CHILDREN RAISE HANDSOME SUMS

People Respond Generously to
Mute Appeal of Belgian Infants

The results of the Children's Day campaign for funds for starving Belgian children have been highly gratifying. Reports were published last week from various schools, in one instance more than \$100 having been raised. Better still is the report from Lower Brighton, where an entertainment was held on Monday evening and more than \$130 raised. The social at Somerville on Nov. 3 was for the purpose of raising money for this project and more than \$30 resulted. Upper Brighton, a small district, raised a surprising sum of more than \$100 at a basket social.

At Hartland on Friday evening the school gave a concert that showed splendid returns, the sum of \$112.75 being realized. The Star Theatre was packed to the doors and the audience was thoroughly satisfied with the program, which follows:

Chorus—King and Country.
Dialogue—Women's Aid Society.
Piano Duet—Kathleen Keady.
Julia Birmingham.
Intermission. Sale of candy.
Short Play—Scene I.
Quartet—Khaki, four girls.
Scene II.

Scene III.
Quartet—E. C. Morgan, Mrs. F. A. Aiton, Mrs. A. Y. Dickinson, A. Y. Dickinson.

God Save the King.
Tonight Florenceville Consolidated School gives a big entertainment, and Victoria school also puts forth its endeavor. Last evening the Rockland school held a concert with splendid results.

KILLED IN ACTION

Sad Message from the Front—Letter from Lee Dyer

Last week Jarvis Hayward received a letter announcing that Horace S. Hall, an English boy who lived with him for several years, had been killed in action. Young Hall was about 18 years of age and Mr. and Mrs. Hayward regarded him as a son. The letter follows:

"I am sorry to tell you that the young man who once lived with you, Pte. Horace S. Hall of the 58th Batt., was killed in action on Oct. 8. Sgt. James Craig of the 13th Batt., who lay in the same shell hole, wounded, was with your friend when he died. He was brought in this morning and gave me your address as Hall requested. Your friend died a hero's death—a death at the farthest point of an unsuccessful advance made by his battalion right at the enemy's barbed wire.

I am sure you will be proud of his memory as one who gave himself in the cause of truth and freedom. May God comfort you and all his friends.—Louis W. Moffit, Capt., Chaplain 15th Can. Batt.

Hall enlisted with the 55th and was drafted into the 58th.

Last week Mrs. Edward Gillin received a letter from her former home in Scotland informing her of the death of her brother, Pte. John Girvan. He was with the 1st Black Watch.

Lee Dyer is in as hopeful a mood as in his previous letter. Mr. Dyer says in a letter to The Observer: "I wish to thank the ladies of Windsor for the fine box of cake, socks, gum, tobacco, cigars, candy, nuts and a jar of butter. It was all in fine shape and much appreciated. The butter is the first I have seen for over a year. The ladies who sent the things were Mrs. Jesse Tedford, Mrs. H. L. Dickinson, Mrs. E. A. Britton and Mrs. W. C. Forrest. The socks were good and I shall soon use them and when I crawl in my dugout some cold night I will think of you all.

I expect to go back to France in a month. Am getting quite all right and hope to help a little bit more, and I wish all good people of good old Carleton county the best of luck if I never see you again.

I was at Caesar's Camp the other day and saw most all the Carleton county boys in the 115th and 140th.

Fred Boyer of British Columbia, formerly of East Florenceville is here with the B. C. Pioneers.

The war may stop before another cold winter, but we don't want to talk any peace until the Huns have paid for the spilt blood and broken hearts.

I believe all you wives and mothers are proud of the boys who are here. Cheer up; Big Willie and little Willie will be like broken-legged pups before the autumn of 1917. Goodnight, Lee Dyer.

Several of the county councillors met His Honor Lieutenant-Governor Wood at the Court House on Thursday afternoon, to discuss the subject of the contributions to the Patriotic Fund. His Honor quoted the statistics to show how each county in the province stood as toward the central fund. As Carleton county proved to be indebted to the central fund, the councillors agreed to give \$3,000, which will keep the county in good standing until the council meets in January, when the grant will be ratified and arrangements made for the grant for 1917. This decision was unanimously agreed upon by the councillors.

A pulp mill is to be built at Van Buren. The immediate investment will be half a million dollars and the plant will consist of a substantial brick building about 400 feet by 100, with boilers capable of producing 1,800 horse-power. The capitalists behind this new company, E. P. Lindsay of Boston; Geo. Lewis of Holyoke, Mass. and E. M. Blandin of Bath, N. H., are the same persons who have recently acquired the paper mill at Howland, Me., and they are already engaged at several other points in the manufacture of sulphate.

