TWENTY SECOND ANNUAL STATEMENT.

TWENTY-SECOND ANNUAL STATEMENT. The twenty-second annual meeting of the shareholders of the Federal Life Assurance Company of Canada was held at the head office of the company in Hamilton on Tuesday, March 1, 1904. The President, Mr. David Dexter, in the chair. The following reports and financial statement were submitted. DIRECTORS' REPORT.

DIRECTORS' REPORT. Your directors have the honor to present the report and financial state-ment of the company for the year, which closed on the 31st December, 1903 and duly vouched for by the auditors. The new business of the year consisted of one thousand nine hundred and fifty-seven applications for insurance, aggregating \$2,841,250, of which nine-teen hundred and sixteen applications for \$2,748,172.50 were accepted.

As in previous years, the income of the company shows a gratifying in-trease, and the assets of the company have been increased by \$251,572.89, rease, and the assets of the company have been increased by \$2 and have now reached \$1,\$33,960.70, exclusive of guarantee capital. The security for policy including the later of the security for the security fo \$251,572.89,

and have now reached \$1,593,960.70, exclusive of guarantee capital. The security for policy holders, including guarantee capital, amounted at the close of the year to \$2,763,960.70, and the Habilities for reserves and all outstanding claims, \$1,711,200, showing a surplus of \$1,052,760.70. Exclusive of uncalled guarantee capital, the surplus to policy holders was \$182,760.70. Policies on seventy lives became claims through death, to the amount of \$130,234,62, of which \$2,000 was reinsured in other companies. Including cash dividends and dividends applied to the reduction of premi-ums, \$41,770.87, with annuities, the total payments to policy holders amounted

to \$204,018.49.

Careful attention has been given to the investment of the company's funds, in first-class bonds, mortgage securities, and loans on the company's policies, amply secured by reserves. Our investmenes have yielded a very satisfactory rate of interest.

Expenses have been confined to a reasonable limit, consistent with due efforts for new business

The results of the year indicate a most gratifying progress. Compared with the preceding year, the figures submitted by the directors for your approval show an advance of fifteen per cent. in assets The assurances carried by the company now amount to \$14,945,249.56, up

on which the company holds reserves to the full amount required by law, and, in addition thereto, a considerable surplus. The field officers and agents of the company are intelligent and loyal, and

are entitled to much credit for their able representation of the company's in-terests. The members of the office staff have also proved faithful in the ompany's services.

Your directors regret to report the death of Mr. T. H. Macpherson, the Second Vice-President of the company, and a valued member of the Executive Committee. The vacancy thus caused was filled by the election of the Rev. DAVID DEXTER. President and Managing Director. Dr. Potts.

AUDITORS' REPORT. To the President and Directors of the Federal Life Assurance Company Gentlemen,—We have carefully audited the books and records of your ompany for the year ending 31st December last, and have certified to their accuracy.

cash and journal vouchers have been closely examined, and agree The with the entries recorded. The debentures, bonds, etc., in the possession of the company have been

inspected, whilst those deposited with the Government or banks have been verified by certificate, the total agreeing with the amount as shown in the statement of assets.

The accompanying statements, viz., revenue and assets and liabilities, show the result of the year's operations, and, also, the financial position of the company. Respectfully submitted, H. S. STEPHENS, CHARLES STIFF, Auditors.

"DEAR MRS. PINEHAM :-- Lydia E. Pinkham's Vegetable Com-pound will make every mother well, strong, healthy and happy. I dragged through nine years of miserable existence, worn out with pain and weariness. I then noticed a statement of a woman troubled as I was, and the wonderful results she had had from your Vegetable Compound, and decided to try what it would do for me, and used it for three months. At the end of that time I was a different woman, the neighbors remarked it, and my husband fell in love with me all over again. It seemed like a new existence. I had been suf-fering with inflammation and falling of the womb, but your medicine sured that and built up my entire system, till I was indeed like a new woman. --Sincerely yours, MRS. CHAS. F. BRADSTREET'S TRADE REVIEW.

Improvement in the transportation sit-uation this week has brightened up trade conditions in Montreal. The outlook for business for the balance of the season is promisting. Retail spring trade is being promising. Retail spring trade is being much delayed by the late season. Values are firmly held. The domestic mills have delayed issuing prices of flannelettes and other cotton lines for the next season.

