

SOUTH AFRICAN POLICY.

JOSEPH CHAMBERLAIN DEALS WITH PAST AND FUTURE.

Desired That Best Characteristics of Boers Be Preserved—No Intention of Packing the Country With Britishers, But Some Were Necessary.

London, July 29.—Mr. Chamberlain's appearance in the house of commons today was marked by a speech which won the applause even of such opponents as Henry Labouchere. Mr. Chamberlain dealt comprehensively with the past and future of South Africa.

London, July 29.—Mr. Chamberlain's speech evoked criticism of the financial features of the policy outlined for South Africa from Sir William Vernon Harcourt, James Bryce and others. Mr. Bryce said he hoped the National Scouts would not be used as police, but Mr. Chamberlain said he could not see why they should not be so employed, as he believed they would make admirable civil guards.

OIL IN MONTANA.

Million Dollar Company Incorporated to Work the Land.

Deer, Mont., July 31.—The Rocky Mountain Oil Company has incorporated under the laws of South Dakota. The capital stock is \$1,000,000 in shares of \$1 each. Four hundred thousand shares have been reserved as treasury stock, which will be placed on the market, the proceeds to be devoted to the drilling of an oil well 2,000 feet in depth if necessary.

Won His Spurs on Martinique.

It was on the unhappy island of Martinique that King Edward's grandfather, the Duke of Kent, won his spurs as a soldier, says a writer in the London Chronicle. Prince Edward, as he was then, was given the command of the 7th Fusiliers at Gibraltar in 1791, but was soon afterwards transferred to Canada. In 1794 he sailed from Halifax to take part in the expedition against the French islands in the Caribbean, and after many hard battles about the base of Mount Pelee, captured Martinique from the valiant General Rochambeau.

Exhibition Matters.

The executive committee of the Exhibition Association met at noon Thursday and considered several matters pertaining to the approaching big show which is now less than a month away. They arranged the privilege for selling oysters and clam chowders, etc., to J. H. D. Turner, who will erect a booth on the grounds. There will be no art gallery this year, as the executive decided that the space occupied can be utilized to better advantage.

KITCHENER'S LAST DESPATCH ON THE WAR.

Praise for Milner, Colonies and Colonialists, and Generals—Canadians Singled Out.

London, July 29.—Many pages of the Gazette today are filled with Lord Kitchener's final despatch on the Boer war, and his mention of officers and men who distinguished themselves while he was in command in South Africa. The same issue announces the general's new title as "Viscount Kitchener of Khartoum and of the Vaal and of Aspall, in County Suffolk."

In his last despatch, Lord Kitchener said of Lord Milner, the British high commissioner:—"In many difficult situations it was always the greatest relief to me to feel that I could always rely upon his unfailing and ungrudging assistance."

Referring to the deep obligations of the army to the colonies, the writer said no request of his had ever been refused by the colonial governments, and their consideration and generosity only equalled the character and quality of the troops they sent to South Africa or raised in that country.

UNITED STATES NEW WEAPON OF DEATH.

Time Fuse Devised Which Will Not Detonate Shell Till Limit of Penetration is Reached.

Washington, July 21.—The ordnance department of the army has succeeded in devising a new time fuse for armor piercing shells that does not detonate the shell until the penetrative ability of the projectile has been exhausted. With a shell equipped with this fuse loaded with the powerful explosive discovered by the ordnance experts, and fired from a 12-inch gun, a penetration of 14 inches of Krupp armor has been secured before detonation. The heaviest Krupp armor used in any battleship in the world is only 12 inches thick. Heretofore it has been regarded as absolute protection against the best shell of the most powerful rifle in existence.

Oil Trust Story Denied.

New York, July 31.—Regarding the cable report that the Standard Oil Company has entered, or will enter, into an agreement with the Rothschilds and Nobel interests to control the world's oil production, M. P. Elliott, the attorney of the Standard Oil Company, today made the following statement:—"I am authorized to say that the story is absolutely no foundation in fact. It is false from beginning to end. Furthermore, the Standard Oil Company has at no time considered a plan of this kind, and at no time has that company entered into negotiations about this matter."

LIVES TAKEN IN COAL STRIKE BATTLE.

TROOPS WILL REMAIN. Russia Retains Army in Manchuria—Robber Bands the Alleged Cause.

London, July 31.—The St. Petersburg correspondent of the Daily Mail says the order for the withdrawal of the Russian troops from Manchuria has been rescinded, and that country is overrun with Chinese robber bands. Quantities of Russian goods in transit have been looted, says the correspondent, and two Russian merchants in Manchuria were recently burned alive.

KING EDWARD PACES YACHT'S DECK UNAIDED.

His Majesty's Progress to Recovery in Every Way Satisfactory.

London, July 30.—King Edward's progress continues to be in every way satisfactory. During the day he slowly paced the deck of the royal yacht Victoria and Albert without any assistance and the exercise is reported to have done him good.

The Earl of Denbigh, one of the king's lords in waiting, speaking at a public meeting said he saw no reason why the king should not be strong enough to undergo the fatigue incident to the coronation on Aug. 9. General Alex. Acheson, while attending the coronation fetes at Whippingham, Isle of Wight, this evening, confirmed the statements concerning the king's splendid progress and said he could now walk across the deck of the royal yacht and that he preferred remaining off Coverts to Westminister Abbey in the great state coach and by the route originally arranged. King Edward feels entire confidence in his ability to carry out this intention. Should the weather prove fine enough it is expected he will cruise to Portland and back tomorrow. It is said that he has moved, practically unaided, from his coach in the cabin to the table.

