EARTHQUAKE IN TURKEY

Terrible Havoc Wrought in Towns and Villages, Very Severe on Southern Shores of Marmora.—Ravages of Fire Add to Disaster by Shock.

Constantinople, August 11.—Reports here today indicate that the great earthquake which was felt through a great part of Turkey yesterday was accompanied by much heavier loss of life than at first stated. The newspapers today estimated the number of victims at a thousand killed, while the injured are said to number from five to six thousand. The details of the earthquake, which are coming in slowly owing to the interruption of the wires, indicate that the seismic disturbance was widespread.

TERRIBLE DESTRUCTION AND THOUSANDS HOMELESS.

Several hundred persons have been killed. Thousands are homeless and outbreaks of fire have occurred in many of the towns and villages. Great destruction has been caused by the upheaval. The entire district between Constantinople and Adrianople felt the shock severely. Fugitives from Myriophite report three hundred killed and six hundred injured. The town was still burning when they left. Ganoshora has been wiped out, eighty persons being killed and thirty wounded. The wrecked buildings took fire and most of them were burned to the ground. HARROWING ACCOUNTS OF THE HAVOC WROUGHT.

Sharkoi was completely destroyed and two nearby villages were engulfed. Adrianople suffered little damage, but Thortu was partially destroyed by the earthquake and fire. The centre of the disturbance appears to have been the region of the Dardanelles.

Eye witnesses have arrived here from that section and give harrowing accounts of the havoc wrought. The majority of the houses in Gallipoli are in ruins and the people are camping in the fields. Thanak Kalessi is in an equally bad plight,

but the loss of lives in these towns is small, although the injured are many.

MANY OF THE VILLAGES ARE IN FLAMES.

The shock was felt on the warships anchored in the Dardanelles. It was first attributed to Italian torpedo boats. The captain of the American steamer Virginia reports, that the light house at Canos Hora, in the Sea of Marmora, has disappeared, and that the villages in the surrounding country are in flames. He was unable to anchor and render assistance owing to the violent movement of the sea.

Reports show that it was very severe on the southern shores of the Sea of Marmora. Telegraphic communication with the Dardanelles is interrupted, but reports received by wireless telegraphy state that the Greek Consulate was destroyed. The villages on the Sea of Marmora suffered greatly, and many of their inhabitants were killed or injured. A considerable number of the injured have arrived here for treatment in the hospitals.

NARROW ESCAPE FROM DROWNING.

The Berwick Register tells of a party composed of Hanford Rawding, Rev. N. A. Whitman, L. J. Whitman, William Rawding, Jr., D. Smith, R. Whitman, Victor Charlton and P. F. Lawson, who were in a fishing sloop at anchor, with lines out about four miles south of Horse Shoe Cove, last Monday afternoon, and were run down by Sch. Klondyk, of Parraboro, which was coming up the bay. The boat, heavily ballasted, began to fill, when Hanford Rawding, with quick presence of mind, cut the anchor line and allowed the craft to drift itself. By constant bailing the sloop was kept afloat till it reached Canada Creek. The Register severely blames the schooner.

"Between the Acts."

Have you seen the posters announcing the very funny comedy—"Between the Acts," to be played in the Primrose Theatre next Monday evening? Here is the argument:—"Dick Comfert lives comfortably upon an allowance given him by his uncle, Meander, upon the condition that he shall not marry. Despite his uncle's wishes, he has fallen in love and married, being careful to keep the news from his uncle's ears.

He and his wife, Edith, have settled a few miles out of New York and finding the time hang heavy on his hands, he occupies himself writing a play, hoping thereby to win a prize that has been offered. This play has been completed and all that is necessary is to revise it, which must be done by the evening of the day in which the story takes place. He has revised the first Act, and is taking a rest "Between the Acts," when the morning mail brings him a letter from his uncle Meander stating that he expects to arrive that very day to remain until the afternoon.

What is to be done? How is he to keep his uncle from seeing Edith, and so discover that they are married?

This is the problem. The fun begins right away, and lasts until the very end. Reserve seats at A. R. Bishop's. The usual price for a good thing. Don't miss it.

OBITUARY

MISS MARJORIE DELANCEY.

Our quiet community was shocked on Wednesday, July 31st., to learn of the sudden passing away of Miss Marjorie DeLancey, youngest daughter of Mr. and Mrs. Uniacke DeLancey. Miss DeLancey had been ill about three months with an attack of fever, and it was hoped by her friends that she might rally, but she gradually grew weaker until the end came at an early hour on Wednesday morning. Marjorie will be greatly missed in her home and in the society of her young friends. She leaves to mourn their sad loss, a father, mother, two sisters and three brothers, who have our heartfelt sympathy in their sad bereavement. The funeral services were conducted on Friday afternoon by Rev. Norman Ritchie, of Middleton, at the home of the deceased. The pallbearers were A. Hunt, R. Morse, I. Morse and F. Veito. The remains were laid to rest beside her brother in Middleton cemetery.—COM.

MRS. NEWELL P. MURCH

The death of Mrs. Newell P. Murch occurred at her home in Jamaica Plain, Mass., on Thursday, August 1st., after a lingering illness of seven years, the last five months being confined to her bed. She was the eldest daughter of the late T. A. Balcom of Bridgetown. The funeral service was held at the house on Friday afternoon, conducted by the Rev. Mr. Osgood. Mr. Holden, formerly of the Weber quartette, sang very effectively "Face to Face" and "Good Night." The floral offerings were numerous and beautiful, expressing the sympathy of a large circle of friends. A devoted husband and a young daughter, three sisters and a brother are left to mourn.—COM.

Memorial Tower Unveiled

Halifax enters today upon a notable commemorative week. His Royal Highness, the Duke of Connaught, will be most cordially and heartily welcomed to the "Warden of the North" upon the occasion of his first official visit as the Governor-General of Canada. His Royal Highness while here will direct the public ceremony connected with the unveiling of the Memorial Tower erected for the purpose of commemorating the semi-centenary of Nova Scotia's first parliament. The important function will be attended by representatives of not only most of the Canadian provinces, but also of Newfoundland, City of Bristol and elsewhere who come to Halifax as guests of the Province.

The Shooting Case at Parker's Cove.

The details of the shooting case at Parker's Cove near Granville Ferry, of which the Monitor was able to get only a varied and partially inaccurate version by telephone before last Wednesday's issue, were as follows:—The sheriff at Annapolis was requested to apprehend for debt a man by the name of Hardwick, at Parker's Cove and being unable to go in person he deputized Policeman McDonald of Annapolis. The latter took as assistant Mr. Arthur Miller and went over to Parker's Cove. The man Hardwick being apprised of their arrival at his home, went out of one door as the constable and his man went in the other and escaped. The constable put Miller on guard on the road leading to the shore, arming him with a revolver and Miller says, told him to hold up anybody passing that way. Presently a fisherman by the name of Willard Guest passed along on his way to his fishing boat. This was about four o'clock in the morning. He was promptly held up by Miller at the point of the revolver, and asked his name. Having given his name, Guest refused to be detained and telling Miller not to interfere with him as he was going about his business, he started to go on, whereupon Miller fired a shot at him; which providentially went through the muscles of Guest's arm instead of going through his body. Unfortunately the name of Mr. Withers at the Ferry got connected with the affair, no one knows how, but Mr. Withers had been whatever to do with the case.

Crown Prosecutor Irvin has charge of the case. A warrant is out for the arrest of Miller, who is still at large.

Chief of Police MacDonald of Annapolis, who was served with a warrant of arrest on the charge of being an accessory before the fact and is on bail will be brought up for preliminary trial in Bridgetown on Thursday afternoon at 2 o'clock.

Notice to Fruit Growers

Dominion of Canada, Department of Agriculture, Dairy & Cold Storage Commissioner's Branch.

(Special to the Monitor-Sentinel) Our correspondents in Nova Scotia report, that apple scab is appearing in many orchards this season, which means that there will be more than the usual temptation to brand "No. 1" and "No. 2" apples not strictly up to grade. The reputation of Nova Scotian apples has suffered in the past on account of the fraudulently and carelessly packed fruit of a comparatively few growers, working a great hardship on the fruit grower who grows clean fruit and packs it honestly.

Growers are reminded, therefore, that Section 321 of the Inspection and Sale Act, Part IX, provides that fruit marked "No. 1" shall "include no culls and consist of well-grown specimens of one variety, sound, of not less than medium size and of good color for the variety, of normal shape and not less than ninety per cent. free from scab, worm holes, bruises and other defects." It provides also that fruit marked "No. 2" must include no culls and consist of specimens of not less than nearly medium size for the variety, and not less than eighty per cent. free from worm holes and such other defects as cause material waste. In each case, the fruit must be properly packed.

An increased staff of fruit inspectors will be on duty this season and every provision is being made to examine as large a quantity of fruit as possible. This applies to the fruit for the local markets as well as that for export. The Act will be strictly enforced, and growers are warned that violations will be followed by prosecution.

Copies of the Inspection and Sale Act Part IX (dealing with fruit and fruit packages) can be obtained on application to the Fruit Division, Ottawa. A. McNEILL, Chief, Fruit Division.

Wedding Bells

St. Andrew's Presbyterian church was the scene of an exceptionally pretty wedding yesterday morning at eleven o'clock, the principals being Miss Katharine MacNeil Whitman, daughter of Mr. and Mrs. A. N. Whitman, and Edward L., son of E. L. Thorne, for many years general manager of the Union Bank of Halifax.

The church was handsomely decorated with pink carnations, palms and ferns, and the wedding marches of Mendelssohn and Lohengrin were effectively rendered at the beginning and conclusion of the ceremony.

The bride, who entered the church with her father looked particularly charming in a suit of white whipcord and white hat trimmed with ostrich plumes, and carrying white bridal roses and lilies of the valley. Miss Harriet Book attended the bride, wearing light blue, her hat being of black with ostrich plumes, and her flowers pink carnations. Charles Thorne, cousin of the groom, was "best man."

Rev. Robert Johnston, pastor of St. Andrew's, performed the ceremony, and the bride was given away by her father.

The guests, who were limited to the relatives and a few intimate friends, were ushered to their seats by Messrs. Harry Doane and Reginald Major.

After the ceremony luncheon was served at the residence of the bride's parents, 271 Pleasant St., the decorations of the drawing and dining room being sweet peas and roses.

After receiving the congratulations of their many friends, the happy couple left on an automobile trip of about a week, when they will return for a brief visit to the City before leaving for Rouleau, Saskatchewan, where they intend making their future home.

The bride, who is a special favorite and enjoyed great popularity, socially, was the recipient of a large number of beautiful and valuable wedding gifts. The groom's gift to the bride was a pearl necklace; to the bridesmaid a necklace. Mr. Whitman's gift to his daughter was an automobile. From Mr. and Mrs. E. L. Thorne, the groom's parents, a case of silver.—Halifax Chronicle.

Provincial Exhibition

In about five weeks, or to be exact, on the 11th of September, the Sixteenth Annual Provincial Exhibition of Nova Scotia will open.

Every effort is being put forth by the commission to make this the best of all Fairs held in the Province. Special attention has been given to the various departments of the Exhibition and from the large number of enquiries for extra prize lists a large number of entries is anticipated in all classes.

Arrangements have been made with the different railways and the very low rates which have been in force will be continued this year.

The amusement programme can unquestionably be said to be the best that has ever been presented to the patrons of the Fair. Seven afternoons Racing Programme bringing not only our own Maritime horses, but as well entries from the United States and the Upper Provinces. Between the heats of the Horse Racing on three days will be the Foot Races for the Maritime Colleges, as well as those open to all amateurs in the Provinces.

Seven of the best vaudeville acts to be had have been secured, headed by "Cedora" in the Golden Globe, and the famous flying Jordans.

Two aviation flights daily, not a flying machine, but one of the Curtiss biplanes, concluding in the evenings programme with a generous display of fireworks.

ENTRIES IN ALL CLASSES CLOSE AUGUST 24th.