Country remittances are a little slow. Busines conditions at Toronto are more encouraging now. Orders have been com-ing to hand fairly well this week and shipments have bee nmore freely made, less difficulty having been experienced in coinnection with railroad traffic. Busness at the Pacific Coast continues to develop some further activity. The outlook in the mining industry is more encouraging. Preparations are being made for active work the coming season in the lumber industr. Mercantile conditions are healthy, and a fair expansion in the demand is looked for the next few weeks. Trade is improving in Manitoba and the Northwest . Preparations for the next crop indicate a large increase in the wheat area this year.
Better facilities for making shipments have materially improved the immediate outlook for wholesale trade at Hamilton this week, as reported to Bradstret's. The preparations for the retail spring millinery openings have stimulated the demand for seasonable goods, and in other departments of trade business is looking up. Values are firmly held in trade zoods.

Many passengers were amazed to see an Indian travelling first class. When Indians travel they have to bear cre-dentials. Uncle Sam does not allow dentials. Uncle Sam does not allow them to roam at will from the reserva-tion. Chief Red Fox was equipped with a passport from Agent Clifford of the Lame Deer agency in Montana, which said he left that place a month ago to pay a "friendly visit" to the Pottawa-tomic reservation in Indian Territory. Ball Woman sported a passport, too. Hers was signed by Agent John H. Seger of the Pottawatomic reservation in Indian Territory, and was only good for sixty days. This passport was se-cured upon the representation that she was merely going to the Lame Deer agency on a visit. But as soon as she was safely on the way she was joined by Chief Red Fox, and the two were married in Wichita, Kan. Chief Red Fox was unsuccessful in

Napoleon's Temper. A story is told of a sudden rage into which Napoleon I. fell one day as he was at dinner. He had scarce partaken of a mouthful when apparently some inopportune thought or recollection stung his brain to madness, and, receding from the table without rising from his chair-his small stature permitted that-he uplifted his foot-dash went the table, crash went the dinner, and the emperor sprang up, intending to pace the room. Quick as a flash his waiter scratched a few magic symbols on a bit of paper, and the emperor's check had grown more than double. Napoleon appreciated the delicacy of his attendant and said, "Thank you, my dear Dunand," with one of his in-imitable smiles. The hurricane had

For over thirty years we have treated and cured all forms of Blood diseases, both hereditary and acquired. Our New Method Treatment is original with ourselves, and never fails to eradicate the polson from the system. Beware of mercury and other mineral polsons, which so many doctors prescribe for this terrible disease, as they will ruin the system. Other treatments drive the polson into the system, whereas our treat-ment destroys the virus or polson in the blood and removes it from the system entirely, so the symptoms can never return. If you have any of the following symptoms consult us before it is too late: Blotches, eruptions or pimples; falling out of the hair, itchiness of the skin, stiffness or pains in the joints, soreness in the muscles, sore throat, ulcers or bad taste in the mouth, sore tongue, sourness of the stomach, enlarged glands, running sores, etc. Our New Method Treatment will growfin again, all organs will be restored to their normal condition, and the patient prepared to renew the duties and pleasures of life. RUSSIA'S NATIONAL ANTHEM Only National Hymn Adopted as Such

by Competition.

The National Anthem which the bands of the Russian cruisers play-ed as they sank at Chemulpo is the only national hymn which was adopted as such by open competi-filon, says the Westminster Gazette, Lion, says the Westminster Gazette, Until the time of the Emperor Nicholas the English "God Save the King" had served Russia, but Nich-olas determined to institute a genuine and native Russian anthem, He announced a competition, open to all musicians, for an original mational hymn. A Musical Commit-fee reduced the thousands of entries to two, and between these, the

The gneat Skobeleff used music with success time after time. At plerna, when the repeated Rus-sian attacks had failed, the men were go disheartened that he fear-ed to order yet another assault. Then Skobeleff's wandering eye lit ov the bands of Imperial Guard. He massed them together, and as the strains of the national hymn burst over the stricken field the soldiers felt the blood flow, more quickly in their veins. They pulled themselves together, and inspired by the music, together, and inspired by the music, awept over the intrenchments and took Plevna. Henceforward in the campaign Skobeleff used the regi-mental bands for all they were worth t worth. (

HINDU FARMERS.

Little Demand for Agricultural Im plements.