PROGRESS IN TRANVAAL.

Much to Be Accomplished and Material Hard to Get

London, July 29.—The settlement of the Transvaal, says the Times Johannesburg correspondent, is proceeding with all possible dispatch, but it cannot be said that progress will be recorded by specific landmarks every day or week. Each department of state is working at full pressure, but the amount of work to be done is enormous, and the obstacles are removable only gradually.

Big Tobacco Deal Reported.

Chicago, Ill., July 30.—According to accredited reports, the American Cigar Company, a wing of the Tobacco Trust, has absorbed its chief rival, the United Cigar Manufacturing Company. The price is said to have been \$10,000,000, with a profit of \$3,000,000 on the capital. William Best, of Best & Russell, admitted that such negotiations had been in progress, and that if they had been concluded, the interest of the merging concerns would be in maintaining secrecy as to the fact.

Boer Generals Sail for Europe.

Cape Town, July 30.—Previous to their departure today for Europe, the Boer generals, Botha, De Wet and Delarey, called on Sir Walter F. Haly-Hutcheon, governor of Cape Colony, who received them with the greatest cordiality. The only untoward incident of the demonstration was the conspicuous waving of one Transvaal flag. The authorities took no steps to repress the public enthusiasm.

Reign of Terror Opened at Shenadoah (Pa.); at Least Two Men Killed.

Shenadoah, Pa., July 30.—A reign of terror compared with which the scenes enacted during the strike of 1900 seem insignificant, holds Shenadoah in its grasp tonight. Since 6 o'clock this evening the streets of the town, has been in the hands of an infuriated mob. Two of the borough policemen were shot, one perhaps fatally. Joseph Bedal, a leading merchant and cousin of Sheriff Bedal, was brutally clubbed to death and upwards of a score of strikers whose names at this writing could not be ascertained, were shot by policemen and it is expected that many deaths will result.

TROOPS ARE CALLED OUT.

Trouble Started as Officer Escorted from Work Two Non-Union Men--Mob Swelled to 5,000--Merchant Clubbed to Death--A Thousand Shots Exchanged.

Shenadoah, Pa., July 30.—A reign of terror compared with which the scenes enacted during the strike of 1900 seem insignificant, holds Shenadoah in its grasp tonight. Since 6 o'clock this evening the streets of the town, has been in the hands of an infuriated mob. Two of the borough policemen were shot, one perhaps fatally. Joseph Bedal, a leading merchant and cousin of Sheriff Bedal, was brutally clubbed to death and upwards of a score of strikers whose names at this writing could not be ascertained, were shot by policemen and it is expected that many deaths will result.

SIR WILFRID A GUEST.

Dinner Given by John Redmond in House of Commons.

London, July 30.—John Redmond, leader of the Irish party in the house of commons, entertained Sir Wilfrid Laurier and Premier Edward Barton, of Australia, at dinner tonight in the house of commons. The 22 guests included John Morley, Sir James Charles Mathew, lord justice of appeal; Father Cronin, of Buffalo; Darcy Scott, of Ottawa, and Editor W. T. Stead.

RUSSIAN MINISTER NOT SATISFIED.

Wrote Disappointed With Attitude of Foreign Powers on Trust Plan.

London, July 30.—The St. Petersburg correspondent of the Times says that M. Witte, minister of finance, is far from satisfied with the attitude of the foreign powers toward the note issuance, and in a letter to the Russian note that it plain said he would constitute a violation of existing commercial treaties if the decisions of the Brussels conference were enforced against Russia. The note did not treat it as probable that such a violation had been committed and did not raise the question of Russia's action if increased duties were imposed on her sugar. Moreover every member of the friendly government of the United States which arbitrarily raised the duties on Russian sugar. It is doubtful whether Russia suffered more than America from the increase.

Age 19; Weighs 649 Pounds.

An employee of the Washington government printing office, who has been spending his leisure hours in the gymnasium, tells a remarkable story of the newest giant. At Elizabeth City is a 17 year old boy, whose weight is 649 pounds. He is a passing freight train blocked the passage of the police, two of them were caught and brutally beaten. One of them, Siney Yacopy, will die.

Found Hanged to a Tree.

Inverhill, Mass., July 29.—The body of Bernard Perkins, 70 years old, was found bound to a tree just off the Amherst road today. The man had evidently hanged himself to a limb of the tree and swung into the air, hanging himself. The body had apparently been there about two days. The man was supposed to be insane and no relatives can be found.

STRANGE STORY TO LIGHT

Burglaries of 15 or 16 Years Laid to Youth of "Exemplary Character."

Chester, Vt., July 31.—Startling developments through which many mysterious robberies that have taken place in Chester during the past 15 or 16 years are believed to have been explained, have been made in the past three days and are the subject of the reported shooting of Clarence Adams, hitherto one of the most respected young men of this section, by a highwayman last evening. Adams claimed that he was fired upon by his assailant with a shot gun and the fact that physicians extracted more than 50 shot from his legs apparently confirmed his story. On Tuesday, however, C. H. Waterman, proprietor of a local mill, made the discovery that the shot taken from Adams' legs which he had loaded a spring gun which had been set at the entrance of his mill as a protection against burglars.

SUCCESS OF FIRST EFFORTS AGAINST MAFIA.

