

FROM PAPERS BY THE ACADIA

The Improvements in the Queen's Park.—Although the formation of a carriage-drive from the Watering Stone by Holyrood, the foot of Arthur Seat, the Echoing Rock, Samson's Rib, Duddingston, and across the eastern edge of Arthur's Seat to Parson's Green, was commenced about a year and a half ago, the progress, in consequence, we believe, of the want of funds, has been less rapid than was desirable. A good deal, however, has recently been accomplished. An excellent roadway and footpath have been formed between the Watering Stone and the stile at the north end of the walk round Salisbury Crags, and that portion between the foot of Arthur Seat and the road leading to the Powder Magazine is now nearly completed. One intermediate marsh-between these two portions not having been yet drained, the junction of the two parts, now almost finished, cannot be effected till the operations connected with the drainage are completed. We understand the drains will be commenced in the course of the ensuing month, and that this important link in the communication will be completed with as little delay as possible. The portion finished under Salisbury Crags is now exquisitely beautiful, and daily attracts crowds of persons who take an interest in the work. The wall running up the valley has been removed, the debris from the hill and other incumbrances and nuisances cleared away, and the surface smoothed and sown with grass, already forming a rich and verdant carpet.—*Scottish Record.*

Examination of the Industrious Blind.—The annual examination of the pupils of the Asylum for the Blind was held on Thursday in the Music Hall. At two o'clock the Lord Provost took the chair, and beside him were a number of our most respectable citizens—patrons of the Institution. The body of the Hall was well filled by a numerous and fashionable audience. The Rev. Dr. Arnot, having opened with prayer, the Chairman congratulated the meeting on the great progress which the system of education for the physically blind had made of late, and which had resulted in supplying to such an extent the means of moral and intellectual improvement, and in making up in a great degree for the absence of the many pleasurable sensations which men derived from beholding external objects. The pupils having been properly placed, the examination commenced with the performance of a piece of sacred music, after which Mr. Noble, the teacher, examined them in Bible doctrine and history, the Shorter Catechism, &c. The answers given were uniformly ready and correct, and, indeed, this may be said with equal truth of their answers in grammar, etymology, geography, and the other branches of general education. The appearance of the pupils throughout made a suitable impression on the audience. The musical exercises were not the least attractive part of the examination. The manner in which they sang the anthem—"Soul the loud timbrel," was at once tasteful and impressive, and showed how much they had profited by their instruction in this innocent and desirable branch of education. Having gone through the whole of the exercises in the programme, including some performances of instrumental music, the Lord Provost addressed the meeting in support of the claims of the Institution to public support. Various manufactured articles, the work of the blind, were exhibited in the rooms and in the passage, several of which, we believe, found purchasers. The Queen's Anthem having been performed, by the instrumental band, the examination closed.—*Ibid.*

Testimonial.—A superb and richly mounted ink-stand, with an engraved inscription, was presented on Tuesday last to the Rev. John Lee, D.D., Principal of the College of Edinburgh, by a few of the members of the Edinburgh Church, for his most valuable services while occupying their pulpit, and also as an expression of their high estimation of him as an evangelical preacher, communicating truth in the plainest, most familiar, and most interesting style, and so well calculated to edify and instruct his auditors in the vital principles of our holy religion.

LONDON AND BRUSSELS.—Extraordinary Despatch.—The Belgian Government has been for some time engaged in a negotiation with the English Government for the purpose of establishing a daily post between Ostend and Dover. On Tuesday week an experimental voyage was made, which was completely successful, the steam-boat accomplishing the passage between Dover and Ostend in four hours and a half. The Directors of the Dover Railway, M. Borcel, chief of the public works, and M. Dronet, Secretary of the Belgian Legation in England, left London by the Dover Railway at twenty minutes past six o'clock on Tuesday morning. The train arrived at Dover at fifty minutes past eight, after stopping at Folkestone twelve minutes; the steamboat was in readiness and left Dover at twenty minutes past nine o'clock, and arrived at Ostend at fifty minutes past one o'clock. The passage from London to Ostend was thus completed in seven hours and a half, including the embarkation and all stoppages, which at least occupied forty minutes.—*L'Ocean des Flandres.*

MOVEABLE CHAPEL.—The Wesleyan Methodists of the Bingham circuit have erected a truly original and elegant moveable wooden chapel upon wheels, made by Mr. Clifton, builder, Bingham, at a cost of about £260, and capable of seating nearly one hundred and twenty persons. This chapel is for the accommodation of a group of small villages or

hamlets in their circuit, where no site can be obtained, the land being the property of a nobleman or other large land proprietors. It was opened for Divine worship on Monday last. Mr. William Harvey, in Beedleston parish of Dyce, in the county of Aberdeen, has with singular liberality and benevolence, made arrangements for handing over in his own life-time, no less a sum than £6500 for charitable purposes. The objects he has in view are the support and education of poor deaf and dumb persons, and the protection and reformation of females of dissolute habits, and who may be considered proper objects for admission into a penitentiary. The trustees are the Provost and Bailies of Aberdeen, the Professor of Divinity in Marischal College, and the parochial Clergymen of the city of Aberdeen.

