Netional Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, for the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CON-TINUED"), or the symbol ♥ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \longrightarrow signifie "A SUIVRE", le symbole \forall signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants lilustrent la méthode.

REPORT.

The general statement of the affairs of the Parent Wesleyan Missionary Society, read at the last annual meeting held in Exeter Hall in May last, was of a most cheering and gratifying character. Without further preliminary remarks, we proceed to lay before the friends of Wesleyan Missions in Eastern Canada the most important and interesting portions of the abbreviated Annual Report :---

The receipts of the Wesleyan Missionary Society for the year ending December 31, 1853, were £114,498 14s. 3d., being an increase of £9,116 14s. 9d. over those of the preceding year. As the amounts presented to the Society in the form of Donations on Annuity are more than Four Thousand Pounds less than in the former year, and as there is also a small decrease on other Miscellaneous sources of Income, it is evident that the result now reported must have arisen from a considerable advance on other sources of receipt. This advance is found in the receipts from the Home Districts, in the Hibernian Missionary Society, and in the contributions of Foreign Auxiliaries, especially the Auxiliaries in Australia, which have exceeded all former years in their ordinary contributions, and have also remitted considerable sums for the outfit and passage of additional Ministers for the Colonies; but the amount of legacies received during the year has been advanced beyond all former precedent by the payment to the Society of the munificent bequest of Ten Thousand Pounds, less duty, by the Society's early and well known friend, the late Thomas Marriott, Esq.

Making a total amount of Regular and Miscellaneous Receipts, from all sources, of One Hundred and Fourteen Thousand Four Hundred and Ninety-eight Pounds Fourteen Shillings and Threepence.

The Expenditure of the year has also been £114,498 14s. 3d., including the amount of £5,119 17s. 4d., which has been paid in partial liquidation of the accumulated deficiencies of former years. The remaining balance of those deficiencies now stands at £19,501 11s. 10d., the entire liquidation of which the Committee keeps steadily in view in connection with the financial management of all the operations of the Society. The expenditure of the year has been augmented to a large amount by the outfits and passages of no less than thirty Missionaries, some of them married.

The Home Receipts (including £4,195 8s. from Ireland) were £76,405 1s. 9d.,—the Receipts from Foreign Auxiliaries, &c., £17,713 13s. 4d.,—and the Miscellaneous Receipts £20,379 19s. 2d.

BUBOPE.

In presenting the Annual Report from *Ireland*, the General Superintendent observes :---You will see there is a considerable increase in the Sunday-schools, and also in the attendance on public worship. This is matter of gratitude, especially at the time when we have to meet such a united and determined opposition. I have before informed you that the Schools have suffered considerably from the denunciations of the priests, but they are now gradually recovering the shock, and I believe we never had so many Roman Catholic children in our schools as now. Their parents say their children get no such instruction in any other schools, nor so much kindness shown them; hence, when the children are detained at home, they do nothing but weep till they are allowed to come again.

At Winnenden, in the Kingdom of Wurtemberg, Mr. Müller had been, during the year, in a very enfeebled state of health. The Committee had requested him to name some person or persons qualified for usefulness in the same department which he has so long filled, and three were selected. Since these arrangements were made Mr. Müller's health has greatly improved, and the work of God advances still.

The last year at Gibraltar has been one of unusual change. Forty-two members have been lost by removals. The congregation has also suffered greatly from emigration. Under these circumstances it is matter of thanksgiving that the numbers are only seven fewer than they were in 1852. Thirty-five new members have been received during the year-a greater accession than in any similar period for the last thirteen years. In the Spanish Department there has been much to exercise our faith and patience. The services in both departments of the work have been conducted without intermission. The schools are in a flourishing state, and have received a larger share of public approval and support than at any former period. The number of children receiving instruction is,-Boys, 179; Girls, 65.

CEYLON AND CONTINENTAL INDIA.

In South Ceylon, notwithstanding many opposing influences, the result of the year's labour is encouraging. An increase of forty in the total number of members, with a

und) iliaipts

ral er-Id-

large number on trial for membership, shows that the labours of the Missionaries have not been fruitless, and an increase in the local contributions proves that they are increasingly appreciated. The zealous endeavours of the Romish priests to make proselytes have succeeded to some extent at Negombo. Mixed marriages have been the implements by which their game has been played, and five members have left the Society; yet there is a small increase. Several heads of families, in a District thirteen miles from the Mission-House, have requested visits and instruction, and have engaged to build a chapel for themselves. From Pantura the Missionary writes: "the demand for the Tracts on Budhism and the New Testament is very great. One cheering feature of the work is the zeal manifested by our young converts to bring others to a saving acquaintance with the Gospel." At Galle, there are eight Singhalese services on the Sabbath. and regular open-air preaching through the week.

In North Ceylon.-From Jaffna, Mr. Griffith reports a steady increase of the Native and English congregations. At Wannerpoone, two, and sometimes three, services are held about sunrise on the Sabbath morning; and on weekday evenings also, especially when it is moonlight. The character of these suburban and village congregations afford the Missionary an index to "the comparatively advanced religious condition of the population of Jaffna." In the Educational Institution at Jaffna great pains are taken to teach the doctrines and evidences of Christianity. The boarders, in training for future teachers, are seventeen in number, several of whom are members of Society; the total number of pupils is eighty-four in the upper school and a hundred and one in the lower. The female schools afford every satisfaction. Four have lately been added to the Native Girls' Boarding-School, and arrangements are made to receive eight more.