Conviction of Head of Sicilian Society on Murder Charge

Bologna, Italy, July 30.—The trial before the assize court here which had been going on for some time, of Trapani, Fontana and Palizzolo, the latter a deputy from Palermo, on charges of murder, was concluded tonight. The jury returned a verdict of guilty against Trapani and Palizzolo for the murder of Signor Miceli and against Fontana for the murder of Signor Notarbartolo. The latter, who was an ex-mayor of Palermo and an ex-director of the Bank of Sicily, was robbed and killed in a street near Palermo in December, 1890. The proceedings against Palizzolo were considered particularly important, being regarded as the corner stone of the efforts of the Italian government to overthrow the Sicilian Mafia. Bologna was chosen as the place of trial in order that witnesses and judges might not be intimidated by the Mafia.

GENERAL DELAREY'S DAUGHTER MARRIED.

Scene in Cape Town Church, Cheerful Congregation Subdued by Minister's Threat.

Cape Town, July 29.—The hero worship of the Boer commanders was strikingly illustrated at the marriage of General Delarey's daughter to his secretary, Mr. J. B. Beattie, at the Dutch Reformed church. The approaches to the edifice were packed and the congregation edited General Botha, DeWet and Delarey as they entered the church. DeWet was carried from the church on the shoulders of his more enthusiastic admirers. When the bridal party appeared the congregation arose and cheered until the minister threatened to stop the ceremony or clear the church.

GREATEST TRUST IN THE WORLD IS FORMED.

Three Monster Oil Interests Reported Amalgamated.

London, July 30.—In its issue of this morning the Daily Mail declares there is no longer any doubt that the three monster oil interests of Rockefeller, Edlischild and Nobel have entered into a working agreement. "Thus," says the paper, "without any publicity the greatest trust the world has ever seen has sprung into being."

Liberal League Dinner.

London, July 31.—Lord Bessy presided at a largely attended dinner of the Liberal League tonight, at which several prominent Liberals were present. Lord Rosebery, in the course of a lengthy speech, dilated upon the recent bye-election for member of the house of commons to represent North Leeds, which resulted in the election of Roland Barran, Liberal. The speaker characterized the North Leeds verdict as having greater significance than any single election since the late Mr. Gladstone was first returned from Millthorpe and as almost a vital blow to the prestige of the government. Yet Lord Rosebery warned his hearers 50 such elections as that of North Leeds might not turn out the party in power.

A Pipeful of Amber Plug Smoking Tobacco will Burn 75 minutes.

"Test it?" "Save no Tags they are valuable." "In view of the disturbances that have occurred in Shenadoah within the past 24 hours, in view of the fact that the teachers and principals of the United Mine Workers are as an organization in a contrary to the explicit instructions of the leaders, we call upon all members of the United Mine Workers to at once do all in their power to suppress lawlessness and to aid the officers in every way to maintain peace and good order."

SMALL MAJORITY.

BRITISH GOVERNMENT ONLY 41 TO GOOD ON DIVISION.

Vote on Education Bill Section—Sir William Vernon Harcourt Delivers Speech With His Old-Time Vigor—Close Vote Causes Liberals Joy.

London, July 30.—After being subjected to vigorous attacks from the Liberal leaders, one of the most respected members of the government's education bill was passed in the house of commons tonight by a majority of 41. The bill was passed by 230 yeas to 189. This small majority was greeted with prolonged cheers from the opposition.

C. P. R. CLAIMS TO FAST LINE CONTRACT.

Look on Ministers' Announcement As Ruse to Quiet Public Clamor.

London, July 30.—The statement by the Canadian commissioners in London to the Associated Press last night to the effect that nothing concerning arrangements for the establishment of a steamship service between Canada and England had been authorized and in some cases incorrect, is generally regarded as an attempt to lessen the clamor and the pressure being brought to bear on their government as a result of the publication of the Canadian Pacific's secret offer and the attitude of the Canadian and imperial governments. Canadian Pacific officials say they are not in the least disconcerted by the statement. One of them said:—"Since the publication of the C. P. R.'s offer, the ministers undoubtedly have been besieged by inquiries and even propositions. I see nothing in this statement except a desire to shut off public clamor in order to give better opportunity to reach an official decision. We have no doubt the ministers will receive other propositions which will be entitled to consideration, of course."

New Kirk at Glassville.

Glassville, Pa., July 30.—On Saturday, the 26th inst., preparatory services were held in the Aud Kirk, Rev. J. K. Beattie, assisted by W. Burton Morgan, pastor of Hartland. The service on Sunday was largely attended, being the semi-annual communion. In the early part of the service the minister admitted a large number of young men and women to the church in full communion. Afterwards the sermon was preached by Mr. Morgan, from Psalm 111:2:—"Why do the heathen rage, and the people imagine vain things, etc. A large number of people of the communion including many from other churches. The new kirk is progressing rapidly under the supervision of Mr. Beattie. It is entirely modern, having enclosed metal ceiling. Behind the pulpit three large windows are being put in. A 900 pound bell has been ordered from Chicago, and the church when finished, will be one of the finest in this vicinity. It will cost upwards of \$30,000. A festival is to be held in the latter part of August at which Presbyterians are expected from all over the country."

Bad Fire at Lourdes.

Paris, July 31.—A despatch to the Temps from Lourdes gives news of a disastrous fire at Lourdes, the town famous for its shrine to Our Lady, to which many pilgrimages are made. The fire brigade was unable to check the flames, and when the despatch was sent, an entire block of houses had been destroyed and a number of persons had been victims of the fire.

Carnegie's Gift to Morley.

London, July 31.—Andrew Carnegie, who bought the famous library belonging to Lord Acton, has presented it to John Morley.

