# REPORT.

---

In presenting the Fourteenth Annual Report of the Association for Improving the Condition of the Poor, the Board of Directors desire to express their thanks for the liberal response which the charitable public has given to the cry of the destitute and suffering.

## CONTRIBUTIONS

have been received, as per detailed list, from 115 contributors, amounting to the sum of \$1,776.00.

## THE TREASURER'S STATEMENT.

The Treasurer's statement is made up to the 1st Nov., 1880, and shows a balance due him of \$1,669.49. To meet this there is an account due by the city for broken stone for \$2,527.28. If this had been paid before the closing of the account, the balance at the credit of the Association would have been \$857.79.

## BEQUESTS.

Bequests in former years, amounting to \$800, are included in that sum. It was intended to invest the bequests and use the interest only. But as advances have every year to be obtained for the purchase of stone for the Stone Shed, it was more convenient to allow the amount to remain in the Treasurer's hands, but it is not the intention of the Directors to expend it.

## THE STONE SHED .

During the last season, owing to the scarcity of work, the number of applicants was very large. As the rate for breaking had been advanced to three cents per bushel, and the

stone, with other necessary charges, costs one and three-quarter cents, whilst the city was only paying four cents, the result was a loss on the Association's operations of three-quarters of a cent on each bushel sold the city. The full particulars will be learned from the lucid statement of the Chairman which is appended hereto. No doubt that this is the best branch of the Association's work, as it affords an opportunity for those willing to work to obtain sufficient to keep them from starving.

## INSPECTOR.

In accordance with the resolution of the directors, Mr. James Graham was appointed inspector. He visited a large number of those relieved. His report aided materially in the proper distribution of relief and in checking attempted frauds. His management of the

## SOUP KITCHEN

gave good satisfaction. The quality of the soup was excellent, and the large quantity of 6834 quarts was distributed by sale and grants.

## COMPARATIVE STATEMENT OF RELIEF.

In 1879 the sum of \$1244.94 was disbursed. In 1880 owing to the larger number of applicants, and the pressing need for relief, although every effort was made to distribute it prudently, the sum expended reached \$1646.25.

## POSITION OF THE ASSOCIATION

Owing to the loss on the stone broken and to the increased relief granted, whilst the contributions were only about \$70 in advance of 1879, the funds at the disposal of the Directors have been reduced as compared with last year by \$248.

## APPEAL.

The record of the Association shews it to be one which is

approved

easy. It  
the duties  
resolution  
ing stone  
not affor

approved of by its supporters. Every year, without collectors, by voluntary offerings, the needed funds are forthcoming. This year the prospect is that work will be still scarcer than it was last year. The directors are determined to use the utmost vigilance to have the relief reach the deserving, according to the rules of the Association. It is hoped, therefore, that a larger sum than was contributed last year may be given this, and that new friends who have not made this a channel for their benefactions may now do so. With the exception of the trifling sum which the necessary stationery costs, and a small amount paid for interest on a loan to buy the stone at the beginning of the season, and the necessary wages of an Inspector, every dollar given is spent upon the poor, and the amount of suffering which is relieved cannot be ascertained, nor can human language adequately express it. Mr. W. S. Stirling, Union Bank, Hollis street, is Treasurer, and will gladly receive all contributions.

JOHN DOULL, *President.*

---

### STONE SHED REPORT FOR 1880.

---

In presenting the report of the work of the Stone Shed for the past year, I have to record the great loss the Association has sustained by the death of Mr. Joseph Donoghue, who so faithfully discharged the duties of Superintendent for many years, and whose deep interest in everything connected with this work added largely to its success, while his practical knowledge of all its details, and the strict economy he practised in all expenditure made the duty of Chairman comparatively easy. It will be difficult to obtain a successor to discharge the duties required so satisfactorily. In accordance with the resolution passed at last annual meeting, the wages for breaking stone was advanced to 3 cents per bushel, any lower rate not affording a fair remuneration to the men employed for

their labor. As the City Board of Works only allows us four cents per bushel for the broken stone, which does not quite cover the cost of the stone and the labor of breaking, it leaves the whole cost of management, procuring and repairing hammers, sledges, wheelbarrows, etc., to be borne by the funds of the Association, and shows a loss of \$309 on the sale of broken stone, without any allowance for interest due the Union Bank for the necessary advances required.

