ADDRESS ON MUNICI- PAL TAXATION

The following address on Municipal Taxation was read before the sixth convention of the Union of N. B. Municipalities at Newcastle, October 12th, 1911, by Alderman H. H. Stuart:

Few thoughtful men will contend that the prevailing system of municipal taxation in this country, is fair or reasonable, either in theory or practice. And many who have enquired into it, denounce it as decidedly wrong in principle and vicious in its practical application.

Our municipal taxes are derived from the levy of a certain percentage on the assessed value of land, buildings and other improvements, personal property and income, and from a poll tax.

The rate of taxation on each of these items is the same, and, with one or two exceptions, each county, city and town has to raise one-sixth of its revenue by means of a poll tax.

Allowing for the exemption in most New Brunswick municipalities of the first \$200 of income, land, improvements, personal property and income are supposed to be assessed at the full value of each.

Now suppose, for the sake of argument, that the assessors are both honest and capable—that they value correctly and assess properly, without fear or favor—the selling price of land, being so much less than that of the improvements thereon, every temptation is offered and facility afforded for speculators to hold land idle, in hope of a rise in price, whereby they can reap a golden harvest from the extra value created for their holdings by the industry of the rest of the community.

The land speculator is a good in any place. His policy is to acquire and hold land in what he considers a growing district and keep it idle until prices go up. Year by year, peoples settle near it, clear the ground, open up streets, erect buildings and bring trade to its neighborhood. Schools, churches, theatres, railway stations are built near it, and soon his unimproved property becomes most desirable for residences or business purposes, and he is offered for his claim many times more than what he paid for it. Then he sells and pockets the extra value, wholly created by the labor of others—THE UNEARNED INCREMENT, WHICH SHOULD ALL GO TO THOSE WHO CREATED IT. THAT IS, TO THE COMMUNITY.

Not only does the speculator permit no service to the public, but in many instances he positively hinders its progress. His block of land in the middle of a town, held at exorbitant price, compels others to go far out of their way to build in the suburbs, thus necessitating extra streets, extra sewers, miles of extra water mains, electric light and telephone posts and wires, and decreasing the efficiency of police and fire protection.

If the vacant block be held in the country districts, it often lies between two small settlements, forcing them to maintain two small, inefficient schools where, if that block were settled, one good graded school would be possible, and forcing the young men who wish to take up land to leave the vicinity or open up new farms in the backwoods, where miles of new road have to be made by labor which could be better employed, and removing them to an unnecessary distance from markets. In many places to day, farmers are cultivating poor stretches of land and making a bare living, while right alongside of them are tracts of fertile soil held wild and taxed at a merely nominal rate.

The granting of vast areas to those who were neither willing nor able to improve them was one cause of the early days of all the provinces of Canada, and in Quebec and Prince Edward Island, special legislation had to be enacted to partially and temporarily remedy the evil. But although the feudal seigniors of Quebec and the absentee proprietors of the Island province were compelled by law to sell their holdings to the actual tenants, no steps were taken to either prevent the recurrence of the same or to slightly diminish the area, and, when a man may be little of the land, the speculator

or holds land vacant expecting a future profit from the labor of others. If the assessors had the leisure and the will to faithfully watch each idle piece of land, and, as soon as it was sold at a high price, increase the seller's personal property assessment by that amount, the relief would be but partial, for the great proportion of taxes levied on improvements would keep down the rate on personal property far too low to effectually cope with the speculator.

If our system of taxation is bad in theory it is much worse in practice. Vacant land, whether in town or country, is generally assessed at a figure considerably below the selling price asked by the owner, thus putting on speculation a premium rather than imposing any restriction. Personal property which consists of stock in trade is often merely guessed at, it being generally noticed that the bigger the business and more influential the owner, the less proportion its assessed value bears to its real worth. Where the personal property consists of jewels, plate, automobiles, cash in the bank or invested, it often escapes the assessor's notice altogether or is assessed at a ridiculously low figure. Only a very small percentage of personal property pays any tax at all. Many an assessor, too, while he estimates pretty correctly the annual receipts of the unskilled laborer, the artisan and the salaried man, makes a poor guess at the incomes of those higher up. It is extremely amusing to all except those unfortunate who by their poll and improvement taxes have to make up the loss, to read the modest figures often assessed for income tax on those who are known to spend more in a month than the average man receives in a year. Again, our houses, the man's mill, is assessed at half value, while that of another is assessed at one-half, one-third or one-fourth of its value, the rest of the taxpayers having to make up between them for the exemption enjoyed by the favored few.

Among the reasons for the glaring inequalities so often found in assessments are the following:

- 1 The extremely small remuneration given assessors, which does not offer any adequate reward for capable men to give their services to the municipality, the inevitable consequence being that the assessors give, as a rule, very little time and energy to the work set before them. They prefer, instead of making a thoroughly new and accurate valuation, an approximation, to follow in the footsteps of their predecessors, taking off a little here and adding a little there, but in no material way changing the iniquitous result.
- 2 That in all or most municipalities—all in this province—there is a provision rendering a man ineligible for the position of Mayor or Alderman, Warden or Councillor, unless he is assessed on so much real or personal property—in some towns a man can not even vote unless he holds property.

THUS, TAXATION WITHOUT REPRESENTATION, against which England rose in revolt in 1842 and the United States in 1773, IS STILL IN THIS TWENTIETH CENTURY. THE COMMON TRING IN OUR MUNICIPAL SYSTEM. Now the Councils, composed almost entirely of the propertied class,—which class has always been the most tenaciously old-fashioned and conservative, opposed to economic and political progress—appoint the assessors. Naturally the assessors are men after the image of those who appoint them, and, whether consciously or unconsciously no difference as to the result, too often look with closed eyes upon the rights and hopes with closed ears to the appeals of the unprotected part of the population.

HOW TO IMPROVE THE SYSTEM

The foregoing are some of the defects of the prevailing system of taxation. How can this system be improved?

At least two of the defects of the system can be done away with by taking off—suddenly or gradually as the people will—the taxes on improvements, personal property and income, and abolishing or reducing the poll tax as may seem good, and raising the

DEDICATION OF THE METHODIST CHURCH

On Sunday last the new Methodist Church was opened and dedicated. The auditorium was tastefully decorated with potted plants and in spite of the inclement weather all the services were largely attended. In the morning the Rev. M. R. Knight, President of the N. B. and P. E. I. Conference preached from the text "For I am not ashamed of the Gospel of Christ, for it is the power of God unto Salvation." At the close of the sermon, the trustees came forward and presented the building to the pastor, Rev. George Morris, handing over the keys to him, after which he conducted the ritual dedication service, assisted by the Rev. M. R. Knight, and the Rev. W. G. Watson of Mt. Allison University. A choir of sixteen voices under the leadership of Miss Mowat provided special music.