BE PATRIOTIC—WEAR RUBBERS

British Government Has Given You Rubber at Low Price, So You Can Wear Rubbers and Overshoes to Protect Your Expensive Shoes.

Before the war a cow cost sixty dollars; now a cow's hide costs as much. This means expensive shoes—the same quality as before with a price fast approaching double that formerly paid.

"What's to be done?" asks the man or woman in moderate circumstances.

"Buy Rubbers and Save your Shoes" is the answer the British Government gives.

The British Government has put the price of rubber down so that you may benefit. Think of this and think of the rise in the price of other staple articles. Then, be patriotic and wear rubbers—rubbers made from British Government rubber—and save your shoe leather from winter's snow and fall rains.

afternoon, in the United Baptist church, the nominating committee reported the following committee: W. D. Keith, president; Charles W. Mutch, vice-president; R. B. Hagerman, secretary; J. A. Lindsay, treasurer; vice-presidents, Peel, J. C. Hunter; Wakefield, Delbert Margison; Wilmet, E. L. West; Simonds, Holland Estey; Wicklow Carey Estey; Kent, Robert Squires; Aberdeen, Percy Fitzgerald; Northampton, Arthur Gibson; Richmond, John F. Flemming; Brighton, E. C. Morgan; Woodstock parish, Elwood F. Dickinson.

One of the pleasing addresses of the afternoon was that of Sheriff Dunn, of Arnostook county. He assured the committee that the New Brunswick officers would have every assistance from Maine officers in carrying out the law on the Maine border. A big public meeting was held in the church tonight.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender Little Stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, indigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

Sergt. Sears of Centreville is Missing

An appeal has recently been received from Mrs. J. Sears, of Centreville, to publish some details regarding her son, Sergeant George Sears, who is reported missing, in the hope that some member of his unit at the front may get a copy of the paper and thus give her some details regarding him.

He was a member of "H" company, of the R. C. R. when in Fredericton, and while in Bermuda with his regiment was transferred to "A" company in which he was fighting when reported missing. His father is a member of the "F" company of the 224th Battalion, now in England, and he has two brothers with the first division, one Gunner L. A. Sears, of the 8th Battery, and the other Driver S. H. Sears, of Battery D-48, second brigade.

Mrs. Sears represents a New Brunswick mother who has given her all for the empire for besides her husband and three sons in the service she has a son-in-law with "D" company of the 104th Battalion, and one brother with the Royal Garrison Artillery, B. E. F.

"I have reason to be proud of my men," she says. Truly she has, and there are few that have given more willingly and more lavishly of their dear ones to the empire than Mrs. Sears.

Memorial Service for James Seymour

On Sunday, Nov. 5, in St. Bartholomew's church, Birch Ridge, a memorial service was held on behalf of the late James Seymour, who sacrificed his life for his King and country on the Somme in France.

Deceased was well known in the district and the deepest sympathy is extended to his parents and relatives.

Appropriate hymns were sung: Forever with the Lord, Nearer my God to Thee, Thy will be done, and Days and moments quickly flying.

The rector, Rev. F. J. Wilson, gave an admirable address on 1 Thess. 4:13 and also spoke very sympathetically of the misery and distress caused by the war.

At the conclusion of the service the Dead March in Saul was rendered by Mrs. Wilson who is organist.

WISHING AND GETTING.

An Old Man's Realized Day Dream and the Moral It Teaches.

They had started in the most primitive way, the man and his wife, back in the little log house, but they were dreaming of the day when they would own a farm of their own and not have to work so hard. After a time their hard toil was rewarded, and they owned a farm. Then it seemed desirable to add to this tract, and they worked a little harder. A new house seemed a necessary accompaniment to the large farm, so the work could not stop.

A son came to the age when he must be educated and have his chance in life, and they toiled on. All the time the old man dreamed of the days ahead when he could stop work and take life easy. Somehow the days did not come, or he did not recognize them when they came, for he kept on working until he had grown old and worn. Then his health failed, and he had to stop work.

The son for whom they had given precious years out of their lives now showed his gratitude by his gentle, un-failing love and care. It seemed that the goal had been reached—that the old man could now enjoy life, surrounded as he was by every comfort and attention. But he was quiet and sad, sitting with head bowed on his toil worn hands.

A neighbor, stopping in for a little visit, asked, "How are you getting along, grandpa?" Then the secret of all his sadness burst forth as he answered earnestly, "Oh, if I could only 'get out and work'!"