Record for week ending.	Number of men employed.	Bushels of stone broken.	Wages paid for breaking stone.	Loads of stone used.	Amount paid for stone.	Total weekly payments.

Audited and found correct,

*ABSTRACT OF THE FUNDAMENTAL RULES BY WHICH THE  
ASSOCIATION IS TO BE GOVERNED.*

1. To consider each applicant for relief as entitled to charity until a careful examination proves the contrary.
2. To give relief only after a personal investigation of each case, by visitation and inquiry.
3. To relieve no one except through the visitor of the section in which the applicant lives.
4. To give the necessary articles, and only what is immediately necessary.
5. To give what is least susceptible of abuse.
6. To give only in small quantities, and in proportion only to immediate need; and of coarser quality than might be procured by labour, except in cases of sickness.
7. To give assistance at the right moment; not to prolong it beyond the duration of the necessity which calls for it; but to extend, restrict and modify relief according to that necessity.
8. To require of each beneficiary abstinence from intoxicating liquors as a drink; of such as have young children of a proper age that they be kept at school, unless prevented by unavoidable circumstances; and that those of suitable years be apprenticed to some trade, or sent to service. The design being to make the poor parties to their own improvement and elevation; the wilful violation or disregard of these rules shall debar them from further relief.
9. To give no aid to persons who, from infirmity, imbecility, old age, or any other cause, are likely to continue unable to earn their own support, and consequently to be permanently dependent, except in extreme cases, for two or three days, or until they can be referred to the Commissioners of the Poor, or to the churches to which they belong.

10. To discontinue relief to all who manifest a purpose to depend on alms, rather than on their own exertions for support, and whose further maintenance would be incompatible with their good and the objects of the Institution.

In all cases of want coming to the notice of the visitors, they will be expected to perform the same duties, although no application has been made. It shall be their duty, moreover, to render a written report of their labors, and also an account of their disbursements, to their respective Committees, at the stated monthly meeting. No visitors neglecting these duties will be allowed to draw on the funds of the Association.

Most of the Rules will, doubtless, commend themselves at once to approval. As it respects others, the propriety of which may appear less obvious, the following explanations are offered:

In the 9th Rule, the permanently dependant are not regarded as proper subjects for relief, because, if they should continue to be relieved, the entire funds of the Association would soon be exhausted in the support of a permanent list; and its primary objects—the elevation of the moral and physical condition of the poor—be defeated. Such persons should become a public charge, which is far preferable to reliance on incidental relief,

The 10th Rule refers to those who have become so pauperized in spirit by long-continued vagrancy or gratuitous relief, or so debased by other causes, that there is no hope of inciting them to self-support and to aid whom would encourage sin and indolence, and foster a great social evil.

The complaints of unrelieved applicants who have been sent to the Association should not be listened to, until they have procured a card from the visitor, *for a card assigning the reason of refusal should always be given to the unrelieved applicants*, which if produced, will show why he was not relieved; and, if unproduced, a proof that he has been attended

It  
tion of class

to. In either case, the member will thus be made acquainted with the action of the visitor, and the reason for it.

Two or three important results involved in the observance of the foregoing rules deserve notice. First, by refusing aid to the persons described, none are necessarily left to suffer. Even those who constantly persist in their vicious courses, and cannot be relieved without injury to them and the community, still have a recourse in the legal relief provided by the Commissioners of the Poor; so that all are cared for. Second, the Association does not supersede existing charities but so far as is practical, makes them available for those for whom they are designed. Third, that it is governed by such humane and economical considerations as have most important moral and social bearings on the individuals concerned, and the public.

☞ Visitors, in complying with the foregoing rules, should carefully direct their attention to such particulars bearing on the different classes indicated therein, as will qualify them for an intelligent and judicious discharge of their highly important and responsible duties.

☞ The attention of members is also called to the said Rules, and the co-operation with the visitors most earnestly solicited, for, without it, the great and difficult work in which the Association is engaged cannot be effectually accomplished.

☞ It will be noted that relief is granted without distinction of class or creed.