A brief Sunday School session was held at the usual hour in the afternoon, immediately followed by a good fellowship service at which all the Protestant denominations were represented. Prayer was offered by Rev. Mr. Roy, a Baptist Clergyman from Nova Scotia, and short addresses were given by Rev. J. E. Poudie of Christ Episcopal Church, Rev. T. P. Drumm of St. Andrew's Presbyterian, Rev. Dr. J. H. McDonald of Fredericton Baptist, Rev. M. R. Knight, president of Conference, and Rev. W. G. Watson of Mt. Allison University. Mr. Cecil Mercereau sang a solo, and the choir sang an offertory anthem. At the close of this service the congregation joined most heartily in the hymn "Blest be the tie that binds."

In the evening, the service opened with an anthem by the choir, and Professor Watson of Mt. Allison preached a scholarly sermon from the text "And He showed me a pure river of water of life, clear as crystal, proceeding out of the throne of God and of the Lamb." Mr. Bert Cochrane sang a solo, and the choir rendered an inspiring offertory anthem, and after the benediction sang a short response entitled "The Lord will Hear."

On Monday night the young women of the church conducted a social for the members of the congregation. Everyone was greeted at the door and made welcome and a spirit of the greatest friendliness and sociability prevailed. After a short advertisement-guessing contest there was an informal program which was enthusiastically received. Miss Margaret Currie gave a piano number, Mrs. Sharpe a violin solo, Mr. Bert Cochrane sang, and a fine male quartette favored the audience with a couple of numbers. The program closed with a humorous pantomime of "The Near Sighted Man in the Picture Gallery" which caused a good laugh. Refreshments were served, and the young folks gathered around the piano and sang college songs. Everyone voted the affair a decided success.

On Wednesday night a service of Retrospect and Prospect was held in the Sunday school room. Mr. Appleton spoke on the church of the past, Mr. Reid on the church of the present, Mr. Reid on the church of the future, and Mrs. Morris on the ideal church.

The pastor read a letter from Rev. Mr. Thompson of Tryon, P. E. I., formerly pastor of this church.

Next Sunday some of the dedication music will be repeated by request, and the choir will sing a special Thanksgiving number. The pastor will preach a Thanksgiving sermon in the morning.

DEATH OF MRS D. RICHARDS

The community were greatly shocked to learn of the death of Mrs. David Richards which took place at Richardsville last Wednesday afternoon from paralysis. Mrs. Richards had been in failing health for the past three years but the sudden change on the Sunday previous was totally unexpected. Mrs. Richards was in her seventy-second year and was well-known and beloved by all who knew her. She leaves to mourn her loss besides her bereaved husband, three sons and five daughters. The funeral took place on Saturday and was largely attended showing the esteem in which the deceased lady was held. Rev. J. S. McDonald of Fredericton conducted the funeral services at the house and grave, the interment taking place at Campbellton Rural Cemetery. The chief mourners were her husband David Richards, her brother Edwin Sanson, Daniel E. John W., and Wm. S. Richards, sons; Jas. S. Evans, Max P. Moores, Frank E. Dennison and Rev. Thos. S. Roy, sons-in-law. The pallbearers were Messrs. D. R. McRae, Robt. McNair, Robert McKenzie, Judge McLetchy, James Paterson, and S. W. Dimock. The deceased lady was a staunch adherent and supporter of the Baptist church, and all who knew her will feel her loss keenly. The sympathy of all is extended to the bereaved family.

RIFLE MATCHES ON THANKSGIVING

The Restigouche Rifle Association intend holding matches at the Range on Thanksgiving day, open to all comers, any rifle may be used. There will be prizes for each range, probably 200 and 300 yards, also a rapid fire competition, 7 shots a minute also special match at 600 yards if time will permit. Shooting will commence at 10 a.m. at the 200 yards range.

Prizes will be donated by the merchants for the different events.

The club has had a fairly successful season, but the attendance has not been what they would wish. They have had members at the Provincial Rifle Association who won the maiden Team match as well as several other valuable prizes, and acquitted themselves about as well as any other club represented there, in the County match Restigouche was not six points behind the winners St. John County.

The matches on Thanksgiving Day should be most interesting and will be the last for this season.

The club will provide rifles and ammunition at a small charge to any one desiring to compete.

There will be no entrance fee for any of these matches.

Correspondence Held Over

Nash's Creek and Jacques River correspondences held over until next week.

THE CAMPBELLTON GRAPHIC

15 YEARS A DYSPEPTIC

Forced to Live on Stale Bread and Porridge.

"FRUIT-A-TIVES" CURED HIM

AVONDALE, N. B., October 15th. "I have been a great sufferer from indigestion for fifteen years. I was forced to deny myself all such hearty foods as beans, meats, potatoes and could not drink tea or coffee. For the past two years, I lived on porridge, stale bread, etc. I had treatment from two doctors, and tried nearly every kind of medicine, but got worse. Finally I saw a testimonial of 'Fruit-a-tives' and concluded to give them a trial. I took nearly four boxes of 'Fruit-a-tives' and they have made me feel like a new man. I can eat all kinds of hearty foods without suffering, and am no longer constipated."

Many people look on 'Fruit-a-tives' as a miraculous medicine. It has indeed, performed what have seemed like miraculous cures in hundreds of cases of chronic indigestion, dyspepsia, constipation and biliousness.

'Fruit-a-tives' is the only medicine in the world made of fresh fruit juices and valuable tonics. 50c. a box, 6 for \$2.50, or trial size, 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.

NOW THOUGHT TO HAVE BEEN MURDER

Wm. Ryder's Body is Disinterred and Autopsy Shows More Signs of Murder Than Suicide.

The inquest into the death of Wm. Ryder of White's Mountain, King's Co., who was shot on Oct. 11th about 80 rods from his own house, will convene on the 26th inst.

The post mortem examination was made on Friday.

Three distinct bullet wounds were found in the man's breast, one between the third and fourth ribs, and about two inches to the left of the breast bone, and the other two under the left arm. The wounds were powder-marked showing that the shots must have been fired at close range. Three wounds showing where the bullets had come out were discovered in the back, one through the left shoulder blade, another just below the point of the left shoulder blade, and the third at the outer edge of the left shoulder blade.

The autopsy showed that in penetrating the man's body none of the bullets touched his heart although his left lung was badly torn.