LEEMING'S SPAVIN LINIMENT. Cures Lambs, Horses, Cattle, Splints, Ringbone, Hard Swellings, Spavins, Etc. Large Bottles, 50 cents at all Dealers. The Baird Co., Ltd. Proprietors, WOODSTOCK, N.B.

A Pipeful of Amber Plug Smoking Tobacco will Burn 75 minutes. "Test it?" "Save no Tags they are valuable." Want the Saving Done in Canada. Toronto, July 29.—(Special)—The Ontario government today passed an ordinance prohibiting, after April 30, 1903, export of hemlock logs cut upon the crown lands of the province. The regulation will be submitted to the legislature for endorsement at the next session. Since the passage of the order preventing export of pine logs considerable demand has sprung up for hemlock lumber in the United States. The new regulation is intended to secure the saving of this hemlock in Canada.

SUNLIGHT SOAP. Prof. W. Haddon Ellis, Official Analyst to the Dominion Government, reports that Sunlight Soap contains "that high percentage of oil or fat necessary to a good laundry soap." SUNLIGHT SOAP REDUCES EXPENSE. Ask for the Detergen Bar.

OUR COUNTRY CORRESPONDENCE.

FREDERICTON.

Fredricton, July 30.—(Special)—Some changes in the teaching staff of the city schools were made by the board of trustees at their meeting this afternoon. Miss Thompson was promoted from Morrison's Mill school to a position in York street school vacated by Miss Annie Tibbitts, and Miss Reive, of Newcastle, was appointed to the staff of Regent street school in room of Miss Duffy resigned. The second vacancy in Regent street school caused by the resignation of Sister McKenna, is to be filled by Sister McCann. Miss Frances McNally of this city is Miss Thompson's successor at Morrison's Mill school.

F. P. McColl, a wealthy American, and a jolly yachtsman, has a pretty little sloop here, the White Hawk, commanded by Capt. Shepard Mitchell, of Campbellton. He wants something larger and went to St. John this week to look for it.

The sardine fishery is beginning to brighten up. A few good hauls have been taken around St. Andrews bay, but the fish have not straggled in very large numbers yet. The fishermen are looking forward to a good fall catch. Gardner & Doon and Theodore Holmes are expressing fresh fish to Montreal almost daily.

An uncommon fish in these waters—a garfish—was captured in Quin and Langmaid's weir the other day. It is a long, lean fish, resembling in some respects the herring and mackerel and having a bill like a bill extending two or three inches from the head.

W. A. Holt & Co., manufacturers of larrigans and oil lanned goods, have dissolved. W. A. Robertson retiring. Mr. Holt will manage the business alone. He has 17 men employed and is working up a good trade with upper Canada and the west. Mr. Robertson has not yet made up his mind as to his future course, but intends going to Port Arthur with his wife and family to spend a month with his relatives.

J. C. Mahon and wife, of Monctoneau were the guests last week of Rev. A. W. Mahon. Mr. and Mrs. J. S. Thebaud will sail next week for France. They expect to be absent a year. Capt. Richard Kiny will occupy their cottage until their return.

Miss Bessie Magee (daughter of John S. Magee), master of the Middlesex school, Concord (Mass.) is enjoying her vacation here.

John Thompson is visiting his parents, Mr. and Mrs. W. G. Thompson, after several years in Honolulu. Editor G. H. Collins, of the Presque Isle Star-Herald, and his family are located at the Chase farm.

The 18th Maine Regimental Association will visit St. Andrews next Thursday. Mrs. R. E. Armstrong and family are enjoying a trip up the St. John river.

Miss Ida Barton, of St. John, is visiting friends at the shiretown.

St. Andrews, July 30.—The summer girl is very noticeable about our streets, and the summer women who are doing so well represented as in some past seasons. This is due in great measure to the cold weather. Of late the weather has shown symptoms of improvement and better things are hoped for during the succeeding month. The cottages are all occupied, the owners of many of them—Sir William Van Horne, Donald MacIntyre, William Horne and Edward MacIntyre, of Montreal, for example—having a large number of guests with them. Sir William has been entertaining among others Hon. Mr. Noyes, the Japanese ambassador at Montreal, and his wife, also some Cuban friends.

St. Thomas Shingles, whose family is at the Algonquin, is expected here in a few days. The golf links are being patronized by a large number of players, among them such crack golfers as David Forgan, banker, of Chicago; Charles Street, of Toronto; Messrs. Peabody and Dheridge, of Massachusetts, and many others. St. Andrews is having its share of excursions, picnics and that sort of thing. On Saturday the steamer Aurora brought 200 people from Grand Manan, and the same afternoon the steamers Viking and Marguerite discharged a large number from Milltown. They were held up and enjoyed themselves in other ways, returning home about 10.30 o'clock. Monday afternoon the Pebrun Club, of which William Brodie (now principal of the Sussex grammar school, formerly master of the St. Andrews grammar school) was the originator, entertained that gentleman at a picnic at Chamcook, Lake Umbagog. They were held up and enjoyed themselves in other ways, returning home about 10.30 o'clock.

They were held up and enjoyed themselves in other ways, returning home about 10.30 o'clock.

great of W. D. Forster, greatly appreciated the compliment paid him. Miss Ida Smith will leave for Boston Saturday on an extended visit to relatives. Mr. and Mrs. D. Baird returned yesterday to a 10 days' vacation pleasantly spent in Sackville and Nova Scotia towns. Rev. Milton Addison, a former pastor, assisted Rev. Mr. Davies in the service Sunday evening. Doctor Wortman, of Acadia, also took part. Miss Mabel McNaughton and Miss Maggie Gray, recent graduates of Newington training school for nurses, are expected some in a few days. Miss Mabel Sherman paid a brief visit to her aunt, Mrs. H. C. Barnes last week. Truman Wheaton, employed in St. John, spent Sunday here with his family. His son James, who is learning his trade in McEvilly's brass foundry, had his foot badly crushed last week.