There is very little demand in India for agricultural implements, although three-fourths of the people India for agricultural implements, although three-fourths of the people are employed in tilling the soil. Each farmer owns or rents a very small plece of ground, hardly big enough to justify the use of anything but the simple, primitive tools that tave been handed down to him through long lines of ancestors for 3,000 years. Nearly all of his imple-ments are home-made, or come from the village blacksmith shop, and are of the rudest, most awk-ward description. They plough with a crooked stick, they dig ditches with their fingers, and car-ry everything that has to be moved in little baskets on their heads. The harvesting is done with a primi-tive-looking sickle, and root crops are taken out of the ground with a two-tined fork, with a handle only a foot long. The Hindu does ev-erything in a squatting postura, hence he uses only short-handled tools. Fifty or seventy-five cents would easily replace the outfit of three-fourths of the farmers in the empire. Occasionally there is a ralah, with large estates under cul-tivation upon which modern ma-chinery is used, but even there its introduction is discouraged; first. and o windsor yesterady arcmoon and did some shopping. The Queen and the Princesses would not even trouble the storekeeper to have some of the things wrapped in paper. They simply put the small purchases into their pockets and asked for the larger things to be sent on to the cestle. Her Majesty and the Princesses did Her Majesty and the Princesses did not pay for their purchases in hard cash, but the Queen remarked to one salesman, "You can trust me." chinery is used, but even there its introduction is discouraged; first, because the natives are very con-servative and disinclined to adopt new means and new methods; and second, what is more important, ev-exy labor-saving implement and machine that comes into this coun-try deprives hundreds of poor cool-ies of any hundreds of poor cool-

ies of employment. The development of the mater-lal resources of India is slowly go-ing on, and mechanical industries are being gradually established, with the discouragement of the govern-ment, for the purpose of attract-ing the surplus labor from the farms and villages, and employing it in factories and mills, and in the mines of southern India, which are sup-rosed to be very rich. These en-terprises offer unlimited possibili-ties for the sale of machinery, and American-made machinery, and American-made machines are re-cognized as superior to all others. There is also a demand for ev-erything that can be used by a foreign population, which in India is numbered somewhere about a mil-lion people, but the trade is com-trolled largely by British merchants who have life-long connections at home, and it is difficult to remove their prejudices or persuade them to see the superiority of American goods. The Car also is giving a good deal of time to the hearing, if not to the singing, of hymns. In this case there is pro-bably nothing better he could do —unless it might be to inform his army and navy that for the pre-sent he will attend to the musical part of the war without any as-sistance from his so devoted sub-Fart of the war without any, as-sistance from his so devoted sub-jects. The fact is that hymns and war are more than slightly incom-patible, especially when the war is waged for the purpose of snag-ging a lot of territory, though you already have more of that kind of property than you can properly manage, and therefore feel a mad desire to add to your holdinger him, and had read his books, and there are in Bombay hundreds of highly cultivated and educated na-tives. Tuber Raised by a Scotchman and Sold at High Prices. No potato has ever gained so much notoriety as Eldorado, raised by the fam-ous Scotch raiser, Mr. A. Findlay, or Markinch. The very name of the variety was a stroke of genius, for it is hardly possible that the raiser, or those who had the good fortune to secure some of the first tubers distributed, could have imagined that in so short a time it would change hands at such enormously here. The George Massey, of Spalding, was from him Mr. Zachariah Gray, a well-known grower, of Everton, Sandy, pur-chased a stona weight for £20. This set the ball rolling, and as Mr. Findlay re-solved not to further distribute Eldor-ado until in the fall of 1904, the demand for the small stocks available was dou-bled and trebled, and so the prices rose. Mesgrs. Denis, the Covent Garden sales-ment, and Messrs. I. Poad & Sons, of York postensed supplies, and the latter firm found a purchaser of four pounds at £150 per pound. This determined them to obtain further stock, and so at the Smithfield Club show, a member of has firm found that Mr. Massey had a lim-tied stock for disposal, and made him an offer of £1,000 for a stone. Mr. Massey really the bargain was struck at £1,600, to the satisfaction of both parties. Sub-send transaction brought him a very handsome return.—From the Gardener's Magazine. Hymns and War Talking about sailors and differ-mees, we note that a disinterested spectator who happened-much to his discomposure-to be on a vessel anchored near the Russian ships at Port Arthur Monday night, reports that "the weather was fine, and the Russian sailors impressively chanted their evening hymn."That was a pretty ceremony, as well as impressive, but, as Russia had taken pains to say muny times of late, the Japanese are a heathen-ish lot, and the result was, that, instead of remaining quietly in port, chanting an evening hymn of their own, they were hurrying through the dark across the win-try sea with their thoughts firm-ly fixed on the business in hand, which happened to be entirely sec-Dropsy is one Positive Sign of Kidney Disease.-Have you any of these un mistakable signs? ALCOHOLISM IN FRANCE.