While it looks as if a murder has been committed, still the facts surrounding the case are so shrouded in mystery that it is believed difficultly will be experienced in unravelling them. So far as can be learned there was no adequate motive for the crime, for Ryder was a man of simple life and no one in the village is known to have borne enmity towards him. Mrs. Ryder's story according to the St. John Telegraph was substantially as follows: "About 11 o'clock Wednesday, Oct. 11, my husband took his gun and went out on a hunting trip. He went up the road a short distance, and had not been gone very long when I heard the report of his rifle. Kenneth Cusack, a boy, who works on our farm, went up the road to see what Mr. Ryder was doing. He came back and said that Mr. Ryder told him that if the dog did not look after the cattle he was going to shoot it."

"Shortly after the boy returned to the house I went up the road and called to my husband to come to his dinner. He did not answer, and while I was looking for him my daughter called out from the house 'Papa is home.' While I was on my way back, however, he again left the house, and my little girl said that she saw him crossing the fields, going eastward. He did not take any dinner. Early in the afternoon, in company with the Cusack boy, I walked across the fields in the direction in which my husband went. I think I went about fifty or sixty rods, but I did not go into the woods. The Cusack boy only went a short distance with me, for I sent him back to look after the cattle."

Mrs. Ryder told further about giving the alarm on Thursday night, and how surprised she was when she learned that her husband had been killed.

In speaking to Chief of Police McLeod Mrs. Ryder's two young daughters corroborated their mother's story. The elder of the two said that when her father came home at noon he went into the pantry and, she believed, got some cartridges.

GRAVE CHARGE AGAINST PASTOR

Death of Young Woman From Poisoning Leads to Arrest of Baptist Minister.

Boston, Oct. 20.—Rev. Clarence Virgil Thompson Richeson, the young pastor of the Immanuel Baptist church, Cambridge, was arrested here today under circumstances as dramatic as any ever known to the police of Boston, charged with the murder of Avis Linnell of Hyannis, Mass., to whom, it is said, he promised himself in marriage, but had broken the engagement. The arrest was made after a group of policemen, headed by the chief inspector, Joseph Dugan, and Deputy Superintendent Watts had been on guard over night in the home of Mrs. Grant Edmonds, in the fashionable Chestnut Hill district, whose daughter, Violet, was to be married to the prisoner on Oct. 31. At a brief formal hearing in the Municipal Court after his arrest, Mr. Richeson was held without bail for further examination on October 31.

Avis Linnell, a 19 year-old girl, whose home was at Hyannis, Mass., was found dead in the bathroom of the Young Women's Christian Association Home, Warren Street, this city, last Saturday evening. At first it was believed that she had committed suicide, but later developments indicated that she had unknowingly taken cyanide of potassium given or sent to her by some other person, and which she used in the belief that it would remedy physical conditions which were causing anxiety.

They Will Agree

with you—and help you to keep your stomach and other organs in the proper condition on which your good health must depend

BEECHAM'S PILLS

Sold Everywhere. In boxes 25c.

TO VOTE ON CHURCH UNION

Methodist Quarterly Boards and Membership will be called upon to vote within the next six months on Church Union. Three questions will be on the ballot papers, as follows:

1. Are you in favor of organic union with the Presbyterian and Congregational churches?
2. Do you approve of the proposed basis of union?
3. Have you any suggestions or alternatives to offer?

RETIRING ORGANIST HONORED

Mrs. Orr, late organist of St. Andrew's church, has gone to study nursing at the Montreal General Hospital. Before her departure there was a pleasant event at the residence of her parents, Col. and Mrs. R. L. Mathey, when the members of the choir of St. Andrew's church assembled. Aid. Kathro read an appropriate address and Rev. W. J. Baker presented the retiring organist with a purse of \$25. Mrs. Orr has most acceptably filled the duties as organist. Her successor is Miss Leighton—Newcastle Advocate.

NA-DRU-CO DYSPEPSIA TABLETS

relieve and cure indigestion—acidity of the stomach—biliousness—flatulence—dyspepsia. They re-inforce the stomach by supplying the active principles needed for the digestion of all kinds of food. Try one after each meal. 50c. a box. If your druggist has not stocked them yet, send us 50c. and we will mail you a box.

National Drug and Chemical Company of Canada, Limited, Montreal.

KENT CO. COUNCIL

The new Kent County Council elected on the 17th is as follows: Richibucto—A. B. Carson, Thos. O. Murray.

Wellington—Richard, Sheridan.

St. Louis—A. J. Rordage, F. Richard.

Acadieville—S. Barriault, D. Roach.

St. Paul—Melanson, Jos. Cormier.

Carleton—Mazzerall, Tweedie.

Harcourt—David Clark and John Brown re-elected.

St. Charles—Daigle and Maillet by acclamation.

Weldford—Murphy and Morton by acclamation.

St. Mary—E. Cormier, Albert Coates.

Dundas—Jude Bourgeois, H. E. Bourgeois.

\$100 REWARD, \$100

The readers of this week's paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative power that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

WEDDING BELLS

PARKER - ALLISON

A very romantic wedding took place yesterday when Mr. Christopher Parker, formerly of Millerton, but now residing in Yarmouth, New Hampshire, was united in marriage to Miss Mary Ann Allison, one of Millerton's most popular ladies, by Rev. Mr. Rite at the "Rectory," Newcastle. Mr. Parker who has been away for 30 years came to Millerton on the 7th of October and now in less than two weeks has taken his first love, of over thirty years ago, to be his bride. After the ceremony the couple came by auto to the home of the groom's brother, Mr. George Parker, where a delightful wedding supper was served. Mr. and Mrs. Parker leave next week on a trip through the leading American cities—Saturday's "Miramichi News."

SOCIALIST MAY OPPOSE

HON. J. D. HAZEN

St. John Local No. 7 of N. B. Socialist Party of Canada, are talking of nominating their organizer, Fred Hyatt, to oppose Hon. J. D. Hazen, in St. John city and county bye-election Nov. 3rd.

According to Government Estimates

\$100,000,000.00

was made in Western Town Property during the year 1909

Did you participate in these huge profits or did you "pigeon hole" the propositions submitted to you by your western friends for future consideration? In short, are you the man who made a profit or the unfortunate one who had the chance but did not possess sufficient judgment to recognize the opportunity or sufficient courage to close a deal? The man or woman entitled to sympathy is the one who says: "Five or ten years ago I had the chance to buy this or that property at \$100 or \$500, and now it is worth \$10,000." The average person sneers at the person who makes such a statement and says: "I would have bought and made that money." Are you going to say five years from now that you had a chance to buy a lot at Poe, Alta., at from \$50 to \$100 each, or are you going to be the man who will have from \$1,000 to \$10,000 in cash as a result of having bought property in this town in this year of grace, 1911?