The New York Albion, says.—"We seriously call the earnest attention of every Colonist to the following sentiments, uttered and given forth by Mr. John Nelson, of the Quebec Gazette. They define Responsible Government truly, as it is, or ought to be. Any other definition, or the practice of any different system, will, sooner or later, as surely cause the overthrow of the British authority, as that the sun shines in the firmament of heaven."

CANADA—RESPONSIBLE GOVERNMENT, AS IT IS, OR OUGHT TO BE.

People are tired of hearing talk of "Responsible Government," meaning anything or nothing, just as it seems good to those who use the words. We detest the meaning attached to it, by some, which goes to give us a Government of a few individuals in the Colony, separate from the Government of the Sovereign of this British Empire entrusted by law with the executive authority through all its vast extent; a sort of fraudulent independence, not centered in the people of the Colony, but in the usurpers of the Queen's name and authority, supporting their influence with the people's money, placed beyond their control, and, according to circumstances, by oppression, bribery, corruption, and deception.

Our allegiance forbids us to countenance the one, and our interest and feelings compel us to oppose the other. It would be an error, however, to suppose that we are opposed to Responsible Government. We wish the delegate of the Imperial authority among us, the person entrusted with the powers and prerogatives of the Crown, to continue responsible, as he legally is, to the Crown which appoints and may recall him in disgrace, certainly a heavy punishment to a person of rank and character; we wish him to be responsible, as he legally is, to the Imperial Parliament, who may impeach him; to the Courts of Law at Westminster, where he may be put on his trial criminally, or by action of damages, for any illegal act, committed by him, within his Government, to the prejudice of any one of her Majesty's subjects.

We wish the Members of the Legislative Council to be, as they legally are, responsible to their Peers for any act, in their public capacity, bringing discredit on the body, or dishonourable to the individual. We should wish also to see all of them responsible by their property in the country, which cannot fail to be injuriously affected by any act prejudicial to the peace, welfare, and good Government of the Province, for the promotion of which alone, they are called to their high station.

We wish the Members of the House of Assembly to be responsible to their constituents, as they legally are, at the hustings, and we are desirous of seeing the representation apportioned, with the privilege of voting away the money of their constituents, so that their responsibility may be to the whole country, and not only to a part; and we should wish also to see the Ministers fully responsible in character and property for their earnest exertions to promote the peace, welfare, and good Government of the Province.

These three bodies constitute the Government in the most extended sense of the word.

As to the public officers; those called by the representative of the Crown to his Council, and those called to obey his directions for the execution of the laws, whether administrative or judiciary officers, we should be sorry to see them fancy that they are masters; they are legally the servants of the Crown, or the servants of the law, bound faithfully to obey the directions of the one, or administer the other, according to the Sovereign's oath, and their own. We wish them also to be responsible; responsible to the representative of the Royal authority, responsible to the law, and responsible to parliamentary impeachment, for high crimes and misdemeanors, out of the reach of the ordinary administration of justice.

Such are our notions of British Constitutional responsibility, and so long as the Sovereign authority has not absolved us from our allegiance, we never will acknowledge any other Responsible Government.

New Presbyterian Church in Toronto.—The adherents in this city, to the minority who seceded from the Synod of the Presbyterian Church, at the meeting lately held in Kingston, have been actively employed in forming a new congregation, and in making arrangements for the building of a church, and providing a fund for the support of a minister.

On Sunday last, the Rev. W. Rintoul (the only seceding minister from the Presbytery of Toronto,) preached to the new congregation twice, in the afternoon in the Independent Church, (the Rev. J. Roaf's,) and the evening in St. Andrew's Church. The newly-formed congregation held a

meeting on the evening of Tuesday last, the 23d instant, in the United Secession Church (the Rev. J. Jennings,) and a considerable amount was subscribed for the building of a Church and the support of a minister. A call was unanimously agreed to, the Rev. Dr. Burns of Paisley; and at the suggestion of Mr. Isaac Buchanan, it was unanimously resolved that the edifice about to be erected, be named "Knob's Church."

