## FOR THE ALDERMEN.

Controller Church made a most unwarranted attempt yesterday to delay the presentation to the city council of the report of the experts and other papers relating to the proposed street railway purchase.

He did it under the guise of wishing for information for the board of control, although well aware that a majority of the board desired to let the aldermen have the earliest information on the question. A reference to the board of control would not facilitate matters and might lead to delay.

Controller Church must not get the idea that he can boss the aldermen as he bosses The Telegram. Mayor Hocken is quite right to give the aldermen the earliest possible information. Very early in the proceedings Controllers Church and Foster announced that they wished to have nothing to do with the transaction. They should not attempt to interfere with the aldermen, who are perhaps more interested in this great public question.

## THE ISSUE AT OTTAWA.

The Cassandra-like utterances of The Toronto News respecting the transportation bill are quoted and paraphrased by The Frederick Gleaner, The Halifax Herald and other Conservative newspapers. They join in the counsel of despair, and we are told that the ocean combine cannot be curbed by Canada, and therefore it is useless to reduce railway freight rates.

It is noticeable that all these papers shrink from mentioning the sacred name of the Canadian Pacific Railway Company. They have a great deal to say about the "North Atlantic Conference," they speak of the "inland navigation merger," and of "railways and steamboats co-operating in a common scheme of expansion," but they never mention the Canadian Pacific.

If the western people have grievances today, if they are smaller in servitude to the big interests, if farmers' profits are growing smaller instead of larger, who is to blame? The predominating force and influence in the west is the Canadian Pacific Railway Company, which supplies to that country the services usually rendered by governments, supplying, as it does, railways, express and telegraphs, not to mention the vast land holdings, irrigation works, immigration department and the like.

Many believe that the Canadian Pacific Railway Company has been a benevolent despot, but the record shows that it has grown richer while the people it pretended to serve have been more and more heavily burdened. The company has today in "silent assets" hundreds of millions of dollars, which are withdrawn from the enterprise. It is always alert to enrich its stockholders at the expense of the public.

As those who give us the "counsel of despair" have nothing themselves to suggest why do they object to talking of the tariff duty on wheat and flour, if only to demonstrate whether the competition of American railways will force the Canadian Pacific Railway Company to give cheaper and better service to the people of Canada? As the issue at Washington today is whether the government or the banks are to rule, so the issue at Ottawa should be whether the government or the Canadian Pacific Railway Company shall rule; but in Canada it is to be noted that the newspapers almost without exception are ranged on the side of the railway. The railway commission seems unable to grapple with the transportation problem.

And out of parliament there is a general disposition to discuss everything under the sun but the misdeeds of the gigantic Canadian Pacific Railway Company, the backbone of the transportation trust which levies toll upon Canadian grain everywhere along the line from the wheat field to the British port.

## POSTAL DEFICIENCIES.

Complaint has been made about collections from mail boxes in Earle Court, as being sometimes overlooked, sometimes delayed and sometimes collected ahead of time. The latter is a frequent cause of complaint elsewhere in the city. It is recognized by sensible people that no great degree of accuracy is possible in stating when a collection will be made, but it is certainly a crime against the

public to pass a box before the time at which it is stated letters will be collected. This is constantly done in all parts of the city. A specific instance will illustrate. The box at the corner of Wellesley and Blecker is marked for a minute past midnight. But a letter posted at five or ten minutes to twelve will almost invariably be till next morning—the mail wagon having passed earlier. The result is that a letter can never be got delivered by morning mail unless it is mailed early in the evening, and this applies to Parkdale, the Avenue Road district, over the Don and elsewhere. There used to be an early morning collection at four or five o'clock, which gathered in all late letters for first delivery in the morning. This suited the convenience of the public, but this point is not so much considered in recent arrangements.

What is needed is a notice on the boxes stating the hour when letters should be posted in order to reach the head office, or such other sub-station as the mails go to, in time for the regular deliveries, city, east, west, south and north. And on no account should collections be made a minute before the stated hour. This might mean a little trouble and organization, but this is what the public pays for and hopes to get.

Another postoffice anomaly still maintained after a generation of experience is the refusal to deliver postal packets over a certain weight. They are sent up on a wagon to the nearest substation, and the expectant owner is notified a day or two later—cases have been known of longer delay—to call and get his parcel. The suggestion that the wagon should leave the parcel at the address on the package has been received with scorn and the superior attitude of pity for one who does not know what he is talking about. Canadian packages are delivered in England at the address indicated. Why cannot the postal convention terms be complied with here?

And why does the postmaster-general not arrange with Rt. Hon. Mr. Samuel when he is here for a one-cent English postcard rate? It would be a most profitable affair.

## THE ISSUE AT WASHINGTON.

The general public is not greatly interested in the details of the banking and currency legislation now before Congress. The bill as it passed the house, was considered by many Democratic members as too conservative; none the less it is violently attacked in the senate as being too radical. Mr. James J. Hill says it is a "clash of the titanic," but the bill was not framed in the interests of these gentlemen.

Other objections without number are directed against this or that feature of the bill. While the big city banks protest because it threatens their supremacy, the country banks oppose it as likely to reduce their profits. The small banks too, object to being forced to take stock in the regional banks, whose dividends will be limited to 5 per cent.

But the one issue of importance to be immediately decided is whether the government or the banks are to control the currency and credit of the United States. It may be true that the big reserve banks of New York City helped out this or that region of the country during the panic of 1907, but as The New York Times points out, no section of the country should be dependent for its very existence upon this or that private corporation. The country banks may be opposed to the bill, along with the city banks, but the people are behind the president in demanding that the currency of the nation shall be issued and controlled by national authority.