POE A COMING COMMERCIAL CENTRE

Poe is located on the main line of the Grand Trunk Pacific Railway between Edmonton and Saskatoon. It is located in one of the finest farming districts in Western Canada. The surrounding country is settled by a progressive type of farmers and consequently will become the market centre for Northern Alberta. Poe district possesses rich crops of wheat, barley, oats and large forests are easily accessible from this point. These natural resources inure for the residents of the town, first, low cost of living, and second, great commercial activity, two essentials in the building of a large town, thus creating valuable real estate.

POE AS A MANUFACTURING CENTRE

This townsite and contiguous territory has the requirements outlined by large manufacturing concerns for the location of large factories or large enterprises of any kind employing large numbers of people. The rivers and lakes furnish water, the coal fields and forests furnish fuel and cheap building material, the fine farming lands furnish farm products, enabling the residents to live at a low cost.

The town is located on the main line of a transcontinental railway, assuring the necessary transportation facilities. These combined conditions will furnish cheap labor, one of the most important features of a manufacturing centre.

Poe is a Good New Town in which to engage in Business or a Profession

CAMPBELLTON, N. B., OCTOBER 27, 1911.

WHAT SMALL COMMUNITIES CAN DO

It is really marvelous what small nations and small communities can do to build up trade and make themselves rich and prosperous. Take the cases of Belgium, Holland and Switzerland. The first with its eight millions of people, and the second with its six millions and equally wonderful commerce, have been the marvels in this regard for a long time. Both, however, have extensive colonial empires and are blessed with a seacoast and an unusually fertile soil. Belgium, having access to the sea, besides, with Switzerland, however, it is different; small in area, with not a mile of seacoast, no minerals, only a few fertile valleys, it is a wonder how the country is able to support a population of 11. Yet it has a population, and a wonderful one. But little exceeding three million, it has nevertheless a foreign trade of over five hundred millions yearly or more than \$150 per capita, as compared with Canada's one hundred dollars. This exceeds Japan's trade by one hundred millions. With one-twelfth the area of Spain and one-sixth of Spain's population, its imports and exports surpass those of the Spanish nation by nearly two hundred millions of dollars. A large part of this trade consists of manufactured specialties. These are largely made in the homes of the people from materials furnished by the manufacturers who receive and pay for the finished product at stipulated rates, no less than 130,000 people being employed in this primitive industry. The exports exceed \$250,000,000 in value, among the items being, watches; and their parts, \$23,375,000; silk and manufacture of \$32,180,000; cotton embroideries, \$37,675,000; cheese, \$12,000,000; chocolate, \$7,400,000; machinery, \$14,000,000; cotton manufactures, \$14,395,000; lace edging, embroideries, etc., \$14,000,000. These are remarkable figures indeed. Another export is that of condensed milk to the value of six millions.

The money made from tourist traffic is estimated to amount to at least a hundred millions a year, there being fully one hundred and sixty millions invested in hotels throughout the country. All this goes to show what can be done by a small but intelligent and industrious population inhabiting a land of small area and few resources, and gives us some faint conception of the infinite possibilities of a country so vast in size and in resources as the Dominion of Canada.—Ex.

HAIR HEALTH

Take Advantage of This Generous Offer.

Your money back upon request at our store if Rexall "93" Hair Tonic doesn't do as we claim. That's our guarantee. You obligate yourself to nothing whatever. Could you ask or could we give you a stronger proof of our confidence in the hair restoring qualities of this preparation?

We could not afford to do so strongly endorse Rexall "93" Hair Tonic and continue to sell it as we do, if it did not do all we claim it will. Should our enthusiasm have carried us away, and Rexall "93" Hair Tonic not give entire satisfaction to the users, they would lose faith in us and our statements, and in consequence our business prestige would suffer.

We assure you that if your hair is beginning to unnaturally fall out or if you have any scalp trouble, Rexall "93" Hair Tonic will promptly eradicate dandruff, stimulate hair growth, and prevent premature baldness, or the above guarantee becomes operative two sizes, 50c. and \$1.00. Sold only at our store, The Rexall Store.—Thos. Wran.

Mr. Thomas Malcolm's private car returned to town on Friday from St. John. The car was in use for conveying Hon. Doctor Landry and Hon. Mr. Grimmer who had been over the International Railway and were guests of honor at Mr. Thomas Malcolm's home last week.

TOWN COUNCIL

Deputation From the Temperance Party Received By City Fathers.

The Town Council met on Tuesday evening 24th inst. under the chairmanship of His Worship Mayor McDonald. At the opening of session there were present Councillors Lunan, Pinault, Mowat, White, Miller, MacKenzie, and Alexander.

The Town Clerk read the minutes of the last meeting which were confirmed.

His Worship stated that as they had the visit of two deputations the regular order of business would be suspended and it was agreed to receive the deputations.

Mr. F. M. Murray was then heard before the council on the matter of dredging.

Mr. Murray stated that the main reason for his appearing before the council was due to the fact that in his bill which would later come before the council there was an item for 2 days demurrage on the schooner which he had just finished unloading. This was caused by having to unload the schooner of part of her cargo at the government wharf there being only 9 feet of water at the coal wharf in an efficient depth for ordinary vessels.

There are no berths in this port where vessels of over 12 ft. draft can discharge. At low tide there is only 7 feet of water at the market wharf, and if present conditions continue, the council will require to pay large sums for their coal. For the benefit of all interested parties and shippers Mr. Murray thought that something should be done to get the various wharves dredged, a job which would only take about one week. The various wharves are all government property, and pressure should be brought to bear on the Minister of Public Works to get this work started next spring. Mr. Murray in conclusion said that a petition should be prepared and if necessary taken to Ottawa, and that the member for the county be asked to further the petition. Several of the councillors joined in the discussion and in a reply to a question from His Worship Mr. Murray stated that the Shives Lumber Company had done some dredging at this wharf some years ago, and that an ordinary bucket dredge could do all that was required.

A special committee was then formed consisting of His Worship the Mayor, Councillors Alexander and Mowat, to acquire all the necessary information and dates and to report at next meeting. His Worship then introduced the second deputation consisting of Messrs. F. M. Anderson, W. P. Gray and John M. McLean, a committee from the Temperance Federation. Mr. Anderson who was the first speaker stated that a meeting of the Temperance Federation had been held in the Opera House on Sunday evening and a committee appointed to look into the matter of the increase of liquor drinking in the town and several speakers had stated at the meeting that there seemed to be some apathy on the part of the police, the delegation desired to know from the council what the duties of the police were with regard to the enforcement of the Local Option Act. Mr. Gray and Mr. McLean also spoke. Chief of Police Hughes in reply to His Worship stated that he felt that the officers under him were doing their duty as far as he could see and said that he knew he had the moral support of the citizens.

