A LONDON LADY'S IMPRESSIONS OF THE CORONATION SPECTACLE

Vivid Pen-Picture of the
Splendid Pageant.
SCENES, SIGHTS
THAT THRILLED
How Vast Crowd Was Handled
—Solemn Services Held
in Queen's Hall.

[By a Special Correspondent to the Advertiser.]
London, June 24. — The great day is over, the event which the whole British Empire has been looking forward to for weeks and months has been consummated; our King has been crowned and consecrated; he has been presented to his people, and received by them with glad acclaim; a new era in the history of the empire, of our sisterhood of nations, yes, and in the history of the world, has auspiciously opened, and we pause for a moment to review our impressions, and ask "What does it all mean?"
I know that The Advertiser has already received eloquent telegraphic and pictorial descriptions of the great ceremony, and all its attendant pageantry, but perhaps your readers would be interested in something more personal, so I am venturing to tell you some of the impressions made on a simple, unsophisticated citizen of London, the less, by witnessing and taking part in this great national and imperial occurrence in the heart of the empire, and the greatest city in the world.
The Two Processions.
First, then, as to the processions themselves, for, as you know, the coronation procession, between Buckingham Palace and Westminster Abbey was entirely distinct from the royal progress through the city on the 23rd, though the same terms may well be applied to both.
An excellent view of them was secured to Canadian visitors from the stand erected especially for them, and told, by the kindly forethought of Lord Strathcona. In stately magnificence, in dignified pomp, a world-empire, in beauty and variety of coloring, in flash of burnished helmets and glittering armor, in perfect discipline of the finest troops of horse and men, in the augustness of the personalities taking part, and the nations represented, they surpassed anything that our imaginations could picture. They formed a most powerful appeal to the beauty-loving eye and the human desire for pomp and pageantry.
Canadian Hearts Beat High.
But that was the least part of them. Every single unit in these great processions appealed alike to the hearts of the spectators. The escort of the West Mounted Police, the escort of colonial cavalry, and other representatives of our country, led by Sir William Laurier, were especially recognized and heartily cheered, did not our Canadian hearts beat high (and there were thousands of them on that platform) as we realized that this was our procession, that in them we were doing honor to our sovereign, and taking our place in the mighty empire?
When the Australian troops came, or the South African, our interest was scarcely less. We clasped hands with them in spirit, for are they not our brothers, were not their blood spilled in the same cause, and are they not heirs of the same grand heritage? When the soldiers from India, with their brown faces and gay turbans passed we gazed on them not merely with curiosity, but with an interest born of diversity of creed and custom united in a common bond of loyalty to the sovereign, yet intent like us, in working out their own national destiny as part of the British Empire. And who can say we had no interest in Robert and Kitchener and in the splendidly disciplined troops of the mother land?
Princes and Potentates.
We looked at the carriage containing the members of the royal family of Europe and the representatives of foreign nations, from Ethiopia and Egypt, from China and Japan, from Persia and Siam, as they came to do honor to our king. How much greater, then, was our personal interest when we greeted the members of the royal family—the children and grandchildren of our beloved Queen Victoria, the Duke of Connaught, our Governor-General elect, the Princess Louise of Canada, too, the youthful Prince of Wales who bears his new dignity with such earnest yet graceful humility, and his royal sister and brothers—we felt that they belonged to us and we were proud of them all. Lastly came the state coach bearing their majesties the King on whom our hopes are set, the King who was anxious to know us while he was yet a long way from the kingdom, and his gracious consort to whom we look for an example to our womanhood of all that is lovely and of good report. The cheers that greeted them sounded forth no mere lip-loyalty; they thought that was in every heart was "God save our gracious King, long live our noble King." Nor do I think this feeling burned only in Canadian hearts. Our Australian friends had by, were just as enthusiastic, and the vast throngs that lined the roadway, ten or a dozen deep, many of whom had stood from midnight to secure a good view, were undoubtedly animated by the same spirit. They were not there as sight-seers merely, it was not a pageant no matter how gorgeous that attracted them, it was the making of history, the history of the land they loved, and in the making each had his part to

