FARMERS CLING TO TREE-TOPS

Cloud Bursts Change Missouri Streams to Devastating Torrents. Operator Marooned.

St. Louis, Mo., July 6.—Many thousands of acres of North Missouri bottom lands are being flooded by streams which, like tidal waves, tonight are rising and spreading over an area at an alarming rate. Conditions north of Chillicothe, Mo., in Daviess, Grundy and other counties, are the worst in many years and warnings have been sent out to bottom farmers in Livingston county. Cloud bursts last night and this morning caused Medicine Creek to rise rapidly and a small tributary flowing through the town of Ganon, through which the Chicago, Milwaukee and St. Paul railroad runs, became so deep that 12 miles of track was washed out. Arthur Fish, the agent of Ganon, was caught in the depot and remains marooned there. He has been there 24 hours without food and with three feet of water sweeping through the building. Rescue parties who went in boats to save him were forced to go back by the swift current. Tonight the Milwaukee's tracks are flooded as far south as Lardo, Mo., and a cloud-burst in Mercer County, Mo., sent a wall of water pouring east along the east fork of the Grand River. The flooding of Muddy Creek in Grundy County at the same time at Utica and the coming of the water is anxiously awaited there. The highest mark the Missouri river at St. Joseph ever reached before was during the disastrous flood of 1893. Tonight the waters of the Missouri are rising slowly and are within a foot and a half of the 1903 mark at St. Joseph.

Trenton, Mo., July 6.—The Grand River made a new water mark exceeding all other flood records by some two feet today when a sudden rise swept down the stream and the water level rose to the top of the trees. All railroad traffic is stopped completely. The amount of property lost is estimated at \$50,000. The tree tops and from roofs of buildings on all sides of the city. As yet no lives are known to have been lost. The river rose three feet in less than an hour and is still rising but more slowly.

NINE KILLED BY MINE EXPLOSION

Gas Pocket Exploded and Cage Was Precipitated to Bottom of Shaft. Trinidad, Colo., July 6.—Eight men, eight of whom were coal miners and the other a cage pilot at the Telluride mine, 22 miles northwest of Trinidad, were instantly killed today when the cage in which they were descending struck a pocket of gas which became ignited from their lamps and exploded. The cage was torn from its fastenings and dropped to the bottom of the shaft. The men in the cage were either killed by the explosion or by being precipitated to the bottom of the shaft. The only survivor was Albert Noah, cage driver, 29, who was thrown from the cage in which the catastrophe took place in 300 feet deep and the explosion took place about half way down. Gas had accumulated in the mine during Sunday and Monday when the employees were taking a 48-hour lay off to celebrate the Fourth.

Two of Gang Arrested.

Vancouver, July 6.—Developments go to show that the men who held up the C. P. R. train No. 97 at Ducks, were but part of a large gang that has been in this province for several weeks, having come over from the western states. Several of the members of the gang are now in Kamloops jail, having been arrested yesterday. They have been positively identified as men who were seen with the robbers in the vicinity of Ducks just previous to the hold-up. A woman who encountered the robbers in that village has visited Ascroft and identified the dead man as one of the gang. Two other men in the jail were also identified. The police are arresting every hobo found on the road and already there are upwards of 60 men in the local jail. It was out of this big group of men that this woman selected two members of the hold-up gang. Searching parties are now training a man in the vicinity of Lytton and they feel certain that he is the man who killed Constable Decker.

Fugitive Shot.

Kingston, Ont., July 6.—It is stated that Roy Purdy, a young man formerly with the Ontario State Police at Harrow, who disappeared a year ago, was shot while riding with a freight car at Oklawaha. He lingered in a hospital for a month before death came. He had been given the name of Rose, but divulged his right name before he died.

Will Hold Temperance Sunday.

Guelph, Ont., July 6.—The British Methodist Episcopal Church passed a strong temperance resolution approving of holding a general Temperance Sunday once a year, in accordance with the Dominion alliance and condemning the liquor traffic in Canada as one of the greatest evils of the age.

Ball Player Killed.

Tabor, Alta., July 6.—Fred Jones, aged 18, was playing baseball at Purdie Springs on Sunday when a bright ball, causing him to misjudge a swift ball, he was struck on the temple and killed instantly.

Missing Man Located.

Saskatoon, July 6.—Don McGregor, a well known "lo" man, for many years travelling representative for the Ogilvie Milling Co., and mysteriously disappeared from Saskatoon about two months ago, causing friends and relatives great uneasiness, has been located. A message from Biggar today states that he is at that point. The police have been engaged in a fruitless search for McGregor for six weeks.

Many Buildings Struck.

Calgary, Alta., July 6.—Old timers have to put their thinking caps on to remember an afternoon more than rain fell than did on this the second day of the Provincial fair. It is the worst lightning storm of the year clearing up tonight and the directors have arranged a race card that provides \$2,250 in prizes and one of the greatest days in the history of fairs in Alberta, confidently looked for. Some slight damage resulted from the lightning. The normal and Victoria schools, the main building at the fair grounds, and a couple private residences were struck by the flashes. Mrs. McGee, wife of the caterer of the Normal school, was in the building when the crash came, which splintered the flag pole, and was rendered temporarily unconscious, but no serious result is expected.

MOTORMAN EXONERATED.

But Company Insured for Poor Car and Inexperienced Operator.

Winnipeg, July 6.—The coroner's jury investigating the death of Little Alhey Day, aged three, who was killed by street car No. 74 on July 1st, found that the motorman did his best with the means at hand to stop the car, but scored the Winnipeg Electric Railway company for permitting the car to leave the barn with a defective and dilapidated fender, and for the brief training and inexperience of the motorman. The coroner's verdict with the exoneration of Motorman Lewis and indeed charged heavily against him. Evidence showed that the little boy was playing in the yard and ran in front of the car which is an old-fashioned single track car equipped only with hand brakes and which was also drawing a trailer. The motorman was horror-stricken and reeled and threw the circuit breaker without avail. The fender apparently rolled the child, and passed over her but several plates were broken, which would permit a large body to go through. The motorman testified that he protested against using the fender but was told it was all right. The motorman had a fortnight's notice from another motorman, but had been running cars since February.

FINE STRAWBERRIES IN EDMONTON GARDEN

Edmonton Man Disproves Theory That Alberta Must Import This Fruit.