The Crops.—We regret to learn that there is likely to be a considerable failure of wheat crops this season.—We have been informed that in the vicinity of Truro, whole fields have been rendered entirely useless, from the ravages of the weevil, and in the neighbourhood of Pictou, several fields which a short time ago presented a beautiful appearance, are likely to be of little value, from rust.—*Pictou Chronicle.*

Present State of Liberal Education among the Presbyterians.

Is it not a lamentable fact, that after all that has been said and done in our Legislative Hall, and elsewhere on the subject of education, that there is no place in this, and scarcely any in the neighbouring Provinces, where Presbyterians can give their children such a liberal education as they can place confidence in? Are they not now obliged to send their children to foreign lands to obtain that training, which will fit them to fill the highest offices in society? Is it not a fact that while our rulers, in all their political movements, are more or less influenced by other sects inferior in numbers and wealth, they scarcely feel it necessary to enquire, what may be the mind of Presbyterians on the matter—that while the support of other bodies is deemed an object of importance by political aspirants, and their favour eagerly sought, the voice of Presbyterians is seldom heard? Why should this be the cause? The Presbyterians of Nova Scotia are as numerous as the largest sect in the Province, and we believe them to be the most numerous.—By the census of 1858, there were nearly 40,000 exclusive of Cape Breton, and we venture to assert that they yield to the members of no other body, either in wealth or public spirit; and yet it is lamentable that a Presbyterian influence in our Legislature, or in the secular politics of the country, is almost without an existence. We hear loud talk among public men of the Baptist influence, the Catholic influence, the influence of the Church of England, &c., and why should Presbyterians not make their influence felt in the same manner. Their numbers, their wealth, their virtue, their public spirit, their stake in the community, give them claims which, were they to make a proper exertion, for their rights could not be overlooked.—*Pictou Eastern Chron.*

NICKED HIM.—An American Fishing vessel was brought into the harbour of Sydney, C. B., last Wednesday week, by Mr. Phillip Dunn, seizing officer on board the Revenue Cutter Sylph—for an alleged breach of the Treaty.—*Post.*

Remedy for the Rats.—Having seen many horses die with bots, and many remedies given without effect, I was induced by a merchant in Cambridge, to try the following for a horse of my own, after I had tried most of the remedies in common use without the effect, and had given him up for lost.—Half-pint vinegar, half-pint soft soap, half-pint gin, and half pint of molasses, well shaken together, and poured down while foaming. To my great surprise the horse was in five minutes wholly free from pain, and ate freely. The next morning I was on my journey. I have since recommended and given the same in perhaps fifty cases with the same good effect; not in one instance has it failed to effect a perfect cure.

Cultivation of Onions by the Tartars.—Instead of raising them from seed, in which they do not succeed, or which appears to be a long process, they dry and smoke in a chimney those which they wish to propagate, and in the spring when the time to plant them is arrived, they cut them diagonally into quarters, but so as not to separate the pieces entirely one from another. They set these onions in rows, when thus prepared, in good soil, well dug, but not freshly manured, at about ten inches from each other, and two inches deep. These onions increase extraordinarily, and grow large and strong.

Garlic a preventative against Rats and Mice in Grain.—A farmer in this neighbourhood has, for some time past, put garlic in the bottom of his grain stacks, and since he has adopted that plan, has never been troubled with vermin. Before adopting this plan, on taking down a stack of grain the assistants never killed less than from fifteen to twenty rats, and above a hundred mice. This is a very simple, cheap and effectual method of preserving grain in stacks.

Worms on Cabbage.—There pests of the garden may be destroyed by taking off one of the large lower leaves of the cabbage, about sundown, and laying it on the top of the plant backside down. Take it off early in the morning, and the whole or a large part of the worms of that cabbage will be on it, and may be destroyed at pleasure.

To save Oats in feeding Horses.—Bruise or crush your oats in a mill, or otherwise, as convenient, and your horse will become fatter on half his usual allowance than on double the quantity unprepared. If you cannot bruise the oats, pour hot water on them and let them soak for a few hours.