MR. ASQUITH HAS THE GUARANTEES

No General Election on Subject
of House of Lords.
UNIONISTS EXPECT IT

Members of Cabinet Tell Their Supporters To Be Patient and Confident.
[Canadian Press.]
London, July 3.—The uncertainty regarding the Government's intentions on the subject of the veto bill has given rise to sharp doubts among the Government's supporters. Many Liberal members of the House of Commons have made private representations to the ministers with reference to the widespread rumors of a probable general election, and have protested energetically against such action. While the members of the cabinet have not yet given definite intimation as to what line of action they will follow, they are asking their supporters to wait patiently and confidently through the progress of events.
John Hugh Edwards, member for Glamorgan, during the course of a speech at Barry, declared he had received authoritative information that a general election would not be held. He assured his hearers that Premier Asquith possessed sufficient guarantees and that it would be a fight to the finish.
Conservative headquarters, however, assert firmly that a general election is near at hand.
GEORGE D. MINTY DEAD
Sudden Death of Well-Known Winnipeg Lawyer.
Winnipeg, July 3.—George D. Minty, one of the best-known lawyers in Winnipeg, died suddenly this morning of heart failure. His wife was Miss Louise Weather, of Toronto, and was with him when he was stricken.
TWO KILLED IN WRECK
Train Bound for Atlantic City Sideswipes a Local.
[Canadian Press.]
Philadelphia, July 3.—Two persons were killed and seventeen others injured when the 9:40 a.m. train on the Pennsylvania road from Broadstreet station for the Atlantic City, sideswiped the Atlantic City local north-bound at Lucanston, a little station fifteen miles below Camden, N. J. Officials of the road say the accident was caused by a mistake of the brakeman on the Atlantic City train who threw the crossover switch instead of the sliding switch. Two coaches of the local train were derailed and partly wrecked and the killed and injured were in these cars.
STRATHCONA'S SUCCESSOR.
London, July 3.—The London Daily Express says the choice of a successor to Lord Strathcona is expected to lie between Sir E. Clouston and Sir Montagu Allan.

LONDON MAN DROWNED IN CINCINNATI, OHIO

Word Received Here of the
Death of George T. Ward.
George Thomas Ward, formerly of this city, was drowned at Cincinnati, Ohio, on Saturday. A telegram was received yesterday by Mrs. George S. Funnell, of 649 1/2 William street, with whom Ward boarded for two years. He came here from Bath, England, remaining in this city three or four years. He left here to attend the Cincinnati Bible School, with a view to entering the Holiness University. His body had not been found yesterday. He had one brother in Vancouver.

SIX CENTS A DAY FOR BOARD AT JAIL

Governor Carter Feeds Prisoners
on the American Plan
at That.
Governor Carter at the county jail continues to fatten his guests at the smallest possible expenditure, as evidenced by the quarterly report, issued today.
While the average cost of maintenance per prisoner is but 64 cents, his guests do not appear to appreciate the hospitality, for business shows a slight falling off, but 170 prisoners being taken in as compared with 176 during the previous quarter. The number of days served also shows a decrease, the figures being 1,568 and 1,582.

MORE SCARLET FEVER CASES ARE REPORTED

Isolation Building at Victoria
Hospital Is Again in Use.
Three cases of scarlet fever have broken out in London since Saturday, and the isolation building, which was closed pending a thorough cleaning after the recent outbreak, has been hurriedly reopened in order to accommodate the patients.
One of the cases is from West London, another from East London and another from the central part of the city. The disease is not confined to any particular district. All of the patients who were stricken are children.
During the past week a number of typhoid fever cases have been brought in from the district immediately around London. London has been remarkably free from this fever for some time now, and Dr. Hutchinson stated to The Advertiser that only one death from it had occurred in two years here.

CITY'S BOOKLET IS A CREDITABLE ONE

Advertisement for London Will
Be Sent Out Where It
Will Do Good.
The new advertising booklet issued by the city clerk has been completed and is the best ever sent out by the city.
City Clerk Baker has taken a very great deal of pains with this work, and as a result it is a highly creditable issue.
The work was done by The Advertiser Job Department, and is a fine piece of printing.
Mr. Baker is sending a large number of the booklets out. They contain a great deal of valuable information regarding the city, dealing particularly with the industrial progress London has been making of recent years.