(Wednesday's Daily). Strawberries from the family garden is something which most people have thought would always be alien to the Edmonton district. The fruit which has been on sale by the paper avenue merchants has been imported from British Columbia and other points and the theory which happily did not normally fatally occurred at the Normal school at about noon, when the flagpole on top of the school was shattered and the city engineer, superintendent fully qualified in this kind of work, dealt with the maintenance of streets and sidewalks (plank) street sweeping, cleaning of crossings, opening of new streets under the instruction of the city engineer, maintenance of catch basins, and all questions of street drainage. The organization at present is that the city engineer's department handles all construction work on the streets and after being contracted for a great many months ago, an endeavor was made to get lights on them all before morning. The bushes of berries that were a great many were left unprotected all night.

RAIN INTERFERED WITH THE CALGARY FAIR

Lightning Struck Industrial Building, But Did No Material Damage.

Calgary, July 6.—The Calgary fair has progressed very favorably. The first day was a record attendance and the second day promised to be even better. The worst thunderstorm of the year came up and drenched the grounds. The rain continued all afternoon and did not stop until about midnight. There has been practically no rain since. One complaint only has been received, and that was of \$40 lost or stolen.

Will Hold Temperance Sunday.

Guelph, Ont., July 6.—The British Methodist Episcopal Church passed a strong temperance resolution approving of holding a general Temperance Sunday once a year, in accordance with the Dominion alliance and condemning the liquor traffic in Canada as one of the greatest evils of the age.

LIGHTNING KILLS MAN IN CALGARY

Worst Electrical Storm in Years Works Havoc in Southern City

Calgary, July 7.—One man killed, a lady rendered unconscious, a flag pole on top of the Normal school shattered, 500 telephones rendered useless, windows all over town broken, cereals in almost every street covered with water in the Second street street subway, putting the street railway partially out of business, is the record of the electric storm which passed over Calgary yesterday.

ROADS DEPARTMENT WILL BE CREATED

Council Decides on New Department to Handle Street Works and Kindred Business.

(Wednesday's Daily). That the city council should create a department as a new branch of civic government was one of the many important recommendations which the commissioners placed before a full meeting of the council last evening. On account of the very large amount of work being done by the city, the commissioners advised that an operative department be organized to handle all street work, including the maintenance of streets and sidewalks (plank) street sweeping, cleaning of crossings, opening of new streets under the instruction of the city engineer, maintenance of catch basins, and all questions of street drainage. The organization at present is that the city engineer's department handles all construction work on the streets and after being contracted for a great many months ago, an endeavor was made to get lights on them all before morning. The bushes of berries that were a great many were left unprotected all night.

THE CROPS.

Winnipeg, July 6.—The G. T. P. has issued a valuable crop report covering the immense territory traversed by their main line, Winnipeg to Wainwright, and collected by several scores of disinterested agents. In the Manitoba section conditions are reported as very favorable, sufficient rain and warm weather causing excellent growth. Eastern Saskatchewan reports growth and crop conditions favorable and some points report early wheat heading out. Central Saskatchewan crops are well advanced and rapidly growing. Favorable weather conditions prevail and rain in plenty. Western Saskatchewan reports are equally favorable with grain twenty inches long and prospects bright. Eastern Alberta crops are in splendid condition; weather warm with sufficient rains. While barley and wheat are twenty to twenty-four inches. Prospects are promising.

THREE NATIONS JOIN IN PETE

Britain and France Join United States in Celebration at Historic Lake Champlain

Hotel Champlain, Clinton county, N.Y., July 6.—On the field about Fort Ticonderoga, where British and American forces were fought in different wars were fought, President Taft, Ambassador Jusserand and Ambassador Bryce talked peace today. President Taft's car was hooked on to the New York territory committee special. Albany this morning, General Nelson A. Henry and Captain Simmons representing Governor Hughes and Col. W. D. Nutting, acting for Governor Prouty of Vermont, greeted the President. Ambassador Jusserand, the first speaker, spoke briefly for Champlain who discovered the lake, the discovery of which was being celebrated, and then went into a lengthy eulogy of Montcalm. Ambassador Bryce sounded the peace note in his first speech. He said that a spot so beautiful, the creator surely had meant for something else than fighting. The Ambassador took up the eulogy for General Wolfe, the opponent of General Montcalm in Quebec. In finishing his speech Ambassador Bryce asked what future generations would say to their famous battlefields, and answered himself, "with admiration that we admire the men who fought as heroes, their valor and their self-sacrifice, but don't do it again."

THE MARKETS.

FARMERS' MARKETS.

Oats 45c
Feed Wheat 50c
Barley 45c to 50c
Lamb, per cwt. \$1.30
Show per cwt. \$1.35
Fat Steers, 1,200 lbs. 4½ to 5c per lb.
Cows and Heifers—¾ to 4½c per lb.
Eggs 6½c per lb.
Potatoes 3½c per lb.
Sheep 5c to 5½c per lb.
Lamb, per cwt. 5½c to 6c per lb.
New Hay \$15 to \$17 per ton
Timothy \$20 per ton
Dairy Butter 20c to 25c per lb.
Eggs to dealers 20c per dozen
Carrots 7c to 9c per bushel
Turnips 1½c per lb.
Cabbage 8c per lb.
Beets 2½c per lb.

RETAIL PRODUCE MARKET

Cold storage is just in its infancy in Edmonton, and the produce trade stands to suffer by it at all seasons of the year. At present the supply of butter is very plentiful and an immediate demand regulates the price farmers are selling their product at a greatly reduced figure. If there was a cold storage warehouse where the present surplus supply could be stored the fluctuations in price would not be so heavy nor would the farmer receive such unequal returns for his labor. By next fall and winter production will be decreased, and as there will be little or none of the product in cold storage prices may again rise to the height at which they were during the past winter. With good cold storage system local dealers could do much for the dairy farmers of Edmonton district. Prices now are, dairy 25c, creamery 30c.

The egg market presents the reverse side of the situation. During the season when eggs have been scarce and prices high, the price of eggs could do much for the dairy farmers of Edmonton district. Prices now are, dairy 25c, creamery 30c. The egg market presents the reverse side of the situation. During the season when eggs have been scarce and prices high, the price of eggs could do much for the dairy farmers of Edmonton district. Prices now are, dairy 25c, creamery 30c.

DECREASE OF LIVE STOCK.

The report of the statistics office at Ottawa to hand show a rather startling decrease in the totals of live stock in the Dominion from those of a year ago. Milk cows, cattle, sheep and swine are down, and the decrease is in degree the only increase noted being in horses, and even here the Province of Ontario shows a decrease.