In the *Point Pedro* Circuit, four Hindus, who trace their convictions to the labours of the Missionaries, have become candidates for baptism, and one has been admitted to that

e labours increase reasingly h priests Vegombo. ch their left the heads of h-House. raged to Missionsm and ature of verts to el." At abbath.

ports a rations. ces are week-The afford anced BEduteach rders. mber, mber ndred satis-Girls' ceive

their come that sacrament after several months of trial and instruction, Upwards of one hundred and fifty portions of the Scripture, and two thousand five hundred tracts have been distributed during the year; and the general progress of all the classes in the *Point Pedro* English School has been satisfactory. The *Trincomalee* Station has now the advantage of a resident Missionary; and Mr. Walton has commenced a public service in Tamul on Sunday evenings in the most densely populated part of the town, which yields him much encouragement, the attendance and attention being equally satisfactory.

In referring to the Madras District, the Committee recorded the loss they have sustained by the unavoidable retirement of the Rev. Samuel Hardey, who had most faithfully and ably administered its affairs for several years past. Mr. H. continued at his post until an overpowering attack of illness rendered it necessary for him to leave Madras in urgent haste. For some time it was apprehended that his recovery was impossible, and when the vessel reached Mauritius, he was too ill to continue his voyage to the Cape of Good Hope. His undesigned sojourn at Mauritius has proved so far serviceable to his health as to afford hope of his restoration to active employment. The native congregation in Madras has improved since the opening of the new chapel at Royapettah in April, 1853, and the English congregation in Black Town is, perhaps, somewhat improved also. In this District much attention is devoted to education. At Madras there is an English Sunday-school, in a hopeful state, and a girls' boarding-school which has forty-nine boarders and thirty day scholars. The object deemed most important in conducting these schools is to impart as thorough a knowledge of the Scriptures as the pupils are capable of. The fruit of this labour is seen in the baptism of five of the scholars, and in the addition to the native society of three more. But, perhaps, the most important branch of the educational operations of this Mission is the English boys' school, which has increased very considerably during the past year, and has

now 170 scholars. The resolutions on the subject of caste have been successfully maintained, and the Pariah and the Brahmin now sit side by side without apparent reluctance. The studies pursued are, in the main, the same as last year, with the addition of natural philosophy and Tamul. The English day-school at Negapatam has risen from twentyseven boys to seventy-three, of whom about sixty are in regular and punctual attendance. That at Manaargoody contains twenty-five boys, many of whom are Brahmins. The girls' school at Trichinopoly is supported entirely by resident Christian ladies.' In addition to these and other schools, a class of young men has been formed at Madras with a view to afford them assistance in qualifying themselves for teachers or preachers should they be called to fill that office. One of its members will this year be recommended to the Conference as a probationer for the work of the ministry among his own people.

The Missions in the Mysore District have been strengthened by the return of Mr. Edward Hardey from England, and of Mr. Morris from Australia, and also by the appointment of Mr. Garthwaite to assist in the Educational Department. The Mission Press at Bangalore is maintained in unabated and most useful activity. Seventy-seven thousand volumes and pamphlets, comprising many useful School Books and Tracts in English and Canarese, have been printed during the year, in addition to the new version of the Scriptures in Canarese, which is not yet completed. Many of these books have been prepared by the brethren, who have thus availed themselves of an important opening for usefulness among multitudes of heathen who will never see their faces. The report of the religious state of the societies is on the whole gratifying. Of the schools in this District the " a call to the Thit Sould Fall?" Report is highly encouraging.

In CHINA, Messrs. Beach and Cox are mainly occupied in learning the very copious and difficult language in which their ministry is to be exercised. They relieve their arduous toil by the distribution of tracts, and seek, in all such ways

ect of caste iah and the reluctance. as last year, amul. The m twentyixty are in anaar goody Brahmins. entirely by and other at Madras ving themlled to fill be recome work of 1 2 34

strength-England, appointal Departtained in thousand il School n printed he Scrip-Many of ho have or usefulsee their ties is on trict the Stat Eafli