25,000 MEN WANTED

Regina, Sask., July 30.—Government labor leaders here estimate that 25,000 men will be required to handle this year's bumper crop. They are laying plans to get this number from Eastern Canada.

STRUCK AN ICEBERG

The Allen Liner, Corsican, Struck an Iceberg, in Fog, but Escaped Serious Damage.—Has Three Hundred Passengers on Board.—Will Proceed to Liverpool.

Montreal, Aug. 12.—Word came to the Allan Line office tonight from Capt. E. Cook of the Allan liner Corsican that his vessel struck an iceberg this afternoon in the vicinity of Belle Isle. The message is as follows:—

"Corsican struck an iceberg this afternoon at 4 p. m. while going very slow. Stem injured above water line and ship is making no water. Will proceed on voyage."

The above message has been received at the Allan office from Captain Cook, of the Corsican.

The exact position of the Corsican when she struck is not stated, but

the accident is thought to have occurred some hundred miles east of Belle Isle, judging by the latest reports from the signal service. The signal service report from Belle Isle shows dense fog prevailing, and this is probably the cause of the collision with the berg, and also accounts for the fact that the vessel was proceeding slowly.

The Corsican carried twenty-five first-class, seventy-five second-class and two hundred steerage passengers and sailed from Montreal for Liverpool last Friday morning at nine o'clock.

Cadets Leave for Aldershot Camp

A Thousand Lads From all Parts of Provinces Will be Under Canvas—Their Daily Programme.

The cadet corps, who are to take the six days' drill at Camp Aldershot, Nova Scotia, will arrive at Aldershot Aug. 16th.

An interesting programme has been arranged for their week in camp and with fine weather it should prove most profitable and enjoyable. The march-in and making themselves at home will comprise the first day's programme, together with a medical inspection and an issue of camp equipment. On the second day and for each of the days following there will be physical training every morning, and according to the stages of progress in the drill of the day, there will be squad and company drill, scouting and patrol work, battalion and engineering practice. On the fifth day there will be a sham battle and tactical manoeuvres about the field and in the afternoon a program of athletic sports and games will be carried out, after which there will be the award of prizes for honors gained. The cadets will march out for home on the sixth day.

During their stay in camp they will be subject to discipline similar to the rules for a regular militia camp being summoned from slumber at 5.45 a. m., by the gun at reveille and retiring to their lines at 9.30 when "lights out" is sounded on the bugle. There will be boys present from all parts of the Maritime Provinces and the total strength of the youthful defenders is expected to be about 1,000.

Riverside Cemetery

Those who have visited our Cemetery the past few weeks have been agreeably surprised to note the marked improvements that have been made. Grass and bushes have been cut and all lots trimmed and cleaned and the whole cemetery has now the appearance of care and neatness. At the last meeting of the Board of Directors Mr. Wm. Ruffee was appointed superintendent and authorized to obtain help sufficient to have all lots fixed up at once and then proceed with the new plans and work on the other portions of the Cemetery.

There is no doubt Riverside Cemetery can be made one of the prettiest burial plots in the province by a continuation of the interest and assistance our people have given to this matter this season.

We learn that the ladies of the town have in mind the holding of a garden party and tea at the school grounds during the Flower Show on Aug. 23rd.—COM.

Annapolis is Up-to-Date

His Worship the Mayor has placed, at regular intervals through the town, waste tubs. These tubs are painted green and have a very neat appearance. It is greatly to be hoped that citizens will make use of them at all times as one of the few faults to be found with our streets has always been the amount of waste paper and rubbish found in them. Our people should take pride in assisting Mayor Hawkesworth in keeping the streets clean.—Annapolis Spectator.

Ladies!

WHICH appeals to you more? A truth backed by a bond of good faith, or a mere claim?

Judge this:

REGAL Flour yields the best quality and the utmost quantity of bread per barrel of any flour in the world. Costs a bit more but you save on the quantity it bakes. Lovely loaves, white and light. Fine flaky pastry too.

Essential point:

Try one barrel. If we have not here signed our name to the truth, your dealer will return your money. Then we must pay him. And worse still, we shall lose your good opinion forever. Remember—Regal—the flour that is used exclusively by many of the best bakers in the provinces.

ACT OF INCORPORATION, BY-LAWS AND REGULATIONS.

Capt. J. W. Salter, President.
J. E. Lloyd, Vice President.
Dr. M. E. Armstrong, Director.
Jas. Quirk, Director.
W. R. Longmire, Director.
J. W. Peters, Director.
H. Ruggles, Secty.-Treasurer.
Wm. Ruffee, Superintendent at the Cemetery, Port Tom.

ACT OF INCORPORATION.

Be it enacted by the Governor, Council as Assembly, as follows:

1. Chapter 102, of the Acts of 1874 entitled "An Act to incorporate the Trustees of the Baptist and Wesleyan Burial Ground, Bridgetown, and Chapter 110, of the Acts of 1888, being an Act in amendment thereof, are hereby amended as follows:

(a) Section one of the said Chapter 102 is hereby amended by substituting the words "The Riverside Cemetery, Bridgetown," for the words "Trustees of the Bridgetown Baptist and Wesleyan Burial Ground," in the third and fourth lines thereof.

(b) Section two of the said Chapter 102 is hereby amended by substituting the word "the" for the word "such" in the first line thereof, and by adding to the said section the following words: "Provided, that such assessment shall not exceed two dollars per lot of one hundred feet in any one year. Such assessment may be used for in the name of the corporation in the same manner and with the like costs as if it were a private debt; provided, however, that no assessment shall be made until the same is sanctioned by a vote of not less than two-thirds in number of the members present and entitled to vote at a meeting called for that purpose. The directors shall give ten days' notice of such meeting by posting notices in three conspicuous places in Bridgetown, and the same shall be a full and sufficient notice."

(c) Section three of the said Chapter 102 is hereby amended by substituting the word "the" for the word "such" in the first line thereof, and by adding to the said section the following words: "Provided, that such assessment shall not exceed two dollars per lot of one hundred feet in any one year. Such assessment may be used for in the name of the corporation in the same manner and with the like costs as if it were a private debt; provided, however, that no assessment shall be made until the same is sanctioned by a vote of not less than two-thirds in number of the members present and entitled to vote at a meeting called for that purpose. The directors shall give ten days' notice of such meeting by posting notices in three conspicuous places in Bridgetown, and the same shall be a full and sufficient notice."

(d) The word "trustees" wherever it appears in the said Chapters 102 and 110 is hereby changed to the word "directors."

2. Sections four, five, six, seven, eight and nine of said Chapter 102 are hereby repealed and the following sections added thereto:

(4) The members of the above named corporation shall consist of the lot holders. Any person shall be deemed a lot holder who owns a lot of not less than one hundred square feet, and shall have a vote and vote at all proceedings of the corporation, provided, however, that no such member who is indebted to the corporation or from whom any assessment on his lot or lots is due, shall be entitled to vote at any meeting of the corporation.

(5) The corporation as well as the individual members thereof shall be exempt from all rates or taxes for any purpose whatever, on account either of the lands or funds held by them in the corporation.

(6) The lands or funds of the corporation shall not be liable to be taken or sold on execution, either for the debts of the individual members thereof, or for the debts of the corporation. The lands shall be and are hereby dedicated and set apart for the burial of the dead forever, and for no other purpose. And the funds held by the corporation, after paying the necessary expenses of management, shall be used for no other purpose but to improve, ornament and fence it, or increase its extent.

(7) It shall not be lawful for the Town Council for the Town of Bridgetown, or any other authority, to open any road or roads through the lands of the corporation, unless the written consent of the corporation, by a two-thirds vote of those present at the annual meeting and entitled to vote be first obtained.

(8) The members of the corporation shall not be personally liable for the obligations thereof beyond the amount of assessment lawfully made and unpaid.

(9) Any person who shall wilfully destroy or injure any fence, monument, tree or other plant, whether there naturally or the work of art, or shall play at any game or sport, or shall commit any nuisance, or shall carry into the cemetery, or have in his possession while there, any fire arms or ammunition, shall be punished by a fine of not less than four dollars, nor more than twenty dollars, for the space of not more than thirty days, according to the nature of the offence; and such offender shall also be subject to an action of trespass for damages.

(10) There shall be an annual meeting of the members of the corporation on the third Tuesday of April of every year, at which seven directors shall be chosen by ballot, who out of their own body shall appoint a President and Vice-President, and shall appoint a Treasurer and Secretary, all of whom shall perform the duties of their offices gratuitously, except the Secretary, who shall be entitled to receive such remuneration for his services as shall be agreed upon with the directors.

(11) At the annual meeting of the

directors shall make a written report of their doings to the thirty-first day of March of each year, with an account of receipts and expenses, showing the financial state of the corporation.

(12) The corporation may at any regular meeting make any regulations or by-laws for the better government and conducting the affairs of the corporation, provided they do not conflict with this constitution or the laws of the Province.

(13) No member shall have more than one vote, and there shall be no voting by proxy.

(14) It shall be in the power of the directors to remove or order to be removed, any noxious or offensive plant or any indecent or offensive monument or fence with or without notice to the parties affected by.

(15) The lot or lots held by any proprietor shall be assignable and transferable by him, according to such rules or regulations as may be made for that purpose, but no assignment or transfer shall be valid unless the same shall be registered in a book kept by the Secretary for that purpose.

(16) In case of any vacancy amongst the directors, before the annual meeting, then the remaining directors may and shall fill up the vacancy from amongst the members.

(17) No person shall be an officer of the corporation unless he is a member thereof.

(18) The Secretary shall keep a plan showing the lots of the cemetery with the name of the occupier of owner, and a list to be subscribed by the lot holders, which shall be evidence of the right of such subscriber to participate in the advantages and obligations of the corporation.

(19) The proprietors of lots shall have the right to enclose the same, and they may erect any proper stones, monuments or sepulchral structures thereon, with the proper inscriptions, and may cultivate trees, plants or flowers, under such regulations as the corporation shall make.

(20) The corporation is hereby authorized and empowered to receive, take, hold, manage and enjoy any real and personal property which may from time to time be donated, devised or bequeathed to the said corporation in trust for the permanent improvement of the said corporation, or any part thereof, or any lot or lots therein, in accordance with the conditions or provisions contained in any deed of trust, devise, bequest or donation made or given to said corporation.

(21) Any lot not filled, and the owner thereof or his legal representative refusing to pay his assessment after due notice in writing, the lot, so much as remains unoccupied, can be sold for the benefit of the corporation.

3. Section three of said Chapter 110 is hereby repealed.

4. The words "burial ground" wherever it appears in the said chapters 102 or 110 are hereby changed to the word "cemetery."

BY LAWS.

1. Any person paying for a lot shall have the privilege of choosing one for himself in any part of the cemetery not already reserved for roads, paths, or other purposes, and no person shall hold more than five lots of two hundred square feet each.

2. No provisions or refreshments of any kind shall be carried into and consumed in the Cemetery except by workmen employed there; and then only by permission of three Directors.

3. No person shall erect a tent, camp or building of any kind within the Cemetery, except by a written permission of the Directors.

4. The account of the Directors, before being exhibited at the Annual Meeting, shall be audited by a Committee appointed for that purpose.

5. The offices of Secretary and Treasurer may be held by the same person.

6. The Secretary shall keep a plan of the Cemetery; a book in which all sales or lots shall be recorded; a book containing minutes of all meetings, both of the Corporation and the Directors; a book showing receipts and expenditures, in which a balance shall be struck at the end of twelve months; a record of all interments in the Cemetery, containing name, age, residence and occupation of the person interred and number of the lot where interred. He shall also preserve in a portfolio all plans of lots which may be deposited with him for safe keeping.

7. The Superintendent shall accompany persons wishing to purchase and shall point out to them the lots, and shall attend all funerals, and shall hand in to the Treasurer the burial fees collected by him.

8. The fees of the Company shall be as follows:—
For registering transfer of lots \$0.50
For a single grave in the reserve ground—adult 5.00
For digging grave for an adult 5.00
For digging grave for a child, under 14 years of age 3.50
Sunday burials, extra 1.00

Persons above the age of fourteen to be considered as adults. If more than one body be buried at the same

times and in the same grave, the burial fee for all those in addition to the first shall be but half that already established. The above fees shall be paid into the funds of the Corporation.