Blissville, Sunbury county, July 29.—Warren G. Smith, an aged and respected member of this community, died in his failing health for some time, but his death was unexpected. He was 84 years of age and the last son of a large family. He leaves a widow, three daughters, two sons and three sisters. The sons and daughters are all married and reside in the United States. Miss Blanche Kelly, of Hartland, is visiting relatives here.

The new bridge at Hoyt Station is nearing completion and is a fine structure.

Amherst, N. S., July 30.—Tenders for the fat stock building were opened last evening. There were only two submitted—C. J. Sillicker \$10,125 and Rhodes, Curry & Co., \$2,700. As it is estimated to equip the buildings and as \$10,000 was the extent of the council's vote the commissioners decided not to accept either tender, but to have the plans revised. They have secured an excellent site, having purchased the athletic grounds, adjacent to the centre of the town.

Who is to be post master after Aug. 1? This is agitating the public at present. P. M. Purdy having received notice that his services will not be required after that date.

E. J. Lay, principal of the Amherst Academy has just completed making the census of the school district. The increase last year exceeds that of any previous year. The total population is 5,754. In 1908 it increased 105; in 1909, 122; in 1900, 215; in 1901, 259; in 1902, 578. At the meeting of the township Convention, in October last, a unanimous vote of thanks was passed to Mr. Lay for taking the census.

Halifax, July 30.—(Special)—Chief of Police O'Sullivan received a telegram from Chief McLaughlin, of Sydney, today to let him have a check book of that bank. It is a check for amounting \$2,400. Gullivan came here Monday and tried to get money from brokers here with whom he had dealings, but they refused to let him have it. There are many high speculators at the Queen Hotel this evening and the offer arrived from Sydney tonight and will leave with his prisoner in the morning.

KIDNEY TROUBLE CURED.

General Health Greatly Improved by Pe-ru-na.

Mrs. Frances Matoon, Treasurer of the Minneapolis Independent Order of Good Templars writes from 12 Sixth Street, Minneapolis, Minn., as follows: "Last winter I had considerable trouble with my kidneys brought on after a cold which I had neglected. One of my lodge friends who called when I was in bed, told me of a wonderful medicine called Pe-ru-na. I had no faith in it, but as my husband purchased me a bottle, and gave me some to try, it brought me most satisfactory relief. I used three bottles before I was completely cured, but I have not since had any kidney trouble, and my general health is greatly improved and I have been in good health ever since. It would be worth without if for ten times its cost."

Pe-ru-na cures catarrh wherever located. Pe-ru-na is a specific for the catarrhal discharges of women. Address The Pe-ru-na Medicine Co., Columbus, Ohio, for free book on catarrh written by Dr. S. B. Hartman.

From the property, and are now trying to cheat her of her just dues. Among the copper deposits in the world the Cerro de Pasco mines were unknown to capitalists until, in 1890, Mr. Van Slooten, assessor of the mines, brought them to the notice of Doubly and Haggin and succeeded in interesting those capitalists in the property. In April, 1901, he was commissioned by them to go to Peru, make detailed reports and arrange, if satisfactory, for the purchase of the mines. On the strength of his reports the mines were bought, it is asserted, for \$2,000,000, and a railroad was built from his plans and many other improvements were effected, valued in all at \$6,000,000.

While in Peru, Van Slooten became ill of fever and returned home to New York in September last, but not before he had made a railroad from his plans and many other improvements were effected, valued in all at \$6,000,000.

Meantime Van Slooten arranged, it is claimed, all the contracts involved in the \$4,000,000 of improvements. These Haggin and he quarreled. Haggin's motive, Mrs. Van Slooten asserts, being "to free out" the engineer from his share in the mining transactions. Van Slooten, ill and helpless, took to bed in October, and on December 14 committed suicide in his wife's presence. He was 44 years old and had no children.

He had been employed as a consulting engineer by Mr. Doubly for six years, according to his widow. She demands that the supreme court appoint a referee to adjust her claims.

The defendants made a motion to set aside the order for a referee, claiming that the widow's object is to gain information for use in another suit which is underfoot. She claims a 10 per cent. interest in the mines as administratrix.

The Universal Habit. I saw her going shopping in stylish attire; And she felt Of her belt At the back. Her walk was as free as a springy steel wire, And many a rubberneck turned to admire. As she felt Of her belt Of her belt At the back.

She wondered if all the contraptions back there Were fastened just right—'twas an unceasing care. So she felt Of her belt At the back. I saw her at church as she entered her pew; And she felt Of her belt Of her belt At the back.

She had on a skirt that was trusty and new And didn't quite know what the fastenings might do. So she felt Of her belt Of her belt At the back. She fidgeted round while the first hymn was read— O she felt Of her belt Of her belt At the back. Jack told her one night that he loved her like mad; And she felt Of her belt Of her belt At the back.

She didn't look sorry, she didn't look glad— She looked like a queen, "well, that wasn't so bad." And she felt Of her belt Of her belt At the back. "Hag—well, I don't think 'twas a great deal of an arm. When she felt Of her belt Of her belt At the back." —S. W. Gilliam, in Los Angeles Herald.