General Manager Assaulted.

Sydney, N.S., July 7.—The second day of the strike opened with a small disorder at the collieries. General Manager Duggan was assaulted by seven men one being a United Mine Worker. The trial has been adjourned. The riot act was read at No. 2 colliery. Practically all the mines are in operation yet. As workmen wishing to remain at work approached No. 2 this morning they were met by thousands of jeering, shouting, ex-comrades. General Manager Duggan, J. K. L. Ross and Superintendent McKenna were present and attempted to calm the crowd but unsuccessfully. Duggan placed himself at the head of the workmen and asked the strikers to break away peacefully. A striker named Sherry assaulted him, though not seriously, and was arrested. Excitement is growing rapidly.

Foreigner Killed in China.

Pekin, July 6.—The meteorological expedition under Lieut. R. S. Clark, a former officer of the American army, left Anchorage in Kanan province two days ago for Peking. The expedition is returning because of an encounter with natives last month in which a member of the party lost his life.

JOINT TERMINALS FOR EDMONTON

G. T. P. General Manager Reaches the City to Confer With D. Mann Tomorrow

(Wednesday's Daily). The general manager of the Grand Trunk Pacific, E. J. Chamberlin, arrived in the city this morning from Saskatoon, accompanied by the chief engineer, B. B. Keelher, and a train conductor. They came in by the general manager's private car Prince Rupert, attached to the Winnipeg express, and left for C.N.R. Tomorrow morning D. D. Mann, vice-president of the O.N.B., and the chief engineer, M. H. MeLeod, will arrive in the city. A conference will take place tomorrow morning between the railway magnates, at which the question of joint terminals will be the principal matter discussed.

Mr. Chamberlin spent the forenoon at the G.T.P. offices and will likely remain in the city until the arrival of the steel head, which may be delayed from Saturday, as it is first expected, until the middle of next week, by the heavy rains.

The question of the steel head being hurried towards Edmonton at a rapid rate and the line was being put in first class shape. The trains would reach this city before the end of next week at the very latest, unless something unforeseen occurs.

Speaking in the Bulletin this forenoon, Mr. Chamberlin stated that there was little to be said at the present time. The steel was being hurried towards Edmonton at a rapid rate and the line was being put in first class shape. The trains would reach this city before the end of next week at the very latest, unless something unforeseen occurs.

FIVE SUFRAGETTES INVADE WALL STREET

Get a Warm Reception But Sold Magazines and Made Speeches.

New York, July 6.—Five violent suffragettes led by Mrs. Sophia Loebinger made an onslaught on Wall street today, just as the crowds of brokers and clerks poured out of the stock exchange building and despite the water, ink and ticker tape strewn from windows upon them, they held their ground. Mrs. Loebinger wiped the water from her black silk frock and of the wide rim of her picture hat as she said: "It's self-defense work with us and so long as they don't knock us senseless I don't mind." With the ring-leader of the militant end of the suffrage movement were Mrs. Murphy, Miss Mary Tye, Miss Klitzschek and Miss Sand. Several times, as the women halted on the steps of the office building to eat their magpies and cigar fans the crowds became so great that the police had to disperse them. At every entrance to buildings mounted the steps and made short impromptu speeches to the crowds. The procession lasted over an hour and tired, red-faced and rather exhausted the suffragettes took the subway up town with what they had left of their wares for Wall Street.

General Manager Assaulted.

Sydney, N.S., July 7.—The second day of the strike opened with a small disorder at the collieries. General Manager Duggan was assaulted by seven men one being a United Mine Worker. Continued on page two.

FARMERS' MARKET.
(Continued from Page 1.)

It is little to be wondered that live stock command a much higher range of values than has usually been the case.

CHICAGO MARKET.
(Continued from Page 1.)

CHICAGO LIVE STOCK.
Chicago, July 6.—Hogs were steady to 5c higher and came steady; sheep and lambs steady to 10c lower.

CHICAGO PRICES SAG.
Chicago, Ill., July 6.—The movement of new wheat in increased amounts in the south-west, coupled with a sensational let down in values at St. Louis and Kansas City, etc., the signal for one long down-out selling day today, which was accompanied by declines of 2 to 3c.

Chicago, Ill., July 6.—The movement of new wheat in increased amounts in the south-west, coupled with a sensational let down in values at St. Louis and Kansas City, etc., the signal for one long down-out selling day today, which was accompanied by declines of 2 to 3c.

Chicago, Ill., July 6.—The movement of new wheat in increased amounts in the south-west, coupled with a sensational let down in values at St. Louis and Kansas City, etc., the signal for one long down-out selling day today, which was accompanied by declines of 2 to 3c.

MONTREAL LIVE STOCK.
Montreal, Que., July 5.—About 1,200 head of butchering cattle, 500 calves, 300 sheep and lambs and 1,000 fat hogs were offered for sale at the Montreal stock yards today.

GLASGOW LIVE STOCK.
Glasgow, July 6.—Edward Watson & Ritchie report 212 cattle offered; trade worse, prices lower; top steers 33 1/2 to 13c per lb.; secondary 33c; cows 11 1/2; bulls, top 12c; current price, 11 1/2.

ROADS DEPARTMENT

(Continued from Page One.)
graph lines through the city in a cable and on the city's poles, the company to pay a reasonable price for the use of the same.

On the information of the acting city engineer that the plans for the bridge across Red Creek are complete, the council decided to call for tenders at once.

Mayor Lee and Alderman McInnis were appointed a delegation to represent the council at the Convention of Municipalities which meets in Medicine Hat on July 26th and 27th.

The request of J. McDickson for the removal of dilapidated buildings on the north east corner of Namayo and Jasper avenues was referred to the city solicitor for the legal aspect of the case.

A communication was read from the local branch of the United Farmers of Alberta urging that a market building for the sale of small produce be erected on the new hay market site.

The petition of the Boyle street residents for the block pavement was referred back for further signatures.

A report was read on the Fourth street boulevard by the city engineer's department and a completion of the work may be effected as quickly as possible.

Ex-Detective Griffiths was given an honorable discharge from the police force. A letter to this effect was drafted for him at last night's meeting of the council.

EDMONTON BULLETIN, THURSDAY, JULY 6, 1905.

LEUTENANT GOVERNOR OPENS CALGARY FAIR
Large Crowd in Attendance—Stock Show Beats Dominion Fair—Historic Pageant.