ORNAMENTAL LIGHTS FOR BUSINESS DISTRICT

Petitions Will Be Out to Have
the System Extended.
Petitions will be circulated this week to extend the ornamental street lighting system throughout the business district.
Chairman Pocock, who is enthusiastic in favor of the scheme, has had so many requests to circulate petitions, that he has decided to have the petitions sent around at once.
It is the intention to include King Street, York Street, Tabor Street and Queen's Avenue to Wellington Street in the first series of petitions.
"I have had several businessmen approach me and ask that petitions be circulated," said Mr. Pocock. "That will be done in a very short time, this week in all probability. The success of the scheme on Dundas and Richmond streets has led many others to see its advantages, and they want to have the lights put in under the same method as the Dundas and Richmond lights were installed."

LT. ARTHUR MORTIMORE IS NOW A CAPTAIN

Popular Officer of the Seventh Regiment
Is Promoted.
Official announcement of the elevation of Lieut. Arthur Mortimore of the Seventh Regiment to a captaincy is contained in the last Gazette. Capt. Mortimore, who is in charge of H Company, is considered one of the most capable officers of the regiment. He is a model soldier and is popular with all.
DISTILLERY BURNED.
Glasgow, Scotland, July 3.—Dalme's distillery was burned today, causing a loss of \$100,000. A remarkable spectacle was furnished by a stream of burning whiskey running from the flame-swept building into the Granary-Firth.

Customs Returns Increase

The customs returns for the month just passed totalled \$85,401.88, as compared with \$82,951.90 in June of last year, an increase of \$2,449.98. The returns for the first quarter of the official year, April, May and June, totalled \$243,371.61, as compared with \$240,786.68 last year, an increase of \$2,584.93.

CITY OF LONDON HAS ACQUIRED SAUNBY RIGHTS ON THE RIVER

River Has Been Raised 15 Inches—End of a Long and Costly
Dispute Which Kept Courts Busy for Years.
The deal between Sir George Gibbons and the water commissioners for the water rights of Mr. J. D. Saunby on the River Thames, was officially closed today, when a check for \$5,000 was made out in favor of Sir George.
For some time the matter has been under advisement, and the legal documents had been prepared. Today satisfactory payment of the money was ordered, as Sir George leaves for a few weeks' trip to England, where he will join Lady Gibbons.
This is the consummation of negotiations which have been long in progress for the purchase of the property. For many years the Saunby rights have been the source of much annoyance owing to the fact that no splash boards could be used at Springbank to raise the level of the river either for boating or for power purposes.
Now that the city has secured the rights, there will be no need of further litigation, and the city will be for all time to come owners of the river.
River Is Raised.
Since the deal has been practically completed, the river has been raised fifteen inches, which has proved of much advantage to boatmen. When the deal is finally concluded, or rather within a couple of days, the level will be further increased until three feet of water are added to the present depth of the Thames. This will make it ideal for boating.
No official announcement has been made as to the disposal of the property purchased by Sir George Gibbons. An expert landscape artist from Buffalo, a personal friend of Sir George's, has the plans under advisement at the present moment, it is understood.

WITNESSES STILL ABSENT IN MULHALL GRAFT CASE

City Clerk Baker Has Given Up All Hope of Having the Men
Here for the Investigation on Wednesday.
Nothing has been heard from the absent witnesses in the Mulhall investigation, and City Clerk Baker has given up all hope of being able to secure them for the hearing on Wednesday.
He has made every effort to locate Alex. Henderson, Jas. Gillis and J. H. Corsaut, but so far has been unable to do so.
As a result it will be impossible to have them here to give evidence in connection with the case.
So far as can be learned, there will be few witnesses for the city, unless new developments take place within the next day or two.
Ward Foreman Mulhall, it is understood, has his case in hand, and will conduct a number of witnesses to prove that there was no wrongdoing whatever.