upied in which ardnous h ways

as may be open to them to spread the knowledge and influence of divine truth. Mr. Piercy having been longer resident in the country, has commenced preaching in a room in his own house, which was opened as a chapel in June last, and the continued kindness of Dr. Hobson has allowed him the occasional assistance of Leang Afa, the first convert of Protestant Missionaries in China. This venerable man, who was baptized in 1816, by Dr. Milne, preaches once on the Lord's Day in the Methodist Chapel. Mr. Piercy takes the other service. A school for boys has also been commenced during the past year, and Mrs. Piercy will probably do something on behalf of the females when she is better acquainted with the colloquial dialect of Canton. Mr. Piercy has translated the first catechism, and part of the second, for the use of the Mission School; and some portions of the Scripture Narratives have been printed under his direction, to be used as tracts. Other tracts have been obtained from various sources, and largely distributed, particularly at the gates of the city of Canton, where, though the Missionary cannot enter, his message finds a welcome reception. The acknowledgements of the Committee are due to the British Consul at Canton for his assistance kindly rendered to Messrs. Beach and Cox in overcoming the difficulties attendant upon their obtaining possession of a residence in the western suburb of that city; and they renew the expression of their obligations to the "Anonymous Friend," by whose liberality the expense of printing certain specified tracts has been defrayed, and who has also forwarded £100 to provide copies of the New Testament for distribution by Mr. Piercy and his colleagues. The three brethren have engaged to distribute ten thousand copies each, if spared, during the coming year, from the supply to be provided by the "Million Testaments Fund."... The little Society at Hong Kong has been so greatly reduced in number by the removal of the soldiers and other causes, that it has been judged expedient to commend them to the care of other Christian Ministers, who, being on the spot, could exercise a more efficient oversight of them than the brethren at Canton. September and January 1-5.

AUSTRALASIA AND POLYNESIA.

The year just concluded has been full of interest to the Methodist Societies in that vast region of the globe. Each of the districts has had the advantage of a visit from the Deputation appointed for this purpose by the Conference of 1852, and has been greatly benefited by the counsel and encouragement afforded. It now clearly appears, from the resolutions unanimously adopted at the several district and other meetings, that the anticipations in which the Committee indulged as to the ability and willingness of the Societies in Australia and Van Diemen's Land, both to maintain the work of God and provide for its extension around them, were not at all too sanguine. Those anticipations would have been realised in no long space of time had no Gold Fields been discovered; but the stimulus given to the Australian colonies by the wonderful events of the last few months, has considerably accelerated their realisation. And, looking at all the circumstances of the case, there can now remain no doubt as to the propriety of such an organization being adopted as shall constitute another centre of Methodistic action in the southern hemisphere, from which new and augmented influences may proceed, for the benefit both of the colonial population, and the millions of wretched heathen who are still to be found in those "Isles of the Sea" to which they have ready access..... The Committee recorded with humble gratitude, that Mr. Young returned to England on the 4th of April, having been mercifully preserved in many dangers, sustained in health, and favoured with a high degree of acceptance among those to whom he time been the want of Ministers, and this the Committee have endeavoured to meet to the ntmost of their ability. Several circumstances retarded the arrival of those who were appointed in 1852; but at length, Messrs: Hart, Harding, and Raston arrived, and it is hoped that they have ere this been joined by fourteen brethren who left our shores in September and January last. Two more sailed a few days since, making a total of nineteen Missionaries and candidates who have left England for service in Australia in the last eighteen months. To meet the heavy expenses thus incurred, special subscriptions have been made, both in New South Wales and Victoria, amounting in all to the liberal sum of $\pounds 1,300$. Notwithstanding this large augmentation, the supply of Ministers in these colonies falls much below the demand. Each of the Districts in Australia and Van Dieman's Land intimates to the Committee that it requires and could profitably employ a larger amount of ministerial labour.

The extracts from the reports of several Circuits in Victoria were interesting on many accounts. Mr. Butters writes concerning Melbourne .--- "Our cause has been seriously affected by the removal of nearly all our principal officers from town, where house-rent has become so extravagantly high, and the discomforts of families so great, that they have converted their former residences into places of business, and have removed their families into the country. We are anxiously awaiting the arrival of our new Iron Chapel for the City, and are persuaded that as soon as it can be erected it will be filled. Our present chapel is not nearly large enough to accommodate the crowds who would attend had we room." Early in the year about five thousand persons took up their abode in tents on the banks of the Yarra. We erected a large tent outside the encampment in which we conducted public worship, and a Sabbath-school for some months. The removal, however, of the greater portion of this population led us to shift our tent to another locality within about a mile of the town, where we have a beautiful piece of land, recently granted by His Excellency the Lieutenant Governor, and where, since the erection of our tent, we have formed a class, commenced a Sunday-school, and regularly conducted public worship a lour ! Lamarante? Home' is more than meeting our most sanguine expectations. It has cost upwards of \$3,500, \$1,000 of which was granted by the Government, and it is now free from debton Singe it

was opened in December last, 1,361 persons have been accommodated, of whom 652 have been members of our own church or congregations, and the rest respectable persons of other religious denominations, among whom have been several Ministers of religion. There are at present 102 persons in the establishment." At our class-meetings we have had members from England, Scotland, Ireland, Jersey, Canada, the United States, the West Indies, Germany, Cape of Good Hope, France, New South Wales, South Australia, Van Dieman's Land, and the Gold Fields of Victoria, who have evidently felt that they were, while in our institution, at ' Home.' Since Mr. Harding's arrival among us he has several times visited ships with immigrants immediately. on their arrival in port, and has in other ways devoted a great proportion of his time and attention to their welfare. The Lieutenant Governor has shown his estimate of the Institution by promising to place two thousand pounds additional upon the estimates of next year, (on condition that we raise one thousand) to enable us to enlarge and complete the building." I way the off way all write way starzes

Throughout the Province the day-schools are well reported of; but it is believed that teachers of a higher class would find encouragement, and that a Normal Training Institution would be a most important and desirable accession to the means of usefulness already at the command of the Churches. The Gold Fields Circuit has hitherto comprised both the Forest Creek and Bendigo Diggings, at a distance of thirty miles from each other. The Sunday Schools at the Diggings are five in number; two of them having an average attendance of more than sixty scholars each, and all being well reported of. As yet there are no day schools.