This is the question that the United States Senate must decide. Shall the government or the banks create and control the money of the country? The bankers may get this or that amendment, but on the main issue the president will not yield.

The big bankers are staying in the rifle pits, and the country bankers are out up to do the talking. Their committee will be at the White House Monday afternoon. We doubt that any member of that committee, when it comes to the point, has the hardihood to stand up and tell the president of the United States that the four thousand bankers who assembled in Boston, will defy the one hundred million people of the United States. Quite amusing it would be to hear a banker from Oshkosh, Wis., or from Chicago, Ill., for that matter, tell the president that the people preferred bank notes to national currency. Possibly Monday's conference will commit even the bankers to the proposition that every American dollar must bear the imprint of the American eagle.

## THE LOCAL NEWSPAPER BOSS.

The Evening Star disagrees with our view that Controller Church bosses The Telegram, and thinks it is the other way around. We have great respect for expert testimony in a case of this kind, but we can hardly yield our point to The Star's contention that the Church temperament is sanguine.

## PLEASE PUBLISH MY TESTIMONIAL

So Other Sufferers Will Take "Fruit-a-lives" and Be Cured

Gratitude—heartfelt gratitude—prompted this letter. Madame Langlois was so thankful to "Fruit-a-lives" for restoring her to health and strength, that she gladly allowed her letter to be published.

Madame Valere Langlois.

St. Romuald, Que., Sept. 23, 1912.  
I have pleasure in stating that I have been cured of severe Dyspepsia and Chronic Constipation by using "Fruit-a-lives." I was a terrible sufferer from severe Constipation for many years, and I tried every remedy I heard of, and also was treated by physicians without any permanent benefit.

"Then I tried 'Fruit-a-lives,' and this fruit medicine has completely cured both the Constipation and Indigestion. I cannot praise 'Fruit-a-lives' enough."

and would induce optimism in The Telegram. Not all the optimism in the world—not even in The World—could do that. The Telegram suffers naturally from melancholia, and its mission is that of a herald of wrath and ruin. Cassandra was a Little Sunshine beside The Telegram when the paroxysm is on.

Our logic may be wrong, but who will deny our premises? No one could control Controller Church. He is one of those proud spirits who would never bow to the slavish yoke of any authority, much less a newspaper engaged in municipal politics, a field in which Controller Church is surely unapproachable. We are forced to the conclusion that Controller Church controls The Telegram, for Controller Church dare for one moment to suggest that Controller Church was under its domination in the slightest degree. Of course not. Certainly not.

On the other hand, does not The Telegram throw with the mighty words of Controller Church, filling column after column, and do not The Telegram's editorials echo and re-echo the burning thoughts of Controller Church night after night?

We leave it to any reasonable man if The Telegram could be expected to print all those scathing and scurrilous locusts, if Controller Church were not controller of its policy. The case seems absolutely clear. All other idols being shattered, Controller Church aways the destinies of the great municipal organ of Bay and Melinda streets, whose resources and intelligence, such as it is, are at his disposal.

Controller Church is to be congratulated on his influence, and his prowess in binding such an unruly tribe to the wheels of his chariot. We cannot, however, congratulate him on the use he is making of his influence.

The poor Telegram is having a dreadful time explaining away what is happening this week, by what it tries to suppose happened last July. Controller Church should keep The Telegram up to date. First thing The Telegram knows, the people will be voting for a railway purchase bylaw.

## A TALK ON SUCCESS.

Jones sadly said to his helpmate, "I guess I'm not exactly a howling success. I keep telling and plugging away down at the boiler-works day after day, sticking to business and going like Ned, I'm but little, if any ahead. When on each payday they pass me my cash, what with the prices of canned goods and hash, what with the money for clothing and rent, I've got a place for most every red cent. Often I wish I was old John D. Blank, having a billion of bones in the bank—then we could each have an automobile; we could have chicken instead of canned veg; you could dress up in the latest French gowns; I could set fire to my old hand-me-downs; we could move far from our humble abode, here in the middle of poverty road; we could chin up to the proud and the great—but I'm a failure. I'm sorry to state. Anyone short of mazzuma, I guess, hasn't much chance to be called a success."

"Billy, you lumix," his partner came back, "your lack of thought sure is on the wrong track; all these fine things do not matter two hoots—many who win 'em are pretty tough brutes; you're a success to the youngsters and me, we wouldn't trade you for any John D."

## ARGOS V. MONTREAL TODAY AT ROSEDALE

Varsity Playing Cadets at  
Kingston—Local Teams  
Play at Stadium.

When Montreal tackle the Argonauts this afternoon at Rosedale at three o'clock, the fun will fly in about fifteen different directions. The double blue have that sore spot to be repaired that the Tigers ripped last Saturday, and the winged-wheelers have even a most ghastly opening to make amends for. On form the Argos should win easily, but Old King Rugby has several whitts stored away each season that he must have satisfied, and this battle may come under his ban. The Argos finished up their practice last night with a light workout, although a few shifts may be made in the line, Coach Binkley refused to give out the changes until just before the game.

Parkdale put in their final practice last night at Victoria College rink for the opening game of the O.R.F.U. with T. R. & A. A. at Varsity Stadium this afternoon at three o'clock. Two new men put in their first appearance of the season, and they were Bobbie and Biddy, both last year senior Varsity men. Biddy played at outside wing last year and started with Bobby Binkley at the position. The paddlers will line up as follows today: Flying wing, Binkley; half-backs, Zimmerman, G. Binkley; quarter-backs, Leitch, Bowles; inside wings, Yates, Poter, Scrimshaw, Miller, Davidson, Moore, spare, Henderson, Lee, Doan, McNair, McPherson, Doherty, Boddy, Carlaw, Dudley, Henry, Dr. Henry will referee, with Frank Robbins as umpire.