I used three bottles before I was completely cured, but I have not since had any kidney trouble, and my general health is greatly improved and I have been in good health ever since. It would be worth without if for ten times its cost."

Pe-ru-na cures catarrh wherever located. Pe-ru-na is a specific for the catarrhal discharges of women. Address The Pe-ru-na Medicine Co., Columbus, Ohio, for free book on catarrh written by Dr. S. B. Hartman.

From the property, and are now trying to cheat her of her just dues. Among the copper deposits in the world the Cerro de Pasco mines were unknown to capitalists until, in 1890, Mr. Van Slooten, assessor of the mines, brought them to the notice of Doubly and Haggin and succeeded in interesting those capitalists in the property. In April, 1901, he was commissioned by them to go to Peru, make detailed reports and arrange, if satisfactory, for the purchase of the mines. On the strength of his reports the mines were bought, it is asserted, for \$2,000,000, and a railroad was built from his plans and many other improvements were effected, valued in all at \$6,000,000.

While in Peru, Van Slooten became ill of fever and returned home to New York in September last, but not before he had made a railroad from his plans and many other improvements were effected, valued in all at \$6,000,000.

Meantime Van Slooten arranged, it is claimed, all the contracts involved in the \$4,000,000 of improvements. These Haggin and he quarreled. Haggin's motive, Mrs. Van Slooten asserts, being "to free out" the engineer from his share in the mining transactions. Van Slooten, ill and helpless, took to bed in October, and on December 14 committed suicide in his wife's presence. He was 44 years old and had no children.

He had been employed as a consulting engineer by Mr. Doubly for six years, according to his widow. She demands that the supreme court appoint a referee to adjust her claims.

The defendants made a motion to set aside the order for a referee, claiming that the widow's object is to gain information for use in another suit which is underfoot. She claims a 10 per cent. interest in the mines as administratrix.

The Universal Habit. I saw her going shopping in stylish attire; And she felt Of her belt At the back. Her walk was as free as a springy steel wire, And many a rubberneck turned to admire. As she felt Of her belt Of her belt At the back.

She wondered if all the contraptions back there Were fastened just right—'twas an unceasing care. So she felt Of her belt At the back. I saw her at church as she entered her pew; And she felt Of her belt Of her belt At the back.

She had on a skirt that was trusty and new And didn't quite know what the fastenings might do. So she felt Of her belt Of her belt At the back. She fidgeted round while the first hymn was read— O she felt Of her belt Of her belt At the back. Jack told her one night that he loved her like mad; And she felt Of her belt Of her belt At the back.

She didn't look sorry, she didn't look glad— She looked like a queen, "well, that wasn't so bad." And she felt Of her belt Of her belt At the back. "Hag—well, I don't think 'twas a great deal of an arm. When she felt Of her belt Of her belt At the back." —S. W. Gilliam, in Los Angeles Herald.

FOR THE TILLERS OF THE SOIL.

BEF BREEDS AND MILK.

Suppressing Milk Secretion Tends to Annual Purpose Well. In a recent issue of the Breeder's Gazette an Ohio correspondent made the following statement: "The Old Guard differed widely in some respects. For instance, C. M. Clay of Kentucky in an article written some fifty years ago would have the milk bred out of his herd. He did not want it, while his old friend, George Rankin of Ohio, after many years' experience, arrived at the following conclusion about a bull: He cared not how well bred or how fine the individual; if his dam was a poor milker, he would not breed from him under any conditions whatsoever. Where is the breeder or association of breeders that has the courage to faithfully follow in the footsteps of either one of these old worthies?"

This resolves an old topic, but one of vital interest and importance, and never more so in the history of cattle breeding than at the present time, says Professor Curtis of the Iowa experiment station. Most of the Short horns in America have been bred without effort to conform to either of the policies defined. For the good of the breed none ever should be bred in conformity with the first policy, and I believe that all should be bred in conformity with the latter. I will go further and say that all beef breeds should be bred in that way for the highest excellence in beef production, independent of any reference to dual purpose qualities, however desirable such may be.

The old notion that beef and milk within moderate degree are antagonistic is a mistake. It is a mistake of the past, and is now trying to cheat her of her just dues. Among the copper deposits in the world the Cerro de Pasco mines were unknown to capitalists until, in 1890, Mr. Van Slooten, assessor of the mines, brought them to the notice of Doubly and Haggin and succeeded in interesting those capitalists in the property. In April, 1901, he was commissioned by them to go to Peru, make detailed reports and arrange, if satisfactory, for the purchase of the mines. On the strength of his reports the mines were bought, it is asserted, for \$2,000,000, and a railroad was built from his plans and many other improvements were effected, valued in all at \$6,000,000.

FOR LAYERS AND BREEDERS.

Interior of One of the Houses at White L-phorn Poultry Yards. In Reliable Poultry Journal Mr. Theodore Howes gives an interesting description of the White Leghorn poultry yards of Mr. C. G. Balmard at Wallingford, N. Y. This plant enters upon the winter with 2,500 layers, all White Leghorns. In his description of the plant Mr. Howes says: "While this plant is built and conducted mainly for the production of fancy or thoroughbred stock, the commercial side of the business has not been overlooked, and every egg not used in hatching is sold on the market. A regular trade has been established.

Did you ever stop to think just how hard hearted nature is and how little protection she gives to her children? If every bird that is hatched in our fields were to grow to maturity, we would soon be "set out of houses and home" by the birds. We have watched birds' nests times without number, and very few of the little delinquents ever live to take even the first journey into the world. Predatory enemies, a severe storm or some other accident befalls them, and they disappear.