The work of the important Province of SOUTH AUSTRALIA wears a cheerful aspect. The two Circuits which bear the name of the capital are in an encouraging condition, having to a great extent recovered the disasters formerly reported. In the Adelaide South Circuit (the place of fifty-four members removed has been supplied, and a total increase of

reported would titution to the urches: th the thirty ggings ttendwell 2. int ALIA r the ving rted. emloof

ninety is reported. A second Minister will be received, and his house furnished by funds in hand. Great peace prevails in the North Circuit, and there is a marked and vigorous co-operation on the part of all the office-bearers. In every place some encouraging signs present themselves, and a confident expectation of better things to come is entertained. The total increase is between thirty and forty members, and there is also an increase of Missionary contributions. Opportunities for extensive usefulness are presenting themselves on every Circuit; appeals for the establishment of the means of grace are frequently made from various parts, and an increased ministerial supply is urgently needed and entreated.

In VAN DIEMEN'S LAND, at Hobart Town, the work is prosecuted amidst many discouragements, and some cheering indications of accomplished good. The Sunday School is well supported, and four small chapels have been freed from debt. In New Norfolk all has been peace and prosperity. The chapel is too small, and the number of members is greater than last year. "A small increase " in these times of distraction and migration," is justly considered as a great encouragement. At the Black River there are hopeful signs of better days. A spacious new school has been erected in this Circuit free from debt.

The effect of the discovery of gold in California, and afterwards in Australia, upon the colonial population of NEW ZEALAND, has been precisely what might have been anticipated. Many have been led to forsake those pursuits to which they were becoming accustomed for others which promised both a larger and a quicker remuneration; families have been transplanted or scattered, and excitement and confusion have been introduced. Such a state of things must needs prove unfavorable to religion, and it therefore excites no surprise to be informed that the number of English members is somewhat diminished. The state of the native population, too, though upon the whole affording abundant evidence of the benefit they have received from the Gospel, in many places, is such as to afford the Missionaries cause of much anxiety. The excitement of novelty once connected with Christian truths and ordinances has passed away, and with it all such interest in them as does not spring from religious feelings and principles. Far from affording an argument against Missionary labours, the present state of things presents a reason for strengthening and multiplying all evangelical agencies, but particularly for the Christian care and instruction of the rising generation. To this, under present circumstances, the Christian philanthropist must look as a principal means of benefitting the aborigines of New Zealand ; and it is, therefore, with great satisfaction that the Committee observe the continued progress of this department of their work, as reported from both sections of the District.

In the Training Institution, at the Three Kings, near Auckland, the total number of inmates, at the date of the last Report, was 131; six teachers had been sent out to take charge of primary schools, about to be established under the new Government regulations. The Report of the Inspectors appointed by public authority in New Zealand, (viz., the Chief Justice, the Colonial Secretary, and the Surveyor-General,) is interesting and satisfactory.

At Wellington, the enlightened and philanthropic Governor of the colony has for some time desired to see an establishment like that at the Three Kings; and the last reports make grateful mention of his Excellency's kindness in securing a most eligible site near the town for a school, and residences for the masters and scholars. The Executive Council have sanctioned the grant of a sum of money for the purpose of commencing operations on this aite. The Circuit Reports this year present few features calling for special remarks or lengthened quotation. From the Waima Report an extract may be given in a few words, but of great significance:—" Popery in every part of this Circuit has ceased to exist among the natives, even as a profession. All are now accessible, and, in some degree, under the influence of our teaching. Many of the New Zealanders have already of novelty. nances has m as does Far from s, the preening and rly for the tion. ady:

acquired considerable property, (horses, cattle, drays, implements of husbandry, &c.,) showing a steady advancement in the civilization which naturally follows Christianity. The most casual observer cannot fail to mark the improved tone of moral feeling among them in the last few years.

The history of the Friendly Islands' Mission during the last year exhibits some sorrowful circumstances. Of the seven European Missionaries stationed there, three have been compelled to leave by failure of health-Messrs. Miller, M. Wilson, and Peter Turner. The evil effects of the late war have not been exhausted at its close, but have been painfully manifested in the impaired tone of the piety of many, the unsettledness of others, and the drifting away from the Church of those who had more of the form than the power of godliness. Diminution of numbers and local finances are the natural results of such a state of things. In the midst of these afflictions, however, there is ample cause for gratitude and rejoicing. The report from Tonga refers in pleasing terms to the benefits already realized since the restoration of peace. The Report of Schools states that nine additional schools have been established in Tonga since the close of the war. From the Training Institution seventeen students who had completed their three years' course have been appointed to schools in various islands, and fourteen new students have been admitted. The demand for such portions of the Holy Scriptures as are in circulation in the language of these Islands continues unabated. The last year has been marked by a most gratifying event, the completion at the Mission Press of an edition of 3,000 copies of the entire New Testament, the translation of which has undergone careful revision. This edition was undertaken before the brethren received information of the munificent grant of the British and Foreign Bible Society, announced in the last Report. The translation of the Old Testament, which has been executed in great part by Mr. Hazlewood. has been completed, and will be diligently revised by Mr.