We learn from the *Banner* that the Free Church Congregation recently organized in Toronto, have sent a call to Dr. Burns, of Paisley, offering him a salary of £4000 Cy per annum and £100 to defray his expenses in coming to Canada. The sum of £950 has already been subscribed towards building a Church in Toronto. The zeal and

experience of Dr. Burns would be of much service to the Presbyterian Church in Canada.—*Montreal Herald.*

THE WEATHER AND THE CROPS.—The summer on the river St. John has been—with the exception of the last fortnight—uncommonly wet. The oat crop in many places is beat down and destroyed by the heavy rains, while much of the early hay crop is damaged. The late crops of hay will be good. Potatoes in the country look well, but in the vicinity of Fredericton they have been much injured by the grub. But the most serious drawback on the crops this season will be the destruction of the wheat crop by the fly, which is very prevalent. We noticed some fields of wheat on the Nashwaak, which looked beautiful at a distance, but on a close examination we found that almost every ear was subjected to the ravages of the weevil. The Woodstock Telegraph says the destruction by these flies is not always so great as is anticipated, and recommends farmers to let their wheat ripen; perhaps it would be well to do so.—*Loyalist.*

We are requested to state that the Rev. Dr. Bunting has been chosen President of the Wesleyan Conference, England.—*Id.*

TOTAL ABSTINENCE SOCIETY.—A Meeting of the St. Andrews' Total Abstinence Society, will take place on Monday evening next, at 7 o'clock at the Town Hall.

THE STANDARD.

ST. ANDREWS, WEDNESDAY, AUG. 28, 1844.

TO CORRESPONDENTS.
"Non Official" is received—we cannot see that any good could be attained by the publication of his letter—he can obtain the desired information from the Deputy Treasurer, who it is well known is always ready and willing to give any information which lies in his power. Where then the necessity for bringing these matters before the public in the shape of queries? Should he find that the public money is squandered let him put his letter in a proper shape, and we will give it a place in our columns.

PLEASURE TRIPS seem to be "all the go," on the St. John river.—Large parties leave Fredericton and St. John, and visit each place, stop one night and return the next day, all done at a trifling expense. Why cannot our inhabitants get up a pleasure trip to St. John, and put the fare at a low rate. Many persons no doubt who never think of visiting St. John, would do so if such a trip was got up. The Steamer Frank is ready whenever a party is made up.

RAIN.—For the last week the weather has been wet and foggy, and fears are entertained for the grain crops being rusted. Potatoes promise an abundant crop, and although the grass was very "slim," new hay of the best quality has been sold, from \$6 to \$7 per ton.

Notwithstanding the "dull times," there are more houses building here this summer, than has been built for many years past—a number of the old ones are being repaired, and painted, which makes a decided improvement in the appearance of the place.

CASE OF CARR AND GALLOWAY.—The Court of Special Commission at Halifax, was opened on Thursday last, the 22d inst. Chief Justice Halliburton addressed the Grand Jury, explaining to them that they were called together, to consider whether they were sufficient grounds for an indictment which had been prepared against Carr and Galloway for Piracy. The jury after an hours absence found "a true bill." Monday last was fixed on for the trial of the prisoners.

The Massachusetts Mechanic Fair will commence in the city of Boston on Monday Sept. 16 at Faneuil and Quincy Halls.

The Eccaleobion or life producing machine which is now in Boston, is all the rage, hundreds of the city and country dames are visiting the "Chicken Factory"—to see the little chicks—rolled out by the dozen.

A large lot of Counterfeit money, plates, &c. on several banks in the United States

were taken in Cincinnati on Saturday last, and a noted Counterfeiter taken into custody.

ORANG OUTANG.—The Boston papers mention that a female Orang Outang is now exhibiting at the Boston Museum. The *Daily Mail* says:—

It requires but a trifling stretch of imagination to suppose her human when she is seen dressing in her Mous de Laine and Lace, sitting upright in a chair, threading her needle, and sewing with all the skill and grace of an accomplished sempstress.

FIRES & INCENDIARIES.—Almost every paper we receive from the United States is filled with accounts of fires, and what is worse these fires are the work of incendiaries. The last we read of, were two in Philadelphia, on Friday night last, by which several families have been left homeless, and the owners of the houses penniless.

Another at Mason, Georgia, by which 20 houses were destroyed, comprising some of the finest buildings in the commercial portion of the city. And yet another, in Grandville, N. Y., among the Lumber Mills, and a number of dwelling houses.—In each of the above, large amounts of property were destroyed.