In a report in regard to alcoholism in France, United States Consul Atwell at Roubaix says that the general ab-stemiousness of the American people is now regarded as one of the principal of the commercial supremacy of

the United States. The necessity of checking the growth of alcoholism in France is deeply felt in the Republic, and a congress was held in Paris in October to deliberate upon means to eradicate the evil. Eminent men of letters and the elergy of differ-ent denominations united in their efforts for the common interest of the nation. itor more highly than any other, and in reply to the question of his new master, explained that Aga Khan A spur was doubtless given to the pre-sent widespread endeavor to combat the increase of alcoholism, the consul says, by the fact that a company controlling unlimited capital has been formed re-cently in France to furnish so-called "aperitifs" at a price defying competi-tion. tion.

The feeling with regard to the matter as voiced by Dr. Devobe, dean of the medical faculty, in his remarks before the National Anti-Alcoholic League, League when he said: "In the face of the peril which menaces us no one has a right to refuse his support, for we have the disgrace of ranking first among the alcohol nations'

Consul Atwell says that official statistics bear witness to the unfortunate truth of that statement. France has 464,556 saloons to supply the wants of 38,666,366 inhabitants, being one saloon to 83 inhabitants, and the number is constantly increasing. During the past ten years the consumption of alcohol in France has increased in alarming pro-portions, while England and the United States have progressed toward temper-ance. Sweden and Finland have also marked progress toward temper--Cincinnati Times-Star. ance. In order to compete with Sweden

The Game is Lost Already. To the Canadian there is upper most the fact that they can con-

It was a god. It was a very gratifying meeting for both gentlemen, who found each other entirely congenial. Aga Khan has a keen sense of humor, and had read everything Mark Twain had written, while, on the other hand, the latter was distinctly impressed with the personality of his caller. THREE HUNDRED RUSSIANS **KILLED OR WOUNDED**

In a Fight at Port Arthur, So is Reported.

Has the Russian Fleet Abandoned Port Arthur?

London cable says there is no pany, laden with stones, in the news of fresh operations of import- | nce in the far east. The rumor of Port Arthur's fall has followed that of the Japanese occupation of Southern Manchuria into oblivion, and it is predicted here that the latest story of Admiral Marakoff's dash out of Port Arthur will prove equally false. If, however, it turns out that the Russians have chosen this desperate move in preference to the apparently inevitable loss of their vessels at Port Arthur, it is assumed that Admiral Togo will easily catch them long before they can reach Vladivostock, which is more than thousand miles away. It is regarded as incredible that the Russians could have slipped out without the Japanese knowing it, although it is suggested that they would be allowed to steam outside the protection of their shore batteries before they were attacked. Against the rethey were attacked. Against the re-port that the Russianis got out on Friday, there is a report of an en-gagement on Sunday, in which the cruiser Diana was damaged. This re-port is not confirmed, and no de-

In a Fight at Port Arthur, So it is Reported.

Has the Russian Fleet Abandoned Port Arthur?

London cable says there is no news of fresh operations of import-ance in the far east. The rumor of Port Arthur's fall has followed that of the Japanese occupation of South-ern Manchuria into oblivion, and it is predicted here that the latest story of Admiral Marakoff's dash out of Port Arthur will prove equally false. (Winnipeg, March 21.—The trans-continental train for the West was wrecked at Chaplin, about 65 miles west of Moose Jaw last right. Several west of Moose Jaw last night. Several passengers were bruised and injur-ed as a result, but none of them seriously, according to reports so far received. Two tourist cars were de-railed, owing to a broken rail, and. of course, it is the passengers in these coaches who were injured. A rumor was current in this city that several people had been killed, but railway officials deny this report.