"What queer things our dreams are after all!"

PRETTY ROUGH SPORT.

The Game of "the Bounding Brothers of the Bosphorus."

Many extraordinary forms of amusement have been devised by army officers from the earliest times down to the present day, but none perhaps have more startling characteristics than the following new and original game, which Sir Robert Baden-Powell describes in "Memories of India."

It was introduced into the mess by a brother of our colonel, who came to stay with him. We believed him to be a quiet, harmless planter from Behar, and so he seemed throughout the evening, both during and after dinner, when he remained watching us playing the fool in various ways for our own amusement. But evidently our ways did not strike him as original, and he therefore invited us to play the great game of the bounding brothers of the Bosphorus, and when he had once shown us we joined most heartily in the sport.

The game had few rules, but a certain amount of etiquette. The apparatus consisted of all the furniture, which was piled in a heap near the center of the room, and a writing table, which was placed a couple of yards from it. You were expected then to clap your hands three times—that was the etiquette of the game—then run at the table and turn heels over head on it into the pile of furniture, shouting as you did so, "I am a bounding brother of the Bosphorus!" That was all. It was quite simple, but how it hurt when you landed on the upturned legs of a chair or the side of a table!

Ada Rehan's Bandman.

Miss Ada Rehan used to say that the finest appreciation of her acting she ever observed came from a bandman in the orchestra of a Birmingham theater. When she played the angry Katharine she had one piece of superb fury—a swift march to the back of the stage, a right about turn and then a straight march down the stage, pulling up short and sharp at the footlights. One night she saw a bandman sitting directly in her line of advance shrink back in his chair at the moment of the full stop at the footlights.

"Sure, he thought, I wasn't going to stop on the stage," Miss Rehan said. "I wonder if he is married to a Katharine."

The next day she sent him a box of cigars.—Manchester Guardian.

Home Ties.

A sedate banker of Hamilton, Canada, was sitting in his office one morning when his ten-year-old hopeful drifted in, bearing with him an expression of unutterable gloom. "Anything gone wrong, boy?" interrogated the financier. "Why, at your age you ought to be cheerful all the time."

"I know it, Frank; I know it," responded the youngster. "I'm doing the best I can; but, honest, I had a terrible time up at the house with your wife this morning."

The Parental Bulwark.

"I'm going to be a burglar when I grow up."

"Why, Johnny, that's very wicked, and, besides, burglars are sent to prison."

"Not me. My father's a lawyer."

Diplomat Defined.

"What is a diplomat?"

"A diplomat is a man who can steal your hat and coat and explain it so nicely that you give him your watch and chain."—London Telegraph.

Pretty Weak Finish.

Our Platform—One home and one country, one purse and one wife, one faith and one husband, and one hat all her life.

We know other Machines! Autos Engines, etc

Why not our own Body Machine?

We study and admire the machinery invented by man, and too often overlook and neglect that most marvellous machine—the human body.

To understand and take care of the heart, lungs and liver; the arteries and veins, the skin, the teeth, the eyes and all the intricate machinery of the body, is no small task.

But, unlike any other machine, the body replaces its own wear and waste, and, consequently, the most attention required is that which has to do with the organs of digestion and excretion.

So long as proper food is supplied for nourishment and the liver, kidneys and bowels are regular in their work of eliminating poisonous waste matter from the system, the great majority of human ills are avoided.

In this connection Dr. Chase's Kidney-Liver Pills are appreciated on account of their promptness and efficiency in arousing the action of these filtering and excretory organs, and thereby removing such disorders as liver complaint, biliousness, constipation, indigestion, kidney disease and backache. With these organs in healthful action there is no such thing as Bright's disease, hardening of the arteries and rheumatism.

Do not be talked into accepting a substitute. Imitations disappoint.

Dr. A. W. Chase's Kidney-Liver Pills

Back Ache

Gin Pills banish backache, no matter how severe. The effect, understand, is not to numb the pain, but Gin Pills go right to the source of the trouble, the kidneys, restoring the natural functions of these organs, and with the blood purified, and inflammation allayed, the pains disappear permanently.

Gin Pills FOR THE KIDNEYS

Other indications that the kidneys are not purifying the blood stream properly are frequent headaches, deposits in the urine, touches of rheumatism—no name but a few symptoms—and every case calls for Gin Pills.