P. C. members are reminded that they can get their tickets for today's game up till twelve o'clock from H. H. McKee, 12 Jordan street.

About seventy players left yesterday morning for Kingston with the Varsity team, where they play R.M.C. today. The blue and white have one of the fastest and most complete teams that they have had in many a day, and when they hit those cadets they will let them see several new tricks in the game. The cadets are game anyway, and will make a great showing at that, especially as they have been putting in a lot of extra work this spring. This will be the opening game in the Intercollegiate Union.

Queens journey to McGill today, and the Presbyterians are out to raise a wind against the champions.

It is rumored that Father Stanton has ordered the entire Ottawa police force out for the fight, and that the police are attending in removing crippled warriors from the field. Blue smoke seems to dim the horizon, and that neighborhood, Becker and Fisher will have a beautiful afternoon service, and if they once played his job only by some warlike surrogates.

Ridley's second team beat Highfield first team, score, 33-11.

In an Intercollegiate Rugby game yesterday afternoon, Rosedale C.I. defeated Technical High School by a score of 15 to 3. Technical led at half time by the score of three to nothing, but they lacked condition, and faded in the Mahon, Orr and Jameson avenue boys' last before the Varsity boys put up a sterling performance, and the Intercollegiate Rugby League is as follows:

Won Lost To Play  
U. T. S. .... 2 0 4  
Parkdale .. 2 0 4  
Technical .. 0 0 0  
St. Michael's .. 0 2 4

Central "Y" held their final annual practice last night in preparation for their game with Hamilton Tigers this afternoon at 7 o'clock at Broadview athletic field. This is Central's first league game in the Intercollegiate and the Yonge street boys are anxious to get off to a good start, so a good game is assured. The "Y" boys met at the Central building at 2.30. Following is the Central line-up: Ontario forwards, Orr, Harrave and Macdonald; Milne, Cookwell, Comerford, Lobb and Connell; inside, Binkley and Beazley; scrum, Russell, Chamberlain and Jenner; quarter, Vincent and Williams; halves, Johnston, Sanderson, Baker and Weston.

The Crescents, of the Northern Rugby League, play Aurs Lee this afternoon at Ramsden Park. Game called at 2 o'clock. Crescents have their team strengthened since last game. McBurney, an ex-Queen's man, will play on the half line, and Brent on the wing. Grant, the new captain, requests all players to be on the following night.

The schedule for the first week: Monday, Oct. 13—Pirates v. Senators. Tuesday, Oct. 14—Royals v. Leafs. Wednesday, Oct. 15—Giants v. Dodgers. Thursday, Oct. 16—Orioles v. Grays. Friday, Oct. 17—Cubs v. Athletics. Saturday, Oct. 18—Specters v. Indians.

There is to be a battle royal this afternoon at Kew Gardens when Balm Beach and Kew Beach play their first inter-collegiate game. Both teams are tied for district honors, and tonight will find either Balm or Kew leading the district. The bitter rivalry that has existed for years between the two beaches is now at its height, and every man, woman and child of both clubs will be on hand to see the "melee." Lennie Smith will referee the game and this is a sure sign that no rough-house work will be tolerated. Balm Beach team will be selected from the following: Mulvihill, Aggett, Nicholson, O. Lawson, A. Lawson and Johnstone. Kew Beach team will line-up as follows: Buett, Smith, McNeill, Wheeler, Wrightman, Scrimshaw, Roadhouse, Cadman, Taylor, Pope, Seaton, Hargreaves, Bolton, Webb and Barbour.

## Queen City Curlers Elect Their Officers

The Queen City Curling Club held their annual meeting last night, putting through a lot of business, and making preparations for the greatest season in the history of the club. The meeting went on record in favor of reducing all association games to sixteen ends. The following officers were elected:

Hon. president, C. C. James; president, C. Pearson; vice-president, Rev. R. N. Burr; secretary-treasurer, R. B. Rice; assistant secretary, W. Philip; committee, H. Wright, A. Hewitt, A. Walker and Geo. Fleming; chaplain, Rev. Prof. Law. O.C.A. representatives, R. Rennie, R. B. Rice; friendly games, W. Philip, G. G. Baskin, Canada Life Trophy, C. Pearson, R. B. Rice.

The next meeting will be held Nov. 13, at which the steps will be taken to form two leagues for the coming season, with six teams in each league. "A" League will open on Monday, Oct. 13, while "B" League will commence the following night.

The schedule for the first week: Monday, Oct. 13—Pirates v. Senators. Tuesday, Oct. 14—Royals v. Leafs. Wednesday, Oct. 15—Giants v. Dodgers. Thursday, Oct. 16—Orioles v. Grays. Friday, Oct. 17—Cubs v. Athletics. Saturday, Oct. 18—Specters v. Indians.

Speed fans of Toronto will have their fill this afternoon when the big motorcycle, bicycle and automobile races will be run off on the Exhibition half-mile speedway under the auspices of the Toronto Motorcycle Club, Inc. The new speedway has been added to the track, and will fire three motor cars yesterday with received by the club before the day was over. Among the entries is a cycle car, the whole country today. This cycle car is a mere toy in size, yet it has remarkable speed and should be able to negotiate the turns of the track with ease. This car will positively be on the track, if only for exhibition, and its novel size should make a hit.