Calgary, Alta., July 5.—Calgary's exhibition feature, the greatest pageant in the history of the west was conducted this morning just before noon and was heartily cheered by the large crowd of spectators which included all the citizens of Calgary who could get out as well as the large throngs which came in by special trains from the north and south branches.

One of the most picturesque features of the pageant was the Indian section which was a gorgeous throng of natives, over six hundred in number who appeared in all the gaudy and weird costumes which they considered befitting the occasion.

The city is thronged with visitors who have come from all points. The fair was opened this afternoon by Lieutenant Governor Bullock, and throughout the day was cloudy there is no much danger of rain marred the proceedings.

Through a short session of the city council was anticipated Monday it developed into a very lengthy one. The main item on the agenda was a hearing given to delegates with reference to the proposed new bridge across the Saskatchewan.

The council decided to appoint a committee to inquire into the various other committees to approach the local government to see what grant can be secured.

First Street Property Owners' Kick.
First street property owners headed by A. Cristall, appeared to enquire when First street north of the end of the present pavement should be put in proper condition and when the street cars should be operated.

Another Body Fanned.
Niagara Falls, July 4.—The river this afternoon gave up in the city with a month and the fourth within a week. It is that of a man forty years old and 5 feet 9 inches in height.

COUNCIL CONSIDERS BRIDGE

Committee Will Be Appointed to Wait Upon Local Government.
Though a short session of the city council was anticipated Monday it developed into a very lengthy one.

The council decided to appoint a committee to inquire into the various other committees to approach the local government to see what grant can be secured.

Parade Failed to Open.
Portland, Maine, July 5.—Before 10,000 people who assembled on the eastern promenade of the city this afternoon, James Corcoran, aged 28, a professional aeronaut, fell 300 feet to the ground and was so badly injured that he died fifteen minutes later on the way to the hospital.

THURSDAY, JULY 8, 1909.

THE AGRICULTURAL COLLEGE.

The Calgary Albertan finds trouble in interpreting the meaning of an editorial published recently in the Bulletin on the subject of the proposed agricultural college. Without offence, it may also be said that its efforts in that direction are not over successful.

At present the farmer's son receives a smattering of information regarding agriculture in the public school—such information being of course purely theoretical. This is as far as he can at present receive instruction in his line of business in the province.

The agricultural college should stand in the same relation to the business of farming that the university stands in relation to the profession of medicine—it should qualify its students for that occupation so far as possible both by study and by practice.

Meantime in this agricultural country it would surely be folly to neglect the opportunity for using the university as a means for expanding the field of agricultural knowledge. Research work could of course be carried on at the college, perhaps as well as at the university.

A "Prince" With a Bomb. This July 3—A Caucasian prince named Chalkidze was made a prisoner here Friday while attempting to blackmail a rich resident of Tiflis by "black hand" methods.

MAKING MONEY FROM SEWAGE.

Sewage disposal is one of the problems that have provided thought-germs for the councils of western cities in recent years and to which no final solution seems to have been yet found.

Mr. J. E. Ray, trade commissioner at Birmingham, discusses the subject in a recent bulletin published by the department of trade and commerce. He says the meetings of the seventh international congress of applied chemistry recently held in South Kensington have been full of interest, but perhaps no subject with which they have dealt concerns the general public more closely than sewage disposal.

At present the contents of sewers are in some towns discharged into large tanks where solids are settled out forming a "sludge" containing about 90 per cent. of water. This is filtered, reducing it to a cake which contains only about 50 per cent. of water, which is usually dumped on land specially secured for the purpose.

When the sludge is used as manure to the neighborhood, in the course of decomposition, to this objection is added another, namely, that while the chemical composition of the sludge would indicate considerable fertilizer value, this is greatly diminished, and in some cases quite extinguished by the presence of large quantities of fatty matter, grease and soap.

It is from the recovery of the valuable fatty acids contained in the soap that the process now recommended derives a large part of its revenue, the remainder coming from the residue of the sludge cake, the fertilizing value of which can now be realized, while the resulting manure is also fertilized and odorless, so that it can be stored or used without creating any nuisance.

The system is as follows: The sludge cake having been dried by heat is mixed with a little acid and passed through a specially designed retort in which it is subjected to a current of superheated steam, which carries away with it the fatty acids to be condensed in a water-cooled tower. The fat can be easily and cheaply purified, yielding a grease rich in steric acid—a valuable commercial chemical. The average profit for a city of 100,000 is estimated at roughly, \$12,500.

INDIAN ANARCHISTS.

The political assassin has appeared in London in supposed behalf of the cause of the freedom of India. To Dr. Goldwin Smith and like thinkers this will be another evidence of the folly of holding a country in which Britons cannot live and rear their children. To the British statesmen who are burdened with the task of saving India from the thousand mutually hostile clans who dwell there it marks the emergence of a new problem. There have been political assassinations among the natives of India before, but heretofore they have confined themselves to India. Their appearance in the heart of the Empire is a new feature and anything but a satisfactory one. Whatever may be said of Dhinage it must be conceded that he had the courage of his diabolical convictions, courage even to the point of willingness to die for them. He shot his victim in a crowded hall, where escape was hopeless, and according to the despatches he struggled with his captors in an effort to turn his weapon against himself. Obviously he knew that to shoot Willie meant death for himself, and fired with this fact clearly in mind. In this kind of courage he ranks with the murderers of President McKinley. He was prepared for death if he could only slay his selected victim. No doubt he was mentally deranged, and it would be an outrage to invest the Indian people generally with his sentiments. But the trouble is such fanatics do not flourish singly. They appear in

EDMONTON CENTRE OF VAST TERRITORY

its Tremendous Development During Past Few Years—Capital Desired to be Home of Great Industries.

Trade Gazette, Calgary—Edmonton, the centre of the great north half of Alberta and the supplying point of hundreds of small and growing towns, promises a great future for itself and for its citizens. The city is situated on a navigable stream, is the radiating point for three great railways, has the entire north trade in its grasp, and has a population of citizens so progressive that the city shows an increase in every line of business every month.

Where two years ago were a few stores, a few hotels, and the centre only of the great fur trade of the north, now a great city of between 20,000 and 25,000 hustling, enterprising citizens, with the weights of loads of scrap iron sold by Franks to the company. Moren has since abandoned his work, and he himself when he was acting as weight clerk and proposed that he should increase the weights, but that he did not have so until September, 1907, when he was unable to pay Franks \$55 he had borrowed. Since then he had made \$700 in three years on the shifting weights. Franks sharing up the profits with him.