STRIKE LIFTS AT LIVERPOOL BY WHITE STAR SURRENDER

Empress of Britain With Premier and Troops Aboard Expected
to Sail Today—Poor Feeling Pinch of High Prices.
[Canadian Press.]
Liverpool, July 3.—The White Star Steamship Company today agreed to terms of settlement and the shipping strike here is ended.
Tom Mann, the strike leader, had announced earlier in the day that he was resigning, but the only remaining difficulty being with the White Star Line in regard to the recognition of the union.
The men of the other companies are returning to work.
The Empress of Britain with Premier Laurier and the coronation contingent aboard will probably sail today. A score of liners will probably get away.
At Manchester.
Manchester, July 3.—More than 5,000 men employed on the canal and steamers lying there have gone on strike. Sixteen vessels are laid up in the canal. At a meeting yesterday, called by the mayor, representatives of the canal and the steamers and the dockers decided to confer today with a view to reaching a settlement.
May Compromise.
London, July 3.—Shipping men are awaiting anxiously the outcome of today's conference at Hull between the seamen, the shipowners and the representatives of the board of trade. Although the tension is still strained and the strike has now extended to Queensland, there is a general tendency to regard a compromise as probable. All parties apparently desire to end the strike as soon as possible.
Poor Feeling Pinch.
At Liverpool, Newcastle, Hull and other ports the pinch of provisions dependent upon incoming vessels have risen sharply, causing great distress among the poor people.
Dispatches from Hull indicate that in many quarters it is thought that a settlement will be effected. The leaders of the seamen and dock workers spent last night in discussing negotiations with the owners.
At Newcastle the dockers have decided to continue work on the regular trading ships, but decline to work on vessels which have been diverted from other ports and manned by strike-breakers.
At Queenstown 60 passengers have been laid up awaiting the sailing of the available ships. The latter's mails have been taken aboard the St. Louis by arrangement with the British Post office.
A battalion of infantry at Lichfield has been ordered to hold itself in readiness to proceed to Hull and Liverpool if required.

THEATRE DOORKEEPERS APPEAR IN COURT ON A UNIQUE CHARGE

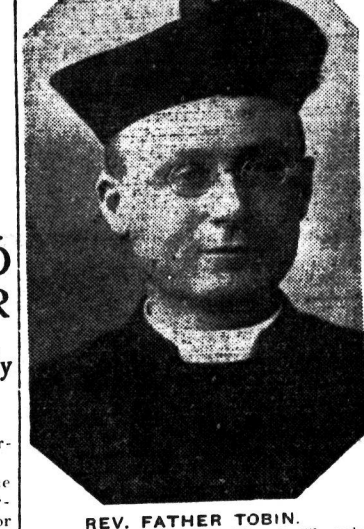

Decision Was Reserved in Case of Men Accused of Allowing
Children Under 15 Years of Age to Enter Local
Picture Shows.
At this morning's session of the police court Harry Nicholls, doorkeeper at the Unique Theatre, and John Hoskins, doorkeeper at the Majestic Theatre, appeared on charges of having broken the bylaws by allowing children under 15 years of age to go into the theatres.
Both pleaded not guilty, and Mr. R. K. Cowan, who appeared for them, said that he was content to allow the evidence that had been taken in the former cases when the managers were prosecuted, to stand.
Chief Williams agreed to this. Mr. Cowan pointed out that in the case of the Unique Theatre the boy had not gotten into the theatre at all, and in the case of the Majestic the doorkeeper had warned the boys not to come back again unattended. He urged that in view of the facts, and as these were the first cases in London, the court could suspend sentence. Very well on both parties.
Magistrate Judd decided to reserve his decision until tomorrow morning.

POSTMAN INJURED IN PECULIAR WAY

Mr. James Nicholson Had His Hand
Painfully Hurt.
While James Nicholson, a postman living at 100- Maitland street, was leading a horse out to pasture on Sunday afternoon, the animal became frightened, and plunging suddenly, pulled the chain by which he was tethered through Mr. Nicholson's hand. As a result the back of the hand was badly lacerated, and three of the bones so badly broken that they protruded through the flesh. Dr. W. J. Stevenson was summoned and dressed the wound. Mr. Nicholson will be laid up for five or six weeks.

CASE WAS ADJOURNED

Citizen Denies Being Cruel to a Horse.
N. Kargus, a north end resident, was charged before Magistrate Judd at the police court today with having ill-used a horse by driving it when it had a sore on its back. Mr. Kargus admitted having driven the animal, but said he had not ill-used it, as the sore place had been well padded. He asked to be allowed to bring witnesses to show that he had not abused the animal and the court allowed the case to stand over until tomorrow.

REV. FATHER TOBIN,
Assistant rector of St. Mary's Church, who won the cane contest at the 'Tombola' in Queen's Park, defeating Father Laurendeau by a small majority, in a warmly-waged campaign.