The fact that today is Harold Cole's birthday has stirred local motorcycle circles. The Canadian titleholder, who riders who ever threw a leg over a saddle, has promised to do something out of the ordinary for the occasion. Cole has promised to break his five-mile record of 5.52, but he will have to travel 70 miles per hour to do it.

The track is in perfect condition, the whole course having been gone over to remove burrs and obstructions. Accordingly the thousands of fans who take in this meet should see the fastest riding of the season. The number of faces will be seen on the track, it is promised, owing to the lifting of the ban on several good riders in Alcock, Laight and Westwood's window, 78 Bay street.

Hotel Krausmann, ladies' and gentlemen's grill, with music. Imported German beer. Breakfast is a Krausmann. Open till 12 p.m. Corner Church and King streets, Toronto, 64-7.

## ROSE B. BEAT ANVIL LEXINGTON FEATURE

Fastest Mile by Trotter of  
Year—Only Two Started  
in Stallion Stakes.

LEXINGTON, Ky., Oct. 10.—Rose B., owned by J. H. Richmond, defeated Anvil, the heavy favorite in the October Prize today. In the first heat Rose B. broke in the stretch and finished second. Near the start of the second heat Anvil broke badly and was unable to get to Rose B. in time to do better than second place. Between the two geldings, and Rose B. proved himself best. Colorado E., owned by George H. Estabrook, was withdrawn before the race began.

The 2.15 pace, unfinished Thursday, went to six heats, J. W. Wilkinson taking the fifth and Hydric, which had two heats to its credit yesterday, capturing the sixth and decisive heat.

Don Labor, driven by F. C. Jones, won the 2.06 trot, amateur driving, in straight heats, and the 2.20 pace, also a straight heat contest, went to Great Scott, well handled by Snow.

The championship stallion stake was a two-horse race, only Purfast and Tillo Tipton starting. The latter was an easy victor in straight heats.

The racing today was marked by the fastest trotting mile and the slowest mile of the meeting in any class. Rose B. making the former in the second heat of the October Prize, and Tillo Tipton the latter in the closing event. Summary: 2.15 class, pacing, three in five, purse \$1000 (four heats Thursday): Hydric, b.g. (Valentine) 5 6 1 1 4 1; J. W. Wilkinson, b.g. 6 1 2 3 1 3; Charles A. b.g. ## HIGHER TAX FOR RAILWAY PROPERTY

Representatives of Twenty-Nine Counties, One Township Ask for Revision.

### ORGANIZATION FORMED

To Push 'the Farmers' Case, After Ministers Heard Their Appeal.

The provincial government was approached yesterday afternoon by a representative deputation from Ontario counties and certain sections of the Assessment Act were suggested for revision. Two things in particular were urged as pointing towards revision—the assessment at a specific value per mile of "structures, substructures, superstructures, rails, ties, poles and other property on railway land," and an increase in the provincial supplementary revenue tax on railway property.

Twenty-nine counties and one township appeared under the auspices of the Municipal Railway Association before Hon. Messrs. Hearst, Ferguson and Duff, and presented their claims for recognition. In the absence of the premier and Hon. Mr. Borden, the attorney-general stated that the matter would be taken up in the cabinet as soon as possible and they would find what could be done.

Big Burden on Rural Taxpayer. The members of the deputation were introduced by K. W. McKay of St. Thomas. William Bress of Grey County laid the facts before the ministers. He began by showing that the government had always exhibited a willingness to equalize taxes throughout the province. The present situation, where the rural taxpayer was bearing the major portion of taxation in comparison with the railway corporations, should appeal to them as needing to be changed. The supplementary revenue tax, he said, was aimed to obtain this condition, but it was not reaching enough. With the rapid growth of municipalities in the province, county councils were facing the serious problem of meeting necessary revenues.

This argument was elaborated by Mayor Pettypiece of Forest and he stated out loudly that the real reason was for the equal distribution of taxes on all classes of property. Railway property, being in a class by itself, thus far escaped its fair share of taxation," he said, earnestly. "Four and a Half Millions."

He compared the working out of a system in different ways. Railway capitalization in the province was on a basis of \$60,000 per mile. Municipal capitalization was taxed at one-half the actual value, the average rate of taxation being 18 mills on the dollar. This when applied to railways would bring in at least \$4,500,000.

Mr. Pettypiece urged that railways, instead of being favored, should be more highly assessed than certain classes of property, although they were not prepared to ask it. Farm land, for instance, was enduring an excessive share of the taxation agreed upon by municipalities and government authorities. He attributed some of the decline of agriculture to this fact.

## CHURCH BECOMES A MUNICIPAL AID

Georgetown's Congregational Edifice Opens as Civic Recreational Institution.

GEORGETOWN, Oct. 10.—With the opening tonight of the Georgetown Congregational Church as a municipally-owned institution, combining library and recreation rooms, the problem of a superfluity of Protestant churches in this town was solved. The fine stone structure, right on the main street, was built over thirty years ago as a cost of \$10,000. The town found it rather difficult to support five Protestant churches, and these congregations experienced a trying financial struggle, more especially the Congregationalists.

For two or three years the church has been practically closed. An occasional service has been held to prevent the building from falling into the hands of the Church Missionary Society. The idea of using the church building as a library and recreation institution was mooted early this year, and the council of the congregation endorsed it and voluntarily handed over the property to the town council. Tonight the church made its debut as a municipal institution. Half of the main auditorium will be used as a library, while the other half has been reconstructed into a small lecture room, containing 100 chairs.