Weight Clerk Had Rake-off.

Hastings, July 3.—Louis Franks was this morning charged with a rake-off on the charge of conspiring with H. M. Moren, an employee of the Hamilton Steel and Iron Company, to defraud the company of \$5,000. Franks was charged with conspiring with Moren to load a truck with scrap iron sold by Franks to the company. Moren has since abandoned his work, and he himself when he was acting as weight clerk and proposed that he should increase the weights, but that he did not have so until September, 1907, when he was unable to pay Franks \$55 he had borrowed. Since then he had made \$700 in three years on the shifting weights. Franks sharing up the profits with him.

Second Man Got Away.

Vancouver, B.C., July 4.—The engineer and fireman of the C.P.R. train which was hit up a fortnight ago at Ducks, B.C., have identified the body of the man shot by Constable Pecker at Ashcroft Monday night as that of the leader of the bandit. It is admitted that Constable Pecker's murder, the second of these kidnappers, have escaped from that part of the country, the tired posse returning to Ashcroft and Kamloops after a fruitless search of days.

Discussed Immigration.

London, July 3.—(C. A. P.)—Earl Grey, accompanied by Hon. Frank Oliver and J. Obed Smith, had an interview today with Hon. John Burns. Interviewed by the C. A. P., Mr. Oliver said: "There is nothing to tell you. We just had a talk on emigration matters in a general way." Mr. Oliver leaves today (Saturday) for the continent.

"Murder" the Verdict.

London, July 5.—The jury in the inquest on the death of Lieut.-Col. Willie, murdered by Dhinage, the fanatical Hindu, returned a verdict of murder. The evidence showed the crime to be premeditated. Adjournment followed.

FAIR RECEIPTS.

The receipts of the Edmonton exhibition from the gates, and grand only are as follows:— First day, June 29, \$1,332.00 Second day, June 30, 2,677.75 Third day, July 1, 2,657.75 Fourth day, July 2, 2,127.75 Total, \$8,895.25

THE WEST FROM A CAR WINDOW

(M. O. Hammond in the Toronto Globe.)

Lamont, Alta., June 19—A notable effort in the work of Canadianizing the hosts of foreigners recently added to the population of Western Canada is being carried on by the government of Alberta in this vicinity. The race most prominent for miles east and west of Lamont, especially to the north are those generally spoken of in various sections which are called Bukovinians, while the general name of Ruthenians is in reality more correct.

WANTS PARDON.

For Crime For Which He Was Condemned to Death. Atlanta, July 4.—Will Myers, who escaped from the Atlanta jail in 1894, on the eve of his execution for the murder of Forest Crowley and has since claimed the authorities, has written a letter to Governor Brown asserting that he is innocent of the murder and asking for a pardon. Myers says that he was given one of the employees of the jail \$1,500 to allow him to escape. He claims that he went to Cuba, and says "I remained in Cuba for five years. I returned to this country, to the state of Georgia, where I have since lived lawfully. I was a member of Company B, 1st Regiment U.S. Cavalry, and was discharged at Fort Slocum, Ga., May 2, 1899. I then came to Atlanta, where I was married and have three children. I was well respected in my local territory."

The Schooner Abroad.

The schooner agency at present in use to assimilate these foreigners is the public school system, and many of these Galicians have been here ten years, it was not until after Alberta became a province, less than four years ago, that the government was organized at once. First comes a request from one or more persons in a locality for a school. A district officer, just having come from Russia, the bridge-maker however, said this was no barrier, married the girl through a Canadian clergyman, and the two are getting on splendidly.

A Rebellion that Prospered.

In another recent case there was evidence of a rebellion against the old regime, and also of a good spirit. A young Galician wanted to get married. A chum found him a girl, and he liked her. The father was agreeable, and promised to give 100 acres of land, ten cattle, and some money. All was well until the groom-elect proposed the employment of a Canadian clergyman for the ceremony. The father refused, and the contract was surrendered. The young Galician was sorry, but he looked about again, and at the next dance—the centre of Galician social life—he met another girl who pleased him even more. Father No. 2 was favorable, but hesitated because he had no dowry, just having come from Russia. The bridegroom however, said this was no barrier, married the girl through a Canadian clergyman, and the two are getting on splendidly.

Eastern Scribes Will See the Show.

Athens, Ohio, July 5.—According to news from Salonica, it appears certain that the feeling against the Greeks is increasing. Certain fanatical Mussulmans have conceived the plan of organizing violent incidents with a view to throwing the responsibility for them upon the Greeks, thus provoking an explosion of fanaticism and a massacre of Greeks.

Working Up a Massacre.

The Galicians seem a softer race, yet they are fond of laughter. A back-swinging woman was seen yesterday to greet an especial friend. She stooped to kiss his hand, then she raised her lips. They were very jovial under the freedom of the new world. As we drove back to Lamont we passed many wagons returning from town, others camped by the wayside resting over night for an early arrival at the Lamont market. A last picture was a solitary

IRON BEDSTEAD—Best white enamel finish, 1-1/2 in. posts, different styles, brass top rails, extended foot end, in 3 ft. 6 in. wide only.

THE T. EATON CO LIMITED WINNIPEG CANADA

Allover Embroidery Waists a Wonderful Value at \$1.69

The material cannot be matched in our own embroidery store at less than 50c a yard and, as every woman knows, it takes 4 yards to make a waist.

A "Hot" Value in a Copper Kettle

This is a kettle that will ornament any kitchen range. It is made of copper throughout and nicked all over and it shines like burnished silver.

Men's Worsted Sox 21c a pair

A wonderful value, for this hosiery has been knitted of heather mixture wool which gives no end of good wear in hosiery.

36 Yards of Baby Ribbon 25c

This is a lovely quality of ribbon brightly finished with a satin face and woven under a stout union back—a ribbon that will give splendid service and keep its good looks until the last.

Can You Miss These Pretty Oriental Laces and Insertions at 10c

This is one of the many exceptional values that will greet exhibition visitors on Farmers' Day in the embroidery store.

Heavy Wool Filled Art Squares \$6

One of these heavy wool filled art squares will make a handsome and serviceable floor covering for bedroom, sitting room or dining room and on many of them the saving amounts up to a clear third.

Pretty Wash Belts Selling at 29c

These are unusually pretty belts, so much so that we considered them specialties value at 50c and 75c, and so did others, for they sold freely at those figures.