Besides this the natural home of our domestic fowls was in a climate where everlasting spring abides almost in northern India—and here the rank luxuriance of vegetation, the swarming insect life, the plentifulness of seeds and fruits made it possible for fowls to live in plenty and comfort the year through. Now we keep them in a climate that is rigorous half the year and expect them to go on laying eggs winter and summer, and some people are ready to condemn the flock that does not come up to their expectations, even when obliged to sleep in a tree when the temperature is below zero. We haven't much faith in the humanity of a man who will build for himself a comfortable dwelling place and let his fowls take such weather as any kind without protection of any kind.

A comfortable house is not merely a humane provision for the comfort of the fowls. It is a means of saving feed for the flock that is kept warm through the winter will not eat as much as the one that is not sheltered. This is why the hen that is exposed to the inclemency of the weather does not lay in winter. The first use she makes of the feed she eats is to keep her body in good condition and maintain the temperature at the normal point. If she is in a warm house, she consumes less in doing this than she would if exposed. Any surplus she may be given goes to the manufacture of eggs. If she is not given shelter, it requires all she can eat to keep her self warm.

There is room for a number of first class breeders of Silver Laced Wyandottes, and for him who by study, patience and close attention will breed some Silvers just a little bit better than any one else has success is sure and quick. In this connection, however, I want to say that there are no good Silver Laced Wyandottes that can be bought cheap. Get the very best that money can buy, and for a foundation rather start with a pair or trio of well bred stock than six or a dozen or more of whose breeding qualities you know nothing.—Henry E. Steinmensch in Poultry Keeper.

Feeding in Mating Time. During mating fowls need stimulating food and old process insect meal, meat meal and fresh ground bone are valuable and can hardly be fed to excess. Meat helps the molt greatly, and a little piece each day works wonders. It is well to remember that the molting can be hastened by keeping the fowls in a warm place and correspondingly retarded by keeping them in a cool place. Thus a fowl which is desired for exhibition at a fall fair which comes at about the time the bird would molt may be kept in confinement in a very light cellar or other cool place.

Don't Force the Hens. If you are wise in your day and generation, you will not attempt to force the hens for egg production at this season of the year. Instead it is a good idea to give them rather short rations for a week or so and then supply in the mash all the linned meal they will stand without detriment to health. This will assist in getting the hens over the molt promptly, and you will then have them in the best possible condition for the late fall and early winter egg campaign.—Treat M. Wright in Poultry Monthly.

Stick to One Breed. If farmers would take one good breed of fowls and carefully study their characteristics, they would make more profit than if they kept trying to originate some new breed. It sounds well to hear yourself spoken of as the originator of some new and valuable breed, but very few ever succeed in starting a variety of fowls that ever amounts to anything.

ST. STEPHEN.

St. Stephen, N. B., July 29.—Two hundred and fifty students are now enrolled at the Summer School of Science. On Monday about 200 boarded the steamer Viking on invitation of the citizens' committee. The steamer left for St. John at 10 o'clock. The many reminders of things past were pointed out and explained to the strangers, arousing no small interest, especially St. George Island and Devil's Head, the party landed at Welch Pool, on Campobello Island. At this place the committee in charge had prepared a mammoth fish chowder which was fully appreciated. Campobello was explored and the trip was then continued to Eastport, where the excursion terminated. Another steamer arrived at St. Stephen again about 6.30 p. m. The students were delighted with the trip and very thankful to the citizens for their hospitality.

In the evening a large number went to the rink and listened to Miss Van Horne's fine illustrated lecture on Mushrooms and Fungi. At the close of the lecture Miss Van Horne was tendered a vote of thanks, moved by Inspector Carter and seconded by James Ryan.

ST. ANDREWS.

A vote of thanks was moved by Professor Watson, of South Carolina, and seconded by Doctor McKie.

St. Stephen, July 31.—Doctor Fletcher, government geologist at the experimental farm, Ottawa, delivered a very interesting and instructive lecture to the city. The interests of the Summer School of Science.

HOPEWELL HILL.

Hopewell Hill, July 29.—The weather is now warm and crops growing rapidly. Geo. M. Wells visited his uncle, Alex. Rogers, and other relatives at this place this week. Mr. Wells lived in Seattle and other parts of the west for a time and has been lately with the United States government engineer corps in fortification work in the Hawaiian harbor.

Mr. Raymond, barrister of St. John, spent Sunday in the village. Miss Ida Barton, of St. John, is visiting friends at the shiretown.

THIS SEMI-WEEKLY TELEGRAPH is published every Wednesday and Saturday at 11 a. m. in French, by The Telegraph Publishing Company, of St. John, a company incorporated by act of the Legislature of New Brunswick.

ADVERTISING RATES. Ordinary commercial advertisements taking the run of the paper. Each insertion \$1.00 per line.

Important Notice. Owing to the considerable number of complaints as to the misbehavior of letters addressed to this office...

Without exception, names of new subscribers will not be entered until the money is received.

Subscribers will be required to pay for their papers in advance, unless they are notified to the contrary.

It is a well-known principle of law that a man cannot sue for what he has done himself.

Write plainly and take special pains with names and addresses.

The following agents are authorized to canvass and collect for The Semi-Weekly Telegraph.

W. A. FERRIS, W. A. SOMERVILLE, W. A. FERRIS.

Subscribers are asked to try their subscriptions to this paper when they call.

Semi-Weekly Telegraph

ST. JOHN, N. B., AUGUST 2, 1902.

NEWFOUNDLAND AND GLOUCESTER.

