O CASKS Bright Porto Rico SUGAR;

Ex "Allid," at Robertson's Wharf: J. W. COVEL, Professor Suret, in delivering a most interest ing report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specifistly retained to decide the difficult question as to whom to award the palm of excellency unanimously decided in favor of Messrs, J. M. Badollet & Co. This firm having carried off the sofe prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, erowned their first success by gaining honorable mention for two other observations. The allusion to this taple honor was received with anthusiastic applause, and Professor Humbert, President of the Fine Arts Section, closed the meeting with a happy and humorous dissertation upon subjects connected with this department. Brushes, Cigars, Tobacco, &c. must be accompanied with invoice; and an impounts over \$100 must have a U. S. Consul's crificate, to brevent stoppage at Eastport.