9. Each grave on the reserved portion shall be allowed a space of six feet eight inches in length and three feet in width. Every grave in the Cemetery shall be dug at least five feet in depth, where the ground will allow it.

10. Proprietors of one hundred square feet are entitled to enter the Cemetery with their households in carriages. No horse to be driven, while in the Cemetery, faster than a walk, and no horse to be left unattended, nor to be fastened except under the direction of the Superintendent, posts or rings provided for the purpose.

11. It shall be lawful for the Directors to offer a reward, not exceeding ten dollars, for the detection of any person or persons committing trespasses done in the Cemetery; and to pay the same, on conviction of the offender, from the funds of the Corporation.

12. The Superintendent shall charge for all labor done by himself and others employed under him, in setting monuments, grading lots, etc.; and shall also demand twenty-five cents a load for stones used for such purposes. It shall be the duty of the Superintendent to collect these dues and pay them over to the Treasurer.

13. Trustees—The company may at an annual meeting, or at any special meeting called for the purpose, elect two persons, residents of the Town of Bridgetown, as Trustees of the company, and may, from time to time, as the occasion may require, at any annual, general, or at any special meeting called for the purpose, fill any vacancies among the Trustees caused by death, removal from Bridgetown, resignation or otherwise.

14. Tenure of Office—The Trustees elected under the foregoing article shall hold office until their successors are elected, and it shall not be necessary to elect such Trustees annually or at any stated period.

Duties of Trustees—All deeds, trusts, devises, bequests, gifts and donations for the benefit of the Company may be made to the Trustees, and they shall receive, take and hold all real and personal property, moneys, funds and effects so received, transferred, devised, bequeathed, given or donated to them, in trust, for the Company and for the objects, intents and purposes thereof, subject to the direction, management and control of the Directors as to the investment, use, sale or disposal of such real and personal property, moneys, funds and effects, and subject to the limitations, provisions, terms and conditions upon which such deeds, transfers, devises, bequests, gifts and donations, or any of them may be made.

15. No person, lot owner, or otherwise, shall put up any monument, dig hole for the foundation for such, or build any such foundation without first obtaining permission of the Directors, and then only under such directions as they may make.

16. The riding of bicycles is prohibited within the Cemetery grounds.

17. Perpetual Care of Lots.—(Goods of same).—First-class contract—\$50.00 per hundred square feet, including shrubs and monument and other work appearing on such lot at the time of making the contract; not, however, to include the furnishing of such trees, shrubs, monuments or headstones or replacing the same when dead or decayed.

Second-class Contract—\$45.00 for every hundred square feet, keeping the grass, trees and shrubs in good condition, not including monument or headstones, nor to replace shrubs or trees when dead or destroyed.

18. The Directors may receive in trust any sum of money donated or bequeathed for the purpose of forever keeping in order the Cemetery, and may invest the same, and the interest only to be used as specified above, and to give such a bond as will bind them and their successors in office for the true performance of said trust.

REGULATIONS.

Hours—The cemetery gates at the main entrances will be open every every day in the year until 6 p.m.

Office—Will be open every week day.

Grounds—No vehicle shall be driven in the cemetery faster than a walk.

Funerals on reaching the cemetery will be under the charge of the Superintendent or his assistants.

Drivers must remain on their carriages or stand by their horses during funeral services.

Carriages must not be turned in any avenue, and no horse shall be left unfastened without a driver.

Persons on horseback will ride only on carriage ways. No dogs, bicycles, tricycles or automobiles allowed in the cemetery.

The Superintendent will not admit improper persons, nor such as have at any time violated the regulations of the cemetery.

Persons within the cemetery, conducting themselves improperly, will be requested to leave instantly, and upon refusal, will be compelled to do so, and will be subject to prosecution, and liable to a fine.

No fire-arms allowed, except at military funerals.

Annual Care of Lots.—The terms for the annual care of lots may be ascertained on application to the Secretary or the Superintendent at the cemetery.

Foundations.—All foundations will be constructed by the Corporation, and a order for the same must be in writing, and the persons signing such orders will be held responsible for the expense of the work performed.

In ordering foundations, great care must be taken to designate the exact location of the grave in the lot at which the foundation is to be placed.

Prices for foundations will be given by the Superintendent on receipt of size of lower base.

Guy ropes shall be attached only at such places as shall be designated by the Superintendent.

Material.—Parties delivering any material must send responsible men to attend to its unloading, which must be promptly done, and no feeding of horses on any of the avenues and paths will be allowed.

Proprietors wishing to erect monuments, headstones, cut inscriptions, or do any other work in connection therewith, must make application for same to the Superintendent.

Rubbish.—All rubbish collected by work of any kind must be cleaned up by the parties employed on that work, and the grounds left in good order. All work must be done during the working hours of the cemetery.

No material for the building or setting of monuments, tablets, or any other work of any description, will be received or allowed Saturdays, unless by permission of the Superintendent.

No work will be allowed to be delivered or set in the spring until the ground has fully settled and is in proper condition.

All work done on lots or graves by order of proprietors shall be under the supervision of the Superintendent.

Trees and Shrubs.—No trees or shrubs can be removed without the approval of the Directors of the Cemetery.

Single Grave Lots.—Whenever a grave shall become vacant by removal of the bodies therein, the land shall revert to the Corporation. But in case the owner thereof becomes a purchaser of additional graves in another section, or of a lot in the cemetery, the original price for the grave or graves shall be allowed in part payment. These graves are not transferable.

No enclosures nor posts will be permitted in any of the single-grave sections.

Bases for head-stones for single graves must not be over two feet four inches long, and one foot three inches wide for each grave, and it is recommended that the stones should not exceed three feet in height.

All orders for foundations or any other work on the single graves must be paid for in advance.

No raised mounds will be permitted in any of the single-grave sections, but owners of graves may cultivate myrtle or flowers on them, a-though which information will be furnished by the Superintendent.

Persons desiring any work done on their lots or graves will give notice personally or in writing at the office of the Cemetery Company, or the Superintendent.

Charge for Removals.—Infant up to five years, \$5.00; child up to fourteen years, \$6.00; adult, \$10.00.

Evergreen.—For covering earth and lining grave with evergreen, \$2.50.

There is great liability to make mistakes in names and dates for record, therefore undertakers should be very particular to have their orders correct.

When designating the location of graves, it is very important that the proprietor or representative of the lot should give personal attention to the same to enable us to keep a correct position of burials.

Records, etc.—The record of deeds kept at the office of the Corporation is the only evidence of the title of the proprietors recognized by the directors. Consequently, when a person receives a lot by transfer from a proprietor he should send his deed there for record at once.

A Simple Treatment that Will Make Hair Grow Now Sold in Canada

Every up-to-date woman should have radiant hair.

There are thousands of women with harsh, faded, characterless hair, who do not try to improve it.

In England and Paris women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using SALVIA, the Great American Sage Hair Tonic.

Every reader of the Monitor can have an attractive head of hair in a few weeks by using SALVIA.

All first-class druggists sell a large bottle for 50 cents, and guarantees it to banish dandruff, stop falling hair and itching scalp in ten days, or money back.

SALVIA is a beautiful, pleasant, non-sticky Hair Tonic.

MUTSUHITO, EMPEROR OF JAPAN, IS DEAD.

The Mikado passed away without regaining consciousness. News of the death of His Majesty was received in silence by great crowd outside of the palace.

To clean a white hat—rub it well with cornmeal dampened with lemon juice, then finally, rub it with dry cornmeal.

Closing Meeting of the Summer School of Science

Yarmouth, N. S., Aug. 2.—The closing meeting of the Summer School of Science was held on July 31st, and was presided over by Mr. S. A. Starratt, President of the School.

Dr. A. H. McKay, Superintendent of Education for Nova Scotia, in speaking of the School said that formerly it was small and there was more pleasure than work, also that the staff of instructors came for the outing, not caring for pay, but now all that is changed and teachers come here to better equip themselves for their profession, and the school is a great benefit to them.

In respect to the value of Science, Dr. McKay illustrated what it had done in relation to the mosquito. How it had enabled people to conquer the terrible malarial, malaria and yellow fever caused by the mosquito.

He also said that he was very much in sympathy with the Summer School of Science and that he would gladly help in its progress. It is an advantage to parents and the future to have teachers who take as their motto "The desire to do good in your day and generation." The results of your work remain a permanent institution.

Yarmouth was duly complimented by Dr. McKay on the many advantages as a place of meeting for the School. He said that in the very air he seemed to breathe in energy and inspiration, and the fog, which seems unpleasant to the teachers, was especially delightful to him.

Mr. Leaman, Secretary of the School, gave a short address, and the warm appreciation of his labor and interest in the School was shown by a vigorous clap of cheer.

A vote of thanks moved by Mr. C. E. Reid of Quebec, was presented to Mr. S. A. Starratt, who so generously gave members of the School and the Faculty a couple of pleasant (though sea-sick, if one be so disposed) trips to the Tusket Islands.

The Temple Baptist church were cordially thanked for the kindness they had shown to the School.

Hon. E. H. Armstrong, Com. of Public Works and Mines, gave an address to the School, and on being asked by Mr. Starratt to present the prizes, remarked, as he looked at the gold coins, that the choice must have been made because of his honesty in business ability.

In reference to teachers being so poorly paid, Mr. Armstrong said that a prosperous county should pay their teachers and that the responsibility does not lie with the Council and the Superintendent, but with the rate-payers and that they should be educated to this. Nova Scotia gives twenty-four per cent. of the government funds to education, and Ontario gives twenty-five per cent of her government funds to education.

Mr. Armstrong said further that the Universities were handicapped because their pupils come so poorly prepared in Science.

The prizes of \$20, \$10, etc., were then distributed, and one of \$100, which was won by Miss Annie Steeves, of Albert County, N. B.

The session closed pleasantly, the teachers feeling that a profitable three weeks had been spent in the charming town of Yarmouth.

NINE BOY SCOUTS DROWNED

By Capsizing of Boat While Proceeding to Summer Camp.

London, Aug. 5.—Nine boy scouts were drowned yesterday by the capsizing of a cutter off Sheppey Island.

A large party of the scouts were proceeding at the time to their summer camp on the island.

Four young men of the mission camp at Saltdean, near Brighton, were drowned today while bathing.

Several other bank holiday fatalities are reported.

Pimples are due to inflammation of the sweat ducts, as a rule. Frequent massage of the face, squeezing out any points of matter as they form, will be of value. Previous to going thus, wash the face with very hot water and spirits of green soap. Afterwards powder with boracic acid. Aggravated cases are best treated by special vaccines.

NA-DRU-CO LAXATIVES

PRACTICAL ECONOMY

Frank A. Munsey, since steel and journalism made him a multimillionaire, has gone in rather heavily for charity.

"But I don't believe in promiscuous charity, which pauperizes," said Mr. Munsey to a New York correspondent. "That sort of charity always makes me think of Aunt Sallie Higgins of my native Mercer."

"Aunt Sallie came to Mercer's Lady Bountiful one day and asked for the loan of a dollar.

"What do you want a dollar for, Aunt Sallie?" the Lady Bountiful inquired.

"Please, ma'am," said Aunt Sallie, "I'm goin' to git married."

"But if your man hasn't even a dollar to pay for the marriage license, how will the pair of you get along?"

"Well, ma'am," said Aunt Sallie, "tomorrow's your birthday, and we're both comin' to your picnic in the birchwoods. You always give us somethin' to take home from your birthday picnic, and the day after there's your usual free basket distribution for the unemployed. That'll keep us a week easy, and by that time Joe and me'll be on our feet, mebber."

IN THE WHITE NORTH.

Admiral Peary, at a dinner in Washington, told some stories of the Arctic.

"In midsummer weather," said he, "it is a pleasure to think of the snows of the White North."

"A bootmaker on my return from one of my expeditions, said to me: 'Commander, how did you like those boots I made for you?'