۵.

C

Watsford, before it is put to press. The English and Feejean Dictionary is also finished.

A full and able Report of the Lakemba Circuit, by Mr. Lyth, supplies many interesting particulars. Of the Vewa Circuit, which is estimated to contain two-thirds of the entire population of the Feejee group, there is not an equally favourable report. A heavy affliction has befallen this Circuit in the death of Elijah Varani, a Christian Chief of good character and long standing, who has been cruelly murdered, with two brothers and four of his people. It has also suffered a sad calamity in the eruption of a volcano, which has carried away a town with a chapel and twenty-five persons. Bua Circuit has proved a place of trial and mourning to the Missionary occupying it. No serious personal injury has been done to him, but his life has been threatened, and many minor annovances practised. In the Nandy Circuit the people in general maintain their profession-the means of grace continue to be well attended, and many are evidently growing in grace. At least, twenty heathen villages are visited for the purpose of affording Christian instruction, in addition to the eight places which form the Circuit. Another earnest appeal has been addressed to the Committee on behalf of Rotumah, where there are in all about 600 persons bearing the Christian name and desirous of instruction, but who, with the exception of a visit from Mr. Williams last year. have been entirely under the care of Tonga Native Teachers. There are eight chapels, and four other preaching places, and about thirty members of Society.

APBIGA.

No very marked peculiarity is noticed in the Graham's Town Report. The Society at Fort Beaufort has been increased by the addition of seventy-six members in the last year. Since the conclusion of the war it has been determined by the Governor that a Fingoe settlement shall be

lish and Fee-

ircuit, by Mr. Of the Vewa thirds of the not an equally allen this Cir-Chief of good lly murdered. also suffered ich has carfive persons. mourning to al injury has d, and many uit the peoans of grace ently groware visited in addition ther earnest a behalf of ns bearing , but who, last year. ve Teachching pla-

Graham's been inthe last on detershall be formed here, and a site has been granted for this purpose. Mr. Ayliff has been appointed to reside at this new settlement. A small increase of members is reported from *Cradock*, with other cheering and hopeful circumstances.

In British Kaffraria, Mount Coke has realized to a great extent the advantages which were anticipated from the restoration of peace. A large and commodious building has been erected for the use of the Watson Institution, which has continued in operation through the year; and the former institution premises will henceforth be occupied by the Printing Press, which is to be removed from King William's Town. At King William's Town there is no decrease in the Society, and hopeful signs of a better future present themselves. The Society's Printing Press is still at work upon the new and revised edition of the New Testament, but 3,000 copies of the Book of Psalms, and 1,000 copies each of Daniel and the First Book of Chronicles, have been completed during the year.

At the Clarkebury Station, in KAFFRARIA PROFER, the work of the Lord continues to prosper. Eighteen persons have this year renounced heathenism and been baptised. There is an average daily attendance of 120 in the School, one half of whom read the Holy Scriptures.—At Shawbury the congregation is between four and five hundred. The new chapel has been so well filled that a service has been held out of doors.

The troublous circumstances of the BECHUANA COUNTRY have prevented the holding of a District Meeting during the past year, and the Chairman's official visit has also for various causes been postponed. Letters have been received from Messrs. Ludorf and Giddy, which contain intelligence of a painful and trying character, well adapted to call forth the prayerful sympathy of the friends of Missions.

NORTH AMERICA.

We pass by the Missions in Western Africa and the West

Indies, not because they have diminished in importance in any degree, but because our information is not sufficiently recent, and more especially on account of the great importance of the affairs of Methodism in British North America. Our friends in Eastern Canada have been made aware that for some years negociations have been proceeding for a change in the ecclesiastical relations of this District, and for a permanent consolidation of the Methodism of British America. The plans are so far completed in reference to Eastern Canada that the District now constitutes an integral portion of the Canada Conference. As this is most probably the last Annual Report which will issue separately from the Report of the Canada Conference, it is thought advisable to give the friends of Missions here most of the particulars respecting this Union, by which they may infer the various advantages which are likely to follow, and further that they may be stimulated to exertion for the support of the work of God both by earnest prayer and generous contributions.

At the District Meeting of 1852 the following Resolutions were passed, after full consideration :---

- I.—That after serious and mature deliberation, the members of this meeting are unanimously of opinion, that the time has now come, when the interests of Methodism in Eastern Canada, and our position as Ministers of Christ, demand that there should be, if practicable, an immediate union with the Canada Conference.
- II.—That, with a view to the accomplishment of this object, the brethren John Jenkins, John Borland, and James Brock, be now appointed as a deputation from the Canada East District, to the forthcoming Canada Conference, proposing such union, and assuring them that the brethron of this District are heartily unanimous in desiring the consolidation of the Wesleyan Methodism of Canada; and these brethren are hereby instructed to make such preliminary enquiries and arrangements, subject to the approval of the Committee and Conference, with the executive of the Canada Conference, as they may deem desirable.