By means of public subscription and funds derived from garden parties and like entertainments, a women's organization raised money to create a rest room and reading room for ladies, which occupies half the basement. Here the Women's Institute will endeavor to provide a comfortable room where farmers' wives may rest when they drive into town. The remaining portion of the basement has been equipped as a recreation room for the young men of the town, and it is expected that it will prove to a large degree the problem of keeping the young men off the streets at night.

### SOLOMON OFF THE MAP.

NOME, Alaska, Oct. 10.—(Can. Press.)—The storm that devastated Nome, Alaska, the town of Solomon entirely disappeared. Not a building of any kind in the settlement, which had a population of 300, remained standing in the gale. It is reported all the inhabitants escaped with their lives from the town was blown away.

# 300 People Have Bought Lots and Are Perfectly Satisfied

Some of them are living on their property, having built homes for themselves. Others have bought houses put up by the company. Others are going to move in as soon as their cottages are finished, and others are arranging to have houses erected for them on their lots on easy terms. This proposition is much cheaper than paying rent, and besides, you are making yourself owner of the house and lot. When you get it paid for you can rent it and build another and pay for it the same way, with the rent of the other house coming in as extra money every month. We seriously mean it when we say: **This proposition is the best offer ever made to a man living on the East Side who wants to have a home of his own.** Read this letter. We have scores of other letters just as good from others who have started lives of independence by taking our proposition.

EASTBOURNE AVE., REGENTS PARK.  
Sept. 29, 1913.

The Manager,  
Dovercourt Land & Building Co.,  
Toronto.

Dear Sir,—Having heard a great deal about Regents Park, and the four-roomed houses you were building there, I decided to invest in one, and I am so pleased with my bargain that I feel I must write and thank you for helping me to secure a house on such easy terms. Previous to this purchase we were paying fifteen dollars a month, looking forward to possessing nothing in the flat we had rented at that figure, but now it is different; each Ten Dollars we pay you is ten towards our owning the house, which is very comfortable, and compares very favorably with other houses at a far greater figure.

I wish you every success in selling the other houses you are building on any street, as they are certainly a good buy.

Yours truly,  
T. COOPER.

This is one of the comfortable cottages in Regents Park. A purchaser can have possession of his lot on payment of his first \$15 and start building at once. The company arranges to erect houses for those who cannot do it for themselves.

THIS IS A VIEW OF THE KEEPER'S LODGE AT THE MAGNIFICENT SUBURBAN PLACE KNOWN AS THE MASSEY ESTATE. IT ADJOINS REGENTS PARK.

This cut shows the type of four-roomed cottages which we erect for those who buy lots from us. We build these houses at the moderate price of \$1,350, taking small monthly payments until the purchaser becomes owner. Is this not better than paying rent? The monthly payments are less than rent would be, and you own the house.

**See Regents Park Saturday. We have the Best Proposition for an Investment or for a Home for Any Man Living on the East Side. Ring us up—we will motor you out**

## HOW TO GET TO REGENTS PARK

You can telephone us Saturday morning, and make an appointment to be motored out to Regents Park in the afternoon, or you can fill the coupon and send it in, making an appointment for any day, the sooner the better. Those who wish to go alone should go out Danforth Avenue to Dawes Road, where there are a Store and a Bank on the corner; there he should turn north, under the viaduct, past the Massey Estate, and there he is at Regents Park. There is a sidewalk all the way.

## KAISER MAY TRY FOR AMERICA CUP

HAMBURG, Oct. 10.—Emperor William today ordered from Max Oertel, the well-known yacht builder of this city, a new schooner to replace his present yacht Meteor, and her success will have an important bearing on the question whether Germany will challenge for the America's Cup with a cutter designed by Oertel. The new schooner for the Emperor is to be built at the Krupp works at Kiel, and probably will have less water line than her predecessor, which was

Galt Town Council takes Steps to Minimize Flood Danger.

GALT, Oct. 10.—(Special.)—A special meeting of Galt town council tonight decided to proceed with the work of a new retaining wall on the west side of the river, extended back ten feet, to admit a wider channel and minimize flood danger. The Grand River Improvement Association, would seem to have abandoned hope of having the Ontario Government take up the flood question in a practical way, as it will fall on the several municipalities menaced, to protect themselves as best they can.

Brampton Business Men Form Association to Oppose Its Submission.

## LIBERALS PREPARING

For Election—J. J. Donaghy Named as Conservative Candidate.

What is known as a "Business Men's Association" has been formed in the County of Peel for the purpose of opposing the submission of the Canada Temperance Act. Meetings are to be held throughout the county in the next few weeks, prior to the voting. F. H. Mitchell of Brampton is the president, and Robert Herbert, secretary.

Now that Sam Charters has officially resigned as member for Peel and a writ has been issued for a new election, excitement is at fever heat with both parties. As long as Sam Charters runs hundreds of Liberals flocked to his standard, but now that he has resigned the Liberals are confident they have a chance to "redeem" the county. The date of the Liberal convention has not been announced. The Conservatives will nominate a candidate a week from Saturday, and it is altogether likely that J. J. Donaghy, the present deputy registrar, will get the nomination. Work was started yesterday on

the foundation for the new paper mill to be erected by Barber & Co. The building will be a two-story solid brick structure, with a boiler house close by.

Two hundred and forty-three boys and 248 girls attended the public school this term, with an average attendance of 449.

Mount Pleasant Church held their annual thanksgiving meeting in the church yesterday afternoon. There was a short program, with a tea at the close.

Miss Clarhuo, returned missionary, on furlough from India, gave an interesting and inspiring talk on her work in the mission field for the past seven years.