The proposition in Newfoundland and Gloucester to annexation to Canada is another matter to the importance of which the United States are awakening, and the Gloucester Times fears that such annexation would materially affect the prosperity of the American fisheries.

Another important and what would appear to be a very possible invention which, if perfected, will tend to make impossible such accidents as collisions on railways without the most culpable negligence.

In such a famous church going city as St. John it is of interest to note the old methods that are being adopted elsewhere to attract worshippers to the sanctuaries.

Relations with Upper Provinces. The Montreal Star thinks that maritime union is the only escape from the disadvantages of decreasing representation of the maritime provinces in the Dominion Parliament.

think might be advisable, it never has been and never should be wise policy. Even the suspicion of coercion which the Nova Scotians so long alleged in regard to their part in the confederation was a cause for grievance which Newfoundlanders would be quick to cite and resent.

The Hamilton Spectator ventures to suggest that the proposed fast Atlantic line Canadian port to the nearest port in Great Britain, allowing St. John and Quebec and Montreal to take the consequences of their lack of position.

The statement in our despatches that Britain has renounced all claim to certain islands off the coast of Honduras attracts momentary attention to that small but interesting colony where exist a total population of some 38,000 British subjects.

Our morning contemporary seeks to discredit the success of the Intercolonial Railway under its present administration by stating that "it ought to be an easy matter for any railway to come out even if its old rails, old bridges and most of its worst cars and locomotives are replaced."

Statistics of New Brunswick's Deaf and Dumb, Blind, and Insane.

NOTE AND COMMENT. That invention of wireless telephony by Herr Ernest Rullmer sounds almost too much like rumour to be true.

THE RIGHTS OF THE DOG. These being dog days it is in line for our New Brunswick canines to give a little cheer for Judge Sidelor, of St. Louis, who has taken the noble ground that American dogs have an equal right with mankind to enjoy the pursuit of happiness.

PULPIT USE AND ABUSE. In such a famous church going city as St. John it is of interest to note the old methods that are being adopted elsewhere to attract worshippers to the sanctuaries.

RELATIONS WITH UPPER PROVINCES. The Montreal Star thinks that maritime union is the only escape from the disadvantages of decreasing representation of the maritime provinces in the Dominion Parliament.

Yaqi Women Die in Battle. Tucson, Arizona, July 31.—Driven to desperation by hunger and thirst a band of 30 Yaqis, nearly half women, attacked the Carmen ranch near Hermosillo, Saturday, in a fierce fight followed by a patrol of Mexican troops came to the rescue two women and five men lay dead.

time province people in the past, but if necessary they could turn quite a different aspect to the question. Suppose, for instance, that there were no people in the maritime provinces and that the people of the upper provinces in maintaining a Canadian port had to come here themselves, building a railway through several hundred miles of wilderness and maintaining it and the expense of the port out of their own pockets.

Our morning contemporary seeks to discredit the success of the Intercolonial Railway under its present administration by stating that "it ought to be an easy matter for any railway to come out even if its old rails, old bridges and most of its worst cars and locomotives are replaced."

Statistics of New Brunswick's Deaf and Dumb, Blind, and Insane.

NOTE AND COMMENT. That invention of wireless telephony by Herr Ernest Rullmer sounds almost too much like rumour to be true.

THE RIGHTS OF THE DOG. These being dog days it is in line for our New Brunswick canines to give a little cheer for Judge Sidelor, of St. Louis, who has taken the noble ground that American dogs have an equal right with mankind to enjoy the pursuit of happiness.

PULPIT USE AND ABUSE. In such a famous church going city as St. John it is of interest to note the old methods that are being adopted elsewhere to attract worshippers to the sanctuaries.

RELATIONS WITH UPPER PROVINCES. The Montreal Star thinks that maritime union is the only escape from the disadvantages of decreasing representation of the maritime provinces in the Dominion Parliament.

Yaqi Women Die in Battle. Tucson, Arizona, July 31.—Driven to desperation by hunger and thirst a band of 30 Yaqis, nearly half women, attacked the Carmen ranch near Hermosillo, Saturday, in a fierce fight followed by a patrol of Mexican troops came to the rescue two women and five men lay dead.

THE SEMI-WEEKLY TELEGRAPH, ST. JOHN, N.B., AUGUST 2, 1902.

These Tablets are readily taken by all children, and can be given to the smallest, weakest infant by crushing them to a powder.

The Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N.Y.

"My Pet" and "Hercules."

By B. M. Neill.

"My Pet" was the name by which her father, "Farmer Hercules," always called her. "Pet" was simply a tenderness, not her given name—that was Elizabeth.

Upon one occasion, after he had passed middle life, a butcher had called upon him. This butcher was a great wrestler. He had never met a man whom he could not throw. Some one told him of "Hercules" Barton.

He had been raining all that day, not clearing till sun-down. Hercules had fallen into a hole that was filled with mud and water. The farmer wore an immense cap, although the season was summer.

Such pain and consciousness of such power in another, make a man incapable of resistance. He only raised his arm to ward off the blow with which Ralph Burton struck him down.

Such a man, in a prison cell, in his heart, sits Robert Carnes. As he thinks of his name, curses fall from his white lips.

As he drove along, Hercules found the way very dark. The road was broad enough but there was no moon. Besides, in places, large trees grew on each side of the road.

FACT AND FICTION.

FOR BLOODLESS WAR.

Yarmouth Editor Hits Back at His Own Town. The renewal of the stories about the discovery of an excellent lobster fishery at the Island of Juan Fernandez...