"Best I ever tasted," I replied.

Admiral Peary chuckled and resumed:

"I was once explaining an unsuccessful expedition to a young lady.

"Yes," I said, with a sad shake of the head, "we'd have got two degrees farther north if our dogs hadn't given out."

"And those Eskimo dogs," said the young lady, "are supposed to be so indefatigable, aren't they?"

"I was speaking," I explained, "from the culinary point of view."

SMART MEDIUMS.

"These mediums is clever ladies," asserted Heinie Mueller.

"Do you fall for those fakes?" we laughed.

"Don't call dem fine femaleless fakes!" demanded Mueller.

"Why—were you stung?"

"Andt don't say stung! I went to one. I saw her. She telled me."

"What did she tell you?"

"She said, 'Vot's yer name?' and I said 'Mueller,' and den she went in a transt. Before she come to, she says, 'You vos born in Choimany! And I almost felled dead! How could she tell? Py golly, she was right."

A DELICATE JOB.

Senator Root, apropos of the dispute with Great Britain over the Panama Canal tolls, said the other day:

"It will take a diplomat, a real diplomat, to settle this question. A real diplomat, you know, is a man who can stretch hands across the sea without putting his foot in it."

Boreleigh—"I hope my call has not tired."

Miss Keen—"Oh, no, I inherit a wonderfully strong constitution."

"What are you crying about, Willie?"

"One of the boys called me 'teacher's pet,' and I went and told her and she licked me to prove I wasn't."

Lady Visitor—"I am coming to your mamma's company tomorrow."

Tommy—"Well, you won't get a good supper."

Tommy's papa—"Tommy, what do you mean, talking like that?"

Tommy—"Well, you know, Pa, you told me you'd have to get some chicken feed for her old hen party tomorrow."

Mrs. Miggins—"I hear your husband is speculating in stocks. Is he a bull or a bear?"

Mrs. Buggins—"Judging from results I should think he was a jackass."

The Maritime Oil & Gas Company, Ltd.

Head Office: Halifax, N. S.

(Incorporated under the Nova Scotia Companies' Acts, 1909.)

PROPERTY AT NORTH LAKE AINSLIE, CAPE BRETON.

Sideview Drilling Plant,—Derrick 75 feet in height.

PRESIDENT: L. H. WHEATON.
TREASURER: J. L. MACKINNON.
SECRETARY: ALEX. G. BAILLIE.

DIRECTORS: L. H. WHEATON, J. L. MACKINNON, A. G. BAILLIE, F. H. STOVER, R. H. STERNES.

THE MARITIME OIL AND GAS COMPANY, LIMITED, began prospecting and drilling for oil in October 1909. They put down four test wells, one to a depth of over 1600 feet and proved up a very rich body of oil. They are now developing their property and are drilled down over 500 feet in the present well, and expect to be producing oil in Commercial quantities as soon as the present well is down to the "Oil Sands." They have one of the best equipped and up-to-date Plants possible to obtain, with their own Electric plant to ensure working night and day. The Company are disposing of stock for development work at 25 cents per share. Mr. F. W. Micklewright will be pleased to take orders in Bridgetown from any one that wishes to invest in a home enterprise and help to develop what will be one of the greatest assets of this Province.

OIL IF PRODUCED IN QUANTITIES WOULD DO MUCH FOR NOVA SCOTIA.

If oil should be produced in large quantities it would be a great asset for this province.—Rumania, a small country in Europe, with 50,000 square miles and a population of 7,000,000 dependent solely on agriculture for their living until a few years ago, when petroleum was discovered, and to-day \$62,000,000 is invested in it. Over 1,295,423 tons making 9,321,138 barrels valued at \$11,269,360 were produced in 1909, so states the U. S. A. Government Reports for 1909, in "Petroleum Production." The Petroleum value of the Rumanian petroleum fields today is \$12,400,000,000. The uses of petroleum are increasing every day. Not a car wheel or other wheel is turned but lubricating oil is used. Every automobile, every ship, means a larger demand for petroleum or lubricating oil.

"PROSPECTS FOR INVESTORS."

"The history of the oil business in America, from its very inception to the present date, is one continuous story of financial success. Thousands of men, formerly poor, became enormously wealthy. More money has been made out of oil than out of any industry in the world today. When oil is once struck by the Oil Company the value of the stock is increased enormously. The following is a small list of the oil companies in operation less than three years, showing the original price of their stock and the highest price it has reached:—

Company Name	Original Price	Highest Price
New York Oil Co	\$.50	\$200.00
Union Oil Co	1.00	1,500.00
Eldorado Oil Co	.50	5.00
Karn River Oil Company	1.00	26.00
Peerless Oil Co	.20	8.60
Hartford Oil Co	6.00	118.00
Home Oil Co	5.00	5,000.00

FOX RANCHING IN PRINCE EDWARD ISLAND

(By Reuben McDonald)

When the Duke of Connaught made his official visit to Prince Edward Island on the twenty-ninth of July, he landed at Summerside, the capital of Prince County. One of the features of the program prepared for his reception was a visit to a fox-ranch just outside that town. Prince County is the home of fox ranching in the Province. At the extreme western end about sixteen years ago a few men took up the business. After many trials they finally succeeded in making it a success. At first they guarded the secret jealously, but eventually they saw the necessity of selling the stock for breeding purposes, until now the whole Province is in a fever over this new industry. It must be remembered that the black and the silver fox are the same. Some are dark, however, and some are light; that is, some of them are silver, while others are not. There is no such thing on the London market as the black fox skin. The jet black fox is always listed as silver. Both vary in price from one hundred to one thousand dollars.

A HIGH PRICED FOX.

The Prince Edward Island black or silver fox is the best in the world, and always commands the highest price, the sum of \$2,300 having been paid to an Island breeder for one medium-sized flawless skin of exceptional beauty and lustre.

The industry on the island, however, is now confined to the selling of foxes for breeding purposes. One of the leading ranchers, Frank Tuplin of New Annan, states that it will be at least five years before any fox is sold for the sake of its skin. Some breeders give the industry a longer life than that. The increase in the price of foxes sold for breeding has been so startlingly rapid that the number of farmers who started in a few years ago with very little capital are now worth thousands. One man is reputed to have made a million dollars within five years. It is estimated that there are about forty ranches where the genuine, high-grade, high-priced royal silver foxes of the reds; patches (that is about four hundred of these animals, whilst there are about fifteen hundred foxes of the reds; batches (that is crosses) or imported stock. The value of the industry is placed at three million dollars. The people are simply wild over the business, and every

day foxes of various colors are imported from the mainland.

RUINED BY IMPORTATIONS.

The breeders who keep only the distinctive Island stock declare that if this importation is allowed to continue the industry will be ruined. Breeders are now calling out for a system of registration whereby the pedigree of every fox will be recorded, the same as domestic animals.

At the last session of the Provincial Legislature about a score of bills were passed incorporating black fox companies. Within the two years that the pioneers of the business began to sell their stock the purchasers have been mainly Island men, many farmers having mortgaged their farms to secure the necessary price of a pair of breeders. This year the best stock costs \$10,000 a pair, the average price being about \$3,500. Next year it is expected that this price will be increased at least fifty per cent. In one year there has been an increase of over one hundred per cent. Outside capital is now beginning to become interested, and several moneyed men of the United States have come on to inspect the ranches. To give an idea of the profits in the industry we may quote from a prospectus issued by a com-

pany with headquarters at Alberton, where the industry originated, and where there are now twenty ranches. One statement shows that, where a man started the first year with one pair of breeders costing \$6,000, at the end of the year he cleared \$2,650. It is estimated at the end of three years, with an original investment of only \$6,000, that the increase in the rancher's wealth would be \$39,250. Another estimate shows that, with an investment of \$9,000 for one male and two females, at the end of three years the increase in the rancher's wealth would be \$95,450.

Among the largest and most successful dealers on the island are the Hon. Charles Dalton, R. F. Culoon, Hudson Gordon of Tignish, Frank Tuplin of New Annan, Benjamin Rayner of Alberton, Harry Lewis of Alberton. There are, of course, quite a number of companies whose capital ranges from \$10,000 up to \$150,000. The ranch visited by the Governor-General is owned by McNeil & Saunders of Summerside.

HIGH-PRICED BREEDERS.

Although the average price of breeders is about \$7,000 a pair, in rare cases as high as \$20,000 per pair has been paid. Foxes are sold usually under the following conditions: First, without any guarantee, the purchaser taking all risk; second, the seller to guarantee that if one of the animals dies he will loan another, the condition that the purchaser will take the risk until a litter is produced; third, if this pair fail to produce in two years, they are exchanged for another pair, so that with this guarantee a man cannot fail to be started in business. The young usually arrive from the middle of March to the middle of April. The average number of foxes to a litter is three, but in some rare cases as many as eight have been produced.

The Prince Edward Island native fox is the best in the world, because the climate is marked by the happy medium between the extreme cold of the north and the intense heat of the South. The cold and sleet in the late autumn and early winter counteract the forming of fur. Foxes from warm climates are too lightly furred to be of much value. The fur of the northern fox is too coarse in quality. Nowhere in the world is there such lustre and beauty of fur as is met with in Prince Edward Island.

CARING FOR THE FOXES.

Another factor of success in the industry is the comparatively easy manner in which the fox can be raised in captivity. The cost of erecting a ranch to contain one dozen foxes will not exceed \$500. The pens are made of wire slightly heavier than fence wire, with an overhang of two feet. It is sunk into the ground about two feet to prevent the animals from burrowing. The pens are surrounded with an outer fence about ten feet high. Some breeders use small separate houses for each pen, others use one house and four pens. The feed consists usually of ground fowl and rabbit, and to the mother fox when in young, eggs and milk are often freely given. As the Island is just one large collection of farms, almost any farmer can conduct a ranch to advantage, having the necessary piece of woodland to form an ideal site. The soil of the Island, being free from alkali, is specially adapted for the production of the finest fur in the world.

When it is considered that the average weight of the silver fox is ten pounds and that the average price is nearly \$4,000, it is in order to use the expression, "worth its weight in black fox." Disease, so far, has been practically rare among these animals. The cold has no effect on them; in fact they seem rather to enjoy it. They flourish in captivity, especially if there are several together in the ranch. The success, however, depends a good deal upon the management, and whatever losses have occurred have generally been in carelessness in handling or ignorance in feeding. The most critical time, of course, is about thirty days before and thirty days after the young arrive. During that period no one should see the mother fox, who, if she is disturbed, is liable to carry away her young and bury them in the snow, where they naturally perish. Last year all the young expected to be born were sold ahead, and even at the present time practically all the expected young stock of next year is contracted for. That is, of course, the real "blue blood," genuine Island silver fox."

Many stories can be related of phenomenal fortunes made in a short time. Cases can be mentioned where men with a few hundred dollars have secured tens of thousands. The ultimate effect on the Island's welfare is hard to determine, but if foreign capital is brought in and if the foxes are allowed to remain on the Island, the prospects of the industry will considerably improve. Although the boom has originated in Prince county it is rapidly spreading to the other counties, and already several large ranches have been erected within the vicinity of Charlottetown.

PROPRIETOR AND PUBLISHER

WEDNESDAY, AUGUST 14, 1912.

A new industry has developed in
the Maritime Provinces, that of fox-
ranching, which bids fair to become a
very important source of profit and
income. The initiatory trials were
made about sixteen years ago in
Prince Edward Island, and the Prince
Edward black or silver fox now holds
the highest commercial place in the
world. One Island breeder has re-
ceived the price of \$2,300 for a single
skin, but this was an exceptionally
flawless one.

The fortunes realized from the in-
dustry are almost incredible, one
man being reported as having made
a million dollars in five years. The
value of the industry in the Island is
now placed at three millions and at
present is confined to selling the ani-
mals for breeding purposes. There
are about forty ranches in all.

The fever of fox-breeding is spread-
ing rapidly to Nova Scotia and New
Brunswick, and it is hard to compute
the possibilities that lie in the de-
velopment of this new branch of
stock-raising.