Councillor Lunan as Chairman of the police committee spoke strongly on the remarks which had been made that the police were not acting on information received and stated that it was manifestly unfair to insinuate that the police were incapable.

After most of the councillors had taken part in the discussion it was decided to refer the matter to the Police and License committee with power to act.

The regular order of business was then reversed back to which was mainly the receiving and adoption of reports for the payment of accounts.

MUNICIPAL

TAXATION

(Continued from page 1)
revenue thus lost, by an increased tax on land values.

Why should the land alone be taxed, and not improvements, personal property and income? A man's income, if rightfully obtained, is the sum of his earnings, and THE WORKER HAS THE RIGHT TO THE UNMOLESTED POSSESSION AND ENJOYMENT OF HIS TOIL. A man's personal property and improvements represent his savings and, granted that he earned the money in the first place, he alone is entitled to the possession and enjoyment. (If wealth is obtained by fraud and oppression, as doubtless much of it is, this is another question for the body politic to consider. Its solution is simple, but lies outside the purview of the present consideration.) The land, on the other hand, being necessary to the support of all and not being produced by the labor of any, is right fully the joint property of all and should therefore be made to pay the taxes of all. For the individual use—not ownership—of land the individual should pay the community whatever the community judges to be right. And everyone will admit that the more land one occupies the more taxes he should pay and the less he occupies the less he should pay.

Again, as already stated, it is a fair proposition that EVERYTHING A MAN CREATES BY HIS OWN LABOR IS RIGHTFULLY HIS AND THE LAW SHOULD SECURE IT TO HIM. If a man settles in the wilderness and transforms twenty five or fifty acres of comparatively unproductive soil into gardens, orchards and fields of grain, who has the right to the increased value of that land created by the working of his own hand and brain? If a neighbor, with equal opportunity, creates only half as much value, why should the former be taxed more than the latter? In the buildings and improvements having been made, why should the personal property bought and improvements made by the first man with the gains of his labor be taxed a greater sum than the less valuable property accumulated by the second? Why should the first man's income be taxed more than the second man's? Better tax the land values only, and let the values created by the tenants go free.

It would be manifestly unfair to tax all land at the same rate. The relative fertility, accessibility and desirability of the land must be taken into account. Land within a mile of a railway station is, other things being equal, much more valuable than the ten miles away. Meadow land is worth more than stony hillside; mining land than woodland, and so forth.

So also, in a town or city, certain blocks are by virtue of their situation much more valuable than others and should be taxed at a higher rate. Not only are some blocks more valuable than others, but corner lots are generally more valuable than any other in the same block, and the deeper a lot of a certain frontage the more valuable.

After the valuation of each district is ascertained, then the holders of equal areas in the same districts should pay equal taxes. The man who holds his land vacant should pay the same taxes as he who covers his with buildings or crops.

THE BENEFITS.
What benefits would be derived from the system of taxing land values only? At least two.

1.—The taxation of land values only would tend to do away with speculation in land, for few or none (were the taxes high enough) could then afford to hold land idle. The taxes would be so heavy that the owner would be compelled to immediately put his land to use or sell it to someone who would improve it. Vacant land being thus forced upon the market, man desirous of obtaining land on which to build warehouses or homes could purchase it much more cheaply than at present, and thus more easily shake off THE INCUBUS OF LANDLORDISM, WHICH IS FAST REDUCING THE PEOPLE OF THIS COUNTRY TO THE STATUS OF THE PEASANT AND LABORER OF EUROPE AND ASIA.

2.—The tax on land values only would simplify the task of collecting taxes. No one could then escape his taxes. He could not hide nor misrepresent his land. The assessor would have no choice in the matter. The holder of too many square feet, or so many acres would have to pay so much, and all the world would know as well as himself just what he should pay. If he failed to pay his land would be there as ample security. But under our antiquated and worn-out system, much of the taxes levied

is never collected. Many make false entries regarding their income or personal property, and the value of improvements is fixed according to the judgment of assessors upon whom, as

can be brought to bear. Also, because of OUR INEQUITOUS ECONOMIC SYSTEM THAT COMPELS MEN TO LEAVE THEIR FAMILIES AND WANDER HITHER AND THITHER FOR WORK, which they sometimes find and often don't, much of our poll tax is evaded and lost.

So when the collection of a land tax is so simple and easy, why bother with those forms of taxation that are so uncertain, so difficult to fix, and so hard to enforce?

I do not claim—for it is not—that the system of taxation here advocated is a panacea for the financial ills of the country; but two things are certain, viz., that the raising of taxes from land values only will tend to rapidly eliminate the speculation in land values and will make the collection of taxes a much more simple and satisfactory operation than it is at present or ever has been in this country. FOR THESE TWO REASONS IT IS WORTHY OF A TRIAL.

In adopting the method of raising taxes from land values only, CARE SHOULD BE TAKEN TO SECURE TO EVERY CITIZEN EQUAL POLITICAL RIGHTS. Every naturalized resident of a municipality should be a voter therein, and also eligible for election as Alderman, Mayor or County Councillor, regardless of what property of any kind he holds or does not hold. If he pays no taxes directly the landlord and others will see to it that he pays enough indirect

ly. Therefore, as every British citizen residing in New Brunswick has a vote at Provincial and Dominion elections, and is also eligible as a candidate for the House of Assembly and House of Commons, without being subjected to any property qualification, so should every British citizen residing in a municipality be entitled to all the rights and privileges of voting and holding office.

As these ideas are new to many people and as undue haste is always to be deprecated, this Union should not ask the Legislature to at once compel all municipalities to restrict taxation to land values only, or as a first step, to limit the right of holding office, but should merely demand from it the right for all municipalities to regulate, for the present at least, such matters for themselves. Such permission being obtained, each municipality could fight the question out for itself, and should be rapidly able to show the majority of its people should decide, IN ALL CASES LET THE PEOPLE RULE.

The engagement has been announced of Mabel Louise, daughter of Rev. J. M. and Mrs. Sutherland, New Carlisle, Que., to Rev. G. P. Tatler, B. D., of the same place, the marriage will take early in November.