The brethren named attended the Canada Conference, and

ice, and

were cordially received. Suitable resolutions were passed, acceding to the request for incorporation. At the last meeting of the Ministers of this District the delegation presented their report, which was unanimously adopted, to the effect that the union contemplated should immediately be ratified. subject to the final decision of the British Conference. At the time of our writing we are in possession of intelligence from England respecting the proceedings of the Parent Conference. The union of the Canada East District with the Canada Conference was confirmed by an unanimous vote. There exists no doubt respecting the concurrence of our beloved people throughout this District. The subject was brought before them by the late esteemed Chairman the Rev. Wm. Squire, at the time when he visited nearly all the Circuits in the District, and we here insert an extract from the Journal of the District for 1852 :---

At a meeting of the Ministers of the District, with a delegation of lay gentlemen from the various Circuits of the District, particularly Montreal and Quebec, held in the St. James Street Church, Montreal, May 25th, 1853, it was moved by William Lunn, Esq., seconded by Mr. William Blight, and supported by Peter Langlois, Esq., senr.—

That this meeting is of opinion that it would be desirable to effect a union of the District with the Canada Conference; and it is therefore recommended to be carried into operation as soon as practicable.

The facts furnished above show the unanimity with which this measure of union has been carried, and it is now most ardently to be desired that Ministers and people will scripturally co-operate for the attainment of the largest possible amount of spiritual advantage. In order that the Methodists of Eastern Canada may be further stimulated to exertion for the spread of true religion throughout the country, it is deemed advisable to publish some interesting particulars respecting the present condition of the Church under the supervision of the Ministers of the Canada Conference. At its last session held in Belleville, the Rev. Dr. Green was appointed the representative to the British Conference. At a suitable time Green addressed the Conference at some length, and in a manner most creditable to himself and honorable to the body who deputed him. His speech was full of interesting facts and comparisons, and while they show the blessed fruits of union in Western Canada, they may properly be considered as data from which may be anticipated similar results for this section of united Canada. It is therefore deemed advisable to quote a portion of the speech delivered by Dr. Green, that all may be able to judge of the greatness of our work, and the absolute need of actual co-operation and Christian zeal.

Dr. Green said-" You will rejoice to learn that our Church in Canada is in a state of spiritual prosperity. We are tranquil, contented, prosperous, and happy. Indeed I feel almost inclined to congratulate myself upon the altered position in which I now appear before you, compared with that under which I visited you eight years ago. Then I came as a messenger of peace, seeking tranquility for our distracted societies in Canada; now I come as the herald of good tidings, to inform you what great and good things God has done Then I came, in connexion with my excellent colfor us. league, to negociate a union between this Conference and ours. Now I have the happiness to inform you that the principles of the union then agreed upon have been carried into effect, and the result has been all that we could have desired, and much better than we anticipated. Many difficulties were thrown in our way in putting that union into successful operation. There were so many interests to be consulted, so many points of friction to be avoided, and so many prejudices to be overcome, that, at times, our success appeared very problematical. But we undertook it in the name of the Lord, and such has been the honorable and liberal spirit in which your committee has carried out these negociations, and such the prudence, ability, and sound judgment, with which your principal agent with us has managed our affairs, and such indeed the fidelity observed by all parties concerned, that now, although we had many to write

length, and in worable to the of interesting blessed fruits tly be considimilar results efore deemed vered by Dr. atness of our peration and

t our Church We are tranfeel almost position in that under came as a distracted good tidd has done ellent colence and that the n carried uld have any diffiion into ts to be , and so success in the le and t these l judgnaged 1 parwrite

and speak against it, I do not know a solitary individual amongst us who would go back to our former state of things on any consideration. A brief contrast of our position seven years ago, when that union was finally consummated, with our present state, will suffice to illustrate what I mean. Seven years ago we had six W. leyan Districts in Upper Canada; now we have 13. Then we had 98 Circuits and Missions; now we have 163. Then we had 180 Ministers and Preachers in our field; now we have 222 in Western Canada alone, and work prepared for thirty more as soon as suitable young men can be obtained. Seven years ago we had 21,750 church members; now we have 32,364, being an increase of nearly fifty per cent. during that short period of time. Then our own people gave us about three thousand pounds Missionary money, but this year they have laid upon God's table more than £7,300 for that blessed object; and I believe the other departments and institutions of the church are in an equally healthy state. Our Chapel Relief and Contingent Funds are fashioned very much after your own, and are beginning to tell upon the interests of our Connexion. By the latter we are able, not only to equalize the labor on the Circuits, but to afford very considerable pecuniary relief to the poorer portions of our work, where the people are not able to meet all the expenses incurred by a regularly established ministry of God's Word amongst them. By the good hand of God upon us, we have been able to meet all the claims of our venerable Superannuated Ministers, and the Widows and Orphans of those who have died in the work. The source whence this revenue is derived is threefold. First, the one half of our Centenary subscriptions were vested for that purpose, and the interest is paid over to the Treasurer. Secondly, each Minister and Preacher amongst us gives one pound per annum ; and then, thirdly, the Superintendents, assisted by their colleagues, like yourselves, apply to the Classes for the same object. From these sources the Treasurer derives a revenue more than equal to the claims against him. Our Annuitant Fund is a kind of Joint Stock