An interesting description of fox-
ranching in P.E.I. will be found on
page three of this issue of the Moni-
tor-Sentinel.

The act of incorporation of the
Riverside Cemetery with the by-laws
and regulations is printed in full in
this issue of the Monitor-Sentinel
and will be published in pamphlet
form later, so that all lot holders
and others interested may have a
copy.

The office of the Corporation is the
office of H. Ruggles, Esq., Town
Clerk, who is secretary-treasurer of
the corporation. Mr. William Ruflee,
who has had many years of experi-
ence in cemetery work, has been ap-
pointed superintendent of the labor
of laying out the walks and drives
and placing the lots in neat condi-
tion.

The Secretary-Treasurer keeps on
hand a plan of the Cemetery with a
record of the lots also of interments
in the Cemetery, which may be con-
sulted at any time. The Directors
are authorized to receive donations or
bequests or to contract for the per-
petual care of lots.

Curios From Japan and India

A choice collection of Japanese and
Indian curios will be on exhibition
at Mason's Hall on Friday afternoon
and evening, Aug. 16th, beginning at
three o'clock. Ladies will be present
to explain the curios from India and
Japan.

A small collection of Japanese
trinkets will be offered for sale.

The exhibition is under the direc-
tion of the Mission Circle of the
Providence Methodist Church, and
the young ladies of the Circle will
serve ice cream and cake. Admission
15cts.

N. S. Horticultural Exhibition

The secretary manager of the Nova
Scotia Horticultural Exhibition re-
quests that the following additions to
the special prize list be noted:—

Sec. 173.—W. B. Ross, Middleton, for
the best barrel of Golden Russets
grown in Nova Scotia, \$50.00.

Sec. 174.—Schaffner's Farm, Law-
rencetown, best barrel Blenheims in
show \$5.00.

Sec. 175.—W. M. Black, Wolfville,
best barrel Pomme Gris \$5.00.

Sec. 4 A.—page 21 of prize list should
be amended to read 1st prize, \$15.00;
2nd prize \$10.00.

(Annapolis, Kings and Hants county
exchanges please copy.)

Tea Meeting

A Tea Meeting will be held on the
school grounds on the afternoon of
the 23rd of August by the ladies of
Bridgetown. There will be a run-
ning tea-table, price of ticket 25cts.
There will also be various booths,
including a Japanese booth, a for-
tune-telling booth, ice-cream booth,
candy booth, etc. Sports by the Boy
Scouts will take place on the
grounds. After six o'clock automob-
iles will be on service at 25 cents a
ride around the town.

Proceeds will be devoted to River-
side Cemetery Improvement Fund.

Farmer's Picnic

The Annual Farmers' Picnic will be
held at "The Island" Lawrencetown,
on Tuesday next, August 20th. The
sports of the day will commence with
a calisthumpian procession at 10.30
a.m. The program will include water
sports, races, etc. Church tea-meet-
ings will also be held. The Lawren-
ce town Brass Band will be in atten-
dance all day. There will be speeches
by Professor Cummings of Truro and
Professor Blair of Kentville. The
day will conclude with a concert on
the Island in the evening.

**D.A.R. STEAMER STRUCK
ON THE ROCKS.**

The Yarmouth Was Floated Off With-
out Serious Damage.

St. John, Aug. 12—After running a-
bout a mile and a half out of her
course the steamer to St. John in
heavy fog this morning, the D.A.R.
steamer Yarmouth brought up on
some rocks off Missep Point, and
sharp work on the part of the officers
prevented a very serious accident.
The passengers on board had an ex-
citing experience for a time, as it
looked as though the steamer had
struck hard on. Some quick man-
oeuvring got the steamer off, however,
and she steamed to St. John, ap-
parently none the worse for the mis-
hap. The boat was an hour late in
reaching the city, but got away on
scheduled time at noon.

THE BOSTON-YARMOUTH S.S. CO.

Boston, Mass., Aug. 1—Calvin Aus-
tin stated on Thursday that the
taking over of the D. A. R. steamers
will follow the new election of a
board of directors with Calvin Aus-
tin as president. The old manage-
ment will be continued until the end
of the year. Two new steamers are
to be built for this line, to go in-
to commission in 1914. The new ser-
vice to Yarmouth will be inaugu-
rated next spring with the steamship
Old Colony. No change will be made
in the D.A.R. steamers this year, but
different sailings will go into effect
in the spring.

this tea's flavor will delight you:—

All you have to do if you do not like
the flavor—yes more than like it—is
to return the broken package and
receive your money back.

35c., 40c., and 50c., per lb.

LOCAL AND SPECIAL

The Grand Lodge of Oddfellows is being held in Yarmouth this week.

A full team of Yarmouth tennis players will visit Bridgetown on Friday next for a tournament.

Among the special features at the Primrose Theatre next Monday evening will be cornet solos by Mr. Arthur Dodge.

Dr. Armstrong has a wonderful display of sweet peas, of the Bekford variety, a sample of which graced the Monitor sanctum last week.

Have you seen the caste of characters in "Between the Acts"? They guarantee the real thing. Primrose Theatre next Monday evening.

Entries for the Annapolis Valley Annual Flower Show at Bridgetown, close on Aug. 20th with the Secretary, A. F. Hiltz, Bridgetown.

The construction of the new bridge for the abattoir is expected to begin shortly, government aid for its construction having been granted.

No tiresome waiting between the acts of "Between the Acts" at the Primrose Theatre next Monday. A special orchestra will discourse special music.

R. J. Graham in his evaporators at Windsor, Lakeville, Kingston and Bridgetown expects to handle eight hundred barrels per day this autumn, and employ one hundred and fifty to two hundred hands.

There will be no evening service in St. James' church next Sunday. Morning services at 8 (Holy Communion) and 11. There will also be the usual afternoon service in St. Mary's, Belleisle, at three o'clock.

Hon. Martin Burrell, Minister of Agriculture, accompanied by his Secretary, Mrs. Burrell and a lady friend are making a trip through the Annapolis Valley. They were met at Kentville by a number of leading fruit growers, with whom the minister of agriculture visited the Horticultural Station.

A mammoth orchard meeting is to be held on Monday, Aug. 19th at two p.m. on the farm of Isaac Chipman at Chipman's Corner, near Kentville, to be addressed by Prof. Blair, Prof. Cummings, Prof. Shaw and W. H. Woodworth. The evening train will run through to Annapolis on that date. One fare excursion tickets will be issued.

Calvin Austin, President of the Eastern Steamship Co., has written to M. H. Nickerson states the Yarmouth Herald, that refrigeration will be installed on the steamship lines between Boston and Yarmouth as soon as his company obtains control of the steamers. This will be a great boon to the fishermen of the western Counties. It will also help the exporters of other perishable products.

Work on the macadamizing of the streets has been suspended for the present as the supply of stone on hand has been exhausted. Many of the farmers are still engaged with haying and do not find it convenient to haul the stone, but it is expected within a few weeks to have a new supply delivered at the crusher when the work will be resumed. A considerable stretch of Granville street west and the Bay Road will probably be laid this season.

A citizen driving his own auto went up Queen street the other day at a speed that would have been good for a fine in any other municipality than Bridgetown. The Monitor regrets to state that he is not the only offender in this respect, and it does not take a very wise head to foresee disaster sooner or later if this practice is continued. Queen street is very narrow and closely intersected by other streets and speeding of an auto in such a locality is unexcusable. The sooner our town authorities take action in regard to regulation of auto driving the better for all concerned.

A peculiar disease has broken out among the horses in training at the Middleton track. There are eight horses under the care of H. Lydiard and Arthur Young, and among them is Terrace Queen, owned by C. F. DeWitt of Bridgetown. Mr. DeWitt was summoned and went up to Middleton yesterday morning. One horse Ferrone, owned by Mr. Lydiard, is dead, and Terrace Queen and three other horses are very sick. The disease appears to affect the throat, the unfortunate animals being unable to swallow even water. At the request of Mr. DeWitt, Hon. Atty-General Daniels is dispatching a government veterinary surgeon to diagnose and treat the disease. Strange to say, no other horses in Middleton are affected.

IMPORTANT NOTICE

It is especially desired that all accounts due the Monitor-Sentinel up to July first be settled without delay. Accounts have in most cases been rendered to customers within the past few weeks. If you have been overlooked, remind us.
M. K. PIPER

PERSONAL

Mr. William Chipman, of Wolfville, is in town.

Miss Fattie Fraser, of Boston, is home on her vacation.

Mr. and Mrs. Harold B. Troop, of Waltham, Mass., are guests of their parents, Mr. and Mrs. W. R. Troop.

The latest reports from Bernard Longmire, who is ill of typhoid fever, in Winnipeg, are quite encouraging.

Messrs. George Copeland and Everett Gormley of Annapolis were recent guests at the home of Fred A. Rice.

Mrs. Willard Smith and son, Malcolm, of Rowley, Mass., were guests of Mr. and Mrs. Charles W. Parker last week.

Mr. and Mrs. W. L. Wright and children of St. Peters, C. B., are visiting Mrs. Wright's mother, Mrs. J. P. Murdoch.

Mr. Charles E. Palfrey, bookkeeper for S. S. Pierce Co., Brookline, Mass., is visiting his parents, Mr. and Mrs. A. C. Palfrey.

Mrs. Grise'da Phinney is making her home at Mr. H. E. Nicholls'. Her niece, Mrs. Hall, has returned to her western home.

Principal and Mrs. Lenfest Ruggles left on Saturday for Boston to remain until the re-opening of the MacDonald School.—Outlook.

Mrs. Edw. Bauckman disposed of her household goods by private sale and left with her son Reginald for Boston on Saturday last.

Mrs. M. K. Piper and daughter, Miss Katharine Piper, were guests of Dr. and Mrs. W. N. Rehnes at Bridgewater over the week end.

Mrs. A. A. Forsher and children, of Natick, Mass., arrived on Thursday to spend a few weeks with her parents, Mr. and Mrs. R. I. Woodward.

Dr. David Webster, New York, Mr. and Mrs. S. W. Webster and Mr. Geo. Webster, Cambridge, visited their sister, Mrs. Rupert Woodward, Granville, last week.

Rev. A. H. C. Morse, D. D., of Brooklyn, N. Y., is spending part of this month in his old Nova Scotia home. Soon after vacation he goes to his new pastorate in Denver, Col.

Rev. John S. McFadden, B. D., of Johnston's Mills, Westmorland Co., N. B., has received and accepted a call to the Clementsport and Smiths Cove Baptist churches in Annapolis County.

Miss Laura Graves and Miss Jennie Fellows were among the number of young ladies who left from here on Wednesday last for Calgary, where they expect to secure positions as teachers.

Mr. John FitzRandolph and wife, of Clyde, Kansas, arrived in town yesterday, after an absence of thirty-two years, and are the guests of their brother, Mr. J. FitzRandolph, and sister, Mrs. E. C. Young.

The trains were crowded on Monday with young men leaving on the harvesters' excursion for the West. Among them were C. Ruffee, Harry Stronach, Asa Whitman, Grant Walker, Newell Walker and Fred McGowen.

Mr. Thomas Grace, caretaker of the Mountain Cemetery, left for Boston on Wednesday evening on a three months' vacation. He will go as far west as the Pacific coast, and will visit Vancouver and other cities. Mr. Grace will be accompanied as far as Hamilton, Ont., by Mrs. Grace, their son Ralph, and two children, where Mrs. Grace will remain until Mr. Grace's return from the west. Mr. Grace has well earned a vacation, the first in twenty-five years, as his taste and skill in beautifying the cemetery are apparent to all.—Yarmouth Herald.

PUBLIC HOLIDAY

Saturday next is declared by the Mayor a public holiday in Bridgetown, in honor of the visit to the Valley of Canada's Governor-general, H. R. H. the Duke of Connaught.

Corner Stone to be Laid

The laying of the corner-stone of the new Methodist Parsonage at Lawrencetown is to take place on Tuesday, August 20th at 11.30 a.m. After the ceremony the ladies of the church will hold a tea-meeting. As the Farmers' Picnic will also take place on the same day it is expected a large crowd will be entertained. 11.