Children Like It

It is not an easy matter to get a medicine that children like, or to force them to take one they don't like. Most mothers know that a cough medicine, while palatable, should contain no drug injurious to the child. The great popularity of Chamberlain's Cough Remedy is explained by the fact that it contains no opium or narcotic of any kind, and at the same time is so pleasant and agreeable to the taste that children like it. For this reason it is a favorite with the mothers of young children. Yours for health,

AROOSTOOK CO. NEWS

(From The Review)

Frank W. Burns has sold his farm of 230 acres on the boundary line road, adjoining the New Brunswick line, to William W. Boyer, keeper of the Boundary Line House, for \$25,000. This is one of the finest farms in Aroostook county, and is under a very high state of cultivation, the amount of manure that Mr. Burns has hauled to it from his livery stable in years past being very great and such as will tell in crops in many years to come. Mr. Burns is not required to vacate the premises until between March 15 and April 1.

Last spring a Caribou farmer bargained with a man to give him 400 barrels of merchantable potatoes this fall for a second-hand Ford automobile. He little thought then that he was giving the man between \$1,600 and \$1,700 for this little second-hand car. Another Caribou farmer agreed to give 600 barrels of potatoes in exchange for a second-hand Overland car, thus giving \$2,500 this fall for a machine that wasn't worth quite that much.

A very pleasant social was held recently at the nice farm home of Mr. and Mrs. Percy A. Bishop, above Stevensville, some 40 of their friends attending. The party was in honour of their guest Miss Augusta Campbell of Bath, who is teaching school in the Flannery district. The school there was resumed on Monday. It had been stopped for a month on account of diphtheria nearby.

Miss Alberta Knox, a junior in the Houlton High School, while driving down Fort street, Houlton, Saturday afternoon, collided with an automobile owned by Mr. Tidd of Hodgdon. The horse was frightened and ran, dragging Miss Knox a considerable distance, as she hung onto the reins. She was unconscious, but not so very severely injured.

More potash in fertilizer for potatoes will be used next year than last, it is said, as it is a prevailing opinion that, although many pieces of potatoes did excellently well this year without potash, a little in the long run will be of great benefit.

James Carr, who formerly lived in Hartland, met an auto accident the other day and narrowly escaped death.

Mrs. Frank T. Kimball went to Boston October 28 to visit with friends and relatives. She is expected home in about two weeks now.

Bedford A. W. Boyd has been visiting friends in Peel.

Girls! Try It! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

Capt. Shaw Got 17 Pieces of Shrapnel

Capt. W. B. Shaw writes his mother from a military hospital as follows:

Here I am after some weeks, during which I have done no letter writing. In the first place we left our "gunners' rest" position—a peaceful, quiet spot—and after several days journey arrived at the scene of the big push which is some place and there are no words to describe it.

However, I am out of it for some time to come, as my right leg got well knocked up with shrapnel and I could not have come closer to death and missed it, for which I am properly thankful. I was only two or three days actually in action there and got mine near Martinpunh while in a sort of very weak shelter reading my daily orders. I got more than 14 pieces of shrapnel, but the only serious wounds were my foot and leg, getting about six bullets and several small pieces, one bullet breaking the metatarsal bones; two grazes just took slight skin off of back; one deep graze (already healed) on side; three others on back, and one on cheek and one under the ear.

All are healed up above the knee, so you see they were slight. I was carried 1½ miles on a stretcher before reaching an ambulance.

This is a lovely hospital. I was in Rouen hospital for a few days. They operated and took out four bullets. There are some small pieces to come out yet. I am out of the game for 6 or 8 months. This is a purely Canadian hospital and very up-to-date. Tell Scott I have his blankets, which have performed their duty and are now gory with my best blood. I was wounded Oct. 1st.

Will "FORDS" be Higher? ---and Scarce?

Raw materials have advanced and are still advancing.
Many manufacturers of cars have already advanced prices.
The Ford car is manufactured on a smaller profit per car and should be first to advance.
Because Ford Motor Co. of Canada reduced price on August first last they were unable to clear a dividend this year.
An increase in war tax or any further advance in raw materials will likely mean higher prices on Fords.
Notwithstanding the large number of extra cars I secured in 1916 owing to Matatua accident, I did not have enough, and some parties waited 4 to 6 weeks for a car. Some of the cars I ordered in July for August shipment have not left the factory yet.
Next year there will not be any extra cars from Matatua, and my total receipts will be less than for 1916, while you and your neighbors will demand three or four times as many efficient, economical Fords.
See Me now. Contract before an advance. Then you will be sure of your car in spring, while others wait for their and perhaps pay more.