Good Government.—Poverty is after all, the great badge, the never-fading badge of slavery. Bare bones and rags, are the true marks of the real slave. What is the object of government? To cause men to live happily, they cannot be without a sufficiency of food and raiment. Good government means a state of things in which the main body are well fed and well clothed. It is the chief business of a government to take that one part of the people do not cause the other part to lead miserable lives. There can be no morality, no virtue, no sincerity, no honesty, amongst a people continually suffering from want; and it is cruel to the last degree to punish such people for almost any sort of crime which is, in fact, no crime of the heart—no crime of the perpetrator, but the crime of his all controlling necessities.

MARRIED.

In this place, on the 3d inst., by the Rev. R. Douglas, Mr. John R. Stanchfield, to Miss Maria L. Foster, both of the State of Maine.
On the 22d inst. by the Rev. R. Douglas, Mr. James Beckerton, to Emily, second daughter of Mr. Thomas Johnson, both of this parish.
On Sunday last, by the Rev. John Casals, A. M., Mr. Win. Harkeless to Miss Mary McDonald, both of this Parish.
On the 16th July, at St. Faith's, Walting Street, (London,) Arthur, son of the late Rev. Stephen Woodgate, M. A. Vicar of Pembury, Kent, and Nephew of the Rev. Sir Charles Hardinge, and the Right Hon. Sir Henry Hardinge, and Deputy Post Master General, of Nova Scotia, to Grace Maria, fourth daughter of Hugh Kennedy, Esq., of Cultra, County Down, Ireland.

DIED.

At Montreal, on the 21st July, the Rev. J. E. Morriset, aged 68, Curate of St. John District of Montreal, and one of the Grand Vicars of the Diocese. He was formerly Missionary at St. John, New Brunswick.

Given under my hand at St. Andrews the 10th day of April, 1844. H. HATCH.

Commissioner of the Estate and Effects of Bankrupts for the County of Charlotte.

COUNTY OF CHARLOTTE.

In the matter of John Parkinson, a Bankrupt.

PUBLIC NOTICE is hereby given that upon the application of the said John Parkinson, this day made to me, I do appoint a Public Sitting to be held on Monday the 12th day of August next, at Eleven of the Clock in the forenoon at my office in Saint Andrews, for the allowance of a Certificate of conformity to the said John Parkinson, pursuant to the provisions of the Acts of the General Assembly in this Province in force respecting Bankrupts when and where any of the Creditors of the said Bankrupt may be heard against the allowance of such Certificate, and the same will be allowed unless cause be then and there shown to the contrary, or such other order will be made as the justice of the case may require.

Given under my hand at St. Andrews, the 11th day of June, A. D. 1844. H. HATCH.

Commissioner of the Estate and Effects of Bankrupts for the County of Charlotte.

CHARLOTTE COUNTY.

IN THE PROVINCE OF NEW-BRUNSWICK, IN BRITISH NORTH AMERICA, SS.

In the matter of John Parkinson, a Bankrupt.

WHEREAS, under the Provisions of the Act of the General Assembly of this Province of New-Brunswick, made and in force relating to Bankruptcy in this Province, John Parkinson, of St. Andrews, in the County of Charlotte, Merchant, hath been declared a Bankrupt, and hath accordingly surrendered himself to me:—Now, therefore, I do hereby give Public Notice, that by virtue of the power and authority in me given in and by the said Act, I have appointed Harris Henderson Hatch of St. Andrews, in the County of Charlotte, Esquire, Provisional Assignee of the Estate and Effects of the said Bankrupt, and I do hereby require all persons indebted to the said Bankrupt to pay to the said Assignee, on or before the 25th day of May next, all such sum or sums of money, debts or duties as they may owe to the said Bankrupt, and all persons who have in their possession, power or custody any property or effects of the said Bankrupt, to deliver the same up to the said Assignee on or before the 25th day of May next. And I do further require all the Creditors of the said Bankrupt, to deliver to me, or to the said Assignee, within three months from the day of the date thereof, to deliver in to the said Assignee, and to prove to my satisfaction their respective claims and demands, whether the same be actually due and become due against the said Bankrupt.

And I do hereby appoint a General Meeting of the Creditors of the above named Bankrupt, to be held at my office, in Saint Andrews, on Friday the twenty-sixth day of July next, at ten of the clock in the forenoon of that day, at my office for the purpose of receiving proof of claims, allowing or contesting any claim presented against the said Estate, at which Meeting or at any adjournment thereof the said Bankrupt will be examined on Oath touching his said Estate, and such other business relating to the said Estate, and be transacted as may be deemed necessary.

Given under my hand at Saint Andrews the 2nd day of April 1844. HARRIS HATCH.

Commissioner of the Estate and Effects of Bankrupts for the County of Charlotte.

NOTICE.