A very pleasant social gathering took place in the assembly room of the Methodist church when the young ladies of the circle entertained the members of the congregation. A large number attended and all spent a pleasant evening. Games and music helped to pass the time pleasantly and a dainty lunch was served. It is planned to give social evenings at frequent intervals during the coming winter so that the members of the congregation may become better acquainted.

WHY HESITATE

An Offer That Involves no Money Risk if You Accept It.

We are so positive our remedy will completely relieve constipation, no matter how chronic it may be, that we offer to furnish it free of all cost if it fails.

Constipation is commonly caused by weakness of the nerves and muscles of the large intestine. To expect a cure you must therefore tone up and strengthen those organs and restore them to healthier activity.

We want you to try Rexall's Cathartics on our guarantee. They are eaten like candy, and are particularly good for children. They seem to act directly on the nerves and muscles of the bowels. They apparently have a neutral action on the other organs. They do not purge or cause other inconvenience. We will refund your money if they do not overcome chronic or habitual constipation and thus aid to relieve the myriad of associated or dependent chronic ailments. Try Rexall's Cathartics at our risk. Three sizes, 10c, 25c, and 50c. Sold only at our store—Thos. Wian.

There will be special Harvest Thanksgiving services in Christ Church, Campbellton, next Sunday Oct. 29th. Morning service at 11 o'clock; Sunday School at 2:30; Evening service at 7 o'clock. The Rev. Mr. J. E. Purdie, will be in charge at both services.

ESTATE SALE THE ECUMENICAL

CONFERENCE

Notice is hereby given that I will sell at public auction on Tuesday the twenty-first day of November next, at two o'clock in the afternoon, in front of the office of W. A. Trueman, Barrister-at-law, at the town of Dalhousie, in the county of Restigouche, the following described lands and premises, namely:

First, all that lot piece or parcel of land bounded and described in a certain deed bearing date August sixth, A. D. 1886 as Number 3293 on pp. 72 and 73 in Book "I" of the Records of the county of Restigouche, made between James S. Harquail of Dalhousie in the county of Restigouche, Barrister-at-law, of the one part, and James S. Harquail of the same place, of the other part, "All and singular that certain lot or parcel of land and premises situate, lying and being on the east side of Brunswick street in the town of Dalhousie, being part of lot known and distinguished on the town plat of Dalhousie aforesaid as lot number seventy-one (71), commencing at a point sixty feet (60) distant from the corner of Brunswick and William street and running along Brunswick street south forty feet (40) until it meets the side line of lot owned by Mrs. Hayes, thence along the same back fifty feet (50) thence north parallel with Brunswick street forty feet (40) and thence west to the place of beginning."

Second, all that lot, piece or parcel of land bounded and described in a certain other deed bearing date the seventh day of December, A. D. 1907, made by Timothy Robinson, Sheriff of the county of Restigouche, of the one part, and James S. Harquail of the town of Dalhousie, Barrister-at-law, of the other part, registered in the office of the Registrar of Deeds of the county of Restigouche on December twelfth, A. D. 1907, as Number 11,337 on pp. 520, 521 and 522, in Book "Y" of the Records of the said County, bounded and described as follows: "commencing at a spruce tree standing on the western shore of the Bay Chaleur and at the eastern angle of lot number twenty (20) granted to Paul Devereaux, thence running by the magnet south forty-two degrees and thirty minutes west, one hundred and fifteen chains of four poles each, crossing a reserved road, thence south, forty-seven degrees and thirty minutes east, four chains and thirty-five links, thence north forty-two degrees and thirty minutes east, one hundred and fifteen chains to the place of beginning, containing fifty acres more or less."

The said lots will be sold separately. The said sale is being made under and by virtue of a license therefor granted by the Probate Court of Restigouche county on the twenty-first day of August, A. D. 1911, for the purpose of paying the debts of the deceased, his personal estate being insufficient for that purpose. Dated the sixteenth day of October, A. D. 1911.

David A. Harquail, Executor of the last will and testament of James S. Harquail, deceased.

The Kind You Have Always Bought

Bears the Signature of J. C. Watson

Methodism the world over through its representatives gathered together at the Ecumenical Conference in Toronto, has declared itself in favor of, and pledged itself to, do everything possible to further international peace. It especially commended the proposed arbitration between Great Britain and the United States as being a splendid forward step in the world's progress toward the ideal human brotherhood. An international Methodist employment bureau was strongly urged by Sir Robert Parks. The Ne Temere decree, recently issued by the Roman Catholic Church, came in for an emphatic protest from the Conference. The Conference closed its meetings on Tuesday, 17th instant.

HAD BAD SORE FOR YEARS

ZAM-BUK HAS HEALED IT!

Mrs. Wilson, 110 Wickson Ave., Toronto, says: "About four years ago a sore spot appeared on the right side of my face. This spot increased in size until it became about half an inch in diameter and very painful. I went to a doctor, but the ointment he gave me did not have any good effect. The sore continued to enlarge freely, and was most painful. I had it cauterized, tried poultices and all kinds of salves, but it was no good, and I continued to suffer from it for four years!"

"A sample of Zam Buk was one day given to me, and I used it. Although the quantity was small, it seemed to do me some good, so I purchased a further supply."

"Each box did me more and more good, and, to my delight, before I had been using Zam Buk three weeks, I saw that it was going to heal the sore. In less than a month it was healed!"

"I know a lady in the east of the city, whose husband suffered for years with an open sore on his leg. On my recommendation, Zam Buk was tried in that case. The other day, when I saw her, she told me that it had healed the sore completely."

"My daughter, who lives in Lethbridge, Alta., has also used Zam Buk with the same satisfactory result. I think it is beyond all doubt, the finest skin healing known."

Such is the opinion of all persons who have really tried Zam Buk. It is a sure cure for eczema, piles, abscesses, ulcers, scalp sores, ring worm, cuts, burns, scalds, bruises, and all skin injuries and diseases. 50c. box, all druggists and stores, or post free from Zam Buk Co., Toronto, for price. In case of skin disease use also Zam Buk Soap, 25c. tablet.

YALE-CARIBOO

BYE-ELECTION

Ottawa, Oct. 17.—The Cabinet Council to-day fixed November 4 as the date of the nomination for the bye-elections in Yale-Cariboo made necessary by the acceptance of a portfolio by Hcn Martin. Polling is fixed for November 11.

NEW CHURCH

The new Catholic Church, which Rev. Fr. Duffy of Redbank started last fall at Sevegle, North Ek, has come to a completion on the outside, which speaks well for Thos. Power of Newcastle who was the designer and builder. His son Frank and Albert Hutchison were the carpenters who worked with him. [Newcastle Advocate.]