Anniversary services will be held in the Presbyterian Church on Sunday and conducted by Dr. Herdridge of Ottawa.

The four Polacks arrested last Sunday evening for causing a disturbance in the Polack settlement, came up before Magistrate Crawford yesterday afternoon, after being remanded from Monday's preliminary hearing. Antonio, Guyula, Peter Cockol, Antonio Cockol, and Joseph Masternack were the ones who were implicated in the fracas. The four were in the boarding house run by Michael Herzog and his wife. Over-indulgence in beer mixed with whiskey, after a dance had set their brains on fire, and they began to carve each other up. The landlady called for help, and James Hoare, night watchman at the foundry, and Geo. Sheppard went to her assistance. Then the fun commenced. Hoare was cut on the head and part of one ear cut off, while Sheppard was struck over the head with a beer bottle. Since the arrest Masternack was released and Peter Cockol was also given his liberty at the trial. Antonio Cockol and Guyula were each fined \$25 and costs. ## "Ed." Nixon Is Dead.

Halton County has lost one of its greatest enthusiasts in Farm and Institute work by the death on Thursday of Ed. F. Nixon of Ashgrove. Mr. Nixon for several years has been secretary of the Halton County Institute. As he was an easy speaker and a thorough master of mixed farming, his services as a speaker have been sought for many years in every section of his county. He leaves a widow and one daughter. The funeral will be this afternoon at 2 o'clock from Ashgrove Methodist Church; the interment at Woodgreen Cemetery, Georgetown.

Harvest home services in connection with the Methodist Church, Mount Dennis, will be held Sunday, October 12, when Rev. Dr. Long, J. Weston and Rev. S. T. Bartlett, general secretary of Epworth League and Sunday schools for Canada, will be the preachers morning and evening.

A grand festival will be held Monday evening, October 13. Supper will be served from 6 o'clock, and at 8 o'clock a splendid program will be furnished by a number of Toronto's brilliant entertainers. Among those who will take part are Miss Collett, contralto; Miss Lyons, soprano; Mr. Aliman, Mr. Hoilage, baritone; Miss Shipman, violinist; Mr. Miller, pianist, and Miss Kato Borland, elocutionist.

Annual harvest home services will be held under the auspices of the Ladies' Aid Society tomorrow and on Tuesday. The Sunday service will be conducted by the Rev. C. W. Barrett of Hampton, and on Tuesday evening the annual supper will be served in the basement of the church, from 5 to 8 o'clock. Short addresses will be given by Rev. G. L. Johnston and Rev. W. A. Phipps. Madame Le Mar, Mrs. Pearl O'Neil and Miss A. D. Hobbs will contribute to the concert program.

## NORTH YORK.

The annual convention of the North York Teachers' Institute will be held in the York County building, Toronto, on Oct. 15 and 17. Miss A. Ewing of Toronto Normal School and Inspector Mallory will deliver addresses on educational subjects.