A successful effort has been made by the counsel for the Graves brothers, charged with causing the death of H. Kenneth Lea, in June last, in Kings County, to change the venue of the defendants' trial from Kings County to Annapolis county, on the plea that the newspaper reports of Kings Co. might prejudice the trial.

September Third

Will find many ambitious young people enrolled at our institutions to qualify for mercantile life. Last school year we had over 500 calls for Maritime-trained. These calls were from every province in the Dominion. Send for further information to

Inspection of Meat
Kentville, July 31st.

To the Editor of Kentville Advertiser

The greatest blessing we possess in this life is good health, and how to preserve it is the great question. Why is it at the present time there is so much stomach trouble and tubercular diseases? Is it not to a large extent owing to what kind and conditions of food is partaken of. Take for instance, the amount of meat which is consumed in all conditions, and can any one be sure they are not eating tubercular or diseased meat? No matter how much cooking is done you cannot kill all the germs if there are any, and although some people escape, there are always some weak individuals who have to suffer, and we wonder why it is as we are very careful as to sanitary surroundings and cleanliness as to our persons, and yet anything in the shape of food is thrown or put into our stomachs. See what the United States Board of animal inspection for the past year says:—"More than 50,000,000 animals were inspected in the last fiscal year and more than 1,000,000 carcasses were condemned as unfit for food and tuberculosis was the principal cause."

Now what protections are we carrying out here—simply nothing. I am safe in saying we have the same conditions existing here as they have in the United States. Go up to our slaughter houses here and ask the butchers what number of diseased cattle are killed by them every year and you will be surprised at the conditions existing and the information they have to give.

Now what is the remedy? The Town Council takes no steps to get knowledge to prevent what is being done by those who sell such meat. Why is not an inspector appointed to go to these slaughter houses with power to act? Surely our Health Inspector should find time to look after such a terrible peril that is so sadly affecting our homes and in many cases taking the lives of some of our dear ones.

FOR THE GOOD OF THE PUBLIC
N. B.—This applies also to the meat killed on the farm.

**EFFICIENT MEN MUST
BE SOBER MEN.**

In a recent issue the Toronto World says:—"A drunken man is an inefficient man. This fact is doing more for totalitarianism than all the legislation and propaganda in America. Nobody wishes to employ an inefficient person, and the struggle for existence does not encourage his survival. The evidence at the inquest on the Lackawanna Railway wreck shows that the engineer was intoxicated on his job. There are other ways of celebrating a national holiday than by alcoholic indulgence, and forty lives, besides the destruction of property, which is more important to the corporation than to the public, is too high a price to pay for a drink. As a rule the railway men are an abstemious body, and the present exception will encourage sobriety."

Had there been an effective enforcement of proper legislation that engineer could not have got drunk, and the forty lives would have been saved."

That is the question in a nut shell. Not only the drunken man, but the drinking man is inefficient. Often besides being inefficient he becomes a menace or a source of danger. The above mentioned drunken engineer sent forth people to their death besides injuring many more. Look at the awful results of that one breach of rules and of over indulgence. That is only one instance of thousands which are occurring every day.

COLLECTS 19,739 PENNIES.

Long Beach, Cal., Aug. 1—Mrs. Chas. Hamilton, wife of a socialist candidate for Councilman here, demonstrated the truth of the saying, "Take care of your pennies and the dollars will take care of themselves" when she announced that in twenty months she had saved 19,739 copper cent pieces.

She explained that she had decided to save every penny which she and her husband received in the way of business. That was twenty months ago. She began hoarding the small coins first in a tin cup, later "banking" in a five gallon oil can. Mrs. Hamilton said she did not count the pennies until the oil can was full.

A vast amount of ill health is due to impaired digestion. When the stomach fails to perform its functions properly the whole system becomes deranged. A few doses of Chamberlain's Tablets is all you need. They will strengthen your digestion, invigorate your liver, and regulate your bowels, entirely doing away with that miserable feeling due to faulty digestion. Try it. Many others have been permanently cured,—why not you? For sale by druggists and dealers.

Aeroplane in Storm
Crosses English Channel With Pilot and Two Passengers—Machine Was Badly Buffeted About.

London, Aug. 5—An aeroplane, with a pilot and two passengers, crossed the English channel from Donais, Sunday morning, in a storm. The aeroplane landed at Ashford, Kent, but owing to a heavy wind, collided with a tree. The wings were smashed, but the occupants were unhurt.

The machine was a new Breguet aeroplane and was piloted by J. Morhouse, accompanied by his newly-wedded wife and a correspondent of the London Daily Telegraph. He ascended at Donais at 6.30 a'clock in the morning and flew thirty-two miles over sea and land, alighting at Ashford, Kent.

The journey was most exciting. Several blinding rainstorms tossed the aeroplane about, and once they were enveloped in a rain cloud, and Morhouse was unable to see. On emerging he found himself heading almost vertically downward to the sea. After drifting a long way out of his course he finally sighted Dungeness. As he crossed the coast line, the machine encountered one fierce gust after another. In one of these the aeroplane dropped like a stone several hundred feet. Another gust caused the machine to shiver and suddenly to stand up literally vertically on the wing.

The correspondent pays special tribute to the wonderful courage and coolness displayed by Mrs. Morhouse under circumstances that would have tried the nerve of the most hardened aviator.

ACCIDENT TO PICNIC STEAMER.

The ferry steamer Dartmouth ran ashore on Findlay's Point, Halifax, but was taken off without any serious damage. The steamer, which had been engaged for St. Mary's picnic, was proceeding from McNab's Island for Halifax and had about six hundred souls aboard. Capt. Hunter, who is one of the best captains on the service, was at the wheel, but there was a heavy fog and the accident is supposed to have been caused by the run of the tide.

The steamer only remained on the ledge about a quarter of an hour, as the "Davis McNab" came to her assistance and she was taken off none the worse for the accident.

MAY BE PROSECUTED.

"Fancy Evaporated" Dried Apples, Shipped to Old Country, Contained Germs and Seeds Under Top Layer.

Ottawa, July 30—The department of trade and commerce will probably take action against certain Canadian shippers, based on complaints received from the old country that dried apples marked "fancy evaporated" have been found to contain seeds and cores below the top layer, which consisted of high class products.

The Right of Way

The fact should not be forgotten that a team or an automobile coming up behind another has not the right of way; the forward team has the right of way. It is noticeable that an automobile coming from behind keeps tooting its infernal little horn, but let it toot until you come to a bit of road wide enough to let it pass. Do not be afraid that any chauffeur who has any sense will risk his freedom and perhaps his life by running into a team and its load from behind. In meeting, the law is that each driver leaves the centre of the road clear on his right hand—see revised statutes. On our narrow roads the auto cannot observe the law, and the horse carriage must go to the ditch. Automobiles should be forbidden absolutely to go on such roads as they cannot observe the law regarding passing. If an auto comes up from behind tooting his horn that gives the driver no license to run into another team. The buzzing wide open through the narrow streets of New Glasgow will sooner or later, unless the speed is moderated, land some one in the penitentiary for manslaughter.—New Glasgow Chronicle.

OLDEST MAN IN CANADA.

Will be One Hundred and Sixteen Years Old Aug. 19th.

Windsor, Ont., Aug. 3.—Henry Washington, a well-known colored citizen of King'sville, who attended the emancipation day celebration Thursday, at Sandwich, claims to be the oldest man in the whole of Canada. Washington's birthday is on August 19th, and if he lives he will be 116 years old on that day. The oldest residents of King'sville say they can remember Washington as far back as 1850, and at that time he was grey-headed and bent. He was sold into slavery at the age of four in Kentucky, and for forty-six years was owned by a Southern planter. He escaped to Canada previous to the outbreak of the Civil War.

SUDDEN DEATH AT WEYMOUTH.

Mr. Charles E. Balcom, jeweler of Weymouth, went to his store Saturday morning as usual, and engaged in sweeping, dropped dead, as his body was found lifeless a few minutes later. He was a native of Yagmouth, was sixty years of age, and leaves a widow (who was Miss Harris, daughter of John Harris, of Milton, Yarmouth,) three sons and one daughter, Percy, George and Eva, of Yarmouth, and Clayton, of Boston. Mrs. Balcom and Eva were on a visit to her son, Clayton, in Boston, and arrived in Yarmouth on Monday morning. The remains arrived in Yarmouth the same morning by train, and the funeral took place Tuesday afternoon.

After daring all hazards in the air the French aviator Latham survived to meet death at the horns of a wild buffalo. Fate or circumstance sometimes defies all precautions or lack of them.—Boston Transcript.

NOVA SCOTIA COAL DEALERS

Prepare to Meet the Shortage in Anthracite.

New York, Aug. 3—Coal dealers here estimate that by October the anthracite shortage in this and other cities will amount to 6,500,000 tons. This shortage caused by the cessation of mining in April and May, will begin to be felt severely, it is believed as soon as the winter demand for coal begins.

Nova Scotia dealers, who have found it impossible to fill the orders in their territory, came to this city this week and placed orders with the wholesalers.

A mustard toothbrush will do more to ward off pneumonia than a gallon jug.

Margaretville

Margaretville, Aug. 6th.—Mrs. Owen Margeson and daughter of Boston are visiting at the home of Deacon and Mrs. James Cook.

Mrs. (Dr.) Rockwell is spending a few weeks with Capt. and Mrs. S. Harris.

Miss Morse of Providence, R. I., is the guest of her friend, George Faircom.

Mr. and Mrs. C. L. Bigby of Lynn are spending their vacation with relatives in this place.

Miss Nellie McNeily of Boston, is visiting her mother, Mrs. Selma McNeily.

Miss Eclair Cleaveland, who has been visiting Mrs. R. Barry, has returned to her home in Dartmouth.

Mr. Lemert Macpherson of Boston, is spending his vacation with his aunt, Mrs. John Warren.

The S.S. Ruby L. went to Digby on Thursday to take a S.S. picnic from Digby to Port Wade.

A very interesting missionary meeting was held in the Baptist church, Sunday evening. The duet by Mrs. Rockwell and Mr. Emery Harris and the quartette by Miss Emmie Baker, Miss Georgia Balcom, Mr. Claude Balcom and Mr. C. D. Baker.

Hampton

Hampton, August 6th.—Has any located the position of the sun? If so please inform the readers of the Monitor, as it has been so long since we have felt any warmth from that source we are uneasy about it.

Much sympathy is felt for Mr. and Mrs. Norris Mitchell in the serious illness of their only child, Buba, one of the brightest and pleasantest little girls in the village.

The farmers, if they ever get through haying, will feel like the children of Israel after getting through the Red Sea, the only difference being the children got through on dry land while the farmers have to swim for their lives.

The Seaside House still has a big share of guests, which goes to prove that Hampton is the best place for tourists along the shore.

THE HOME

A PHYSICIAN TELLS HOW TO GET REST.

When rest is ordered it is a common thing to be met with the reply that it is impossible; but it is often quite possible to get a great deal more than is taken. There are always some people who cannot be induced to rest until some serious illness is brought on and they are compelled to lie by altogether. Vitality is produced only at a certain fixed rate, though this varies greatly, at times and in certain individuals, and unless a proper amount of rest is taken there is danger of the strength being overtaxed. In some cases where this has occurred there is no treatment that can take the place of rest and the patient's whole future depends upon his getting it. He may have to keep his bed for weeks, because in that position he cannot even take exercise, for there are times when exercise of the mildest character would save themselves from falling into any such serious state if they would use reasonable care as to resting generally. Where vital force is low, and the organs that supply it feeble in their action, fresh air for example is most necessary, but it must be obtained without exertion of any kind.

To lie on a comfortable couch out of doors, or even by a wide open window will do good, and precaution may easily be taken against catching cold.