CITY ARCHITECT WILL NOT GRANT PERMIT

Richmond St. Methodists Want
to Place Heating Plant
Under Auditorium.
It is understood that a request will be put in to the city council from the congregation of the Richmond Street Methodist Church relative to the plans for their new edifice.
A permit for the building has been refused by City Architect Butler owing to the fact that it is the intention to place the heating plant under the auditorium, which is prohibited by the building bylaw.
Mr. Butler had no option but refuse the permit, and the congregation will ask the council to allow them to build the church as originally intended without reference to the bylaw.

MANY DROP FROM THE HEAT IN THE STREETS OF TORONTO

Eight Cases of Prostration and One Death Reported—Business
at Hamilton Demoralized and City Work Tied Up.
[Canadian Press.]
Toronto, July 3.—Eight cases of heat prostration and one death were reported today. Frank A. McDonald, 53, the bridge builder in the employ of the Grand Trunk, died at his home this morning of heart failure attributed to the heat. One hundred and thirty shade was registered at noon. Railways and steamboat companies report abnormal traffic. Every person who can do so is deserting the city in search of cool spots. Railways unable to handle traffic Friday and Saturday. Over 300 trains left the Union Depot carrying 181,200 passengers.
Hamilton, Ont., July 3.—Although no further cases of prostration were reported at the hospitals up to noon today, Hamilton is suffering under the sweltering heat, which has demoralized business and begun to tie up the city work. Men working on the street railway construction and in the sewer trenches dropped under the fierce rays of the sun, and many of them left work and refused to return until the temperature drops. The farmers are praying for rain to drench the parched fields.
Toronto, July 3.—The unprecedented hot weather that is prevalent all over Ontario, has closed down a number of big industries in Toronto. Only about half of the molders employed in the Massey-Harris works turned up this morning, and the firm said at noon today they would close down the works and wait for a cool spell. There are

COMMISSIONERS RACE WITH DEATH

T. and N. O. Board Almost
Trapped by Forest Fire.
MINING PLANTS BURNED
Great Destruction Wrought by Bush
Blaze in the Porcupine.
[Canadian Press.]
Porcupine, Ont., July 3.—Pierce forest fires yesterday, fanned by a high wind, threatened to wipe out every building in the mining area, and did great damage, though its extent is unknown as yet. The plants of the Pearl Lake Mining Company and Dome Mine were totally destroyed, and only strenuous fighting gave the McIntyre mine, Big Dome, Jupiter, Rex, and others a respite. The T. and N. O. station at Golden City was threatened but saved. A sawmill and several houses at South Porcupine were burned. Hon. Frank Cockrane, R. Shillington, M. P., Denis Murphy, of the commission of the T. and N. O. party, were at Hollinger when the fire swept down with a roar, enveloping the roller in a mass of flames, and cutting them off from the town.
Race With Death.
Cochrane, Englishman and Murphy paddled down Pearl Lake to Bewick Loring bungalow, and the rest of the party raced with death through the bush, just reaching the roller when the fire closed in behind them and even threatened for a time this haven of refuge. The wind died with sunset, and the party reached Steel over trails covered with ashes and glowing embers. Hon. Frank Cockrane arrived at Steel seated on the back of a western pony which plodded through smoke and flame without a tremor. It was a hard fight to save the construction camps on the T. and N. O. Railway, but the efforts were successful. Lumber piles and logs being the only loss thus far. Messrs. Timmins and Duncan are at the Hollinger property, which is quite safe, the last fire having cleared a large area. Porcupine people woke up this morning with nervous apprehension of what the day would bring forth. If the wind raises, the fire will spring up again and those who escaped yesterday may not be so lucky today. Rain would be a godsend, but indications are for another day of intense heat and fire-fighting.

MONTEAL EVEN MOUNTAINS GOT IT

Montreal, July 3.—According to the McGill thermometer yesterday was not the hottest day of the hot summer. The maximum temperature for Sunday was 88.6, or just a tenth of a degree less than the top figure of May 21 last, which set a new record for May heat, and beat any temperature for several years. The tenth of a degree was not noticed by the people, who sweltered in any shade ten degrees higher, who are here. The hot wave was general, reports from the Laurentian resorts showing that the people up there suffered even more than those in the city, the heat in the mountains being terrific.