## PORT CREDIT.

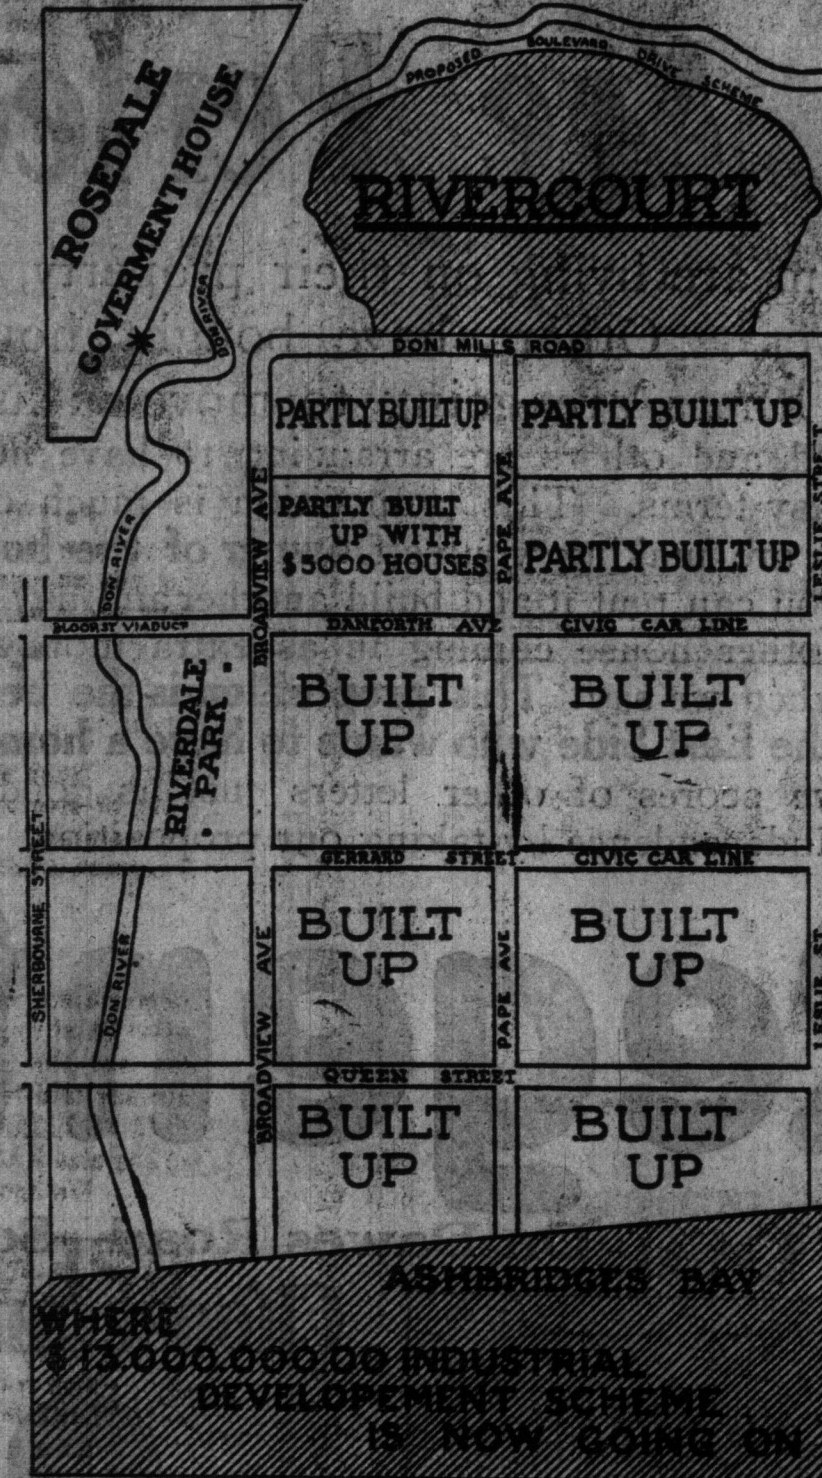

Port Credit is now a full fledged municipality, as the papers granting incorporation have come to hand in response to the petition presented last spring. The population of the village is now 1256, and is still growing. The name of Abraham Black, J. P., is freely mentioned as one who ought to take the chair of the new council.

The congregation of the Catholic Church are contemplating a new building, which is practically rendered necessary by the growth of the parish since it was separated. Rev. Father McCaffrey has already received the plans for the new building, and so far there has been no lack of support, so that a few more months may bring the building fund to the amount required.

## CALEDON.

Staff-Capt. and Mr. Bloss of Toronto will lead the services in the Salvation Army Hall today and tomorrow. A special program has been arranged for the afternoon service on Sunday, when the new brass band will be commissioned. The successor to the late James Major Healey will also be introduced.

## ST. JOHN'S CHURCH NORWAY.

The annual thanksgiving harvest supper took place on Thursday evening in the parish house. There was a large attendance present, who par-

took of the liberal supply of good things supplied by the ladies of the congregation. A feature of the program, which followed, consisting of music and addresses, was the presentation of some handsome furniture by the congregation to the rector, Rev. W. L. Reynolds, for the new home which he now occupies on the Kingston road. Owing to the influx of population into this growing district both the church and parish house have to be enlarged. A vigorous campaign to procure funds to accomplish this necessary work is now being inaugurated.

## WARD SEVEN.

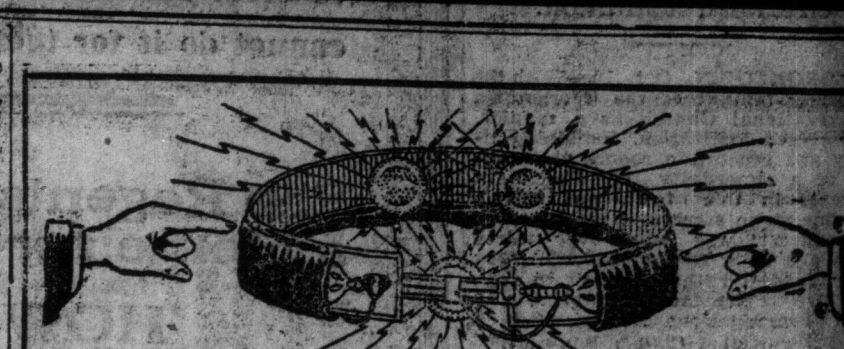

The second term of the Humberdale Collegiate Institute, met the first form in an inter-form game of rugby yesterday afternoon in the town park on Oakmount road. The game, which was umpired by Messrs. Devine and Atwell, ended in the dark with the score 12 to 9 for the senior form.

The Toronto Junction Council of Royal Templars held their annual evening and there was a record attendance. The address of the evening was delivered by George H. Lees, a past dominion councillor from Hamilton, on the principles of the order. Nearly twenty select councillors from the other Toronto councils, were present, and an unusually large class of initiates were received into the order.

## Nature's Cure for Nervous Ailments

So many people are suffering from nervousness or ailments caused by nervousness and try to cure these troubles by dopping their stomachs with drugs. It is as impossible as it is to put out a fire with oil. When you take a drug to cure a nervous ailment you only aggravate the trouble, and cause it to become chronic. Drugs will soothe the nerves for a few hours by stupefying them, but the trouble returns worse than ever, just as soon as the stupor wears off.

Nature will cure you if you will give her the right kind of assistance. The reason your nerves are weak is because they are not properly fed. I don't mean that you do not eat enough. Nerve food is a force that comes from electricity. When your supply of bodily electricity has become depleted the nerves do not get the proper nourishment, and various complications result.

The only way to cure nervous troubles is to restore this electricity. You can't get nourishment from poison; that's why drugs don't help you.

Dr. McLaughlin's Electric Belt fills the nerves with electric life while you sleep. They drink in the force, just as a sponge absorbs water, and convey it to every organ, giving health and strength to every ailing part.

## LARGE PRICE FOR INTEREST IN LANE

Forty-Five Thousand Paid for Privilege of Yonge Street Lane.

Forty-five thousand dollars for one-half interest in a nine-foot lane was the price paid by the Guardian Realty Company, Limited, for the lane between Nos. 81 and 83 Yonge street. This company do the purchasing of property for J. & M. L. Wood, who are erecting the new Royal Bank building on the northeast corner of King and Yonge streets, and bought the privilege of the use of the land for back entrance into the new skyscraper.