Be Fair. Buy a sack or barrel before judging PURITY FLOUR

SOME people have attempted to judge PURITY FLOUR before knowing the facts about it—before using it. So we ask you to be fair and to buy a sack or barrel of PURITY FLOUR and give it a thorough try-out before attempting to arrive at a judgment.

Look at the beauty and loftiness of the golden-crusted, snowy-crumbed loaves, fit for a king. Count them and see how many more of them PURITY yields to the barrel than ordinary flour does.

Taste the creamy, flaky pie crust, and the deliciously light cakes PURITY FLOUR rewards you with. My!

How they make your mouth water!

Such high-class results can only be obtained when using a flour consisting exclusively of the high-grade portions of the best Western hard wheat berries.

And remember, that, on account of its extra strength and extra quality, PURITY FLOUR requires more water when making bread and more shortening when making pastry, than you are accustomed to use with ordinary flour.

PURITY FLOUR

"More bread and better bread"

Buy a bag or barrel of PURITY FLOUR. Test it for a week. Then pass judgment. Add PURITY FLOUR to the grocery list right now.

MY NEW STORE

I am now in my new store corner of Gerard and O'Leary street, and carry a full line of general goods.

Farm Machinery, Carriages Etc. I have now in stock an entirely new line of these. Call and get prices.

KING CODE TEA

Just one delightful sip of this—and even what you thought your favorite tea must take second place forever. For here in King Code tea is a rare flavor that will double your love for your tea-cup. Such fullness of flavor, such richness—yet withal such smoothness.

Your first cup will be a flavor revelation. You'll want to tell all your friends about it. And—perhaps you had better tear this out as a reminder to get some King Code Tea Quickly.

YOU'LL LIKE THE FLAVOR.

JOHNSON'S ANODYNE LINIMENT

The old reliable household remedy. Give inwardly for Coughs, Colds, Cholera Morbus and Bowel Complaint. Sold by all dealers.

25c and 50c Bottles

L. S. JOHNSON & CO., Boston, Mass.

Persons' Pills regulate the bowels, keep the liver active.

PROVINCIAL CONTRACT

AWARDED

Hon. John Morrissey, chief commissioner of public works, has awarded the contract for the construction of the White River Bridge, Northumberland county, to John McAleer of Ludlow. The contract price is in the vicinity of \$600.

TWO MORE PARISHES DRY

Lancaster in St. John Co. and Richibucto in Kent Vote Against Liquor Licenses.

The local option campaign in Lancaster Parish, which includes the large village of Fairville, resulted in a victory for the temperance people, on the 17th instant by a majority of 109, the vote standing 513 to 404. The campaign against the saloons has been conducted by Alex. Donaldson and Rev. H. B. Boyer. When the result was known, the Temperance supporters gathered in the I. O. G. T. hall and heard addresses by Rev. Geo. A. Ross, Rev. H. R. Boyer, Rev. W. R. Robinson, Rev. H. E. Thomas, Alex. Donaldson and C. P. Baker. In Richibucto Parish the vote stood:

	Against	For
Richibucto	126	32
Richibucto Village	66	12
South Rexton	71	41
North Rexton	47	23
Totals	310	225

In all Kent Co. but one parish, Dundas, now allows liquor to be sold under license.

The temperance people of Richibucto parish extend hearty thanks to Rev. H. Staver of Harcourt, Rev. W. R. Robinson of St. John, Rev. T. A. Robinson of Tunkate, Rev. George Farquhar of Hampton, N. B., also to all workers and all who voted "No license".

RHEUMATISM GONE, SAYS DETECTIVE KILLEN.

Morrissey's No. 7 and Liniment Cured his Knee. "Feels good as new."

St. John, N.B., April 12, 1911.

"I am glad to report that my knee is completely cured of Rheumatism—thanks to Father Morrissey's No. 7 Rheumatism & Kidney Tablets, as they alone are responsible for my cure. I was troubled for a number of years, and tried everything I heard of, and needless to say, spent quite a sum of money without any results. I have no further trouble now, and my knee feels as good as new. I was personally acquainted with the late Father Morrissey and know his remedies are good. Anyone suffering from Rheumatism and Kidney trouble should by all means try No. 7 Tablets, as I can cheerfully recommend them."

PATRICK KILLEN, Provincial Detective, St. John, N.B.

The above prescription is not a "Cure" or so-called patent medicine. Dr. Morrissey prescribed it for 44 years and it cured thousands after other doctors failed. Price, 50c. per box at your dealers, or Father Morrissey Medicine Co., Limited, Montreal.

BRADEN GUILTY OF MANSLAUGHTER

The trial of Wm. Braden charged with having in Woodstock on May 3rd last, shot with a pistol Thomas Woodman McCusker, who died as a result of the wound within 24 hours, opened in Woodstock on the 17th instant. The evidence showed that Braden was caused to be jealous of McCusker and on the 10th the jury brought in a verdict of manslaughter. Sentence was deferred till the 24th.

Concrete Work in Freezing Weather

UNTIL a few years ago, although concrete had already been generally adopted throughout the country by contractors and farmers for almost all structural work, it was the practice to stop all work on this form of construction as soon as the cold weather set in.

It has been found, however, that concrete work may be carried on in cold weather successfully, and with but very little more trouble than under ordinary circumstances.

This fact is of great benefit to the farmer, as it is in the colder period of the year that he is able to find time for building and making the many articles around the farm to which concrete so readily adapts itself.

With a few simple precautions it has been found that concrete can be used, not only in freezing weather, but when the thermometer has been actually below zero.

If the concrete freezes before it starts to "set," it will not be injured, but if the freezing takes place after the "setting" action has started up, the concrete is likely to be damaged when it thaws, owing to the expansion of the melting water forcing the particles apart and making the concrete crumbly. On the other hand, if the concrete has a chance to become thoroughly "set" before freezing, no harm will be done. To give it this chance you must first of all prepare the materials as described below, and secondly, you must protect the concrete after it has been placed in the "forms."

PREPARATION OF MATERIALS. Concrete will, on its own account, develop a certain amount of heat in

HEATING WATER. A simple and easily-made vessel for heating water is shown in the accompanying drawing. (See Fig. 1.) A coil is made of one-inch pipe with the ends fastened in the barrel and made water-tight. A small fire built under the coil will heat the water rapidly and will keep it in circulation, thus keeping all the water heated.

For this purpose it is wise to use a length of malleable iron gas-pipe, because it is easily bent into the required coil. This is done by taking a log or fence-post about the size of the coil and bending the pipe around it. This method prevents the pipe

pipes, and will soon thaw out and become heated.