affair among ourselves, on the principle of reversionary pavments. It is designed to afford relief to our Superannuated men, over and above any claims they may have upon our regular Invalid Fund. From these two sources, any Minister who travels thirty years may provide himself with a retiring pension of £75 per annum. In Education we are doing too little. We have one College, founded and governed by the Church. Our address has informed you that the pupils in that College have recently been increased to 150, and we have a fair prospect of doubling that number at no very distant period. We have been exceedingly fortunate in securing a valuable man as its Principal, (Rev. Mr. Nelles,) who is very popular with the students, and is likely to prove a great blessing to the educational interests of the country. Our Missionary field is ample and interesting. We have fourteen stations among the aboriginal Indian tribes of that country, and two industrial schools, where the Indian youth. gathered from the scattered tribes, are taught the elements of a sound English education, as well as the principles of agriculture and mechanism. In a new country like ours. we must necessarily keep up a great number of Domestic Missions, partly supported by themselves, and partly by the Mission Fund. The vast flood of emigration, constantly flowing from the old world towards the new, renders this necessary. The more enterprising part of these emigrants go back into the woods, where they cut down the trees and contend with the embarrassments of forest life until they turn a "barren wilderness into a fruitful field." These are mostly poor, and the poor must have the Gospel preached to them. It has been our ambition from the first to follow the wanderers in the woods; to preach, eat and sleep in their log cabins; and thus make the sound of the Gospel keep pace with the sound of the woodman's axe. God has greatly blessed us in this work, and many fields that were once Missions are now wealthy Circuits, contributing liberally towards sending the Gospel towards the "regions beyond." It has occurred to me while referring to these facts, that eversionary payr Superannuated y have upon our ces, any Minister f with a retiring we are doing too overned by the t the pupils in to 150, and we at no very disunate in secur-. Nelles,) who ely to prove a the country. g. We have tribes of that Indian youth, the elements principles of ry like ours, of Domestic artly by the constantly renders this emigrants e trees and until they These are reached to follow the p in their spel keep as greatly ere once liberally eyond." cts, that

some of my brethren may have discovered something like an antagonism between these statements, and the report which a celebrated Scotch divine, who recently visited Canada, made on his return to Scotland-I allude to that admirable and excellent Minister the Rev. Dr. Duff. He visited some five or six of our principal towns, returned to Scotland, said many good things about us, and concluded by saying that Upper Canada was nearly Presbyterian! Well, Sir, this was news to me. What are the facts of the case ? Let us examine. Two years ago a religious census was taken of Western Canada, and published by our Government. In those returns I find it stated that the adherents to the Church of England were 223,190; to Methodism 207,495; to Presbyterianism 204,148. Then there were 45,353 Baptists; 12,089 Lutherans; 167,495 Roman Catholics; and the remainder belonged to other creeds not mentioned. At that time there were 952,094 inhabitants in Upper Canada. Now we have more than one million. I do not make these statements by way of invidious comparison, but to give this Conference as full and truthful a view as possible of the religious element of our country. But hitherto I have confined my remarks to Upper Canada, you will expect me to say something of Lower Canada and the Hudson's Bay Territory. You are aware that the two Provinces, Upper and Lower Canada, are united politically, and it was deemed desirable and suitable to unite them Methodistically. Accordingly, a year ago last May, your Missionaries of Eastern Canada, in their District Meeting assembled, unanimously resolved to seek admission into our Conference. The terms were agreed upon, and we as cordially and unanimously accepted their proposals. This year the Reverend the President of our Conference, did me the honor, as well as the Secretary of Conference, to invite us to accompany him to Montreal to attend the Eastern Canada District Meeting. Again the question was brought before them, and they re-affirmed their former decisions; and the laymen in Montreal, at a meeting called for the purpose, most cordially and cheerfully approved

D

of the measure. At our late Conference held in Belleville, the whole question was re-considered and the principles reaffirmed. All parties concerned in the measure, with us, have therefore cordially agreed to the union; and nothing is now wanting but the final vote of this Conference to complete the whole arrangements by which the Wesleyan Societies will be united and consolidated throughout that entire Province. But we stop not here. Your excellent and ever watchful Committee in London have requested us to take charge of their Missions in the Hudson's Bay Territory; supposing and believing, that our contiguity to that far-off and inhospitable region, as well as the appliances which we possess for prosecuting the work there, render such a transfer desirable. We have consented to undertake this arduous duty, and one of our senior Ministers has gone out there to survey the work, ascertain the state of affairs, and see what is necessary for the efficient occupancy of that rugged field. Three excellent Missionaries, well qualified for that work, have been selected to accompany him, and while I am now speaking to you they are on their way to that dark and vast region of sacrifice and toil. By these arrangements you will at once perceive that we have a very large and interesting field presented for Missionary enterprise and usefulness; a field extending from the Atlantic in the east to the Pacific in the west, and from our vast lakes in the south to the Arctic Ocean in the north. Yes, sirs, we have now a tract of country legitimately opened up to our Conference equal in geographical extent to all Europe apart from Russia. (Cries of "that's right, put Russia out of Europe.") Yes, I have no objection. Russia ought, perhaps, to be put out of Europe. You will perceive, then, Mr. President, (continued the Dr.) that we have room enough for the full exercise of all our energies, and a field sufficiently ample and interesting to call out all our resources; and by the help of our God and your prayers and assistance, we are determined to occupy it until our Master shall dismiss us from the warfare. I have been not a little amused since I came to this country, in conversation