A quarter of an hour, or better still, half an hour spent in sitting or lying down quietly after the midday meal is a good means of strengthening anyone and resting the nervous system. There is no need to go to sleep, though the rest will be more complete if the eyes are kept closed. Many a man or woman would find health benefited by the purchase of a really comfortable chair, for true rest can never be had in a forced position; the muscles of the entire body must be relaxed. Again, many people neglect to get enough sleep at night; if you are called on to rise early you must not keep late hours; eight hours should be the measure for any one who works hard either with head or hands. In the case of a woman whose rest is broken by a baby, she must do her utmost to get a short nap during the day unless she can go to bed very early at night. The same applies to anyone who may bear the charge of an invalid. The old description of burning the candle at both ends may be used for the often highly unselfish people who work continuously without resting; but they would do well, before it is too late, to consider whether it is worth while running the risk of serious illness that might quite possibly incapacitate them from any duty at all.

HOUSEHOLD HINTS.

Add a little boiling water to an omelette to keep it from being tough. If you grease the iron rim of a kettle its contents will never boil over.

If you find the oven too hot and your cake commencing to burn, get a pan of cold water in the oven.

Never fold a fur-lined garment when putting it away for the summer. Put around it a large cloth lined with newspapers and hang it up.

Keep your spices in glass bottles with screw tops—such as peanut-butter jars. A glance will tell you the contents, even if marked covers did get mixed.

As a substitute for hot-water bags, use common flannel bags made in convenient sizes, with drawstrings. Fill them with hot sand or salt, keep a half-dozen ready.

Stuff wet shoes with oats or paper, and rub the outside with sweet oil to prevent stiffening of the leather.

If a little sweet milk is rubbed over the tops of rolls or loaves of bread (just enough to moisten them) before they are placed in the oven, the crusts will be a rich brown and much softer.

If there's the faintest suspicion of moths about the edges of the carpets cover with a damp cloth and iron with very hot irons that will drive enough steam through to destroy moths and their larvae.

All nails and hooks used where damp articles will be hung should be dipped in paint and dried before being put up. Then there will be no rust.

To swallow a dose of castor oil heat a cup by pouring boiling water into it. As soon as the cup is thoroughly heated, pour the water out and immediately put into the hot cup your dose of oil. You can then swallow it as you do a raw egg, and with as little inconvenience.

A dirty well is more dangerous than a dirty kitchen, but both are abominations.

HEADACHES.

Headache may be due to dozens of different causes. It may be due to a lack of sufficient supply of blood to the brain, as in an anemic condition. There is often in this instance a light, empty feeling at the top of the head. The anemic person should be given the temporary assistance of a blood tonic. He should be turned out of doors, and kept there, to get his blood thoroughly oxygenated. He should drink as much milk as will agree with him, and also should eat raw eggs.

A dyspeptic headache may be known by the pain being worse after eating. It is accompanied usually by costiveness, acidity, and a sick feeling. Hot water with a little bicarbonate of soda should immediately be administered, followed a little later by a dose of castor oil.

For the hysterical headache, a plunge into the cold bath, head and all will bring immediate relief.

The congested headache, which may be a periodical result, should be treated by hot mustard foot-baths, or the sitz bath, or both, and a cold compress may be applied to the head.

When the headache is caused by persistent drinking of hot water, the use of the emma, followed by a very hot, relaxing bath will prove remedial.

The neuralgic headache is difficult to treat, for there is so little that will bring relief. In the writer's experience a hot bread and oatmeal poultice has been found to bring some relief, and to induce sleep.

Sick headache comes on violently, lasts about an hour or so, and is followed by sickness, nausea and yawning. The patient usually raises a sour liquid, after which relief is experienced. This disease is often inherited from gouty parents. Its treatment is unsatisfactory and uncertain.

But it may be said of all headaches that hygienic living is the best antidote. In the first place, the patient must distinctly refuse to love his headache, and make a pet of it. He must become wholesome in mind and body. He must rid himself of every impurity possible by sensible diet. If he will cut out meat, tea and coffee as an experiment, when he has been habitually subject to headaches, will keep the bowels relaxed by the liberal eating of fruits at the proper time will, temporarily, eat less and not as frequently as usual, will take daily exercises in the open, and as much as possible will drink water liberally, and not worry, we believe that his chances for a wholesome recovery from almost any kind of headache are legion.—G. F. B.

WHEN YOU DO NOT SLEEP.

Take the thousands of nervous people who do not sleep well. All day long they fear they will not be able to sleep. As night approaches they become more and more convinced they will not be able to sleep. They go to bed with the settled conviction that they will not go to sleep. Now such individuals, in addition to baths and other physical treatment, will do well to go to bed with the idea uppermost in their minds that they will go to sleep, and not care at all if they do not sleep.

If you can't sleep, relax and rest. That of itself will not only do you good, but by giving up you will be surprised how soon you will be asleep.

It is the knowledge that they are awake that keeps thousands of people from sleeping. Relieve the mental tension remove the anxiety and you effectually destroy the state of worry. If anxiety comes to you, and you are prone to say "It never rains but it pours," repeat to yourself the philosophy of the old woman who steadfastly by one saying refused to allow herself to worry: "Perhaps, after all, maybe it isn't so."

WORRY AND FEAR.

Worry and fear are at the root of nervous prostration and possibly half our ills. If we could wrest ourselves from the clutches of these two tyrants what a world this would be! As it is, we go through life in a fear of almost everything. We fear it is going to rain or be too cold or be too hot; that we are going to have rheumatism or appendicitis; that this or that is going to give us dyspepsia, that the banks are going to fail, that world's, neither some of us that cholera or typhoid fever or some epidemic is coming next year. And sure enough the things that we fear and dread generally come; it is a way we have, and it is in accord with law. We are beginning to understand this in some degree, and the sooner we think of health and prosperity and all good things, the better it will be for us. The old law of "everything shall thou eat" is all right.

Let us take the good things with gratitude and not with health and happiness destroying fear.—Edward B. Warman.

A MARTYR TO HAY FEVER

"Fruit-a-lives" Cured After 15 Years' Suffering

CORNWALL CENTRE, ONT., NOVEMBER 27th 1911.

"I was a martyr to Hay Fever for probably fifteen years and I suffered terribly at times. I consulted many physicians and took their treatment, and I tried every remedy I heard of as being good for Hay Fever but nothing helped me.

Then I heard of "Fruit-a-lives" and decided to try them, and I am thankful to say that this remedy cured me completely.

To every sufferer from Hay Fever, I wish to say—"Try Fruit-a-lives." This medicine cured me when every other treatment failed, and I believe it is a perfect cure for this dreadful disease—Hay Fever."

Mrs. HENRY KEMP.
The real cause of Hay Fever is poisoned blood, due to the faulty action of the bowels, kidneys and skin. "Fruit-a-lives" cleans the blood by regulating bowels, kidneys and skin—and thus relieves the excessive strain on the nervous system. Try "Fruit-a-lives".
50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

OUR BABY.

When the morning, half in shadow,
Ran along the hill and meadow,
And with milk-white fingers parted
Crimson roses, golden-hearted
Opening over ruins hoary,
Singing larks and pleasant thrushes
That's the time our little baby
Strayed from Paradise, it may be,
Came with eyes like heaven above her
And we could not choose but love her!

Not enough of earth for sinning,
Always gentle, always winning,
Never needing our reproving,
Ever lovely, ever loving;
Starry eyes and sunset tresses,
White arms, made for light caresses,
Lips, that knew no word of doubting;
Often kissing, never pouting,
Beauty even in completeness
Overflow in childish sweetness—
That's the way our little baby,
Far too pure for earth, it may be,
Seemed to us, who while about her,
Deemed we could not do without her.

When the morning, half in shadow,
Ran along the hill and meadow,
And with milk-white fingers parted
Crimson roses, golden-hearted,
Opening over ruins hoary
Every purple morning glory,
And outshaking from the bushes
Singing larks and pleasant thrushes
That's the time our little baby,
Pining here for heaven, it may be,
Turning from our bitter weeping,
Closed her eyes as when in sleeping,
And her white hands on her bosom
Folded like a summer blossom.

Now the litter she doth lie on,
Strewn with roses, bear to Zion,
Go, as past a pleasant meadow
Through the valley of the shadow;
Take her softly, holy angels,
Past the rank of God's evangelists,
Past the saints and martyrs holy
To the Earth-born, meek and lowly;
We would have our precious blossom
Safely laid in Jesus' bosom.
—From "Poems and Parodies," by
Phoebe Cary, Boston, 1851.

PLAIN FUNG.

When making bread reserve enough to make one large loaf. Add to it one-quarter cup of butter softened, a tablespoon of salt, three well-beaten eggs and three rounding tablespoons of sugar. Work well together, then knead five minutes. Put the dough in a bowl, cover and let rise very light. Turn out on the board and shape into small buns. Set these together in a buttered pan, brush with milk and let rise again which will take but a short time. Press a raisin into the top of each, brush again with milk, dust with sugar and bake.

Nervous children should never be scolded unless it is absolutely necessary, and should never, under any circumstances, be ridiculed. Such treatment is only likely to make them more nervous and in these days such a tendency should be specially guarded against.

Sick Headaches—

are not caused by anything wrong in the head, but by constipation, biliousness and indigestion. Headache powders or tablets may deaden, but cannot cure them. Dr. Morse's Indian Root Pills do cure sick headaches in the sensible way by removing the constipation or sick stomach which caused them. Dr. Morse's Indian Root Pills are purely vegetable, free from any harmful drug, safe and sure. When you feel the headache coming take

Dr. Morse's Indian Root Pills

A Notable Example

"I have a sister-in-law who is seventy-eight years old, and for the last fifty years she has not eaten a particle of meat, fish, eggs, chicken, butter, nor anything in the way of grease of any kind. She has never had a day's sickness nor a pain nor an ache. She lies down at night and awakens in the morning in the same position. She lives on fruit, grains, vegetables and nuts. She never drinks tea or coffee—nothing but water. Fifty years ago, and for twenty-five years, we considered her a crank, but she buried her parents, two sisters and one brother, her husband and two children, and is likely to bury the entire generation in which she lived. She is so active that she asks the privilege of going up and downstairs and doing errands for the family, considering that she can do it more easily than those much younger than herself. This may certainly be considered a strong tribute to her hygienic and strict manner of living, and I can see no reason at all why she may not live to be a full hundred years old."

God bless her old soul! Here's hoping she may come in on the home run as fresh as a daisy kissed by the morning dew. She richly deserves it.

Milk is a cheap food. One quart of milk is equal in food value to: Three-fourths pound lean round of beef.

Five pounds spinach.
Seven pounds lettuce.
Four pounds cabbage.
Two pounds salt codfish.
Three pounds fresh codfish.
Two pounds chicken.
Four pounds beets.
Five pounds turnips.
One-sixth pound butter.
One-third pound wheat flour.
One-third pound cheese.

Compare the prices of the above articles; the time required to prepare the amount of gas and coal required; the amount of waste, and realize how cheap and good a food milk really is. Milk is the best food for the nursing mother. Best food for the weaned baby. It is a cheap food. It is a clean and safe food. Milk makes muscle. It has no waste. It requires no cooking. Milk is a good food for the sick. It is the best food for all—from infancy to old age.

It can be used in making many dishes. It is easily digested.

A CLOSE CALL.

What might have been a more serious occurrence took place near Yarmouth on Friday night. Our esteemed fellow citizen, George Treffy, was returning to Yarmouth when his carriage was struck by an auto which was returning to town. Mr. Treffy heard the auto horn but being well over on his own side of the road, did not anticipate any trouble. He was mistaken, however, as the auto, instead of taking the opposite side in order to pass him, kept to the left and so doing broke several spokes of the wagon. Mr. Treffy was thoroughly alarmed, not knowing the horse of the collision and fearing his horse might bolt. The following morning he endeavored to locate the auto and its driver but failed. If there is any excuse for such an accident Mr. Treffy would like to know it.—Yarmouth Times.

S. S. Westport Ashore

The Insular S. S. Co.'s steamer Westport, bound from Yarmouth for Westport, struck a ledge at Deveau's Cove about four miles from Cape St. Mary's at 4:40 Wednesday afternoon. She had on board at the time of the disaster seventeen passengers, all of whom were landed in a small boat without any difficulty, the water being smooth with the ebb tide. The passengers were sent to Metegan and afterwards across the bay by power boat.