MERCURY ALMOST THROUGH THE TOP OF THERMOMETER

Reached 101 This Afternoon Which Established a Heat Record
for London—108 Reached on the Down
Town Streets.
New records were set this afternoon by the mercury in the thermometer jumps in this city and for the first time since any authentic registrations were kept the 101 mark was reached.
This reading was made at 2 o'clock and the heat was still foreing the liquid upward in the tube. On the down town streets which radiated stifling waves throughout the day even greater marks were obtained. The advertiser endeavored to learn the registration in other parts of the city but this was found impossible as the mercury in many cases had struck the tops of the tubes.
In the fact that nearly a month has elapsed since the last rainstorm in the greater part of Western Ontario has become a serious matter with the farmers of the district and according to reports received in the city today the greater portion of all crops will be ruined unless relief comes and comes quickly.
Yesterday in many of the churches throughout the country special services were offered for rain while in a belt along between Glencoe and Appin

A DANGEROUS DROUGHT.

Not since 1863 has there been such a drought in that section according to the weather records and the situation has become so serious that peaches, apples and plums are falling from the trees for want of water. Raspberries are still green and dusty on the bushes despite the fact that in other seasons the fruit was on the market at this time. A heavy rain of but half an hour will provide the remedy, however, the growers claim.
The pastures are being burned out entirely but the owners are absolutely helpless.
In the city numerous heat prostrations were reported today, and while no person has been seriously affected many people are confined to their homes.
108 in Down Town Streets.
At two o'clock this afternoon the mercury, which was still climbing, reached the 101 degrees mark in the shade, while on the down town streets as high as 108 was registered.

Linen and Cotton Sale Will Commence Tuesday

For months we have been preparing, and it seems as though all manufacturers of Cottons and Linens were prepared to help us in this sale, or it may be that owing to the stiffness in values during the past few years they have been holding closer to their stocks and prices. But it appears that almost the bottom had fallen out of the cotton market, to judge by the values we are able to offer now as compared with recent prices. Perhaps we have been fortunate in striking these manufacturers at the point when the stock sheets had to be lowered. But no matter what the cause, the Linens and Cottons are here to bear out the fact that much money will be saved by our customers during this sale.

It has taken months to get together such a stock of sale specials, as every market has been searched, and stock lots picked up here and there, and all is ready to commence tomorrow the biggest Linen and Cotton sale in our history, so far as values are concerned.

PREPARE NOW FOR OLD BOYS—No doubt extra supplies will be needed in many homes, with thousands of old boys and girls coming next month. This sale comes at an opportune moment, saving you much money on goods you need for the household, and just at the time you need them. We list a line of specials today for Tuesday. Watch this department for big values. If you want supplies for the summer cottage, hotel or boarding-house, big savings will be made during this sale.

BLIND ATHEIST AND BOY COMPANION PART. Fifteen-Year-Old Lad From Moosejaw Couldn't Stand Employer's Views.

Detroit, July 2.—Far from his home in Moosejaw, Sask., Roland Agar, a 15-year-old prodigy, appealed to the Detroit police for food and shelter.

He left home with the consent of his parents to accompany James M. McCloskey, a blind atheist, on a tour of the United States, selling a book written by McCloskey, entitled "The New Gods."

The boy had graduated from grade school and was now in a business college. He copied all the manuscript for McCloskey's book.

McCloskey believes all religious worship is idolatry, said Roland, speaking with the air of a person four times his age. Of course, I didn't or wouldn't agree with him, and we had plenty of argument.

A Tenderfoot's Wooing. BY CLIVE PHILLIPS WOLLEY, Author of "Gold, Gold in Cariboo," etc. (All Rights Reserved.)

"Fight injins in timber? Not much. We've another five minutes before they'll miss us, but the light's coming. They're getting impatient, dear that?"

"That" was another volley poured into the hollow. "Hain't missed us yet, anyways. Are you good for another burst, boss?"

"No, it ain't far," and the old man began to run again as if he had been five and twenty. Tom and the other men were loping along as easily as wolves, while Dan the big-footed sobbed wearily far behind.

"You haven't got a blanket," he said to Rolt, "and then fix it this way," and he went down on his knees and began to scratch with his knife, like a dog who is going to bury a bone.