Men's High Grade Worsteds Suits, \$10.85.

The qualities which are regularly sold in this store at \$15.00, \$16.50 and \$18.00. This offer is made up of part of our own high grade stock, and the season's overruns of one of our best makers.

Women's Fall Coats at Less Than Tailored Cost

A small quantity, considering the exceptional value these handsome coats are at this price—not more than two hundred. A certain well-known manufacturer who is famed for the elegance of his styles and the high character of his tailor work, had a quantity of cloth on hand and in the dull spell previous to his fall tailoring season, offered to make it up at less than tailoring cost, cutting it over the new patterns for fall. There was no resisting such a generous offer. Here are the coats:

\$7.95 They are beautifully tailored in a fine quality of kersey cloth, and in the coming styles for fall and winter. They are cut long and semi-fitting, and lined to the waist with satin. They are trimmed at the front and back with stitched straps of satin and buttons, and all have a matched collar, edged with wide strap of satin. Sizes 22, 24, 26, 28, 30, 32, 34, 36, 38, 40.

Drug Store Offers Special Values

In commodities for which farmers find a constant need, for instance, saltpetre, sulphate of iron, neatsfoot oil, Krisol dip. The price for these and others has been made low enough to warrant laying in a good supply for future needs.

SEBILIZED SULPHUR—Regular 4c lb. Farmers' Day Special, 10c lb. or more, per lb. 2c SALT PETRE—(Powdered) Regular 10c lb. Farmers' Day Special 3 lbs. for 20c

POWDERED SULPHATE OF IRON—Regular 5c lb. Farmers' Day Special 6 lbs. for 25c OIL OF TAR—Regular 25c pt. bottle. Farmers' Day Special 15c

DIAMOND E NEATSFOOT OIL HAIRNESS DRESSING—1 gal. tins. Regular \$1.00. Farmers' Day Special 90c DIAMOND E CREAM SEPARATOR OIL—1 gal. tin 45c. Farmers' Day Special 40c

12,000 Yards of Flannelette at Less Than Mill Price

Think of that for value! And the season of fall sewing close at hand too, when nearly every woman in the land will have need of just such finely woven, velvety surfaced flannelette to make up into warm, snug underclothing for herself and children.

The value is so extraordinarily good that we can only promise it for the one day, for large as the quantity is, 12,000 yards, we look to measure off the very last yard by six o'clock on Farmers' Day. A small quantity of pink and blue striped flannelette for those who get their order in early. Farmers' Day Special, yard 6c

THE T. EATON CO LIMITED WINNIPEG CANADA

The Dress Goods Store Presents These Many Splendid Values for Farmers' Day

Many women are certain to turn the occasion of their visit to the exhibition to good account, by taking home the makings for handsome fall costumes or evening party dresses.

Here we give a list of many of the handsomest fabrics that have left the cleverest French and European looms this season and all have been greatly reduced below regular Eaton prices. You can judge what splendid values that means.

Eolienne and Ottoman Corde 60c

Half silk and half wool weaves of the best grades. These have a brilliant sheen, shimmering finish, and are very fashionable for summer dresses. Splendid range of light and dark colors, also black.

Satin Finished Queen's Cloth 35c

A great favorite for separate skirts and suits, with a deep rich, permanent luster. These will not spot or shrink. Colors navy, brown, grey, cardinal, myrtle and black. Regular 50c.

Brilliantine, Special 39c.

A beautiful quality with brilliant silky finish and dual repelling. A quality that gives unlimited wear and always looks dressy. Colors grey, myrtle, navy, cardinal, brown, cream and black.

French Broad Cloth 90c

One of the best Eaton qualities we stock. Made from the finest selected pure wool, and dyed with the best Lyons dye, and medium weight. This cloth will be the vogue for fall and winter costumes, etc. Colors navy, brown, grey, fawn, myrtle, reseda, anemist, sky, rose, wine, peacock, Copenhagen and black.

Cravenette Coating, Special 90c.

The best English manufacture, guaranteed thoroughly rainproof and absolutely free from odor. This is a medium weight material, ideal for holiday wear. Colors dark grey, green, fawn, brown, navy and black. Width 60 inches.

A Very Attractive Value in English Flannelette Night Gowns 99c

This is a night gown that we regularly sell at \$1.25 and it will need no straining the eyesight to see every cent of the saving we announce—and more.

Many women when they see how snug and warm it is and how prettily it is made and finished are sure to supply the winter's need. The material is a fine quality of English flannelette, made up in a pretty style, having the yoke trimmed with silk embroidery insertion, and the large collar trimmed with insertion and edge of Torchon lace. The sleeves are finished with full and edge of lace.

Lard and Bacon Will be Down at Eaton's on Farmer's Day

Compared with current market prices for the prime qualities of bacon—and Eaton's keeps no other—the following list of prices presents its own argument why you should lay in a season's supply on Farmers' Day.

Table with 3 columns: Product Name, Price per unit, Price per unit. Includes items like HAMS—Prime, weights 12 to 14 lbs., SIDR BACON—10 to 12 lbs., BACK BACON—Per lb., COTTAGE HAMS—Per lb., PINE RIBS—Per lb., LARD—Clear Bacon—Dry salt, 60 lbs., 12 70 lbs. Per lb.

Men Will Find These Hog-Skin Gauntlets and Harvesters' Gloves Great Value

They are value tempting enough to suggest taking home an extra pair or two for the season's work. They are splendidly made gloves, fit comfortably and will give no end of good wear.

MEN'S HOG SKIN GAUNTLETS—The leather in these gauntlets is very soft and pliable. All the seams are full welded, and the cuff is of a good size to take in the coat sleeve. A great glove for where there is hard work to do.

MEN'S ONE FINGER MUSTANG WORKING GAUNTLETS—These gauntlets are as tough wearing as the animal from which their leather came. A splendid glove for harvesters' use, and no matter how wet they become they will always dry out soft.

MANY STOCK SALES MADE AT THE FAIR

Exhibitors Disposed of Many Animals During the Exhibition Last Week.

Live stock is not exhibited at an agricultural fair for honors only. The exhibition is to serve as an advertisement and to afford an opportunity for the sale of some of the stock.

The great advertisement which the Edmonton fair has been to the live stock exhibitors is evidenced by the inquiries which were made as to the grounds for pure bred stock and the number of valuable animals which changed hands before the close of the fair.