James G. Bolles, Sec'y.

The Subscriber having been appointed Agent for St. Andrews for the above mentioned Company is now prepared to take risks on every description of Property against loss or damage by Fire.
THOMAS SIME.
St. Andrews, Jan. 5, 1844.

WONDERFUL RECOVERY OF HAIR
After 18, 25, and 36 years loss.
A few attestations, (selected from numberless others, received during the last 40 years) to the virtues of ROWLAND'S MACASSAR OIL: the originals of which may be seen at the Proprietors.
TO MESSRS. ROWLAND AND SON, 20, HATTON GARDEN, LONDON.
HERRING'S COURT, COVENT GARDEN, February 6, 1842.

GENTLEMEN—In announcing to you that following contribution to the efficacy of your Macassar Oil, of which I have used a very small quantity, I shall consider myself but rendering in a very small degree the great obligation I feel I am under to you, and shall be most happy during my stay in London to satisfy any Gentlemen who may find interest in the truth of the following—In the year 1776 I went to India, and shortly after my arrival there my hair fell off in considerable quantities, so that I soon became entirely bald. In which state I remained until my arrival last year in America, and at London were induced by reading one of your Advertisements to make trial of your Macassar Oil, though I confess with but little hope of success. After the use of one bottle, my hair began to grow, and after the use of a second, continuing the use of the Oil, much to my gratification, I have now the pleasure to inform you, without exaggeration or vanity, that I can boast of as fine a head of hair as any one need be.

I am, Gentlemen, Your grateful Servant,
A. MACKENZIE
GENTLEMEN—I take the liberty of addressing my thanks to you for the gratification I have received from your hair-oil, Macassar Oil. Having had the misfortune to lose my hair at the age of five and twenty, in consequence of a fever, I was lately induced, at the instance of a friend, to make trial of your oil. I am now fifty years of age, and could scarcely have expected, that after having worn a wig for five and twenty years of my life, I should now be enabled to throw it entirely aside. I think it but justice to you and the public, to add my testimony to the virtues of your truly inimitable Oil, and you have my full permission to make this letter public, and to refer any one to me for proof of the merits of this invaluable discovery.
I am, Gentlemen, Your obliged and obedient Servant,
W. C. FRIDELAND
Lancashire, March 21, 1842.

Extract of a Letter directed to Mr. Oldroyd, Merchant of London, dated May 16, 1842.
I must turn your attention to the following—Captain Keats of the 4th Regiment of the Emperor of Austria, aged 44 years, used to be bald from the age of 12. He was recommended to try "Rowland's Macassar Oil," by a Gentleman who had already experienced its good effects. I received from England, and promptly applied it. In less than two months his hair began to grow on the bald parts, and is now very thick. The Captain is highly pleased and has spread it as a fame to his friends, and demands for that article is very great, and must lead you to send me a fresh supply without loss of time.

GENTLEMEN—Having derived essential benefit from the use of your Macassar Oil, I am induced to send you the particulars, which you are at liberty to make known as you may think proper. Rather more than twelve months since I made trial of the Oil, though I confess with not much faith. I had been bald eighteen years. It is now three months ago, and my hair is as thick and as good as when I first began to use it. I have been bald for five months, and my hair has grown on the bald part full half an inch long. I then had the whole of my head regularly shaved once a week for a considerable period, consistently using the Oil, night and morning; the result is, that I have this day discarded my wig, my hair being quite restored and as strong and great in quantity as when I was twenty years of age.

I am, Gentlemen, Your obedient servant,
C. P. DUFFIELD
32, Broad Street, Brighton, April 19, 1842.
ROWLAND'S MACASSAR OIL.
Is universally acknowledged to be the only article that will effectually produce and restore Hair, (including WHISKERS, MUSTACHES, and EYEBROWS) prevent it from falling off or turning grey free from scurf and dandruff, and render it delightfully soft, silky, early, and glossy.
CAUTION—Numerous pernicious compounds are sold as "MACASSAR OIL." To ensure the real article, see that the bottle is enclosed in a wrapper, (a steel engraving of exquisite workmanship) on which is engraved "ROWLAND'S MACASSAR OIL" in two lines.
To further ensure the genuine article, see that the words "Rowland's Macassar Oil" are engraved on the back of the envelope nearly 100 times, containing 20,025 letters—without this note are GENUINE.
Price 3s. 6d. 7s. Family Bottles, (equal to four small) 10s. 6d. and double that size, 12s. per bottle.
Sold by every Perfumer and Chemist throughout the civilized world.