The steamer was floated about 11 o'clock the same night and taken to Metegan where she will probably be repaired. She will require a new keel and other repairs to the hull, as it was quite rough during the flood tide. We understand the loss is covered by insurance.—Digby Courier.

FURNITURE POLISH.

This is a very effective and quickly made furniture polish. Take equal parts of turpentine and vinegar, and a quarter part of salad oil. Mix all well. To use, dip a flannel rag in the mixture, and rub it well on the furniture; then polish with a duster.

Never marry a man with the belief that you can reform him, girls. If his self-esteem has not been strong enough to save him, the influence of the best woman on earth will not avail.

M. K. PIPER,
Monitor Office.

IMPORTANT NOTICE

According to the postal law now in force newspaper publishers can hold for fraud anyone who takes a paper from the post office and refuses payment, and the man who allows subscriptions to remain unpaid and then orders a postmaster to send notification of discontinuance to the publishers lays himself liable to arrest and fine. Postmasters are also liable under the law for the cost of papers delivered to other persons after the death or removal from their office district of the persons to whom the paper was first addressed.

At the Head

The man at the head of affairs whether at home or in business, is the one whose attention you wish to attract. Our paper goes into the best class of homes and is read by the head of the family. That accounts for the results obtained by the use of Classified Want Ads.

Clementsport.

Clementsport, Aug. 13.—Mr. Wm. N. Stronach, wife and daughter, of Clarence, were guests of Mr. and Mrs. Charles Stronach recently.

Mr. Howard Mussells and Mr. J. Roop of New Glasgow, who are spending a few weeks with Mr. Mussell, are out in the woods on a fishing trip.

Mr. and Mrs. W. V. Vroom left our village a few days ago on a short vacation. The former for Yarmouth, the latter to Middleton.

Mrs. W. C. Jones spent a day recently with her son, Mr. O. C. Jones at Digby.

We have noticed a number of Bridgetown people in our pretty village of late. Among them were Mr. and Mrs. John Hicks, Mr. and Mrs. M. S. Covert, Miss Jennie Vroom, Miss Bird, and others, whose names we cannot recall.

Mrs. B. R. Lidden and Mr. Horace Tryon, both of Boston, are at present the guests of Mr. and Mrs. Charles Stronach.

There are many strangers here at present and they seem to be arriving daily. The writer, as he sits in his office, sees new faces every day on our streets,—and the best part is, all seem to look happy and wear a genuine smile.

Our vessels seem to be doing remarkably well this season. We are glad to report since our last writing, which is but a short time, the arrival and departure of the schooner Emma E. Potter, Capt. Walker, the arrival of the tern Sch. Mercedes, Capt. LeCain, and the arrival and departure of the Clara Banner, Capt. Melanson.

The family and some friends of the Rev. Mr. Reeks of Round Hill are camping near here for a few weeks.

Mrs. Glover and her sister, Miss Gilliat of Boston, sisters of Mrs. Elias Rawding, were her guests for a short time recently.

We are glad to learn that the young child of Mr. and Mrs. Fraser here who has been very ill for some time and under the care of several doctors for a time, is much better.

Capt. J. N. Berry of the tern Sch. B.B. Hardwick, who has been away to the West Indies for some months, is at his home for a few days looking hale and hearty.

Clarence.

Mrs. Israel Balcom and daughter, Bessie of Dorchester, Mass., have been recent guests of Mrs. J. H. Balcom.

Mrs. Viola Whitman, accompanied by her brothers, Roy and Arthur, left on Monday for the West, where she expects to engage in her profession of teaching.

MINARD'S LINIMENT CO. Ltd. Gentlemen.—In June, '98, I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal until your agent gave me a bottle of MINARD'S LINIMENT, which I began using. The effect was magical; in five hours the pain had ceased and in two weeks the wounds had completely healed and my hand and arm were as well as ever.

Yours truly,
A. E. ROY,
Carriage Maker,
St. Antoine, P. Q.

STRONG & WHITMAN'S AUGUST CLEARANCE SALE

Will continue until AUGUST 17th inclusive.

See our 5 1/2c. and 9c.

DRESS MUSLINS

These Two Lines Less than Cost.

Upper Granville

Upper Granville, Aug. 12th.—Mr. and Mrs. Hood with two little sons and the Misses Chute of Berwick have been recent guests of Mr and Mrs. Adam Clarke.

The Misses Maggie Chute, Mabel Troop, Jennie Fellows and Laura Graves left on Wednesday, Aug. 7th, for the West, where they carry with them best wishes of many friends for continued happiness and prosperity.

Mrs. Jennie Parker is making her annual visit at the home of Mr. and Mrs. E. P. Fellows.

Miss May Mills, teacher in Chesley Section for past year, has secured a position at Lequille for the coming year.

Weather conditions have been somewhat improved during the past week and farmers have made hay while the sun shone, with more than usual thankfulness.

AUTOMOBILE ACCIDENTS.

Monday afternoon a new car being driven by Mr. Frank Lent, who had with him Mr. James Merkel, went off the south side of the Racquette bridge at high water. The car was somewhat injured and the escape of the occupants from being killed was almost miraculous. Their fall, of course, was checked by the tide.—Digby Courier.

As Mr. Albert Gray was proceeding in his auto last evening along Commercial street, the machine ran into a post. His sister Hazel was thrown into the air by the concussion. Her feet were caught by one of the occupants, but in the attempt her back was injured and she was rendered unconscious. She was reported much better this morning.

An ox belonging to a Mr. Purdy, of Plymouth, whilst lying in the road last night got up just as an auto from town was approaching it, and in attempting to cross to the side was struck by the car and so badly injured that it had to be killed.—Yarmouth Herald.

LADY TRAVELLERS.

On Wednesday, last Mrs. A. C. Clements of Yarmouth and Miss Charlotte Fisk of Salem, Mass., were in Kentville. They had walked all the way from Yarmouth to Wolfville and returning to Kentville, took a drive around with Dr. P. C. Woodworth, who is a relative of Mrs. Clements. They registered at the Trask House and we understand, took the Blue-nose for Yarmouth. They are ladies of considerable means, who are seeking out-door exercise for the benefit of their health, hence their idea of taking such a long trip on foot.

They travelled one hundred and eighty-three miles, each carrying a United States military knapsack with their necessary clothing, etc., and were about two weeks on the way. They travelled about sixteen miles a day which is pretty good for ladies nearing middle age, carrying their accoutrements, and judging from their looks, their health must have greatly benefited by this unusual and novel form of treatment.—Kentville Advertiser.

LEOPARD MOTH NOW.

Boston trees are being attacked by the leopard moth. Says a Boston paper: "The precarious perch of a 'bosun's chair' rigged on a ninety-foot spar, with tackle ropes to watch pruned shears to handle, and perhaps a very high wind swaying the seat at varying and dangerous tilts, while ridding the trees on the Common of the leopard moth pest, is a job that closely approaches a steeple jack's or thrills and has excited the interest of passers-by for the past few weeks. The peculiar manner in which the leopard moth works by first attacking the tree at the extreme ends of the small branches and twigs, plainly apparent by their premature brownish color, which would not sustain the weight of an extension ladder and consequently permitted the undisturbed moth to bore under the bark and check its nutriment, caused great concern among those in charge of the work."

RAILROAD MAN RETIRES.

Mr. William Yould, Mechanical Superintendent of the Dominion Atlantic Railway, retired from the service of that road on July 31st, says the Kentville Chronicle, after having occupied his present position since 1880. He has been in the service of the D. A. R. since 1870, thirty-two of which he has been Mechanical Superintendent. He has served with eminent satisfaction under every General Manager which the road has had since it was first opened. Mr. Yould has established a record which is, perhaps, unequalled in railway history in America, in that, through all the long years that he has had charge of the rolling stock of the road, not a single passenger has received injury during that time.

SLAYER OF CHILD COMMITTED SUICIDE.

The body of a man found floating Monday in the Hudson River and taken to a morgue in Hoboken was identified as that of Nathan Swartz, indicted for the murder of the child Julia Connors, in the Bronx on July 7th. The identification was made by Frank Alexander, Swartz's brother-in-law. Swartz was indicted yesterday when his father, Samuel Swartz, appeared before the Grand Jury and acknowledged that his son had confessed to him that he had killed the child. The father stated that he had told his son that the only thing for him to do was to go and commit suicide.

AN INVESTMENT.

A speaker at a New England fruit exhibition has said that there is no better insurance against old age than a good orchard. After a number of years ten acres of an apple orchard will be a steady source of income.

HAVE YOU A BAD SORE

If so, remember these facts—Zam-Buk is far the most widely used balm in Canada! Why has it become so popular? Because it heals sores, cures skin diseases, and does what is claimed for it. Why not let it heal your sore?

REMEMBER THAT ZAM-BUK IS

altogether different to the ordinary ointments. Most of these consist of animal fats. Zam-Buk contains no trace of any animal fat, or any mineral matter. It is absolutely herbal.

SAVE THE OTHER FELLOW.

There is chivalry in humbler places than on the palatial decks of the Titanic. Two workmen were buried in a trench at Cincinnati Saturday, and as the rescuers were at work to save them one cried out: "Don't mind me, save the other fellow. He has a wife and children." Fortunately, they were both saved, but the "women and children first" spirit was as strong in grimy overalls as in spotless broad cloth.

PEDESTRIAN TOURISTS.

Two ladies arrived in town on Monday afternoon on foot and stopped over night at the Hotel Spa, says the Outlook. They registered as Mrs. Martin and Miss Martin of Chicago, and stated that they started on Thursday from Lour Lodge, Digby, to walk to Kent Lodge, Wolfville.

These ladies are fond of walking tours, having frequently made journeys on foot in England, Bavaria and other European countries. They are afraid to travel unattended in the United States, but very enthusiastic in commendation of the security as well as the beauty of the Annapolis Valley and the hospitality of its people.

WALKED OFF MOVING TRAIN.

As the Blue-nose express from Halifax was drawing into Kentville last Wednesday, says the Kentville Chronicle, making fairly good time, a woman named Patterson from Fallmouth, attempted to step from the car at the Cornwallis Street crossing and was thrown violently to the ground, striking on the back of her head, and sustaining scalp injuries and a slight concussion of the brain. Dr. Burns was quickly called and rendered assistance to the injured woman, who was unconscious for some time.

GIRLS GO ON STRIKE AGAINST USE OF PROFANITY. New York, Aug. 2.—Four hundred girls, members of the Dressmakers' Union, employed at a Brooklyn factory, are on strike today against the use of profanity by the foreman and other male employees of the shop. The strikers hope to bring about a series of walkouts in other factories to enforce the demand for a rule that foremen and others be instructed that no profanity or abusive language shall be used in the workrooms at any time, no matter what the provocation.

TEST AGAINST USE OF PROFANITY.

The strikers hope to bring about a series of walkouts in other factories to enforce the demand for a rule that foremen and others be instructed that no profanity or abusive language shall be used in the workrooms at any time, no matter what the provocation.

AN INVESTMENT.

A speaker at a New England fruit exhibition has said that there is no better insurance against old age than a good orchard. After a number of years ten acres of an apple orchard will be a steady source of income.

HAVE YOU A BAD SORE

If so, remember these facts—Zam-Buk is far the most widely used balm in Canada! Why has it become so popular? Because it heals sores, cures skin diseases, and does what is claimed for it. Why not let it heal your sore?

Remember that Zam-Buk is altogether different to the ordinary ointments. Most of these consist of animal fats. Zam-Buk contains no trace of any animal fat, or any mineral matter. It is absolutely herbal.

Remember that Zam-Buk is at the same time healing, soothing, and antiseptic. Kills poison instantly, and all harmful germs. It is suitable alike for recent injuries and diseases, and for chronic sores, ulcers, etc. Test how different and superior Zam-Buk really is. All druggists and stores at 50c. box. Use also Zam-Buk Soap. Relieves sunburn and prevents freckles. Best for baby's bath. 25c. tablet.