Of the registered heavy draught horses on the grounds the most important sale closed was that of Baron Stanley, a yearling stallion, owned by T. J. Scott, of North Battleford. This very promising animal was sold to Thomas E. Law, of Strathmore, near Lloyminster, for \$1,200.

Asked as to any inquiries he had received for the purchase of stock, Mr. Melick said that he had sold a calf which was first in the class of under 12 months and that he had received inquiries for two other bull calves.

Low Hutchinson, of Duhamel, with Aberdeen Angus, J. Tough, with Herefords, Jas. W. Ingham, with Shorthorns and C. F. Lyall, of Strone, with Shorthorns also expressed their satisfaction with the results of the fair.

Three great breeders of dairy cattle, Jerseys, Ayrshires and Holsteins, were exhibited at the Edmonton fair. Of these there were few for sale outside of the Jerseys. Messrs. B. H. Bull and Son sold almost their entire herd before leaving for Calgary.

Probably the largest and most extensive breeder of pure bred stock at the fair was T. A. Cox, of Brandon, Ont. Mr. Cox brought direct from the east to Edmonton, 55 Berkshire hogs, 20 Shropshire Down and Hampshire sheep, five hackneys and one Shetland pony.

Sheep and Swine Sales. Of the Berkshires, some of the best-made were as follows: Stock Jersey and sow with litter, twelve head in all, to Messrs. Sheppard and Housley, of Strathecona; one pure bred boar to J. S. Wilson, of Lamoureux, one boar, two months, to D. W. Warner, of Clover Bar; and several head of male stock to J. R. Matheson, of Union Lake.

Of the prize list Mr. Cox took ten firsts, eight seconds and three thirds in Berkshires, and ten firsts and two thirds in sheep. The strongest competition was Lew Hutchinson, the Berkshire breeder of Duhamel, with Mr. Cox's herd somewhat depleted by his sales and with entries at the Calgary fair for calendar year hogs, Mr. Hutchinson is expected to make a good showing.

Among other sales was that of a boar owned by W. Wakeford, of Clover Bar, to D. McLarty, of Vegreville. Checks are now being made out to the winners at the Edmonton exhibition and after this week Alberta breeders will be low and say nothing until the approach of the agricultural fair next year.

Motorists Badly Burned. New York, July 4.—Miss Mao Smith, a young society woman of Jersey City, and Andrew McWilliams, a wealthy shipbuilder, were badly burned early today when their automobile collided with a trolley car at Brooklyn.

Visitors Flock to Cobalt. Cobalt, July 4.—The town is crowded with sight-seers from the three other cities of the county. The sight of the silver hub to view the ruins. Lots will be surveyed to get the proper alignment of the streets and the town will progress further construction of match boxes.

Will Fight in Indiana. Elwood, Ind., July 4.—With the importation of strike breakers, the strike of the Amalgamated Association of Tin and Steel workers which has assumed a critical stage and it is now feared that trouble is in evidence.

WOMEN'S CONFERENCE WAS GREAT SUCCESS

Thoughts it Urges to Uge Women's Suffrage Question at This Time—Lady Aberdeen Leaves for Home.

Montreal, Que., July 3.—Lady Aberdeen, who arrived here last night after the close of the international council of women meetings at Toronto, expressed herself as greatly pleased at the reception and success attending the convention.

Asked regarding the new committee on public health, of which she is chairman, Lady Aberdeen said: "I deal with every phase of the question, not with tuberculosis alone. I have been greatly impressed with the effort made here to lower the death rate among infants."

Asked about her impressions of Canada, Lady Aberdeen said: "The country has grown like a child. It has matured and is yet the same. While admitting that he visit had been a strenuous one, she disclaimed being tired, but admitted that the voyage on the Megantic, which sailed Saturday night, would prove a welcome rest, particularly as much is awaiting her to do when she reaches home."

Both undoubtedly would have been burned to death had not passengers from the trolley car rushed to their aid. The girl's clothing had almost been burned from her body. Her hair and eyebrows were burned and her face was blistered and her limbs burned.

Aeronaut Killed. Redding, Cal., July 4.—Capt. James Moore, the Los Angeles aeronaut, who was fatally injured Saturday afternoon when his dirigible dirigible exploded, succumbed to his injuries at 11:45 o'clock Saturday night.

Suicided at Barrie. Barrie, Ont., July 4.—Alex. Walker, a resident of the railway ward of the town took a dose of laudanum and died in two hours. He leaves a wife and family.

CARS RUN IN CALGARY. Calgary, July 5.—At 3.10 this morning under the direction of Supt. McCaskey the first street car ever run in Calgary got under way.

Recruiting Workers. Pittsburg, Penn., July 4.—Officials of the American Sheet and Tin Plate company today opened a recruiting office in Pittsburg for non-union workers to start the tin plate mills which have been closed through the strike on the part of the Amalgamated association.

Feared a Finn Plot. St. Petersburg, July 3.—In connection with the Woodburn incident when this British steamer was fired upon by a Russian torpedo boat or passing too close to the Imperial yacht Standard, with Emperor Nicholas on board in Pitkas Bay a Finnish newspaper published the following: "The strict surveillance of the shipping near Pitkas Bay was due to information received from the Russian Government that the Finns had purchased several thirty-knot motor boats with the intention of using them to sink the Imperial yacht."

Stocks in London. London, July 7.—The stock market was quiet today. The market was quiet today. The market was quiet today.

THE CROPS. Winnipeg, July 5.—Reports of the condition of growing crops continue favorable. In view of great heat following heavy showers last week and of stories of rust in North Dakota some anxiety was felt as to what might be its appearance in Southern Manitoba, but so far no reports to that effect have been received and spring wheat on light lands appears to have picked up remarkably during the past fortnight. The Manitoba crop is admittedly behind Saskatchewan and Alberta and is some days later than the average year, but under present weather conditions it is gaining ground rapidly and should such continue there is little danger of an unduly late harvest. Reports from Saskatchewan wheat country continue very favorable and prospects are for a very bountiful yield.