In very cold weather, the cement may be heated by laying the bags on top of the sand, but this is not absolutely necessary, as the cement itself must be kept dry until used, whether the weather be hot or cold.

TEMPERATURE REQUIRED. Materials should not be heated to too high a temperature. A good way to judge the proper amount of heat is to make them just hot enough to be comfortable to touch. Care should be taken not to use any frozen lumps of sand.

PROTECTING CONCRETE IN POSITION.

After the concrete has been placed in "forms" it should be protected so as to keep the heat in as long as possible. This is more essential in thin structures than in massive walls and foundations; for the latter will hold their own heat longer on account of their thickness.

Wooden "forms" are non-conductors, and will retain the heat in the concrete up to a certain point, but the concrete should be protected on top by a covering of canvas or twelve inches of manure on top of this. Straw will also answer the purpose. If manure is used, care should be taken to prevent it from coming in contact with the concrete, as it will discolored it, and possibly even seep through sufficiently to weaken the structure.

PROTECTING THIN STRUCTURES.

In the case of thin walls where extra cold weather calls for addition-

of "buckling" and makes the coils more regular in size.

Where concrete work is being done on a large scale, it is advisable to use the two-barrel heater shown in Fig. 2. This allows the water to be constantly replenished without reducing the heat of the water in the barrel from which the hot water is taken.

Most farmers, however, possess large boiling kettles, used during butchering time, or for making soft soap, etc. One of these will do equally well.

FIG. 2. SHOWING TWO-BARREL METHOD OF HEATING WATER.

FIG. 1. SHOWING SINGLE METHOD OF HEATING WATER.

FIG. 3. SHOWING HOW MATERIALS MAY BE HEATED BY PLACING THEM IN A FIRE-PROOF BOX.

HEATING SAND AND STONE. Sand and stone may be very easily heated by making use of two pieces of stove pipe, one piece for the sand and the other for the stone. The pipes are laid on the ground in such a position as to allow the wind to make a good draft. The fire is then built in one end. The flames pass through, heating the whole pipe, and as fresh fuel is added, the cinders are pushed along the pipe and gradually work out at the other end. The sand and stone should be piled on top of the stove

FIG. 4. PAPER TACKED TO WOODEN SUPPORTS TO PROTECT CONCRETE FROM Frost.

al protection, heavy paper should be nailed to the vertical posts of the forms, (see Figure 4.) thus leaving an enclosed air space between each pair of posts. These air spaces will have about fifteen degrees higher temperature than the outside air. The "forms" should always be left on longer in cold weather, as it takes longer for the concrete to harden.

There is no reason why concrete cannot be used with complete success in cold weather if these simple precautions be followed.

MY DAUGHTER WAS CURED

By Lydia E. Pinkham's Vegetable Compound

Baltimore, Md.—"I send you here with the picture of my fifteen year old daughter Alice, who was restored to health by Lydia E. Pinkham's Vegetable Compound. She was pale, with dark circles under her eyes, weak and irritable. Two different doctors treated her and called it Green Sickness, but she grew worse all the time. Lydia E. Pinkham's Vegetable Compound was recommended, and after taking three bottles she has regained her health, thanks to your medicine. I can recommend it for all female troubles."—Mrs. L. A. CORLETT, 1108 Rutland Street, Baltimore, Md.

Hundreds of such letters from mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them have been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

Young Girls, Heed This Advice. Girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should take immediate action and be restored to health by Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by its use.

Write to Mrs. Pinkham, Lynn, Mass., for advice, free.

WEDDING BELLS

NOEL—ROY

Durham Centre, Oct. 19 1911—On the morning of Oct. 17th, there were united in marriage at Petit Roebor, Mr. Francis Noel of this place and Mrs. Elizabeth Roy (nee Grant) of Elm Tree. The ceremony was performed by the Rev. Father Carter in the presence of the immediate relatives.

The bride wore a pretty suit of wisteria costume cloth and a white hat with wisteria plume. After the ceremony the bridal party repaired to the bride's home, where dinner was served, after which they drove to the home of the groom where a bountiful supper awaited them. Dancing was indulged in for a few hours, in which the bride did not participate owing to the recent death of her father.

The bride received many useful and valuable presents. The party broke up shortly after midnight with the usual good wishes to the bride and groom for happiness and a long life.

HACHEY—BOUCHARD

A very quiet and pretty wedding was solemnized at the Roman Catholic church at Campbellton last Tuesday Oct. 27th 1911 when Mary Rose daughter of Mr. James Hachey was united in marriage to Arthur Bouchard from Sayabec employed on the I. C. R.

Rev. Fr. Wallace officiated. After the service the wedding breakfast was served at the bride's home on Wellington street and the young couple left on the Limited for Bathurst and returned by same train in the evening after spending a very enjoyable evening at the bride's home. Dancing was the chief amusement which lasted till a late hour after which the young couple left on the Maritime for a couple of weeks, visiting Montreal and other places, after which they will reside in Campbellton.

A Simple Treatment that Will Make Hair Grow Now Sold in Canada.

Every up-to-date woman should have radiant hair.

There are thousands of women with harsh, faded, characterless hair, who do not try to improve it. In England and Paris women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using SALVIA, the Great American Hair Tonic.

Every reader of "The Graphic" can have an attractive head of hair in a few weeks by using SALVIA. The White Drug Co. sells a large bottle for 50 cents, and guarantees it to banish dandruff, stop falling hair and itching scalp in ten days, or money back. SALVIA is a beautiful, pleasant-smelling Hair Tonic.

MERLIN DAVIES AT CAMPBELLTON

The music lovers of the town had an interesting treat provided when last Wednesday evening when Merlin Davies and his company gave a musical recital. Mr. Davies is reckoned the greatest oratorio tenor in Canada and in choice of songs showed that he was equally at home in ballad music. A feature of the programme was the duet by Mr. and Mrs. Davies which was enthusiastically encored. Mrs. Davies' best number was "In the time of Roses" which suited her clear soprano voice splendidly, while all her songs were sung with admirable taste. Mr. R. Dumbrell sang "There's a land" with great power

and sung his little Irish songs with cute quaintness. Mr. E. B. Currie of Halifax at present located in Campbellton made a splendid first appearance, and with care will develop into one of our best baritones. His choice of songs was happy one but seemed more at home in "Beloved Awake". Of Mr. Davies singing no adequate criticism can be given. He stands in a plane by himself, and with great artistic feeling is at home in all music. A treat of this only comes once in a life time and, many are regretting missing this opportunity, of hearing one who can call himself Canada's greatest tenor.