While the north boundary of the lane runs back 130 feet 7 1/2 inches, the south boundary takes a jog of 2 feet 1 1/2 inches to the southwest, when a point 90 feet 2 inches is reached. From there to the extreme end is 50 feet 3 inches, and in the rear the width is 10 feet 10 1/2 inches.

The interest in the lane was owned by the Toronto Savings & Loan Co. and Agnes Euphemia Wood. One of

the conditions of the purchase is the right to make excavations under the property and build coal chutes or any other necessary conveyances of material in the Royal Bank building.

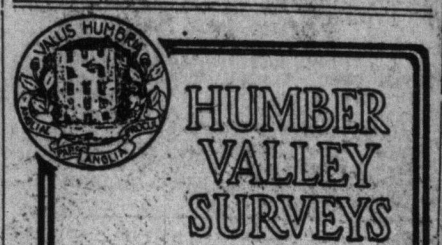

## SPADINA AVENUE PROPERTY IS SOLD

English Investors Purchase Five Storey Rea Building.

One of Spadina avenue's largest buildings, the home of A. E. Rea & Co. Limited, manufacturers of fancy dry goods, has been purchased by a number of English investors for \$150,000. This is the five-storey brick structure which takes in from Nos. 93 to 99, on the southeast corner of Spadina avenue and Oakley street.

The identity of the purchasers has not yet been disclosed, but it is altogether likely that the purchase was made as an investment only. During the last few months considerable interest has been directed towards this thoroughfare by investors and real estate men, and no doubt more large sales on the street will result in the near future.

The Rea property has a frontage of 73 feet and a depth of 123 feet. Assessments on the property amount to \$48,896, of which \$33,000 is placed on the building.

The City is now making first-class progress on the Humber Boulevard. Intending purchasers should see the property at once, as the choice locations are naturally the first to sell.

Prices \$20 to \$50 per foot.

## OFFICIAL TOWNSITE OF PORT WELLER

Port Weller is the new town to be built at the new Lake Ontario entrance to the New Welland Ship Canal now being built by the Dominion Government at a cost of over fifty millions of dollars. Work has already commenced in connection with the construction of the immense docks at Port Weller, extending a mile and a half into Lake Ontario. One of the finest inland harbors on the continent is to be constructed.

## THE BIRTH OF A NEW CITY

Only once in a lifetime does the opportunity offer in Eastern Canada to witness the birth of a new town. Such an event is now happening at Port Weller. A very large town is soon to spring up. Thousands of men will be employed during the next five years. Hundreds of houses and many stores are needed immediately. Business openings of every kind exist—laborers, masons, carpenters, contractors and business men of all lines will find immediate openings.

## PORT WELLER ORIGINAL TOWNSITE

Immediately adjoins Port Weller Harbor and the New Welland Ship Canal. Port Weller has been named after Chief Engineer J. L. Weller, the planner and builder of the new canal. Every effort has been made to lay out the new town along ideal lines—extra wide business streets with lanes and street car tracks already laid to the town are some of the features. We confidently believe PORT WELLER will be a town of FIVE THOUSAND PEOPLE at least before the canal is finished, and that ten thousand is a moderate estimate of the size a few years hence.

We cannot too strongly advise the purchase of Port Weller Townsite lots at the extremely low

## OPENING PRICES OF FROM \$6 PER FOOT UP

Every lot is a bargain and should double and treble in value within a short time. Some of these lots, which today can be purchased for a few dollars per foot and ON EASY TERMS, will no doubt sell for a FORTUNE in a few years.

As a great many lots have been applied for and reserved already—even before the townsite plan was finished—and as the choice lots will very quickly be secured by the residents of the Niagara peninsula, if you are interested it will be necessary for you to ACT WITHOUT DELAY.

LESS RECEIPTS IS  
CAUSE OF BUOYANCY

Wheat Values Harden After  
Selling Drive and Market  
Closes Steady.

CHICAGO, Oct. 10.—Falling off in receipts at primary points gave considerable buoyancy today to wheat. Largely in consequence, the market closed steady at a net advance of 3/4c to 5/8c. Corn showed a good gain of 1/2c to 3/4c advance over last night, and a set-back of a shade. In provisions, the outcome ranged from unchanged figures to 1/2c decline.

Wheat values began to harden after a selling drive early had demonstrated that the market possessed good support. Shorts were uneasy on account of disappointment as to the government's estimates, and there was bullish help in the fact that arrivals here and a year ago were much smaller than a year ago. Sentiment against the bear side increased slightly when it was found that receipts in other directions had diminished almost as much as in the spring crop.

Talk of uncertainty regarding the effect of recent tariff legislation was offset in the wheat pit by the statement that prices were now 5c to 5 1/2c lower than a month ago. It was also argued that an unwelcome short interest in the market had turned corn prices more in favor of the buyers.

Corn Shows Bullish Feeling.  
Corn traders who at first construed the report as decidedly bearish took an opposite view after attention had been directed to unofficial figures on abandoned acreage. Sales of two cargoes of Argentine corn to Galveston emphasized bullish feeling. The transactions were taken to indicate an unexpectedly early call for corn in the southwest.

Large weakness owing to the heavily increased yield shown by the government's estimate. The markets, however, completely recovered in sympathy with the corn bulge.

Late declines in prices for hogs and away benefits that the provision market had received earlier owing to temporary strength at the yards. There was some talk of an improved call from Germany for lard.