RAINIER RIVER ROBBERS. Search Proceeds With More Vigor Than Skill. Rainier River, Ont., July 4.—The hunt for the robbers who cleaned up the Bank of Nova Scotia, is proceeding with more vigor than skill, but it is believed that the bandits cannot have escaped the wild lands reservation, where they were traced. A farical search of the watershed and all the Galician shacks was a feature Saturday night. Warrants have been secured after it was published discussed several hours before the street, towards midnight the search began. The houses were carefully searched, while cellars and outhouses were ignored. Galician storekeeper, held on the strength of having spoken to the suspects in the morning he came out of his shack armed with his rifle. One of the police discharged his gun, when Hayner returned to his shack and tried to make his escape through the window. Another shot was fired from the posse. Hayner again took refuge in his shack and remained inside about twenty minutes, when he came out and gave himself up to the police. When Hayner was interviewed today he said he was not sorry for what he had done. The body of Fraser was sent to his father's home at Pilot Mound. Fraser was about 26 years of age and a member of Margo football team and very highly respected throughout the neighborhood and great regret is expressed at his death.

New Guinea Boundary Survey. Victoria, B.C., July 3.—Captain Heinman, of the German cruiser Araragi from Sydney, bound to Berlin brought news that the Anglo-German commission, which has been engaged in delineating the boundary across New Guinea, had about completed its work. The survey was carried out most admirably. Captain Heinman also brought news that the native iron-makers and many of their followers were deported to one of the islands in the Bismarck archipelago.

MANIFESTING ITS VIRTUES IN MILLIONS OF TEAPOTS DAILY. "SALADA" TEA HAVE YOU TRIED IT? LEAD PACKETS ONLY. BLACK, MIXED or GREEN. DON'T PHYSIC YOURSELF. It is a Tonic you want! Physicing lowers the system and makes it more susceptible to disease. The winter months have been the season for colds, coughs, influenza, and all manner of ailments which overtake you. PSYCHINE is the greatest of Tonic and should be taken by every one at this season of the year. PSYCHINE assists the gastric juices and ferments in their digestion of the food, cleanses the mucous membrane of the stomach, and has an invigorating and beneficial effect on the muscles and nerves. For Catarrh of the Stomach, Ulceration or Weak Stomach, DYSPEPSIA, the use of PSYCHINE is strongly advised. PSYCHINE acting on the Stomach restores it to a healthy condition, then acts through the stomach upon all the vital organs, creates an appetite, brings renewed vitality and strength to the entire system and enables it to throw off disease of every kind. It is the greatest health-giver known to medicine.

INVERMAY MURDERER GIVES HIMSELF UP

Lay in Ambush and Shot Neighbor While He Was Ploughing—Accused Supposed to Be Inmate.

Invermay, Sask., July 3.—On July 1, a homesteader named Hayner, of Margo, who for some time past has been suspected of having a deranged mind by reason of his writing threatening letters, carried out his threat with fatal result. Hayner had written letters threatening to shoot four of his neighbor homesteaders and yesterday he started out to execute these threats. He had planned to kill Hilliard, Fraser, Pifer and McDonald. He armed himself with a 30.55 rifle and bought a new box of ammunition and went to Hilliard's place. Not finding Hilliard at home he went to Fraser's, who was ploughing in a field near his shack. Hayner saw Fraser at the far end of the field and ambushed himself to await the approach of his unsuspecting victim.

When Fraser had passed him about 20 yards Hayner fired twice, both bullets passing through Fraser's shoulder and striking the horses. The horses started to run and Fraser still struck to his plough, when Hayner fired another shot, hitting Fraser in the back of the head, tearing away the top of his skull. Fraser's horse keeper found him dead in the field about ten minutes after hearing the shots fired. An alarm was immediately raised and the police wired for Hilliard's shack, but Hilliard, hearing of what had happened, went to Invermay to notify Fraser's relatives, who lived at Pilot Mound. This alone saved Hilliard's life. Hayner then took to the bush but came into Margo again in the evening, while the police were out viewing the corpse, and conversed with the storekeeper, keeping at a safe distance and keeping his gun pointed at the storekeeper while the conversation was going on. Hayner then departed and a posse of police and citizens started in pursuit. He had evidently gone to his shack and which was kept on the place. Six o'clock in the morning he came out of his shack armed with his rifle. One of the police discharged his gun, when Hayner returned to his shack and tried to make his escape through the window. Another shot was fired from the posse. Hayner again took refuge in his shack and remained inside about twenty minutes, when he came out and gave himself up to the police. When Hayner was interviewed today he said he was not sorry for what he had done. The body of Fraser was sent to his father's home at Pilot Mound. Fraser was about 26 years of age and a member of Margo football team and very highly respected throughout the neighborhood and great regret is expressed at his death.

The Massey-Harris Binder has the greatest name of any machine of its class in the entire world. We will prove it.

Stephens Barn and Elevator Paints unequalled for exposed wood or metal. The railways use Stephens Barn and Elevator Paints to protect their bridges and freight cars. The leading milling companies protect their elevators with them. The shrewdest farmers protect their barns and granaries with them.

You will find Stephens Barn and Elevator Paints unequalled for preserving exposed wood and metal surfaces against the peculiar Western climate.

BRANDON USURER GUILTY

Charged Plaintiff Nearly Thirty-seven Per Cent Interest.

Brandon, July 5.—I. A. Robinson, a prominent resident of Brandon, appeared before Magistrate James this morning charged with usury in that he did exact a certain sum of money from one J. Tully at a greater rate of interest than 12 per cent. per annum. J. F. Kilgour appeared for Robinson, and on his behalf entered a plea of guilty. A. Howden, counsel for the plaintiff in addressing the magistrate said the defendant had carried on the business of a money-lender for the last two years and that on the charge that he was now facing had loaned money to his client at a rate of nearly 37 per cent. He quoted the case before Mr. Justice MacDon-

SCHOOL OF MINING A COLLEGE OF APPLIED SCIENCE. Affiliated to Queen's University KINGSTON, ONT. For Calendar apply to the Secretary.

Professional baseball player must learn by bitter experience that modern umpire is a creature who not be taunted or trifled with. baiting is a thing of the past and a player of today who has the temerity to question the decisions of the who rules over the game will suffer for it.

On Saturday afternoon, Picheval of the Lethbridge team exacted Umpire Donnelly's continuous Ball, Ball, Ball, on what seemed to be a plate striking strike, down his glove in defiance of the subject of his indignation. In words he struck the club from Donnelly's shoulder. It took the about two seconds to fine him and bring him to the bench.

The withdrawal of Killaly from game left the Miners in a sad plight. In the first innings Picheval had a brilliant exhibition by allowing two bases on balls and two men with the sphere in succession went in to prevent a catnap for the last half of the inning and alaly warming up in the meanwhile had into the box in the second. Liza was being saved for the