"All the earth he look out he piosed upon the blanket, throwing with it moss and leaves and his brush dropped, and he had finished with it. He looked at Rolt, great and hoarse, just sufficiently within the cover of the brush to save it from detection.

"Then he bent Rolt a hand with his mouth, jerking the boys to do the same of their respective corners, and "Shove, shove, shove," he ever went to eat bull beef any more. They ain't here no more, they can't be long now."

"There was no sign of Indians that Rolt could see, but as Al lay motionless he imitated him, and for a full fifteen minutes almost held his breath in his burrow.

"All right," he said, as he crawled under his mound. "The seats is all took and the cabin's up. It's just three hundred yards to where I dropped my cap, and now I'm going to put in three days. If I was you I'd do the same. It's going to be safer underground than up in a tree by and by," and after that for a long time the boss saw no more of Al.

CHAPTER XX. The chinook wind which had been blowing before midnight had dropped, and in the last hours of darkness had been succeeded by a crisp, clear air, with more than a suspicion of frost in it, so that when the dawn came it spread through skies of such rare melody as are never seen except in high northern lands.

premature or physiologic. When the greyness is due to some temporary cause, the process may cease completely on the removal of the cause. The application of a good hair tonic will help to some extent. The following recipe is for a good tonic: Resorcin, 8 drs.; tincture castoroid, 1 oz.; oil sassafras, 1 oz.; oil rosemary, 10 drops; bay rum, add sufficient to make 8 oz.

Even the pine belt itself was not quite proof against the dawn. The fogs heet it, though the gloom of the black boughs swayed up and down, that struck their bole here and there was caught by it and brightened with a wash of tenderest rose.

Most of the events which we look forward in life and probably in death which might break the holy stillness of the waking day, and yet Rolt, listening in his burrow, could not but volunteer, at the breaking of a twig, or see a sign of life in the direction from which he had

After Al's departure he worked feverishly at the making of his burrow, expecting every moment to hear the hum of bullets through the scrub over his head, but no bullets came, and at last even with his jack-knife he had managed to scrape out a hollow ample enough to contain his body.

"I guess that's good enough. Do you see that valerian-looking bunch of sage brush, the biggest in sight, away there to the right? Best portulate it, will you?" Rolt raised his rifle and looked questioningly at old Al, whose head was now alongside his own.

"Something in the country displeased him, for after a prolonged survey he looked back the way he had come. The coyote's behavior was suggestive of a hawk which had been watching the hawk which he had come.

"It's sighted for five hundred yards," Rolt found it impossible to remain strung up to concert pitch for ever in such an atmosphere of peaceful beauty, just as the half-alarmed buck does, when he is in the nearest rising ground, on which he stood while reconnoitering.

record-breaker in the value of the effects which they brought into Canada. The total reached the enormous sum of \$14,072,611, or very nearly four million dollars worth more than in the year ended March, 1910. The record shows that the value of settlers' effects in 1897 was only \$2,233,730, which was doubled in 1902, and that total has now been more than doubled again in the seven years which have elapsed. This is certainly Canada's century.

Banana Pie. One cup of sugar, yolks of one and one-half tablespoonfuls cornstarch, cream to half and add it to one quart of milk with a pinch of salt. In a pan set in a pan of water until thick, let cool for about five minutes, then add one teaspoonful vanilla and six bananas, peeled and sliced, mixed frosting of the whites of eggs and put on top of pie, bake crust first. This is splendid. Try it.

Orange-Flower Cream. A white food, oil sweet almonds, 4 ozs.; white, 6 drs.; spermaceti, 4 drs.; borax, 2 drs.; glycerine, 1 1/2 ozs.; orange-flower water, 2 ozs.; oil of neroli, 15 drops; oil of bigarade orange skin, 15 drops; oil of petit grain, 15 drops. Melt the first three ingredients, add the glycerine to the orange-flower water and dissolve the borax in the mixture; then pour it slowly into the blended fats, stirring continuously. If your skin is dry, you should not use soap more than once a day, and then be sure that you rinse every trace of it from the skin. The use of the above recipe will relieve the dryness.

Strawberry Salad. If you have never had the pleasure of eating a strawberry salad you should do so before the strawberry season is over. First cut the strawberries into halves, add just as much sugar as you think they will stand, and afterwards to each quart of berries, add a wineglassful of brandy and one tablespoonful of lemon juice. Chill by packing in ice and serve with whipped cream.