in Belleville, principles reure, with us, nd nothing is nce to comleyan Societhat entire nt and ever us to take Territory ; that far-off which we a transfer is arduous at there to l see what gged field. hat work, I am now and vast s you will iteresting ulness; a e Pacific the Arctract of equal in (Cries have no Europe. r.) that lergies, out all rayers til our en not sation

with several gentlemen, to learn that they look upon British America as a mere fringing or fragmentary selvaging of the vast Republic of that Continent! Sir, such gentlemen ought to know that Her Majesty, our beloved Sovereign, Queen Victoria-God bless her-(applause)-that Her Majesty possesses a tract of country in North America, not only equal in geographical extent to the entire United States, but larger by 730,000 square miles than all that great Republic with their territories annexed. Nay more, she possesses a territory there larger by 292,000 square miles than all Europe put together, with your numerous families of kingdoms and empires, and your forest of crowned heads. But I am occupying too much of your precious time. (Cries of "Go on, go on.") Well, if I am permitted to go on, permit me to say that we are exceedingly anxious to become self-supporting in Canada. We are that now in reality in Upper Canada, and, from the spirit that seems to pervade our brethren in Montreal and other parts, I entertain hopes that we shall soon be so throughout the entire province. You have a great work to perform in heathen lands. We have looked upon your work there with deep interest and admiration; and we feel that, just in proportion as we can remove burdens from you in America, we are contributing to aid you in other lands; in this way we feel that we may have some part in your great and glorious work in the East, and other parts of the world."

It is scarcely necessary to say that the remarks of the Reverend Representative from Canada produced a most encouraging and cheertul tone of Christian feeling. In Lower Canada let earnest prayer be made that the reviving influences of the Holy Spirit may descend upon our Zion. A large part of our work requires more ministerial aid. In order to secure it let our people resolve on increasing liberality. "The God of heaven, he will prosper us; therefore we his servants will arise and build." With difficulties and impediments we may have to contend, but while Methodism retains its doctrinal purity and disciplinary excellence, it has

nothing to fear. "Our union,"-says Dr. Dixon, in his invaluable treatise, on Methodism,--" Our union is probably more complete than that of any community of Christians: and the true doctrine of the new Testament has, we believe. been embodied in our practice .-- Once in the week or oftener. it is expected that every Methodist in the world will meet with others, his brethren in the Lord, for the purpose of enjoying the communion of saints. This is not formal. The joys and sorrows of the heart are laid open; the dealings and ways of God are made known; the progress of the Spirit's work in the soul is unfolded; the temptations and exercises of the life of faith are detailed ; the divine affections are quickened and refined by the exercises of praise and worship; and the whole is sanctified by fervent and united prayer. Religion is one, all over the world, when it is divine :- the gift of "one God, and Father of all"; the effect of the one sacrifice of the Son of God; the fruit of one Spirit's operation ; the grace obtained by the 'one faith' : and it is identical in all its characteristics. Hence as our people are called with the same calling, they speak the same language in every place. Were it rossible to assemble the whole Methodist community, heart would meet heart in sympathy and love, would join in the same confession of faith, and blend their sacred joys in one harmonious song of praise. All this is deemed (in some quarters) extremely objectionable; tending to make hypocrites, produce spiritual pride, and nurture enthusiasm. The question is as to the practice being in conformity with the teaching and example of the primitive church. Being satisfied of this, we can endure the scoffs of the world, and the objections of doubting and lukewarm Christians. We hold the faith of Christ as revealed in the divine records, and we build the communion of saints on the experimental profession of this faith; and judge that in this we have the first and primary note of a true Church of Christ."

The constitutional Methodism of Canada being now and henceforth officially ove, let all strive to keep the " unity of Dr. Dixon, in his union is probably ty of Christians; has, we believe, week or oftener, vorld will meet the purpose of is not formal. pen; the dealprogress of the mptations and divine affecises of praise fervent and orld, when it of all"; the the fruit of one faith': lence as our ak the same ssemble the et heart in nfession of ous song of extremely e spiritual as to the d example , we can doubting Christ as amunion ith; and ote of a 1

ow and inity of the spirit in the bond of peace,"—" praying always with all prayer and supplication in the spirit, and watching thereunto with all perseverance and supplication for all saints,"—every Minister being considered as expressing the additional wish of the Apostle Paul—" and for me, that utterance may be given unto me that I may open my mouth boldly, to make known the mystery of the gospel."
