St. John for on that day J. D. O'Connell will give his annual treat to them at Rockwood Park. Following the custom of former years the "orphans' friend," which is the title Mr. O'Connell is known by from Cuba, his adopted home, all along the Atlantic coast, will give the children an automobile ride and picnic, a treat of candy, etc., and the usual money gift. This is a day looked forward to from year to year by the children in the St. John orphanages and which through the generosity of Mr. O'Connell will be continued in perpetuity, he having made provision in his will for a trust fund for this purpose.

The Vaccination Regulations Are Now Suspended

Ban on Travellers from Nova Scotia to United States Through New Brunswick Has Been Removed.

The United States health authorities have decided that the restrictions on travellers from Nova Scotia to the United States through New Brunswick in regard to vaccination are no longer necessary.

Hon. William F. Roberts, Minister of Health in the New Brunswick government, said last evening that he had received an official wire from Surgeon-General Blue, giving authority for the removal of the ban.

The regulations called for the vaccination of all travellers from Nova Scotia for the United States. When the regulations first went into force people from New Brunswick, whether they had ever been to Nova Scotia or not were compelled to be vaccinated before going into the United States. Later it was arranged that people going from New Brunswick could cross the border without the vaccination certificate.

All persons coming from Nova Scotia had to be vaccinated or else show a certificate of previous vaccination, by an official wire from Surgeon-General Blue.

The restrictions have now been removed and people may travel freely as far as the vaccination regulations are concerned. The official statement given out last evening was as follows:

Hon. William F. Roberts, Minister of Health in the New Brunswick government, wishes to announce that the ban heretofore placed upon Nova Scotia relative to tourist or other travelling between Nova Scotia to the United States through New Brunswick, requiring to be vaccinated, is hereby removed.

"The authority for said removal having been received last evening by an official wire from Surgeon-General Blue."

Want A Plan For Paving Streets

City Commission Decide to Have Plans for Permanent Streets and Spend a Million

At its meeting yesterday the common council passed the commission in charge of the department voting against it, a resolution that the public works department prepare a plan of street paving covering the next four years to cost from \$300,000 to \$1,000,000, the proposed plan to be submitted to the council before a plebiscite on the matter of having authorities pay a portion of the cost was taken.

The resolution was moved by Mayor Hayes and seconded by Commissioner Jones. Commissioner Fisher objected to St. Andrews where they were doing all possible under the circumstances.