Strawberry Jam. Allow to a quart of fruit washed and hulled three-quarters of a pound of sugar. Cook the fruit in a preserving kettle half an hour, strain frequently. Add the sugar, boil twenty minutes, skim well and put in airtight jars, while boiling hot. Keep in a cool dry place. A pint of red currant juice, added to every four pounds of berries, is a delicious combination.

Cheese Balls. Beat the whites of two eggs to a stiff froth, then stir into this two heaping tablespoonfuls of grated cheese, a little salt and a good seasoning of red pepper. Shape these into tiny balls, drop them into plenty of smoking hot fat, and fry a golden brown color. Dip on white paper, dust with grated cheese, and serve quickly, if they fall if allowed to stand.

Gelatine Desserts. Plain Bavarian Cream. Ingredients: Half box gelatine, half cup cold water, yolks of four eggs, one cup sugar, one pint cream, one pint milk, one teaspoonful vanilla extract.

Marshmallow Cream. One-quarter box gelatine, one-half cup cold water, one-half cup boiling water, whites of four eggs, one cup granulated sugar, one teaspoonful vanilla, one teaspoonful lemon extract. Soak gelatine in the cold water five minutes; add the boiling water and place over tea kettle until thoroughly dissolved. Cool, but do not chill. Stir the whites of the eggs very light, and to the eggs add the gelatine and sugar a few spoonfuls at a time, beating constantly. Divide in two parts, and to one part add pink color and flavor with vanilla, about one teaspoonful. To the white part add one teaspoonful lemon extract. Mold in layers, adding pecan nuts to the pink part and marachino cherries to the white part. May be served with or without whipped cream.

EFFECT OF THE STRIKE

People Need Not Worry at All, Said One Agent to The Advertiser Today.

Local agents who sell steamship tickets have received incessant telephone calls lately from people here who have relatives on their way home from England.

A great number of people constantly call The Advertiser office to find out if various steamers have reached their destination.

It is impossible to tell just when some of the boats will be able to get away, said one agent to The Advertiser today.

"People need not worry at all about the matter of delay, and it will get over all right, only a little late. Of course the delay in shipping which occurred on Saturday night was due to the fact that the men needed for the boats."

TWO YOUTHS CHARGED WITH SERIOUS OFFENSE

Harry Ellwood and W. Robinson Accused of Fearful Cruelty to a Horse.

Two youths from the north end who give the names of Harry Ellwood and W. Robinson have been summoned to appear in the police court on Friday next in connection with what is said to be one of the worst cases of cruelty to animals that has occurred in some time.

It is alleged that they obtained a horse and buggy from a local liveryman on Saturday evening and drove the horse at top speed all about the city, whipping it and beating it until it was almost dead.

The horse was taken to the liveryman's stable and when the pair drove into the lane-out to meet them.

Someone telephoned the liveryman down Wellington street, trying to beat some other lads who had horses out, and when the pair drove into the lane-out to meet them.

It is stated that the youths saw him coming and scrambling hastily out of the buggy in the lane-way tried to make good their escape. The liveryman pursued them and hauled them back to his office by their collars, and there until the police arrived. The youths gave their names and were then let go, to appear later in court.

It was a long time before it could be taken in the stable, as it was so exhausted from the beating and running that it was unable to stand. The animal is a good one, and everything that could be done to save it was done, and it is said that it is still in a serious condition, and will not be able to be used for some days.

Fred Fuller, a colored citizen, served on Thursday, failed to appear, and was arrested on Saturday at his home.

I am letting you go against the advice of Chief Williams and the whole force, said the magistrate, "but I confidently expect you will be again in a couple of days, and I will send you down then."

Chris Moriarty, who was up on Saturday and let go, was gathered in again on Sunday.

"I was shaky," he commented. "Well, you won't be when you come out," said the court. "Twenty-one days or so."

STRAW HAT SEASON

ITS GRADUALLY INCREASING EXTENSION—This Year's Early Opening. IN THE centre of a show window, in the midst of straw hats many in number and of great variety in style, appeared a single hat, distinguished by a single word, like this: "Which?"—while standing along in front of the window, looking in was a line of men inspecting hats, their eyes fixed on the date still displayed, and making up their minds as to what style of hat each would prefer.
